EXPLANATORY NOTE

SCOLR, Inc. is filing this Amendment No. 1 to its Quarterly Report on Form 10-QSB/A for the quarter ended June 30, 2003, which was originally filed with the Securities and Exchange Commission on August 14, 2003, (i) to amend Note 9 of the financial statements included in Part 1, Item 1, (ii) to amend Item 2, and (iii) to add Item 4. The entire Quarterly Report has been restated for clarity and convenience. This Amendment No. 1 continues to speak as of the date of the original filing of the Quarterly Report, and the Company has not updated the disclosures contained therein to reflect any events that occurred at a later date.

SCOLR, Inc.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 FINANCIAL STATEMENTS

The unaudited financial statements of SCOLR, Inc. (the Company) have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. The results of operations for interim periods are not necessarily indicative of the results to be expected for the entire fiscal year ending December 31, 2003. The accompanying unaudited financial statements and related notes should be read in conjunction with the audited financial statements and the Form 10-KSB of the Company for its fiscal year ended December 31, 2002.

NOTE 2 INVENTORIES

Inventories are stated at lower of cost or market; cost is determined by the first-in, first-out method. Inventories consist of the following:

	June 30, 2003 (unaudited)	December 31, 2002
Raw materials	\$237,235	\$270,165
Work in progress	490,653	206,386
Finished goods	192,914	52,467
	<u>920,802</u>	<u>529,018</u>
Less allowance for obsolete and slow moving Items	37,489	35,477
	<u>\$883,313</u>	<u>\$493,541</u>

NOTE 3 SEPARATION AGREEMENT

The Company entered into a separation agreement with its former Chief Scientific Officer and a separation agreement with its former Vice President of Administration, Secretary and Treasurer, both of which became fully binding on the parties on March 31, 2001 and effective as of January 15, 2001. For the six months ended June 30, 2003 and 2002, the Company recorded severance costs totaling \$157,448 and \$159,152, respectively.

NOTE 4 SALE OF PRODUCT LINE AND RELATED INTANGIBLE ASSETS

In February 2003, the Company sold its feed additive product line for \$230,000, net of certain royalties, to a third party for \$130,000 cash payment and an executed purchase order of inventory for the remaining \$100,000. The assets sold included inventories of \$2,019 and related intellectual property of \$122,311 resulting in a net gain of \$5,670.

NOTE 5 STOCK OPTIONS

The Company has stock-based employee compensation plans. The Company applies APB Opinion 25, *Accounting for Stock Issued to Employees*, and related Interpretations in accounting for its plans. Because the exercise price of the Company's common stock options equals the market price of the underlying stock on the date of the grant, no corresponding compensation expense has been recognized.

The following table illustrates the effect on net loss and loss per share if the Company had applied the fair value recognition provisions of SFAS 123 to its stock-based awards for the periods ended June 30:

Table of Contents

	Three months ended June 30,		Six Months ended June 30,	
	2003	2002	2003	2002
Net loss, as reported	\$ (532,071)	\$ (465,215)	\$ (899,200)	\$ (1,141,243)
Total stock-based compensation expense determined under fair-value-based method	\$ (148,344)	\$ (31,773)	\$ (178,996)	\$ (63,546)
Pro forma net loss	\$ (680,415)	\$ (496,988)	\$ (1,078,196)	\$ (1,204,789)
Basic and diluted loss per share: As reported	\$ (0.03)	\$ (0.02)	\$ (0.04)	\$ (0.06)
Pro forma net loss per share	\$ (0.03)	\$ (0.02)	\$ (0.05)	\$ (0.06)

NOTE 6 EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is based on the weighted average number of shares outstanding during the quarter and income available to common shareholders. Earnings (loss) per share assuming dilution is based on the assumption that outstanding stock options and warrants were exercised. The weighted average shares for computing basic earnings (loss) per share were 21,233,210 and 20,288,726 for the three months ended June 30, 2003 and 2002, respectively and 21,216,174 and 19,698,252 for the six months ended June 30, 2003 and 2002, respectively. At June 30, 2003, there were 9,305,117 shares of potentially issuable common stock. Because of the net loss for the three months and six months ended June 30, 2003 and 2002, potentially issuable common stock was not included in the calculation of diluted loss per share as their inclusion would be anti-dilutive.

