Item 2.05 Costs Associated with Exit or Disposal Activities

On April 16, 2015, McCormick & Company, Incorporated (the “Company”) approved additional reorganization plans in the Europe, Middle East and Africa (“EMEA”) region to enhance organization efficiency and streamline processes. The EMEA region has contributed significantly to the Company’s cost reduction and productivity improvement goals. During 2015, additional projects have been identified to further enhance organization efficiency and streamline processes in this region while supporting its competitiveness and long-term growth. These initiatives center on actions intended to reduce fixed costs, improve processes and drive simplification across the supply chain as well as selling, general and administrative activities. This will include the transfer of certain activities to the recently established McCormick Shared Services Center in Lodz, Poland. These proposed changes are subject to consultation processes as appropriate, with the Company’s employees or Works Councils in the region and are expected to be completed by end of 2016.

The Company expects to record approximately \$25 million of charges, calculated on a pre-tax basis, related to these actions, with approximately \$24 million of cash expenses and approximately \$1 million of non-cash fixed asset impairment expenses. Of the projected \$25 million in charges, an estimated two-thirds relate to anticipated severance and related costs. Of the remaining one-third, an approximate 30% relates to contract termination costs, 20% relates to non-cash fixed asset impairment expenses, and the balance relates to associated expenses, consisting principally of third party legal and consulting fees. Of the \$25 million in charges, the Company expects to recognize approximately \$24 million in 2015 and the balance in 2016. Of the approximate \$24 million of cash expenditures associated with these special charges, approximately \$13 million are expected to be spent in 2015 and the balance spent in 2016. Related annual cost savings are projected to reach approximately \$16 million by the end of 2017.
