Explanatory Note

ALLTEL Corporation is filing this Form 10-K/A to amend its Annual Report on Form 10-K for the fiscal year ended December 31, 2004.

Except for the amendments to Exhibits 31(a) and 31(b), this amendment does not update or modify in any way the disclosure contained in the Annual Report on Form 10-K for the fiscal year ended December 31, 2004.

**ALLTEL Corporation**  
**Form 10-K, Part I**  
**Item 1. Business**  
**THE COMPANY**

**GENERAL**

ALLTEL Corporation ("ALLTEL" or the "Company") is a customer-focused communications company. The Company's web site address is [www.alltel.com](http://www.alltel.com). ALLTEL files with, or furnishes to, the Securities and Exchange Commission.

**FORWARD-LOOKING STATEMENTS**

This Form 10-K may include certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Actual future events and results may differ materially from those expressed in these forward-looking statements as a result of various factors. In addition to these factors, actual future performance, outcomes and results may differ materially because of other matters.

**ALLTEL Corporation**

**Form 10-K, Part I**

**Item 1. Business**

**THE COMPANY (continued)**

**ACQUISITIONS**

**Pending Acquisitions to be Completed During 2005:**

On January 9, 2005, ALLTEL entered into an Agreement and Plan of Merger (the "Merger Agreement") with Western Wireless. On November 26, 2004, ALLTEL and Cingular Wireless LLC ("Cingular"), a joint venture between SBC Communications and Cingular, completed the acquisition of Western Wireless. Following completion of the acquisitions discussed above, ALLTEL's domestic communications operations will serve approximately 100 million customers.

**Acquisitions Completed During the Past Five Years:**

On December 1, 2004, ALLTEL completed the purchase of certain wireless assets from United States Cellular Corporation. On August 29, 2003, the Company purchased for \$22.8 million in cash a wireless property with a potential service area of approximately 10 million.

2

**ALLTEL Corporation**

**Form 10-K, Part I**

**Item 1. Business**

**THE COMPANY (continued)**

**ACQUISITIONS (Continued)**

On August 1, 2002, ALLTEL completed its purchase of local telephone properties serving approximately 589,000 wireline customers. On August 1, 2002, ALLTEL also completed its purchase of substantially all of the wireless properties owned by CenturyTel. On October 3, 2000, ALLTEL purchased wireless properties in New Orleans, Baton Rouge and three rural service areas. On January 31, 2000, ALLTEL, Bell Atlantic Corporation ("Bell Atlantic") and GTE Corporation ("GTE") signed an agreement to combine their wireless operations.

**DISPOSITIONS**

In December 2003, ALLTEL sold to Convergys Information Management Group ("Convergys") for \$37.0 million in cash the financial services division of its information services subsidiary. On April 1, 2003, ALLTEL completed the sale of the financial services division of its information services subsidiary. In January 2003, ALLTEL completed the termination of its business venture with Bradford & Bingley Group. The business was sold to Bradford & Bingley Group. During 2002, the Company sold its majority ownership interest in a Pennsylvania cellular partnership to Verizon for a total cash purchase price of \$41.0 million.

**TECHNOLOGY**

Since inception, mobile wireless technologies have seen significant improvements in both speed and reliability. The firm ALLTEL will maintain its first generation analog services until the FCC no longer requires it or as long as non-CDMA. Third generation digital wireless technologies increase voice capacity, allow high-speed wireless packet data services and

**REGULATION**

The Company is subject to regulation by the FCC as a provider of Commercial Mobile Radio Services ("CMRS"). The Telecommunications Act of 1996 ("96 Act"), provides wireless carriers numerous opportunities to provide an alternative service. The Company holds FCC authorizations for Cellular Radiotelephone Service ("CRS"), Personal Communications Service

8

**Item 1. Business**

**WIRELESS OPERATIONS (continued)**

**REGULATION (continued)**

Minority, non-controlling interests in an FCC license generally may be transferred or assigned without prior FCC approval. All of the Company's PCS licenses are for 10 MHz-wide broadband PCS systems. PCS licenses are granted for 10-year terms. Cellular systems operate on one of two 25 MHz-wide frequency blocks that the FCC allocates and licenses for CMRS. In an effort to promote more efficient number utilization, the FCC adopted rules requiring CMRS providers to participate in number portability. CMRS providers in the top 100 markets were required by the FCC to implement by November 24, 2003 (and, for all other markets, by February 1, 2004). An appeal by the United States Telecommunications Association ("USTA"), along with certain rural telephone companies, was filed with the FCC. Wireless service providers are required by the FCC to provide enhanced 911 emergency service ("E-911") in a two-phase

9

**ALLTEL Corporation**

**Form 10-K, Part I**

**Item 1. Business**

**WIRELESS OPERATIONS (continued)**

**REGULATION (continued)**

In phase two, CMRS carriers like ALLTEL have opted for a handset-based solution must determine, for originated calls, whether to use a handset-based solution. To ensure affordable access to telecommunications services throughout the United States, the FCC and many states continue to work on number portability. During 2004, the Company sought ETC certification by the FCC and various state commissions. In September 2004, the FCC, in conjunction with the Federal/State Joint Board on Universal Service, is considering changes to the USF program

10

for which the support is intended". If adopted, these changes would adversely affect the availability of USF to ALLTEL. The FCC mandated that, effective October 1, 2004, the Universal Service Administrative Company ("USAC") must be able to collect and distribute USF. In October 2003, the FCC issued an order adopting rules that allow CMRS licensees to lease spectrum to others. The FCC

The Communications Assistance for Law Enforcement Act ("CALEA") requires wireless and wireline carriers to ensure compliance with certain regulations under FCC and Federal Aviation Administration regulations, wireless carriers must comply with certain regulations re  
11