NOTE 7 FINANCING EVENTS*Convertible Notes Payable*

On June 25, 2003 the Company completed a private placement and issued \$5.3 million of Convertible Notes due June 25, 2006. The transaction provided the Company with approximately \$4.7 million in net proceeds. Interest accrues on the notes at 6% and is payable quarterly. Of the \$5.3 million of notes issued, \$75,000 were issued to Herbert L. Lucas, a director of the Company. The principal balance is convertible into shares of the Company's common stock at a conversion price equal to \$1.05 per share, subject to certain anti-dilution adjustments. Such adjustments include the issuance, sale or distribution of shares of common stock at a price less than \$1.05 per share; and the issuance of options, warrants or other rights to purchase common stock that are exercisable at, or convertible into or exchangeable for common stock at a price less than \$1.05 per share. Despite the foregoing, such anti-dilution adjustments are not triggered by the following: (1) the grant or exercise of options to employees or directors or stock purchase plans; (2) shares or options issued in connection with an acquisition of another entity or in connection with a licensing transaction; (3) the exercise of any options, warrants or other rights to purchase common stock that were outstanding as of April 30, 2003; or (4) the issuance, sale or distribution by the Company of up to 750,000 shares of common stock regardless of the price. The Company has the right to force conversion of all the notes into shares of the Company's common stock at any time, provided its common stock trades at \$2.10 or higher for 20 trading days within a 30-consecutive day trading period.

In accordance with EITF 98-5, *Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios*, and EITF 00-27, *Application of Issue No. 98-5 to Certain Convertible Instruments*, an embedded beneficial conversion feature should be recognized and measured by allocating a portion of the proceeds of the note equal to the intrinsic value of that feature to additional paid-in capital. That amount should be calculated at the commitment date as the difference between the conversion price and the fair value of the common stock into which the note is convertible, multiplied by the number of shares into which the note is convertible (intrinsic value). The fair value of the Company's common stock on June 25, 2003 was \$1.77, resulting in a beneficial conversion feature of \$0.72 per share. As a result, the Company recorded a discount on the note for the beneficial conversion feature of approximately \$3.6 million, which is being recognized as interest expense over the earlier of the term of the notes (3 years) or upon the conversion of the notes into the Company's common stock. The convertible notes payable totaled \$5,300,000 less the discount of \$3,634,286 or \$1,665,714 at June 30, 2003.

Table of Contents

In consideration of certain placement services, the Company paid a cash fee of approximately \$200,000, issued \$300,000 of convertible notes and issued warrants to purchase up to 476,191 shares at \$1.155 per share. The fair value of the warrants was determined using the Black-Scholes option pricing model using the following assumptions: volatility of 72%, term of five years, risk-free interest rate of 3.36% and 0% dividend yield. The fair value of the warrants totaled approximately \$586,000. The total debt issuance costs of approximately \$1,169,300 are being amortized as interest expense over the earlier of the term of the notes (3 years) or upon conversion of the notes into the Company's common stock.

The notes and warrants include registration rights requiring the Company to file a registration statement with the SEC registering, for resale, the shares of common stock issuable upon conversion of the notes or exercise of the warrants. The registration statement is to be filed no later than 60 days after the final closing date (June 25, 2003) with an effective date no later than 150 days after the final closing date. In the event the registration statement is not effective within 150 days after June 25, 2003, the conversion price for the notes will be reduced by the percentage resulting from multiplying 2% by the number of thirty (30) day periods beyond the 150-day period.

