

LITHIA MOTORS INC
Form 10-Q
October 26, 2012

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended September 30, 2012

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 001-14733

LITHIA MOTORS, INC.

(Exact name of registrant as specified in its charter)

Oregon
(State or other jurisdiction of
incorporation or organization)

93-0572810
(I.R.S. Employer Identification
No.)

150 N. Bartlett Street, Medford, Oregon
(Address of principal executive offices)

97501
(Zip Code)

Registrant's telephone number, including area code: 541-776-6401

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class A common stock without par value	22,789,198
Class B common stock without par value (Class)	2,762,261 (Outstanding at October 26, 2012)

LITHIA MOTORS, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1. Interim Financial Statements

Basis of Presentation

These condensed Consolidated Financial Statements contain unaudited information as of September 30, 2012 and for the three- and nine-month periods ended September 30, 2012 and 2011. The unaudited interim financial statements have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain disclosures required by accounting principles generally accepted in the United States of America for annual financial statements are not included herein. In management's opinion, these unaudited financial statements reflect all adjustments (which include only normal recurring adjustments) necessary for a fair presentation of the information when read in conjunction with our 2011 audited Consolidated Financial Statements and the related notes thereto. The financial information as of December 31, 2011 is derived from our 2011 Annual Report on Form 10-K. The interim condensed Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and the notes thereto included in our 2011 Annual Report on Form 10-K. The results of operations for the interim periods presented are not necessarily indicative of the results to be expected for the full year.

Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying consolidated financial statements to maintain consistency and comparability between periods presented. The results of operations of stores classified as discontinued operations have been presented on a comparable basis for all periods presented in the accompanying consolidated statements of operations. See also Note 14.

These reclassifications had no impact on previously reported net income.

Note 2. Inventories

The components of inventory consisted of the following (in thousands):

	September 30, 2012	December 31, 2011
New vehicles	\$ 503,915	\$ 372,838
Used vehicles	125,623	106,622
Parts and accessories	29,156	27,024
Total inventories	\$ 658,694	\$ 506,484

Note 3. Goodwill

The changes in the carrying amounts of goodwill are as follows (in thousands):

	Goodwill
Balance as of December, 31, 2010, gross	\$ 305,452
Accumulated impairment loss	(299,266)
Balance as of December 31, 2010, net	6,186
Additions through acquisitions	12,869
Goodwill allocated to dispositions	(97)
Balance as of December 31, 2011, net	18,958
Additions through acquisitions	7,161
Goodwill allocated to dispositions	(281)

Balance as of September 30, 2012, net	\$ 25,838
---------------------------------------	-----------

6

Note 4. Credit Facility

We have a \$650 million credit facility with a syndicate of 10 financial institutions, including four manufacturer-affiliated finance companies. This credit facility provides a \$500 million new vehicle floor plan commitment, \$100 million in used vehicle inventory financing and a \$50 million revolving line of credit for general corporate use including working capital and acquisitions. We have the ability to expand the credit facility to \$800 million total availability upon credit approval. The credit facility expires on April 16, 2017. All borrowings from, and repayments to, our syndicated lending group are presented in the Consolidated Statements of Cash Flows as financing activities. The interest rate on the credit facility varies based on the type of debt with the rate ranging from the 1-month LIBOR plus 1.50% to the 1-month LIBOR plus 2.50%. Our financial covenants related to this credit facility include maintaining a current ratio of not less than 1.20x, a fixed charge coverage ratio of not less than 1.20x, a leverage ratio of not more than 5.0x and a funded debt restriction that limits the amount of other debt we may have outstanding to \$375 million.

As of September 30, 2012, \$489.9 million was outstanding on our new vehicle floor plan commitment, \$77.9 million was outstanding on our used vehicle inventory financing facility and \$17.9 million was outstanding on our revolving line of credit. An additional \$10.1 million of outstanding floor plan notes payable was classified as liabilities related to assets held for sale. See also Note 14.

Note 5. Commitments and Contingencies

Litigation

We are party to numerous legal proceedings arising in the normal course of our business. Although we do not anticipate that the resolution of legal proceedings arising in the normal course of business or the proceedings described below will have a material adverse effect on our business, results of operations, financial condition, or cash flows, we cannot predict this with certainty.

Text Messaging Claims

In April 2011, a third party vendor assisted us in promoting a targeted “0% financing on used vehicles” advertising campaign during a limited sale period. The marketing included sending a “Short Message Service” communication to cell phones (a “text message”) of our previous customers. The message was sent to over 50,000 cell phones in 14 states. The message indicated that the recipients could “Opt-Out” of receiving any further messages by replying “STOP,” but, due to a technical error, some recipients who responded requesting to be unsubscribed nonetheless may have received a follow-on message.

On April 21, 2011, a Complaint for Damages, Injunctive and Declaratory Relief was filed against us (Kevin McClintic vs. Lithia Motors, 11-2-14632-4 SEA, Superior Court of the State of Washington for King County) alleging the text messaging activity violated State of Washington anti-texting and consumer protection laws and the federal Telephone Consumer Protection Act, and seeking statutory damages of \$500 for each violation, trebled, plus injunctive relief and attorney fees. The suit seeks class action designation for all similarly situated entities and individuals. The suit was removed to the United States District Court for the Western District of Washington at Seattle.

On July 5, 2011, we participated in a mediation of the McClintic case and subsequently entered into a settlement agreement with the plaintiffs, which was subject to final court approval. Under this settlement agreement, we agreed to pay a total of \$2.5 million, all of which such amounts will be reimbursed by the vendor pursuant to contractual indemnification. These amounts were recorded as a component of other current assets and accrued liabilities on our Consolidated Balance Sheet as of September 30, 2012. On October 11, 2012, the court approved the settlement.

On July 5, 2011, a complaint was filed alleging nearly identical claims, also seeking class action designation (Dan McLaren vs. Lithia Motors, Civil # 11-810, United States District Court of Oregon, Portland Division). Subsequently,

the complaint was amended to include claims against the vendor. The class representative in the McLaren case attempted to intervene in the McClintic case. This intervention motion was denied on October 19, 2011. The McLaren case was dismissed by the court with prejudice as to Lithia Motors on September 5, 2012.

Alaska Consumer Protection Act Claims

In December 2006, a suit was filed against us (Jackie Neese, et al vs. Lithia Chrysler Jeep of Anchorage, Inc, et al, Case No. 3AN-06-13341 CI, and in April, 2007, a second case (Jackie Neese, et al vs. Lithia Chrysler Jeep of Anchorage, Inc, et al, Case No. 3AN-06-4815 CI) (now consolidated)), in the Superior Court for the State of Alaska, Third Judicial District at Anchorage. In the suits, plaintiffs alleged that we, through our Alaska dealerships, engaged in three practices that purportedly violate Alaska consumer protection laws: (i) charging customers dealer fees and costs (including document preparation fees) not disclosed in the advertised price, (ii) failing to disclose the acquisition, mechanical and accident history of used vehicles or whether the vehicles were originally manufactured for sale in a foreign country, and (iii) engaging in deception, misrepresentation and fraud by providing to customers financing from third parties without disclosing that we receive a fee or discount for placing that loan (a “dealer reserve”). The suit seeks statutory damages of \$500 for each violation (or three times plaintiff’s actual damages, whichever is greater), and attorney fees and costs and the plaintiffs sought class action certification. Before and during the pendency of these suits, we engaged in settlement discussions with the State of Alaska through its Office of Attorney General with respect to the first two practices enumerated above. As a result of those discussions, we entered into a Consent Judgment subject to court approval and permitted potential class members to “opt-out” of the proposed settlement. Counsel for the plaintiffs attempted to intervene and, after various motions, hearings and an appeal to the state Court of Appeals, the Consent Judgment became final.

Plaintiffs then filed a motion in November 2010 seeking certification of a class (i) for the 339 customers who “opted-out” of the state settlement, (ii) for those customers who did not qualify for recovery under the Consent Judgment but were allegedly eligible for recovery under the plaintiffs’ broader interpretation of the applicable statutes, and (iii) arguing that since the State’s suit against our dealerships did not address the loan fee/discount (dealer reserve) claim, for those customers who arranged their vehicle financing through us. On June 14, 2011, the Trial Court granted plaintiffs’ motion to certify a class without addressing either the merits of the claims or the size of the classes. Discovery in this case is ongoing. We intend to defend the claims vigorously and do not believe the novel “dealer reserve” claim has merit.

