Selection of Nominees for our Board of Directors

To be considered as a director nominee, an individual must have, among other attributes: high personal and professional ethics, integrity and values; commitment to our company and its stockholders; an inquisitive and objective perspective and mature judgment; availability to perform all Board and committee responsibilities; and independence. In addition to these minimum requirements, the Nominating and Governance Committee will also evaluate whether the nominee's skills are complementary to the existing directors' skills and the Board's need for operational, management, financial, international, industry-specific or other expertise. We do not have a specific written policy with regard to the consideration of diversity in identifying director nominees. We focus on identifying nominees with experience, qualifications, attributes and skills to work with the other directors to serve the long-term interests of our stockholders. All those matters being equal, we do and will consider diversity a positive additional characteristic in potential nominees.

The Nominating and Governance Committee invites Board members to submit nominations for director. In addition to candidates submitted by Board members, director nominees recommended by stockholders will be considered. Stockholder recommendations must be made in accordance with the procedures described in the section titled "Stockholder Proposals" below and will receive the same consideration that other nominees receive. All nominees are evaluated by the Nominating and Governance Committee to determine whether they meet the minimum qualifications and whether they will satisfy the Board's needs for specific expertise and complement the existing directors at that time. The Committee recommends to the full Board nominees for election as directors at our annual meeting of stockholders. There have been no changes to the procedures by which our stockholders may recommend nominees to our Board.

Board Independence

Our Board has undertaken a review of the independence of our directors and has determined that (i) all current directors except Khoso Baluch are independent within the meaning of Section 803A(2) of the NYSE American Rules, (ii) all members of our Audit Committee meet the additional test for independence for audit committee members imposed by SEC regulation and Section 803B(2) of the NYSE American Rules, (iii) all of the members of our Compensation Committee are independent within the meaning of Section 805(c) of the NYSE American Rules, and (iv) all of the members of our Nominating and Governance Committee are independent within the meaning of Section 805(c) of the NYSE American Rules.

Board Committees

Our Board has established an Audit Committee, Compensation Committee and Nominating and Governance Committee. Our Audit Committee currently consists of Mr. Lefkowitz (Chair), Mr. Kaplan and Ms. Dillione. Our Compensation Committee currently consists of Ms. Dillione (Chair), Mr. Lefkowitz and Dr. Khan. Our Nominating and Governance Committee currently consists of Dr. Khan (Chair), Mr. Kaplan and Dr. Gelbfish. The membership of these Committees may be changed after the annual meeting.

Each of the above-referenced committees operates pursuant to a formal written charter. The charters for each committee, which have been adopted by our Board, contain a detailed description of the respective committee's duties and responsibilities and are available on our website at www.cormedix.com under the "Investor Relations—Corporate Governance" tab.

Audit Committee

The Audit Committee monitors our corporate financial statements and reporting and our external audits, including, among other things, our internal controls and audit functions, the results and scope of the annual audit and other services provided by our independent registered public accounting firm and our compliance with legal matters that have a significant impact on our financial statements. The Audit Committee also consults with our management and our independent registered public accounting firm prior to the presentation of financial statements to stockholders and, as appropriate, initiates inquiries into aspects of our financial affairs. The Audit Committee is responsible for establishing procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls or auditing matters, and for the confidential, anonymous submission by our employees of concerns regarding questionable accounting or auditing matters. In addition, the Audit Committee is directly responsible for the appointment, retention, compensation and oversight of the work of our independent registered public accounting firm, including approving services and fee arrangements. All related party transactions will be approved by the Audit Committee before we enter into them.

Both our independent registered public accounting firm and internal financial personnel regularly meet with, and have unrestricted access to, the Audit Committee.

The Board has determined that each of Steven Lefkowitz (Chair) and Janet Dillione qualifies as an “audit committee financial expert” as that term is defined in the rules and regulations of the SEC. The designation of each of Mr. Lefkowitz and Ms. Dillione as an “audit committee financial expert” does not impose on them any duties, obligations or liability that are greater than those that are generally imposed on them as a member of the Audit Committee and the Board, and their designation as an “audit committee financial expert” pursuant to this SEC requirement does not affect the duties, obligations or liability of any other member of the Audit Committee or the Board.

