NEWS RELEASE

INDEPENDENCE HOLDING COMPANY ANNOUNCES

2006 FOURTH-QUARTER AND ANNUAL RESULTS

Stamford, Connecticut, March 16, 2007. Independence Holding Company (NYSE: IHC) today reported 2006 fourth-quarter and annual results.

Financial Results

Revenues increased 12% to \$93,285,000 for the three months ended December 31, 2006, compared to revenues of \$83,327,000 for the same period in 2005. Net income increased to \$3,597,000, or \$.23 per share, diluted, for the three months ended December 31, 2006, compared to \$895,000, or \$.06 per share, diluted, for the three months ended December 31, 2005. Results for the 2006 and 2005 periods include pre-tax realized investment losses of \$95,000 and \$1,000, respectively.

Revenues increased 23% to \$364,688,000 for the year ended December 31, 2006, compared to revenues of \$296,417,000 for the year ended December 31, 2005. Net income decreased to \$14,061,000, or \$.93 per share, diluted, for the year ended December 31, 2006, compared to \$17,301,000, or \$1.21 per share, diluted, for the year ended December 31, 2005. Income before taxes declined by \$5,375,000 in 2006; contributing to the decline were several factors including (i) lower net investment gains of \$625,000 in 2006 versus \$2,077,000 in 2005, (ii) additional share-based compensation expense of \$1,104,000 in 2006 as a result of the adoption of Statement of Financial Accounting Standards No. 123R and (iii) other income of \$3,500,000 recorded in 2005 relating to a commutation agreement and loss cover.

Chief Executive Officer's Comments

Roy Thung, Chief Executive Officer, commented, "IHC believes that 2006 and 2005 will be remembered as the years in which it accomplished two critical goals while significantly increasing revenues and positioning itself for a better future. IHC's first goal was to diversify and balance its health business by developing a growing presence in five fully insured health insurance product lines - small group major medical, major medical for individuals and families, dental/vision, short-term medical and limited medical. The fully insured market is generally more predictable and is thought to be more than 100 times larger (\$500 billion market versus \$4 billion) than the employer medical stop-loss market. In 2004, IHC had no fully insured health premiums. IHC projects that, by the end of 2007, fully insured will be its largest line of business with \$350 million of annualized gross premiums, a significant part of which will be earned in 2007, spread among five classes of business and multiple distribution strategies. Of course, IHC has never emphasized top-line growth at the expense of profitability, and the fully insured health division is no exception; on average, this line of business should exceed our pricing targets on business written in 2006, as well as generating significant fee income.

IHC has also made progress towards accomplishing its second goal - improving the profitability of the core medical stop-loss block of business. Softness in this market and reserve strengthening, primarily relating to business written in 2004, have adversely affected earnings in this line over the past five quarters. Based on currently available information, business incepting in 2006, of which a material portion will be

earned and recorded in 2007, is projected to achieve a net loss ratio that is meaningfully lower than that of business incepting in 2005, just as the net loss ratio on business incepting in 2005 was meaningfully lower than that of business incepting in 2004. Due to reserve strengthening recorded in 2006 with respect to business written in prior years, on a reported basis, the net loss ratio on IHC's medical stop-loss line increased by 2% when comparing 2005 to 2006.

Mr. Thung continued, "In 2007 and beyond, IHC will strive to produce consistently profitable results, not only from appropriately pricing its products, but from a vertical integration strategy that provides fee income generated from its managing general underwriter, third-party administrator, actuarial and marketing service subsidiaries and affiliates. IHC believes that the work accomplished over the past two years to build its enterprise, diversify its lines of business and increase profitability will produce higher earnings in 2007."

About Independence Holding Company

IHC is a holding company principally engaged in the life and health insurance business and the acquisition of blocks of policies through its insurance company subsidiaries (Standard Security Life Insurance Company of New York and Madison National Life Insurance Company, Inc.), its affiliate (American Independence Corp. (NASDAQ: AMIC)), and its managing general underwriters, third-party administrators, and marketing affiliates. Standard Security Life markets medical stop-loss, small group major medical, short-term medical, major medical for individuals and families, limited medical, group long and short-term disability and life, dental, vision and managed health care products. Madison Life sells group life and disability, employer medical stop-loss, small group major medical, major medical for individuals and families, short-term medical, dental, vision, credit life and disability and individual life insurance. AMIC is a holding company principally engaged in the insurance and reinsurance business through Independence American Insurance Company and its managing general underwriter division.

Certain statements in this news release may be considered forward-looking statements, such as statements relating to management's views with respect to future events and financial performance. Such forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results to differ materially from historical experience or from future results expressed or implied by such forward-looking statements. Potential risks and uncertainties include, but are not limited to, economic conditions in the markets in which IHC operates, new federal or state governmental regulation, IHC's ability to effectively operate, integrate and leverage any past or future strategic acquisition, and other factors which can be found in IHC's other news releases and filings with the Securities and Exchange Commission.
