Eaton Corp plc
Form 10-K
February 26, 2015
Table of Contents

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

Annual report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

For the year ended December 31, 2014

Commission file number 000-54863

EATON CORPORATION plc

(Exact name of registrant as specified in its charter)

Ireland

98-1059235

(State or other jurisdiction of incorporation or organization)

(IRS Employer Identification Number)

Eaton House, 30 Pembroke Road, Dublin 4, Ireland

-

(Address of principal executive offices)

(Zip code)

+1 (440) 523-5000

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Name of each exchange on which registered

Ordinary Shares (\$0.01 par value)

The New York Stock Exchange

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of Ordinary Shares held by non-affiliates of the registrant as of June 30, 2014 was \$36.7 billion.

As of January 31, 2015, there were 467.9 million Ordinary Shares outstanding.

Documents Incorporated By Reference

Portions of the Proxy Statement for the 2015 annual shareholders meeting are incorporated by reference into Part III.

Part I

Item 1. Business.

Eaton Corporation plc (Eaton or the Company) is a power management company with 2014 net sales of \$22.6 billion. The Company provides energy-efficient solutions that help its customers effectively manage electrical, hydraulic and mechanical power more efficiently, safely and sustainably. Eaton has approximately 102,000 employees in over 60 countries and sells products to customers in more than 175 countries.

Eaton electronically files or furnishes reports pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (Exchange Act) to the United States Securities and Exchange Commission (SEC), including annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and proxy and information statements, as well as any amendments to those reports. As soon as reasonably practicable, these reports are available free of charge through the Company's Internet website at <http://www.eaton.com>. These filings are also accessible on the SEC's Internet website at <http://www.sec.gov>.

Acquisitions and Sales of Businesses

Cooper Industries plc

On November 30, 2012, Eaton Corporation acquired Cooper Industries plc (Cooper) for a purchase price totaling \$13,192 million, which consisted of cash totaling \$6,543 million and Eaton share consideration valued at \$6,649 million.

Cooper was a diversified global manufacturer of electrical products and systems, with brands including Bussmann electrical and electronic fuses; Crouse-Hinds and CEAG explosion-proof electrical equipment; Halo and Metalux lighting fixtures; and Kyle and McGraw-Edison power systems products. Cooper had annual sales of \$5,409 million for 2011. Eaton's Consolidated Financial Statements include Cooper's results of operations from November 30, 2012. For segment reporting purposes, Cooper has been included within the Electrical Products and the Electrical Systems and Services business segments. Additional information related to the acquisition of Cooper and business segments is presented in Note 2 and Note 14, respectively, of the Notes to the Consolidated Financial Statements.

Acquisitions of Other Businesses

Eaton's other acquired businesses for 2012 are presented in Note 2 of the Notes to the Consolidated Financial Statements.

Sale of Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions

On May 9, 2014, Eaton sold the Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses to Safran for \$270, which resulted in a pre-tax gain of \$154.

Sale of Apex Tool Group, LLC

In July 2010, Cooper formed a joint venture, named Apex Tool Group, LLC (Apex), with Danaher Corporation (Danaher). On February 1, 2013, Cooper and Danaher sold Apex to Bain Capital for approximately \$1.6 billion, subject to post-closing adjustments.

Business Segment Information

Information by business segment and geographic region regarding principal products, principal markets, methods of distribution, net sales, operating profit and assets is presented in Note 14 of the Notes to the Consolidated Financial Statements. Additional information regarding Eaton's segments and business is presented below.

Electrical Products and Electrical Systems and Services

Principal methods of competition in these segments are performance of products and systems, technology, customer service and support, and price. Eaton has a strong competitive position in these segments and, with respect to many products, is considered among the market leaders. In normal economic cycles, sales of these segments are historically lower in the first quarter and higher in the third and fourth quarters of a year. In 2014, 18% of these segments' sales were made to four large distributors of electrical products and electrical systems and services.

Table of Contents

Hydraulics

Principal methods of competition in this segment are product performance, geographic coverage, service, and price. Eaton has a strong competitive position in this segment and, with respect to many products, is considered among the market leaders. Sales of this segment are historically higher in the first and second quarters and lower in the third and fourth quarters of the year. In 2014, 12% of this segment's sales were made to three large original equipment manufacturers or distributors of agricultural, construction, and industrial equipment and parts.

Aerospace

Principal methods of competition in this segment are total cost of ownership, product and system performance, quality, design engineering capabilities, and timely delivery. Eaton has a strong competitive position in this segment and, with respect to many products and platforms, is considered among the market leaders. In 2014, 30% of this segment's sales were made to three large original equipment manufacturers of aircraft.

Vehicle

Principal methods of competition in this segment are product performance, technology, global service, and price. Eaton has a strong competitive position in this segment and, with respect to many products, is considered among the market leaders. In 2014, 57% of this segment's sales were made to seven large original equipment manufacturers of vehicles and related components.

Information Concerning Eaton's Business in General

Raw Materials

Eaton's major requirements for raw materials include iron, steel, copper, nickel, aluminum, brass, tin, silver, lead, molybdenum, titanium, vanadium, rubber, plastic, electronic components, insulating materials and fluids. Materials are purchased in various forms, such as extrusions, castings, powder metal, metal sheets and strips, forging billets, bar stock, and plastic pellets. Raw materials, as well as parts and other components, are purchased from many suppliers, although there are limited sources of supply for electrical core steel and insulating fluids. Under normal circumstances, the Company has no difficulty obtaining its raw materials. In 2014, Eaton maintained appropriate levels of inventory to prevent shortages and did not experience any availability constraints.

Patents and Trademarks

Eaton considers its intellectual property, including patents, trade names and trademarks, to be of significant value to its business as a whole. The Company's products are manufactured, marketed and sold under a portfolio of patents, trademarks, licenses, and other forms of intellectual property, some of which expire or are allowed to lapse at various dates in the future. Eaton develops and acquires new intellectual property on an ongoing basis and considers all of its intellectual property to be valuable. Based on the broad scope of the Company's product lines, management believes that the loss or expiration of any single intellectual property right would not have a material effect on Eaton's consolidated financial statements or its business segments. The Company's policy is to file applications and obtain patents for the great majority of its novel and innovative new products including product modifications and improvements.

Order Backlog

A significant portion of open orders placed with Eaton are by original equipment manufacturers or distributors. These open orders are not considered firm as they have been historically subject to month-to-month releases by customers. In measuring backlog orders, only the amount of orders to which customers are firmly committed are included. Using this criterion, total backlog at December 31, 2014 and 2013 was approximately \$4.4 billion and \$4.6 billion, respectively. Backlog should not be relied upon as being indicative of results of operations for future periods.

Research and Development

Research and development expenses for new products and improvement of existing products in 2014, 2013 and 2012 were \$647 million, \$644 million, and \$439 million, respectively. Over the past five years, the Company has invested approximately \$2.6 billion in research and development.

Table of Contents

Environmental Contingencies

Operations of the Company involve the use and disposal of certain substances regulated under environmental protection laws. Eaton continues to modify processes on an ongoing, regular basis in order to reduce the impact on the environment, including the reduction or elimination of certain chemicals used in, and wastes generated from, operations. Compliance with laws that have been enacted or adopted regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment, are not expected to have a material adverse effect upon earnings or the competitive position of the Company. Eaton's estimated capital expenditures for environmental control facilities are not expected to be material for 2015 and 2016. Information regarding the Company's liabilities related to environmental matters is presented in Note 7 of the Notes to the Consolidated Financial Statements.

Item 1A. Risk Factors.

Among the risks that could materially adversely affect Eaton's businesses, financial condition or results of operations are the following:

Eaton may not realize all of the anticipated benefits from the acquisition of Cooper or those benefits may take longer to realize than expected.

Eaton's ability to realize the anticipated benefits of the Cooper transaction will depend, to a large extent, on the Company's ability to integrate the two businesses. The integration process may disrupt the businesses and, if implemented ineffectively, would preclude realization of the full benefits expected. The difficulties of combining the operations of the companies include, among others:

- the diversion of management's attention to integration matters;
- difficulties in achieving anticipated cost savings, synergies, business opportunities, and growth prospects from combining the business of Cooper with that of Eaton;
- difficulties in the integration of operations and systems;
- difficulties in managing the expanded operations of a significantly larger and more complex company;
- challenges in keeping existing customers and obtaining new customers; and
- challenges in attracting and retaining key personnel.

Many of these factors will be outside of Eaton's control and any one of them could result in increased costs, decreases in the amount of expected revenues and diversion of management's time and energy, which could materially impact the business, financial condition, and results of operations of Eaton.

Volatility of end markets that Eaton serves.

Eaton's segment revenues, operating results, and profitability have varied in the past and may vary from quarter to quarter in the future. Profitability can be negatively impacted by volatility in the end markets that Eaton serves. The Company has undertaken measures to reduce the impact of this volatility through diversification of markets it serves and expansion of geographic regions in which it operates. Future downturns in any of the markets could adversely affect revenues, operating results, and profitability.

Eaton's operating results depend in part on continued successful research, development, and marketing of new and/or improved products and services, and there can be no assurance that Eaton will continue to successfully introduce new products and services.

The success of new and improved products and services depends on their initial and continued acceptance by Eaton's customers. The Company's businesses are affected, to varying degrees, by technological change and corresponding shifts in customer demand, which could result in unpredictable product transitions or shortened life cycles. Eaton may experience difficulties or delays in the research, development, production, or marketing of new products and services which may prevent Eaton from recouping or realizing a return on the investments required to bring new products and services to market.

Table of Contents

Eaton's ability to attract, develop and retain executives and other qualified employees is crucial to the Company's results of operations and future growth.

Eaton depends on the continued services and performance of key executives, senior management, and skilled personnel, particularly professionals with experience in its industry and business. Eaton cannot be certain that any of these individuals will continue his or her employment with the Company. A lengthy period of time is required to hire and develop replacement personnel when skilled personnel depart. An inability to hire, develop, and retain a sufficient number of qualified employees could materially hinder the business by, for example, delaying Eaton's ability to bring new products to market or impairing the success of the Company's operations.

Eaton's operations depend on production facilities throughout the world, which subjects them to varying degrees of risk of disrupted production.

Eaton manages businesses with manufacturing facilities worldwide. The Company's manufacturing facilities and operations could be disrupted by a natural disaster, labor strike, war, political unrest, terrorist activity, economic upheaval, or public health concerns. Some of these conditions are more likely in certain geographic regions in which Eaton operates. Any such disruption could cause delays in shipments of products and the loss of sales and customers, and insurance proceeds may not adequately compensate for losses.

If Eaton is unable to protect its information technology infrastructure against service interruptions, data corruption, cyber-based attacks or network security breaches, operations could be disrupted or data confidentiality lost.

Eaton relies on information technology networks and systems, including the Internet, to process, transmit and store electronic information, and to manage or support a variety of business processes and activities, including procurement, manufacturing, distribution, invoicing and collection. These technology networks and systems may be susceptible to damage, disruptions or shutdowns due to failures during the process of upgrading or replacing software, databases or components; power outages; hardware failures; or computer viruses. In addition, security breaches could result in unauthorized disclosure of confidential information. If these information technology systems suffer severe damage, disruption, or shutdown, and business continuity plans do not effectively resolve the issues in a timely manner, there could be a negative impact on operating results or the Company may suffer financial or reputational damage.

Eaton's global operations subject it to economic risk as Eaton's results of operations may be adversely affected by changes in government regulations and policies and currency fluctuations.

Operating globally subjects Eaton to changes in government regulations and policies in a large number of jurisdictions around the world, including those related to tariffs and trade barriers, investments, property ownership rights, taxation, exchange controls, and repatriation of earnings. Changes in the relative values of currencies occur from time to time and could affect Eaton's operating results. While the Company monitors exchange rate exposures and attempts to reduce these exposures through hedging activities, these risks could adversely affect operating results.

Eaton may be subject to risks relating to changes in its tax rates or exposure to additional income tax liabilities. Eaton is subject to income taxes in many jurisdictions around the world. Income tax liabilities are subject to the allocation of income among various tax jurisdictions. The Company's effective tax rate could be affected by changes in the mix among earnings in countries with differing statutory tax rates, changes in the valuation allowance of deferred tax assets, or changes in tax laws. The amount of income taxes paid is subject to ongoing audits by tax authorities in the countries in which Eaton operates. If these audits result in assessments different from amounts reserved, future financial results may include unfavorable adjustments to the Company's tax liabilities.

Eaton uses a variety of raw materials and components in its businesses, and significant shortages, price increases, or supplier insolvencies could increase operating costs and adversely impact the competitive positions of Eaton's products.

Eaton's major requirements for raw materials are described above in Item 1 "Raw Materials". Significant shortages could affect the prices Eaton's businesses are charged and the competitive position of their products and services, all of which could adversely affect operating results.

Further, Eaton's suppliers of component parts may increase their prices in response to increases in costs of raw materials that they use to manufacture component parts. As a result, the Company may not be able to increase its prices commensurately with its increased costs, adversely affecting operating results.

Table of Contents

Eaton may be unable to adequately protect its intellectual property rights, which could affect the Company's ability to compete.

Protecting Eaton's intellectual property rights is critical to its ability to compete and succeed. The Company owns a large number of patents and patent applications worldwide, as well as trademark and copyright registrations that are necessary, and contribute significantly, to the preservation of Eaton's competitive position in various markets. Although management believes that the loss or expiration of any single intellectual property right would not have a material effect on the results of operations or financial position of Eaton or its business segments, there can be no assurance that any one, or more, of these patents and other intellectual property will not be challenged, invalidated, or circumvented by third parties. Eaton enters into confidentiality and invention assignment agreements with the Company's employees, and into non-disclosure agreements with suppliers and appropriate customers, so as to limit access to and disclosure of proprietary information. These measures may not suffice to deter misappropriation or independent third party development of similar technologies.