Compensation Committee

The Compensation Committee reviews and approves our compensation policies and all forms of compensation to be provided to our executive officers and directors, including, among other things, annual salaries, bonuses, and other incentive compensation arrangements. In addition, the Compensation Committee administers our stock option and employee stock purchase plans, including granting stock options to our executive officers and directors. The Compensation Committee also reviews and approves employment agreements with executive officers and other compensation policies and matters.

Each member of the Compensation Committee is a non-employee director, as defined pursuant to Rule 16b-3 promulgated under the Exchange Act, and an outside director, as defined pursuant to Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Internal Revenue Code”).

Nominating and Governance Committee

The Nominating and Governance Committee identifies, evaluates and recommends nominees to the Board and committees of the Board, conducts searches for appropriate directors and evaluates the performance of the Board and of individual directors. The Nominating and Governance Committee also is responsible for reviewing developments in corporate governance practices, evaluating the adequacy of our corporate governance practices and reporting and making recommendations to the Board concerning corporate governance matters.

Each director received an annual cash fee of \$25,000, the Board Chair received an additional \$5,000 and committee Chairs received an additional \$5,000. After election to the Board, in the next calendar year after his or her election and annually thereafter, each director was granted an option to purchase 75,000 shares of our common stock for his or her service on the Board with an additional 25,000 options for the Board chair, 20,000 options for the Audit Committee chair, and 15,000 options for other Committee chairs, which options vested on the first anniversary of the date of grant, subject to continued service on the Board.

In late 2016, with the assistance of Frederick W. Cook & Co., the Compensation Committee reviewed a peer group of 14 public companies, which group was used by Frederick W. The composition of the peer group was based on the following criteria: (i) companies operating in a similar industry sector, (ii) publicly traded companies, (iii) companies of similar size, and (iv) companies of similar business operation and stage of research and development. Each director receives an annual cash fee of \$25,000, the Board Chair and committee Chairs each receives an additional \$5,000. Upon a director’s first election to the Board, he or she will be granted an option to purchase 75,000 shares of our common stock that vest one third each on the date of grant and the first and second anniversary of the date of grant, subject to continued service on the Board through the vesting date. After election to the Board, in the next calendar year after his or her election and annually thereafter, each director will be granted (i) an option to purchase 40,000 shares of our common stock that vest one year after the date of grant, subject to continued service on the Board through the vesting date, and (ii) restricted stock units in the amount of the lesser of 10,000 units or \$25,000 divided by our stock price on the date of grant, with the Board chair receiving an additional number of restricted stock units in the amount of the lesser of 12,000 units or \$24,000 divided by our stock price on the date of grant, the Audit Committee chair receiving an additional number of restricted stock units in the amount of the lesser of 6,000 units or \$12,000 divided by our stock price on the date of grant, the Compensation Committee chair receiving an additional number of restricted stock units in the amount of the lesser of 4,000 units or \$8,000 divided by our stock price on the date of grant, and the Nomination and Governance Committee chair receiving an additional number of restricted stock units in the amount of the lesser of 2,500 units or \$5,000 divided by our stock price on the date of grant. Restricted stock units vest one year after the grant date, subject to continued service on the Board through the vesting date.

The exercise price per share of each stock option granted to our non-employee directors is equal to the fair market value of our common stock as determined in good faith by our Board on the date of the grant.

In July 2014, we adopted a Deferred Compensation Plan for Directors, pursuant to which our non-employee directors may defer all of their cash director fees and restricted stock units. Any cash fees due a participating director will be converted into a number of shares of our common stock by dividing the dollar amount of fees payable by the closing price of our common stock on the date such fees would be payable, and the director’s unfunded account would be credited with the shares. The shares that accumulate in a director’s account will be paid to the director on the tenth business day in January following the year in which the director’s service terminates for whatever reason, other than death, in which case the account will be paid within 30 days of the date of death to the designated beneficiaries, if any. If there are no designated beneficiaries, the account will be paid out the same as with any other termination of service. In the event of a change in control of our company, the director would receive cash in an amount equal to the number of shares in the account multiplied by the fair market value of our common stock on the change in control date, and the payment would be accelerated to five business days after the effective date of the change in control.

EXECUTIVE COMPENSATION

Components of Compensation

The key components of our executive compensation package are cash compensation (salary and annual bonuses), long-term equity incentive awards and change in control and other severance agreements. These components are administered with the goal of providing total compensation that recognizes meaningful differences in individual

performance, is competitive, varies the opportunity based on individual and corporate performance, and is valued by our Named Executive Officers.

