

Edgar Filing: CNOOC LTD - Form 20-F

CNOOC LTD
Form 20-F
June 23, 2004

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 20-F

(Mark One)

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR (g) OF THE
SECURITIES EXCHANGE ACT OF 1934

OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2003

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number 1-14966

CNOOC LIMITED
[CHINESE CHARACTERS OMITTED]
(Exact name of Registrant as specified in its charter)

Hong Kong
(Jurisdiction of incorporation or organization)

65th Floor, Bank of China Tower
One Garden Road, Central
Hong Kong
(Address of principal executive offices)

Securities registered or to be registered pursuant to Section 12(b) of
the Act.

Title of each class -----	Name of each exchange on which -----
American depositary shares, each representing 100 shares of par value HK\$0.02 per share.....	New York Stock Exchange, In
Shares of par value HK\$0.02 per share.....	New York Stock Exchange, In

Securities registered or to be registered pursuant to Section 12(g) of the Act. None
(Title of Class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act. None
(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes
of capital or common stock as of the close of the period
covered by the annual report.

Edgar Filing: CNOOC LTD - Form 20-F

Shares, par value HK\$0.10 per share.....41,061,951,275*

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant is required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark which financial statement item the Registrant has elected to follow.

Item 17 Item 18

* A 5-for-1 stock split went into effect on March 17, 2004 and since then each American depositary share represents 100 shares, rather than 20 shares previously. The number of shares outstanding immediately after the stock split was 41,070,828,275. Due to buybacks by the registrant in May 2004, the number of shares outstanding on June 10, 2004 was 41,061,951,275.

** Not for trading, but only in connection with the registration of American depositary shares.

TERMS AND CONVENTIONS

Definitions

Unless the context otherwise requires, references in this annual report to:

- o "CNOOC" are to our controlling shareholder, China National Offshore Oil Corporation, a PRC state-owned enterprise, and its affiliates, excluding us and our subsidiaries;

Edgar Filing: CNOOC LTD - Form 20-F

- o "CNOOC Limited," "our company," "we," "our" or "us" are to CNOOC Limited, a Hong Kong limited liability company and the registrant of this annual report, and its subsidiaries;
- o "China" or "PRC" are to the People's Republic of China, excluding for purposes of this annual report, the Hong Kong Special Administrative Region, the Macau Special Administrative Region and Taiwan;
- o "Hong Kong Stock Exchange" or "HKSE" are to The Stock Exchange of Hong Kong Limited;
- o "HK\$" are to Hong Kong dollar, the legal currency of the Hong Kong Special Administrative Region;
- o "JPY" are to Japanese yen, the legal currency of Japan;
- o "Rmb" are to Renminbi, the legal currency of the PRC;
- o "Rupiah" are to Indonesian Rupiah, the legal currency of the Republic of Indonesia; and
- o "US\$" are to U.S. dollar, the legal currency of the United States of America.

Conventions

We have translated amounts from Renminbi into U.S. dollars solely for the convenience of the reader at the noon buying rate in New York for cable transfers payable in foreign currencies as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2003 of US\$1.00=Rmb 8.2767. We have also translated amounts in Hong Kong dollars solely for the convenience of the reader at the rate of HK\$7.7988 to US\$1.00, the linked exchange rate between such currencies under policies of the Hong Kong government in effect on December 31, 2003. We make no representation that the Renminbi amounts or Hong Kong dollar amounts could have been, or could be, converted into U.S. dollars at those rates on December 31, 2003, or at all. For further information on exchange rates, see Item 3 "Key Information--Selected Financial Data."

Totals presented in this annual report may not total correctly due to rounding of numbers.

Our "average net realized price" for oil and gas in each period is derived from a numerator divided by a denominator, where:

- o the numerator is equal to the sum of (i) revenues from our oil and gas sales offshore China for the applicable period; (ii) the 30% ownership share of revenues from gas sales for the applicable period from our associated company, Shanghai Petroleum and Natural Gas Company Limited; and (iii) the revenues from oil and gas sales for the applicable period from our overseas interests; while:
- o the denominator is equal to the sum of (i) the volume of oil and gas sales offshore China for the applicable period; (ii) 30% of the volume of gas sales for the applicable period from our associated company; and (iii) the volume of oil and gas sales for the applicable period from our overseas interests.

Edgar Filing: CNOOC LTD - Form 20-F

Our "net proved reserves" are derived from proved reserves less certain adjustments, where:

- o proved reserves is equal to the sum of (i) our 100% interest in our independent oil and gas properties (excluding the proved reserves attributable to our associated company); (ii) our participating interest in the properties covered under our production sharing contracts in the PRC and overseas; and (iii) our 30% interest in the proved reserves of our associated company; while:
- o the adjustments equal the sum of (i) an adjustment for our share of royalties payable to the PRC government and our participating interest in share oil payable to the PRC government under our production sharing contracts in the PRC; (ii) an adjustment for production allocable to foreign partners under our production sharing contracts in the PRC as reimbursement for exploration expenses attributable to our working interest; and (iii) adjustments for share oil payable under our overseas production sharing contracts for any domestic market obligation under which the contractor must sell a specified percentage of its crude oil to the local overseas market (such as in Indonesia) at a reduced price. In this annual report, we use "share oil" to refer to the portion of production that must be allocated to the relevant government entity or company under our production sharing contracts.

Net proved reserves do not include any deduction for production taxes payable by us, which are included in our operating expenses. Net production is calculated in the same way as net proved reserves. Unless otherwise noted, all information in this annual report relating to oil and natural gas reserves is based upon estimates prepared by us. In calculating barrels-of-oil equivalent, or BOE, amounts, we have assumed that 6,000 cubic feet of natural gas equals one BOE, with the exception of natural gas from certain fields which is converted using the actual heating value of the natural gas.

Glossary of Technical Terms

Unless otherwise indicated in the context, references to:

- o "API gravity" means the American Petroleum Institute's scale for specific gravity for liquid hydrocarbons, measured in degrees. The lower the API gravity, the heavier the liquid and, generally, the lower its commercial value. For example, asphalt has an API gravity of eight degrees, West Texas Intermediate, a benchmark crude oil, has an API of 40 degrees, and gasoline has an API gravity of 50 degrees.
- o "appraisal well" means an exploration well drilled after a successful wildcat well to gain more information on a newly discovered oil or gas reserve.
- o "condensate" means light hydrocarbon liquids separated from natural gas in the field through condensation when natural gas is exposed to surface temperature and pressure. This group generally includes slightly heavier hydrocarbons than natural gas liquids, such as pentane. It is combined with crude oil production and reserve figures.
- o "crude oil" means crude oil and liquids, including condensate,

Edgar Filing: CNOOC LTD - Form 20-F

natural gas liquids and liquefied petroleum gas.

- o "development cost" means, for a given period, costs incurred to obtain access to proved reserves and to provide facilities for extracting, treating, gathering and storing the oil and gas.
- o "dry hole" means an exploration well that is not commercial (i.e., economically feasible to develop). Dry hole costs include the full costs for such drilling and are charged as an expense.
- o "exploration well" means a wildcat or appraisal well.

2

- o "finding and development cost per BOE" means, for a given period, the sum of total finding and development cost incurred, divided by the sum of discoveries, extensions, purchases of reserves, and revisions of prior estimates of net proved reserves.
- o "finding cost" means, for a given period, costs incurred in identifying areas that may warrant examination and in examining specific areas that are considered to have prospects of containing oil and gas reserves, including costs of drilling exploration wells.
- o "lifting cost" means, for a given period, costs incurred to operate and maintain wells and related equipment and facilities, including applicable operating costs of support equipment and facilities and other costs of operating and maintaining those wells and related equipment and facilities, plus production taxes. Also known as production cost.
- o "natural gas liquids" means light hydrocarbons that can be extracted in liquid form from natural gas through special separation plants. This group includes typically lighter liquid hydrocarbons than condensate, such as butane, propane and ethane. It is combined with crude oil production but not with crude oil reserve figures.
- o "net wells" means a party's working interest in wells under a production sharing contract.
- o "offshore" means areas under water with a depth of five meters or greater.
- o "onshore" means areas of land and areas under water with a depth of less than five meters.
- o "proved developed reserves" means proved reserves of oil and natural gas that can be expected to be recovered through existing wells with existing equipment and operating methods.
- o "proved reserves" means estimated quantities of crude oil and natural gas that geological and engineering data demonstrate with reasonable certainty to be recoverable in future years from known reservoirs under existing economic and operating conditions, i.e., prices and costs as of the date the estimate is made.
- o "proved undeveloped reserves" means proved reserves that are

Edgar Filing: CNOOC LTD - Form 20-F

expected to be recovered from new wells in undrilled areas, or from existing wells where significant expenditure is required for completion.

For further definitions relating to reserves:

- o "reserve replacement ratio" means, for a given year, gross additions to proved reserves divided by production during the year.
- o "reserve-to-production ratio" means the ratio of proved reserves to annual production of crude oil or, with respect to natural gas, to wellhead production excluding flared gas.
- o "seismic data" means data recorded in either two-dimensional (2D) or three-dimensional (3D) form from sound wave reflections off of subsurface geology. This is used to understand and map geological structures for exploratory purposes to predict the location of undiscovered reserves.
- o "success" means a discovery of oil or gas by an exploration well. Such an exploration well is a successful well and is also known as a discovery. A successful well is not necessarily commercial, which means there are enough hydrocarbon deposits discovered for economical recovery.

3

- o "success rate" means the total number of successful wells divided by the total number of wells drilled in a given period. Success rate can be applied to wildcat wells or appraisal wells in general.
- o "wildcat well" means an exploration well drilled in an area or rock formation that has no known reserves or previous discoveries.

References to:

- o bbls means barrels, which is equivalent to approximately 0.134 tons of oil (33 degrees API);
- o mmbbls means million barrels;
- o BOE means barrels-of-oil equivalent;
- o BOE per day means barrels-of-oil equivalent per day;
- o million BOE means million barrels-of-oil equivalent;
- o mcf means thousand cubic feet;
- o mmcf means million cubic feet;
- o bcf means billion cubic feet, which is equivalent to approximately 283.2 million cubic meters;
- o BTU means British Thermal Unit, a universal measurement of energy; and

Edgar Filing: CNOOC LTD - Form 20-F

- o km means kilometers, which is equivalent to approximately 0.62 miles.

4

FORWARD-LOOKING STATEMENTS

This annual report includes "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, included in this annual report that address activities, events or developments which we expect or anticipate will or may occur in the future are forward-looking statements. The words "believe," "intend," "expect," "anticipate," "project," "estimate," "predict" and similar expressions are also intended to identify such forward-looking statements.

These forward-looking statements address, among others, such issues as:

- o the amount and nature of future exploration, development and other capital expenditures,
- o wells to be drilled or reworked,
- o oil and gas prices and demand,
- o future earnings and cash flow,
- o development projects,
- o exploration prospects,
- o estimates of proved oil and gas reserves,
- o potential reserves,
- o development and drilling potential,
- o drilling prospects,
- o expansion and other development trends of the oil and gas industry,
- o business strategy,
- o production of oil and gas,
- o development of undeveloped reserves,
- o expansion and growth of our business and operations, and
- o our estimated financial information.

These statements are based on assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions and expected future developments, as well as other factors we believe are appropriate under the circumstances. However, whether actual results and developments will meet our expectations and predictions depend on a number of risks and uncertainties which could cause our actual results, performance and financial condition to differ materially from our expectation. For a description

Edgar Filing: CNOOC LTD - Form 20-F

of such risks and uncertainties, see "Item 3--Key Information--Risk Factors."

Consequently, all of the forward-looking statements made in this annual report are qualified by these cautionary statements. We cannot assure you that the actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected effect on us or our business or operations.

5

PART I

ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS

Not applicable, but see "Item 6--Directors, Senior Management and Employees--Directors and Senior Management."

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not applicable.

ITEM 3. KEY INFORMATION

A. SELECTED FINANCIAL DATA

You should read our selected historical consolidated financial data set forth below in conjunction with our consolidated financial statements and their notes under Item 18 "Financial Statements" and "Item 5--Operating and Financial Review and Prospects" in this annual report. The following selected income statement data and cash flows data for the two years ended December 31, 2003 and the selected balance sheet data as of December 31, 2002 and 2003 have been derived from our consolidated financial statements audited by Ernst & Young, our current independent public accountants. The following selected income statement data and cash flows data for the three years ended December 31, 2001 and the selected balance sheet data as of December 31, 1999, 2000 and 2001 have been derived from our consolidated financial statements audited by Arthur Andersen & Co, our independent public accountants prior to 2002.

On June 6, 2002, Ernst & Young replaced Arthur Andersen & Co as our independent public accountants. For a discussion on such change of accountants, see "Item 3--Key Information--Risk Factors--Risks relating to our business--You may not be able to assert claims against Arthur Andersen, our independent public accountants for periods prior to December 31, 2001, nor may you be able to assert claims against our current independent public accountants for financial statements previously audited by Arthur Andersen" and "Item 5--Operating and Financial Review and Prospects--Change of Accountants."

Our financial information in this annual report reflects our October 1999 reorganization and has been prepared as if our current structure had been in existence at the beginning of 1999. We have prepared and presented our consolidated financial statements in accordance with Hong Kong GAAP. For an explanation of the reconciliation of our net income and shareholders' equity to U.S. GAAP, see note 37 to our consolidated financial statements under Item 18 "Financial Statements" in this annual report.

- (a) On March 17, 2004, our shareholders approved a five-for-one stock split of our shares. The stock split was effected by dividing each of our issued and unissued shares of HK\$0.10 each into five shares of HK\$0.02 each, and to increase the board lot size for trading on the Hong Kong Stock Exchange from 500 shares of HK\$0.10 each to 1,000 subdivided shares of HK\$0.02 each. The ratio of our ADSs listed on the New York Stock Exchange also changed such that each ADS now represents 100 subdivided shares of HK\$0.02 each, as opposed to 20 shares of HK\$0.10 each prior to the stock split.
- (b) Net income per share (basic) and net income per ADS (basic) for the year ended December 31, 1999 have been computed by dividing net income by the number of shares and the number of ADSs of 1,500,000,000 (based on a ratio of 100 shares to one ADS), outstanding immediately after our reorganization in 1999. Net income per share (basic) and net income per ADS (basic) for 2000 have been computed by dividing net income by the weighted average number of shares and the weighted average number of ADSs of 31,655,572,105 and 316,555,721 respectively (based on a ratio of 100 shares to one ADS) for the period. Similarly, net income per share (basic) and net income per ADS (basic) for 2001 have been computed, without considering the dilutive effect of the shares underlying our share option scheme, by dividing net income by the weighted average number of shares and the weighted average number of ADSs of 39,706,916,525 and 397,069,165 respectively (based on a ratio of 100 shares to one ADS) for the period. Net income per share (basic) and net income per ADS (basic) for 2002 have been computed, without considering the dilutive effect of the shares underlying our share option scheme, by dividing net income by the weighted average number of shares and the weighted average number of ADSs of 41,070,828,275 and 410,708,283 respectively (based on a ratio of 100 shares to one ADS) for the period. Net income per share (basic) and net income per ADS (basic) for 2003 have been computed, without considering the dilutive effect of the shares underlying our share option scheme, by dividing net income by the weighted average number of shares and the weighted

Edgar Filing: CNOOC LTD - Form 20-F

average number of ADSs of 41,070,828,275 and 410,708,283 respectively (based on a ratio of 100 shares to one ADS) for the period.

- (c) Net income per share (diluted) and net income per ADS (diluted) for the year ended December 31, 1999 have been computed by dividing net income by the number of shares and the number of ADSs of 1,500,000,000 (based on a ratio of 100 shares to one ADS), outstanding immediately after our reorganization in 1999. Net income per share (diluted) and net income per ADS (diluted) for 2000 have been computed by dividing net income by the weighted average number of shares and the weighted average number of ADSs of 31,655,572,105 and 316,555,721 respectively (based on a ratio of 100 shares to one ADS) for the period. Similarly, net income per share (diluted) and net income per ADS (diluted) for 2001 have been computed, after considering the dilutive effect of the shares underlying our share option scheme, using 39,711,444,015 and 397,114,440 respectively. Net income per share (diluted) and net income per ADS (diluted) for 2002 have been computed, after considering the dilutive effect of the shares underlying our share option scheme, using 41,096,426,920 and 410,964,269 respectively. Net income per share (diluted) and net income per ADS (diluted) for 2003 have been computed, after considering the dilutive effect of the shares underlying our share option scheme, by using 41,110,339,095 and 411,103,391 respectively.

(1) We have defined EBITDE to mean earnings before interest income, interest expense, income taxes, depreciation, depletion, amortization, dismantlement, exploration expenses, impairment losses related to property, plant and equipment and exchange gains or losses as computed under Hong Kong and U.S. GAAP. EBITDE is not a standard measure under either Hong Kong or U.S. GAAP. You should not consider our definition of EBITDE in isolation or construe it as an alternative to net income, cash provided by operating activities or any other measure of performance or as an indicator of operating performance, liquidity or any other standard measure under either Hong Kong or U.S. GAAP. We believe net income and cash provided by operating activities are the most directly comparable financial measures for EBITDE as an indicator of our operating performance and liquidity, respectively. For our management's explanation of how we define EBITDE and why we use it, see "Item 5--Operating and Financial Review and Prospects--Overview--Non-GAAP Financial Measures."

(2) EBITDE margin represents EBITDE as a percentage of our total operating revenues, as computed under both Hong Kong and U.S. GAAP. EBITDE margin is

Edgar Filing: CNOOC LTD - Form 20-F

used as an indicator of operating performance. Our EBITDE as a percentage of oil and gas sales for the five years ended December 31, 2003 were 75.7%, 81.4%, 81.8%, 77.8% and 78.2%, respectively.

- (3) Gross interest expense includes capitalized interest.
- (4) Total capitalization excludes current portion of long-term debt.
- (5) We have included data relating to cash provided by operating activities in this table because we believe it is the most directly comparable Hong Kong and U.S. GAAP measure to EBITDE as an indicator of liquidity. EBITDE is not a standard measure under either Hong Kong or U.S. GAAP.
- (6) We have included net income data in this table because we believe it is the most directly comparable Hong Kong and U.S. GAAP measure to EBITDE as an indicator of operating performance. EBITDE is not a standard measure under either Hong Kong or U.S. GAAP.
- (7) Net income margin represents net income as a percentage of our total operating revenues, as computed under U.S. GAAP.

We publish our financial statements in Renminbi. Unless otherwise indicated, all translations from Renminbi to U.S. dollars have been made at a rate of Rmb 8.2767 to US\$1.00, the noon buying rate as certified for customs purposes by the Federal Reserve Bank of New York on December 31, 2003. We do not represent that Renminbi or U.S. dollar amounts could be converted into U.S. dollars or Renminbi, as the case may be, at any particular rate, the rate below or at all.

The following table sets forth the noon buying rates for U.S. dollars in New York City for cable transfers in Renminbi as certified for customs purposes by the Federal Reserve Bank of New York for the periods indicated:

Period -----	End ---	Noon Buying Rate -----		Lo --
		Average (1) -----	High -----	
		(Rmb per US\$1.00)		
1999.....	8.2795	8.2785	8.2800	8.27
2000.....	8.2774	8.2784	8.2799	8.27
2001.....	8.2766	8.2772	8.2786	8.26
2002.....	8.2800	8.2772	8.2800	8.26
2003.....	8.2767	8.2771	8.2800	8.27
December 2003.....	8.2767	--	8.2772	8.27
January 2004.....	8.2768	--	8.2772	8.27
February 2004.....	8.2769	--	8.2773	8.27
March 2004.....	8.2771	--	8.2774	8.27
April 2004.....	8.2769	--	8.2772	8.27
May 2004.....	8.2769	--	8.2773	8.27

- (1) Determined by averaging the noon buying rates on the last business day of each month during the relevant period.

As of June 10, 2004, the noon buying rate for cable transfers in Renminbi as certified for customs purposes by the Federal Reserve Bank of New York was Rmb 8.2767 to US\$1.00.

Edgar Filing: CNOOC LTD - Form 20-F

The Hong Kong dollar is freely convertible into the U.S. dollar. Since 1983, the Hong Kong dollar has been linked to the U.S. dollar at the rate of HK\$7.80 to US\$1.00. The Hong Kong government has also stated that it has no intention of imposing exchange controls in Hong Kong and that the Hong Kong dollar will remain freely convertible into other currencies, including the U.S. dollar. However, we cannot assure you that the Hong Kong government will maintain the link at HK\$7.80 to US\$1.00 or at all.

The following table sets forth the noon buying rates for U.S. dollars in New York City for cable transfers in Hong Kong dollars as certified for customs purposes by the Federal Reserve Bank of New York for the periods indicated.

Period -----	End ---	Noon Buying Rate -----			Lo ---
		Average (1) -----	High ----		
(HK\$ per US\$1.00)					
1999.....	7.7740	7.7599	7.7814	7.7	7.7
2000.....	7.7999	7.7936	7.8008	7.7	7.7
2001.....	7.7980	7.7996	7.8004	7.7	7.7
2002.....	7.7988	7.7996	7.8095	7.7	7.7
2003.....	7.7640	7.7864	7.8001	7.7	7.7
December 2003.....	7.7640	--	7.7670	7.7	7.7
January 2004.....	7.7775	--	7.7775	7.7	7.7
February 2004.....	7.7845	--	7.7845	7.7	7.7
March 2004.....	7.7960	--	7.7982	7.7	7.7
April 2004.....	7.7995	--	7.7996	7.7	7.7
May 2004.....	7.7907	--	7.8003	7.7	7.7

(1) Determined by averaging the noon buying rates on the last business day of each month during the relevant period.

