Commission file number: 001-14891

FRANKLIN WIRELESS CORP.

(Exact name of Registrant as specified in its charter)

Nevada	**95-3733534**
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification Number)
9707 Waples Street	
Suite 150	**92121**
San Diego, California	(Zip code)
(Address of principal executive offices)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act. (Check one)

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

The Registrant has 10,520,203 shares of common stock outstanding as of November 14, 2017.

NOTE ON FORWARD LOOKING STATEMENTS

You should keep in mind the following points as you read this Report on Form 10-Q:

The terms “we,” “us,” “our,” “Franklin,” “Franklin Wireless,” or the “Company” refer to Franklin Wireless Corp.

This Report on Form 10-Q contains statements which, to the extent they do not recite historical fact, constitute “forward looking” statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward looking statements are used under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operation,” and elsewhere in this Quarterly Report on Form 10-Q. You can identify these statements by the use of words like “may,” “will,” “could,” “should,” “project,” “believe,” “anticipate,” “expect,” “plan,” “estimate,” “forecast,” “potential,” “intend,” “continue,” and variations of t or comparable words. Forward looking statements do not guarantee future performance and involve risks and uncertainties. Actual results may differ substantially from the results that the forward looking statements suggest for various reasons, including those discussed under the caption “Risk Factors” in Item 1A of our Annual Report on Form 10-K for the year ended June 30, 2017. These forward looking statements are made only as of the date of this Report on Form 10-Q. We do not undertake to update or revise the forward looking statements, whether as a result of new information, future events or otherwise.

FRANKLIN WIRELESS CORP.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Franklin Wireless Corp. (“the Company”) have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and are presented in accordance with the requirements of Form 10-Q. In the opinion of management, the financial statements included herein contain all adjustments, including normal recurring adjustments, considered necessary to present fairly the financial position, the results of operations and comprehensive income (loss) and cash flows of the Company for the periods presented. These financial statements and notes hereto should be read in conjunction with the financial statements and notes thereto for the fiscal year ended June 30, 2017 included in the Company’s Form 10-K filed on September 28, 2017. The operating results or cash flows for the interim periods presented herein are not necessarily indicative of the results to be expected for any other interim period or the full year.

NOTE 2 - BUSINESS OVERVIEW

We are a provider of intelligent wireless solutions including mobile hotspots, routers and modems as well as innovative hardware and software products that support machine-to-machine (M2M) applications and the Internet of Things (IoT). Our M2M and IoT solutions include embedded modules, modems and gateways built to deliver reliable always-on connectivity supporting a broad spectrum of applications. These products are designed to solve wireless connectivity challenges in a variety of vertical markets including video surveillance, digital signage, home security, oil and gas exploration, kiosks, fleet management, smart grid, vehicle diagnostics, telematics and many more.

We have a majority ownership position in Franklin Technology Inc. ("FTI"), a research and development company located in Seoul, South Korea. FTI primarily provides design and development services to us for our wireless products.

Our products are generally marketed and sold directly to wireless operators, and indirectly through strategic partners and distributors. Our global customer base extends primarily from the United States to countries in South America, the Caribbean, Europe, the Middle East and Africa ("EMEA") and Asia.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and a subsidiary with a majority voting interest of 51.8% (48.2% is owned by non-controlling interests) as of September 30, 2017 and June 30, 2017. In the preparation of consolidated financial statements of the Company, intercompany transactions and balances are eliminated and net earnings are reduced by the portion of the net earnings of the subsidiary applicable to non-controlling interests.

Non-controlling Interest in a Consolidated Subsidiary

As of September 30, 2017, the non-controlling interest was $1,010,161, which represents a $9,033 increase from $1,001,128 as of June 30, 2017. The increase was due to the net income of subsidiary of $18,725 for the three months ended September 30, 2017, of which 48.2% was attributable to the non-controlling interests.

Segment Reporting

Public companies are required to report financial and descriptive information about their reportable operating segments. We identify our operating segments based on how our chief operating decision maker internally evaluates separate financial information, business activities and management responsibility. We have one reportable segment, consisting of the sale of wireless access products.

We generate revenues from four geographic areas, consisting of the United States, the Caribbean and South America, EMEA and Asia. The following enterprise-wide disclosure is prepared on a basis consistent with the preparation of the consolidated financial statements. The following table contains certain financial information by geographic area:

	Three Months Ended September 30,	
Net sales:	2017	2016
United States	$7,262,745	$12,522,650
Caribbean and South America	85,000	–
Europe, the Middle East and Africa (“EMEA”)	191,886	128,103
Asia	105,298	53,721
Totals	$7,644,929	$12,704,474

Long-lived assets, net (property and equipment and intangible assets):	September 30, 2017	June 30, 2017
United States	$ 1,350,494	$ 1,209,050
Asia	75,425	120,367
Totals	$ 1,425,919	$ 1,329,417

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from those estimates.