Eaton is subject to litigation and environmental regulations that could adversely impact Eaton's businesses.

At any given time, Eaton may be subject to litigation, the disposition of which may have a material adverse effect on the Company's businesses, financial condition or results of operations. Information regarding current legal proceedings is presented in Note 7 and Note 8 of the Notes to the Consolidated Financial Statements.

Legislative and regulatory action could materially adversely affect Eaton.

Legislative and regulatory action may be taken in the U.S. which, if ultimately enacted, could override tax treaties upon which Eaton relies or broaden the circumstances under which the Company would be considered a U.S. resident, each of which could materially and adversely affect its effective tax rate. Eaton cannot predict the outcome of any specific legislative or regulatory proposals. However, if proposals were enacted that had the effect of disregarding the incorporation in Ireland or limiting Eaton's ability as an Irish company to take advantage of tax treaties with the U.S., the Company could be subject to increased taxation and/or potentially significant expense.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

Eaton's principal executive offices are located at Eaton House, 30 Pembroke Road, Dublin 4, Ireland. The Company maintains manufacturing facilities at 346 locations in 43 countries. The Company is a lessee under a number of operating leases for certain real properties and equipment, none of which is material to its operations. Management believes that the existing manufacturing facilities are adequate for its operations and that the facilities are maintained in good condition.

Item 3. Legal Proceedings.

Information regarding the Company's current legal proceedings is presented in Note 7 and Note 8 of the Notes to the Consolidated Financial Statements.

Item 4. Mine Safety Disclosures.

Not applicable.

Executive Officers of the Registrant

Information regarding executive officers of the Company is presented in Item 10 of this Form 10-K Report.

Table of Contents

Part II

Item 5. Market for the Registrant's Ordinary Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

The Company's ordinary shares are listed for trading on the New York Stock Exchange. At December 31, 2014, there were 18,993 holders of record of the Company's ordinary shares. Additionally, 26,059 current and former employees were shareholders through participation in the Eaton Savings Plan (ESP), Eaton Personal Investment Plan (EPIP), Eaton Puerto Rico Retirement Savings Plan, and the Cooper Retirement Savings and Stock Ownership Plan.

Information regarding cash dividends paid, and the high and low market price per ordinary share, for each quarter in 2014 and 2013 is presented in "Quarterly Data" of this Form 10-K. Information regarding equity-based compensation plans required by Regulation S-K Item 201(d) is provided in Item 12 of this Form 10-K Report.

Irish Taxes Applicable to Dividends

In certain circumstances, Eaton will be required to deduct Irish dividend withholding tax (currently at the rate of 20%) from dividends paid to its shareholders. In the majority of cases, however, shareholders resident in the U.S. will not be subject to Irish withholding tax, and shareholders resident in a number of other countries will not be subject to Irish withholding tax provided that they complete certain Irish tax forms.

Irish income tax may also arise with respect to dividends paid on Eaton shares. Dividends paid in respect of Eaton shares will generally not be subject to Irish income tax where the beneficial owner of these shares is exempt from dividend withholding tax, unless the beneficial owner of the dividend has some connection with Ireland other than his or her shareholding in Eaton.

Eaton shareholders who receive their dividends subject to Irish dividend withholding tax will generally have no further liability to Irish income tax on the dividends unless the beneficial owner of the dividend has some connection with Ireland other than his or her shareholding in Eaton.

Issuer's Purchases of Equity Securities

During the fourth quarter of 2014, 4.8 million ordinary shares were repurchased in the open market at a total cost of \$326 million. These shares were repurchased under the program announced and approved by shareholders on April 24, 2013 and approved by the Board of Directors on October 22, 2013. A summary of the shares repurchased in the fourth quarter of 2014 follows:

Month	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs
October	1,206,167	\$66.74	1,206,167	34,037,188
November	2,887,867	\$68.50	2,887,867	31,149,321
December	708,483	\$66.77	708,483	30,440,838
Total	4,802,517	\$67.80	4,802,517	

Item 6. Selected Financial Data.

Information regarding selected financial data is presented in the "Ten-Year Consolidated Financial Summary" of this Form 10-K.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Information required by this Item is presented in "Management's Discussion and Analysis of Financial Condition and Results of Operations" of this Form 10-K.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk.

Information regarding market risk is presented in "Market Risk Disclosure" of this Form 10-K.

Table of Contents

Item 8. Financial Statements and Supplementary Data.

The reports of the independent registered public accounting firm, consolidated financial statements, and notes to consolidated financial statements are presented on pages 15 through 66 of this Form 10-K.

Information regarding selected quarterly financial information for 2014 and 2013 is presented in “Quarterly Data” of this Form 10-K.

Item 9. Change in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures - Pursuant to SEC Rule 13a-15, an evaluation was performed under the supervision and with the participation of Eaton's management, including Alexander M. Cutler - Principal Executive Officer; and Richard H. Fearon - Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, Eaton's management concluded that the Company's disclosure controls and procedures were effective as of December 31, 2014.

Disclosure controls and procedures are designed to ensure that information required to be disclosed in Company reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure.

Pursuant to Section 404 of the Sarbanes Oxley Act of 2002 and the rules and regulations adopted pursuant thereto, Eaton has included a report of management's assessment of the effectiveness of internal control over financial reporting, which is presented on page 18.

“Report of Independent Registered Public Accounting Firm” relating to internal control over financial reporting as of December 31, 2014 is presented on page 17.

During the fourth quarter of 2014, there was no change in Eaton's internal control over financial reporting that materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

Item 9B. Other Information.

None.

Part III

Item 10. Directors, Executive Officers and Corporate Governance.

Information required with respect to the directors of the Company is set forth under the caption “Election of Directors” in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference. A listing of executive officers, their ages, positions and offices held over the past five years, as of February 1, 2015, follows:

Name	Age	Position (Date elected to position)
Alexander M. Cutler	63	Director of Eaton Corporation plc (November 30, 2012 - present)
		Chief Executive Officer and President of Eaton Corporation (August 1, 2000 - present)
		Director of Eaton Corporation (September 22, 1993 - November 30, 2012)
Richard H. Fearon	58	Vice Chairman and Chief Financial and Planning Officer of Eaton Corporation

Table of Contents

Name	Age	Position (Date elected to position)
Craig Arnold	54	Vice Chairman and Chief Operating Officer - Industrial Sector of Eaton Corporation (February 1, 2009 - present)
Thomas S. Gross	60	Vice Chairman and Chief Operating Officer - Electrical Sector of Eaton Corporation (February 1, 2009 - present)
Cynthia K. Brabander	53	Executive Vice President and Chief Human Resources Officer of Eaton Corporation (March 1, 2012 - present) Senior Vice President, Human Resources of Gates Corporation (April 11, 2009 - January 10, 2012)
Mark M. McGuire	57	Executive Vice President and General Counsel of Eaton Corporation (December 1, 2005 - present)
Thomas E. Moran	50	Senior Vice President and Secretary of Eaton Corporation plc (November 27, 2012 - present) Senior Vice President and Secretary of Eaton Corporation (October 1, 2008 - January 1, 2013)
Ken D. Semelsberger	53	Senior Vice President and Controller of Eaton Corporation (November 1, 2013 - present) Senior Vice President, Finance and Planning - Industrial Sector of Eaton Corporation (February 1, 2009 - October 31, 2013)

There are no family relationships among the officers listed, and there are no arrangements or understandings pursuant to which any of them were elected as officers. All officers hold office for one year and until their successors are elected and qualified, unless otherwise specified by the Board of Directors; provided, however, that any officer is subject to removal with or without cause, at any time, by a vote of a majority of the Board of Directors.

Information required with respect to compliance with Section 16(a) of the Exchange Act is set forth under the caption "Section 16(a) Beneficial Ownership Reporting Compliance" in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

The Company has adopted a Code of Ethics, which applies to the directors, officers and employees worldwide. This document is available on the Company's website at <http://www.eaton.com>.

There were no changes during the fourth quarter 2014 to the procedures by which security holders may recommend nominees to the Company's Board of Directors.

Information related to the Audit Committee, and members of the Committee that are financial experts, is set forth under the caption "Board Committees - Audit Committee" in the definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

Item 11. Executive Compensation.

Information required with respect to executive compensation is set forth under the caption “Executive Compensation” in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.
Information required with respect to securities authorized for issuance under equity-based compensation plans is set forth under the caption “Equity Compensation Plans” in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

Table of Contents

Information required with respect to security ownership of certain beneficial owners, is set forth under the caption “Share Ownership Tables” in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Information required with respect to certain relationships and related transactions is set forth under the caption “Review of Related Person Transactions” in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

Information required with respect to director independence is set forth under the caption “Director Independence” in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

Item 14. Principal Accounting Fees and Services.

Information required with respect to principal accountant fees and services is set forth under the caption “Audit Committee Report” in the Company's definitive Proxy Statement to be filed on or about March 13, 2015, and is incorporated by reference.

Part IV

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of Eaton Corporation plc

We have audited the accompanying consolidated balance sheets of Eaton Corporation plc ("the Company") as of December 31, 2014 and 2013, and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2014. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2014 and 2013, and the consolidated results of its operations and its cash flows for each of the three years in the period ended December 31, 2014, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework) and our report dated February 26, 2015 expressed an unqualified opinion thereon.

MANAGEMENT'S REPORT ON FINANCIAL STATEMENTS

We have prepared the accompanying consolidated financial statements and related information of Eaton Corporation plc ("Eaton") included herein for the three years ended December 31, 2014. The primary responsibility for the integrity of the financial information included in this annual report rests with management. The financial information included in this annual report has been prepared in accordance with accounting principles generally accepted in the United States based on our best estimates and judgments and giving due consideration to materiality. The opinion of Ernst & Young LLP, Eaton's independent registered public accounting firm, on those financial statements is included herein.

Eaton has high standards of ethical business practices supported by the Eaton Code of Ethics and corporate policies. Careful attention is given to selecting, training and developing personnel, to ensure that management's objectives of establishing and maintaining adequate internal controls and unbiased, uniform reporting standards are attained. Our policies and procedures provide reasonable assurance that operations are conducted in conformity with applicable laws and with the Company's commitment to a high standard of business conduct.

The Board of Directors pursues its responsibility for the quality of Eaton's financial reporting primarily through its Audit Committee, which is composed of six independent directors. The Audit Committee meets regularly with management, the internal auditors and the independent registered public accounting firm to ensure that they are meeting their responsibilities and to discuss matters concerning accounting, control, audits and financial reporting. The internal auditors and independent registered public accounting firm have full and free access to senior management and the Audit Committee.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of Eaton Corporation plc

We have audited Eaton Corporation plc's ("the Company") internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 Framework) (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of the Company as of December 31, 2014 and 2013, and the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2014 and our report dated February 26, 2015 expressed an unqualified opinion thereon.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of Eaton Corporation plc ("Eaton") is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act rules 13a-15(f)).

Under the supervision and with the participation of Eaton's management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of the Company's internal control over financial reporting as of December 31, 2014. In conducting this evaluation, we used the framework set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control - Integrated Framework (2013 Framework). Based on this evaluation under the framework referred to above, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2014.

The independent registered public accounting firm Ernst & Young LLP has issued an audit report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2014. This report is included herein.

EATON CORPORATION plc

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Amounts are in millions unless indicated otherwise (per share data assume dilution).

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General Information and Basis of Presentation

Eaton Corporation plc (Eaton or the Company) is a power management company with 2014 net sales of \$22.6 billion. The Company provides energy-efficient solutions that help its customers effectively manage electrical, hydraulic and mechanical power more efficiently, safely and sustainably. Eaton has approximately 102,000 employees in over 60 countries and sells products to customers in more than 175 countries.

The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Preparation of the consolidated financial statements requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements and notes. Actual results could differ from these estimates. Management has evaluated subsequent events through the date the consolidated financial statements were filed with the Securities Exchange Commission.

The consolidated financial statements include the accounts of Eaton and all subsidiaries and other entities it controls. Intercompany transactions and balances have been eliminated. The equity method of accounting is used for investments in associate companies where the Company has significant influence and generally a 20% to 50% ownership interest. Equity investments are evaluated for impairment whenever events or circumstances indicate the book value of the investment exceeds fair value. An impairment would exist if there is an other-than-temporary decline in value. These associate companies are not material either individually, or in the aggregate, to Eaton's consolidated financial statements. Eaton does not have off-balance sheet arrangements or financings with unconsolidated entities. In the ordinary course of business, the Company leases certain real properties and equipment, as described in Note 7.

Eaton's functional currency is United States Dollars (USD). The functional currency for most subsidiaries is their local currency. Financial statements for these subsidiaries are translated at year-end exchange rates as to assets and liabilities and weighted-average exchange rates as to revenues and expenses. The resulting translation adjustments are recognized in Accumulated other comprehensive loss.

Certain prior year amounts have been reclassified to conform to the current year presentation.

Revenue Recognition

Sales of products are recognized when a sales agreement is in place, products have been shipped to unaffiliated customers and title has transferred in accordance with shipping terms, the selling price is fixed and determinable and collectability is reasonably assured, all significant related acts of performance have been completed, and no other significant uncertainties exist. Shipping and handling costs billed to customers are included in Net sales and the related costs in Cost of products sold. Although the majority of the sales agreements contain standard terms and conditions, there are agreements that contain multiple elements or non-standard terms and conditions. As a result, judgment is required to determine the appropriate accounting, including whether the deliverables specified in these agreements should be treated as separate units of accounting for recognition purposes, and, if so, how the sales price should be allocated among the elements and when to recognize sales for each element. For delivered elements, sales generally are recognized only when the delivered elements have standalone value and there are no uncertainties regarding customer acceptance. Sales for service contracts generally are recognized as the services are provided. Eaton records reductions to revenue for customer and distributor incentives, primarily comprised of rebates, at the time of the initial sale. Rebates are estimated based on sales terms, historical experience, trend analysis, and projected market conditions in the various markets served. The rebate programs offered vary across businesses due to the numerous markets Eaton serves, but the most common incentives relate to amounts paid or credited to customers for achieving defined volume levels.

