RISK FACTORS

AN INVESTMENT IN OUR SECURITIES INVOLVES A HIGH DEGREE OF RISK. YOU SHOULD CONSIDER THE FOLLOWING FACTORS CAREFULLY BEFORE DECIDING TO PURCHASE OUR SECURITIES. ADDITIONAL RISKS NOT PRESENTLY KNOWN TO US OR THAT WE CURRENTLY DEEM IMMATERIAL MAY ALSO IMPAIR OUR BUSINESS OPERATIONS.

USA DEPENDS ON ITS KEY PERSONNEL.

USA is dependent upon the continued contributions of its senior corporate management, particularly Mr. Diller, the chairman and chief executive officer of USA, and certain key employees for its future success. Mr. Diller does not have an employment agreement with USA, although he has been granted options to purchase a substantial number of shares of USA common stock.

If Mr. Diller no longer serves in his positions at USA, USA's business, as well as the market price of USA common stock, could be substantially adversely affected. USA cannot assure you that it will be able to retain the services of Mr. Diller or any other members of its senior management or key employees.

USA IS CONTROLLED BY MR. DILLER AND IN HIS ABSENCE WILL BE CONTROLLED BY LIBERTY MEDIA CORPORATION.

Subject to the terms of an amended and restated stockholders agreement, dated as of December 16, 2001, among Universal Studios, Inc. ("Universal"), Liberty Media Corporation ("Liberty"), Mr. Diller and Vivendi Universal, S.A. ("Vivendi"), Mr. Diller effectively controls the outcome of all matters submitted to a vote or for the consent of USA's stockholders (other than with respect to the election by the holders of USA common stock of 25% of the members of USA's board of directors (rounded up to the nearest whole number) and matters as to which a separate class vote of the holders of USA common stock or USA preferred stock is required under Delaware law).

In addition, under an amended and restated governance agreement, dated as of December 16, 2001, among USA, Vivendi, Universal, Liberty and Mr. Diller, each of Mr. Diller and Liberty generally has the right to consent to limited matters in the event that USA's ratio of total debt to EBITDA, as defined in the governance agreement, equals or exceeds 4:1 over a continuous 12-month period. USA cannot assure you that Mr. Diller and Liberty will consent to any such matter at a time when USA is highly leveraged, in which case USA would not be able to engage in such transaction or take such actions.

Upon Mr. Diller's permanent departure from USA, Liberty generally would be able to control USA through its ownership of shares of USA Class B common stock.

4

USA'S SUCCESS DEPENDS ON MAINTAINING THE INTEGRITY OF ITS SYSTEMS AND INFRASTRUCTURE.

A fundamental requirement for online commerce and communications is the secure transmission of confidential information, such as credit card numbers or other personal information, over public networks. USA's current security measures may not be adequate and, if any compromise of USA's security were to

Edgar Filing: USA INTERACTIVE - Form S-3

occur, it could have a detrimental effect on USA's reputation and adversely affect its ability to attract customers. As USA's operations continue to grow in both size and scope, USA will need to improve and upgrade its systems and infrastructure. This may require USA to commit substantial financial, operational and technical resources before the volume of business increases, with no assurance that the volume of business will increase.

USA relies on its own affiliates' and third-party computer systems and service providers to facilitate and process a portion of its transactions. Any interruptions, outages or delays in these services, or a deterioration in their performance, could impair USA's ability to process transactions for its customers and the quality of service USA can offer to them. It is unlikely that USA could make up for the level of orders lost in these circumstances by increased phone orders.

SYSTEM INTERRUPTION AND THE LACK OF INTEGRATION AND REDUNDANCY IN OUR INFORMATION SYSTEMS MAY AFFECT OUR BUSINESS.

