2 SEMI-ANNUAL REPORT

APRIL 30, 2008

A Letter to Shareholders

Dear Shareholder

Over the past several months, financial markets have been buffeted by the housing recession, the credit market unraveling and related liquidity freeze and steadily rising commodity prices. Counterbalancing these difficulties were booming export activity, a robust non-financial corporate sector and, notably, aggressive and timely monetary and fiscal policy actions.

Amid the market tumult, the Federal Reserve Board (the Fed) intervened with a series of moves to bolster liquidity and ensure financial market stability. Since September 2007, the central bank slashed the target federal funds rate 325 basis points (3.25%), bringing the rate to 2.0% as of period-end. Of greater magnitude, however, were the Fed's other policy decisions, which included opening the discount window directly to broker dealers and investment banks and backstopping

the unprecedented rescue of Bear Stearns.

The Fed's response to the financial crisis helped to improve credit conditions and investor mood. After hitting a low point on March 17 (coinciding with the collapse of Bear Stearns), equity markets found a welcome respite in April, when the S&P 500 Index of U.S. stocks posted positive monthly performance for the first time since October 2007. International markets, which outpaced those of the U.S. for much of 2007, saw a reversal in that trend, as effects of the credit crisis and downward pressures on growth were far-reaching.

In contrast to equity markets, Treasury securities rallied (yields fell as prices correspondingly rose), as a broad flight-to-quality theme persisted. The yield on 10-year Treasury issues, which touched 5.30% in June 2007 (its highest level in five years), fell to 4.04% by year-end and to 3.77% by April 30. Treasury issues relinquished some of their gains in April, however, as investor appetite for risk returned and other high-quality fixed income sectors outperformed.

Problems within the monoline insurance industry and the failure of auctions for auction rate securities plagued the municipal bond market, driving yields higher and prices lower across the curve. However, in conjunction with the more recent shift in sentiment, the sector delivered strong performance in the final month of the reporting period.

Overall, the major benchmark indexes generated results that generally reflected heightened investor risk aversion:

Total Returns as of April 30, 2008	6-month	12-month
U.S. equities (S&P 500 Index)	9.64%	4.68%
Small cap U.S. equities (Russell 2000 Index)	12.92	10.96
International equities (MSCI Europe, Australasia, Far East Index)	9.21	1.78
Fixed income (Lehman Brothers U.S. Aggregate Index)	+ 4.08	+ 6.87
Tax-exempt fixed income (Lehman Brothers Municipal Bond Index)	+ 1.47	+ 2.79
High yield bonds (Lehman Brothers U.S. Corporate High Yield 2% Issuer Capped Index)	0.73	0.80

Fund Summary as of April 30, 2008 (Unaudited) **BlackRock MuniYield Florida Insured Fund**

Investment Objective

BlackRock MuniYield Florida Insured Fund (MFT) seeks to provide shareholders with as high a level of current income exempt from federal income taxes as is consistent with its investment policies and prudent investment management by investing primarily in a portfolio of long-term, investment grade municipal obligations the interest on which, in the opinion of bond counsel to the issuers, is exempt from federal income taxes and which enables shares of the Fund to be exempt from Florida intangible personal property taxes.

Performance

For the six months ended April 30, 2008, the Fund returned 0.79% based on market price, with dividends reinvested. The Fund's return based on net asset value (NAV) was 1.26%, with dividends reinvested. For the same period, the closed-end Lipper Florida Municipal Debt Funds category posted an average return of 1.18% on a NAV basis. Problems within the monoline insurance industry had a negative impact on the entire insured municipal market, detracting from Fund performance for the period. Exposure to uninsured hospital and single-family housing bonds also hindered results. Conversely, the Fund's overweight in pre-refunded bonds benefited performance, as the yield curve steepened and shorter-maturity issues outperformed.

income exempt from federal income tax and Michigan income taxes as is consistent with its investment policies and prudent investment management by investing primarily in a portfolio of long-term municipal obligations the interest on which, in the opinion of bond counsel to the issuers, is exempt from federal income tax and Michigan income taxes.