Table of Contents

Goodwill and Indefinite Life Intangible Assets

Goodwill is evaluated annually for impairment as of July 1 using either a quantitative or qualitative analysis. Goodwill is tested for impairment at the reporting unit level, which is equivalent to Eaton's operating segments and based on the net assets for each segment, including goodwill and intangible assets. Goodwill is assigned to each operating segment, as this represents the lowest level that constitutes a business and is the level at which management regularly reviews the operating results. The Company performs a quantitative analysis using a discounted cash flow model and other valuation techniques, but may elect to perform a qualitative analysis. Additionally, goodwill and indefinite life intangible assets are evaluated for impairment whenever events or circumstances indicate there may be a possible permanent loss of value.

Goodwill impairment testing for 2014 was performed using a qualitative analysis, which is performed by assessing certain trends and factors, including projected market outlook and growth rates, forecasted and actual sales and operating profit margins, discount rates, industry data, and other relevant qualitative factors. These trends and factors are compared to, and based on, the assumptions used in the most recent quantitative assessment. The results of the qualitative analysis did not indicate a need to perform a quantitative analysis.

Goodwill impairment testing for 2013 was performed using a quantitative analysis under which the fair value for each reporting unit was estimated using a discounted cash flow model, which considered forecasted cash flows discounted at an estimated weighted-average cost of capital. The forecasted cash flows were based on the Company's long-term operating plan and a terminal value was used to estimate the operating segment's cash flows beyond the period covered by the operating plan. The weighted-average cost of capital is an estimate of the overall after-tax rate of return required by equity and debt market holders of a business enterprise. These analyses require the exercise of significant judgments, including judgments about appropriate discount rates, perpetual growth rates and the timing of expected future cash flows of the respective reporting unit. Sensitivity analyses were performed in order to assess the reasonableness of the assumptions and the resulting estimated fair values.

For 2014 and 2013, based on a qualitative and quantitative analysis, respectively, the fair values of Eaton's reporting units continue to substantially exceed the respective carrying amounts.

Indefinite life intangible assets consist of trademarks. They are evaluated annually for impairment as of July 1 using either a quantitative or qualitative analysis to determine whether their fair values exceed their respective carrying amounts. Indefinite life intangible asset impairment testing for 2014 and 2013 was performed using a quantitative analysis. The Company determines the fair value of these assets using a royalty relief methodology similar to that employed when the associated assets were acquired, but using updated estimates of future sales, cash flows and profitability. For 2014 and 2013, the fair value of indefinite lived intangible assets substantially exceeded the respective carrying value.

For additional information about goodwill and other intangible assets, see Note 4.

Other Long-Lived Assets

Depreciation and amortization for property, plant and equipment, and intangible assets subject to amortization, are generally computed by the straight-line method and included in Cost of products sold, Selling and administrative expense, and Research and development expense, as appropriate. Cost of buildings are depreciated generally over 40 years and machinery and equipment over 3 to 10 years. At December 31, 2014, the weighted-average amortization period for intangible assets subject to amortization was 17 years for patents and technology, primarily as a result of the long life of aircraft platforms; 17 years for customer relationships; and 16 years for trademarks. Software is amortized up to a maximum life of 10 years.

Other long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate the carrying amount may not be recoverable. Upon indications of impairment, assets and liabilities are grouped at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities. The asset group would be considered impaired when the estimated future net undiscounted cash flows generated by the asset group are less than its carrying value. Determining asset groups and underlying cash flows requires the use of significant judgment.

Retirement Benefits Plans

For the principal pension plans in the United States, Canada, Puerto Rico and the United Kingdom, the Company uses a market-related value of plan assets to calculate the expected return on assets used to determine net periodic benefit costs. The market-related value of plan assets is a calculated value that recognizes changes in the fair value of plan assets over a five year period. All other plans use fair value of plan assets.

Table of Contents

Net actuarial gains or losses are amortized to expense on a plan-by-plan basis when they exceed the accounting corridor. The Company's corridors are set at either 8% or 10%, depending on the plan, of the greater of the plan assets or benefit obligations. Gains or losses outside of the corridor are subject to amortization over an average employee future service period that differs by plan, but is approximately 13 years on a weighted average basis. If most or all of the plan's participants are no longer actively accruing benefits, the average life expectancy is used.

Warranty Accruals

Product warranty accruals are established at the time the related sale is recognized through a charge to Cost of products sold. Warranty accrual estimates are based primarily on historical warranty claim experience and specific customer contracts. Provisions for warranty accruals are comprised of basic warranties for products sold, as well as accruals for product recalls and other events when they are known and estimable. See Note 7 for additional information about warranty accruals.

Asset Retirement Obligations

A conditional asset retirement obligation is recognized at fair value when incurred if the fair value of the liability can be reasonably estimated. Uncertainty about the timing or method of settlement of a conditional asset retirement obligation would be considered in the measurement of the liability when sufficient information exists. Eaton believes that for substantially all of its asset retirement obligations, there is an indeterminate settlement date because the range of time over which the Company may settle the obligation is unknown or cannot be estimated. A liability for these obligations will be recognized when sufficient information is available to estimate fair value.

Income Taxes

Deferred income tax assets and liabilities are determined based on the difference between the financial statement and tax basis of the respective assets and liabilities, using enacted tax rates in effect for the year when the differences are expected to reverse. Deferred income tax assets are recognized for income tax loss carryforwards and income tax credit carryforwards. Judgment is required in determining and evaluating income tax provisions and valuation allowances for deferred income tax assets. Eaton recognizes the income tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Eaton evaluates and adjusts these accruals based on changing facts and circumstances. Eaton recognizes interest and penalties related to unrecognized income tax benefits in the provision for income tax expense. Penalties on unrecognized income tax benefits have been accrued for jurisdictions where penalties are automatically applied to any deficiency, regardless of the merit of the position. For additional information about income taxes, see Note 8.

Equity-Based Compensation

Eaton recognizes equity-based compensation expense based on the grant date fair value of the award over the period during which an employee is required to provide service in exchange for the award. Participants awarded restricted stock units (RSUs) do not receive dividends; therefore, their fair value is determined by reducing the closing market price of the Company's ordinary shares on the date of grant by the present value of the estimated dividends had they been paid. The RSUs entitle the holder to receive one ordinary share for each RSU upon vesting, generally over three or four years. The fair value of restricted stock awards (RSAs) is determined based on the closing market price of the Company's ordinary shares at the date of grant. RSAs are issued and outstanding at the time of grant, but remain subject to forfeiture until vested, generally over three or four years. Stock options are granted with an exercise price equal to the closing market price of Eaton ordinary shares on the date of grant. The fair value of stock options is determined using a Black-Scholes option-pricing model, which incorporates assumptions regarding the expected volatility, the expected option life, the risk-free interest rate, and the expected dividend yield. See Note 10 for additional information about equity-based compensation.

Derivative Financial Instruments and Hedging Activities

Eaton uses derivative financial instruments to manage the exposure to the volatility in raw material costs, currency, and interest rates on certain debt. These instruments are marked to fair value in the accompanying Consolidated Balance Sheets. Changes in the fair value of derivative assets or liabilities (i.e., gains or losses) are recognized depending upon the type of hedging relationship and whether an instrument has been designated as a hedge. For those instruments that qualify for hedge accounting, Eaton designates the hedging instrument, based upon the exposure

being hedged, as a cash flow hedge, a fair value hedge, or a hedge of a net investment in a foreign operation. Changes in fair value of these instruments that do not qualify for hedge accounting are recognized immediately in net income. See Note 12 for additional information about hedges and derivative financial instruments.

Table of Contents

Recently Issued Accounting Pronouncement

In May 2014, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers (ASU 2014-09). This accounting standard supersedes all existing US GAAP revenue recognition guidance. Under ASU 2014-09, a company will recognize revenue when it transfers the control of promised goods or services to customers in an amount that reflects the consideration which the company expects to collect in exchange for those goods or services. ASU 2014-09 will require additional disclosures in the notes to the consolidated financial statements and is effective for annual and interim reporting periods beginning after December 15, 2016. Eaton is evaluating the impact of ASU 2014-09 and an estimate of the impact to the consolidated financial statements cannot be made at this time.

Note 2. ACQUISITIONS AND SALES OF BUSINESSES

In 2012, Eaton acquired businesses for combined purchase prices totaling \$13,796. The Consolidated Statements of Income include the results of these businesses from the dates of the transactions or formation.

Cooper Industries plc

On November 30, 2012, Eaton Corporation acquired Cooper Industries plc (Cooper) for a purchase price of \$13,192. At the completion of the transaction, the holder of each Cooper common share received from Eaton \$39.15 in cash and 0.77479 of an Eaton ordinary share. As a result of the transaction, based on the number of outstanding shares of Eaton Corporation and Cooper as of November 30, 2012, former Eaton Corporation and Cooper shareholders held approximately 73% and 27%, respectively, of Eaton's ordinary shares after giving effect to the acquisition. Cooper was a diversified global manufacturer of electrical products and systems, with brands including Bussmann electrical and electronic fuses; Crouse-Hinds and CEAG explosion-proof electrical equipment; Halo and Metalux lighting fixtures; and Kyle and McGraw-Edison power systems products. Cooper had annual sales of \$5,409 for 2011. For segment reporting purposes, Cooper has been included in Electrical Products and Electrical Systems and Services business segments. See Note 14 for additional information about business segments.

Fair Value of Consideration Transferred

The total purchase price for the acquisition of Cooper was \$13,192, comprised of Eaton share consideration valued at \$6,649 and cash consideration for Cooper shares of \$6,474 and to settle certain Cooper equity-based compensation plans of \$69, as follows:

Cooper shares outstanding as of November 30, 2012	163.6
Cooper shares issued pursuant to conversion of stock options and share units outstanding under Cooper equity-based compensation plans	1.8
Total Cooper shares and share equivalents prior to transaction	165.4
Exchange ratio per share	0.77479
Total Eaton shares issued	128.1
Weighted-average Eaton Corporation per share price on November 30, 2012	\$51.91
Total value of Eaton shares issued	\$6,649
Total cash consideration paid at \$39.15 per Cooper share and share equivalent	6,474
Total cash consideration paid for equity-based compensation plans	69
Total consideration	\$13,192

Purchase Price Allocation

The acquisition of Cooper has been accounted for using the acquisition method of accounting which requires, among other things, the assets acquired and liabilities assumed be recognized at their respective fair values as of the acquisition date. For accounting purposes, Eaton has been treated as the acquirer in the transaction. The process for estimating the fair values of identifiable intangible assets and certain tangible assets and assumed liabilities requires the use of judgment in determining the appropriate assumptions and estimates.

Table of Contents

The purchase price allocation below represents Cooper's opening balance sheet on November 30, 2012, which was initially reported in Eaton's Form 10-K for the year ended December 31, 2012, updated by Exhibit 99.1 of Eaton's current report on Form 8-K filed on September 6, 2013 and subsequently updated in Eaton's Form 10-K for the year ended December 31, 2013. During the measurement period, which ended November 30, 2013, opening balance sheet adjustments were made to finalize Eaton's preliminary fair value estimates related primarily to intangible assets, goodwill, certain property values, contingent liabilities and the related deferred tax impact. Eaton's consolidated balance sheet at December 31, 2012, as presented in the Company's Form 10-K for the year ended December 31, 2013, was adjusted to reflect the final purchase price allocation. The Company did not revise the Consolidated Statement of Income for the year ended December 31, 2013, as any adjustment was considered immaterial.

	November 30, 2012 (as previously reported)	Adjustments	November 30, 2012 (final adjusted)
Working capital accounts ⁽¹⁾	\$2,304	\$(18)	\$2,286
Prepaid expenses and other current assets	204	69	273
Property, plant and equipment	885	(40)	845
Investment in Apex Tool Group, LLC	807	(7)	800
Intangible assets	5,250	119	5,369
Other assets	35	30	65
Debt	(1,221)	—	(1,221)
Accounts payable	(519)	3	(516)
Other current liabilities	(673)	(206)	(879)
Other noncurrent liabilities	(2,185)	(177)	(2,362)
Total identifiable net assets	4,887	(227)	4,660
Goodwill	8,305	227	8,532
Total consideration	\$13,192	\$—	\$13,192

⁽¹⁾ Working capital accounts include Cash, Short-term investments, Accounts receivable and Inventory.

Goodwill has been allocated to the Electrical Products and Electrical Systems and Services segments. Goodwill is calculated as the excess of the consideration transferred over the net assets recognized and represents the expected revenue and cost synergies of the combined company and assembled workforce, which are further described above. Goodwill recognized as a result of the acquisition is not deductible for tax purposes. See Note 4 for additional information about goodwill and other intangible assets.

The estimated fair value of Accounts receivable is based on the historical gross contractual amount receivable as of the acquisition date and totals \$955.

Contingent liabilities assumed as part of the transaction total \$419 and are included in Other current liabilities and Other noncurrent liabilities. These contingent liabilities are related to environmental, legal (including product liability claims) and tax matters. Contingent liabilities are recorded at fair value in purchase accounting, aside from those pertaining to uncertainty in income taxes which are an exception to the fair value basis of accounting. Legal matters, and certain environmental matters that are legal in nature, are recorded at the respective probable and estimable amount.