USA's subsidiaries rely on computer and other systems in order to provide their services to customers. At times, USA subsidiaries may experience occasional system interruptions that make some or all systems unavailable or prevent the subsidiaries from efficiently fulfilling orders or providing services to third parties. To prevent system interruptions, USA and its subsidiaries continually add additional software and hardware and upgrade systems and network infrastructure to accommodate both increased traffic on websites and increased sales volume. Computer and communications systems of USA and its subsidiaries could be damaged or interrupted by fire, flood, power loss, telecommunications failure, break-ins, earthquakes, acts of war or terrorism, acts of God, computer viruses, physical or electronic break-ins and similar events or disruptions. Any of these events could cause system interruption, delays and loss of critical data, and could prevent USA subsidiaries from providing services to third parties. While USA and its subsidiaries do have backup systems for certain aspects of operations, the systems are not fully redundant and disaster recovery planning may not be sufficient for all eventualities. In addition, USA and its subsidiaries may have inadequate insurance coverage or insurance limits to compensate for losses from a major interruption. If any of this were to occur, it could damage the reputation of USA and its subsidiaries and be expensive to remedy.

DECLINES OR DISRUPTIONS IN THE INDUSTRIES IN WHICH USA OPERATES, SUCH AS THOSE CAUSED BY TERRORISM, WAR OR GENERAL ECONOMIC DOWNTURNS, COULD HARM USA'S BUSINESSES. IN ADDITION, A NEGATIVE FINANCIAL PERFORMANCE OF COMPANIES IN WHICH USA IS THE MAJORITY STOCKHOLDER CAN HAVE A NEGATIVE AFFECT ON USA'S STOCK PRICE.

USA's businesses in general are sensitive to trends or events that are outside of USA's control. For example, adverse trends or events, such as general economic downturns, decreases in consumer spending, work stoppages and political instability, may reduce the popularity and frequency of the events to which USA sells tickets, reduce travel and may affect call center and other operations in areas where these trends or events occur. The occurrence of any of these adverse trends or events could significantly impact USA's businesses, results of operations or financial condition. In addition, USA's stock price may be adversely affected by negative reports of the results of operations or declines in the stock price of companies in which USA is a major stockholder, regardless of the affect these negative reports or stock price declines may have on our business, financial condition, results of operations or cash flow.

Travel is highly sensitive to traveler safety concerns, and thus declines after acts of terrorism impact the perceived safety of travelers, could significantly impact USA's businesses, results of operations or financial condition. In the aftermath of the terrorist attacks of September 11, 2001, for example, the travel industry experienced a protracted decrease in demand for air

Edgar Filing: USA INTERACTIVE - Form S-3

travel due to fears regarding additional acts of terrorism and increased costs and reduced operations by airlines due, in part, to new security directives adopted by the Federal Aviation Administration. USA cannot predict the future scope and effects of these changes, which could significantly impact USA's long-term results of operations or financial condition.

5

USA MAY EXPERIENCE OPERATIONAL AND FINANCIAL RISKS IN CONNECTION WITH ITS ACQUISITIONS. IN ADDITION, SOME OF THE BUSINESSES USA ACQUIRES MAY INCUR SIGNIFICANT LOSSES FROM OPERATIONS OR EXPERIENCE IMPAIRMENT OF CARRYING VALUE.

USA's future growth may be a function, in part, of acquisitions. To the extent that USA grows through acquisitions, it will face the operational and financial risks commonly encountered with that type of a strategy. USA would also face operational risks, such as failing to assimilate the operations and personnel of the acquired businesses, disrupting its ongoing business, dissipating its limited management resources and impairing its relationships with employees and customers of acquired businesses as a result of changes in ownership and management. Some of USA's acquisitions may not be successful and their performances may result in the impairment of their carrying value.

CHANGING LAWS AND REGULATIONS, AND LEGAL UNCERTAINTIES, REGARDING THE INTERNET MAY IMPAIR USA'S GROWTH AND HARM ITS BUSINESSES.

A number of proposed laws and regulations regarding the Internet, including with respect to consumer privacy, have been proposed or considered that could impact USA's businesses. USA cannot predict whether any of these types of laws or regulations will be enacted or amended and what effect, if any, such laws or regulations would have on its businesses, financial condition or results of operations. In addition, the application of various sales, use and other tax provisions under state and local law to USA's historical and new products and services sold via the Internet, television and telephone is subject to interpretation by the applicable taxing authorities. USA believes it is compliant with these tax provisions, but there can be no assurances that taxing authorities will not take a contrary position or that such positions will not have a material adverse effect on USA's businesses, financial condition and results of operations.

