Date of reporting period: April 30, 2011

Form N-CSR is to be used by management investment companies to file reports with the Commission not later than 10 days after the transmission to stockholders of any report that is required to be transmitted to stockholders under Rule 30e-1 under the Investment Company Act of 1940 (17 CFR 270.30e-1). The Commission may use the information provided on Form N-CSR in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-CSR, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-CSR unless the Form displays a currently valid Office of Management and Budget ("OMB") control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. ss. 3507.

ITEM 1. REPORTS TO STOCKHOLDERS.

INVESTMENT ADVISER NAME CHANGE

Effective January 1, 2011, Nuveen Asset Management, the Funds' investment adviser, changed its name to Nuveen Fund Advisors, Inc. ("Nuveen Fund Advisors"). Concurrently, Nuveen Fund Advisors formed a wholly-owned subsidiary, Nuveen Asset Management, LLC, to house its portfolio management capabilities.

NUVEEN INVESTMENTS COMPLETES STRATEGIC COMBINATION WITH FAF ADVISORS

On December 31, 2010, Nuveen Investments completed the strategic combination between Nuveen Asset Management, LLC, the largest investment affiliate of Nuveen Investments, and FAF Advisors. As part of this transaction, U.S. Bancorp – the parent of FAF Advisors – received cash consideration and a 9.5% stake in Nuveen Investments in exchange for the long-term investment business of FAF Advisors, including investment management responsibilities for the non-money market mutual funds of the First American Funds family.

The approximately \$27 billion of mutual fund and institutional assets managed by FAF Advisors, along with the investment professionals managing these assets and other key personnel, have become part of Nuveen Asset Management, LLC. With these additions to Nuveen Asset Management, LLC, this affiliate now manages more than \$100 billion of assets across a broad range of strategies from municipal and taxable fixed income to traditional and specialized equity investments.

This combination does not affect the investment objectives or strategies of the Funds in this report. Over time, Nuveen Investments expects that the combination will provide even more ways to meet the needs of investors who work with financial advisors and consultants by enhancing the multi-boutique model of Nuveen Investments, which also includes highly respected investment teams at HydePark, NWQ Investment Management, Santa Barbara Asset Management, Symphony Asset Management, Tradewinds Global Investors and Winslow Capital. Nuveen Investments managed approximately \$206 billion of assets as of March 31, 2011.

Chairman's
Letter to Shareholders

Dear Shareholders,

In 2010, the global economy recorded another year of recovery from the financial and economic crises of 2008, but many of the factors that caused the downturn still weigh on the prospects for continued improvement. In the U.S., ongoing weakness in housing values has put pressure on homeowners and mortgage lenders. Similarly, the strong earnings recovery for corporations and banks is only slowly being translated into increased hiring or more active lending. Globally, deleveraging by private and public borrowers has inhibited economic growth and that process is far from complete.

Encouragingly, constructive actions are being taken by governments around the world to deal with economic issues. In the U.S., the recent passage of a stimulatory tax bill relieved some of the pressure on the Federal Reserve to promote economic expansion through quantitative easing and offers the promise of sustained economic growth. A number of European governments are undertaking programs that could significantly reduce their budget deficits. Governments across the emerging markets are implementing various steps to deal with global capital flows without undermining international trade and investment.

The success of these government actions could determine whether 2011 brings further economic recovery and financial market progress. One risk associated with the extraordinary efforts to strengthen U.S. economic growth is that the debt of the U.S. government will continue to grow to unprecedented levels. Another risk is that over time there could be inflationary pressures on asset values in the U.S. and abroad, because what happens in the U.S. impacts the rest of the world economy. Also, these various actions are being taken in a setting of heightened global economic uncertainty, primarily about the supplies of energy and other critical commodities. In this challenging environment, your Nuveen investment team continues to seek sustainable investment opportunities and to remain alert to potential risks in a recovery still facing many headwinds. On your behalf, we monitor their activities to assure they maintain their investment disciplines.

As you will note elsewhere in this report, on December 31, 2010, Nuveen Investments completed a strategic combination with FAF Advisors, Inc., the manager of the First American Funds. The combination adds highly respected and distinct investment teams to meet the needs of investors and their advisors and is designed to benefit all fund shareholders by creating a fund organization with the potential for further economies of scale and the ability to draw from even greater talent and expertise to meet those investor needs.

As of the end of June 2011, Nuveen Investments had completed the refinancing of all of the Auction Rate Preferred Securities issued by its taxable closed-end funds and 91% of the MuniPreferred shares issued by its tax-exempt closed-end funds. Please consult the Nuveen Investments web site, www.Nuveen.com, for the current status of this important refinancing program.

As always, I encourage you to contact your financial consultant if you have any questions about your investment in a Nuveen Fund. On behalf of the other members of your Fund Board, we look forward to continuing to earn your trust in the months and years ahead.

Robert P. Bremner
Chairman of the Board
June 21, 2011

4 Nuveen Investments

Portfolio Managers' Comments

Nuveen Municipal Value Fund, Inc. (NUV)
Nuveen Municipal Value Fund 2 (NUW)
Nuveen Municipal Income Fund, Inc. (NMI)
Nuveen Enhanced Municipal Value Fund (NEV)

Portfolio managers Tom Spalding, Chris Drahm and Steve Hlavin review key investment strategies and the six-month performance of these four national Funds. With 34 years of investment experience at Nuveen, Tom has managed NUV since its inception in 1987, adding portfolio management responsibility for NUW at its inception in 2009. Chris, who has 31 years of financial industry experience, assumed portfolio management responsibility for NMI in January 2011. An eight-year veteran of Nuveen, Steve has been involved in the management of NEV since its inception in 2009, taking on full portfolio management responsibility for this Fund in December 2010.

What key strategies were used to manage the Funds during the six-month reporting period ended April 30, 2011?

After rallying through most of 2010, municipal bond prices declined during this six-month period, impacted by investor concerns about inflation, the federal deficit and the deficit's impact on demand for U.S. Treasury securities. Adding to this market pressure was media coverage of the strained finances of many state and local governments. As a result, money began to flow out of municipal bond funds, as yields rose and valuations declined. Toward the end of this period, we saw the environment in the municipal market improve, as some buyers were attracted by municipal bond valuations and yields, resulting in declining yields and rising valuations.

The municipal bond market also was affected by a significant decline in new tax-exempt issuance during this period. One reason for this decrease was the heavy issuance of taxable municipal debt at the end of 2010 under the Build America Bond (BAB) program. During November and December 2010, taxable BABs issuance nationwide totaled \$31.5 billion, accounting for 34.5% of new bonds in the municipal market. Since interest payments from BABs represent taxable income, we did not view these bonds as appropriate investment opportunities for these Funds. The BAB program expired December 31, 2010, after Congress failed to include legislation extending the program in the tax bill it passed earlier that month. In addition to the BAB program's impact on tax-exempt issuance during the November-December period, borrowers trying to take advantage of the program's favorable terms before its termination at year end accelerated issuance.

The forward-looking statements and other views expressed herein are those of the portfolio managers as of the date of this report. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and the views expressed herein are subject to change at any time, due to numerous market and other factors. The Funds disclaim any obligation to update publicly or revise any forward-looking statements or views expressed herein.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

Any reference to credit ratings for portfolio holdings denotes the highest rating assigned by a Nationally Recognized Statistical Rating Organization (NRSRO) such as Standard & Poor's (S&P), Moody's or Fitch. AAA, AA, A and BBB ratings are investment grade; BB, B, CCC, CC, C and D ratings are below investment grade. Holdings and ratings may change over time.

Nuveen Investments 5

that potentially would have come to market as tax-exempt bonds in 2011, choosing instead to issue taxable BABs during the last two months of 2010. Due in part to this, national municipal issuance was down 49% for the first four months of 2011 compared with the same period in 2010.

Because of the constrained tax-exempt municipal bond issuance, we continued to take a bottom-up approach to discovering undervalued sectors and individual credits with the potential to perform well over the long term. During this period, we found value in health care, transportation (specifically tollroads), higher education and tax-supported bonds. In NEV, one of the areas we favored was the “other revenue” sector, where we were actively adding redevelopment agency bonds. The proposed elimination of redevelopment district programs in California, suggested as part of efforts to close gaps in the California state budget, prompted issuers to come to market with their remaining authorizations of redevelopment district bonds. This resulted in heavier supply of these bonds and higher yields at attractive prices. Across all of the Funds, the majority of our purchases were sector-based rather than geographically focused, although we continued to keep our holdings well diversified by state.

