ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT

On February 24, 2011, the Blast Energy Services, Inc., a Texas corporation (the “Company” or Blast”) and a third party lender (the “Lender”) entered into that certain Note Purchase Agreement that included a warrant to purchase 12,000,000 shares of the Company’s common stock, par value \$0.001 per share of the Company (the “Warrant”). This Warrant was reported on Current Report on Form 8-K filed with the Commission on March 2, 2011. The Warrant has a term of two years, and provides for cashless exercise rights in the event the shares of common stock issuable upon exercise of the Warrant are not registered with the Commission. The Warrant further contained various anti-dilution protections and had an exercise price equal to the weighted average of the trading price of Blast’s common stock over the ten day period prior to the grant date.

On October 7, 2011, the Company and the Lender amended the Warrant in exchange for certain mutual promises and covenants and for consideration of \$30,000 paid by the Lender to the Company. The amendments included that the exercise price shall hereafter be \$0.01 per share, and may be further reduced with the previous anti-dilutive protective provisions, but in any event shall not be greater than \$0.01 per share, unless certain events occur, including the merger of the company with an operating company (a “Merger Event”). Further, in the event a Merger Event occurs, the Lender has waived its price-based anti-dilution protection (if Company sells its securities lower than the exercise price of the warrants) and anti-dilution protection for compensatory issuances (in amounts in excess of 7,000,000 shares of Common Stock).