USE OF PROCEEDS

To the extent that Options are exercised for cash, we will receive the cash exercise price of the Options upon exercise thereof (as such exercise price may be adjusted under the anti-dilution provisions of the Agreement). As of the date of this prospectus, the cash exercise price of the Options per share of USA common stock is \$22.59 per share. Any such proceeds received will be used for general corporate purposes. USA will not receive any proceeds from the sale of the shares of USA common stock issued in respect of the Options.

PLAN OF DISTRIBUTION

GENERAL

This prospectus relates to the issuance by us of up to 4,400,000 shares of USA common stock upon the exercise of the Options. The Options were granted under the Agreement and USA's 1999 Stock Option Plan (the "Plan"), and are subject to the terms and conditions of the Agreement and the Plan. As of the date hereof, Options to purchase 3,300,000 shares of USA common stock were exercisable, and Options to purchase an additional 1,100,000 shares of USA common stock will become exercisable on February 18, 2004. The Options expire on February 18, 2010. This prospectus also relates to an indeterminable number of additional shares that may become issuable pursuant to the anti-dilution

Edgar Filing: USA INTERACTIVE - Form S-3

provisions of the Agreement.

Pursuant to the Agreement, the current exercise price of the Options is \$22.59 per share of USA common stock, which was the fair market value of the USA common stock underlying the options on the date of grant (taking into account the two-for-one USA common stock split announced on February 25, 2000). Subject to applicable law (including applicable federal and state securities laws), the Options are freely transferable by the holders of the Options by means of a written notice to USA identifying the transferee of such Option, or by will or the laws of descent and distribution or pursuant to a qualified domestic relations order.

The Options were granted to Dr. Kofler on February 18, 2000 in consideration of his entering into an employment arrangement with a German affiliate of HSN. In July of 2000 (I.E., subsequent to the granting of the Options), Dr. Kofler was elected to the board of directors of USA, from which he resigned in February of 2002. As of the date of this prospectus, however, Dr. Kofler is neither an officer nor employee of any USA affiliate. Dr. Kofler has a current economic interest of 1.23% in the Italian home shopping business in which USA is a passive minority partner and an expectation of an effective 3% interest in USA-controlled Euvia.

6

During 2001, Dr. Kofler transferred Options to purchase an aggregate of 1,200,000 shares of USA common stock, of which Options to acquire 300,000 shares of USA common stock vested and became exercisable on each of February 18, 2001, February 18, 2002 and February 18, 2003 and Options to acquire 300,000 shares of USA common stock will vest and become exercisable on February 18, 2004. As of the date of this prospectus, Dr. Kofler held Options to acquire 3,200,000 shares of USA common stock and Dr. Bernard Heiss held Options to acquire 1,200,000 shares of USA common stock.

This prospectus covers the offer and sale by us of USA common stock upon exercise of the Options. We have filed with the Commission a registration statement, of which this prospectus forms a part, with respect to the issuance of USA common stock upon exercise of the Options from time to time under Rule 415 under the Securities Act.

PROCEEDS, COMMISSIONS AND EXPENSES

The aggregate proceeds to USA from the issuance of the USA common stock offered under this prospectus will be the cash exercise price of the Options relating to such shares of USA common stock.

USA will pay any printing costs, SEC filing fees and other fees, disbursements and out-of-pocket expenses and costs incurred by us in connection with the preparation of the registration statement of which this prospectus is a part and in complying with all applicable securities and blue sky laws. Each holder of any Options will pay for any fees and expenses incurred by such holder in connection with the exercise of any Options, and any taxes required to be withheld by USA upon the exercise of such Option.

NASDAQ LISTING STATUS

USA common stock is currently listed on the Nasdaq National Market under the symbol "USAI."