During the last months of 2010, some of this investment activity resulted from opportunities created by the provisions of the BAB program. For example, tax-exempt supply was more plentiful in the health care and higher education sectors because, as 501(c)(3) (nonprofit) organizations, hospitals and private universities generally did not qualify for the BAB program and continued to issue bonds in the tax-exempt municipal market. In addition, bonds with proceeds earmarked for refundings, working capital, and private activities were not covered by the BAB program, and this resulted in attractive opportunities in other sectors of the market.

For the most part, NUV, NUW and NMI focused on purchasing longer bonds to take advantage of attractive yields at the longer end of the municipal yield curve. The purchase of longer bonds also provided some protection for the Funds’ duration and yield curve positioning in the event that the BAB program was extended and continued to have an impact on tax-exempt issuance, especially at the long end of the curve. In NEV, which was invested-up during the lower rate environment of 2009, we have been working to improve the Fund’s yield and reduce its duration, bringing it more in line with our targets. During this period, we actively looked for opportunities to sell some of NEV’s longest holdings with lower coupons and lower embedded yields, including industrial development revenue (IDR), housing and hospital bonds. We then reinvested the proceeds from these sales into bonds with shorter durations, higher coupons and better yields. As a result of this activity, we were able to enhance NEV’s yield curve positioning and maturity, average coupon and embedded yield as well as take advantage of tax losses that will enable us to offset potential capital gains tax liabilities in the future.

6 Nuveen Investments

Some of the cash for new purchases during this period was generated by the proceeds from bond calls and maturing bonds, which we worked to redeploy to keep the Funds as fully invested as possible. NMI also took advantage of strong bids to sell a few holdings at attractive prices, mainly from the health care and IDR sectors, while NEV engaged in the selling described in the previous paragraph.

As of April 30, 2011, all four of these Funds continued to use inverse floating rate securities. We employ inverse floaters for a variety of reasons, including duration management, income enhancement, total return enhancement, and in NEV as a form of leverage. NEV also invested in additional types of derivative instruments¹, such as forward interest rate swaps, designed to help shorten its duration. During this period, we gradually added to NEV's derivative positions, all of which remained in place at period end.

How did the Funds perform?

Individual results for these Funds, as well as relevant index and peer group information, are presented in the accompanying table.

Average Annual Total Returns on Net Asset Value*
For periods ended 4/30/11

Fund	6-Month	1-Year	5-Year	10-Year
NUV	-3.78%	-0.24%	3.11%	4.52%
NUW	-5.77%	-0.91%	N/A	N/A
NMI	-2.87%	1.59%	4.07%	4.82%
Standard & Poor's (S&P) National Municipal Bond Index ²	-1.99%	1.98%	4.18%	4.94%
Lipper General and Insured Unleveraged Municipal Debt Funds Average ³	-2.17%	0.76%	3.29%	4.14%
NEV ⁴	-8.37%	-2.57%	N/A	N/A
Standard & Poor's (S&P) National Municipal Bond Index ²	-1.99%	1.98%	4.18%	4.94%
Lipper General Leveraged Municipal Debt Funds Average ³	-5.81%	0.10%	3.04%	5.25%

For the six months ended April 30, 2011, the cumulative returns on net asset value (NAV) for these four Funds underperformed the return for the Standard & Poor's (S&P) National Municipal Bond Index. For the same period, NUV, NUW and NMI lagged the average return for the Lipper General and Insured Unleveraged Municipal Debt Funds Average and NEV trailed the average return for the Lipper General Leveraged Municipal Debt Funds Average.

Key management factors that influenced the Funds' returns during this period included duration and yield curve positioning, credit exposure and sector allocation. In addition, the use of effective leverage had an impact on the performance of NEV. Leverage is discussed in more detail on page nine.

* Six-month returns are cumulative; all other returns are annualized.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

Past performance is not predictive of future results. Current performance may be higher or lower than the data shown. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

For additional information, see the individual Performance Overview for your Fund in this report.

1 Each Fund may invest in derivative instruments such as forwards, futures, options, and swap transactions. For additional information on the derivative instruments in which each Fund was invested during and at the end of the reporting period, see the Portfolios of Investments, Financial Statements, and Notes to Financial Statements sections of this report.

2 The Standard & Poor's (S&P) National Municipal Bond Index is an unleveraged, market value-weighted index designed to measure the performance of the tax-exempt, investment-grade U.S. municipal bond market. This index does not reflect any initial or ongoing expenses and is not available for direct investment.

3 Each of the Lipper Municipal Debt Funds Averages shown in this report is calculated using the returns of all closed-end funds in their respective categories for each period as follows: Lipper General and Insured Unleveraged Municipal Debt Funds Average: 6-month, 7 funds; 1-year, 7 funds; 5-year, 6 funds; and 10-year, 6 funds; Lipper General Leveraged Municipal Debt Funds Average: 6-month, 74 funds; 1-year, 73 funds; 5-year, 70 funds; and 10-year, 51 funds. Lipper returns account for the effects of management fees and assume reinvestment of dividends, but do not reflect any applicable sales charges. The Lipper averages are not available for direct investment.

4 NEV is a leveraged Fund through investments in inverse floating rate securities, as discussed in more detail on page nine. The remaining three Funds in this report are unleveraged and use inverse floating rate securities for duration management and both income and total return enhancement.

Nuveen Investments 7

During this period, municipal bonds with shorter maturities generally outperformed other maturity categories, with credits at the longest end of the yield curve posting the weakest returns. The underperformance of longer bonds was due in part to the rise in municipal yields at the longer end of the curve. Among these four Funds, NMI was the most advantageously situated in terms of duration and yield curve positioning, with more exposure to the outperforming shorter end of the yield curve. NEV and NUW, on the other hand, had the longer durations typical of newer Funds that were more recently invested in long-term bonds. Their greater exposure to the underperforming long part of the curve, as well as that of NUV, detracted from the performance of all three Funds for this period. Overall, variations in duration and yield curve positioning among the Funds accounted for the majority of the differences in performance.

As previously mentioned, NEV used derivatives, such as forward interest rate swaps to reduce the duration of the Fund's portfolio. These derivatives had a positive impact on NEV's total return performance for the period.

Credit exposure also played a role in performance during these six months. During the market reversal of late 2010, as the redemption activity in high-yield funds increased and risk aversion mounted, lower-rated credits were negatively impacted. For the period as a whole, bonds rated BBB generally underperformed those rated AAA. All of these Funds tended to be overweighted in bonds rated BBB, which negatively impacted their performance. This was offset to some degree in NMI by the Fund's investment in individual securities that performed well. NEV, NMI and NUW also were hurt by their underweightings in bonds rated AAA.

Holdings that generally helped the Funds' returns included housing, resource recovery and general obligation (GOs) and other tax-supported bonds. In general, these Funds tended to have relatively light exposures to housing (with the exception of NEV) and were somewhat underweighted in GOs, which limited their participation in the performance of these sectors. During this period, pre-refunded bonds, which are often backed by U.S. Treasury securities, also were among the strongest performers, primarily due to their shorter effective maturities and higher credit quality. As of April 30, 2011, both NUV and NMI had good weightings in pre-refunded bonds, while NUW and NEV—as newer Funds—had little to no exposure to these credits.

In contrast, the health care and transportation sectors turned in relatively weaker performance. All four of these Funds, especially NUW, were overweighted in the health care sector, which was generally negative for performance. NEV, however, benefited from strong individual security selection in the health care sector, with a number of its holdings outperforming the sector as a whole. Zero coupon bonds also were among the poorer performers, due largely to their longer maturities.

8 Nuveen Investments

IMPACT OF LEVERAGE STRATEGY ON NEV'S PERFORMANCE

One important factor impacting the return of NEV relative to the comparative indexes was the Fund's use of effective leverage through investments in inverse floating rate securities. This Fund uses leverage because its manager believes that, over time, leveraging provides opportunities for additional income and total return for shareholders. However, use of leverage also can expose shareholders to additional volatility. For example, during periods when the prices of securities held by a Fund generally are declining, the negative impact of these valuation changes on net asset value and total return is magnified by the use of leverage. This is what happened during this reporting period, as the use of leverage had an overall negative impact on the Fund's return.

Dividend and Share Price Information

The monthly dividends of NUV, NUW, NMI and NEV remained stable throughout the six-month reporting period ended April 30, 2011.