**ALLTEL Corporation**  
**Form 10-K, Part I**

**Item 1. Business**

**WIRELINE OPERATIONS**

As previously noted, the Company's wireline segment consists of ALLTEL's ILEC, CLEC and Internet access operations. Local service operations provide lines from telephone exchange offices to customer premises for the origination and termination of local service. Network access and interconnection services are provided by ALLTEL by connecting the equipment and facilities of its

**COMPETITION**

Many of the Company's ILEC operations have begun to experience competition in their local service areas. Sources of competition include other ILECs. To address competition, ALLTEL is focusing its efforts on marketing and selling additional products and services to its customers. Although DSL services have been a source of revenue and access line growth for the Company in 2004, 2003 and 2002  
12

**WIRELINE OPERATIONS (continued)**

**COMPETITION (continued)**

challenging existing regulatory definitions. As further discussed below under the caption "Network Access Services"  
13

**LOCAL SERVICE REGULATION**

Prior to 1996, ALLTEL's wireline subsidiaries provided local telephone service under exclusive franchises granted by the states. The 96 Act substantially modified certain aspects of the states' and the FCC's jurisdictions in the regulation of local exchange service. The 96 Act also requires all local exchange telephone companies to compensate one another for the transport and termination of long distance calls. Except for certain of its subsidiaries in Nebraska, Ohio and the recently acquired property in Kentucky, the Company's subsidiaries are subject to the 96 Act. In 1996, the FCC issued regulations implementing the local competition provisions of the 96 Act. These regulations established a local competition program. In June 2002, the U.S. Court of Appeals for the Second Circuit found that the 96 Act did not create an "implicit immunity"  
13

**ALLTEL Corporation**

**Item 1. Business**

**WIRELINE OPERATIONS (continued)**

**LOCAL SERVICE REGULATION (continued)**

The federal universal service program is under legislative, regulatory and industry participant scrutiny as a result of the 96 Act. In May 2001, the FCC adopted the Rural Task Force Order that established an interim universal service mechanism that would be subject to review. On November 8, 2002, the FCC requested that the Joint Board review certain of the FCC's rules relating to the high-cost program. As previously discussed under "Wireless Operations Regulation", the FCC mandated that, effective October 1, 2004, the high-cost program be subject to a triennial review. On December 20, 2001, the FCC released a notice of proposed rulemaking initiating the first triennial review of the FCC's universal service program. On March 2, 2004, the D.C. Circuit Court overturned key portions of the FCC's Triennial Review Order. The D.C. Circuit Court's decision was affirmed by the Supreme Court.  
14

**ALLTEL Corporation**  
**Form 10-K, Part I**

**Item 1. Business**

**WIRELINE OPERATIONS (continued)**

**LOCAL SERVICE REGULATION (continued)**

On March 31, 2004, the FCC commissioners urged carriers to begin private commercial negotiations to resolve issues. On September 13, 2004, the FCC released its Interim UNE Order requiring incumbent ILECs to maintain the status quo. On September 15, 2003, the FCC launched its first comprehensive review of the rules that establish wholesale pricing. Section 251(b) of the Communications Act of 1934 (the "34 Act"), as amended, requires, in part, that local exchange carriers. Periodically, the Company's local exchange subsidiaries receive requests from wireless communications providers for rate-of-return. Most states in which ALLTEL's ILEC subsidiaries operate have adopted alternatives to rate-of-return regulation, either

15

**Item 1. Business**

**WIRELINE OPERATIONS (continued)**

**LOCAL SERVICE REGULATION (continued)**

The following summary sets forth a description of the alternative regulation plan for each of the states in which the Company operates. ALLTEL's regulated Alabama wireline subsidiary has operated since 1996 under a Public Service Commission ("PSC") alternative regulation plan. ALLTEL's regulated Arkansas wireline subsidiary has operated since 1997 under an alternative regulation plan established by statute. ALLTEL's regulated Florida wireline subsidiary operates under alternative regulation established by Florida statute. ALLTEL's regulated Georgia wireline subsidiaries operate under an alternative regulation plan established by statute. ALLTEL has two regulated operating subsidiaries in Kentucky. The subsidiary acquired from Verizon is subject to alternative regulation. ALLTEL's regulated Missouri wireline subsidiary is subject to alternative regulation election established by statute.

16

**ALLTEL Corporation**

**Form 10-K, Part I**

**Item 1. Business**

**WIRELINE OPERATIONS (continued)**

**LOCAL SERVICE REGULATION (continued)**

ALLTEL's regulated Nebraska operations are subject to alternative regulation established by statute. (Nebraska law requires alternative regulation.) ALLTEL's regulated North Carolina subsidiary has operated since 1998 under alternative regulation plan approved by the Public Service Commission. ALLTEL's regulated Ohio wireline subsidiaries began in 2004, to operate under an alternative regulation plan established by statute. ALLTEL's regulated Pennsylvania subsidiary has operated under the Alternative Form of Regulation and Network Access Services. ALLTEL's regulated South Carolina operations are subject to alternative regulation established by statute. Local exchange carriers. The Company has two operating subsidiaries in Texas. These subsidiaries are subject to alternative regulation established by statute.

**NETWORK ACCESS SERVICES REGULATION**

The Company's local exchange subsidiaries currently receive compensation from other telecommunications providers, including long distance carriers. A number of carriers have begun offering voice telecommunications services utilizing Internet protocol as the underlying technology.

17

**ALLTEL Corporation**

**Form 10-K, Part I**

**Item 1. Business**

**WIRELINE OPERATIONS (continued)**

**NETWORK ACCESS SERVICES REGULATION (continued)**

Although the FCC's rulemaking regarding IP-enabled services remains pending, the FCC has adopted three orders establishing alternative regulation. On October 8, 2004, the FCC granted in part and denied in part a petition filed by Core Communications requesting that the FCC establish alternative regulation. In April 2001, the FCC released a notice of proposed rulemaking addressing inter-carrier compensation. Under this rulemaking, carriers are required to file their inter-carrier compensation schedules. During the first quarter of 2002, the FCC initiated a rulemaking to evaluate the appropriate framework for broadband services.