Actual and Pro Forma Impact

Eaton's Consolidated Financial Statements for the year ended December 31, 2012 include Cooper's results of operations from the date of acquisition on November 30, 2012 through December 31, 2012. Net sales and operating profit attributable to Cooper during this period and included in Eaton's Consolidated Financial Statements for the year ended December 31, 2012 total \$470 and \$66, respectively.

Table of Contents

The following unaudited pro forma information gives effect to Eaton's acquisition of Cooper as if the acquisition had occurred on January 1, 2012 and Cooper had been included in Eaton's consolidated results of operations for the year ended December 31, 2012.

	2012
Net sales	\$21,792
Net income from continuing operations attributable to Eaton ordinary shareholders	1,695
Diluted earnings per share from continuing operations	\$3.54

The historical consolidated financial information of Eaton and Cooper has been adjusted in the pro forma information to give effect to pro forma events that are (1) directly attributable to the transaction, (2) factually supportable and (3) expected to have a continuing impact on the combined results. For pro forma purposes, the equity in income of Apex Tool Group, LLC has been excluded as this joint venture was sold on February 1, 2013.

Acquisitions and Sales of Other Businesses

In 2012, Eaton acquired other businesses in separate transactions. The Consolidated Statements of Income include the results of these businesses from the dates of the transactions. These transactions, and the related annual sales prior to acquisition, are summarized below:

Acquired businesses	Date of transaction	Business segment	Annual sales
Rolec Comercial e Industrial S.A. A Chilean manufacturer of integrated power assemblies and low- and medium-voltage switchgear, and a provider of engineering services serving mining and other heavy industrial applications in Chile and Peru.	September 28, 2012	Electrical Systems and Services	\$85 for the 12 months ended September 30, 2012
Jeil Hydraulics Co., Ltd. A Korean manufacturer of track drive motors, swing drive motors, main control valves and remote control valves for the construction equipment market.	July 6, 2012	Hydraulics	\$189 for 2011
Polimer Kaucuk Sanayi ve Pazarlama A.S. A Turkish manufacturer of hydraulic and industrial hose for construction, mining, agriculture, oil and gas, manufacturing, food and beverage, and chemicals markets. This business sells its products under the SEL brand name.	June 1, 2012	Hydraulics	\$335 for 2011
Gycom Electrical Low-Voltage Power Distribution, Control and Automation A Swedish electrical low-voltage power distribution, control and automation components business.	June 1, 2012	Electrical Systems and Services	\$24 for 2011

See Note 3 for additional information about acquisition integration charges and transaction costs related to Eaton's business acquisitions.

Sale of Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions

On May 9, 2014, Eaton sold the Aerospace Power Distribution Management Solutions and Integrated Cockpit Solutions businesses to Safran for \$270, which resulted in a pre-tax gain of \$154.

Sale of Apex Tool Group, LLC

In July 2010, Cooper formed a joint venture, named Apex Tool Group, LLC (Apex), with Danaher Corporation (Danaher). On February 1, 2013, Cooper and Danaher sold Apex to Bain Capital for approximately \$1.6 billion, subject to post-closing adjustments.

Table of Contents

Note 3. ACQUISITION INTEGRATION AND RESTRUCTURING CHARGES

Acquisition Integration Charges and Transaction Costs

Eaton incurs integration charges and transaction costs related to acquired businesses. A summary of these charges follows:

	2014	2013	2012
Acquisition integration charges			
Electrical Products	\$66	\$44	\$4
Electrical Systems and Services	51	37	13
Hydraulics	12	36	16
Total business segments	129	117	33
Corporate	25	37	11
Total acquisition integration charges	154	154	44
Transaction costs			
Corporate	—	8	106
Financing fees	—	1	72
Total transaction costs	—	9	178
Total acquisition integration charges and transaction costs before income taxes	\$154	\$163	\$222
Total after income taxes	\$102	\$110	\$167
Per ordinary share - diluted	\$0.21	\$0.23	\$0.48

Business segment integration charges in 2014 related primarily to the integration of Cooper. Business segment integration charges in 2013 related primarily to the integrations of Cooper and Polimer Kaucuk Sanayi ve Pazarlama (SEL). Business segment integration charges in 2012 related primarily to the integrations of SEL, Jeil Hydraulics, Cooper, and Internormen Technology Group. These charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Business Segment Information, the charges reduced Operating profit of the related business segment.

Corporate integration charges in 2014 and 2013 related primarily to the acquisition of Cooper. These charges were included in Selling and administrative expense. In Business Segment Information, the charges were included in Other corporate expense - net.

Acquisition-related transaction costs, such as investment banking, legal, and other professional fees, and costs associated with change in control agreements, are not included as a component of consideration transferred in an acquisition but are expensed as incurred. Acquisition-related transaction costs in 2013 and 2012 related to the acquisition of Cooper and were included in Corporate above. These charges were included in Selling and administrative expense, Interest expense - net and Other (income) expense - net. In Business Segment Information, the charges were included in Interest expense - net and Other corporate expense - net.

See Note 2 for additional information about business acquisitions.

Restructuring Charges

During the fourth quarter of 2012, Eaton undertook restructuring activities to improve the efficiency of certain businesses. These actions resulted in a charge in the fourth quarter of 2012 of \$50, comprised of severance costs totaling \$34 and other non-cash expenses totaling \$16, of which \$2, \$2, \$17, \$17, \$4 and \$8 were recognized in the Electrical Products, Electrical Systems and Services, Vehicle, Hydraulics, and Aerospace business segments and Corporate, respectively.

During 2014 and 2013, Eaton undertook restructuring activities related to the acquisition and integration of Cooper in an effort to gain efficiencies in selling, marketing, traditional back-office functions and manufacturing and distribution. These actions, resulted in charges of \$95 during 2014, comprised of severance costs totaling \$69 and other expenses totaling \$26, of which \$53 and \$42 were recognized in the Electrical Products and Electrical Systems and Services business segments, respectively. During 2013, these actions, comprised primarily of severance costs,

resulted in charges of \$36, of which \$19 and \$17 were recognized in the Electrical Products and Electrical Systems and Services business segments, respectively. These restructuring initiatives are expected to continue through 2015. These charges are included in the table above in acquisition integration charges.

Table of Contents

During 2014, Eaton undertook additional restructuring activities in an effort to gain efficiencies in operations. These actions resulted in charges of \$54 during 2014, comprised of severance costs totaling \$48 and other expenses totaling \$6, of which \$32, \$16, \$2 and \$4 were recognized in the Vehicle, Hydraulics and Aerospace business segments, and Corporate, respectively.

Restructuring charges were included in Cost of products sold or Selling and administrative expense, as appropriate. In Business Segment Information, the charges reduced Operating profit of the related business segment. See Note 14 for additional information about business segments. As of December 31, 2014 and 2013, the liabilities related to these restructuring actions totaled \$84 and \$32, respectively.

Note 4. GOODWILL AND OTHER INTANGIBLE ASSETS

Changes in the carrying amount of goodwill by segment follow:

	Electrical Products	Electrical Systems and Services	Hydraulics	Aerospace	Vehicle	Total
December 31, 2012	\$7,117	\$4,520	\$1,404	\$1,045	\$357	\$14,443
Additions	1	22	4	—	—	27
Translation adjustments	71	(25)	(23)	3	(1)	25
December 31, 2013	7,189	4,517	1,385	1,048	356	14,495
Goodwill written off from sale of businesses	—	—	—	(78)	—	(78)
Translation adjustments	(249)	(203)	(58)	(8)	(6)	(524)
December 31, 2014	\$6,940	\$4,314	\$1,327	\$962	\$350	\$13,893

A summary of other intangible assets follows:

	2014 Historical cost	Accumulated amortization	2013 Historical cost	Accumulated amortization
Intangible assets not subject to amortization				
Trademarks	\$1,844		\$1,868	
Intangible assets subject to amortization				
Customer relationships	\$3,674	\$834	\$3,859	\$669
Patents and technology	1,494	440	1,588	389
Trademarks	980	250	1,052	215
Other	103	15	103	11
Total intangible assets subject to amortization	\$6,251	\$1,539	\$6,602	\$1,284

Amortization expense related to intangible assets subject to amortization in 2014, and estimated amortization expense for each of the next five years, follows:

2014	\$424
2015	410
2016	397
2017	387
2018	367
2019	360

Table of Contents

Other Intangible Assets Related to the Acquisition of Cooper

The estimated fair values of other intangible assets acquired in the Cooper transaction and included in the table above were determined using an income valuation approach, which requires a forecast of expected future cash flows either through the use of the relief-from-royalty method or the multi-period excess earnings method. The final adjusted estimated fair value, as of November 30, 2012, of these identifiable intangible assets, their estimated useful lives and valuation methodology are as follows:

	Fair value	Useful life	Valuation method
Trade names (indefinite-lived)	\$1,410	N/A	Relief-from-royalty
Trade names	638	3-20	Relief-from-royalty
Customer relationships	2,510	13-18	Multi-period excess earnings
Technology	767	4-20	Relief-from-royalty; Multi-period excess earnings
Contract-based	44	9.5	Relief-from-royalty
	\$5,369		

Note 5. DEBT

Table of Contents

On October 3, 2014, Eaton refinanced a \$500, five-year revolving credit facility and a \$750, three-year revolving credit facility with a \$500, four-year revolving credit facility that will expire October 3, 2018 and a \$750, five-year revolving credit facility that will expire October 3, 2019, respectively. Eaton also maintains a \$750, five-year revolving credit facility that will expire June 14, 2017. These refinancings maintain long-term revolving credit facilities at a total of \$2,000. The revolving credit facilities are used to support commercial paper borrowings and are fully and unconditionally guaranteed by Eaton and certain of its direct and indirect subsidiaries on an unsubordinated, unsecured basis. There were no borrowings outstanding under Eaton's revolving credit facilities at December 31, 2014 or 2013.

On March 20, 2014 and June 16, 2014, the Company repaid the \$250, 5.95% notes due 2014 and the \$300, floating rate notes due 2014, respectively.

On November 20, 2012, Eaton issued senior notes totaling \$4,900 to finance the cash portion of the acquisition of Cooper. On November 14, 2013, Eaton exchanged these senior notes for senior notes registered under the Securities Act of 1933 (the Senior Notes). The Senior Notes are comprised of five tranches which mature in 2015, 2017, 2022, 2032 and 2042, with interest payable semi-annually at a respective rate of 0.95%, 1.50%, 2.75%, 4.00% and 4.15%. Eaton received proceeds totaling \$4,853 from the issuance, net of financing costs and nominal discounts. The Senior Notes are fully and unconditionally guaranteed on an unsubordinated, unsecured basis by Eaton and certain of its direct and indirect subsidiaries. The Senior Notes contain an optional redemption provision by which the Company may make an offer to purchase all or any part of the Senior Notes at a purchase price of the greater of (a) 100% of the principal amount of the respective Senior Notes being redeemed, or (b) the sum of the present values of the respective remaining scheduled payments of principal and interest, discounted to the redemption date on a semi-annual basis, plus basis points ranging from 10 to 25 based on the respective Senior Note tranche. The Senior Notes also contain a change of control provision which requires the Company to make an offer to purchase all or any part of the Senior Notes at a purchase price of 101% of the principal amount plus accrued and unpaid interest. Related capitalized deferred financing fees total \$40. The capitalized deferred financing fees and nominal discounts are amortized in Interest expense - net over the respective terms of the Senior Notes. The Senior Notes are subject to customary non-financial covenants. See Note 15 for additional information about the Senior Notes.

On November 30, 2012, the closing date of the acquisition of Cooper, Eaton borrowed \$1,669 on a \$6.75 billion, 364-day bridge facility (the Facility) which was obtained on May 21, 2012. The Facility was obtained to finance a portion of the cash paid to acquire Cooper and was available in a single draw on the closing date of the acquisition. Related deferred financing fees totaled \$69, of which \$68 were amortized in Interest expense - net as of December 31, 2012. On February 1, 2013, Eaton repaid the outstanding balance on the Facility.

As is customary to support its U.S. operations, the Company had available lines of credit of \$340 from various banks for the issuance of letters of credit, of which there was \$155 outstanding at December 31, 2014. Operations outside the United States had available short-term lines of credit of \$2,089 from various banks worldwide at December 31, 2014. Borrowings outside the United States are generally denominated in local currencies.

Eaton is in compliance with each of its debt covenants for all periods presented. Eaton Corporation and Cooper each issued guarantees on November 30, 2012 and January 8, 2013, respectively, on all material outstanding debt of the other.

Mandatory maturities of long-term debt for each of the next five years follow:

2015	\$1,008
2016	242
2017	1,548
2018	570
2019	339

Interest paid on debt follows:

2014	\$296
2013	294
2012	237

Table of Contents

The estimated pretax net amounts that will be recognized from Accumulated other comprehensive loss into net periodic benefit cost in 2015 follow:

	United States pension liabilities	Non-United States pension liabilities	Other postretirement liabilities	
Actuarial loss	\$168	\$39	\$15	
Prior service cost (credit)	1	1	(14)
Total	\$169	\$40	\$1	

Retirement Benefits Plans Assumptions

For purposes of determining liabilities related to pension plans and other postretirement benefits plans in the United States, the Company updated its mortality assumption in 2014 to use the RP-2014 tables with a generational improvement scale based on MP-2014.

Pension Plans

	United States pension plans			Non-United States pension plans		
	2014	2013	2012	2014	2013	2012
Assumptions used to determine benefit obligation at year-end						
Discount rate	3.97 %	4.67 %	3.97 %	3.33 %	4.20 %	4.17 %
Rate of compensation increase	3.16 %	3.16 %	3.16 %	3.13 %	3.12 %	3.09 %
Assumptions used to determine expense						
Discount rate	4.67 %	3.97 %	4.70 %	4.20 %	4.17 %	5.12 %
Expected long-term return on plan assets	8.40 %	8.45 %	8.50 %	7.00 %	6.92 %	7.10 %
Rate of compensation increase	3.16 %	3.16 %	3.15 %	3.12 %	3.09 %	3.62 %

The expected long-term rate of return on pension assets was determined for each country and reflects long-term historical data taking into account each plan's target asset allocation. The discount rate was determined using appropriate bond data for each country.