7

Base Salary

It is the Compensation Committee's objective to set a competitive rate of annual base salary for each Named Executive Officer. The Compensation Committee believes competitive base salaries are necessary to attract and retain top quality executives, since it is common practice for public companies to provide their named executive officers with a guaranteed annual component of compensation that is not subject to performance risk. The Compensation Committee, on its own or with outside consultants, may establish salary ranges for the Named Executive Officers, with minimum to maximum opportunities that cover the normal range of market variability. The actual base salary for each Named Executive Officer is then derived from those salary ranges based on his responsibility, tenure and past performance and market comparability. Annual base salaries for the Named Executive Officers are reviewed and approved by the Compensation Committee in the first quarter following the end of the previous performance year. Changes in base salary are based on the scope of an individual's current job responsibilities, individual performance in the previous performance year, target pay position relative to the peer group, and our salary budget guidelines. The Compensation Committee reviews established goals and objectives, and determines an individual's achievement of those goals and objectives and considers the recommendations provided by the Chief Executive Officer to assist it in determining appropriate salaries for the Named Executive Officers other than the Chief Executive Officer.

The base salary information for our Named Executive Officers for 2016 and 2017 is set forth in the Summary Compensation Table below. In October 2016, February 2017 and March 2017, respectively, we entered into an employment agreement with each of Khoso Baluch, our Chief Executive Officer, Robert Cook, our Chief Financial Officer, and John Armstrong, our Executive Vice President for Technical Operations. These agreements provide for a salary for each Named Executive Officer and are described under the caption "Employment Agreements."

Annual Bonuses

As part of their compensation package, our Named Executive Officers generally have the opportunity to earn annual non-equity incentive bonuses. Annual non-equity bonuses are designed to reward superior executive performance while reinforcing our short-term strategic operating goals. The Compensation Committee establishes each year a target award for each Named Executive Officer based on a percentage of base salary, and based on any applicable terms in any individual employment agreements. Annual bonus targets as a percentage of salary increase with executive rank so that for the more senior executives, a greater proportion of their total cash compensation is contingent upon annual performance.

At the beginning of the performance year, each Named Executive Officer, in conjunction with the Chief Executive Officer, establishes annual goals and objectives. Actual bonus awards are based on an assessment against the pre-established goals for each Named Executive Officer's individual performance, the performance of the business function for which he is responsible, the executive management team's overall performance, and/or our company's overall performance for the year. For any given performance year, proposed annual bonuses may range from 0% to 100% of target, or higher under certain circumstances, based on corporate, team and individual performance. Corporate, team and individual performance has a significant impact on the annual bonus amounts because the Compensation Committee believes it is a precise measure of how the Named Executive Officer contributed to business results.

Pursuant to their respective employment agreements, Mr. Baluch, Mr. Cook and Mr. Armstrong are each eligible for an annual bonus, which may equal up to 80%, 30% and 35%, respectively, of his base salary then in effect, as determined by our Board or compensation committee. In determining such bonus, our Board or compensation committee will take into consideration the achievement of specified company objectives, predetermined by the Board in consultation with the Chief Executive Officer, and specified personal objectives, predetermined by the Board and the Chief Executive Officer. For fiscal year 2016, Mr. Baluch's bonus was prorated, contingent upon Mr. Baluch

meeting performance objectives established by the Board and Mr. Baluch.

Non-equity incentive bonuses for 2017 are not yet calculable because they are subject to performance criteria that extend into 2018 related to our Phase 3 clinical trial in hemodialysis catheters for Neutrolin. We will report in a Form 8-K the bonuses, if any, that are achieved.

Long-Term Incentive Equity Awards

We believe that long-term performance is achieved through an ownership culture that encourages high performance by our Named Executive Officers through the use of stock-based awards. Our 2006 Stock Plan and 2013 Stock Plan were each established to provide our employees, including our Named Executive Officers, with incentives to help align employees' interests with the interests of our stockholders. Effective upon the approval by our stockholders of our 2013 Stock Plan, we were no longer able to issue any award under the 2006 Stock Plan. The Compensation Committee believes that the use of stock-based awards offers the best approach to achieving our compensation goals. We have historically elected to use stock options as the primary long-term equity incentive vehicle; however, the Compensation Committee has used restricted stock in the past and may in the future utilize restricted stock as part of our long-term incentive program. We have selected the Black-Scholes method of valuation for share-based compensation. Due to the early stage of our business and our desire to preserve cash, we may provide a greater portion of total compensation to our Named Executive Officers through stock options and restricted stock grants than through cash-based compensation. The Compensation Committee generally oversees the administration of our 2006 Stock Plan and our 2013 Stock Plan.

