NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

These interim consolidated financial statements include the accounts of White Mountains Insurance Group, Ltd. (the “Company” or the “Registrant”) and its subsidiaries (collectively, with the Company, “White Mountains”) and have been prepared in accordance with generally accepted accounting principles in the United States (“GAAP”). The Company is an exempted Bermuda limited liability company whose principal businesses are conducted through its property and casualty insurance and reinsurance subsidiaries and affiliates. The Company’s headquarters is located at 14 Wesley Street, Hamilton, Bermuda HM 11, its principal executive office is located at 80 South Main Street, Hanover, New Hampshire 03755-2053 and its registered office is located at Clarendon House, 2 Church Street, Hamilton, Bermuda HM 11. White Mountains’ reportable segments are OneBeacon, Sirius Group and Other Operations. As discussed further in Note 2, on October 7, 2011, White Mountains completed its sale of Esurance Holdings, Inc. and its subsidiaries (“Esurance Insurance”) and Answer Financial Inc. and its subsidiaries (“AFI”) (collectively, “Esurance”). Esurance has been presented as discontinued operations. (See Note 14 for discontinued operations).

The OneBeacon segment consists of OneBeacon Insurance Group, Ltd. (“OneBeacon Ltd.”), an exempted Bermuda limited liability company that owns a family of U.S.-based property and casualty insurance companies (collectively “OneBeacon”), most of which operate in a multi-company pool. OneBeacon is a specialty property and casualty insurance writer that offers a wide range of insurance products through independent agencies, regional and national brokers, wholesalers and managing general agencies. As of September 30, 2012 and December 31, 2011, White Mountains owned 75.2% and 75.5% of OneBeacon Ltd.’s outstanding common shares.

As discussed further in Note 2, OneBeacon entered into a definitive agreement to sell its runoff business in October 2012 and sold its AutoOne Insurance business (“AutoOne”) in February 2012. The runoff business and AutoOne are presented as discontinued operations. Assets and liabilities associated with the runoff business as of September 30, 2012 and AutoOne as of December 31, 2011 have been presented as held for sale in the financial statements. Prior year income statement and cash flow amounts have been reclassified to conform to the current year’s presentation. (See Note 14 for discontinued operations).

The Sirius Group segment consists of Sirius International Insurance Group, Ltd., an exempted Bermuda limited liability company, and its subsidiaries (collectively, “Sirius Group”). Sirius Group provides insurance and reinsurance products for property, accident and health, aviation and space, trade credit, marine, agriculture and certain other exposures on a worldwide basis through its subsidiaries, Sirius International Insurance Corporation (“Sirius International”), Sirius America Insurance Company (“Sirius America”) and Lloyds Syndicate 1945 (“Syndicate 1945”). Sirius Group also specializes in the acquisition and management of runoff insurance and reinsurance companies both in the United States and internationally through its White Mountains Solutions division. On December 31, 2011, Sirius Group completed a transaction led by White Mountains Solutions to acquire the runoff loss reserve portfolio of Old Lyme Insurance Company Ltd. (“Old Lyme”). Sirius Group also includes Scandinavian Reinsurance Company, Ltd. (“Scandinavian Re”) and Central National Insurance Company of Omaha (“Central National”), which are both in runoff.

White Mountains’ Other Operations segment consists of the Company and its intermediate holding companies, its wholly-owned investment management subsidiary, White Mountains Advisors LLC (“WM Advisors”), White Mountains’ variable annuity reinsurance business, White Mountains Life Reinsurance (Bermuda) Ltd. (“WM Life Re”), which is in runoff, as well as various other entities not included in other segments. For 2011, the Other Operations segment also included the consolidated results of the Tuckerman Capital, LP fund (“Tuckerman Fund I”). On December 31, 2011, Tuckerman Fund I liquidated and distributed all of its assets, which consisted of shares of two small manufacturing companies, Hamer, LLC (“Hamer”) and Bri-Mar Manufacturing, LLC (“Bri-Mar”), to its partners, including White Mountains. Commencing on January 1, 2012, the consolidated results of Hamer and Bri-Mar are included in the Other Operations segment.

In July 2012, White Mountains capitalized HG Global Ltd. (“HG Global”) to fund Build America Mutual Assurance Company (“BAM”), a newly formed mutual municipal bond insurer, and HG Re, Ltd. (“HG Re”), a wholly-owned subsidiary of HG Global. As of September 30, 2012, White Mountains owned 97% of HG Global’s preferred equity

and 89% of its common equity. HG Global provided the initial capitalization of BAM through the purchase of surplus notes. Through HG Re, HG Global provides first loss reinsurance protection for policies underwritten by BAM of 15% of par outstanding, on a per policy basis. HG Re's obligations to BAM are collateralized in trusts, and there is an aggregate loss limit that is equal to the total assets in the collateral trusts at any point in time. HG Global and BAM are both included in the Other Operations segment. U.S. GAAP requires White Mountains to consolidate the results of BAM. However, BAM is a mutual insurance company owned by its members and its equity and results of operations are included in noncontrolling interests.

White Mountains' discontinued operations consist of Esurance Insurance, AFI, OneBeacon's runoff business and AutoOne. Esurance Insurance wrote personal auto insurance directly to customers in 30 states through its website and over the phone and also sold other lines of personal insurance for unaffiliated insurance companies. Esurance Insurance also wrote personal auto policies through select online agents and provided other insurance products through partnerships with industry leading online providers. Esurance Insurance earned commissions and fees by referring to unaffiliated insurance companies those shoppers that it could not underwrite because of pricing or underwriting eligibility. AFI sold insurance online and through call centers for both Esurance Insurance and unaffiliated companies utilizing a comparison quoting platform. AutoOne was formed by OneBeacon in 2001 to provide products and services to automobile assigned risk markets primarily in New York and New Jersey.

All significant intercompany transactions have been eliminated in consolidation. These interim financial statements include all adjustments considered necessary by management to fairly present the financial position, results of operations and cash flows of White Mountains. These interim financial statements may not be indicative of financial results for the full year and should be read in conjunction with the Company's 2011 Annual Report on Form 10-K. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Refer to the Company's 2011 Annual Report on Form 10-K for a complete discussion regarding White Mountains' significant accounting policies.

Noncontrolling Interests

Noncontrolling interests consist of the ownership interests of noncontrolling parties in consolidated entities and are presented separately as a component of equity on the balance sheet.

The percentage of the noncontrolling equity interests in OneBeacon Ltd. at September 30, 2012 and December 31, 2011 was 24.8% and 24.5%.

In July 2012, HG Global was capitalized with \$594.5 million from White Mountains and \$14.5 million from certain management members of BAM, the latter of which is included in noncontrolling interest. Upon closing, certain BAM management members also received additional common and preferred shares of HG Global that resulted in a \$2.2 million allocation of the carrying value of White Mountains' investment in HG Global to the noncontrolling interest, which was recorded as an adjustment to paid-in surplus in White Mountains' consolidated statement of changes in equity.

White Mountains is required to consolidate BAM in its GAAP financial statements. However, since BAM is a mutual insurance company that is owned by its members and not White Mountains, BAM's results do not affect White Mountains' common shareholders' equity as they are attributable to noncontrolling interests. For the third quarter of 2012, BAM reported \$18 million in pre-tax losses that have been allocated to noncontrolling interest.

In May 2007, Sirius International Group, Ltd. ("SIG"), an intermediate holding company of Sirius Group, issued \$250 million non-cumulative perpetual preference shares with a \$1,000 per share liquidation preference (the "SIG Preference Shares"). Proceeds of \$245.7 million, net of \$4.3 million of issuance costs and commissions, were received from the issuance. The SIG Preference Shares are included in noncontrolling interests on the balance sheet.

At September 30, 2012 and December 31, 2011, the noncontrolling equity interest in limited partnerships that are consolidated with White Mountains (the Prospector Offshore Fund, the Prospector Turtle Fund and Tuckerman Fund I prior to December 31, 2011) was \$52.8 million and \$54.2 million. On December 31, 2011, Tuckerman Fund I was dissolved and all of the net assets of the fund, which consisted of common stock of Hamer and Bri-Mar, were distributed. At September 30, 2012, the noncontrolling equity interest in Hamer and Bri-Mar was \$4.5 million. At September 30, 2012 and December 31, 2011, the noncontrolling equity interest in A.W.G. Dewar Inc, a subsidiary of OneBeacon, was \$3.2 million and \$2.3 million. At September 30, 2012 and December 31, 2011, the noncontrolling equity interest in Passage2Health Limited, a subsidiary of Sirius Group, was \$0.3 million and \$0.6 million.

Recently Adopted Changes in Accounting Principles

Policy Acquisition Costs

On January 1, 2012, White Mountains adopted ASU 2010-26, Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts (ASC 944). The new standard changes the types of policy acquisition costs that are eligible for deferral. Specifically, the new guidance limits deferrable costs to those that are incremental direct costs of contract acquisition and certain costs related to acquisition activities performed by the insurer, such as underwriting, policy issuance and processing, medical and inspection costs and sales force contract selling. The ASU defines incremental direct costs as those costs that result directly from and were essential to the contract acquisition and would not have been incurred absent the acquisition. Accordingly, under the new guidance, deferrable acquisition costs are limited to costs related to successful contract acquisitions. Acquisition costs that are not eligible for deferral are to be charged to expense in the period incurred.

White Mountains adopted ASU 2010-26 prospectively. Upon adoption, certain acquisition costs, primarily a portion of the profit sharing commissions associated with OneBeacon's collector car and boats business, no longer meet the criteria for deferral. Deferred acquisition costs of \$5.6 million at January 1, 2012 that no longer meet the criteria for deferral under ASU 2010-26 will be recognized in expense over the original amortization periods. For the three and nine months ended September 30, 2012, White Mountains recognized \$0.9 million and \$5.3 million of expense related to such previously deferrable acquisition costs. If White Mountains had adopted ASU 2010-26 retrospectively, \$1.4 million and \$5.7 million of acquisition costs that were deferred would have been recognized in expense for the three and nine months ended September 30, 2011.

Fair Value Measurements

On January 1, 2012, White Mountains adopted ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS. The ASU clarifies existing guidance with respect to the concepts of highest and best use and valuation premise and measuring instruments classified within a reporting entity's shareholders' equity. The ASU also clarifies disclosure requirements, requiring disclosure of quantitative information about unobservable inputs used in Level 3 fair value measurements. The ASU also amends existing guidance. In circumstances where a reporting entity manages a portfolio of financial assets and liabilities based on the net market and counterparty credit risk exposures, the ASU permits determination of the fair value of those instruments to be based on the net risk exposure. In addition, the ASU permits the application of premiums or discounts to be applied in a fair value measurement to the extent that market participants would consider them in valuing the financial instruments. The ASU also expands the required disclosures for Level 3 measurements, requiring that reporting entities provide a narrative description of the sensitivity of Level 3 fair value measurements to changes in unobservable inputs and the interrelationships between those inputs, if any. As a result of adopting ASU 2011-04, White Mountains expanded its fair value disclosures. (See Note 5).

Comprehensive Income

For fiscal periods beginning after December 15, 2011, ASU 2011-05, Comprehensive Income, became effective, which requires all components of comprehensive income to be reported in a continuous financial statement or in consecutive statements displaying the components of net income and the components of other comprehensive income. Since White Mountains previously presented comprehensive income in a continuous financial statement, adoption of ASU 2011-05 had no effect on White Mountains' financial statement presentation.

Recently Issued Accounting Pronouncements

Offsetting Assets and Liabilities

On December 16, 2011, the FASB issued ASU 2011-11, Disclosures about Offsetting Assets and Liabilities (ASC 210). The new standard expands the required disclosures in circumstances where either balances have been offset or the right of offset exists. The required disclosures are intended to provide information to enable financial statement users to evaluate the effect or potential effect of netting arrangements on a reporting entity's financial position. Disclosures required under the new standard include the gross amount of assets and liabilities recognized; the amounts that have been offset to arrive at the amounts presented in the statement of financial position; and for any amounts subject to an enforceable master netting arrangement, whether such amounts have been offset. In addition, a description of the rights of offset should be disclosed. ASU 2011-11 is effective for periods beginning on or after January 1, 2013. White Mountains is party to master netting arrangements in connection with the derivative instruments held by WM Life Re and is currently evaluating the effect of adoption will have on its disclosures, but does not expect adoption to have a material effect on its financial position, results of operations or cash flows.

Note 2. Significant Transactions

Formation of HG Global and BAM

In July 2012, White Mountains capitalized HG Global with \$594.5 million to fund BAM, a newly formed mutual municipal bond insurer. As of September 30, 2012, White Mountains owned 97% of HG Global's preferred equity and 89% of its common equity. HG Global provided the initial capitalization of BAM through the purchase of \$503.0 million of BAM surplus notes. Through HG Re, HG Global provides first loss reinsurance protection for policies underwritten by BAM of 15% of par outstanding, on a per policy basis. HG Re's obligations to BAM are collateralized in trusts, and there is an aggregate loss limit that is equal to the total assets in the collateral trusts at any point in time. U.S. GAAP requires White Mountains to consolidate BAM in its financial statements. However, since BAM is a mutual insurance company that is owned by its members and not White Mountains, BAM's results do not affect White Mountains' common shareholders' equity as they are attributable to noncontrolling interests. For the three and nine months ended September 30, 2012, HG Global had pre-tax income of \$4.8 million, which included \$8.3 million of interest income on the BAM surplus notes. For the three and nine months ended September 30, 2012, BAM had a pre-tax loss of \$18.0 million that was recorded in net loss attributable to noncontrolling interests, which included \$8.3 million of interest expense on its surplus notes.

Sale of OneBeacon runoff business

On October 17, 2012, one of OneBeacon's indirect wholly-owned subsidiaries, OneBeacon Insurance Group LLC, entered into a definitive agreement with Trebuchet US Holdings, Inc. ("Trebuchet"), a wholly-owned subsidiary of Armour Group Holdings Limited (together with Trebuchet, "Armour"), to sell its runoff business (the "Runoff Transaction"). Pursuant to the terms of the agreement, at closing OneBeacon will transfer to Trebuchet all of the issued and outstanding shares of common stock of certain legal entities that will contain the assets, liabilities (including gross and ceded loss reserves) and capital supporting the runoff business as well as certain elements of the runoff business infrastructure, including staff and office space. Additionally, as part of the Runoff Transaction, OneBeacon may provide financing in the form of surplus notes. The transaction is subject to regulatory approvals and is expected to close in the second half of 2013.

During the third quarter of 2012, OneBeacon recorded \$100.5 million in after-tax losses related to the Runoff Transaction. These losses are presented in discontinued operations and are composed of a \$91.5 million after-tax loss on sale and a \$9.0 million after-tax loss related to an reduction in the workers compensation loss reserve discount rate on reserves being transferred as part of the sale. OneBeacon also recognized \$6.5 million of after-tax underwriting losses primarily related to unfavorable loss reserve development from a legacy assumed reinsurance treaty, which is presented in discontinued operations (see Note 14).

Sale of AutoOne

On February 22, 2012, OneBeacon completed the sale of AutoOne to Interboro Holdings, Inc. ("Interboro"). OneBeacon formed AutoOne in 2001 to provide products and services to automobile assigned risk markets primarily in New York and New Jersey. OneBeacon transferred to the buyer AutoOne Insurance Company ("AOIC") and AutoOne Select Insurance Company ("AOSIC"), which contained the assets, liabilities (including loss reserves and unearned premiums), and the capital of the AutoOne business, and transferred substantially all of the AutoOne infrastructure including systems and office space as well as certain staff. As a result of the sale, AutoOne is reported as discontinued operations (see Note 14).

Sale of Esurance

On October 7, 2011, White Mountains completed the sale of Esurance Insurance and AFI to The Allstate Corporation ("Allstate") for \$700 million plus tangible book value. White Mountains recorded a gain on the sale of \$677.5 million in discontinued operations in the fourth quarter of 2011. The transaction is subject to a true-up of the estimated tangible book value of the entities sold through the date of closing and certain other contingencies (see Note 14).

Share Repurchases

On March 22, 2012, White Mountains completed a fixed-price tender offer and repurchased 816,829 of its common shares at \$500 per share. The total cost of the share repurchase was \$408.6 million, including fees and expenses. During 2011, White Mountains completed two “modified Dutch auction” self-tender offers and repurchased 332,346 of its common shares at an average price of \$418 per share. The total cost of the share repurchases was \$138.8 million, including fees and expenses.

In addition to the tender offers, which were separately authorized, the board of directors has authorized the Company to repurchase its common shares, from time to time, subject to market conditions. In 2006, White Mountains’ board of directors authorized the Company to repurchase up to 1,000,000 of its common shares and in 2010 White Mountains’ board of directors authorized the Company to repurchase an additional 600,000 of its common shares. On May 25, 2012, White Mountains' board of directors authorized the Company to repurchase an additional 1,000,000 of its common shares. Shares may be repurchased on the open market or through privately negotiated transactions. The repurchase authorization does not obligate the Company to acquire any specific number of shares, nor is there a stated expiration date.

During the three and nine months ended September 30, 2012, the Company repurchased 50,000 and 217,801 common shares for \$26.4 million and \$107.6 million under this program.

During the nine months ended September 30, 2011, the Company repurchased 265,768 common shares for \$93.2 million.

Since the inception of this authorization through September 30, 2012, the Company repurchased 1,629,504 common shares for \$645.1 million. At September 30, 2012, the Company may repurchase an additional 970,496 shares under this authorization.

Note 3. Loss and Loss Adjustment Expense Reserves

The following table summarizes the loss and loss adjustment expense (“LAE”) reserve activities of White Mountains’ insurance and reinsurance subsidiaries for the three and nine months ended September 30, 2012 and 2011:

Millions	Three Months Ended		Nine Months Ended	
	September 30, 2012	2011	September 30, 2012	2011
Gross beginning balance	\$5,329.8	\$5,642.4	\$5,702.3	\$5,736.8
Less beginning reinsurance recoverable on unpaid losses	(2,369.4)	(2,193.0)	(2,507.3)	(2,344.0)
Net loss and LAE reserves	2,960.4	3,449.4	3,195.0	3,392.8
Less: Beginning net loss and LAE reserves for AutoOne and OneBeacon's runoff business ⁽¹⁾	(296.0)	(503.2)	(384.1)	(620.6)
Loss and LAE incurred relating to:				
Current year losses	318.2	307.1	842.9	968.0
Prior year losses	(10.1)	(26.9)	(21.2)	(47.6)
Total incurred losses and LAE	308.1	280.2	821.7	920.4
Accretion of fair value adjustment to loss and LAE reserves	1.1	2.1	9.4	6.2
Foreign currency translation adjustment to loss and LAE reserves	12.0	(25.5)	11.7	5.7
Loss and LAE paid relating to:				
Current year losses	(101.1)	(109.7)	(223.9)	(226.3)
Prior year losses	(181.5)	(186.9)	(726.8)	(571.8)
Total loss and LAE payments	(282.6)	(296.6)	(950.7)	(798.1)
Plus: Ending net loss and LAE reserves for AutoOne and OneBeacon's runoff business (1)	—	394.4	—	394.4
Net ending balance	2,703.0	3,300.8	2,703.0	3,300.8
Plus ending reinsurance recoverable on unpaid losses	356.8	2,581.2	356.8	2,581.2
Gross ending balance	\$3,059.8	\$5,882.0	\$3,059.8	\$5,882.0

⁽¹⁾ Loss and LAE reserve balances for OneBeacon's run-off business prior to September 30, 2012 and AutoOne prior to September 30, 2011 were not classified as held for sale. Adjustment is to present loss and LAE reserve activities from continuing operations.

Loss and LAE incurred relating to prior year losses for the three and nine months ended September 30, 2012

During the three and nine months ended September 30, 2012, White Mountains experienced \$10.1 million and \$21.2 million of net favorable loss reserve development.

For the three and nine months ended September 30, 2012, OneBeacon had net favorable loss reserve development of \$2.3 million and \$7.6 million, primarily related to professional liability lines, multiple peril liability lines and other general liability lines.

For the three and nine months ended September 30, 2012, Sirius Group had net favorable loss reserve development of \$7.8 million and \$13.6 million. With the completion of a ground-up asbestos reserve study in the quarter, Sirius Group increased asbestos loss reserves by \$33.0 million and \$45.0 million in the three and nine months ended September 30, 2012. These increases were more than offset by reductions in liability and property loss reserves.

Loss and LAE incurred relating to prior year losses for the three and nine months ended September 30, 2011

During the three and nine months ended September 30, 2011, White Mountains experienced \$26.9 million and \$47.6 million of net favorable loss reserve development.

For the three and nine months ended September 30, 2011, OneBeacon had net favorable loss reserve development of \$6.0 million and \$14.4 million, primarily related to professional liability lines, multiple peril liability lines and other general liability lines.

For the three and nine months ended September 30, 2011, Sirius Group had net favorable loss reserve development of \$20.9 million and \$33.2 million, primarily attributable to property lines.

Fair value adjustment to loss and LAE reserves

In connection with purchase accounting for acquisitions, White Mountains was required to adjust loss and LAE reserves and the related reinsurance recoverables to fair value on their respective acquired balance sheets. The net reduction to loss and LAE reserves is being recognized through an income statement charge ratably with and over the period the claims are settled. White Mountains recognized \$1.1 million and \$9.4 million of such charges, recorded as loss and LAE for the three and nine months ended September 30, 2012, and \$2.1 million and \$6.2 million for the three and nine months ended September 30, 2011. Accretion of fair value adjustment to losses and LAE reserves for the nine months ended September 30, 2012 included \$5.0 million from the first quarter of 2012 due to the acceleration of the amortization of the purchase accounting established for the acquisition of Scandinavian Re. This acceleration was a result of a final settlement and commutation of Scandinavian Re's multi-year retrocessional Casualty Aggregate Stop Loss Agreement with St. Paul Fire & Marine Insurance Company ("St Paul"). As of September 30, 2012, the remaining unamortized fair value adjustment for Scandinavian Re was \$2.0 million.

Note 4. Third Party Reinsurance

In the normal course of business, White Mountains' insurance and reinsurance subsidiaries may seek to limit losses that may arise from catastrophes or other events by reinsuring with third party reinsurers. White Mountains remains liable for risks reinsured in the event that the reinsurer does not honor its obligations under reinsurance contracts.

OneBeacon

At September 30, 2012, OneBeacon had \$2.0 million of reinsurance recoverables on paid losses and \$41.3 million that will become recoverable if claims are paid in accordance with current reserve estimates. The reinsurance balances associated with the runoff business are included in discontinued operations (see Note 14). OneBeacon is selective with its reinsurers, placing reinsurance with only those reinsurers having a strong financial condition. OneBeacon monitors the financial strength of its reinsurers on an ongoing basis. Uncollectible amounts historically have not been significant.

Effective May 1, 2012, OneBeacon renewed its property catastrophe reinsurance program through April 30, 2013. The program provides coverage for OneBeacon's property business as well as certain acts of terrorism. Under the program, the first \$25 million of losses resulting from any single catastrophe are retained and the next \$155 million of losses resulting from the catastrophe are reinsured in three layers, OneBeacon retains a co-participation of 55% of losses from \$25 million to \$40 million, 15% of losses from \$40 million to \$80 million and 10% of losses from \$80 million to \$180 million. Thus, for a \$180 million loss, OneBeacon would retain \$49.3 million. Any loss above \$180 million would be retained in full. In the event of a catastrophe, OneBeacon's property catastrophe reinsurance program is reinstated for the remainder of the original contract term by paying a reinstatement premium that is based on the percentage of coverage reinstated and the original property catastrophe coverage premium.

