

CONAGRA BRANDS INC.
Form 10-Q
October 03, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended August 27, 2017

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 1-7275

CONAGRA BRANDS, INC.
(Exact name of registrant as specified in its charter)

Delaware 47-0248710
(State or other jurisdiction of (I.R.S. Employer
incorporation or organization) Identification No.)

222 Merchandise Mart Plaza, Suite 1300 60654
Chicago, Illinois
(Address of principal executive offices) (Zip Code)
(312) 549-5000

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company)
Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Edgar Filing: CONAGRA BRANDS INC. - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares outstanding of issuer's common stock, as of August 27, 2017, was 408,498,132.

Conagra Brands, Inc. and Subsidiaries

Notes to Condensed Consolidated Financial Statements

For the Thirteen Weeks Ended August 27, 2017 and August 28, 2016

(columnar dollars in millions except per share amounts)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The unaudited financial information reflects all adjustments, which are, in the opinion of management, necessary for a fair presentation of the results of operations, financial position, and cash flows for the periods presented. The adjustments are of a normal recurring nature, except as otherwise noted. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Conagra Brands, Inc. (formerly ConAgra Foods, Inc., the "Company", "we", "us", or "our") Annual Report on Form 10-K for the fiscal year ended May 28, 2017.

The results of operations for any quarter or a partial fiscal year period are not necessarily indicative of the results to be expected for other periods or the full fiscal year.

Basis of Consolidation — The condensed consolidated financial statements include the accounts of Conagra Brands, Inc. and all majority-owned subsidiaries. In addition, the accounts of all variable interest entities for which we have been determined to be the primary beneficiary are included in our condensed consolidated financial statements from the date such determination is made. All significant intercompany investments, accounts, and transactions have been eliminated.

On November 9, 2016, the Company completed the spinoff of Lamb Weston Holdings, Inc. ("Lamb Weston") through a distribution of 100% of the Company's interest in Lamb Weston to holders of shares of the Company's common stock as of November 1, 2016 (the "Spinoff"). In accordance with U.S. generally accepted accounting principles ("U.S. GAAP"), the results of operations of the Lamb Weston operations are presented as discontinued operations and, as such, have been excluded from continuing operations and segment results for all periods presented (see Note 3 for additional discussion).

Comprehensive Income — Comprehensive income includes net income, currency translation adjustments, certain derivative-related activity, changes in the value of available-for-sale investments, and changes in prior service cost and net actuarial gains (losses) from pension (for amounts not in excess of the 10% corridor) and post-retirement health care plans. On foreign investments we deem to be essentially permanent in nature, we do not provide for taxes on currency translation adjustments arising from converting an investment denominated in foreign currency to U.S. dollars. When we determine that a foreign investment, as well as undistributed earnings, are no longer permanent in nature, estimated taxes will be provided for the related deferred tax liability (asset), if any, resulting from currency translation adjustments.

The following table details the accumulated balances for each component of other comprehensive income (loss), net of tax:

	August 27, 2017	May 28, 2017
Currency translation losses, net of reclassification adjustments	\$(67.1)	\$(98.6)
Derivative adjustments, net of reclassification adjustments	(1.1)	(1.1)
Unrealized losses on available-for-sale securities	(0.1)	(0.3)
Pension and post-employment benefit obligations, net of reclassification adjustments	(112.9)	(112.9)
Accumulated other comprehensive loss	\$(181.2)	\$(212.9)

The following table summarizes the reclassifications from accumulated other comprehensive income (loss) into operations:

Thirteen weeks ended	Affected Line Item in the Condensed Consolidated Statement of Earnings ¹
-------------------------	--

August August
27, 28,
2017 2016

Pension and postretirement liabilities:

Net prior service benefit	\$ (0.1)	\$ (0.9)	Selling, general and administrative expenses
	(0.1)	(0.9)	Total before tax
	—	0.3	Income tax expense
	\$ (0.1)	\$ (0.6)	Net of tax

¹ Amounts in parentheses indicate income recognized in the Condensed Consolidated Statements of Earnings.

Cash and cash equivalents — Cash and all highly liquid investments with an original maturity of three months or less at the date of acquisition, including short-term time deposits and government agency and corporate obligations, are classified as cash and cash equivalents.

Reclassifications and other changes — Certain prior year amounts have been reclassified to conform with current year presentation.

Use of Estimates — Preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions. These estimates and assumptions affect reported amounts of assets, liabilities, revenues, and expenses as reflected in the condensed consolidated financial statements. Actual results could differ from these estimates.

Accounting Changes — In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-11, Inventory, which requires an entity to measure inventory within the scope at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. We adopted this ASU prospectively in fiscal 2018. The adoption of this guidance did not have a material impact to our financial statements.

Recently Issued Accounting Standards — In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The ASU will replace most existing revenue recognition guidance in U.S. GAAP. On July 9, 2015, the FASB deferred the effective date of the new revenue recognition standard by one year. Based on the FASB's ASU, we will apply the new revenue standard in our fiscal year 2019.

Early adoption in our fiscal year 2018 is permitted. We are in the process of documenting the impact of the guidance on our current accounting policies and practices in order to identify material differences, if any, that would result from applying the new requirements to our revenue contracts. We continue to make progress on our revenue recognition review and are also in the process of evaluating the impact, if any, on changes to our business processes, systems, and controls to support recognition and disclosure requirements under the new guidance. We continue to evaluate the effect that ASU 2014-09 will have on our consolidated financial statements and related disclosures. The standard permits the use of either the retrospective or cumulative effect transition method.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments-Overall: Recognition and Measurement of Financial Assets and Financial Liabilities, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The effective date for this standard is for fiscal years beginning after December 31, 2017. Early adoption is not permitted except for certain provisions. We do not expect ASU 2016-01 to have a material impact to our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases, Topic 842, which requires lessees to reflect most leases on their balance sheet as assets and obligations. The effective date for the standard is for fiscal years beginning after December 15, 2018. Early adoption is permitted. We are evaluating the effect that this standard will have on our consolidated financial statements and related disclosures. The standard is to be applied under the modified retrospective method, with elective reliefs, which requires application of the new guidance for all periods presented.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows: Classification of Certain Cash Receipts and Cash Payments, which clarifies how companies present and classify certain cash receipts and cash payments in the statement of cash flows. The effective date for the standard is for fiscal years beginning after December 15, 2017. Early adoption is permitted. We do not expect ASU 2016-15 to have a material impact to our consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows: Restricted Cash, which provides amendments to current guidance to address the classifications and presentation of changes in restricted cash in the statement of cash flows. The effective date for the standard is for fiscal years beginning after December 15, 2017. Early adoption is permitted. We do not expect ASU 2016-18 to have a material impact to our consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations: Clarifying the Definition of a Business, which provides a new framework for determining whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The effective date for the standard is for fiscal years beginning after December 15, 2017. Early adoption is permitted. We do not expect ASU 2017-01 to have a material impact to our consolidated financial statements.

In March 2017, the FASB issued ASU 2017-07, Retirement Benefits: Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost, which requires companies to present the service cost component of net benefit cost in the same line items in which they report compensation cost. Companies will present all other components of net benefit cost outside operating income, if this subtotal is presented. The effective date for the standard is for fiscal years beginning after December 15, 2017. Early adoption is permitted. We do not expect ASU 2017-07 to have a material impact to our financial statements.

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging: Targeted Improvements to Accounting for Hedging Activities, which improves the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements and make certain targeted improvements to simplify the application of the hedge accounting guidance in current GAAP. The amendments in this update better align an entity's risk management activities and financial reporting for hedging relationships through changes to both the designation and measurement guidance for qualifying hedging relationships and presentation of hedge results. The effective date for the standard is for fiscal years beginning after December 15, 2018. Early adoption is permitted. We are currently evaluating the impact of our pending adoption of this standard on our consolidated financial statements.

2. ACQUISITIONS

In April 2017, we acquired protein-based snacking businesses Thanasi Foods LLC, maker of Duke's[®] meat snacks, and BIGS LLC, maker of BIGS[®] seeds, for \$217.6 million in cash, net of cash acquired. Approximately \$133.4 million has been classified as goodwill of which \$70.9 million is deductible for income tax purposes. Approximately \$81.2 million of the purchase price has been allocated to other intangible assets. These businesses are included in the Grocery & Snacks segment.

In September 2016, we acquired the operating assets of Frontera Foods, Inc. and Red Fork LLC, including the Frontera[®], Red Fork[®], and Salpica[®] brands. These businesses make authentic, gourmet Mexican food products and contemporary American cooking sauces. We acquired the businesses for \$108.1 million in cash, net of cash acquired. Approximately \$39.5 million has been classified as goodwill and \$66.7 million has been classified as other intangible assets. The amount allocated to goodwill is deductible for tax purposes. These businesses are reflected principally within the Grocery & Snacks segment, and to a lesser extent within the Refrigerated & Frozen and International segments.

These acquisitions collectively contributed \$31.0 million to net sales during the first quarter of fiscal 2018.

For each of these acquisitions, the amounts allocated to goodwill were primarily attributable to anticipated synergies, product portfolios, and other intangibles that do not qualify for separate recognition.

Under the acquisition method of accounting, the assets acquired and liabilities assumed in these acquisitions were recorded at their respective estimated fair values at the date of acquisition.

Subsequent to the end of the first quarter of fiscal 2018, we entered into a definitive agreement to acquire Angie's Artisan Treats, LLC, maker of Angie's[®] BOOMCHICKAPOP[®] ready-to-eat popcorn, for a cash purchase price of \$250 million, net of cash acquired and subject to working capital adjustments. The business will be primarily included in the Grocery & Snacks segment. The transaction is expected to close by the end of the calendar year, subject to customary closing conditions, including the receipt of any applicable regulatory approvals.

3. DISCONTINUED OPERATIONS AND OTHER DIVESTITURES

Lamb Weston Spinoff

On November 9, 2016, we completed the Spinoff of our Lamb Weston business. As of such date, we did not beneficially own any equity interest in Lamb Weston and no longer consolidated Lamb Weston into our financial results. The business results were previously reported in the Commercial segment. We reflected the results of this business as discontinued operations for all periods presented.

The summary comparative financial results of the Lamb Weston business through the date of the Spinoff, included within discontinued operations, were as follows:

	Thirteen Weeks Ended	August 27, 2017	August 28, 2016
Net sales		\$—	\$771.9
Income (loss) from discontinued operations before income taxes and equity method investment earnings		\$(0.3)	\$128.8
Income (loss) before income taxes and equity method investment earnings		(0.3)	128.8
Income tax expense (benefit)		(0.1)	49.5
Equity method investment earnings		—	10.6
Income (loss) from discontinued operations, net of tax		(0.2)	89.9
Less: Net income attributable to noncontrolling interests		—	3.6
Net income (loss) from discontinued operations attributable to Conagra Brands, Inc.		\$(0.2)	\$86.3

For the first quarter of fiscal 2017, we incurred \$9.8 million of expenses in connection with the Spinoff primarily related to professional fees and contract services associated with preparation of regulatory filings and separation activities. These expenses are reflected in income from discontinued operations.

In connection with the Spinoff, total assets of \$2.28 billion and total liabilities of \$2.98 billion (including debt of \$2.46 billion) were transferred to Lamb Weston. As part of the consideration for the Spinoff, the Company received a cash payment from Lamb Weston in the amount of \$823.5 million. See Note 5 for discussion of the debt-for-debt exchange related to the Spinoff.

We entered into a transition services agreement in connection with the Lamb Weston Spinoff and recognized \$1.3 million of income for the performance of services during the first quarter of fiscal 2018, classified within selling, general and administrative expenses.

Private Brands Operations

On February 1, 2016, pursuant to the Stock Purchase Agreement, dated as of November 1, 2015, we completed the disposition of our Private Brands operations to TreeHouse Foods, Inc. for \$2.6 billion in cash on a debt-free basis. Included within discontinued operations for the first quarter of fiscal 2018 was an after-tax loss of \$0.1 million (\$0.1 million pre-tax gain) related to the Private Brands operations. The first quarter of fiscal 2017 included after-tax income of \$1.5 million (\$0.8 million pre-tax).

We entered into a transition services agreement with TreeHouse Foods, Inc. and recognized \$1.7 million and \$6.1 million of income for the performance of services during the first quarter of fiscal 2018 and 2017, respectively, classified within selling, general and administrative expenses.

Other Divestitures

During the fourth quarter of fiscal 2017, we announced the agreement to sell our Wesson[®] oil business, which is part of our Grocery & Snacks segment, to The J.M. Smucker Company ("Smucker"). The transaction is subject to certain customary closing conditions, including the termination or expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (the "HSR Act"). On August 28, 2017, Smucker and the Company each received a request for additional information under the HSR Act (a "second request") from the U.S. Federal Trade Commission ("FTC") in connection with the FTC's review of the transaction. Issuance of the second

request extends the waiting period under the HSR Act until 30 days after both the Company and Smucker have substantially complied with the request, unless the waiting period is terminated earlier by the FTC. The agreement for the sale of the Wesson oil business provides that, unless otherwise agreed upon by the Company and Smucker, if the closing of the transaction has not occurred on or prior to March 31, 2018 because HSR approval has not been received as of such date, then either party may terminate the agreement. The parties are cooperating fully with the FTC as it conducts its review of the transaction. We expect to realize net proceeds of approximately \$285 million from the sale. The assets of this business have been reclassified as assets held for sale within our Condensed Consolidated Balance Sheets for all periods presented.

The assets classified as held for sale reflected in our Condensed Consolidated Balance Sheets related to the Wesson® oil business were as follows:

	August 27, May 28,	
	2017	2017
Current assets	\$ 39.2	\$ 35.5
Noncurrent assets (including goodwill of \$74.5 million)	95.5	95.5

During the first quarter of fiscal 2017, we completed the sales of our Spicetec Flavors & Seasonings business ("Spicetec") and our JM Swank business, each of which was part of our Commercial segment, for \$327.0 million and \$159.3 million, respectively, in cash, net of cash included in the dispositions. We received an additional \$2.7 million in the third quarter of fiscal 2017 related to working capital adjustments. We recognized pre-tax gains from the sales of \$145.0 million and \$53.2 million, respectively, in the first quarter of fiscal 2017.

In addition, we are actively marketing certain other long-lived assets. These assets have been reclassified as assets held for sale within our Condensed Consolidated Balance Sheets for all periods presented. The balance of these noncurrent assets classified as held for sale was \$5.0 million and \$11.6 million within our Corporate segment at August 27, 2017 and May 28, 2017, respectively.