Stock Options

Our 2013 Stock Plan (and formerly our 2006 Stock Plan) authorizes us to grant options to purchase shares of common stock to our employees, directors and consultants.

The Compensation Committee reviews and approves stock option awards to Named Executive Officers based upon a review of competitive compensation data, its assessment of individual performance, a review of each Named Executive Officer's existing long-term incentives, and retention considerations. Periodic stock option grants are made at the discretion of the Compensation Committee to eligible employees and, in appropriate circumstances, the Compensation Committee considers the recommendations of our Chief Executive Officer.

Stock options granted to employees have an exercise price equal to the fair market value of our common stock on the day of grant, typically vest over a time or upon the achievement of certain performance-based milestones and are based upon continued employment, and generally expire 10 years after the date of grant. The fair value of the options granted to the Named Executive Officers in the Summary Compensation Table is determined in accordance with the Black-Scholes method of valuation for share-based compensation. Incentive stock options also include certain other terms necessary to ensure compliance with the Internal Revenue Code of 1986.

We expect to continue to use stock options as a long-term incentive vehicle because:

Stock options align the interests of our Named Executive Officers with those of our stockholders, supporting a pay-for-performance culture, foster employee stock ownership, and focus the management team on increasing value for our stockholders.

Stock options are performance-based. All of the value received by the recipient of a stock option is based on the growth of the stock price. In addition, stock options can be issued with vesting based on the achievement of specified milestones.

Stock options help to provide balance to the overall executive compensation program as base salary and annual bonuses focus on short-term compensation, while the vesting of stock options increases stockholder value over the

longer term.

The vesting period of stock options encourages executive retention and the preservation of stockholder value. In determining the number of stock options to be granted to our Named Executive Officers, we take into account the individual's position, scope of responsibility, ability to affect profits and stockholder value and the individual's historic and recent performance and the value of stock options in relation to other elements of the individual Named Executive Officer's total compensation.

Restricted Stock

Our 2013 Stock Plan (and formerly our 2006 Stock Plan) authorizes us to grant restricted stock. Restricted stock grants were awarded to John Armstrong in 2017 and are included in the summary compensation table. In order to implement our long-term incentive goals, we may grant shares of restricted stock in the future.

Executive Benefits and Perquisites

Our Named Executive Officers, some of whom may be parties to employment or consulting agreements, will continue to be parties to such agreements in their current form until the expiration or termination of the employment or consulting agreement or subject to the terms of the agreements, until such time as the Compensation Committee determines in its discretion that revisions to such agreements are advisable. In addition, consistent with our compensation philosophy, we intend to continue to maintain our current benefits for our Named Executive Officers, including medical, dental and life insurance and the ability to contribute to a 401(k) plan; however, the Compensation Committee in its discretion may revise, amend or add to the officer's executive benefits if it deems it advisable. We believe these benefits are currently comparable to benefit levels for comparable companies.

Employment Agreements

Employment Agreements with Current Named Executive Officers

On September 27, 2016, we entered into an employment agreement with Khoso Baluch, our Chief Executive Officer. On January 30, 2017, we entered into an employment agreement, effective February 1, 2017, with Robert Cook to serve as our Chief Financial Officer. On March 1, 2017, we entered into an employment agreement with John Armstrong to serve as our Executive Vice President for Technical Operations. After the initial three-year term of each employment agreement, the agreement will automatically renew for additional successive one-year periods, unless either party notifies the other in writing at least 90 days before the expiration of the then current term that the agreement will not be renewed.