The following table provides a listing of OneBeacon's top reinsurers, based upon recoverable amounts, the percentage of total paid and unpaid reinsurance recoverables and the reinsurer's A.M Best Company, Inc. ("A.M. Best") rating.

Top Reinsurers (Millions)	Balance at September 30, 2012	% of Total	A.M. Best Rating ⁽¹⁾
Hannover Ruckversich	\$6.4	15	% A+

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form 10-Q

Hartford Steam Boiler	4.6	11	% A++
Munich Reinsurance America	4.5	10	% A+
Platinum Underwriters Re	4.1	9	% A
Transatlantic Reinsurance	2.0	5	% A

¹⁾ A.M. Best ratings as detailed above are: “A++” (Superior, which is the highest of fifteen financial strength ratings), “A+” (Superior, which is the second highest of fifteen financial strength ratings) and “A” (Excellent, which is the third highest of fifteen financial strength ratings).

Sirius Group

At September 30, 2012, Sirius Group had \$12.7 million of reinsurance recoverables on paid losses and \$315.5 million of reinsurance that will become recoverable if claims are paid in accordance with current reserve estimates. Because reinsurance contracts do not relieve Sirius Group of its obligation to its ceding companies, the collectability of balances due from its reinsurers is important to Sirius Group's financial strength. Sirius Group monitors the financial strength of its reinsurers on an ongoing basis.

The following table provides a listing of Sirius Group's top reinsurers based upon recoverable amounts, the percentage of total paid and unpaid reinsurance recoverables and the reinsurers' A.M. Best ratings.

Top Reinsurers (Millions)	Balance at September 30, 2012	% of Total	A.M. Best Rating ⁽¹⁾	% Collateralized
General Reinsurance Corporation	\$42.3	13	% A++	1 %
Swiss Re Group	33.7	10	% A+	5 %
Lloyds of London ⁽²⁾	29.9	9	% A	4 %
Olympus ⁽³⁾	28.8	9	% NR-5	100 %
Michigan Catastrophic Claims Association ⁽⁴⁾	14.6	4	% N/A	— %

⁽¹⁾ A.M. Best ratings as detailed above are: "A++" (Superior, which is the highest of fifteen financial strength ratings), "A+" (Superior, which is the second highest of fifteen financial strength ratings), "A" (Excellent, which is the third highest of fifteen financial strength ratings) and "NR-5" (Not formally followed).

⁽²⁾ Represents the total of reinsurance recoverables due to Sirius Group from all Lloyds Syndicates.

⁽³⁾ Non-U.S. insurance entity. The balance is fully collateralized through funds held, letters of credit or trust agreements.

⁽⁴⁾ Michigan Catastrophic Claims Association ("MCCA") is a non-profit unincorporated association, established by the State of Michigan with the power to issue and collect assessments, to which every insurance company that sells automobile coverage in Michigan is required to be a member. A.M. Best does not rate MCCA. Sirius Group acquired its recoverable from MCCA in the acquisition of Stockbridge Insurance Company. As part of the acquisition, Sirius Group obtained \$25.0 of reinsurance protection from the seller (currently rated A+ by A.M. Best) for unfavorable loss reserve development, including uncollectible reinsurance.

Note 5. Investment Securities

White Mountains' invested assets consist of securities and other long-term investments held for general investment purposes. The portfolio of investment securities includes short-term investments, fixed maturity investments, convertible fixed maturity investments and equity securities which are all classified as trading securities. Trading securities are reported at fair value as of the balance sheet date. Realized and unrealized investment gains and losses on trading securities are reported in pre-tax revenues. White Mountains' investments in debt securities, including mortgage-backed and asset-backed securities, are generally valued using industry standard pricing models. Key inputs include benchmark yields, benchmark securities, reported trades, issuer spreads, bids, offers, credit ratings and prepayment speeds. Income on mortgage-backed and asset-backed securities is recognized using an effective yield based on anticipated prepayments and the estimated economic life of the securities. When actual prepayments differ significantly from anticipated prepayments, the estimated economic life is recalculated and the remaining unamortized premium or discount is amortized prospectively over the remaining economic life.

Realized investment gains and losses resulting from sales of investment securities are accounted for using the specific identification method. Premiums and discounts on all fixed maturity investments are amortized or accreted to income over the anticipated life of the investment. Short-term investments consist of money market funds, certificates of deposit and other securities which, at the time of purchase, mature or become available for use within one year. Short-term investments are carried at amortized or accreted cost, which approximated fair value as of September 30, 2012 and December 31, 2011.

Other long-term investments primarily comprise White Mountains' investments in hedge funds and private equity funds.

Net Investment Income

Pre-tax net investment income for the three and nine months ended September 30, 2012 and 2011 consisted of the following:

Millions	Three Months Ended		Nine Months Ended	
	Sept 30, 2012	2011	Sept 30, 2012	2011
Investment income:				
Fixed maturity investments	\$ 33.0	\$ 38.5	\$ 105.1	\$ 127.0
Short-term investments	.5	.9	2.3	3.2
Common equity securities	4.8	3.6	13.8	10.1
Convertible fixed maturity investments	2.0	1.3	5.9	3.9
Other long-term investments	.7	1.2	2.2	1.9
Interest on funds held under reinsurance treaties	—	.2	—	(.6)
Total investment income	41.0	45.7	129.3	145.5
Less third-party investment expenses	(3.4)	(2.9)	(9.5)	(7.4)
Net investment income, pre-tax	\$ 37.6	\$ 42.8	\$ 119.8	\$ 138.1

Net Realized and Unrealized Investment Gains and Losses

Net realized and unrealized investment gains and losses for the three and nine months ended September 30, 2012 and 2011 consisted of the following:

Millions	Three Months Ended		Nine Months Ended	
	Sept 30, 2012	2011	Sept 30, 2012	2011
Net realized investment gains, pre-tax	\$ 23.7	\$ 38.3	\$ 40.5	\$ 67.7
Net unrealized investment (losses) gains, pre-tax	49.0	(35.4)	82.7	(31.3)
Net realized and unrealized investment gains, pre-tax	72.7	2.9	123.2	36.4
Income tax expense attributable to net realized and unrealized investment gains (losses)	(12.3)	(1.4)	(28.3)	(12.7)
Net realized and unrealized investment gains, after tax	\$ 60.4	\$ 1.5	\$ 94.9	\$ 23.7

Net realized investment gains (losses)

Net realized investment gains (losses) for the three and nine months ended September 30, 2012 and 2011 consisted of the following:

Millions	Three Months Ended		Nine Months Ended	
	Sept 30, 2012	2011	Sept 30, 2012	2011
Fixed maturity investments	\$ 29.0	\$ 14.1	\$ 69.5	\$ 3.3

Other long-term investments

White Mountains holds investments in hedge funds and private equity funds, which are included in other long-term investments. The fair value of these investments has been estimated using the net asset value of the funds. At September 30, 2012, White Mountains held investments in 17 hedge funds and 36 private equity funds. The largest investment in a single fund was \$19.2 million at September 30, 2012. The following table summarizes investments in hedge funds and private equity interests by investment objective and sector at September 30, 2012 and December 31, 2011:

Millions	September 30, 2012		December 31, 2011	
	Fair Value	Unfunded Commitments	Fair Value	Unfunded Commitments

Total hedge and private equity funds included in other long-term investments	\$ 254.1	\$ 108.5	\$ 254.2	\$ 81.5

Redemption of investments in certain hedge funds is subject to restrictions including lock-up periods where no redemptions or withdrawals are allowed, restrictions on redemption frequency and advance notice periods for redemptions. Amounts requested for redemptions remain subject to market fluctuations until the redemption effective date, which generally falls at the end of the defined redemption period.

The following summarizes the September 30, 2012 fair value of hedge funds subject to restrictions on redemption frequency and advance notice period requirements for investments in active hedge funds:

Millions	Notice Period				Total
	30-59 days	60-89 days	90-119 days	120+ days	
Redemption frequency notice		notice	notice	notice	
Monthly	\$—	\$—	\$—	\$6.8	\$6.8

Semi-annual	—	20.6	—	—	20.6
Annual	2.3	—	8.5	.4	11.2
Total	\$29.4	\$49.9	\$28.4	\$16.6	\$124.3

Certain of the hedge fund investments in which White Mountains is invested are no longer active and are in process of disposing of their underlying investments. Distributions from such funds are remitted to investors as the fund's underlying investments are liquidated. At September 30, 2012, distributions of \$3.3 million were outstanding from these investments. The actual amount of the final distribution remittances remain subject to market fluctuations. The date at which such remittances will be received is not determinable at September 30, 2012.

White Mountains has also submitted redemption requests for certain of its investments in active hedge funds. At September 30, 2012, redemptions of \$13.9 million are outstanding and are subject to market fluctuations. The majority of such remittances are expected to be received in the fourth quarter of 2012. Redemptions are recorded as receivables when approved by the hedge funds and no longer subject to market fluctuations.

Investments in private equity funds are generally subject to a "lock-up" period during which investors may not request a redemption. Distributions prior to the expected termination date of the fund may be limited to dividends or proceeds arising from the liquidation of the fund's underlying investments. In addition, certain private equity funds provide an option to extend the lock-up period at either the sole discretion of the fund manager or upon agreement between the fund and the investors.

At September 30, 2012, investments in private equity funds were subject to lock-up periods as follows:

Millions	1-3 years	3 – 5 years	5 – 10 years	>10 years	Total
Private Equity Funds — expected lock-up period remaining	\$27.7	\$15.6	\$75.9	\$10.6	\$129.8

Fair value measurements at September 30, 2012

White Mountains' invested assets measured at fair value include fixed maturity investments, common and preferred equity securities, convertible fixed maturity investments and other long-term investments which primarily consist of hedge funds and private equity funds. Fair value measurements reflect management's best estimate of the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements fall into a hierarchy with three levels based on the nature of the inputs. Fair value measurements based on quoted prices in active markets for identical assets are at the top of the hierarchy ("Level 1"), followed by fair value measurements based on observable inputs that do not meet the criteria for Level 1, including quoted prices in inactive markets and quoted prices in active markets for similar, but not identical instruments ("Level 2"). Measurements based on unobservable inputs, including a reporting entity's estimates of the assumptions that market participants would use are at the bottom of the hierarchy ("Level 3").

White Mountains uses quoted market prices or other observable inputs to estimate fair value for the vast majority of its investment portfolio. Investments valued using Level 1 inputs include fixed maturity investments, primarily investments in U.S. Treasuries, common equities and short-term investments, which include U.S. Treasury Bills. Investments valued using Level 2 inputs consist of fixed maturity investments including corporate debt, state and other governmental debt, convertible fixed maturity securities and mortgage and asset-backed securities. Fair value estimates for investments that trade infrequently and have few or no observable market prices are classified as Level 3 measurements. Level 3 fair value estimates based upon unobservable inputs include White Mountains' investments in hedge funds and private equity funds, as well as investments in certain debt securities where quoted market prices are unavailable. White Mountains uses brokers and outside pricing services to assist in determining fair values. For investments in active markets, White Mountains uses the quoted market prices provided by outside pricing services to determine fair value. The outside pricing services used by White Mountains have indicated that if no observable inputs are available for a security, they will not provide a price. In those circumstances, White Mountains estimates the fair value using industry standard pricing models and observable inputs such as benchmark interest rates, matrix pricing, market comparables, broker quotes, issuer spreads, bids, offers, credit rating, prepayment speeds and other relevant inputs. White Mountains performs procedures to validate the market prices obtained from the outside pricing sources. Such procedures, which cover substantially all of its fixed maturity investments include, but are not limited to, evaluation of model pricing methodologies and review of the pricing services' quality control processes and procedures on at least an annual basis, comparison of market prices to prices obtained from different independent pricing vendors on at least a semi-annual basis, monthly analytical reviews of certain prices, and review of assumptions utilized by the pricing service for selected measurements on an ad hoc basis throughout the year. White Mountains also performs back-testing of selected sales activity to determine whether there are any significant differences between the market price used to value the security prior to sale and the actual sale price on an ad-hoc basis throughout the year. Prices provided by the pricing services that vary by more than 5% and \$1.0 million from the expected price based on these procedures are considered outliers. In circumstances where the results of White Mountains' review process do not appear to support the market price provided by the pricing services, White Mountains challenges the price. If White Mountains cannot gain satisfactory evidence to support the challenged price, it relies upon its own pricing methodologies to estimate the fair value of the security in question. The fair values of such securities are considered to be Level 3 measurements.

White Mountains' investments in debt securities are generally valued using matrix and other pricing models. Key inputs include benchmark yields, benchmark securities, reported trades, issuer spreads, bids, offers, credit ratings and prepayment speeds. Income on mortgage-backed and asset-backed securities is recognized using an effective yield based on anticipated prepayments and the estimated economic life of the securities. When actual prepayments differ significantly from anticipated prepayments, the estimated economic life is recalculated and the remaining unamortized premium or discount is amortized or accreted prospectively over the remaining economic life.

White Mountains employs a number of procedures to assess the reasonableness of the fair value measurements for its other long-term investments, including obtaining and reviewing the audited annual financial statements of each hedge fund and private equity fund and periodically discussing each fund's pricing with the fund manager. However, since the fund managers do not provide sufficient information to evaluate the pricing inputs and methods for each underlying investment, the inputs are considered to be unobservable. Accordingly, the fair values of White Mountains' investments in hedge funds and private equity funds have been classified as Level 3 measurements. The fair value of White Mountains' investments in hedge funds and private equity funds has been determined using net asset value.

In addition to the investments described above, White Mountains has \$77.1 million and \$68.1 million of investment-related liabilities recorded at fair value and included in other liabilities as of September 30, 2012 and December 31, 2011. These liabilities relate to securities that have been sold short by limited partnerships in which White Mountains has investments and is required to consolidate under GAAP. All of the liabilities included have a Level 1 designation.

Fair Value Measurements by Level

The following tables summarize White Mountains' fair value measurements for investments at September 30, 2012 and December 31, 2011, by level.

Millions	September 30, 2012

Debt securities issued by corporations

The following table summarizes the ratings of the corporate debt securities held in White Mountains' investment portfolio as of September 30, 2012 and December 31, 2011:

Millions	September 30, 2012	December 31, 2011
AAA	\$—	\$—
AA	165.5	206.8
A	992.8	802.8
BBB	1,108.5	1,110.8
BB	7.6	6.2
Other	6.9	8.5
Debt securities issued by corporations ⁽¹⁾	\$2,281.3	\$2,135.1

⁽¹⁾ Credit ratings are assigned based on the following hierarchy: 1) Standard & Poor's, 2) Moody's and 3) Bloomberg (Composite rating).

Mortgage-backed, Asset-backed Securities

White Mountains purchases commercial and residential mortgage-backed securities with the goal of maximizing risk adjusted returns in the context of a diversified portfolio. White Mountains' non-agency commercial mortgage-backed portfolio ("CMBS") is generally short tenor and structurally senior, with more than 25 points of subordination on average for fixed rate CMBS and more than 50 points of subordination on average for floating rate CMBS as of September 30, 2012. In general, subordination represents the percentage principal loss on the underlying collateral that would be absorbed by other securities lower in the capital structure before the more senior security incurs a loss. White Mountains believes these levels of protection will mitigate the risk of loss tied to the refinancing challenges facing the commercial real estate market. As of September 30, 2012, on average less than 1.0% of the underlying loans were reported as non-performing for all non-agency CMBS held by White Mountains. White Mountains is not an originator of residential mortgage loans and did not hold any residential mortgage-backed securities ("RMBS") categorized as sub-prime as of September 30, 2012. White Mountains' investments in hedge funds and private equity funds contain negligible amounts of sub-prime mortgage-backed securities at September 30, 2012. White Mountains considers sub-prime mortgage-backed securities as those that have underlying loan pools that exhibit weak credit characteristics, or those that are issued from dedicated sub-prime shelves or dedicated second-lien shelf registrations (i.e., White Mountains considers investments backed primarily by second-liens to be sub-prime risks regardless of credit scores or other metrics).

White Mountains categorizes mortgage-backed securities as "non-prime" (also called "Alt A" or "A-") if they are backed by collateral that has overall credit quality between prime and sub-prime based on White Mountains' review of the characteristics of their underlying mortgage loan pools, such as credit scores and financial ratios. White Mountains' non-agency residential mortgage-backed portfolio is generally short tenor and structurally senior. White Mountains does not own any collateralized debt obligations, including residential mortgage-backed collateralized debt obligations.

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form 10-Q

The following table summarizes mortgage and asset-backed securities as of September 30, 2012 and December 31, 2011:

⁽¹⁾ Represents publicly traded mortgage-backed securities which carry the full faith and credit guaranty of the U.S. government (i.e., GNMA) or are guaranteed by a government sponsored entity (i.e., FNMA, FHLMC).

Non-agency Mortgage-backed Securities

The security issuance years of White Mountains' investments in non-agency RMBS and non-agency CMBS securities as of September 30, 2012 are as follows:

Millions	Fair Value	Security Issuance Year						
		2003	2006	2007	2009	2010	2011	2012
Non-agency RMBS	\$160.5	\$2.2	\$21.4	\$7.1	\$1.7	\$53.2	\$74.9	\$—
Non-agency CMBS	389.3	—	4.5	15.3	11.9	6.1	127.4	224.1
Total	\$549.8	\$2.2	\$25.9	\$22.4	\$13.6	\$59.3	\$202.3	\$224.1

Non-agency Residential Mortgage-backed Securities

The classification of the underlying collateral quality and the tranche levels of White Mountains' non-agency RMBS securities are as follows as of September 30, 2012:

Millions	Fair Value	Super Senior ⁽¹⁾	Senior ⁽²⁾	Subordinate ⁽³⁾
Prime	\$160.0	\$13.0	\$147.0	\$—
Non-prime	.5	—	.5	—
Sub-prime	—	—	—	—
Total	\$160.5	\$13.0	\$147.5	\$—

⁽¹⁾ At issuance, Super Senior were rated AAA by Standard & Poor's, Aaa by Moody's or AAA by Fitch and were senior to other AAA or Aaa bonds.

(2) At issuance, Senior were rated AAA by Standard & Poor's, Aaa by Moody's or AAA by Fitch and were senior to non-AAA or non-Aaa bonds.

(3) At issuance, Subordinate were not rated AAA by Standard & Poor's, Aaa by Moody's or AAA by Fitch and were junior to AAA or Aaa bonds.

Non-agency Commercial Mortgage-backed Securities

The amount of fixed and floating rate securities and their tranche levels of White Mountains' non-agency CMBS securities are as follows as of September 30, 2012:

Millions	Fair Value	Super Senior ⁽¹⁾	Senior ⁽²⁾	Subordinate ⁽³⁾
Fixed rate CMBS	\$ 367.1	\$ 253.0	\$ 109.6	\$ 4.5
Floating rate CMBS	22.2	15.3	1.4	5.5
Total	\$ 389.3	\$ 268.3	\$ 111.0	\$ 10.0

⁽¹⁾ At issuance, Super Senior were rated AAA by Standard & Poor's, Aaa by Moody's or AAA by Fitch and were senior to other AAA or Aaa bonds.

⁽²⁾ At issuance, Senior were rated AAA by Standard & Poor's, Aaa by Moody's or AAA by Fitch and were senior to non-AAA or non-Aaa bonds.

⁽³⁾ At issuance, Subordinate were not rated AAA by Standard & Poor's, Aaa by Moody's or AAA by Fitch and were junior to AAA or Aaa bonds.

Rollforward of Fair Value Measurements by Level

White Mountains uses quoted market prices where available as the inputs to estimate fair value for its investments in active markets. Such measurements are considered to be either Level 1 or Level 2 measurements, depending on whether the quoted market price inputs are for identical securities (Level 1) or similar securities (Level 2). Level 3 measurements for fixed maturity investments, common equity securities, convertible fixed maturity investments and other long-term investments at September 30, 2012 and 2011 consist of securities for which the estimated fair value has not been determined based upon quoted market price inputs for identical or similar securities.

The following tables summarize the changes in White Mountains' fair value measurements by level for the three and nine months ended September 30, 2012 and 2011:

Millions	Level 3 Investments						Total
	Level 1 Investments	Level 2 Investments	Fixed Maturities	Common equity securities	Convertible fixed maturities	Other long-term investments	
Balance at January 1, 2012	\$ 1,879.1	\$ 6,088.2	\$ 78.9	\$ 32.3	\$ —	\$ 268.3	\$ 8,346.8 ⁽¹⁾⁽²⁾

(1) Excludes carrying value of \$36.6 and \$41.9 at September 30, 2011 and January 1, 2011 associated with other long-term investment limited partnerships accounted for using the equity method.

Fair Value Measurements — transfers between levels - Three-month period ended September 30, 2012 and 2011

During the first nine months of 2012, one security classified as Level 3 measurements in the prior period was recategorized as Level 2 measurements because quoted market prices for similar securities that were considered reliable and could be validated against an alternative source were available at September 30, 2012. These measurements comprise “Transfers out” of Level 3 and “Transfers in” to Level 2 of \$56.9 million in fixed maturities for the period ended September 30, 2012.

During the first nine months of 2011, seven securities which had been classified as Level 3 measurements at January 1, 2011 were recategorized as Level 2 measurements because quoted market prices for similar securities that were considered reliable and could be validated against an alternative source were available at September 30, 2011. These measurements comprise “Transfers out” of Level 3 and “Transfers in” to Level 2 of \$111.8 million in fixed maturities for the period ended September 30, 2011. One security that was classified as a Level 2 investment at January 1, 2011 was priced with unobservable inputs and represents “Transfers in” of \$1.0 million in Level 3 investments. The fair value of this security was estimated using industry standard pricing models, in which management selected inputs using its best judgment. The pricing models used by White Mountains use the same valuation methodology for all Level 3 measurements for fixed maturities. The security is considered to be Level 3 because the measurements are not directly observable. At September 30, 2011, the estimated fair value for this security determined using the industry standard pricing models was \$0.8 million less than the estimated fair value based upon quoted prices provided by a third party pricing vendor.

Significant Unobservable Inputs

The following summarizes significant unobservable inputs used in estimating the fair value of investment securities classified within Level 3 at September 30, 2012:

(\$ in Millions) Description	September 30, 2012		Valuation Technique(s)	Unobservable Input	Range ⁽¹⁾	
	Fair Value	Rating ⁽¹⁾				
Non-agency commercial mortgage-backed securities	\$5.5	A2	Discounted cash flow	Prepayment Rate	0.0	% CPY ⁽²⁾

				Discount Margin over	2.1	%
				LIBOR		
Preferred Stock	\$70.6	NR	Discounted cash flow	Discount yield	8.0	%

(1) Each asset type consists of one security.

(2) CPY refers to the market convention for CMBS prepayment.

The assumed prepayment rate is a significant unobservable input used to estimate the fair value of investments in non-agency commercial mortgage-backed securities (“CMBS”). Generally for bonds priced at a premium, increases in prepayment speeds will result in a lower fair value, while decreases in prepayment speed may result in a higher fair value.