Note 6. Stockholders’ Equity

Share Repurchases

In August 2011, our Board of Directors authorized the repurchase of up to 2,000,000 shares of our Class A common stock. On July 20, 2012, our Board of Directors authorized the repurchase of 1,000,000 additional shares of our Class A common stock. We did not repurchase any shares of our Class A common stock during the third quarter of 2012. Through September 30, 2012, we have repurchased 1,120,147 shares, of which 823,092 were purchased in 2012 at an average price of \$24.17 per share. At September 30, 2012, 1,879,853 shares remained available for repurchase. This plan does not have an expiration date and we may continue to repurchase shares from time to time as conditions warrant.

Dividends

Dividends declared and paid on our Class A and Class B common stock during the first three quarters of 2012 were as follows:

Quarter declared:	Dividend amount per share	Total amount of dividend (in thousands)
First quarter	\$ 0.07	\$ 1,815
Second quarter	0.10	2,583
Third quarter	0.10	2,545

See Note 17 for a discussion of a dividend related to our third quarter 2012 financial results.

Note 7. Asset Impairment Charges

Long-lived assets classified as held and used are reviewed for impairment whenever events or circumstances indicate that the carrying amount of such assets may not be recoverable. An estimate of future undiscounted net cash flows associated with the long-lived assets is used to determine if the carrying value of the assets is recoverable. An impairment charge is recorded if the asset is determined to not be recoverable and the carrying value of the asset exceeds its fair value.

Triggering events were determined to have occurred related to certain properties due to changes in the expected future use. We evaluated the future undiscounted net cash flows for each property and determined the carrying value was not recoverable. We concluded the carrying value of the assets exceeded the fair value. As a result, asset impairments were recorded as a component of continuing operations as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Long-lived assets	\$ -	\$ -	\$ 115	\$ 872

Note 8. Stock-Based Compensation

In the first quarter of 2012, we granted 168,000 restricted stock units (“RSUs”), subject to performance measures discussed below, to certain employees. Each grant entitles the holder to receive shares of our Class A common stock upon vesting. A quarter of the RSUs vest on each of the second and third anniversaries of the grant date and the remaining RSUs vest on the fourth anniversary of the grant date.

Our executives and other key employees received 89,000 of the 168,000 RSUs granted based on attaining a target level of earnings per share for 2012. The RSUs are subject to forfeiture, in whole or in part, based upon minimum performance measures and continuation of employment. If minimum performance measures are met, the number of RSUs received under these grants is subject to attainment of specific earnings per share thresholds. Each earnings per share threshold specifies an attainment level ranging from 75% to 150% of the base number of units identified in the grant. At the 150% maximum attainment level, the number of RSUs would increase by 44,500 for a total award of 133,500 RSUs. Failure to achieve the minimum performance threshold in 2012 will result in forfeiture of the entire grant. The final attainment will be calculated using the 2012 adjusted net income per share from continuing operations with the attainment percentage determined on a pro-rata basis ranging between 75% and 150%.

We estimated compensation expense, based on a fair value methodology, of \$4.2 million related to the RSUs, which is being recognized over the vesting period. Of this amount, approximately \$0.9 million is expected to be recognized in 2012.

In the second quarter of 2012, we granted RSUs covering 12,870 shares of our Class A common stock to members of our Board of Directors. These awards vest 25% on the first day of each month following our quarterly board meetings. We estimated compensation expense, based on a fair value methodology, of \$0.4 million related to these RSUs, which is being recognized over the vesting period. Of this amount, approximately \$0.3 million is expected to be recognized in 2012.

Note 9. Deferred Compensation and Long-term Incentive Plan

We offer a deferred compensation and long-term incentive plan (the “Plan”) to provide certain employees the ability to accumulate assets for retirement on a tax deferred basis. We may make discretionary contributions to the Plan.

Discretionary contributions vest between one and seven years based on the employee’s age and position. Additionally, participants may defer a portion of their compensation and are fully vested in their respective deferrals.

In March 2012, we made a discretionary contribution of \$1.9 million to the Plan. Participants will receive a guaranteed return of 5.9% in 2012. We recognized compensation expense related to the Plan of \$0.3 million and \$0.9 million, respectively, for the three and nine months ended September 30, 2012 and \$0.3 million and \$0.6 million, respectively, for the three and nine months ended September 30, 2011.

Note 10. Fair Value Measurements

Factors used in determining the fair value of our financial assets and liabilities are summarized into three broad categories:

- Level 1 – quoted prices in active markets for identical securities;
- Level 2 – other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment spreads and credit risk; and
 - Level 3 – significant unobservable inputs, including our own assumptions in determining fair value.

The inputs or methodology used for valuing financial assets and liabilities are not necessarily an indication of the risk associated with investing in them.

We use the income approach to determine the fair value of our interest rate swaps using observable Level 2 market expectations at each measurement date and an income approach to convert estimated future cash flows to a single present value amount (discounted) assuming that participants are motivated, but not compelled, to transact. Level 2 inputs for the swap valuations are limited to quoted prices for similar assets or liabilities in active markets (specifically futures contracts on LIBOR for the first two years) and inputs other than quoted prices that are observable for the asset or liability (specifically LIBOR cash and swap rates and credit risk at commonly quoted intervals). Mid-market pricing is used as a practical expedient for fair value measurements. Key inputs, including the cash rates for very short term borrowings, futures rates for up to two years and LIBOR swap rates beyond the derivative maturity are used to predict future reset rates to discount those future cash flows to present value at the measurement date.

Inputs are collected from Bloomberg on the last market day of the period. The same methodology is used to determine the rate used to discount the future cash flows. The valuation of the interest rate swaps also takes into consideration our own, as well as the counterparty’s, risk of non-performance under the contract. See Note 11 for more details regarding our derivative contracts.

We estimate the fair value of our assets held for sale based on a market valuation approach, which uses prices and other relevant information generated primarily by recent market transactions involving similar or comparable assets or liabilities, as well as our historical experience in divestitures, acquisitions and real estate transactions. When available, we use inputs from independent valuation experts, such as brokers and real estate appraisers, to corroborate our internal estimates. Because these valuations contain unobservable inputs, we classified the assets held for sale and liabilities related to assets held for sale as Level 3.

We estimate the value of long-lived assets that are recorded at fair value based on a market valuation approach. We use prices and other relevant information generated primarily by recent market transactions involving similar or comparable assets, as well as our historical experience in divestitures, acquisitions and real estate transactions. Additionally, we may use a cost valuation approach to value long-lived assets when a market valuation approach is unavailable. Under this approach, we determine the cost to replace the service capacity of an asset, adjusted for physical and economic obsolescence. When available, we use valuation inputs from independent valuation experts, such as real estate appraisers and brokers, to corroborate our estimates of fair value. Real estate appraisers' and brokers' valuations are typically developed using one or more valuation techniques including market, income and replacement cost approaches. As these valuations contain unobservable inputs, we classified the measurement of fair value of long-lived assets as Level 3.

There were no changes to our valuation techniques during the nine-month period ended September 30, 2012.

Assets and Liabilities Measured at Fair Value

Following are the disclosures related to our assets and (liabilities) that are measured at fair value (in thousands):

Fair Value at September 30, 2012	Level 1	Level 2	Level 3
Measured on a recurring basis:			
Derivative contracts, net	\$ -	\$ (5,643)	\$ -
Measured on a non-recurring basis:			
Assets held for sale	\$ -	\$ -	\$ 14,671
Fair Value at December 31, 2011			
Measured on a recurring basis:			
Derivative contracts, net	\$ -	\$ (7,530)	\$ -
Measured on a non-recurring basis:			
Long-lived assets held and used:			
Certain buildings and improvements	\$ -	\$ -	\$ 2,500

During the three and nine months ended September 30, 2012, we recognized an unrealized loss of \$0.4 million as a component of discontinued operations associated with our asset group classified as held for sale. We had no amounts recorded as assets held for sale as of December 31, 2011. See also Note 14.