Pursuant to their respective agreements, Mr. Baluch will receive an annual salary of \$375,000, Mr. Cook an annual salary of \$350,000 and Mr. Armstrong an annual salary of \$310,000, which cannot be decreased unless all officers and/or members of our executive management team experience an equal or greater percentage reduction in base salary and/or total compensation, provided that any reduction in executive's salary may be no greater than 25%. Each executive will be eligible for an annual bonus, which may equal up to 80% for Mr. Baluch, up to 30% for Mr. Cook and up to 35% for Mr. Armstrong, of his base salary then in effect, as determined by our Board or the Compensation Committee. In determining such bonus, our Board or the Compensation Committee will take into consideration the achievement of specified company objectives, predetermined by our Board and Chief Executive Officer, in the case of Mr. Baluch, and by our Chief Executive Officer in the case of Mr. Cook and Mr. Armstrong, and approved by the Board or the Compensation Committee, and specified personal objectives, predetermined by the Board with each executive. For fiscal year 2017, Mr. Cook's and Mr. Armstrong's bonuses were prorated, contingent upon each meeting performance objectives established by the Board with the executive. Each executive must be employed through December 31 of a given year to earn that year's annual bonus.

The following provisions of the employment agreements with Mr. Baluch, Mr. Cook, and Mr. Armstrong are identical except where noted.

If we terminate the executive's employment for Cause (as defined below), the executive will be entitled to receive only the accrued compensation due to him as of the date of such termination, rights to indemnification and directors' and officers' liability insurance, and as otherwise required by law. All unvested shares of restricted stock in the case of Mr. Baluch, and all unvested options then held by the executive will be forfeited to us as of such date.

If we terminate the executive's employment other than for Cause, death or disability, other than by notice of nonrenewal, or if the executive resigns for Good Reason (as defined below), the executive will receive the following benefits: (i) payment of any accrued compensation and any unpaid bonus for the prior year, as well as rights to indemnification and directors' and officers' liability insurance and any rights or privilege otherwise required by law; (ii) we will continue to pay his base salary and benefits for a period of twelve months in the case of Mr. Baluch and nine months for the other executives following the effective date of the termination of employment; (iii) payment on a prorated basis for any target bonus for the year of termination based on the actual achievement of the specified bonus objectives; (iv) if the executive timely elects continued health insurance coverage under COBRA, then we will pay the premium to continue such coverage for him and his eligible dependents in an amount equal to the portion paid for by us during the executive's employment until the conclusion of the time when he is receiving continuation of base salary payments or until he becomes eligible for group health insurance coverage under another employer's plan, whichever occurs first, provided however that we have the right to terminate such payment of COBRA premiums on behalf of the executive and instead pay him a lump sum amount equal to the COBRA premium times the number of months remaining in the specified period if we determine in our discretion that continued payment of the COBRA premiums is or may be discriminatory under Section 105(h) of the Internal Revenue Code of 1986, as amended; and (v) in the case of Mr. Baluch, all restricted shares and stock options, and in the case of Mr. Cook, all unvested time-based stock options that are scheduled to vest on or before the next succeeding anniversary of the date of termination shall be accelerated and deemed to have vested as of the termination date. The separation benefits set forth above are conditioned upon the executive executing a release of claims against us, our parents, subsidiaries and affiliates and each such entities' officers, directors, employees, agents, successors and assigns in a form acceptable to us, within a time specified therein, which release is not revoked within any time period allowed for revocation under applicable law.

For purposes of the agreement, "Cause" is defined as: (i) the willful failure, disregard or refusal by the executive to perform his material duties or obligations under the agreement (other than as a result of executive's mental incapacity or illness, as confirmed by medical evidence provided by a physician selected by us) that, in the case of Mr. Cook and Mr. Armstrong, is not cured, to the extent subject to cure, by the executive to our reasonable satisfaction within 30 days after we gave written notice thereof to executive; (ii) any willful, intentional or grossly negligent act by the executive having the effect of materially injuring (whether financially or otherwise) our business or reputation or any of our affiliates; (iii) executive's conviction of any felony involving moral turpitude (including entry of a guilty or nolo contendere plea); (iv) the executive's qualification as a "bad actor," as defined by 17 CFR 230.506(a); (v) the good faith determination by the Board, after a reasonable and good-faith investigation by us that the executive engaged in some form of harassment or discrimination prohibited by law (including, without limitation, harassment on the basis of age, sex or race) unless the executive's actions were specifically directed by the Board; (vi) any material misappropriation or embezzlement by the executive of our property or our affiliates (whether or not a misdemeanor or felony); or (vii) material breach by the executive of the agreement that is not cured, to the extent subject to cure, by executive to our reasonable satisfaction within 30 days after we give written notice thereof to the executive (20 days in the case of Mr. Baluch).