4. RESTRUCTURING ACTIVITIES

Supply Chain and Administrative Efficiency Plan

In May 2013, we announced the Supply Chain and Administrative Efficiency Plan (the "SCAE Plan"), our plan to integrate and restructure the operations of our Private Brands business, improve selling, general and administrative ("SG&A") effectiveness and efficiencies, and optimize our supply chain network, manufacturing assets, dry distribution centers, and mixing centers. In the second quarter of fiscal 2016, we announced plans to realize efficiency benefits by reducing SG&A expenses and enhancing trade spend processes and tools, which plans were included as part of the SCAE Plan. Although we divested the Private Brands business, we have continued to implement the SCAE Plan, including by working to optimize our supply chain network, pursue cost reductions through our SG&A functions, enhance trade spend processes and tools, and improve productivity.

Although we remain unable to make good faith estimates relating to the entire SCAE Plan, we are reporting on actions initiated through the end of the first quarter of fiscal 2018, including the estimated amounts or range of amounts for each major type of costs expected to be incurred, and the charges that have resulted or will result in cash outflows. As of August 27, 2017, our Board of Directors has approved the incurrence of up to \$900.9 million of expenses in connection with the SCAE Plan, including expenses allocated for the Private Brands and Lamb Weston operations. We have incurred or expect to incur approximately \$450.1 million of charges (\$303.3 million of cash charges and \$146.8 million of non-cash charges) for actions identified to date under the SCAE Plan related to our continuing operations. In the first quarter of fiscal 2018 and 2017, we recognized charges of \$11.4 million and \$14.1 million, respectively, in relation to the SCAE Plan related to our continuing operations. We expect to incur costs related to the SCAE Plan over a multi-year period.

We anticipate that we will recognize the following pre-tax expenses in association with the SCAE Plan related to our continuing operations (amounts include charges recognized from plan inception through the first quarter of fiscal 2018):

	Grocery & Snacks	Refrigerated & Frozen	International	Foodservice	Corporate	Total
Pension costs	\$ 32.9	\$ 1.5	\$ —	\$ —	\$ —	\$34.4
Accelerated depreciation	33.7	18.6	—	—	1.2	53.5
Other cost of goods sold	9.2	2.1	—	—	—	11.3
Total cost of goods sold	75.8	22.2	—	—	1.2	99.2
Severance and related costs, net	26.9	10.3	2.5	7.9	102.1	149.7
Fixed asset impairment (net of gains on disposal)	7.4	6.9	—	—	11.2	25.5

Edgar Filing: CONAGRA BRANDS INC. - Form 10-Q

Accelerated depreciation	—	—	—	—	4.4	4.4
Contract/lease cancellation expenses	0.8	0.6	0.6	—	72.6	74.6
Consulting/professional fees	0.9	0.4	0.1	—	52.7	54.1
Other selling, general and administrative expenses	15.0	3.2	—	—	24.4	42.6
Total selling, general and administrative expenses	51.0	21.4	3.2	7.9	267.4	350.9
Consolidated total	\$ 126.8	\$ 43.6	\$ 3.2	\$ 7.9	\$ 268.6	\$ 450.1

9

During the first quarter of fiscal 2018, we recognized the following pre-tax expenses for the SCAE Plan related to our continuing operations:

	Grocery & Snacks	Corporate	Total
Accelerated depreciation	\$ 1.2	\$ —	\$1.2
Other cost of goods sold	1.1	—	1.1
Total cost of goods sold	2.3	—	2.3
Severance and related costs, net	2.0	—	2.0
Fixed asset impairment (net of gains on disposal)	0.1	4.4	4.5
Accelerated depreciation	—	0.6	0.6
Consulting/professional fees	—	0.2	0.2
Other selling, general and administrative expenses	1.8	—	1.8
Total selling, general and administrative expenses	3.9	5.2	9.1
Consolidated total	\$ 6.2	\$ 5.2	\$11.4

Included in the above table are \$4.8 million of charges that have resulted or will result in cash outflows and \$6.6 million in non-cash charges.

We recognized the following cumulative (plan inception to August 27, 2017) pre-tax expenses related to the SCAE Plan related to our continuing operations in our Condensed Consolidated Statements of Earnings:

	Grocery & Snacks	Refrigerated & Frozen	International	Foodservice	Corporate	Total
Pension costs	\$ 32.9	\$ 1.5	\$ —	\$ —	\$ —	\$34.4
Accelerated depreciation	32.2	18.6	—	—	1.2	52.0
Other cost of goods sold	6.1	2.1	—	—	—	8.2
Total cost of goods sold	71.2	22.2	—	—	1.2	94.6
Severance and related costs, net	25.9	10.3	2.5	7.9	101.5	148.1
Fixed asset impairment (net of gains on disposal)	7.4	6.9	—	—	11.2	25.5
Accelerated depreciation	—	—	—	—	3.2	3.2
Contract/lease cancellation expenses	0.8	0.6	0.6	—	71.3	73.3
Consulting/professional fees	0.9	0.4	0.1	—	51.4	52.8
Other selling, general and administrative expenses	13.0	3.2	—	—	20.0	36.2
Total selling, general and administrative expenses	48.0	21.4	3.2	7.9	258.6	339.1
Consolidated total	\$ 119.2	\$ 43.6	\$ 3.2	\$ 7.9	\$ 259.8	\$433.7

Included in the above results are \$290.3 million of charges that have resulted or will result in cash outflows and \$143.4 million in non-cash charges. Not included in the above results are \$130.2 million of pre-tax expenses (\$84.5 million of cash charges and \$45.7 million of non-cash charges) related to the Private Brands operations, which we sold in the third quarter of fiscal 2016, and \$2.1 million of pre-tax expenses (all resulting in cash charges) related to Lamb Weston.

Liabilities recorded for the SCAE Plan related to our continuing operations and changes therein for the first quarter of fiscal 2018 were as follows:

	Balance at May 28, 2017	Costs Incurred and Charged to Expense	Costs Paid or Otherwise Settled	Changes in Estimates	Balance at August 27, 2017
Pension costs	\$ 31.8	\$ —	\$ —	\$ —	\$ 31.8
Severance and related costs	13.8	2.3	(4.4)	(0.3)	11.4
Consulting/professional fees	0.6	0.2	(0.6)	—	0.2
Contract/lease cancellation	11.6	—	(1.7)	—	9.9
Other costs	1.9	2.7	(3.2)	—	1.4
Total	\$ 59.7	\$ 5.2	\$ (9.9)	\$ (0.3)	\$ 54.7

5. LONG-TERM DEBT AND REVOLVING CREDIT FACILITY

At August 27, 2017, we had a revolving credit facility (the "Facility") with a syndicate of financial institutions that provides for a maximum aggregate principal amount outstanding at any one time of \$1.25 billion (subject to increase to a maximum aggregate principal amount of \$1.75 billion with the consent of the lenders). As of August 27, 2017, we were in compliance with all financial covenants under the Facility.

During the third quarter of fiscal 2017, we repaid the remaining principal balance of \$224.8 million of our 5.819% senior notes due 2017 and \$248.2 million principal amount of our 7.0% senior notes due 2019, in each case prior to maturity, resulting in a net loss on early retirement of debt of \$32.7 million.

In connection with the Spinoff (see Note 3), Lamb Weston issued to us \$1.54 billion aggregate principal amount of senior notes (the "Lamb Weston notes"). On November 9, 2016, we exchanged the Lamb Weston notes for \$250.2 million aggregate principal amount of our 5.819% senior notes due 2017, \$880.4 million aggregate principal amount of our 1.9% senior notes due 2018, \$154.9 million aggregate principal amount of our 2.1% senior notes due 2018, \$86.9 million aggregate principal amount of our 7.0% senior notes due 2019, and \$71.1 million aggregate principal amount of our 4.95% senior notes due 2020 (collectively, the "Conagra notes"), which had been purchased in the open market by certain investment banks prior to the Spinoff. Following the exchange, we cancelled the Conagra notes. These actions resulted in a net loss of \$60.6 million as a cost of early retirement of debt.

During the first quarter of fiscal 2017, we repaid the entire principal balance of \$550.0 million of our floating rate notes on the maturity date of July 21, 2016.

Net interest expense from continuing operations consists of:

	Thirteen weeks ended August 27, 2017	August 28, 2016
Long-term debt	\$ 38.1	\$ 60.9
Short-term debt	0.4	0.2
Interest income	(0.9)	(0.7)
Interest capitalized	(1.2)	(2.2)
	\$ 36.4	\$ 58.2

6. VARIABLE INTEREST ENTITIES

Variable Interest Entities Not Consolidated

We have variable interests in certain entities that we have determined to be variable interest entities, but for which we are not the primary beneficiary. We do not consolidate the financial statements of these entities.

We lease certain office buildings from entities that we have determined to be variable interest entities. The lease agreements with these entities include fixed-price purchase options for the assets being leased. The lease agreements also contain contingent put options (the "lease put options") that allow the lessors to require us to purchase the buildings at the greater of original construction cost, or fair

market value, without a lease agreement in place (the "put price") in certain limited circumstances. As a result of substantial impairment charges related to our divested Private Brands operations, these lease put options are exercisable now and remain exercisable until generally 30 days after the end of the respective lease agreements. We are amortizing the difference between the put price and the estimated fair value (without a lease agreement in place) of each respective property over the remaining respective lease term within selling, general and administrative expenses. As of August 27, 2017 and May 28, 2017, the estimated amount by which the put prices exceeded the fair values of the related properties was \$51.8 million, of which we had accrued \$9.3 million and \$8.4 million, respectively. As these buildings are worth considerably more when under lease agreements than when vacant, we may be able to mitigate some, or all, of the financial exposure created by the put options by maintaining active lease agreements and/or by subleasing the buildings to credit worthy tenants. We do not expect to ultimately incur material financial losses as a result of the potential exercise of the lease put options by the lessors. These leases are accounted for as operating leases, and accordingly, there are no material assets or liabilities, other than the accrued portion of the put price, associated with these entities included in the Condensed Consolidated Balance Sheets. We have determined that we do not have the power to direct the activities that most significantly impact the economic performance of these entities. In making this determination, we have considered, among other items, the terms of the lease agreements, the expected remaining useful lives of the assets leased, and the capital structure of the lessor entities.

7. GOODWILL AND OTHER IDENTIFIABLE INTANGIBLE ASSETS

The change in the carrying amount of goodwill for the first quarter of fiscal 2018 was as follows:

	Grocery & Snacks	Refrigerated & Frozen	International	Foodservice	Total
Balance as of May 28, 2017	\$2,439.1	\$ 1,037.3	\$ 253.6	\$ 571.1	\$4,301.1
Purchase accounting adjustments (1.4)	—	—	—	—	(1.4)
Currency translation	—	0.9	1.1	—	2.0
Balance as of August 27, 2017	\$2,437.7	\$ 1,038.2	\$ 254.7	\$ 571.1	\$4,301.7

Other identifiable intangible assets were as follows:

	August 27, 2017		May 28, 2017	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Non-amortizing intangible assets	\$835.6	\$ —	\$834.1	\$ —
Amortizing intangible assets	577.3	189.3	575.4	180.2
	\$1,412.9	\$ 189.3	\$1,409.5	\$ 180.2

In the first quarter of fiscal 2017, in anticipation of the Spinoff, we changed our reporting segments. In accordance with applicable accounting guidance, we were required to determine new reporting units at a lower level (at the operating segment or one level lower, as applicable). When such a determination was made, we were required to perform a goodwill impairment analysis for each of the new reporting units.

We performed an assessment of impairment of goodwill for the new Canadian reporting unit within the new International reporting segment. Estimating the fair value of individual reporting units requires us to make assumptions and estimates regarding our future plans and future industry and economic conditions. We estimated the future cash flows of the Canadian reporting unit and calculated the net present value of those estimated cash flows using a risk adjusted discount rate, in order to estimate the fair value of each reporting unit from the perspective of a market participant. We used discount rates and terminal growth rates of 7.5% and 2%, respectively, to calculate the present value of estimated future cash flows. We then compared the estimated fair value of the reporting unit to the historical carrying value (including allocated assets and liabilities of certain shared and Corporate functions), and determined that the fair value of the reporting unit was less than the carrying value in the first quarter of fiscal 2017. With the assistance of a third-party valuation specialist, we estimated the fair value of the assets and liabilities of this reporting unit in order to determine the implied fair value of goodwill. We recognized an impairment charge for the

difference between the implied fair value of goodwill and the carrying value of goodwill. Accordingly, during the first quarter of fiscal 2017, we recorded charges totaling \$139.2 million for the impairment of goodwill.

As part of the assessment of the fair value of each asset and liability within the Canadian reporting unit, with the assistance of the third-party valuation specialist, we estimated the fair value of our Canadian Del Monte® brand to be less than its carrying value. In accordance with applicable accounting guidance, we recognized an impairment charge of \$24.4 million to write-down the intangible asset to its estimated fair value.

Non-amortizing intangible assets are comprised of brands and trademarks.

Amortizing intangible assets, carrying a remaining weighted average life of approximately 14 years, are principally composed of customer relationships, licensing arrangements, and acquired intellectual property. Amortization expense was \$8.6 million and \$8.4 million for the first quarter of fiscal 2018 and 2017, respectively. Based on amortizing assets recognized in our Condensed Consolidated Balance Sheet as of August 27, 2017, amortization expense is estimated to average \$33.4 million for each of the next five years.

8. DERIVATIVE FINANCIAL INSTRUMENTS

Our operations are exposed to market risks from adverse changes in commodity prices affecting the cost of raw materials and energy, foreign currency exchange rates, and interest rates. In the normal course of business, these risks are managed through a variety of strategies, including the use of derivatives.

Commodity and commodity index futures and option contracts are used from time to time to economically hedge commodity input prices on items such as natural gas, vegetable oils, proteins, packaging materials, dairy, grains, and electricity. Generally, we economically hedge a portion of our anticipated consumption of commodity inputs for periods of up to 36 months. We may enter into longer-term economic hedges on particular commodities, if deemed appropriate. As of August 27, 2017, we had economically hedged certain portions of our anticipated consumption of commodity inputs using derivative instruments with expiration dates through May 2018.

In order to reduce exposures related to changes in foreign currency exchange rates, we enter into forward exchange, option, or swap contracts from time to time for transactions denominated in a currency other than the applicable functional currency. This includes, but is not limited to, hedging against foreign currency risk in purchasing inventory and capital equipment, sales of finished goods, and future settlement of foreign-denominated assets and liabilities. As of August 27, 2017, we had economically hedged certain portions of our foreign currency risk in anticipated transactions using derivative instruments with expiration dates through May 2018.

From time to time, we may use derivative instruments, including interest rate swaps, to reduce risk related to changes in interest rates. This includes, but is not limited to, hedging against increasing interest rates prior to the issuance of long-term debt and hedging the fair value of our senior long-term debt.

