New Jersey Resources Corporation

INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements contained in this report, including, without limitation, statements as to management expectations and beliefs presented in Part I, Item 2. "Management's Discussion and Analysis of Financial Condition and Results of Operations," Part I, Item 3. "Quantitative and Qualitative Disclosures about Market Risk," Part II, Item I. "Legal Proceedings" and in the notes to the financial statements are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can also be identified by the use of forward-looking terminology such as "may," "intend," "expect," "believe," "will" or "continue" or comparable terminology an are made based upon management's current expectations and beliefs as of this date concerning future developments and their potential effect upon New Jersey Resources Corporation (NJR or the Company). There can be no assurance that future developments will be in accordance with management's expectations or that the effect of future developments on the Company will be those anticipated by management.

The Company cautions readers that the assumptions that form the basis for forward-looking statements regarding customer growth, customer usage, qualifications for federal investment tax credits (ITCs) and Solar Renewable Energy Certificates (SRECs), financial condition, results of operations, cash flows, capital requirements, market risk and other matters for fiscal 2012 and thereafter include many factors that are beyond the Company's ability to control or estimate precisely, such as estimates of future market conditions, the behavior of other market participants and changes in the debt and equity capital markets. The factors that could cause actual results to differ materially from NJR's expectations include, but are not limited to, those discussed in Item 1A. Risk Factors of NJR's 2011 Annual Report on Form 10-K and Part II, Item 1A of this Form 10-Q, as well as the following:

weather and economic conditions;

demographic changes in the New Jersey Natural Gas (NJNG) service territory and their effect on NJNG's customer growth;

volatility of natural gas and other commodity prices and their impact on NJNG customer usage, NJNG's incentive programs, NJR Energy Services' (NJRES) operations and on the Company's risk management efforts; changes in rating agency requirements and/or credit ratings and their effect on availability and cost of capital to the Company;

the impact of volatility in the credit markets;

the ability to comply with debt covenants;

the impact to the asset values and resulting higher costs and funding obligations of NJR's pension and postemployment benefit plans as a result of a downturn in the financial markets, a lower discount rate, and impacts associated with the Patient Protection and Affordable Care Act;

accounting effects and other risks associated with hedging activities and use of derivatives contracts; commercial and wholesale credit risks, including the availability of creditworthy customers and counterparties, liquidity in the wholesale energy trading market and the Company's ability to recover all of NJRES' funds in the MF Global liquidation proceedings;

the ability to obtain governmental approvals and/or financing for the construction, development and operation of certain non-regulated energy investments;

•risks associated with the management of the Company's joint ventures and partnerships;

risks associated with our investments in solar energy projects, including the availability of regulatory and tax incentives, logistical risks and potential delays related to construction, permitting, regulatory approvals and electric grid interconnection, the availability of viable projects and NJR's eligibility for ITCs, the future market for SRECs and operational risks related to projects in service;

timing of qualifying for ITCs due to delays or failures to complete planned solar energy projects and the resulting effect on our effective tax rate and earnings;

•

the level and rate at which NJNG's costs and expenses are incurred and the extent to which they are allowed to be recovered from customers through the regulatory process;

access to adequate supplies of natural gas and dependence on third-party storage and transportation facilities for natural gas supply;

operating risks incidental to handling, storing, transporting and providing customers with natural gas;

risks related to our employee workforce;

the regulatory and pricing policies of federal and state regulatory agencies;

the costs of compliance with the proposed regulatory framework for over-the-counter derivatives;

the costs of compliance with present and future environmental laws, including potential climate change-related legislation;

risks related to changes in accounting standards;

the disallowance of recovery of environmental-related expenditures and other regulatory changes;

environmental-related and other litigation and other uncertainties; and

•he impact of natural disasters, terrorist activities, and other extreme events.

While the Company periodically reassesses material trends and uncertainties affecting the Company's results of operations and financial condition in connection with its preparation of management's discussion and analysis of results of operations and financial condition contained in its Quarterly and Annual Reports, the Company does not, by including this statement, assume any obligation to review or revise any particular forward-looking statement referenced herein in light of future events.