Performance

For the six months ended April 30, 2008, the Fund returned +2.50% based on market price, with dividends reinvested. The Fund's return based on NAV was +0.27%, with dividends reinvested. For the same period, the closed-end Lipper Michigan Municipal Debt Funds category posted an average return of 1.11% on a NAV basis. During the period, the Fund maintained an overweight position in uninsured issues, which underperformed amid continued widening in credit spreads. However, the incremental income generated by these holdings continued to enhance the Fund's above-average dividend yield, which had an overall positive impact on performance for the period.

Fund Summary as of April 30, 2008 (Unaudited) **BlackRock MuniYield New Jersey Insured Fund, Inc.**

Investment Objective

BlackRock MuniYield New Jersey Insured Fund, Inc. (MJI) seeks to provide shareholders with as high a level of current income exempt from federal income tax and New Jersey personal income taxes as is consistent with its investment policies and prudent investment management by investing primarily in a portfolio of long-term municipal obligations the interest on which, in the opinion of bond counsel to the issuers, is exempt from federal income tax and New Jersey personal income taxes.

Performance

For the six months ended April 30, 2008, the Fund returned 0.76% based on market price, with dividends reinvested. The Fund's return based on NAV was 0.61%, with dividends reinvested. For the same period, the closed-end Lipper New Jersey Municipal Debt Funds category posted an average return of 1.91% on a NAV basis. The Fund's relatively neutral duration position during a period of rising interest rates in the municipal market benefited performance versus the Lipper peer group. Additionally, the Fund's overall high credit quality profile enhanced performance, as credit spreads remained wide during the period.

6 SEMI-ANNUAL REPORT APRIL 30, 2008

Fund Summary as of April 30, 2008 (Unaudited) **BlackRock MuniYield Pennsylvania Insured Fund**

Investment Objective

BlackRock MuniYield Pennsylvania Insured Fund (MPA) seeks to provide shareholders with as high a level of current income exempt from federal and Pennsylvania income taxes as is consistent with its investment policies and prudent investment management by investing primarily in a portfolio of long-term municipal obligations the interest on which, in the opinion of bond counsel to the issuers, is exempt from federal and Pennsylvania income taxes.

Performance

For the six months ended April 30, 2008, the Fund returned +0.18% based on market price, with dividends reinvested. The Fund's return based on NAV was -2.12%, with dividends reinvested. For the same period, the closed-end Lipper Pennsylvania Municipal Debt Funds category posted an average return of -2.28% on a NAV basis. The comparative performance was hindered by the Fund's relatively longer duration, as management anticipated lower yields amid economic weakness and did not anticipate the liquidity problems caused by the subprime mortgage crisis early in 2008. In contrast, a relatively higher yield and an overweight in higher-quality issues benefited Fund performance.

SEMI-ANNUAL REPORT APRIL 30, 2008 7

The Benefits and Risks of Leveraging

BlackRock MuniYield Florida Insured Fund, BlackRock MuniYield Michigan Insured Fund, Inc., BlackRock MuniYield New Jersey Insured Fund, Inc., and BlackRock MuniYield Pennsylvania Insured Fund (each a Fund and, collectively, the Funds) utilize leverage to seek to enhance the yield and NAV of their Common Shares or Common Stock. However, these objectives cannot be achieved in all interest rate environments.

To leverage, the Funds issue Preferred Shares or Stock, which pay divi-

dends at prevailing short-term interest rates, and invest the proceeds in long-term municipal bonds. The interest earned on these investments is paid to Common Shareholders or Common Stock Shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of each Fund's Common Shares or Stock. However, in order to benefit Common Shareholders or Common Stock shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit Common Shareholders or Common Stock shareholders. **If either of these conditions change, then the risks of leveraging will begin to outweigh the benefits.**

To illustrate these concepts, assume a fund's Common Shares or Stock capitalization of \$100 million and the issuance of Preferred Shares or Stock for an additional \$50 million, creating a total value of \$150 million available for investment in long-term municipal bonds. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, the yield curve has a strongly positive slope. The fund pays dividends on the \$50 million of Preferred Shares or Stock based on the lower short-term interest rates. At the same time, the fund's total portfolio of \$150 million earns the income based on long-term interest rates.