Fair Value Disclosures for Financial Assets and Liabilities

We determined the carrying value of cash equivalents, accounts receivables, trade payables, accrued liabilities and short-term borrowings approximate their fair values because of the short term nature and current market rates of these instruments. We believe the carrying value of our variable rate debt approximates fair value.

We have fixed rate debt and calculate the estimated fair value of our fixed rate debt using a discounted cash flow methodology. Using estimated current interest rates based on a similar risk profile and duration (Level 2), the fixed cash flows are discounted and summed to compute the fair value of the debt. As of September 30, 2012, this debt had maturity dates between November 2016 and May 2031. A summary of the aggregate carrying values and fair values of our long-term fixed interest rate debt is as follows (in thousands):

	September 30, 2012	December 31, 2011
Carrying value	\$ 103,684	\$ 64,463

Fair value	108,702	73,551
------------	---------	--------

Note 11. Derivative Instruments

We enter into interest rate swaps to manage the variability of our interest rate exposure, thus fixing a portion of our interest expense in a rising or falling rate environment. We do not enter into derivative instruments for any purpose other than to manage interest rate exposure to fluctuations in the one-month LIBOR benchmark. That is, we do not engage in interest rate speculation using derivative instruments.

Typically, we designate all interest rate swaps as cash flow hedges and, accordingly, we record the change in fair value for the effective portion of these interest rate swaps in comprehensive income rather than net income until the underlying hedged transaction affects net income. If a swap is no longer designated as a cash flow hedge and the forecasted transaction remains probable or reasonably possible of occurring, the gain or loss recorded in accumulated other comprehensive income (loss) is recognized in income as the forecasted transaction occurs. If the forecasted transaction is probable of not occurring, the gain or loss recorded in accumulated other comprehensive loss is recognized in income immediately.

At September 30, 2012 and December 31, 2011, the net fair value of all of our agreements totaled a loss of \$5.6 million and \$7.5 million, respectively, which was recorded on our Consolidated Balance Sheets as a component of accrued liabilities and other long-term liabilities. The estimated amount expected to be reclassified into earnings within the next twelve months was \$2.7 million at September 30, 2012.

As of September 30, 2012, we had outstanding the following interest rate swaps with U.S. Bank Dealer Commercial Services:

- \$25 million interest rate swap at a fixed rate of 4.495% per annum, variable rate adjusted on the 26th of each month, matures January 25, 2013;
- \$25 million interest rate swap at a fixed rate of 3.495% per annum, variable rate adjusted on the 1st and 16th of each month, matures April 30, 2013;
- \$25 million interest rate swap at a fixed rate of 3.495% per annum, variable rate adjusted on the 1st and 16th of each month, matures April 30, 2013 and
- \$25 million interest rate swap at a fixed rate of 5.587% per annum, variable rate adjusted on the 1st and 16th of each month, matures June 15, 2016.

We receive interest on all of the interest rate swaps at the one-month LIBOR rate. The one-month LIBOR rate at September 30, 2012 was 0.23% per annum, as reported in the Wall Street Journal.

At September 30, 2012 and December 31, 2011, the fair value of our derivative instruments was included in our Consolidated Balance Sheets as follows (in thousands):

Balance Sheet Information	Fair Value of Liability Derivatives	
	Location in Balance Sheet	September 30, 2012
Derivatives Designated as Hedging Instruments		
Interest Rate Swap Contracts	Accrued liabilities	\$ 2,520
	Other long-term liabilities	3,123
		\$ 5,643

Balance Sheet Information	Fair Value of Liability Derivatives	
	Location in Balance Sheet	December 31, 2011
Derivatives Designated as Hedging Instruments		
Interest Rate Swap Contracts	Accrued liabilities	\$ 3,522
	Other long-term liabilities	4,008
		\$ 7,530

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

The effect of derivative instruments on our Consolidated Statements of Operations for the three- and nine-month periods ended September 30, 2012 and 2011 was as follows (in thousands):

Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in Accumulated OCI (Effective Portion)	Location of Loss Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Loss Reclassified from Accumulated OCI into Income (Effective Portion)	Location of Gain (Loss) Recognized in Income on Derivative and Amount Excluded from Effectiveness Testing)	Amount of Loss Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)
Three Months Ended September 30, 2012					
Interest Rate Swap Contracts	\$476	Floor plan interest expense	\$(309)	Floor plan interest expense	\$(788)
Three Months Ended September 30, 2011					
Interest Rate Swap Contracts	\$(1,544)	Floor plan interest expense	\$(535)	Floor plan interest expense	\$271
Amount of Loss Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)					
Derivatives in Cash Flow Hedging Relationships	Amount of Gain (Loss) Recognized in Accumulated OCI (Effective Portion)	Location of Loss Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Loss Reclassified from Accumulated OCI into Income (Effective Portion)	Location of Loss Recognized in Income on Derivative and Amount Excluded from Effectiveness Testing)	Amount of Loss Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)
Nine Months Ended September 30, 2012					
Interest Rate Swap Contracts	\$998	Floor plan interest expense	\$(1,067)	Floor plan interest expense	\$(2,172)
Nine Months Ended September 30, 2011					
Interest Rate Swap Contracts	\$(1,664)	Floor plan interest expense	\$(1,446)	Floor plan interest expense	\$(1,002)

See also Note 10.

Note 12. Related Party Transactions

On March 27, 2012, we completed the sale of an 80% interest in our Nissan, Volkswagen and BMW stores in Medford, Oregon to Dick Heimann, a director and our Vice Chairman. We received proceeds of \$9.6 million, of which \$2.9 million was received in cash and \$6.7 million was received through the payoff of floor plan financing. The sale of the 80% interest in the stores resulted in a gain of \$0.7 million and was recorded as a component of selling, general and administrative expense on our Consolidated Statements of Operations.

The Nissan and Volkswagen stores were purchased for the book value of the inventory as defined by the original terms of an option agreement provided to Mr. Heimann in 2009. The price of the intangible assets of \$1.2 million was based on the fair value of the intangible assets related to the BMW store. We corroborated the fair value of the BMW store's intangible assets with independent third party broker opinions and financial projections using a fair value income approach.

When we sold the three stores, we entered into a shared service agreement with the stores. This agreement allows the stores to lease our employees, use the Lithia name, utilize accounting support functions and receive consulting services. The services provided and the costs of the services are structured the same as the shared services provide to our wholly owned stores.

We retained a 20% interest in the stores as of the transaction date. We determined that we are not the primary beneficiary of the stores and the risk and rewards associated with our investment are based on ownership percentages. As a result, the stores do not qualify for consolidation and our 20% interest is accounted for under the equity method. We determined we maintained significant influence over the operations. We recorded the equity investment at fair value of \$0.8 million as of the transaction date that resulted in a gain of \$0.2 million. The gain was recorded as a component of other income on our Consolidated Statements of Operations. We determined the fair value of our equity investment based on independent third party broker opinions and financial projections using a fair value income approach.

As of September 30, 2012, our equity investment increased by \$0.2 million to \$1.0 million and was recorded as a component of other non-current assets in our Consolidated Balance Sheets.

Note 13. Acquisitions

We completed the following acquisitions in the first nine months of 2012:

- On April 30, 2012, we acquired the inventory, equipment and intangible assets and assumed certain liabilities of Bellingham Chevrolet and Cadillac in Bellingham, Washington from Jerry Chambers Chevrolet.
- On June 12, 2012, we acquired the inventory, equipment and intangible assets and assumed certain liabilities of Fairbanks GMC Buick from Gene's GMC, LLC.
- On August 27, 2012, we acquired the inventory, equipment and intangible assets and assumed certain liabilities of Killeen Chevrolet in Killeen, Texas from Connell Chevrolet, Inc.

These acquisitions contributed revenues of \$12.5 million for the nine months ended September 30, 2012.