Fair Value of Financial Instruments

The carrying amounts of financial instruments such as cash equivalents, accounts receivable, accounts payable and debt approximate the related fair values due to the short-term maturities of these instruments. We invest our excess cash into financial instruments which management believes are readily convertible into cash, such as money market funds and certificates of deposit.

Allowance for Doubtful Accounts

Based upon our review of our collection history as well as the current balances associated with all significant customers and associated invoices, we do not believe an allowance for doubtful accounts was necessary as of September 30, 2017 and June 30, 2017.

Revenue Recognition

We recognize revenue when persuasive evidence of an arrangement exists, the price is fixed or determinable, collection is reasonably assured and delivery of products has occurred or services have been rendered. Accordingly, we recognize revenues from product sales upon shipment of the products to customers or when the products are received by the customers in accordance with shipping or delivery terms. We provide a warranty for one year from the shipment date, which is covered by our vendors pursuant to purchase agreements. Any net warranty related expenditures made by us have not historically been material. Under our sales return policy, customers may generally return products that are under warranty for repair or replacement.

Cost of Goods Sold

All costs associated with our contract manufacturers, as well as distribution, fulfillment and repair services are included in our cost of goods sold. Cost of goods sold also includes amortization expense associated with capitalized product development costs associated with complete technology.

Capitalized Product Development Costs

Our products contain embedded software internally developed by FTI, which is an integral part of these products because it allows the various components of the products to communicate with each other and the products are clearly unable to function without this coding.

The costs of product development that are capitalized once technological feasibility is determined (noted as Technology in progress in the Intangible Assets table) include certifications, licenses, payroll, employee benefits, and other headcount-related expenses associated with product development. We determine that technological feasibility for our products is reached after all high-risk development issues have been resolved. Once the products are available for general release to our customers, we cease capitalizing the product development costs and any additional costs, if any, are expensed. The capitalized product development costs are amortized on a product-by-product basis using the greater of straight-line amortization or the ratio of the current gross revenues to the current and anticipated future gross revenues. The amortization begins when the products are available for general release to our customers.

As of September 30, 2017, and June 30, 2017, capitalized product development costs in progress were $100,000 and $360,148, respectively, and these amounts are included in intangible assets in our consolidated balance sheets. During the three months ended September 30, 2017, we incurred $194,932 in capitalized product development costs, and such amounts are primarily comprised of certifications and licenses. All costs incurred before technological feasibility is reached are expensed and included in our consolidated statements of comprehensive income.

Research and Development Costs

Costs associated with research and development are expensed as incurred. Research and development costs were $946,980 and $802,382 for the three months ended September 30, 2017 and 2016, respectively.

Warranties

We provide a warranty for one year which is covered by our vendors and manufacturers under purchase agreements between the Company and the vendors. As a result, we believe we do not have any net warranty exposure and do not accrue any warranty expenses. Historically, the Company has not experienced any material net warranty expenditures.

Shipping and Handling Costs

Costs associated with product shipping and handling are expensed as incurred. Shipping and handling costs, which are included in selling, general and administrative expenses on the consolidated statements of comprehensive income (loss), were $192,366 and $317,811 for the three months ended September 30, 2017 and 2016, respectively.

Cash and Cash Equivalents

For purposes of the consolidated statements of cash flow, we consider all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

Inventories

Our inventories consist of finished goods and are stated at the lower of cost or net realizable value, cost being determined on a first-in, first-out basis. We assess the inventory carrying value and reduce it, if necessary, to its net realizable value based on customer orders on hand, and internal demand forecasts using management's best estimates given information currently available. Our customer demand is highly unpredictable, and can fluctuate significantly caused by factors beyond the control of the Company. We may write down our inventory value for potential obsolescence and excess inventory. As of September 30, 2017 and June 30, 2017, we have recorded an inventory reserve in the amount of $143,173 for inventories that we have identified as obsolete or slow-moving.