Due to normal portfolio activity, shareholders of the following Funds received capital gains and net ordinary income distributions in December 2010 as follows:

Fund	Long-Term Capital Gains (per share)	Short-Term Capital Gains and/or Ordinary Income (per share)
NUV	\$0.0210	\$0.0007
NUW	\$0.0193	\$0.0028

All of the Funds in this report seek to pay stable dividends at rates that reflect each Fund's past results and projected future performance. During certain periods, each Fund may pay dividends at a rate that may be more or less than the amount of net investment income actually earned by the Fund during the period. If a Fund has cumulatively earned more than it has paid in dividends, it holds the excess in reserve as undistributed net investment income (UNII) as part of the Fund's NAV. Conversely, if a Fund has cumulatively paid dividends in excess of its earnings, the excess constitutes negative UNII that is likewise reflected in the Fund's NAV. Each Fund will, over time, pay all of its net investment income as dividends to shareholders. As of April 30, 2011, NUV, NMI and NEV had positive UNII balances, based upon our best estimate, for tax purposes and positive UNII balances for financial reporting purposes, while NUW had a positive UNII balance, based upon our best estimate, for tax purposes and a negative UNII balance for financial reporting purposes.

SHARE REPURCHASES AND SHARE PRICE INFORMATION

Since the inception of the Funds' repurchase program, the Funds' have not repurchased any of their outstanding shares.

SHELF EQUITY PROGRAM

On December 8, 2010, a registration statement filed by, NUV with the Securities and Exchange Commission (SEC) became effective authorizing the Fund to issue an additional 19.6 million shares through a shelf offering. Under this shelf offering program, the Fund, subject to market conditions, may raise additional equity capital from time to

time in varying amounts and offer methods at a net price at or above each Fund's NAV per share.

During the six-month reporting period, NUV sold shares through its shelf offering program at an average premium to NAV per share as shown in the accompanying table.

Fund	Shares Sold through Shelf Offering	Premium to NAV Per Share Sold
NUV	208,955	1.18%

As of April 30, 2011 and during the six-month reporting period, the Funds' share prices were trading at (+) premiums or (-) discounts to their NAVs as shown in the accompanying table.

Fund	4/30/11 (-) Discount	Six-Month Average (+) Premium/(-) Discount
NUV	(-)1.41%	(-)2.19%
NUW	(-)2.73%	(-)1.42%
NMI	(-)3.71%	(-)2.88%
NEV	(-)4.13%	(-)5.11%

Refer to the Glossary of Terms Used in this Report for further definition of the terms used within this Fund's Performance Overview page.

1 Taxable-Equivalent Yield represents the yield that must be earned on a fully taxable investment in order to equal the yield of the Fund on an after-tax basis. It is based on a federal income tax rate of 28%. When comparing the Fund to investments that generate qualified dividend income, the Taxable-Equivalent Yield is lower.

2 Ratings shown are the highest of Standard & Poor's Group, Moody's Investor Service, Inc. or Fitch, Inc. AAA includes bonds with an implied AAA rating since they are backed by U.S. Government or agency securities. AAA, AA, A and BBB ratings are investment grade; BB, B, CCC, CC, C and D ratings are below-investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

3 Holdings are subject to change

4 Excluding investments in derivatives.

	Net Assets – 100%			\$ 1,823,672,158

(1) All percentages shown in the Portfolio of Investments are based on net assets.

(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

(3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

(4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.

(5) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a bond, generally

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.

N/R Not rated.

(ETM) Escrowed to maturity.

(IF) Inverse floating rate investment.

Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial
(UB) Statements, Footnote 1 – General Information
and Significant Accounting Policies, Inverse Floating Rate Securities for more information.
See accompanying notes to financial statements.

(1) All percentages shown in the Portfolio of Investments are based on net assets.

Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may
(2) be other call provisions at varying prices
at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc.
(3) ("Moody's") or Fitch, Inc. ("Fitch") rating.
Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below
investment grade. Holdings designated N/R are not
rated by any of these national rating agencies.

(4)

Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.

N/R Not rated.

(IF) Inverse floating rate investment.

(1) All percentages shown in the Portfolio of Investments are based on net assets.

(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption. There may be other call provisions at varying prices at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

(3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating. Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

- (4) Backed by an escrow or trust containing sufficient U.S. Government or U.S. Government agency securities, which ensure the timely payment of principal and interest. Such investments are normally considered to be equivalent to AAA rated securities.
- (5) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in inverse floating rate transactions.
- (6) For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Investment Valuation for more information.
- (7) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a bond, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.

N/R Not rated.

WI/DD Purchased on a when-issued or delayed delivery basis.

(ETM) Escrowed to maturity.

(IF) Inverse floating rate investment.

(UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information. See accompanying notes to financial statements.

(1) All percentages shown in the Portfolio of Investments are based on net assets.

(2) Optional Call Provisions: Dates (month and year) and prices of the earliest optional call or redemption.
There may be other call provisions at varying prices
at later dates. Certain mortgage-backed securities may be subject to periodic principal paydowns.

- (3) Ratings: Using the highest of Standard & Poor's Group ("Standard & Poor's"), Moody's Investor Service, Inc. ("Moody's") or Fitch, Inc. ("Fitch") rating.
Ratings below BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch are considered to be below investment grade. Holdings designated N/R are not rated by any of these national rating agencies.
- (4) Investment, or portion of investment, has been pledged to collateralize the net payment obligations for investments in derivatives and/or inverse floating rate transactions.
- (5) For fair value measurement disclosure purposes, investment categorized as Level 3. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Investment Valuation for more information.
- (6) At or subsequent to the end of the reporting period, this security is non-income producing. Non-income producing security, in the case of a bond, generally denotes that the issuer has (1) defaulted on the payment of principal or interest, (2) is under the protection of the Federal Bankruptcy Court or (3) the Fund's Adviser has concluded that the issue is not likely to meet its future interest payment obligations and has directed the Fund's custodian to cease accruing additional income on the Fund's records.
- (7) Investment valued at fair value using methods determined in good faith by, or at the discretion of, the Board of Trustees.
- (8) Effective date represents the date on which both the Fund and Counterparty commence interest payment accruals on each forward swap contract.
- (9) Other Assets Less Liabilities includes the Value and/or the Net Unrealized Appreciation (Depreciation) of derivative instruments as listed within Investments in Derivatives.
- N/R Not rated.
- WI/DD Purchased on a when-issued or delayed delivery basis.
- (IF) Inverse floating rate investment.
- (UB) Underlying bond of an inverse floating rate trust reflected as a financing transaction. See Notes to Financial Statements, Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities for more information.

USD-LIBOR United States Dollar-London Inter-Bank Offered Rate.

Total Return Based on Market Value is the combination of changes in the market price per share and the effect of (a) reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending market price. The actual reinvestment for the last dividend declared in the period may take place over several days, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total returns are not annualized.

Total Return Based on Net Asset Value is the combination of changes in net asset value, reinvested dividend income at net asset value and reinvested capital gains distributions at net asset value, if any. The last dividend declared in the period, which is typically paid on the first business day of the following month, is assumed to be reinvested at the ending net asset value. The actual reinvest price for the last dividend declared in the period may often be based on the Fund's market price (and not its net asset value), and therefore may be different from the price used in the calculation. Total returns are not annualized.

Ratios do not reflect the effect of custodian fee credits earned on the Fund's net cash on deposit with the custodian (b) bank, where applicable.

The expense ratios reflect, among other things, the interest expense deemed to have been paid by the Fund on the (c) floating rate certificates issued by the special purpose

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

trusts for the self-deposited inverse floaters held by the Fund, where applicable, as described in Footnote 1 – General Information and Significant Accounting Policies, Inverse Floating Rate Securities.

Each ratio for Enhanced Municipal Value (NEV) includes the effect of the interest expense paid on borrowings, as (d) described in Footnote 8 – Borrowing Arrangements as follows:

		Ratios of Borrowings Interest Expense and Fees to Average Net Assets

Financial Statements(Unaudited)

1. General Information and Significant Accounting Policies

General Information

The funds covered in this report and their corresponding New York Stock Exchange (“NYSE”) symbols are Nuveen Municipal Value Fund, Inc. (NUV), Nuveen Municipal Value Fund 2 (NUW), Nuveen Municipal Income Fund, Inc. (NMI) and Nuveen Enhanced Municipal Value Fund (NEV) (collectively, the “Funds”). The Funds are registered under the Investment Company Act of 1940, as amended, as closed-end, registered investment companies.

Effective January 1, 2011, the Funds’ adviser, Nuveen Asset Management, a wholly-owned subsidiary of Nuveen Investments, Inc. (“Nuveen”), changed its name to Nuveen Fund Advisors, Inc. (the “Adviser”). Concurrently, the Adviser formed a wholly-owned subsidiary, Nuveen Asset Management, LLC (the “Sub-Adviser”), to house its portfolio management capabilities and to serve as the Funds’ sub-adviser, and the Funds’ portfolio manager became an employee of the Sub-Adviser. This allocation of responsibilities between the Adviser and the Sub-Adviser affects each of the Funds. The Adviser will compensate the Sub-Adviser for the portfolio management services it provides to the Funds from each Fund’s management fee.

