Notes to Condensed Consolidated Financial Statements (Unaudited)
September 30, 2017

Note 1. Basis of Presentation

The accompanying unaudited, condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by generally accepted accounting principles for complete financial statements. The December 31, 2016 consolidated balance sheet included in this Form 10-Q was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair statement have been included. Operating results for the nine-month period ended September 30, 2017 are not necessarily indicative of the results expected for the fiscal year ending December 30, 2017. For further information, refer to the consolidated financial statements and accompanying notes included in HNI Corporation's (the "Corporation") Annual Report on Form 10-K for the fiscal year ended December 31, 2016. Certain reclassifications have been made within the financial statements to conform to the current year presentation.

Note 2. Stock-Based Compensation

The Corporation measures stock-based compensation expense at grant date, based on the fair value of the award, and recognizes expense over the employees' requisite service periods. Stock-based compensation expense is the cost of stock options and time-based restricted stock units issued under the HNI Corporation 2007 Stock-Based Compensation Plan and shares issued under the HNI Corporation 2002 Members' Stock Purchase Plan and the HNI Corporation Members' Stock Purchase Plan adopted in 2017. The following table summarizes stock-based compensation expense (in thousands):

	Three Months Ended September 30, 2017		Nine Months Ended October 1, 2016	
Stock-based compensation expense	\$ 956	\$ 959	\$6,759	\$ 7,400

The options and units granted by the Corporation had fair values as follows (in thousands):

	Nine Months Ended September 30, 2017		October 1, 2016	
Stock options	\$7,206	\$ 7,720		
Time-based restricted stock units	\$—	\$ 712		

The following table summarizes unrecognized compensation expense and the weighted-average remaining service period for non-vested stock options and restricted stock units as of September 30, 2017:

	Unrecognized Compensation Expense (in thousands)	Weighted-Average Remaining Service Period (years)
Non-vested stock options	\$ 4,103	1.2

Non-vested restricted stock units \$ 474 0.8

8

Note 3. Inventories

The Corporation values its inventory at the lower of cost or net realizable value with approximately 83 percent valued by the last-in, first-out ("LIFO") costing method.

	September 30, December 31,	
(In thousands)	2017	2016

	\$ 154,085	\$ 118,438

Note 4. Accumulated Other Comprehensive Income (Loss) and Shareholders' Equity

The following tables summarize the components of accumulated other comprehensive income (loss) and the changes in accumulated other comprehensive income (loss), net of tax, as applicable for the nine months ended (in thousands):

	Foreign Currency Translation Adjustment	Unrealized Gains (Losses) on Marketable Securities	Pension and Post-retirement Liabilities	Derivative Financial Instruments	Accumulated Other Comprehensive Income (Loss)

Tax (expense) or benefit	—	(6)	—	922	916
Amounts reclassified from accumulated other comprehensive (income) loss, net of tax	—	—	—	453	453
Balance as of October 1, 2016	\$ (356)	\$ 9	\$ (5,506)	\$ (1,131)	\$ (6,984)

Amounts in parentheses indicate reductions in equity.

Interest Rate Swap

In March 2016, the Corporation entered into an interest rate swap transaction to hedge \$150 million of outstanding variable rate revolver borrowings against future interest rate volatility. Under the terms of the interest rate swap, the Corporation pays a fixed rate of 1.29 percent and receives one month LIBOR on a \$150 million notional value

expiring January 2021. As of September 30, 2017, the fair value of the Corporation's interest rate swap was an asset of \$2.2 million, which is reflected in "Other Assets" in the Condensed Consolidated Balance Sheets. As of September 30, 2017 the fair value of the interest rate swap is reported net of tax as \$1.4 million in "Accumulated other comprehensive income (loss)" in the Condensed Consolidated Balance Sheets.

The following table details the reclassifications from accumulated other comprehensive income (loss) (in thousands):

Details about Accumulated Other Comprehensive Income (Loss) Components	Affected Line Item in the Statement Where Net Income is Presented	Three Months Ended		Nine Months Ended	
		September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Derivative financial instruments					
Interest rate swap	Interest (expense) or income	\$(27)	\$(302)	\$(328)	\$(717)
	Tax (expense) or benefit	10	111	121	264
	Net of tax	\$(17)	\$(191)	\$(207)	\$(453)

Amounts in parentheses indicate reductions to profit.

Stock Repurchase

During the nine months ended September 30, 2017, the Corporation repurchased 1,300,936 shares of its common stock at a cost of approximately \$52.9 million. During the nine months ended October 1, 2016, the Corporation repurchased 608,500 shares of its common stock at a cost of approximately \$30.4 million. As of September 30, 2017, \$84.0 million of the Corporation's Board of Directors' ("Board") current repurchase authorization remained unspent.

Dividend

During the nine months ended September 30, 2017 and October 1, 2016, the Corporation paid dividends to shareholders of \$0.845 and \$0.815 per share, respectively.

Note 5. Earnings Per Share

The following table reconciles the numerators and denominators used in the calculation of basic and diluted earnings per share ("EPS") (in thousands, except per share data):

	Three Months Ended		Nine Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Numerator:				
Numerator for both basic and diluted EPS attributable to HNI Corporation net income	\$37,271	\$33,813	\$55,956	\$74,685
Denominators:				
Denominator for basic EPS weighted-average common shares outstanding	43,683	44,547	43,970	44,412
Potentially dilutive shares from stock-based compensation plans	796	1,298	1,109	1,076
Denominator for diluted EPS	44,479	45,845	45,079	45,488
Earnings per share – basic	\$0.85	\$0.76	\$1.27	\$1.68
Earnings per share – diluted	\$0.84	\$0.74	\$1.24	\$1.64

The weighted-average common stock equivalents presented above do not include the effect of the common stock equivalents in the table below because their inclusion would be anti-dilutive.