The following unaudited pro forma summary presents consolidated information as if the above acquisitions had occurred on January 1, 2011 (in thousands, except for per share amounts):

Three Months Ended September 30,	2012	2011
Revenue	\$ 895,813	\$ 734,638
Income from continuing operations, net of tax	23,492	16,542
Basic income per share from continuing operations, net of tax	0.92	0.63
Diluted income per share from continuing operations, net of tax	0.91	0.62
 Nine Months Ended September 30,	 2012	 2011
Revenue	\$ 2,512,479	\$ 2,003,178
Income from continuing operations, net of tax	60,987	39,848
Basic income per share from continuing operations, net of tax	2.37	1.51
Diluted income per share from continuing operations, net of tax	2.33	1.49

These amounts have been calculated by estimating and applying our accounting policies. The results of these stores have been adjusted to reflect depreciation on a straight-line basis over our expected lives for property, plant and equipment; accounting for inventory on a specific identification method; and recognition of interest expense for real estate financing related to stores where we purchased the facility. No nonrecurring pro forma adjustments directly attributable to these business combinations are included in the reported pro forma revenues and earnings.

The above acquisitions were all accounted for under the acquisition method of accounting. No portion of the purchase price was paid with our equity securities. The following table summarizes the consideration paid for acquisitions and the amount of identified assets acquired and liabilities assumed as of the acquisition date (in thousands):

	Consideration
Cash paid, net of cash acquired	\$ 31,376
	Assets Acquired and Liabilities Assumed
Inventories	\$ 15,648
Franchise value	2,877
Property, plant and equipment	8,484
Other assets	94
Capital lease obligations	(2,609)
Other liabilities	(279)
	24,215
Goodwill	7,161
	\$ 31,376

We account for franchise value as an indefinite-lived intangible asset. We expect the full amount of the goodwill recognized to be deductible for tax purposes.

Note 14. Discontinued Operations

We classify a store as discontinued operations if the location has been sold, we have ceased operations at that location or if management has committed to a plan to dispose of the store. Additionally, the store must meet the criteria as required by U.S. generally accepted accounting standards:

- our management team, possessing the necessary authority, commits to a plan to sell the store;
 - the store is available for immediate sale in its present condition;
- an active program to locate buyers and other actions that are required to sell the store are initiated;
 - a market for the store exists and we believe its sale is likely within one year;
- active marketing of the store commences at a price that is reasonable in relation to the estimated fair market value; and
- our management team believes it is unlikely changes will be made to the plan or the plan to dispose of the store will be withdrawn.

We reclassify the store's operations to discontinued operations in our Consolidated Statements of Operations, on a comparable basis for all periods presented, provided we do not expect to have any significant continuing involvement in the store's operations after its disposal.

In September 2012, we determined that two of our stores met the criteria for classification of the assets and related liabilities as held for sale. Additionally, the historical operating results for the stores were classified as discontinued operations. In 2011, we sold three stores: a Chrysler Jeep Dodge FIAT store in Concord, California; a Volkswagen store in Thornton, Colorado; and a GMC Buick and Kia store in Cedar Rapids, Iowa.

Interest expense is allocated to stores classified as discontinued operations for actual flooring interest expense directly related to the new vehicles in the stores. Interest expense related to our used vehicle inventory financing and revolving line of credit is allocated based on the working capital level of each store.

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Certain financial information related to discontinued operations was as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Revenue	\$ 14,562	\$ 28,800	\$ 41,465	\$ 89,423
Pre-tax gain from discontinued operations	\$ 256	\$ 227	\$ 672	\$ 1,153
Gain (loss) on disposal activities	(397)	169	(397)	116
	(141)	396	275	1,269
Income tax benefit (expense)	45	(154)	(111)	(491)
Income (loss) from discontinued operations, net of income tax benefit (expense)	\$ (96)	\$ 242	\$ 164	\$ 778
Cash generated from disposal activities	\$ -	\$ 6,105	\$ 2,901	\$ 6,517
Floor plan debt paid in connection with disposal activities	\$ -	\$ -	\$ 6,712	\$ -

The gain (loss) on disposal activities included the following (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Goodwill	\$ (50)	\$ -	\$ (50)	\$ -
Property, plant and equipment	(347)	-	(347)	-
Other	-	169	-	116
	\$ (397)	\$ 169	\$ (397)	\$ 116

As of September 30, 2012, we had two stores classified as held for sale. There were no stores classified as held for sale as of December 31, 2011. Assets held for sale included the following (in thousands):

	September 30, 2012
Inventories	\$ 11,671
Property, plant and equipment	3,000
	\$ 14,671

Liabilities related to assets held for sale included the following (in thousands):

	September 30, 2012
Floor plan notes payable	\$ 10,065

Note 15. Net Income Per Share of Class A and Class B Common Stock

We compute net income per share of Class A and Class B common stock using the two-class method. Under this method, basic net income per share is computed using the weighted average number of common shares outstanding during the period excluding unvested common shares subject to repurchase or cancellation. Diluted net income per share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. Potential common shares consist of the incremental common shares issuable upon the exercise of stock options and unvested restricted shares subject to repurchase or cancellation. The dilutive effect of

outstanding stock options and other grants is reflected in diluted earnings per share by application of the treasury stock method. The computation of the diluted net income per share of Class A common stock assumes the conversion of Class B common stock, while the diluted net income per share of Class B common stock does not assume the conversion of those shares.

Except with respect to voting and transfer rights, the rights of the holders of our Class A and Class B common stock are identical. Our Articles of Incorporation require that the Class A and Class B common stock must share equally in any dividends, liquidation proceeds or other distribution with respect to our common stock and the Articles of Incorporation can only be amended by a vote of the shareholders. Additionally, Oregon law provides that amendments to our Articles of Incorporation, which would have the effect of adversely altering the rights, powers or preferences of a given class of stock, must be approved by the class of stock adversely affected by the proposed amendment. As a result, the undistributed earnings for each year are allocated based on the contractual participation rights of the Class A and Class B common shares as if the earnings for the year had been distributed. Because the liquidation and dividend rights are identical, the undistributed earnings are allocated on a proportionate basis.

Following is a reconciliation of the income from continuing operations and weighted average shares used for our basic earnings per share ("EPS") and diluted EPS for the three- and nine-month periods ended September 30, 2012 and 2011 (in thousands, except per share amounts):

Three Months Ended September 30, Basic EPS from Continuing Operations	2012		2011	
	Class A	Class B	Class A	Class B
Numerator:				
Income from continuing operations applicable to common stockholders	\$20,287	\$3,052	\$13,976	\$2,344

Note 16. Recent Accounting Pronouncements

In September 2011, the Financial Accounting Standards Board (“FASB”) issued an accounting standard update that amends the accounting guidance on goodwill impairment testing. The amendments in this accounting standard update are intended to reduce complexity and costs by allowing an entity to make a qualitative evaluation about the likelihood of goodwill impairment to determine whether it should calculate the fair value of a reporting unit. The amendments also provided additional examples of events and circumstances that an entity should consider between annual impairment tests to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. The amendments in this accounting standard update are effective for interim and annual goodwill impairment tests performed for fiscal years beginning after December 15, 2011. The accounting standard update is intended to simplify the assessment for goodwill impairment and will not affect our consolidated financial position, results of operations, or cash flows.

In December 2011, the FASB issued an accounting standard update that requires disclosure about offsetting and related arrangements of financial instruments and derivative instruments. These disclosures enable users to understand the effect of these arrangements on financial position. The amendments in this accounting standard update are effective for annual periods beginning on or after January 1, 2013, and interim periods within those annual periods. The accounting standard update affects disclosure requirements only and will not affect our consolidated financial position, results of operations, or cash flows.

In July 2012, the FASB issued an accounting standard update that amends the accounting guidance on testing for impairment on indefinite-lived intangible assets. This amendment allows an entity to assess qualitative factors to determine the likelihood of indefinite-lived intangible asset impairments, reducing the cost and complexity of performing an impairment test. This amendment also improves consistency in impairment testing guidance for long-lived asset categories. The amendments in this accounting standard update are effective for interim and annual impairment tests performed for fiscal years beginning after September 15, 2012. The accounting standard update is intended to simplify the assessment for indefinite-lived asset impairments and will not affect our consolidated financial position, results of operations, or cash flows.