Each Fund seeks to provide current income from regular federal income tax by investing primarily in a portfolio of municipal obligations issued by state and local government authorities or certain U.S. territories.

Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”).

Investment Valuation

Prices of municipal bonds and forward swap contracts are provided by a pricing service approved by the Funds’ Board of Directors/Trustees. These securities are generally classified as Level 2 for fair value measurement purposes. When price quotes are not readily available (which is usually the case for municipal bonds) the pricing service establishes a security’s fair value using methods that may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor’s credit characteristics considered relevant. In pricing certain securities, particularly less liquid and lower quality securities, the pricing service may consider information about a security, its issuer, or market activity provided by the Adviser. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs.

Certain securities may not be able to be priced by the pre-established pricing methods as described above. Such securities may be valued by the Funds’ Board of Directors/Trustees or its designee at fair value. These securities generally include, but are not limited to, restricted securities (securities which may not be publicly sold without registration under the Securities Act of 1933, as amended) for which a pricing service is unable to provide a market price; securities whose trading has been formally suspended; debt securities that have gone into default and for which there is no current market quotation; a security whose market price is not available from a pre-established pricing

source; a security with respect to which an event has occurred that is likely to materially affect the value of the security after the market has closed but before the calculation of a Fund's net asset value (as may be the case in non-U.S. markets on which the security is primarily traded) or make it difficult or impossible to obtain a reliable market quotation; and a security whose price, as provided by the pricing service, is not deemed to reflect the security's fair value. As a general principle, the fair value of a security would appear to be the amount that the owner might reasonably expect to receive for it in a current sale. A variety of factors may be considered in determining the fair value of such securities, which may include consideration of the following: yields or prices of investments of comparable quality, type of issue, coupon, maturity and rating, market quotes or indications of value from security dealers, evaluations of anticipated cash flows or collateral, general market conditions and other information and analysis, including the obligor's credit characteristics considered relevant. These securities are generally classified as Level 2 or Level 3 depending on the priority of the significant inputs. Regardless of the method employed to value a particular security, all valuations are subject to review by the Funds' Board of Directors/Trustees or its designee.

Refer to Footnote 2 – Fair Value Measurements for further details on the leveling of securities held by the Funds as of the end of the reporting period.

Investment Transactions

Investment transactions are recorded on a trade date basis. Realized gains and losses from transactions are determined on the specific identification method, which is the same basis used for federal income tax purposes. Investments purchased on a when-issued/delayed delivery basis may have

58 Nuveen Investments

extended settlement periods. Any investments so purchased are subject to market fluctuation during this period. The Funds have instructed the custodian to segregate assets with a current value at least equal to the amount of the when-issued/delayed delivery purchase commitments. At April 30, 2011, Municipal Income (NMI) and Enhanced Municipal Value (NEV) had outstanding when-issued/delayed delivery purchase commitments of \$429,594 and \$4,890,361, respectively. There were no such outstanding purchase commitments in any of the other Funds.

Investment Income

Investment income, which reflects the amortization of premiums and includes accretion of discounts for financial reporting purposes, is recorded on an accrual basis. Investment income also reflects paydown gains and losses, if any.

Professional Fees

Professional fees presented on the Statement of Operations consist of legal fees incurred in the normal course of operations, audit fees, tax consulting fees and, in some cases, workout expenditures. Workout expenditures are incurred in an attempt to protect or enhance an investment, or to pursue other claims or legal actions on behalf of Fund shareholders.

Income Taxes

Each Fund is a separate taxpayer for federal income tax purposes. Each Fund intends to distribute substantially all of its net investment income and net capital gains to shareholders and to otherwise comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies. Therefore, no federal income tax provision is required. Furthermore, each Fund intends to satisfy conditions that will enable interest from municipal securities, which is exempt from regular federal income tax, to retain such tax-exempt status when distributed to shareholders of the Funds. Net realized capital gains and ordinary income distributions paid by the Funds are subject to federal taxation.

For all open tax years and all major taxing jurisdictions, management of the Funds has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Open tax years are those that are open for examination by taxing authorities (i.e., generally the last four tax year ends and the interim tax period since then). Furthermore, management of the Funds is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

Dividends and Distributions to Shareholders

Dividends from net investment income are declared monthly. Net realized capital gains and/or market discount from investment transactions, if any, are distributed to shareholders at least annually. Furthermore, capital gains are distributed only to the extent they exceed available capital loss carryforwards.

Distributions to shareholders of net investment income, net realized capital gains and/or market discount, if any, are recorded on the ex-dividend date. The amount and timing of distributions are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP.

Shelf Offering

During the six months ended April 30, 2011, Municipal Value (NUV) filed a registration statement with the Securities and Exchange Commission ("SEC") authorizing the Fund to issue an additional 19,600,000 shares through a shelf offering which became effective with the SEC on December 8, 2010.

During the six months ended April 30, 2011, the Fund issued 208,955 shares, receiving offering proceeds, net of offering costs of \$1,878,673. Under this equity shelf program, the Fund, subject to market conditions, may raise additional capital from time to time in varying amounts and offering methods at a net price at or above the Fund's NAV per share.

Shelf Offering Costs

Costs incurred by Municipal Value (NUV) in connection with the shelf offerings of its shares are recorded as a deferred charge which are amortized over the period such additional shares are sold not to exceed the one-year life of the shelf offering period.

Inverse Floating Rate Securities

Each Fund is authorized to invest in inverse floating rate securities. An inverse floating rate security is created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. In turn, this trust (a) issues floating rate certificates, in face amounts equal to some fraction of the deposited bond's par amount or market value, that typically pay short-term tax-exempt interest rates to third parties, and (b) issues to a long-term investor (such as one of the Funds) an inverse floating rate certificate (sometimes referred to as an "inverse floater") that represents all remaining or residual interest in the trust. The income received by the inverse floater holder varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the inverse floater holder bears substantially all of the underlying bond's downside investment risk and also benefits disproportionately from any potential appreciation of the underlying bond's value. The price of an inverse floating rate security will be more volatile than that of the underlying bond because the interest rate is dependent on not only the fixed coupon rate of the underlying bond but also on the short-term interest paid on the floating rate certificates, and because the inverse floating rate security essentially bears the risk of loss of the greater face value of the underlying bond.

Nuveen Investments 59

Notes to
Financial Statements (Unaudited) (continued)

A Fund may purchase an inverse floating rate security in a secondary market transaction without first owning the underlying bond (referred to as an “externally-deposited inverse floater”), or instead by first selling a fixed-rate bond to a broker-dealer for deposit into the special purpose trust and receiving in turn the residual interest in the trust (referred to as a “self-deposited inverse floater”). The inverse floater held by a Fund gives the Fund the right (a) to cause the holders of the floating rate certificates to tender their notes at par, and (b) to have the broker transfer the fixed-rate bond held by the trust to the Fund, thereby collapsing the trust. An investment in an externally-deposited inverse floater is identified in the Portfolio of Investments as “(IF) – Inverse floating rate investment.” An investment in a self-deposited inverse floater is accounted for as a financing transaction. In such instances, a fixed-rate bond deposited into a special purpose trust is identified in the Portfolio of Investments as “(UB) – Underlying bond of an inverse floating rate trust reflected as a financing transaction,” with the Fund accounting for the short-term floating rate certificates issued by the trust as “Floating rate obligations” on the Statement of Assets and Liabilities. In addition, the Fund reflects in “Investment Income” the entire earnings of the underlying bond and recognizes the related interest paid to the holders of the short-term floating rate certificates as a component of “Interest expense” on the Statement of Operations.

During the six months ended April 30, 2011, each Fund invested in externally-deposited inverse floaters and/or self-deposited inverse floaters.

Each Fund may also enter into shortfall and forbearance agreements (sometimes referred to as a “recourse trust” or “credit recovery swap”) (such agreements referred to herein as “Recourse Trusts”) with a broker-dealer by which a Fund agrees to reimburse the broker-dealer, in certain circumstances, for the difference between the liquidation value of the fixed-rate bond held by the trust and the liquidation value of the floating rate certificates issued by the trust plus any shortfalls in interest cash flows. Under these agreements, a Fund’s potential exposure to losses related to or on inverse floaters may increase beyond the value of a Fund’s inverse floater investments as a Fund may potentially be liable to fulfill all amounts owed to holders of the floating rate certificates. At period end, any such shortfall is recognized as “Unrealized depreciation on Recourse Trusts” on the Statement of Assets and Liabilities.