Short Term Notes Financing

Between April 30, 2003 and May 6, 2003 the Company issued \$550,000 of subordinated notes to a group of accredited investors, including Herbert L. Lucas, a director of the Company, who purchased \$75,000 of such subordinated notes. The transaction provided the Company with approximately \$505,000 in net proceeds. In conjunction with the sale of these notes the Company granted warrants to purchase 235,722 shares of the Company's common stock (including 32,144 warrants granted to Mr. Lucas) at \$1.11 per share exercisable for three years. The notes are unsecured and do not accrue interest until maturity. The notes were paid in full on June 25, 2003 with the proceeds received from the Convertible Note financing discussed above.

The loan was discounted for the relative fair value of the warrants totaling approximately \$94,000, which was recognized as interest expense upon payment of the loan. The fair value of warrants was determined using the Black-Scholes option-pricing model with the following assumptions: volatility of 72%, risk-free interest rate of 2.25%, expected life of three years and 0% dividend yield.

For placement services associated with the financing, the Company paid a fee of \$23,750 and issued warrants to purchase up to 20,357 shares of the Company's common stock at \$1.11 per share exercisable for three years. The fair value of the warrants was valued using the Black-Scholes option pricing model with the same assumptions as the bridge notes discussed above. The total debt issuance costs of approximately \$44,750 were recognized as interest expense upon the payment of the notes.

The warrants include registration rights requiring the Company to register the underlying shares of common stock with the Securities and Exchange Commission by December 31, 2003. In the event that the registration is not completed by December 31, 2003, the exercise price of the warrants decreases by 2% and continues to decrease by 2% for each 30-day period that the registration statement is not declared effective. The decrease is limited to 36%.

NOTE 8 RESEARCH AND DEVELOPMENT AGREEMENT

The Company entered into a Letter of Intent with BioNutrics, Inc. during the quarter ended December 31, 2002 that states the Company will sub-license two separate products to BioNutrics and enter into a Research and Development Agreement covering use of the Company's CDT technology in conjunction with certain patented Active Pharmaceutical Ingredients or proprietary formulations owned by BioNutrics. The agreement called for a non-refundable up front fee of \$200,000 in the form of a cash payment and note receivable. The cash payment of \$100,000 was received in December 2002 and the note agreement was executed during the six months ended June 30, 2003. The note is due nine months after the execution of a license, development and sales agreement. The \$200,000 fee is included in deferred revenue and will be recognized when the Company has satisfied its obligations.

NOTE 9 RESTATEMENT OF FINANCIAL INFORMATION

During the three months ended March 31, 2003, the Company determined that certain costs that were incurred during 2002 and deferred as a prepaid expense at December 31, 2002, should have been expensed in the year ended December 31, 2002. These costs totaled approximately \$104,000 and were incurred in conjunction with the anticipated sale of its Probiotics business. These costs have been recorded as a prior period adjustment in the period ended March 31, 2003.

The following is a summary of the effects of such restatement on the Company's financial statements as of December 31, 2002 and for the year then ended:

NOTE 10 NEW ACCOUNTING PRONOUNCEMENT

In May 2003, FASB issued Statement 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. Statement 150 requires that certain financial instruments, which under previous guidance were accounted for as equity, must now be accounted for as liabilities. Statement 150 is effective for all financial instruments entered into or modified after May 31, 2003. The Company adopted Statement 150 on June 1, 2003. The adoption of Statement 150 did not have any effect on the Company's financial position, results of operations, or cash flows.

NOTE 11 SUBSEQUENT EVENT

On August 13, 2003, the Company filed a Form S-2 registration statement, registering 9,606,238 shares of its common stock.

Table of Contents

Item 2. Management's Discussion and Analysis or Plan of Operation

The following discussion and analysis should be read in conjunction with the financial statements, including the notes thereto, appearing in this Form 10-QSB and in the Company's 2002 Annual Report on Form 10-KSB.