Note 6. Debt

White Mountains' debt outstanding as of September 30, 2012 and December 31, 2011 consisted of the following:

Millions	September 30, 2012	December 31, 2011
OBH Senior Notes, at face value	\$ 269.9	\$ 269.9
Unamortized original issue discount	(.1) (.1
OBH Senior Notes, carrying value	269.8	269.8
SIG Senior Notes, at face value	400.0	400.0
Unamortized original issue discount	(.6) (.7
SIG Senior Notes, carrying value	399.4	399.3
WTM Bank Facility	—	—
Old Lyme	2.1	2.1
Other debt ⁽¹⁾	5.3	6.3
Total debt	\$ 676.6	\$ 677.5

⁽¹⁾ Other debt relates to White Mountains' consolidation of Hamer and Bri-Mar.

Bank Facility

White Mountains has a revolving credit facility with a total commitment of \$375.0 million (the "WTM Bank Facility") with a syndicate of lenders administered by Bank of America, N.A. As of September 30, 2012, the WTM Bank Facility was undrawn.

Debt Covenants

At September 30, 2012, White Mountains was in compliance with all of the covenants under the WTM Bank Facility, the OneBeacon U.S. Holdings, Inc. ("OBH") Senior Notes and the SIG Senior Notes.

Old Lyme

On December 31, 2011, Sirius Group acquired the runoff loss reserve portfolio of Old Lyme. As part of the acquisition, Sirius Group entered into a five year \$2.1 million purchase note. The principal amount of the purchase note is subject to upward adjustments for favorable loss reserve development (up to 50% of \$6.0 million) and downward adjustments for any adverse loss reserve development.

Note 7. Income Taxes

The Company and its Bermuda domiciled subsidiaries are not subject to Bermuda income tax under current Bermuda law. In the event there is a change in the current law such that taxes are imposed, the Company and its Bermuda domiciled subsidiaries would be exempt from such tax until March 31, 2035, pursuant to the Bermuda Exempted Undertakings Tax Protection Act of 1966. The Company has subsidiaries and branches that operate in various other jurisdictions around the world that are subject to tax in the jurisdictions in which they operate. The jurisdictions in which the Company's subsidiaries and branches are subject to tax are Australia, Belgium, Canada, Denmark, Germany, Gibraltar, Luxembourg, the Netherlands, Singapore, Sweden, Switzerland, the United Kingdom and the United States.

White Mountains' income tax expense for the three months ended September 30, 2012 represented an effective tax rate of 35.4%, which is in line with the U.S. statutory rate of 35%. White Mountains' income tax expense for the nine months ended September 30, 2012 represented effective tax rate of 27.2%, which differed from the U.S. statutory rate of 35% primarily due to income generated in jurisdictions other than the United States.

White Mountains' effective tax rate for the three and nine months ended September 30, 2011 was not meaningful as pre-tax income was near break-even.

In arriving at the effective tax rate for the three and nine months ended September 30, 2012 and 2011, White Mountains forecasted the change in unrealized investment gains (losses) and realized investment gains (losses) for the years ending December 31, 2012 and 2011 and included these gains (losses) in the effective tax rate calculation pursuant to ASC 740-270.

White Mountains records a valuation allowance against deferred tax assets if it becomes more likely than not that all or a portion of a deferred tax asset will not be realized. Changes in valuation allowances from period to period are included in income tax expense in the period of change. In determining whether a valuation allowance, or change therein, is warranted, White Mountains considers factors such as prior earnings history, expected future earnings, carryback and carryforward periods and strategies that if executed would result in the realization of a deferred tax asset. During the next twelve months, it is possible that certain planning strategies will no longer be sufficient to utilize the entire deferred tax asset, which could result in material changes to White Mountains' deferred tax assets and tax expense.

Upon completion of the Runoff Transaction, it is expected that the unrecognized tax benefits associated with tax positions where the deductibility is certain but the timing is uncertain, will decrease by approximately \$11.5 million. White Mountains does not expect the decrease to result in a material change to its financial position.

With few exceptions, White Mountains is no longer subject to U.S. federal, state or non-U.S. income tax examinations by tax authorities for years before 2005.

The IRS is conducting an examination of income tax returns for 2005 and 2006 for certain U.S. subsidiaries of OneBeacon. On January 5, 2011, White Mountains received Form 4549-A (Income Tax Discrepancy Adjustments) from the IRS relating to the examination of tax years 2005 and 2006. The estimated total assessment, including interest and utilization of alternative minimum and foreign tax credit carryovers, is \$20.6 million. White Mountains disagrees with the adjustments proposed by the IRS and intends to defend its position. The timing of the resolution of these issues is uncertain, however, it is reasonably possible that the resolution could occur within the next twelve months. An estimate of the range of potential outcomes cannot be made at this time. When ultimately settled, White Mountains does not expect the resolution of this examination to result in a material change to its financial position.

On July 28, 2011, the IRS commenced an examination of the income tax returns for 2007, 2008 and 2009 for certain U.S. subsidiaries of OneBeacon. White Mountains does not expect the resolution of this examination to result in a material change to its financial position.

On December 15, 2011, the IRS commenced an examination of the income tax returns for 2010 for certain U.S. subsidiaries of AFI. Pursuant to a Stock Purchase Agreement dated as of May 17, 2011 between White Mountains and Allstate, White Mountains is required to indemnify Allstate for any changes in pre-closing taxes. White Mountains does not expect the resolution of this examination to result in a material change to its financial position. The IRS conducted an examination of income tax returns for 2006 and 2007 for certain U.S. subsidiaries of Sirius Group. On October 26, 2011, the Sirius Group received and signed the IRS Revenue Agent's Report, which contained

no proposed adjustments. The IRS also examined the U.S. income tax return filed by WM Belvaux S.à r.l., a Luxembourg subsidiary, for tax year 2007. On May 3, 2011, the exam was completed with no proposed adjustments. The Ministry of Finance in Sweden has proposed reducing the corporate income tax rate in Sweden to 22.0% from 26.3%. If this proposal is enacted, the reduction in the Swedish corporate income tax rate would reduce the White Mountains' net deferred tax liability by approximately \$60 million. The Ministry of Finance in Sweden has also proposed tax legislation that, if enacted, would limit the deductibility of interest paid on certain intra-group debt instruments after January 1, 2013. At September 30, 2012, White Mountains has \$272.1 million of deferred tax assets related to net operating loss carryforwards that are being utilized from interest income on intra-group debt instruments that would be affected by the proposed tax legislation. However, management does not expect that the proposed tax legislation will adversely affect the carrying value of these deferred tax assets as management believes it has alternate strategies to utilize the deferred tax assets.

Note 8. Derivatives

Variable Annuity Reinsurance

White Mountains has entered into agreements to reinsure death and living benefit guarantees associated with certain variable annuities in Japan. At September 30, 2012 and December 31, 2011, the total guarantee value was approximately ¥230.5 billion (approximately \$3.0 billion at exchange rates on that date) and ¥233.7 billion (approximately \$3.0 billion at exchange rates on that date). The collective account values of the underlying variable annuities were approximately 80% and 78% of the guarantee value at September 30, 2012 and December 31, 2011. The following table summarizes the pre-tax operating results of WM Life Re for the three and nine months ended September 30, 2012 and 2011:

Millions	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012	2011	2012	2011
Fees, included in other revenues	\$8.1	\$8.4	\$24.1	\$24.3
Change in fair value of variable annuity liability, included in other revenues	(11.3) (164.4) 89.4	(148.0
Change in fair value of derivatives, included in other revenues	(11.0) 148.9	(122.0) 105.4

⁽¹⁾ Consists of over-the-counter instruments.

⁽²⁾ Consists of interest rate swaps, total return swaps, foreign currency forward contracts, and bond forwards. Fair value measurement based upon bid/ask pricing quotes for similar instruments that are actively traded, where available. Swaps for which an active market does not exist have been priced using observable inputs including the swap curve and the underlying bond index.

⁽³⁾ Consists of exchange traded equity index, foreign currency and interest rate futures. Fair value measurements based upon quoted prices for identical instruments that are actively traded.

⁽⁴⁾ In addition to derivative instruments, WM Life Re held cash, short-term and fixed maturity investments of \$477.5 and \$419.7 at September 30, 2012 and 2011 posted as collateral to its reinsurance counterparties.

The fair value of White Mountains' variable annuity reinsurance liabilities are estimated using actuarial and capital market assumptions related to the projected discounted cash flows over the term of the reinsurance agreement. Assumptions regarding future policyholder behavior, including surrender and lapse rates, are generally unobservable inputs and significantly impact the fair value estimates. Market conditions including, but not limited to, changes in interest rates, equity indices, market volatility and foreign currency exchange rates as well as the variations in actuarial assumptions regarding policyholder behavior may result in significant fluctuations in the fair value estimates. Generally, the liabilities associated with these guarantees increase with declines in the equity markets, interest rates and currencies against the Japanese yen, as well as with increases in market volatilities. White Mountains uses derivative instruments, including put options, interest rate swaps, total return swaps on bond and equity indices and forwards and futures contracts on major equity indices, currency pairs and government bonds, to mitigate the risks associated with changes in the fair value of the reinsured variable annuity guarantees. The types of inputs used to estimate the fair value of these derivative instruments, with the exception of actuarial assumptions regarding policyholder behavior and risk margins, are generally the same as those used to estimate the fair value of variable annuity liabilities.

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form 10-Q

The following summarizes quantitative information about significant unobservable inputs associated with the fair value estimates for variable annuity reinsurance liabilities and derivative instruments that have been classified as Level 3 measurements:

(\$ in Millions) Description	September 30, 2012		Unobservable Input	Range			Weighted Average	
	Fair Value	Valuation Technique(s)						
Variable annuity benefit guarantee liabilities	\$672.4	Discounted cash flows	Surrenders	0.1	% - 3.0	%	0.4	%
			Mortality	0.0	% - 6.4	%	0.9	%
			Foreign exchange volatilities	10.8	% - 17.4	%	12.8	%
			Index volatilities	13.1	% - 23.9	%	19.5	%
Foreign exchange and equity index options	\$213.0	Black-Scholes option pricing model	Expected equity dividends	1.9	% - 5.2	%	3.1	%
			Foreign exchange volatilities	10.8	% - 17.4	%	12.8	%
			Index volatilities	13.1	% - 23.9	%	19.5	%

The following summarizes realized and unrealized derivative gains (losses) recognized in other revenues for the three and nine months ended September 30, 2012 and 2011 and the carrying values, included in other assets, at September 30, 2012 and December 31, 2011, by type of instrument:

Millions	Gains (Losses)				Carrying Value	
	Three Months Ended		Nine Months Ended		As of	
	Sept 30, 2012	2011	Sept 30, 2012	2011	Sept 30, 2012	Dec 31, 2011
Fixed income/Interest rate	\$(22.6)	\$29.8	\$(73.1)	\$17.3	\$29.1	\$31.1
Foreign exchange	6.5	63.0	(21.0)	32.8	127.9	161.3
Equity	5.1	56.1	(27.9)	55.3	85.1	98.0
Total	\$(11.0)	\$148.9	\$(122.0)	\$105.4	\$242.1	\$290.4

WM Life Re enters into both over-the-counter (“OTC”) and exchange traded derivative instruments to economically hedge the liability from the variable annuity benefit guarantee. In the case of OTC derivatives, WM Life Re has exposure to credit risk for amounts that are uncollateralized by counterparties. WM Life Re’s internal risk management guidelines establish net counterparty exposure thresholds that take into account OTC counterparties’ credit ratings. WM Life Re has entered into master netting agreements with certain of its counterparties whereby the collateral provided (held) is calculated on a net basis. The following summarizes collateral provided to WM Life Re from counterparties:

Millions	September 30, 2012	December 31, 2011
Short-term investments	\$63.3	\$73.2
Fixed maturity securities	—	—
Total	\$63.3	\$73.2

Collateral held by or provided by WM Life Re in the form of fixed maturity securities comprise U.S. Treasury securities, which are recorded at fair value. Collateral in the form of short-term investments consists of money-market instruments, carried at amortized cost, which approximates fair value. The following summarizes the value, collateral (held) provided by WM Life Re and net exposure to credit losses on OTC derivative instruments recorded within other assets:

Millions	September 30, 2012	December 31, 2011
OTC derivative instruments ⁽¹⁾	\$251.4	\$295.4
Collateral held	(63.3) (73.2
Collateral provided	85.6	83.0
Net exposure to credit losses on fair value of OTC instruments	\$273.7	\$305.2

⁽¹⁾ Value of OTC derivative instruments as of September 30, 2012 and December 31, 2011 excludes adjustments for counterparty credit risk of \$(5.2) and \$(9.1) included in fair value under GAAP.

The following table summarizes uncollateralized amounts due under WM Life Re's OTC derivative contracts:

Millions	Uncollateralized balance as of September 30, 2012	S&P Rating ⁽¹⁾
Citigroup ⁽²⁾	\$63.4	A
Royal Bank of Scotland	58.5	A
Bank of America	50.3	A
JP Morgan ⁽²⁾	40.8	A+
Nomura ⁽²⁾	35.9	BBB+
Barclays	20.7	A+
Goldman Sachs ⁽²⁾	4.1	A-
Total	\$273.7	

⁽¹⁾ Standard & Poor's ("S&P") ratings as detailed above are: "A+" (Strong, which is the fifth highest of twenty-two creditworthiness ratings), "A" (Strong, which is the sixth highest of twenty-two creditworthiness ratings), "A-" (Strong, which is the seventh highest of twenty-two creditworthiness ratings) and "BBB+" (Adequate, which is the eighth highest of twenty-two creditworthiness ratings).

⁽²⁾ Collateral provided (held) calculated under master netting agreement.

The OTC derivative contracts are subject to restrictions on liquidation of the instruments and distribution of proceeds under collateral agreements. In addition, WM Life Re held cash, short-term and fixed maturity investments posted as collateral to its reinsurance counterparties. The additional collateral consists of the following:

Millions	September 30, 2012	December 31, 2011
Cash	\$341.7	\$453.5
Short-term investments	14.6	.6
Fixed maturity investments	121.2	31.2
Total	\$477.5	\$485.3

Forward Contracts

Beginning in September 2012, White Mountains has entered into forward contracts as a tool to assist in maintaining currency positions within pre-defined ranges at Sirius Group. White Mountains monitors its exposure to foreign currency and adjusts its forward positions within the risk guidelines and ranges established by senior management for each currency, as necessary. While White Mountains actively manages its forward positions, mismatches between movements in foreign currency rates and its forward contracts may result in currency positions being outside the pre-defined ranges and/or foreign currency losses. At September 30, 2012, White Mountains held approximately \$38.8 million (SEK 254.0 million) total gross notional value of foreign currency forward contracts.

All of White Mountains' forward contracts are traded over-the-counter. The fair value of the contracts has been estimated using OTC quotes for similar instruments and accordingly, the measurements have been classified as Level 2 measurements at September 30, 2012.

The following tables summarize the changes in White Mountains' forward contracts for the three and nine months ended September 30, 2012:

Millions	Forward contracts	
	Three Months Ended September 30, 2012	Nine Months Ended September 30, 2012
Beginning of period	\$—	\$—
Purchases	—	—
Realized and unrealized gains(losses)	.3	.3
Sales/settlements	—	—
End of period	\$.3	\$.3

The following summarizes realized and unrealized derivative gains (losses) recognized in net realized and unrealized investment gains for the three and nine months ended September 30, 2012 and the carrying values, included in other long-term investments, at September 30, 2012 by type of currency:

Millions	Gains (Losses)		Carrying Value As of September 30, 2012
	Three Months Ended September 30, 2012	Nine Months Ended September 30, 2012	
USD	\$.4	\$.4	\$.4
SEK	—	—	—
EUR	(.1) (.1) (.1
GBP	—	—	—
Currency Translation	—	—	—
Total	\$.3	\$.3	\$.3

White Mountains does not hold or provide any collateral for the forward contracts. The following table summarizes uncollateralized notional amounts associated with forward currency contracts:

Millions	Uncollateralized balance as of September 30, 2012	S&P Rating(1)
Deutsche Bank	\$ 5.5	A+
Royal Bank of Canada	8.0	A+
HSBC Bank plc	12.4	AA-
JP Morgan	7.3	A
Goldman Sachs	5.6	AA-
Total	\$ 38.8	

(1) Standard & Poor's ("S&P") ratings as detailed above are: "AA-" (Very Strong, which is the sixth highest of twenty-two creditworthiness ratings), "A+" (Strong, which is the seventh highest of twenty-two creditworthiness ratings) and "A" (Strong, which is the eighth highest of twenty-two creditworthiness ratings).

Note 9. Earnings (Loss) Per Share

Basic earnings (loss) per share amounts are based on the weighted average number of common shares outstanding including unvested restricted shares that are considered participating securities. Diluted earnings (loss) per share amounts are based on the weighted average number of common shares including unvested restricted shares and the net effect of potentially dilutive common shares outstanding. The following table outlines the Company's computation of earnings (loss) per share from continuing operations for the three and nine months ended September 30, 2012 and 2011 (see Note 14 for earnings per share amounts for discontinued operations):

	Three Months Ended		Nine Months Ended	
	Sept 30,		Sept 30,	
	2012	2011	2012	2011
Basic and diluted earnings (loss) per share numerators (in millions):				
Net income (loss) from continuing operations attributable to White Mountains' common shareholders	\$125.9	\$14.3	\$254.6	\$(6.3)
Allocation of (income) loss for unvested restricted common shares	(1.8)	(.1)	(3.3)	.1
Dividends declared on participating restricted common shares ⁽¹⁾	—	—	(.1)	(.1)
Total allocation to restricted common shares	(1.8)	(.1)	(3.4)	—
Net income (loss) attributable to White Mountains' common shareholders, net of restricted common share amounts	\$124.1	\$14.2	\$251.2	\$(6.3)
Undistributed net earnings (loss) (in millions):

Average unvested restricted shares ⁽²⁾	(96.5)	(73.5)	(89.5)	(68.0)
Basic earnings (loss) per share denominator	6,493.9	7,845.8	6,796.4	7,902.0
Diluted earnings (loss) per share denominator (in thousands):				
Total average common shares outstanding during the period	6,590.4	7,919.3	6,885.9	7,970.0
Average unvested restricted common shares ⁽²⁾	(96.5)	(73.5)	(89.5)	(68.0)
Average outstanding dilutive options to acquire common shares ⁽³⁾	—	—	—	—
Diluted earnings (loss) per share denominator	6,493.9	7,845.8	6,796.4	7,902.0
Basic earnings (loss) per share (in dollars):				
Net income (loss) attributable to White Mountains' common shareholders	\$19.11	\$1.81	\$36.96	\$(.80)
Dividends declared	—	—	(1.00)	(1.00)
Undistributed earnings (loss)	\$19.11	\$1.81	\$35.96	\$(1.80)
Diluted earnings (loss) per share (in dollars)				
Net income (loss) attributable to White Mountains' common shareholders	\$19.11	\$1.81	\$36.96	\$(.80)
Dividends declared	—	—	(1.00)	(1.00)
Undistributed earnings (loss)	\$19.11	\$1.81	\$35.96	\$(1.80)

⁽¹⁾ Restricted shares issued by White Mountains receive dividends, and therefore, are considered participating securities.

(2) Restricted shares outstanding vest either in equal annual installments or upon a stated date (see Note 12).

(3) The diluted earnings (loss) per share denominator for the three and nine months ended September 30, 2012 and 2011 do not include common shares issuable upon exercise of the Non-Qualified Options as they are anti-dilutive to the calculation.

Note 10. Segment Information

White Mountains has determined that its reportable segments are OneBeacon, Sirius Group, and Other Operations.

White Mountains has made its segment determination based on consideration of the following criteria: (i) the nature of the business activities of each of the Company's subsidiaries and affiliates; (ii) the manner in which the Company's subsidiaries and affiliates are organized; (iii) the existence of primary managers responsible for specific subsidiaries and affiliates; and (iv) the organization of information provided to the chief operating decision makers and the Board of Directors.

Significant intercompany transactions among White Mountains' segments have been eliminated herein. Financial information for White Mountains' segments follows:

Note 11. Investments in Unconsolidated Affiliates

White Mountains' investments in unconsolidated affiliates represent investments in other companies in which White Mountains has a significant voting and economic interest but does not control the entity.

Millions	September 30, 2012	December 31, 2011
Symetra common shares	\$ 284.0	\$ 261.0
Unrealized gains from Symetra's fixed maturity portfolio	64.6	—
GAAP Carrying value of Symetra common shares	348.6	261.0
Symetra warrants	26.2	12.6
Total investment in Symetra	374.8	273.6
Pentelia Capital Management	1.5	1.7
Total investments in unconsolidated affiliates	\$ 376.3	\$ 275.3

Symetra

At September 30, 2012 and December 31, 2011, White Mountains owned 17.4 million common shares of Symetra Financial Corporation ("Symetra") and warrants to acquire an additional 9.5 million common shares. White Mountains accounts for its investment in common shares of Symetra using the equity method. At December 31, 2011, due to the prolonged low interest rate environment in which life insurance companies currently operate, White Mountains concluded that its investment in Symetra common shares was other-than-temporarily impaired and wrote down the GAAP book value of the investment to its estimated fair value of \$261.0 million, or \$15 per share at December 31, 2011. White Mountains recorded \$45.9 million of after-tax equity in losses of unconsolidated affiliates and \$136.6 million of after-tax equity in net unrealized losses of unconsolidated affiliates.

Under the equity method, the GAAP carrying value of White Mountains' investment in Symetra common shares is normally equal to the percentage of Symetra's GAAP book value represented by White Mountains' common share ownership, which was 15% at September 30, 2012. As a result of recording the write-down, White Mountains' carrying value of its investment in Symetra differs from the carrying value by applying its ownership share against Symetra's GAAP equity as normally done under the equity method. The pre-tax basis difference of \$195.8 million as of December 31, 2011 is being amortized over a 30 year period pro rata based on estimated future cash flows associated with Symetra's underlying assets and liabilities to which the basis difference has been attributed. White Mountains continues to record its equity in Symetra's earnings and net unrealized gains (losses). In addition, White Mountains recognizes the amortization of the basis difference through equity in earnings of unconsolidated affiliates and equity in net unrealized gains (losses) from investments in unconsolidated affiliates consistent with the original attribution of the writedown between equity in earnings and equity in net unrealized gains (losses). For the three and nine months ended September 30, 2012, White Mountains recognized after-tax amortization of \$0.8 million and \$2.4 million through equity in earnings of unconsolidated affiliates and \$3.0 million and \$9.1 million through equity in net unrealized gains from investments in unconsolidated affiliates. At September 30, 2012, the pre-tax unamortized basis difference was \$183.3 million.

White Mountains accounts for its Symetra warrants as derivatives with changes in fair value recognized through the income statement as a gain or loss recognized through other revenues. White Mountains uses a Black Scholes valuation model to determine the fair value of the Symetra warrants. The major assumptions used in valuing the Symetra warrants at September 30, 2012 were a risk free rate of 0.22%, volatility of 36.5%, an expected life of 1.82 years, a strike price of \$11.49 per share and a share price of \$12.30 per share.

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form 10-Q

The following table summarizes amounts recorded by White Mountains relating to its investment in Symetra for the three months ended September 30, 2012 and 2011:

Millions	Three Months Ended September 30, 2012			Three Months Ended September 30, 2011		
	Common Shares	Warrants	Total	Common Shares	Warrants	Total
Carrying value of investment in Symetra as of June 30	\$305.9	\$29.8	\$335.7	\$388.5	\$32.5	\$421.0

Carrying value of investment in Symetra as September 30 ⁽⁴⁾⁽⁵⁾	\$348.6	\$26.2	\$374.8	\$449.0	\$7.7	\$456.7

⁽¹⁾ Equity in earnings excludes tax expense of \$2.2 and \$1.4.