DESCRIPTION OF USA COMMON STOCK

Set forth below is a description of USA's common stock. The following

Edgar Filing: USA INTERACTIVE - Form S-3

statements are brief summaries of, and are subject to the provisions of, USA's certificate of incorporation and by-laws, the USA preferred stock certificate of designations, the USA warrant agreements and the relevant provisions of the Delaware General Corporation Law, or the DGCL.

As of the date of this information statement/prospectus, the authorized capital stock of USA consists of 1,600,000,000 shares of USA common stock, par value \$.01 per share, 400,000,000 shares of USA Class B common stock, par value \$.01 per share, and 100,000,000 shares of preferred stock, par value \$.01 per share, of which 13,125,000 shares have been designated Series A Cumulative Convertible Redeemable Preferred Stock. As of May 1, 2003, there were 451,086,491 shares of USA common stock outstanding and 64,629,996 shares of USA Class B common stock outstanding.

With respect to matters that may be submitted to a vote or for the consent of USA stockholders, including the election of directors, each holder of USA Class B common stock is entitled to ten votes for each share of USA Class B common stock held and will vote together with the holders of USA common stock and USA preferred stock as a single class, except as otherwise required by the DGCL. Each holder of USA preferred stock is entitled to two votes for each share of USA preferred stock held and each holder of USA common stock is entitled to one vote for each share of USA common stock held. Notwithstanding the foregoing, the holders of USA common stock, acting as a single class, are entitled to elect 25% of the total number of directors on the USA board of directors, and, in the event that 25% of the total number of directors results in a fraction of a director, then the holders of USA common stock, acting as a single class, are entitled to elect the next higher whole number of directors on the USA board of directors.

Shares of USA Class B common stock are convertible into shares of USA common stock at the option of the holder thereof at any time on a share-for-share basis. Such conversion ratio will in all events be equitably preserved in the event of any recapitalization of USA by means of a stock dividend on, or a stock split or combination of, outstanding USA common stock or USA Class B common stock, or in the event of any merger, consolidation or other reorganization of USA with another corporation. Upon the conversion of USA Class B common stock into shares of USA common stock, those shares of USA Class B common stock will be retired and will not be subject to reissue. Shares of USA common stock are not convertible into shares of USA Class B common stock.

7

In all other respects, the USA common stock and the USA Class B common stock are identical. The holders of USA common stock and the holders of USA Class B common stock are entitled to receive, share-for-share, such dividends as may be declared by the USA board of directors out of funds legally available therefor. In the event of a liquidation, dissolution, distribution of assets or winding-up of USA, the holders of USA common stock and the holders of USA Class B common stock are entitled to share ratably in all the assets of USA available for distribution to its stockholders, after the rights of the holders of the USA preferred stock, if any, have been satisfied.

In connection with the VUE transaction, USA, Vivendi, Universal, Liberty and Barry Diller entered into an amended and restated governance agreement, which, among other things, retained Liberty's preemptive right to maintain its percentage equity ownership in USA. This preemptive right generally provides that following issuances of USA common shares exceeding 1% of the total outstanding USA common shares, Liberty may elect to purchase a number of USA common shares so that its percentage equity interest in USA after such issuances will be the same as before such issuances. In connection with the merger,

Edgar Filing: USA INTERACTIVE - Form S-3

Liberty has the right to maintain its percentage equity interest in USA following the merger.

The USA certificate of incorporation provides that there can be no stock dividends or stock splits or combinations of stock declared or made on USA common stock or USA Class B common stock unless the shares of USA common stock and USA Class B common stock then outstanding are treated equally and identically.

The shares of USA common stock to be issued upon the exercise of any Options will be validly issued, fully paid and non-assessable.

USA DIVIDEND POLICY

USA has paid no cash dividends on its common stock to date and does not anticipate paying cash dividends on its common stock in the immediate future.