Except for the historical information contained herein, the matters discussed in this quarterly report contain forward-looking statements that are based on Management's beliefs and assumptions, current expectations, estimates, and projections. Statements that are not historical facts, including without limitation, statements which are preceded by, followed by or include the words believes, anticipates, plans, expects, may, should, or similar expressions, are forward-looking statements. Many of the factors that will determine the Company's future results are beyond the ability of the Company to control or predict. Important factors that may affect future results include, but are not limited to: impact of competitive products and pricing, product development, changes in law and regulations, customer demand, litigation, availability of future financing and uncertainty of market acceptance of new products. These statements are subject to risks and uncertainties and, therefore, actual results may differ materially.

The Company disclaims any obligation to update any forward-looking statements whether as a result of new information, future events or otherwise.

A more detailed discussion of these factors is presented in the Company's 2002 Annual Report on Form 10-KSB under the heading Outlook Issues and Uncertainties.

Net Revenues

Net revenues increased less than one percent or \$1,115 to \$2,120,354 for the quarter ended June 30, 2003 from net revenues of \$2,119,239 for the quarter ended June 30, 2002 and increased 8% or \$272,343 to \$3,825,615 for the six months ended June 30, 2003 from net revenues of \$3,553,272 for the six months ended June 30, 2002. An analysis of the Company's revenue-generating centers is outlined below:

Revenue Generating Profit Centers

The Company operates two primary revenue-generating centers:

1. *Manufacturing Center* - consisting of two sub-centers as outlined below:

A. *Dietary Supplement Manufacturing* - The Company manufactures dietary supplement products, on an OEM or private label basis, containing Live-Bac caplets or CDT Controlled Delivery Technology. Revenues are realized from the sales of Live-Bac caplets, dietary supplements incorporating CDT technology or manufacturing of tablets, capsules, herbal pre-blends, or natural product pre-blends for inclusion into food products or private label finished goods. The tableting, encapsulation and packaging operations are located in the Company's Lafayette, CO manufacturing facility.

B. *Fermentation* - The Company manufactures and realizes revenues from the sale of viable (live) freeze dried microorganisms for companies on a private label and OEM basis. Revenues were also realized from the sale of Cobactin microbial feed additive products for feedlot and dairy cattle and sales of Bio Power silage inoculants. The Cobactin microbial feed additive products for feedlot and dairy cattle and Bio Power silage inoculants were sold during the quarter ended March 31, 2003. There will be no further sales of these products. The fermentation plants are located in Redmond, WA.

2. *Licensing Fees, Research & Development Contracts and Royalties Center* - The Company generates Licensing Fees and Research & Development contracts and royalties for the formulation of Controlled Delivery Technology prescription drugs, Over-the-Counter (OTC) products, and dietary supplements. The licensing agreements and Research & Development contracts include royalty revenues that are expected to be recognized in future years. The Company believes that contracts for prescription drugs may result in royalty revenues starting in 2006. Contracts for dietary supplements are expected to increase this year and beyond as Archer-Daniels-Midland markets products licensed from the Company and CDT Glucosamine/Chondroitin

Table of Contents

products are sold to Wal-Mart, Rite-Aid, Trader Joes and other retail outlets.

Manufacturing Revenues

The Company's manufacturing revenues decreased 8% or \$156,028 to \$1,909,211 for the quarter ended June 30, 2003 from revenues of \$2,065,239 for the quarter ended June 30, 2002 and increased less than one percent or \$7,914 to \$3,506,194 for the six months ended June 30, 2003 from revenues of \$3,498,280 for the six months ended June 30, 2002.

Dietary Supplement manufacturing revenues increased 28% or \$296,136 to \$1,370,073 for the quarter ended June 30, 2003 from revenues of \$1,073,937 for the quarter ended June 30, 2002 and increased 32% or \$579,214 to \$2,411,520 for the six months ended June 30, 2003 from revenues of \$1,832,306 for the six months ended June 30, 2002. The increase in Dietary Supplement manufacturing revenues during the quarter and six months ended June 30, 2003 are attributable to sales of CDT Glucosamine/Chondroitin products introduced during first quarter 2003. Sales of CDT Glucosamine/Chondroitin were \$514,108 and \$616,814 for the quarter and six-month period, respectively. One of the Company's largest customers, Rexall Sundown, was recently acquired by NBTY, Inc., which had previously been a significant customer of the Company. The sales to Rexall Sundown for the six months ended June 30, 2003 and 2002 were \$654,966 and \$793,136 respectively. It is unclear whether this change in ownership will have any impact on the Company's future sales.