Note 17. Subsequent Events

Acquisition of a Store

On October 23, 2012, we acquired the inventory, equipment, real estate and intangible assets of, and assumed certain liabilities related to, Bitterroot Toyota of Missoula, Montana from Bitterroot Motors, Inc. This store generated approximately \$56.3 million in revenues for the full year of 2011. We paid a purchase price of \$13.3 million in cash. As of October 26, 2012, the initial accounting for determining the acquisition-date fair value for each major class of assets acquired, including goodwill, and liabilities assumed was not yet complete.

Disposal of Stores

In October 2012, we disposed of the Lithia Chrysler Jeep Dodge of Renton and Lithia Hyundai of Renton stores in Renton, Washington. The disposal generated cash of approximately \$3.7 million.

Common Stock Dividend

On October 24, 2012, our Board of Directors approved a dividend of \$0.10 per share on our Class A and Class B Common stock related to our third quarter 2012 financial results. The dividend will total approximately \$2.6 million and will be paid on November 23, 2012 to shareholders of record on November 9, 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements and Risk Factors

Certain statements under the sections entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Risk Factors" and elsewhere in this Form 10-Q constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Generally, you can identify forward-looking statements by terms such as "may," "will," "should," "expect," "plan," "intend," "forecast," "anticipate," "believe," "estimate," "potential," and "continue" or the negative of these terms or other comparable terminology. The forward-looking statements contained in this Form 10-Q involve known and unknown risks, uncertainties and situations that may cause our actual results, level of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these statements. Important factors that could cause actual results to differ from our expectations are discussed in Part II - Other Information, Item 1A. in this Form 10-Q and in the Risk Factors section of our Annual Report on Form 10-K, as supplemented and amended from time to time in Quarterly Reports on Form 10-Q and our other filings with the Securities and Exchange Commission.

While we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. You should not place undue reliance on these forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made. We assume no obligation to update or revise any forward-looking statement.

Overview

We are a leading operator of automotive franchises and a retailer of new and used vehicles and services. As of October 26, 2012, we offered 29 brands of new vehicles and all brands of used vehicles in 86 stores in the United States and online at Lithia.com. We sell new and used cars and light trucks and replacement parts; provide vehicle maintenance, warranty, paint and repair services; and arrange related financing, service contracts, protection products and credit insurance.

Our mission statement is: "Driven by our employees and preferred by our customers, Lithia is the leading automotive retailer in each of our markets." We offer our customers personal, convenient, flexible hometown service combined with the large company advantages of selection, competitive pricing, broad access to financing, consistent service, competence and guarantees. We strive for diversification in our products, services, brands and geographic locations to insulate us from market risk and to maintain profitability. We have developed a centralized support structure to reduce store level administrative functions. This allows store personnel to focus on providing a positive customer experience. With our management information systems, our emphasis on standardized operating practices and administrative functions performed centrally in Medford, Oregon, we seek to gain economies of scale from our dealership network.

Results of Continuing Operations

For the three months ended September 30, 2012 and 2011, we reported income from continuing operations, net of tax, of \$23.3 million, or \$0.90 per diluted share, and \$16.3 million, or \$0.61 per diluted share, respectively.

For the nine months ended September 30, 2012 and 2011, we reported income from continuing operations, net of tax, of \$60.4 million, or \$2.30 per diluted share, and \$39.3 million, or \$1.47 per diluted share, respectively.

Discontinued Operations

Results for sold or closed stores qualifying for reclassification under the applicable accounting guidance are presented as discontinued operations in our Consolidated Statements of Operations. As a result, our results from continuing operations are presented on a comparable basis for all periods.

The income (loss) from discontinued operations for the three months ended September 30, 2012 and 2011 totaled (\$96,000) and \$242,000, respectively, and for the nine months ended September 30, 2012 and 2011 totaled \$164,000 and \$778,000, respectively. See Note 14 of the Condensed Notes to Consolidated Financial Statements for additional information.

Key Performance Metrics

Key performance metrics for revenue and gross profit were as follows for the three and nine months ended September 30, 2012 and 2011 (dollars in thousands):

Three months ended		Percent of		Gross Profit		Percent of
September 30, 2012	Revenues	Total		Margin		Total
		Revenues	Gross Profit		Gross Profit	
New vehicle	\$ 496,365	55.9 %	\$ 35,611	7.2 %	24.7 %	
Used vehicle retail	230,278	25.9	33,543	14.6	23.3	
Used vehicle wholesale	35,419	4.0	(27)	(0.1)	(0.1)	
Finance and insurance(1)	31,088	3.5	31,088	100.0	21.6	
Service, body and parts	90,626	10.2	43,760	48.3	30.3	
Fleet and other	4,597	0.5	249	5.4	0.2	
	\$ 888,373	100.0 %	\$ 144,224	16.2 %	100.0 %	

Three months ended		Percent of		Gross Profit		Percent of
September 30, 2011	Revenues	Total		Margin		Total
		Revenues	Gross Profit		Gross Profit	
New vehicle	\$ 377,860	52.8 %	\$ 29,365	7.8 %	24.4 %

(1) Commissions reported net of anticipated cancellations.

Same Store Operating Data

We believe that same store comparisons are a key indicator of our financial performance. Same store metrics demonstrate our ability to profitably grow our revenue in our existing locations. As a result, same store comparisons have been integrated into the discussion below.

A same store metric represents stores that were operating during the three- and nine-month periods ended September 30, 2012, and only includes the months when operations occur in both comparable periods. For example, a store acquired in August 2011 would be included in same store operating data beginning in September 2012, after its first full complete comparable month of operation, and operating results for same store comparisons would include only the period of September for each comparable periods.

Revenue	\$1,294,861	\$998,609	\$296,252	29.7	%
Retail units sold	39,517	30,568	8,949	29.3	
Average selling price per retail unit	\$32,767	\$32,668	\$99	0.3	

New vehicle sales in the third quarter of 2012 improved compared to the third quarter of 2011. Demand for new vehicles continued to be strong as same store sales volume increased 30.8% and 29.3%, respectively, in the three- and nine-month periods ended September 30, 2012 compared to the same periods in 2011.

The number of new vehicles sold in the United States during the first nine months of 2012 increased approximately 14.5% over 2011, explaining the increase in new vehicle sales volumes. In addition to the overall market recovery, we have increased our share of vehicle sales in several of our markets. Growth in our domestic and import brand sales have outpaced the growth experienced nationally. Our domestic brand same store sales grew 19.1% and 27.3%, respectively, for the three- and nine-month periods ended September 30, 2012 compared to the same periods in 2011. Same store sales for import brands grew 51.6% and 36.8%, respectively, for the three- and nine-month periods ended September 30, 2012 compared to the same periods in 2011. Certain of our markets have seen an increase in local market sales volumes exceeding the national average. We remain focused on increasing our share of overall new vehicle sales within our markets and continue to have an operational objective of increasing market share.

Average selling price per retail unit	\$17,398	\$17,185	\$213	1.2	

Used vehicle retail sales continue to be a strategic focus as we strive for organic growth and respond to potential supply constraints in used vehicles as a result of the lower new vehicle sales in 2008, 2009 and 2010. Our strategy is to offer three categories of used vehicles: manufacturer certified pre-owned used vehicles; late model, lower-mileage vehicles; and value autos, vehicles with over 80,000 miles.

During the three- and nine-month periods ended September 30, 2012, sales increased in all three categories of used vehicles compared to the same periods of 2011.

- Same store unit sales for manufacturer certified pre-owned used vehicles increased 33.6% and 24.6%, respectively, for the three- and nine-month periods ended September 30, 2012. This category has higher average sale prices and experiences a lower gross margin than the other categories.
- Same store unit sales for the late model, lower mileage vehicle category increased 12.7% and 11.2%, respectively, for the three- and nine-month periods ended September 30, 2012. Our performance in this category is still below management's expectation and we continue to focus on improving our results.
- Same store unit sales for the value auto category increased 48.6% and 36.9%, respectively, for the three- and nine-month periods ended September 30, 2012. Value auto vehicles have lower average selling prices and experience a higher gross margin than our other used vehicle categories. Additionally, value autos provide an organic opportunity to convert vehicles acquired via trade-in to retail used vehicle sales.

