Franklin Templeton Investments

GAIN FROM OUR PERSPECTIVE(R)

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups-- Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with offices in over 25 countries, Templeton offers investors a truly global perspective.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among what it believes are undervalued stocks, as well as arbitrage situations and distressed securities.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to different investment approaches, Franklin, Templeton and Mutual Series funds typically have distinct portfolios. That's why our funds can be used to build truly diversified allocation plans covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable, accurate and personal service that has helped us become one of the most trusted names in financial services.

Templeton Emerging Markets Fund

YOUR FUND'S GOAL AND MAIN INVESTMENTS: Templeton Emerging Markets Fund seeks long-term capital appreciation by investing, under normal market conditions, at least 80% of its net assets in emerging country equity securities.

Dear Shareholder:

This semiannual report for Templeton Emerging Markets Fund covers the period ended February 28, 2006.

PERFORMANCE OVERVIEW

Templeton Emerging Markets Fund delivered cumulative total returns of +28.97% based on market price and +26.69% based on net asset value for the six months under review. The Morgan Stanley Capital International (MSCI) Emerging Markets (EM) Index posted a +30.23% cumulative total return for the same period. ¹ In line with our investment strategy, we are pleased with our long-term results, which you will find in the Performance Summary on page 7. For example, for the 10-year period ended February 28, 2006, the Fund delivered cumulative total returns of +136.41% based on market price and +181.95% based on net asset value, compared with the MSCI EM Index's

1. Source: Standard & Poor's Micropal. The MSCI EM Index is a free float-adjusted, market capitalization-weighted index designed to measure equity market performance in global emerging markets. The Fund's 10-year average annual total returns were +8.99% based on market price and +10.92% based on net asset value. The MSCI EM Index's average annual total return for the same period was +7.55%. The index is unmanaged and includes reinvested dividends. One cannot invest directly in an index, nor is an index representative of the Fund's portfolio.

THE DOLLAR VALUE, NUMBER OF SHARES OR PRINCIPAL AMOUNT, AND NAMES OF ALL PORTFOLIO HOLDINGS ARE LISTED IN THE FUND'S STATEMENT OF INVESTMENTS (SOI). THE SOI BEGINS ON PAGE 10.

ECONOMIC AND MARKET OVERVIEW

Emerging markets continued an upward trend and generally outperformed global developed markets during the six months under review. Ample global liquidity and a supportive economic environment appeared to boost investor confidence. Latin American markets were among the strongest performers for the period as the region's risk profile continued to improve. In Eastern Europe, most markets recorded positive returns as many companies benefited from greater integration with Western Europe. Asian markets lagged their emerging markets counterparts as rising U.S. interest rates and concerns about avian flu virus led many investors to adopt a more cautious stance toward investing in the region. High commodity prices, solid economic growth and market stability in South Africa helped that country's market perform well. In Turkey, European Union accession talks, robust gross domestic product growth and support from the International Monetary Fund (IMF) provided investors with reasons to remain confident, and Turkey's equity market ended the period up +53.72%, as measured by the MSCI Turkey Index. 2

Most Asian economies, particularly in China and India, recorded robust economic growth. Reflecting China's rapid economic developments, Chinese equity prices experienced significant appreciation during the period. In Taiwan, the conclusion of local elections and attractive valuations drew increased investor interest late in the period and contributed to an equity market rebound. South Korean stocks were among the region's strongest performers as equity markets there had greater domestic mutual fund inflows and attractive valuations.

Market sentiment in Latin America was positive amid an improved risk profile, subdued inflation that led to lower interest rates, and continuing economic recovery. Improving financial conditions in Brazil and Argentina, which both repaid debt to the IMF ahead of schedule in December 2005, further encouraged investment in the region.

2. Source: Standard & Poor's Micropal. The MSCI Turkey Index is market capitalization weighted and measures total returns of equity securities in Turkey.

2 | Semiannual Report

In Eastern Europe, Hungary's market declined largely due to uncertainty surrounding general elections in April and the country's continued high fiscal deficit. Other countries, such as the Czech Republic and Poland, experienced economic growth, but their equity markets underperformed those of most other

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

emerging markets following strong appreciation over the past several years. Russia's market was the strongest regional performer as high commodity prices, especially for oil, which is a major Russian export, enhanced the country's fiscal position. This situation allowed Russia to settle US\$15 billion of its loan with the Paris Club, an organization of international creditors that provides debt relief to countries in need, ahead of scheduled maturity.