At April 30, 2011, each Fund’s maximum exposure to externally-deposited Recourse Trusts is as follows:

	Municipal Value (NUV)	Municipal Value 2 (NUW)	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Maximum exposure to Recourse Trusts	\$7,500,000	\$23,665,000	\$6,005,000	\$132,635,000

The average floating rate obligations outstanding and average annual interest rate and fees related to self-deposited inverse floaters during the six months ended April 30, 2011, were as follows:

	Municipal Value (NUV)	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Average floating rate obligations outstanding	\$38,250,000	\$3,335,000	\$9,116,022

Average annual interest rate and fees	0.50	%	0.45	%	0.77	%
---------------------------------------	------	---	------	---	------	---

Forward Swap Contracts

Each Fund is authorized to enter into forward interest rate swap contracts consistent with their investment objectives and policies to reduce, increase or otherwise alter its risk profile or to alter its portfolio characteristics (i.e. duration, yield curve positioning and credit quality).

Each Fund's use of forward interest rate swap transactions is intended to help the Fund manage its overall interest rate sensitivity, either shorter or longer, generally to more closely align the Fund's interest rate sensitivity with that of the broader market. Forward interest rate swap transactions involve a Fund's agreement with a counterparty to pay, in the future, a fixed or variable rate payment in exchange for the counterparty paying the Fund a variable or fixed rate payment, the accruals for which would begin at a specified date in the future (the "effective date"). The amount of the payment obligation is based on the notional amount of the swap contract and the termination date of the swap (which is akin to a bond's maturity). The value of a Fund's swap commitment would increase or decrease based primarily on the extent to which long-term interest rates for bonds having a maturity of the swap's termination date increases or decreases. Forward interest rate swap contracts are valued daily. The net amount recorded on these transactions for each counterparty is recognized on the Statement of Assets and Liabilities as a component of "Unrealized appreciation or depreciation on forward swaps" with the change during the fiscal period recognized on the Statement of Operations as a component of "Change in net unrealized appreciation (depreciation) of forward swaps."

Each Fund may terminate a swap contract prior to the effective date, at which point a realized gain or loss is recognized. When a forward swap is terminated, it ordinarily does not involve the delivery of securities or other underlying assets or principal, but rather is settled in cash on a net basis. Net realized gains and losses during the fiscal period are recognized on the Statement of Operations as a component of "Net realized gain (loss) from forward swaps." Each Fund intends, but is not obligated, to terminate its forward swaps before the effective date. Accordingly, the risk of loss with respect to the swap counterparty on such transactions is limited to the credit risk associated with a counterparty failing to honor its commitment to pay any realized gain to the Fund upon termination.

60 Nuveen Investments

During the six months ended April 30, 2011, Enhanced Municipal Value (NEV) entered into forward interest rate swap contracts to reduce the duration of the Fund's portfolio. The average notional amount of forward interest rate swap contracts outstanding during the six months ended April 30, 2011, was as follows:

	Enhanced Municipal Value (NEV)
Average notional amount of forward interest rate swap contracts outstanding*	\$14,250,000

* The average notional amount is calculated based on the outstanding notional at the beginning of the fiscal year and at the end of each fiscal quarter within the current fiscal year.

Refer to Footnote 3 — Derivative Instruments and Hedging Activities for further details on forward interest rate swap contract activity.

Market and Counterparty Credit Risk

In the normal course of business each Fund may invest in financial instruments and enter into financial transactions where risk of potential loss exists due to changes in the market (market risk) or failure of the other party to the transaction to perform (counterparty credit risk). The potential loss could exceed the value of the financial assets recorded on the financial statements. Financial assets, which potentially expose each Fund to counterparty credit risk, consist principally of cash due from counterparties on forward, option and swap transactions, when applicable. The extent of each Fund's exposure to counterparty credit risk in respect to these financial assets approximates their carrying value as recorded on the Statement of Assets and Liabilities. Futures contracts, when applicable, expose a Fund to minimal counterparty credit risk as they are exchange traded and the exchange's clearinghouse, which is counterparty to all exchange traded futures, guarantees the futures contracts against default.

Each Fund helps manage counterparty credit risk by entering into agreements only with counterparties the Adviser believes have the financial resources to honor their obligations and by having the Adviser monitor the financial stability of the counterparties. Additionally, counterparties may be required to pledge collateral daily (based on the daily valuation of the financial asset) on behalf of each Fund with a value approximately equal to the amount of any unrealized gain above a pre-determined threshold. Reciprocally, when each Fund has an unrealized loss, the Funds have instructed the custodian to pledge assets of the Funds as collateral with a value approximately equal to the amount of the unrealized loss above a pre-determined threshold. Collateral pledges are monitored and subsequently adjusted if and when the valuations fluctuate, either up or down, by at least the predetermined threshold amount.

Zero Coupon Securities

Each Fund is authorized to invest in zero coupon securities. A zero coupon security does not pay a regular interest coupon to its holders during the life of the security. Tax-exempt income to the holder of the security comes from accretion of the difference between the original purchase price of the security at issuance and the par value of the security at maturity and is effectively paid at maturity. The market prices of zero coupon securities generally are more volatile than the market prices of securities that pay interest periodically.

Custodian Fee Credit

Each Fund has an arrangement with the custodian bank whereby certain custodian fees and expenses are reduced by net credits earned on each Fund's cash on deposit with the bank. Such deposit arrangements are an alternative to overnight investments. Credits for cash balances may be offset by charges for any days on which a Fund overdraws its account at the custodian bank.

Indemnifications

Under the Funds' organizational documents, their officers and directors/trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Funds enter into contracts that provide general indemnifications to other parties. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results may differ from those estimates.

Financial Statements (Unaudited) (continued)

2. Fair Value Measurements

Fair value is defined as the price that the Funds would receive upon selling an investment or transferring a liability in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. A three-tier hierarchy is used to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 – Quoted prices in active markets for identical securities.

Level 2 – Other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 – Significant unobservable inputs (including management's assumptions in determining the fair value of investments).

The inputs or methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of each Fund's fair value measurements as of April 30, 2011:

Municipal Value (NUV)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$—	\$1,826,898,272	\$—	\$1,826,898,272
Municipal Value 2 (NUW)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$—	\$195,506,967	\$—	\$195,506,967
Municipal Income (NMI)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$—	\$84,627,896	\$25,050	\$84,652,946
Enhanced Municipal Value (NEV)	Level 1	Level 2	Level 3	Total
Investments:				
Municipal Bonds	\$—	\$265,700,962	\$222,023	\$265,922,985
Derivatives:				
Forward Swaps*	—	(703,685)	—	(703,685)
Total	\$—	\$264,997,277	\$222,023	\$265,219,300

* Represents net unrealized appreciation (depreciation).

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

The following is a reconciliation of the Funds' Level 3 investments held at the beginning and end of the measurement period:

	Municipal Income (NMI) Level 3 Municipal Bonds	Enhanced Municipal Value (NEV) Level 3 Municipal Bonds
Balance at the beginning of period	\$26,021	\$189,235
Gains (losses):		
Net realized gains (losses)	(18,646)	—
Net change in unrealized appreciation (depreciation)	17,675	(2,860)
Purchases at cost	—	35,648
Sales at proceeds	—	—
Net discounts (premiums)	—	—
Transfers into	—	—
Transfers out of	—	—
Balance at the end of period	\$25,050	\$222,023
Net change in unrealized appreciation (depreciation) during the period of Level 3 securities held at April 30, 2011	\$17,675	\$(2,860)

During the six months ended April 30, 2011, the Funds recognized no significant transfers to/from Level 1, Level 2 or Level 3.

62 Nuveen Investments

3. Derivative Instruments and Hedging Activities

The Funds record derivative instruments at fair value, with changes in fair value recognized on the Statement of Operations, when applicable. Even though the Funds' investments in derivatives may represent economic hedges, they are not considered to be hedge transactions for financial reporting purposes. For additional information on the derivative instruments in which each Fund was invested during and at the end of the reporting period, refer to the Portfolios of Investments, Financial Statements and Footnote 1 - General Information and Significant Accounting Policies.

The following table presents the fair value of all derivative instruments held by the Funds as of April 30, 2011, the location of these instruments on the Statement of Assets and Liabilities, and the primary underlying risk exposure. Enhanced Municipal Value (NEV) invested in derivative instruments during the six months ended April 30, 2011.