Our retail used to new vehicle sales ratio was 0.9:1 for the three-month period ended September 30, 2012 and for the same period in 2011. For the nine-month periods ended September 30, 2012 and 2011, our retail used to new vehicle sales ratio was 0.9:1 and 1.0:1, respectively. On average, for the third quarter of 2012, each of our stores currently sells approximately 52 retail used vehicle units per month and we target increasing sales to 60 units per month. Our

goal continues to be a retail used to new ratio of 1.0:1.

Average selling price per wholesale unit	\$7,322	\$7,851	\$(529)	(6.7)	

Wholesale transactions are used vehicles we have purchased from customers or vehicles we have attempted to sell via retail that we elect to dispose of due to inventory age or other factors. Wholesale vehicle sales are typically sold at or near inventory cost and do not comprise a meaningful component of our gross profit.

The increases in finance and insurance sales were driven by increased vehicle sales volume in the three- and nine-month periods ended September 30, 2012 compared to the same periods of 2011. We continue to see the availability of consumer credit expand with lenders increasing the loan-to-value amount available to most customers. These shifts afford us the opportunity to sell additional or more comprehensive products, while remaining within a loan-to-value framework acceptable to our retail customer lenders. Additionally, we continue to diversify our product offerings and seek more accommodating financing terms.

Wholesale parts	48,630	41,778	6,852	16.4
Body shop	25,495	22,096	3,399	15.4
Total service, body and parts	\$262,589	\$236,216	\$26,373	11.2 %
Same store				
Customer pay	\$138,027	\$129,115	\$8,912	6.9 %
Warranty	36,271	38,952	(2,681)	(6.9)
Wholesale parts	45,527	41,215	4,312	10.5
Body shop	25,490	22,096	3,394	15.4
Total service, body and parts	\$245,315	\$231,378	\$13,937	6.0 %

Our service, body and parts business continued to experience overall growth in the third quarter of 2012. We increased our same store customer pay business 5.8% and 6.9% in the three- and nine-month periods ended September 30, 2012 compared to the same periods in 2011 as we focused on retaining customers through competitively-priced routine maintenance offerings and increased marketing efforts.

Warranty work decreased 1.7% and 6.9% on a same store sales basis for the three and nine months ended September 30, 2012 compared to the same periods in 2011. Domestic brand warranty work decreased by 5.2% and 6.2%, respectively, while import/luxury warranty work increased by 1.4% and decreased by 7.4%, respectively, in the three- and nine-month periods ended September 30, 2012 compared to the same periods in 2011. Warranty work continues to be impacted by declining units in operation from 2008, 2009 and 2010, as well as the increased warranty work in 2011 associated with the Toyota recalls.

Our wholesale parts and body shop sales grew 8.5% and 17.8%, respectively, in the third quarter of 2012, and 10.5% and 15.4%, respectively, in the first nine months of 2012, on a same store basis compared to the same periods in 2011. These categories allow for incremental organic growth. As both wholesale parts and body shop margins are lower than service work, we expect gross margins may modestly decline as these areas of the business comprise a larger portion of the total.

Gross Profit

Gross profit increased \$24.0 million and \$70.9 million in the three- and nine-month periods ended September 30, 2012 compared to the same periods in 2011 due to increased revenues, partially offset by declines in our overall gross profit margin.

Our gross profit margin by business line was as follows:

	Three Months Ended		Basis Point Change*
	September 30, 2012	2011	
New vehicle	7.2 %	7.8 %	(60) bp

Fleet and other	3.6	8.2	(460)
Overall	16.4 %	17.2 %	(80)

*One basis point is equal to 1/100th of one percent.

New vehicle margins decreased during the three and nine months ended September 30, 2012 compared to the same periods of 2011. This decrease, especially in the third quarter, was due to a shift in vehicles sales mix toward import franchises which had lower than typical margins in 2012 as we priced vehicles to gain market share. Used vehicle retail margins have shifted slightly in 2012. Gross margin for used vehicle retail is mainly affected by a shifting mix of vehicles sold because value autos have a higher gross margin while certified pre-owned vehicles have a lower gross margin. Both categories of used vehicles experienced strong growth in the first nine months of 2012, essentially offsetting each other. Service, body and parts margins decreased as our wholesale parts and body shop revenue growth continued, each of which achieve lower margins than other portions of our service, body and parts business. We believe our “single-point” strategy of maintaining franchise exclusivity within the markets we serve protects profitability and supports higher overall margin levels.

Asset Impairment Charges

Long-lived assets classified as held and used by us and definite-lived intangible assets are reviewed for impairment whenever events or circumstances indicate that the carrying amount of assets may not be recoverable.

Asset impairments recorded as a component of continuing operations consisted of the following (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Long-lived assets	\$ -	\$ -	\$ 115	\$ 872

In the first nine months of 2012 and 2011, we recorded impairment charges associated with certain properties. As the expected future use of these facilities changed, the long-lived assets were tested for recoverability. As a result, we determined the carrying value exceeded the fair value of these properties. As additional market information becomes available and negotiations with prospective buyers continue, estimated fair values of our properties may change. These changes may result in the recognition of additional asset impairment charges in future periods.

Selling, General and Administrative Expense (“SG&A”)

SG&A includes salaries and related personnel expenses, advertising (net of manufacturer cooperative advertising credits), rent, facility costs, and other general corporate expenses.

(Dollars in thousands)	Three Months Ended September 30,		Increase	% Increase	
	2012	2011			%
Personnel	\$ 62,919	\$ 54,658	\$ 8,261	15.1	%

Facility costs	18,160	17,716	444	2.5	
Other	43,152	38,051	5,101	13.4	
Total SG&A	\$ 280,292	\$ 240,537	\$ 39,755	16.5	%

SG&A expense increased \$12.0 million and \$39.8 million, respectively, in the three- and nine-month periods ended September 30, 2012 compared to the same periods in 2011. These changes were primarily driven by increased variable costs associated with improved sales, offset by a continued focus to reduce or maintain fixed costs and effectively manage variable costs.

SG&A as a percentage of gross profit was 66.8% compared to 70.2%, respectively, for the three months ended September 30, 2012 and 2011 and was 69.1% compared to 71.8%, respectively, for the nine months ended September 30, 2012 and 2011. We target SG&A as a percentage of gross profit in the high 60% to low 70% range depending on sales volumes.

We also measure the leverage of our cost structure by evaluating throughput, which is the incremental percentage of gross profit retained after deducting SG&A expense.

Throughput contribution			\$ 31,156	43.9	%

(Dollars in thousands)	Nine Months Ended September 30,			% of Change in Gross Profit	
	2011	2010	Change	Change in Gross Profit	%
Gross profit	\$ 334,955	\$ 272,684	\$ 62,271	100.0	%
SG&A expense	(240,537)	(210,974)	(29,563)	(47.5)	

Throughput contribution	\$ 32,708	52.5	%
-------------------------	-----------	------	---

Throughput contributions for newly opened or acquired stores are on a "first dollar" basis for the first twelve months of operations. We acquired four stores and opened one new store since the third quarter of 2011 and, adjusting for these locations, our throughput contribution on a same store basis was 55.2% and 51.7% for the three- and nine-month periods ended September 30, 2012, respectively, compared to the same periods of 2011. We continue to target a same store throughput contribution of approximately 50%.

Depreciation and Amortization

Depreciation and amortization is comprised of depreciation expense related to buildings, significant remodels or betterments, furniture, tools, equipment and signage and amortization of certain intangible assets, including customer lists and non-compete agreements.

(Dollars in thousands)	Three Months Ended				
	September 30,				
	2012	2011	Increase	Increase	%
Depreciation and amortization	\$ 4,381	\$ 4,129	\$ 252	6.1	%

(Dollars in thousands)	Nine Months Ended				
	September 30,				
	2012	2011	Increase	Increase	%
Depreciation and amortization	\$ 12,777	\$ 12,372	\$ 405	3.3	%

Depreciation and amortization for the three- and nine-months ended September 30, 2012 increased compared to the same periods of 2011 due to increased capital expenditures of \$12.0 million in 2012 compared to 2011. These expenditures were for the improvement of store facilities, purchases of new store locations, replacement of equipment and construction of a new headquarters building.

