**Notes to Financial Statements**

**September 30, 2015**

**(Unaudited)**

Note 1: Basis of Presentation

The accompanying unaudited financial statements of CKX Lands, Inc. (“Company”) have been prepared in accordance with United States generally accepted accounting principles for interim financial information. They do not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. Except as described herein, there has been no material change in the information disclosed in the notes to the financial statements included in our financial statements as of and for the year ended December 31, 2014. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included in the accompanying financial statements.

Interim results are not necessarily indicative of results for a full year. These financial statements and accompanying notes should be read in conjunction with the Company’s Form 10-K for the year ended December 31, 2014 and Form 10-Q for the quarterly period ended September 30, 2014.

Note 2: Income Taxes

In accordance with generally accepted accounting principles, the Company has analyzed its filing positions in federal and state income tax returns for the tax years that remain subject to examination, generally three years after filing. The Company believes that all filing positions are highly certain and that all income tax filing positions and deductions would be sustained upon a taxing jurisdiction’s audit. Therefore, no reserve for uncertain tax positions is required. No interest or penalties have been levied against the Company and none are anticipated.

Note 3: Land Sale

During the third quarter of 2015, the Company purchased approximately 200 acres of land. The purchase included fifty percent of the mineral rights and no merchantable timber value was recorded. The 1031 exchange proceeds of \$187,500, discussed below, were applied to this transaction.

During the second quarter of 2015, the Company sold its 1/6<sup>th</sup> interest in approximately 155 acres of land located in Jefferson Davis Parish for \$187,500 and reported a gain of \$170,853. This transaction was structured as a “deferred exchange using a qualified intermediary” pursuant to Paragraph 1031 of the Internal Revenue Code (1031 Exchange) for income tax purposes. Due to the 1031 exchange, the gain of \$170,853 is deferred for income tax purposes. At September 30, 2015, the 1031 exchange has been completed and \$187,500 in proceeds was used for the purchase of the 200 acres in Natchitoches Parish discussed above.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**Results of Operations**

**Revenue**

Comparison of Revenues for the nine months ended September 30, 2015 and 2014 follows:

	2015	2014	\$ Change	% Change
Oil and Gas	672,986	1,213,317	(540,331 )	(44.53%)
Timber	19,447	491,088	(471,641 )	(96.04%)
Surface	189,034	421,834	(232,800 )	(55.19%)
Total	881,467	2,126,239	(1,244,772)	(58.54%)

**Oil and Gas**

CKX leases its property to oil and gas operators and collects income through its land ownership in the form of oil and gas royalties and lease rentals and geophysical revenues. A breakdown of oil and gas revenues follows:

	2015	2014	\$ Change	% Change
Oil	505,614	944,550	(438,936 )	(46.47%)
Gas	156,993	181,318	(24,325 )	(13.42%)
Lease and Geophysical	10,379	87,449	(77,070 )	(88.13%)
Total	672,986	1,213,317	(540,331 )	(44.53%)

CKX received oil and/or gas revenues from 114 and 113 wells during the nine months ended September 30, 2015 and 2014, respectively.

Edgar Filing: CKX LANDS, INC. - Form 10-Q

The following schedule summarizes barrels and MCF produced and average price per barrel and per MCF.

	2015	2014
Net oil produced (Bbl) <sup>(2)</sup>	8,805	8,531
Average oil sales price (per Bbl) <sup>(1,2)</sup>	\$53.46	\$101.17
Net gas produced (MCF)	45,700	34,694
Average gas sales price (per MCF) <sup>(1)</sup>	\$3.44	\$5.23

Notes to above schedule:

<sup>(1)</sup> Before deduction of production and severance taxes.

<sup>(2)</sup> Excludes plant products.

Oil and Gas revenues declined by \$540,331 from 2014 revenues. As indicated in the schedule above the decline was due to an increased production not offsetting the declines in average sales prices for both oil and gas.

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Lease and geophysical revenues decreased \$77,070 from 2014 amounts. These revenues are dependent on oil and gas producers' activities, are not predictable and can vary significantly from year to year.

Management believes oil and gas activity is driven by the current and forecasted commodity prices, demand for oil and gas, and upstream and downstream industry activity. Based on available public information, management believes that oil and gas activity which includes oil and gas production as well as lease rentals and geophysical will continue to be depressed when compared to 2014 reported amounts.

During the first quarter of 2015, the Company marketed timber for sale and has found the demand for timber to be depressed. The Company has and will continue to market its timber for sale during 2015 but acceptable offer prices will determine if a sale is made in 2015.

Surface revenue decreased due to several large right of way agreements being executed in 2014. As previously noted by management, pipeline, utility and other right of ways are not unusual to the Company; however agreements of the magnitude seen in 2014 are unusual. Surface revenues are not predictable and can vary significantly from year to year.

**Costs and Expenses**

Oil and gas costs, primarily severance taxes, decreased by \$18,533 in 2015. With the reduction in oil and gas revenues, the decrease was expected.

General and administrative expenses decreased by \$16,508. Compensation expense and director fees decreased by \$18,625 and \$8,200, respectively, in 2015. Both compensation and director fees decreased due to the Company holding the board meetings for the annual meeting and the first quarter meeting on the same day. Compensation expense was further reduced due to lower incentive compensation paid in 2015. These decreases were offset by increases in professional fees (\$4,031), property management fees (\$3,310) and public company fees (\$3,750). The increase in legal fees related to increased land acquisition activities, property management fees related to an increase in timber management activities and public company fees related to an increase in the annual NYSE fee.

Depreciation and depletion decreased by \$46,966 in 2015. With the reduction in timber revenues, the decrease was expected.

Other costs and expenses incurred for the nine months ended September 30, 2015 were materially consistent with 2014 reported amounts.

### **Financial Condition**

Current assets totaled \$6,776,598 and total liabilities equaled \$688,551 at September 30, 2015. Management believes available cash and certificates of deposit together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions. Additional sources of liquidity include an available bank line of credit of \$5,000,000.

Due to the deterioration of current earnings the Company did not declare a quarterly dividend during the quarter ended September 30, 2015. In assessing the amount of or if a quarterly dividend will be declared, the Board of Directors will review recent earnings, current liquidity, and other relevant information.

From time to time, the Company may elect to pay an extra dividend. In determining if an extra dividend will be declared, the Board of Directors will take into consideration the Company's current liquidity and capital resources and the availability of suitable timberland with mineral potential.

**Item MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS  
2. OF OPERATIONS (continued)**

**Issues and Uncertainties**

This quarterly report contains forward-looking statements. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those discussed below, which, among others, should be considered in evaluating the Company's financial outlook.

Revenues from oil and gas provide a significant portion of the Company's net income and cash flows. These revenues come from wells operated by other companies which CKX Lands, Inc. owns a royalty interest. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of these other companies.

**Item 3. Not applicable.**

**Item 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

The Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of the Company's management, including the President, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by the report.

**Changes in Internal Control Over Financial Reporting**

There were no significant changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the quarter covered by this report.