⁽²⁾ Equity in earnings includes \$0.9 increase relating to the pre-tax amortization of Symetra common share impairment from September 30, 2012.

⁽³⁾ Net unrealized gains includes \$9.9 increase relating to the pre-tax amortization of Symetra common share impairment from September 30, 2012.

⁽⁴⁾ Includes White Mountains' equity in net unrealized gains from Symetra's fixed maturity portfolio of \$64.6 and \$147.7 as of September 30, 2012 and 2011, which exclude tax expense of \$5.2 and \$24.2.

⁽⁵⁾ The aggregate value of White Mountains' investment in common shares of Symetra was \$214.0 based upon the quoted market price of \$12.30 per share at

September 30, 2012.

During the three and nine months ended September 30, 2012, White Mountains received cash dividends from Symetra of \$1.3 million and \$3.7 million on its common share investment that was recorded as a reduction of White Mountains' investment in Symetra. During the three and nine months ended September 30, 2012, White Mountains also received cash dividends of \$0.7 million and \$2.0 million from Symetra on its investment in Symetra warrants that was recorded in net investment income.

35

Note 12. Employee Share-Based Incentive Compensation Plans

White Mountains' Long-Term Incentive Plan (the "WTM Incentive Plan") provides for grants of various types of share-based and non share-based incentive awards to key employees and service providers of the Company and certain of its subsidiaries. White Mountains' share-based compensation incentive awards consist of performance shares, restricted shares and stock options.

Share-Based Compensation Based on White Mountains Common Shares

WTM Performance Shares

Performance shares are conditional grants of a specified maximum number of common shares or an equivalent amount of cash. Performance share awards vest, subject to the attainment of performance goals, at the end of a three-year period and are valued based on the market value of common shares at the time awards are paid. The following table summarizes performance share activity for the three and nine months ended September 30, 2012 and 2011 for performance shares granted under the WTM Incentive Plan and phantom performance shares granted under the Sirius Group Performance Plan (the "WTM Phantom Share Plan"):

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2012		2011		2012		2011	
Millions, except share amounts	Target	Performance	Target	Performance	Target	Performance	Target	Performance
	Shares	Expense	Shares	Expense	Shares	Expense	Shares	Expense
	Outstanding		Outstanding		Outstanding		Outstanding	
Beginning of period	118,450	\$ 32.7	150,064	\$ 56.5	150,064	\$ 66.1	163,184	\$ 29.4
Shares paid or expired ⁽¹⁾	—	—	—	—	(68,357)	(48.4)	(51,131)	—
New grants	2,500	—	—	—	38,432	—	37,675	—
Assumed forfeitures and cancellations ⁽²⁾	(1,359)	(.4)	—	—	(548)	.4	336	(.6)
Expense recognized	—	6.6	—	(1.0)	—	20.8	—	26.7
Ending September 30,	119,591	\$ 38.9	150,064	\$ 55.5	119,591	\$ 38.9	150,064	\$ 55.5

⁽¹⁾ WTM performance share payments in 2012 for the 2009-2011 performance cycle ranged from 147% to 155% of target. There were no payments made in 2011 for the 2008-2010 performance cycle; those performance shares did not meet the threshold performance goals and expired.

⁽²⁾ Amounts include changes in assumed forfeitures, as required under GAAP.

For the 2009-2011 performance cycle, the Company issued common shares for 9,577 performance shares earned and all other performance shares earned were settled in cash.

If the outstanding WTM performance shares had vested on September 30, 2012, the total additional compensation cost to be recognized would have been \$26.6 million, based on accrual factors at September 30, 2012 (common share price and payout assumptions).

Performance Shares granted under the WTM Incentive Plan

The following table summarizes performance shares outstanding and accrued expense for performance shares awarded under the WTM Incentive Plan at September 30, 2012 for each performance cycle:

Millions, except share amounts	Target Performance Shares Outstanding	Accrued Expense
Performance cycle:		
2010 – 2012	42,320	\$ 19.0
2011 – 2013	37,255	12.9
2012 – 2014	38,092	5.4
Sub-total	117,667	37.3
Assumed forfeitures	(2,941)	(1.0)
Total at September 30, 2012	114,726	\$36.3

Phantom Performance Shares granted under WTM Phantom Share Plan

The following table summarizes phantom performance shares outstanding and accrued expense for grants made under WTM Phantom Share Plan at September 30, 2012 for each performance cycle:

Millions, except share amounts	Target WTM Phantom Performance Shares Outstanding	Accrued Expense
Performance cycle:		
2010 – 2012	4,990	\$ 2.7
2011 – 2013 ⁽¹⁾	—	—
2012 – 2014 ⁽¹⁾	—	—
Sub-total	4,990	2.7
Assumed forfeitures	(125)	(.1)
Total at September 30, 2012	4,865	\$ 2.6

⁽¹⁾ All performance shares for the 2011–2013 and 2012–2014 performance cycles were granted from the WTM Incentive Plan.

Restricted Shares

The following outlines the unrecognized compensation cost associated with the outstanding restricted share awards for the three and nine months ended September 30, 2012 and 2011:

Millions, except share amounts	Three Months Ended September 30,				Nine Months Ended September 30,			
	2012		2011		2012		2011

-----------------------------	--------	---------	--------	---------	--------	---------	--------	---------

37

During the third quarter of 2012, White Mountains issued 2,500 restricted shares that vest on January 1, 2015 and 1,200 restricted shares that vest on July 16, 2015. During the first quarter of 2012, White Mountains issued 25,460 restricted shares that vest on January 1, 2015 and 3,000 restricted shares that vest in two equal annual installments beginning in February 2014. During the second quarter of 2011, White Mountains issued 250 restricted shares that vest on January 1, 2014. During the first quarter of 2011, White Mountains issued 27,000 restricted shares that vest on January 1, 2014. During the first quarter of 2010, White Mountains issued 19,750 restricted shares that vest on December 31, 2012. The unrecognized compensation cost at September 30, 2012 is expected to be recognized ratably over the remaining vesting periods.

Non-Qualified Options

In January 2007, the Company issued 200,000 seven year Non-Qualified Options to the Company's Chairman and CEO that vested in equal annual installments over five years and that had an initial exercise price of \$650 per common share that escalated at an annual rate of 5% less the annual regular dividend rate. At the 2010 Annual General Meeting of Members held on May 26, 2010, the Company's shareholders approved the following amendments to the Non-Qualified Options: (1) extend the term of the Non-Qualified Options by three years to January 20, 2017; (2) freeze the exercise price at \$742 per common share, the exercise price on February 24, 2010; (3) extinguish 75,000 of the 200,000 Non-Qualified Options; and (4) limit the potential in-the-money value of the Non-Qualified Options in excess of \$100.0 million to 50% of the amount in excess of \$100.0 million. For the nine months ended September 30, 2011, White Mountains recognized a total of \$0.1 million of expense related to amortizing the Non-Qualified Options. As of the first quarter of 2011 the Non-Qualified Options were fully amortized.

Share-Based Compensation Based on OneBeacon Ltd. Common Shares

The OneBeacon Long-Term Incentive Plan (the "OneBeacon Incentive Plan") provides for grants of various types of share-based and non share-based incentive awards to key employees of OneBeacon Ltd. and certain of its subsidiaries. OneBeacon's share-based incentive awards consist of OneBeacon performance shares, stock options granted in connection with OneBeacon's initial public offering, restricted shares and restricted stock units ("RSUs").

OneBeacon Performance Shares

OneBeacon performance shares are conditional grants of a specified maximum number of common shares or an equivalent amount of cash. OneBeacon performance share awards vest, subject to the attainment of performance goals, at the end of a three-year period and are valued based on the market value of OneBeacon Ltd. common shares at the time awards are paid.

The following table summarizes performance share activity for the three and nine months ended September 30, 2012 and 2011 for OneBeacon performance shares granted under the OneBeacon Incentive Plan:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2012		2011		2012		2011	
	Target	PerformanceAccrued	Target	PerformanceAccrued	Target	PerformanceAccrued	Target	PerformanceAccrued
Millions, except share amounts	Shares	Expense	Shares	Expense	Shares	Expense	Shares	Expense
	Outstanding		Outstanding		Outstanding		Outstanding	
Beginning of period	560,577	\$3.1	671,727	\$10.0	642,667	\$9.7	1,464,295	\$18.5
Payments and deferrals ⁽¹⁾⁽²⁾	—	—	—	—	(258,901)	(7.8)	(936,150)	(10.5)

Assumed forfeitures and cancellations ⁽³⁾	(3,354)	—	(19,583)	.1	(7,833)	—	(70,901)	(.2)
Expense recognized	—	(2.2)	—	(.5)	—	(1.0)	—	1.8
Ending September 30,	557,223	\$.9	652,144	\$9.6	557,223	\$.9	652,144	\$9.6

(1) OneBeacon performance share payments in 2012 for the 2009-2011 performance cycle were at 138.6% of target. OneBeacon performance shares payments in 2011 for the 2008-2010 performance cycle were at 68.5% of target. Amounts include deposits into OneBeacon's deferred compensation plan.

(2) OneBeacon performance share payments also include accelerated payments resulting from the OneBeacon Personal Lines and Commercial Lines Transactions. The accelerated OneBeacon performance shares payments for the 2009-2011 and 2010-2012 performance cycles were on a pro rata basis and at a performance factor of 100%.

(3) Amounts include changes in assumed forfeitures, as required under GAAP.

If the outstanding OneBeacon performance shares had been vested on September 30, 2012, the total additional compensation cost to be recognized would have been \$1.7 million, based on accrual factors at September 30, 2012 (common share price and payout assumptions).

The following table summarizes OneBeacon performance shares outstanding awarded under the OneBeacon Incentive Plan at September 30, 2012 for each performance cycle:

Millions, except share amounts	Target OneBeacon	
	Performance Shares Outstanding	Accrued Expense
Performance cycle:		
2010 – 2012	238,658	\$ —
2011 – 2013	151,563	.4
2012 – 2014	181,290	.5
Sub-total	571,511	.9
Assumed forfeitures	(14,288) —
Total at September 30, 2012	557,223	\$.9

OneBeacon Restricted Shares

The following outlines the unrecognized compensation cost associated with the outstanding restricted share awards for the three and nine months ended September 30, 2012:

Millions, except share amounts	Three Months Ended September 30,				Nine Months Ended September 30,			
	2012		2011		2012		2011	
	Restricted Shares	Unamortized Issue Date Fair Value	Restricted Shares	Unamortized Issue Date Fair Value	Restricted Shares	Unamortized Issue Date Fair Value	Restricted Shares	Unamortized Issue Date Fair Value
Non-vested,								
Beginning of period	930,000	\$ 11.2	630,000	\$ 8.5	630,000	\$ 7.7	630,000	\$ 8.6
Issued	—	—	—	—	300,000	4.6	—	—
Vested	—	—	—	—	—	—	—	—
Forfeited	—	—	—	—	—	—	—	—
Expense recognized	—	(.8)	—	(.4)	—	(1.9)	—	(.5)
Non-vested at September 30,	930,000	\$ 10.4	630,000	\$ 8.1	930,000	\$ 10.4	630,000	\$ 8.1

On March 1, 2012, OneBeacon issued 300,000 restricted shares that vest in two equal annual installments on February 28, 2014 and 2015.

On May 25, 2011, OneBeacon issued 630,000 restricted shares to its CEO that vest in four equal annual installments beginning on February 22, 2014. Concurrently with the grant of the restricted shares, 35,000 OneBeacon performance shares issued to OneBeacon's CEO for the 2011-2013 performance share cycle were forfeited and performance share awards to OneBeacon's CEO for the subsequent five years will also be reduced by 35,000 shares. The unrecognized compensation cost at September 30, 2012 is expected to be recognized ratably over the remaining vesting periods.

Non-Qualified Options

In November 2006, in connection with its initial public offering, OneBeacon Ltd. issued to its key employees 1,420,000 OneBeacon Non-Qualified Options to acquire OneBeacon Ltd. common shares at an above-market fixed exercise price.

The following table summarizes option activity for the three and nine months ended September 30, 2012 and 2011:

Millions, except share amounts	Three Months Ended September 30,		Nine Months Ended September 30,	
	2012 Target Options Outstanding	2011 Target Options Outstanding	2012 Target Options Outstanding	2011 Target Options Outstanding
Beginning of period	—	750,130	740,870	768,652
New awards	—	—	—	—
Forfeitures and cancellations	—	(9,260)	—	(27,782)
Vested and expired	—	—	(740,870)	—
Exercised	—	—	—	—
Expense recognized	—	—	—	—
Ending September 30,	—	740,870	—	740,870

The fair value of each option award at grant was estimated using a Black-Scholes option pricing model using an expected volatility assumption of 30%, a risk-free interest rate assumption of 4.6%, a forfeiture assumption of 5%, an expected dividend rate assumption of 3.4% and an expected term assumption of 5.5 years. The options originally had a per share exercise price of \$30.00. On May 27, 2008, the OneBeacon Compensation Committee of the Board of Directors (the “OB Compensation Committee”) amended the exercise price to \$27.97 as a result of the \$2.03 per share special dividend paid in the first quarter of 2008. On November 16, 2010, the OB Compensation Committee adjusted the exercise price to \$25.47 as a result of the \$2.50 per share special dividend paid in the third quarter of 2010. The compensation expense associated with the options and the incremental fair value of the award modifications were recognized ratably over the vesting period.

For the three and nine months ended September 30, 2011, White Mountains recognized \$0.1 million and \$0.4 million of expense related to amortizing the OneBeacon Non-Qualified Options. As of December 31, 2011, the OneBeacon Non-Qualified Options were fully amortized. The options expired unexercised in the second quarter of 2012.

Restricted Stock Units

The Non-Qualified Options granted by OneBeacon Ltd., in connection with its initial public offering, did not include a mechanism in the options to reflect the contribution to total return from the regular quarterly dividend. As a result, during the first quarter of 2008, OneBeacon granted 116,270 Restricted Stock Units (“RSUs”) to actively employed option holders that were scheduled to vest equally on November 9, 2009, 2010 and 2011 subject to, for each vesting tranche of units, the attainment of 4% growth in OneBeacon’s book value per share from January 1, 2008 through the end of the calendar year immediately following the applicable vesting date. Consistent with the terms of the RSU plan, all of the RSUs have vested and were deferred into a OneBeacon non-qualified deferred compensation plan that were paid out in May 2012.

Note 13. Fair Value of Financial Instruments

White Mountains carries its financial instruments on its balance sheet at fair value with the exception of its fixed-rate, long-term indebtedness and the SIG Preference Shares, which are recorded as noncontrolling interest.

The following table summarizes the fair value and carrying value of financial instruments as of September 30, 2012 and December 31, 2011:

Edgar Filing: WHITE MOUNTAINS INSURANCE GROUP LTD - Form 10-Q

Millions	September 30, 2012		December 31, 2011	
	Fair Value	Carrying Value	Fair Value	Carrying Value
OBH Senior Notes	\$276.3	\$269.8	\$277.4	\$269.8
SIG Senior Notes	442.9	399.4	418.6	399.3
SIG Preference Shares	257.5	250.0	217.5	250.0

The fair value estimate for the OBH Senior Notes has been determined using observable inputs for similar instruments and is considered a Level 2 measurement. The fair value estimates for the SIG Senior Notes and the SIG Preference Shares have been determined based on indicative broker quotes and are considered to be Level 3 measurements.

Note 14. Discontinued Operations

Esurance

On October 7, 2011, White Mountains completed the sale of Esurance Insurance and AFI to Allstate (see Note 2). As a result of the transaction, Esurance Insurance, AFI and the business Esurance Insurance cedes to Sirius Group (collectively, "the Esurance Disposal Group") are reported as discontinued operations. White Mountains recognized a gain of \$677.5 million on the Esurance Sale which is recorded net of tax in discontinued operations. Effective as of December 31, 2011, the results of operations for the Esurance Disposal Group have been classified as discontinued operations and are presented, net of related income taxes, in the statement of comprehensive income.

AutoOne

On February 22, 2012, OneBeacon completed the sale of the AutoOne business to Interboro. AutoOne operated as a division within OneBeacon that offered products and services to automobile assigned risk markets. The transaction included the sale of two insurance entities, AOIC and AOSIC, through which substantially all of the AutoOne business was written on a direct basis. The results of operations for the AutoOne business have been classified as discontinued operations and are presented, net of related income taxes, in the statement of comprehensive income. The assets and liabilities associated with the AutoOne business as of December 31, 2011 have been presented in the balance sheet as held for sale.

During the third quarter of 2012, OneBeacon and Interboro finalized the post-closing adjustments to the closing balance sheet resulting in OneBeacon recording a net gain of \$0.5 million after tax. This after-tax net gain is included in loss from sale of discontinued operations in the statements of comprehensive income (loss) for the three and nine months ended September 30, 2012. During the third quarter of 2011, OneBeacon recorded an after-tax loss of \$18.2 million in loss from sale of discontinued operations for the estimated loss on sale of AutoOne.

OneBeacon runoff business

On October 17, 2012, OneBeacon entered into an agreement to sell its runoff business to Armour. For the nine months ended September 30, 2012, the results of operations for the runoff business have been classified as discontinued operations and are presented, net of related income taxes, in the statement of comprehensive income. Prior year results of operations have been reclassified to conform to the current period's presentation. The assets and liabilities associated with the runoff business as of September 30, 2012 have been presented in the balance sheet as held for sale. The amounts classified as discontinued operations exclude investing and financing activities that are conducted on an overall consolidated level and, accordingly, there were no separately identifiable investments associated with the runoff business. Therefore, the prior period balance sheet has not been reclassified to conform to the current period's presentation.

During the third quarter of 2012, OneBeacon recorded \$100.5 million in after-tax losses related to the Runoff Transaction. These losses are presented in discontinued operations and are composed of a \$91.5 million after-tax loss on sale and a \$9.0 million after-tax loss related to a reduction in the workers compensation loss reserve discount rate on reserves being transferred as part of the sale. OneBeacon also recognized \$6.5 million of after-tax underwriting losses primarily related to unfavorable loss reserve development from a legacy assumed reinsurance treaty, which is presented in discontinued operations.

Reinsurance

Included in the assets held for sale are reinsurance recoverables from two reinsurance contracts with subsidiaries of Berkshire Hathaway Inc. that OneBeacon was required to purchase in connection with White Mountains' acquisition of OneBeacon in 2001: a reinsurance contract with National Indemnity Company ("NICO") for up to \$2.5 billion in old asbestos and environmental ("A&E") claims and certain other exposures (the "NICO Cover") and an adverse loss reserve development cover from General Reinsurance Corporation ("GRC") for up to \$570.0 million, comprised of \$400.0 million of adverse loss reserve development occurring in years 2000 and prior (the "GRC Cover") in addition to \$170.0 million of reserves ceded as of the date of the OneBeacon Acquisition. The NICO Cover and GRC Cover, which were

contingent on and occurred contemporaneously with the OneBeacon Acquisition, were put in place in lieu of a seller guarantee of loss and LAE reserves and are therefore accounted for under GAAP as a seller guarantee. As of September 30, 2012, the total reinsurance recoverables on paid and unpaid losses of \$1,449.2 million related to both the NICO cover and the GRC cover has been included in assets held for sale. Both NICO and GRC have an A.M Best rating of A++, Superior, which is the highest of fifteen ratings.

The total reinsurance recoverables on paid and unpaid losses in assets held for sale were \$17.6 million and \$2,110.0 million as of September 30, 2012. The reinsurance recoverable on unpaid amount is gross of \$153.4 million in purchase accounting adjustments that will become recoverable if claims are paid in accordance with current reserve estimates. In addition, \$36.7 million of the amount that is currently included in assets held for sale on the balance sheet will be reported in reinsurance recoverables on unpaid losses when the Runoff Transaction closes (at the then current value) as a result of a related reinsurance contract.

Net Assets Held for Sale

The following summarizes the assets and liabilities associated with the businesses classified as held for sale:

Millions	September 30, 2012	December 31, 2011
Assets held for sale		
Fixed maturity investments, at fair value	\$ 377.3	\$ 111.8
Cash	—	5.5
Reinsurance recoverable on unpaid losses	1,956.6	—
Reinsurance recoverable on paid losses	17.6	—
Insurance premiums receivable	13.6	8.8
Deferred acquisition costs	—	2.2
Deferred tax asset	6.1	1.9
Other assets	17.0	2.4
Total assets held for sale	\$ 2,388.2	\$ 132.6
Liabilities held for sale		
Loss and loss adjustment expense reserves	\$ 2,212.9	\$ 64.7
Unearned insurance premiums	.6	34.1
Ceded reinsurance payable	19.5	—
Other liabilities	155.2	8.8
Total liabilities held for sale	2,388.2	107.6
Net assets held for sale	\$ —	\$ 25.0

Loss from Discontinued Operations

The following summarizes the results of operations, including related income taxes associated with the businesses classified as discontinued operations:

Millions, except per share amounts	Three Months Ended		Nine Months Ended	
	Sept 30, 2012	2011	Sept 30, 2012	2011
Revenues				
Earned insurance premiums	\$(.4)	\$ 233.3	\$ 10.0	\$ 701.9
Net investment income	—	3.8	—	11.8
Net realized and unrealized investment gains (losses)	—	(6.4)	—	1.4
Other revenue	—	17.5	—	54.0
Total revenues	(.4)	248.2	10.0	769.1
Expenses				
Loss and loss adjustment expenses	27.7	177.4	48.4	512.3
Insurance and reinsurance acquisition expenses	(.8)	51.4	(1.3)	154.1
Other underwriting expenses	(1.1)	35.0	1.1	83.9
General and administrative expenses	—	1.7	—	37.5
Total expenses	25.8	265.5	48.2	787.8
Pre-tax loss	(26.2)	(17.3)	(38.2)	(18.7)
Income tax benefit	10.4	5.3	13.7	10.9
Loss from discontinued operations	(15.8)	(12.0)	(24.5)	(7.8)
Loss from sale of discontinued operations	(91.0)	(18.2)	(91.0)	(18.2)
Net loss from discontinued operations	\$(106.8)	\$(30.2)	\$(115.5)	\$(26.0)

Loss Per Share

Basic loss per share amounts are based on the weighted average number of common shares outstanding including unvested restricted shares that are considered participating securities. Diluted loss per share amounts are based on the weighted average number of common shares including unvested restricted shares and the net effect of potentially dilutive common shares outstanding.

The following table outlines the computation of loss per share for discontinued operations for the three and nine months ended September 30, 2012 and 2011:

	Three Months Ended Sept 30,		Nine Months Ended Sept 30,	
	2012	2011	2012	2011
Basic and diluted loss per share numerators (in millions):				
Net loss attributable to White Mountains' common shareholders	\$(106.8)	\$(30.2)	\$(115.5)	\$(26.0)
Allocation of income for participating unvested restricted common shares ⁽¹⁾	1.5	.3	1.5	.2
Net loss attributable to White Mountains' common shareholders, net of restricted common share amounts ⁽²⁾	\$(105.3)	\$(29.9)	\$(114.0)	\$(25.8)
Basic loss per share denominators (in thousands):				
Total average common shares outstanding during the period	6,590.4	7,919.3	6,885.9	7,970.0
Average unvested restricted common shares ⁽³⁾	(96.5)	(73.5)	(89.5)	(68.0)
Basic loss per share denominator	6,493.9	7,845.8	6,796.4	7,902.0
Diluted loss per share denominator (in thousands):				
Total average common shares outstanding during the period	6,590.4	7,919.3	6,885.9	7,970.0
Average unvested restricted common shares	(96.5)	(73.5)	(89.5)	(68.0)
Average outstanding dilutive options to acquire common shares	—	—	—	—
Diluted loss per share denominator	6,493.9	7,845.8	6,796.4	7,902.0
Basic and diluted loss per share (in dollars):	\$(16.21)	\$(3.81)	\$(16.77)	\$(3.26)

⁽¹⁾ Restricted shares issued by White Mountains contain dividend participation features, and therefore, are considered participating securities.

