NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Amounts in thousands, except share, per share and per tonne data)

1. BASIS OF PRESENTATION

Basis of consolidation

Management has prepared the accompanying unaudited condensed consolidated financial statements for the three-month and six-month periods ended June 30, 2017, and these operating results are not necessarily indicative of the results that may be expected for the year ending December 31, 2017.

The condensed consolidated statement of financial position at December 31, 2016 has been derived from the audited consolidated financial statements at that date but does not include all the information and footnotes required by International Financial Reporting Standards (IFRS) for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the annual report on Form 20-F of China Natural Resources, Inc. (CHNR or the Company) for the year ended December 31, 2016 (the 2016 Annual Report).

The condensed consolidated financial statements include the accounts of CHNR and those subsidiaries in which CHNR has direct or indirect controlling interests (collectively referred to as the Group). The Company's subsidiaries as of December 31, 2016 are as described in the 2016 Annual Report.

For the convenience of readers, amounts in Renminbi, the Chinese currency (CNY), have been translated into United States dollars (US\$) at the applicable rate of US\$1.00 = CNY6.7794 as quoted by UKForex as of June 30, 2017, except as disclosed otherwise. No representation is made that the CNY amounts could have been, or could be, converted into US\$ at that rate, or at all.

Going concern

As of June 30, 2017, the Group had net current liabilities of CNY30.29 million (US\$4.47 million) and equity of CNY17.21 million (US\$2.54 million). In view of these circumstances, the Directors have given consideration to the future liquidity and performance of the Group and its available sources of finance in assessing whether the Group will have sufficient financial resources to continue as a going concern. In order to improve the Group's liquidity and cashflows to sustain the Group as a going concern, the Directors of the Company have taken certain measures to improve the cash flows of the Group, which include but are not limited to obtaining confirmations of continuous financial support from Feishang Group Limited (Feishang Group or the Shareholder), Feishang Hesheng Investment Limited (Feishang Hesheng) and Feishang Enterprise Group Limited (Feishang Enterprise), entities controlled by Mr. Li Feilie who is also the principal beneficial shareholder of the Company.

After taking into account the above measures, the Directors consider that the Group will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Therefore, the condensed consolidated financial statements of the Group have been prepared on a going concern basis.

2. DISCONTINUED OPERATION

On February 24, 2017, Feishang Mining Holdings Limited (Feishang Mining), a wholly-owned subsidiary of CHNR, and Wuhu City Feishang Industrial Development Co., Ltd. (Wuhu Industrial), as nominee for Feishang Mining (collectively referred to as the Sellers), entered into an agreement with Shen Yandi, an unrelated individual (the Purchaser), pursuant to which the Sellers sold and the Purchaser purchased, all of the Sellers' right, title and interest in and to the outstanding capital stock of Wuhu Feishang Mining Development Co. Limited (Wuhu Feishang), which had previously been included in the Group's non-ferrous metals segment, at a cash consideration of CNY1.00 million (US\$0.15 million). The disposal was completed on March 3, 2017.

Wuhu Feishang was the primary contributor to the Group's non-ferrous metals segment, which represented a separate major line of business with separately identifiable operations and cash flows. Accordingly, the results of Wuhu Feishang are classified and separately reported as a "discontinued operation" in the condensed consolidated statement of profit or loss and other comprehensive income for the period ended June 30, 2017. The comparative amounts reported in the condensed consolidated statements of profit or loss and other comprehensive income and related notes have been restated accordingly to reflect the reclassification between continuing operations and the discontinued operation. In addition, the gain recognized on the disposal of Wuhu Feishang is included in the results of the discontinued operation.

LOSS FOR THE PERIOD FROM CONTINUING OPERATIONS

The loss from continuing operations for the six months ended June 30, 2017 increased by CNY1.30 million (US\$0.19 million) from a loss of CNY4.92 million (US\$0.73 million) for the six months ended June 30, 2016 to a loss of CNY6.22 million (US\$0.92 million) for the six months ended June 30, 2017. The increase in loss was mainly caused by an increase in administrative expenses amounting to CNY1.92 million (US\$0.28 million) resulting from the increase in audit fee and the expansion of Antay Pacha's operations. The loss increase was partially offset by the absence in 2017 of other operating expenses amounting to CNY1.06 million (US\$0.16 million) for the six months ended June 30, 2016, which mainly represents the expenses in preparation for the trial production of Antay Pacha.

The loss from continuing operations for the three months ended June 30, 2017 increased by CNY0.83 million (US\$0.12 million) from CNY2.40 million (US\$0.36 million) for the three months ended June 30, 2016 to CNY3.23 million (US\$0.48 million) for the three months ended June 30, 2017. The increase in loss was mainly due to an increase in administrative expenses amounting to CNY1.05 million (US\$0.15 million) resulting from the increase in audit fee and the expansion of Antay Pacha's operations. The loss increase was partially offset by the absence in 2017 of other operating expenses amounting to CNY0.31 million (US\$0.05 million) for the three months ended June 30, 2016, which mainly represents the expenses in preparation for the trial production of Antay Pacha.

LOSS/ PROFIT FOR THE PERIOD FROM A DISCONTINUED OPERATION

The discontinued operation represents the non-ferrous metal mining operation conducted by Wuhu Feishang. For the period from January 1, 2017 to March 3, 2017, Wuhu Feishang incurred a loss of CNY1.36 million (US\$0.20 million) and a one-off gain on disposal of the discontinued operation of CNY12.34 million (US\$1.82 million), compared with the loss of CNY6.08 million (US\$0.90 million) for the six months ended June 30, 2016, and the loss of CNY4.10 million (US\$0.60 million) for the second quarter of 2016. The loss mainly represents overhead costs incurred during the temporary suspension of production of Wuhu Feishang.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary liquidity needs are to fund operating expenses. To date, the Company has financed its working capital requirements primarily through internally generated cash in prior years and non-interest bearing loans from the Shareholder and its affiliates. Although Antay Pasha's copper smelting trial production run has begun, it can be expected that (a) the Company will continue to incur operating expenses prior to the commencement of revenue-producing activities and (b) the availability of internally generated funds to sustain operations will decrease until the commencement of commercial production of our copper smelting plant. It is currently projected that commercial production will commence in the second half of 2018. Feishang Group, Feishang Hesheng and Feishang Enterprise have confirmed that the balances due to them as at June 30, 2017 are not required to be settled during the ensuing 12 months.

Net cash used for operating activities for the six months ended June 30, 2017 was approximately CNY8.95 million (US\$1.32 million) as compared to net cash used for operating activities of CNY21.07 million (US\$3.11 million) for the corresponding period in 2016. The net cash outflows mainly represent the operating losses for the corresponding periods.

The following summarizes the Company's financial condition and liquidity at the dates indicated:

	December 31, 2016 (Audited)	June 30, 2017 (Unaudited)
Current ratio	0.48x	0.46x
Working capital (CNY'000)	(40,054)	(30,294)

Net cash used in investing activities for the six months ended June 30, 2017 was CNY3.03 million (US\$0.45 million), as compared with CNY1.68 million (US\$0.25 million) for the corresponding period in 2016. The increase in investing activities cash outflows represents the acquisition of property and equipment for Antay Pasha's copper smelting operations, which was partially offset by the net cash received from the disposal of Wuhu Feishang.

Net cash from financing activities for the six months ended June 30, 2017 was CNY7.96 million (US\$1.17 million), as compared with CNY2.24 million (US\$0.33 million) for the corresponding period in 2016. The net cash from financing activities is primarily comprised of net cash received from related parties.