Property and Equipment

Property and equipment are recorded at cost. Significant additions or improvements extending useful lives of assets are capitalized. Maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful lives as follows:

Machinery	6 years
Office equipment	5 years
Molds	3 years
Vehicles	5 years
Computers and software	5 years
Furniture and fixtures	7 years
Facilities improvements	5 years or life of the lease, whichever is shorter

Goodwill and Intangible Assets

Goodwill and certain intangible assets were recorded in connection with the FTI acquisition in October 2009, and are accounted for in accordance with ASC 805, “Business Combinations.” Goodwill represents the excess of the purchase price over the fair value of the tangible and intangible net assets acquired. Intangible assets are recorded at their fair value at the date of acquisition. Goodwill and other intangible assets are accounted for in accordance with ASC 350, “Goodwill and Other Intangible Assets.” Goodwill and other intangible assets are tested for impairment at least annually and any related impairment losses are recognized in earnings when identified. No impairment was recognized during the periods ended September 30, 2017 and June 30, 2017.

The definite lived intangible assets consisted of the following as of September 30, 2017:

Definite lived intangible assets:	Expected Life	**Average Remaining life**	**Gross Intangible Assets**	**Accumulated Amortization**	**Net Intangible Assets**
Complete technology	3 years	-	$3,802,019	$ 3,802,019	$–
Complete technology	3 years	0.4 years	6,405	5,337	1,068
Complete technology	3 years	3.0 years	18,397	–	18,397
Supply and development agreement	8 years	-	1,121,000	1,121,000	–
Technology in progress	Not Applicable	-	100,000	–	100,000

Software	5 years	2.7 years	275,880	219,420	56,460
Patents	10 years	6.8 years	58,391	5,190	53,201
Certifications & licenses	3 years	2.1 years	3,153,606	2,165,249	988,357
Total as of September 30, 2017			$8,535,698	$ 7,318,215	$1,217,483

The definite lived intangible assets consisted of the following as of June 30, 2017:

Definite lived intangible assets:	Expected Life	**Average Remaining life**	**Gross Intangible Assets**	**Accumulated Amortization**	**Net Intangible Assets**
Complete technology	3 years	-	$3,799,617	$ 3,799,617	$–

Complete technology	3 years	0.7 years	6,405	4,804	1,601
Complete technology	3 years	3.0 years	18,397	–	18,397
Supply and development agreement	8 years	0.3 years	1,121,000	1,085,969	35,031
Technology in progress	Not Applicable	-	360,148	–	360,148
Software	5 years	2.7 years	239,398	216,829	22,569
Patents	10 years	7.0 years	58,391	4,693	53,698
Certifications & licenses	3 years	1.9 years	2,698,526	2,080,895	617,631
Total as of June 30, 2017			$8,304,284	$ 7,194,809	$1,109,475

Amortization expense recognized during the three months ended September 30, 2017 and 2016 was $123,406 and $126,483, respectively.

Long-lived Assets

We review for impairment of long-lived assets and certain identifiable intangibles whenever events or circumstances indicate that the carrying amount of assets may not be recoverable. We consider the carrying value of assets may not be recoverable based upon our review of the following events or changes in circumstances: the asset’s ability to continue to generate income from operations and positive cash flow in future periods; loss of legal ownership or title to the asset; significant changes in our strategic business objectives and utilization of the asset; or significant negative industry or economic trends. An impairment loss would be recognized when estimated future cash flows expected to result from the use of the asset are less than its carrying amount.

As of September 30, 2017, we are not aware of any events or changes in circumstances that would indicate that the long-lived assets are impaired.

Stock-based Compensation

The Company’s employee share-based awards result in a cost that is measured at fair value on an award’s grant date, based on the estimated number of awards that are expected to vest. Stock-based compensation is recognized on a straight-line basis over the award’s vesting period. The Company estimates the fair value of stock options using a Black-Scholes option pricing model. Transactions with non-employees in which goods or services are the consideration received for the issuance of equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. The measurement date of the fair value of the equity instrument issued is the earlier of the date on which the counterparty's performance is complete or the date on which it is probable that performance will occur. Stock-based compensation costs are reflected in the accompanying consolidated statements of comprehensive income (loss) based upon the underlying recipients' roles within the Company.

Income Taxes

The Company uses the asset and liability method of accounting for income taxes. Accordingly, deferred tax assets and liabilities are determined based on the difference between the financial statement and income tax bases of assets and

liabilities, using enacted tax rates in effect for the year in which the differences are expected to reverse. A valuation allowance is recorded to reduce the carrying amount of deferred tax assets, unless it is more likely than not such assets will be realized. Current income taxes are based on the year's taxable income for federal and state income tax reporting purposes and the annual change in deferred taxes.

The Company assesses its income tax positions and records tax benefits based upon management's evaluation of the facts, circumstances, and information available at the reporting date. For those tax positions where it is more likely than not that a tax benefit will be sustained, the Company records the largest amount of tax benefit with a greater than 50% likelihood of being realized upon ultimate settlement with a taxing authority having full knowledge of all relevant information. For those income tax positions where it is not more likely than not that a tax benefit will be sustained, no tax benefit is recognized in the financial statements. The Company classifies interest and penalties associated with such uncertain tax positions as a component of income tax expense.