ANTI-TAKEOVER PROVISIONS IN USA'S BYLAWS

USA's bylaws contain provisions that could delay or make more difficult the acquisition of USA by means of a hostile tender offer, open market purchases, a proxy contest or otherwise. We also refer you to "Risk Factors" for information on other factors which could impact a change of control. In addition, USA's bylaws provide that, subject to the rights of holders of preferred stock, only USA's chairman of the board of directors or a majority of USA's board of directors may call a special meeting of stockholders.

EFFECT OF DELAWARE ANTI-TAKEOVER STATUTE

USA is subject to Section 203 of the DGCL, which regulates corporate acquisitions. Section 203 generally prevents corporations from engaging in a business combination with any interested stockholder for three years following the date that the stockholder became an interested stockholder, unless that business combination has been approved in one of a number of specific ways. For purposes of Section 203, a "business combination" includes, among other things, a merger or consolidation involving USA and the interested stockholder and a sale of more than 10% of its assets. In general, the anti-takeover law defines an "interested stockholder" as any entity or person beneficially owning 15% or more of a company's outstanding voting stock and any entity or person affiliated with or controlling or controlled by that entity or person. A Delaware corporation may "opt out" of Section 203 with an express provision in its original certificate of incorporation or an express provision in its certificate of incorporation or bylaws resulting from amendments approved by holders of at least a majority of a corporation's outstanding voting shares. USA has not "opted out" of the provisions of Section 203.

ACTION BY WRITTEN CONSENT

Under the DGCL, unless a company's certificate of incorporation expressly prohibits action by the written consent of stockholders, any action required or permitted to be taken by its stockholders at a duly called annual or special meeting may be taken by a consent in writing executed by stockholders possessing the requisite votes for the action to be taken. USA's certificate of incorporation does not expressly prohibit action by the written consent of stockholders. As a result, Mr. Diller, who as of the date of this information statement/prospectus controlled (through companies owned by Liberty and Mr. Diller, his own holdings and pursuant to the Stockholders Agreement) a majority of the outstanding total voting power of USA, will be able to take any action to be taken by stockholders (other than with respect to the election by the holders of shares of USA common stock of 25% of the members of USA's board of directors and certain matters as to which a separate class vote of the holders of shares of USA

common stock, USA Class B common stock or USA preferred stock is required) without the necessity of holding a stockholders meeting.

TRANSFER AGENT

The transfer agent for the shares of USA common stock is The Bank of New York.

CERTAIN MATERIAL UNITED STATES
FEDERAL TAX CONSEQUENCES

The following is a general discussion of certain material United States federal income and estate tax consequences of the ownership and disposition of USA common stock. This discussion is based on current law, which is subject to change, possibly with retroactive effect, or different interpretations. This discussion is limited to holders who hold USA common stock as capital assets. Moreover, this discussion is for general information only and does not address all the tax consequences that may be relevant in light of your particular circumstances, nor does it discuss special tax provisions which may apply if you have relinquished United States citizenship or residence.

EACH PROSPECTIVE PURCHASER IS ADVISED TO CONSULT A TAX ADVISOR WITH RESPECT TO CURRENT AND POSSIBLE FUTURE TAX CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF OUR COMMON STOCK, AS WELL AS ANY TAX CONSEQUENCES THAT MAY ARISE UNDER STATE, LOCAL, FOREIGN OR OTHER TAX LAWS.

As used herein, a "United States person" is

- o an individual who is a citizen or resident of the United States;
- o a corporation created or organized in the United States or under the laws of the United States or of any state;
- o an estate the income of which is includible in gross income for United States federal income taxation regardless of its source;
- o a trust if a court in the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust; or
- o any person otherwise subject to United States federal income tax on a net income basis in respect of its worldwide taxable income.

A "U.S. Holder" is a beneficial owner of USA common stock who is a United States person. A "Non-U.S. Holder" is a beneficial owner that is not a U.S. Holder. If a partnership (including for this purpose any entity treated as a partnership for United States federal tax purposes) is a beneficial owner of USA common stock, the treatment of a partner in the partnership will generally depend upon the status of the partner and upon the activities of the partnership. The partnership and partners in such partnership should consult their tax advisors about the United States federal income tax consequences of owning and disposing of USA common stock.