⁽²⁾ Net loss attributable to White Mountains' common shareholders, net of restricted share amounts, is equal to undistributed loss for the three and nine months ended September 30, 2012 and 2011.

⁽³⁾ Restricted common shares outstanding vest either in equal annual installments or upon a stated date (see Note 12)

Note 15. Contingencies

Legal Contingencies

White Mountains, and the insurance and reinsurance industry in general, are routinely subject to claims related litigation and arbitration in the normal course of business, as well as litigation and arbitration that do not arise from, or are directly related to, claims activity. White Mountains' estimates of the costs of settling matters routinely encountered in claims activity are reflected in the reserves for unpaid loss and LAE. See Note 3.

Except as described below, White Mountains is not a party to any material non-claims litigation or arbitration. White Mountains considers the requirements of ASC 450 when evaluating its exposure to non-claims related litigation and arbitration. ASC 450 requires that accruals be established for litigation and arbitration if it is probable that a loss has been incurred and it can be reasonably estimated. ASC 450 also requires that litigation and arbitration be disclosed if it is probable that a loss has been incurred or if there is a reasonable possibility that a loss may have been incurred.

Although the ultimate outcome of claims and non-claims related litigation and arbitration, and the amount or range of potential loss at any particular time, is often inherently uncertain, management does not believe that the ultimate outcome of such claims and non-claims related litigation and arbitration will have a material adverse effect on White

Mountains' financial condition, results of operations or cash flows.

43

Esurance Sale

In 2011, the Company sold its Esurance and Answer Financial businesses (the "Transferred Companies") to The Allstate Corporation ("Allstate") for a purchase price of approximately \$1.01 billion. The purchase price consisted of \$700 million plus the tangible book value of the Transferred Companies at the closing, which was estimated to be \$308 million. Following closing, Allstate was required to prepare a final closing statement, including an audited balance sheet for the Transferred Companies as of the closing date. The Company believes this final closing statement was required to be prepared and audited no later than January 5, 2012. Allstate did not deliver the final closing statement to the Company until June 6, 2012, with an audit report dated June 1, 2012. The Company is disputing Allstate's calculation of tangible book value in the closing statement. The amount in dispute is approximately \$20 million, after tax. The dispute principally relates to (i) the elimination of \$24.7 million (pre-tax) of deferred acquisition costs (\$16.0 million, after tax) and (ii) the inclusion of a liability equal to the costs associated with an Esurance extra-contractual ("ECO") matter settled in April 2012 of \$5.2 million (\$3.4 million, after tax).

The Company believes that Allstate's failure to have the final closing statement prepared and audited by the required date constitutes a breach of Allstate's obligations under the agreement governing the sale of the Transferred Companies. The Company has brought suit in the United States District Court for the Southern District of New York in connection with such breach.

Tribune Company

In June 2011, Deutsche Bank Trust Company Americas, Law Debenture Company of New York and Wilmington Trust Company (collectively referred to as "Plaintiffs"), in their capacity as trustees for certain senior notes issued by the Tribune Company ("Tribune"), filed lawsuits in various jurisdictions (the "Noteholder Actions") against numerous defendants including OneBeacon, OBIC-sponsored benefit plans and other affiliates of White Mountains in their capacity as former shareholders of Tribune seeking recovery of the proceeds from the sale of common stock of Tribune in connection with Tribune's leveraged buyout in 2007 (the "LBO"). Tribune filed for bankruptcy in 2008 in the Delaware bankruptcy court (the "Bankruptcy Court"). The Bankruptcy Court granted Plaintiffs permission to commence these LBO-related actions. Plaintiffs seek recovery of the proceeds received by the former Tribune shareholders on a theory of constructive fraudulent transfer asserting that Tribune purchased or repurchased its common shares without receiving fair consideration at a time when it was, or as a result of the purchases of shares, was rendered, insolvent. OneBeacon has entered into a joint defense agreement with other affiliates of White Mountains that are defendants in the action. OneBeacon and OBIC-sponsored benefit plans received approximately \$32 million for Tribune common stock tendered in connection with the LBO.

In December 2011, the Judicial Panel on Multidistrict Litigation granted a motion to consolidate all of the Noteholder Actions for pretrial matters and transfer all such proceedings to the United States District Court for the Southern District of New York.

In addition, OneBeacon, OBIC-sponsored benefit plans and other affiliates of White Mountains in their capacity as former shareholders of Tribune, along with thousands of former Tribune shareholders, have been named as defendants in an adversary proceeding brought by the Official Committee of Unsecured Creditors of the Tribune Company, on behalf of the Tribune Company, which seeks to avoid the repurchase of shares by Tribune in the LBO on a theory of intentional fraudulent transfer (the "Committee Action"). The Committee Action has since been consolidated with the Noteholder Actions.

In September 2012, a case management order was entered in the consolidated cases, setting forth, among other things, a briefing schedule for an omnibus motion to dismiss in the Noteholder Actions. The court is expected to hear oral argument on that motion in March 2013. Discovery and other motion practice (other than motions to amend the complaints) in the Committee Action and the Noteholder Actions is stayed until further order of the court.

Ace American Insurance Company

A subsidiary of OneBeacon, OneBeacon U.S. Holdings, Inc. ("OBH"), was sued in Federal Court in the Eastern District of Pennsylvania on August 17, 2012 by Ace American Insurance Company ("Ace"). The complaint alleges that OBH, through a professional recruiting firm, improperly hired a group of Ace employees from Ace's surety division. The complaint seeks injunctive relief and unspecified damages. Upon motions of both parties, the court

ordered expedited discovery, which has been completed. OBH's response to Ace's motion for preliminary injunction is due at the end of October. OneBeacon believes that Ace's motion is without merit and intends to vigorously defend the lawsuit.

Note 16. Subsequent Event

On October 16, 2012, OneBeacon announced it entered into an agreement to terminate its exclusive underwriting agreement with Hagerty Insurance Agency and to sell one of its insurance entities to Markel Corporation. OneBeacon anticipates recording an after-tax gain of \$15 million related to this transaction. The sale is subject to regulatory approvals and is expected to close during the first quarter of 2013. The business associated with this agreement generated written premiums of approximately \$179 million, or 16% of OneBeacon's consolidated written premiums for the twelve months prior to September 30, 2012.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion contains "forward-looking statements". White Mountains intends statements that are not historical in nature, which are hereby identified as forward-looking statements, to be covered by the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. White Mountains cannot promise that its expectations in such forward-looking statements will turn out to be correct. White Mountains' actual results could be materially different from and worse than its expectations. See "FORWARD-LOOKING STATEMENTS" for specific important factors that could cause actual results to differ materially from those contained in forward-looking statements.

The following discussion also includes three non-GAAP financial measures - adjusted comprehensive income (loss), adjusted book value per share and total adjusted capital - that have been reconciled to their most comparable GAAP financial measures (see page 70). White Mountains believes these measures to be more relevant than comparable GAAP measures in evaluating White Mountains' financial performance and condition.

RESULTS OF OPERATIONS FOR THE THREE AND NINE MONTHS ENDED SEPTEMBER 30, 2012 AND 2011

Overview

White Mountains ended the third quarter of 2012 with an adjusted book value per share of \$574, an increase of 1.6% for the quarter and 6.0% for the first nine months of 2012, including dividends. White Mountains reported adjusted comprehensive income of \$59 million and \$173 million in the third quarter and first nine months of 2012 compared to adjusted comprehensive loss of \$98 million and \$58 million in the third quarter and first nine months of 2011. In the third quarter of 2012, strong investment and underwriting results more than offset a \$101 million loss at OneBeacon from the sale of its runoff business.

White Mountains' GAAP pre-tax total return on invested assets was 2.8% and 4.3% for the third quarter and first nine months of 2012, which included 0.6% and 0.4% of foreign currency gains, compared to a GAAP total return of -1.5% and 1.7% for the third quarter and first nine months of 2011, which included -1.2% and -0.2% of foreign currency losses.

OneBeacon's book value per share decreased 5.6% for the third quarter of 2012 and increased 0.5% for the first nine months of 2012, including dividends. During the third quarter of 2012, OneBeacon recorded \$101 million in after-tax losses related to the sale of its runoff business. These losses are presented in discontinued operations and are composed of a \$92 million after-tax loss on sale and a \$9 million after-tax loss related to a reduction in the workers compensation loss reserve discount rate on reserves being transferred as part of the sale. OneBeacon's GAAP combined ratio was 95% for the third quarter of 2012 compared to 94% for the third quarter of last year, while the GAAP combined ratio was 93% for the first nine months of 2012 compared to 95% for the first nine months of last year. Both the quarter and first nine month results benefited from lower catastrophe losses partially offset by lower favorable development. In addition, the third quarter of 2011 had lower expenses due to an adjustment to incentive compensation accruals. Catastrophe losses were 2 points in both the third quarter and first nine months of 2012 compared to 5 points in the comparable periods of last year. Favorable loss reserve development was 1 point in the third quarter and in the first nine months of 2012 compared to 2 points in the comparable periods of last year.

Sirius Group's GAAP combined ratio was 88% for the third quarter of 2012 compared to 89% for the third quarter of 2011, while the GAAP combined ratio was 85% for the first nine months of 2012 compared to 104% for the first nine months of 2011. The combined ratio for the third quarter of 2012 included 19 points (\$45 million) of losses from Sirius Group's agricultural line of business, primarily as a result of the drought in the Midwestern United States. These loss estimates are subject to change as the majority of losses are based on both yield and final contractual commodity prices for corn and soybeans, which have not yet been set. Additionally, the combined ratio for the third quarter of 2012 included 3 points (\$6 million) of catastrophe losses, mainly due to storm losses in the United States, compared to 11 points (\$25 million) in the third quarter of last year, mainly as a result of hurricane Irene. The combined ratio for the first nine months of 2012 included 2 points (\$14 million) of catastrophe losses compared to 27 points (\$188

million) in the first nine months of last year. The combined ratio for first nine months of 2012 also included 7 points from the aforementioned agricultural losses. There was \$8 million of net favorable loss reserve development in the third quarter of 2012 compared to \$21 million in the third quarter of last year. With the completion of a ground-up asbestos reserve study in the quarter, Sirius Group increased asbestos loss reserves by \$33 million. This increase was more than offset by reductions in liability and property loss reserves. Favorable loss reserve development was 2 points in the first nine months of 2012 compared to 5 points in the first nine months of last year. In addition, in the third quarter of 2012, Sirius Group sold its interest in an equity affiliate investment, International Medical Group ("IMG"), a managing general underwriter in the medical and travel business, for a gain of \$15 million.

During the third quarter of 2012, White Mountains capitalized HG Global Ltd. ("HG Global") with \$595 million to fund Build America Mutual Assurance Company ("BAM"), a newly formed mutual municipal bond insurer, and HG Re Ltd. ("HG Re"), a wholly-owned subsidiary of HG Global. As of September 30, 2012, White Mountains owned 97% of HG Global's preferred equity and 89% of its common equity. HG Global provided the initial capitalization of BAM through the purchase of \$503 million of BAM surplus notes. Through HG Re, HG Global provides first loss reinsurance protection for policies underwritten by BAM of 15% of par outstanding, on a per policy basis. HG Re's obligations to BAM are collateralized in trusts, and there is an aggregate loss limit that is equal to the total assets in the collateral trusts at any point in time. For the third quarter of 2012, HG Global reported pre-tax income of \$5 million, which was driven by \$8 million of interest income on the BAM surplus notes, partially offset by startup and operational costs. For the third quarter of 2012, BAM reported \$18 million in pre-tax losses that were driven by \$8 million of interest expense on the BAM surplus notes and startup and operational costs. U.S. GAAP requires White Mountains to consolidate the results of BAM. However, since BAM is a mutual insurance company that is owned by its members and not White Mountains, BAM's results do not affect White Mountains' adjusted book value per share as they are attributed to noncontrolling interests.

White Mountains' total net written premiums increased 9% for both the third quarter and first nine months of 2012 to \$559 million and \$1,730 million, compared to \$511 million and \$1,589 million in the third quarter and first nine months of 2011. OneBeacon's net written premiums increased 13% for both the third quarter and first nine months of 2012 to \$335 million and \$930 million. A change in the method of estimating written premiums associated with the A.W.G. Dewar ("Dewar") tuition reimbursement insurance product resulted in approximately \$9 million in net written premiums being recorded in the third quarter of 2012 that, under the prior method, would have been recorded in the fourth quarter. Excluding this change in estimate, premiums for the three and nine months ended September 30, 2012 would have increased 9% and 12%. Sirius Group's net written premiums increased 5% and 4% for the third quarter and first nine months of 2012 to \$224 million and \$800 million (increases of 6% for both periods in local currencies).

Adjusted Book Value Per Share

The following table presents White Mountains' adjusted book value per share and reconciles this non-GAAP measure to the most comparable GAAP measure. (See NON-GAAP FINANCIAL MEASURES on page 70).

	September 30, 2012	June 30, 2012	December 31, 2011	September 30, 2011
Book value per share numerators (in millions):				
White Mountains' common shareholders' equity	\$3,809.3	\$3,742.5	\$4,087.7	\$3,444.7
Equity in net unrealized gains from Symetra's fixed maturity portfolio	(59.3) (27.0) —	(135.7
Adjusted book value per share numerator ⁽¹⁾	\$3,750.0	\$3,715.5	\$4,087.7	\$3,309.0
Book value per share denominators (in thousands of shares):				
Common shares outstanding	6,583.7	6,630.3	7,577.9	7,630.7
Unearned restricted shares	(46.8) (51.6) (37.6) (44.5
Adjusted book value per share denominator ⁽¹⁾	6,536.9	6,578.7	7,540.3	7,586.2
Book value per share ⁽²⁾	\$578.60	\$564.45	\$539.43	\$451.42
Adjusted book value per share ⁽²⁾	\$573.66	\$564.77	\$542.11	\$436.18

⁽¹⁾ Excludes out of-the-money stock options.

⁽²⁾ During the first nine months of both 2012 and 2011, White Mountains declared and paid a dividend of \$1.00 per common share.

Review of Consolidated Results

White Mountains' consolidated financial results for the three and nine months ended September 30, 2012 and 2011 follow:

Consolidated Results - Three Months Ended September 30, 2012 versus Three Months Ended September 30, 2011

White Mountains' total revenues increased 39% to \$697 million in the third quarter of 2012 compared to \$502 million in the third quarter of 2011, primarily due to higher investment gains, higher foreign currency translation gains, higher earned insurance and reinsurance premiums and lower mark-to-market losses on White Mountains' investment in Symetra warrants. Earned insurance and reinsurance premiums increased 9% (10% in local currencies) to \$537 million in the third quarter of 2012, with OneBeacon up 13% and Sirius Group up 5% (7% in local currencies). Net investment income was down 12% to \$38 million in the third quarter of 2012, primarily from lower fixed maturity yields and the gradual shift in White Mountains' investment portfolio to common equity securities. White Mountains reported net realized and unrealized investment gains of \$73 million in the third quarter of 2012 compared to \$3 million of gains in the third quarter of 2011 (see Investment Returns on page 56). Other revenues improved to a gain of \$50 million in the third quarter of 2012 from a loss of \$35 million in the third quarter of 2011, as the third quarter of 2012 included \$33 million in foreign currency translation gains compared to \$30 million of foreign currency losses in the third quarter of 2011. In addition, the third quarter of 2012 included \$3 million of mark-to-market losses on the Symetra warrants compared to \$25 million of such losses in the third quarter of 2011. The third quarter of 2012 also included a \$15 million gain from Sirius Group's sale of its interest in IMG.

White Mountains' total expenses increased 12% to \$562 million in the third quarter of 2012 compared to \$501 million in the third quarter of 2011. Losses and LAE, insurance and reinsurance acquisition expenses and other underwriting expenses in total increased 9%, as increases from the growth in business at both OneBeacon and Sirius Group and losses from Sirius Group's agricultural business were partially offset by decreased catastrophe losses. The third quarter of 2012 included \$11 million of catastrophe losses compared to \$42 million in the third quarter of 2011. General and administrative expenses increased 62% to \$59 million, primarily due to \$11 million resulting from the consolidation of BAM and higher incentive compensation expenses.

White Mountains' income tax expense for the third quarter of 2012 represented an effective tax rate of 35.4%, which is in line with the U.S. statutory rate of 35%. The effective tax rate for the third quarter of 2011 was not meaningful as pre-tax income was near break-even (\$1.3 million).

The Ministry of Finance in Sweden has proposed reducing the corporate income tax rate in Sweden to 22.0% from 26.3%. If this proposal is enacted, the reduction in the Swedish corporate income tax rate would reduce the White Mountains' net deferred tax liability by approximately \$60 million. The Ministry of Finance in Sweden has also proposed tax legislation that, if enacted, would limit the deductibility of interest paid on certain intra-group debt instruments after January 1, 2013. At September 30, 2012, White Mountains has \$272 million of deferred tax assets related to net operating loss carryforwards that are being utilized from interest income on intra-group debt instruments that would be affected by the proposed tax legislation. However, management does not expect that the proposed tax legislation will adversely affect the carrying value of these deferred tax assets as management believes it has alternate strategies to utilize the deferred tax assets.

Consolidated Results - Nine Months Ended September 30, 2012 versus Nine Months Ended September 30, 2011

White Mountains' total revenues increased 18% to \$1,869 million in the first nine months of 2012 compared to \$1,580 million in the first nine months of 2011, primarily due to higher earned insurance and reinsurance premiums, higher foreign currency translation gains, higher mark-to-market gains on White Mountains' investment in Symetra warrants and higher investment gains, partially offset by lower net investment income. Earned premiums increased 8% (9% in local currencies) to \$1,545 million in the first nine months of 2012, with OneBeacon up 13% and Sirius Group up 2% (4% in local currencies). Net investment income was down 13% to \$120 million in the first nine months of 2012, due primarily to lower fixed maturity yields and the gradual shift in White Mountains' investment portfolio to common equity securities. White Mountains reported net realized and unrealized investment gains of \$123 million in the first nine months of 2012, compared to \$36 million in the first nine months of 2011 (see Investment Returns on page 56). Other revenues increased to a gain of \$81 million in the first nine months of 2012 from a loss of \$28 million in the first nine months of 2011, as the first nine months of 2012 included \$33 million in foreign currency translation gains compared to \$16 million of foreign currency losses in the first nine months of 2011. In addition, the first nine months

of 2012 included \$14 million of mark-to-market gains on the Symetra warrants compared to \$29 million of losses in the first nine months of 2011. Other revenues in the first nine months of 2012 also included a \$15 million gain reported by the Sirius Group related to the sale of its interest in IMG, while the first nine months of 2011 included a \$12 million loss from the repurchase of \$150 million of OBH Senior Notes.

White Mountains' total expenses decreased 2% to \$1,556 million in the first nine months of 2012, compared to \$1,580 million in the first nine months of 2011. Losses and LAE, insurance and reinsurance acquisition expenses and other underwriting expenses in total decreased 3%, as decreased catastrophe losses were partially offset by increased expenses due to the growth in business at OneBeacon and Sirius Group. The first nine months of 2012 included \$27 million of catastrophe losses compared to \$231 million in catastrophe losses in the first nine months of 2011, primarily from the Japan earthquake and tsunami and New Zealand earthquakes. General and administrative expenses increased 22% to \$146 million, primarily due to \$11 million resulting from the consolidation of BAM and higher incentive compensation expenses. Interest expense on debt decreased 15% to \$33 million in the first nine months of 2012 compared to \$39 million in the first nine months of 2011, primarily due to reductions of outstanding debt resulting from repurchases of OBH Senior Notes.

White Mountains' income tax expense for the first nine months of 2012 represented an effective tax rate of 27.2%, which differed from the U.S. statutory rate of 35% primarily due to income generated in jurisdictions other than the United States. White Mountains' effective tax rate for the first nine months of 2011 was not meaningful as pre-tax loss was near break-even (\$(0.4) million).

I. Summary of Operations By Segment

White Mountains conducts its operations through three segments: (1) OneBeacon, (2) Sirius Group, and (3) Other Operations. While investment results are included in these segments, because White Mountains manages the majority of its investments through its wholly-owned subsidiary, WM Advisors, a discussion of White Mountains' consolidated investment operations is included after the discussion of operations by segment. White Mountains' segment information is presented in Note 10 —“Segment Information” to the Consolidated Financial Statements.

OneBeacon

Financial results for OneBeacon for the three and nine months ended September 30, 2012 and 2011 follow:

Earned premiums	\$ 293.9	\$ 259.1	\$ 846.0	\$ 748.0	

Recent Developments

On October 17, 2012, OneBeacon entered into a definitive agreement to sell its runoff business to an affiliate of Armour Group Holdings Limited ("Armour") (the "Runoff Transaction"). At closing, OneBeacon will transfer to Armour certain legal entities within the OneBeacon group, which will contain the assets, liabilities (including gross and ceded loss reserves), and capital supporting the runoff business, as well as certain elements of the runoff business infrastructure including staff and office space. The transaction is subject to regulatory approvals and is expected to close in the second half of 2013.

During the third quarter of 2012, OneBeacon recorded \$101 million in after-tax losses related to the Runoff Transaction. These losses are presented in discontinued operations and are composed of a \$92 million after-tax loss on sale and a \$9 million after-tax loss related to a reduction in the workers compensation loss reserve discount rate on reserves being transferred as part of the sale.

On October 15, 2012, OneBeacon entered into definitive agreement to terminate its exclusive underwriting arrangement with Hagerty Insurance Agency. The business associated with this agreement generated written premiums of approximately \$179 million for the twelve months ended September 30, 2012. In connection with this agreement, OneBeacon also agreed to sell its wholly-owned insurance subsidiary Essentia Insurance Company ("Essentia"). OneBeacon anticipates recording a \$23 million pre-tax gain on the sale (\$15 million after tax) upon closing the transaction. The sale is subject to regulatory approvals and is expected to close during the first quarter of 2013. The termination of the agency agreement will be effective as of the close date of the Essentia sale.

OneBeacon Results - Three Months Ended September 30, 2012 versus Three Months Ended September 30, 2011
OneBeacon's GAAP combined ratio was 95% for the third quarter of 2012 compared to 94% for the third quarter of 2011. The increase in the combined ratio was primarily due to lower favorable prior year development, partially offset by lower catastrophe losses. The third quarter of 2012 included 2 points of catastrophe losses, primarily related to hurricane Isaac, compared to 5 points of catastrophe losses in the third quarter of 2011, primarily related to hurricane

Irene. The third quarter of 2012 included 1 point of favorable loss reserve development, as compared to 2 points of favorable loss reserve development in the prior year period. The expense ratio was 39% for the third quarter of 2012 compared to 36% for the third quarter of 2011. The increase was driven by higher incentive compensation expenses and employee costs associated with building new specialty businesses in the third quarter of 2012, primarily OneBeacon Property and Inland Marine and OneBeacon Programs.

