FORM 8-K

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under  
an Off-Balance Sheet Arrangement of a Registrant

The following information supplements the information contained in the registrant's Annual Report of Form 10-K for the year ended December 31, 2004 and its Quarterly Reports on Form 10-Q for the quarters ended March 31, 2005 and June 30, 2005.

SDG&E / SoCalGas Five Year \$600 Million Revolving Credit Facility

On August 5, 2005, the combined revolving credit facility of San Diego Gas & Electric Company and Southern California Gas Company was amended and restated to:

- Increase the combined amount of borrowings available under the facility from \$500 million to \$600 million.
- Increase the amount that may be borrowed by each utility from \$300 million to \$500 million subject to the combined borrowing limit for both utilities of \$600 million.
- Renew and extend the term of the facility from an original term of three years expiring in May 2007 to a new term of five years expiring in August 2010.
- Reduce the commitment fees payable under the facility and the margins over benchmark interest rates payable on borrowings.
- Change the ratio of total indebtedness to total capitalization (as defined in the facility) that each utility is required to maintain at the end of each quarter from a maximum of 60% to a maximum of 65%.

Borrowings under the facility bear interest at benchmark rates plus a margin that varies with the borrowing utility's credit rating. Borrowings are individual obligations of the borrowing utility and a default by one utility would not constitute a default or preclude borrowings by the other utility.

The facility is provided by a syndicate of lenders for which JPMorgan Chase Bank, N.A. serves as administrative agent.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