	Three Months Ended		Nine Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Common stock equivalents excluded because their inclusion would be anti-dilutive	1,111,336	352,380	788,193	437,684

The Corporation implemented ASU No. 2016-09 in the first quarter of fiscal 2017, which had an immaterial impact on the number of potentially dilutive shares from stock-based compensation plans for the three months and nine months ended September 30, 2017. See "Note 14. Recently Adopted Accounting Standards" for more information regarding the implementation of ASU No. 2016-09.

Note 6. Restructuring

Restructuring costs recorded in the Condensed Consolidated Statements of Comprehensive Income are as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Cost of sales - accelerated depreciation	\$1,552	\$ 731	\$8,711	\$ 2,154
Restructuring charges	783	399	3,325	2,057
	\$2,335	\$ 1,130	\$12,036	\$ 4,211

Restructuring costs in both the quarter and year-to-date periods for 2017 were incurred as part of the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington and the office furniture manufacturing facility in Orleans, Indiana. The costs in both the quarter and year-to-date periods for 2016 were primarily incurred as part of the previously announced closure of the Paris, Kentucky hearth manufacturing facility.

The accrued restructuring expenses are expected to be paid in the next twelve months and are included in "Accounts payable and accrued expenses" in the Condensed Consolidated Balance Sheets. The following is a summary of changes in restructuring accruals during the nine months ended (in thousands):

	Severance	Facility	
		Exit Costs & Other	Total
Balance as of December 31, 2016	\$ 2,704	\$—	\$2,704
Restructuring charges, excluding accelerated depreciation	841	2,484	3,325
Cash payments	(2,711)	(1,349)	(4,060)
Balance as of September 30, 2017	\$ 834	\$ 1,135	\$1,969

The table below summarizes amortizable definite-lived intangible assets, which are reflected in "Goodwill and Other Intangible Assets" in the Condensed Consolidated Balance Sheets (in thousands):

	September 30, 2017			December 31, 2016

Net definite lived intangible assets	\$282,848	\$ 97,034	\$185,814	\$293,585	\$ 110,919	\$182,666

Aggregate amortization expense was as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2017	October 1, 2016	September 30, 2017	October 1, 2016
Amortization expense	\$4,404	\$ 3,235	\$10,492	\$ 8,575

Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the following five fiscal years is as follows (in millions):

	2017	2018	2019	2020	2021
Amortization expense	\$16.4	\$23.2	\$22.1	\$21.2	\$20.5

As events, such as acquisitions, dispositions, or impairments, occur in the future, these amounts may change.

The Corporation also owns certain intangible assets, which are deemed to have indefinite useful lives because they are expected to generate cash flows indefinitely. These indefinite-lived intangible assets are reflected in "Goodwill and Other Intangible Assets" in the Condensed Consolidated Balance Sheets (in thousands):

	September 30, 2017	December 31, 2016
Trademarks and trade names	\$ 37,505	\$ 38,054

In the third quarter of 2017, the Corporation recorded a \$6.0 million nonrecurring gain from the sale and license of an intangible asset, which is reflected in "Gain on sale and license of assets" in the Condensed Consolidated Statements of Comprehensive Income.

The Corporation evaluates its goodwill and indefinite-lived intangible assets for impairment on an annual basis during the fourth quarter, or whenever indicators of impairment exist. The Corporation estimates the fair value of its reporting units using various valuation techniques, with the primary technique being a discounted cash flow method. This method employs market participant based assumptions.

Note 8. Product Warranties

The Corporation issues certain warranty policies on its office furniture and hearth products that provide for repair or replacement of any covered product or component that fails during normal use because of a defect in design or workmanship. Reserves have been established for the anticipated future costs associated with the Corporation's warranty programs.

A warranty reserve is determined by recording a specific reserve for known warranty issues and an additional reserve for unknown claims expected to be incurred based on historical claims experience. Actual claims incurred could differ from the original estimates, requiring adjustments to the reserve. Activity associated with warranty obligations was as follows (in thousands):

	Nine Months Ended	
	September 30,	October 1,
	2017	2016
Balance at beginning of period	\$15,250	\$16,227
Accruals for warranties issued during period	15,197	14,762
Adjustments related to pre-existing warranties	(298)	359
Settlements made during the period	(15,424)	(15,379)
Balance at end of period	\$14,725	\$15,969

The current and long-term portions of the reserve for estimated settlements are included under "Accounts payable and accrued expenses" and "Other Long-Term Liabilities", respectively, in the Condensed Consolidated Balance Sheets.

The following table summarizes when these estimated settlements are expected to be paid (in thousands):

	September 30, December 31,	
	2017	2016
Current - in the next twelve months	\$ 8,958	\$ 6,975
Long-term - beyond one year	5,767	8,275
	\$ 14,725	\$ 15,250

Note 9. Post-Retirement Health Care

The following table sets forth the components of net periodic benefit costs included in the Condensed Consolidated Statements of Comprehensive Income (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,	October 1,	September 30,	October 1,
	2017	2016	2017	2016

Amortization of (gain)/loss	6	16	19	46

Net periodic benefit cost \$ 397 \$ 412 \$1,194 \$ 1,232

Note 10. Income Taxes

The Corporation's tax provision for interim periods is determined using an estimate of its annual effective tax rate, adjusted for discrete items. The following table summarizes the Corporation's income tax provision (dollars in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,	October 1,	September 30,	October 1,
	2017	2016	2017	2016
Income before income taxes	\$55,955	\$50,649	\$83,541	\$113,333
Income taxes	\$18,624	\$16,837	\$27,573	\$38,652
Effective tax rate	33.3	% 33.2	% 33.0	% 34.1

The effective tax rate was minimally higher in the three months ended September 30, 2017. The decrease in the effective tax rate for the first nine months was principally due to the impact of adopting ASU No. 2016-09 related to stock compensation in the first quarter of 2017. The new guidance requires excess tax benefits and tax deficiencies to be recorded in the income statement when awards vest or are settled. See "Note 14. Recently Adopted Accounting Standards" in the Notes to Condensed Consolidated Financial Statements. The Corporation's tax provision for the nine months ended September 30, 2017 includes a tax benefit of \$1.0 million related to the impact of this standard.

