Note 2: Nature of Operations, Merger, and Summary of Significant Accounting Policies

Operations and Merger

ICOP Digital, Inc. was incorporated in May 2002 in Nevada and merged into a wholly owned subsidiary of the Company (a Colorado corporation) as of December 31, 2003 and was merged out of existence in June 2005. The Company, formerly named Vista Exploration Corporation, subsequently changed its name to ICOP Digital, Inc. The Company is engaged in the design, development and marketing of in-car video recorder systems for use in the law enforcement industry. The Company's offices are located in Lenexa, Kansas.

On February 28, 2005, the Company's shareholders approved a reverse stock split that exchanged one new share of stock for ten existing shares effective March 10, 2005. All share and per share amounts in this document have been changed to reflect the effect of this change.

Note 3: Notes Payable

In January 2006, the Company executed installment notes to finance equipment purchases in the total amount of \$56,000, payable monthly including interest at 7.75% per annum through January 2010. Annual maturities on these notes are \$11,116 in 2006, \$13,288 in 2007, \$14,404 in 2008, \$15,616 in 2009 and \$1,576 in 2010.

Note 4: Shareholders' Equity

Sale of common stock

In March 2006, a shareholder exercised warrants to purchase 22,798 shares of the Company's no par common stock at a total cost of \$155,254.

Stock options

In March 2006, the Company granted an employee options to purchase an aggregate of 10,000 shares of the Company's common stock at an exercise price of \$10.00 per share. The options vest in five increments of 2,000 shares each through December 31, 2009 and expire on January 31, 2010. The quoted market price of the stock was \$5.32 per share. The Company valued the options at \$0.50 per share, or \$5,000, in accordance with SFAS 123(R). The vested portion of \$1,000 was recorded as stock-based compensation in the accompanying financial statements.

The fair value of the options was estimated at the date of grant using the Black-Scholes option-pricing model with the following assumptions:

Risk-free interest rate	4.72%
Dividend yield	0.00%
Volatility factor	34.00%
Weighted average expected life	3 years

Note 5: Income Taxes

The Company records its income taxes in accordance with Statement of Financial Accounting Standard No. 109, Accounting for Income Taxes. The Company incurred net operating losses during the periods shown on the condensed financial statements resulting in a deferred tax asset, which was reserved; therefore the net benefit and expense resulted in \$0 income taxes.

Item 2. Management's Discussion and Analysis or Plan of Operation

During the three months ended March 31, 2006, the Company reported sales of \$802,000 and cost of sales of \$458,000 resulting in gross profit of \$344,000 compared to no sales or cost for the same period of 2005. Significant sales of production equipment began in June 2005. During the three months ended March 31, 2006, the Company also incurred \$250,000 in research and development expenses and \$923,000 in general and administrative expense, resulting in an operating loss of \$829,000. During the three months ended March 31, 2005, the Company incurred \$117,000 in research and development expenses and \$334,000 in general and administrative expense, resulting in an operating loss of \$451,000. The increased level of expense in 2006 over the corresponding period of 2005 is the result of expansion of product development and sales and marketing as the Company achieved funding in July and December 2005, expanded its facilities and added personnel to execute its business plan. Funding provided by the completed secondary offering and subsequent private offering permitted expansion of sales, service and engineering personnel, accelerated product manufacturing and should allow the Company to achieve operating breakeven over the coming twelve months.

Liquidity and Capital Resources

On March 31, 2006, the Company had \$4,684,000 in cash, of which \$2,641,000 is restricted to secure inventory purchases. In addition the Company had \$630,000 in accounts receivable and \$3,182,000 in inventory and a total of \$741,000 in current liabilities, for a total working capital of \$7,854,000. Net cash used in operating activities for the three months ended March 31, 2006 was \$560,000 compared to cash used in operating activities of \$917,000 for the three months ended March 31, 2005. Net cash used in investing activities for the three months ended March 31, 2006 was \$192,000 compared to net cash used in investing activities for the three months ended March 31, 2005 of \$23,247. Net cash provided by financing activities was \$202,000 for the three months ended March 31, 2006 from proceeds of notes payable and exercise of warrants to purchase common stock, compared to net cash provided by financing activities of \$1,735,000 for the three months ended March 31, 2005, substantially from the bridge loans and offset by payment of offering costs for the secondary offering.

Our Capital Requirements

We believe that we have the necessary funds to finance our planned operations during the next 12 months. We have no commitments for material capital expenditures.

Employees

We have thirty-three full time employees at March 31, 2006.