Other Postretirement Benefits Plans

Substantially all of the obligation for other postretirement benefits plans relates to United States plans. Assumptions used to determine other postretirement benefits obligations and expense follow:

	Other postretirement benefits plans		
	2014	2013	2012
Assumptions used to determine benefit obligation at year-end			
Discount rate	3.79 %	4.48 %	3.79 %
Health care cost trend rate assumed for next year	6.31 %	6.64 %	6.96 %
Ultimate health care cost trend rate	4.77 %	4.77 %	4.53 %
Year ultimate health care cost trend rate is achieved	2024	2023	2022
Assumptions used to determine expense			
Discount rate	4.48 %	3.79 %	4.60 %
Initial health care cost trend rate	6.64 %	6.96 %	7.60 %
Ultimate health care cost trend rate	4.77 %	4.53 %	4.50 %
Year ultimate health care cost trend rate is achieved	2023	2022	2020

Table of Contents

Assumed health care cost trend rates may have a significant effect on the amounts reported for the health care plans. A 1-percentage point change in the assumed health care cost trend rates would have the following effects:

	1% increase	1% decrease
Effect on total service and interest cost	\$1	\$(1)
Effect on other postretirement liabilities	20	(18)

Employer Contributions to Retirement Benefits Plans

Contributions to pension plans that Eaton expects to make in 2015, and made in 2014, 2013 and 2012, follow:

	2015	2014	2013	2012
United States plans	\$217	\$248	\$196	\$311
Non-United States plans	109	114	145	102
Total contributions	\$326	\$362	\$341	\$413

The following table provides the estimated pension and other postretirement benefit payments for each of the next five years, and the five years thereafter in the aggregate. For other postretirement benefits liabilities, the expected subsidy receipts related to the Medicare Prescription Drug, Improvement, and Modernization Act of 2003, would reduce the gross payments listed below.

	Estimated United States pension payments	Estimated non-United States pension payments	Estimated other postretirement benefit payments Gross	Medicare prescription drug subsidy
2015	\$268	\$92	\$75	\$(6)
2016	281	92	71	(6)
2017	285	94	67	(6)
2018	289	98	62	(5)
2019	297	99	56	(4)
2020 - 2024	1,544	542	226	(13)

Pension Plan Assets

Investment policies and strategies are developed on a country specific basis. The United States plans, representing 67% of worldwide pension assets, and the United Kingdom plans representing 27% of worldwide pension assets, are invested primarily for growth, as the majority of the assets are in plans with active participants and ongoing accruals. In general, the plans have their primary allocation to diversified, global equities, primarily through index funds in the form of common collective trusts. The United States plans' target allocation is 32% United States equities, 32% non-United States equities, 8% real estate (primarily equity of real estate investment trusts), 24% debt securities and 4% other, including hedge funds and cash equivalents. The United Kingdom plans' target asset allocations are 57% equities and the remainder in debt securities and real estate investments. The equity risk for the plans is managed through broad geographic diversification and diversification across industries and levels of market capitalization. The majority of debt allocations for these plans are longer duration government and corporate debt. The United States, United Kingdom and Canada pension plans are authorized to use derivatives to achieve more economically desired market exposures and to use futures, swaps and options to gain or hedge exposures.

Other Postretirement Benefits Plan Assets

The Voluntary Employee Benefit Association trust which holds U.S. other postretirement benefits plan assets has investment guidelines that include allocations to global equities and fixed income investments. The trust's target investment allocation is 50% diversified global equities and 50% fixed income securities. The fixed income securities are primarily comprised of intermediate term, high quality, dollar denominated, fixed income instruments. The equity allocation is invested in a diversified global equity index fund in the form of a collective trust.

Table of Contents

Fair Value Measurements

Financial instruments included in pension and other postretirement benefits plan assets are categorized into a fair value hierarchy of three levels, based on the degree of subjectivity inherent in the valuation methodology as follows:

Level 1 - Quoted prices (unadjusted) for identical assets in active markets.

Level 2 Quoted prices for similar assets in active markets, and inputs that are observable for the asset, either directly - or indirectly, for substantially the full term of the financial instrument.

Level 3 - Unobservable prices or inputs.

Pension Plans

A summary of the fair value of pension plan assets at December 31, 2014 and 2013, follows:

	Total	Quoted prices in active markets for identical assets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)
2014

Valuation Methodologies

Following is a description of the valuation methodologies used for pension and other postretirement benefits plan assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common collective trusts - Valued at the net unit value of units held by the trust at year end. The unit value is determined by the total value of fund assets divided by the total number of units of the fund owned. The equity investments in collective trusts are predominantly in index funds for which the underlying securities are actively traded in public markets based upon readily measurable prices.

Fixed income securities - These securities consist of publicly traded United States and non-United States fixed interest obligations (principally corporate and government bonds and debentures). The fair value of corporate and government debt securities is determined through third-party pricing models that consider various assumptions, including time value, yield curves, credit ratings, and current market prices. The Company verifies the results of trustees or custodians and evaluates the pricing classification of these securities by performing analyses using other third-party sources.

United States treasuries - Valued at the closing price of each security.

Bank loans - These securities consist of senior secured term loans of publicly traded and privately held United States and non-United States floating rate obligations (principally corporations of non-investment grade rating). The fair value is determined through third-party pricing models that primarily utilize dealer quoted current market prices. The Company verifies the results of trustees or custodians and evaluates the pricing classification of these securities by performing analyses using other third-party sources.

Real estate and equity securities - These securities consist of direct investments in the stock of publicly traded companies. Such investments are valued based on the closing price reported in an active market on which the individual securities are traded. As such, the direct investments are classified as Level 1.

Cash equivalents - Primarily certificates of deposit, commercial paper, money market funds and repurchase agreements.

Hedge funds - Consists of direct investments in hedge funds through limited partnership interests. Values are based on the estimated fair value of the ownership interest in the investment as determined by the General Partner.

Exchange traded funds - Valued at the closing price of the exchange traded fund's shares.

Table of Contents

Other - Primarily insurance contracts for international plans and also futures contracts and over-the-counter options. These investments are valued based on the closing prices of future contracts or indices as available on Bloomberg or similar service, and private equity investments.

For additional information regarding fair value measurements, see Note 11.

Defined Contribution Plans

The Company has various defined contribution benefit plans, primarily consisting of the plans in the United States.

The total contributions related to these plans are charged to expense and were as follows:

2014	\$ 141
2013	121
2012	74

Note 7. COMMITMENTS AND CONTINGENCIES**Legal Contingencies**

Eaton is subject to a broad range of claims, administrative and legal proceedings such as lawsuits that relate to contractual allegations, tax audits, patent infringement, personal injuries, antitrust matters, and employment-related matters. Eaton is also subject to asbestos claims from historic products which may have contained asbestos.

Historically, significant insurance coverage has been available to cover costs associated with these claims. Although it is not possible to predict with certainty the outcome or cost of these matters, the Company believes they will not have a material adverse effect on the consolidated financial statements.

In December 2010, a Brazilian court held that a judgment obtained by a Brazilian company, Raysul, against another Brazilian company, Saturnia, which was sold by Eaton in 2006, could be enforced against Eaton Ltda. This judgment is based on an alleged violation of an agency agreement between Raysul and Saturnia. At December 31, 2014, the Company has a total accrual of 83 Brazilian Reais related to this matter (\$31 based on current exchange rates), comprised of 60 Brazilian Reais recognized in the fourth quarter of 2010 (\$23 based on current exchange rates) with an additional 23 Brazilian Reais recognized through December 31, 2014 (\$8 based on current exchange rates). In 2010, Eaton filed motions for clarification with the Brazilian court of appeals which were denied on April 6, 2011. Eaton Holding and Eaton Ltda. filed appeals on various issues to the Superior Court of Justice in Brasilia. In April 2013, the Superior Court of Justice ruled in favor of Raysul. Additional motions for clarification were filed with the Superior Court of Justice in Brasilia and were again denied in 2014. A final appeal to the Superior Court will likely be filed in the first quarter of 2015. The Company expects that any sum it may be required to pay in connection with this matter will not exceed the amount of the recorded liability.

On October 5, 2006, ZF Meritor LLC and Meritor Transmission Corporation (collectively, Meritor) filed an action against Eaton in the United States District Court for Delaware. The action sought damages, which would be trebled under United States antitrust laws, as well as injunctive relief and costs. The suit alleged that Eaton engaged in anti-competitive conduct against Meritor in the sale of heavy-duty truck transmissions in North America. On June 23, 2014, Eaton announced it signed a settlement agreement with Meritor in the amount of \$500 that resolved the lawsuit and removed the uncertainty of a trial and appeal process. On July 16, 2014, Eaton paid Meritor the \$500.

Frisby Corporation, now known as Triumph Actuation Systems, LLC, and other claimants (collectively, Triumph) asserted claims alleging, among other things, unfair competition, defamation, malicious prosecution, deprivation of civil rights, and antitrust in the Hinds County Circuit Court of Mississippi in 2004 and in the Federal District Court of North Carolina in 2011. Eaton had asserted claims against Triumph regarding improper use of trade secrets and these claims were dismissed by the Hinds County Circuit Court. On June 18, 2014, Eaton announced it signed a settlement agreement with Triumph in the amount of \$147.5 that resolved all claims and lawsuits and removed the uncertainty of a trial and appeal process. On July 8, 2014, Eaton paid Triumph the \$147.5.

Environmental Contingencies

Eaton has established policies to ensure that its operations are conducted in keeping with good corporate citizenship and with a positive commitment to the protection of the natural and workplace environments. The Company's manufacturing facilities are required to be certified to ISO 14001, an international standard for environmental management systems. The Company routinely reviews EHS performance at each of its facilities and continuously

strives to improve pollution prevention.

40

Table of Contents

Eaton is involved in remedial response and voluntary environmental remediation at a number of sites, including certain of its currently-owned or formerly-owned plants. The Company has also been named a potentially responsible party under the United States federal Superfund law, or the state equivalents thereof, at a number of disposal sites. The Company became involved in these sites as a result of government action or in connection with business acquisitions. At the end of 2014, the Company was involved with a total of 150 sites worldwide, including the Superfund sites mentioned above, with none of these sites being individually significant to the Company.

Remediation activities, generally involving soil and/or groundwater contamination, include pre-cleanup activities such as fact finding and investigation, risk assessment, feasibility study, design and action planning, performance (where actions may range from monitoring, to removal of contaminants, to installation of longer-term remediation systems), and operation and maintenance of a remediation system. The extent of expected remediation activities and costs varies by site. A number of factors affect the cost of environmental remediation, including the number of parties involved at a particular site, the determination of the extent of contamination, the length of time the remediation may require, the complexity of environmental regulations, and the continuing advancement of remediation technology. Taking these factors into account, Eaton has estimated the costs of remediation, which will be paid over a period of years. The Company accrues an amount on an undiscounted basis, consistent with the estimates of these costs when it is probable that a liability has been incurred. Actual results may differ from these estimates. At December 31, 2014 and 2013, the Company had an accrual totaling \$140 and \$149, respectively, for these costs.

Based upon Eaton's analysis and subject to the difficulty in estimating these future costs, the Company expects that any sum it may be required to pay in connection with environmental matters is not reasonably possible to exceed the recorded liability by an amount that would have a material effect on its financial position, results of operations or cash flows.

Warranty Accruals

A summary of the current and long-term warranty accruals follows:

	2014	2013	2012
Balance at January 1	\$189	\$185	\$158
Provision	125	107	85
Settled	(120) (99) (84
Other	19	(4) 26
Balance at December 31	\$213	\$189	\$185

At December 31, 2012, amounts related to the acquisition of Cooper included in Other total \$24. For additional information about acquisitions of businesses, see Note 2.

Lease Commitments

Eaton leases certain real properties and equipment. A summary of minimum rental commitments at December 31, 2014 under noncancelable operating leases, which expire at various dates and in most cases contain renewal options, for each of the next five years and thereafter in the aggregate, follow:

2015	\$153
2016	115
2017	83
2018	59
2019	34
Thereafter	60
Total noncancelable lease commitments	\$504

A summary of rental expense follows:

2014	\$244
2013	241
2012	199

Note 8. INCOME TAXES

Eaton Corporation plc is domiciled in Ireland. Income (loss) before income taxes and income tax (benefit) expense are summarized below based on the geographic location of the operation to which such earnings and income taxes are attributable. Certain Eaton operations which are located outside the United States are subject to income tax in both the United States as well as the country in which the operations are located. As a result, income before tax by location and the components of income tax expense by taxing jurisdiction are not directly related. For purposes of this note, Puerto Rico is classified in Foreign - other since Puerto Rico is not part of the United States corporate tax system.