Note 11. Fair Value Measurements of Financial Instruments

For recognition purposes, on a recurring basis, the Corporation is required to measure at fair value its marketable securities, derivative financial instruments, variable-rate debt obligations, and deferred stock-based compensation. The marketable securities are comprised of money market funds, government securities, and corporate bonds. When available, the Corporation uses quoted market prices to determine fair value and classifies such measurements within Level 1. Where market prices are not available, the Corporation makes use of observable market-based inputs (prices or quotes from published exchanges and indexes) to calculate fair value using the market approach, in which case the measurements are classified within Level 2.

Financial instruments measured at fair value were as follows (in thousands):

	Fair value as of measurement date	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Balance as of September 30, 2017

The index below indicates the line item in the Condensed Consolidated Balance Sheets where the financial instruments are reported:

- (1) "Cash and cash equivalents"
- (2) Current portion - "Short-term investments"; Long-term portion - "Other Assets"
- (3) Current portion - "Prepaid expenses and other current assets"; Long-term portion - "Other Assets"
- (4) Current portion - "Current maturities of long-term debt"; Long-term portion - "Long-Term Debt"
- (5) Current portion - "Current maturities of other long-term obligations"; Long-term portion - "Other Long-Term Liabilities"

Note 12. Long-Term Debt

Long-term debt is as follows (in thousands):

	September 30, 2017	December 31, 2016
Note payable to bank, revolving credit facility with interest at a variable rate (September 30, 2017 - 2.5%; December 31, 2016 - 1.8%)	\$ 306,800	\$ 214,000
Other notes and amounts	5,470	17
Total debt	312,270	214,017
Less: Current maturities of long-term debt	17,270	34,017
Long-term debt	\$ 295,000	\$ 180,000

The Corporation's revolving credit facility under the current credit agreement was entered into January 6, 2016 and matures January 6, 2021. The Corporation deferred the debt issuance costs related to the credit agreement, which are classified as assets, and is amortizing them over the term of the credit agreement. The current portion, which is to be amortized over the next twelve months, is reflected in "Prepaid expenses and other current assets" in the Condensed Consolidated Balance Sheets. The long-term portion is reflected in "Other Assets" in the Condensed Consolidated Balance Sheets.

As of September 30, 2017, there was \$307 million outstanding under the \$400 million revolving credit facility of which \$295 million was classified as long-term as the Corporation does not expect to repay the borrowings within a year. Because the Corporation expects, but is not required, to repay the remaining \$12 million in the next twelve months, it was classified as current.

The revolving credit facility under the credit agreement is the primary source of committed funding from which the Corporation finances its planned capital expenditures and strategic initiatives, such as acquisitions, repurchases of common stock, and certain working capital needs.

The credit agreement contains a number of covenants. Non-compliance with covenants in the credit agreement could prevent the Corporation from being able to access further borrowings under the revolving credit facility, require immediate repayment of all amounts outstanding with respect to the revolving credit facility, and/or increase the cost of borrowing.

Certain covenants require maintenance of financial ratios as of the end of any fiscal quarter, including:

- a consolidated interest coverage ratio (as defined in the credit agreement) of not less than 4.0 to 1.0, based upon the ratio of (a) consolidated EBITDA for the last four fiscal quarters to (b) the sum of consolidated interest charges; and
- a consolidated leverage ratio (as defined in the credit agreement) of not greater than 3.5 to 1.0, based upon the ratio of (a) the quarter-end consolidated funded indebtedness to (b) consolidated EBITDA for the last four fiscal quarters.

The most restrictive of the financial covenants is the consolidated leverage ratio requirement of 3.5 to 1.0. Under the credit agreement, consolidated EBITDA is defined as consolidated net income before interest expense, income taxes, and depreciation and amortization of intangibles, as well as non-cash, nonrecurring charges, and all non-cash items increasing net income. As of September 30, 2017, the Corporation was below the maximum allowable ratio and was in compliance with all of the covenants and other restrictions in the credit agreement. The Corporation expects to remain in compliance over the next twelve months.

Note 13. Guarantees, Commitments, and Contingencies

The Corporation utilizes letters of credit and surety bonds in the amount of \$19 million to back certain insurance policies and payment obligations. The Corporation utilizes trade letters of credit and banker's acceptances in the amount of \$5 million to guarantee certain payments to overseas suppliers. The letters of credit, bonds, and banker's acceptances reflect fair value as a condition of their underlying purpose and are subject to competitively determined fees.

The Corporation has contingent liabilities which have arisen in the ordinary course of its business, including liabilities relating to pending litigation, environmental remediation, taxes, and other claims. It is the Corporation's opinion that liabilities, if any, resulting from these matters are not expected to have a material adverse effect on the Corporation's financial condition, cash flows, or on the Corporation's quarterly or annual operating results when resolved in a future period.