Operating Income

Operating income in the three- and nine-month periods ended September 30, 2012 was 4.9% and 4.6% of revenue, respectively, compared to 4.4% and 4.2%, respectively, in the comparable periods of 2011. These improvements were primarily due to improved sales and continued cost control.

Floor Plan Interest Expense and Floor Plan Assistance

Floor plan interest expense increased \$1.4 million and \$1.7 million, respectively in the three- and nine-month periods ended September 30, 2012 compared to the same periods of 2011. These increases are related to increased volume of new vehicle inventory.

Floor plan assistance is provided by manufacturers to support store financing of new vehicle inventory. Under accounting standards, floor plan assistance is recorded as a component of new vehicle gross profit when the specific vehicle is sold. However, because manufacturers provide this assistance to offset inventory carrying costs, we believe a comparison of floor plan interest expense to floor plan assistance is a useful measure of the efficiency of our new vehicle sales relative to stocking levels.

The following tables detail the carrying costs for new vehicles and include new vehicle floor plan interest net of floor plan assistance earned.

(Dollars in thousands)	Three Months Ended				
	September 30,				
	2012	2011	Change	Change	%
Floor plan interest expense (new vehicles)	\$3,397	\$1,977	\$1,420	71.8	%
Floor plan assistance (included as an offset to cost of sales)	(4,401)	(3,426)	975	28.5	
Net new vehicle carrying costs	\$(1,004)	\$(1,449)	\$(445)	(30.7)	%

(Dollars in thousands)	Nine Months Ended

	2012	2011	Change	Change	%

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

Floor plan interest expense (new vehicles)	\$9,402	\$7,723	\$1,679	21.7	%
Floor plan assistance (included as an offset to cost of sales)	(12,231)	(9,316)	2,915	31.3	
Net new vehicle carrying costs	\$(2,829)	\$(1,593)	\$1,236	77.6	%

31

Other Interest Expense

Other interest expense includes interest on debt incurred related to acquisitions, real estate mortgages and our working capital, acquisition and used vehicle credit facility.

(Dollars in thousands)	Three Months Ended		Increase (Decrease)	% Increase (Decrease)
	September 30,			
	2012	2011		
Mortgage interest	\$1,869	\$2,712	\$(843)	(31.1)%
Other interest	325	399	(74)	(18.5)
Capitalized interest	(63)	(44)	19	43.2
Total other interest expense	\$2,131	\$3,067	\$(936)	(30.5)%

(Dollars in thousands)	Nine Months Ended		Increase (Decrease)	% Increase (Decrease)
	September 30,			
	2012	2011		
Mortgage interest	\$6,330	\$8,339	\$(2,009)	(24.1)%
Other interest	1,323	1,107	216	19.5
Capitalized interest	(255)	(93)	162	174.2
Total other interest expense	\$7,398	\$9,353	\$(1,955)	(20.9)%

For the three- and nine-month periods ended September 30, 2012 compared to the same periods of 2011, other interest expense decreased \$0.9 million and \$2.0 million, respectively, primarily due to decreases in outstanding real estate mortgage debt as we retired approximately \$34.9 million in mortgages in 2012. This decrease was offset by higher volumes of borrowing on our credit facility.

Other Income, Net

Other income, net primarily includes interest income and, beginning in 2012, the gains related to an equity investment. Other income, net was \$0.5 million and \$0.2 million for the three-month periods ended September 30, 2012 and 2011, respectively, and \$1.8 million and \$0.5 million for the nine-month periods ended September 30, 2012 and 2011, respectively. Gains related to our equity investment accounted for \$0.6 million of other income recorded in the first nine months of 2012.

Income Tax Expense

Our effective income tax rate was 39.2% and 38.2%, respectively, for the three- and nine-month periods ended September 30, 2012, compared to 39.4% and 39.1%, respectively, in the comparable periods of 2011. For the full year 2012, we anticipate our income tax rate to be approximately 38.4%.

Non-GAAP Reconciliations

We believe each of the non-GAAP financial measures below improves the transparency of our disclosures, provides a meaningful presentation of our results from the core business operations excluding adjustments for items not related to our ongoing core business operations or other non-cash adjustments, and improves the period-to-period comparability of our results from the core business operations. Our management uses these measures in conjunction with GAAP financial measures as part of our assessment of our business, including our compliance with covenants in our credit facility and in communications with our board of directors concerning financial performance. These measures should not be considered an alternative to GAAP measures.

Edgar Filing: LITHIA MOTORS INC - Form 10-Q

The following tables reconcile certain reported GAAP amounts per the Consolidated Statements of Operations to the comparable non-GAAP amounts (dollars in thousands, except per share amounts) for the nine months ended September 30, 2012:

Diluted share count	26,738		

Liquidity and Capital Resources

We manage our liquidity and capital resources to fund future capital expenditures, working capital requirements and contractual obligations. Additionally, we use capital resources to fund cash dividend payments, share repurchases and acquisitions.

Available Sources

We have relied primarily on cash flows from operations, borrowings under our credit agreements, financing of real estate and the proceeds from equity and debt offerings to finance operations and expansion. Based on these factors and our normal operational cash flow, we believe we have sufficient availability to accommodate both our short- and long-term capital needs.

Below is a summary and discussion of our available funds (in thousands):

	As of September 30, 2012	As of December 31, 2011	Increase (Decrease)	% Increase (Decrease)
Cash and cash equivalents	\$ 19,757	\$ 20,851	\$ (1,094)	(5.2)%
Available credit on the revolving line of credit	29,016	10,449	18,567	177.7
Unfinanced new vehicles	-	65,857	(65,857)	(100.0)
Total available funds	\$ 48,773	\$ 97,157	\$ (48,384)	(49.8)%

Historically, we have raised capital through the sale of assets, sale of stores, issuance of stock and the issuance of debt. We may strategically use excess cash to reduce the amount of debt outstanding when appropriate. During the nine months ended September 30, 2012, we raised funds of \$23.1 million from the sale of assets and stores and the issuance of long-term debt (primarily related to the financing of certain real estate). These funds were used to acquire additional stores and make unscheduled debt repayments of \$68.7 million, resulting in a net cash usage of \$45.6 million. During the nine months ended September 30, 2011, we used proceeds from the sale of assets and stores and the issuance of long-term debt of \$40.4 million to acquire additional stores and repay outstanding debt of \$87.1 million, resulting in a net cash usage of \$46.7 million.

We have the ability to raise funds through the financing of owned real estate. As of September 30, 2012, we had a book value of \$114.6 million in unfinanced owned real estate. Assuming we can obtain financing on 75% of this value, we estimate we could obtain additional funds of approximately \$86.0 million; however, no assurances can be provided that this capital source will be available in sufficient amounts or with terms acceptable to us.

While we have no immediate plans to access such funds, we have an effective shelf registration statement with the SEC that allows us to offer for sale, from time to time and as the capital markets permit, up to \$100 million in various forms of debt or equity securities.

In addition to the above sources of liquidity, potential sources include the placement of subordinated debentures or loans, additional store sales or additional other asset sales. We will evaluate all of these options and may select one or more of them depending on overall capital needs and the availability and cost of capital, although no assurances can be provided that these capital sources will be available in sufficient amounts or with terms acceptable to us.

Summary of Outstanding Balances on Credit Facilities and Long-Term Debt

Below is a summary of our outstanding balances on credit facilities and long-term debt (in thousands):

	Outstanding as of September 30, 2012	Remaining Available as of September 30, 2012	
New vehicle floor plan commitment	\$ 489,935	\$ -	(1),(4)
Floor plan notes payable	14,073	-	
Used vehicle inventory financing facility	77,948	-	(3)
Revolving line of credit	17,883	29,016	(2),(3)
Real estate mortgages	168,027	-	
Other debt	5,371	-	
Liabilities associated with assets held for sale	10,065		(4)
Total debt	\$ 783,302	\$ 29,016	

- (1) We have a \$500 million new vehicle floor plan commitment as part of our credit facility.
(2) Available credit reduced by \$3.1 million for outstanding letters of credit.
(3) The amount available on the credit facility is limited based on a borrowing base calculation and fluctuates monthly.
(4) An additional \$10.1 million of floor plan notes payable outstanding on our new vehicle floor plan commitment is recorded as liabilities related to assets held for sale.