18

**ALLTEL Corporation**

**Form 10-K, Part I**

**Item 1. Business**

**WIRELINE OPERATIONS (continued)**

**NETWORK ACCESS SERVICES REGULATION (continued)**

The Ninth Circuit Court ruling was scheduled to become effective April 8, 2004, but the Ninth Circuit Court stayed the ruling. On October 11, 2001, the FCC adopted rate-of-return access charge reform and initiated a further round of rulemaking.

**TECHNOLOGY**

The Company believes the local exchange business is in transition from circuit switched technology, which forms the backbone of ALLTEL's backbone fiber network provides the basis for the transport of data traffic. ALLTEL has deployed almost 14 million miles of fiber.

**CLEC OPERATIONS**

ALLTEL has authority to provide competitive local exchange services in 17 states. As of December 31, 2004, the Company has provided CLEC services in 19 states. Generally, CLECs are required to obtain certificates of public convenience and necessity. In addition, CLECs are required to obtain state approval for their services.

19

**ALLTEL Corporation**

**Form 10-K, Part I**

**Item 1. Business**

**COMMUNICATIONS SUPPORT SERVICES**

Communications support services consist of the Company's long-distance and network management services, product distribution, and directory publishing.

**LONG-DISTANCE AND NETWORK MANAGEMENT OPERATIONS**

Long-distance telecommunications services are provided on both a facilities-based and resale basis by ALLTEL subsidiaries. Network management services are currently marketed to business customers in select areas. These services are ancillary to the Company's long-distance services.

**PRODUCT DISTRIBUTION**

The Company's product distribution subsidiary, ALLTEL Communications Products, Inc. ("Communications Products"), provides product distribution services. Communications Products experiences substantial competition throughout its sales territories from other distribution companies.

**DIRECTORY PUBLISHING**

ALLTEL Publishing Corporation ("ALLTEL Publishing") coordinates advertising, sales, printing, and distribution for the Company's directory publishing services.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Executive Summary

ALLTEL Corporation ("ALLTEL" or the "Company") is a customer-focused communications company providing wireline and wireless services. Wireless customer growth was strong as ALLTEL added more than 600,000 net customers during the year, most of which were new to the Company. Wireless service revenues increased 7 percent from 2003 driven by an 8 percent increase in retail revenues, reflecting growth in the wireless segment. Wireless segment income for 2004 increased 2 percent from a year ago, reflecting the growth in retail revenues not offset by an increase in operating expenses. In its wireline business, ALLTEL added more than 90,000 high-speed data customers, increasing ALLTEL's DSL customer base. ALLTEL maintained its strong financial position while returning more than \$1 billion in capital to shareholders. During 2005, the Company will continue to face significant challenges resulting from competition in the telecommunications market. As further discussed under "Pending Acquisitions to be Completed in 2005", ALLTEL positioned its wireless business for growth. During 2005, the Company will continue to face significant challenges resulting from competition in the telecommunications market.

During the evaluation of its existing CLEC operations, ALLTEL determined that a business model that relied heavily on leased facilities. The \$12.6 million in lease and contract termination costs recorded in 2002 consisted of \$6.2 million, representing the e  
F-8

In connection with the purchase of wireline properties in Kentucky from Verizon and wireless properties from CenturyLink, the Company recorded a charge of \$42.3 million. In conjunction with a product replacement program initiated by a vendor in 2001, the Company exchanged certain used equipment. As of December 31, 2004, the remaining unpaid liability related to the Company's integration and restructuring activities was \$12.6 million. As indicated in the table above, non-operating income, net increased \$26.1 million, or 816 percent, in 2004 and non-operating income, net decreased \$17.9 million, or 100 percent, in 2003. Equity earnings in unconsolidated partnerships in 2003 included \$17.9 million of additional income resulting from the sale of a wireless property in Pennsylvania to Verizon. F-9

#### Interest Expense

Interest expense decreased \$26.1 million, or 7 percent, in 2004 and increased \$23.5 million, or 7 percent, in 2003. The

#### Gain on Disposal of Assets, Write-Down of Investments and Other

In 2003, ALLTEL sold to Convergys certain assets and related liabilities, including selected customer contracts and cash. In 2002, the Company recorded a pretax gain of \$22.1 million from the sale of a wireless property in Pennsylvania to Verizon.

#### Income Taxes

Income tax expense decreased \$15.3 million, or 3 percent, in 2004 primarily due to tax benefits associated with the reversal of income tax contingency reserves and the allowance of a net operating loss carryforward. F-10

Primarily due to the tax benefits associated with the reversal of income tax contingency reserves and the allowance of a net operating loss carryforward, net income from continuing operations increased \$73.2 million, or 8 percent, in 2004 and \$103.4 million, or 12 percent, in 2003. F-11

#### Net Income and Earnings per Share from Continuing Operations

Net income from continuing operations increased \$73.2 million, or 8 percent, in 2004 and \$103.4 million, or 12 percent, in 2003. F-11

#### Discontinued Operations

On April 1, 2003, ALLTEL completed the sale of the financial services division of its information services subsidiary, Alltel Financial Services. In January 2003, ALLTEL completed the termination of its business venture with Bradford & Bingley Group. The business was sold to Bradford & Bingley Group. The following table includes certain summary income statement information related to the financial services operations. The income tax benefit recorded in 2004 included the reversal of \$15.1 million of federal income tax contingency reserves. F-11

The depreciation of long-lived assets related to the financial services division ceased as of January 28, 2003, the date of termination of the business. Included in operating expenses for 2002 was a \$42.3 million charge associated with discontinuing the Company's business. F-11

#### Cumulative Effect of Accounting Change

Except for certain wireline subsidiaries as further discussed below, the Company adopted Statement of Financial Accounting Standards No. 143 on January 28, 2003. ALLTEL has evaluated the effects of SFAS No. 143 on its operations and has determined that, for telecommunications operations, depreciation expense for the Company's wireline operations has historically been based on the original cost of the assets. F-11

#### Average Common Shares Outstanding

The average number of common shares outstanding decreased one percent in 2004 compared to a slight increase in av

F-16

Set forth below is a summary of the restructuring and other charges related to the wireless operations that were not included in the accompanying financial statements.