Note 14. Recently Adopted Accounting Standards

In March 2016, the FASB issued ASU No. 2016-09, Improvements to Employee Share-Based Payment Accounting. The new standard is intended to simplify accounting for share based employment awards to employees. Changes include: all excess tax benefits/deficiencies should be recognized as income tax expense/benefit; entities can make elections on how to account for forfeitures; and cash paid by an employer when directly withholding shares for tax withholding purposes should be classified as a financing activity on the cash flow statement. The Corporation implemented the new standard in the first quarter of fiscal 2017. The primary impact of implementation was the recognition of excess tax benefits in the Corporation's provision for income taxes rather than paid-in capital beginning with the first quarter of fiscal 2017. Excess tax benefits will be recorded in the operating section of the Condensed Consolidated Statements of Cash Flows on a prospective basis. Prior to fiscal 2017, the tax benefits or shortfalls were recorded in financing cash flows. The presentation requirements for cash flows related to employee taxes paid for withheld shares in the financing section had no impact to any of the periods presented in the Corporation's Condensed Consolidated Statements of Cash Flows since such cash flows have historically been presented as a financing activity. The ongoing impact of the new standard resulted in the recognition of excess tax benefits in the Corporation's provision for income taxes of \$0.0 million and \$1.0 million as a net tax benefit for the three months and nine months ended September 30, 2017, respectively. Prior to the adoption of this standard, those amounts would have been recognized as an adjustment to "Additional paid-in capital" in the Condensed Consolidated Balance Sheets. See "Note 10. Income Taxes" in the Notes to Condensed Consolidated Financial Statements for further information.

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory. The new standard is intended to simplify the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost or net realizable value rather than the previous guidance of measuring inventory at the lower of cost or market. The Corporation implemented the new standard in the first quarter of fiscal 2017. As the Corporation previously calculated net realizable value when measuring inventory at the lower of cost or market, this standard had an immaterial effect on the condensed consolidated financial statements and related disclosures.

In January 2017, the FASB issued ASU No. 2017-04, Intangibles-Goodwill and Other (Topic 350). The new standard is to simplify the test for goodwill impairment by eliminating the step 2 requirement. Instead, an entity will perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. The standard is effective for fiscal 2020, but the Corporation has early adopted the standard in 2017. The Corporation has not been required to test for goodwill impairment through the third quarter of 2017.

Note 15. Reportable Segment Information

Management views the Corporation as being in two reportable segments based on industries: office furniture and hearth products, with the former being the principal business segment.

The aggregated office furniture segment manufactures and markets a broad line of metal and wood commercial and home office furniture which includes storage products, desks, credenzas, chairs, tables, bookcases, freestanding office partitions and panel systems, and other related products. The hearth products segment manufactures and markets a broad line of gas, electric, wood and biomass burning fireplaces, inserts, stoves, facings, and accessories, principally for the home.

Edgar Filing: HNI CORP - Form 10-Q

For purposes of segment reporting, intercompany sales between segments are not material, and operating profit is income before income taxes exclusive of certain unallocated corporate expenses. These unallocated corporate expenses include the net costs of the Corporation's corporate operations, interest income, and interest expense. Management views interest income and expense as corporate financing costs and not as a reportable segment cost. In addition, management applies an effective income tax rate to its consolidated income before income taxes so income taxes are not reported or viewed internally on a segment basis. Identifiable assets by segment are those assets applicable to the respective industry segments. Corporate assets consist principally of cash and cash equivalents, short-term investments, long-term investments, and corporate office real estate and related equipment.

No geographic information for revenues from external customers or for long-lived assets is disclosed since the Corporation's primary market and capital investments are concentrated in the United States.

Reportable segment data reconciled to the Corporation's condensed consolidated financial statements is as follows (in thousands):

Note 16. Acquisitions and Divestitures

OFM

On January 29, 2016, the Corporation acquired OFM, an office furniture company, with annual sales of approximately \$30 million at a purchase price of \$34.1 million, net of cash acquired, in an all cash transaction. The Corporation finalized the allocation of the purchase price during fourth quarter 2016. There were \$15 million of intangible assets other than goodwill associated with this acquisition with estimated useful lives ranging from three to ten years with amortization recorded on a straight-line basis based on the projected cash flow associated with the respective intangible assets. There was \$14 million of goodwill associated with this acquisition. The goodwill is deductible for income tax purposes.

Office Furniture Dealerships

As part of the Corporation's ongoing business strategy, it continues to acquire and divest small office furniture dealerships. There was no change to Goodwill in the first nine months of 2017 as a result of this activity. Goodwill increased approximately \$2 million in fiscal 2016 as a result of this activity.

Artcobell

The Corporation completed the sale of Artcobell, a K-12 education furniture business, on December 31, 2016. A pre-tax non-cash charge of approximately \$23 million and a \$10 million long-term note receivable, which was included in "Other Assets" in the Corporation's Consolidated Balance Sheets in Form 10-K for the fiscal year ended December 31, 2016, were recorded in relation to the sale. Artcobell had been included as part of the Corporation's office furniture segment. As of September 30, 2017, \$0.8 million of the note receivable is current and is included in "Prepaid expenses and other current assets" in the Condensed Consolidated Balance Sheets.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of the Corporation's historical results of operations and of its liquidity and capital resources should be read in conjunction with the Unaudited Condensed Consolidated Financial Statements of the Corporation and related notes. Statements that are not historical are forward-looking and involve risks and uncertainties. See "Forward-Looking Statements" at the end of this section.

Overview

The Corporation has two reportable segments: office furniture and hearth products. The Corporation is a leading global office furniture manufacturer and the leading manufacturer and marketer of hearth products. The Corporation utilizes a split and focused, decentralized business model to deliver value to customers via various brands and selling models. The Corporation is focused on growing its existing businesses while seeking out and developing new opportunities for growth.

Net sales for the third quarter of fiscal 2017 increased 2.5 percent to \$599.5 million when compared to the third quarter of fiscal 2016. The change was driven by an increase in both the office furniture and hearth products segments. Office furniture segment sales increased in the North American contract, supplies-driven, and international businesses, but were partially offset by a decrease of \$42.5 million from the net impact of acquisitions and divestitures of small office furniture companies. The hearth products segment saw an increase in the new construction business due to growth in single family housing and an increase in the retail business due to an increase in pellet appliance demand.

Gross profit percentage for the quarter decreased from prior year levels driven by unfavorable product and business mix, input cost inflation, and higher restructuring and transition costs, partially offset by higher volume and the impact of divestitures.

