Large Accelerated Filer "

Accelerated Filer "

Non-accelerated Filer " (Do not check if a smaller reporting company)

Smaller Reporting Company b

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes "No b

As of November 7, 2014, the registrant had 4,439,575 shares of common stock issued and outstanding.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q may contain forward-looking statements with respect to the financial condition, results of operations, plans, objectives, future performance, or business of First Internet Bancorp ("we," "our," "us" or the "Company"). Forward-looking statements are generally identifiable by the use of words such as "believe," "expect," "anticipate," "plan," "intend," "estimate," "may," "will," "would," "could," "should," or other similar expressions. Forward-lostatements are not a guarantee of future performance or results, are based on information available at the time the statements are made, and involve known and unknown risks, uncertainties and other factors that could cause actual results to differ materially from the information in the forward-looking statements. Factors that may cause such differences include: failures of or interruptions in the communications and information systems on which we rely to conduct our business; our plans to grow our commercial real estate and commercial and industrial loan portfolios; competition with national, regional, and community financial institutions; the loss of any key members of senior management; fluctuations in interest rates; general economic conditions and risks relating to the regulation of financial institutions. Additional factors that may affect our results include those discussed in our most recent Annual Report on Form 10-K under the heading "Risk Factors" and in other reports filed with the Securities and Exchange Commission ("SEC"). All statements in this Quarterly Report on Form 10-Q, including forward-looking statements, speak only as of the date they are made, and the Company undertakes no obligation to update any statement in light of new information or future events.

First Internet Bancorp Notes to Condensed Consolidated Financial Statements – Unaudited (Dollar amounts in thousands except per share data)

Note 1: Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") for interim financial information and pursuant to the rules and regulations of the SEC. Accordingly, they do not include all of the information or footnotes necessary for a complete presentation of financial condition, results of operations, or cash flows in accordance with U.S. GAAP. In our opinion, all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation have been included. The results of operations for the three and nine months ended September 30, 2014 are not necessarily indicative of the results expected for the year ending December 31, 2014 or any other period. The September 30, 2014 condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in the First Internet Bancorp Annual Report on Form 10-K for the year ended December 31, 2013.

The preparation of the condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates, judgments, or assumptions that could have a material effect on the carrying value of certain assets and liabilities. These estimates, judgments, and assumptions affect the amounts reported in the condensed consolidated financial statements and the disclosures provided. The determination of the allowance for loan losses, valuations and impairments of investment securities, and the accounting for income tax expense are highly dependent upon management's estimates, judgments, and assumptions where changes in any of these could have a significant impact on the financial statements.

The Company is subject to claims and lawsuits that arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the consolidated financial position, results of operations, and cash flows of the Company.

The condensed consolidated financial statements include the accounts of First Internet Bancorp (the "Company"), its wholly-owned subsidiary, First Internet Bank of Indiana (the "Bank"), and the Bank's wholly-owned subsidiary, JKH Realty Services, LLC. All significant intercompany accounts and transactions have been eliminated in consolidation.

Certain reclassifications have been made to the 2013 financial statements to conform to the 2014 financial statement presentation. These reclassifications had no effect on net income.

On June 21, 2013, the Company completed a three-for-two (3:2) split of its common stock by the payment of a stock dividend of one-half of one share on each outstanding share of common stock. Except as otherwise indicated, all of the share and per-share information referenced throughout this report has been adjusted to reflect this stock split.

Note 2: Earnings Per Share

Earnings per share of common stock are based on the weighted-average number of basic shares and dilutive shares outstanding during the period.

The following is a reconciliation of the weighted-average common shares for the basic and diluted earnings per share computations for the three and nine months ended September 30, 2014 and 2013:

	Three Months September 30,	Ended
	2014	2013

The carrying value of securities at September 30, 2014 is shown below by their contractual maturity date. Actual maturities will differ because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Available-for-Sale	
	Amortized	Fair
	Cost	Value
Within one year	\$2,000	\$1,989
One to five years		
Five to ten years	814	803
After ten years	15,235	14,922
	18,049	17,714
Mortgage-backed and asset-backed securities – government-sponsored enterprises	111,524	110,489
Totals	\$129,573	\$128,203

Gross gains of \$450 and \$104, and gross losses of \$396 and \$7 resulting from sales of available-for-sale securities were realized for the three months ended September 30, 2014 and 2013, respectively. In the nine months ended September 30, 2014 and 2013, gross gains of \$2,749 and \$278 and gross losses of \$2,211 and \$347 were recognized, respectively.