	Income (loss) before income taxes

Table of Contents

Reconciliations of income taxes from the Ireland national statutory rate of 25% in 2014 and 2013, and the United States federal statutory rate of 35% in 2012, to the consolidated effective income tax rate follow:

	2014		2013		2012	
Income taxes at the applicable statutory rate	25.0	%	25.0	%	35.0	%
Ireland operations						
Ireland tax on trading income	(0.1)%	(1.4)%	—	%
Nondeductible interest expense	4.8	%	—	%	—	%
United States operations						
United States (loss) income	(2.8)%	(2.8)%	—	%
Nondeductible goodwill - Aerospace divestitures	1.4	%	—	%	—	%
Credit for research activities	(1.0)%	(2.0)%	—	%
Other - net	1.5	%	1.3	%	1.8	%
Other foreign operations						
United States foreign tax credit	(1.1)%	(1.8)%	(12.4)%
Other foreign operations (earnings taxed at other than the applicable statutory tax rate)	(24.8)%	(17.6)%	(14.9)%
Other foreign operations - other items	(1.0)%	0.2	%	—	%
Worldwide operations						
Adjustments to tax liabilities	(1.7)%	(1.1)%	(5.7)%
Adjustments to valuation allowances	(2.6)%	0.8	%	(1.3)%
Effective income tax (benefit) expense rate	(2.4)%	0.6	%	2.5	%

During 2014, an income tax benefit of \$42 was recognized (an effective tax benefit rate of 2.4%) compared to income tax expense of \$11 for 2013 (an effective tax expense rate of 0.6%) and \$31 for 2012 (an effective tax expense rate of 2.5%). The lower tax rate in 2014 was primarily attributable to the net tax benefit of 7.6% for the Meritor and Triumph litigation settlements and related legal costs and the gain on the sale of the Aerospace businesses, all of which occurred in the second quarter of 2014. Excluding the previously mentioned litigation settlements and gain on the sale of businesses, the 2014 income tax rate increased from 2013 due to greater levels of income in higher tax jurisdictions and net increases in worldwide tax liabilities, partially offset by additional foreign tax credit recognition in the United States and recognition of deferred tax assets in foreign jurisdictions. The lower effective tax rate for 2013, compared to 2012, was primarily attributable to the effects associated with the acquisition of Cooper, along with greater levels of income in lower tax jurisdictions, additional foreign tax credit utilization, and the benefit of two years of the U.S. research and experimentation tax credit due to the extension of the credit in the American Taxpayer Relief Act of 2012 (the Act) as signed into law in January 2013. The Act extended certain tax benefits retroactively to January 1, 2012.

See Note 7 and Note 2 and for additional information about litigation settlements and sales of businesses, respectively. No provision has been made for income taxes on undistributed earnings of foreign subsidiaries of approximately \$12.5 billion at December 31, 2014, since it is the Company's intention to indefinitely reinvest undistributed earnings of its foreign subsidiaries. It is not practicable to estimate the additional income taxes and applicable withholding taxes that would be payable on the remittance of such undistributed earnings.

Table of Contents

The Company expects to deploy capital to those markets which offer particularly attractive growth opportunities. Given expected population growth and economic growth rates, most of the particularly attractive markets are outside of the United States. The cash that is permanently reinvested is typically used to expand these operations either organically or through acquisitions. Beginning in 2013, the Company's public dividends are funded by the Ireland parent primarily from Non-U.S. operations. The Company's United States operations are expected to generate cash flow sufficient to satisfy United States operating requirements and service its debt.

Worldwide income tax payments follow:

2014	\$258
2013	272
2012	254

Deferred Income Tax Assets and Liabilities

Components of current and long-term deferred income taxes follow:

	2014		2013

Other foreign tax loss carryforwards	—	2,112	—	1,708
Other foreign income tax credit carryforwards	—	49	—	63
Valuation allowance for income tax loss and income tax credit carryforwards	(24)	(2,134)	—	(1,738)
Other valuation allowances	(7)	(29)	(34)	(71)
Total deferred income taxes	\$593	\$(673)	\$577	\$(1,073)

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Loss, or a Tax Credit Carryforward Exists (ASU 2013-11). ASU 2013-11 requires the netting of unrecognized tax benefits against a deferred tax asset for a loss or other carryforward that would apply in settlement of the uncertain tax positions except where the deferred tax asset or other carryforward are not available for use. The adoption of this standard resulted in a reduction of the Company's consolidated long term deferred tax assets by \$146 in 2014.

Table of Contents

At the end of 2014, United States federal income tax loss carryforwards and income tax credit carryforwards are available to reduce future United States federal income tax liabilities. These carryforwards and their respective expiration dates are summarized below:

	2015 through 2019	2020 through 2024	2025 through 2029	2030 through 2034	2035 through 2039	Not subject to expiration	Valuation allowance
United States federal income tax loss carryforwards	\$—	\$—	\$31	\$4	\$352	\$—	\$—
United States federal deferred income tax assets for income tax loss carryforwards	—	—	11	1	101	—	(12)
United States federal deferred income tax assets for income tax loss carryforwards after ASU 2013-11	—	—	11	1	46	—	(12)

United States federal income tax credit carryforwards after ASU 2013-11	—	64	37	28	21	—	(69)

United States state and local tax loss carryforwards and tax credit carryforwards with a future tax benefit are also available at the end of 2014. The deferred tax assets for these carryforwards and their respective expiration dates are summarized below:

	2015 through 2019	2020 through 2024	2025 through 2029	2030 through 2034	2035 through 2039	Not subject to expiration	Valuation allowance
United States state and local deferred income tax assets for income tax loss carryforwards - net of federal tax effect	\$6	\$18	\$12	\$8	\$—	\$—	\$(18)
United States state and local income tax credit carryforwards - net of federal tax effect	10	9	6	2	5	—	(18)

At December 31, 2014, certain non-United States subsidiaries had tax loss carryforwards and income tax credit carryforwards that are available to offset future taxable income. These carryforwards and their respective expiration dates are summarized below:

	2015 through 2019	2020 through 2024	2025 through 2029	2030 through 2034	Not subject to expiration	Valuation allowance
Non-United States income tax loss carryforwards	\$135	\$165	\$38	\$18	\$9,290	\$—
Non-United States deferred income tax assets for income tax loss carryforwards	35	41	9	5	2,022	(2,033)
Non-United States income tax credit carryforwards	3	14	24	—	7	(8)

Recoverability of Deferred Income Tax Assets

Eaton is subject to the income tax laws in the jurisdictions in which it operates. In order to determine its income tax provision for financial statement purposes, Eaton must make significant estimates and judgments about its business operations in these jurisdictions. These estimates and judgments are also used in determining the deferred income tax assets and liabilities that have been recognized for differences between the financial statement and income tax basis of assets and liabilities, and income tax loss carryforwards and income tax credit carryforwards.

Table of Contents

Management evaluates the realizability of deferred income tax assets for each of the jurisdictions in which it operates. If the Company experiences cumulative pretax income in a particular jurisdiction in the three-year period including the current and prior two years, management normally concludes that the deferred income tax assets will more likely than not be realizable and no valuation allowance is recognized, unless known or planned operating developments would lead management to conclude otherwise. However, if the Company experiences cumulative pretax losses in a particular jurisdiction in the three-year period including the current and prior two years, management then considers a series of factors in the determination of whether the deferred income tax assets can be realized. These factors include historical operating results, known or planned operating developments, the period of time over which certain temporary differences will reverse, consideration of the utilization of certain deferred income tax liabilities, tax law carryback capability in the particular country, prudent and feasible tax planning strategies, and estimates of future earnings and taxable income using the same assumptions as those used for the Company's goodwill and other impairment testing. After evaluation of these factors, if the deferred income tax assets are expected to be realized within the tax carryforward period allowed for that specific country, management would conclude that no valuation allowance would be required. To the extent that the deferred income tax assets exceed the amount that is expected to be realized within the tax carryforward period for a particular jurisdiction, management would establish a valuation allowance.

Applying the above methodology, valuation allowances have been established for certain deferred income tax assets to the extent they are not expected to be realized within the particular tax carryforward period.

Unrecognized Income Tax Benefits

A summary of gross unrecognized income tax benefits follows:

	2014	2013	2012
Balance at January 1	\$479	\$444	\$236
Increases and decreases as a result of positions taken during prior years			
Transfers from valuation allowances	(3) 13	—
Other increases	37	7	1
Other decreases, including currency translation	(3) (7) —
Balances related to acquired businesses	(3) 2	177
Increases as a result of positions taken during the current year	65	35	36
Decreases relating to settlements with tax authorities	(51) (6) —
Decreases as a result of a lapse of the applicable statute of limitations	(28) (9) (6
Balance at December 31	\$493	\$479	\$444

Eaton's long-term policy has been to enter into tax planning strategies only if it is more likely than not that the benefit would be sustained upon audit. For example, the Company does not enter into any of the United States Internal Revenue Service (IRS) Listed Transactions as set forth in Treasury Regulation 1.6011-4.

If all unrecognized tax benefits were recognized, the net impact on the provision for income tax expense would be \$371.

As of December 31, 2014 and 2013, Eaton had accrued approximately \$120 and \$114, respectively, for the payment of worldwide interest and penalties, which are not included in the table of unrecognized income tax benefits above. Eaton recognizes interest and penalties related to unrecognized income tax benefits in the provision for income tax expense. The Company has accrued penalties in jurisdictions where they are automatically applied to any deficiency, regardless of the merit of the position.

The resolution of the majority of Eaton's unrecognized income tax benefits is dependent upon uncontrollable factors such as the prospect of retroactive regulations; new case law; the willingness of the income tax authority to settle the issue, including the timing thereof; and other factors. Therefore, for the majority of unrecognized income tax benefits, it is not reasonably possible to estimate the increase or decrease in the next 12 months. For each of the unrecognized income tax benefits where it is possible to estimate the increase or decrease in the balance within the next 12 months, the Company does not anticipate any significant change.

Eaton or its subsidiaries file income tax returns in Ireland and many countries around the world. The IRS has completed its examination of Eaton Corporation and Includible Subsidiaries United States income tax returns for 2007 through 2010 and has issued a Statutory Notice of Deficiency (Notice) as discussed below. The statute of limitations on these tax years remains open to the extent of the tax assessment until the matter is resolved. Tax years 2011 through 2014 are still subject to examination by the IRS.

Table of Contents

With respect to the pre-acquisition years of BZ Holdings Inc. and Subsidiaries (the former U.S. holding company for Cooper Industries), the IRS examination of the United States income tax returns for 2010, 2011, and the period ended December 21, 2012 was completed and settled without significant effect on the consolidated financial statements. The statute of limitations remains open for tax years 2010 and 2011 until September 15, 2015. The statute of limitations on the final return period ended December 21, 2012 remains open until September 15, 2016. On December 22, 2012, BZ Holdings Inc. and Subsidiaries joined the Eaton Corporation and Includible Subsidiaries consolidated United States income tax return for 2012.

Eaton is also under examination for the income tax filings in various states of the United States and in many other foreign jurisdictions. With only a few exceptions, Eaton Corporation and Includible Subsidiaries are no longer subject to income tax examinations from states and localities within the United States for years before 2010. Income tax returns of states and localities within the United States will be reopened to the extent of United States federal income tax adjustments, if any, going back to 2005 when those audit years are finalized. Some states and localities may not limit their assessment to the United States federal adjustments, and may require the opening of the entire tax year. In addition, with only a few exceptions, Cooper Industries and Includible Subsidiaries are no longer subject to United States state and local income tax examinations for years before 2010. With only a few exceptions, the other foreign subsidiaries of both Eaton and Cooper are no longer subject to examinations for years before 2009.

At the end of the fourth quarter of 2011, the IRS issued a Notice for Eaton Corporation and Includible Subsidiaries 2005 and 2006 tax years (the 2011 Notice). The Notice proposed assessments of \$75 in additional taxes plus \$52 in penalties related primarily to transfer pricing adjustments for products manufactured in the Company's facilities in Puerto Rico and the Dominican Republic and sold to affiliated companies located in the U.S., net of agreed credits and deductions. The Company has set its transfer prices for products sold between these affiliates at the same prices that the Company sells such products to third parties as required by two successive Advance Pricing Agreements (APAs) the Company entered into with the IRS. For the years 2001 through 2004, the IRS had previously accepted the transfer pricing methodology related to these APAs after a comprehensive review conducted in two separate audit cycles. On December 16, 2011, immediately prior to the 2011 Notice being issued, the IRS sent a letter stating that it was retrospectively canceling the APAs, even though their respective APA terms had already expired.

The Company is contesting the proposed assessments. The Company believes that it was in full compliance with the terms of the two APAs, and that the IRS's cancellation of these two APAs is without merit. On February 29, 2012, the Company filed a Petition with the U.S. Tax Court in which it asserted that the transfer pricing established in the APAs meets the arms-length standard set by the U.S. income tax laws, and accordingly, that the APAs should be enforced in accordance with their terms. The case involves both whether the APAs should be enforced and, if not, the appropriate transfer pricing methodology. The U.S. Tax Court has established that the trial for this matter will begin in June 2015. During the third quarter of 2014, the Company received a Notice from the IRS for the 2007 through 2010 tax years (the 2014 Notice) proposing assessments of \$190 in additional taxes plus \$72 in penalties, net of agreed credits and deductions. The proposed assessments pertain primarily to the same transfer pricing issues that are currently in litigation for the 2011 Notice, as noted above. During 2007 through 2010, the Company set its transfer prices for products sold between these affiliates consistent with the terms of a written APA between it and the IRS that covered the years at issue. To establish the relevant transfer prices, the APA relied on prices at which the Company sells the products to third parties. The 2014 Notice includes a separate proposed assessment involving the recognition of income for several of the Company's controlled foreign corporations. The Company believes that these proposed assessments are without merit. On November 25, 2014, the Company filed a Petition with the U.S. Tax Court in which it challenged the IRS's adjustments. The Company expects the outcome of the 2014 Notice on the transfer pricing matter to be determined by the judicial decision related to the 2011 Notice. The Company has continued to apply the arms-length transfer pricing methodology for 2011 through 2014.

Also during the third quarter of 2014, the Company resolved an uncertain tax position with a European government. The resolution had minimal impact on the Company's Consolidated Statements of Income.