Total selling and administrative expenses decreased as a percentage of sales due to lower incentive based compensation and the impact of divestitures, partially offset by strategic investments.

The Corporation recorded \$2.3 million of restructuring costs and \$3.6 million of transition costs in the third quarter of 2017 in connection with the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington and the office furniture manufacturing facility in Orleans, Indiana and structural realignments in China and between office furniture facilities in Muscatine, Iowa. Specific items incurred include accelerated depreciation and production move costs. Of these charges, \$5.1 million was included in cost of sales. The Corporation also recorded a \$6.0 million nonrecurring gain from the sale and license of an intangible asset and a \$0.8 million gain on the sale of a closed facility in the third quarter.

Three Months Ended

Consolidated net sales for the third quarter of 2017 increased 2.5 percent or \$14.8 million compared to the same quarter last year. The change was driven by an increase in both the office furniture and hearth products segments. Office furniture segment sales increased in the North American contract, supplies-driven, and international businesses, but were partially offset by a decrease of \$42.5 million from the net impact of acquisitions and divestitures of small office furniture companies. The hearth products segment saw an increase in the new construction business due to growth in single family housing and an increase in the retail business due to an increase in pellet appliance demand.

Gross profit percentage for the third quarter of 2017 decreased to 36.9 percent compared to 37.9 percent for the same quarter last year. Gross margin for the quarter declined from prior year levels driven by unfavorable product and business mix, input cost inflation, and higher restructuring and transition costs, partially offset by higher volume and the impact of divestitures.

Third quarter 2017 cost of sales included \$1.6 million of restructuring costs and \$3.6 million of transition costs related to the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington and the office furniture manufacturing facility in Orleans, Indiana and structural realignments in China and between office furniture facilities in Muscatine, Iowa. Specific items incurred include accelerated depreciation and production move costs. Third quarter 2016 cost of sales included \$0.7 million of restructuring costs and \$1.6 million of transition costs related to the previously announced closure of the hearth manufacturing facility in Paris, Kentucky and structural realignments among office furniture facilities in Muscatine, Iowa.

Total selling and administrative expenses as a percentage of net sales decreased to 28.3 percent compared to 29.0 percent for the same quarter last year driven by lower incentive based compensation and the impact of divestitures, partially offset by strategic investments.

In the third quarter of 2017, the Corporation recorded \$0.8 million in restructuring costs as part of selling and administrative costs due to the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington and the office furniture manufacturing facility in Orleans, Indiana. The Corporation also recorded a \$6.0 million nonrecurring gain from the sale and license of an intangible asset and a \$0.8 million gain on the sale of a closed facility in the third quarter of 2017. In the third quarter of 2016, the Corporation recorded \$0.4 million of restructuring costs as part of selling and administrative costs in connection with the previously announced closure of the Paris, Kentucky hearth manufacturing facility. The Corporation also recorded \$1.6 million of accelerated depreciation in conjunction with the announced charitable donation of a building in the third quarter of 2016.

The Corporation's tax provision for interim periods is determined using an estimate of its annual effective tax rate, adjusted for discrete items. The Corporation's income tax provision for the three months ended September 30, 2017 was \$18.6 million on pre-tax income of \$56.0 million, or an effective tax rate of 33.3 percent. For the three months ended October 1, 2016, the Corporation's income tax provision was \$16.8 million on pre-tax income of \$50.6 million, or an effective tax rate of 33.2 percent. Refer to "Note 10. Income Taxes" for further information.

Net income attributable to the Corporation was \$37.3 million or \$0.84 per diluted share in the third quarter of 2017 compared to \$33.8 million or \$0.74 per diluted share in the third quarter of 2016.

Nine Months Ended

For the first nine months of 2017, consolidated net sales decreased 1.9 percent or \$30.6 million to \$1,591.6 million compared to \$1,622.2 million in the same period in 2016. The change was driven by a decrease in sales in the office furniture segment, partially offset by an increase in sales in the hearth products segment. Office furniture segment sales were down due to a decline in the supplies-driven business combined with a \$74.3 million net impact of

acquisitions and divestitures of small office furniture companies. This decrease in office furniture was partially offset by an increase in the North American contract business. The hearth products segment saw an increase in the new construction business due to growth in single family housing and an increase in the retail business due to an increase in pellet appliance demand.

Gross profit percentage for the first nine months of 2017 decreased to 36.4 percent compared to 38.0 percent for the same period last year. The decline in gross margin was driven by unfavorable product and business mix, input cost inflation, operational investments, and higher restructuring and transition costs, partially offset by productivity, structural cost reductions, higher volume, and the impact of divestitures.

During the first nine months of 2017, the Corporation recorded \$8.7 million of restructuring costs and \$11.7 million of transition costs in cost of sales related to the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington and the office furniture manufacturing facility in Orleans, Indiana and structural realignments in China and between office furniture facilities in Muscatine, Iowa. Specific items incurred include severance, accelerated depreciation and production move costs. During the first nine months of 2016, the Corporation recorded \$2.2 million of restructuring costs and \$6.9 million of transition costs in cost of sales related to the previously announced closure of the hearth manufacturing facility in Paris, Kentucky and structural realignments among office furniture facilities in Muscatine, Iowa.

For the first nine months of 2017, total selling and administrative expenses as a percentage of net sales increased to 31.2 percent compared to 30.6 percent for the same period last year. This increase was driven by strategic investments, partially offset by lower incentive based compensation and the impact of divestitures. The Corporation also recorded a \$2.0 million nonrecurring gain on a litigation settlement in the second quarter of 2016.