Regulatory Matters-Wireless Operations

ALLTEL is subject to regulation by the FCC as a provider of Commercial Mobile Radio Services ("CMRS"). The Telecommunications Act of 1996 requires that CMRS providers in the top 100 markets were required by the FCC to implement by November 24, 2003 (and, for all other markets, by November 24, 2004) enhanced 911 emergency service ("E-911"). Wireless service providers are required by the FCC to provide enhanced 911 emergency service ("E-911") in a two-phase implementation. Phase one requires that providers provide enhanced 911 service to all wireless subscribers by November 24, 2003. Phase two requires that providers provide enhanced 911 service to all wireless subscribers by November 24, 2004. Phase two implementation is currently being completed by providers. Phase two implementation is currently being completed by providers.

In phase two, CMRS carriers like ALLTEL have opted for a handset-based solution must determine, for originated calls, how to ensure that the handset-based solution does not result in a loss of service to the subscriber. To ensure affordable access to telecommunications services throughout the United States, the FCC and many state commissions have implemented various measures. During 2004, the Company sought ETC certification by the FCC and various state commissions. In September 2004, the FCC issued an order requiring that providers implement enhanced 911 service by November 24, 2004. The FCC, in conjunction with the Federal/State Joint Board on Universal Service, is considering changes to the USF program. Phase two implementation is currently being completed by providers.

The FCC mandated that, effective October 1, 2004, the Universal Service Administrative Company ("USAC") must be certified by the FCC. In October 2003, the FCC issued an order adopting rules that allow CMRS licensees to lease spectrum to others. The FCC also issued an order requiring that providers implement enhanced 911 service by November 24, 2004. The Communications Assistance for Law Enforcement Act ("CALEA") requires wireless and wireline carriers to ensure that their networks are capable of providing law enforcement agencies with the ability to intercept communications. Phase two implementation is currently being completed by providers.

Notes:

(a) Average revenue per customer per month is calculated by dividing total wireline revenues by average access lines. Wireline operations consist of ALLTEL's Incumbent Local Exchange Carrier ("ILEC"), CLEC and Internet operations.

The Company expects the number of access lines served by its wireline operations to continue to be adversely affected by the decline in demand for access lines. To slow the decline of revenue during 2005, the Company will continue to emphasize sales of enhanced services and products. Local service revenues decreased \$21.1 million, or 2 percent, in 2004 and increased \$118.9 million, or 12 percent, in 2003. Network access and long-distance revenues decreased \$7.6 million, or 1 percent, in 2004 and increased \$112.0 million, or 11 percent, in 2003. Miscellaneous revenues primarily consist of charges for Internet services, directory advertising, customer premise equipment, and other services. Phase two implementation is currently being completed by providers.

In addition to the effects of the acquisition, miscellaneous revenues in 2003 also reflected growth in revenues derived from the sale of enhanced services and products. Primarily due to the DSL customer growth and increased sales of enhanced products and services, average revenue per access line increased \$1.1 million, or 1 percent, in 2004 and increased \$118.9 million, or 12 percent, in 2003. Cost of services decreased \$32.9 million, or 4 percent, in 2004 and increased \$92.1 million, or 14 percent, in 2003. Cost of products sold decreased slightly in 2004 and increased \$4.3 million, or 17 percent, in 2003. The decrease in 2004 was primarily due to the decline in demand for access lines. Selling, general, administrative and other expenses decreased \$15.1 million, or 6 percent, in 2004 and increased \$8.2 million, or 8 percent, in 2003. Depreciation and amortization expense decreased \$10.0 million, or 2 percent, in 2004 and increased \$60.9 million, or 1 percent, in 2003. Wireline segment income increased \$42.1 million, or 5 percent, in 2004 and \$90.9 million, or 11 percent, in 2003. The decrease in 2004 was primarily due to the decline in demand for access lines.

Set forth below is a summary of the restructuring and other charges related to the wireline operations that were not included in the accompanying financial statements.

Regulatory Matters-Wireline Operations

Except for the Kentucky properties acquired in 2002 and the Nebraska operations acquired in 1999, ALLTEL's ILEC subsidiaries are subject to rate-of-return regulation. Although the Company believes that the application of SFAS No. 71 continues to be appropriate, it is possible that changes in accounting standards may be required. Most states in which ALLTEL's ILEC subsidiaries operate have adopted alternatives to rate-of-return regulation, either cost-based or performance-based. A number of carriers have begun offering voice telecommunications services utilizing Internet protocol as the underlying technology.

F-22

traditional telephony services, and the distinctions between different types of IP-enabled services. The FCC indicated that it will continue to monitor the development of IP-enabled services. Although the FCC's rulemaking regarding IP-enabled services remains pending, the FCC has adopted three orders establishing a framework for IP-enabled services. On October 8, 2004, the FCC granted in part and denied in part a petition filed by Core Communications requesting that the FCC establish a framework for IP-enabled services. In April 2001, the FCC released a notice of proposed rulemaking addressing inter-carrier compensation. Under this rulemaking, carriers are required to file their inter-carrier compensation schedules with the FCC. The federal universal service program is under legislative, regulatory and industry participant scrutiny as a result of the changes in the telecommunications market. In May 2001, the FCC adopted the Rural Task Force Order that established an interim universal service mechanism that will be replaced by a permanent universal service mechanism.