For purposes of the agreement, "Good Reason" is defined as: (i) any material breach of the agreement by us; (ii) any material diminution by us of the executive's duties, responsibilities, or authority; (iii) a material reduction in the executive's annual base salary unless all officers and/or members of our executive management team experience an equal or greater percentage reduction in annual base salary and/or total compensation; (iv) in the case of Mr. Cook and Mr. Armstrong, a required relocation of the primary place of performance of the executive's duties to a location more than 50 miles from our then location in Bedminster, New Jersey, provided that a change in the location of the primary place of performance of the executive's duties will not constitute Good Reason if such change occurs prior to a change in control and we only require the executive to physically work at that new location two days or less per workweek and provide reimbursement of the executive's reasonable travel expenses in commuting to such new location; or (v) a material reduction in the executive's target bonus level unless all officers and/or members of our executive

management team experience an equal or greater percentage reduction related to target bonus levels.

If the executive terminates his employment by written notice of termination or if the executive or we terminate his employment by providing a notice of nonrenewal at least 90 days before the agreement is set to expire, the executive will not be entitled to receive any payments or benefits other than any accrued compensation, any unpaid prior year's bonus, rights to indemnification and directors' and officers' liability insurance and as otherwise required by law.

If the executive's employment is terminated as a result of his death or disability, we will pay him or his estate, as applicable, any accrued compensation and any unpaid prior year's bonus.

Our agreements with Mr. Baluch, Mr. Cook and Mr. Armstrong each contain a non-compete provision that provides that during the term of each agreement and the 12-month period immediately following the executive's separation from employment for any reason, the executive is prohibited from engaging in any business involving the development or commercialization of a preventive anti-infective product that would be a direct competitor of Neutrolin or a product containing taurolidine or any other product being actively developed or produced by us within the United States and the European Union on the date of termination of his or her employment.

Employment Agreements with Former Named Executive Officer

On August 24, 2017, Dr. Judith Abrams, our former Chief Medical Officer, resigned for personal reasons. The Company did not owe Dr. Abrams any severance obligations under her employment agreement. In connection with her resignation, on August 25, 2017, we entered into a consulting agreement with Dr. Abrams for a term of up to nine months. Pursuant to the consulting agreement, Dr. Abrams received a monthly payment of approximately \$29,000, an upfront payment of approximately \$17,000, vesting in full of an option to purchase 46,250 shares of our common stock granted under her employment agreement, and, at her option, COBRA premiums for the period during which she receives monthly payments under the consulting agreement.

Tax and Accounting Considerations

U.S. federal income tax generally limits the tax deductibility of compensation we pay to our Named Executive Officers to \$1.0 million in the year the compensation becomes taxable to the executive officers. There is an exception to the limit on deductibility for performance-based compensation that meets certain requirements. Although deductibility of compensation is preferred, tax deductibility is not a primary objective of our compensation programs. Rather, we seek to maintain flexibility in how we compensate our executive officers so as to meet a broader set of corporate and strategic goals and the needs of stockholders, and as such, we may be limited in our ability to deduct amounts of compensation from time to time. Accounting rules require us to expense the cost of our stock option grants. Because of option expensing and the impact of dilution on our stockholders, we pay close attention to, among other factors, the type of equity awards we grant and the number and value of the shares underlying such awards.

Pension Benefits

We do not maintain any qualified or non-qualified defined benefit plans. As a result, none of our Named Executive Officers participate in or have account balances in qualified or non-qualified defined benefit plans sponsored by us. Our Compensation Committee may elect to adopt qualified or non-qualified benefit plans in the future if it determines that doing so is in our best interests.

Nonqualified Deferred Compensation

None of our Named Executive Officers participate in or have account balances in nonqualified defined contribution plans or other non-qualified deferred compensation plans maintained by us. Our Compensation Committee may elect to provide our officers and other employees with non-qualified defined contribution or other non-qualified deferred compensation benefits in the future if it determines that doing so is in our best interests.