As of June 10, 2004, the noon buying rate for cable transfers in Hong Kong dollars as certified for customs purposes by the Federal Reserve Bank of New York was HK\$7.7960 to US\$1.00.

10

D. RISK FACTORS

Risks relating to our business

Our business, revenues and profits fluctuate with changes in oil and gas prices. Even relatively modest declines in crude oil prices may adversely affect our business, revenues and profits. Our profitability is determined in large part by the difference between the prices received for the crude oil we produce and the costs of exploring for, developing, producing and selling these products.

Edgar Filing: CNOOC LTD - Form 20-F

Prices for crude oil fluctuate widely in response to relatively minor changes in the supply and demand for oil, market uncertainty and various other factors that are beyond our control, including:

- o political developments in petroleum producing regions;
- o the ability of the Organization of Petroleum Exporting Countries and other petroleum producing nations to set and maintain production levels and prices;
- o the price and availability of other energy sources, such as coal;
- o domestic and foreign government regulation;
- o weather conditions; and
- o overall economic conditions.

Our revenues and net income have fluctuated significantly in the past five years, principally due to the volatility of world oil prices. Over the past year, oil prices rose 1.47% from US\$32.00 per barrel on January 1, 2003 to US\$32.47 per barrel on December 31, 2003. The conflict and turmoil in Iraq and the Mid-East in 2003 raised concerns about the security and availability of ample supplies to meet growing global demand. The international benchmark crude oil, West Texas Intermediate, was US\$38.48 per barrel on June 10, 2004. For a description of oil prices in recent years, see "Item 4--Information on the Company--Business Overview--Sales and Marketing--Sales of Offshore Crude Oil--Pricing" in this annual report. Any future declines in oil and gas prices would adversely affect our revenues and net income.

The prices for the natural gas we sell in the PRC market are determined by negotiations between us and the prospective buyers. Our typical contracts with gas buyers include provisions for annual resets and adjustment formulas that depend on a basket of crude oil prices and inflation as well as various other factors. These resets and adjustment formulas can result in natural gas price fluctuations which may adversely affect our business, results of operations and financial condition.

Lower oil and gas prices may result in the write-off of higher cost reserves and other assets and in decreased earnings or losses. Lower oil and natural gas prices may also reduce the amount of oil and natural gas we can produce economically and render existing contracts that we have entered into uneconomical. For further details regarding the effects of oil and gas price fluctuations on our financial condition and results of operations, see "Item 5--Operating and Financial Review and Prospects."

The oil and gas reserve estimates in this annual report may require substantial revision as a result of future drilling, testing and production. The reliability of reserves estimates depends on a number of factors, including:

- o the quality and quantity of technical and economic data;
- o the prevailing oil and gas prices for our production;
- o the production performance of reservoirs;

Edgar Filing: CNOOC LTD - Form 20-F

- o extensive engineering judgments; and
- o consistency in the PRC and Indonesian governments' royalty and share oil policies.

Many of the factors, assumptions and variables involved in estimating reserves are beyond our control and may prove to be incorrect over time. Consequently, the results of drilling, testing and production may require substantial upward or downward revisions in our initial reserves data. For more information on our oil and gas reserves data, see "Item 4--Information on the Company--Business Overview--Oil and Natural Gas Reserves."

Any failure to develop our proved undeveloped reserves and gain access to additional reserves could impair our ability to achieve certain growth objectives. Our ability to achieve certain growth objectives depends upon our success in finding and acquiring or gaining access to additional reserves. Future drilling, exploration and acquisition activities may not be successful. If our exploration and development activities or acquisition of properties containing proved reserves are unsuccessful, our total proved reserves will decline.

Approximately 57% of our proved reserves were undeveloped as of December 31, 2003. Our future success will depend on our ability to develop these reserves in a timely and cost-effective manner. There are various risks in developing reserves, including construction, operational, geophysical, geological and regulatory risks.

Our future prospects largely depend on our capital expenditure plans, which are subject to various risks. The oil and gas exploration and production business is capital intensive. We currently plan to spend US\$1,251 million to develop our oil and gas properties and US\$247 million for independent exploration in 2004. In addition to these amounts, we may make additional capital expenditures and investments to implement our business strategy.

The ability to maintain and increase our revenues, net income and cash flows depends upon continued capital spending. We adjust our capital expenditure and investment budget each year. Our capital expenditure plans are subject to a number of contingencies, some of which are beyond our control. These variables include:

- o our ability to generate sufficient cash flows from operations to finance our capital expenditures, investments and other requirements;
- o the availability and terms of external financing;
- o changes in crude oil and natural gas prices, which may affect cash flows from operations and capital expenditure and investment plans;
- o the mix of exploration and development activities conducted on an independent basis and under production sharing contracts;
- o new investment opportunities that may be presented to us, including international investment opportunities and liquefied and other natural gas projects;
- o PRC, Indonesian and/or Australian government approvals required for certain capital expenditures and investments;
- o our ability to obtain sufficient foreign currency to finance our capital expenditures; and

Edgar Filing: CNOOC LTD - Form 20-F

- o economic, political and other conditions in the PRC, Hong Kong, Indonesia and Australia.

Therefore, our actual future capital expenditures and investments may differ significantly from our current planned amounts. There can be no assurance that we will be able to execute our capital expenditure program on schedule or as planned.

12

Any failure to implement our natural gas business strategy may adversely affect our business and financial position. As part of our business strategy and to meet increasing market demand in China, we continue to expand our natural gas business. This strategy involves a number of risks and uncertainties including the following:

- o we have limited experience in investing in liquefied natural gas facilities, gas transmission and distribution systems, and overseas upstream natural gas properties;
- o any additional capital expenditures that are necessary to implement our natural gas strategy could divert resources from our core oil and gas exploration and production business and require us to seek additional financing;
- o our new natural gas operations may face additional competition from a number of international and PRC companies. In particular, PetroChina Company Limited, or PetroChina, is constructing natural gas pipelines to link its natural gasfields located in the western part of China to the eastern coastal regions;
- o our new natural gas activities may subject us to additional government regulation in China and overseas;
- o our overseas natural gas businesses are subject to economic and political risks, particularly in Indonesia and Australia. See "--We may be exposed to certain operating risks in Indonesia and Australia as a result of our acquisition of oil and gas interests located in these regions;"
- o we do not have the same preferential rights or access to natural gas businesses or overseas natural gas investments that we enjoy with respect to our upstream natural gas business offshore China; and
- o we are evaluating the options to invest in CNOOC's liquefied natural gas projects in Guangdong, Fujian and Zhejiang. However, we have not decided whether to exercise these options. The options are subject to various conditions, including certain governmental approvals.

Due to the above factors or other reasons, we may fail to implement our natural gas strategy successfully.

The infrastructure and demand for natural gas in the PRC may proceed at a slower pace than our planned increase in production. Our proposed expansion of natural gas production in China is currently constrained by a lack of natural gas transmission and supply infrastructure and an underdeveloped natural gas

Edgar Filing: CNOOC LTD - Form 20-F

market. Construction of transmission and supply pipelines and other infrastructure depends on many factors, many of which are beyond our control, such as government funding, costs of land acquisition, national and local government approvals, and timely completion of construction. Development of the natural gas market depends on the establishment of long-term natural gas supply contracts with natural gas utilities or large end-users, such as power and chemical plants. The demand of these buyers for natural gas could be affected by a number of regulatory and market factors, such as regulation of coal prices, government power and utility policies, chemical commodity cycles, electricity pricing and demand, and environmental policies.

CNOOC largely controls us and we regularly enter into related party transactions with CNOOC and its affiliates. CNOOC indirectly owned, through CNOOC (BVI) Limited, its wholly owned subsidiary, an aggregate of 70.625% of our shares as of June 10, 2004. As a result, CNOOC is able to control the composition of our board of directors, determine the timing and amount of our dividend payments and otherwise control us. Although CNOOC is required to comply with provisions in the Hong Kong Stock Exchange listing rules relating to protection for minority shareholders, there can be no assurance that CNOOC will act in a manner that benefits all of our shareholders. If CNOOC takes actions that favor its interests over ours, our results of operations and financial position may be adversely affected. We regularly enter into transactions with CNOOC and its affiliates, including China Oilfield

13

Services Limited and CNOOC Finance Corporation Limited. For the year ended December 31, 2003, sales to CNOOC and its affiliates accounted for 20.3% of our total revenues. For further details, see "Item 7--Major Shareholders and Related Party Transactions." Our transactions with CNOOC and its affiliates constitute connected transactions under the Hong Kong Stock Exchange listing rules. We must obtain the prior approval of the Hong Kong Stock Exchange to engage in some of these transactions and may also be required to obtain the prior approval of our independent directors and our independent shareholders. If we do not obtain these approvals, we may not be allowed to execute these transactions, and our business operations and financial condition could be adversely affected.

Under current PRC law, CNOOC has the exclusive right to enter into production sharing contracts with international oil and gas companies for petroleum exploration and production offshore China. CNOOC has undertaken to us that it will transfer all of its rights and obligations under any new production sharing contracts to us, except those relating to its administrative functions. PRC law restricts us from contracting directly with foreign enterprises for these purposes without CNOOC. The interests of CNOOC in entering into production sharing contracts with international oil and gas companies may differ from our interest, especially with respect to the criteria for determining whether, and on what terms, to enter into production sharing contracts. Our future business development may be adversely affected if CNOOC does not enter into new production sharing contracts on terms that are acceptable to us.

A substantial drop in sales to any of our three main customers could have a material adverse effect on our results of operations. We sell a significant proportion of our production to China Petroleum & Chemical Corporation, or Sinopec, PetroChina and the Castle Peak Power Company. For the years ended December 31, 2001, 2002 and 2003, sales to Sinopec accounted for 30.2%, 26.1% and 17.0%, respectively, of our total operating revenues, while sales to PetroChina were 6.3%, 4.5% and 3.5% respectively, of our total operating revenues. Both PetroChina and Sinopec are majority owned by the PRC

Edgar Filing: CNOOC LTD - Form 20-F

government. We sell a significant portion of our natural gas to Castle Peak Power Company Limited in Hong Kong under a long-term take-or-pay contract. For the years ended December 31, 2001, 2002 and 2003, sales to this customer were 5.8%, 4.7% and 2.0%, respectively, of our total operating revenues.

Both PetroChina and Sinopec have their own oil and gas fields and have the right to import crude oil directly from the international market. We do not have any long-term sales contracts with Sinopec or PetroChina. Our business, results of operations and financial condition would be adversely affected if either Sinopec or PetroChina significantly reduces its purchases of crude oil from us and we cannot find another ready buyer for our crude oil in the international market.

The PRC petroleum and natural gas industries are highly competitive and our success depends on several factors. We compete in the PRC and international markets for customers, capital financing and business opportunities, including desirable oil and gas prospects. The performance of our competitors may also affect the international market price for comparable crude oil, which in turn would likely affect the price of our crude oil. Our principal competitors in the PRC market are PetroChina and Sinopec. For further details, see "Item 4--Information on the Company--Business Overview--Competition."

We are the dominant player in the oil and gas industry offshore China. We are the only company authorized to engage in oil and gas exploration offshore China in cooperation with international oil and gas companies. Any change to PRC law that allows new entrants into the offshore petroleum industry could increase the competition for new oil and gas properties offshore China.

CNOOC has undertaken to us that so long as it retains a controlling interest in us and our securities are listed on the Hong Kong Stock Exchange, the New York Stock Exchange or other securities trading systems in other parts of the world, we will have the exclusive right to exercise CNOOC's rights to engage in offshore oil and gas exploration, development, production and sales in the PRC and that it will not compete with us in this business. However, CNOOC's controlling interest in us may not continue in the future and CNOOC's undertaking may be subject to interpretative challenges. See "Item

14

4--Information on the Company--History and Development--Corporate Structure" and "Item 7--Major Shareholders and Related Party Transactions."

Exploration, development and production risks and natural disasters affect our operations and could result in losses that are not covered by insurance. Our petroleum exploration, development and production operations are subject to various risks, including pipeline ruptures and spills, fires, explosions, encountering formations with abnormal pressures, blowouts, cratering and natural disasters. Any of these risks could result in loss of hydrocarbons, environmental pollution and other damage to our properties and the properties of operators under production sharing contracts. In addition, we face the risk that we may not discover any economically productive natural gas or oil reservoirs. The costs of drilling, completing and operating wells also are uncertain and are subject to numerous factors beyond our control, including:

- o weather conditions;
- o natural disasters;
- o equipment shortages and delays; and

Edgar Filing: CNOOC LTD - Form 20-F

- o lack of adequate transportation facilities.

We maintain insurance coverage against some, but not all, potential losses. We do not maintain business interruption insurance for all of our oil and gas fields. We may suffer material losses resulting from uninsurable or uninsured risks or insufficient insurance coverage.

For further information on insurance coverage, see "Item 4--Information on the Company--Business Overview--Operating Hazards and Uninsured Risks."

We may be exposed to certain operating risks in Indonesia and Australia as a result of our acquisition of oil and gas interests located in these regions. We have acquired interests in oil and gas properties located offshore Indonesia and Australia. See "Item 4--Information on the Company--Business Overview--Principal Oil and Gas Regions--Overseas Activity," "--Natural Gas Business--Overseas Activity" and "Item 5--Operating and Financial Review and Prospects--Operating Results--Acquisitions and Overseas Activities." These interests are subject to certain operating risks in their respective regions, including economic and political risks. Although these properties historically have not experienced problems from civil unrest or regulatory disputes, the political and economic environment in these regions could impact the financial position, results of operations and prospects of these properties.

Our Indonesian interests are subject to the laws and regulations of Indonesia, including those relating to the development, production, marketing, pricing, transportation and storage of natural gas and crude oil, taxation and environmental and safety matters. In addition, the operations are subject to production sharing arrangements with Pertamina, the Indonesian state-owned oil and gas company, which is currently the sole entity authorized to manage Indonesia's petroleum resources on behalf of the Indonesian government. Our Indonesian interests may be adversely affected by changes in governmental policies or social instability or other political, economic or diplomatic developments in or affecting Indonesia which are not within our control including, among other things, a change in crude oil or natural gas pricing policy, the risks of war and terrorism, expropriation, nationalization, renegotiation or nullification of existing concessions and contracts, taxation policies, foreign exchange and repatriation restrictions, changing political conditions, Rupiah/U.S. dollar exchange rate fluctuations and currency controls. We could face similar risks in Australia.

The Tangguh LNG project and the North West Shelf project are greenfield projects and may not be successful. In January 2003, we paid approximately US\$275 million to acquire the equivalent of a 12.5% equity interest in the Tangguh LNG project in Indonesia. In February 2004, we paid US\$98.1 million to increase our interest in the Tangguh LNG project to 16.96%. The Tangguh LNG project is a greenfield project with a limited operational track record, and is subject to risks associated with attaining government approvals, delays in the development of LNG facilities required to process gas, and lower than expected demand for gas reserves from this project. The partners in the Tangguh LNG project have

entered into a 25-year supply contract beginning in 2007 to provide up to 2.6 million tonnes of liquefied natural gas per year to a liquefied natural gas terminal being developed by CNOOC, our controlling shareholder, in Fujian Province of China and a 20-year supply contract beginning in 2005 to provide up to 1.35 million tonnes of liquefied natural gas per year to two South

Edgar Filing: CNOOC LTD - Form 20-F

Korean companies, SK Power Company Limited and POSCO. The Tangguh LNG partners have also signed contracts to provide liquefied natural gas to North America. These contracts, however, may not be sufficient to make the project commercially viable. In May 2003, we signed an agreement with the existing Australian North West Shelf partners to acquire an interest in the upstream production and reserves of the North West Shelf project for a consideration of US\$348 million. Under the terms of this agreement, we would also acquire a 25% interest in a China LNG joint venture. The LNG joint venture would supply liquefied natural gas from the North West Shelf gas project to a liquefied natural gas terminal currently being developed by CNOOC and various partners in Guangdong Province of China. The acquisition is not yet complete. The North West Shelf project is also a greenfield project with a limited operational track record. We cannot assure you that the parties to the Tangguh LNG project and the North West Shelf project will be able to secure sufficient contracts to make the respective projects commercially viable. For further details of our investment in the Tangguh LNG project and the North West Shelf project, see "Item 4--Information on the Company--Business Overview--Natural Gas Business--Overseas Activity."

We may not be able to obtain external financing that is acceptable to us for business development purposes. From time to time, we must secure external debt and equity financing to implement our development plans and fund our other business requirements.

Our ability to obtain external financing is subject to various uncertainties, including:

- o our results of operations, financial condition and cash flow;
- o the amount of capital that other PRC and Hong Kong entities may seek to raise in the international capital markets;
- o economic, political and other conditions in the PRC and Hong Kong;
- o the PRC government's policies relating to foreign currency borrowings; and
- o conditions in the PRC, Hong Kong and international capital markets.

If we are unable to obtain sufficient funding for our operations or development plans, our business, revenues, net income and cash flows could be adversely affected. For additional information on our capital expenditure plans and financing requirements, see "Item 5--Operating and Financial Review and Prospects--Liquidity and Capital Resources."

Once we issue debt securities or otherwise incur indebtedness, we become subject to risks that impact the underlying principal of such indebtedness. While all our current debt securities are rated investment grade by rating agencies, we cannot assure you that such ratings will not change due to internal or external factors. These factors may be beyond our control. Even if there is no default or event of default on our part, a market perception of an increased likelihood of a default may have a material adverse effect on our outstanding indebtedness as well as to our business operations.

You may not be able to assert claims against Arthur Andersen, our independent public accountants for periods prior to December 31, 2001, nor may you be able to assert claims against our current independent public accountants for financial statements previously audited by Arthur Andersen. On June 6, 2002, we terminated the engagement of Arthur Andersen & Co as our independent public accountants. Prior to that date, Arthur Andersen had audited our

Edgar Filing: CNOOC LTD - Form 20-F

financial statements, including the financial statements for the year ended December 31, 2001 attached to this annual report. Our selected historical financial data for the years ended, and as of, December 31, 1999, 2000 and 2001 set forth in "Item 3--Key Information--Selected Financial Data" were also based on our financial statements audited by Arthur Andersen. On June 15, 2002, Arthur Andersen was convicted of federal obstruction of justice charges in connection with the U.S. government's investigation of Enron Corporation. On August 31,

16

2002, Arthur Andersen voluntarily relinquished its licenses to practice public accountancy in all states of the United States, thereby effectively ceasing to exist as a global accounting firm. Accordingly, it may be difficult or impossible for you to assert any claims against, or recover any damages from, Arthur Andersen, in respect of this annual report, including in respect of the financial statements previously audited by Arthur Andersen that are included in this annual report. Moreover, our current independent public accountants, Ernst & Young, have not reaudited the financial statements previously audited by Arthur Andersen. Therefore, it is highly unlikely that you will be able to assert claims against, or recover any damages from, Ernst & Young, in respect of the financial statements that were previously audited by Arthur Andersen and included in this annual report.

Risks relating to the PRC petroleum industry

A change in PRC petroleum industry regulations could have an adverse effect on our operations. The PRC government exercises control over the PRC petroleum industry, including with respect to licensing, exploration, production, distribution, pricing, exports and allocation of various resources. Recently, the PRC government underwent substantial organizational reforms. We cannot assure you that the legal regime affecting our businesses will remain substantially unchanged. As of the date of this annual report, the State Development and Reform Commission has become the primary coordinator for the petroleum industry and, together with other relevant governmental agencies, provides regulatory supervision over the petroleum industry. Prior to March 2003, the primary coordinator for the petroleum industry was the State Economic and Trade Commission, which has been merged partly into the State Development and Reform Commission and partly into the Ministry of Commerce.

In the past, we have benefited from various favorable PRC government policies, laws and regulations that were enacted to encourage the development of the offshore petroleum industry. See "Item 4--Information on the Company--Regulatory Framework--Special Policies Applicable to the Offshore Petroleum Industry in China." However, there can be no assurance that the PRC government will continue existing policies or that it will not adopt new policies, laws or regulations.

In addition, existing PRC regulations require us to apply for and obtain various PRC government licenses and other approvals, including in some cases approvals for amendments and extensions of existing licenses and approvals, to conduct exploration and development activities offshore China. If we are unable to obtain any necessary approvals, our reserves and production would be adversely affected. See "Item 4--Information on the Company--Regulatory Framework."

Certain restrictions on foreign companies will be lifted as a result of China's entry into the World Trade Organization and may adversely affect our business. Effective December 11, 2001, the PRC became a member of the World Trade Organization, or WTO. China's WTO commitments require it, within five

Edgar Filing: CNOOC LTD - Form 20-F

years from the date of China's accession to the WTO, to lift restrictions that prohibit foreign companies from directly selling crude and processed oil in China. The sale of natural and liquefied petroleum gas is not specifically dealt with under China's market-access commitments relating to distribution services (as is the case with crude and processed oil). Accordingly, foreign participation in the sale of such products may be permitted within one year of accession in the form of minority-owned joint ventures and, within two years of accession, through wholly owned subsidiaries without any equity restrictions.

We may be penalized if we fail to comply with existing or future environmental laws and regulations. Our business is subject to PRC environmental protection laws and regulations which:

- o impose fees for the discharge of waste substances;
- o require the payment of fines and damages for serious environmental pollution; and
- o provide that the government may, at its discretion, close or suspend any facility which fails to comply with orders requiring it to cease or cure operations causing environmental damage.

17

We believe that all of our facilities and operations are in material compliance with the requirements of the relevant environmental protection laws and regulations. However, amendment of existing laws or regulations may impose additional or more stringent requirements. In addition, our compliance with such laws or regulations may require us to incur significant capital expenditures or other obligations or liabilities, which could create a substantial financial burden on us. For a further discussion of the environmental regulations in the PRC, see "Item 4--Information on the Company--Business Overview--Environmental Regulation."