In this case, the dividends paid to Preferred Shareholders or Preferred Stock shareholders are significantly lower than the income earned on the fund's long-term investments, and therefore the Common Shareholders or Common Stock shareholders are the beneficiaries of the incremental yield. However, **if short-term interest rates rise**, narrowing the differential between short-term and long-term interest rates, **the incremental yield pickup on the Common Shares or Stock will be reduced or eliminated completely.** At the same time, the market value of

the fund's Common Shares or Stock (that is, its price as listed on the New York Stock Exchange) may, as a result, decline. Furthermore, **if long-term interest rates rise, the Common Shares or Stock's NAV will reflect the full decline in the price of the portfolio's investments, since the value of the fund's Preferred Shares or Stock does not fluctuate.** In addition to the decline in NAV, the market value of the fund's Common Shares or Stock may also decline.

In addition, the Funds may from time to time leverage their assets through the use of tender option bond (TOB) programs. In a typical TOB program, the Fund transfers one or more municipal bonds to a TOB trust which issues short-term variable rate securities to third-party investors and a residual interest to the Fund. The cash received by the TOB trust from the issuance of the short-term securities (less transaction expenses) is paid to the Fund, which invests the cash in additional portfolio securities. The distribution rate on the short-term securities is reset periodically (typically every seven days) through a remarketing of the

short-term securities. Any income earned on the bonds in the TOB trust, net of expenses incurred by the TOB trust, that is not paid to the holders of the short-term securities is paid to the Fund. In connection with managing the Funds' assets, the Funds' investment advisor may at any time retrieve the bonds out of the TOB trust typically within seven days. **TOB investments generally will provide the Fund with economic benefits in periods of declining short-term interest rates, but expose the Fund to risks during periods of rising short-term interest rates similar to those associated with Preferred Shares or Stock issued by the Fund, as described above. Additionally, fluctuations in the market value of municipal securities deposited into the TOB trust may adversely affect the Funds' NAVs per share.** (See Note 1 of the Notes to Financial Statements for details of municipal bonds transferred to TOB trusts.)

Under the Investment Company Act of 1940, the Funds are permitted to issue Preferred Shares or Stock in an amount of up to 50% of their total managed assets at the time of issuance. Each Fund also anticipates that its total economic leverage will not exceed 50% of its total managed assets. Economic leverage includes Preferred Shares or Stock and TOBs. As of April 30, 2008, BlackRock MuniYield Florida Insured Fund, BlackRock MuniYield Michigan Insured Fund, Inc., BlackRock MuniYield New Jersey Insured Fund, Inc. and BlackRock MuniYield Pennsylvania Insured Fund, had economic leverage of 42%, 41%, 37% and 40% of managed assets, respectively.

Swap Agreements

The Funds may invest in swap agreements, which are over-the-counter contracts in which one party agrees to make periodic payments based on the change in market value of a specified bond, basket of bonds, or index in return for periodic payments based on a fixed or variable interest rate or the change in market value of a different bond, basket of bonds or index. Swap agreements may be used to obtain exposure to a

bond or market without owning or taking physical custody of securities. Swap agreements involve the risk that the party with whom each Fund has entered into a swap will default on its obligation to pay the Fund and the risk that the Fund will not be able to meet its obligation to pay the other party to the agreement.

1. Significant Accounting Policies:

BlackRock MuniYield Florida Insured Fund, BlackRock MuniYield Michigan Insured Fund, Inc., BlackRock MuniYield New Jersey Insured Fund Inc. and BlackRock MuniYield Pennsylvania Insured Fund (the Funds or individually, as the Fund) are registered under the Investment Company Act of 1940, as amended (the 1940 Act), as non-diversified, closed-end management investment companies. The Funds financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which may require the use of management accruals and estimates. Actual results may differ from these estimates. The Funds determine, and make available for publication, the net asset value of their Common Shares/Stock on a daily basis. The Fund s Common Shares/Stock are listed on the New York Stock Exchange under the symbol MFT for BlackRock MuniYield Florida Insured Fund, MIY for BlackRock MuniYield Michigan Insured Fund, Inc., MJI for BlackRock MuniYield New Jersey Insured Fund, Inc. and MPA for BlackRock MuniYield Pennsylvania Insured Fund.

The following is a summary of significant accounting policies followed by the Funds:

Valuation of Investments: Municipal investments (including commitments to purchase such investments on a when-issued basis) are valued on the basis of prices provided by dealers or pricing services selected under the supervision of each Fund's Board of Trustees or Directors (the Boards). In determining the value of a particular investment, pricing services may use certain information with respect to transactions in such investments, quotations from bond dealers, pricing matrixes, market transactions in comparable investments and various relationships between investments. Short-term securities are valued at amortized cost. Swap agreements are valued by quoted fair values received daily by the Fund's pricing service.

