## PRESS RELEASE

### Sweden

#### **A bus contract for Veolia Transport in the Göteborg region**

**Paris, September 24, 2009.** Veolia Transport has been awarded the bus operating contract for the Västra Götaland Region, west of Göteborg, Sweden, following a call for tenders issued by the region's transport organizing authority. The 8-year contract will commence in June 2010 and will generate annual revenues of around 30 million euros.

Veolia Transport won thanks to its response in terms of quality of service, notably safety aboard its vehicles, comfort of bus stops, punctuality, maintenance, and onboard passenger information.

The bus fleet of roughly 100 buses will be renewed progressively. Over time, vehicles will be fitted with surveillance cameras and air conditioning. Working with Veolia Transport, the municipality's goal is to cut CO<sub>2</sub> emissions by using vehicles running on either biogas or biodiesel.

*The Västra Götaland Region's goals dovetail perfectly with the role and ambitions Veolia Transport proposes to the municipalities it partners. Coming on top of our ferry service operation, we are delighted with this expansion of our presence in the Göteborg region,* says Cyrille du Peloux, Chief Executive Officer of Veolia Transport.