Risks relating to the PRC

PRC economic and political conditions may adversely affect our operations. Most of our businesses, assets and operations are located in the PRC. The economic system of the PRC differs from the economies of most developed countries in many respects, including:

- o government investment;
- o level of development;
- o control of capital investment;
- o control of foreign exchange; and
- o allocation of resources.

The economy of the PRC has been undergoing a transformation from a planned economy to a market-oriented economy. In recent years the PRC government has implemented economic reform measures emphasizing decentralization, utilization of market forces in the development of the PRC economy and a higher level of management autonomy. These economic reform measures have and will continue to subject our businesses to some uncertainty. In the future, our operating results could be adversely affected by changes to the laws and regulations that govern our industry and changes in the PRC political and

Edgar Filing: CNOOC LTD - Form 20-F

economic systems.

The PRC economy has experienced significant growth in the past 25 years, but the growth has been uneven both geographically and among various sectors of the economy. Economic growth has also been accompanied by periods of high inflation. The PRC government has implemented various policies from time to time to restrain the rate of such economic growth, control inflation and otherwise regulate economic expansion. In addition, the PRC government has attempted to control inflation by controlling the prices of basic commodities. Severe measures or other actions by the PRC government, such as placing additional controls on prices of petroleum and petroleum products, could restrict our business operations and adversely affect our financial position.

Between March and June 2003, several countries, including China, experienced an outbreak of a new and highly contagious form of atypical pneumonia now known as "severe acute respiratory syndrome" or "SARS." The severity of the outbreak in certain municipalities, such as Beijing, and provinces, such as Guangdong Province, adversely affected general commercial activities. There could be other epidemics or recurrence of SARS in the future that negatively impact commercial activities in China.

Government control of currency conversion and future movements in exchange rates may adversely affect our operations and financial condition. A portion of our Renminbi revenue may need to be converted into other currencies by our wholly owned principal operating subsidiary in the PRC to meet our foreign currency obligations. We have substantial requirements for foreign currency, including:

- o debt service on foreign currency denominated debt;
- o overseas acquisitions of oil and gas properties;

18

- o purchases of imported equipment; and
- o payment of dividends declared in respect of shares held by international investors.

Our wholly owned subsidiary in the PRC may undertake current account foreign exchange transactions without prior approval from the State Administration for Foreign Exchange. It has access to current account foreign exchange so long as it can produce commercial documents evidencing such transactions and provided that they are processed through certain banks in China. Foreign exchange transactions under the capital account, including principal payments with respect to foreign currency denominated obligations, will be subject to the registration requirements of the State Administration for Foreign Exchange.

Since 1994, the conversion of Renminbi into Hong Kong and United States dollars has been based on rates set by the People's Bank of China, which are set daily based on the previous day's PRC interbank foreign exchange market rate and current exchange rates on the world financial markets. The PRC government has stated publicly that it intends to make Renminbi freely convertible in the future. However, we cannot predict when the PRC government will allow free conversion of Renminbi into foreign currencies. Renminbi devaluation and fluctuations in exchange rates may adversely affect the value, translated or converted into U.S. dollars or Hong Kong dollars, of our net assets, earnings and any declared dividends. Renminbi devaluation and exchange rate fluctuations

Edgar Filing: CNOOC LTD - Form 20-F

may adversely affect our results of operations and financial condition and may result in foreign exchange losses because of our substantial U.S. dollar denominated debts, expenses and other requirements. In addition, we may not be able to increase the Renminbi prices of our domestic sales to offset fully any depreciation of the Renminbi due to political, competitive or social pressures.

In 2003, we prepaid most of our loans denominated in Japanese yen. We also hedged the balance of these loans through currency swaps. For further information on foreign exchange risks, foreign exchange rates and hedging activities, see "Item 3--Key Information--Selected Financial Data" and "Item 11--Qualitative and Quantitative Disclosure about Market Risk."

Certain legal restrictions on dividend distribution may have a material adverse effect on our cash flows. We are a holding company. Our exploration, development, production and sales business is owned and conducted by various wholly owned subsidiaries, including CNOOC China Limited, our wholly foreign-owned enterprise in the PRC. Accordingly, our future cash flows will consist principally of dividends from our subsidiaries. The subsidiaries' ability to pay dividends to us is subject to various restrictions, including legal restrictions in the PRC that permit payment of dividends only out of net income determined in accordance with PRC accounting standards and regulations. In addition, under PRC laws, CNOOC China Limited is required to allocate at least 10% of its net profit to a reserve fund until the balance of the fund has reach 50% of its registered capital. Such reserve is not distributable as cash dividends. Therefore, there is a risk that we could not maintain sufficient cash flows due to these restrictions on dividend distribution.

The interpretation and enforcement of PRC laws and regulations is subject to some uncertainty. The PRC legal system is based on statutory law. Under this system, prior court decisions may be cited as persuasive authority but are not binding. Since 1979, the PRC government has been developing a comprehensive system of commercial laws and considerable progress has been made in the promulgation of laws and regulations dealing with economic matters, such as corporate organization and governance, foreign investments, commerce, taxation and trade. Because these laws, regulations and legal requirements are relatively new, and because of the limited volume of published cases and judicial interpretations and the non-binding nature of prior court decisions, the interpretation and enforcement of these laws, regulations and legal requirements involve some uncertainty.

The PRC government underwent substantial reforms after the National People's Congress meeting in March 2003. The PRC government has reiterated its policy of furthering reforms in the socialist market economy. No assurance can be given that these changes will not have an adverse effect on business conditions in China generally or on our business in particular.

Risks relating to our ADSs and shares

Additional shares or ADSs eligible for public sale could adversely affect the price of our shares or ADSs. Sales, or the real or perceived possibility of sales, of a significant number of additional shares in the public market could adversely affect prevailing market prices for our ADSs and shares. As of June 10, 2004, CNOOC, through its wholly owned subsidiary, CNOOC (BVI) Limited, held approximately 70.625% of our shares and the rest of our shares were held by public investors, including institutional and corporate investors. As of June 10, 2004, CNOOC (BVI) Limited had not sold any of its holdings of our shares. We cannot predict the effect, if any, that sales of our shares,

Edgar Filing: CNOOC LTD - Form 20-F

including sales of large positions held by institutional and corporate investors, or the availability of our shares for future sale, will have on the market price of our shares or ADSs.

We have entered into registration rights agreements with our strategic investor and corporate investors whereby we have agreed to register the securities of these investors if they so request. We have agreed to pay for the cost of any such registration and to indemnify these investors for certain liabilities that they may have under the Securities Act which relate to the registration statement that would have to be filed and the prospectus that would have to be delivered to purchasers, in the event of a resale by any such investor. There is a risk that we will be required to indemnify our strategic investor and corporate investors pursuant to the registration rights agreements.

20

ITEM 4. INFORMATION ON THE COMPANY

A. HISTORY AND DEVELOPMENT

Our legal and commercial name is CNOOC Limited. We were incorporated with limited liability on August 20, 1999 in Hong Kong under the Companies Ordinance of Hong Kong. Our business registration number in Hong Kong is 685974. Under the third section of our Memorandum of Association, we may do anything which we are permitted to do by any enactment or rule of law. Our head office is located at 65th Floor, Bank of China Tower, One Garden Road, Central, Hong Kong, and our telephone number is 852-2213-2500. We have appointed CT Corporation System, 111 Eighth Avenue, New York, New York 10011, as our agent for service of process.

The PRC government established CNOOC, our controlling shareholder, as the state-owned offshore petroleum company of China in 1982 under the Regulation of the People's Republic of China on Exploitation of Offshore Petroleum Resources in Cooperation with Foreign Enterprises, whereby CNOOC assumed overall responsibility for the administration and development of PRC offshore petroleum operations with foreign oil and gas companies. Prior to March 2003, CNOOC was regulated and supervised by the State Economic and Trade Commission. Since March 2003, the PRC government has undergone substantial reform. The State Economic and Trade Commission has been succeeded by the newly established State Development and Reform Commission.

Prior to CNOOC's internal business reorganization, which took effect as of October 1, 1999, CNOOC and its various subsidiaries and affiliates performed commercial and administrative functions, including:

- o exercising the exclusive right to cooperate with foreign partners in offshore petroleum exploration, development, production and sales activities, and taking up to a 51% or more participating interest in production sharing contracts;
- o organizing international bidding for offshore petroleum exploitation;
- o conducting independent exploration, development, production and sales activities in independently operated oil and gas fields offshore China;
- o awarding projects to and signing bilateral contracts with foreign partners for offshore petroleum exploitation;

Edgar Filing: CNOOC LTD - Form 20-F

- o reviewing and confirming appraisal reports and overall development plans required under production sharing contracts; and
- o obtaining from the PRC government all approvals, permits, licenses, consents and special policies necessary under production sharing contracts.

Reorganization

Pursuant to CNOOC's internal business reorganization in 1999, CNOOC transferred all of its then current operational and commercial interests in its offshore petroleum business to us. As a result, we and our subsidiaries are the only vehicle through which CNOOC engages in petroleum exploration, development, production and sales activities both within and outside China.

The assets and liabilities primarily relating to the offshore petroleum business that were transferred to us in the reorganization included:

- o 37 production sharing contracts and one geophysical survey agreement;
- o eight independent development and production projects;

21

- o a 30% interest in Shanghai Petroleum and Natural Gas Company Limited;
- o the land use rights to terminal facilities in Nanhai, Weizhou and the western part of the Bohai Bay; and
- o loans from, and swap agreements with, various PRC and foreign banks.

In addition, CNOOC transferred 917 employees to us to facilitate the transfer of the oil and natural gas businesses previously operated by CNOOC.

CNOOC retained its commercial interests in operations and projects not related to oil and gas exploration and production, including:

- o a petrochemical project in Huizhou, Guangdong Province;
- o a fertilizer plant in Hainan Province; and
- o a liquefied natural gas project in Guangdong.

CNOOC also retained all of its administrative functions, which it performed prior to the reorganization, including:

- o organizing international bidding for offshore petroleum exploitation;
- o awarding projects to and signing bilateral contracts with foreign partners for offshore petroleum exploitation;
- o approving any extension of the period for the completion of the appraisal work on petroleum discovery under the production

Edgar Filing: CNOOC LTD - Form 20-F

sharing contracts; and

- o submitting the overall development plans, reports of the oil and gas fields and the environmental impact statements related to the production sharing contracts to the PRC governmental authorities.

Undertakings

CNOOC has undertaken to us that:

- o we will enjoy the exclusive right to exercise all of CNOOC's commercial and operational rights under the PRC laws and regulations relating to the exploration, development, production and sales of the PRC offshore oil and natural gas;
- o it will transfer to us all of CNOOC's rights and obligations under any new production sharing contracts and geophysical exploration operations, except those relating to CNOOC's administrative functions;
- o neither CNOOC nor any of its affiliates will engage or be interested, directly or indirectly, in oil and natural gas exploration, development, production and sales in or outside the PRC;
- o we will be able to participate jointly with CNOOC in negotiating new production sharing contracts and to set out our views to CNOOC on the proposed terms of new production sharing contracts;
- o we will have unlimited and unrestricted access to all data, records, samples and other original data owned by CNOOC relating to oil and natural gas resources;

22

- o we will have an option, for which no consideration will be payable by us to CNOOC, to make any investment in liquefied natural gas projects that CNOOC has invested or proposes to invest, and CNOOC will at its own expense help us to procure all necessary government approvals needed for our participation in these projects; and
- o we will have an option to participate in other businesses related to natural gas in which CNOOC has invested or proposes to invest, and CNOOC will procure all necessary government approvals needed for our participation in such business.

The undertakings from CNOOC will cease to have any effect:

- o if we become a wholly owned subsidiary of CNOOC;
- o if our securities cease to be listed on any stock exchange or automated trading system; or
- o 12 months after CNOOC or any other PRC government-controlled entity ceases to be our controlling shareholder.

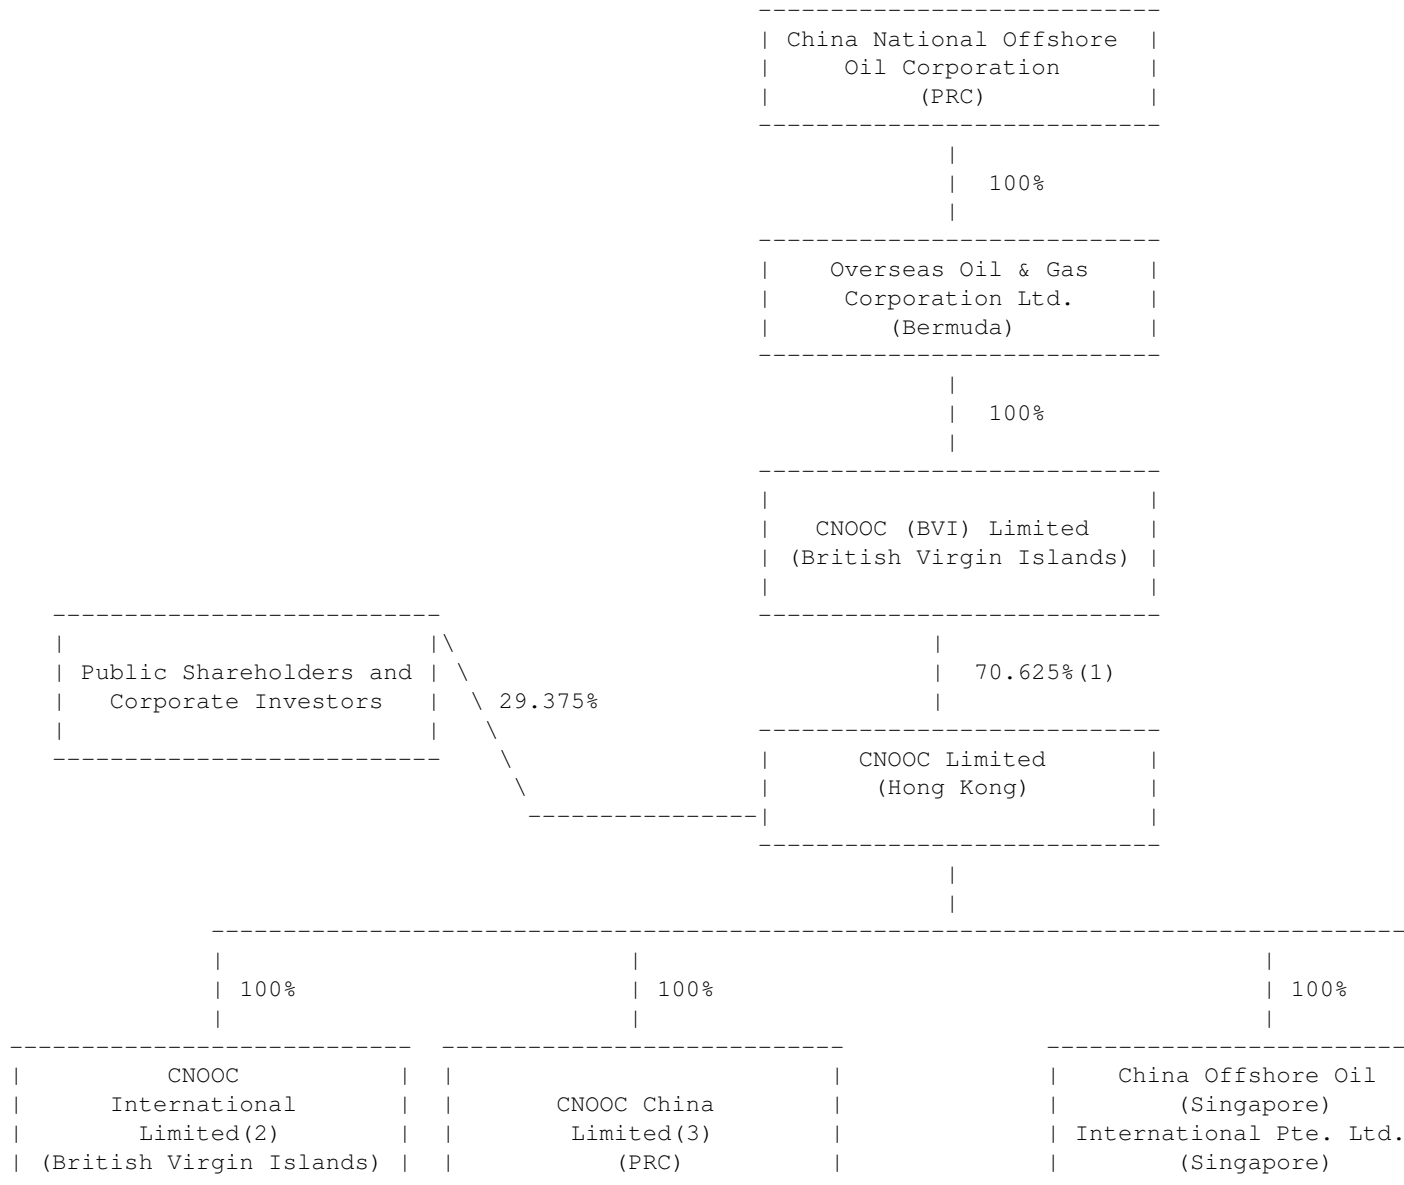

Corporate Structure

Edgar Filing: CNOOC LTD - Form 20-F

CNOOC indirectly owned or controlled an aggregate of approximately 70.625% of our shares as of June 10, 2004. There have been no changes to our corporate structure since such date. Accordingly, CNOOC continues to be able to exercise all the rights of a controlling shareholder, including electing our directors and voting to amend our articles of association. Although CNOOC has retained a controlling interest in us, the management of our business will be our directors' responsibility.

23

The following chart sets forth our controlling entities and our principal subsidiaries as of June 10, 2004.

Edgar Filing: CNOOC LTD - Form 20-F

- (1) In May 2004, we repurchased a total of 8,877,000 shares in the open market based on the general mandate approved by our shareholders on May 29, 2003. The repurchased shares have been cancelled. Due to the decrease of our total issued and outstanding shares, CNOOC (BVI) Limited's interest in us increased from 70.61% to 70.625%. For further details about our share buybacks, see "Item 16E--Purchases of Equity Securities by the Issuer and Affiliated Purchasers."
- (2) Owner of our overseas interests in petroleum exploration and production businesses and operations.
- (3) Owner of substantially all of our PRC petroleum exploration and production businesses, operations and properties.
- (4) Business vehicle through which we engage in sales and marketing activities in the international markets.
- (5) Include CNOOC Finance (2002) Limited, the financing vehicle through which we issued our US\$500 million 6.375% guaranteed notes due 2012, and CNOOC Finance (2003) Limited, the financing vehicle through which we issued our US\$200 million 4.125% guaranteed notes due 2013 and US\$300 million 5.5% guaranteed notes due 2033. Both finance companies are our wholly owned subsidiaries with our company as their sole corporate director.

Capital Expenditures

Our capital expenditures in 2001, 2002 and 2003 amounted to Rmb 4,342.6 million, Rmb 11,566.9 million and Rmb 12,372.5 million (US\$1,494.8 million), respectively. For the year 2004, we have budgeted approximately US\$1.8 billion for capital expenditures, approximately US\$247 million of which is budgeted for general exploration activities offshore China and approximately US\$1,251 million is budgeted for development activities offshore China. We expect to fund our capital expenditures with our cash flows from operations and our borrowings. For further details about our capital expenditures, see "Item 5--Operating and Financial Review and Prospects--Liquidity and Capital Resources--Capital Expenditures and Investments."

24

B. BUSINESS OVERVIEW

Overview

We are an oil and gas company engaged in the exploration, development, production and sale of crude oil and natural gas primarily offshore China. We are the dominant producer of crude oil and natural gas offshore China and the only company permitted to conduct exploration and production activities with international oil and gas companies offshore China. As of December 31, 2003, we had estimated net proved reserves of 2,128.5 million BOE, comprised of 1,436.1 million barrels of crude oil and condensate and 4,154.4 billion cubic feet of natural gas. For the year 2003, our net production averaged 306,464 barrels per day of crude oil, condensate and natural gas liquids and 291.0 million cubic feet per day of natural gas, which together totaled 356,729 BOE per day.

Our net proved reserves increased from 1,795.1 million BOE as of December 31, 1999 to 2,128.5 million BOE as of December 31, 2003 which represents a compound annual growth rate of 4.35%. Based on net proved reserves, we are one of the largest independent oil and gas exploration and production companies in the world. In the petroleum industry, an "independent" company owns oil and gas reserves independently of other downstream assets, such as refining

Edgar Filing: CNOOC LTD - Form 20-F

and marketing assets, whereas an integrated company owns downstream assets in addition to oil and gas reserves. As of December 31, 2003, approximately 57% of our net proved reserves were classified as net proved undeveloped. We plan to spend US\$1,251 million developing our reserves primarily offshore China and US\$247 million for independent exploration primarily offshore China in 2004.

We conduct exploration, development, production and sale activities through both independent operations and production sharing contracts with foreign partners. We have added to our reserves in recent years primarily through our independent operations. As of December 31, 2003, independent properties accounted for 55.7% of our total net proved reserves and independent net proved undeveloped reserves accounted for 50.1% of our total net proved undeveloped reserves. We are the operator of all of our independent producing properties. For the year ended December 31, 2003, production from our independent properties accounted for 44% of our total net production.

