Financial Statements:

Statements of Net Assets Available for Plan Benefits
as of December 31, 2000 and 1999

Statement of Changes in Net Assets Available for Plan Benefits
for the Year Ended December 31, 2000

Notes to Financial Statements

Accompanying Appendices:

Appendix I: Schedule H - Part IV - Line 4i - Schedule of Assets Held for Investment
Purposes as of December 31, 2000

Appendix II: Schedule H - Part IV - Line 4j - Schedule of Reportable
Transactions (for non-participant directed investments) for the Year
Ended December 31, 2000

Note: Schedules other than those listed above have been omitted because they are not applicable or are not required by 29 CFR 2520.103 - 10 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Pension and Retirement Plan
Administrative Committee:

We have audited the accompanying statements of net assets available for plan benefits of the OCCIDENTAL PETROLEUM CORPORATION SAVINGS PLAN (the "Plan") as of December 31, 2000 and 1999, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 2000. These financial statements and the supplemental schedules referred to below are the responsibility of the Plan administrator. Our responsibility is to express an opinion on these financial statements and supplemental schedules based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2000 and 1999, and the changes in its net assets available for

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

plan benefits for the year ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules included in appendices I and II, as listed in the accompanying index, are presented for purposes of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

OCCIDENTAL PETROLEUM CORPORATION
SAVINGS PLAN

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

Notes to Financial Statements
December 31, 2000 and 1999

1. Description of the Plan

The following description of the Occidental Petroleum Corporation Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

a. General

The Plan is a defined contribution plan generally available to certain employees of Occidental Petroleum Corporation ("OPC", "Oxy", or the "Employer"), a Delaware corporation, and participating subsidiaries (collectively, the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

b. Plan Administration

The Plan is administered by the OPC Pension and Retirement Trust and Investment Committee as to investment decisions and by the OPC Pension and Retirement Plan Administrative Committee as to all matters except investment decisions (these two committees are herein referred to collectively as the "Committees"). Members of the Committees are selected by the Board of Directors of OPC. The Committees have been given all powers necessary to carry out their respective duties, including, but not limited to, the power to administer and interpret the Plan and to answer all questions affecting eligibility of participants. The Northern Trust Company (the "Trustee") is the trustee and custodian of a trust fund which holds all of the assets of the Plan. The Company pays certain costs and expenses incurred in administering the Plan. Such costs and expenses were not significant for the year ended December 31, 2000.

c. Contributions

Participant Contributions - Prior to June 30, 2000, participants were allowed to contribute from 1 to 12 percent of compensation (as defined) to the Plan on a before- or after-tax basis, or in any combination thereof, subject to certain Internal Revenue Code ("IRC") limitations. Effective July 1, 2000, the upper limit on participant contributions increased from 12 to 15 percent.

Employer Contributions - Prior to June 30, 2000, the Employer contributed 75 percent of a participant's contribution up to the first 6 percent of compensation. Effective July 1, 2000, Employers contributions increased to 100 percent of a participant's contribution up to the first 6 percent of compensation. All Employer contributions are invested in the Occidental Petroleum Corporation Common Stock Fund (the "Oxy Stock Fund").

5

d. Participant Accounts

Participants accounts are credited with the participant's contribution and allocations of the Employer's contribution and investment income, and charged with an allocation of administrative expenses and investment losses, if any. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

e. Vesting

Participants immediately vest in their contributions plus actual investment income thereon, if any. Vesting in the Employer's contribution portion of the account plus actual earnings thereon is based on years of service. Generally, a participant receives 20 percent vesting for each year of service until full vesting is achieved after 5 years of service.

f. Forfeitures

Forfeited nonvested accounts are used to reduce Employer contributions. During 2000, Employer contributions were reduced by approximately \$169,000 from forfeited nonvested accounts. Unallocated forfeitures at December 31, 2000 and 1999 were not significant to the financial statements.