During 2010, the Company received a tax assessment of \$64, plus interest and penalties, in Brazil for the tax years 2005 through 2008 that relates to the amortization of certain goodwill generated from the acquisition of third-party businesses and corporate reorganizations. The Company is contesting the assessment, which is under review at the

second of three administrative appeals levels. During 2013, the Brazilian tax authorities began an audit of tax years 2009 through 2012. During the third quarter of 2014, the Company received a tax assessment of \$50, plus interest and penalties, for the 2009 through 2012 tax years (primarily relating to the same issues concerning the 2005 through 2008 tax years), which the Company is also contesting and is under review in the administrative appeals process. Multiple outside advisors have stated that Brazilian tax authorities are raising the issue for most clients with similar facts and that the matter is expected to require at least 10 years to resolve. The Company continues to believe that final resolution of the assessments will not have a material impact on its consolidated financial statements.

Table of Contents

Note 9. EATON SHAREHOLDERS' EQUITY

There are 750 million Eaton ordinary shares authorized (\$0.01 par value per share), 467.9 million and 475.1 million of which were issued and outstanding at December 31, 2014 and 2013, respectively. Eaton's Memorandum and Articles of Association authorized 40 thousand deferred ordinary shares (€1.00 par value per share) and 10 thousand preferred A shares (\$1.00 par value per share), all of which were issued and outstanding at December 31, 2014 and 2013, and 10 million serial preferred shares (\$0.01 par value per share), none of which is outstanding at December 31, 2014 and 2013. At December 31, 2014, there were 18,993 holders of record of Eaton ordinary shares. Additionally, 26,059 current and former employees were shareholders through participation in the Eaton Savings Plan, Eaton Personal Investment Plan, Eaton Puerto Rico Retirement Savings Plan, and the Cooper Retirement Savings and Stock Ownership Plan.

On September 28, 2011, Eaton Corporation's Board of Directors adopted a common share repurchase program (2011 Program) which authorized the purchase of up to 20 million common shares, not to exceed an aggregate purchase price of \$1.25 billion. During 2012, no common shares were repurchased under the 2011 Program. On April 24, 2013, the Company's shareholders authorized the Board of Directors to adopt an ordinary share repurchase program (2013 Program) for up to 40 million ordinary shares at prices between 70% and 120% of the closing price of Eaton's ordinary shares on the day of purchase. On October 22, 2013, Eaton's Board of Directors adopted the 2013 Program. The ordinary shares are expected to be repurchased over time, depending on market conditions, the market price of ordinary shares, capital levels, and other considerations. During 2014, 9.6 million ordinary shares were repurchased under the 2013 Program in the open market at a total cost of \$650. During 2013, no ordinary shares were repurchased under the 2013 Program.

Eaton has deferral plans that permit certain employees and directors to defer a portion of their compensation. A trust contains \$19 and \$24 of ordinary shares and marketable securities, as valued at December 31, 2014 and 2013, respectively, to fund a portion of these liabilities. The marketable securities were included in Other assets and the ordinary shares were included in Shareholders' equity at historical cost.

On February 25, 2015, Eaton's Board of Directors declared a quarterly dividend of \$0.55 per ordinary share, payable on March 20, 2015, to shareholders of record at the close of business on March 9, 2015.

Comprehensive Income (Loss)

Comprehensive income (loss) consists primarily of net income, currency translation and related hedging instruments, changes in unrecognized costs of pension and other postretirement benefits, and changes in the effective portion of open derivative contracts designated as cash flow hedges. The following table summarizes the pre-tax and after-tax amounts recognized in Comprehensive income (loss):

	2014		2013		2012	
	Pre-tax	After-tax	Pre-tax	After-tax	Pre-tax	After-tax
Currency translation and related hedging instruments	\$(1,014)	\$(1,019)	\$(30)	\$(28)	\$144	\$135
Pensions and other postretirement benefits

Tax expense	(2)	
Total, net of tax	3	
Total reclassifications for the period	\$(107)	

¹ These components of Accumulated other comprehensive loss are included in the computation of net periodic benefit cost. See Note 6 for additional information about defined benefit pension and other postretirement benefits items.

Net Income per Ordinary Share

A summary of the calculation of net income per ordinary share attributable to ordinary shareholders follows:

(Shares in millions)	2014	2013	2012
Net income attributable to Eaton ordinary shareholders	\$1,793	\$1,861	\$1,217
Weighted-average number of ordinary shares outstanding - diluted	476.8	476.7	350.9
Less dilutive effect of equity-based compensation	2.7	3.2	3.1
Weighted-average number of ordinary shares outstanding - basic	474.1	473.5	347.8
Net income per ordinary share			
Diluted	\$3.76	\$3.90	\$3.46
Basic	3.78	3.93	3.54

In 2014, 2013, and 2012, 0.5 million, 0.2 million, and 2.2 million stock options, respectively, were excluded from the calculation of diluted net income per ordinary share because the exercise price of the options exceeded the average market price of the ordinary shares during the period and their effect, accordingly, would have been antidilutive.

Table of Contents

Note 10. EQUITY-BASED COMPENSATION

Restricted Stock Units and Awards

Restricted stock units (RSUs) and restricted stock awards (RSAs) have been issued to certain employees and directors. Participants awarded RSUs do not receive dividends; therefore, the fair value is determined by reducing the closing market price of the Company's ordinary shares on the date of grant by the present value of the estimated dividends had they been paid. The RSUs entitle the holder to receive one ordinary share for each RSU upon vesting, generally over three or four years. The fair value of RSAs is determined based on the closing market price of the Company's ordinary shares at the date of grant. RSAs are issued and outstanding at the time of grant, but remain subject to forfeiture until vested, generally over three or four years. A summary of the RSU and RSA activity for 2014 follows:

(Restricted stock units and awards in millions)	Number of restricted stock units and awards	Weighted-average fair value per unit and award
Non-vested at January 1	3.4	\$51.37
Granted	1.0	71.54
Vested	(1.4)) 47.69
Forfeited	(0.2)) 59.01
Non-vested at December 31	2.8	\$60.11

Information related to RSUs and RSAs follows:

	2014	2013	2012
Pretax expense for RSUs and RSAs	\$81	\$69	\$46
After-tax expense for RSUs and RSAs	53	45	30
Fair value of vested RSUs and RSAs	105	82	126

As of December 31, 2014, total compensation expense not yet recognized related to non-vested RSUs and RSAs was \$93.9, and the weighted-average period in which the expense is expected to be recognized is 2.3 years. Excess tax benefit for equity-based compensation totaled \$5, \$10, and \$18 for 2014, 2013 and 2012, respectively.

Stock Options

Under various plans, stock options have been granted to certain employees and directors to purchase ordinary shares at prices equal to fair market value on the date of grant. Substantially all of these options vest ratably during the three-year period following the date of grant and expire 10 years from the date of grant. Compensation expense is recognized for stock options based on the fair value of the options at the date of grant and amortized on a straight-line basis over the period the employee or director is required to provide service.

The Company uses a Black-Scholes option pricing model to estimate the fair value of stock options. The principal assumptions utilized in valuing stock options include the expected stock price volatility (based on the most recent historical period equal to the expected life of the option); the expected option life (an estimate based on historical experience); the expected dividend yield; and the risk-free interest rate (an estimate based on the yield of United States Treasury zero coupon with a maturity equal to the expected life of the option). A summary of the assumptions used in determining the fair value of stock options follows:

	2014	2013	2012
Expected volatility	34	% 36	% 35
Expected option life in years	5.5	5.5	5.5
Expected dividend yield	2.4	% 2.0	% 2.0
Risk-free interest rate	1.7 to 1.5%	1.5 to 0.8%	1.0 to 0.9%
Weighted-average fair value of stock options granted	\$19.46	\$17.49	\$14.08

Table of Contents

A summary of stock option activity follows:

(Options in millions)	Weighted-average exercise price per option	Options	Weighted-average remaining contractual life in years	Aggregate intrinsic value
Outstanding at January 1, 2014	\$43.43	7.9		
Granted	75.25	0.6		
Exercised	37.75	(1.5)		
Forfeited and canceled	59.33	—		
Outstanding at December 31, 2014	\$47.30	7.0	4.3	\$ 148.9
Exercisable at December 31, 2014	\$42.74	5.7	3.3	\$ 142.7
Reserved for future grants at December 31, 2014		14.3		

The aggregate intrinsic value in the table above represents the total excess of the \$67.96 closing price of Eaton ordinary shares on the last trading day of 2014 over the exercise price of the stock option, multiplied by the related number of options outstanding and exercisable. The aggregate intrinsic value is not recognized for financial accounting purposes and the value changes based on the daily changes in the fair market value of the Company's ordinary shares.

Information related to stock options follows:

	2014	2013	2012
Pretax expense for stock options	\$12	\$11	\$7
After-tax expense for stock options	8	7	5
Proceeds from stock options exercised	54	121	95
Income tax benefit related to stock options exercised			
Tax benefit classified in operating activities in the Consolidated Statements of Cash Flows	4	3	5
Excess tax benefit classified in financing activities in the Consolidated Statements of Cash Flows	15	22	13
Intrinsic value of stock options exercised	55	102	60
Total fair value of stock options vesting	\$12	\$11	\$7

Stock options exercised, in millions of options 1.501 3.565 3.099

As of December 31, 2014, total compensation expense not yet recognized related to non-vested stock options was \$14, and the weighted-average period in which the expense is expected to be recognized is 1.8 years.

Note 11. FAIR VALUE MEASUREMENTS

Fair value is measured based on an exit price, representing the amount that would be received to sell an asset or paid to satisfy a liability in an orderly transaction between market participants. Fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, a fair value hierarchy is established, which categorizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Table of Contents

A summary of financial instruments recognized at fair value, and the fair value measurements used, follows:

	Total	Quoted prices in active markets for identical assets (Level 1)	Other observable inputs (Level 2)	Unobservable inputs (Level 3)
2014				
Cash	\$781	\$781	\$—	\$—
Short-term investments	245	245	—	—
Net derivative contracts	70	—	70	—
Long-term debt converted to floating interest rates by interest rate swaps - net	(74) —	(74) —
2013				
Cash	\$915	\$915	\$—	\$—
Short-term investments	794	794	—	—
Net derivative contracts	(35) —	(35) —
Long-term debt converted to floating interest rates by interest rate swaps - net	39	—	39	—

Eaton values its financial instruments using an industry standard market approach, in which prices and other relevant information is generated by market transactions involving identical or comparable assets or liabilities. No financial instruments were recognized using unobservable inputs.

Other Fair Value Measurements

Long-term debt and the current portion of long-term debt had a carrying value of \$9,032 and fair value of \$9,509 at December 31, 2014 compared to \$9,536 and \$9,665, respectively, at December 31, 2013. The fair value of Eaton's debt instruments was estimated using prevailing market interest rates on debt with similar creditworthiness, terms and maturities and is considered a Level 2 fair value measurement.

Short-Term Investments

Eaton invests excess cash generated from operations in short-term marketable investments. For those investments classified as "available-for-sale", Eaton marks these investments to fair value with the offset recognized in Accumulated other comprehensive loss. A summary of the carrying value of short-term investments follows:

	2014	2013
Time deposits, certificates of deposit and demand deposits with banks	\$113	\$279
Money market investments	131	512
Other	1	3
Total short-term investments	\$245	\$794

Note 12. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

In the normal course of business, Eaton is exposed to certain risks related to fluctuations in interest rates, currency exchange rates and commodity prices. The Company uses various derivative and non-derivative financial instruments, primarily interest rate swaps, currency forward exchange contracts, currency swaps and, to a lesser extent, commodity contracts, to manage risks from these market fluctuations. The instruments used by Eaton are straightforward, non-leveraged instruments. The counterparties to these instruments are financial institutions with strong credit ratings. Eaton maintains control over the size of positions entered into with any one counterparty and regularly monitors the credit rating of these institutions. Such instruments are not purchased and sold for trading purposes.

Table of Contents

Derivative financial instruments are accounted for at fair value and recognized as assets or liabilities in the Consolidated Balance Sheets. Accounting for the gain or loss resulting from the change in the fair value of the derivative financial instrument depends on whether it has been designated, and is effective, as part of a hedging relationship and, if so, as to the nature of the hedging activity. Eaton formally documents all relationships between derivative financial instruments accounted for as designated hedges and the hedged item, as well as its risk-management objective and strategy for undertaking the hedge transaction. This process includes linking derivative financial instruments to a recognized asset or liability, specific firm commitment, forecasted transaction, or net investment in a foreign operation. These financial instruments can be designated as:

- Hedges of the change in the fair value of a recognized fixed-rate asset or liability, or the firm commitment to acquire such an asset or liability (a fair value hedge); for these hedges, the gain or loss from the derivative financial instrument, as well as the offsetting loss or gain on the hedged item attributable to the hedged risk, are recognized in income during the period of change in fair value.

- Hedges of the variable cash flows of a recognized variable-rate asset or liability, or the forecasted acquisition of such an asset or liability (a cash flow hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same period when the gain or loss on the hedged item is included in income.

- Hedges of the currency exposure related to a net investment in a foreign operation (a net investment hedge); for these hedges, the effective portion of the gain or loss from the derivative financial instrument is recognized in Accumulated other comprehensive loss and reclassified to income in the same period when the gain or loss related to the net investment in the foreign operation is included in income.

The gain or loss from a derivative financial instrument designated as a hedge that is effective is classified in the same line of the Consolidated Statements of Income as the offsetting loss or gain on the hedged item. The change in fair value of a derivative financial instrument that is not effective as a hedge is immediately recognized in income.

For derivatives that are not designated as a hedge, any gain or loss is immediately recognized in income. The majority of derivatives used in this manner relate to risks resulting from assets or liabilities denominated in a foreign currency and certain commodity contracts that arise in the normal course of business. Gains and losses associated with commodity hedge contracts are classified in Cost of products sold.