INVESTMENT STRATEGY

Our investment strategy employs a bottom-up, value-oriented, long-term approach. We focus on the market price of a company's securities relative to our evaluation of the company's long-term earnings, asset value and cash flow potential. As we look for investments, we focus on specific companies and undertake in-depth research to construct an action list from which we make our buy decisions. Before we make a purchase, we look at the company's potential for earnings and growth over a five-year horizon. During our analysis, we also consider the company's position in its sector, the economic framework and political environment.

MANAGER'S DISCUSSION

During the period under review, from a geographic perspective, the Fund's performance relative to the MSCI EM Index benefited from stock selection in Taiwan and Brazil. An underweighted position in Israel and no exposure to Chile further helped relative performance as both markets underperformed the index during the period. In Taiwan, an overweighted position in Uni-President Enterprises and an underweighted position in United Microelectronics provided the greatest positive effect on relative performance. Notable Brazilian holdings that outperformed the overall index and in which the Fund had relatively overweighted positions included Banco Bradesco, Souza Cruz and Centrais Electricas Brasileiras. Conversely, exposure to Singapore, which is not represented in the MSCI EM Index, hurt relative performance as that market underperformed the index. We reduced the Fund's Singapore weighting during the period. Stock selection in Mexico also had an adverse effect on relative performance. We maintained a relatively underweighted position in Mexico, which outperformed the overall index, mainly due to valuations there that were more expensive than in Brazil, where we continued to find stocks trading at what we believed were attractive valuations.

At the sector level, stock selection in the banks; food, beverage and tobacco; and materials sectors benefited performance during the period. 3 The largest individual contributors from each of these sectors were Brazil's Banco Bradesco, South Korea's CJ Corp., and Uni-President, respectively. Stock selection and an underweighted position in the technology hardware and equipment sector also helped relative performance. 4 Sectors that detracted most from relative performance were telecommunication services and energy, where stock selection hindered the Fund relative to the MSCI EM Index. 5 For example, having no holdings in America Movil and being overweighted in Taiwan Mobile hurt relative performance. Taiwan Mobile is a central mobile services provider in Taiwan and

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

had what we believed were inexpensive valuations and an attractive dividend yield. The Fund increased its energy sector exposure during the period as we believe high oil prices could lead to greater earnings for companies in this sector. The Fund's only holding in the real estate sector, Cheung Kong, underperformed the overall index and thus had a negative effect on relative performance. We held Cheung Kong, a major conglomerate in Hong Kong with a strong real estate market position, which we believe is well positioned to benefit from Hong Kong's improving economic environment and a recovery in property prices.

It is important to recognize the effect of currency movements on the Fund's performance. In general, if the value of the U.S. dollar increases compared with a foreign currency, an investment traded in that foreign currency will decrease in value because it will be worth fewer U.S. dollars. This can have a negative effect on Fund performance. Conversely, when the U.S. dollar weakens in relation to a foreign currency, an investment traded in that foreign currency will increase in value, which can contribute to Fund performance. For the six months ended February 28, 2006, the U.S. dollar declined in value relative to many non-U.S. and emerging market currencies. As a result, the Fund's performance was positively affected by the portfolio's predominant investment in securities with non-U.S. currency exposure. However, one cannot expect the same result in future periods.

3. The banks sector comprises commercial banks and thrifts and mortgage finance in the SOI. The food, beverage and tobacco sector comprises beverages, food products and tobacco in the SOI. The materials sector comprises chemicals, construction materials, containers and packaging, metals and mining, and paper and forest products in the SOI.

4. The technology hardware and equipment sector comprises communications equipment, computers and peripherals, electronic equipment and instruments, office electronics, and semiconductor equipment and products in the SOI.

5. The telecommunication services sector comprises diversified telecommunication services and wireless telecommunication services in the SOI. The energy sector comprises energy equipment and services; and oil, gas and consumable fuels in the SOI.