g. Distributions

Generally, upon termination of service for any reason other than death, participants with an account balance greater than \$5,000, may elect to receive the vested portion of their account in the following distribution options: (i) one lump sum payment, (ii) straight life annuity, (iii) ten-year term certain annuity, (iv) joint and survivor annuity, (v) partial cash distribution or (vi) deferral of payment with certain restrictions. Upon termination of service due to death, the beneficiary may elect to receive the vested interests in the form of (i), (ii), (iii) or (vi) only. A participant whose vested account balance is \$5,000 or less, may receive distributions only under options (i), (v) or (vi). Participants may elect to receive distributions from their account balance in the Oxy Stock Fund in cash or in shares of OPC common stock.

h. Participant Loans

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of: (i) \$50,000, reduced by the highest outstanding loan balance in the past twelve months, (ii) 50 percent of their vested account balance, or (iii) a loan amount which would require payroll deductions for repayment equal to 25 percent of the participant's base compensation. Loan transactions are treated as a transfer between the investment fund and the participant loan fund. Loan terms range from 1 to 5 years for general purpose loans and 6 to 10 years for primary residence loans. The loans bear interest at a fixed rate equal to the Western Federal Credit Union's loan rate for a loan secured by a member's deposit account at the time the loan is approved. During 1999, the interest rate charged on new loans ranged from 5 to 7 percent. During 2000 the interest rate charged on new loans was 5 percent. Loan repayments are made ratably through payroll deductions.

6

i. Investment Options

As of December 31, 2000, the Plan offered 12 investment options. Upon enrollment in the Plan, participants may direct their contributions, in 5 percent increments, in any of the investment options offered at the time. Participants may change their investment options daily. Participants should refer to the Plan fund description pamphlet for a complete description of the investment options and for the detailed composition of each investment fund. Effective December 29, 2000, the Plan terminated one investment option. Participants directed balances out of this investment fund and into other investment funds.

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

2. Summary of Significant Accounting Policies

a. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

b. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

c. Risks and Uncertainties

The Plan provides for various investment options in mutual funds, actively managed funds and the Oxy Stock Fund. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the various risk factors, in the near term, could materially affect participants' account balances and the amounts reported in the financial statements.

Additionally, many mutual funds invest in the securities of foreign companies, which involves special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than similar types of securities of comparable U.S. companies.

Derivative financial instruments are used by the Plan's equity and fixed income investment managers to remain fully invested in the asset class and to hedge currency risk. Leveraging of the Plan assets and speculation are prohibited.

d. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the investments in guaranteed investment contracts which are valued at contract value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The OPC

7

common stock is valued at its quoted market price. The unit price of common or commingled trust funds is based on the current market values of the underlying assets of the fund. Participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Realized gains and losses on investments are based on the market value of the asset at the beginning of the year, or at the time of purchase for

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

assets purchased during the year, and the related fair value on the day the investments are sold during the year. Unrealized gains and losses of investments are based on the market value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value at the end of the year. Net realized and unrealized appreciation/(depreciation) in fair value of investments is reflected in the accompanying statement of changes in net assets available for plan benefits as "net appreciation in fair value of investments."

e. Payment of Plan Benefits

Benefits are recorded when paid.

3. Plan Amendments

Beginning in 1999, plan asset valuation was changed from semi-monthly to daily.

During 2000, the Plan was amended to allow for appropriate service recognition, vesting and other provisions necessitated by OPC's recent acquisitions of Altura Energy Ltd. (effective April 19, 2000), the Thums Long Beach Company (effective April 24, 2000) and INDSPEC Chemical Corporation (effective during 1999).

4. Related Party Transactions

The Trustee and OPC are parties-in-interest as defined by ERISA. The Trustee invests certain Plan assets in its collective short-term investment fund and the Oxy Stock Fund. Such transactions qualify as party-in-interest transactions permitted by Department of Labor regulations. Expenses paid by the Plan to the Trustee for the year ended December 31, 2000 were approximately \$137,000.