F-23

telephone companies and to determine what changes, if any, should be made to the existing high-cost support mechanism. On November 8, 2002, the FCC requested that the Joint Board review certain of the FCC's rules relating to the high-cost support mechanism. As previously discussed under "Regulatory Matters - Wireless Operations", the FCC mandated that, effective October 1, 2003, the Joint Board file its recommendations with the FCC. On December 20, 2001, the FCC released a notice of proposed rulemaking initiating the first triennial review of the FCC's rules relating to the high-cost support mechanism. On March 2, 2004, the D.C. Circuit Court overturned key portions of the FCC's Triennial Review Order. The D.C. Circuit Court's decision is being appealed to the U.S. Supreme Court. On September 13, 2004, the FCC released its Interim UNE Order requiring incumbent ILECs to maintain the status quo until a permanent UNE rule is adopted.

F-24

Review proceeding and permanent UNE rules on ALLTEL's ILEC operations cannot be determined, however it is not expected that the review will have a material impact on the Company's operations. On September 15, 2003, the FCC launched its first comprehensive review of the rules that establish wholesale pricing of telecommunications services. During the first quarter of 2002, the FCC initiated a rulemaking to evaluate the appropriate framework for broadband access services. Section 251(b) of the Communications Act of 1934 (the "34 Act"), as amended, requires, in part, that local exchange carriers file their rates with the FCC. Because certain of the regulatory matters discussed above are under FCC or judicial review, resolution of these matters could have a material impact on the Company's operations.

F-25

Communications support services revenues and sales decreased \$35.2 million, or 4 percent, in 2004 and increased \$33.8 million in 2003. Sales of telecommunications and data products increased \$13.8 million in 2004, reflecting increased sales to non-affiliated carriers. The increase in revenues and sales in 2003 primarily reflected growth in sales of telecommunications and data products. Primarily due to the decrease in revenues and sales noted above, communications support services segment income decreased \$10.5 million in 2004 and increased \$10.5 million in 2003.

F-26

Set forth below is a summary of the restructuring and other charges related to the communications support services operations.

Segment Capital Requirements

The primary uses of cash for ALLTEL's operating segments are capital expenditures for property, plant and equipment. Capital expenditures for 2005 will be primarily incurred for further deployment of digital wireless technology, including

(a) Computed as the sum of long-term debt including current maturities, redeemable preferred stock and total shareholder

Cash Flows from Operations

Cash provided from operations continued to be ALLTEL's primary source of funds. Cash provided from operations in  
F-27

Cash Flows from Investing Activities

Capital expenditures continued to be ALLTEL's primary use of capital resources. Capital expenditures were \$1,125.4 million in 2004. During 2004, cash outlays for the purchase of property, net of cash acquired, were \$185.1 million. In 2004, ALLTEL purchased \$100 million of cash flow securities. Cash flows from investing activities included \$7.5 million in 2002 of advance lease payments received from American Express. Cash flows from investing activities for 2003 included proceeds from the sale of assets of \$46.1 million, principally cash flow securities. Cash flows from investing activities also included proceeds from the return on or sale of investments of \$88.6 million in 2003.

Cash Flows from Financing Activities

Dividend payments remained a significant use of the Company's capital resources. Common and preferred dividend payments were \$100 million in 2004, \$100 million in 2003 and \$100 million in 2002.  
F-28

ALLTEL's maximum borrowing capacity under its commercial paper program is \$1.5 billion. ALLTEL classifies commercial paper borrowings as short-term debt. Under the commercial paper program, commercial paper borrowings are fully supported by the available borrowings under the program. Retirements of long-term debt amounted to \$277.3 million in 2004, \$763.4 million in 2003 and \$265.8 million in 2002. As previously discussed, to fund the cost of the acquisition of wireline properties in Kentucky and wireless properties in Florida, ALLTEL issued \$1.5 billion of long-term debt. On January 22, 2004, ALLTEL's Board of Directors adopted a stock repurchase plan authorizing the Company to repurchase up to \$1.5 billion of its common stock.  
F-29

Cash flows used in financing activities also included distributions to ALLTEL's minority investors in wireless markets.

Liquidity and Capital Resources

The Company believes it has sufficient cash and short-term investments on hand (\$484.9 million at December 31, 2004) to meet its operating needs. ALLTEL's commercial paper and long-term credit ratings with Moody's Investors Service ("Moody's"), Standard & Poor's ("S&P"), and Fitch IBCA ("Fitch") are A-1, A+, and A+, respectively. Factors that could affect ALLTEL's short and long-term credit ratings would include, but not be limited to, a material decrease in cash flows, a significant increase in debt, or a significant decrease in assets. The revolving credit agreement contains various covenants and restrictions including a requirement that, as of the end of each fiscal year, the Company's debt to capitalization ratio not exceed 0.75. At December 31, 2004, current maturities of long-term debt were \$225.0 million and included a \$200.0 million, 6.75 percent floating rate debt.

Pension Plans

ALLTEL maintains a qualified defined benefit pension plan, which covers substantially all employees. Prior to January 1, 2004, the plan was a non-qualified defined benefit pension plan.  
F-30

Annual pension expense for 2005 was calculated based upon a number of actuarial assumptions, including an expected discount rate. The discount rate selected is based on a review of current market interest rates of high-quality, fixed-rate debt securities. As of December 31, 2004, ALLTEL had cumulative unrecognized actuarial losses of \$226.9 million, compared to \$18.0 million in 2003. ALLTEL made a \$100.0 million contribution to its qualified pension plan in December 2004. ALLTEL does not expect to contribute to the plan in 2005.

#### Other Postretirement Benefits

The Company provides postretirement healthcare and life insurance benefits for eligible employees. Retired employees are eligible for healthcare benefits. Annual postretirement expense for 2005 was calculated based upon a number of actuarial assumptions, including a healthcare cost trend rate of 6.5%.

The healthcare cost trend rate is based on the Company's actual medical claims experience and future projections of medical costs. On December 8, 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the "Act") became law.

#### Off-Balance Sheet Arrangements

The Company does not use securitization of trade receivables, affiliation with special purpose entities, variable interest entities, or other off-balance sheet arrangements. As defined by the Securities and Exchange Commission's rules and regulations, the Company is a party to off-balance sheet arrangements.