Fermentation revenues decreased 46% or \$452,164 to \$539,138 for the quarter ended June 30, 2003 from revenues of \$991,302 for the quarter ended June 30, 2002 and decreased 34% or \$571,300 to \$1,094,674 for the six months ended June 30, 2003 from revenues of \$1,665,974 for the six months ended June 30, 2002. The decline is mainly attributable to the loss of substantially all sales to one major customer (NBTY) and a slow down in sales to another major customer (Supplemental Sciences). Sales to NBTY declined \$387,580 and \$449,220 for the quarter and six-month periods, as compared to the corresponding periods in 2002. Sales to Supplemental Sciences declined \$134,343 and \$241,002 for the quarter and six-month periods, as compared to the corresponding periods in 2002. The Company anticipates that fermentation revenues will not fully recover to prior levels in the near future.

Licensing Fees, Research & Development Contracts and Royalties

Licensing fees and Research & Development contract revenues for the quarter ended June 30, 2003 were \$0 as compared to \$54,000 for the quarter ended June 30, 2002 and revenues for the six months ended June 30, 2003 were \$0 as compared to \$54,000 for the six months ended June 30, 2002. Royalty Revenues for the quarter ended June 30, 2003 were \$211,143 compared to \$0 for the quarter ended June 30, 2002 and royalty revenues for the six months ended June 30, 2003 were \$319,421 as compared to \$992 for the six months ended June 30, 2002. This increase was the result of sales by ADM for Novasoy products which incorporate the Company's CDT technology and sales of CDT Glucosamine/Chondroitin products. Management anticipates future growth in revenues derived from drug delivery technology licensing fees and research & development contracts. The licensing agreements and Research & Development contracts include royalty revenues that will be recognized in future years. Contracts for Over the Counter (OTC) products and prescription drugs may result in research and development milestone payments during 2003 and thereafter together with royalty revenues after 2005.

Gross Profit

Gross profit increased 55% or \$249,416 to \$700,642 for the quarter ended June 30, 2003 compared to \$451,226 for the quarter ended June 30, 2002 and gross profit increased 69% or \$528,483 to \$1,297,578 for the six months ended June 30, 2003 compared to \$769,095 for the six months ended June 30, 2002. The increase in gross profit reflects lower manufacturing costs associated with the downsizing of the fermentation facility in April 2003 and increased royalty revenues from CDT technology licenses.

Selling and Marketing Expenses

Selling and marketing expenses increased 80% or \$82,098 to \$184,600 for the quarter ended June 30, 2003 from \$102,502 for the quarter ended June 30, 2002 and increased 37% or \$73,032 to \$269,498 for the six months ended June 30, 2003 from \$196,466 for the six months ended June 30, 2002. The Company's selling and marketing expenses increased due to the retention of Health Advances to consult with the Company in evaluating and negotiating prospective agreements with pharmaceutical companies. Additional personnel are planned in the future as the Company increases its selling efforts in support of the ADM

Table of Contents

alliance and in the commercialization of new formulations employing CDT technology as well as a new probiotic delivery system, BioTract GI.

Research and Development Expenses

Research and Development expenses decreased 25% or \$30,321 to \$93,122 for the quarter ended June 30, 2003 from \$123,443 for the quarter ended June 30, 2002 and decreased 19% or \$38,641 to \$165,202 for the six months ended June 30, 2003 from \$203,843 for the six months ended June 30, 2002. Research and Development expenses are expected to increase as the Company expands its drug delivery operations and moves into new facilities in September 2003.