5. Plan Termination

Although it has not expressed any intent to do so, OPC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

8

6. Investments

The following table presents investments that represent 5 percent or more of the Plan's net assets (dollar amounts in thousands):

	December 31,	
	2000	1999
	-----	-----
Investments at fair value:		
Common Stock		

Oxy Stock Fund	\$ 261,675*	\$ 251,370*
Registered Investment Companies

Investment income		11,596
Net appreciation in fair value of investments		32,269
Transfers between funds		(3,830)
Benefits paid to participants		(45,764)

	\$	13,089
		=====

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

8. Guaranteed Investment Contracts

The Stable Value Fund includes deposits for guaranteed investment contracts ("GICs") and synthetic GICs. The Plan's investments in GICs are included in the statement of net assets available for plan benefits at contract value (which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses) because they are fully benefit responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Withdrawals resulting from events initiated by the Company, such as Plan termination, are not typically considered participant initiated transactions. With such an event, some of the contracts contain contingencies that could lead to withdrawal penalties. However, since no such events are being contemplated at this time, or the withdrawals resulting from such an event will be funded outside the contracts' provisions, these "potential" limitations do not jeopardize the contract value reporting for these investments.

Contract value for the synthetic GICs is determined based on the fair value of the assets underlying the synthetic GICs. The difference between the fair value of the assets underlying the synthetic GICs and the contract value of the GICs is the value of the "wrapper" contract issued by a third party. The fair value for GICs varies based on the type of contract held (e.g., security-backed investments and general account investments). Fair value of the general account investment type GICs is derived by comparing the contract value, on a duration basis, to the yield curve. Fair value of the non-participating synthetic GICs are determined by comparing each contract, on a duration basis, to a Treasury yield curve at year end, plus 40 basis points. Fair value for security backed investment contracts was derived from outside sources, based on the type of investment held.

10

During 2000 and 1999, the average yield earned on amounts invested in the GICs was 6.47 percent and 6.42 percent, respectively. As of December 31, 2000 and 1999, the average crediting interest rate on such contracts was 6.75 and 6.25 percent, respectively. There were no valuation reserves recorded to adjust contract amounts during the Plan year. Crediting rate resets are applied to specific investment contracts, as determined at the time of purchase. The reset values for security backed investment rates are a function of contract value, market value, yield and duration. General account investment rates are based on a predetermined index rate of return, plus a fixed basis point spread. The following is a reconciliation between the fair value and the contract value of the GICs at December 31, 2000 (dollar amounts in thousands):

	Duration (Years)	Crediting Interest Rate Percentage	Contract Value	Fa
SECURITY BACKED INVESTMENTS				
INVESCO Group Trust:				
Monumental Life Insurance Co.	4.00	6.13	\$ 1,505	\$

9. Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 (dollar amounts in thousands):

	December 31,	
	2000	1999
	-----	-----
Net assets available for plan benefits per the financial statements	\$ 815,658	\$ 878,683
Amounts allocated to withdrawing participants	(6,306)	(7,240)
	-----	-----
Net assets available for plan benefits per the Form 5500	\$ 809,352	\$ 871,443
	=====	=====

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500 for the year ended December 31, 2000 (dollar amounts in thousands):

Benefits paid to participants per

Edgar Filing: OCCIDENTAL PETROLEUM CORP /DE/ - Form 11-K

the financial statements	\$	143,211
Add: Amounts allocated to withdrawing participants at December 31, 2000		6,306
Less: Amounts allocated to withdrawing participants at December 31, 1999		(7,240)

Benefits paid to participants per the Form 5500	\$	142,277
		=====

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit payments that have been processed and approved for payment prior to December 31, but not yet paid as of that date.

The following is a reconciliation of investments per the financial statements to the Form 5500 as of December 21, 2000 (dollar amounts in thousands):

Total investments per the financial statements	\$	796,095
Less: Difference between fair value and contract value of GICs		(226)

Total investments per the Form 5500	\$	795,869
		=====

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 5, 1996, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Committees, using their judgment and the advice of their advisors, believe that the Plan is currently designed and operating in a manner that qualifies it for continued tax-exempt status.

13

11. Subsequent Event

Effective January 1, 2001, two new investment options were added to the Plan; participants were allowed to direct their contributions into these two investment options.
