chardson Electronics and Light Speed Labs Establish Joint Venture Forming VConex, LLC

onex to Develop Security and Signage Solutions

Fox, IL USA, December 9, 2004: Richardson Electronics, Ltd. (Nasdaq: RELL), a global provider of engineered solutions Security Systems and Public Display markets announced today the forming of a joint venture with Light Speed Labs, L.P. of dison, Texas, an engineering company specializing in the development of video technologies. The newly formed VConex, C, will develop unique and proprietary security and display solutions which will be exclusively marketed through Richardson ctronics' Security and Display Systems Divisions.

e entered into this venture to leverage Light Speed Labs' technology and build innovative products that will be focused dominantly amongst larger, national accounts such as retail and hospitality chains," stated Wendy Diddell, Vice President a neral Manager for Richardson's Security Systems Division. "Our goal is to provide unique network security and display utions that take advantage of established IT infrastructures to lower ownership costs and improve functionality."

e VConex engineering team will expand on proprietary technologies developed by Light Speed Labs to create new product egories which integrate video acquisition, storage, retrieval and display into single solutions with secure global data access or network infrastructures. Initially the Company will focus on network displays for public view, network digital recorders, hig inition cameras and a combination of all of these products to make a complete network solution for video switching and trol. VConex will also develop network recorders for security applications that can be embedded into public view displays to display/players.