General and Administrative Expenses

General and administrative expenses increased 20% or \$115,975 to \$704,994 for the quarter ended June 30, 2003 compared to \$589,019 for the quarter ended June 30, 2002 and increased 9% or \$103,911 to \$1,246,880 for the six months ended June 30, 2003 compared to \$1,142,969 for the six months ended June 30, 2002. The increase for the quarter and six months ended June 30, 2003 is mainly attributed to increased legal costs associated with the efforts to sell the Company's probiotics business and the Company's financing activities.

Operating Profit/Loss

Operating Loss for the quarter ended June 30, 2003 was \$282,074 as compared to an operating loss of \$363,738 for the quarter ended June 30, 2002. Operating Loss for the six months ended June 30, 2003 was \$384,002 as compared to an operating loss of \$774,183 for the six months ended June 30, 2002. The Research and Development contracts and royalties revenue-generating center had an operating loss of \$461,752 for the quarter ended June 30, 2003 as compared to an operating loss of \$403,804 for the quarter ended June 30, 2002 and an operating loss of \$674,609 for the six months ended June 30, 2003 as compared to an operating loss of \$723,674 for the six months ended June 30, 2002. The decrease in the operating losses during the six months ended June 30, 2003 and the increased loss for the quarter are primarily due to increased royalty revenues but offset by the consulting fees and increased legal costs. The Manufacturing revenue-generating center had an operating profit of \$179,678 for the quarter ended June 30, 2003 as compared to an operating profit of \$40,066 for the quarter ended June 30, 2002 and an operating profit of \$290,607 for the six months ended June 30, 2003 as compared to an operating loss of \$50,509 for the six months ended June 30, 2002. The increase in operating profit in the Manufacturing revenue-generating center is due to increased gross profits described above.

Interest Expense

Interest expense increased \$183,162 to \$251,186 for the quarter ended June 30, 2003 compared to \$68,024 for the quarter ended June 30, 2002 and increased \$234,236 to \$368,339 for the six months ended June 30, 2003 compared to \$134,103 for the six months ended June 30, 2002. The increase was due to the accounting treatment of warrants attached to the subordinated notes that were issued during the quarter ended June 30, 2003 and the increased interest expense from the \$1 million loan entered into with a shareholder in 2002. Interest expense will increase due to the issuance of convertible notes for \$5.3 Million in June 2003.

Other Income/Expense

Other income was \$1,189 for the quarter ended June 30, 2003 compared to other expense of \$33,453 for the quarter ended June 30, 2002 and other expense was \$146,859 for the six months ended June 30, 2003 compared to other expense of \$232,957 for the six months ended June 30, 2002. On March 31, 2001, the Company entered into a separation agreement with its former Chief Scientific Officer and its Vice President of Administration, Secretary and Treasurer. In conjunction with the agreement, the Company recorded severance costs of \$157,448 for the six months ended June 30, 2003 and \$159,152 for the six months ended June 30, 2002.

Table of Contents***Net Earnings***

The net loss for the quarter ended June 30, 2003 was \$532,071 compared to a net loss of \$465,215 for the quarter ended June 30, 2002 and the net loss for the six months ended June 30, 2003 was \$899,200 compared to a net loss of \$1,141,243 for the six months ended June 30, 2002.

Restatement of Financial Information

The Company has determined that the previous accounting treatment for costs incurred by the Company totaling approximately \$104,000 in conjunction with the anticipated sale of its Probiotics business should not have been recorded as prepaid expenses at December 31, 2002. The restatement was not considered material enough to require the Company to file an amended Form 10-KSB for the year ended December 31, 2002.

The following is a summary of the effects of such restatement on the Company's financial statements at December 31, 2002:

	As Originally Reported	As Restated
Balance Sheet		
Current assets	\$ 1,645,766	\$ 1,541,942
Total assets	4,013,837	3,910,013
Accumulated deficit	(12,830,343)	(12,934,167)
Stockholder's equity	1,231,907	1,128,083

Liquidity and Capital Resources

As of June 30, 2003, the Company had working capital of \$5,183,884 as compared to a negative working capital of \$145,692 at December 31, 2002. The change in working capital is the result of the issuance of \$5.3 million of convertible notes due June 2006 (Convertible Notes) on June 25, 2003 and is offset by the net loss for the six months ended June 30, 2003. The Company received net proceeds of approximately \$4.7 million, after expenses from the sale of the Convertible Notes. We believe that we have sufficient working capital available under our operating plan to fund our operations and capital requirements for at least 12 months.