4 | Semiannual Report

During the six months under review, we increased the Fund's holdings in China H shares (Hong Kong-listed Chinese companies) and Indonesia. Key purchases included adding to our holdings in PetroChina, a dominant oil and gas company, and initiating a position in China Construction Bank, one of the largest commercial banks in China. In Indonesia, we established a position in Astra International, a leading automobile manufacturer. Elsewhere in Asia, we invested in stocks that we believed were well positioned to benefit from high commodity prices. For example, we bought shares in Hong Kong's CNOOC, the largest offshore oil and natural gas exploration and production company in China; South Korea's POSCO, one of the world's largest steel producers; and Oil & Natural Gas Corp., a dominant company in India's oil and gas industry. Another significant investment was the Fund's participation in the initial public offering of Lotte Shopping, a major South Korean department store. Within the region, we sold selected shares in Singapore and South Korea as sales price targets for some holdings were met. Largely as a result, the Fund's exposure to industrial conglomerates and construction companies declined during the period.

As a result of strong market performance in Latin America, we took profits in selected stocks in Brazil and Mexico. For example, we sold our position in

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

Localiza, a major car rental company in Brazil, whose rapid price appreciation during the period led to what we considered expensive valuations. Energy and metals and mining stocks remained attractive to us as companies benefited from high commodity prices. Investments in these sectors included shares of Brazilian holdings Companhia Vale do Rio Doce, which is among the world's largest iron ore producers, and Braskem, Latin America's biggest petrochemical company.

In Europe, we attempted to position the portfolio to benefit from regional developments. Additions to the Fund during the period included stocks from Russia, Finland and Hungary, while we sold an emerging market stock listed in Belgium, as well as holdings in Poland. Significant purchases included shares of Unified Energy Systems, a major electric utility in Russia, Surgutneftegaz, one of Russia's key integrated oil and gas companies, OTP Bank, Hungary's largest bank, and Nokian Renkaat, a leading tire manufacturer based in Finland.

Performance Summary As Of 2/28/06

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects reinvestment of the Fund's dividends and capital gain distributions, if any, and any unrealized gains or losses. All total returns include reinvested distributions according to the terms specified in the Fund's dividend reinvestment and cash purchase plan and do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or realized gains on the sale of Fund shares.

Templeton Emerging Markets Fund

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Emerging Markets Fund (the Fund) is registered under the Investment Company Act of 1940 as a diversified, closed-end investment company.

The following summarizes the Fund's significant accounting policies.

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Trustees.

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Trustees.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION (CONTINUED)

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses on these contracts are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts, which may be in excess of the amount reflected in the Statement of Assets and Liabilities.

D. INCOME AND DEFERRED TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute to shareholders substantially all of its taxable income and net realized gains.

The Fund is subject to a tax imposed on net realized gains on securities of certain foreign countries. The Fund records an estimated deferred tax liability for net unrealized gains on these securities in an amount that would be payable if the securities were disposed of on the valuation date.

Foreign securities held by the Fund may be subject to foreign taxation. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the Fund is notified of the ex-dividend date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

earnings determined on a tax basis may differ from earnings recorded in accordance with accounting principles generally accepted in the United States. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

G. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. SHARES OF BENEFICIAL INTEREST

The Fund's Board of Trustees previously authorized an open-market share repurchase program pursuant to which the Fund may purchase, from time to time, Fund shares in open-market transactions, at the discretion of management. This authorization remains in effect. During the period ended February 28, 2006, there were no shares repurchased.

At February 28, 2006, there were an unlimited number of shares authorized (without par value). During the period ended February 28, 2006, 132,985 shares were issued for \$2,403,830 from reinvested distributions. During the year ended August 31, 2005, 15,994 shares were issued for \$242,988 from reinvested distributions.

3. TRANSACTIONS WITH AFFILIATES

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

SUBSIDIARY

AFFILIATION

Templeton Asset Management Ltd. (TAML)

Investment manager

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

Franklin Templeton Services, LLC (FT Services)

Administrative manager

A. MANAGEMENT FEES

The Fund pays an investment management fee to TAML based on the average daily net assets of the Fund as follows:

ANNUALIZED FEE RATE	NET ASSETS
1.250%	Up to and including \$1 billion
1.200%	Over \$1 billion, up to and including \$5 billion
1.150%	Over \$5 billion, up to and including \$10 billion
1.100%	Over \$10 billion, up to and including \$15 billion
1.050%	Over \$15 billion, up to and including \$20 billion
1.000%	In excess of \$20 billion

B. ADMINISTRATIVE FEES

The Fund pays an administrative fee to FT Services of 0.15% per year of the average daily net assets of the Fund.