Economic Hedges of Forecasted Cash Flows

Many of our derivatives do not qualify for, and we do not currently designate certain commodity or foreign currency derivatives to achieve, hedge accounting treatment. We reflect realized and unrealized gains and losses from derivatives used to economically hedge anticipated commodity consumption and to mitigate foreign currency cash flow risk in earnings immediately within general corporate expense (within cost of goods sold). The gains and losses are reclassified to segment operating results in the period in which the underlying item being economically hedged is recognized in cost of goods sold. In the event that management determines a particular derivative entered into as an economic hedge of a forecasted commodity purchase has ceased to function as an economic hedge, we cease recognizing further gains and losses on such derivatives in corporate expense and begin recognizing such gains and losses within segment operating results, immediately.

Economic Hedges of Fair Values — Foreign Currency Exchange Rate Risk

We may use options and cross currency swaps to economically hedge the fair value of certain monetary assets and liabilities (including intercompany balances) denominated in a currency other than the functional currency. These derivatives are marked-to-market with gains and losses immediately recognized in selling, general and administrative expenses. These substantially offset the foreign currency transaction gains or losses recognized as values of the monetary assets or liabilities being economically hedged change.

All derivative instruments are recognized on our balance sheets at fair value (refer to Note 16 for additional information related to fair value measurements). The fair value of derivative assets is recognized within prepaid expenses and other current assets, while the fair value of derivative liabilities is recognized within other accrued liabilities. In accordance with U.S. GAAP, we offset certain derivative asset and liability balances, as well as certain amounts representing rights to reclaim cash collateral and obligations to return cash collateral, where master netting agreements provide for legal right of setoff. At May 28, 2017, \$0.9 million representing a right to reclaim cash collateral was included in prepaid expenses and other current assets in our Condensed Consolidated Balance Sheet.

Edgar Filing: CONAGRA BRANDS INC. - Form 10-Q

Derivative assets and liabilities and amounts representing a right to reclaim cash collateral or an obligation to return cash collateral were reflected in our Condensed Consolidated Balance Sheets as follows:

	August 27, 2017	May 28, 2017
Prepaid expenses and other current assets	\$ 4.1	\$ 2.3
Other accrued liabilities	6.3	1.3

13

The following table presents our derivative assets and liabilities, at August 27, 2017, on a gross basis, prior to the setoff of \$1.3 million to total derivative assets and \$1.3 million to total derivative liabilities where legal right of setoff existed:

	Derivative Assets		Derivative Liabilities	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Commodity contracts	Prepaid expenses and other current assets	\$ 5.1	Other accrued liabilities	\$ 1.4
Foreign exchange contracts	Prepaid expenses and other current assets	0.3	Other accrued liabilities	6.1
Other	Prepaid expenses and other current assets	—	Other accrued liabilities	0.1
Total derivatives not designated as hedging instruments		\$ 5.4		\$ 7.6

The following table presents our derivative assets and liabilities at May 28, 2017, on a gross basis, prior to the setoff of \$0.5 million to total derivative assets and \$1.4 million to total derivative liabilities where legal right of setoff existed:

	Derivative Assets		Derivative Liabilities	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Commodity contracts	Prepaid expenses and other current assets	\$ 2.6	Other accrued liabilities	\$ 1.4
Foreign exchange contracts	Prepaid expenses and other current assets	0.2	Other accrued liabilities	1.1
Other	Prepaid expenses and other current assets	—	Other accrued liabilities	0.2
Total derivatives not designated as hedging instruments		\$ 2.8		\$ 2.7

The location and amount of gain (loss) from derivatives not designated as hedging instruments in our Condensed Consolidated Statements of Earnings were as follows:

Derivatives Not Designated as Hedging Instruments	Location in Condensed Consolidated Statement of Earnings of Gain (Loss) Recognized on Derivatives	Amount of Gain (Loss) Recognized on Derivatives in Condensed Consolidated Statement of Earnings for the Thirteen Weeks Ended	
		August 27, 2017	August 28, 2016
Commodity contracts	Cost of goods sold	\$ 0.6	\$(0.4)
Foreign exchange contracts	Cost of goods sold	(8.0)	0.1
Foreign exchange contracts	Selling, general and administrative expense	0.3	(1.2)
Total loss from derivative instruments not designated as hedging instruments		\$(7.1)	\$(1.5)

As of August 27, 2017, our open commodity contracts had a notional value (defined as notional quantity times market value per notional quantity unit) of \$86.6 million and \$66.5 million for purchase and sales contracts, respectively. As

of May 28, 2017, our open commodity contracts had a notional value of \$76.8 million and \$73.4 million for purchase and sales contracts, respectively. The notional amount of our foreign currency forward contracts as of August 27, 2017 and May 28, 2017 was \$79.6 million and \$81.9 million, respectively.

We enter into certain commodity, interest rate, and foreign exchange derivatives with a diversified group of counterparties. We continually monitor our positions and the credit ratings of the counterparties involved and limit the amount of credit exposure to any one party. These transactions may expose us to potential losses due to the risk of nonperformance by these counterparties. We have not incurred a material loss due to nonperformance in any period presented and do not expect to incur any such material loss. We also enter into futures and options transactions through various regulated exchanges.

At August 27, 2017, the maximum amount of loss due to the credit risk of the counterparties, had the counterparties failed to perform according to the terms of the contracts, was \$0.3 million.

9. SHARE-BASED PAYMENTS

For the first quarter of fiscal 2018 and 2017, we recognized total stock-based compensation expense (including stock options, restricted stock units, cash-settled restricted stock units, and performance shares) of \$6.4 million and \$14.8 million, respectively. These amounts are inclusive of discontinued operations. Included in the total stock-based compensation expense for the first quarter of fiscal 2018 and 2017 was expense of \$0.3 million and income of \$0.1 million, respectively, related to stock options granted by a subsidiary in the subsidiary's shares to the subsidiary's employees. For the first quarter of fiscal 2018, we granted 0.8 million restricted stock units at a weighted average grant date price of \$34.10 and 0.5 million performance shares at a weighted average grant date price of \$33.82. Performance shares are granted to selected executives and other key employees with vesting contingent upon meeting various Company-wide performance goals. The performance goal for one-third of the target number of performance shares for the performance period ending in fiscal 2018 (the "2018 performance period") is based upon an overarching earnings per share goal (for certain participants) and, for all participants, our fiscal 2016 earnings before interest, taxes, depreciation, and amortization ("EBITDA") return on capital. Another one-third of the target number of performance shares granted for the 2018 performance period is based on an overarching earnings per share goal (for certain participants) and our fiscal 2017 EBITDA return on capital. The fiscal 2017 EBITDA return on capital target, when set, excluded the results of Lamb Weston. The performance goal for the last one-third of the target number of performance shares granted for the 2018 performance period is based upon our fiscal 2018 diluted earnings per share ("EPS") compound annual growth rate ("CAGR").

The performance goal for one-third of the target number of performance shares for the performance period ending in fiscal 2019 (the "2019 performance period") is based upon an overarching earnings per share goal (for certain participants) and our fiscal 2017 EBITDA return on capital. The fiscal 2017 EBITDA return on capital target, when set, excluded the results of Lamb Weston. The performance goal for the final two-thirds of the target number of performance shares granted for the 2019 performance period is based upon our diluted EPS CAGR, measured over the two-year period ending in fiscal 2019.

The performance goal for the performance period ending in fiscal 2020 is based upon our diluted EPS CAGR, measured over the defined performance period.

Awards, if earned, will be paid in shares of our common stock. Subject to limited exceptions set forth in the performance share plan, any shares earned will be distributed after the end of the performance period, and only if the participant continues to be employed with the Company through the date of distribution. For awards where performance against the performance target has not been certified, the value of the performance shares is adjusted based upon the market price of our common stock and current forecasted performance against the performance targets at the end of each reporting period and amortized as compensation expense over the vesting period.

10. EARNINGS PER SHARE

Basic earnings per share is calculated on the basis of weighted average outstanding common shares. Diluted earnings per share is computed on the basis of basic weighted average outstanding common shares adjusted for the dilutive effect of stock options, restricted stock unit awards, and other dilutive securities.

The following table reconciles the income and average share amounts used to compute both basic and diluted earnings per share:

	Thirteen weeks ended	
	August 27, 2017	August 28, 2016
Net income available to Conagra Brands, Inc. common stockholders:		
Income from continuing operations attributable to Conagra Brands, Inc. common stockholders	\$ 152.8	\$ 98.4
Income (loss) from discontinued operations, net of tax, attributable to Conagra Brands, Inc. common stockholders	(0.3)	87.8

Edgar Filing: CONAGRA BRANDS INC. - Form 10-Q

Net income attributable to Conagra Brands, Inc. common stockholders	\$152.5	\$ 186.2
Less: Increase in redemption value of noncontrolling interests in excess of earnings allocated	—	0.5
Net income available to Conagra Brands, Inc. common stockholders	\$152.5	\$ 185.7
Weighted average shares outstanding:		
Basic weighted average shares outstanding	415.1	439.0
Add: Dilutive effect of stock options, restricted stock unit awards, and other dilutive securities	4.1	3.7
Diluted weighted average shares outstanding	419.2	442.7

15

For the first quarter of fiscal 2018 and 2017, there were 1.3 million and 0.7 million stock options outstanding, respectively, that were excluded from the computation of diluted weighted average shares because the effect was antidilutive.

11. INVENTORIES

The major classes of inventories were as follows:

	August 27, 2017	May 28, 2017
Raw materials and packaging	\$ 203.8	\$ 182.1
Work in process	96.1	91.9
Finished goods	721.2	612.9
Supplies and other	47.7	47.3
Total	\$ 1,068.8	\$ 934.2

12. INCOME TAXES

Income tax expense from continuing operations for the first quarter of fiscal 2018 and 2017 was \$120.0 million and \$169.2 million, respectively. The effective tax rate (calculated as the ratio of income tax expense to pre-tax income from continuing operations, inclusive of equity method investment earnings) from continuing operations was 43.9% and 63.2% for the first quarter of fiscal 2018 and 2017, respectively.

The effective tax rate in the first quarter of fiscal 2018 reflects additional tax expense related to the planned repatriation of cash from foreign subsidiaries and the tax expense related to undistributed foreign earnings for which the indefinite reinvestment assertion is no longer made.

The effective tax rate in the first quarter of fiscal 2017 reflects the following:

- an income tax benefit allowed upon the vesting/exercise of employee stock compensation awards by our employees, beyond that which is attributable to the original fair value of the awards upon the date of grant,
- additional tax expense in the first quarter of fiscal 2017 associated with non-deductible goodwill sold in connection with the dispositions of the Spicetec and JM Swank businesses, and
- additional tax expense in the first quarter of fiscal 2017 associated with non-deductible goodwill, for which an impairment charge was recognized.

The amount of gross unrecognized tax benefits for uncertain tax positions, including positions impacting only the timing of tax benefits, was \$37.7 million as of August 27, 2017 and \$39.3 million as of May 28, 2017. There were no balances included as of either August 27, 2017 or May 28, 2017, for tax positions for which the ultimate deductibility is highly certain but for which there is uncertainty about the timing of such deductibility. The gross unrecognized tax benefits excluded related liabilities for gross interest and penalties of \$5.8 million and \$6.0 million as of August 27, 2017 and May 28, 2017, respectively.

The net amount of unrecognized tax benefits at August 27, 2017 and May 28, 2017 that, if recognized, would impact the Company's effective tax rate was \$30.7 million and \$31.6 million, respectively. Recognition of these tax benefits would have a favorable impact on the Company's effective tax rate.

We estimate that it is reasonably possible that the amount of gross unrecognized tax benefits will decrease by up to \$16.7 million over the next twelve months due to various federal, state, and foreign audit settlements and the expiration of statutes of limitations.

As of August 27, 2017 and May 28, 2017, we had a deferred tax asset of \$1.09 billion and \$1.08 billion, respectively, that was generated from the capital loss realized on the sale of the Private Brands operations with corresponding valuation allowances of \$994.3 million and \$990.9 million, respectively, to reflect the uncertainty regarding the ultimate realization of the tax asset. During the first quarter of fiscal 2018, the balance of the deferred tax asset was adjusted for the impact of state law changes, realization of certain tax attributes, and the settlement of certain tax indemnity claims under the contract terms of the Private Brands sale.

Historically, we have not provided U.S. deferred taxes on the cumulative undistributed earnings of our foreign subsidiaries. During the first quarter of fiscal 2018, we decided to repatriate certain cash balances currently held in Italy, Canada, Mexico, the Netherlands, and Luxembourg due to the timing of cash flows in connection with certain business acquisition and divestiture activity, as well as forecasted levels of short-term borrowings. We expect to repatriate approximately \$154.8 million during the second quarter of fiscal

2018. The planned cash repatriation will result in the repatriation of approximately \$115.0 million in previously undistributed earnings of our foreign subsidiaries. As a result of this decision, we have recognized \$12.2 million of income tax expense in the first quarter of fiscal 2018.

In conjunction with this planned repatriation, we have determined that additional previously undistributed earnings of foreign subsidiaries no longer meets the requirements for indefinite reinvestment under applicable accounting guidance and, therefore, recognized an additional \$11.3 million of income tax expense in the first quarter of fiscal 2018.

An additional \$4.3 million of income tax expense was recognized in the first quarter of fiscal 2018, primarily related to a valuation allowance on foreign tax credits generated in prior periods.

We continue to believe the remaining undistributed earnings of our foreign subsidiaries, after taking into account the above transactions, are indefinitely reinvested and therefore have not provided any additional U.S. deferred taxes.

13. CONTINGENCIES

In fiscal 1991, we acquired Beatrice Company ("Beatrice"). As a result of the acquisition of Beatrice and the significant pre-acquisition contingencies of the Beatrice businesses and its former subsidiaries, our condensed consolidated post-acquisition financial statements reflect liabilities associated with the estimated resolution of these contingencies. Such liabilities include various litigation and environmental proceedings related to businesses divested by Beatrice prior to our acquisition of Beatrice. The litigation proceedings include suits against a number of lead paint and pigment manufacturers, including ConAgra Grocery Products Company, LLC, a wholly owned subsidiary of the Company ("ConAgra Grocery Products"), and the Company as alleged successors to W. P. Fuller Co., a lead paint and pigment manufacturer owned and operated by Beatrice until 1967. Although decisions favorable to us have been rendered in Rhode Island, New Jersey, Wisconsin, and Ohio, we remain a defendant in active suits in Illinois and California. The Illinois suit seeks class-wide relief for reimbursement of costs associated with the testing of lead levels in blood. In California, a number of cities and counties joined in a consolidated action seeking abatement of the alleged public nuisance. On September 23, 2013, a trial of the California case concluded in the Superior Court of California for the County of Santa Clara, and on January 27, 2014, the court entered a judgment (the "Judgment") against ConAgra Grocery Products and two other defendants ordering the creation of a California abatement fund in the amount of \$1.15 billion. Liability is joint and several. The Company believes ConAgra Grocery Products did not inherit any liabilities of W. P. Fuller Co. The Company will continue to vigorously defend itself in this case and has appealed the Judgment to the Court of Appeal of the State of California Sixth Appellate District. The Company expects the appeals process to last several years. The absence of any linkage between ConAgra Grocery Products and W. P. Fuller Co. is a critical issue (among others) that the Company will continue to advance throughout the appeals process. It is not possible to estimate exposure in this case or the remaining case in Illinois, which is based on different legal theories. If ultimately necessary, the Company will look to its insurance policies for coverage; its carriers are on notice. However, the extent of insurance coverage is uncertain, and the Company cannot absolutely assure that the final resolution of these matters will not have a material adverse effect on its financial condition, results of operations, or liquidity.