TAXATION OF U.S. HOLDERS

This section describes the tax consequences to a U.S. Holder. If you are not a U.S. Holder, this section does not apply to you.

Edgar Filing: USA INTERACTIVE - Form S-3

DISTRIBUTIONS. The amount of any distribution we make in respect of our common stock will be equal to the amount of cash and the fair market value, on the date of distribution, of any property distributed. In general, distributions on USA common stock will constitute dividend income, taxable at ordinary income rates, to the extent of our current or accumulated earnings and profits. Any excess will be treated as non-taxable return of capital to the extent of the holder's basis in the common stock, and thereafter as capital gain.

SALES OR EXCHANGES. On the sale, exchange or other disposition of shares of USA common stock (other than a redemption of the common stock, discussed below), holders will generally recognize capital gain or loss equal to the difference between the amount of cash and the fair market value of any property received upon the sale, exchange or other disposition and the adjusted tax basis in the stock sold, exchanged or disposed of. This gain or loss will be

9

long-term capital gain or loss if at the time of the sale, exchange or disposition the holder has held the stock sold, exchanged or disposed of for more than one year. The deductibility of capital losses is subject to limitations.

DIVIDENDS TO CORPORATE SHAREHOLDERS. In general, a distribution on the USA common stock that is taxable as a dividend and that is made to a corporate shareholder will qualify for the 70% corporate dividends-received deduction under the Internal Revenue Code. However, a dividend that arises upon a redemption of common stock will generally constitute an "extraordinary dividend" under Section 1059 of the Internal Revenue Code. In addition, actual or constructive dividends on common stock that are declared, announced or agreed to within two years of the holder's acquisition of the stock may also constitute "extraordinary dividends." If the extraordinary dividend rules apply, the corporate shareholder may lose some or all of the benefits of the dividends-received deduction. Furthermore, there are many exceptions and restrictions relating to the availability of the dividends-received deduction. Consequently, corporate shareholders should consult their own tax advisors regarding the extent, if any, that the dividends-received deduction is available to them and the extent to which the extraordinary dividend rules may apply.

REDEMPTION OF USA COMMON STOCK. A redemption of USA common stock generally would be a taxable event and would be treated as if the holder sold the common stock if the redemption:

- o results in a "complete termination" of the holder's interest in USA stock;
- o is "substantially disproportionate" (i.e., after the redemption, the percentage of all our outstanding voting stock that is owned by the holder is less than 80% of the percentage of all our outstanding voting stock (and the percentage of all our outstanding common stock that is owned by the holder is less than 80% of the percentage of all our outstanding common stock) that was owned by the holder immediately before the redemption); or
- o is "not essentially equivalent to a dividend" (i.e., the redemption must meaningfully reduce the holder's proportionate interest in USA based on the holder's particular circumstance; the Internal Revenue Service or the IRS has indicated that this test is satisfied by even a small reduction in the percentage interest of a shareholder whose relative stock interest in a publicly held corporation is minimal and who exercises no control over corporate affairs).

In determining whether any of these tests has been met, holders must take

Edgar Filing: USA INTERACTIVE - Form S-3

into account the shares of stock actually owned and the shares of stock constructively owned by reason of certain constructive ownership rules set forth in Section 318 of the Internal Revenue Code.

If stock is redeemed in a redemption that meets one of the tests described above, the holder generally would recognize taxable gain or loss equal to the difference between the amount of cash and the fair market value of property received and the holder's tax basis in the stock redeemed. This gain or loss would be long-term capital gain or capital loss if the stock were held for more than one year.

If a redemption does not meet any of the tests described above, the entire amount of the cash and the fair market value of property received generally would be taxed as a dividend as explained above under "Distributions." If a redemption is treated as a distribution that is taxable as a dividend, the holder's basis in the redeemed stock would generally be transferred to the holder's remaining shares of USA stock, if any.