In the event that application of these methods of valuation results in a price for an investment which is deemed not to be representative of the market value of such investment, the investment will be valued by a method approved by the Boards as reflecting fair value (Fair Value Assets). When determining the price for Fair Value Assets, the investment advisor and/or sub-advisor seeks to determine the price that the Fund might reasonably expect to receive from the current sale of that asset in an arm's-length transaction. Fair value determinations shall be based upon all available factors that the investment advisor and/or sub-advisor deems relevant. The pricing of all Fair Value Assets is subsequently reported to the Boards or a committee thereof.

Derivative Financial Instruments: The Funds may engage in various portfolio investment strategies to increase the return of the Fund and to hedge, or protect, its exposure to interest rate movements and move-

ments in the securities markets. Losses may arise if the value of the contract decreases due to an unfavorable change in the price of the underlying security, or if the counterparty does not perform under the contract.

Forward interest rate swaps The Funds may enter into forward interest rate swaps. In a forward interest rate swap, the Fund and the counterparty agree to make periodic net payments on a specified notional contract amount, commencing on a specified future effective date, unless terminated earlier. When the agreement is closed, the Fund records a realized gain or loss in an amount equal to the value of the agreement.

Forward Commitments and When-Issued Delayed Delivery Securities:

Each Fund may purchase securities on a when-issued basis and may purchase or sell securities on a forward commitment basis. Settlement of such transactions normally occurs within a month or more after the purchase or sale commitment is made. Each Fund may purchase securities under such conditions only with the intention of actually acquiring them, but may enter into a separate agreement to sell the securities before the settlement date. Since the value of securities purchased may

fluctuate prior to settlement, the Funds may be required to pay more at settlement than the security is worth. In addition, the purchaser is not entitled to any of the interest earned prior to settlement. Upon making a commitment to purchase a security on a when-issued basis, the Fund will hold liquid assets worth at least the equivalent of the amount due.

Municipal Bonds Transferred to Tender Option Bond Trusts: The Funds leverage their assets through the use of tender option bond trusts (TOBs). A TOB is established by a third party sponsor forming a special purpose entity, into which one or more funds, or an agent on behalf of the funds, transfers municipal securities. Other funds managed by the investment advisor may also contribute municipal securities to a TOB into which the Funds have contributed securities. A TOB typically issues two classes of beneficial interests: short-term floating rate certificates, which are sold to third party investors, and residual certificates (TOB Residuals), which are generally issued to the participating funds that made the transfer or to affiliates of the Fund. The TOB Residuals held by a Fund include the right of the Fund (1) to cause the holders of a proportional share of the floating rate certificates to tender their certificates at par, and (2) to transfer, within seven days, a corresponding share of the municipal securities from the TOB to the Fund. The cash received by the TOB from the sale of the short-term floating rate certificates, less transaction expenses, is paid to the Fund, which typically invests the cash in additional municipal securities. Each Fund's transfer of the municipal securities to a TOB is accounted for as a secured borrowing, therefore the municipal securities deposited into a TOB are presented in the Fund's Schedule of Investments and the proceeds from the transaction are reported as a liability of the Fund.

30 SEMI-ANNUAL REPORT

APRIL 30, 2008

Notes to Financial Statements (continued)

Interest income from the underlying securities is recorded by the Funds on an accrual basis. Interest expense incurred on the secured borrowing and other expenses related to remarketing, administration and trustee services to a TOB are reported as expenses of the Funds. The floating rate certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the TOB for redemption at par at each reset date. Similarly, proceeds from residual certificates issued to affiliates, if any, from the transaction are included in liability for trust certificates.