(“Elliott Associates”) may be deemed the beneficial owner of 8,614,866 shares of our common stock through securities held by it and by Manchester Securities Corp., a wholly-owned subsidiary of Elliott Associates (“Manchester”), and Elliott International, L.P. (“Elliott International”), the investment advisor of which is an affiliate of the investment advisor of Elliott Associates. Elliott Associates beneficially holds: (i) 2,833,470 shares of our common stock held by Elliott International, (ii) 1,333,398 shares of our common stock held by Elliott Associates, (iii) May 2013 warrants held by Manchester exercisable for 500,000 shares of our common stock, (iv) 52,500 shares of our Series C-2 non-voting convertible preferred stock held by Elliott Associates convertible into 525,000 shares of our common stock, (v) October 2013 warrants held by Elliott Associates exercisable for 262,500 shares of our common stock, (vi) 97,500 shares of our Series C-2 non-voting convertible preferred stock held by Elliott International convertible into 975,000 shares of our common stock, (vii) October 2013 warrants held by Elliott International exercisable for 487,500 shares of our common stock, (viii) 73,962 shares of our Series D non-voting convertible preferred stock held by Manchester convertible into 1,479,240 shares of our common stock, (ix) March 2015 Warrants held by Manchester convertible into 200,000 shares of our common stock, (x) May 2017 Series A warrants held by Elliott International convertible into 1,360,001 shares of our common stock, (xi) May 2017 Series A warrants held by Elliott Associates convertible into 640,000 shares of our common stock, (xii) May 2017 Series B warrants held by Elliott International convertible into 1,360,001 shares of our common stock, (xiii) May 2017 Series B warrants held by Elliott Associates convertible into 640,000 shares of our common stock, (xiv) 89,623 shares of our Series E non-voting convertible preferred stock held by Manchester convertible into 1,959,759 shares of our common stock, (xv) 1,360 shares of our Series F non-voting convertible preferred stock held by Elliott International convertible into 2,147,142 shares of our common stock (subject to adjustment), (xvi) 640 shares of our Series F non-voting convertible preferred stock held by Elliott Associates convertible into 1,010,419 shares of our common stock (subject to adjustment), (xvii) November 2017 warrants exercisable for 384,103 shares of our common stock held by Elliott International, and (xviii) November 2017 warrants exercisable for 180,755 shares of our common stock held by Elliott Associates (the May 2013 warrants, the October 2013 warrants, the March 2015 Warrants, the May 2017 Series A warrants, the May 2017 Series B warrants, the November 2017 warrants and all shares of preferred stock shall collectively be referred to herein as the “Convertible Securities”). However, in accordance with Rule 13d-4 under the Exchange Act, the number of shares of our common stock into which the Convertible Securities are convertible or exercisable, as applicable, are limited pursuant to the terms of the Convertible Securities to that number of shares of our common stock which would result in Elliott Associates having aggregate beneficial ownership of, with respect to the May 2013 warrants, the October 2013 warrants, the March 2015 Warrants, the May 2017 Series A warrants, the May 2017 Series B warrants, the November 2017 warrants, the Series C-2 preferred stock, the Series D preferred stock, the Series E preferred stock and the Series F preferred stock, 9.99% of the total issued and outstanding shares of our common stock (the “Ownership Limitation”). Elliott Associates disclaims beneficial ownership of any and all shares of our common stock issuable upon any conversion or exercise of the Convertible Securities if such conversion or exercise would cause Elliott Associates’ aggregate beneficial ownership to exceed or remain above the applicable Ownership Limitation (as is currently the case). Therefore, Elliott Associates disclaims beneficial ownership of any shares of our common stock, issuable upon any conversion or exercise of the May 2013 warrants, the October 2013 warrants, the March 2015 Warrants, the May 2017 Series A warrants, the May 2017 Series B warrants, the November 2017 warrants, the Series C-2 preferred stock, the Series D preferred stock, the Series E preferred stock and the Series F preferred stock, which conversion or exercise would be prohibited by the Ownership Limitation. Item 13.

Certain Relationships and Related Transactions and Director Independence

Related Party Transactions

In September 2014, as part of the removal of anti-dilution, price reset and change of control provisions in various securities that had caused those securities to be classified as derivative liabilities, the Company entered into a Consent and Exchange Agreement with Manchester, pursuant to which Manchester had a right of 60% participation in equity financings undertaken by the Company prior to September 15, 2017. Pursuant to this right of participation, Manchester elected partial participation in the equity financing that the Company closed on May 3, 2017 and invested \$2,000,000.