INFORMATION REPORTING AND BACKUP WITHHOLDING. Information reporting will generally apply to dividends received on USA common stock and to the proceeds received on the sale or disposition of such stock by a U.S. Holder who is not an exempt recipient. Generally, individuals are not exempt recipients, whereas corporations are exempt recipients. Backup withholding will apply only if the U.S. Holder is not an exempt recipient and:

- o fails to furnish its Taxpayer Identification Number or the TIN which, in the case of an individual, is his or her Social Security Number;
- o furnishes an incorrect TIN;
- o in the case of dividends, is notified by the IRS that it has failed to properly report payments of interest or dividends; or
- o fails to certify, under penalty of perjury, that it has furnished a correct TIN, has not been notified by the IRS that it is subject to backup withholding (or has since been notified by the IRS that it is no longer subject to backup withholding) and is a U.S. person (including a U.S. resident alien).

10

U.S. Holders should consult their tax advisors regarding their qualification for exemption from backup withholding and the procedure for demonstrating such an exemption if applicable.

The amount of any backup withholding from a payment to a U.S. Holder is not an additional tax and is allowable as a credit against the U.S. Holder's United States federal income tax liability, if any, or may be claimed as a refund, provided that the required information is furnished to the IRS.

TAXATION OF NON-U.S. HOLDERS

This section describes the tax consequences to a Non-U.S. Holder. If you are a U.S. Holder, see the above discussion under "--Taxation of U.S. Holders."

DIVIDENDS. If dividends are paid, Non-U.S. Holders will be subject to withholding of United States federal income tax at a 30% rate or a lower rate as may be specified by an applicable income tax treaty. To claim the benefit of a lower rate under an income tax treaty, Non-U.S. Holders must properly file with the payor an IRS Form W-8BEN, or successor form, claiming an exemption from or reduction in withholding under the applicable tax treaty. In addition, where dividends are paid or deemed paid to a Non-U.S. Holder that is a partnership or

Edgar Filing: USA INTERACTIVE - Form S-3

other pass through entity, persons holding an interest in the entity may need to provide certification claiming an exemption from or reduction in withholding under the applicable treaty.

If actual or deemed dividends are considered effectively connected with the conduct of a trade or business within the United States and, where a tax treaty applies, are attributable to a United States permanent establishment, those dividends will not be subject to withholding tax, but instead will be subject to United States federal income tax on a net basis at applicable graduated individual or corporate rates, provided an IRS Form W-8ECI, or successor form, is filed with the payor. In the case of a foreign corporation, any effectively connected dividends may, under certain circumstances, be subject to an additional "branch profits tax" at a rate of 30% or a lower rate as may be specified by an applicable income tax treaty.

Non-U.S. Holders must comply with the certification procedures described above, or, in the case of payments made outside the United States with respect to an offshore account, certain documentary evidence procedures, directly or under certain circumstances through an intermediary, to obtain the benefits of a reduced rate under an income tax treaty with respect to dividends paid or deemed paid with respect to USA common stock. In addition, if a Non-U.S. Holder is required to provide an IRS Form W-8ECI or successor form, as discussed above, the Non-U.S. Holder must also provide its tax identification number.

Non-U.S. Holders that are eligible for a reduced rate of United States withholding tax pursuant to an income tax treaty may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the IRS.

GAIN ON DISPOSITION OF USA COMMON STOCK. Non-U.S. Holders generally will not be subject to United States federal income tax on any gain realized on the sale or other disposition of USA common stock unless:

- o the gain is considered effectively connected with the conduct of a trade or business within the United States and, where a tax treaty applies, is attributable to a United States permanent establishment (and, in which case, if the holder is a foreign corporation, may be subject to an additional "branch profits tax" equal to 30% or a lower rate as may be specified by an applicable income tax treaty);
- o the holder is an individual who holds the USA common stock as a capital asset and is present in the United States for 183 or more days in the taxable year of the sale or other disposition and other conditions are met; or
- o we are or have been a "United States real property holding corporation," or a USRPHC, for United States federal income tax purposes. We believe that we are not currently, and are not likely to become, a USRPHC. If we were to become a USRPHC, then gain on the sale or other disposition of USA common stock generally would not be subject to United States federal income tax provided:
- o USA common stock were "regularly traded" on an established securities market; and
- o the holder did not actually or constructively own more than 5% of the USA common stock during the shorter of the five-year period preceding the disposition or the holder's holding period.

