Section 2 - Financial Information

Item 2.05. Costs Associated with Exit or Disposal Activities.

On October 9, 2012, Parametric Technology Corporation adopted a plan to restructure its workforce. The restructuring is in furtherance of the company's previously announced commitment to enhance long-term profitability and in part in connection with the company's recently announced acquisition of Servigistics, Inc. PTC expects to record a restructuring charge of approximately \$16 million in its first fiscal quarter ending December 29, 2012 attributable to termination benefits, which will result in cash expenditures of approximately the same amount during fiscal year 2013. The timing of the reductions in force will vary by country based on local legal requirements, but PTC expects that substantially all affected employees will be separated from PTC by end of the first fiscal quarter. Expected cost reductions of approximately \$5 million per quarter are included in PTC's previously announced preliminary financial targets for fiscal 2013. While PTC expects the restructuring to be implemented in the first fiscal quarter of 2013, the full impact of the expense reductions will be realized in the second fiscal quarter of 2013.

PTC intends to repurchase its shares under this authorization and may enter into a Rule 10b5-1 Repurchase Plan with a broker pursuant to which repurchases will be made.