On March 3, 2015, the Company entered into a backstop agreement with Manchester under which Manchester had agreed to lend the Company, at its request, up to \$3,000,000. The Company did not access the loan and the agreement expired on April 30, 2015. The Company issued two warrants exercisable for an aggregate of up to 283,400 common shares with an exercise price of \$7.00 per share and a term of five years as a result of entering into the backstop agreement. Additionally, the Company granted Manchester the right for as long as it or its affiliates hold any of the Company's common stock or securities convertible into its common stock to appoint up to two members to the Company's board of directors and/or to have up to two observers attend board meetings in a non-voting capacity. As of December 31, 2017, two board members and one observer had been appointed to the board. The Company's board of directors subsequently elected the observer to the board.

On April 28, 2017, we entered into an underwriting agreement with H.C. Wainwright & Co., LLC, relating to an underwritten public offering of 16,190,697 shares of our common stock, together with Series A warrants to purchase up to an aggregate of 12,143,022 shares of our common stock and Series B warrants to purchase up to an aggregate of 12,143,022 shares of our common stock, at a price to the public of \$0.75 per share and related warrants. Elliott purchased 2,657,668 shares of common stock, Series A warrants to purchase up to 2,000,000 shares, and Series B warrants to purchase up to 2,000,000 shares of our common stock. Our director, Gary Gelbfish, purchased 1,333,334 shares of common stock, Series A warrants to purchase up to 1,000,000 shares, and Series B warrants to purchase up to 1,000,000 shares of our common stock. The purchases by Elliott and Dr. Gelbfish were on the same terms as those for all other investors.

In November 2017, the Company entered into a securities purchase agreement with Elliott Associates, L.P. and Elliott International, L.P., (the “Buyers”), long-term institutional investors in CorMedix, whereby they purchased a newly issued CorMedix Series F convertible preferred stock at \$1,000 per share. (See Note 7 – Preferred Stock and Warrants). Separately, on November 9, 2017, the Company entered into a backstop agreement with the Buyers to purchase up to an additional \$3 million of Series F convertible preferred stock at \$1,000 per share, (the “Backstop Agreement”), at the Company’s sole discretion, beginning January 15, 2018, through March 31, 2018. Gross proceeds of the securities purchase agreement and the Backstop Agreement, if the Backstop Agreement is used in full, total an aggregate of \$5.0 million. As consideration for the Backstop Agreement, the Company issued 564,858 warrants, exercisable for three years, to purchase shares of the Company’s common stock at a per share exercise price of \$0.001. The number of shares issuable under the warrant was determined by the closing price of the Company’s common stock on November 8, 2017, which was \$0.5278, reduced by the amount of equity capital raised from the current ATM program and the sale of common stock to directors, executive officers and other certain employees of the Company totaling \$2.4 million. The Buyers may convert the preferred stock into common stock at its option at an effective price of \$0.6334 per share, which represents a 20% premium to the closing price of the Company’s common stock on November 8, 2017. The preferred stock will be mandatorily convertible on April 2, 2018, subject to certain equity conditions, at the lower of \$0.6334 and a 10% discount to the notional price at which an equity or equity linked transaction in an amount of \$5.0 million or more is completed by March 31, 2018, or if no such transaction is completed, a 10% discount to the closing price of the stock on March 31, 2018. The closing price of the common stock on April 2, 2018 was \$0.18, which means that the conversion price of the Series F convertible preferred stock is \$0.162, which, if converted without any further adjustment to the conversion price, would represent 12,345,679 shares of common stock. No warrants were issued under the securities purchase agreement.

In December 2017, the Company issued an aggregate of 624,246 shares of its common stock to its directors and executive officers and to certain of its employees at a per share purchase price of \$0.48. This common stock financing reduced the number of shares issuable under the warrants that the Company was required to issue to the Buyers pursuant to a Backstop Agreement. The Company realized gross proceeds of approximately \$300,000. The following related parties participated in the common stock financing:

		Amount	Number of Shares
Khoso Baluch	CEO and Director	\$50,000	104,166
Robert W. Cook	CFO	\$25,000	52,083
John Armstrong	Executive VP	\$10,000	20,833
Myron Kaplan	Chairman of the Board	\$50,000	104,166
Janet Dillione	Director	\$25,000	52,083
Gary Gelbfish	Director	\$25,000	52,083
Mehmood Khan	Director	\$25,000	52,083
Steven W. Lefkowitz	Director	\$65,000	135,416

In each instance, the purchase was on the same terms as all other purchasers in the offerings. The Audit Committee of the Board of Directors approved the purchase by these insiders.