#### Guarantees

As further discussed in Note 14 to the consolidated financial statements, in conjunction with the sale of the financial services business to Convergys, ALLTEL agreed to indemnify Convergys for any damages resulting from the sale of assets to Convergys.

#### Obligation to Sell Shares of ALLTEL Common Stock

As previously discussed, to fund the cost of the acquisitions completed in August 2002, ALLTEL sold 27.7 million equity shares.

#### Contractual Obligations and Commitments

Set forth below is a summary of ALLTEL's material contractual obligations and commitments as of December 31, 2004.

(a) Excludes \$(13.1) million of unamortized discounts and the fair value of interest rate swap agreements of \$67.1 million. Under the Company's long-term debt borrowing agreements, acceleration of principal payments would occur upon payment of a specified amount.

#### Market Risk

The Company is exposed to market risk from changes in marketable equity security prices, interest rates, and foreign exchange rates.

#### Equity Price Risk

Changes in equity prices primarily affect the fair value of ALLTEL's investments in marketable equity securities. Fair value is determined based on market prices.

#### Interest Rate Risk

The Company's earnings are affected by changes in variable interest rates related to ALLTEL's issuance of short-term debt. As of December 31, 2004 and 2003, the Company had no borrowings outstanding under its commercial paper program.

#### Foreign Exchange Risk

The Company's business operations in foreign countries are not material to the Company's consolidated operations, financial position, or results of operations.

#### Critical Accounting Policies

ALLTEL prepares its consolidated financial statements in accordance with accounting principles generally accepted in the United States. Service revenues for the Company's communications business are recognized based upon minutes of use processed and billed to customers.

on historical minutes of use processed. Changes in estimates for revenues are recognized in the period in which they are realized. In evaluating the collectibility of its trade receivables, ALLTEL assesses a number of factors including a specific customer's credit history. The calculation of the annual costs of providing pension and postretirement benefits are based on certain key actuarial assumptions. The calculation of depreciation and amortization expense is based on the estimated economic useful lives of the underlying assets. In accordance with SFAS No. 142, ALLTEL tests its goodwill and other indefinite-lived intangible assets for impairment. The Company's estimates of income taxes and the significant items resulting in the recognition of deferred tax assets are as follows:

#### Legal Proceedings

ALLTEL is party to various legal proceedings arising in the ordinary course of business. Although the ultimate resolution of these proceedings is uncertain, management does not expect them to have a material effect on the Company's financial position.

#### Recently Issued Accounting Pronouncements

On December 16, 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123(R), "Share-Based Payment."

#### Forward-Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations includes, and future filings of the Company may include, forward-looking statements. Actual future events and results may differ materially from those expressed in these forward-looking statements as a result of various factors. In addition to these factors, actual future performance, outcomes and results may differ materially because of other, more fully developed factors.

### **SELECTED FINANCIAL DATA**

The following table presents certain selected consolidated financial data as of and for the years ended December 31:

#### Notes to Selected Financial Information:

See Note 12 to the consolidated financial statements for a discussion of the Company's discontinued information services.

#### Notes to Selected Financial Information, Continued:

These transactions decreased net income \$11.5 million or \$.04 per share. (See Note 9 to the consolidated financial statements for more information.)

- D. Net income for 2001 included pretax gains of \$347.8 million from the sale of PCS licenses, a pretax gain of \$9.5 million from the sale of WorldCom common stock.
- E. Net income for 2000 included pretax gains of \$1,345.5 million from the exchange of wireless properties with BellSouth.
- F. Net income for 1999 included a pretax gain of \$43.1 million from the sale of WorldCom common stock. The gain was reduced by income tax expense of \$10.0 million.

### **MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS**

ALLTEL Corporation's management is responsible for the integrity and objectivity of all financial information included in this report. PricewaterhouseCoopers LLP, an independent registered public accounting firm, has audited these consolidated financial statements. The Audit Committee of the Board of Directors, which oversees ALLTEL's financial reporting process on behalf of the Board, is also responsible for the integrity and objectivity of the financial reporting process.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies:

Description of Business ALLTEL Corporation ("ALLTEL" or the "Company"), a Delaware corporation, is a customer of the U.S. government.

Basis of Presentation ALLTEL prepares its consolidated financial statements in accordance with accounting principles generally accepted in the United States.

Service revenues consist of wireless access and network usage revenues, local service, network access, Internet access, and other services.

Regulatory Accounting The Company's wireline subsidiaries, except for certain operations acquired in Kentucky in 2003, are accounted for as regulated utilities.

Transactions with Certain Affiliates ALLTEL Communications Products, Inc. sells equipment to wireline subsidiaries.

Advertising Advertising costs are expensed as incurred. Advertising expense totaled \$202.5 million in 2004, \$200.3 million in 2003, and \$198.5 million in 2002.

F-47

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies, Continued:

Cash and Short-term Investments Cash and short-term investments consist of highly liquid investments with original maturities of three months or less.

Accounts Receivable Accounts receivable consist principally of trade receivables from customers and are generally unsecured.

Inventories Inventories are stated at the lower of cost or market value. Cost is determined using either an average or first-in, first-out method.

Goodwill and Other Intangible Assets Goodwill represents the excess of cost over the fair value of net identifiable intangible assets.

The Company's indefinite-lived intangible assets consist of its cellular and Personal Communications Services ("PCS") trademarks.

Investments Investments in unconsolidated partnerships are accounted for using the equity method. Investments in equity securities are accounted for using the cost method.

Investments were as follows at December 31:

	(Millions)	2004	2003
Investments in unconsolidated partnerships		\$1,000	\$1,000
Equity securities		\$1,000	\$1,000
Total		\$2,000	\$2,000

F-48

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies, Continued:

Investments in unconsolidated partnerships include the related excess of the purchase price paid over the underlying net assets.