The current environmental proceedings associated with Beatrice include litigation and administrative proceedings involving Beatrice's possible status as a potentially responsible party at approximately 40 Superfund, proposed Superfund, or state-equivalent sites (the "Beatrice sites"). These sites involve locations previously owned or operated by predecessors of Beatrice that used or produced petroleum, pesticides, fertilizers, dyes, inks, solvents, PCBs, acids, lead, sulfur, tannery wastes, and/or other contaminants. In the past five years, Beatrice has paid or is in the process of paying its liability share at 31 of these sites. Reserves for these Beatrice environmental proceedings have been established based on our best estimate of the undiscounted remediation liabilities, which estimates include evaluation of investigatory studies, extent of required clean-up, the known volumetric contribution of Beatrice and other potentially responsible parties, and its experience in remediating sites. The accrual for Beatrice-related environmental matters totaled \$53.1 million as of August 27, 2017, a majority of which relates to the Superfund and state-equivalent sites referenced above. During the third quarter of fiscal 2017, a final Remedial Investigation/Feasibility Study was submitted for the Wells G&H-Southwest Properties Superfund site, which is one of the Beatrice sites. The U.S.

Environmental Protection Agency (the "EPA") has issued a proposed plan for remediation that is currently open for public comment, will issue a Record of Decision for this site shortly, and will subsequently enter into negotiations with potentially responsible parties to determine a final Remedial Design/Remedial Action plan for the site. The accrual for Wells G&H-Southwest Properties Superfund site totaled \$1.1 million as of August 27, 2017, which was included in the total accrual for Beatrice-related environmental matters referenced above.

In June 2009, an accidental explosion occurred at our manufacturing facility in Garner, North Carolina. This facility was the primary production facility for our Slim Jim[®] branded meat snacks. In June 2009, the U.S. Bureau of Alcohol, Tobacco, Firearms and Explosives announced its determination that the explosion was the result of an accidental natural gas release and not a deliberate act. During the fourth quarter of fiscal 2011, we settled our property and business interruption claims related to the Garner accident with our insurance providers. During the fourth quarter of fiscal 2011, Jacobs Engineering Group Inc. ("Jacobs"), our engineer and project manager at the site, filed a declaratory judgment action against us seeking indemnity for personal injury claims brought against it as a result of the accident. During the first quarter of fiscal 2012, our motion for summary judgment was granted and the suit was dismissed without

prejudice on the basis that the suit was filed prematurely. In the third quarter of fiscal 2014, Jacobs refiled its action seeking indemnity. On March 25, 2016, a Douglas County jury in Nebraska rendered a verdict in favor of Jacobs and against us in the amount of \$108.9 million plus post-judgment interest. We filed our Notice of Appeal in September 2016. The appeal will be decided directly by the Nebraska Supreme Court. Although our insurance carriers have provided customary notices of reservation of their rights under the policies of insurance, we expect any ultimate exposure in this case to be limited to the applicable insurance deductible.

We are party to a number of putative class action lawsuits challenging various product claims made in the Company's product labeling. These matters include *Briseno v. ConAgra Foods, Inc.*, in which it is alleged that the labeling for Wesson® oils as 100% natural is false and misleading because the oils contain genetically modified plants and organisms. In February 2015, the U.S. District Court for the Central District of California granted class certification to permit plaintiffs to pursue state law claims. The Company appealed to the United States Court of Appeals for the Ninth Circuit, which affirmed class certification in January 2017. The Company has sought further review by the United States Supreme Court. While we cannot predict with certainty the results of this or any other legal proceeding, we do not expect this matter to have a material adverse effect on our financial condition, results of operations, or business.

In certain limited situations, we guarantee obligations of the Lamb Weston business pursuant to guarantee arrangements that existed prior to the Spinoff and remained in place following completion of the Spinoff until such guarantee obligations are substituted for guarantees issued by Lamb Weston. Such guarantee arrangements are described below. Pursuant to the Separation and Distribution Agreement, dated as of November 8, 2016 (the "Separation Agreement"), between us and Lamb Weston, these guarantee arrangements are deemed liabilities of Lamb Weston that were transferred to Lamb Weston as part of the Spinoff. Accordingly, in the event that we are required to make any payments as a result of these guarantee arrangements, Lamb Weston is obligated to indemnify us for any such liability, reduced by any insurance proceeds received by us, in accordance with the terms of the indemnification provisions under the Separation Agreement.

Lamb Weston is a party to a warehouse services agreement with a third-party warehouse provider through July 2035. Under this agreement, Lamb Weston is required to make payments for warehouse services based on the quantity of goods stored and other service factors. We have guaranteed the warehouse provider that we will make the payments required under the agreement in the event that Lamb Weston fails to perform. Minimum payments of \$1.5 million per month are required under this agreement. It is not possible to determine the maximum amount of the payment obligations under this agreement. Upon completion of the Spinoff, we recognized a liability for the estimated fair value of this guarantee. As of August 27, 2017, the amount of this guarantee, recorded in other noncurrent liabilities, was \$29.3 million.

Lamb Weston is a party to an agricultural sublease agreement with a third party for certain farmland through 2020 (subject, at Lamb Weston's option, to extension for two additional five-year periods). Under the terms of the sublease agreement, Lamb Weston is required to make certain rental payments to the sublessor. We have guaranteed the sublessor Lamb Weston's performance and the payment of all amounts (including indemnification obligations) owed by Lamb Weston under the sublease agreement, up to a maximum of \$75.0 million. We believe the farmland associated with this sublease agreement is readily marketable for lease to other area farming operators. As such, we believe that any financial exposure to the company, in the event that we were required to perform under the guaranty, would be largely mitigated.

We lease certain office buildings from entities that we have determined to be variable interest entities. The lease agreements contain put options exercisable now and remain exercisable until generally 30 days after the end of the respective lease agreements, that allow the lessors to require us to purchase the buildings at the greater of original construction cost, or fair market value, without a lease in place. We have financial exposure with respect to these entities in the event we are required to purchase the leased buildings for a price in excess of the then current fair value under the applicable lease purchase options. We are amortizing the difference between the put price and the estimated fair value (without a lease agreement in place) of each respective property over the remaining respective lease term within selling, general and administrative expenses. As of August 27, 2017 and May 28, 2017, the estimated amount

by which the put prices exceeded the fair values of the related properties was \$51.8 million, of which we had accrued \$9.3 million and \$8.4 million, respectively. As these buildings are worth considerably more when under lease agreements than when vacant, we may be able to mitigate some, or all, of the related financial exposure created by the put options by maintaining active lease agreements and/or by subleasing the buildings to credit worthy tenants. We do not expect to ultimately incur material financial losses as a result of the potential exercise of the lease put options by the lessors.

We are party to a number of matters challenging the Company's wage and hour practices. These matters include a number of putative class actions consolidated under the caption *Negrete v. ConAgra Foods, Inc., et al*, pending in the U.S. District Court for the Central District of California, in which the plaintiffs allege a pattern of violations of California and/or federal law at several current and former Company manufacturing facilities across the State of California. While we cannot predict with certainty the results of this or any other legal proceeding, we do not expect this matter to have a material adverse effect on our financial condition, results of operations, or business.

After taking into account liabilities recognized for all of the foregoing matters, management believes the ultimate resolution of such matters should not have a material adverse effect on our financial condition, results of operations, or liquidity. It is reasonably possible

that a change of the estimates of any of the foregoing matters may occur in the future and, as noted, while unlikely, the lead patent matter could result in a material final judgment. Costs of legal services associated with the foregoing matters are recognized in earnings as services are provided.

14. PENSION AND POSTRETIREMENT BENEFITS

We have defined benefit retirement plans ("plans") for eligible salaried and hourly employees. Benefits are based on years of credited service and average compensation or stated amounts for each year of service. We also sponsor postretirement plans which provide certain medical and dental benefits ("other postretirement benefits") to qualifying U.S. employees.

Components of pension benefit and other postretirement benefit costs are (includes amounts related to discontinued operations):

	Pension Benefits	
	Thirteen Weeks	
	Ended	
	August 27,	August 28,
	2017	2016
Service cost	\$12.7	\$ 16.7
Interest cost	28.2	30.0
Expected return on plan assets	(54.2)	(53.8)
Amortization of prior service cost	0.7	0.6
Benefit cost (benefit) — Company plans	(12.6)	(6.5)
Pension benefit cost — multi-employer plans	1.5	2.3
Total benefit cost (benefit)	\$(11.1)	\$ (4.2)
	Postretirement	
	Benefits	
	Thirteen Weeks	
	Ended	
	August 27,	August 28,
	2017	2016
Service cost	\$—	\$ —
Interest cost	0.9	1.1
Amortization of prior service benefit	(0.8)	(1.7)
Recognized net actuarial loss	—	0.1
Total cost (benefit)	\$0.1	\$ (0.5)

The Company uses a split discount rate (spot-rate approach) for the U.S. plans and certain foreign plans. The spot-rate approach applies separate discount rates for each projected benefit payment in the calculation of pension service and interest cost.

The weighted-average discount rates for service and interest costs under the spot-rate approach used for pension benefit cost in fiscal 2018 were 4.19% and 3.26%, respectively.

During the first quarter of fiscal 2018, we contributed \$3.8 million to our pension plans and contributed \$3.9 million to our other postretirement plans. Based upon the current funded status of the plans and the current interest rate environment, we anticipate making further contributions of approximately \$9.1 million to our pension plans for the remainder of fiscal 2018. We anticipate making further contributions of \$14.8 million to our other postretirement plans during the remainder of fiscal 2018. These estimates are based on ERISA guidelines, current tax laws, plan asset performance, and liability assumptions, which are subject to change.

15. STOCKHOLDERS' EQUITY

The following table presents a reconciliation of our stockholders' equity accounts for the thirteen weeks ended August 27, 2017:

Conagra Brands, Inc. Stockholders' Equity								
	Common Shares	Common Stock	Additional Paid-in Capital	Retained Earnings	Accumulated Other Comprehensive Income (Loss)	Treasury Stock	Noncontrolling Interests	Total Equity
Balance at May 28, 2017	567.9	\$2,839.7	\$1,171.9	\$4,247.0	\$ (212.9)	\$(4,054.9)	\$ 87.0	\$4,077.8
Stock option and incentive plans			(12.0)	0.4		17.7		6.1
Spinoff of Lamb Weston				1.0				1.0
Currency translation adjustment, net					31.5		1.0	32.5
Repurchase of common shares						(300.0)		(300.0)
Unrealized gain on securities					0.2			0.2
Activities of noncontrolling interests							0.8	0.8
Dividends declared on common stock; \$0.2125 per share				(88.3)				(88.3)
Net income attributable to Conagra Brands, Inc.				152.5				152.5
Balance at August 27, 2017	567.9	\$2,839.7	\$1,159.9	\$4,312.6	\$ (181.2)	\$(4,337.2)	\$ 88.8	\$3,882.6

16. FAIR VALUE MEASUREMENTS

FASB guidance establishes a three-level fair value hierarchy based upon the assumptions (inputs) used to price assets or liabilities. The three levels of inputs used to measure fair value are as follows:

Level 1 — Unadjusted quoted prices in active markets for identical assets or liabilities,

Level 2 — Observable inputs other than those included in Level 1, such as quoted prices for similar assets and liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets, and

Level 3 — Unobservable inputs reflecting our own assumptions and best estimate of what inputs market participants would use in pricing the asset or liability.

The fair values of our Level 2 derivative instruments were determined using valuation models that use market observable inputs including interest rate curves and both forward and spot prices for currencies and commodities. Derivative assets and liabilities included in Level 2 primarily represent commodity and foreign currency option and forward contracts.

The following table presents our financial assets and liabilities measured at fair value on a recurring basis, based upon the level within the fair value hierarchy in which the fair value measurements fall, as of August 27, 2017:

	Level 1	Level 2	Level 3	Net Value
Assets:				
Derivative assets	\$ 3.8	\$ 0.3	\$	—\$4.1
Available-for-sale securities	3.8	—	—	3.8
Total assets	\$ 7.6	\$ 0.3	\$	—\$7.9
Liabilities:				

Edgar Filing: CONAGRA BRANDS INC. - Form 10-Q

Derivative liabilities	\$ —	\$ 6.3	\$	—\$6.3
Deferred compensation liabilities	50.5	—	—	50.5
Total liabilities	\$ 50.5	\$ 6.3	\$	—\$56.8

20

The following table presents our financial assets and liabilities measured at fair value on a recurring basis, based upon the level within the fair value hierarchy in which the fair value measurements fall, as of May 28, 2017:

	Level 1	Level 2	Level 3	Net Value
Assets:				
Derivative assets	\$ 2.0	\$ 0.3	\$	—\$ 2.3
Available-for-sale securities	3.5	—	—	3.5
Total assets	\$ 5.5	\$ 0.3	\$	—\$ 5.8
Liabilities:				
Derivative liabilities	\$ —	\$ 1.3	\$	—\$ 1.3
Deferred compensation liabilities	47.2	—	—	47.2
Total liabilities	\$ 47.2	\$ 1.3	\$	—\$ 48.5

Certain assets and liabilities, including long-lived assets, goodwill, asset retirement obligations, and cost and equity investments, are measured at fair value on a nonrecurring basis.

During the first quarter of fiscal 2018, a charge of \$4.7 million was recognized in the Corporate segment for the impairment of certain long-lived assets. The impairment was measured based upon the estimated sales price of the assets.

In the first quarter of fiscal 2017, we recognized a goodwill impairment charge of \$139.2 million in the International segment. See Note 7 for discussion of the methodology employed to measure this impairment. We also recognized an impairment of an indefinite-lived brand totaling \$24.4 million in the International segment during the first quarter of fiscal 2017. The fair value of the brand was estimated using the "Relief From Royalty" method.

The carrying amount of long-term debt (including current installments) was \$2.97 billion as of August 27, 2017 and May 28, 2017. Based on current market rates, the fair value of this debt (level 2 liabilities) at August 27, 2017 and May 28, 2017, was estimated at \$3.34 billion and \$3.32 billion, respectively.

17. BUSINESS SEGMENTS AND RELATED INFORMATION

We reflect our results of operations in five reporting segments: Grocery & Snacks, Refrigerated & Frozen, International, Foodservice, and Commercial.

In the second quarter of fiscal 2017, we completed the Spinoff of Lamb Weston. The Lamb Weston business had previously been included in the Commercial segment. The results of operations of the Lamb Weston business have been classified as discontinued operations for all periods presented.