Enhanced Municipal Value (NEV)

Underlying Risk Exposure	Derivative Instrument	Location on the Statement of Assets and Liabilities		Location on the Statement of Assets and Liabilities	
		Asset Derivatives Location	Value	Liability Derivatives Location	Value
Interest Rate	Forward Swaps	Unrealized appreciation		Unrealized depreciation	
		on forward swaps*	\$ —	on forward swaps*	\$703,685

* Represents cumulative gross unrealized appreciation (depreciation) of forward swap contracts as reported in the Portfolio of Investments.

The following tables present the amount of net realized gain (loss) and change in net unrealized appreciation (depreciation) recognized for the six months ended April 30, 2011, on derivative instruments, as well as the primary risk exposure associated with each.

		Enhanced Municipal Value (NEV)
Net Realized Gain (Loss) from Forward Swaps		
Risk Exposure		
Interest Rate		\$(674,000)

		Enhanced Municipal Value (NEV)
Change in Net Unrealized Appreciation (Depreciation) of Forward Swaps		
Risk Exposure		
Interest Rate		\$1,420,477

4. Fund Shares

The Funds did not repurchase and retire any of their outstanding shares during the six months ended April 30, 2011, or the fiscal year ended October 31, 2010.

Transactions in shares were as follows:

	Municipal Value (NUV)		Municipal Value 2 (NUW)	
	Six Months Ended 4/30/11	Year Ended 10/31/10	Six Months Ended 4/30/11	Year Ended 10/31/10
Shares sold	—	—	—	—
Shares sold through shelf offering*	208,955	—	—	—
Shares issued to shareholders due to reinvestment of distributions	257,357	1,023,405	48,304	133,359
Weighted average premium per shelf offering share sold*	1.18%	—	—	—

	Municipal Income (NMI)		Enhanced Municipal Value (NEV)	
	Six Months Ended 4/30/11	Year Ended 10/31/10	Six Months Ended 4/30/11	Year Ended 10/31/10
Shares sold	—	—	—	1,400,000
Shares issued to shareholders due to reinvestment of distributions	6,089	37,308	—	49,862

* Municipal Value (NUV) is the only Fund authorized to issue additional shares through a shelf offering.

Nuveen Investments 63

Notes to
Financial Statements (Unaudited) (continued)

5. Investment Transactions

Purchases and sales (including maturities but excluding short-term investments and derivative transactions, when applicable) during the six months ended April 30, 2011, were as follows:

	Municipal Value (NUV)	Municipal Value 2 (NUW)	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Purchases	\$99,277,114	\$726,393	\$7,108,946	\$84,049,608
Sales and maturities	117,678,729	10,000	8,168,915	64,707,220

6. Income Tax Information

The following information is presented on an income tax basis. Differences between amounts for financial statement and federal income tax purposes are primarily due to timing differences in recognizing taxable market discount, timing differences in recognizing certain gains and losses on investments transactions and the treatment of investments in inverse floating rate securities reflected as financing transactions, if any. To the extent that differences arise that are permanent in nature, such amounts are reclassified within the capital accounts as detailed below. Temporary differences do not require reclassification. Temporary and permanent differences do not impact the net asset values of the Funds.

At April 30, 2011, the cost and unrealized appreciation (depreciation) of investments (excluding investments in derivatives, when applicable), as determined on a federal income tax basis, were as follows:

	Municipal Value (NUV)	Municipal Value 2 (NUW)	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Cost of investments	\$1,852,264,001	\$181,119,368	\$81,825,821	\$253,184,181
Gross unrealized:				
Appreciation	\$73,956,163	\$16,896,023	\$2,683,599	\$5,774,167
Depreciation	(137,573,239)	(2,508,424)	(3,192,919)	(11,030,549)
Net unrealized appreciation (depreciation) of investments	\$(63,617,076)	\$14,387,599	\$(509,320)	\$(5,256,382)

Permanent differences, primarily due to federal taxes paid, taxable market discount and distribution character reclassifications, resulted in reclassifications among the Funds' components of net assets at October 31, 2010, the Funds' last tax year end, as follows:

	Municipal Value (NUV)	Municipal Value 2 (NUW)	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Paid-in-surplus	\$—	\$—	\$2,467	\$130
Undistributed (Over-distribution of) net investment income	(199,479)	—	(12,161)	(28,949)
Accumulated net realized gain (loss)	199,479	—	9,694	28,819

The tax components of undistributed net tax-exempt income, net ordinary income and net long-term capital gains at October 31, 2010, the Funds' last tax year end, were as follows:

	Municipal Value (NUV)	Municipal Value 2 (NUW)	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Undistributed net tax-exempt income *	\$12,606,689	\$257,771	\$1,139,619	\$2,585,881
Undistributed net ordinary income **	131,734	39,004	38,025	7,258
Undistributed net long-term capital gains	4,157,153	248,104	—	—

* Undistributed net tax-exempt income (on a tax basis) has not been reduced for the dividend declared on October 1, 2010, paid on November 1, 2010.

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

The tax character of distributions paid during the Funds' last tax year ended October 31, 2010, was designated for purposes of the dividends paid deduction as follows:

	Municipal Value (NUV)	Municipal Value 2 (NUW)	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Distributions from net tax-exempt income	\$92,351,671	\$11,468,610	\$4,637,655	\$16,074,626
Distributions from net ordinary income **	374,351	123,156	—	17,298
Distributions from net long-term capital gains	1,004,873	—	—	—

** Net ordinary income consists of taxable market discount income and net short-term capital gains, if any.

At October 31, 2010, the Funds' last tax year end, the following Funds had unused capital loss carryforwards available for federal income tax purposes to be applied against future capital gains, if any. If not applied, the carryforwards will expire as follows:

	Municipal Income (NMI)	Enhanced Municipal Value (NEV)
Expiration:		
October 31, 2011	\$6,799,386	\$—
October 31, 2012	916,759	—
October 31, 2013	165,764	—
October 31, 2016	164,175	—
October 31, 2017	289,822	—
October 31, 2018	—	\$2,946,811
Total	\$8,335,906	\$2,946,811

During the Funds' last tax year ended October 31, 2010, the following Fund utilized its capital loss carryforwards as follows:

	Municipal Income (NMI)
Utilized capital loss carryforwards	\$65,358

7. Management Fees and Other Transactions with Affiliates

Each Fund's management fee consists of two components – a fund-level fee, based only on the amount of assets within the Fund, and a complex-level fee, based on the aggregate amount of all eligible fund assets managed by the Adviser. This pricing structure enables Fund shareholders to benefit from growth in the assets within their Fund as well as from growth in the amount of complex-wide assets managed by the Adviser.

The annual fund-level fee for Municipal Value (NUV), payable monthly, is calculated according to the following schedule:

Average Daily Net Assets	Municipal Value (NUV) Fund-Level Fee Rate
For the first \$500 million	.1500%
For the next \$500 million	.1250
For net assets over \$1 billion	.1000

In addition, Municipal Value (NUV) pays an annual management fee, payable monthly, based on gross interest income (excluding interest on bonds underlying a “self-deposited inverse floater” trust that is attributed to the Fund over and above the net interest earned on the inverse floater itself) as follows:

Gross Interest Income	Municipal Value (NUV) Gross Income Fee Rate
For the first \$50 million	4.125%
For the next \$50 million	4.000
For gross income over \$100 million	3.875

Nuveen Investments 65

Notes to
Financial Statements (Unaudited) (continued)

The annual fund level fee for Municipal Value 2 (NUW), Municipal Income (NMI) and Enhanced Municipal Value (NEV), payable monthly, is calculated according to the following schedules:

Average Daily Managed Assets*	Municipal Value 2 (NUW) Fund-Level Fee Rate	
For the first \$125 million	.4000	%
For the next \$125 million	.3875	
For the next \$250 million	.3750	
For the next \$500 million	.3625	
For the next \$1 billion	.3500	
For managed assets over \$2 billion	.3375	

Average Daily Net Assets	Municipal Income (NMI) Fund-Level Fee Rate	
For the first \$125 million	.4500	%
For the next \$125 million	.4375	
For the next \$250 million	.4250	
For the next \$500 million	.4125	
For the next \$1 billion	.4000	
For the next \$3 billion	.3875	
For net assets over \$5 billion	.3750	

Average Daily Managed Assets*	Enhanced Municipal Value (NEV) Fund-Level Fee Rate	
For the first \$125 million	.4500	%
For the next \$125 million	.4375	
For the next \$250 million	.4250	
For the next \$500 million	.4125	
For the next \$1 billion	.4000	
For managed assets over \$2 billion	.3875	