Property, Plant and Equipment Property, plant and equipment are stated at original cost. Wireless plant consists of cell towers, antennas, and other equipment.

The Company capitalizes interest in connection with the acquisition or construction of plant assets. Capitalized interest is included in the cost of the related asset.

Capitalized Software Development Costs Software development costs incurred in the application development stage are capitalized.

Impairment of Long-Lived Assets Long-lived assets and intangible assets subject to amortization are reviewed for impairment when events or circumstances indicate that the carrying amount may not be recoverable.

Derivative Instruments The Company uses derivative instruments to obtain a targeted mixture of variable and fixed-rate interest payments.

F-49

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies, Continued:

Mandatorily Redeemable Financial Instruments At December 31, 2003, twelve of the Company's consolidated non-voting preferred shares were mandatorily redeemable.

Preferred Stock Cumulative preferred stock is issuable in series. The Board of Directors is authorized to designate the number of shares and the terms of each series.

Unrealized Holding Gain on Investments Equity securities of certain publicly traded companies owned by ALLTEL are classified as available-for-sale.

Foreign Currency Translation Adjustment For the Company's foreign operations, assets and liabilities are translated into U.S. dollars at the end of the reporting period.

Revenue Recognition Communications revenues are primarily derived from usage of the Company's networks and facilities.

F-50

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies, Continued:

Costs in excess of the deferred activation revenues were expensed as incurred. Upon adoption of EITF Issue No. 00-2, ALLTEL Publishing recognizes directory publishing and advertising revenues and related directory costs when the directory is published. Telecommunications information services revenues are recognized in accordance with the American Institute of Certified Public Accountants' Revenue Recognition. For all other operations, revenue is recognized when products are delivered to and accepted by customers or when services are rendered. Stock-Based Compensation The Company's stock-based compensation plans are more fully discussed in Note 7. ALLTEL's pro forma amounts presented above may not be representative of the future effects on reported net income and earnings per share.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies, Continued:

Income Taxes Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for deferred tax assets and liabilities. Earnings Per Share Basic earnings per share of common stock was computed by dividing net income applicable to common stock by the weighted average number of shares outstanding. As more fully discussed in Note 5, the Company issued equity units in 2002, which obligates the holder to purchase ALLTEL common stock.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies, Continued:

except during periods when the average market price of a share of ALLTEL common stock is above the threshold applicable to the Company. Recently Issued Accounting Pronouncements On December 16, 2004, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 123R.

### 2. Accounting Changes:

Change in Accounting Estimate The Company is routinely audited by federal, state and foreign taxing authorities. Change in Accounting Principle Except for certain wireline subsidiaries as further discussed below, ALLTEL adopted the Cost of Sales method. In accordance with federal and state regulations, depreciation expense for ALLTEL's wireline operations has historically been calculated on a straight-line basis.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 2. Accounting Changes, Continued:

and measurement principles of an asset retirement obligation under SFAS No. 143. In December 2002, the Federal Communications Commission issued Order No. 02-208.

### 3. Acquisitions:

On December 1, 2004, ALLTEL completed the purchase of certain wireless assets from United States Cellular Corporation. The accompanying consolidated financial statements include the accounts and results of operations of the acquired wireless assets.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 3. Acquisitions, Continued:

On August 29, 2003, the Company purchased for \$22.8 million in cash a wireless property with a potential service area of approximately 100,000 square miles. On April 1, 2003, the Company paid \$7.5 million in cash to increase its ownership interest from 43 percent to approximately 50 percent. On February 28, 2003, ALLTEL purchased for \$72.0 million in cash wireless properties with a potential service area of approximately 100,000 square miles. The accompanying consolidated financial statements include the accounts and results of operations of the acquired wireless assets.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 3. Acquisitions, Continued:

On August 1, 2002, ALLTEL purchased substantially all of the wireless assets owned by CenturyTel, Inc. ("CenturyTel"). On August 1, 2002, ALLTEL also completed the purchase of local telephone properties serving approximately 589,000 lines. During 2002, ALLTEL also purchased a wireline property in Georgia and acquired additional ownership interests in wireline properties. The following table summarizes the fair value of the assets acquired and liabilities assumed for the various business combinations. F-56

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 3. Acquisitions, Continued:

The purchase prices paid for each of the transactions discussed above were based on estimates of future cash flows of the acquired businesses. Unaudited pro forma financial information related to the Company's 2004 and 2003 acquisitions has not been presented. The following unaudited pro forma consolidated results of operations of the Company for the year ended December 31, 2004 and 2003 are presented. The pro forma amounts represent the historical operating results of the properties acquired from CenturyTel and Verizon. F-57

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 4. Goodwill and Other Intangible Assets:

The changes in the carrying amount of goodwill by business segment were as follows:  
The carrying value of indefinite-lived intangible assets other than goodwill were as follows at December 31:  
Intangible assets subject to amortization were as follows at December 31: 2004 Gross Accumulated Net Carrying (Millions)  
Intangible assets subject to amortization are amortized on a straight-line basis over their estimated useful lives, which are as follows. F-58

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 5. Debt:

Long-term debt was as follows at December 31: (Millions) 2004 2003 Issued by ALLTEL Corporation

#### Notes:

(a)

Interest rate will be reset on or after February 17, 2005. (b) Repayment of subsidiary's debt obligation guaranteed by subsidiary. Commercial Paper The Company has established a commercial paper program with a maximum borrowing capacity of \$1.5 billion. Revolving Credit Agreement The Company has a five-year \$1.5 billion unsecured line of credit under a revolving credit agreement. F-59

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### 5. Debt, Continued:

Equity Units During 2002, the Company issued and sold 27.7 million equity units in an underwritten public offering. Maturities and sinking fund requirements for the four years after 2005 for long-term debt outstanding as of December 31, 2004 are as follows. F-60

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

---

**6. Financial Instruments and Investments:**

The carrying amount of cash and short-term investments approximates fair value due to the short term nature of the investments. The fair value of investments was based on quoted market prices and the carrying value of investments for which there are no quoted market prices.