50

OneBeacon's net written premiums increased 13% for the third quarter of 2012 to \$335 million, compared to \$297 million in the third quarter of 2011. A change in estimating premiums associated with the Dewar tuition reimbursement insurance product resulted in approximately \$9 million in net written premiums being recorded in the third quarter of 2012 that, under the prior method, would have been recorded in the fourth quarter. Excluding this change in estimate, premiums for the third quarter of 2012 would have increased 9%. The increase was primarily due to a \$10 million increase from OneBeacon Professional Insurance, a \$5 million increase from OneBeacon Government Risks, a \$5 million increase from OneBeacon Energy Group, a \$4 million increase from its collector cars and boats business, and a \$4 million increase from OneBeacon Entertainment, partially offset by an \$11 million decrease in net written premiums from OneBeacon Property and Inland Marine.

Reinsurance protection. OneBeacon purchases reinsurance in order to minimize loss from large risks or catastrophic events. OneBeacon also purchases individual property reinsurance coverage for certain risks to reduce large loss volatility through property-per-risk excess of loss reinsurance programs and individual risk facultative reinsurance. OneBeacon also maintains excess of loss casualty reinsurance programs that provide protection for individual risk or catastrophe losses involving workers compensation, general liability, automobile liability, professional liability or umbrella liability. The availability and cost of reinsurance protection is subject to market conditions, which are outside of OneBeacon's control. Limiting the risk of loss through reinsurance arrangements serves to mitigate the impact of large losses; however, the cost of this protection in an individual period may exceed the benefit.

For the third quarter of 2012, OneBeacon's net combined ratio was higher than its gross combined ratio by 5 points, primarily due to the impact of favorable development on a large loss that had been ceded under the marine reinsurance treaty, and to a lesser extent the cost of facultative reinsurance, property reinsurance and catastrophe reinsurance. For the third quarter of 2011, OneBeacon's net combined ratio was higher than its gross combined ratio by 3 points, primarily due to the impact of the cost of property reinsurance, catastrophe reinsurance, and to a lesser extent the cost of facultative reinsurance and marine reinsurance.

OneBeacon Results - Nine Months Ended September 30, 2012 versus Nine Months Ended September 30, 2011
 OneBeacon's GAAP combined ratio was 93% for the first nine months of 2012 compared to 95% for the first nine months of 2011. The decrease in the combined ratio was primarily due to lower catastrophe losses and lower current accident year losses, partially offset by lower favorable loss reserve development. The first nine months of 2012 included 2 points of catastrophe losses, primarily related to hurricane Isaac and storms in the midwestern United States, compared to 5 points of catastrophe losses in the first nine months of 2011, primarily related to hurricane Irene and tornadoes in the southeast and midwestern United States, as well as storms and freezing weather in the northeast and southwest. The first nine months of 2012 included 1 point of favorable loss reserve development compared to 2 points of favorable loss reserve development in the prior year period. The expense ratio for first nine months of 2012 also included one point (\$5 million) from the amortization of previously deferred acquisition costs that are no longer eligible for deferral under ASU 2010-26, primarily a portion of the profit sharing commissions associated with OneBeacon's collector car and boats business.

OneBeacon's net written premiums increased 13% in the first nine months of 2012 to \$930 million compared to \$821 million in the first nine months of 2011. Excluding the effect of the change in estimate at Dewar's, premiums for the first nine months of 2012 would have increased 12% from the first nine months of 2011. The increase was primarily due to a \$21 million increase from OneBeacon Professional Insurance primarily related to the medical excess line, a \$20 million increase from OneBeacon Technology Insurance, a \$14 million increase from OneBeacon Accident Group, a \$13 million increase from OneBeacon Energy Group and a \$12 million increase from its collector cars and boats business primarily related to growth in new business, partially offset by a \$15 million decrease in net written premiums from OneBeacon Property and Inland Marine.

Reinsurance protection. For the first nine months of 2012, OneBeacon's net combined ratio was higher than its gross combined ratio by 6 points, primarily due to favorable development on a large loss that had been previously ceded and the cost of property reinsurance, facultative reinsurance and catastrophe reinsurance. For the first nine months of 2011, OneBeacon's net combined ratio was higher than its gross combined ratio by 4 points, primarily due to the impact of the cost of property reinsurance, facultative reinsurance, catastrophe reinsurance and marine reinsurance.

Sirius Group

Financial results and GAAP combined ratios for Sirius Group for the three and nine months ended September 30, 2012 and 2011 follow:

(\$ in millions)	Three Months Ended		Nine Months Ended		
	Sept 30, 2012	2011	Sept 30, 2012	2011	
Gross written premiums	\$254.6	\$250.4	\$993.6	\$944.2

Interest expense on debt	6.5	6.5	19.6	19.6	
Total expenses	230.2	221.1	646.9	756.5	
Pre-tax income	\$68.7	\$69.6	\$175.1	\$44.2	
GAAP ratios:					
Losses and LAE	59	% 56	% 53	% 73	%
Expense	29	% 33	% 32	% 31	%
Combined	88	% 89	% 85	% 104	%

Sirius Group Results - Three Months Ended September 30, 2012 versus Three Months Ended September 30, 2011
 Sirius Group's GAAP combined ratio was 88% for the third quarter of 2012 compared to 89% for the third quarter of 2011. The combined ratio for the third quarter of 2012 included 19 points (\$45 million) of losses from Sirius Group's agricultural line of business, primarily as a result of the drought in the Midwestern United States. These loss estimates are subject to change as the majority of losses are based on both yield and final contractual commodity prices for corn and soybeans, which have not yet been set. The combined ratio for the third quarter of 2012 also included 3 points (\$6 million) of catastrophe losses, mainly due to storm losses in the United States, compared to 11 points (\$25 million) for the third quarter of 2011, which included \$11 million related to hurricane Irene and \$7 million from the June 2011 New Zealand earthquake. Favorable loss reserve development was 3 points the third quarter of 2012 compared to 9 points in the third quarter of last year. With the completion of a ground-up asbestos reserve study in the quarter, Sirius Group increased asbestos loss reserves by \$33 million. This increase was more than offset by reductions in liability and property loss reserves. The third quarter of 2011 included favorable loss reserve development primarily attributable to the property lines.

Sirius Group's gross written premiums increased 2% (3% in local currencies) to \$255 million in the third quarter of 2012 from \$250 million for the third quarter of 2011, while net written premiums increased 5% (6% in local currencies) to \$224 million in the third quarter of 2012 from \$214 million in 2011. These increases were primarily

from the property and accident and health lines of business somewhat offset by decreases in trade credit. Net earned premiums increased 5% (7% in local currencies) to \$243 million in the third quarter of 2012 compared to \$232 million in the third quarter of 2011.

Sirius Group's insurance and reinsurance acquisition expenses decreased 15% (\$7 million) in the third quarter of 2012 from the third quarter of 2011. The third quarter of 2011 included non-recurring profit commission expenses related to a commutation.

Sirius Group's other revenues primarily consisted of \$33 million of foreign currency translation gains recorded in the third quarter of 2012 compared to a loss of \$30 million in the third quarter of 2011. (See Foreign Currency Translation on page 57). In addition, in the third quarter of 2012, Sirius Group sold its interest in IMG for a gain of \$15 million.

Reinsurance protection. Sirius Group's reinsurance protection primarily consists of pro-rata and excess of loss protections to cover aviation, trade credit, and certain property exposures. Sirius Group's proportional reinsurance programs provide protection for part of the non-proportional treaty accounts written in Europe, the Americas, Asia, the Middle East, and Australia. This reinsurance is designed to increase underwriting capacity where appropriate, and to reduce exposure both to large catastrophe losses and to a frequency of smaller loss events. Attachment points and coverage limits vary by region around the world.

Sirius Group's gross combined ratio was lower than the net combined ratio by 5 points for the third quarter of 2012 and 9 points for the third quarter of 2011. The higher net combined ratio for both the third quarter of 2012 and 2011 was driven by the cost of property retrocessions with limited ceded property loss recoveries, primarily due to the low level of catastrophe losses.

Sirius Group Results - Nine Months Ended September 30, 2012 versus Nine Months Ended September 30, 2011
Sirius Group's GAAP combined ratio decreased to 85% for the nine months ended September 30, 2012 from 104% for the nine months ended September 30, 2011. The decrease was primarily due to lower catastrophe losses, offset by 7 points of agriculture losses, primarily as a result of the drought in the Midwestern United States. The combined ratio for the first nine months of 2012 included 2 points (\$14 million) of catastrophe losses, mainly due to \$7 million of losses from earthquakes in Italy and \$3 million of storm losses in the United States, compared to 27 points (\$188 million) of catastrophe losses in the first nine months of 2011, primarily composed of \$90 million of losses from the Japan earthquake and tsunami, \$49 million of losses from New Zealand earthquakes and \$25 million of losses from severe weather and tornadoes in the Midwestern United States. The first nine months of 2012 included 2 points of favorable loss reserve development compared to 5 points for the first nine months of 2011. For the first nine months of 2012, Sirius Group increased asbestos loss reserves by \$45 million, which was offset by reductions in casualty and property loss reserves, whereas reductions in the first nine months of 2011 were primarily attributable to property lines.

Sirius Group's gross written premiums increased 5% (8% in local currencies) to \$994 million in the first nine months of 2012 from \$944 million for the first nine months of 2011, while net written premiums increased 4% (6% in local currencies) to \$800 million for the first nine months of 2012 from \$768 million in the first nine months of 2011.

These increases were primarily from the property and accident and health lines of business partially offset by decreases in the casualty and trade credit lines. Net written premiums for the first nine months of 2012 increased less than gross written premiums due to increased retrocessions on the property and accident and health lines of business. Net earned premiums increased 2% (4% in local currencies) to \$699 million for the first nine months of 2012 from \$686 million in the first nine months of 2011.

Sirius Group's other revenues primarily consisted of \$33 million of foreign currency translation gains recorded in the first nine months of 2012 compared to a loss of \$16 million in the third quarter of 2011. (See Foreign Currency Translation on page 57). In addition, in the third quarter of 2012, Sirius Group sold its interest in IMG for gain of \$15 million.

Reinsurance protection. Sirius Group's gross combined ratio was lower than the net combined ratio by 5 points for the first nine months of 2012 and 9 points for the first nine months of 2011. The higher net combined ratio for the first nine months of 2012 was primarily due the cost of property retrocessions with limited ceded property loss recoveries, primarily due to the low level of catastrophe losses. The higher net combined ratio for the first nine months of 2011 was primarily due to the Japan and New Zealand earthquake losses, very little of which were ceded under Sirius Group's retrocessional reinsurance coverage, in addition to the cost of the property retrocessions.

Catastrophe Risk Management

To manage its aggregate exposure to very large catastrophe events, among other measures Sirius Group has been monitoring the largest net financial impact ("NFI") that third-party models predict it would suffer in the worst modeled aggregate loss year (i.e., the 10,000-year global annual aggregate probable maximum loss ("PML")). Sirius Group's NFI at January 31, 2012 was under \$750 million. In 2012, Sirius Group started using a new proprietary property underwriting and pricing tool ("GPI"), which consolidates and reports on all its worldwide property exposures. GPI is used to calculate individual and aggregate PMLs by statistical blending of multiple third-party and proprietary

models. In October 2012, GPI produced a significantly higher 10,000-year annual aggregate PML than previously estimated, and the resulting NFI increased from \$725 million in July 2012 to \$950 million. This increase was primarily driven by the variability of the models at the extreme tail and was not due to changes in Sirius' property portfolio, as limited new and renewal property business is written after July. Sirius Group monitors multiple indicators of catastrophe tail risk to measure its financial exposure to such scenarios. Prospectively, Sirius Group will not publish any single indicator of catastrophe tail risk. Sirius Group remains focused on monitoring tail risk in order to manage the potential impact of remote events on Sirius Group's and White Mountains' financial position.

Other Operations

A summary of White Mountains' financial results from its Other Operations segment for the three and nine months ended September 30, 2012 and 2011 follow:

Millions	Three Months Ended		Nine Months Ended	
	Sept 30, 2012	2011	Sept 30, 2012	2011
Net investment income	\$8.1	\$4.6	\$27.4	\$14.0
Net realized and unrealized investment (losses) gains	41.6	(15.6)	42.4	(11.0)
Other revenue - Hamer and Bri-Mar ⁽¹⁾	8.6	8.0	24.1	18.9
Other revenue — Symetra warrants	(3.6)	(24.7)	13.6	(29.3)
Other revenue	(2.5)	10.9	(5.5)	8.1
Total revenues	52.2	(16.8)	102.0	.7
Other underwriting expenses	.1	—	.1	—
General and admin expenses - Hamer and Bri-mar ⁽¹⁾	7.4	7.0	21.0	16.7
General and admin expenses - BAM	11.2	—	11.2	—
General and admin expenses	25.5	19.3	69.1	73.0
Interest expense — debt	.7	2.2	1.3	2.8
Total expenses	44.9	28.5	102.7	92.5
Pre-tax income (loss)	\$7.3	\$(45.3)	\$(.7)	\$(91.8)

⁽¹⁾ On December 31, 2011, Tuckerman Fund I was dissolved and all of the net assets of the fund, which consisted of common shares of Hamer and Bri-Mar, two small manufacturing companies, were distributed to White Mountains.

Other Operations Results - Three and Nine Months Ended September 30, 2012 versus Three and Nine Months Ended September 30, 2011

White Mountains' Other Operations segment reported pre-tax income of \$7 million and pre-tax loss of \$1 million in the third quarter and first nine months of 2012 compared to \$45 million and \$92 million of pre-tax loss in the third quarter and first nine months of 2011. The improvement in the third quarter was primarily driven by better investment results and lower mark-to-market losses from the Symetra warrants, partially offset by higher incentive compensation expenses and higher losses from WM Life Re. The improvement in the nine-month period was primarily driven by better investment results and a mark-to-market gain from the Symetra warrants compared to a loss in the 2011 period, partially offset by higher losses from WM Life Re. The increase in net investment income was primarily from the investment of the proceeds from the Esurance Sale in October 2011, partially offset by lower yields. White Mountains' Other Operations segment reported net realized and unrealized investment gains of \$42 million in both the third quarter and first nine months of 2012 compared to \$16 million and \$11 million of losses in the third quarter and first nine months of 2011 (see Investment Returns on page 56).

The value of White Mountains' investment in Symetra warrants decreased \$4 million in the third quarter of 2012 and increased \$14 million in the first nine months of 2012 compared to a decrease of \$25 million and \$29 million in the third quarter and first nine months of 2011. WM Life Re reported pre-tax losses of \$3 million and \$14 million in the third quarter and first nine months of 2012 compared to a \$1 million pre-tax gain and a \$10 million pre-tax loss in the third quarter and first nine months of 2011.

HG Global and BAM. The following table illustrates the components of pre-tax income included in White Mountains' Other Operations segment results related to the consolidation of HG Global and BAM for the three and nine months ended September 30, 2012:

Millions	Three and Nine Months Ended September 30, 2012		
	HG Global	BAM	Other Operations
Net investment income	\$0.1	\$0.6	\$0.7
Net investment income - surplus note interest	8.3	(8.3) —
Net realized and unrealized investment gains	0.2	1.0	1.2
Total revenues	8.6	(6.7) 1.9
Other underwriting expenses	—	0.1	0.1
General and admin expenses - BAM	—	11.2	11.2
General and admin expenses - HG Global	3.8	—	3.8
Total expenses	3.8	11.3	15.1
Pre-tax income (loss)	\$4.8	\$(18.0) \$(13.2

For the third quarter of 2012, HG Global reported pre-tax income of \$5 million, which was driven by \$8 million of interest income on the BAM surplus notes, partially offset by startup and operational costs. For the third quarter of 2012, BAM reported \$18 million in pre-tax losses that were driven by \$8 million of interest expense on the BAM surplus notes and startup and operational costs.

White Mountains is required to consolidate BAM's results in its GAAP financial statements. However, since BAM is a mutual insurance company that is owned by its members and not White Mountains, BAM's results do not affect White Mountains' adjusted book value per share as they are attributed to noncontrolling interests.

II. Summary of Investment Results

Investment Returns

For purposes of discussing rates of return, all percentages are presented gross of management fees and trading expenses in order to produce a better comparison to benchmark returns, while all dollar amounts are presented net of any management fees and trading expenses. A summary of White Mountains' consolidated pre-tax investment results for the three and nine months ended September 30, 2012 and 2011 follows:

Pre-tax investment results Millions	Three Months Ended Sept 30,		Nine Months Ended Sept 30,	
	2012	2011	2012	2011
Net investment income	\$37.6	\$42.8	\$119.8	\$138.1
Net realized and unrealized investment gains ⁽¹⁾	72.7	2.9	123.2	36.4
Net unrealized foreign currency gains (losses) on investments ⁽²⁾	92.5	(172.2)	80.6	(52.8)
Pre-tax investment gains included in discontinued operations	—	(2.6)	—	13.2
Total GAAP pre-tax investment gains (losses)	\$202.8	\$(129.1)	\$323.6	\$134.9

⁽¹⁾ Includes foreign currency gains (losses) of \$(52.1), \$75.7, \$(49.1), and \$37.1.

⁽²⁾ Amounts recognized through other comprehensive income. Excludes non-investment related foreign currency gains (losses) of \$(51.1), \$90.2, \$(45.9), and \$27.1.

Gross investment returns and benchmark returns

	Three Months Ended Sept 30,		Nine Months Ended Sept 30,	
	2012	2011	2012	2011
Fixed maturity investments	2.4	% (0.5)	% 4.4	% 2.7
Short-term investments	0.7	% (0.2)	% 0.7	% 0.8
Total fixed income	2.2	% (0.5)	% 3.9	% 2.5
Barclay's U.S. Intermediate Aggregate Index	1.4	% 2.3	% 3.4	% 5.0
Common equity securities	7.7	% (11.3)	% 9.4	% (6.7)
Convertible fixed maturity investments	(0.8)	% (8.5)	% 1.8	% (6.8)
Other long-term investments	—	% (0.1)	% (0.4)	% 6.8
Total equities, convertibles and other long-term investments	5.2	% (7.8)	% 6.3	% (2.8)
S&P 500 Index (total return)	6.3	% (13.9)	% 16.4	% (8.7)
Total consolidated portfolio	2.8	% (1.5)	% 4.3	% 1.7

White Mountains' GAAP pre-tax total return on invested assets was 2.8% and 4.3% for the third quarter and first nine months of 2012, which included 0.6% and 0.4% of foreign currency gains, compared to a total return of -1.5% and 1.7% for the third quarter and first nine months of 2011, which included -1.2% and -0.2% of foreign currency losses. White Mountains' high-quality, short-duration, fixed income portfolio (a duration of approximately 2.4 years, including short term investments at September 30, 2012) returned 2.2% (1.5% in local currencies) and 3.9% (3.3% in local currencies) for the third quarter and first nine months of 2012, which was relatively in line with the Barclays U.S. Intermediate Aggregate return of 1.4% and 3.4%. White Mountains' value-oriented equity portfolio, approximately 20% of GAAP invested assets at September 30, 2012, was up 5.2% for the quarter and 6.3% for the first nine months of 2012 compared to the S&P 500 Index returns of 6.3% and 16.4% for the comparable periods. The underperformance against the benchmark in both periods reflect large positions in other long-term investments and convertible fixed maturity investments (as opposed to common equity securities). It also reflects underweight exposure in common equity and convertible securities to the technology, consumer discretionary, and industrial

sectors and an overweight position in materials, in particular gold mining stocks, relative to the S&P 500 Index. The common equity security portfolio managed by Prospector Partners LLC ("Prospector") was up 6.8% in the quarter, outperforming the S&P 500 Index total return of 6.3%.

WM Advisors has a sub-advisory agreement with Prospector, a registered investment adviser, under which Prospector manages most of White Mountains' publicly-traded common equity securities and convertible fixed maturity securities. Total annualized returns for White Mountains' equity portfolio managed by Prospector compared to the annualized total returns of the S&P 500 Index are as follows:

Annualized returns	Periods ending September 30, 2012				
	1-year	3-years	5-years	7-years	
Prospector separate accounts	15.6	% 9.5	% (0.1)% 4.6	%
S&P 500 Index	30.2	% 13.2	% 1.1	% 4.5	%

Foreign Currency Translation

A summary of the impact of foreign currency translation on White Mountains' consolidated financial results for the three and nine months ended September 30, 2012 and 2011 follows:

Millions	Three Months Ended Sept 30,		Nine Months Ended Sept 30,	
	2012	2011	2012	2011
Net unrealized investment (losses) gains — foreign currency	\$ (44.3)	\$ 74.6	\$ (39.6)	\$ 79.0
Net realized investment (losses) gains — foreign currency	(7.8)	3.7	(9.5)	(39.3)
Net realized and unrealized investment (losses) gains — foreign currency	(52.1)	78.3	(49.1)	39.7
Other revenue — foreign currency translation gains (losses)	33.1	(30.4)	33.1	(16.0)
Total foreign currency translation (losses) gains recognized through net income, pre-tax	(19.0)	47.9	(16.0)	23.7
Income tax benefit expense	(.7)	(9.9)	(2.0)	(5.7)
Total foreign currency translation (losses) gains recognized through net income after tax	(19.7)	38.0	(18.0)	18.0
Change in foreign currency translation on investments	92.5	(172.2)	80.6	(52.8)
Change in foreign currency translation on non-investment net liabilities	(51.1)	90.2	(45.9)	27.1
Total foreign currency translation gains (losses) recognized through other comprehensive income	41.4	(82.0)	34.7	(25.7)
Total foreign currency gains (losses) recognized through comprehensive income	\$ 21.7	\$ (44.0)	\$ 16.7	\$ (7.7)

At September 30, 2012, White Mountains' investment portfolio included \$1.2 billion in non-U.S. dollar-denominated investments, most of which are held at Sirius International and are denominated in Swedish kronor or euros. The value of the investments in this portfolio is impacted by changes in the exchange rate between the U.S. dollar and the krona and between the U.S. dollar and the euro. During the third quarter and first nine months of 2012, the U.S. dollar weakened 5% against the kronor. During the third quarter and first nine months of 2012, the U.S. dollar weakened 2% and strengthened 1% against the euro. These currency movements resulted in approximately \$40 million and \$32 million of pre-tax foreign currency investment gains for the three and nine months ended September 30, 2012, which are recorded as components of net realized and unrealized investment gains and change in foreign currency translation on investments (recognized through other comprehensive income). During the third quarter and first nine months of 2011, the U.S. dollar strengthened 9% and 2% against the kronor. During the third quarter and first nine months of 2011, the U.S. dollar strengthened 8% and was flat against the euro. These currency movements resulted in approximately \$94 million and \$13 million of pre-tax foreign currency investment losses for the three and nine months ended September 30, 2011.

Sirius International holds a large portfolio of investments that are denominated in U.S. dollars, but its functional currency is the Swedish kronor. When Sirius International prepares its stand-alone GAAP financial statements, it translates its U.S. dollar-denominated investments to Swedish kronor and recognizes the related foreign currency translation gains or losses through income. When White Mountains consolidates Sirius International, it translates Sirius International's stand-alone GAAP financial statements to U.S. dollars and recognizes the foreign currency gains or losses arising from this translation, including those associated with Sirius International's U.S. dollar-denominated investments, through other comprehensive income. Since White Mountains reports its financial statements in U.S. dollars, there is no net effect to adjusted book value per share or to investment returns from foreign currency translation on its U.S. dollar-denominated investments at Sirius International. However, net realized and unrealized investment gains, other revenues and other comprehensive income can be significantly affected during periods of high volatility in the foreign exchange rate between the U.S. dollar and the Swedish kronor.