The Grocery & Snacks reporting segment principally includes branded, shelf-stable food products sold in various retail channels in the United States.

The Refrigerated & Frozen reporting segment includes branded, temperature controlled food products sold in various retail channels in the United States.

The International reporting segment principally includes branded food products, in various temperature states, sold in various retail and foodservice channels outside of the United States.

The Foodservice reporting segment includes branded and customized food products, including meals, entrees, sauces and a variety of custom-manufactured culinary products packaged for sale to restaurants and other foodservice establishments in the United States.

The Commercial reporting segment included commercially branded and private label food and ingredients, which were sold primarily to commercial, restaurant, foodservice, food manufacturing, and industrial customers. The segment's primary food items included a variety of vegetable, spice, and frozen bakery goods, which were sold under brands such as Spicetec Flavors & Seasonings®. The Spicetec and JM Swank businesses were sold in the first quarter of fiscal 2017.

We do not aggregate operating segments when determining our reporting segments.

Intersegment sales have been recorded at amounts approximating market. Operating profit for each of the segments is based on net sales less all identifiable operating expenses. General corporate expense, net interest expense, and income taxes have been excluded from segment operations.

	Thirteen Weeks Ended	
	August 27, 2017	August 28, 2016
Net sales		
Grocery & Snacks	\$ 745.8	\$ 757.2
Refrigerated & Frozen	615.7	604.6
International	190.9	194.7
Foodservice	251.8	268.0
Commercial	—	71.1
Total net sales	\$ 1,804.2	\$ 1,895.6
Operating profit		
Grocery & Snacks	\$ 176.2	\$ 180.5
Refrigerated & Frozen	101.9	92.2
International	18.9	(149.2)
Foodservice	23.2	21.7
Commercial	—	203.3
Total operating profit	\$ 320.2	\$ 348.5
Equity method investment earnings	30.0	13.1
General corporate expense	40.2	35.6
Interest expense, net	36.4	58.2
Income tax expense	120.0	169.2
Income from continuing operations	\$ 153.6	\$ 98.6
Less: Net income attributable to noncontrolling interests of continuing operations	0.8	0.2
Income from continuing operations attributable to Conagra Brands, Inc.	\$ 152.8	\$ 98.4

Presentation of Derivative Gains (Losses) for Economic Hedges of Forecasted Cash Flows in Segment Results
Derivatives used to manage commodity price risk and foreign currency risk are not designated for hedge accounting treatment. We believe these derivatives provide economic hedges of certain forecasted transactions. As such, these derivatives are recognized at fair market value with realized and unrealized gains and losses recognized in general corporate expenses. The gains and losses are subsequently recognized in the operating results of the reporting segments in the period in which the underlying transaction being economically hedged is included in earnings. In the event that management determines a particular derivative entered into as an economic hedge of a forecasted commodity purchase has ceased to function as an economic hedge, we cease recognizing further gains and losses on such derivatives in corporate expense and begin recognizing such gains and losses within segment operating results, immediately.

The following table presents the net derivative gains (losses) from economic hedges of forecasted commodity consumption and the foreign currency risk of certain forecasted transactions, under this methodology:

	Thirteen Weeks Ended	
	August 27, 2017	August 28, 2016
Net derivative losses incurred	\$(7.4)	\$ (0.3)
Less: Net derivative losses allocated to reporting segments	(1.4)	(1.0)
Net derivative gains (losses) recognized in general corporate expenses	\$(6.0)	\$ 0.7
Net derivative losses allocated to Grocery & Snacks	\$(0.6)	\$ (0.4)
Net derivative losses allocated to Refrigerated & Frozen	—	(0.2)
Net derivative losses allocated to International	(0.7)	—
Net derivative losses allocated to Foodservice	(0.1)	(0.3)
Net derivative losses allocated to Commercial	—	(0.1)
Net derivative losses included in segment operating profit	\$(1.4)	\$ (1.0)

As of August 27, 2017, the cumulative amount of net derivative losses from economic hedges that had been recognized in general corporate expenses and not yet allocated to reporting segments was \$9.0 million. This amount reflected net losses of \$6.8 million incurred during the thirteen weeks ended August 27, 2017, as well as net losses of \$2.2 million incurred prior to fiscal 2018. Based on our forecasts of the timing of recognition of the underlying hedged items, we expect to reclassify to segment operating results losses of \$8.4 million in fiscal 2018 and losses of \$0.6 million in fiscal 2019 and thereafter.

Assets by Segment

The majority of our manufacturing assets are shared across multiple reporting segments. Output from these facilities used by each reporting segment can change over time. Also, working capital balances are not tracked by reporting segment. Therefore, it is impracticable to allocate those assets to the reporting segments, as well as disclose total assets by segment. Total depreciation expense was \$56.1 million and \$58.8 million for the first quarter of fiscal 2018 and 2017, respectively.

Other Information

Our largest customer, Wal-Mart Stores, Inc. and its affiliates, accounted for approximately 24% and 23% of consolidated net sales in the first quarter of fiscal 2018 and 2017, respectively, primarily in the Grocery & Snacks and Refrigerated & Frozen segments.

Wal-Mart Stores, Inc. and its affiliates accounted for approximately 24% and 26% of consolidated net receivables as of August 27, 2017 and May 28, 2017, respectively, primarily in the Grocery & Snacks and Refrigerated & Frozen segments.

We offer certain suppliers access to a third-party service that allows them to view our scheduled payments online. The third party service also allows suppliers to finance advances on our scheduled payments at the sole discretion of the supplier and the third party. We have no economic interest in these financing arrangements and no direct relationship with the suppliers, the third-party, or any financial institutions concerning this service. All of our accounts payable remain as obligations to our suppliers as stated in our supplier agreements. As of August 27, 2017, \$58.8 million of our total accounts payable is payable to suppliers who utilize this third-party service.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

The information contained in this report includes forward-looking statements within the meaning of the federal securities laws. Examples of forward-looking statements include statements regarding our expected future financial performance or position, results of operations, business strategy, plans and objectives of management for future operations, and other statements that are not historical facts. You can identify forward-looking statements by their use of forward-looking words, such as "may", "will", "anticipate", "expect", "believe", "estimate", "intend", "plan", "should", "seek", or comparable terms.

Readers of this report should understand that these forward-looking statements are not guarantees of performance or results. Forward-looking statements provide our current expectations and beliefs concerning future events and are subject to risks, uncertainties, and factors relating to our business and operations, all of which are difficult to predict and could cause our actual results to differ materially the expectations expressed in or implied by such forward-looking statements. Such risks, uncertainties, and factors include, among other things: the timing to complete a potential acquisition of Angie's Artisan Treats, LLC; the ability and timing to obtain required regulatory approvals and satisfy other closing conditions for the Angie's® and Wesson® transactions; our ability to achieve the intended benefits of acquisitions and divestitures, including the recent Spinoff (as defined below) of our Lamb Weston business and the proposed divestiture of the Wesson® oil business, and the proposed acquisition of Angie's Artisan Treats, LLC; general economic and industry conditions; our ability to successfully execute our long-term value creation strategy; our ability to access capital; our ability to execute our operating and restructuring plans and achieve our targeted operating efficiencies from cost-saving initiatives and to benefit from trade optimization programs; the effectiveness of our hedging activities and our ability to respond to volatility in commodities; the competitive environment and related market conditions; our ability to respond to changing consumer preferences and the success of our innovation and marketing investments; the ultimate impact of any product recalls and litigation, including litigation related to the lead paint and pigment matters; actions of governments and regulatory factors affecting our businesses; the availability and prices of raw materials, including any negative effects caused by inflation or weather conditions; risks and uncertainties associated with intangible assets, including any future goodwill or intangible assets impairment charges; the costs, disruption, and diversion of management's attention associated with campaigns commenced by activist investors; and other risks described in our Annual Report on Form 10-K and other reports we file with the Securities and Exchange Commission (the "SEC"). We caution readers not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no responsibility to update these statements.

The discussion that follows should be read together with the unaudited condensed consolidated financial statements and related notes contained in this report and with the financial statements, related notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the fiscal year ended May 28, 2017 and subsequent filings with the SEC. Results for the first quarter of fiscal 2018 are not necessarily indicative of results that may be attained in the future.

Fiscal 2018 First Quarter Executive Overview

Conagra Brands, Inc. (the "Company", "we", "us", or "our"), headquartered in Chicago, is one of North America's leading branded food companies. Guided by an entrepreneurial spirit, the Company combines a rich heritage of making great food with a sharpened focus on innovation. The Company's portfolio is evolving to satisfy people's changing food preferences. Its iconic brands such as Marie Callender's®, Reddi-wip®, Hunt's®, Healthy Choice®, Slim Jim®, and Orville Redenbacher's®, as well as emerging brands, including Alexia®, Blake's®, Duke's®, and Frontera®, offer choices for every occasion.

On November 9, 2016, we completed the spinoff of Lamb Weston Holdings, Inc. ("Lamb Weston") through a distribution of 100% of our interest in Lamb Weston to holders, as of November 1, 2016, of outstanding shares of our common stock (the "Spinoff"). The transaction effecting this change was structured as a tax-free spinoff.

The results of operations for the Lamb Weston business have been reclassified to results of discontinued operations for all periods prior to the Spinoff.

In the first quarter of fiscal 2017, we completed the sales of our Spicetec Flavors & Seasonings business ("Spicetec") and our JM Swank business for combined proceeds of \$486.3 million. The results of operations of Spicetec and JM Swank are included in the Commercial segment.

In the first quarter of fiscal 2018, earnings reflected the impact of lower sales volumes and gross margin primarily in the Grocery & Snacks and Foodservice segments, more than offset by the impact of higher operating margins in the Refrigerated & Frozen and International segments. The improved operating performance also reflected an increase in equity method investment earnings and lower interest expense, in each case compared to the first quarter of fiscal 2017.

Diluted earnings per share in the first quarter of fiscal 2018 were \$0.36. Diluted earnings per share in the first quarter of fiscal 2017 were \$0.42, including earnings of \$0.22 per diluted share from continuing operations and \$0.20 per diluted share from discontinued operations. Several significant items affect the comparability of year-over-year results of continuing operations (see "Items Impacting Comparability" below).

Items Impacting Comparability

Segment presentation of gains and losses from derivatives used for economic hedging of anticipated commodity input costs and economic hedging of foreign currency exchange rate risks of anticipated transactions is discussed in the segment review below.

Items of note impacting comparability for the first quarter of fiscal 2018 included the following:

- charges totaling \$11.4 million (\$7.3 million after-tax) in connection with the "SCAE Plan" (as defined below) and an income tax charge of \$27.8 million associated with the planned repatriation of cash from foreign subsidiaries and the tax expense related to the earnings of foreign subsidiaries previously deemed to be permanently invested.

Items of note impacting comparability for the first quarter of fiscal 2017 included the following:

- gains totaling \$198.2 million (\$75.3 million after-tax) from the sales of the Spicetec and JM Swank businesses, charges totaling \$163.6 million (\$149.5 million after-tax) related to the impairment of goodwill and other intangible assets in our International segment,

- charges totaling \$14.1 million (\$9.1 million after-tax) in connection with the SCAE Plan, and

- an income tax benefit of \$7.5 million associated with a tax planning strategy that allowed us to utilize certain state tax attributes.

Acquisitions

Subsequent to the end of the first quarter of fiscal 2018, we entered into a definitive agreement to acquire Angie's Artisan Treats, LLC, maker of Angie's® BOOMCHICKAPOP® ready-to-eat popcorn, for a cash purchase price of \$250 million, net of cash acquired and subject to working capital adjustments. The business will be primarily included in the Grocery & Snacks segment. The transaction is expected to close by the end of the calendar year, subject to customary closing conditions, including the receipt of any applicable regulatory approvals.

In April 2017, we acquired protein-based snacking businesses Thanasi Foods LLC, maker of Duke's® meat snacks, and BIGS LLC, maker of BIGS® seeds, for \$217.6 million in cash, net of cash acquired. These businesses are included in the Grocery & Snacks segment.

In September 2016, we acquired the operating assets of Frontera Foods, Inc. and Red Fork LLC, including the Frontera®, Red Fork®, and Salpica® brands. These businesses make authentic, gourmet Mexican food products and contemporary American cooking sauces. We acquired the businesses for \$108.1 million in cash, net of cash acquired. These businesses are included principally in the Grocery & Snacks segment, and to a lesser extent within the Refrigerated & Frozen and International segments.

Divestitures

During the fourth quarter of fiscal 2017, we announced the agreement to sell our Wesson® oil business, which is part of our Grocery & Snacks segment, to The J.M. Smucker Company ("Smucker"). The transaction is subject to certain customary closing conditions, including the termination or expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 (the "HSR Act"). On August 28, 2017, Smucker and the Company each received a request for additional information under the HSR Act (a "second request") from the U.S. Federal Trade Commission ("FTC") in connection with the FTC's review of the transaction. Issuance of the second request extends the waiting period under the HSR Act until 30 days after both the Company and Smucker have substantially complied with the request, unless the waiting period is terminated earlier by the FTC. The agreement for the sale of the Wesson oil business provides that, unless otherwise agreed upon by the Company and Smucker, if the closing of the transaction has not occurred on or prior to March 31, 2018 because HSR approval has not been received as of such date, then either party may terminate the agreement. The parties are cooperating fully with the FTC as it conducts its review of the transaction.

On November 9, 2016, we completed the Spinoff of Lamb Weston. The results of operations of the Lamb Weston business have been reclassified to discontinued operations for all periods presented.

In the first quarter of fiscal 2017, we completed the sales of our Spicetec and Flavors & Seasonings business ("Spicetec") and JM Swank business for combined proceeds of \$486.3 million. The results of operations of Spicetec and JM Swank are included in the Commercial segment.

25

Restructuring Plans

In May 2013, we announced the Supply Chain and Administrative Efficiency Plan (the "SCAE Plan"), our plan to integrate and restructure the operations of our Private Brands business, improve selling, general and administrative ("SG&A") effectiveness and efficiencies, and optimize our supply chain network, manufacturing assets, dry distribution centers, and mixing centers. In the second quarter of fiscal 2016, we announced plans to realize efficiency benefits by reducing SG&A expenses and enhancing trade spend processes and tools, which plans were included as part of the SCAE Plan. Although we divested the Private Brands business, we have continued to implement the SCAE Plan, including by working to optimize our supply chain network, pursue cost reductions through our SG&A functions, enhance trade spend processes and tools, and improve productivity.