As of September 30, 2017, we have no material unrecognized tax benefits. We recorded an income tax benefit of $136,001 for the three months ended September 30, 2017. We also recorded a increase in deferred tax asset, non-current, of $136,001 for the three months ended September 30, 2017.

Earnings per Share Attributable to Common Stockholders

Earnings per share is calculated by dividing the net income by the weighted-average number of common shares that were outstanding for the period, without consideration for potential common shares. Diluted earnings per share is calculated by dividing the net income by the sum of the weighted-average number of dilutive potential common shares outstanding for the period determined using the treasury-stock method or the as-converted method. Potentially dilutive shares are comprised of common stock options outstanding under our stock plan.

Concentrations

We extend credit to our customers and perform ongoing credit evaluations of such customers. We evaluate our accounts receivable on a regular basis for collectability and provide for an allowance for potential credit losses as deemed necessary. No reserve was required or recorded for any of the periods presented.

Substantially all of our revenues are derived from sales of wireless data products. Any significant decline in market acceptance of our products or in the financial condition of our existing customers could impair our ability to operate effectively.

A significant portion of our revenue is derived from a small number of customers. For the three months ended September 30, 2017, sales to our two largest customers accounted for 65% and 19% of our consolidated net sales, and 67% and 20% of our accounts receivable balance as of September 30, 2017. In the same period in 2016, sales to our two largest customers accounted for 63% and 35% of our consolidated net sales and 62% and 36% of our accounts receivable balance as of September 30, 2016. No other customers accounted for more than ten percent of total net sales for the three months ended September 30, 2017 and 2016, and no other customers accounted for more than ten percent of total accounts receivable as of September 30, 2017 and 2016.

For the three months ended September 30, 2017, we purchased the majority of our wireless data products from one manufacturing company located in Asia. If this manufacturing company were to experience delays, capacity constraints or quality control problems, product shipments to our customers could be delayed, or our customers could consequently elect to cancel the underlying product purchase order, which would negatively impact the Company's revenue. For the three months ended September 30, 2017, we purchased wireless data products from this manufacturer in the amount of $3,793,336, or 84% of total purchases, and had related accounts payable of $4,542,021 as of September 30, 2017. For the three months ended September 30, 2016, we purchased wireless data products from one manufacturing company in the amount of $10,038,063, or 99% of total purchases, and had related accounts payable of $10,047,423 as of September 30, 2016.

We maintain our cash accounts with established commercial banks. Such cash deposits exceed the Federal Deposit Insurance Corporation insured limit of $250,000 for each financial institution. However, we do not anticipate any losses on excess deposits.

Recently Issued Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (“FASB”) issued ASU 2015-11, Inventory—Simplifying the Measurement of Inventory. ASU 2015-11 requires inventory to be subsequently measured using the lower of cost and net realizable value, thereby eliminating the market value approach. Net realizable value is defined as the “estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation.” ASU 2015-11 was effective for us on July 1, 2017, and will be applied prospectively. Management does not expect that the adoption of this update will materially impact the Company's consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update No. 2016-02, Leases (Topic 842) (ASU 2016-02), which amends existing standards for leases to increase transparency and comparability among organizations by requiring recognition of lease assets and liabilities on the balance sheet and requiring disclosure of key information about such arrangements. ASU 2016-02 will be effective for us beginning in our first quarter of fiscal 2020, and early adoption is permitted. We are currently evaluating the impact of adopting the new standard on our consolidated financial statements and the timing and presentation of our adoption.

In March 2016, the FASB issued Accounting Standards Update No. 2016-09, Compensation-Stock Compensation (Topic 718) (ASU 2016-09), which provides guidance improvements to employee share-based payment accounting. The standard amends several aspects of current employee share-based payment accounting including income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. ASU 2016-09 was effective for us beginning in our first quarter of fiscal 2018. Management does not expect that the adoption of this update will materially impact the Company's consolidated financial statements given the Company's limited use of stock options.

In April 2016, the FASB issued Accounting Standards Update No. 2016-10, Revenue from Contracts with Customers (Topic 606)(ASU 2016-10), which amends and adds clarity to certain aspects of the guidance set forth in the upcoming revenue standard (ASU 2014-09) related to identifying performance obligations and licensing. In May 2016, the FASB issued Accounting Standards Update No. 2016-11, Revenue Recognition (Topic 605), which amends and rescinds certain revenue recognition guidance previously released within ASU 2014-09. In May 2016 the FASB issued Accounting Standards Update No. 2016-12, Revenue from Contracts with Customers (Topic 606) (ASU 2016-12), which provides narrow scope improvements and practical expedients related to ASU 2014-09. We are currently evaluating the impact of adopting these new standards on our consolidated financial statements. All of these new standards will be effective for us concurrently with ASU 2014-09, beginning in our first quarter of fiscal 2019, and early adoption is permitted.