Certain investments in debt securities are reported in the condensed consolidated financial statements at an amount less than their historical cost. Total fair value of these investments at September 30, 2014 and December 31, 2013 was \$107,243 and \$109,946, which is approximately 84% and 61%, respectively, of the Company's available-for-sale investment portfolio. These declines primarily resulted from fluctuations in market interest rates after purchase.

Except as discussed below, management believes the declines in fair value for these securities are temporary.

Should the impairment of any of these securities become other-than-temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period in which the other-than-temporary impairment ("OTTI") is identified.

The following tables show the Company's investments' gross unrealized losses and fair value, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at September 30, 2014 and December 31, 2013:

U.S. Government Sponsored Enterprise and Municipal Securities

The unrealized losses on the Company's investments in securities issued by U.S. Government-sponsored enterprises and municipal securities were caused by interest rate changes. The contractual terms of those investments do not permit the issuer to settle the securities at a price less than the amortized cost bases of the investments. Because the Company does not intend to sell the investments at a loss and it is not more likely than not the Company will be required to sell the investments before recovery of their amortized cost bases, which may be maturity, the Company does not consider those investments to be other-than-temporarily impaired at September 30, 2014.

Mortgage-Backed Securities

The unrealized losses on the Company's investments in mortgage-backed securities were caused by interest rate changes. The Company expects to recover the amortized cost bases over the term of the securities. Because the decline in market value is attributable to changes in interest rates and not credit quality, and because the Company does not intend to sell the investments at a loss and it is not more likely than not the Company will be required to sell the investments before

recovery of their amortized cost bases, which may be maturity, the Company does not consider those investments to be other-than-temporarily impaired at September 30, 2014.

For identified mortgage-backed securities in the investment portfolio, an extensive, quarterly review is conducted to determine if an other-than-temporary impairment has occurred. Various inputs to the economic models are used to determine if an unrealized loss is other-than-temporary. The most significant inputs are voluntary prepayment rates, default rates, liquidation rates, and loss severity.

To determine if the unrealized loss for mortgage-backed securities is other-than-temporary, the Company projects total estimated defaults of the underlying assets (mortgages) and multiplies that calculated amount by an estimate of realizable value upon sale in the marketplace (severity) in order to determine the projected collateral loss. The Company also evaluates the current credit enhancement underlying the security to determine the impact on cash flows. If the Company determines that a given mortgage-backed security position will be subject to a write-down or loss, the Company records the expected credit loss as a charge to earnings.

Other Securities

The Company's unrealized loss on investments in other securities at December 31, 2013 primarily consists of two investments, both of which were sold in the second quarter of 2014.

The first investment was a \$2,000 par investment in I-PreTSL I B-2 pooled trust security. The unrealized loss was primarily caused by a sector downgrade by several industry analysts. The determination of no credit loss was calculated by comparing expected discounted cash flows based on performance indicators of the underlying assets in the security to the carrying value of the investment.

The second investment was a \$2,000 par investment in ALESCO IV Series B2 pooled trust security for which the Company recognized an other-than-temporary impairment loss. The unrealized loss was primarily caused by: (a) a decrease in performance; and (b) a sector downgrade by several industry analysts. The credit loss was calculated by comparing expected discounted cash flows based on performance indicators of the underlying assets in the security to the carrying value of the investment.

The Company did not recognize any credit losses in earnings during the three months ended September 30, 2014 and 2013. The credit losses recognized in earnings during the nine months ended September 30, 2014 and 2013 were as follows:

Credit Losses Recognized on Investments

Certain debt securities have experienced fair value deterioration due to credit losses, as well as due to other market factors, but are not considered other-than-temporarily impaired.

The following tables provide information about debt securities for which only a credit loss was recognized in income and other losses are recorded in accumulated other comprehensive loss. The Company did not own any OTTI securities during the three months ended September 30, 2014.

Note 4: Loans Receivable

Loans that management intends to hold until maturity are reported at their outstanding principal balance adjusted for unearned income, charge-offs, the allowance for loan losses, any unamortized deferred fees or costs on originated loans, and unamortized premiums or discounts on purchased loans.

For loans recorded at cost, interest income is accrued based on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, as well as premiums and discounts, are deferred and amortized as a level yield adjustment over the respective term of the loan.

Categories of loans include:

September 30, December 31,

2014 2013

Real estate loans

Residential \$282,298