The Corporation recorded \$3.3 million of restructuring costs in the first nine months of 2017 as part of selling and administrative expenses due to the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington and the office furniture manufacturing facility in Orleans, Indiana. The Corporation also recorded a \$6.0 million nonrecurring gain from the sale and license of an intangible asset and a \$0.8 million gain on the sale of a closed facility in the third quarter of 2017. In the same period last year, the Corporation recorded \$2.1 million of restructuring costs as part of selling and administrative expenses due primarily to the previously announced closure of the hearth manufacturing facility in Paris, Kentucky. The Corporation also recorded \$1.6 million of accelerated depreciation in conjunction with the announced charitable donation of a building in the third quarter of 2016.

The Corporation's income tax provision for the nine months ended September 30, 2017 was \$27.6 million on pre-tax income of \$83.5 million, or an effective tax rate of 33.0 percent. For the nine months ended October 1, 2016, the Corporation's income tax provision was \$38.7 million on pre-tax income of \$113.3 million, or an effective tax rate of 34.1 percent. Refer to "Note 10. Income Taxes" for further information.

Net income attributable to the Corporation was \$56.0 million or \$1.24 per diluted share for the first nine months of 2017 compared to \$74.7 million or \$1.64 per diluted share for the first nine months of 2016.

Three Months Ended

Third quarter 2017 net sales for the office furniture segment increased 2.3 percent or \$10.4 million to \$465.3 million from \$454.9 million for the same quarter last year. Sales increased in the North American contract, supplies-driven,

and international businesses, but were partially offset by a decrease of \$42.5 million due to the net impact of acquisitions and divestitures of small office furniture companies.

Third quarter 2017 operating profit decreased 11.2 percent or \$5.0 million to \$39.7 million from \$44.7 million in the prior year quarter as a result of unfavorable product and business mix, input cost inflation, strategic investments, higher restructuring and transition costs, and the impact of divestitures, partially offset by higher volume and lower incentive based compensation.

In the third quarter of 2017, the office furniture segment recorded \$2.0 million of restructuring costs and \$2.8 million of transition costs associated with the previously announced closure of the office furniture manufacturing facility in Orleans, Indiana and

structural realignments in China and between office furniture facilities in Muscatine, Iowa. Specific items incurred include accelerated depreciation and production move costs. Of these charges, \$4.3 million was included in cost of sales. In the third quarter of 2016, the office furniture segment recorded \$0.1 million of restructuring costs and \$1.2 million of transition costs primarily associated with structural realignments among office furniture facilities in Muscatine, Iowa, all of which were included in cost of sales.

Nine Months Ended

Net sales for the first nine months of 2017 for the office furniture segment decreased 3.0 percent or \$38.7 million to \$1,231.7 million compared to \$1,270.4 million for the same period in 2016. Sales were down due a decline in the supplies-driven business combined with the net impact of acquisitions and divestitures of small office furniture companies, which was a net decrease in sales of \$74.3 million. This decrease was partially offset by an increase in the North American contract business.

Operating profit for the first nine months of 2017 decreased 39.8 percent or \$43.5 million to \$65.9 million compared to \$109.4 million for the same period in 2016. The year-to-date decrease in operating profit was driven by unfavorable product and business mix, input cost inflation, strategic investments, and higher restructuring and transition costs, partially offset by higher volume, lower incentive based compensation, and the impact of divestitures.

During the first nine months of 2017, the office furniture segment recorded \$7.8 million of restructuring costs and \$9.0 million of transition costs associated with the previously announced closure of the office furniture manufacturing facility in Orleans, Indiana and structural realignments in China and between office furniture facilities in Muscatine, Iowa. Specific items incurred include severance, accelerated depreciation, and production move costs. Of these charges, \$15.5 million was included in cost of sales. During the first nine months of 2016, the office furniture segment recorded \$0.4 million of restructuring costs and \$5.2 million of transition costs primarily associated with structural realignments among office furniture facilities in Muscatine, Iowa. Of these charges, \$5.3 million was included in cost of sales.

Hearth Products

The following table presents certain key highlights from the results of operations in the hearth products segment (in thousands):

Three Months Ended

Third quarter 2017 net sales for the hearth products segment increased 3.4 percent or \$4.4 million to \$134.1 million from \$129.7 million for the same quarter last year. The hearth products segment saw an increase in the new construction business due to growth in single family housing and an increase in the retail business due to an increase in pellet appliance demand.

Third quarter 2017 operating profit increased 50.4 percent or \$9.6 million to \$28.7 million from \$19.1 million in the prior year quarter as a result of structural cost reductions, higher volume, nonrecurring gains, and lower restructuring and transition costs.

In the third quarter of 2017, the hearth products segment recorded \$0.3 million of restructuring costs and \$0.8 million of transition costs associated with the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington. Specific items incurred include accelerated depreciation and production move costs. Of these charges, \$0.8 million was included in cost of sales. The hearth products segment also recorded a \$6.0 million nonrecurring gain from the sale and license of an intangible asset and a \$0.8 million gain on the sale of a closed facility in the third quarter of 2017. In the third quarter of 2016, the hearth products segment recorded \$1.0 million of restructuring costs and \$0.4 million of transition costs associated with the

previously announced closure of the Paris, Kentucky hearth manufacturing facility. Of these charges, \$1.0 million was included in cost of sales.

Nine Months Ended

Net sales for the first nine months of 2017 for the hearth products segment increased 2.3 percent or \$8.1 million to \$359.9 million compared to \$351.8 million for the same period in 2016. The change was driven by an increase in the new construction business due to growth in single family housing and an increase in the retail business due to an increase in pellet appliance demand.

Operating profit for the first nine months of 2017 increased 26.5 percent or \$11.0 million to \$52.7 million compared to \$41.6 million for the same period in 2016. The year-to-date increase in operating profit was driven by structural cost reductions, higher volume, and nonrecurring gains, partially offset by higher restructuring and transition costs.

