## FORWARD LOOKING STATEMENTS

Statements made in this Form 10-Q that are not historical or current facts are forward-looking statements. These statements often can be identified by the use of terms such as “may,” “will,” “expect,” “believe,” “anticipate,” “estimate,” “approximate” or “continue,” or the negative thereof. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Any forward-looking statements represent management’s best judgment as to what may occur in the future. However, forward-looking statements are subject to risks, uncertainties and important factors beyond our control that could cause actual results and events to differ materially from historical results of operations and events and those presently anticipated or projected. Among the factors that could cause actual results to differ materially from the forward-looking statements are the following: the Company’s ability to obtain necessary capital, the Company’s ability to meet anticipated development timelines, the Company’s ability to protect its proprietary technology and knowhow; the Company’s ability to identify and develop a network of physicians, the Company’s ability to establish a global market, clinical trial results, the Company’s ability to successfully consummate future acquisitions and such other risk factors identified from time to time in the Company’s reports filed with the Securities and Exchange Commission, including those filed with this Form 10-Q quarterly report. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statement or to reflect the occurrence of anticipated or unanticipated events.

**SILVERSTAR RESOURCES, INC**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**NOTE 1 – ORGANIZATION AND BASIS OF PRESENTATION**

Silverstar Resources, Inc (formally Silverstar Mining Corp) (the “Company”) was incorporated under the laws of the State of Nevada on December 5, 2003. On March 4, 2008, the Company completed a merger with its wholly-owned subsidiary, Silverstar Resources Corp., which was incorporated by the Company solely to effect the name change of the Company to Silverstar Resources Corp. The Company was incorporated for the purpose to promote and carry on any lawful business for which a corporation may be incorporated under the laws of the State of Nevada.

On January 23, 2015 the board of directors with the consent of a majority of its shareholders approved amended articles of incorporation to include a change of name to Silverstar Resources, Inc and a reverse split of its common stock resulting in shareholders receiving one share for every five shares (5 to 1) they hold as of record of that date. In addition the amendment set the authorized shares of common stock at 220,000,000 and preferred stock at 5,000,000 shares both at a par value of \$0.001.

On March 10, 2015 the Company formed 1030029 Ltd, an Alberta numbered company as a wholly owned subsidiary to meet the requirements of holding working interest of Alberta producing oil and gas properties.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying unaudited interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (SEC), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company’s September 30, 2014 Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year end September 30, as reported on Form 10-K, have been omitted.

**NOTE 3 – GOING CONCERN**

As shown in the accompanying financial statements, Silverstar Resources has an accumulated deficit of \$2,499,298 as of March 31, 2015 and incurred a net loss of \$265,641 for the six months period ended March 31, 2015. Unless the Company is able to attain profitability and increases in stockholders' equity continue, these conditions raise substantial doubt as to Silverstar Resources' ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might be necessary if Silverstar Resources is unable to continue as a going concern.

Silverstar Resources continues to review its expense structure reviewing costs and their reduction to move towards profitability. The Company's expenses are planned to decrease as a percent of revenue resulting in profitability and increased shareholders' equity.

7  
—

#### **NOTE 4 – DERIVATIVE INSTRUMENTS**

During the three month period ended March 31, 2015 the Company changed the conversion features on a convertible instrument that require liability classification under ASC 815. These instruments are measured at fair value at the end of each reporting period. (See Note 5)

As defined in FASB ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company utilized the market data of similar entities in its industry or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable. The Company classifies fair value balances based on the observability of those inputs. FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

The three levels of the fair value hierarchy are as follows:

- Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, marketable securities and listed equities.
- Level 2 - Pricing inputs are other than quoted prices in active markets included in level 1, which are either directly or indirectly observable as of the reported date and includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. Instruments in this category generally include non-exchange-traded derivatives such as commodity swaps, interest rate swaps, options and collars.
- Level 3 – Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management’s best estimate of fair value.