The amount of foreign currency translation on Sirius International's U.S. dollar denominated investments recognized as an increase of other comprehensive income and a decrease of net income was \$39 million and \$35 million for the third quarter and first nine months of 2012. The amount of foreign currency translation on Sirius International's U.S. dollar denominated investments recognized as a decrease of other comprehensive income and an increase of net income was \$66 million and \$27 million for the third quarter and first nine months of 2011.

White Mountains' investment portfolio consists of debt and equity securities issued in over 30 countries worldwide. The United States represents the country of issue for 75% of White Mountains' fixed maturity, common equity and convertible fixed maturity investment portfolio. White Mountains has no direct sovereign risk exposure to European peripheral countries Ireland, Greece, Portugal, Spain and Italy ("peripheral countries"). White Mountains' portfolio includes .3 % of total fixed maturity, convertible fixed maturity and common equity investments issued from peripheral countries at September 30, 2012. However, White Mountains has indirect exposure to peripheral countries through securities issued from non-peripheral countries as the issuers of the securities could have exposure to peripheral countries.

The following tables list White Mountains' investments in fixed maturities, common equities and convertible fixed maturities at September 30, 2012 categorized as financial or non-financial investments and by country of issue:

Investment in Symetra Common Shares

White Mountains recorded a GAAP other-than-temporary impairment write-down on its investment in Symetra common shares during the fourth quarter of 2011. As a result, White Mountains carried its investment in Symetra common shares at \$15 per share at December 31, 2011, the estimate of its GAAP fair value. During the third quarter and first nine months of 2012, White Mountains recorded \$8 million and \$25 million in equity in earnings from its investment in Symetra's common shares, which increased the value of the investment in Symetra's common shares used in the calculation of White Mountains' adjusted book value per share to \$16.32 per Symetra common share at September 30, 2012, compared to Symetra's quoted stock price of \$12.30 and Symetra's book value per common share excluding unrealized gains and losses from its fixed maturity investment portfolio of \$18.76.

LIQUIDITY AND CAPITAL RESOURCES

Operating Cash and Short-term Investments

Holding company level. The primary sources of cash for the Company and certain of its intermediate holding companies are expected to be distributions and tax sharing payments received from its insurance and reinsurance operating subsidiaries, capital raising activities, net investment income and proceeds from sales and maturities of investments. The primary uses of cash are expected to be repurchases of the Company's and OneBeacon Ltd.'s common shares, payments on and repurchases/retirements of its debt obligations, dividend payments to holders of the Company's common shares, to noncontrolling interest holders of OneBeacon Ltd.'s common shares and to holders of the SIG Preference Shares, purchases of investments, payments made to tax authorities, contributions to operating subsidiaries and operating expenses.

Operating subsidiary level. The primary sources of cash for White Mountains' insurance and reinsurance operating subsidiaries are expected to be premium collections, net investment income, proceeds from sales and maturities of investments, contributions from holding companies and capital raising activities. The primary uses of cash are expected to be claim payments, policy acquisition costs, purchases of investments, payments on and repurchases/retirements of its debt obligations, distributions and tax sharing payments made to holding companies and operating expenses.

Both internal and external forces influence White Mountains' financial condition, results of operations and cash flows. Claim settlements, premium levels and investment returns may be impacted by changing rates of inflation and other economic conditions. In many cases, significant periods of time, sometimes several years or more, may lapse between the occurrence of an insured loss, the reporting of the loss to White Mountains and the settlement of the liability for that loss. The exact timing of the payment of claims and benefits cannot be predicted with certainty. White Mountains' insurance and reinsurance operating subsidiaries maintain portfolios of invested assets with varying maturities and a substantial amount of cash and short-term investments to provide adequate liquidity for the payment of claims. Management believes that White Mountains' cash balances, cash flows from operations, routine sales and maturities of investments and the liquidity provided by the WTM Bank Facility are adequate to meet expected cash requirements for the foreseeable future on both a holding company and insurance and reinsurance operating subsidiary level.

Dividend Capacity

Under the insurance laws of the states and jurisdictions that White Mountains' insurance and reinsurance operating subsidiaries are domiciled, an insurer is restricted with respect to the timing and the amount of dividends it may pay without prior approval by regulatory authorities. Accordingly, there can be no assurance regarding the amount of such dividends that may be paid by such subsidiaries in the future. Following is a description of the dividend capacity of White Mountains' insurance and reinsurance operating subsidiaries:

OneBeacon:

Generally, OneBeacon's top tier regulated insurance operating subsidiaries have the ability to pay dividends during any 12-month period without the prior approval of regulatory authorities in an amount set by formula based on the greater of prior year statutory net income or 10% of prior year end statutory surplus, subject to the availability of unassigned funds. OneBeacon's top tier regulated insurance operating subsidiaries have the ability to pay \$103 million of dividends during 2012 without prior approval of regulatory authorities, subject to the availability of unassigned funds. At June 30, 2012, OneBeacon's top tier regulated insurance operating subsidiaries had \$0.7 billion of unassigned funds and at December 31, 2011, had statutory surplus of \$1.0 billion. During the first nine months of 2012, OneBeacon's top tier regulated insurance operating subsidiaries paid \$130 million of dividends to their immediate parent, which included the distribution of a regulated insurance subsidiary with a value of \$34 million. During the first nine months of 2012, OneBeacon's unregulated insurance operating subsidiaries paid \$4 million of dividends to their immediate parent. At September 30, 2012, OneBeacon's unregulated insurance operating subsidiaries had \$14 million of net unrestricted cash, short-term investments and fixed maturity investments.

During the first nine months of 2012, OneBeacon Ltd. paid \$60 million of regular quarterly dividends to its common shareholders. White Mountains received \$45 million of these dividends.

At September 30, 2012, OneBeacon Ltd. and its intermediate holding companies had \$232 million of net unrestricted cash, short-term investments and fixed maturity investments and \$67 million of common equity securities and convertible fixed maturity investments outside of its regulated and unregulated insurance operating subsidiaries.

Sirius Group:

Subject to certain limitations under Swedish law, Sirius International is permitted to transfer all or a portion of its pre-tax income to its Swedish parent companies to minimize taxes (referred to as a group contribution). In 2012, Sirius International intends to transfer approximately \$86 million (based on the September 30, 2012 SEK to USD exchange rate) of its 2011 pre-tax income to its Swedish parent companies as a group contribution, \$73 million of which was transferred during the first nine months of 2012.

Sirius International has the ability to pay dividends subject to the availability of unrestricted statutory surplus. Historically, Sirius International has allocated the majority of its pre-tax income, after group contributions to its Swedish parent companies, to the Safety Reserve (see "Safety Reserve" below). At December 31, 2011, Sirius International had \$515 million (based on the December 31, 2011 SEK to USD exchange rate) of unrestricted statutory surplus, which is available for distribution in 2012. During the first nine months of 2012, Sirius International has paid \$12 million in dividends to its immediate parent.

Sirius America has the ability to pay dividends during any 12-month period without the prior approval of regulatory authorities in an amount set by formula based on the lesser of net investment income, as defined by statute, or 10% of statutory surplus, in both cases as most recently reported to regulatory authorities, subject to the availability of earned surplus. Based upon June 30, 2012 statutory surplus of \$577 million, Sirius America has the ability to pay \$58 million of dividends during 2012 without prior approval of regulatory authorities, subject to the availability of earned surplus. At June 30, 2012, Sirius America had \$109 million of earned surplus. Sirius America did not pay any dividends to its parent in the first nine months of 2012.

At September 30, 2012, Sirius Group and its intermediate holding companies had \$67 million of net unrestricted cash, short-term investments and fixed maturity investments and \$18 million of other long-term investments outside of its regulated and unregulated insurance and reinsurance operating subsidiaries.

Capital Maintenance

In connection with Sirius Group's reorganization in October 2011, Sirius International and Sirius America entered into a capital maintenance agreement, which obligates Sirius International to make contributions to Sirius America's surplus in order for Sirius America to maintain surplus equal to at least 125% of the company action level risk based capital as defined in the NAIC Property/Casualty Risk-Based Capital Report. The agreement provides for a maximum contribution to Sirius America of \$200 million. Sirius International also provides Sirius America with accident year stop loss reinsurance, which protects Sirius America's accident year loss and allocated loss adjustment expense ratio in excess of 70%, with a limit of \$110 million.

Safety Reserve

Subject to certain limitations under Swedish law, Sirius International is permitted to transfer pre-tax amounts into an untaxed reserve referred to as a safety reserve. At September 30, 2012, Sirius International's safety reserve amounted to \$1.5 billion. Under GAAP, an amount equal to the safety reserve, net of a related deferred tax liability established at the Swedish tax rate of 26.3%, is classified as common shareholders' equity. Generally, this deferred tax liability is only required to be paid by Sirius International if it fails to maintain prescribed levels of premium writings and loss reserves in future years. As a result of the indefinite deferral of these taxes, Swedish regulatory authorities do not apply any taxes to the safety reserve when calculating solvency capital under Swedish insurance regulations.

Accordingly, under local statutory requirements, an amount equal to the deferred tax liability on Sirius International's safety reserve (\$388 million at September 30, 2012) is included in solvency capital. Access to the safety reserve is restricted to coverage of insurance losses. Access for any other purpose requires the approval of Swedish regulatory authorities. Similar to the approach taken by Swedish regulatory authorities, most major rating agencies generally include the \$1.5 billion balance of the safety reserve, without any provision for deferred taxes, in Sirius International's capital when assessing Sirius International's financial strength.

Other Operations:

During the first nine months of 2012 of 2012, WM Advisors did not pay any dividends to its immediate parent. At September 30, 2012, WM Advisors had approximately \$21 million of net unrestricted cash and short-term

investments.

At September 30, 2012, the Company and its intermediate holding companies had \$229 million of net unrestricted cash, short-term investments and fixed maturity investments, \$530 million of common equity securities and \$48 million of other long-term investments included in its Other Operations segment. During the first nine months of 2012, White Mountains paid a \$7 million common share dividend.

Interest on the BAM surplus notes is payable quarterly commencing on December 1, 2012. Interest and principal payments are subject to approval of the New York Department of Insurance.

Insurance Float

Insurance float is an important aspect of White Mountains' insurance operations. Insurance float represents funds that an insurance or reinsurance company holds for a limited time. In an insurance or reinsurance operation, float arises because premiums are collected before losses are paid. This interval can extend over many years. During that time, the insurer or reinsurer invests the funds. When the premiums that an insurer or reinsurer collects do not cover the losses and expenses it eventually must pay, the result is an underwriting loss, which is considered to be the cost of insurance float.

White Mountains calculates its insurance float by taking its net investment assets and subtracting its total adjusted capital. Although insurance float can be calculated using numbers determined under GAAP, insurance float is not a GAAP concept and, therefore, there is no comparable GAAP measure.

Insurance float can increase in a number of ways, including through acquisitions of insurance and reinsurance operations, organic growth in existing insurance and reinsurance operations and recognition of losses that do not cause a corresponding reduction in investment assets. Conversely, insurance float can decrease in a number of other ways, including sales of insurance and reinsurance operations, shrinking or runoff of existing insurance and reinsurance operations, the acquisition of operations that do not have substantial investment assets (e.g., an agency) and the recognition of gains that do not cause a corresponding increase in investment assets. White Mountains has historically obtained its insurance float primarily through acquisitions, as opposed to organic growth. It is White Mountains' intention to generate low-cost float over time through a combination of acquisitions and organic growth in its existing insurance and reinsurance operations. However, White Mountains will seek to increase its insurance float organically only when market conditions allow for an expectation of generating underwriting profits.

Certain operational leverage metrics can be measured with ratios that are calculated using insurance float. There are many activities that do not change the amount of insurance float at an insurance company but can have a significant impact on the company's operational leverage metrics. For example, investment gains and losses, foreign currency gains and losses, debt issuances and repurchases/repayments, common and preferred share issuances and repurchases and dividends paid to shareholders are all activities that do not change insurance float but that can meaningfully impact operational leverage metrics.

The following table illustrates White Mountains' consolidated insurance float position as of September 30, 2012 and December 31, 2011:

(\$ in millions)	September 30, 2012	December 31, 2011
Total investments	\$7,283.6	\$8,268.0
Consolidated limited partnership investments ⁽¹⁾	(84.8) (77.2
Cash	549.2	705.4
Investments in unconsolidated affiliates	376.3	275.3
Equity in net unrealized gains from Symetra's fixed maturity portfolio	(64.6) —
WM Life Re net derivative positions ⁽²⁾	(493.6) (551.3
Net investment assets classified within assets held for sale	377.3	117.3
Accounts receivable on unsettled investment sales	167.2	4.7
Accounts payable on unsettled investment purchases	(47.7) (34.6
Interest-bearing funds held by ceding companies ⁽³⁾	71.4	73.6
Interest-bearing funds held under reinsurance treaties ⁽⁴⁾	(14.8) (12.7
Net investment assets	\$8,119.5	\$8,768.5
Total White Mountains' common shareholders' equity	\$3,809.3	\$4,087.7
Noncontrolling interest—OneBeacon Ltd.	259.7	273.1
Noncontrolling interest— SIG Preference Shares	250.0	250.0
Debt	676.6	677.5
Total capital ⁽¹⁾	4,995.6	5,288.3
Equity in net unrealized gains from Symetra's fixed maturity portfolio, net of applicable taxes	(59.3) —
Total adjusted capital	4,936.3	\$5,288.3
Insurance float	\$3,183.2	\$3,480.2
Insurance float as a multiple of total adjusted capital	0.6x	0.7x
Net investment assets as a multiple of total adjusted capital	1.6x	1.7x
Insurance float as a multiple of White Mountains' common shareholders' equity	0.8x	0.9x
Net investment assets as a multiple of White Mountains' common shareholders' equity	2.1x	2.1x

⁽¹⁾ Total capital only includes noncontrolling interests that White Mountains benefits from the return on or has the ability to utilize the net assets supporting this noncontrolling interest.

⁽²⁾ Consists of WM Life Re's derivative instruments net of variable annuity liabilities and collateral provided to WM Life Re from counterparties.

⁽³⁾ Excludes funds held by ceding companies from which White Mountains does not receive interest credits.

⁽⁴⁾ Excludes funds held by White Mountains under reinsurance treaties for which White Mountains does not provide interest credits.

During the first nine months of 2012, insurance float decreased by \$297 million, primarily due to the AutoOne Sale and the continued runoff of reserves related to the commercial lines business that was exited through a renewal rights sale at OneBeacon, the final settlement and commutation of Scandinavian Re's multi-year retrocessional Casualty Aggregate Stop Loss Agreement with St. Paul, as well as commutations and runoff of Sirius Group's casualty business and payments of losses incurred in 2010 and 2011 related to major catastrophes, primarily from earthquakes in Chile, Japan and New Zealand. These catastrophe losses increased White Mountains' insurance float when they were first recorded, which is now reversing and decreasing insurance float as the catastrophe losses are paid. These decreases in insurance float were partially offset by an increase in float resulting from the \$101 million in after tax losses recognized at OneBeacon related to the Runoff Transaction. Upon closing of the Runoff Transaction, insurance float is expected to decrease by approximately \$375 million.

Financing

The following table summarizes White Mountains' capital structure as of September 30, 2012 and December 31, 2011:

(\$ in millions)	September 30, 2012	December 31, 2011	
OBH Senior Notes, carrying value	\$ 269.8	\$ 269.8	
SIG Senior Notes, carrying value	399.4	399.3	
WTM Bank Facility	—	—	
Old Lyme Note	2.1	2.1	
Other debt ⁽¹⁾	5.3	6.3	
Total debt	676.6	677.5	
Noncontrolling interest—OneBeacon Ltd.	259.7	273.1	
Noncontrolling interest—SIG Preference Shares	250.0	250.0	
Total White Mountains' common shareholders' equity	3,809.3	4,087.7	
Total capital ⁽²⁾	4,995.6	5,288.3	
Equity in net unrealized gains from Symetra's fixed maturity portfolio	(59.3)	—
Total adjusted capital	\$ 4,936.3	\$ 5,288.3	
Total debt to total adjusted capital	14	% 13	%
Total debt and preference shares to total adjusted capital	19	% 18	%
Deferred tax on safety reserve ("DTSR") ⁽³⁾	\$ 388.0	\$ 370.0	
Total debt to total adjusted capital, including DTSR ⁽³⁾	13	% 12	%
Total debt and preference shares to total adjusted capital, including DTSR ⁽³⁾	17	% 16	%

⁽¹⁾ Other debt relates to White Mountains' consolidation of Hamer and Bri-Mar

⁽²⁾ Total capital only includes noncontrolling interests that White Mountains benefits from the return on or has the ability to utilize the net assets supporting this noncontrolling interest.

⁽³⁾ The deferred tax liability on the safety reserve at Sirius International is considered regulatory capital in Sweden (See "Safety Reserve" on page 62).

Management believes that White Mountains generally has the flexibility and capacity to obtain funds externally as needed through debt or equity financing on both a short-term and long-term basis. White Mountains can provide no assurance that, if needed, it would be able to obtain additional debt or equity financing on satisfactory terms, if at all. The Company's 2011 Annual Report on Form 10-K contains a full discussion of White Mountains' debt obligations as of December 31, 2011.

White Mountains has a revolving credit facility with a syndicate of lenders administered by Bank of America, N.A. with a total commitment of \$375 million (the "WTM Bank Facility"). As of September 30, 2012, the WTM Bank Facility was undrawn.

OneBeacon U.S. Holdings, Inc. ("OBH") has \$270 million face value of senior unsecured debt outstanding that carries an interest rate of 5.875% and is scheduled to mature in May 2013 (the "OBH Senior Notes"). OneBeacon anticipates that it will refinance the OBH Senior Notes prior to their maturity.

The WTM Bank Facility contains various affirmative, negative and financial covenants that White Mountains considers to be customary for such borrowings, including certain minimum net worth and maximum debt to capitalization standards. Failure to meet one or more of these covenants could result in an event of default, which ultimately could eliminate availability under these facilities and result in acceleration of principal repayment on any amounts outstanding. At September 30, 2012, White Mountains was in compliance with all of the covenants under the WTM Bank Facility and anticipates it will continue to remain in compliance with these covenants for the foreseeable future.

White Mountains provides an irrevocable and unconditional guarantee as to the payment of principal and interest on the OBH Senior Notes. In consideration of this guarantee OneBeacon pays White Mountains a guarantee fee equal to 25 basis points per annum on the outstanding principal amount of the OBH Senior Notes. If White Mountains' voting interest in OneBeacon Ltd.'s common shares ceases to represent more than 50% of all their voting securities, OneBeacon Ltd. will seek to redeem, exchange or otherwise modify the senior notes in order to fully and permanently eliminate White Mountains' obligations under the guarantee. In the event that White Mountains' guarantee is not eliminated, the guarantee fee will increase over time up to a maximum guarantee fee of 425 basis points.

The OBH Senior Notes and the SIG Senior Notes were issued under indentures that contain restrictive covenants which, among other things, limit the ability of the Company, OBH, SIG and their respective subsidiaries to create liens and enter into sale and leaseback transactions and limits the ability of the Company, OBH, SIG and their respective subsidiaries to consolidate, merge or transfer their properties and assets. The indentures do not contain any financial ratios or specified levels of net worth or liquidity to which the Company, OBH or SIG must adhere. At September 30, 2012, White Mountains was in compliance with all of the covenants under the OBH Senior Notes and the SIG Senior Notes, and anticipates it will continue to remain in compliance with these covenants for the foreseeable future.

Share Repurchases

In 2006, White Mountains' board of directors authorized the Company to repurchase up to 1 million of its common shares, from time to time, subject to market conditions. On August 26, 2010, White Mountains' board of directors authorized the Company to repurchase an additional 600,000 of its common shares. On May 25, 2012, White Mountains' board of directors authorized the Company to repurchase an additional 1,000,000 of its common shares. Shares may be repurchased on the open market or through privately negotiated transactions. The repurchase authorization does not obligate the Company to acquire any specific number of shares, nor is there a stated expiration date.

During the third quarter of 2012, White Mountains repurchased 50,000 of its common shares under this authorization for \$26 million at an average share price of \$528. White Mountains did not repurchase any of its common shares under this authorization during the third quarter of 2011. During the first nine months of 2012, White Mountains repurchased 217,801 of its common shares under this authorization for \$108 million at an average share price of \$494. During the first nine months of 2011, White Mountains repurchased 265,579 of its common shares under its share repurchase program for \$93 million at an average share price of \$351. Since the inception of this authorization through September 30, 2012, the Company repurchased 1,629,504 common shares for \$645 million at an average share price of \$396. At September 30, 2012, White Mountains may repurchase an additional 970,496 shares under this authorization.

In addition to the shares repurchased under the share repurchase authorization referred to above, during the first quarter of 2012, White Mountains completed a fixed-price self-tender offer, through which it repurchased 816,829 of its common shares at a price of \$500 per share. The total cost of the share repurchases was \$409 million, including fees and expenses related to the tender offer. White Mountains also completed two "modified Dutch auction" self-tender offers during the second half of 2011 and repurchased 332,346 of its common shares at an average price of \$418 per share. The total cost of the share repurchases was \$139 million, including fees and expenses related to these tender offers.

Including shares repurchased through its self-tender offer and shares repurchased under its share repurchase authorization, White Mountains repurchased a total of 1,034,630 of its common shares during the first nine months of 2012 for \$516 million at an average share price of \$499, which was 87% of White Mountains' adjusted book value per share of \$574 at September 30, 2012.

Cash Flows

Detailed information concerning White Mountains' cash flows during nine months ended September 30, 2012 and 2011 follows:

Cash flows from operations for the nine months ended September 30, 2012 and 2011

Net cash flows from operations was a use of \$128 million and a source of \$41 million in the first nine months of 2012 and 2011, respectively. The decrease in cash flows from operations in the first nine months of 2012 was primarily from the continued runoff of reserves as a result of the Commercial Lines Transaction at OneBeacon, the final settlement and commutation of Scandinavian Re's multi-year retrocessional Casualty Aggregate Stop Loss Agreement with St. Paul, as well as commutations and runoff of Sirius Group's casualty business and payments made on losses

related to major catastrophes in 2010 and 2011, primarily from earthquakes in Chile, Japan and New Zealand. White Mountains does not believe that these trends will have a meaningful impact on its future liquidity or its ability to meet its future cash requirements.

Cash flows from investing and financing activities for the nine months ended September 30, 2012

Financing and Other Capital Activities

During the first nine months of 2012, the Company declared and paid a \$7 million cash dividend to its common shareholders.

During the first nine months of 2012, the Company repurchased and retired 1,037,191 of its common shares for \$518 million, which included 2,561 common shares repurchased under employee benefit plans for \$1 million.

During the first nine months of 2012, OneBeacon Ltd. declared and paid \$60 million of cash dividends to its common shareholders. White Mountains received a total of \$45 million of these dividends.

During the first nine months of 2012, OneBeacon paid a total of \$8 million of interest on the OBH Senior Notes.

During the first nine months of 2012, Sirius Group paid \$26 million of interest on the SIG Senior Notes and \$9 million of dividends on the SIG Preference Shares.

During the first nine months of 2012, Sirius Group declared and paid \$25 million of cash dividends to its immediate parent.

During the first nine months of 2012, White Mountains contributed \$20 million to WM Life Re.

Acquisitions and Dispositions

In July 2012, HG Global was capitalized with \$609 million of cash, \$595 million of which was contributed by subsidiaries of White Mountains. Subsequently in July 2012, HG Global purchased \$503 million of surplus notes from BAM for cash and contributed \$100 million in cash to HG Re.