Although we remain unable to make good faith estimates relating to the entire SCAE Plan, we are reporting on actions initiated through the end of the first quarter of fiscal 2018, including the estimated amounts or range of amounts for each major type of costs expected to be incurred, and the charges that have resulted or will result in cash outflows. As of August 27, 2017, the Board of Directors of the Company has approved the incurrence of up to \$900.9 million of expenses in connection with the SCAE Plan, including expenses allocated for the Private Brands and Lamb Weston operations. We have incurred or expect to incur approximately \$450.1 million of charges (\$303.3 million of cash charges and \$146.8 million of non-cash charges) for actions identified to date under the SCAE Plan. In the first quarter of fiscal 2018, we recognized charges of \$11.4 million in relation to the SCAE Plan. In the first quarter of fiscal 2017, we recognized charges of \$14.1 million in relation to the SCAE Plan. We expect to incur costs related to the SCAE Plan over a multi-year period.

SEGMENT REVIEW

We reflect our results of operations in five reporting segments: Grocery & Snacks, Refrigerated & Frozen, Foodservice, International, and Commercial.

In the second quarter of fiscal 2017, we completed the Spinoff of the Lamb Weston business, which was previously included in the Commercial Foods segment. The results of operations of the Lamb Weston business have been classified as discontinued operations for all periods presented.

Grocery & Snacks

The Grocery & Snacks reporting segment principally includes branded, shelf stable food products sold in various retail channels in the United States.

Refrigerated & Frozen

The Refrigerated & Frozen reporting segment principally includes branded, temperature controlled food products sold in various retail channels in the United States.

International

The International reporting segment principally includes branded food products, in various temperature states, sold in various retail and foodservice channels outside of the United States.

Foodservice

The Foodservice reporting segment includes branded and customized food products, including meals, entrees, sauces and a variety of custom-manufactured culinary products packaged for sale to restaurants and other foodservice establishments in the United States.

Commercial

The Commercial reporting segment included commercially branded and private label food and ingredients, which were sold primarily to commercial, restaurant, foodservice, food manufacturing, and industrial customers. The segment's primary food items included a variety of vegetable, spice, and frozen bakery goods, which were sold under brands such as Spicetec Flavors & Seasonings®. The Spicetec and JM Swank businesses were sold in the first quarter of fiscal 2017.

Presentation of Derivative Gains (Losses) from Economic Hedges of Forecasted Cash Flows in Segment Results

Derivatives used to manage commodity price risk and foreign currency risk are not designated for hedge accounting treatment. We believe these derivatives provide economic hedges of certain forecasted transactions. As such, these derivatives are recognized at fair market value with realized and unrealized gains and losses recognized in general corporate expenses. The gains and losses are subsequently

recognized in the operating results of the reporting segments in the period in which the underlying transaction being economically hedged is included in earnings. In the event that management determines a particular derivative entered into as an economic hedge of a forecasted commodity purchase has ceased to function as an economic hedge, we cease recognizing further gains and losses on such derivatives in corporate expense and begin recognizing such gains and losses within segment operating results, immediately.

The following table presents the net derivative gains (losses) from economic hedges of forecasted commodity consumption and the foreign currency risk of certain forecasted transactions, under this methodology:

(\$ in millions)	Thirteen Weeks Ended	
	August 27, 2017	August 28, 2016
Net derivative losses incurred	\$(7.4)	\$ (0.3)
Less: Net derivative losses allocated to reporting segments	(1.4)	(1.0)
Net derivative gains (losses) recognized in general corporate expenses	\$(6.0)	\$ 0.7
Net derivative losses allocated to Grocery & Snacks	\$(0.6)	\$ (0.4)
Net derivative losses allocated to Refrigerated & Frozen	—	(0.2)
Net derivative losses allocated to International	(0.7)	—
Net derivative losses allocated to Foodservice	(0.1)	(0.3)
Net derivative losses allocated to Commercial	—	(0.1)
Net derivative losses included in segment operating profit	\$(1.4)	\$ (1.0)

As of August 27, 2017, the cumulative amount of net derivative losses from economic hedges that had been recognized in general corporate expenses and not yet allocated to reporting segments was \$9.0 million. This amount reflected net losses of \$6.8 million incurred during the thirteen weeks ended August 27, 2017, as well as net losses of \$2.2 million incurred prior to fiscal 2018. Based on our forecasts of the timing of recognition of the underlying hedged items, we expect to reclassify to segment operating results losses of \$8.4 million in fiscal 2018 and losses of \$0.6 million in fiscal 2019 and thereafter.

Net Sales

(\$ in millions)	Net Sales		
	Thirteen weeks ended		% Inc (Dec)
Reporting Segment	August 27, 2017	August 28, 2016	
Grocery & Snacks	\$745.8	\$ 757.2	(2)%
Refrigerated & Frozen	615.7	604.6	2 %
International	190.9	194.7	(2)%
Foodservice	251.8	268.0	(6)%
Commercial	—	71.1	(100)%
Total	\$1,804.2	\$ 1,895.6	(5)%

Net sales for the first quarter of fiscal 2018 were \$1.80 billion, a decrease of \$91.4 million, or 5%, from the first quarter of fiscal 2017.

Grocery & Snacks net sales for the first quarter of fiscal 2018 were \$745.8 million, a decrease of \$11.4 million, or 2%, compared to the first quarter of fiscal 2017. Results for the first quarter of fiscal 2018 reflected a 6% decrease in volumes, excluding the impact of acquisitions. The decrease in sales volumes was the result of a reduction in promotional intensity and the planned discontinuation of certain lower-performing products. Price/mix increased by 1% as the impacts of increased slotting fees were more than offset by continued progress in pricing and trade productivity. The acquisitions of Thanasi Foods LLC, BIGS LLC, Frontera Foods, Inc., and Red Fork LLC contributed \$27.6 million to Grocery & Snacks net sales for the first quarter of fiscal 2018.

Refrigerated & Frozen net sales for the first quarter of fiscal 2018 were \$615.7 million, an increase of \$11.1 million, or 2%, compared to the first quarter of fiscal 2017. Results for the first quarter of fiscal 2018 reflected a 1% increase

in volumes, excluding the impact of acquisitions, and a flat price/mix, in each case compared to the prior-year period. The increase in sales volumes was a result of pipeline fills for innovation launches. The acquisition of Frontera Foods, Inc. and Red Fork LLC contributed \$3.4 million to Refrigerated & Frozen net sales for the first quarter of fiscal 2018.

International net sales for the first quarter of fiscal 2018 were \$190.9 million, a decrease of \$3.8 million, or 2%, compared to the first quarter of fiscal 2017. Results for the first quarter of fiscal 2018 reflected an 8% decrease in volume, a 4% increase in price/mix, and a 2% increase from foreign exchange rates, in each case compared to the prior-year period. The volume decrease in the first quarter of fiscal 2018 reflected strategic decisions to eliminate lower margin products and a reduction in promotional intensity. The increase in price/mix for the first quarter of fiscal 2018 was driven by improvements in pricing and trade productivity.

Foodservice net sales for the first quarter of fiscal 2018 were \$251.8 million, a decrease of \$16.2 million, or 6%, compared to the first quarter of fiscal 2017. Results for the first quarter of fiscal 2018 reflected an 18% decrease in volume and a 12% increase in price/mix, in each case compared to the prior-year period. The decrease in volumes primarily reflected the impact of exiting a non-core business. The increase in price/mix reflected the execution of the segment's value over volume strategy.

Our Spicetec and JM Swank businesses were sold in the first quarter of fiscal 2017. These businesses comprise the entire Commercial segment following the presentation of Lamb Weston as discontinued operations. Accordingly, there were no net sales in the Commercial segment after the first quarter of fiscal 2017. These businesses had net sales of \$71.1 million for the first quarter of fiscal 2017, prior to the completion of the divestitures.

SG&A Expenses (Includes general corporate expenses)

SG&A expenses totaled \$239.0 million for the first quarter of fiscal 2018, an increase of \$7.3 million, as compared to the first quarter of fiscal 2017. SG&A expenses impacting the comparability of earnings for the first quarter of fiscal 2018 included \$9.1 million in connection with our SCAE Plan. Other changes in expenses compared to the first quarter of fiscal 2017 included:

- a decrease in advertising and promotion spending of \$9.8 million,
- a decrease in our stock-based compensation expense of \$5.4 million, and
- a decrease in salary expenses of \$3.1 million.

SG&A expenses for the first quarter of fiscal 2017 included the following items impacting the comparability of earnings:

- gains totaling \$198.2 million from the divestiture of the Spicetec and JM Swank businesses,
- charges totaling \$163.6 million related to the impairment of goodwill and other intangible assets within our International segment, and
- expenses of \$8.9 million in connection with our restructuring plans.

Operating Profit (Earnings before general corporate expenses, interest expense, net, income taxes, and equity method investment earnings)

(\$ in millions)	Operating Profit		
	Thirteen weeks ended		
Reporting Segment	August 2017	August 2016	% Inc (Dec)
Grocery & Snacks	\$176.2	\$180.5	(2)%
Refrigerated & Frozen	101.9	92.2	11%
International	18.9	(149.2)	N/A
Foodservice	23.2	21.7	7%
Commercial	—	203.3	(100)%

Grocery & Snacks operating profit for the first quarter of fiscal 2018 was \$176.2 million, a decrease of \$4.3 million, or 2%, compared to the first quarter of fiscal 2017. Gross profits were \$5.3 million lower in the first quarter of fiscal 2018 than in the first quarter of fiscal 2017. The lower gross profit was driven by a decrease in volumes, discussed above, and inflation, offset by improved plant productivity. Operating profit of the Grocery & Snacks segment was impacted by charges of \$6.2 million and \$4.9 million in connection with our restructuring plans in the first quarter of fiscal 2018 and 2017, respectively.

Refrigerated & Frozen operating profit for the first quarter of fiscal 2018 was \$101.9 million, an increase of \$9.7 million, or 11%, compared to the first quarter of fiscal 2017. Gross profits were \$1.5 million lower in the first quarter

of fiscal 2018 than in the first quarter of fiscal 2017, driven by inflation and absorption, partially offset by increased sales volumes. SG&A expenses for the first quarter of fiscal 2018 decreased by \$11.2 million compared to the first quarter of fiscal 2017, primarily due to cost reductions achieved through our

restructuring plans as well as a decrease in advertising and promotion expenses of \$5.1 million. Operating profit of the Refrigerated & Frozen segment was impacted by charges of \$5.0 million in connection with our restructuring plans in the first quarter of fiscal 2017.

International operating profit for the first quarter of fiscal 2018 was \$18.9 million, compared to an operating loss of \$149.2 million in the first quarter of fiscal 2017. The operating loss in the first quarter of fiscal 2017 included charges totaling \$163.6 million for the impairment of goodwill and an intangible brand asset in our Canadian operations. Foodservice operating profit for the first quarter of fiscal 2018 was \$23.2 million, an increase of \$1.5 million, or 7%, compared to the first quarter of fiscal 2017. Gross profits were \$2.0 million lower in the first quarter of fiscal 2018 than in the first quarter of fiscal 2017. The lower gross profit primarily reflected the impact of exiting a non-core business.

Commercial operating profit for the first quarter of fiscal 2017 was \$203.3 million. The company sold the Spicetec and JM Swank businesses in the first quarter of fiscal 2017, recognizing pre-tax gains totaling \$198.2 million. These businesses comprise the entire Commercial segment following the presentation of Lamb Weston as discontinued operations. There are no further operations in the Commercial segment.

Interest Expense, Net

Net interest expense was \$36.4 million and \$58.2 million for the first quarter of fiscal 2018 and 2017, respectively. The decrease reflects the repayment of \$550 million of debt in the first quarter of fiscal 2017 and \$473 million of debt in the third quarter of fiscal 2017, as well as the exchange of \$1.4 billion of debt in connection with the Spinoff of Lamb Weston during the second quarter of 2017.

Income Taxes

In the first quarter of fiscal 2018 and 2017, our income tax expense from continuing operations was \$120.0 million and \$169.2 million, respectively. The effective tax rate (calculated as the ratio of income tax expense to pre-tax income from continuing operations, inclusive of equity method investment earnings) was approximately 44% and 63% for the first quarter of fiscal 2018 and 2017, respectively.

The effective tax rate in the first quarter of fiscal 2018 reflected additional tax expense related to the planned repatriation of cash from foreign subsidiaries and the tax expense related to undistributed foreign earnings for which the indefinite reinvestment assertion is no longer made.

The effective tax rate in the first quarter of fiscal 2017 reflected the following:

- an income tax benefit allowed upon the vesting/exercise of employee stock compensation awards by our employees, beyond that which is attributable to the original fair value of the awards upon the date of grant,
- additional tax expense in the first quarter of fiscal 2017 associated with non-deductible goodwill sold in connection with the dispositions of the Spicetec and JM Swank businesses, and
- additional tax expense in the first quarter of fiscal 2017 associated with non-deductible goodwill, for which an impairment charge was recognized.

We expect our effective tax rate for the remainder of fiscal 2018 to be approximately 32.5% - 33.5%.

Equity Method Investment Earnings

Equity method investment earnings were \$30.0 million and \$13.1 million for the first quarter of fiscal 2018 and 2017, respectively. Ardent Mills earnings were higher than the prior year quarter due to more favorable market conditions and continued improvement in operating efficiencies.

Results of Discontinued Operations

Our discontinued operations generated an after-tax loss of \$0.3 million for the first quarter of fiscal 2018 and an after-tax gain of \$91.4 million for the first quarter of fiscal 2017. Prior year results reflected the operations of Lamb Weston. We incurred significant costs associated with effecting the Spinoff of Lamb Weston. These costs are included in results of discontinued operations.

Earnings Per Share

Diluted earnings per share in the first quarter of fiscal 2018 were \$0.36. Diluted earnings per share in the first quarter of fiscal 2017 was \$0.42, including earnings of \$0.22 per diluted share from continuing operations and \$0.20 per diluted share from discontinued operations.

LIQUIDITY AND CAPITAL RESOURCES

Sources of Liquidity and Capital

Our primary financing objective is to maintain a prudent capital structure that provides us flexibility to pursue our growth objectives. If necessary, we use short-term debt principally to finance ongoing operations, including our seasonal requirements for working capital (accounts receivable, prepaid expenses and other current assets, and inventories, less accounts payable, accrued payroll, and other accrued liabilities), and a combination of equity and long-term debt to finance both our base working capital needs and our non-current assets. We are committed to maintaining an investment grade credit rating.

At August 27, 2017, we had a revolving credit facility (the "Facility") with a syndicate of financial institutions that provides for a maximum aggregate principal amount outstanding at any one time of \$1.25 billion (subject to increase to a maximum aggregate principal amount of \$1.75 billion with the consent of the lenders). We have historically used a credit facility principally as a back-up for our commercial paper program. As of August 27, 2017, there were no outstanding borrowings under the Facility. The Facility contains customary affirmative and negative covenants for unsecured investment grade credit facilities of this type. It generally requires our ratio of EBITDA (earnings before interest, taxes, depreciation and amortization) to interest expense to be not less than 3.0 to 1.0 and our ratio of funded debt to EBITDA to be not greater than 3.75 to 1.0 (provided that such ratio may be increased at the option of the Company in connection with a material transaction), with each ratio to be calculated on a rolling four-quarter basis. As of August 27, 2017, we were in compliance with all financial covenants in the Facility.