Edgar Filing: Silverstar Resources, Inc. - Form 10-Q

The following table sets forth by level within the fair value hierarchy the Company's financial assets and liabilities that were accounted for at fair value as September 30, 2014 and March 31, 2015:

<b>Recurring Fair Value Measures</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>LIABILITIES:</b>				
Derivative liabilities as of September 30, 2014	--	--	\$ --	\$ --
Derivative liabilities as of March 31, 2015	--	--	\$ 109,348	\$ 109,348

The below table represents the change in the fair value of the derivative liabilities during the six months ended March 31, 2015:

Fair value of derivatives, September 30, 2014	\$ --
Derivative at time of initial measurement	40,223
Change in fair value of derivative liability	69,125
Fair value of derivatives, March 31, 2015	\$ 109,348

## NOTE 5 – RELATED PARTIES

During the six months period ended March 31, 2015, a shareholder advanced the Company \$22,450. The advances do not have any repayment terms and are not interest bearing.

On January 15, 2015 the Company amended the convertible debenture with the principal of \$75,754 of a related party so that the debenture became anti-dilutive with a conversion price set at \$0.35 regardless of any forward or reverse splits in the Company's common stock.

On February 23, 2015 a shareholder holding a debenture with a principal balance of \$75,754 and other advances to the Company of \$149,212 made demand for payment of the total amounts owed including interest. The Company was not able to pay the outstanding balances. The Company and shareholder came to an agreement that the shareholder could convert his advances of \$149,212 plus further advances up to \$150,000 at a 15% discount to the closing price as of date of the agreement or \$0.15 per share. The shareholder agreed to advance an additional \$50,000 to the Company to acquire assets for the Company.

The change in terms of the \$75,754 convertible note created derivative liability and required the Company to record fair value at the inception of the derivative and for each subsequent reporting period. The fair value of the embedded derivatives at inception was determined using the Black Scholes based on the following assumptions: (1) dividend yield of 0%; (2) expected volatility of 281.67%, (3) weighted average risk-free interest rate of 0.025%, (4) expected life of 1.26 year, and (5) estimated fair value of the Company's common stock from \$0.177 per share. The initial fair value of the embedded debt derivative was \$40,223 with the fair value calculated as of March 31, 2015 was \$109,348. As of March 31, 2015 the change in fair value was measured with derivative liability of \$109,348.

The addition of a conversion feature for the advances of \$149,212 created a beneficial conversion feature which was calculated as of March 31, 2015 to be \$29,841. Due to the advances having no terms and being due on demand, this amount was expensed as interest expense.

As of March 31, 2015 the total advances due to related parties was \$152,958.

## NOTE 6 – EQUITY

## Edgar Filing: Silverstar Resources, Inc. - Form 10-Q

On November 18, 2014 the Company issued 3,000 shares with a value of \$12,166 to one individual for accounts payable. The Company computed the fair value of the stock issued for the debt and recorded a gain on debt forgiveness of \$9,015

On January 15, 2015 the Company issued 40,000 shares of common stock to an officer with a value of \$70,000 for service

On January 15, 2015 the Company issued 2,000 shares to an individual with a value of \$3,500 for service.

On January 15, 2015 the Company issued 800,000 shares of common stock to two entities for the conversion of convertible debt with a value of \$10,000.

### **NOTE 7 – SUBSEQUENT EVENTS**

On April 14, 2015 the Company acquired the working interest of two producing oil and gas properties in Alberta Canada for US \$80,000.

On April 14, 2015 the Company issued a \$60,000 one year note bearing interest of 9% as part of the acquisition of the working interest in the Alberta oil and gas property.

On April 14, 2015 a related party advanced the Company \$20,000 for the acquisition of the working interest of the Alberta oil and gas property.

## **ITEM 2: MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS**

### **RESULTS OF OPERATIONS**

For the three month period ending March 31, 2015 and 2014 the Company did not have any revenue.

General and administrative expense was \$102,876 and \$123,691 for the three and six months ended March 31, 2015 compared to \$33,582 and \$145,272 for the same periods ended March 31, 2014. The change in expenses for the three and six months period in 2015 over 2014 was due primarily to varying consulting and legal expenses in 2014 versus 2015.

The operating loss for the three and six month period ending March 31, 2015 consisted of an operating loss of \$102,876 and \$123,691 compared to operating loss of \$33,582 and \$145,272 in the respective period in 2014. The larger loss in 2014 was due to larger legal and consulting fees in the six month period incurred in 2014 compared to the same periods in 2015.

Other expenses net for the three and six month period ending March 31, 2015 consisted of \$144,974 and \$141,950 compared to \$5,394 and \$12,588 for the same periods in 2014. The change in fair value of a derivative instrument \$109,348 and increased interest expense due to a beneficial conversion feature was incurred in 2015 but not in 2014.