**7. Stock-Based Compensation Plans:**

Under the Company's stock-based compensation plans, ALLTEL may grant fixed and performance-based incentive awards. See Note 7 for more information.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**7. Stock-Based Compensation Plans, Continued:**

Set forth below is certain information related to stock options outstanding under ALLTEL's stock-based compensation plans. The following is a summary of stock options outstanding as of December 31, 2004:

**8. Employee Benefit Plans and Postretirement Benefits Other Than Pensions:**

The Company maintains a qualified defined benefit pension plan, which covers substantially all employees other than certain executives. See Note 8 for more information.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**8. Employee Benefit Plans and Postretirement Benefits Other Than Pensions, Continued:**

As a component of determining its annual pension cost, ALLTEL amortizes unrecognized gains or losses that exceed a certain threshold. A summary of plan assets, projected benefit obligation and funded status of the plans were as follows at December 31:

	2004	2003
Assets	\$1,000.0 million	\$916.2 million
Projected benefit obligation	\$802.0 million	\$802.0 million

Employer contributions and benefits paid in the above table included amounts contributed directly to or paid directly from the plans. The accumulated benefit obligation for all defined benefit pension plans was \$916.2 million and \$802.0 million at December 31, 2004 and 2003, respectively.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**8. Employee Benefit Plans and Postretirement Benefits Other Than Pensions, Continued:**

Actuarial assumptions used to calculate the projected benefit obligations were as follows for the years ended December 31:

	2004	2003
Expected long-term rate of return	6.5%	6.5%
Healthcare cost trend rate	7.0%	7.0%

In developing the expected long-term rate of return assumption, ALLTEL evaluated historical investment performance and target allocation for 2005 for the Company's qualified defined benefit pension plan. The asset allocation at December 31, 2004 and 2003 and target allocation for 2005 for the Company's qualified defined benefit pension plan were as follows:

	2004	2003	2005 Target
Equity	60%	60%	60%
Fixed Income	40%	40%	40%

Primarily due to cash contributions funded to the qualified pension plan by ALLTEL in late December of each year that exceed the required contributions, the funded status of the plan improved significantly in 2004. Information regarding the healthcare cost trend rate was as follows for the years ended December 31:

	2004	2003
Healthcare cost trend rate	7.0%	7.0%

For the year ended December 31, 2004, a one percent increase in the assumed healthcare cost trend rate would increase the projected benefit obligation by approximately \$10.0 million.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

---

**8. Employee Benefit Plans and Postretirement Benefits Other Than Pensions, Continued:**

Estimated future employer contributions and benefit payments were as follows as of December 31, 2004:

	2004	2003
Employer contributions	\$100.0 million	\$100.0 million
Benefit payments	\$100.0 million	\$100.0 million

The expected employer contribution for pension benefits consists solely of amounts necessary to fund the expected benefit payments. Under the Medicare Prescription Drug, Improvement and Modernization Act of 2003, (the "Act") beginning in 2006, the Company will be required to contribute to a non-contributory defined contribution plan in the form of profit-sharing arrangements for eligible employees.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**9. Restructuring and Other Charges:**

A summary of the restructuring and other charges recorded in 2004 was as follows:

In January 2004, the Company announced its plans to reorganize its operations and support teams. Also, during February 2004, the Company recorded a restructuring charge of \$2.3 million. During the first quarter of 2004, ALLTEL also recorded a \$2.3 million reduction in the liabilities associated with various restructuring activities.

A summary of the restructuring and other charges recorded in 2003 was as follows:

During the second quarter of 2003, the Company recorded a restructuring charge of \$8.5 million consisting of severance and other charges. For more information, see Note 9 to the consolidated financial statements.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**9. Restructuring and Other Charges, Continued:**

A summary of the restructuring and other charges recorded in 2002 was as follows:

During the evaluation of its existing CLEC operations, ALLTEL determined that a business model that relied heavily on leased facilities was not sustainable. The \$12.6 million in lease and contract termination costs recorded in 2002 consisted of \$6.2 million, representing the expense of terminating contracts with various carriers.

In connection with the purchase of wireline properties in Kentucky from Verizon and wireless properties from CenturyLink, the Company recorded a restructuring charge of \$6.4 million. In conjunction with a product replacement program initiated by a vendor in 2001, the Company exchanged certain used equipment for new equipment.

F-67

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**9. Restructuring and Other Charges, Continued:**

The following is a summary of activity related to the liabilities associated with the Company's restructuring and other charges. As of December 31, 2004, the remaining unpaid liability related to the Company's restructuring activities consisted of \$12.6 million.

**10. Gain on Disposal of Assets, Write-Down of Investments and Other:**

In December 2003, the Company sold to Convergys Information Management Group, Inc. ("Convergys") certain assets. Income tax expense was as follows for the years ended December 31:

F-68

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**11. Income Taxes, Continued:**

Deferred income tax expense for all three years primarily resulted from temporary differences between depreciation expense and the tax depreciation. As more fully discussed in Note 2 to the consolidated financial statements, during the third quarter of 2004, the IRS conducted an audit of the Company's tax returns.

The significant components of the net deferred income tax liability were as follows at December 31: (Millions)

	2004	2003	2002
Deferred tax liability	\$202.7	\$381.3	\$412.1
Deferred tax assets	\$18.0	\$18.0	\$18.0
Total	\$184.7	\$363.3	\$394.1

F-69

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**12. Discontinued Operations, Continued:**

of \$323.9 million. The after-tax proceeds from the sale were used primarily to reduce borrowings outstanding under the Company's credit facilities.

Notes: (a) Included in operating expenses for 2002 was a \$42.3 million charge associated with discontinuing the Company's financial services operations. The following table includes certain summary cash flow statement information related to the financial services operations.

F-70

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**