However, the Company will require substantial additional financing to implement its business plan to focus on the development of its drug delivery business. The Company's long term financing needs depend largely on its ability to enter into alliances and collaborations that will help finance the drug delivery business. The Company will be required to fund research and development costs to create an effective in-house drug delivery development unit. Additionally, the Company will need to fund the significant costs associated with the research and development and commercialization of a drug delivery product. If the Company is unable to find a partner to share or subsidize costs for a given product, it will need to raise substantial additional financing to fund these efforts.

The Company has an \$800,000 line of credit with a finance company that is secured by its assets. At June 30, 2003, the Company had borrowed \$479,993 on its line of credit. The Company's ability to borrow against this line is limited by the Company's current accounts receivable balance and restrictions imposed by the lender.

The Company also has an outstanding \$1 million loan from an existing shareholder. The loan is secured by a second lien on the Company's assets and bears interest at a rate of 8% per annum. The loan is due on September 30, 2004 but is subject to mandatory prepayment upon completion of the sale of substantially all the assets of the Company's Probiotic business.

The Company continues to attempt to sell or enter joint venture or partnership arrangements for its probiotics business. However, the proceeds of any such sale, partnership or joint venture will not be sufficient to fund product initiatives requiring FDA approval to the stage of profitability.

Additional financing may be unavailable on acceptable terms. In particular, the Company is limited in its ability to borrow additional funds as it has granted security interests to its existing lenders. If adequate funds

Table of Contents

are unavailable, the Company may be unable to meet its obligations. The Company's inability to raise additional capital would require it to delay, reduce or eliminate some business operations, including the pursuit of licensing, strategic alliances and development of the drug delivery business.

If the Company raises additional capital by issuing equity securities, dilution to stockholders will result. In addition, the terms of the financing may adversely affect the holdings or the rights of stockholders. If the Company raises funds through strategic alliance or licensing arrangements, the Company may be required to relinquish rights to certain technologies or product candidates, or grant licenses on terms that are unfavorable to the Company. Either of these results could reduce the value of the Company.

As of June 30, 2003, the Company had accounts receivable of \$1,219,565 (less \$0 for doubtful accounts), as compared to \$486,417 as of December 31, 2002 (less \$12,524 for doubtful accounts), a net change of \$733,148. The increase in accounts receivable is mainly attributable to increased sales during the last month of the applicable period. Sales for the month ended June 30, 2003 were \$848,000, as compared to \$437,000 for the month ended December 31, 2002. The Company's payment terms are net thirty days.

New Accounting Pronouncement

In May 2003, FASB issued Statement 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. Statement 150 requires that certain financial instruments, which under previous guidance were accounted for as equity, must now be accounted for as liabilities. Statement 150 is effective for all financial instruments entered into or modified after May 31, 2003. The Company adopted Statement 150 on June 1, 2003. The adoption of Statement 150 did not have any effect on the Company's financial position, results of operations, or cash flows.

Item 3. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer have reviewed and evaluated the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), as of June 30, 2003. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that our disclosure controls and procedures are adequate and effective for the purposes set forth in the definition of disclosure controls and procedures in Exchange Act Rule 15d-15(e).

Changes in Internal Controls

Subsequent to the date of our most recent evaluation, there were no significant changes in our internal controls or in other factors that could significantly affect internal controls and procedures including any corrective actions with regard to significant deficiencies and material weaknesses.