4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the period ended February 28, 2006, the custodian fees were reduced as noted in the Statement of Operations.

5. INCOME TAXES

For tax purposes, realized currency losses occurring subsequent to October 31 may be deferred and treated as occurring on the first day of the following fiscal year. At August 31, 2005, the Fund deferred realized currency losses of \$147,996.

Templeton Emerging Markets Fund

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

5. INCOME TAXES (CONTINUED)

Net investment income differs for financial statement and tax purposes primarily due to differing treatments of foreign currency transactions, passive foreign investment company shares, and foreign tax refunds.

Net realized gains (losses) differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, passive foreign investment company shares, and foreign tax refunds.

At February 28, 2006, the cost of investments and net unrealized appreciation (depreciation) for income tax purposes were as follows:

Cost of investments	\$ 233,984,456 =====
---------------------------	-------------------------

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

Unrealized appreciation	\$ 133,217,717
Unrealized depreciation	(1,173,209)

Net unrealized appreciation (depreciation)	\$ 132,044,508
	=====

6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the period ended February 28, 2006, aggregated \$55,357,123 and \$71,763,858, respectively.

7. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Franklin Advisers, Inc. (an affiliate of the investment manager). Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management and administrative fees paid by the Sweep Money Fund.

8. CONCENTRATION OF RISK

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities.

Semiannual Report | 23

Templeton Emerging Markets Fund

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

9. RESTRICTED AND ILLIQUID SECURITIES

At February 28, 2006, investments in securities included issues that are restricted and illiquid. Restricted securities are often purchased in private placement transactions, and cannot be sold without prior registration under the Securities Act of 1933, unless the sale is pursuant to an exemption under the 1933 Act.

A security may be considered illiquid if it lacks a readily available market or if its valuation has not changed for a certain period of time. At February 28, 2006, the Fund held investments in restricted and illiquid securities, valued in accordance with procedures approved by the Fund's Board of Trustees as reflecting fair value, as follows:

SHARES	ISSUER	ACQUISITION DATE	COST	VALUE
44,639	ZAO Polyus Gold Co.	1/02/06	\$--	\$ 1,623,520
	TOTAL RESTRICTED AND ILLIQUID SECURITIES (0.44% of Net Assets) ..			\$ 1,623,520

10. REGULATORY MATTERS

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (collectively, the "Company"), entered into settlements with certain of those regulators.

Specifically, the Company entered into settlements with the Securities and Exchange Commission ("SEC") concerning market timing (the "August 2, 2004 SEC Order") and marketing support payments to securities dealers who sell fund shares (the "December 13, 2004 SEC Order") and with the California Attorney General's Office ("CAGO") concerning marketing support payments to securities dealers who sell fund shares (the "CAGO Settlement"). Under the terms of the settlements with the SEC and the CAGO, the Company retained an Independent Distribution Consultant ("IDC") to develop a plan for distribution of the respective settlement monies. The CAGO approved the distribution plan under the CAGO Settlement and, in accordance with the terms and conditions of that settlement, the monies were disbursed to the relevant funds. The Fund did not participate in the CAGO settlement. The SEC has not yet approved the distribution plan pertaining to the December 13, 2004 SEC Order. When approved, disbursements of settlement monies will be made promptly to the relevant funds, in accordance with the terms and conditions of that order. The IDC has also prepared and submitted to the SEC for its approval a plan of distribution under the August 2, 2004 SEC Order that resolved the SEC's market timing investigation.

Templeton Emerging Markets Fund

NOTES TO FINANCIAL STATEMENTS (UNAUDITED) (CONTINUED)

10. REGULATORY MATTERS (CONTINUED)

In addition, the Company, as well as most of the mutual funds within Franklin Templeton Investments and certain current or former officers, directors, and/or employees, have been named in private lawsuits (styled as shareholder class actions, or as derivative actions on behalf of either the named funds or Franklin Resources, Inc.) relating to the industry practices referenced above, as well as to allegedly excessive advisory fees, commissions, and/or 12b-1 fees. The lawsuits were filed in different courts throughout the country. Many of those suits are now pending in a multi-district litigation in the United States District Court for the District of Maryland.