During the first nine months of 2017, the hearth products segment recorded \$4.2 million of restructuring costs and \$2.6 million of transition costs associated with the previously announced closures of the hearth manufacturing facilities in Paris, Kentucky and Colville, Washington. Specific items incurred include severance, accelerated depreciation, and production move costs. Of these charges, \$4.9 million was included in cost of sales. The hearth products segment also recorded a \$6.0 million nonrecurring gain from the sale and license of an intangible asset and a \$0.8 million gain on the sale of a closed facility in the third quarter of 2017. During the first nine months of 2016, the hearth products segment recorded \$3.9 million of restructuring costs and \$1.6 million of transition costs associated with the previously announced closure of the Paris, Kentucky hearth manufacturing facility. Of these charges, \$3.7 million was included in cost of sales.

Liquidity and Capital Resources

Cash Flow – Operating Activities

Operating activities were a source of \$57.3 million of cash in the first nine months of 2017 compared to a source of \$113.7 million of cash in the first nine months of 2016. The lower cash generation compared to the prior year was primarily due to the impact of plant consolidations and operational transformations on net income in addition to changes in working capital timing, primarily driven by lower incentive compensation accruals and investments in inventory. Cash flow from operating activities is expected to be positive for the year.

Cash Flow – Investing Activities

Capital expenditures, including capitalized software, for the first nine months of fiscal 2017 were \$103.9 million and were primarily for tooling and equipment for new products, continuous improvements in manufacturing processes, building reconfiguration, and the on-going implementation of an integrated information system to support business process transformation. For the full year 2017, capital expenditures are expected to be approximately \$120 to \$130 million.

Cash Flow – Financing Activities

Long-Term Debt - The Corporation maintains a revolving credit facility as the primary source of committed funding from which the Corporation finances its planned capital expenditures, strategic initiatives, and seasonal working capital needs. Cash flows included in financing activities represent periodic borrowings and repayments under the revolving credit facility. See "Note 12. Long-Term Debt" in the Notes to Condensed Consolidated Financial Statements for further information.

Dividend - The Corporation is committed to maintaining and/or modestly growing the quarterly dividend. During the quarter, the Board declared a regular quarterly cash dividend of \$0.285 per share on the Corporation's common stock on August 8, 2017. The dividend was paid on September 1, 2017 to shareholders of record on August 18, 2017. This

was a 3.6 percent increase over the comparable prior year quarterly dividend of \$0.275 paid on September 1, 2016.

Stock Repurchase - The Corporation's capital strategy related to stock repurchase is focused on offsetting the dilutive impact of issuances for various compensation related matters. The Corporation may elect to opportunistically purchase additional shares based on excess cash generation and/or share price considerations. During the nine months ended September 30, 2017, the Corporation repurchased 1,300,936 shares of common stock at a cost of \$52.9 million, or an average price of \$40.63 per share. As of September 30, 2017, \$84.0 million of the Board's current repurchase authorization remained unspent.

Cash, cash equivalents, and short-term investments, coupled with cash flow from future operations, borrowing capacity under the existing credit agreement, and the ability to access capital markets, are expected to be adequate to fund operations and satisfy cash flow needs for at least the next twelve months.

Off-Balance Sheet Arrangements

The Corporation does not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on the Corporation's financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources.

Contractual Obligations

Contractual obligations associated with ongoing business and financing activities will result in cash payments in future periods. A table summarizing the amounts and estimated timing of these future cash payments was provided in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2016. There were no material changes outside the ordinary course of business in the Corporation's contractual obligations or the estimated timing of the future cash payments for the first nine months of fiscal 2017.

Commitments and Contingencies

See "Note 13. Guarantees, Commitments, and Contingencies" in the Notes to Condensed Consolidated Financial Statements for further information.

Critical Accounting Policies and Estimates

The preparation of the financial statements requires the Corporation to make estimates and judgments affecting the reported amount of assets, liabilities, revenues, and expenses, and related disclosure of contingent assets and liabilities. The Corporation continually evaluates its accounting policies and estimates. The Corporation bases its estimates on historical experience and on a variety of other assumptions believed by management to be reasonable in order to make judgments about the carrying value of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. A summary of the more significant accounting policies requiring the use of estimates and judgments in preparing the financial statements is provided in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2016.

Recently Issued Accounting Standards Not Yet Adopted

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The new standard will replace most existing revenue recognition guidance in U.S. GAAP. The core principle of the ASU requires companies to reevaluate when revenue is recorded on a transaction based upon newly defined criteria, either at a point in time or over time as goods or services are delivered. The ASU requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and estimates, and changes in those estimates. The FASB has recently issued ASU No. 2016-08, Revenue from Contracts with Customers: Principal versus Agent Considerations, ASU No. 2016-10, Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing, and ASU No. 2016-12, Revenue from Contracts with Customers: Narrow Scope Improvements and Practical Expedients to provide further clarification and guidance. The new standard becomes effective for the Corporation in fiscal 2018, and allows for both retrospective and modified-retrospective methods of adoption. The Corporation has completed a review of the impact of the new standard and has determined there will be no material changes in the way the Corporation recognizes revenue. The Corporation will adopt the standard in fiscal 2018 using the modified-retrospective approach, which will not have a material impact on the results of operations. The Corporation continues to review accounting policies and disclosures to determine changes needed to comply with this new standard, as well as identify changes to the Corporation's business processes, systems, and controls needed to support adoption of this ASU. The Corporation expects all necessary changes required by the new standard will be identified and implemented by the beginning of fiscal 2018.

In February 2016, the FASB issued ASU No. 2016-02, Leases. The new standard requires lessees to recognize most leases, including operating leases, on-balance sheet via a right of use asset and lease liability. Changes to the lessee accounting model may change key balance sheet measures and ratios, potentially affecting analyst expectations and compliance with financial covenants. The new standard becomes effective for the Corporation in fiscal 2019, but may be adopted at any time, and requires a modified-retrospective transition. The Corporation is currently evaluating the effect the standard will have on consolidated financial statements and related disclosures.