PART II: OTHER INFORMATION

Item 2. Changes in Securities

In transactions completed between April 30, 2003 and May 6, 2003 the Company issued \$550,000 of subordinated notes to a group of accredited investors, (as such term is defined in Rule 501 under the Securities Act of 1933) including Herbert L. Lucas, a director of the Company, who purchased \$75,000 of such subordinated notes. The sales were exempt from registration under the Securities Act of 1933, as amended (Securities Act), pursuant to Rule 506 of Regulation D and Section 4(2) of such Act. In conjunction with the sale of these notes the Company granted warrants to purchase 235,722 shares of the Company's common stock (including 32,144 warrants granted to Mr. Lucas) at \$1.11 per share exercisable for three years. The warrants include registration rights requiring the Company to register the underlying shares of common stock with the Securities and Exchange Commission. In the event that registration is not completed by December 31, 2003, the Company may be subject to certain penalties. The subordinated notes were repaid on June 25, 2003 from the proceeds of the sale of the Convertible Notes. For placement services associated with the financing, the Company paid Taglich Brothers, Inc. a fee of \$23,750 and issued warrants to purchase up to 20,357 shares of the Company's common stock at \$1.11 per share exercisable for three years.

Edgar Filing: SCOLR INC - Form 10QSB/A

On June 25, 2003 the Company issued \$5.3 million of Convertible Notes. Interest on the Convertible Notes is payable quarterly and the principal balance is convertible into shares of the Company's common

Table of Contents

stock at a conversion price equal to \$1.05 per share of common stock, subject to adjustment. The Company has the right to require conversion of all the Convertible Notes into shares of common stock at any time if the common stock trades at \$2.10 or higher for 20 trading days within a 30-consecutive day trading period and an effective registration statement is in place. As part of the offering, the Company has agreed to file a registration statement with the Securities and Exchange Commission registering for resale the shares of common stock issuable upon conversion of the Convertible Notes. In the event that registration is not completed by November 25, 2003, the Company will be subject to certain penalties. The Convertible Notes were issued in a private placement to accredited investors (as such term is defined in Rule 501 under the Securities Act of 1933), including Herbert L. Lucas, a director of the Company, who purchased \$75,000 of such Convertible Notes. The sales were exempt from registration under the Securities Act, pursuant to Rule 506 of Regulation D and Section 4(2) of the Securities Act.

Taglich Brothers, Inc. acted as placement agent and received (i) a commission of \$500,000, \$300,000 of which was paid through the issuance of Convertible Notes, and (ii) five year warrants to purchase 476,191 shares of the Company's common stock with an exercise price of \$1.15 per share. The Company agreed to register for resale the shares issuable upon exercise of the warrants with the SEC. In addition, the Company agreed to use its best efforts for the next 3 years to nominate and secure the election of a designee of Taglich Brothers to serve as a director on the Company's Board of Directors, or at Taglich Brothers' discretion, permit a designee to attend Board meetings as a non-voting observer.

Item 4. Submission of Matters to a Vote of Security Holders

The Company held its Annual Meeting of Stockholders on May 23, 2003. At the Annual Meeting, Herbert L. Lucas and David T. Howard were elected as Directors of the Company to serve three year terms. The terms of Randall L-W. Caudill and Daniel B. Ward continued after the meeting. The matters voted upon and the results were as follows:

Election of Directors

	For	Withhold Authority
David T. Howard	17,413,487	12,027
Herbert L. Lucas 17,308,487 12,027		

Proposal to approve an amendment to the Company's Certificate of Incorporation to classify the Company's Board of Directors into three separate classes.

For	7,022,076
Against	2,014,095
Abstain	32,621
Broker non-vote	8,378,342

Proposal to approve an amendment to the Company's Certificate of Incorporation to remove the ability of stockholders to take action outside of a duly called meeting.

For	6,720,640
Against	2,282,457
Abstain	65,695
Broker non-vote	8,378,342

Neither of the proposed amendments to the Company's Certificate of Incorporation were approved.

Item 6. Exhibits and Reports on Form 8-K**(a) Exhibits**

The following exhibits are filed herewith and this list is intended to constitute the exhibit index:

10.1	Form of Note Purchase Agreement, Subordinated Note and Warrant dated as of April 30, 2003 (incorporated by reference to the Company's current report on