As of April 30, 2008, the aggregate value of the underlying municipal securities transferred to TOBs, the related liability for trust certificates and the range of interest rates on trust certificates during the period were as follows:

Edgar Filing: BLACKROCK MUNIYIELD PENNSYLVANIA INSURED FUND - Form N-CSRS

	Underlying Municipal Securities Transferred to TOBs	Liability for Trust Certificates	Range of Interest Rates
BlackRock MuniYield Florida Insured Fund	\$25,529,964	\$12,231,263	2.61% 2.907%
Blackrock MuniYield Michigan Insured Fund, Inc	\$51,874,518	\$24,492,500	2.166% 2.842%
BlackRock MuniYield New Jersey Insured Fund, Inc	\$ 4,377,394	\$ 2,190,000	2.415%
BlackRock MuniYield Pennsylvania Insured Fund	\$23,523,450	\$11,250,000	2.835% 2.897%

Financial transactions executed through TOBs generally will underperform the market for fixed rate municipal bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Should short-term interest rates rise, the Funds' net investment in TOBs likely will adversely affect the Funds' investment income and dividends to common share/stock shareholders. Fluctuations in the market value of municipal securities deposited into the TOB may adversely affect the Funds' net asset values per share.

Segregation: In cases in which the 1940 Act and the interpretive positions of the Securities and Exchange Commission (SEC) require that each Fund segregate assets in connection with certain investments (e.g., when-issued securities or swaps), each Fund will, consistent with certain interpretive letters issued by the SEC, designate on its books and records cash or other liquid debt securities having a market value at least equal to the amount that would otherwise be required to be physically segregated.

Zero-Coupon Bonds: The Funds may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments.

Investment Transactions and Investment Income: Investment transactions

are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual method. The Funds amortize all premiums and discounts on debt securities.

Dividends and Distributions: Dividends from net investment income are declared daily and paid monthly. Distributions of capital gains are recorded on the ex-dividend dates. Dividends and distributions to holders of Preferred Stock Holders are accrued and determined as described in Note 4.

Income Taxes: It is each Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Effective April 30, 2008, the Funds implemented Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes the minimum recognition threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity, including investment companies, before being measured and recognized in the financial statements. The investment advisor has evaluated the application of FIN 48 to the Funds, and has determined that the adoption of FIN 48 does not have a material impact on the Funds financial statements. The Funds file U.S. federal and various state and local tax returns. No income tax returns are currently under examination. The statute of limitations on the Funds U.S. federal tax returns remain open for the years ended October 31, 2004 through October 31, 2006. The statutes of limitations on the Funds state and local tax returns may remain open for an additional year depending upon the jurisdiction.

Recent Accounting Pronouncements: In September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), was issued and is effective for fiscal years beginning after

Notes to Financial Statements (continued)

November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The impact on the Funds financial statement disclo-

sure, if any, is currently being assessed.

In addition, in February 2007, Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (FAS 159), was issued and is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FAS 157. FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. FAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. The impact on the Funds' financial statement disclosures, if any, is currently being assessed.

In March 2008, Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (FAS 161) was issued and is effective for fiscal years beginning after November 15, 2008. FAS 161 is intended to improve financial reporting for derivative instruments by requiring enhanced disclosure that enables investors to understand how and why an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity's results of operations and financial position. The investment advisor is currently evaluating the implications of FAS 161 and the impact on the Funds' financial statement disclosures, if any, is currently being assessed.

Deferred Compensation and BlackRock Closed-End Share Equivalent

Investment Plan: Under the deferred compensation plan approved by the Funds' Boards, non-interested Trustees or Directors (Independent Trustees or Directors) may defer a portion of their annual complex-wide compensation. Deferred amounts earn an approximate return as though equivalent dollar amounts had been invested in common shares of the other certain BlackRock Closed-End Funds selected by the Independent Trustees or Directors. This has approximately the same economic effect for the Independent Trustees or Directors as if the Independent Trustees or Directors had invested the deferred amounts directly in the other certain BlackRock Closed-End Funds.

The deferred compensation plan is not funded and obligations thereunder represent general unsecured claims against the general assets of each Fund. Each Fund may, however, elect to invest in common stock of the other certain BlackRock Closed-End Funds selected by the Independent Trustees or Directors in order to match its deferred compensation obligations. Investments to cover the Funds' deferred compensation liability, if any, are included in other assets on the Statements of Assets and Liabilities.

Other: Expenses directly related to one of the Funds is charged to that Fund. Other operating expenses shared by several funds are pro-rated among those funds on the basis of relative net assets or other appropriate methods.

2. Investment Advisory Agreement and Other Transactions with Affiliates:

The Funds have entered into an Investment Advisory Agreement with BlackRock Advisors, LLC (the Advisor), an indirect, wholly owned subsidiary of BlackRock, Inc., to provide investment advisory and administration services. Merrill Lynch & Co., Inc. (Merrill Lynch) and The PNC Financial Services Group, Inc. are principal owners of BlackRock, Inc.