NOTE 4 – PROPERTY AND EQUIPMENT

Property and equipment consisted of the following as of:

	September 30, 2017	June 30, 2017
Machinery and facility	$304,930	$303,986
Office equipment	384,046	380,473
Molds	984,722	968,606
	1,673,698	1,653,065
Less accumulated depreciation	(1,465,262)	(1,433,123)
Total	$208,436	$219,942

Depreciation expense associated with property and equipment was $32,139 and $40,855 for the three months ended September 30, 2017 and 2016, respectively.

NOTE 5 – ACCRUED LIABILITIES

Accrued liabilities consisted of the following as of:

	September 30, 2017	June 30, 2017
Accrued salaries, payroll deductions owed to government entities	$46,968	$45,278
Accrued vacation	58,898	56,612
Taxes	4,097	3,305
Other accrued liabilities	178,525	183,147
Total	$288,488	$288,342

NOTE 6 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share are computed using the weighted average number of shares outstanding during the period. Diluted earnings per share represent basic earnings per share adjusted to include the potentially dilutive effect of outstanding stock options.

For the three months ended September 30, 2017, we were in a net loss position and have excluded 399,000 stock options from the calculation of diluted net loss per shares because these securities are anti-dilutive. The weighted average number of shares outstanding used to compute earnings (loss) per share is as follows:

	Three Months Ended September 30,	
	2017	2016
Net income (loss) attributable to Parent Company	$(437,292)	$262,541
Weighted-average shares of common stock outstanding:		
Basic shares outstanding	10,520,203	10,471,818
Dilutive effect of common stock equivalents arising from stock options	–	258,449
Diluted shares outstanding	10,520,203	10,730,267
Basic earnings (loss) per share	$(0.04)	$0.03
Diluted earnings (loss) per share	$(0.04)	$0.02

NOTE 7 - COMMITMENTS AND CONTINGENCIES

Leases

We lease approximately 12,775 square feet of office space in San Diego, California, at a monthly rent of $23,115, pursuant to a lease that expires in October 2019. In addition to monthly rent, the lease includes payment for certain common area costs. Our facility is covered by an appropriate level of insurance and we believe it to be suitable for our use and adequate for our present needs. Rent expense for this office space was $69,344 for the three months ended September 30, 2017 and 2016.

Our Korea-based subsidiary, FTI, leases approximately 10,000 square feet of office space in Seoul, Korea, at a monthly rent of approximately $8,000. The lease expired on September 1, 2017 and was extended to September 1, 2019. FTI leases additional office space consisting of approximately 2,682 square feet, also located in Seoul, Korea, at a monthly rent of approximately $2,700, under a lease that expired on September 1, 2017 and was extended to September 1, 2019. In addition to monthly rent, the lease provides for periodic cost of living increases in the base rent and payment for certain common area costs. These facilities are covered by an appropriate level of insurance and we believe them to be suitable for our use and adequate for our present needs. Rent expense related to these leases was approximately $32,100 for the three months ended September 30, 2017 and 2016.

We lease one corporate housing facility in Seoul, Korea, primarily for our employees who travel, under a non-cancelable operating lease that expired September 5, 2017 and was extended to September 4, 2018. Rent expense related to this lease was $2,527 and $2,560 for the three months ended September 30, 2017 and 2016, respectively.

Litigation

We are from time to time involved in certain legal proceedings and claims arising in the ordinary course of business. Management does not believe that the outcome of these matters will have any material adverse effect on the Company.

Change of Control Agreements

On September 21, 2009, we entered into Change of Control Agreements with OC Kim, our President, and Yun J. (David) Lee, our Chief Operating Officer. Each Change of Control Agreement provides for a lump sum payment to the officer in case of a change of control of the Company. The term includes the acquisition of Common Stock of the Company resulting in one person or company owning more than 50% of the outstanding shares, a significant change in the composition of the Board of Directors of the Company during any 12-month period, a reorganization, merger, consolidation or similar transaction resulting in the transfer of ownership of more than fifty percent (50%) of the Company's outstanding Common Stock, or a liquidation or dissolution of the Company or sale of substantially all of the Company's assets.

The Change of Control Agreement with Mr. Kim calls for a payment of $5 million upon a change of control, and the agreement with Mr. Lee calls for a payment of $2 million upon a change of control.