The annual complex-level fee for each Fund, payable monthly, is calculated according to the following schedule:

Complex-Level Managed Asset Breakpoint Level*	Effective Rate at Breakpoint Level	
\$55 billion	.2000	%
\$56 billion	.1996	
\$57 billion	.1989	
\$60 billion	.1961	
\$63 billion	.1931	
\$66 billion	.1900	
\$71 billion	.1851	

\$76 billion	.1806
\$80 billion	.1773
\$91 billion	.1691
\$125 billion	.1599
\$200 billion	.1505
\$250 billion	.1469
\$300 billion	.1445

* For the fund-level and complex-level fees, managed assets include closed-end fund assets managed by the Adviser that are attributable to financial leverage. For these purposes, financial leverage includes the funds' use of preferred stock and borrowings and certain investments in the residual interest certificates (also called inverse floating rate securities) in tender option bond (TOB) trusts, including the portion of assets held by a TOB trust that has been effectively financed by the trust's issuance of floating rate securities, subject to an agreement by the Adviser as to certain funds to limit the amount of such assets for determining managed assets in certain circumstances. The complex-level fee is calculated based upon the aggregate daily managed assets of all Nuveen funds that constitute "eligible assets." Eligible assets do not include assets attributable to investments in other Nuveen funds or assets in excess of \$2 billion added to the Nuveen fund complex in connection with the Adviser's assumption of the management of the former First American Funds effective January 1, 2011. As of April 30, 2011, the complex-level fee rate for these Funds was .1785%.

66 Nuveen Investments

The management fee compensates the Adviser for overall investment advisory and administrative services and general office facilities. The adviser has entered into Sub-Advisory Agreements with the Sub-Adviser under which the Sub-Adviser manages the investment portfolios of the Funds. The Sub-Adviser is compensated for its services to the Funds from the management fees paid to the Adviser.

The Funds pay no compensation directly to those of its directors/trustees who are affiliated with the Adviser or to its officers, all of whom receive remuneration for their services to the Funds from the Adviser or its affiliates. The Board of Directors/Trustees has adopted a deferred compensation plan for independent directors/trustees that enables directors/trustees to elect to defer receipt of all or a portion of the annual compensation they are entitled to receive from certain Nuveen-advised funds. Under the plan, deferred amounts are treated as though equal dollar amounts had been invested in shares of select Nuveen-advised funds.

During the six months ended April 30, 2011, Nuveen Securities, LLC, a wholly-owned subsidiary of Nuveen, received commissions of \$3,800, related to the sale of shares as a result of the Municipal Value (NUV) shelf offering.

8. Borrowing Arrangements

As part of its investment strategy, Enhanced Municipal Value (NEV) uses borrowings to employ leverage. On May 18, 2010, the Fund entered into a \$75 million (maximum commitment amount) committed 364-day unsecured line of credit ("Committed Unsecured Line") with its custodian bank. Interest charged on the used portion of the Committed Unsecured Line is calculated at a rate per annum equal to the higher of the overnight Federal Funds rate or the overnight London Inter-bank Offered Rate ("LIBOR") plus 1.25%. In addition, the Fund accrues a commitment fee of 0.15% per annum on the unused portion of the Committed Unsecured Line. The Fund also paid a .10% one time closing fee on the Committed Unsecured Line, which was fully expensed during the fiscal year ended October 31, 2010.

During the six months ended April 30, 2011, the Fund did not utilize its Committed Unsecured Line. Commitment and closing fees incurred on the Committed Unsecured Line are recognized as a component of "Interest expense" on the Statement of Operations.

During May 2011, the Fund entered into a new 364-day unsecured line of credit. The Fund will pay a one-time closing fee of .05% on the maximum commitment amount and will accrue a commitment fee of .125% on the unused portion of the Committed Unsecured Line. All other terms remain unchanged.

9. New Accounting Pronouncement

Fair Value Measurements and Disclosures

On May 12, 2011, the Financial Accounting Standards Board ("FASB") issued an Accounting Standard Update ("ASU") modifying Topic 820, Fair Value Measurements and Disclosures. At the same time, the International Accounting Standards Board ("IASB") issued International Financial Reporting Standard ("IFRS") 13, Fair Value Measurement. The objective by the FASB and IASB is convergence of their guidance on fair value measurements and disclosures. Specifically, the ASU requires reporting entities to disclose i) the amounts of any transfers between Level 1 and Level 2, and the reasons for the transfers, ii) for Level 3 fair value measurements, a) quantitative information about significant unobservable inputs used, b) a description of the valuation processes used by the reporting entity and c) a narrative description of the sensitivity of the fair value measurement to changes in unobservable inputs if a change in those inputs might result in a significantly higher or lower fair value measurement. The effective date of the ASU is

for interim and annual periods beginning after December 15, 2011. At this time, management is evaluating the implications of this guidance and the impact it will have on the financial statement amounts and footnote disclosures, if any.

Nuveen Investments 67

Board Approval of Sub-Advisory Arrangements (Unaudited)

At a meeting held on May 25-26, 2010 (the “May Meeting”), the Boards of Trustees or Directors (as the case may be) (each, a “Board” and each Trustee or Director, a “Board Member”) of the Funds, including a majority of the Board Members who are not parties to the advisory agreements or “interested persons” of any parties (the “Independent Board Members”), considered and approved the advisory agreements (each, an “Advisory Agreement”) between each Fund and Nuveen Asset Management (the “Adviser”). Since the May Meeting, Nuveen has engaged in an internal restructuring (the “Restructuring”) pursuant to which the portfolio management services provided by the Adviser to the Funds were transferred to Nuveen Asset Management, LLC (“NAM LLC”), a newly-organized wholly-owned subsidiary of the Adviser and the Adviser changed its name to Nuveen Fund Advisors, Inc. (“NFA”). The Adviser, under its new name NFA, continues to serve as investment adviser to the Funds and, in that capacity, will continue to provide various oversight, administrative, compliance and other services. To effectuate the foregoing, NFA entered into sub-advisory agreements with NAM LLC on behalf of the Funds (each, a “Sub-Advisory Agreement”). Under each Sub-Advisory Agreement, NAM LLC, subject to the oversight of NFA and the Board, will furnish an investment program, make investment decisions for, and place all orders for the purchase and sale of securities for the portion of the respective Fund’s investment portfolio allocated to it by NFA. There have been no changes to the advisory fees paid by the Funds; rather, NFA will pay a portion of the investment advisory fee it receives to NAM LLC for its sub-advisory services. The Independent Board Members reviewed the allocation of fees between NFA and NAM LLC. NFA and NAM LLC do not anticipate any reduction in the nature or level of services provided to the Funds following the Restructuring. The personnel of NFA who engaged in portfolio management activities prior to the spinoff of NAM LLC are not expected to materially change as a result of the spinoff. In light of the foregoing, at a meeting held on November 16-18, 2010, the Board Members, including a majority of the Independent Board Members, approved the Sub-Advisory Agreements on behalf of the Funds. Given that the Restructuring was not expected to reduce the level or nature of services provided and the advisory fees paid by the Funds were the same, the factors considered and determinations made at the May Meeting in approving the Advisory Agreements were equally applicable to the approval of the Sub-Advisory Agreements. For a discussion of these considerations, please see the shareholder report of the Funds that was first issued after the May Meeting for the period including May 2010.

Reinvest Automatically,
Easily and Conveniently

Nuveen makes reinvesting easy. A phone call is all it takes to set up your reinvestment account.

Nuveen Closed-End Funds Automatic Reinvestment Plan

Your Nuveen Closed-End Fund allows you to conveniently reinvest distributions in additional Fund shares.

By choosing to reinvest, you'll be able to invest money regularly and automatically, and watch your investment grow through the power of compounding. Just like distributions in cash, there may be times when income or capital gains taxes may be payable on distributions that are reinvested.

It is important to note that an automatic reinvestment plan does not ensure a profit, nor does it protect you against loss in a declining market.

Easy and convenient

To make recordkeeping easy and convenient, each month you'll receive a statement showing your total distributions, the date of investment, the shares acquired and the price per share, and the total number of shares you own.