The Advisor is responsible for the management of each Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Funds. For such services, each Fund pays a monthly fee at an annual rate of 0.50% of each Fund's average daily net assets, including proceeds from the issuance of Preferred Shares/Stock and TOBs.

The Advisor has agreed to waive its advisory fees by the amount of investment advisory fees each Fund pays to the Advisor indirectly through its investment in affiliated money market funds. These amounts are included in fees waived by advisor on the Statements of Operations. For the six months ended April 30, 2008, the amounts were as follows:

	Waiver for the Six Months Ended April 30, 2008
BlackRock MuniYield Florida Insured Fund	\$ 9,850
BlackRock MuniYield Michigan Insured Fund, Inc	\$29,029
BlackRock MuniYield New Jersey Insured Fund, Inc	\$ 1,005
BlackRock MuniYield Pennsylvania Insured Fund	\$10,031

The Advisor has entered into a separate sub-advisory agreement with BlackRock Investment Management, LLC (BIM), an affiliate of the Advisor, with respect to each Fund, under which the Advisor pays BIM for services it provides, a monthly fee that is a percentage of the investment advisory fee paid by each Fund to the Advisor.

For the six months ended April 30, 2008, each of the Funds reimbursed the Advisor for certain accounting services expenses which are included in accounting services in the Statements of Operations. The reimbursements were as follows:

4. Capital Share/Stock Transactions:

BlackRock MuniYield Florida Insured Fund and BlackRock MuniYield Pennsylvania Insured Fund are authorized to issue an unlimited number of Common Shares of beneficial interest, par value \$0.10 per share together with 1,000,000 Preferred Shares of beneficial interest, par value of \$0.05 per share. Each Fund's Board is authorized, however, to classify and reclassify any unissued shares of capital stock without approval of the holders of Common Shares.

BlackRock MuniYield Michigan Insured Fund, Inc. and BlackRock MuniYield New Jersey Insured Fund, Inc. are authorized to issue 200,000,000 shares of stock, including Preferred Stock, par value \$0.10 per share or \$0.05 per share, all of which were initially classified as Common Stock. Each Fund's Board is authorized, however, to classify and reclassify any unissued shares of capital stock without approval of

holders of Common Stock.

Common Shares/Stock

Shares issued and outstanding for each of the Funds during the six months ended April 30, 2008 and the year ended October 31, 2007 remained constant.

Preferred Shares/Stock

Preferred Shares/Stock of the Funds have a liquidation preference of \$25,000 per share plus accrued and unpaid dividends, that entitles their holders to receive cash dividends at varying annualized rates for each dividend period. BlackRock MuniYield Florida Insured Fund and BlackRock MuniYield Pennsylvania Insured Fund has a par value of \$0.05 per share. BlackRock MuniYield Michigan Insured Fund, Inc. has a par value of \$0.05 per share on Series A Shares, Series B Shares and Series C Shares, and \$0.10 per share on Series D Shares. BlackRock MuniYield New Jersey Insured Fund, Inc. has a par value of \$0.05 per share for Series A Shares and \$0.10 per share for Series B Shares. The yields in effect at April 30, 2008 were as follows:

Shares of Preferred Stock/Shares issued and outstanding for each of the Funds during the six months ended April 30, 2008 and the year ended October 31, 2007 remained constant.

Each Fund pays commissions to certain broker-dealers at the end of each auction at an annual rate of 0.25%, calculated on the aggregate principal amount. For the six months ended April 30, 2008, Merrill Lynch, Pierce, Fenner & Smith Incorporated, a wholly owned subsidiary of Merrill Lynch, earned commissions as follows:

	Commissions
BlackRock MuniYield Florida Insured Fund	\$ 60,031
BlackRock MuniYield Michigan Insured Fund, Inc	\$101,710
BlackRock MuniYield New Jersey Insured Fund, Inc	\$ 55,559
BlackRock MuniYield Pennsylvania Insured Fund	\$ 76,827