As of August 27, 2017, we had \$323.2 million outstanding under our commercial paper program. The highest level of borrowings during the first quarter 2018 was \$345.0 million. As of May 28, 2017, we had \$26.2 million outstanding under our commercial paper program.

As of the end of the first quarter 2018, our senior long-term debt ratings were all investment grade. A significant downgrade in our credit ratings would not affect our ability to borrow amounts under the revolving credit facility, although borrowing costs would increase. A downgrade of our short-term credit ratings would impact our ability to borrow under our commercial paper program by negatively impacting borrowing costs and causing shorter durations, as well as making access to commercial paper more difficult.

We repurchase shares of our common stock from time to time after considering market conditions and in accordance with repurchase limits authorized by our Board of Directors. Under the share repurchase authorization, we may repurchase our shares periodically over several years, depending on market conditions and other factors, and may do so in open market purchases or privately negotiated transactions. The share repurchase authorization has no expiration date. During the first quarter of fiscal 2018, we repurchased 8.7 million shares of our common stock under this authorization for an aggregate of \$300.0 million. The Company's total remaining share repurchase authorization as of August 27, 2017 was \$1.08 billion.

During the first quarter of fiscal 2018, the Board of Directors authorized a quarterly dividend payment of \$0.2125 per share, which was paid on August 31, 2017 to stockholders of record as of the close of business on July 31, 2017.

We have access to the \$1.25 billion revolving credit facility, our commercial paper program, and the capital markets. We believe we also have access to additional bank loan facilities, if needed.

During the fourth quarter of fiscal 2017, we announced the agreement to sell our Wesson[®] oil business to Smucker. The transaction is subject to certain customary closing conditions, including the termination or expiration of the waiting period under the HSR Act. On August 28, 2017, Smucker and the Company each received a second request from the FTC in connection with the FTC's review of the transaction. Issuance of the second request extends the waiting period under the HSR Act until 30 days after both the Company and Smucker have substantially complied with the request, unless the waiting period is terminated earlier by the FTC. The agreement for the sale of the Wesson oil business provides that, unless otherwise agreed upon by the Company and Smucker, if the closing of the transaction has not occurred on or prior to March 31, 2018 because HSR approval has not been received as of such date, then either party may terminate the agreement. The parties are cooperating fully with the FTC as it conducts its review of the transaction. We expect to realize net proceeds of approximately \$285 million from the sale.

Subsequent to the end of the first quarter of fiscal 2018, we entered into a definitive agreement to acquire Angie's Artisan Treats, LLC, maker of Angie's® BOOMCHICKAPOP® ready-to-eat popcorn, for a cash purchase price of \$250 million, net of cash acquired and subject to working capital adjustments. The business will be included in the Grocery & Snacks segment. The transaction is expected to close by the end of the calendar year, subject to customary closing conditions, including the receipt of any applicable regulatory approvals.

Management believes that the Company's sources of liquidity will be adequate to meet required debt repayments, planned capital expenditures, acquisitions, working capital needs, and payment of anticipated quarterly dividends for the foreseeable future.

We expect to maintain or have access to sufficient liquidity to either retire or refinance senior debt upon maturity, as market conditions warrant, from operating cash flows, our commercial paper program, proceeds from any divestitures and other disposition transactions, access to capital markets, and our revolving credit facility.

Cash Flows

During the first quarter of fiscal 2018, we generated \$136.0 million of cash and cash equivalents from operating activities, used \$38.6 million in investing activities, used \$107.1 million in financing activities, and had an increase of \$9.7 million due to the effects of changes in foreign currency exchange rates.

Cash generated from operating activities of continuing operations totaled \$141.5 million in the first quarter of fiscal 2018, as compared to \$208.3 million generated in the first quarter of fiscal 2017. The decrease was the result of changes in working capital, lower equity method investment dividends, and the timing of income tax payments attributable to continuing operations. This was partially offset by decreases in interest payments, due to significant debt repayments during fiscal 2017, and lower incentive compensation payments.

The operating activities of discontinued operations used \$5.5 million for the first quarter of fiscal 2018 and generated \$117.6 million in the first quarter of fiscal 2017. This reflects the activities of the Lamb Weston business that was spun off on November 9, 2016 and other divested businesses.

Cash used in investing activities of continuing operations totaled \$38.6 million in the first quarter of fiscal 2018, compared to cash provided of \$430.2 million in the first quarter of fiscal 2017. Investing activities of continuing operations in the first quarter of fiscal 2018 consisted primarily of capital expenditures totaling \$42.6 million.

Investing activities of continuing operations in the first quarter of fiscal 2017 included proceeds from the sales of the Spicetec and JM Swank businesses totaling \$486.3 million, partially offset by capital expenditures of \$58.1 million.

Cash used in investing activities of discontinued operations in the first quarter of fiscal 2017 resulted mainly from capital expenditures.

Cash used in financing activities of continuing operations totaled \$107.1 million in the first quarter of fiscal 2018 and \$734.6 million in the first quarter of fiscal 2017. Financing activities of continuing operations in the first quarter of fiscal 2018 consisted principally of net short-term borrowings of \$295.3 million mainly under our commercial paper program, cash dividends paid of \$83.3 million, and common stock repurchases totaling \$300.0 million. Cash used in financing activities of continuing operations in the first quarter of fiscal 2017 reflected long-term debt repayments of \$553.9 million, dividends paid of \$109.5 million, and common stock repurchases totaling \$85.6 million.

The Company had cash and cash equivalents of \$251.4 million at August 27, 2017 and May 28, 2017, of which \$244.5 million at August 27, 2017 and \$244.9 million at May 28, 2017 was held in foreign countries. During the first quarter of fiscal 2018, the Company decided to repatriate in fiscal 2018 a portion of this cash related to earnings of foreign subsidiaries previously deemed to be permanently reinvested outside the U.S. Refer to Note 12 to the Condensed Consolidated Financial Statements contained in this report for more information related to this repatriation of cash and related adjustments to deferred tax liability. Any future decision to repatriate additional foreign cash could result in further adjustments to the deferred tax liability after considering available foreign tax credits and other tax attributes. It is not practicable to determine the amount of any such further adjustments to the deferred tax liability at this time.

Our estimate of capital expenditures for fiscal 2018 is approximately \$280 million. For the first quarter of fiscal 2018, we have funded \$42.6 million of capital expenditures.

Management believes that existing cash balances, cash flows from operations, existing credit facilities, and access to capital markets will provide sufficient liquidity to meet our repayment of debt, including any repayment of debt or refinancing of debt, working capital needs, planned capital expenditures, planned share repurchases, and payment of anticipated quarterly dividends for at least the next twelve months.

OFF-BALANCE SHEET ARRANGEMENTS

We use off-balance sheet arrangements (e.g., leases accounted for as operating leases) where sound business principles warrant their use. We also periodically enter into guarantees and other similar arrangements as part of transactions in the ordinary course of business. These are described further in "Obligations and Commitments" below.

Variable Interest Entities Not Consolidated

We have variable interests in certain entities that we have determined to be variable interest entities, but for which we are not the primary beneficiary. We do not consolidate the financial statements of these entities.

We lease certain office buildings from entities that we have determined to be variable interest entities. The lease agreements with these entities include fixed-price purchase options for the assets being leased. The lease agreements also contain contingent put options

31

(the "lease put options") that allow the lessors to require us to purchase the buildings at the greater of original construction cost, or fair market value, without a lease agreement in place (the "put price") in certain limited circumstances. As a result of substantial impairment charges related to our divested Private Brands operations, these lease put options are exercisable now and remain exercisable until generally 30 days after the end of the respective lease agreements. We are amortizing the difference between the put price and the estimated fair value (without a lease agreement in place) of each respective property over the remaining respective lease term within selling, general and administrative expenses. As of August 27, 2017 and May 28, 2017, the estimated amount by which the put prices exceeded the fair values of the related properties was \$51.8 million, of which we had accrued \$9.3 million and \$8.4 million, respectively. As these buildings are worth considerably more when under lease agreements than when vacant, we may be able to mitigate some, or all, of the financial exposure created by the put options by maintaining active lease agreements and/or by subleasing the buildings to credit worthy tenants. We do not expect to ultimately incur material financial losses as a result of the potential exercise of the lease put options by the lessors. These leases are accounted for as operating leases, and accordingly, there are no material assets or liabilities, other than the accrued portion of the put price, associated with these entities included in the Condensed Consolidated Balance Sheets contained in this report. We have determined that we do not have the power to direct the activities that most significantly impact the economic performance of these entities. In making this determination, we have considered, among other items, the terms of the lease agreements, the expected remaining useful lives of the assets leased, and the capital structure of the lessor entities.

OBLIGATIONS AND COMMITMENTS

As part of our ongoing operations, we enter into arrangements that obligate us to make future payments under contracts such as lease agreements, debt agreements, and unconditional purchase obligations (i.e., obligations to transfer funds in the future for fixed or minimum quantities of goods or services at fixed or minimum prices, such as "take-or-pay" contracts). The unconditional purchase obligation arrangements are entered into in our normal course of business in order to ensure adequate levels of sourced product are available. Of these items, debt, notes payable, and capital lease obligations, which totaled \$3.3 billion as of August 27, 2017, were recognized as liabilities in the Condensed Consolidated Balance Sheets contained in this report. Operating lease obligations and unconditional purchase obligations, which totaled \$1.4 billion as of August 27, 2017, were not recognized as liabilities in the Condensed Consolidated Balance Sheets contained in this report, in accordance with generally accepted accounting principles.

A summary of our contractual obligations as of August 27, 2017 was as follows:

Contractual Obligations	Payments Due by Period (in millions)				
	Total	Less than 1 Year	1-3 Years	3-5 Years	After 5 Years
Long-term debt	\$2,821.3	\$189.7	\$126.7	\$195.9	\$2,309.0
Capital lease obligations	128.9	9.1	16.8	17.4	85.6
Operating lease obligations	225.1	41.4	51.5	35.0	97.2
Purchase obligations ¹ and other contracts	1,210.2	1,023.1	113.3	70.0	3.8
Notes payable	323.5	323.5	—	—	—
Total	\$4,709.0	\$1,586.8	\$308.3	\$318.3	\$2,495.6

¹ Amount includes open purchase orders and agreements, some of which are not legally binding and/or may be cancellable. Such agreements are generally settleable in the ordinary course of business in less than one year.

We are also contractually obligated to pay interest on our long-term debt and capital lease obligations. The weighted average coupon interest rate of the long-term debt obligations outstanding as of August 27, 2017, was approximately 5.3%.

The operating lease obligations noted in the table above have not been reduced by non-cancellable sublease rentals of \$1.3 million.

As of May 28, 2017, we had aggregate unfunded pension obligations totaling \$565.1 million. This amount is not included in the table above, and we do not expect to be required to make payments to fund these amounts in the foreseeable future. Based on current statutory requirements, we are not obligated to fund any amount to our qualified pension plans during the next twelve months. We estimate that we will make payments of approximately \$12.9 million over the next twelve months to fund our pension plans. See Note 14, Pension and Postretirement Benefits, to the Condensed Consolidated Financial Statements contained in this report and the Company's Annual Report on Form 10-K for the year ended May 28, 2017, Critical Accounting Estimates - Employment Related Benefits, for further discussion of our pension obligations and factors that could affect estimates of this liability.

As part of our ongoing operations, we also enter into arrangements that obligate us to make future cash payments only upon the occurrence of a future event (e.g., guarantees of debt or lease payments of a third party should the third party be unable to perform). In accordance with generally accepted accounting principles, the following commercial commitments are not recognized as liabilities in the Condensed Consolidated Balance Sheets contained in this report. A summary of our commitments, including commitments associated with equity method investments, as of August 27, 2017 was as follows:

	Amount of Commitment Expiration Per				
	Total	Less than 1 Year	1-3 Years	3-5 Years	After 5 Years
Other Commercial Commitments					
Standby repurchase obligations	\$ 1.8	\$ 0.5	\$ 0.5	\$ 0.5	\$ 0.3
Other commitments	3.6	2.3	1.3	—	—
Total	\$ 5.4	\$ 2.8	\$ 1.8	\$ 0.5	\$ 0.3

In certain limited situations, we will guarantee an obligation of an unconsolidated entity. We guarantee certain leases resulting from the divestiture of the JM Swank business completed in the first quarter of fiscal 2017. As of August 27, 2017, the remaining terms of these arrangements do not exceed six years and the maximum amount of future payments we have guaranteed was \$3.8 million.

In certain limited situations, we also guarantee obligations of the Lamb Weston business pursuant to guarantee arrangements that existed prior to the Spinoff and remained in place following completion of the Spinoff until such guarantee obligations are substituted for guarantees issued by Lamb Weston. Such guarantee arrangements are described below. Pursuant to the Separation and Distribution Agreement, dated as of November 8, 2016 (the "Separation Agreement"), between us and Lamb Weston, these guarantee arrangements are deemed liabilities of Lamb Weston that were transferred to Lamb Weston as part of the Spinoff. Accordingly, in the event that we are required to make any payments as a result of these guarantee arrangements, Lamb Weston is obligated to indemnify us for any such liability, reduced by any insurance proceeds received by us, in accordance with the terms of the indemnification provisions under the Separation Agreement.

Lamb Weston is a party to a warehouse services agreement with a third-party warehouse provider through July 2035. Under this agreement, Lamb Weston is required to make payments for warehouse services based on the quantity of goods stored and other service factors. We have guaranteed the warehouse provider that we will make the payments required under the agreement in the event that Lamb Weston fails to perform. Minimum payments of \$1.5 million per month are required under this agreement. It is not possible to determine the maximum amount of the payment obligations under this agreement. Upon completion of the Spinoff, we recognized a liability for the estimated fair value of this guarantee. As of August 27, 2017, the amount of this guarantee, recorded in other noncurrent liabilities, was \$29.3 million.

Lamb Weston is a party to an agricultural sublease agreement with a third party for certain farmland through 2020 (subject, at Lamb Weston's option, to extension for two additional five-year periods). Under the terms of the sublease agreement, Lamb Weston is required to make certain rental payments to the sublessor. We have guaranteed the sublessor Lamb Weston's performance and the payment of all amounts (including indemnification obligations) owed by Lamb Weston under the sublease agreement, up to a maximum of \$75.0 million. We believe the farmland associated with this sublease agreement is readily marketable for lease to other area farming operators. As such, we believe that any financial exposure to the company, in the event that we were required to perform under the guaranty, would be largely mitigated.

The obligations and commitments tables above do not include any reserves for uncertainties in income taxes, as we are unable to reasonably estimate the ultimate amount or timing of settlement of our reserves for income taxes. The liability for gross unrecognized tax benefits at August 27, 2017 was \$37.7 million. The net amount of unrecognized tax benefits at August 27, 2017, that, if recognized, would impact our effective tax rate was \$30.7 million.