The Company and fund management strongly believe that the claims made in each of the private lawsuits referenced above are without merit and intend to defend against them vigorously. The Company cannot predict with certainty the eventual outcome of these lawsuits, nor whether they will have a material negative impact on the Company. If it is determined that the Company bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

Shareholders must affirmatively elect to participate in the Plan; share dividends and capital gains distributions will be reinvested automatically; Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938, will provide additional Plan information upon request.

Whenever the Fund declares dividends in either cash or shares of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in shares at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

A participant has the option of submitting additional cash payments to Mellon Bank, N.A. (the "Plan Administrator"), in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Bank, N.A." and sent to Mellon Investor Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attention: Templeton Emerging Markets Fund. The Plan Administrator shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of Fund shares on the open market.

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax that may be payable on dividends or distributions.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested. The Plan Agent's fee for a sale of shares through the Plan are \$15.00 per transaction plus a \$0.12 per share trading fee.

The participant may withdraw from the Plan without penalty at any time by written notice to the Plan Administrator sent to Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938. Upon withdrawal, the participant will receive, without charge, share certificates issued in the participant's name for all full shares held by the Plan Administrator; or, if the participant wishes, the Plan Administrator will sell the shares and send the proceeds to the participant, less a service charge of \$15.00 and less trading fees of \$0.12 per share.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The board of trustees of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager Templeton Asset Management Limited in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to Institutional Shareholder Services (ISS), an unaffiliated third party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, recordkeeping and vote disclosure services. In addition, the manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies. Although ISS' and/or Glass Lewis' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from ISS, Glass Lewis or any other third party to be determinative of the manager's ultimate decision. The manager votes proxies solely in the interests of the Fund and its shareholders. As a matter of policy, the officers, directors/trustees and employees of the Fund, the manager and the Proxy Group will not be influenced by outside sources whose interests conflict

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

with the interests of the Fund and its shareholders. All conflicts are resolved in the interests of the manager's clients. In situations where the manager perceives a material conflict of interest, the manager may: disclose the conflict to the Fund's board of trustees; defer to the voting recommendation of the Fund's board of trustees, ISS, Glass Lewis or those of another independent third party provider of proxy services; or take such other action in good faith (in consultation with counsel) which would protect the interests of the Fund and its shareholders.

The recommendation of management on any issue is a factor which the manager considers in determining how proxies should be voted, but is not determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTORS. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

RATIFICATION OF AUDITORS OF PORTFOLIO COMPANIES. In light of several high profile accounting scandals, the manager will closely scrutinize the role and performance of auditors. On a case-by-case basis, the manager will examine proposals relating to non-audit relationships and non-audit fees. The manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of accounting irregularities or negligence.

MANAGEMENT AND DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with its shareholders' long-term interests. The manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders. The manager will review on a case-by-case basis any shareholder proposals to adopt policies on

Edgar Filing: TEMPLETON EMERGING MARKETS FUND - Form N-CSRS

expensing stock option plans.

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. The manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase and proposals seeking preemptive rights. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether each will be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring and reincorporation proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to proxy voting decisions for international companies. However, the manager must be more flexible in these instances and must be mindful of the varied market practices of each region.

The manager will attempt to process every proxy it receives for all domestic and foreign proxies. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or sell orders preclude the ability to vote. The manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.

Shareholders may view the complete Policies online at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at 1-954/847-2268 or by sending a written request to: Franklin Templeton Companies, LLC, 500 East Broward Boulevard, Suite 1500, Fort Lauderdale, FL 33394, Attention: Proxy Group. Copies of the Fund's proxy voting records are available online at franklintempleton.com and posted on the SEC website at WWW.SEC.GOV and reflect the twelve-month period beginning July 1, 2004, and ending June 30, 2005.

ITEM 10. SUBMISSION OF MATTERS OF A VOTE OF SECURITY HOLDERS.

There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that would require disclosure herein.

ITEM 11. CONTROLS AND PROCEDURES.

(a) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(b) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.