The Board of Directors has approved extension of the Change of Control Agreements with Mr. Kim and Mr. Lee, through September 21, 2020.

NOTE 8 – LONG-TERM INCENTIVE PLAN AWARDS

We adopted the 2009 Stock Incentive Plan (“2009 Plan”) on June 11, 2009, which provided for the grant of incentive stock options and non-qualified stock options to our employees and directors. Options granted under the 2009 Plan generally have a term of ten years and generally vest and become exercisable at the rate of 33% after one year and 33% on the second and third anniversaries of the option grant dates. Historically, some stock option grants have included shorter vesting periods ranging from one to two years.

The estimated forfeiture rate considers historical turnover rates stratified into employee pools in comparison with an overall employee turnover rate, as well as expectations about the future. We periodically revise the estimated forfeiture rate in subsequent periods if actual forfeitures differ from those estimates. There was no compensation expense recorded under this method for the three months ended September 30, 2017.

A summary of the status of our stock options is presented below:

Options	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Life (In Years)	Aggregate Intrinsic Value
Outstanding as of June 30, 2017	399,000	$ 1.12	4.05	$ 451,820
Granted	–	–	–	–
Exercised	–	–	–	–
Cancelled	–	–	–	–
Forfeited or Expired	–	–	–	–
Outstanding as of September 30, 2017	399,000	$ 1.12	3.80	$ 551,570
Exercisable as of September 30, 2017	399,000	$ 1.12	3.80	$ 551,570

The aggregate intrinsic value in the preceding table represents the total pretax intrinsic value, based upon the Company’s closing stock price of $2.50 as of September 30, 2017, which would have been received by the option holders had all option holders exercised their options as of that date. The weighted-average grant-date fair value of stock options outstanding as of September 30, 2017, in the amount of 399,000 shares, was $1.03 per share.

As of September 30, 2017, there was no unrecognized compensation cost related to non-vested stock options granted.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our financial statements and related notes included elsewhere in this report. This report contains certain forward-looking statements relating to future events or our future financial performance. These statements are subject to risks and uncertainties which could cause actual results to differ materially from those discussed in this report. You are cautioned not to place undue reliance on this information, which speaks only as of the date of this report. We are not obligated to publicly update this information, whether as a result of new information, future events or otherwise, except to the extent we are required to do so in connection with our obligation to file reports with the SEC. For a discussion of the important risks to our business and future operating performance, see the discussion under the caption “Item 1A. Risk Factors” and under the caption “Factors That May Influence Future Results of Operations” in the Company’s Form 10-K for the year ended June 30, 2017, filed on September 28, 2017. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this report might not occur.

BUSINESS OVERVIEW

We are a provider of intelligent wireless solutions including mobile hotspots, routers and modems as well as innovative hardware and software products that support machine-to-machine (M2M) applications and the Internet of Things (IoT). Our M2M and IoT solutions include embedded modules, modems and gateways built to deliver reliable always-on connectivity supporting a broad spectrum of applications. These products are designed to solve wireless connectivity challenges in a variety of vertical markets including video surveillance, digital signage, home security, oil and gas exploration, kiosks, fleet management, smart grid, vehicle diagnostics, telematics and many more.

We have a majority ownership position in FTI, a research and development company located in Seoul, South Korea. FTI primarily provides design and development services to us for our wireless products.

Our products are generally marketed and sold directly to wireless operators, and indirectly through strategic partners and distributors. Our global customer base extends primarily from the United States to countries in South America, the Caribbean, EMEA and Asia.

FACTORS THAT MAY INFLUENCE FUTURE RESULTS OF OPERATIONS

We believe that our revenue growth will be influenced largely by (1) the successful maintenance of our existing customers, (2) the rate of increase in demand for wireless data products, (3) customer acceptance of our new products, (4) new customer relationships and contracts, and (5) our ability to meet customers' demands.

We have entered into and expect to continue to enter into new customer relationships and contracts for the supply of our products, and this may require significant demands on our resources, resulting in increased operating, selling, and marketing expenses associated with such new customers.

CRITICAL ACCOUNTING POLICIES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of these financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingencies at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods. Management evaluates these estimates and assumptions on an ongoing basis. Our estimates and assumptions have been prepared on the basis of the most current reasonably available information. The results of these estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates under different assumptions and conditions.

We have several critical accounting policies, which were described in our Annual Report on Form 10-K for the year ended June 30, 2017, that are both important to the portrayal of our financial condition and results of operations and require management's most difficult, subjective and complex judgments. Typically, the circumstances that make these judgments difficult, subjective and complex have to do with making estimates about the effect of matters that are inherently uncertain. There were no material changes to our critical accounting policies during the three months ended September 30, 2017.