How shares are purchased

The shares you acquire by reinvesting will either be purchased on the open market or newly issued by the Fund. If the shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at the greater of the net asset value or 95% of the then-current market price. If the shares are trading at less than net asset value, shares for your account will be purchased on the open market. If the Plan Agent begins purchasing Fund shares on the open market while shares are trading below net asset value, but the Fund's shares subsequently trade at or above their net asset value before the Plan Agent is able to complete its purchases, the Plan Agent may cease open-market purchases and may invest the uninvested portion of the distribution in newly-issued Fund shares at a price equal to the greater of the shares' net asset value or 95% of the shares' market value on the last business day immediately prior to the purchase date. Distributions received to purchase shares in the open market will normally be invested shortly after the distribution payment date. No interest will be paid on distributions awaiting reinvestment. Because the market price of the shares may increase before purchases are completed, the average purchase price per share may

Nuveen Investments 69

Reinvest Automatically

Easily and Conveniently (continued)

exceed the market price at the time of valuation, resulting in the acquisition of fewer shares than if the distribution had been paid in shares issued by the Fund. A pro rata portion of any applicable brokerage commissions on open market purchases will be paid by Plan participants. These commissions usually will be lower than those charged on individual transactions.

Flexible

You may change your distribution option or withdraw from the Plan at any time, should your needs or situation change.

You can reinvest whether your shares are registered in your name, or in the name of a brokerage firm, bank, or other nominee. Ask your investment advisor if his or her firm will participate on your behalf. Participants whose shares are registered in the name of one firm may not be able to transfer the shares to another firm and continue to participate in the Plan.

The Fund reserves the right to amend or terminate the Plan at any time. Although the Fund reserves the right to amend the Plan to include a service charge payable by the participants, there is no direct service charge to participants in the Plan at this time.

Call today to start reinvesting distributions

For more information on the Nuveen Automatic Reinvestment Plan or to enroll in or withdraw from the Plan, speak with your financial advisor or call us at (800) 257-8787.

Glossary of Terms

Used in this Report

- **Auction Rate Bond:** An auction rate bond is a security whose interest payments are adjusted periodically through an auction process, which process typically also serves as a means for buying and selling the bond. Auctions that fail to attract enough buyers for all the shares offered for sale are deemed to have “failed,” with current holders receiving a formula-based interest rate until the next scheduled auction.
- **Average Annual Total Return:** This is a commonly used method to express an investment’s performance over a particular, usually multi-year time period. It expresses the return that would have been necessary each year to equal the investment’s actual cumulative performance (including change in NAV or market price and reinvested dividends and capital gains distributions, if any) over the time period being considered.
- **Average Effective Maturity:** The market-value-weighted average of the effective maturity dates of the individual securities including cash. In the case of a bond that has been advance-refunded to a call date, the effective maturity is the date on which the bond is scheduled to be redeemed using the proceeds of an escrow account. In most other cases the effective maturity is the stated maturity date of the security.
- **Duration:** A measure of the price sensitivity of a fixed income security or portfolio to changes in interest rates. Duration is stated in years. For example, if a bond has a duration of four years, the price of the bond is expected to change by approximately 4% for every one percentage point change in interest rates. The shorter the duration, the less price variability expected in the security’s price due to changes in interest rates.
- **Effective Leverage:** Effective leverage is a Fund’s effective economic leverage, and includes both structural leverage and the leverage effects of certain derivative investments in the Fund’s portfolio. Currently, the leverage effects of Tender Option Bond (TOB) inverse floater holdings are included in effective leverage values, in addition to any structural leverage.

Glossary of Terms
Used in this Report (continued)

- **Inverse Floaters:** Inverse floating rate securities, also known as inverse floaters, are created by depositing a municipal bond, typically with a fixed interest rate, into a special purpose trust created by a broker-dealer. This trust, in turn, (a) issues floating rate certificates typically paying short-term tax-exempt interest rates to third parties in amounts equal to some fraction of the deposited bond's par amount or market value, and (b) issues an inverse floating rate certificate (sometimes referred to as an "inverse floater") to an investor (such as a Fund) interested in gaining investment exposure to a long-term municipal bond. The income received by the holder of the inverse floater varies inversely with the short-term rate paid to the floating rate certificates' holders, and in most circumstances the holder of the inverse floater bears substantially all of the underlying bond's downside investment risk. The holder of the inverse floater typically also benefits disproportionately from any potential appreciation of the underlying bond's value. Hence, an inverse floater essentially represents an investment in the underlying bond on a leveraged basis.
- **Market Yield (also known as Dividend Yield or Current Yield):** An investment's current annualized dividend divided by its current market price.
- **Net Asset Value (NAV):** A Fund's NAV is calculated by subtracting the liabilities of the Fund from its total assets and then dividing the remainder by the number of shares outstanding. Fund NAVs are calculated at the end of each business day.
- **Pre-Refunding:** Pre-Refunding, also known as advanced refundings or refinancings, is a procedure used by state and local governments to refinance municipal bonds to lower interest expenses. The issuer sells new bonds with a lower yield and uses the proceeds to buy U.S. Treasury securities, the interest from which is used to make payments on the higher-yielding bonds. Because of this collateral, pre-refunding generally raises a bond's credit rating and thus its value.
- **Taxable-Equivalent Yield:** The yield necessary from a fully taxable investment to equal, on an after-tax basis, the yield of a municipal bond investment.
- **Zero Coupon Bond:** A zero coupon bond does not pay a regular interest coupon to its holders during the life of the bond. Tax-exempt income to the holder of the bond comes from accretion of the difference between the original purchase price of the bond at issuance and the par value of the bond at maturity and is effectively paid at maturity. The market prices of zero coupon bonds generally are more volatile than the market prices of bonds that pay interest periodically.

Other Useful Information

Quarterly Portfolio of Investments and Proxy Voting Information

You may obtain (i) each Fund's quarterly portfolio of investments, (ii) information regarding how the Funds voted proxies relating to portfolio securities held during the most recent twelve-month period ended June 30, and (iii) a description of the policies and procedures that the Funds used to determine how to vote proxies relating to portfolio securities without charge, upon request, by calling Nuveen Investments toll-free at (800) 257-8787 or on Nuveen's website at www.nuveen.com.

You may also obtain this and other Fund information directly from the Securities and Exchange Commission (SEC). The SEC may charge a copying fee for this information. Visit the SEC on-line at <http://www.sec.gov> or in person at the SEC's Public Reference Room in Washington, D.C. Call the SEC at (202) 942-8090 for room hours and operation. You may also request Fund information by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC's Public References Section at 100 F Street NE, Washington, D.C. 20549.

CEO Certification Disclosure

Each Fund's Chief Executive Officer (CEO) has submitted to the New York Stock Exchange (NYSE) the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Company Manual.

Each Fund has filed with the SEC the certification of its Chief Executive Officer and Chief Financial Officer required by Section 302 of the Sarbanes-Oxley Act.

Common Share Information

Each Fund intends to repurchase shares of its own common stock in the future at such times and in such amounts as is deemed advisable. During the period covered by this report, the Funds repurchased shares of their common stock as shown in the accompanying table.

Fund	Common Shares Repurchased
NUV	—
NUW	—
NMI	—
NEV	—

Any future repurchases will be reported to shareholders in the next annual or semi-annual report.

ITEM 2. CODE OF ETHICS.

Not applicable to this filing.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable to this filing.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable to this filing.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable to this filing.

ITEM 6. SCHEDULE OF INVESTMENTS.

(a) See Portfolio of Investments in Item 1.

(b) Not applicable.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable to this filing.

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS.

Not applicable.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's Board of Directors or Trustees implemented after the registrant last provided disclosure in response to this Item.

ITEM 11. CONTROLS AND PROCEDURES.

(a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and

Edgar Filing: NUVEEN MUNICIPAL VALUE FUND INC - Form N-CSRS

Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")(17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

File the exhibits listed below as part of this Form.

- (a)(1) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable to this filing.
- (a)(2) A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the 1940 Act (17 CFR 270.30a-2(a)) in the exact form set forth below: See Ex-99.CERT attached hereto.
- (a)(3) Any written solicitation to purchase securities under Rule 23c-1 under the 1940 Act (17 CFR 270.23c-1) sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons: Not applicable.
- (b) If the report is filed under Section 13(a) or 15(d) of the Exchange Act, provide the certifications required by Rule 30a-2(b) under the 1940 Act (17 CFR 270.30a-2(b)); Rule 13a-14(b) or Rule 15d-14(b) under the Exchange Act (17 CFR 240.13a-14(b) or 240.15d-14(b)), and Section 1350 of Chapter 63 of Title 18 of the United States Code (18 U.S.C. 1350) as an exhibit. A certification furnished pursuant to this paragraph will not be deemed "filed" for purposes of Section 18 of the Exchange Act (15 U.S.C. 78r), or otherwise subject to the liability of that section. Such certification will not be deemed to be incorporated by reference into any filing under the Securities Act of 1933 or the Exchange Act, except to the extent that the registrant specifically incorporates it by reference: See Ex-99.906 CERT attached hereto.