Eaton uses certain of its debt denominated in foreign currency to hedge portions of its net investments in foreign operations against foreign currency exposure (net investment hedges). Foreign currency denominated debt designated on an after-tax basis as non-derivative net investment hedging instruments was \$84 and \$95 at December 31, 2014 and 2013, respectively. See Note 5 for additional information about debt.

Interest Rate Risk

Eaton has entered into fixed-to-floating interest rate swaps to manage interest rate risk of certain long-term debt. These interest rate swaps are accounted for as fair value hedges of certain long-term debt. The maturity of the swap corresponds with the maturity of the debt instrument as noted in the table of long-term debt in Note 5.

A summary of interest rate swaps outstanding at December 31, 2014, follows:

Fixed-to-Floating Interest Rate Swaps

Notional amount	Fixed interest rate received	Floating interest rate paid	Basis for contracted floating interest rate paid
150	5.30%	4.42%	1 month LIBOR + 4.26%
650	1.50%	0.59%	1 month LIBOR + 0.43%
415	5.60%	3.51%	6 month LIBOR + 3.18%
300	6.95%	5.30%	3 month LIBOR + 5.07%
25	8.875%	4.18%	6 month LIBOR + 3.84%
150	3.875%	2.28%	1 month LIBOR + 2.12%
200	3.47%	1.85%	1 month LIBOR + 1.69%
1,250	2.75%	0.67%	1 month LIBOR + 0.52%
200	3.68%	1.23%	1 month LIBOR + 1.07%
25	7.625%	2.81%	6 month LIBOR + 2.48%

Edgar Filing: Eaton Corp plc - Form 10-K

50	7.65%	2.89%	6 month LIBOR + 2.57%
25	5.45%	0.60%	6 month LIBOR + 0.28%
53			

Table of Contents

Derivative Financial Statement Impacts

The fair value of derivative financial instruments recognized in the Consolidated Balance Sheets follows:

	Notional amount	Other current assets	Other noncurrent assets	Other current liabilities	Other noncurrent liabilities	Type of hedge	Term
December 31, 2014							
Derivatives designated as hedges							
Fixed-to-floating interest rate swaps	\$3,440	\$—	\$84	\$—	\$10	Fair value	2 to 19 years
Currency exchange contracts	432	8	1	5	3	Cash flow	1 to 36 months
Commodity contracts	1	—	—	—	—	Cash flow	1 to 12 months
Total		\$8	\$85	\$5	\$13		
Derivatives not designated as hedges							
Currency exchange contracts	\$4,447	\$47		\$52			1 to 12 months
Total		\$47		\$52			
December 31, 2013							
Derivatives designated as hedges							
Fixed-to-floating interest rate swaps	\$3,090	\$1	\$36	\$—	\$76	Fair value	3 months to 20 years
Floating-to-fixed interest rate swaps	300	—	—	1	—	Cash flow	6 months
Currency exchange contracts	393	12	—	3	—	Cash flow	12 to 36 months
Commodity contracts	1	—	—	—	—	Cash flow	1 to 12 months
Total		\$13	\$36	\$4	\$76		
Derivatives not designated as hedges							
Currency exchange contracts	\$4,277	\$22		\$26			1 to 12 months
Total		\$22		\$26			

The currency exchange contracts shown in the table above as derivatives not designated as hedges are primarily contracts entered into to manage currency volatility or exposure on intercompany sales and loans. While Eaton does not elect hedge accounting treatment for these derivatives, Eaton targets managing 100% of the intercompany balance sheet exposure to minimize the effect of currency volatility related to the movement of goods and services in the normal course of its operations. This activity represents the great majority of these currency exchange contracts.

The impact of derivative instruments to the Consolidated Statements of Income and Comprehensive Income follow:

	Gain (loss) recognized in other comprehensive (loss) income		Location of gain (loss) reclassified from Accumulated other comprehensive loss	Gain (loss) reclassified from Accumulated other comprehensive loss	
	2014	2013		2014	2013
Derivatives designated as cash flow hedges					
Floating-to-fixed interest rate swaps	\$—	\$—	Interest expense - net	\$(1)	\$(1)
Currency exchange contracts	(3)	6	Cost of products sold	6	2
Commodity contracts	—	—	Cost of products sold	—	(1)
Total	\$(3)	\$6		\$5	\$—

Table of Contents

Amounts recognized in net income follow:

	2014	2013
Derivatives designated as fair value hedges		
Fixed-to-floating interest rate swaps	\$ 113	\$(126)
Related long-term debt converted to floating interest rates by interest rate swaps	(113)) 126
	\$—	\$—

Gains and losses described above were recognized in Interest expense - net.

Note 13. ACCOUNTS RECEIVABLE AND INVENTORY

Accounts Receivable

Eaton performs ongoing credit evaluation of its customers and maintains sufficient allowances for potential credit losses. The Company evaluates the collectability of its accounts receivable based on the length of time the receivable is past due and any anticipated future write-off based on historic experience. Accounts receivable balances are written off against an allowance for doubtful accounts after a final determination of uncollectability has been made. Accounts receivable are net of an allowance for doubtful accounts of \$60 and \$79 at December 31, 2014 and 2013, respectively.

Inventory

Inventory is carried at lower of cost or market. Inventory in the United States is generally accounted for using the last-in, first-out (LIFO) method. Remaining United States and non-United States inventory is accounted for using the first-in, first-out (FIFO) method. Cost components include raw materials, purchased components, direct labor, indirect labor, utilities, depreciation, inbound freight charges, purchasing and receiving costs, inspection costs, warehousing costs, and costs of the distribution network.

The components of inventory follow:

	2014	2013
Raw materials	\$924	\$955
Work-in-process	422	428
Finished goods	1,201	1,115
Inventory at FIFO	2,547	2,498
Excess of FIFO over LIFO cost	(119)) (116)
Total inventory	\$2,428	\$2,382

Inventory at FIFO accounted for using the LIFO method was 41% and 45% at the end of 2014 and 2013, respectively.

Note 14. BUSINESS SEGMENT AND GEOGRAPHIC REGION INFORMATION

Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated on a regular basis by the chief operating decision maker, or decision making group, in deciding how to allocate resources to an individual segment and in assessing performance. Eaton's segments are as follows:

Electrical Products and Electrical Systems and Services

The Electrical Products segment consists of electrical components, industrial components, residential products, single phase power quality, emergency lighting, fire detection, wiring devices, structural support systems, circuit protection, and lighting products. The Electrical Systems and Services segment consists of power distribution and assemblies, three phase power quality, hazardous duty electrical equipment, intrinsically safe explosion-proof instrumentation, utility power distribution, power reliability equipment, and services. The principal markets for these segments are industrial, institutional, governmental, utility, commercial, residential and information technology. These products are used wherever there is a demand for electrical power in commercial buildings, data centers, residences, apartment and office buildings, hospitals, factories, and utilities. The segments share several common global customers, but a large number of customers are located regionally. Sales are made directly to original equipment manufacturers, utilities, and certain other end users, as well as through distributors, resellers, and manufacturers' representatives.

Table of Contents

Hydraulics

The Hydraulics segment is a global leader in hydraulics components, systems and services for industrial and mobile equipment. Eaton offers a wide range of power products including pumps, motors and hydraulic power units; a broad range of controls and sensing products including valves, cylinders and electronic controls; a full range of fluid conveyance products including industrial and hydraulic hose, fittings, and assemblies, thermoplastic hose and tubing, couplings, connectors, and assembly equipment; filtration systems solutions; industrial drum and disc brakes; and golf grips. The principal markets for the Hydraulics segment include oil and gas, renewable energy, marine, agriculture, construction, mining, forestry, utility, material handling, truck and bus, machine tools, molding, primary metals, and power generation. Key manufacturing customers in these markets and other customers are located globally. Products are sold and serviced through a variety of channels.

Aerospace

The Aerospace segment is a leading global supplier of aerospace fuel, hydraulics, and pneumatic systems for commercial and military use. Products include hydraulic power generation systems for aerospace applications including pumps, motors, hydraulic power units, hose and fittings, electro-hydraulic pumps; controls and sensing products including valves, cylinders, electronic controls, electromechanical actuators, sensors, aircraft flap and slat systems and nose wheel steering systems; fluid conveyance products, including hose, thermoplastic tubing, fittings, adapters, couplings, sealing and ducting; and fuel systems including fuel pumps, sensors, valves, adapters and regulators. In addition, products included power and load management systems and displays and panels until these businesses were sold in May of 2014. The principal markets for the Aerospace segment are manufacturers of commercial and military aircraft and related after-market customers. These manufacturers and other customers operate globally. Products are sold and serviced through a variety of channels.

Vehicle

The Vehicle segment is a leader in the design, manufacture, marketing, and supply of drivetrain and powertrain systems and critical components that reduce emissions and improve fuel economy, stability, performance, and safety of cars, light trucks and commercial vehicles. Products include transmissions, clutches, hybrid power systems, superchargers, engine valves and valve actuation systems, cylinder heads, locking and limited slip differentials, transmission controls, fuel vapor components, fluid connectors and conveyance products for the global vehicle industry. The principal markets for the Vehicle segment are original equipment manufacturers and aftermarket customers of heavy-, medium-, and light-duty trucks, SUVs, CUVs, passenger cars and agricultural equipment.

Other Information

No single customer represented greater than 10% of net sales in 2014, 2013 or 2012, respectively.

The accounting policies of the business segments are generally the same as the policies described in Note 1, except that inventory and related cost of products sold of the segments are accounted for using the FIFO method and operating profit only reflects the service cost component related to pensions and other postretirement benefits. Intersegment sales and transfers are accounted for at the same prices as if the sales and transfers were made to third parties. These intersegment sales are eliminated in consolidation. Operating profit includes the operating profit from intersegment sales.

For purposes of business segment performance measurement, the Company does not allocate items that are of a non-operating nature or are of a corporate or functional governance nature. Corporate expenses consist of transaction costs associated with the acquisition of certain businesses and corporate office expenses including compensation, benefits, occupancy, depreciation, and other administrative costs. Identifiable assets of the business segments exclude goodwill, other intangible assets, and general corporate assets, which principally consist of cash, short-term investments, deferred income taxes, certain accounts receivable, certain property, plant and equipment, and certain other assets. See Note 2 for additional information about business acquisitions.

Table of Contents

Business Segment Information

	2014	2013	2012
Net sales			
Electrical Products	\$7,254	\$7,026	\$3,846

Litigation settlements	(644) —	—
Amortization of intangible assets	(431) (437) (195
Interest expense - net	(227) (271) (208
Pension and other postretirement benefits expense	(138) (183) (162
Inventory step-up adjustment	—	(34) (42
Other corporate expense - net	(111) (369) (358
Income before income taxes	1,761	1,884	1,251
Income tax (benefit) expense	(42) 11	31
Net income	1,803	1,873	1,220
Less net income for noncontrolling interests	(10) (12) (3
Net income attributable to Eaton ordinary shareholders	\$1,793	\$1,861	\$1,217
Business segment operating profit was reduced by acquisition integration charges as follows:			
	2014	2013	2012
Electrical Products	\$66	\$44	\$4
Electrical Systems and Services	51	37	13
Hydraulics	12	36	16
Total	\$129	\$117	\$33

Corporate acquisition integration charges totaled \$25, \$37 and \$11 in 2014, 2013 and 2012, respectively. Corporate acquisition integration charges related primarily to the acquisition of Cooper and are included above in Other corporate expense - net.

Acquisition-related transaction costs, such as investment banking, legal and other professional fees, and costs associated with change in control agreements, are included above in Interest expense - net and Other corporate expense - net. These charges totaled \$9 and \$178 in 2013 and 2012, respectively. There were no Corporate acquisition-related transition costs in 2014. See Note 3 for additional information about acquisition integration charges and transaction costs.

Note 15. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

On November 20, 2012, Eaton Corporation issued senior notes totaling \$4,900 to finance part of the cash portion of the acquisition of Cooper. On November 14, 2013, the senior notes were exchanged for senior notes registered under the Securities Act of 1933 (the Senior Notes). Eaton and certain other of Eaton's 100% owned direct and indirect subsidiaries (the Guarantors) fully and unconditionally guaranteed (subject, in the case of the Guarantors, other than Eaton, to customary release provisions as described below), on a joint and several basis, the Senior Notes. The following condensed consolidating financial statements are included so that separate financial statements of Eaton, Eaton Corporation and each of the Guarantors are not required to be filed with the Securities and Exchange Commission. The consolidating adjustments primarily relate to eliminations of investments in subsidiaries and intercompany balances and transactions. The condensed consolidating financial statements present investments in subsidiaries using the equity method of accounting. See Note 5 for additional information related to the Senior Notes. The guarantee of a Guarantor that is not a parent of the issuer will be automatically and unconditionally released and discharged in the event of any sale of the Guarantor or of all or substantially all of its assets, or in connection with the release or termination of the Guarantor as a guarantor under all other U.S. debt securities or U.S. syndicated credit facilities, subject to limitations set forth in the indenture. The guarantee of a Guarantor that is a direct or indirect parent of the issuer will only be automatically and unconditionally released and discharged in connection with the release or termination of such Guarantor as a guarantor under all other debt securities or syndicated credit facilities (in both cases, U.S. or otherwise), subject to limitations set forth in the indenture.

Eaton was incorporated under the laws of Ireland on May 10, 2012, and became the successor registrant to Eaton Corporation on November 30, 2012 in connection with the acquisition of Cooper. Therefore, for presentation purposes of entities under common control, Eaton is presented as the parent company in the 2012 condensed consolidating financial statements.

During the third quarter of 2014, the Company undertook certain steps to restructure ownership of various subsidiaries. The transactions were entirely among wholly-owned subsidiaries under the common control of Eaton. This restructuring has been reflected as of the beginning of the earliest period presented below.