Dividends on seven-day Preferred Shares/Stock are cumulative at a rate which is reset every seven days based on the results of an auction. If the Preferred Shares/Stock fails to clear the auction on an auction date, each Fund is required to pay the maximum applicable rate on the Preferred Shares/Stock to holders of such shares for each successive dividend period until such time as the stock is successfully auctioned. The maximum applicable rate on the Preferred Shares/Stock is footnoted as applicable on the above chart. During the six months ended April 30, 2008, the Preferred Shares/Stock of each Fund was successfully auctioned at each auction date until February 13, 2008. The low, high and average dividend rates on the Preferred Shares/Stock for each Fund for the six months ended April 30, 2008 were as follows:

Since February 13, 2008, the Preferred Stock/Shares of each Fund failed to clear any auctions. As a result, the Preferred Stock/Shares dividend rates were reset to the maximum applicable rate, which ranged from 2.756% to 5.198% . A failed auction is not an event of default for the Fund but it is a liquidity event for the holders of the Preferred Shares/Stock. A failed auction occurs when there are more sellers of a fund's auction rate preferred stock than buyers. It is impossible to predict how long this imbalance will last. An auction for each Fund's Preferred Shares/Stock may not occur for some time, if ever, and even if liquidity does resume, holders of Preferred Shares/Stock may not have the ability to sell the Preferred Shares/Stock at its liquidation preference.

The Funds may not declare dividends or make other distributions on Common Shares/Stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares/Stock would be less than 200%.

The Preferred Shares/Stock is redeemable at the option of each Fund, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated unpaid dividends whether or not declared. The Preferred Shares/Stock is also subject to mandatory redemption at

\$25,000 per share plus any accumulated or unpaid dividends, whether

or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund, as set forth in each Fund's Certificates of Designation/Articles Supplementary, are not satisfied.

The holders of Preferred Shares/Stock have voting rights equal to the holders of Common Shares/Stock (one vote per share) and will vote together with holders of Common Shares/Stock (one vote per share) as a single class. However, holders of Preferred Shares/Stock, voting as a separate class, are also entitled to elect two Trustees or Directors for each Fund. In addition, the 1940 Act requires that along with approval by shareholders that might otherwise be required, the approval of the holders of a majority of any outstanding Preferred Shares/Stock, voting separately as a class would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Shares/Stock, (b) change each Fund's subclassification as a closed-end investment company or change its fundamental investment restrictions or (c) change its business so as to cease to be an investment company.

5. Capital Loss Carryforward:

BlackRock MuniYield Florida Insured Fund

As of October 31, 2007, the Fund had a capital loss carryforward of \$2,587,527, of which \$505,802 expires in 2008 and \$2,081,725 expires in 2012. This amount will be available to offset future realized capital gains.

BlackRock MuniYield Michigan Insured Fund, Inc.

As of October 31, 2007, the Fund had a capital loss carryforward of \$11,763,462, of which \$6,685,590 expires in 2008, \$1,124,652 expires in 2010 and \$3,953,220 expires in 2012. This amount will be available to offset future realized capital gains.

BlackRock MuniYield Pennsylvania Insured Fund

As of October 31, 2007, the Fund had a capital loss carryforward of \$1,135,911, all of which expires in 2008. This amount will be available to offset future realized capital gains.

6. Concentration Risk:

Each Fund's investments are concentrated in certain states, which may be affected by adverse financial, social, environmental, economic, regulatory and political factors.

Many municipalities insure repayment of their bonds, which reduces the risk of loss due to issuer default. The market value of these bonds may

fluctuate for other reasons and there is no assurance that the insurer will meet its obligation.

Additional Information

Dividend Policy

The Funds dividend policy is to distribute all or a portion of their net invest-

ment income to their shareholders on a monthly basis. In order to provide shareholders with a more stable level of dividend distributions, the Funds may at times pay out less than the entire amount of net investment income earned in any particular month and may at times in any particular month pay out such accumulated but undistributed income in addition to net

investment income earned in that month. As a result, the dividends paid by the Funds for any particular month may be more or less than the amount of net investment income earned by the Funds during such month. The Funds' current accumulated but undistributed net investment income, if any, is disclosed in the Statements of Assets and Liabilities, which comprises part of the financial information included in this report.

Availability of Quarterly Schedule of Investments

The Funds file their complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Funds' Forms N-Q are available on the SEC's website at <http://www.sec.gov> and may also be reviewed

and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330. The Funds' Forms N-Q may also be obtained upon request and without charge by calling (800) 441-7762.