FEDERAL ESTATE TAX. In the case of an individual, USA common stock held at the time of death will be included in the individual's gross estate for United

Edgar Filing: USA INTERACTIVE - Form S-3

States federal estate tax purposes, and may be subject to United States federal estate tax, unless an applicable estate tax treaty provides otherwise.

INFORMATION REPORTING AND BACKUP WITHHOLDING. We must report annually to the IRS and to each holder the amount of dividends paid or deemed paid and the tax withheld with respect to those dividends, regardless of whether withholding was required. Copies of the information returns reporting those dividends and withholding may also be made available to the tax authorities in the country in which a Non-U.S. Holder resides under the provisions of an applicable income tax treaty or other applicable agreements.

Backup withholding is generally imposed on certain payments to persons that fail to furnish the necessary identifying information to the payor. Generally Non-U.S. Holders will be subject to backup withholding with respect to dividends paid on USA common stock unless they certify their status as Non-U.S. Holders.

The payment of proceeds of a sale of USA common stock effected by or through a United States office of a broker will be subject to both backup withholding and information reporting unless the holder provides the payor with the holder's name and address and certifies its Non-U.S. Holder status or otherwise establishes an exemption. In general, backup withholding and information reporting will not apply to the payment of the proceeds of a sale of USA common stock by or through a foreign office of a broker. If, however, such broker is, for United States federal income tax purposes, a United States person, a controlled foreign corporation, a foreign person that derives 50% or more of its gross income for certain periods from the conduct of a trade or business in the United States, or, a foreign partnership that at any time during its tax year either is engaged in the conduct of a trade or business in the United States or has as partners one or more United States persons that, in the aggregate, hold more than 50% of the income or capital interest in the partnership, such payments will be subject to information reporting, but not backup withholding, unless such broker has documentary evidence in its records that the holder is a Non-U.S. Holder and certain other conditions are met or the holder otherwise establishes an exemption.

Any amounts withheld under the backup withholding rules generally will be allowed as a refund or a credit against the holder's United States federal income tax liability provided the required information is furnished in a timely manner to the IRS.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

The Registrant's Restated Certificate of Incorporation, as amended, limits, to the maximum extent permitted by Delaware law, the personal liability of directors for monetary damages for breach of their fiduciary duties as a director. The Registrant's Amended and Restated By-Laws provide that the directors and officers (and legal representatives of such directors and officers) will be indemnified to the fullest extent authorized by the Delaware General Corporation Law with respect to third-party actions, suits, investigations or proceedings provided that any such person has met the applicable standard of conduct set forth in the Delaware General Corporation Law described below. The Registrant's Amended and Restated By-Laws further provide that directors and officers (and legal representatives of such directors and officers) will be indemnified with respect to actions or suits initiated by such person only if such action was first approved by the board of directors. The Registrant's Amended and Restated By-Laws allow the Registrant to pay all expenses incurred by a director or officer (or legal representatives of such directors or officers) in defending any proceeding in which the scope of the indemnification provisions as such expenses are incurred in advance of its final disposition, upon an undertaking by such party to repay such expenses, if it is ultimately determined that such party was not entitled to indemnity by the Registrant. From time to time, officers and directors may be provided with indemnification agreements that are consistent with the foregoing provisions. The Registrant has policies of directors' and officers' liability insurance which insure directors and officers against the costs of defense, settlement and/or payment of judgment under certain circumstances. The Registrant believes that these agreements and arrangements are necessary to attract and retain qualified persons as directors and officers.

Section 145 of the Delaware General Corporation Law provides that a corporation may indemnify a director, officer, employee or agent who was or is a party, or is threatened to be made a party to any action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he was a director, officer, employee or agent of the corporation or was serving at the request of the corporation against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action if he acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer

or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