In June 2016, the FASB issued ASU No. 2016-13, Measurement of Credit Losses on Financial Instruments. The new standard replaces the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses by requiring consideration of a broader range of reasonable and supportable information and is intended to provide financial statement users with more useful information about expected credit losses on financial instruments. The new standard becomes effective for the Corporation in fiscal 2020 and requires a cumulative effect adjustment in retained earnings as of the beginning of the year of adoption. The Corporation is currently evaluating the effect the standard will have on consolidated financial statements and related disclosures.

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows - Classification of Certain Cash Receipts and Cash Payments. The new standard provides classification guidance on eight cash flow issues including debt prepayment, settlement of zero-coupon bonds, contingent consideration payments made after a business combination, proceeds from the settlements of insurance claims, proceeds from the settlement of corporate-owned life insurance policies, and distributions received from equity method investees. The new standard becomes effective for the Corporation in fiscal 2018. The Corporation anticipates the standard will have an immaterial effect on consolidated statements of cash flows.

In March 2017, the FASB issued ASU No. 2017-07, Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The new standard requires an entity with defined benefit and postretirement benefit plans to present the service cost component of the net periodic benefit cost in the same income statement line item or items as other compensation costs arising from services rendered by employees during the period. All other components of net periodic benefit cost will be presented outside of operating income, if a subtotal is presented. The new standard is to be applied retrospectively to each period presented and becomes effective for the Corporation in fiscal 2018. The Corporation anticipates the standard will have an immaterial effect on consolidated statements of comprehensive income.

Looking Ahead

Management remains optimistic about the long-term prospects in the office furniture and hearth products markets. Management believes the Corporation continues to compete well and remains confident the investments made in the business will continue to generate strong returns for shareholders.

Forward-Looking Statements

Statements in this report that are not strictly historical, including but not limited to statements as to future plans, outlook, objectives, and financial performance, are "forward-looking" statements, within the meaning of Section 27A of the Securities Act of 1933 as amended and Section 21E of the Securities Exchange Act of 1934 as amended and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as "anticipate," "believe," "could," "confident," "estimate," "expect," "forecast," "hope," "intend," "likely," "may," "plan," "possible," "potential," "predict," "project," "should," "will," "would," and variations of such words and similar expressions identify forward-looking statements. Forward-looking statements involve known and unknown risks, which may cause the Corporation's actual results in the future to differ materially from expected results. These risks include, without limitation: the Corporation's ability to realize financial benefits from its (a) price increases, (b) cost containment and business simplification initiatives, including its business system transformation, (c) investments in strategic acquisitions, production capacity, new products, and brand building, (d) investments in distribution and rapid continuous improvement, (e) ability to maintain its effective tax rate, (f) repurchases of common stock, and (g) closing, consolidation, and logistical realignment initiatives; uncertainty related to the availability of cash and credit, and the terms and interest rates on which credit would be available, to fund operations and future growth; lower than expected demand for the Corporation's products due to uncertain political and economic conditions, slow or negative growth rates in global and domestic economies or in the domestic housing market; lower industry growth than

expected; major disruptions at the Corporation's key facilities or in the supply of any key raw materials, components, or finished goods; competitive pricing pressure from foreign and domestic competitors; higher than expected costs and lower than expected supplies of materials; higher costs for energy and fuel; changes in the mix of products sold and of customers purchasing; relationships with distribution channel partners, including the financial viability of distributors and dealers; restrictions imposed by the terms of the Corporation's revolving credit facility; changing legal, regulatory, environmental, and healthcare conditions; currency fluctuations; and other factors described in the Corporation's annual and quarterly reports filed with the Securities and Exchange Commission on Forms 10-K and 10-Q. The Corporation cautions readers not to place undue reliance on any forward-looking statement, which speaks only as of the date made, and to recognize forward-looking statements are predictions of future results, which may not occur as anticipated. The Corporation undertakes no obligation to update, amend, or clarify forward-looking statements, except as required by applicable law.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of September 30, 2017, there were no material changes to the financial market risks affecting the quantitative and qualitative disclosures presented in Item 7A of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2016.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure information required to be disclosed by the Corporation in the reports it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of the chief executive officer and chief financial officer of the Corporation, management of the Corporation carried out an evaluation of the Corporation's disclosure controls and procedures pursuant to Exchange Act Rules 13a – 15(e) and 15d – 15(e). As of September 30, 2017, based on this evaluation, the chief executive officer and chief financial officer have concluded these disclosure controls and procedures are effective.

Changes in Internal Controls

There have been no changes in the Corporation's internal control over financial reporting during the fiscal quarter covered by this quarterly report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

There are no material legal proceedings.

Item 1A. Risk Factors

There have been no material changes from the risk factors disclosed in the "Risk Factors" section of the Corporation's Annual Report on Form 10-K for the year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities:

The following is a summary of share repurchase activity during the quarter:

Period	Total Number of Shares (or Units) Purchased (1)	Average Price Paid per Share or Unit	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet be Purchased Under the Plans or Programs

(1) No shares were purchased outside of a publicly announced plan or program.

The Corporation repurchases shares under previously announced plans authorized by the Board as follows:

Corporation's share purchase program ("Program") announced November 9, 2007, providing share repurchase authorization of \$200,000,000 with no specific expiration date, with an increase announced November 7, 2014, providing additional share repurchase authorization of \$200,000,000 with no specific expiration date.

No repurchase plans expired or were terminated during the third quarter of fiscal 2017, nor do any plans exist under which the Corporation does not intend to make further purchases. The Program does not obligate the Corporation to purchase any shares and the authorization for the Program may be terminated, increased or decreased by the Board at any time.