Net loss of \$247,850 and \$ 265,641 was recorded for the three and six month period ending March 31, 2015 compared to net loss of \$38,976 and \$157,860 for the same periods in 2014. The 2015 net loss amount for the six periods included the change in fair value calculation of \$109,348 that was not incurred in 2014.

### **LIQUIDITY AND CAPITAL RESOURCES**

At March 31, 2015, Silverstar Resources had current assets of \$219 and current liabilities of \$585,275 resulting in negative working capital of \$585,056. Stockholders' deficit as of March 31, 2015 was \$585,056.

Edgar Filing: Silverstar Resources, Inc. - Form 10-Q

Net cash used in operations for the six months ending March 31, 2015 was \$22,255 compared to net cash used in operations of \$194,128 for the same period in 2014. The change of \$171,873 was primarily attributable a larger net loss, decreased accounts payable and accrued expenses along with shares that were to be issued being offset by stock based compensation and the change in fair value of the derivative liability.

Net cash provided by financing activities during the six month ended March 31, 2015 was \$22,450 compared to net cash provided of \$188,341 in 2014, a decrease of \$171,873. The change was due to advances of \$22,450 in 2015 compared to advances totaling \$188,341 in 2014.

Our existing capital may not be sufficient to meet Silverstar Resources' cash needs, including the costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended. This condition raises substantial doubt as to Silverstar Resources' ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if Silverstar Resources is unable to continue as a going concern.

### **Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

### **ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK**

As a smaller reporting company, we are not required to provide the information required by this Item.

### **ITEM 4: CONTROLS AND PROCEDURES**

This report includes the certifications of our Chief Executive Officer and Chief Financial Officer required by Rule 13a-14 under the Securities Exchange Act of 1934 (the "Exchange Act"). See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

#### **Evaluation of Disclosure Controls and Procedures**

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Principal Executive Officer and the Principal Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this report, our management, under the supervision and with participation of our Principal Executive Officer and Principal Financial Officer (the "Certifying Officers") conducted an evaluation of the

effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2015. Based on that evaluation, our management concluded that there is a material weakness in our disclosure controls and procedures over financial reporting. The material weakness results from a lack of written procedures which effectively documents the proper procedures and descriptions of the duties of all persons involved in the disclosure controls of the Company. The Company hopes to implement plans to document the procedures and internal controls of the Company. A material weakness is a deficiency, or a combination of control deficiencies, in disclosure control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. This does not include an evaluation by the Company's registered public accounting firm regarding the Company's internal control over financial reporting.

### **Changes in Internal Control over Financial Reporting**

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our most recent quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our management believes that the Unaudited Financial Statements included herein present, in all material respects, the Company's financial condition, results of operations and cash flows for the periods presented.

**PART II - OTHER INFORMATION**

**ITEM 1: LEGAL PROCEEDINGS.**

None

**ITEM 1A: RISK FACTORS**

There have been no material changes to Silverstar Resources' risk factors as previously disclosed in our most recent 10-K filing for the year ending September 30, 2014.

**ITEM 2: SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

On November 18, 2014 the Company issued 15,000 shares with a value of \$12,166 to one individual for accounts payable.

On January 15, 2015 the Company issued 40,000 shares of common stock to an officer with a value of \$70,000 for service

On January 15, 2015 the Company issued 2,000 shares to an individual with a value of \$3,500 for service.

On January 15, 2015 the Company issued 800,000 shares of common stock to two entities for the conversion of convertible debt with a value of \$10,000.

**ITEM 3: DEFAULTS UPON SENIOR SECURITIES.**

None

**ITEM 4: MINE SAFETY INFORMATION**

Not Applicable

**ITEM 5: OTHER INFORMATION.**

On January 23, 2015 the board of directors with the consent of a majority of its shareholders approved amended articles of incorporation to include a change of name to Silverstar Resources, Inc and a reverse split of its common stock resulting in shareholders receiving one share for every five shares (5 to 1) they hold as of record of that date. In addition the amendment set the authorized shares of common stock at 220,000,000 and preferred stock at 5,000,000 shares both at a par value of \$0.001.

On April 24, 2015 the Company signed 2 additional letters of intent to acquire an additional producing oil and gas properties in Alberta Canada.

**ITEM 6: EXHIBITS**

The following exhibits are included as part of this report:

31.1 Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.\*

31.2 Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.\*