RESULTS OF OPERATIONS

The following table sets forth, for the three months ended September 30, 2017 and 2016, our statements of comprehensive income including data expressed as a percentage of sales:

	Three Months Ended September 30,	
	2017	2016
Net sales	100.0%	100.0%
Cost of goods sold	81.0%	82.2%
Gross profit	19.0%	17.8%
Operating expenses	27.2%	14.9%
Income (loss) from operations	(8.2%)	2.9%
Other income (loss), net	0.8%	(0.3%)
Net income (loss) before income taxes	(7.4%)	2.6%
Income tax provision (benefit)	(1.8%)	1.1%
Net income (loss)	(5.6%)	1.5%
Non-controlling interest in net loss (income) of subsidiary	(0.1%)	0.6%
Net income (loss) attributable to Parent Company stockholders	(5.7%)	2.1%

THREE MONTHS ENDED SEPTEMBER 30, 2017 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2016

NET SALES - Net sales decreased by $5,059,545, or 39.8%, to $7,644,929 for the three months ended September 30, 2017 from $12,704,474 for the corresponding period of 2016. For the three months ended September 30, 2017, net sales by geographic regions, consisting of the United States, South America and the Caribbean, EMEA and Asia, were $7,262,745 (95.0% of net sales), $85,000 (1.1% of net sales), $191,886 (2.5% of net sales) and $105,298 (1.4% of net sales), respectively. For the three months ended September 30, 2016, net sales by geographic regions, consisting of the United States, South America and the Caribbean, EMEA and Asia, were $12,522,650 (98.6% of net sales), $0, $128,103 (1.0% of net sales) and $53,721 (0.4% of net sales), respectively.

Net sales in the United States decreased by $5,259,905, or 42.0%, to $7,262,745 for the three months ended September 30, 2017 from $12,522,650 for the corresponding period of 2016. The decrease in net sales was primarily due to lower product demand from two carrier customers. Net sales in the South American and Caribbean regions

increased to $85,000 for the three months ended September 30, 2017 from $0 for the three months ended September 30, 2016. The increase in net sales was primarily due to the general nature of sales in these regions, which often fluctuate significantly from period to period due to timing of orders placed by a relatively small number of customers. Net sales in EMEA increased by $63,783, or 49.8%, to $191,886 for the three months ended September 30, 2017 from $128,103 for the corresponding period of 2016. The increase in net sales was due to timing of orders placed by a carrier customer in Africa. Net sales in Asia increased by $51,577, or 96.0%, to $105,298 for the three months ended September 30, 2017 from $53,721 for the corresponding period of 2016. The increase in net sales was primarily due to higher product and component sales generated by FTI, which typically vary from period to period.

GROSS PROFIT – Gross profit decreased by $810,932, or 35.9%, to $1,450,479 for the three months ended September 30, 2017 from $2,261,411 for the corresponding period of 2016. The gross profit in terms of net sales percentage was 19.0% for the three months ended September 30, 2017 compared to 17.8% for the corresponding period of 2016. The decrease in gross profit was primarily due to the change in net sales as described above. The increase in gross profit in terms of net sales percentage was primarily due to variations in customer and product mix, competitive selling prices and product costs which generally vary from period to period and region to region.

OPERATING EXPENSES - Operating expenses increased by $179,678, or 9.5%, to $2,073,617 for the three months ended September 30, 2017 from $1,893,939 for the corresponding period of 2016. The increase in operating expenses was primarily due to higher research and development expenses resulting from headcount growth and higher overall payroll expenses, as well as increases in selling, general and administrative costs due to higher payroll and travel expenses, which were partially offset by decreased shipping and handling costs due to the lower volume of product shipments.

OTHER INCOME (LOSS), NET - Other income (loss), net increased by $98,136 to $58,878 for the three months ended September 30, 2017 from ($39,258) for the corresponding period of 2016. The increase in other income (loss), net was primarily due to product development funding received by FTI from a government entity.

LIQUIDITY AND CAPITAL RESOURCES

Our historical operating results, capital resources and financial position, in combination with current projections and estimates, were considered in management's plan and intentions to fund our operations over a reasonable period of time, which we define as the twelve month period ending from the date of the filing of this Form 10-Q. For purposes of liquidity disclosures, we assess the likelihood that we have sufficient available working capital and other principal sources of liquidity to fund our operating activities and obligations as they become due.