Through our controlling shareholder, CNOOC, we have the exclusive right to enter into contracts with international oil and gas companies to conduct exploration and production activities offshore China. Under these production sharing contracts, we have the sole right to acquire, at no cost, up to a 51% participating interest in any successful discovery offshore China made by our foreign partners. Our foreign partners can recover their exploration costs under the production sharing contracts only if a commercially viable discovery is made. As of December 31, 2003, we had approximately 29 foreign partners under our production sharing contracts offshore China, all of which are international oil and gas companies, including Unocal, Agip, BP, Burlington Resources, ChevronTexaco, ConocoPhillips, Devon Energy, Husky, Kerr-McGee, Newfield Exploration and Royal Dutch Shell. As of December 31, 2003, we were a party to 33 production sharing contracts and one joint study agreement. We are currently the operator or joint operator of most of the properties developed under our production sharing contracts. In the early years of our existence, we conducted most of our activities through production sharing contracts. Production sharing contracts have enabled us to develop technical and management expertise and provided us with the cash flows necessary to increase our independent exploration and production activities.

Natural gas is becoming an increasingly important part of our business strategy because of rapidly growing domestic demand. In view of the domestic natural gas supply shortfall forecasted by the Chinese government, we have continued to develop our natural gas reserves and invested in liquefied natural gas related upstream projects outside the PRC. We continue to explore for natural gas and develop natural gas properties. We have acquired interests in gas reserves located in Tangguh, Indonesia and entered into an agreement to acquire interests in gas reserves located in the North West Shelf of Australia. In addition, CNOOC has granted us an option to invest in liquefied natural gas projects or other natural gas related businesses in the PRC in which CNOOC has invested or proposes to invest, including three liquefied natural gas terminals being constructed in Guangdong, Fujian and Zhejiang, China.

25

Competitive Strengths

We believe that our historical success and future prospects are directly related to a combination of our strengths, including the following:

- o large proved reserve base with significant exploitation opportunities;

Edgar Filing: CNOOC LTD - Form 20-F

- o sizable operating area with demonstrated exploration potential;
- o successful independent exploration and development record;
- o competitive cost structure;
- o reduced risks and access to capital and technology through production sharing contracts;
- o strategic position in China's growing natural gas markets; and
- o experienced management team.

Large proved reserve base with significant exploitation opportunities. Based on net proved reserves as of December 31, 2003 and average net daily production for the year ended December 31, 2003, we had a reserve-to-production ratio of 16 years. As of December 31, 2003, approximately 57% of our net proved reserves were classified as net proved undeveloped. We expect our production to grow significantly as these undeveloped properties begin producing.

Sizable operating area with demonstrated exploration potential. The offshore China exploration area is approximately 1.3 million square kilometers in size, about twice as large as the U.S. Gulf of Mexico exploration area. Only limited exploration has been conducted in prospective natural gas regions of the Western South China Sea and the East China Sea. Since CNOOC's inception in 1982 to the end of 2003, a total of 721 exploration wells have been drilled offshore China, including 460 wildcat wells with a success rate of approximately 36%. Between the beginning of 1999 and December 31, 2003, we made 21 discoveries and foreign parties made 18 discoveries offshore China.

Successful independent exploration and development record. From the inception of CNOOC in 1982 to December 31, 2003, we achieved a success rate of approximately 46% on our 195 offshore China independent wildcat wells, while our foreign partners achieved a success rate of approximately 29% on their 265 offshore China wildcat wells. As of December 31, 2003, independent properties accounted for 55.7% of our total net proved reserves and independent net proved undeveloped reserves accounted for 50.1% of our total net proved undeveloped reserves. Between late 1995 and the end of 2003, we completed 10 of our major independent development projects on time and under budget.

Competitive cost structure. For the year ended December 31, 2003, our total offshore China lifting costs were US\$4.66 per BOE. Total lifting costs for independent operations offshore China were US\$4.78 per BOE during the same period. Lifting costs consist of operating expenses and production taxes. We have kept our offshore China lifting costs low through various measures including more efficient use of existing offshore facilities, the linking of employee bonuses to cost reduction and the adoption of new technology in our operations. Our average finding and development cost for the three years ended December 31, 2003 was US\$4.68 per BOE. We believe that such cost structure allows us to compete effectively even in a low crude oil price environment.

Reduced risks and access to capital and technology through production sharing contracts. Production sharing contracts help us minimize our offshore China finding costs, exploration risks and capital requirements because our foreign partners are responsible for all costs associated with exploration. Our foreign partners recover their exploration costs only if a commercially viable discovery is made.

Strategic position in China's growing natural gas markets. The proximity of our natural gas reserves to the major demand areas in the coastal regions of China provides us with a competitive

advantage over other natural gas suppliers in China, whose natural gas reserves are located primarily in northwest and southwest China. We have natural gasfields near many of China's rapidly growing coastal areas, including Hong Kong, Shanghai and Tianjin. We have also acquired interests in gas reserves located in Tangguh, Indonesia and entered into an agreement to acquire interests in gas reserves located in the North West Shelf of Australia. In addition, CNOOC has granted us an option to invest in liquefied natural gas projects or other natural gas related businesses in the PRC in which CNOOC has invested or proposes to invest, including three liquefied natural gas terminals in Guangdong, Fujian and Zhejiang, China. For further information, see "--Natural Gas Business."

Experienced management team. Our senior management team has extensive experience in the oil and gas industry, and most of our executives have been with the CNOOC group since its inception in 1982. We evolved from a company heavily reliant on production sharing contracts with foreign partners to a company with a balance of both independent and production sharing contract operations. Our management team and staff have had the opportunity to work closely with foreign partners both within and outside China. We have implemented international management practices including incentive compensation schemes for our employees. In addition, we have adopted a share option scheme for our employees. See "Item 6--Directors, Senior Management and Employees--Share Ownership."

Business Strategy

We intend to continue expanding our oil and gas exploration and production activities and, where appropriate, to continue making strategic investments in natural gas businesses. While our expansion strategy will continue to focus primarily on offshore China, we may also consider overseas acquisition opportunities that may be presented to us. The principal components of our strategy are as follows:

- o increase production primarily through the development of our net proved undeveloped reserves;
- o add to our reserves through independent exploration and production sharing contracts;
- o capitalize on the growing demand for natural gas in China;
- o selectively pursue acquisitions to ensure long-term production growth, geographical reserves risk diversification, and to further our natural gas strategy;
- o maintain operational efficiency and low production costs; and
- o maintain financial flexibility through conservative financial practices.

Increase production primarily through the development of our net proved undeveloped reserves. As of December 31, 2003, approximately 57% of our proved reserves were classified as net proved undeveloped, which gives us the opportunity to achieve substantial production growth even without additional reserve discoveries, assuming that we will be able to develop these reserves more quickly than we deplete our currently producing reserves. We are currently undertaking a number of large development projects located primarily in the

Edgar Filing: CNOOC LTD - Form 20-F

Bohai Bay and the Western South China Sea, which will substantially increase production. We plan to spend approximately US\$1,251 million in 2004 to develop our net proved undeveloped reserves offshore China.

Add to our reserves through independent exploration and production sharing contracts. We plan to concentrate our independent exploration efforts in existing operating areas with a particular emphasis on natural gas. We plan to spend approximately US\$247 million in 2004 on independent exploration activities. We plan to augment independent exploration efforts and reduce capital requirements and exploration risks by continuing to enter into production sharing contracts with foreign partners. We currently have identified 25 drilling prospects. In 2004, we plan to drill approximately 48.3 exploration wells, acquire approximately 15,200 kilometers of 2D seismic data and acquire approximately 2,900 square kilometers of 3D seismic data independently. Our foreign partners under existing production sharing contracts plan to drill approximately 15 exploration wells, acquire approximately

27

2,505 kilometers of 2D seismic data and acquire approximately 250 square kilometers of 3D seismic data in 2004.

Capitalize on the growing demand for natural gas in China. The Chinese government forecasts significant growth in domestic natural gas demand and has promoted the use of natural gas as a clean and efficient fuel. We plan to capitalize on this growth potential through the following initiatives:

- o continue to develop natural gasfields and focus independent exploration efforts on natural gas;
- o evaluate whether to exercise the options to invest in the planned Guangdong, Fujian and Zhejiang liquefied natural gas projects; and
- o evaluate investment opportunities in related natural gas businesses that will help develop markets for our natural gas production.

To the extent we invest in businesses and geographic areas where we have limited experience and expertise, we plan to structure our investments as alliances or partnerships with parties possessing the relevant experience and expertise.

Selectively pursue acquisitions to ensure long-term production growth, geographical reserves risk diversification, and to further our natural gas strategy. We plan to make selective acquisitions that will meet one or more of our strategic objectives of enhancing our production profile, diversifying our reserve base and geographic risk profile and furthering our natural gas strategy. In addition, we evaluate acquisition opportunities based on our expected economic return criteria. In February 2003, we acquired a 12.5% interest, which was increased to 16.96% a year later, in Indonesia's Tangguh LNG project. In May 2003, we signed an agreement with the existing North West Shelf partners to acquire an aggregate interest of 5.3% in the upstream production and reserves of the North West Shelf project for a consideration of US\$348 million plus an upfront tariff payment relating to certain ING processing facilities amounting to US\$180 million. In October 2003, we entered into an agreement with the participants in the Gorgon Joint Venture in Australia to purchase certain equity stake in the Gorgon gas development, and our controlling

Edgar Filing: CNOOC LTD - Form 20-F

shareholder, CNOOC, will arrange to purchase LNG directly from Gorgon. We believe these upstream acquisitions of gas reserves will enhance our natural gas strategy by facilitating the supply of LNG to China's rapidly growing coastal markets as well as provide us with access to other gas-rich basins for further growth opportunities.

Maintain operational efficiency and low production costs. We will continue to maintain our low cost structure and operational efficiency through the following initiatives:

- o Apply up-to-date drilling, production and offshore engineering technology to our operations through our oilfield service providers; this technology includes long-range extension wells, multilateral wells, advanced formation testing, multi-phase transmission, monolayer pipeline and subsea technology, minimal structure techniques and suction foundation technology;
- o Proactively manage service contracts and cooperate with our oilfield service providers to improve exploration efficiency and reduce exploration costs; this measure includes using operational techniques such as cluster drilling, which reduces drilling time by one-third and lowers the related costs by up to 40%; and
- o Maintain high production volume levels on an individual well basis and increase the productivity of producing wells.

Maintain financial flexibility through conservative financial practices. Although we issued US\$500 million guaranteed notes in 2002 and US\$500 million guaranteed notes in 2003 in order to take advantage of the prevailing low interest rate environment during this period, we will continue to emphasize prudent financial management practices. Currently, we have a strong financial profile with a low leverage ratio. We intend to maintain our financial strength by managing key measures such as

28

capital expenditures, cash flows and fixed charge coverage. We intend to actively manage our accounts receivable and inventory positions to enhance liquidity and improve profitability. We will continue to monitor our foreign currency denominated debt and to minimize our exposure to foreign exchange rate fluctuations.

Selected Operating and Reserves Data

The following table sets forth our operating data and our net proved reserves as of the time and for the periods indicated.

	Year ended December	
	2001	2002
Net Production:		
Oil (daily average bbls/day).....	228,873	298,625
Gas (daily average mmmcf/day).....	195.0	272.6
Oil equivalent (BOE/day).....	261,379	346,639

Edgar Filing: CNOOC LTD - Form 20-F

Average net realized prices:		
Oil (per bbl).....	US\$23.34	US\$24.35
Gas (per mcf).....	3.08	2.98
Offshore China lifting costs (per BOE) (1).....	4.16	3.92
Overseas lifting costs (per BOE) (1) (2).....	--	9.06
Three-year average finding and development costs (per BOE) (3).....	US\$4.86	US\$4.59
Net Proved Reserves (end of period):		
Oil (mmbbls).....	1,245.9	1,424.4
Gas (bcf).....	3,247.6	3,547.9
Total (million BOE).....	1,787.1	2,015.8
Proved developed reserves (million BOE).....	710.0	794.3
Annual reserves replacement ratio.....	131%	281%
Estimated reserves life (years).....	18.7	15.9
Present value of estimated future net revenues before income taxes (discounted at 10%) (million Rmb).....	69,860	140,798
Standardized measure of discounted future net cash flow (million Rmb).....	51,082	100,141

- (1) Includes operating expenses and production taxes. During the years ended December 31, 2001, our overseas operations were not material and our overseas lifting costs were included in our offshore China lifting costs for those years.
- (2) Overseas lifting costs reflect lifting costs associated with our operations in Indonesia and are calculated using the net entitlement method.
- (3) The three-year average finding and development costs for each of 2001, 2002 and 2003 are calculated by taking the sum of total costs incurred for exploration and development of oil and gas fields in immediately preceding three-year period and dividing it by the sum of the reserve additions, extensions and revisions for the same three years.

At our request, Ryder Scott Company, independent petroleum engineering consultants, carried out an independent evaluation of the reserves of selected properties as of December 31, 2001, 2002 and 2003. For further information regarding our reserves, see "Item 3--Key Information--Risk Factors--Risks relating to our business--The oil and gas reserve estimates in this annual report may require substantial revision as a result of future drilling, testing and production" and "--Oil and Natural Gas Reserves."

29

The following table sets forth summary information with respect to our estimated net proved reserves of crude oil and natural gas as at the dates indicated.

	Net proved reserves at December 31,		Net prov at Decemb	
	2001	2002	Developed	Unde

Edgar Filing: CNOOC LTD - Form 20-F

In 2003, our controlling shareholder, CNOOC, signed seven petroleum contracts as follows:

New Oil Contracts Signed in 2003					
No.	Basin	Block	Partner	Interest of Partners (%)	Date of Agreement
1	Bohai	09/06	Kerr-McGee	100%	6/17/03
2	East China Sea	Chunxiao	Shell Unocal Sinopec (consignor)	20 20 30	8/19/03
3	East China Sea	Baoyunting	Shell Unocal Sinopec (consignor)	20 20 30	8/19/03
4	East China Sea	12/21	Shell Unocal Sinopec (consignor)	50 50	8/19/03
5	East China Sea	27/05	Shell Unocal Sinopec (consignor)	50 50	8/19/03
6	East China Sea	20/14	Shell Unocal Sinopec (consignor)	50 50	8/19/03
7	East China Sea	04/35	Husky	100%	10/27/03

31

Exploration and Production

Summary

We currently conduct exploration, development and production activities primarily in four areas offshore China:

- o the Bohai Bay;
- o the Western South China Sea;
- o the Eastern South China Sea; and
- o the East China Sea.

[GRAPHIC OMITTED]

In addition, we hold several equity interests in oil and gas properties in Indonesia and Australia. See "--Overseas Activity," "--Natural Gas Business--Overseas Activity" and "Item 5--Operating and Financial Review and

Edgar Filing: CNOOC LTD - Form 20-F

Prospects--Operating Results--Acquisitions and Overseas Activities."

As of December 31, 2003, we had estimated net proved reserves of 2,128.5 million BOE, comprised of 1,436.1 million barrels of crude oil and condensate and 4,154.4 billion cubic feet of natural

32

gas. As of December 31, 2003, we had interests in 29 producing properties and 34 properties under development and appraisal offshore China. We are the operator or joint operator of 17 oil and gas properties under production. In 2003, three properties offshore China commenced production. For the year 2003, net production averaged 306,464 barrels per day of crude oil, condensate and natural gas liquids and 291.0 million cubic feet per day of natural gas, which together totaled 356,729 BOE per day, representing a 3% increase over the annual average daily production for the year 2002.

We conduct our exploration, development and production activities independently as well as through production sharing contracts and geophysical survey agreements with foreign partners. A production sharing contract contains provisions regarding the exploration, development, production and operation of an oil and gas field and the formula through which foreign partners may recover exploration, development and production costs and share in the production after the successful development of petroleum reserves. See "--Production Sharing Contracts--Offshore China" for a detailed discussion of these arrangements.

We also conduct exploration efforts through geophysical survey agreements with foreign companies. These geophysical survey agreements allow international oil and gas companies to conduct geophysical studies before deciding whether to negotiate a production sharing contract with CNOOC. If a foreign partner decides to enter into a production sharing contract with CNOOC, the costs and expenses that the foreign partner incurs in conducting geophysical exploration may be recovered during the production period by the foreign partner, subject to our confirmation. See "--Geophysical Survey Agreements" for a detailed discussion of these arrangements. As of December 31, 2003, we were not a party to any geophysical survey agreements, although we may enter into such agreements in the future.

The offshore China exploration area is approximately 1.3 million square kilometers in size. We currently have rights to operate independently or in conjunction with international oil and gas companies in 143 exploration blocks covering approximately 670,635 square kilometers. We have access to 841,090 kilometers of 2D seismic data and 37,054 square kilometers of 3D seismic data. From the beginning of CNOOC's operations in 1982 to December 31, 2003, a total of 721 exploration wells have been drilled, including 460 wildcat wells, with a success rate of approximately 36%. During this period we achieved a success rate of approximately 46% on 195 exploration wildcat wells which were drilled independently, while foreign partners achieved a success rate of approximately 29% on their 265 exploration wildcat wells.

Oil and Natural Gas Reserves

We have a large base of net proved undeveloped reserves as a result of our exploration successes. As of December 31, 2003, approximately 57% of net proved reserves were classified as net proved undeveloped. We are currently undertaking a number of large development projects located primarily in the Bohai Bay and the Western South China Sea and expect these projects to substantially increase our production.

Edgar Filing: CNOOC LTD - Form 20-F

Our net proved reserves consist of our percentage interest in total reserves, comprised of (i) our 100% interest in our independent oil and gas properties (excluding the proved reserves attributable to our associated company), (ii) our participating interest in the properties covered under our production sharing contracts in the PRC and overseas, and (iii) our 30% interest in the proved reserves of our associated company, less (i) an adjustment for our share of royalties payable to the PRC government under our production sharing contracts in the PRC, (ii) an adjustment for production allocable to foreign partners under our production sharing contracts in the PRC as reimbursement for exploration expenses attributable to our working interest, and (iii) adjustments for share oil payable under our overseas production sharing contracts to foreign governmental designees, and for any domestic market obligation under which the contractor must sell a specified percentage of its crude oil to the local overseas market at a reduced price. Net proved reserves do not include any deduction for production taxes, which are included in our operating expenses. Net production is calculated in the same way as net proved reserves.

33

We explore for and develop our reserves offshore China under exploration and production licenses granted by the PRC government. The PRC government generally grants exploration licenses for individual blocks while production licenses generally are granted for individual fields. We have production licenses for all of our proved reserves.

At our request, Ryder Scott Company, an independent petroleum engineering consultant, evaluated our selected properties as of December 31, 2001, 2002 and 2003. For further information regarding our reserves, see "Item 3--Key Information--Risk Factors--Risks relating to our business--The oil and gas reserves data in this annual report may require substantial revisions as a result of future drilling, testing and production."

The following tables set forth net proved crude oil reserves, net proved natural gas reserves and total net proved reserves, as of the dates indicated, for our independent and production sharing contract operations in each of our operating areas.

Principal Oil and Gas Regions

Bohai Bay

Edgar Filing: CNOOC LTD - Form 20-F

The Bohai Bay holds our largest net proved reserves and, for the year ended December 31, 2003, was our largest producing area for crude oil and natural gas. The Bohai Bay exploration area is located in the northeastern part of China, approximately 200 kilometers east of Beijing and is approximately 58,100 square kilometers in size. As of December 31, 2003, we had rights to operate, independently or in conjunction with international oil and gas companies, in 15 blocks covering approximately 43,501 square kilometers of the total Bohai Bay exploration area. Our operating area contains numerous oil and gas fields in shallow waters with typical depths ranging from 10 to 30 meters. The crude oil is generally of heavy gravity ranging from 15 to 20 degrees API. As of December 31, 2003, net proved reserves in this region were 990.4 million barrels of crude oil and condensate and 566.6 billion cubic feet of natural gas, totaling 1,084.8 million BOE and representing approximately 51% of our total net proved reserves.

The Bohai Bay has been a prolific area with significant oil discoveries in recent years and will continue to be one of our principal areas for exploration in the near future. Six discoveries were made in this area in 2003, including three by us and three by our foreign partners.

39

The following table sets forth principal exploration blocks under an exploration license to us for both our independent operations and our production sharing contracts in the Bohai Bay as of December 31, 2003. All exploration licenses expiring prior to June 14, 2004 are being renewed.

Block	Approximate block area (km ²)	Partner (s)	Exploration Lic ----- Commencement date
Independent			
Middle of Bohai Bay	5,310	--	08/16/02
Southern Bohai Bay	3,799	--	10/31/02
Western Bohai Bay	1,907	--	5/29/03
Western Liaodong Bay	3,344	--	03/31/00
Eastern Liaodong Bay	2,829	--	07/02/01
Eastern Bozhong	1,861	--	05/30/02
06/17	2,586	--	02/20/03
02/31	4,990	--	05/29/03
Bohai 09/11	843	--	04/05/02

Edgar Filing: CNOOC LTD - Form 20-F

05/36	1,250	Kerr-McGee, Newfield, Sino-American Energy	02/10/02
Eastern Bohai 11/05	3,601	ConocoPhillips	08/16/02
Western Bohai 11/05	4,076	ConocoPhillips	02/10/02
11/19	3,185	ChevronTexaco	05/29/03
09/18	2,226	Kerr-McGee	04/04/01
04/36	1,694	Kerr-McGee, Sino-American Energy	12/31/01

During the year ended December 31, 2003, we acquired 1,763.7 square kilometers of 3D seismic data and our foreign partners acquired 310.8 square kilometers of 3D seismic data in the Bohai Bay. We have independently acquired an aggregate of approximately 171,100 kilometers and 7,991 square kilometers of 2D and 3D seismic data, respectively, in the Bohai Bay. We also have access through our production sharing contract partners to approximately 66,903 kilometers and 8,786 square kilometers, respectively, of additional 2D and 3D seismic data in this area. During the year of 2003, we drilled 11 wildcat wells, three of which were successful, and five appraisal wells, three of which were successful. During the same period, our production sharing contract partners drilled seven wildcat wells, three of which were successful, and six appraisal wells, four of which were successful. Our exploration capital expenditures for 2003 were US\$61.5 million. In 2004, we plan to drill 25 exploration wells in the Bohai Bay.

