Revenues and net income increased by 29.2% and 40.9%, respectively, quarter versus quarter. The weighted average number of common shares outstanding on a diluted basis was 5,740,000 and 5,624,000 for the three months ended September 30, 2003 and 2002, respectively.

For the nine months ended September 30, 2003 the Company announced revenues of \$14,281,000, net income of \$6,360,000 and net income applicable to common stockholders of \$5,582,000, or \$.98 per common share on a diluted basis. stockholders of \$3,274,000, or \$.76 per common share on a diluted basis, for the nine months ended September 30, 2002. Net income and net income applicable to common stockholders for the nine months ended September 30, 2002 give effect to equity in earnings of unconsolidated joint ventures of \$760,000. Revenues and net income increased by 25.3% and 57%, respectively, nine months versus nine months. The weighted average number of common shares outstanding on a diluted basis was 5,708,000 and 4,307,000 for the nine months ended September 30, 2003 and 2002, respectively.

The Company also reported that funds from operations applicable to common stockholders for the three months ended September 30, 2003 increased by 47.7% to \$2,943,000, or \$.51 per common share on a diluted basis, as compared to \$1,992,000, or \$.35 per common share on a diluted basis for the three months ended September 30, 2002. Funds from operations applicable to common stockholders for the nine months ended September 30, 2003 increased by 59.4% to \$8,541,000, or \$1.50 per common share on a diluted basis, from \$5,358,000, or \$1.24 per common share on a diluted basis, for the nine months ended September 30, 2002. Funds from operations, calculated in accordance with the NAREIT definition, adds back to net income depreciation of properties, amortization of capitalized leasing expenses and the Company's share of depreciation in unconsolidated joint ventures and deducts gains on sale of real estate and cash distributions to preferred stockholders. Funds from operations represents a non GAAP (generally accepted accounting principles) financial measure. The table attached to this release reconciles GAAP net income to funds from operations.

Commenting on the results of operations, Jeffrey Fishman, President and Chief Executive Officer of the Company noted that revenues increased primarily because of a 34.7% increase in rental income quarter versus quarter and a 27.2% increase in rental income nine months versus nine months due primarily to the acquisition of eight properties between September 2002 and September 2003. Commenting further, Mr. Fishman noted that interest and other income contributed approximately 2.8% and 6.7%, to revenues in the three months ended September 30, 2003 and 2002, respectively, and 2.6% and 4.1% in the nine months ended September 30, 2003 and 2002, respectively. Interest and other income decreased three months versus three months and nine months versus nine months primarily due to non-recurring type income items realized in the 2002 periods, including net acquisition fees earned from the Company's movie theater partners and interest earned from the proceeds of a public offering completed in May 2002, pending use of such proceeds. Offsetting the decrease in interest and other income quarter versus quarter and nine months versus nine months, is interest earned from two mortgage loans acquired and originated by the Company to facilitate two acquisitions, pending completion of permanent mortgage financing on the two properties acquired.

Referring to the Company's joint venture activities, Mr. Fishman noted that the Company's two movie theater joint ventures had acquired nine theaters between April 2002 and July 2003. In addition, Mr. Fishman noted that an additional joint venture was organized in December 2002 to acquire a retail property and that the Company contributed its leasehold position in an industrial property to a joint venture in February 2002. As a result of these transactions, the Company's equity in earnings of unconsolidated joint ventures increased by 106% quarter versus quarter and 141% nine months versus nine months.

The Company's expenses increased by \$812,000 (30.3%) quarter versus quarter and by \$1,647,000 (20.3%) nine months versus nine months. The Company's property acquisition activities resulted in increased interest on borrowings under its credit line to facilitate purchases. An increase in the Company's portfolio of

properties resulted in the increased depreciation expense, mortgage expense and real estate operating expenses. Mr. Fishman noted that three months versus three months there was a \$150,000 (34.6%) increase in general and administrative expenses and nine months versus nine months there was a \$441,000 (36.5%) increase in general and administrative expenses due in large part to an increase in payroll and payroll related expenses, primarily legal and accounting expenses allocated to the Company under a shared services agreement, related to property acquisitions, mortgage financing activities, lease negotiations, consummation of a new credit facility, Sarbanes-Oxley compliance, and an overall increase in the level of the Company's business activities.

Mr. Fishman also commented that on October 31, 2003, the Company sold in a follow on public offering, 3,250,000 shares of Common Stock at \$18.25 per share through an underwriting syndicate led by Friedman Billings Ramsey, Ferris Baker Watts Incorporated and Stifel, Nicolaus & Company Incorporated, resulting in net proceeds to the Company of approximately \$56,000,000. The underwriters also have been granted a thirty day option to purchase an additional 487,500 shares at the public offering price less the underwriting discount, to cover over allotments, if any.

One Liberty Properties is a real estate investment trust and invests primarily in improved commercial real estate under long term net lease.