Electronic Delivery

Electronic copies of most financial reports are available on the Funds' websites or shareholders can sign up for e-mail notifications of quarterly statements, annual and semi-annual reports by enrolling in the Funds' electronic delivery program.

Shareholders Who Hold Accounts with Investment Advisors, Banks or Brokerages:

Please contact your financial advisor to enroll. Please note that not all investment advisors, banks or brokerages may offer this service.

General Information

The Funds will mail only one copy of shareholder documents, including annual and semi-annual reports and proxy statements, to shareholders with multiple accounts at the same address. This practice is commonly called "householding" and it is intended to reduce expenses and eliminate duplicate mailings of shareholder documents. Mailings of your shareholder documents may be househanded indefinitely unless you instruct us otherwise. If you do not want the mailing of these documents to be combined with those for other members of your household, please contact the Funds at (800) 441-7762.

Quarterly performance, semi-annual and annual reports and other information regarding the Funds may be found on BlackRock's website, which can be accessed at <http://www.blackrock.com>. This reference to BlackRock's website is intended to allow investors public access to information regarding the Funds and does not, and is not intended to, incorporate BlackRock's website into this report.

Deposit Securities

Effective May 30, 2008, following approval by the Funds' Board and the applicable ratings agencies, the definition of Deposited Securities in the Funds' Certificates of Designation/Articles Supplementary was amended in order to facilitate the redemption of the Funds' Preferred Stock. The following phrase was added to the definition of Deposit Securities found in Funds' Certificates of Designation/Articles Supplementary:

; provided, however, that solely in connection with any redemption of AMPS, the term Deposit Securities shall include (i) any committed financing pursuant to a credit agreement, reverse repurchase agreement facility or similar credit arrangement, in each case which makes

available to the Corporation, no later than the day preceding the applicable redemption date, cash in an amount not less than the aggregate amount due to Holders by reason of the redemption of their shares of AMPS on such redemption date; and (ii) cash amounts due and payable to the Corporation out of a sale of its securities if such cash amount is not less than the aggregate amount due to Holders by reason of the redemption of their shares of AMPS on such redemption date and such sale will be settled not later than the day preceding the applicable redemption date.

BlackRock Privacy Principles

BlackRock is committed to maintaining the privacy of its current and former fund investors and individual clients (collectively, "Clients") and to safeguarding their non-public personal information. The following information is provided to help you understand what personal information BlackRock collects, how we protect that information and why in certain cases we share such information with select parties.

If you are located in a jurisdiction where specific laws, rules or regulations require BlackRock to provide you with additional or different privacy-related rights beyond what is set forth below, then BlackRock will comply with those specific laws, rules or regulations.

BlackRock obtains or verifies personal non-public information from and about you from different sources, including the following: (i) information we receive from you or, if applicable, your financial intermediary, on applications, forms or other documents; (ii) information about your transactions with us, our affiliates, or others; (iii) information we receive from a consumer reporting agency; and (iv) from visits to our websites.

BlackRock does not sell or disclose to non-affiliated third parties any non-public personal information about its Clients, except as permitted by law or as is necessary to respond to regulatory requests or to service Client accounts. These non-affiliated third parties are required to protect the confidentiality and security of this information and to use it only for its intended purpose.

We may share information with our affiliates to service your account or to provide you with information about other BlackRock products or services that may be of interest to you. In addition, BlackRock restricts access to nonpublic personal information about its Clients to those BlackRock employees with a legitimate business need for the information. BlackRock maintains physical, electronic and procedural safeguards that are designed to protect the nonpublic personal information of its Clients, including procedures relating to the proper storage and disposal of such information.

38 SEMI-ANNUAL REPORT

APRIL 30, 2008

This report is transmitted to shareholders only. It is not a prospectus. Past performance results shown in this report should not be considered a representation of future performance. The Funds have leveraged their Common Shares or Stock. Leverage creates risks for Common Shareholders or Common Stock shareholders, including the likelihood of greater volatility of net asset value and market price of the Common Shares or Stock, and the risk that fluctuations in the short-term dividend rates of the Preferred Shares or Stock, currently set at the maximum reset rate as a result of failed auctions, may affect the yield to Common Shareholders or Common Stock shareholders. Statements and other information herein are as dated and are subject to change.
