5.

Cross-channel cloud-based DRM app to enable independent artists to manage their digital assets from any desktop, iOS or Android device

6.

7.

Or Yehuda, Israel, October 22, 2013 Magic Software Enterprises Ltd. (NASDAQ: MGIC), a global provider of software platforms for enterprise mobility, cloud applications, and business integration, announced today that Millennium MusicMedia has selected Magic Enterprise Mobility Solution to create a cross-channel SaaS-based business app that will enable subscribers, including independent artists, writers, producers and publishers, to track their digital assets and royalties anytime, anywhere, from any desktop, iOS or Android device.

8.

Getting to market quickly with an app that performs well and provides a good user experience on all devices is key to our success, said Ron Holt, CEO of Millennium MusicMedia. Having managed many large-scale development projects over my 40-year career, I understand the challenges and the importance of minimizing risks. We checked our options and decided on Magic because we know that Magic will enable us to implement such a complex project as quickly and easily as possible, added Holt.

9.

Magic's flexible enterprise mobility solution, including our application development, integration, management and broad professional service capabilities, enables businesses, like Millennium, to make the move to mobility quickly, confidently, and cost effectively. Not only can enterprises leverage the same development effort to create native apps for iOS and Android devices, they can also leverage the business logic of desktop apps to speed creation and deployment of mobile apps, said Regev Yativ, CEO of Magic Software Enterprises Inc. We have a proud history of keeping our customers for many years and are pleased to see this trend continue as our customers make the move to mobility.