For 2003, net production in this region averaged 129,506 barrels per day of crude oil, condensate and natural gas liquids and 47.1 million cubic feet per day of natural gas, representing approximately 38.5% of our total daily net production. Our development capital expenditures for the Bohai Bay for 2003 were US\$586.6 million.

40

The following table sets forth our principal oil and gas properties under production in the Bohai Bay as of December 31, 2003.

Block/Field	Operator(s)	Partner(s)	Our interest	Average net production for year 2003 (BOE per day)	Net p as o

Western South China Sea

The Western South China Sea has been our most important natural gas producing area, and was our second largest producing area for the year ended December 31, 2003. The Western South China Sea is located in the southern part of China southwest of Hong Kong and is approximately 712,480 square kilometers in area. The most important exploration areas in the Western South China Sea are the Beibu Gulf, the Yinggehai Basin, and the Qiongdongnan Basin. As of December 31, 2003, we had rights to operate, independently or in conjunction with international oil and gas companies, in 33 blocks covering approximately 178,034 square kilometers of the Western South China Sea exploration area. Typical water depths in this region range from 40 meters to 120 meters. The crude oil produced is of medium to light gravity, ranging from 27 to 41 degrees API. As of December 31, 2003, we had net proved reserves of 173.7 million barrels of crude oil and condensate and 2,564.0 billion cubic feet of natural gas in this region, totaling 601.0 million BOE and representing 28.24% of our total net proved reserves.

The Western South China Sea is one of our least explored areas but will become increasingly important as the markets for natural gas in the southern part of China develop. During the year ended December 31, 2003, we drilled three wildcat wells, one of which was successful, and two appraisal wells, two of which were successful. Our production sharing contract partners drilled one wildcat well and one appraisal well.

42

The following table sets forth the principal exploration blocks under an exploration license to us for both our independent operations and our production sharing contracts in the Western South China Sea as of December 31, 2003.

During the year ended December 31, 2003, we acquired 7,460.8 kilometers of 2D seismic data and our foreign partners acquired 983.2 square kilometers of 3D seismic data in the Western South China Sea. We have independently acquired an aggregate of approximately 167,013 kilometers and 7,010 square kilometers of independent 2D and 3D seismic data, respectively, in the Western South China Sea. We also have access through our production sharing contract partners to approximately 106,900 kilometers and 4,656 square kilometers of additional 2D and 3D seismic data, respectively, in this area. Our exploration capital expenditures for the Western South China Sea for 2003 were US\$33.2 million. In 2004, we plan to drill twelve exploration wells in the Western South China Sea area.

For the year ended December 31, 2003, net production averaged 60,944 barrels per day of crude oil, condensate and natural gas liquids and 127.8

Edgar Filing: CNOOC LTD - Form 20-F

million cubic feet per day of natural gas, representing 23.6% of our total daily net production. Our development capital expenditures for the Western South China Sea for 2003 were US\$160.6 million.

43

The following table sets forth the principal oil and gas properties in the Western South China Sea area that were under production as of December 31, 2003.

Eastern South China Sea

The Eastern South China Sea is currently one of our most important oil producing areas in terms of its contribution to our total production and sales. The Eastern South China Sea exploration area is located in the southern part of China, directly southeast of Hong Kong, and is approximately 174,420 square kilometers in size. As of December 31, 2003, we had rights to operate, independently or in conjunction with international oil and gas companies, in 38 blocks covering approximately 193,754 square kilometers in the Eastern South China Sea exploration area. This area includes the important Pearl River Mouth Basin. Typical water depths in this region range from 100 meters to 120 meters. The crude oil produced is of medium to light gravity, ranging from 30 to 40 degrees API. As of December 31, 2003, we had net proved reserves of 154.8 million barrels of crude oil and condensate and 548.2 billion cubic feet of natural gas in this region, totaling 246.1 million BOE and representing approximately 11.6% of our total net proved reserves.

44

During the year ended December 31, 2003, we drilled four wildcat wells, two of which were successful, and three appraisal wells, all of which were successful. Our production sharing contract partners drilled three wildcat wells.

The following table sets forth the principal exploration blocks that are under an existing exploration license or pending exploration license to us for both our independent operations and our production sharing contracts in the Eastern South China Sea as of December 31, 2003.

(1) Exploration license is being renewed.

For the year ended December 31, 2003, we acquired 4,144.3 kilometers of 2D seismic data, while our foreign partners acquired 1,562.4 kilometers of 2D seismic data and 344.9 square kilometers of 3D seismic data in the Eastern South China Sea area. We have an aggregate of approximately 59,745 kilometers of independent 2D seismic data and 1,330 square kilometers of 3D seismic data in the Eastern South China Sea. We also have access through our production sharing contract partners to approximately 109,260 kilometers and 6,430 square kilometers of additional 2D and 3D seismic data, respectively, in this area. Our exploration capital expenditures for the Eastern South China Sea for 2003 were US\$38.0 million. We plan to drill seven exploration wells in the Eastern South China Sea in 2004.

For the year ended December 31, 2003, net production averaged approximately 72,981 barrels per day of crude oil, representing approximately 20.5% of our total daily net production. Our development capital expenditures

Edgar Filing: CNOOC LTD - Form 20-F

for this region for 2003 were US\$230.2 million.

45

East China Sea

The East China Sea is the least explored area of our four principal regions offshore China, and an area that we expect to become an important natural gas production base in the future. The East China Sea is approximately 339,580 square kilometers in size and is located east of Shanghai. As of December 31, 2003, we had rights to operate, independently or in conjunction with international oil and gas companies, in 57 blocks (excluding the Pinghu block) covering approximately 255,347 square kilometers of the total East China Sea. We also own a 30% working interest in the Xihu Trough area within the East China Sea. We and our partners, Sinopec, Pecten Orient Company of the United States (a subsidiary company of Shell) and Unocal reached an agreement on August 19, 2003 to explore, develop and market natural gas, oil and condensate in the East China sea. The agreement comprises three exploration and two

46

development contract areas of the Xihu Trough covering approximately 22,000 square kilometers. The partners plan to explore actively in the area. Foreign partners will assume 100% risk during the exploration stage. The first development under the contracts will be in the Chunxiao development area which is expected to come on stream in mid 2005. The total block area of the Xihu Trough is approximately 59,565 square kilometers. Typical water depths in this region are approximately 90 meters and the crude oil and condensate are of light gravity. As of December 31, 2003, our net proved reserves in the Xihu Trough were 9.3 million barrels of crude oil and condensate and 226.6 billion cubic feet of natural gas, totaling 47.1 million BOE and representing 2.4% of our total net proved reserves. We acquired our interest in the project from CNOOC and is the operator of the project.

During the year ended December 31, 2003, we started drilling one wildcat well in the East China Sea Area.

The following table sets forth the principal exploration blocks under an existing exploration license or pending exploration license to us for both our independent operations and our production sharing contracts in the East China Sea as of December 31, 2003.

Edgar Filing: CNOOC LTD - Form 20-F

(1) This field is under license to the Shanghai Petroleum and Natural Gas Company in which we have a 30% interest.

Overseas Activity

In early 2003 and 2004, we acquired interests in the Tangguh LNG project located in Indonesia. The Tangguh LNG partners have signed contracts to provide liquefied natural gas to South Korea and North America. For further details of these interests, see "--Natural Gas Business--Overseas Activity."

Edgar Filing: CNOOC LTD - Form 20-F

In May 2003, we signed an equity sale and purchase agreement with the existing North West Shelf partners to acquire interests in natural gas reserves located in the North West Shelf of Australia. See "--Natural Gas Business--Overseas Activity."

In April 2002, our wholly owned subsidiary, CNOOC Southeast Asia Limited, acquired subsidiaries in Indonesia formerly owned by Repsol YPF, S.A. These Indonesian subsidiaries together hold a portfolio of interests in oil and gas production sharing and technical assistance contracts in areas located offshore and onshore Indonesia. The main businesses of the Indonesian subsidiaries are the exploration, development and production of oil and gas offshore and onshore Indonesia. Their main assets comprise a portfolio of interests in four production sharing contracts and a technical assistance contract in that region. We estimate that our net proved reserves of the assets as of December 31, 2003 were approximately 136.7 million BOE.

The interests owned by the Indonesian subsidiaries comprise the following assets:

- o South East Sumatra Production Sharing Contract. The Indonesian subsidiaries own a 65.3% interest in the South East Sumatra production sharing contract. This contract area covers approximately 8,100 square kilometers located offshore Sumatra and is the largest of the assets held by the Indonesian subsidiaries. It is operated and majority-owned by us. It is also one of the largest offshore oil developments in Indonesia and has produced more than one billion barrels of oil in over 20 years of production. The concession expires in 2018.

48

- o Offshore North West Java Production Sharing Contract. The Indonesian subsidiaries own a 36.7% interest in the Offshore North West Java production sharing contract. This contract area covers approximately 13,800 square kilometers in the Southern Java Sea, offshore Jakarta and has produced more than one billion BOE in over 20 years of production. It is operated by a member of the BP group and currently produces crude oil and natural gas. Its natural gas is sold to the Indonesia State Electric Company and the Indonesia State Gas Utility Company. The concession expires in 2017.
- o West Madura Production Sharing Contract and Poleng Technical Assistance Contract. These subsidiaries own a 25.0% interest in the West Madura production sharing contract and a 50.0% interest in the Poleng technical assistance contract. These contract areas are located offshore Java, near the island of Madura and the Java city of Surabaya and cover approximately 1,600 square kilometers combined. Kodeco Energy Company is the operator for the West Madura production sharing contract and Korea Development Company is the operator for the Poleng technical assistance contract, each assisted by certain of the Indonesian subsidiaries. These contract areas currently produce crude oil and natural gas. Their natural gas is sold to the Indonesia State Electric Company. The West Madura production sharing contract expires in May 2011. The Poleng technical assistance contract expires in December 2013. Three new oil and gas discoveries were made in this area in 2003.
- o Blora Production Sharing Contract. The Indonesian subsidiaries own a 16.7% interest in the Blora production sharing contract. This

Edgar Filing: CNOOC LTD - Form 20-F

contract area lies entirely onshore Java and covers an area of approximately 4,800 square kilometers. There has been no production of crude oil or natural gas from this concession. The current operator is Coparex Blora. The concession expires in 2026.

The remaining interests in the above assets at the time of our acquisition were owned by independent third parties, including Lundin Petroleum, BP, Kodeco, Kalila Energy, BG Group, Pertamina, INPEX, Kanematsu, Nissho Iwai, Nisseki Mitsubishi, Paladin Resources, C. Itoh and Co. and Amerada Hess.

In addition to our Indonesian subsidiaries and the acquisition of interests in the Tangguh LNG project, we have a 39.5% participating interest in a production sharing contract in the Malacca Strait in Indonesia.

As of December 31, 2003, our net proved reserves in our overseas properties were 136.5 million barrels of crude oil. For 2003, net production from our overseas properties averaged 57,477 barrels per day of crude oil, condensate and natural gas liquids, representing approximately 16% of our total daily net production. Our interests in the production sharing contracts are held by our wholly owned subsidiaries.

We currently conduct all of our international oil sales through China Offshore Oil (Singapore) International Pte. Ltd., our wholly owned Singapore subsidiary. In the past, this subsidiary also engaged in oil trading activities.

49

Natural Gas Business

Natural gas is becoming an increasingly important part of our business strategy. We intend to exploit our natural gas reserves to meet rapidly growing domestic demand for natural gas. Because of a domestic natural gas shortfall forecasted by the Chinese government, we have made strategic investments in liquefied natural gas projects outside the PRC and may continue to do so in the future.

PRC Activity

CNOOC, our controlling shareholder, has granted us an option to invest in liquefied natural gas projects or other natural gas related business in which CNOOC has invested or proposes to invest. The terms of this option require us, if we exercise the option, to reimburse CNOOC for any contribution CNOOC has made with respect to the facility together with interest calculated at the prevailing market rate.

Guangdong LNG Facility. CNOOC is currently engaged in a project to build China's first proposed liquefied natural gas import facility in Guangdong Province in southern China. We have not entered into any negotiations with CNOOC on the detailed terms under which we may acquire CNOOC's interest in this facility. CNOOC has committed to take a 33% ownership interest in the project. Other partners include Hongkong Electric Holding Company and Hong Kong & China Gas Company Limited, each committed to 3% ownership interests, and five customers of the proposed facility who have collectively committed to a 31% ownership interest. Through a competitive selection process, BP Global Investment Limited was selected as the foreign partner to take the remaining 30% interest in the project.

The project involves the construction of a receiving terminal with capacity of three million tonnes per year, a 215-kilometer trunkline and two branch trunklines with a total length of 111 kilometers. Project construction began in the third quarter of 2003. The facility is scheduled to commence operations in 2006. The total cost of the facility is estimated to be approximately US\$900 million. CNOOC will help us procure all necessary government approvals for our participation in this project should we exercise our option. We are currently evaluating the exercise of this option and may exercise it at any time.

Fujian Development. In October 2001, CNOOC signed an agreement with the Fujian provincial government on natural gas market development in Fujian Province. The agreement provides for a joint

investment commitment of increasing natural gas supply and gas market development in Fujian Province by both parties. Both parties are committed to sourcing gas, including liquefied natural gas, from all viable sources, including from offshore production and overseas. The parties also agreed to invest in gas-fired power plants and related infrastructure. We have the option to take CNOOC's working interest in the project and have acquired an interest in the Tangguh LNG project in Indonesia, which will supply liquefied natural gas to this project. In August 2002, CNOOC announced that China's

Edgar Filing: CNOOC LTD - Form 20-F

second LNG terminal would be built in Fujian by CNOOC and its partners. CNOOC owns a 60% interest in the project. Construction for the project began in the third quarter of 2003. It is planned to commence operation in 2007, with an initial annual capacity of 2.6 million tonnes of LNG.

Zhejiang Development. In September 2001, CNOOC signed an agreement with Zhejiang Provincial Energy Group Company Limited and Zhejiang Southeast Electric Power Company Limited to invest in a joint venture to develop an intra-provincial natural gas distribution network. CNOOC holds a 37% equity interest in the joint venture company. The business scope of the joint venture includes the construction, operation and management of natural gas pipelines, the intra-provincial wholesale and distribution of natural gas, and the development of gas-fired power plants and other natural gas related infrastructure and projects. In March 2004, CNOOC signed an agreement with Zhejiang provincial government to jointly develop China's third LNG terminal in Zhejiang. The joint development will include construction of an LNG re-gasification terminal, a gas trunk line and a gas fired power plant. CNOOC is expected to take a 51% interest in the project.

Shandong Pipeline. In September 2001, CNOOC signed an agreement with the Development and Planning Commission of Shandong Province and Shandong International Trust and Investment Company to participate in the planning of a Shandong natural gas pipeline network for LNG imports. CNOOC intends to use gas resources from the Bohai Bay. CNOOC expects that natural gas from the Bohai Bay will land in Longkou in Shandong Province around June 2004, which can be further transported to Qingdao and Yantai in Shandong Province by pipeline. The pipeline between Longkou and Yantai will be 95 kilometers; the pipeline between Longkou and Qingdao will be 2,101 kilometers.

Overseas Activity

On January 1, 2003, we acquired BP Muturi Limited, which owned a 44.0% interest in the Muturi production sharing contract offshore Indonesia, and BP Wiriagar Limited's 42.4% interest in the Wiriagar production sharing contract offshore Indonesia for a total of approximately US\$275 million. The Muturi production sharing contract and Wiriagar production sharing contract, together with the Berau production sharing contract, make up the Tangguh LNG project. The Tangguh LNG project is a greenfield project located offshore Indonesia and represents one of the largest natural gas projects in Asia. On May 13, 2004, we completed our acquisition of an additional 20.767% interest in the Muturi production sharing contract from BG Group.

Our interests in these production sharing contracts represent 16.96% of the total reserves and upstream production of the Tangguh LNG project. The remaining interests in the Tangguh LNG project are held by BP Berau, BP Muturi, BP Wiriagar, MI Berau, Nippon, KG Berau, KG Wiriagar and Indonesia Natural Gas Resources Muturi. The partners in the Tangguh LNG project have applied to the Indonesia government to consolidate the three production sharing contracts and expect that BP will serve as the operator for the project.

In connection with our acquisition of interests in the Tangguh LNG project, the partners in the Tangguh LNG project entered into a conditional 25-year supply contract to provide beginning in 2007 up to 2.6 million tonnes of liquefied natural gas per year to a liquefied natural gas terminal project in Fujian Province, China. In May 2003, two large South Korean companies selected the Tangguh LNG project as their preferred supplier of up to 1.35 million tonnes per year of liquefied natural gas. The Tangguh LNG partners have also signed contracts to provide liquefied natural gas to North America. In addition, we entered into a repurchase agreement whereby put options and call options were granted to us and the sellers, respectively, to sell or repurchase, as the case may be, the interests in these production sharing

Edgar Filing: CNOOC LTD - Form 20-F

contracts. The exercise prices of the options are determined based on the original consideration plus

54

interest and additional investment and draw down made during the interim period. The options are exercisable if on or before December 31, 2004:

- o the LNG supply contract is terminated due to the non-satisfaction of the conditions precedent to the LNG supply contract; or
- o the LNG supply contract is otherwise legally ineffective.

Given the proximity of the Tangguh LNG project to many major industrial and commercial areas, we expect the project to secure additional LNG supply contracts in the near future.

In May 2003, we signed an agreement with the existing North West Shelf partners to acquire an aggregate interest of 5.56% in the reserves and upstream production of Australia's North West Shelf gas project for a consideration of US\$348 million. Our estimated share of reserves from this project would be approximately 1.2 trillion cubic feet of natural gas. Our share of natural gas together with associated liquids would be approximately 210 million BOE. Woodside Petroleum is the operator for the project.

Under the terms of this agreement, we would also acquire a 25% interest in the China LNG Joint Venture, which is being established by the six current partners to supply liquefied natural gas from the North West Shelf gas project to a liquefied natural gas terminal currently being developed by CNOOC, our controlling shareholder, and various partners in Guangdong Province, China. The terms of this transaction require us to pay the other partners in the North West Shelf gas project for gas production and processing services provided over the term of the China LNG Joint Venture. On October 24, 2003, we entered into an agreement with the joint venture participants of the Gorgon natural gas project in Australia based on a memorandum of understanding previously entered into with them. According to that agreement, we will acquire certain interest in the Gorgon natural gas project.

To the extent we invest in businesses and geographic areas where we have limited experience and expertise, we plan to structure our investments as alliances and partnerships with parties possessing the relevant experience and expertise.

Segment Information

The following table shows the breakdown of our total consolidated operating revenues for each of the periods indicated and the percentage contribution of each revenue component to our total operating revenues:

	Year ended December 31,				
	2001		2002		Rmb
	Rmb '000	%	Rmb '000	%

Total operating revenues.....	20,819,557	100.0	26,373,815	100.0	40,9
	=====	=====	=====	=====	=====

We are mainly engaged in the exploration, development, production and sale of crude oil and natural gas primarily offshore China. Approximately 62% of our total revenue is contributed by PRC customers. We also conduct such activities outside PRC in Indonesia, Australia and Singapore.

55

Sales and Marketing

Sales of Offshore Crude Oil

We sell crude oil and natural gas to the PRC market through our wholly owned PRC subsidiary, CNOOC China Limited, and sell to the international market through our wholly owned subsidiary, China Offshore Oil (Singapore) International Pte. Ltd., located in Singapore.

We submit production and sales plans to the State Development and Reform Commission each year. Based on information provided by China's three crude oil producers, PetroChina, Sinopec and us, the State Development and Reform Commission compiles an overall national plan to coordinate sales. We have been allowed to determine where we sell our products, both domestically and internationally. Our sales of crude oil to the international market also require us to obtain export licenses issued by the PRC Ministry of Commerce. Historically, we have been able to obtain all required export licenses.

Pricing

We price our crude oil with reference to prices for crude oil of comparable quality in the international market, including a premium or discount mutually agreed upon by us and our customers according to market conditions at the time of the sale. Prices are quoted in U.S. dollars, but domestic sales are billed and paid in Renminbi. We currently produce three types of crude oil: Nanhai Light, Medium Grade and Heavy Crude. The table below sets forth the sales and marketing volumes, pricing benchmarks and average realized prices for each of these three types of crude oil for the periods indicated.

	Year ended December 31	
	----- 2001	----- 2002
	-----	-----
Sales and Marketing Volumes (benchmark)		
(mmbbls) (1)		
Nanhai Light (APPI(2) Tapis(3)).....	32.2	26.4
Medium Grade (Daqing OSP(4)).....	57.1	64.7
Heavy Crude (APPI(2) Duri(5)).....	37.4	52.7
Average Realized Prices (US\$/bbl) (6)		

Edgar Filing: CNOOC LTD - Form 20-F

Nanhai Light.....	US\$24.96	US\$24.79
Medium Grade.....	24.16	25.92
Heavy Crude.....	21.01	22.79
Benchmark Prices (US\$/bbl)		
APPI(2) Tapis(3)	US\$24.99	US\$25.49
Daqing OSP(4)	23.92	24.95
APPI(2) Duri(5)	21.26	21.94
ICP(7) Cinta(8).....	--	24.08
ICP Widuri(9).....	--	24.08
West Texas Intermediate (US\$/bbl).....	US\$25.89	US\$26.16

-
- (1) Includes the sales volumes of us and our foreign partners under production sharing contracts.
 - (2) Asia petroleum price index.
 - (3) Tapis is a light crude oil produced in Malaysia.
 - (4) Daqing official selling price. Daqing is a medium crude oil produced in northeast China.
 - (5) Duri is a heavy crude oil produced in Indonesia.
 - (6) Includes the average realized prices of us and our foreign partners under production sharing contracts.
 - (7) Indonesian crude price.
 - (8) Cinta is a medium crude oil produced in Indonesia and was not a relevant benchmark for our crude oil sales prior to the acquisition of the Indonesian subsidiaries in 2002.
 - (9) Widuri is a medium crude oil produced in Indonesia and was not a relevant benchmark for our crude oil sales prior to the acquisition of the Indonesian subsidiaries in 2002.