Credit Facility

On April 17, 2012, we executed a new five-year \$650 million credit facility with a syndicate of 10 financial institutions, including four manufacturer-affiliated finance companies. This credit facility provides a \$500 million new vehicle floor plan commitment, \$100 million in used vehicle inventory financing and a \$50 million revolving line of credit for general corporate use including working capital and acquisitions. This credit facility may be expanded to \$800 million total availability. All borrowings from, and repayments to, our syndicated lending group are presented in the Consolidated Statements of Cash Flows as financing activities. The interest rate on the credit facility varies based on the type of debt with the rate ranging from the 1-month LIBOR plus 1.50% to the 1-month LIBOR plus 2.50%. Our financial covenants related to this credit facility include maintaining a current ratio of not less than 1.20x, a fixed charge coverage ratio of not less than 1.20x and a leverage ratio of not more than 5.0x. As of September 30, 2012, \$489.9 million was outstanding on our new vehicle floor plan commitment, \$77.9 million was outstanding on our used vehicle inventory financing facility and \$17.9 million was outstanding on our revolving line of credit. An additional \$10.1 million of outstanding floor plan notes payable was classified as liabilities related to assets held for sale associated with our two Renton, Washington stores.

New Vehicle Floor Plan Lines

We finance substantially all of our new vehicles through the new vehicle floor plan commitment component of our credit facility. We also have additional floor plan agreements with manufacturer-affiliated finance companies for vehicles that are designated for use as service loaners. All borrowings from, and repayments to, our syndicated lending group are presented in the Consolidated Statements of Cash Flows as financing activities. Borrowings from, and repayments to, manufacturer-affiliated finance companies are classified as operating activities on the Consolidated Statements of Cash Flows.

The interest rate associated with our new vehicle line, excluding the effects of our interest rate swaps, was 1.7% at September 30, 2012.

Real Estate Mortgages and Other Debt

We have mortgages associated with our owned real estate and leasehold improvements. Interest rates related to this debt ranged from 3.0% to 5.9% at September 30, 2012. The mortgages are payable in various installments through May 2031. Total mortgages outstanding decreased \$26.4 million since December 31, 2011 to \$168.0 million as of September 30, 2012. Additionally, in the nine-months ended September 30, 2012, we reduced our overall average interest rate on fixed rate mortgages by 180 bps and extended certain maturity dates such that our first mortgage maturity is in 2016. We also have been modifying our mortgage portfolio to fix the interest rates on a greater percentage of the loans. As of September 30, 2012, we had fixed interest rates on 60% of our outstanding mortgages.

Our other debt includes various notes, capital leases and obligations assumed as a result of acquisitions and other agreements and had interest rates that ranged from 2.0% to 9.0% at September 30, 2012. This debt, which totaled \$5.4 million at September 30, 2012, is due in various installments through May 2019.

Debt Covenants

Under the terms of our credit facility and other debt agreements, we are subject to financial covenants and restrictive covenants that limit or restrict our incurring additional indebtedness, making investments, selling or acquiring assets and granting security interests in our assets.

Under our credit facility, we are required to maintain the ratios detailed in the following table. As of September 30, 2012, our debt covenant ratios under this agreement are as follows:

Debt Covenant Ratio	Requirement	As of September 30, 2012
Current ratio	Not less than 1.20 to 1	1.35 to 1
Fixed charge coverage ratio	Not less than 1.20 to 1	1.95 to 1
Leverage ratio	Not more than 5.00 to 1	2.11 to 1
Funded debt restriction	Not to exceed \$375 million	\$173.4 million

We expect to remain in compliance with the financial and restrictive covenants in our credit facility and other debt agreements. However, no assurances can be provided that we will continue to remain in compliance with the financial and restrictive covenants.

If we do not meet the financial and restrictive covenants and are unable to remediate or cure the condition or obtain a waiver from our lenders, a breach would give rise to remedies under the agreement, the most severe of which is the termination of the agreement and acceleration of the amounts owed. We also would trigger cross-defaults under other debt agreements.

Inventories

We calculate days supply of inventory based on current inventory levels, excluding in-transit vehicles, and a 30-day historical cost of sales level. As of September 30, 2012, our new vehicle days supply was 75, or nine days higher than our days supply as of September 30, 2011. The increase in our 2012 new vehicle inventory levels is partly related to building a cushion of certain truck models prior to manufacturer planned platform changes, when production is halted and additional vehicles will not be available for several months. Our days supply of used vehicles was 50 days as of September 30, 2012, or three days lower than our days supply level as of September 30, 2011. We have continued to focus on managing our mix and maintaining an appropriate level of used vehicle inventory.

Capital Expenditures

We anticipate approximately \$67 million in capital expenditures for all of 2012. This amount is associated with improvements to, and purchases of, store facilities, replacement of equipment and the relocation to a new headquarters building.

Capital expenditures were \$35.0 million and \$23.0 million for the nine months ended September 30, 2012 and 2011, respectively. The increase in capital expenditures in 2012 compared to the same period of 2011 was related to improvements at store facilities, the purchase of new store locations, replacement of equipment and construction of a new headquarters building.

Many manufacturers provide assistance in the form of additional vehicle incentives if facilities meet image standards and requirements. Accordingly, we believe it is an attractive time to invest in facility upgrades and remodels that will generate additional manufacturer incentive payments. Also, recently enacted tax law changes that accelerate deductions for capital expenditures have accelerated project timelines to ensure completion before the law expires.

In the event we undertake a significant capital commitment in the future, we expect to pay for the commitment out of existing cash balances, construction financing and borrowings on our credit facility. Upon completion of the projects, we would anticipate securing long-term financing and general borrowings from third party lenders for 70% to 90% of the amounts expended, although no assurances can be provided that these financings will be available to us in sufficient amounts or on terms acceptable to us.

Dividends

In the first nine months of 2012, we paid dividends on our Class A and Class B common stock totaling \$6.9 million. In addition, our Board of Directors approved a dividend of \$0.10 per share on our Class A and Class B common stock related to our third quarter 2012 financial results. The dividend will total approximately \$2.6 million and will be paid on November 23, 2012 to shareholders of record on November 9, 2012.

Share Repurchase Program

In August 2011, our Board of Directors authorized the repurchase of up to 2,000,000 shares of our Class A common stock. On July 20, 2012, our Board of Directors authorized the repurchase of 1,000,000 additional shares of our Class A common stock. We did not repurchase any shares of our Class A common stock during the third quarter of 2012. Through September 30, 2012, we have purchased 1,120,147 shares under this program at an average price of \$22.12 per share. At September 30, 2012, 1,879,853 shares remained available for repurchase. This plan does not have an expiration date and we may continue to repurchase shares from time to time as conditions warrant.

Recent Accounting Pronouncements

See Note 16 of the Condensed Notes to Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Critical Accounting Policies and Use of Estimates

There have been no material changes in our critical accounting policies and use of estimates as described in our 2011 Annual Report on Form 10-K as filed with the Securities and Exchange Commission on February 24, 2012.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our reported market risks or risk management policies since the filing of our 2011 Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission on February 24, 2012.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management evaluated, with the participation and under the supervision of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to our management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure and that such information is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during our last fiscal quarter that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Except as disclosed in Note 5 of the Condensed Notes to Consolidated Financial Statements in this Quarterly Report on Form 10-Q, there have been no new proceedings or material changes to previously disclosed proceedings in our Annual Report on Form 10-K for the year ended December 31, 2011. The information in this Form 10-Q should be read in conjunction with the legal proceedings disclosed in that report, which was filed with the Securities and Exchange Commission on February 24, 2012.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011. Accordingly, the information in this Form 10-Q should be read in conjunction with the risk factors and information disclosed in our Annual Report on Form 10-K for the year ended December 31, 2011, which was filed with the Securities and Exchange Commission on February 24, 2012.