Recognition of these tax benefits would have a favorable impact on our effective tax rate.

CRITICAL ACCOUNTING ESTIMATES

A discussion of our critical accounting estimates can be found in the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section in Part I, Item 7, of our Annual Report on Form 10-K for the fiscal year ended May 28, 2017.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The principal market risks affecting us are exposures to price fluctuations of commodity and energy inputs, interest rates, and foreign currencies.

Other than the changes noted below, there have been no material changes in our market risk during the thirteen weeks ended August 27, 2017. For additional information, refer to the "Quantitative and Qualitative Disclosures about Market Risk" in Item 7A of our Annual Report on Form 10-K for the fiscal year ended May 28, 2017.

Commodity Market Risk

We purchase commodity inputs such as wheat, corn, oats, soybean meal, soybean oil, meat, dairy products, nuts, sugar, natural gas, electricity, and packaging materials to be used in our operations. These commodities are subject to price fluctuations that may create price risk. We enter into commodity hedges to manage this price risk using physical forward contracts or derivative instruments. We have policies governing the hedging instruments our businesses may use. These policies include limiting the dollar risk exposure for each of our businesses. We also monitor the amount of associated counter-party credit risk for all non-exchange-traded transactions.

Interest Rate Risk

We may use interest rate swaps to manage the effect of interest rate changes on the fair value of our existing debt as well as the forecasted interest payments for the anticipated issuance of debt.

The carrying amount of long-term debt (including current installments) was \$2.97 billion as of August 27, 2017. Based on current market rates, the fair value of this debt at August 27, 2017 was estimated at \$3.34 billion. As of August 27, 2017, a 1% increase in the interest rates would decrease the fair value of our fixed rate debt by approximately \$195.6 million, while a 1% decrease in interest rates would increase the fair value of our fixed rate debt by approximately \$217.0 million.

Foreign Currency Risk

In order to reduce exposures for our processing activities related to changes in foreign currency exchange rates, we may enter into forward exchange or option contracts for transactions denominated in a currency other than the functional currency for certain of our operations. This activity primarily relates to economically hedging against foreign currency risk in purchasing inventory and capital equipment, sales of finished goods, and future settlement of foreign denominated assets and liabilities.

Value-at-Risk (VaR)

We employ various tools to monitor our derivative risk, including value-at-risk ("VaR") models. We perform simulations using historical data to estimate potential losses in the fair value of current derivative positions. We use price and volatility information for the prior 90 days in the calculation of VaR that is used to monitor our daily risk. The purpose of this measurement is to provide a single view of the potential risk of loss associated with derivative positions at a given point in time based on recent changes in market prices. Our model uses a 95% confidence level. Accordingly, in any given one day time period, losses greater than the amounts included in the table below are expected to occur only 5% of the time. We include commodity swaps, futures, and options and foreign exchange forwards, swaps, and options in this calculation. The following table provides an overview of our average daily VaR for our energy, agriculture, and foreign exchange positions (including discontinued operations) during the thirteen weeks ended August 27, 2017 and August 28, 2016.

In Millions	Fair Value Impact	
	Average During Thirteen Weeks Ended August 27, 2017	Average During Thirteen Weeks Ended August 28, 2016
Energy commodities	\$ 0.4	\$ 0.4
Agriculture commodities	0.5	0.8
Foreign exchange	0.7	0.3

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management carried out an evaluation, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended, as of August 27, 2017. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

Internal Control Over Financial Reporting

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated any change in the Company's internal control over financial reporting that occurred during the quarter covered by this report and determined that there was no change in our internal control over financial reporting during the quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The current environmental proceedings associated with Beatrice include litigation and administrative proceedings involving Beatrice's possible status as a potentially responsible party at approximately 40 Superfund, proposed Superfund, or state-equivalent sites (the "Beatrice sites"). These sites involve locations previously owned or operated by predecessors of Beatrice that used or produced petroleum, pesticides, fertilizers, dyes, inks, solvents, PCBs, acids, lead, sulfur, tannery wastes, and/or other contaminants. In the past five years, Beatrice has paid or is in the process of paying its liability share at 31 of these sites. Reserves for these Beatrice environmental proceedings have been established based on our best estimate of the undiscounted remediation liabilities, which estimates include evaluation of investigatory studies, extent of required clean-up, the known volumetric contribution of Beatrice and other potentially responsible parties, and its experience in remediating sites. The accrual for Beatrice-related environmental matters totaled \$53.1 million as of August 27, 2017, a majority of which relates to the Superfund and state-equivalent sites referenced above. During the third quarter of fiscal 2017, a final Remedial Investigation/Feasibility Study was submitted for the Wells G&H-Southwest Properties Superfund site, which is one of the Beatrice sites. The U.S. Environmental Protection Agency (the "EPA") has issued a proposed plan for remediation that is currently open for public comment, will issue a Record of Decision for this site shortly, and will subsequently enter into negotiations with potentially responsible parties to determine a final Remedial Design/Remedial Action plan for the site. The accrual for Wells G&H-Southwest Properties Superfund site totaled \$1.1 million as of August 27, 2017, which was included in the total accrual for Beatrice-related environmental matters referenced above.

We are party to a number of putative class action lawsuits challenging various product claims made in the Company's product labeling. These matters include *Briseno v. ConAgra Foods, Inc.*, in which it is alleged that the labeling for Wesson® oils as 100% natural is false and misleading because the oils contain genetically modified plants and organisms. In February 2015, the U.S. District Court for the Central District of California granted class certification to permit plaintiffs to pursue state law claims. The Company appealed to the United States Court of Appeals for the Ninth Circuit which affirmed class certification in January 2017. The Company has sought further review by the United States Supreme Court. While we cannot predict with certainty the results of this or any other legal proceeding, we do not expect this matter to have a material adverse effect on our financial condition, results of operations, or business.

For additional information on legal proceedings, please refer to Note 13 to the Condensed Consolidated Financial Statements contained in this report, Part I, Item 3 "Legal Proceedings" in our Annual Report on Form 10-K for the year ended May 28, 2017, and Note 17 "Contingencies" to the consolidated financial statements contained therein, and Part II, Item 1 "Legal Proceedings" in each of our subsequent Quarterly Reports on Form 10-Q.

ITEM 1A. RISK FACTORS

Our Annual Report on Form 10-K for the year ended May 28, 2017 includes a detailed discussion of certain material risk factors we face. The information presented below restates the risk factor set forth under the heading "We are increasingly dependent on information technology, and potential disruption, cyber attacks, security problems, and expanding social media vehicles present new risks." in Part I, Item 1A of our Annual Report on Form 10-K for the year ended May 28, 2017 and provides two additional risk factors. You should consider these risk factors together with the other risk factors and other matters described in our Annual Report on Form 10-K for the year ended May 28, 2017, in this Quarterly Report on Form 10-Q, and in our other filings with the SEC.

We are increasingly dependent on information technology, and potential disruption, cyber attacks, security problems, and expanding social media vehicles present new risks.

We rely on information technology networks and systems, including the Internet, to process, transmit, and store electronic and financial information, to manage and support a variety of business processes and activities, and to comply with regulatory, legal, and tax requirements. Our information technology systems, some of which are dependent on services provided by third parties, may be vulnerable to damage, interruption, or shutdown due to any

number of causes outside of our control such as catastrophic events, natural disasters, fires, power outages, systems failures, telecommunications failures, security breaches, computer viruses, hackers, employee error or malfeasance, and other causes. Increased cybersecurity threats pose a potential risk to the security and viability of our information technology systems, as well as the confidentiality, integrity, and availability of the data stored on those systems. If we do not allocate and effectively manage the resources necessary to build and sustain the proper technology infrastructure and to maintain and protect the related automated and manual control processes, we could be subject to billing and collection errors, business disruptions, or damage resulting from security breaches. If any of our significant information technology systems suffer severe damage, disruption, or shutdown, and our business continuity plans do not effectively resolve the issues in a timely manner, our product sales, financial condition, and results of operations may be materially and adversely affected, and we could experience delays in reporting our financial results. In addition, there is a risk of business interruption, violation of data privacy laws and regulations, litigation, and reputational damage from leakage of confidential information. Any interruption of our information technology systems could have operational, reputational, legal, and financial impacts that may have a material adverse effect on our business.

In addition, the inappropriate use of certain media vehicles could cause brand damage or information leakage. Negative posts or comments about the Company on any social networking web site could seriously damage its reputation. In addition, the disclosure of non-public company sensitive information through external media channels could lead to information loss. Identifying new points of entry as social media continues to expand presents new challenges. Any business interruptions or damage to our reputation could negatively impact our financial condition, results of operations, and the market price of our common stock.

As we outsource certain functions, we become more dependent on the third parties performing those functions. As part of a concerted effort to achieve cost savings and efficiencies, we have entered into agreements with third-party service providers under which we have outsourced certain information systems, sales, finance, accounting, and other functions, and we may enter into managed services agreements with respect to other functions in the future. If any of these third-party service providers do not perform according to the terms of the agreements, or if we fail to adequately monitor their performance, we may not be able to achieve the expected cost savings or we may have to incur additional costs to correct errors made by such service providers, and our reputation could be harmed. Depending on the function involved, such errors may also lead to business interruption, damage or disruption of information technology systems, processing inefficiencies, the loss of or damage to intellectual property or non-public company sensitive information through security breaches or otherwise, effects on financial reporting, litigation or remediation costs, or damage to our reputation, any of which could have a material adverse effect on our business. In addition, if we transition functions to one or more new, or among existing, external service providers, we may experience challenges that could have a material adverse effect on our results of operations or financial condition.

Our intellectual property rights are valuable, and any inability to protect them could have an adverse impact on our business, financial condition, and results of operations.

Our intellectual property rights, including our trademarks, licensing agreements, trade secrets, patents, and copyrights, are a significant and valuable aspect of our business. We attempt to protect our intellectual property rights by pursuing remedies available to us under trademark, copyright, trade secret, and patent laws, as well as entering into licensing, third-party nondisclosure and assignment agreements and policing of third-party misuses of our intellectual property. If we fail to adequately protect the intellectual property rights we have now or may acquire in the future, or if there occurs any change in law or otherwise that serves to reduce or remove the current legal protections of our intellectual property, then our financial results could be materially and adversely affected.

Certain of our intellectual property rights, including the P.F. Chang's, Bertolli, Del Monte, and Libby's trademarks, are owned by third parties and licensed to us, and others, such as Alexia, are owned by us and licensed to third parties.

While many of these licensing arrangements are perpetual in nature, others must be periodically renegotiated or renewed pursuant to the terms of such licensing arrangement. If in the future we are unable to renew such a licensing arrangement pursuant to its terms and conditions, or if we fail to renegotiate such a licensing arrangement, then our financial results could be materially and adversely affected.

There is also a risk that other parties may have intellectual property rights covering some of our brands, products, or technology. If any third parties bring a claim of intellectual property infringement against us, we may be subject to costly and time-consuming litigation, diverting the attention of management and our employees. If we are unsuccessful in defending against such claims, we may be subject to, among other things, significant damages, injunctions against development and sale of certain products, or we may be required to enter into costly licensing agreements, any of which could have an adverse impact on our business, financial condition, and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table presents the total number of shares of common stock purchased during the first quarter of fiscal 2018, the average price paid per share, the number of shares that were purchased as part of a publicly announced repurchase program, and the approximate dollar value of the maximum number of shares that may yet be purchased under the share repurchase program:

Period	Total Number of Shares (or	Average Price Paid	Total Number of Shares	Approximate Dollar Value of Maximum
--------	----------------------------	--------------------	------------------------	-------------------------------------

Edgar Filing: CONAGRA BRANDS INC. - Form 10-Q

	units) Purchased	per Share (or unit)	Purchased as Part of Publicly Announced Plans or Programs (1)	Number of Shares that may yet be Purchased under the Program (1)
May 29 through June 25, 2017	—	\$ —	—	\$ 1,381,967,000
June 26 through July 23, 2017	—	\$ —	—	\$ 1,381,967,000
July 24 through August 27, 2017	8,744,441	\$ 34.31	8,744,441	\$ 1,081,967,000
Total Fiscal 2018 First Quarter Activity	8,744,441	\$ 34.31	8,744,441	\$ 1,081,967,000

Pursuant to publicly announced share repurchase programs from December 2003, we have repurchased (1) approximately 201.9 million shares at a cost of \$5.5 billion through August 27, 2017. On October 11, 2016, we announced that our Board of

Directors approved an increase of \$1.25 billion to the share repurchase program. On June 29, 2017, we announced that in the fourth quarter of fiscal 2017, our Board of Directors approved a further increase of \$1.0 billion to the share repurchase program. The share repurchase program is effective and has no expiration date.

ITEM 6. EXHIBITS

All documents referenced below were filed pursuant to the Securities Exchange Act of 1934 by Conagra Brands, Inc. (file number 001-07275), unless otherwise noted.

EXHIBIT DESCRIPTION

- 3.1 Amended and Restated Certificate of Incorporation of Conagra Brands, Inc., incorporated herein by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on November 10, 2016
- 3.2 Amended and Restated Bylaws of Conagra Brands, Inc., as amended, incorporated herein by reference to Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the SEC on October 1, 2015
- *10.4.7 Conagra Brands, Inc. Voluntary Deferred Compensation Plan (Restated Effective January 1, 2017)
- *10.7.6 Form of Restricted Stock Unit Agreement (Cash or Stock-Settled) under the ConAgra Foods, Inc. 2014 Stock Plan
- *10.10.1 First Amendment to ConAgra Foods, Inc. 2008 Performance Share Plan, effective July 19, 2017, incorporated herein by reference to Exhibit 10.1 of Conagra Brands' Current Report on Form 8-K filed with the SEC on July 25, 2017
- 12 Statement regarding computation of ratio of earnings to fixed charges
- 31.1 Section 302 Certificate of Chief Executive Officer
- 31.2 Section 302 Certificate of Chief Financial Officer
- 32.1 Section 906 Certificates
- 101 The following materials from Conagra Brands' Quarterly Report on Form 10-Q for the quarter ended August 27, 2017, formatted in XBRL (eXtensible Business Reporting Language): (i) the Consolidated Statements of Earnings, (ii) the Consolidated Statements of Comprehensive Income (Loss), (iii) the Consolidated Balance Sheets, (iv) the Consolidated Statements of Common Stockholders' Equity, (v) the Consolidated Statements of Cash Flows, (vi) Notes to Consolidated Financial Statements, and (vii) document and entity information.

* Management contract or compensatory plan.

Pursuant to Item 601(b)(4) of Regulation S-K, certain instruments with respect to long-term debt of Conagra Brands, Inc. are not filed with this Quarterly Report on Form 10-Q. The Company will furnish a copy of any such long-term

debt agreement to the SEC upon request.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CONAGRA BRANDS, INC.