56

The international benchmark crude oil price, West Texas Intermediate, was US\$32.47 per barrel as of December 31, 2003 and US\$38.48 per barrel as of June 10, 2004.

Markets and Customers

We sell most of our crude oil production in the PRC domestic market. We also sell to customers in South Korea, Japan, the United States and Australia, as well as to crude oil traders in the spot market. For the years ended December 31, 2001, 2002 and 2003, we sold approximately 79.9%, 85.1% and 73.5%, respectively, of our crude oil in the PRC, and exported approximately 20.1%, 14.9% and 26.5%, respectively.

Most of our crude oil production sales in the PRC domestic market are to refineries and petrochemical companies that are affiliates of Sinopec, PetroChina and CNOOC, our controlling shareholder. Sales volume to Sinopec has been high historically because most of the PRC refineries and petrochemical companies were affiliates of Sinopec. After the restructuring of the PRC petroleum industry in July 1998, some refineries and petrochemical companies were transferred to PetroChina from Sinopec. For the years ended December 31, 2001, 2002 and 2003, sales to Sinopec were approximately 52.7%, 44.7% and 36.8%, respectively, and sales to PetroChina were approximately 13.8%, 7.7% and 7.7%, respectively, of total crude oil sales in the PRC domestic market. Together these two customers accounted for approximately 66.5%, 52.4% and 44.5%, respectively, of our total crude oil sales in the PRC domestic market. For further information about our sales to CNOOC-affiliated companies, please

Edgar Filing: CNOOC LTD - Form 20-F

see note 26 to our consolidated financial statements attached to this annual report.

In recent years, we have diversified our domestic client base by targeting companies not affiliated with Sinopec or PetroChina. These targeted companies typically are involved in bitumen processing, fuel blending and mixing, power generation and production of fertilizer feed stocks. We plan to continue our efforts to diversify our client base.

The following table presents, for the periods indicated, our revenues sourced in the PRC and outside the PRC:

	Year ended December 31	
	2001	2002
	(Rmb in millions, except p	
Revenues sourced in the PRC.....	18,105	22,781
Revenues sourced outside the PRC.....	2,715	3,593
Total revenues.....	20,820	26,374
% of revenues sourced outside the PRC.....	13.0%	13.6%

Sales Contracts

We sign sales contracts with customers for each shipment. Sales contracts are standard form contracts containing ordinary commercial terms such as quality, quantity, price, delivery and payment. All sales are made on free-on-board terms. PRC customers are required to make payments within 30 days after the shipper takes possession of the crude oil cargo at our delivery points. During the years ended December 31, 2001, 2002 and 2003, the accounts receivable turnover were approximately 32.3 days, 32.7 days and 47.5 days, respectively. Doubtful accounts provision during the years ended December 31, 2001, 2002 and 2003 were Rmb 10.7 million, nil and Rmb 1.5 million, respectively.

We have a credit control policy, including credit investigation of customers and periodic assessment of credit terms. Sales clerks are directly responsible for liaising with customers on the collection of receivables within the credit terms.

57

We price our crude oil in U.S. dollars. PRC customers are billed and make actual payments in Renminbi based on the exchange rate prevailing at the bill of lading date, while overseas customers are billed and are required to make payments in U.S. dollars within 30 days of the bill of lading date.

Sales of Natural Gas from Offshore China

Driven by environmental and efficiency concerns, the PRC government is increasingly encouraging residential and industrial use of natural gas to meet primary energy needs. In 1989, in order to encourage natural gas production,

Edgar Filing: CNOOC LTD - Form 20-F

the PRC government adopted a favorable royalty treatment, which provides a royalty exemption for natural gas production up to two billion cubic meters (70.6 billion cubic feet or 11.8 million BOE) per year as compared to a royalty exemption available for crude oil production of up to one million tons or approximately seven million BOE per year. The favorable treatment also includes lower royalty rates on incremental increases in natural gas production as compared with the royalty rates for crude oil production.

Since 1989, the PRC government has adopted the following sliding scale of royalty payments of up to 3% of the annual gross production of natural gas:

Annual gross production	Royalty rate
Less than 2 billion cubic meters.....	0.0%
2-3.5 billion cubic meters.....	1.0%
3.5-5 billion cubic meters.....	2.0%
Above 5 billion cubic meters.....	3.0%

We sell a large portion of our offshore China natural gas production to Hong Kong. The remaining offshore China natural gas production is sold to customers in mainland China. Of the 69.0 billion cubic feet of natural gas that we produced offshore China in the year ended December 31, 2003, 36.0 billion cubic feet was produced from the Yacheng 13-1 gasfield in the Western South China Sea. This field is governed by a production sharing contract we entered into with BP and Kufpec. We hold a 51% participating interest in this field. In December 1992, Castle Peak Power in Hong Kong signed a long-term gas supply contract under which it agreed to buy from the partners approximately 102.4 billion cubic feet of natural gas per year on a take-or-pay basis until 2015. Gas prices are quoted and paid in U.S. dollars. The payments are made in U.S. dollars on a monthly basis and are reconciled annually. Castle Peak Power purchased approximately 46.4% of our total offshore China natural gas production for the year ended December 31, 2003. Castle Peak Power is a 60/40 joint venture between ExxonMobil Energy Limited and CLP Power Hong Kong Limited, a public utility company in Hong Kong. We sold the remaining 53.6% of our total offshore China natural gas production in 2003 to PRC customers, including Hainan Fertilizer, Hainan Minsheng Gas, Hainan Power, Shanghai Gas, Jingxi Chemical, Xinao Gas, Tianjin Binhai Power and Tianjin Binhai Gas.

The price of gas sold to the PRC market is determined by negotiations between us and the buyers based on market conditions. Contracts typically consist of a base price with provisions for annual resets and adjustment formulas which depend on a basket of crude prices, inflation and various other factors.

Procurement of Services

We usually outsource work in connection with the acquisition and processing of seismic data, reservoir studies, well drilling services, wire logging and perforating services and well control and completion service to independent third parties or our affiliates.

In the development stage, we normally employ independent third parties for mooring and oil tanker transportation services and both independent third parties and CNOOC affiliates for other services by entering into contracts with them. We conduct a bidding process to determine who we employ to construct platforms, terminals and pipelines, to drill production wells and to transport offshore production facilities. Both independent third parties and CNOOC affiliates participate in the bidding process. We

Edgar Filing: CNOOC LTD - Form 20-F

are closely involved in the design and management of services by contractors and exercise extensive control over their performance, including their costs, schedule and quality.

Competition

Domestic Competition

The petroleum industry is highly competitive. We compete in the PRC and in international markets for both customers and capital to finance our exploration, development and production activities. Our principal competitors in the PRC market are PetroChina and Sinopec.

We price our crude oil on the basis of comparable crude oil prices in the international market. The majority of our customers for crude oil are refineries affiliated with Sinopec and PetroChina to which we have been selling crude oil, from time to time, since 1982. Based on our dealings with these refineries, we believe that we have established a stable business relationship with them. In 1998, the PRC government restructured PetroChina and Sinopec into vertically integrated companies with each having both upstream and downstream petroleum businesses and operations.

We are the dominant player in the oil and gas industry offshore China and are the only company authorized to engage in oil and gas exploration and production offshore China in cooperation with foreign parties. We may face increased competition in the future from other petroleum companies in obtaining new PRC offshore oil and gas properties, or, as a result of changes in current PRC laws or regulations permitting an expansion of existing companies' activities or new entrants into the industry.

As part of our business strategy, we intend to expand our natural gas business to meet rapidly increasing domestic demand. Our competitors in the PRC natural gas market are PetroChina and, to a lesser extent, Sinopec. Our principal competitor, PetroChina, is the largest supplier of natural gas in China in terms of volume of natural gas supplied. PetroChina's natural gas business benefits from strong market positions in Beijing, Tianjin, Hebei province and northern China. We intend to develop related natural gas businesses in China's coastal provinces, where we may face competition from PetroChina and, to a lesser extent, Sinopec. We believe that our extensive natural gas resources base, the proximity of these resources to the markets in China, our relatively advanced technologies and our experienced management team will enable us to compete effectively in the domestic natural gas market.

Foreign Competition and the World Trade Organization

Imports of crude oil are subject to tariffs, import quotas, handling fees and other restrictions. The PRC government also restricts the availability of foreign exchange with which the imports must be purchased. The combination of tariffs, quotas and restrictions on foreign exchange has, to some extent, limited the competition from imported crude oil.

In line with the general progress of its economic reform programs, the PRC government has agreed to reduce import barriers as part of its WTO commitments. As a result of China joining the World Trade Organization as a full member on December 11, 2001, it is required to further reduce its import tariffs and other trade barriers over time, including with respect to certain categories of petroleum and crude oil. Notwithstanding China's WTO related concessions, crude and processed oil remain, for the time being, subject to restrictions on import rights and only certain designated state-owned enterprises may import crude and processed oil. Sinopec and PetroChina have

Edgar Filing: CNOOC LTD - Form 20-F

received permission to import crude oil on their own. At present, foreign owned or foreign invested entities and other none-state-owned enterprises are subject to certain import quotas.

59

PRC Fiscal Regimes for Offshore Crude Oil and Natural Gas Activities

We conduct exploration and production operations either independently or jointly with foreign partners under our production sharing contracts. The PRC government has established different fiscal regimes for crude oil and natural gas production from our independent operations and from our production sharing contracts.

Royalties paid to the PRC government are based on our gross production from both independent operations and oil and gas fields under production sharing contracts. The amount of the royalties varies up to 12.5% based on the annual production of the relevant property. The PRC government has provided companies such as ours with a royalty exemption for up to one million tons, or seven million BOE, per year for our crude oil production and for up to 70.6 billion cubic feet, or 11.8 million BOE, per year for our natural gas production. The limits in these exemptions apply to our total production from both independent properties and properties under production sharing contracts. In addition, we pay production taxes to the PRC government equal to 5% of our crude oil and gas produced independently and 5% of our crude oil and gas produced under production sharing contracts.

Under our production sharing contracts, production of crude oil and gas is allocated among us, the foreign partners and the PRC government according to a formula contained in the contracts. Under this formula, a percentage of production under our production sharing contracts is allocated to the PRC government as its share oil. For more information about the allocation of production under the production sharing contracts, see "--Production Sharing Contracts--Offshore China--Production Sharing Formula."

We cannot give any assurance that the fiscal regime outlined above will not change significantly in the future.

Production Sharing Contracts

Offshore China

When exploration and production operations offshore China are conducted through a production sharing contract, the operator of the oil or gas field must submit a detailed evaluation report and an overall development plan to CNOOC upon discovery of petroleum reserves. The overall development plan must also be submitted to a joint management committee established under the production sharing contract. After CNOOC confirms the overall development plan, CNOOC submits it to the State Development and Reform Commission for approval. After receiving the governmental approval, the parties to the production sharing contract may begin the commercial development of the petroleum field.

As part of the reorganization in 1999, CNOOC transferred all of its economic interests and obligations under its then existing production sharing contracts to us and our subsidiaries. It also undertook to transfer its future production sharing contracts to us and our subsidiaries. As of December 31, 2003, we had 16 production sharing contracts in the production and development stage, and 25 contracts in the exploration stage.

Edgar Filing: CNOOC LTD - Form 20-F

Under PRC law, the negotiation of a production sharing contract is a function that only a state-owned national company, such as CNOOC, may perform. This function cannot be transferred to us because we are a pure commercial entity. Since the reorganization, under the terms of its undertaking with us, CNOOC, after entering into production sharing contracts with international oil and gas companies, is required to assign immediately to us all of its economic interests and obligations under the production sharing contracts. For further details, see "Item 4--Information on the Company--History and Development" and "Item 7--Major Shareholders and Related Party Transactions--Related Party Transactions."

New production sharing contracts are entered into between CNOOC and foreign partners primarily through bidding organized by CNOOC and, to a lesser extent, through direct negotiation.

Bidding Process

60

The bidding process typically involves the following steps:

- o CNOOC, with the approvals of the PRC government, determines which blocks are open for bidding and prepares geological information packages and bidding documentation for these blocks;
- o CNOOC invites foreign enterprises to bid;
- o potential bidders are required to provide information, including estimates of minimum work commitments, exploration costs and percentage of share oil payable to the PRC government; and
- o CNOOC evaluates each bid and negotiates a production sharing contract with the successful bidder.

Under CNOOC's undertaking with us, we may participate with CNOOC in all negotiations of new production sharing contracts.

The term of a production sharing contract typically lasts for less than 30 years and has three distinct phases:

- o Exploration. The exploration period generally lasts for seven consecutive years depending on the size of the contract area, and may be extended with the consent of CNOOC. During this period, exploratory and appraisal work on the exploration block is conducted in order to discover petroleum and to enable the parties to determine the commercial viability of any petroleum discovery.
- o Development. The development period begins on the date that the overall development plan, which outlines the recoverable reserves and schedule for developing the discovered petroleum reserves, is approved by the relevant PRC regulatory authorities. The development phase ends when the design, construction, installation, drilling and related research work for the realization of petroleum production have been completed.
- o Production. The production period begins when commercial operations start and usually lasts for 15 years. The production period may be extended upon approval of the PRC government.

Edgar Filing: CNOOC LTD - Form 20-F

Minimum Work Commitment

Under production sharing contracts that involve exploration activities, the foreign partners must complete a minimum amount of work during the exploration period, generally including:

- o drilling a minimum number of exploration wells;
- o producing a fixed amount of seismic data; and
- o incurring a minimum amount of exploration expenditures.

Foreign partners are required to bear all exploration costs during the exploration period. However, such exploration costs can be recovered according to the production sharing formula after commercial discoveries are made and production begins. During the exploration period, foreign partners are required to return 25% of the contract area, excluding the development and production area, to CNOOC at the end of each of the third year and fifth year of the exploration period. At the end of the exploration period, all areas, excluding the development areas, production areas and areas under evaluation, must be returned to CNOOC.

Participating Interests

61

Under production sharing contracts, CNOOC has the right to take up to a 51% participating interest in any oil or gas field discovered in the contract area and may exercise this right after the foreign partners have made commercially viable discoveries. The foreign partners retain the remaining participating interests.

Production Sharing Formula

A chart illustrating the production sharing formula under our production sharing contracts is shown below.

Percentage of annual gross production	Allocation
5.0%	Production tax payable to the PRC government
0.0%-- 12.5%(1)	Royalty oil payable to the PRC government
50.0%-- 62.5%(1)	Cost recovery oil allocated according to the following priority: recovery of current year operating costs by us and foreign partner(s) recovery of earlier exploration costs by foreign partner(s); recovery of development costs by us and foreign partner(s) based on participating interests;(3) and any excess, distributed according to each partner's participating int
32.5%(2)	Remainder oil allocated according to the following formula: (1-X) multiplied by 32.5% represents share oil payable to the PRC government; and

Edgar Filing: CNOOC LTD - Form 20-F

X multiplied by 32.5% represents remainder oil distributed according partner's participating interest.(3)

- (1) Assumes annual gross production of more than four million metric tons, approximately 30 million barrels of oil. For lower amounts of production, the royalty rate will be lower and the cost recovery will be greater than 50.0% by the amount that the royalty rate is less than 12.5%.
- (2) The ratio "X" is agreed in each production sharing contract based on commercial considerations and ranges from 8% to 100%.
- (3) See "--Principal Oil and Gas Regions" for our participating interest percentage in each production sharing contract.

The first 5.0% of the annual gross production is paid to the PRC government as production tax. The PRC government is also entitled to a royalty payment equal to the next 0% to 12.5% of the annual gross production based on the following sliding scale:

Annual gross production of oil(1)	Royalty rate
Less than 1 million tons.....	0.0%
1-1.5 million tons.....	4.0%
1.5-2.0 million tons.....	6.0%
2.0-3.0 million tons.....	8.0%
3.0-4.0 million tons.....	10.0%
Above 4 million tons.....	12.5%

- (1) The sliding scale royalty for natural gas reaches a maximum at 3.0%.

Depending on the percentage of the PRC government's royalty payment, an amount equal to the next 50.0% to 62.5% of the annual gross production is allocated to the partners for cost recovery purposes. This amount is allocated according to the following priority schedule:

- o recovery of operating costs incurred by the partners during the year;
- o recovery of exploration costs, excluding interest accrued thereon, incurred but not yet recovered by foreign partners during the exploration period; and
- o recovery of development investments incurred but not yet recovered, and interest accrued in the current year, according to each partner's participating interest.

The remaining 32.5% of the annual gross production, which is referred to as the remainder oil, is distributed to each of the PRC government, us and the foreign partners according to a "ratio X" agreed to by CNOOC and the foreign partners in the production sharing contract. An amount of oil and gas equal to the product of the remainder oil and one minus the "ratio X" is first distributed to the PRC government as share oil. The balance of the remainder oil, which is referred to as the allocable remainder oil, is then distributed

Edgar Filing: CNOOC LTD - Form 20-F

to us and the foreign partners based on each party's participating interest.

We pay an estimated production tax and royalty to the PRC government each time we ship crude oil production, or on a monthly basis for natural gas production. At the end of each annual period, we calculate the production tax and royalty payable for the year and file this information with the PRC tax bureau. We make adjustments for any overpayment or underpayment of production tax and royalty at the end of the year.

The foreign partners have the right to either take possession of their crude oil for sale in the international market, or sell such crude oil to us for resale in the PRC market.

Management and Operator

Under each production sharing contract, a party will be designated as an operator to undertake the execution of the production sharing contract which includes:

- o preparing work programs and budgets;
- o procuring equipment and materials relating to operations;
- o establishing insurance programs; and
- o issuing cash-call notices to the parties to the production sharing contract to raise funds.

A joint management committee, which usually consists of six or eight persons, is set up under each production sharing contract to perform supervisory functions, and each of us and the foreign partners as a group has the right to appoint an equal number of representatives to form the joint management committee. The chairman of the joint management committee is the chief representative designated by us and the vice chairman is the chief representative designated by the foreign partners as a group. The joint management committee has the authority to make decisions on matters including:

- o reviewing and approving operational and budgetary plans;
- o determining the commercial viability of each petroleum discovery;
- o reviewing and adopting the overall development plan; and
- o approving significant procurements and expenditures, and insurance coverage.

Daily operations of a property subject to the respective production sharing contract are carried out by the designated operator. The operator is typically responsible for determining and executing operational and budgetary plans and all routine operational matters. Upon discovery of petroleum reserves, the operator is required to submit a detailed overall development plan to the joint management committee.

After the foreign partner has fully recovered its exploration and development costs under production sharing contracts in which the foreign partner is the operator, we have the exclusive right to take over the operation of the particular oil or gas field. With the consent of the foreign partner, we may

Edgar Filing: CNOOC LTD - Form 20-F

also take over the operation before the foreign partner has fully recovered its exploration and development costs.

Ownership of Data and Assets

All data, records, samples, vouchers and other original information obtained by foreign partners in the process of exploring, developing and producing offshore petroleum become the property of CNOOC as a state-owned national oil company under PRC law. Through CNOOC, we have unlimited and unrestricted access to the data.

Our foreign partners and us have joint ownership in all of the assets purchased, installed or constructed under the production sharing contract until either:

- o the foreign partners have fully recovered their development costs, or
- o upon the expiration of the production sharing contract.

After that, as a state-owned national oil company under PRC law, CNOOC will assume ownership of all of the assets under the production sharing contracts, our foreign partners and us retain the exclusive right to use the assets during the production period.

Abandonment Costs

Any party to our production sharing contracts must give prior written notice to the other party or parties if it plans to abandon production of the oil or gas field within the contracted area. If the other party or parties agree to abandon production from the oil or gas field, all parties pay abandonment costs in proportion to their respective percentage of participating interests in the field. If we decide not to abandon production upon notice from a foreign partner, all of such foreign partner's rights and obligations under the production sharing contract in respect of the oil or gasfield, including the responsibilities for payment of abandonment costs, terminate automatically. We bear the abandonment costs if we decide to abandon production after an initial decision to proceed with production. In 2003, we incurred abandonment costs of approximately Rmb 167.3 million.

Production Tax

The PRC production tax rate on the oil and natural gas produced under production sharing contracts is currently 5%.

Overseas

In addition to our production sharing arrangements in the PRC, we also have interests in production sharing contracts and a technical assistance contract in Indonesia. Indonesian oil and gas activities are currently governed by Pertamina, the Indonesian state-owned oil and gas company founded in 1968. Under Indonesian law, Pertamina is currently the sole entity authorized to manage Indonesia's oil and gas resources on behalf of the Indonesian government and is empowered to enter into agreements with foreign and domestic companies. Pertamina became a limited liability company in 2003 pursuant to legislation enacted in 2001.

Pertamina enters into production sharing arrangements with private energy companies whereby such companies explore and develop oil and gas in specified areas in exchange for a percentage interest in the production from the fields

Edgar Filing: CNOOC LTD - Form 20-F

in the applicable production sharing area. These production sharing arrangements are mainly governed by production sharing contracts, as well as by technical assistance contracts, each of which is described further below. Upon entering into a production sharing arrangement, the operator commits to spending a specified sum of capital to implement an agreed work program.