Our principal source of liquidity as of September 30, 2017 consisted of cash and cash equivalents of $11,754,627. We believe we have sufficient available capital to cover our existing operations and obligations through at least one year from the date of the filing of this Form 10-Q. Our long-term future cash requirements will depend on numerous factors, including our revenue base, profit margins, product development activities, market acceptance of our products, future expansion plans and ability to control costs. If we are unable to achieve our current business plan or secure additional funding that may be required, we would need to curtail our operations or take other similar actions outside the ordinary course of business in order to continue to operate as a going concern.

OPERATING ACTIVITIES - Net cash used in operating activities for the three months ended September 30, 2017 and 2016 was $2,287,911 and $2,200,389, respectively.

The $2,287,911 in net cash used in operating activities for the three months ended September 30, 2017 was primarily due to the decrease in accounts payable of $7,076,969 as well as our operating results (net income adjusted for depreciation, amortization and other non-cash charges), which were partially offset by the decreases in accounts receivable and inventories of $3,697,069 and $1,444,511, respectively.

The $2,200,389 in net cash used in operating activities for the three months ended September 30, 2016 was primarily due to the decrease in accounts payable of $2,699,632, which was partially offset by our operating results (net income adjusted for depreciation, amortization and other non-cash charges).

INVESTING ACTIVITIES – Net cash used in investing activities for the three months ended September 30, 2017 and 2016 was $252,047 and $127,591, respectively.

The $252,047 in net cash used in investing activities for the three months ended September 30, 2017 was primarily due to the payments for capitalized product development of $194,932 as well as the purchase of intangible assets of

$36,482.

The $127,591 in net cash used in investing activities for the three months ended September 30, 2016 was primarily due to the payments for capitalized product development of $82,500 as well as the purchase of intangible assets of $44,161.

FINANCING ACTIVITIES – Net cash provided by investing activities for the three months ended September 30, 2017 and 2016 was $0 and $47,100, respectively.

The $47,100 in net cash provided by financing activities for the three months ended September 30, 2016 was due to the cash received from the exercise of stock options.

CONTRACTUAL OBLIGATIONS AND OTHER COMMITMENTS

Leases

We lease approximately 12,775 square feet of office space in San Diego, California, at a monthly rent of $23,115, pursuant to a lease that expires in October 2019. In addition to monthly rent, the lease includes payment for certain common area costs. Our facility is covered by an appropriate level of insurance and we believe it to be suitable for our use and adequate for our present needs. Rent expense for this office space was $69,344 for the three months ended September 30, 2017 and 2016.

Our Korea-based subsidiary, FTI, leases approximately 10,000 square feet of office space in Seoul, Korea, at a monthly rent of approximately $8,000. The lease expired on September 1, 2017 and was extended to September 1, 2019. FTI leases additional office space consisting of approximately 2,682 square feet, also located in Seoul, Korea, at a monthly rent of approximately $2,700, under a lease that expired on September 1, 2017 and was extended to September 1, 2019. In addition to monthly rent, the lease provides for periodic cost of living increases in the base rent and payment for certain common area costs. These facilities are covered by an appropriate level of insurance and we believe them to be suitable for our use and adequate for our present needs. Rent expense related to these leases was approximately $32,100 for the three months ended September 30, 2017 and 2016.

We lease one corporate housing facility in Seoul, Korea, primarily for our employees who travel, under a non-cancelable operating lease that expired September 5, 2017 and was extended to September 4, 2018. Rent expense related to this lease was $2,527 and $2,560 for the three months ended September 30, 2017 and 2016, respectively.

Recently Issued Accounting Pronouncements

Refer to NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES in the Consolidated Financial Statements.

OFF-BALANCE SHEET ARRANGEMENTS

None.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a “smaller reporting company,” the Company is not required to respond to this item.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our President and Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based upon that evaluation, our President and our Chief Financial Officer have concluded that, as of September 30, 2017, our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized, and reported within the time periods specified in the rules and forms of the SEC and (ii) accumulated and communicated to our management, including our principal executive and principal accounting officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal controls over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) during the three months ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We have provided information about legal proceedings in which we are involved in Note 7 of the notes to consolidated financial statements for the three months ended September 30, 2017, contained within this Quarterly Report on Form 10-Q.

ITEM 1A. RISK FACTORS

Our Annual Report on Form 10-K for the fiscal year ended June 30, 2017, filed with the SEC on September 28, 2017 (the "Annual Report"), includes a detailed discussion of our risk factors under the heading "PART I, ITEM 1A – RISK FACTORS." You should carefully consider the risk factors discussed in our Annual Report, as well as other information in this quarterly report. Any of these risks could cause our business, financial condition, results of operations and future growth prospects to suffer. We are not aware of any material changes from the risk factors previously disclosed.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
