#### Fair Value Measurements

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in three broad levels. Level 1 includes quoted prices in active markets for identical securities. Level 2 includes other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk). Level 3 includes significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments). The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of February 28, 2013 in valuing the Fund's investments.

|                          | Level 1 | Level 2       | Level 3 | Total         |
|--------------------------|---------|---------------|---------|---------------|
| Assets                   |         |               |         |               |
| Municipal Investments(c) | \$—     | \$879,060,243 | \$—     | \$879,060,243 |
| Total                    | \$—     | \$879,060,243 | \$—     | \$879,060,243 |

There have been no transfers between fair value measurement levels during the period ended February 28, 2013.