Production sharing arrangements in Indonesia are based on the following principles:

64

- o contractors are responsible for all investments (exploration, development and production);
- o a contractor's investment and production costs are recovered against production;
- o the profit split between the Indonesian government and contractors is based on production after the cost recovery portion;
- o ownership of tangible assets remains with the Indonesian government; and
- o overall management control lies with Pertamina on behalf of the Indonesian government.

An original production sharing contract is awarded to explore for and to establish commercial hydrocarbon reserves in a specified area prior to commercial production. The contract is awarded for a number of years depending on the contract terms, subject to discovery of commercial quantities of oil and gas within a certain period. The term of the exploration period can generally be extended by agreement between the contractor and Pertamina. The contractor is generally required to relinquish specified percentages of the contract area by specified dates unless such designated areas correspond to the surface area of any field in which oil and gas has been discovered.

Pertamina is typically responsible for managing all production sharing contract operations, assuming and discharging the contractor from all taxes (other than Indonesian corporate taxes, taxes on interest, dividends and royalties and others as set forth in the production sharing contract), obtaining approvals and permits needed by the project and approving the contractor's work program and budget. The responsibilities of a contractor under a production sharing contract generally include advancing necessary funds, furnishing technical aid and preparing and executing the work program and budget. In return, the contractor may freely lift, dispose of and export its share of crude oil and retain the proceeds obtained from its share.

The contractor generally has the right to recover all finding and developing costs, as well as operating costs, in each production sharing contract against available revenues generated after deduction of first tranche oil and gas, or FTP. Under FTP terms, the parties are entitled to take and receive an annually agreed percentage of production from each production zone or formation each year, prior to any deduction for recovery of operating costs, investment credits and handling of production. FTP for each year is generally shared between the Indonesian government and the contractor in accordance with the standard sharing splits. The balance is available for cost recovery. Post-cost recovery, the Indonesian government is entitled to a specified profit share of crude oil production and of natural gas production. Under each production sharing arrangement, the contractor is obligated to pay

Edgar Filing: CNOOC LTD - Form 20-F

Indonesian corporate taxes on its specified profit share at the Indonesian corporate tax rate in effect at the time the agreement is executed.

Production sharing contracts in Indonesia have long included a provision known as the domestic market obligation, or DMO, under which a contractor must sell a specified percentage of its crude oil to the local market at a reduced price. After the first five years of a field's production, the contractor is required to supply, the lesser of (i) 25% of the contractor's before-tax share of total crude oil production or (ii) the contractor's share of profit oil. This reduced price varies from contract to contract and is calculated at the point of export.

The new Indonesian Oil and Gas Law, which came into force on November 23, 2001, stipulates a gas DMO, under which the contractor must sell up to 25% of its gas entitlement to the domestic market, although it is not clear at what price this gas must be sold. Production sharing contract parties have stated that they would prefer that this price be determined on the open market, and that it be recognized that if there are pre-existing gas sale agreements, or if the project produces LNG for export, the obligation to sell gas into the local market may not be feasible.

Technical assistance contracts are awarded when a field has prior or existing production. The oil or gas production is divided into non-shareable and shareable portions. The non-shareable portion represents the expected production from the field at the time the technical assistance contract is signed

65

and is retained by Pertamina. The shareable portion represents the additional production resulting from the operator's investment in the field and is split in the same way as for an original production sharing contract as described above.

Geophysical Survey Agreements

Historically, we conducted our exploration operations through geophysical survey agreements with leading international oil and gas companies as well as independently and through production sharing contracts. As of December 31, 2003, we were not a party to any geophysical survey agreements, but may enter such agreements in the future.

Geophysical survey agreements are designed for foreign petroleum companies to conduct certain geophysical exploration before they decide whether to enter into production sharing contract negotiations with CNOOC. Geophysical survey agreements usually have a term of less than two years. International oil and gas companies must complete all of the work confirmed by both parties in the agreements and bear all the costs and expenses. If a foreign partner decides to enter into a production sharing contract with CNOOC, the costs and expenses that the foreign partner incurs in conducting geophysical survey may be recovered by the foreign partner in the production period subject to our confirmation. CNOOC has the sole ownership of all data and information obtained by the foreign partner during the geophysical survey, and, through CNOOC, we have access to all such data.

Under PRC law, the negotiation of a geophysical survey agreement is a function that only a state-owned national company, such as CNOOC, can perform. As part of its reorganization in 1999, CNOOC transferred to us all its commercial rights under a geophysical survey agreement, which has since been

Edgar Filing: CNOOC LTD - Form 20-F

completed. In the future, CNOOC has agreed to assign to us all of its commercial rights under any geophysical survey agreements it enters into with international oil and gas companies.

Operating Hazards and Uninsured Risks

Our operations are subject to hazards and risks inherent in the drilling, production and transportation of crude oil and natural gas, including pipeline ruptures and spills, fires, explosions, encountering formations with abnormal pressures, blowouts, cratering and natural disasters, any of which can result in loss of hydrocarbons, environmental pollution and other damage to our properties and the properties of operators under production sharing contracts. In addition, certain of our crude oil and natural gas operations are located in areas that are subject to tropical weather disturbances, some of which can be severe enough to cause substantial damage to facilities and interrupt production.

As protection against operating hazards, we maintain insurance coverage against some, but not all, potential losses, including the loss of wells, blowouts, pipeline leakage or other damage, certain costs of pollution control and physical damages on certain assets. Our insurance coverage includes oil and gas field properties and construction insurance, marine hull insurance, protection and indemnity insurance, drilling equipment insurance, marine cargo insurance and third party and comprehensive general liability insurance. We also carry business interruption insurance for Pinghu Field. In Indonesia, the operators of the production sharing contracts in which we participate are required by local law to purchase insurance policies customarily taken out by international petroleum companies. As of December 31, 2003, we paid an annual insurance premium of approximately Rmb 236 million to maintain our insurance coverage. We believe that our level of insurance is adequate and customary for the PRC petroleum industry and international practices. However, we may not have sufficient coverage for some of the risks we face, either because insurance is not available or because of high premium costs. See "Item 3--Key Information--Risk Factors--Risks relating to our business--Exploration, development and production risks and natural disasters affect our operations and could result in losses that are not covered by insurance."

For the year ended December 31, 2003, we did not have any uninsured losses.

66

Research and Development

During the three years ended December 31, 2001, 2002 and 2003, we used research and development services provided by CNOOC's affiliates, including CNOOC Research Center, as well as other international research entities. In July 2003, we established our own research center, CNOOC (China) Limited Research Center. We are developing more efficient and effective approaches to explore for new reserves. Our research efforts have focused on:

- o advanced resolution enhancement technology;
- o building up exploration and development data bases to improve the efficiency of our research efforts; and
- o consolidating multi-discipline data to optimize the selection of exploration sites.

Edgar Filing: CNOOC LTD - Form 20-F

We are also studying various ways of utilizing our existing reserves including:

- o building more accurate reservoir models;
- o re-processing existing seismic and log data to locate potential areas near existing fields to be integrated into existing production facilities; and
- o researching ways to reduce development risks for marginal fields and to group fields into joint developments to share common facilities.

During the three years ended December 31, 2001, 2002 and 2003, we paid approximately Rmb 109 million, Rmb 110 million and Rmb 56 million, respectively, to CNOOC Research Center for its provision of general research and development services.

For further information regarding our agreement with the CNOOC Research Center, see "Item 7--Major Shareholders and Related Party Transactions--Related Party Transactions--Categories of Connected Transactions--Research and development services."

Regulatory Framework

Government Control

The PRC government owns all of China's petroleum resources and exercises regulatory control over petroleum exploration and production activities in China. We are required to obtain various governmental approvals, including those from the Ministry of Land and Resources, the State Administration for Environmental Protection, the State Development and Reform Commission and the Ministry of Commerce before we are permitted to conduct production activities. For joint exploration and production with foreign enterprises, we are required to obtain various governmental approvals, through CNOOC, including those from:

- o the Ministry of Land and Resources, for a permit for exploration blocks, an approval of a geological reserve report submitted through CNOOC and an exploration permit for the approved blocks;
- o the Ministry of Land and Resources or the State Development and Reform Commission to designate such blocks as an area for foreign cooperation;
- o the Ministry of Commerce for the production sharing contracts between CNOOC and the foreign enterprises;
- o the State Administration for Environmental Protection for an environmental impact report submitted through CNOOC;

67

- o the State Development and Reform Commission for an overall development plan submitted through CNOOC; and
- o the Ministry of Land and Resources, for an extraction permit.

Although our sales are coordinated by the State Development and Reform Commission, historically we have been given flexibility to sell our crude oil based on the international spot price and to determine where we sell our crude

Edgar Filing: CNOOC LTD - Form 20-F

oil.

Since the conclusion of the meeting of the National People's Congress in March 2003, the PRC government has undergone substantial reform. It is believed that market-oriented reforms will continue.

Special Policies Applicable to the Offshore Petroleum Industry in China

Since the early 1980s, the PRC government has adopted policies and measures to encourage the development of the offshore petroleum industry. These policies and measures, which were applicable to CNOOC's operations prior to the reorganization, became applicable to our operations in accordance with an undertaking agreement between us and CNOOC. As approved by the relevant PRC government authorities, including the Ministry of Land and Resources and the Ministry of Commerce, these policies and measures have provided us with the following benefits:

- o the exclusive right to explore for, develop and produce petroleum offshore China in cooperation with international oil and gas companies and to sell this petroleum in China;
- o the flexibility to set our prices in accordance with international market prices and determine where to sell our crude oil, with only minimal supervision from the PRC government;
- o a favorable 5% production tax on the crude oil and natural gas we produce both independently and under production sharing contracts, rather than the 17% rate generally applicable to the independent production of domestic petroleum companies in China; and
- o production from one of our major gasfields, Yacheng 13-1, is exempt from the PRC royalties under an approval by the State Tax Bureau in May 1989 and the 5% production tax applicable to the oil and gas produced under other production sharing contracts in accordance with an approval by the Ministry of Finance in August 1985. Our natural gas revenues from Yacheng 13-1 for the five years ended December 31, 2003 represented approximately 10.4%, 6.7%, 7.3%, 5.6% and 3.6%, respectively, of our total oil and natural gas sales in those years.

Although we historically have benefited from the foregoing special policies, we cannot assure you that such policies will continue in the future. We are also regulated by the PRC government in various other aspects of our business and operations, including required government approvals for new independent exploration and production projects and new production sharing contracts. For a further discussion of ways in which we are regulated by the PRC government, see "--Government Control."

Policies Applicable to International Oil and Gas Companies Operating in Offshore China

The PRC government encourages foreign participation in offshore petroleum exploration and production through exclusive cooperation with CNOOC. In 1982, the State Council promulgated the Regulation of the People's Republic of China on Exploitation of Offshore Petroleum Resources in Cooperation with Foreign Enterprises, which grants to CNOOC the exclusive right to enter into joint cooperation arrangements with foreign enterprises for offshore petroleum exploration and production. From 1982 to 2000, CNOOC successfully completed several rounds of bidding for offshore petroleum exploration and production projects, and many international oil and gas companies have been involved and awarded exploration blocks for joint exploration, development and production with CNOOC.

Edgar Filing: CNOOC LTD - Form 20-F

In October 2001, the State Council amended the regulation referred to above as a part of the comprehensive review of all business laws and regulations by the Chinese government to ensure their

68

compliance with its WTO commitments. The amendment revised such terms in the law governing offshore exploration as restrictive provisions on technology transfers and domestic components requirements in procurement. The removal of these restrictions will provide a level playing field for all oilfield service contractors, domestic or international. These amendments are expected to benefit CNOOC's businesses as well as our exploration and production business and further increase production sharing contract activities offshore China. CNOOC will continue to enjoy the exclusive right to conduct production sharing contract activities with foreign contractors and is entitled to all rights and privileges under the previous regulation. The regulation also states that CNOOC, as a state-owned enterprise, is to be in charge of all efforts to exploit petroleum resources with contractors in Chinese waters. Currently, international oil and gas companies can only undertake offshore petroleum exploration and production activities in China after they have entered into a production sharing contract with CNOOC.

Environmental Regulation

Our operations in China are required to comply with various PRC environmental laws and regulations administered by the central and local government environmental protection bureaus. We are also subject to the environmental rules introduced by the local PRC governments in whose jurisdictions our onshore logistical support facilities are located. The State Administration for Environmental Protection sets national environmental protection standards and local environmental protection bureaus may set stricter local standards.

The relevant environment protection bureau must approve or review each stage of a project. We must file an environmental impact statement or, in some cases, an environmental impact assessment outline before an approval can be issued. The filing must demonstrate that the project conforms to applicable environmental standards. The relevant environmental protection bureau generally issues approvals and permits for projects using modern pollution control measurement technology.

The PRC national and local environmental laws and regulations impose fees for the discharge of waste substances above prescribed levels, require the payment of fines for serious violations and provide that the PRC national and local governments may at their own discretion close or suspend any facility which fails to comply with orders requiring it to cease or cure operations causing environmental damage.

For the year ended December 31, 2003, we did not experience any incident of crude oil discharge.

The PRC environmental laws do not currently require offshore petroleum developers to pay abandonment costs. Our financial statements include provisions for costs associated with the dismantlement of oil and gas fields during the years ended December 31, 2001, 2002 and 2003 of approximately Rmb 90.4 million, Rmb 126.1 million and Rmb 167.3 million, respectively.

Environmental protection and prevention costs and expenses in connection with the operation of offshore petroleum exploitation are covered under each

Edgar Filing: CNOOC LTD - Form 20-F

individual production sharing contract. Environmental protection and prevention costs and expenses represented on average approximately 4% of our annual operating costs relating to projects constructed offshore China during the three years ended December 31, 2003. Each platform has its own environmental protection and safety staff responsible for monitoring and operating the environmental protection equipment. However, no assurance can be given that the PRC government will not impose new or stricter regulations which would require additional environmental protection expenditures.

We are not currently involved in any environmental claims and believe that our environmental protection systems and facilities are adequate for us to comply with applicable national and local environmental protection regulations.

Legal Proceedings

We are not a defendant in any material litigation, claim or arbitration, and know of no pending or threatened proceeding which would have a material adverse effect on our financial condition.

69

Patents and Trademarks

We own or have licenses to use two trademarks which are of value in the conduct of our business. CNOOC is the owner of the "CNOOC" trademark. Under two non-exclusive license agreements between CNOOC and us, we have obtained the right to use this trademark for a nominal consideration.

Real Properties

Our corporate headquarters is located in Hong Kong. We also lease several other properties from CNOOC in China and Singapore. The rental payments under these lease agreements are determined with reference to market rates. For further details regarding the terms of these leases, see "Item 7--Major Shareholders and Related Party Transactions--Related Party Transactions--Categories of Connected Transactions--Lease agreement in respect of the Nanshan Terminal," and "--Lease and property management services."

We own the following property interests in the PRC:

- o land, various buildings and structures at Xingcheng JZ 20-2 Natural Gas Separating Plant, Dongyao Village, Shuangsu Township, Xingcheng City, Liaoning Province;
- o land, various buildings and structures located at Boxi Processing Plant, South of Jintang Subway, Tanggu District, Tianjin City;
- o land, various buildings and structures at Weizhou Terminal Processing Plant, Weizhou Island, Weizhou Town, Beihai City, Guangxi Zhuang Autonomous Region; and
- o a parcel of land at Suizhong 36-1 Base, Xiaoli Huang Village, Gaoling Town, Suizhong County, Liaoning Province.

Employees and Employee Benefits

During the years ended December 31, 2001, 2002 and 2003, we employed 1,081 persons, 2,047 persons and 2,447 persons, respectively. Our number of

Edgar Filing: CNOOC LTD - Form 20-F

employees increased significantly in 2002 due to the acquisition of our interests in oil and gas projects in Indonesia during that year. Our number of employees increased in 2003 mainly due to the establishment of our research center, CNOOC (China) Limited Research Center, in July 2003. Of the 2,447 employees we employed as of December 31, 2003, approximately 71.35% were involved in petroleum exploration, development and production activities, approximately 8% were involved in accounts and finance work and the remainder were senior management, coordinators of production sharing contracts and safety and environmental supervisors. Workers for the operation of the oil and gas fields, maintenance personnel and ancillary service workers are hired on a contract basis.

We have a trade union that:

- o protects employees' rights;
- o organizes educational programs;
- o assists in the fulfillment of economic objectives;
- o encourages employee participation in management decisions; and
- o assists in mediating disputes between us and individual employees.

We have not been subjected to any strikes or other labor disturbances and believe that relations with our employees are good.

70

The total remuneration of employees includes salary, bonuses and allowances. Bonus for any given period is based primarily on individual and our performance. Employees also receive subsidized housing, health benefits and other miscellaneous subsidies.

We have implemented an occupational health and safety program similar to that employed by other international oil and gas companies. Under this program, we closely monitor and record health and safety incidents and promptly report them to government agencies and organizations. On March 15, 2000, we finalized and implemented our occupational health and safety program. We believe this program is broadly in line with the United States government's Occupational Safety & Health Administration guidelines.

All full-time employees in the PRC are covered by a government-regulated pension. The PRC government is responsible for the pension of these retired employees. We are required to contribute monthly approximately 5% to 22.5% of our employees' basic salaries, with each employee contributing 4% to 7% of his or her base salary for retirement. The contributions vary from region to region.

Our Indonesian subsidiaries employ approximately 1,000 employees, including approximately 40 managerial staff and technicians. We provide employee benefits to expatriate staff that we believe to be in line with customary international practices. Our non-expatriate employees in Indonesia enjoy welfare benefits mandated by Indonesia labor laws.

For further details regarding retirement benefits, see note 30 to our consolidated financial statements attached to this annual report.

Health, Safety and Environmental Policy

Edgar Filing: CNOOC LTD - Form 20-F

We place much importance on our health, safety and environmental, or HSE, policy. In 2002, we implemented an overall HSE management system in each of our production divisions offshore China and also established an HSE policy for our overseas operations. The HSE policy for our operations offshore China focuses on increasing our employees' awareness of health, safety and environmental issues in the workplace. We regularly organize training courses and conduct environmental and safety drills. We also closely monitor weather forecasts and track hazardous weather conditions that may affect our production facilities.

The HSE policy for our overseas operations includes setting annual safety targets, conducting year-end evaluations, creating emergency contact lists, recording incidents accurately and reviewing management performance in this area.

In 2002, we established a "System for Determining Accountability in the Event of a Major Production Accident," and implemented an "Evaluation System for Health, Safety and Environmental Protection." We also launched a "Safety Activity of the Month" program and, together with our production sharing contract partners, hired a foreign professional to conduct safety inspections on the helicopters used in our operations offshore China.

In 2003, we further refined our HSE management requirements in order to enhance our HSE system. We completed our senior management review of all branches in China and CNOOC SES Ltd., established health management systems for our offshore crew members and set our crisis management procedures. Such procedures proved highly effective in withstanding the challenges during the SARS period in early 2003. During the year, we further strengthened safety management procedures for high risk activities such as those involving helicopter and diving operations. We also launched the International Association of Oil & Gas Producers (OGP) HSE management system as a commitment to the safety of our contractors. In addition, we have made significant progress in our application for the ISO14000 environmental management qualification for our offshore oil and gas fields during 2003. Qinhuangdao 32-6 oilfield and Wenchang oilfields have begun operating under a standardized environmental management system with proper documentation.

In order to promote Bohai Bay oil spillage awareness, support the establishment of the Bohai Oil

71

Spillage Awareness Center and strengthen crisis management capabilities in offshore work sites, we took part in the "National Offshore Oil Spillage Awareness Plan" seminar organized by the State Oceanic Administration, and discussed with participating oil and gas companies issues relating to resource sharing and risk assessment in case of oil spillage in Bohai Bay.

In accordance with changes to OSHA's statistical requirements, we revised our internal documentation procedures to keep abreast with OSHA's standard, which uses OGP reporting methods to record the differences and standards of particular incidents. We also adopted new OSHA and incident reporting forms in order to better meet the requirements of international associations such as OGP and API. We have been able to deliver working hour statistics and incident reports to investors and API on a quarterly basis.

In 2003, we recorded no major fatalities, contaminations or any safety related liabilities that exceeded US\$120,000 per incident. According to our

Edgar Filing: CNOOC LTD - Form 20-F

OSHA statistics, we achieved an above-average rating as compared with major international oil companies.

Human Resources Development

As an oil and gas exploration and production company operating in highly competitive markets, we depend in large part on our employees' abilities for successful operations. We devote significant resources to training our technical employees. During 2003, we held 325 training workshops, which were attended by 6,980 participants. To ensure the smooth implementation of our overseas strategy, we have established an international human resources system to attract and retain management and technical talents. We have adopted three stock option schemes for our senior management since February 4, 2001, and granted options under each of the schemes. In 2003, in line with our development strategy, we carried out a systematic and in-depth review of our recruitment and remuneration system with a view to reforming and strengthening our internal human resources system. During the year, we established an employee performance evaluation system, which aims at linking the individual's development objectives with our operating targets. In connection with the new employee performance evaluation system, we also conducted an advanced management training for senior management and a management technique training for mid-level managers.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

A. OPERATING RESULTS

You should read the following discussion and analysis in conjunction with our consolidated financial statements, selected historical consolidated financial data and operating and reserves data, in each case together with the accompanying notes, contained in this annual report. Our consolidated financial statements have been prepared in accordance with Hong Kong GAAP, which differ in certain material respects from U.S. GAAP. Note 37 to our consolidated financial statements attached to this annual report provides an explanation of our reconciliation to U.S. GAAP of net income and shareholders' equity. Certain statements set forth below constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. See "Forward-Looking Statements." On June 6, 2002, we terminated our engagement with Arthur Andersen & Co, our independent public accountants prior to such date. For a discussion of the change of accountants, see "--Change of Accountants" and "Item 3--Key Information--Risk Factors-- Risks relating to our business--You may not be able to assert claims against Arthur Andersen, our independent public accountants for periods prior to December 31, 2001, nor may you be able to assert claims against our current independent public accountants for financial statements previously audited by Arthur Andersen."