Cash flows from investing and financing activities for the nine months ended September 30, 2011

Financing and Other Capital Activities

During the first quarter of 2011, the Company declared and paid an \$8 million cash dividend to its common shareholders.

During the first nine months of 2011, the Company repurchased and retired 593,640 of its common shares for \$230 million.

During the first nine months of 2011, OneBeacon Ltd. declared and paid \$155 million of cash dividends to its common shareholders, including \$60 million of regular quarterly dividends and a \$95 million special dividend. White Mountains received a total of \$117 million of these dividends.

During the first nine months of 2011, OBH repurchased and retired a portion of the outstanding OBH Senior Notes for \$162 million.

During the first nine months of 2011, OneBeacon paid a total of \$13 million of interest on the OBH Senior Notes.

During the first nine months of 2011, Sirius Group declared and paid \$85 million of cash dividends to its immediate parent.

During the first nine months of 2011, Sirius Group paid \$26 million of interest on the SIG Senior Notes and \$9 million of dividends on the SIG Preference Shares.

During the first nine months of 2011, White Mountains contributed \$10 million to WM Life Re.

FAIR VALUE CONSIDERATIONS

White Mountains measures certain financial instruments at fair value with changes therein recognized in earnings. In addition, White Mountains discloses estimated fair value for certain liabilities measured at historical or amortized cost. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants (an exit price) at a particular measurement date. Fair value measurements are categorized into a hierarchy that distinguishes between inputs based on market data from independent sources (“observable inputs”) and a reporting entity’s internal assumptions based upon the best information available when external market data is limited or unavailable (“unobservable inputs”). Quoted prices in active markets for identical assets have the highest priority (“Level 1”), followed by observable inputs other than quoted prices including prices for similar but not identical assets or liabilities (“Level 2”), and unobservable inputs, including the reporting entity’s estimates of the assumptions that market participants would use, having the lowest priority (“Level 3”).

Assets and liabilities carried at fair value include substantially all of the investment portfolio; derivative instruments, both exchange traded and over the counter instruments; and reinsurance assumed liabilities associated with variable annuity benefit guarantees. Valuation of assets and liabilities measured at fair value require management to make estimates and apply judgment to matters that may carry a significant degree of uncertainty. In determining its estimates of fair value, White Mountains uses a variety of valuation approaches and inputs. Whenever possible, White Mountains estimates fair value using valuation methods that maximize the use of quoted prices and other observable inputs. Where appropriate, assets and liabilities measured at fair value have been adjusted for the effect of counterparty credit risk.

White Mountains’ invested assets that are measured at fair value include fixed maturity securities, common and preferred equity securities, convertible fixed maturity securities and interests in hedge funds and private equity funds. Where available, the estimated fair value of investments is based upon quoted prices in active markets. In circumstances where quoted prices are unavailable, White Mountains uses fair value estimates based upon other observable inputs including matrix pricing, benchmark interest rates, market comparables, and other relevant inputs. Where observable inputs are not available, the estimated fair value is based upon internal pricing models using assumptions that include inputs that may not be observable in the marketplace but which reflect management’s best judgment given the circumstances and consistent with what other market participants would use when pricing such instruments.

As of September 30, 2012, approximately 95% of the investment portfolio recorded at fair value was priced based upon quoted market prices or other observable inputs. Investments valued using Level 1 inputs include fixed maturities, primarily investments in U.S. Treasuries, common equities and short-term investments, which include U.S. Treasury Bills. Investments valued using Level 2 inputs comprise fixed maturities including corporate debt, state and other governmental debt, convertible fixed maturity securities and mortgage and asset-backed securities. Fair value estimates for investments that trade infrequently and have few or no observable market prices are classified as Level 3 measurements. Level 3 fair value estimates based upon unobservable inputs include White Mountains’ investments in hedge funds and private equity funds, as well as investments in certain debt securities, including asset-backed securities, where quoted market prices are unavailable. White Mountains uses brokers and outside pricing services to assist in determining fair values. For investments in active markets, White Mountains uses the quoted market prices provided by outside pricing services to determine fair value. The outside pricing services used by White Mountains have indicated that if no observable inputs are available for a security, they will not provide a price.

In those circumstances, White Mountains estimates the fair value using industry standard pricing models and observable inputs such as benchmark interest rates, matrix pricing, market comparables, broker quotes, issuer spreads, bids, offers, credit rating prepayment speeds and other relevant inputs. White Mountains performs procedures to validate the market prices obtained from the outside pricing sources. Such procedures, which cover substantially all of its fixed maturity investments include, but are not limited to, evaluation of model pricing methodologies and review of the pricing services’ quality control processes and procedures on at least an annual basis, comparison of market prices to prices obtained from a different independent pricing vendors on at least a semi-annual basis, monthly analytical reviews of certain prices, and review of assumptions utilized by the pricing service for selected measurements on an ad hoc basis throughout the year. White Mountains also performs back-testing of selected sales activity to determine

whether there are any significant differences between the market price used to value the security prior to sale and the actual sale price on an ad-hoc basis throughout the year. Prices provided by the pricing services that vary by more than 5% and \$1 million from the expected price based on these procedures are considered outliers. In circumstances where the results of White Mountains' review process do not appear to support the market price provided by the pricing services, White Mountains challenges the price. The fair values of such securities are considered to be Level 3 measurements.

WM Life Re

White Mountains has entered into agreements to reinsure death and living benefit guarantees associated with certain variable annuities in Japan. White Mountains carries the benefit guarantees at fair value. The fair value of the guarantees is estimated using actuarial and capital market assumptions related to the projected discounted cash flows over the term of the reinsurance agreement. The valuation uses assumptions about surrenders rates, market volatilities and other factors, and includes a risk margin which represents the additional compensation a market participant would require to assume the risks related to the business. The selection of surrender rates, market volatility assumptions, risk margins and other factors require the use of significant management judgment. Assumptions regarding future policyholder behavior, including surrender and lapse rates, are generally unobservable inputs and significantly impact the fair value estimate. Market conditions including, but not limited to, changes in interest rates, equity indices, market volatility and foreign currency exchange rates as well as variations in actuarial assumptions regarding policyholder behavior may result in significant fluctuations in the fair value of the liabilities associated with these guarantees that could materially affect results of operations. All of White Mountains' variable annuity reinsurance liabilities (\$672 million) were classified as Level 3 measurements at September 30, 2012.

WM Life Re projects future surrender rates by year for policies based on a combination of actual experience and expected policyholder behavior. Actual policyholder behavior, either individually or collectively, may differ from projected behavior as a result of a number of factors such as the level of the account value versus guarantee value and applicable surrender charge, views of the primary insurance company's financial strength and ability to pay the guarantee at maturity, annuitants' need for money in a prolonged recession and time remaining to receive the guarantee at maturity. Policyholder behavior is especially difficult to predict given that the types of contracts reinsured by WM Life Re are relatively new to the Japanese market and the recent financial turmoil is unprecedented for this type of product in the Japanese market. Actual policyholder behavior may differ materially from WM Life Re's projections. As of September 30, 2012, WM Life Re's annual surrender assumptions vary from 0.1% currently to 3.0% depending on the level of account value versus guarantee value; at the current levels of account value, the weighted average is approximately 0.4% per annum. The potential increase in the fair value of the liability due to a change in current actuarial assumptions is as follows:

Millions	Increase in fair value of liability	
	September 30, 2012	December 31, 2011
Decrease 50%	\$3	\$5
Decrease 100% (to zero surrenders)	\$6	\$10

The amounts in the table above could increase in the future if the fair value of the variable annuity guarantee liability changes due to factors other than the surrender assumptions (e.g., a decline in the ratio of the annuitants' aggregate account values to their aggregate guarantee values).

NON-GAAP FINANCIAL MEASURES

This report includes three non-GAAP financial measures that have been reconciled to their most comparable GAAP financial measures. White Mountains believes these measures to be more relevant than comparable GAAP measures in evaluating White Mountains' results of operations and financial condition.

Adjusted comprehensive income is a non-GAAP financial measure that excludes the change in equity in net unrealized gains and losses from Symetra's fixed maturity portfolio, net of applicable taxes, from comprehensive income. In the calculation of comprehensive income under GAAP, fixed maturity investments are marked-to-market while the liabilities to which those assets are matched are not. Symetra attempts to earn a "spread" between what it earns on its investments and what it pays out on its products. In order to try to fix this spread, Symetra invests in a manner that tries to match the duration and cash flows of its investments with the required cash outflows associated with its life insurance and structured settlements products. As a result, Symetra typically earns the same spread on in-force business whether interest rates fall or rise. Further, at any given time, some of Symetra's structured settlement obligations may extend 40 or 50 years into the future, which is further out than the longest maturing fixed maturity investments regularly available for purchase in the market (typically 30 years). For these long-dated products, Symetra is unable to fully match the obligation with assets until the remaining expected payout schedule comes within the duration of securities available in the market. If at that time, these fixed maturity investments have yields that are lower than the yields expected when the structured settlement product was originally priced, the spread for the product will shrink and Symetra will ultimately harvest lower returns for its shareholders. GAAP comprehensive income increases when rates decline, which would suggest an increase in the value of Symetra - the opposite of what is happening to the intrinsic value of the business. Therefore, White Mountains' management and Board of Directors use adjusted comprehensive income when assessing Symetra's quarterly financial performance. In addition, this measure is typically the predominant component of change in adjusted book value per share, which is used in calculation of White Mountains' performance for both short-term (annual bonus) and long-term incentive plans. The reconciliation of adjusted comprehensive income to comprehensive income is included on page 47.

Adjusted book value per share is a non-GAAP measure which is derived by expanding the GAAP calculation of book value per White Mountains common share to exclude equity in net unrealized gains and losses from Symetra's fixed maturity portfolio, net of applicable taxes. In addition, the number of common shares outstanding used in the calculation of adjusted book value per share are adjusted to exclude unearned restricted common shares, the compensation cost of which, at the date of calculation, has yet to be amortized. The reconciliation of adjusted book value per share to GAAP book value per share is included on page 46.

Total capital at White Mountains is comprised of White Mountains' common shareholders' equity, debt and noncontrolling interest in OneBeacon Ltd and the SIG Preference Shares. Total adjusted capital excludes the equity in net unrealized gains and losses from Symetra's fixed maturity portfolio, net of applicable taxes from total capital. The reconciliation of total capital to total adjusted capital is included on page 64.

CRITICAL ACCOUNTING ESTIMATES

Refer to the Company's 2011 Annual Report on Form 10-K for a complete discussion regarding White Mountains' critical accounting estimates.

FORWARD-LOOKING STATEMENTS

The information contained in this report may contain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts, included or referenced in this report which address activities, events or developments which White Mountains expects or anticipates will or may occur in the future are forward-looking statements. The words "will", "believe," "intend," "expect," "anticipate," "project," "estimate," "predict" and similar expressions are also intended to identify forward-looking statements. These forward-looking statements include, among others, statements with respect to White Mountains:

• changes in adjusted book value per share or return on equity;
• business strategy;
• financial and operating targets or plans;
• incurred losses and the adequacy of its loss and LAE reserves and related reinsurance;
• projections of revenues, income (or loss), earnings (or loss) per share, dividends, market share or other financial forecasts;
• expansion and growth of its business and operations; and
• future capital expenditures.

These statements are based on certain assumptions and analyses made by White Mountains in light of its experience and perception of historical trends, current conditions and expected future developments, as well as other factors believed to be appropriate in the circumstances. However, whether actual results and developments will conform with its expectations and predictions is subject to a number of risks and uncertainties that could cause actual results to differ materially from expectations, including:

- the risks associated with Item 1A of White Mountains' 2011 Annual Report on Form 10-K and Risk Factors on page 72;
- claims arising from catastrophic events, such as hurricanes, earthquakes, floods or terrorist attacks;
- the continued availability of capital and financing;
- general economic, market or business conditions;
- business opportunities (or lack thereof) that may be presented to it and pursued;
 - competitive forces, including the conduct of other property and casualty insurers and reinsurers;
- changes in domestic or foreign laws or regulations, or their interpretation, applicable to White Mountains, its competitors or its clients;
- an economic downturn or other economic conditions adversely affecting its financial position;
- recorded loss reserves subsequently proving to have been inadequate;
- actions taken by ratings agencies from time to time, such as financial strength or credit ratings downgrades or placing ratings on negative watch; and
- other factors, most of which are beyond White Mountains' control.

Consequently, all of the forward-looking statements made in this report are qualified by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by White Mountains will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, White Mountains or its business or operations. White Mountains assumes no obligation to update publicly any such forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Refer to White Mountains' 2011 Annual Report on Form 10-K and in particular Item 7A. - "Quantitative and Qualitative Disclosures About Market Risk". As of September 30, 2012, there were no material changes in the market risks as described in White Mountains' most recent Annual Report.

Item 4. Controls and Procedures.

The Principal Executive Officer ("PEO") and the Principal Financial Officer ("PFO") of White Mountains have evaluated the effectiveness of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this report. Based on that evaluation, the PEO and PFO have concluded that White Mountains' disclosure controls and procedures are adequate and effective.

There were no significant changes with respect to the Company's internal control over financial reporting or in other factors that materially affected, or are reasonably likely to materially affect, internal control over financial reporting during the quarter ended September 30, 2012.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings.

Refer to White Mountains' 2011 Annual Report on Form 10-K and in particular Item 3. - "Legal Proceedings". As of September 30, 2012, other than what is described below, there were no material changes in the legal proceedings as

described in White Mountains' most recent Annual Report.

71

Esurance Sale

In 2011, the Company sold its Esurance and Answer Financial businesses (the "Transferred Companies") to The Allstate Corporation ("Allstate") for a purchase price of approximately \$1.01 billion. The purchase price consisted of \$700 million plus the tangible book value of the Transferred Companies at the closing, which was estimated to be \$308 million. Following closing, Allstate was required to prepare a final closing statement, including an audited balance sheet for the Transferred Companies as of the closing date. The Company believes this final closing statement was required to be prepared and audited no later than January 5, 2012. Allstate did not deliver the final closing statement to the Company until June 6, 2012, with an audit report dated June 1, 2012. The Company is disputing Allstate's calculation of tangible book value in the closing statement. The amount in dispute is approximately \$20 million, after tax. The dispute principally relates to (i) the elimination of \$25 million (pre-tax) of deferred acquisition costs (\$16 million, after tax) and (ii) the inclusion of a liability equal to the costs associated with an Esurance extra-contractual ("ECO") matter settled in April 2012 of \$5 million (\$3 million, after tax).

The Company believes that Allstate's failure to have the final closing statement prepared and audited by the required date constitutes a breach of Allstate's obligations under the agreement governing the sale of the Transferred Companies. The Company has brought suit in the United States District Court for the Southern District of New York in connection with such breach.

Tribune Company

In June 2011, Deutsche Bank Trust Company Americas, Law Debenture Company of New York and Wilmington Trust Company (collectively referred to as "Plaintiffs"), in their capacity as trustees for certain senior notes issued by the Tribune Company ("Tribune"), filed lawsuits in various jurisdictions (the "Noteholder Actions") against numerous defendants including OneBeacon, OBIC-sponsored benefit plans and other affiliates of White Mountains in their capacity as former shareholders of Tribune seeking recovery of the proceeds from the sale of common stock of Tribune in connection with Tribune's leveraged buyout in 2007 (the "LBO"). Tribune filed for bankruptcy in 2008 in the Delaware bankruptcy court (the "Bankruptcy Court"). The Bankruptcy Court granted Plaintiffs permission to commence these LBO-related actions. Plaintiffs seek recovery of the proceeds received by the former Tribune shareholders on a theory of constructive fraudulent transfer asserting that Tribune purchased or repurchased its common shares without receiving fair consideration at a time when it was, or as a result of the purchases of shares, was rendered, insolvent. OneBeacon has entered into a joint defense agreement with other affiliates of White Mountains that are defendants in the action. OneBeacon and OBIC-sponsored benefit plans received approximately \$32 million for Tribune common stock tendered in connection with the LBO.

In December 2011, the Judicial Panel on Multidistrict Litigation granted a motion to consolidate all of the Noteholder Actions for pretrial matters and transfer all such proceedings to the United States District Court for the Southern District of New York.

In addition, OneBeacon, OBIC-sponsored benefit plans and other affiliates of White Mountains in their capacity as former shareholders of Tribune, along with thousands of former Tribune shareholders, have been named as defendants in an adversary proceeding brought by the Official Committee of Unsecured Creditors of the Tribune Company, on behalf of the Tribune Company, which seeks to avoid the repurchase of shares by Tribune in the LBO on a theory of intentional fraudulent transfer (the "Committee Action"). The Committee Action has since been consolidated with the Noteholder Actions.

In September 2012, a case management order was entered in the consolidated cases, setting forth, among other things, a briefing schedule for an omnibus motion to dismiss in the Noteholder Actions. The court is expected to hear oral argument on that motion in March 2013. Discovery and other motion practice (other than motions to amend the complaints) in the Committee Action and the Noteholder Actions is stayed until further order of the court.

Ace American Insurance Company

A subsidiary of the OneBeacon, OneBeacon U.S. Holdings, Inc. ("OBH"), was sued in Federal Court in the Eastern District of Pennsylvania on August 17, 2012 by Ace American Insurance Company ("Ace"). The complaint alleges that OBH, through a professional recruiting firm, improperly hired a group of Ace employees from Ace's surety division. The complaint seeks injunctive relief and unspecified damages. Upon motions of both parties, the court

ordered expedited discovery, which has been completed. OBH's response to Ace's motion for preliminary injunction is due at the end of October. OneBeacon believes that Ace's motion is without merit and intends to vigorously defend the lawsuit.

Item 1A. Risk Factors.

Other than what is described below, there have been no material changes to any of the risk factors previously disclosed the Registrant's 2011 Annual Report on Form 10-K or in the Registrant's March 31, 2012 Quarterly Report on Form 10-Q.

We may not maintain favorable financial strength or creditworthiness ratings which could adversely affect our ability to conduct business.

Third-party rating agencies assess and rate the financial strength, including claims paying ability, of insurers and reinsurers. These ratings are based upon criteria established by the rating agencies and are subject to revision at any time at the sole discretion of the agencies. Some of the criteria relate to general economic conditions and other circumstances outside the rated company's control. These financial strength ratings are used by policyholders, agents and brokers as an important means of assessing the suitability of insurers and reinsurers as business counterparties and have become an increasingly important factor in establishing the competitive position of insurance and reinsurance companies. These financial strength ratings do not refer to our ability to meet non-insurance obligations and are not a recommendation to purchase or discontinue any policy or contract issued by us or to buy, hold or sell our securities. The maintenance of an "A-" or better financial strength rating from A.M. Best and/or Standard & Poor's is particularly important to our ability to write new or renewal business in most markets. General creditworthiness ratings are used by existing or potential investors to assess the likelihood of repayment on a particular debt issue. The maintenance of an investment grade creditworthiness rating (e.g., "BBB-" or better from Standard & Poor's and "Baa3" or better from Moody's) is particularly important to our ability to raise new debt with acceptable terms. We believe that strong creditworthiness ratings are important factors that provide better financial flexibility when issuing new debt or restructuring existing debt.

Rating agencies periodically evaluate us to confirm that we continue to meet the criteria of the ratings previously assigned to us. The current financial strength ratings for OneBeacon's operating subsidiaries which are not being transferred as part of the Runoff Transaction ("Ongoing Subsidiaries") are "A" (Excellent, third highest of fifteen ratings) by A. M. Best, "A-" (Strong, seventh highest of twenty-one ratings) by Standard & Poor's, "A2" (Good, sixth highest of twenty-one ratings) by Moody's and "A" (Strong, sixth highest of twenty-one ratings) by Fitch. The current financial strength ratings for Sirius Group's principal reinsurance operating subsidiaries are "A" (Excellent, third highest of fifteen ratings) by A. M. Best, "A-" (Strong, seventh highest of twenty-one ratings) by Standard & Poor's, "A3" (Good, seventh highest of twenty-one ratings) by Moody's and "A" (Strong, sixth highest of twenty-one ratings) by Fitch. OneBeacon's Ongoing Subsidiaries and Sirius Group's principal reinsurance operating subsidiaries currently have a "Stable" outlook from each of A.M. Best, Standard & Poor's, Fitch and Moody's. A downgrade, withdrawal or negative watch/outlook of our financial strength ratings could severely limit or prevent our insurance and reinsurance operating subsidiaries from writing new insurance or reinsurance policies or renewing existing policies, which could have a material adverse effect on our results of operations and financial condition. A downgrade, withdrawal or negative watch/outlook of our creditworthiness ratings could limit our ability to raise new debt or could make new debt more costly and/or have more restrictive conditions. See "Brokers, agents or policyholders may react negatively to the announcement of the Runoff Transaction." in this Section 1A of this Form 10-Q

There is no certainty that the Runoff Transaction will close.

Consummation of the sale of the OneBeacon's Runoff Business pursuant to the Stock Purchase Agreement is subject to conditions, such as regulatory approval, that are outside of the control of the parties. There can be no assurance as to whether or when such conditions may be satisfied and a closing would occur.

Brokers, agents or policyholders may react negatively to the announcement of the Runoff Transaction.

Following OneBeacon's announcement of the Runoff Transaction, A.M. Best, Fitch, Moody's and Standard & Poor's each issued a press release regarding the ratings implications. A.M. Best placed the subsidiaries being sold in the Runoff Transaction (the "Runoff Subsidiaries") under review with negative implications; Fitch placed the Runoff Subsidiaries on credit watch negative; and Mood's assigned a negative outlook. Standard & Poor's downgraded and subsequently, at the request of OneBeacon, withdrew its rating on the Runoff Subsidiaries. All four rating agencies affirmed the ratings on the Ongoing Subsidiaries with stable outlook. The Runoff Subsidiaries have been underwriting specialty policies, and they will continue to do so up until the closing of the Runoff Transaction and for a limited time following the closing through a fronting and reinsurance agreement with Armour. It is possible that certain brokers, agents or policyholders dealing with specialty policies underwritten by the Runoff Subsidiaries could determine that the Runoff Subsidiaries no longer meet their placement standards and could cease placing business with the Runoff

Subsidiaries. While OneBeacon believes that the Runoff Subsidiaries' financial strength is robust notwithstanding the Runoff Transaction, it intends to take various steps to provide assurances to the Runoff Subsidiaries' brokers, agents and policyholders. However, there is no assurance that the Runoff Subsidiaries will be successful in continuing to underwrite the specialty business on an interim basis, which may have an adverse impact on OneBeacon.

Item 2. Issuer Purchases of Equity Securities.

Months	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan (1)	Maximum Number of Shares that May Yet Be Purchased Under the Plan (1)
July 1- 30, 2012	50,000	\$ 528.45	50,000	970,496
Total	50,000	\$ 528.45	50,000	970,496

⁽¹⁾ On November 17, 2006, White Mountains' board of directors authorized the Company to repurchase up to 1 million of its common shares, from time to time, subject to market conditions. On August 26, 2010 and May 25, 2012, White Mountains' board of directors authorized the Company to repurchase up to an additional 600,000 and 1,000,000, respectively, common shares, for a total authorization of 2.6 million shares. Shares may be repurchased on the open market or through privately negotiated transactions. The repurchase authorization does not have a stated expiration.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures

None.

Item 5. Other Information.

None.

Item 6. Exhibits.

- (a) Exhibits