Overview

We are an oil and gas company engaged in the exploration, development, production and sales of crude oil and natural gas primarily offshore China. We are the dominant producer of crude oil and natural gas offshore China and the only company permitted to conduct exploration production activities with

international oil and gas companies offshore China. As of December 31, 2003, we had estimated net proved reserves of 2,128.5 million BOE, comprised of 1,436.1 million barrels of crude oil and condensate and 4,154.4 billion cubic

Edgar Filing: CNOOC LTD - Form 20-F

feet of natural gas. For the year 2003, our net production averaged 306,464 barrels per day of crude oil, condensate and natural gas liquids and 291.0 million cubic feet per day of natural gas, which together totaled 356,729 BOE per day.

Our revenues and profitability are largely determined by our production volume and the prices we charge for our crude oil and natural gas, as well as the costs of our exploration and development activities. Although crude oil prices depend on various market factors and have been volatile historically, our production volume has increased steadily over the past few years.

The following table sets forth our net production of crude oil, condensate and natural gas liquids and net income for the periods indicated.

	Year ended December 31,			
	1999	2000	2001	2002
Net production of crude oil, condensate and natural gas liquids (BOE/day).....	174,745	206,347	228,874	298,464
Net production of natural gas (mmcf/day).....	204.4	197.9	195.0	277.0
Net income (Rmb in millions).....	4,111.1	10,296.6	7,957.6	9,233.1

We sell 44.5% of our crude oil production in 2003 to customers affiliated with Sinopec or PetroChina in the PRC domestic market. We sell 46.4% of our natural gas production offshore China in 2003 to Castle Peak Power Company Limited under a long-term take-or-pay contract.

For a further description of these factors and certain other factors affecting our financial performance, see "Item 3--Key Information--Risk Factors."

Relationship with CNOOC

Prior to the October 1999 reorganization of CNOOC, we did not exist as a separate legal entity and our business and operations were conducted by CNOOC and its various affiliates. In connection with the reorganization, CNOOC's oil and gas exploration, development, production and sales business and operations conducted both inside and outside China were transferred to us. See "Item 4--Information on the Company--History and Development--Corporate Structure," "Item 7--Major Shareholders and Related Party Transactions" and note 26 to our consolidated financial statements attached to this annual report.

Before the reorganization, certain PRC subsidiaries of CNOOC provided various materials, utilities and ancillary services for CNOOC's exploration and production activities. In connection with the reorganization, we entered into various agreements under which we continued to use various services and properties provided by these CNOOC subsidiaries. These agreements include: (i) a materials, utilities and ancillary services supply agreement; (ii) technical service agreements; (iii) agreements for the sale of crude oil, condensate oil and liquefied petroleum gas; (iv) various lease agreements with other affiliates of CNOOC for office and residential premises used by us; and (v) a research and development services agreement with CNOOC Research Center for the provision of general geophysical exploration services, comprehensive exploration research services, information technology services and seismic study. We have renewed these agreements on substantially the same terms. In 2002, CNOOC consolidated most of its oilfield services operations and established China Oilfield Services Limited. This CNOOC affiliate now provides

Edgar Filing: CNOOC LTD - Form 20-F

most of the technical services to us.

For a description of the services provided under these agreements, see "Item 7--Major Shareholders and Related Party Transactions."

73

Acquisitions and Overseas Activities

On January 1, 2003, we acquired BP Muturi Limited, which owned a 44.0% interest in the Muturi production sharing contract offshore Indonesia, and BP Wiriagar Limited's 42.4% interest in the Wiriagar production sharing contract offshore Indonesia for a total consideration of approximately US\$275 million. The Muturi production sharing contract and Wiriagar production sharing contract, together with the Berau production sharing contract, make up the Tangguh LNG project. Our interests in these production sharing contracts represented approximately 12.5% of the total reserves and upstream production of the Tangguh LNG project. On May 13, 2004, we completed our acquisition of an additional 20.767% interest in the Muturi production sharing contract from the BG Group. As a result, our interests in these production sharing contracts now represent 16.96% of the total reserves and upstream production of the Tangguh LNG project. The remaining interests are held by BP Berau, BP Muturi, BP Wiriagar, MI Berau, Nippon, BG, KG Berau, KG Wiriagar and Indonesia Natural Gas Resources Muturi. The Tangguh LNG project is a greenfield project located offshore Indonesia and represents one of the largest natural gas projects in Asia.

In connection with our acquisition of interests in the Tangguh LNG project, the partners in the Tangguh LNG project entered into a conditional 25-year supply contract to provide beginning in 2007 up to 2.6 million tonnes of liquefied natural gas per year to a liquefied natural gas terminal project in Fujian Province, China. In addition, we entered into a repurchase agreement whereby put options and call options are granted to us and the sellers, respectively, to sell or to repurchase the interests in the above-mentioned PSCs. The options are exercisable if:

- o the LNG supply contract is terminated due to the non-satisfaction of the conditions precedent to the LNG supply contract on or before December 31, 2004; or
- o the LNG supply contract is otherwise legally ineffective on or before December 31, 2004.

The exercise prices of the options are determined based on the original consideration paid plus adjustments stipulated in the repurchase agreement.

In July 2003, we increased our interest in Qinhuangdao 32-6, a PSC oilfield in Bohai Bay, from 51% to 75.5% by acquiring the 24.5% interest from BP China Exploration and Production Company for a cash consideration of US\$150 million, plus working capital adjustments.

In July 2003, we acquired the remaining 49% interest in Liuhua 11-1, a PSC oilfield in Eastern South China Sea, from BP China Exploration and Production Company and Kerr-McGee China Petroleum Limited, for a total cash consideration of US\$40 million, plus working capital adjustments.

In 2003, we invested Rmb 450 million in the equity interest of CNOOC Finance Corporation Limited, or CNOOC Finance, a subsidiary of our controlling shareholder, CNOOC. Our investment represented 31.8% of the registered capital

Edgar Filing: CNOOC LTD - Form 20-F

of CNOOC Finance.

In May, 2003, we entered into a purchase agreement with the partners of the North West Shelf natural gas project for the acquisition of output and reserves interest of its upstream oilfields. We also agreed to acquire a 25% interest in the China LNG joint venture to be established by the North West Shelf project partners to supply liquefied natural gas from the North West Shelf project to a liquefied natural gas terminal currently being developed by CNOOC, our controlling shareholder, and various partners in Guangdong Province, China. The acquisition price for this project was US\$348 million. Our estimated share of reserves from this project would be approximately 1.2 trillion cubic feet of natural gas. Our share of natural gas together with associated liquids would be approximately 210 million BOE. Woodside Petroleum is the operator for the project. See "Item 4--Information on the Company--Business Overview--Natural Gas Business--Overseas Activity."

On October 24, 2003, we entered into an agreement with the joint venture participants of the Gorgon natural gas project in Australia based on a memorandum of understanding previously entered into with them. We agreed to acquire certain interest in the Gorgon natural gas project.

74

Production Sharing Contracts Offshore China

We conduct a significant amount of our offshore China oil and gas activities through production sharing contracts with international oil and gas companies. Under these production sharing contracts, our foreign partners are required to bear all exploration costs during the exploration period. The parties to the contracts may recover exploration costs after commercial discoveries are made and production begins. The amount of exploration costs recoverable is derived from a production sharing formula set forth in each contract. Our production sharing contracts provide us with the option to take a participating interest in properties covered by the production sharing contracts which we may exercise after the foreign partners have made viable commercial discoveries. The foreign partners retain the remaining participating interests. We and the foreign partners fund our development and operating costs according to our respective participating interests. Based on a formula contained in the applicable contract, we are entitled to allocate specified amounts of the annual gross production of petroleum from those producing fields. See "Item 4--Information on the Company--Business Overview--Production Sharing Contracts--Offshore China--Production Sharing Formula."

Before we exercise our option to take the 51% participating interest in a production sharing contract, we do not account for the exploration costs incurred, as these costs were incurred by our foreign partners. After we exercise the option to take a participating interest in a production sharing contract, we account for the oil and gas properties using the "proportional method" under which we recognize our share of development costs, revenues and expenses from such operations based on our participating interest in the production sharing contracts. See note 5 to our consolidated financial statements attached to this annual report.

The foreign partners have the right to either take possession of their petroleum for sale in the international market or sell their petroleum to us for resale in the PRC market. See "Item 4--Information on the Company--Business Overview--Production Sharing Contracts--Offshore China." For the years ended December 31, 2001, 2002 and 2003, the percentage of foreign

Edgar Filing: CNOOC LTD - Form 20-F

partners' oil that was resold by us in the PRC market amounted to approximately 57%, 50% and 69%, respectively. The foreign partners sold the remaining portion of their oil in the international markets.

As described above, production of crude oil and natural gas is allocated among us, our foreign partners and the PRC government according to a formula contained in the production sharing contracts. We have excluded the government's share oil from net sales in our historical consolidated financial statements. Since our historical consolidated financial statements already exclude the government's share oil from our net sales figure, we do not expect any future share oil payments to affect our results of operations or operating cash flows differently than the effects reflected in our historical consolidated financial statement. For information regarding the historical amounts of government share oil payable to the government, see note 7 to our consolidated financial statements attached to this annual report. For information regarding treatment of the PRC government's share oil, see "Item 4--Information on the Company--Business Overview--Production Sharing Contracts--Offshore China--Production Sharing Formula."

We have one associated company, Shanghai Petroleum and Natural Gas Company Limited, which owns the Pinghu field. Our 30% equity interest in this company is accounted for using the equity method, under which our proportionate share of the net income or loss of Shanghai Petroleum and Natural Gas Company Limited is included in our consolidated statements of income as a share of income or loss of the associated company.

Our cost structures for production sharing contracts and for independent operations are different. The total expenses per unit of production under production sharing contracts are generally higher due to our foreign partners' use of expatriate staff, who generally command higher wages, as well as administrative and overhead costs that may be allocated by the operators, a higher percentage of capital expenditures and larger proportion of imported equipment.

75

Production from Independent Operations offshore China versus Production from Production Sharing Contracts offshore China

Historically we have cooperated with foreign partners under production sharing contracts, which have provided us with the expertise to undertake our independent operations more effectively. The percentage of our net production arising from independent operations offshore China was 58.4%, 53.9% and 52.7% for the years ended December 31, 2001, 2002 and 2003, respectively. Although we will continue to focus on independent operations, we plan to continue seeking appropriate opportunities to cooperate with foreign partners under production sharing contracts.

Provision for dismantlement

Prior to 2002, we estimated future dismantlement costs for our oil and gas properties and accrued the costs over the economic lives of the assets using the unit-of-production method. We estimated future dismantlement costs for oil and gas properties with reference to the estimates provided from either internal and external engineers after taking into consideration the anticipated method of dismantlement required in accordance with then current legislation and industry practice. In 2002, we changed the method of accounting for the provision for dismantlement in compliance with Hong Kong Statement of Standard Accounting Practice or HK SSAP 28, "Provisions,

Edgar Filing: CNOOC LTD - Form 20-F

contingent liabilities and contingent assets." HK SSAP 28 requires the provision to be recorded for a present obligation whether that obligation is legal or constructive. The associated cost is capitalized and the liability is discounted and accretion expense is recognized using the credit adjusted risk-free rate in effect when the liability is initially recognized. The dismantlement costs for the years ended December 31, 2001, 2002 and 2003 were Rmb 90.4 million, Rmb 126.1 million and Rmb 167.3 million, respectively. The accrued liability is reflected in our consolidated balance sheet under "provision for dismantlement." See notes 3 and 27 to our consolidated financial statements attached to this annual report.

Production Imbalance

We account for oil overlifts and underlifts using the entitlement method, under which we record overlifts as liabilities and underlifts as assets. An overlift occurs when we sell more than our percentage interest of oil from a property subject to a production sharing contract. An underlift occurs when we sell less than our participating interest of oil from a property under a production sharing contract. During the historical periods presented in our consolidated financial statements attached to this annual report, we had no gas imbalances. We believe that production imbalance has not had a significant effect on our operations, liquidity or capital resources.

Allowances for Doubtful Accounts

We evaluate our accounts receivable by considering the financial condition of our customers, their past payment history and credit standing and other specific factors, including whether the accounts receivable in question are under dispute. We make provisions for accounts receivable when they are overdue for six months and we are concerned about our ability to collect them. For the years ended December 31, 2001, 2002 and 2003, allowances for doubtful accounts were not material in the context of total operating expenses and did not have a material effect on our results of operations or financial condition.

Non-GAAP Financial Measures

We use a financial measure that we define as EBITDE to provide additional information about our operating performance and our liquidity. EBITDE refers to our earnings before the following items:

- o interest income and interest expense;
- o income taxes;
- o depreciation, depletion and amortization;

76

- o dismantlement, exploration expenses and impairment losses related to property, plant and equipment; and
- o exchange gains or losses.

EBITDE is not a standard measure under either U.S. or Hong Kong GAAP. For instance, it excludes our dismantlement and exploration expenses that may require cash settlement upon occurrence or subject to provisioning. For dismantlement costs, we are required under Hong Kong GAAP to make provision for our dismantlement expenses and settle at the time of dismantlement. See

Edgar Filing: CNOOC LTD - Form 20-F

"--Provision for dismantlement" above. For exploration costs, we are required to expense or accrue such costs on basis of whether the exploration was successful under our successful efforts method of accounting for exploration. However, we believe the investor community commonly uses this type of financial measure to assess the operating performance of oil and gas companies like us and the ability of such companies to service debt obligations and meet capital expenditure and working capital requirements.

As a measure of our operating performance, we believe that the most directly comparable U.S. and Hong Kong GAAP measure to EBITDE is net income. We operate in a capital intensive industry. We use EBITDE in addition to net income because net income includes many accounting items associated with capital expenditures, such as depreciation, exploration expenses and dismantlement costs. These accounting items may vary between companies depending on the method of accounting adopted by a company. For example, we use successful efforts method of accounting whereby we capitalize successful exploration projects and expense unsuccessful efforts. Other companies may use the full cost method whereby they capitalize all of their exploration costs regardless of whether their exploration efforts prove successful. By minimizing differences in capital expenditures and the associated depreciation expenses and exploration expenses as well as reported exploratory success rates, financial leverage and tax positions, EBITDE provides further information about our operating performance and an additional measure for comparing our operating performance with other companies' results.

The following table reconciles our net income under U.S. GAAP to our definition of EBITDE for the periods indicated.

	Year ended December 31,			
	1999	2000	2001	2002
	Rmb	Rmb	Rmb	Rmb
	(in millions)			
Net Income.....	4,113	10,302	7,920	9,086
Tax	722	1,926	3,048	3,482
Interest and exchange gain/(loss), net.....	1,000	(143)	(436)	261
Depreciation, depletion and amortization.....	2,371	2,573	2,558	4,011
Dismantlement costs.....	177	104	90	323
Exploration expenses.....	247	553	1,039	1,318
Impairment losses related to property, plant and equipment.....	--	--	100	--
EBITDE.....	8,630	15,315	14,319	18,481

As a measure of our liquidity, we believe that the most directly comparable U.S. and Hong Kong GAAP measure to EBITDE is cash provided by operating activities. We use EBITDE in addition to this standard measure because EBITDE excludes exploration expenses, which depend on a company's method of accounting for exploration activity and fluctuate based on the company's reported success rate. EBITDE provides an additional measure for comparing our cash provided by operating activities before accounting for exploration expenses with other companies' figures.

The following table reconciles our cash provided by operating activities under U.S. GAAP to our definition of EBITDE for the periods indicated.

Edgar Filing: CNOOC LTD - Form 20-F

	Year ended December			
	1999	2000	2001	2002
	Rmb	Rmb	Rmb	Rmb
				(in millions)
Cash provided by operating activities.....	7,323	13,233	11,759	14,59
plus/(less): movements in working capital.....	164	326	(583)	
plus/(less): returns on investments and servicing of finance.....	651	317	(346)	(181)
plus: taxation paid.....	198	880	2,611	2,84
plus: short-term investment income.....	--	--	221	19
plus/(less): recovery (provision) for doubtful debts.....	5	58	5	--
plus: share of profit of an associate.....	13	218	90	16
plus/(less): gain on sale/loss on disposals and write-off of property, plant and equipment.....	--	(220)	(457)	(43)
other adjustments.....	29	(50)	23	(1)
less: amortization of discount of long-term guaranteed notes	--	--	--	--
plus or less: realized and unrealized holding gains from available-for-sale marketable securities.....	--	--	(43)	(1)
less: recognition of stock compensation cost under U.S. GAAP	--	--	--	--
plus: exploration expenses.....	247	553	1,039	1,31
EBITDE.....	8,630	15,315	14,319	18,48

You should not consider our definition of EBITDE in isolation or construe it as an alternative to net income, operating cash flows or any other measure of performance or as an indicator of operating performance, liquidity or any other standard measure under either U.S. or Hong Kong GAAP. Our definition of EBITDE fails to account for taxes, interest expenses, other non-operating cash expenses and exploration and dismantlement expenses. EBITDE also does not consider any functional or legal requirements of our business that may require us to allocate funds for purposes other than debt service or exploration and development activities. Our EBITDE measures may not be comparable to similarly titled measures used by other companies.

Critical Accounting Policies

We prepare our consolidated financial statements in accordance with Hong Kong GAAP. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of our assets and liabilities, the disclosure of our contingent assets and liabilities as of the date of our financial statements and the reported amounts of our revenues and expenses during the periods reported. Management makes these estimates and judgments based on historical experience and other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe that the following significant accounting policies may involve a higher degree of judgment in the preparation of our consolidated financial statements. For additional discussion of our significant accounting policies, see note 3 to

Edgar Filing: CNOOC LTD - Form 20-F

our consolidated financial statements attached to this annual report.

Oil and Gas Properties, Land and Buildings

For oil and gas properties, we have adopted the successful efforts method of accounting. As a result, we capitalize initial acquisition costs of oil and gas properties and recognize impairment of initial acquisition costs based on exploratory experience and management judgement. Upon discovery of commercial reserves, we transfer acquisition costs to proved properties and capitalize the costs of drilling and equipping successful exploratory wells, all development costs, and the borrowing costs arising from borrowings used to finance the development of oil and gas properties before they are substantially ready for production. We treat the costs of unsuccessful exploratory wells and all other related exploration costs as expenses when incurred. We amortize capitalized acquisition costs of proved properties by the unit-of-production method on a property-by-property basis based on the total estimated units of proved reserves. We estimate future dismantlement costs for oil and gas properties with reference to the estimates provided from either internal or external engineers after taking into consideration the anticipated method of dismantlement required in accordance with current legislation and industry practices. The associated cost is capitalized and the liability is discounted and an accretion expense is recognized using the credit-adjusted risk-free interest rate in effect when the liability is initially recognized.

78

Land and buildings represent our onshore buildings and our land use rights which are stated at valuation less accumulated depreciation and accumulated impairment losses. Professional valuations are performed periodically, our last valuation was performed on December 31, 2000. In intervening years, our directors review the carrying value of land and buildings and make adjustment where in their opinion there has been a material change in value. Any increase in land and building valuation is credited to the revaluation reserves; any decrease is first offset against an increase in an earlier valuation in respect of the same property and is thereafter charged to the income statement. Depreciation is calculated on the straight-line basis at an annual rate estimated to write off the valuation of each asset over its expected useful life, ranging from 30 to 50 years.

Impairment of Assets

We make an assessment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable, or when there is any indication that an impairment loss previously recognized for an asset in prior years may no longer exist or may have decreased. In any event, we would make an estimate of the asset's recoverable amount, which is calculated as the higher of the asset's value in use or its net selling price. We recognize an impairment loss only if the carrying amount of an asset exceeds its recoverable amount. We charge an impairment loss to the income statement in the period in which it arises unless the asset is carried at a revalued amount. For a revalued asset, we account for the impairment loss in accordance with the relevant accounting policy for such revalued asset. A previously recognized impairment loss is reversed only if there has been a change in our estimates used to determine the recoverable amount of an asset. However, no reversal may put the value of the asset higher than the carrying amount that we would have determined (net of any depreciation/amortization) had no impairment loss been recognized for the asset in prior years.

Edgar Filing: CNOOC LTD - Form 20-F

A reversal of an impairment loss is credited to the income statement in the period in which it arises, unless the asset is carried at a revalued amount, when the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

Provisions

We recognize a provision when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation so long as a reliable estimate can be made of the amount of the obligation. When the effect of discounting is material, the amount recognized for a provision is the present value at the balance sheet date of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement. We make provisions for dismantlement based on the present value of our future costs expected to be incurred, on a site by site basis, in respect of our expected dismantlement costs at the end of the related oil exploration and recovery activities.

Deferred Tax

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Recognition of Revenue from Oil and Gas Sales and Marketing

We recognize revenue when it is probable that the economic benefits will flow to us and when the revenue can be measured reliably. For oil and gas sales, our revenues represent the invoiced value of sales of oil and gas attributable to our interests, net of royalties and any government share oil that is lifted and sold on behalf of the PRC government. Sales are recognized when the significant risks and rewards of ownership of oil and gas have been transferred to customers. Oil and gas lifted and sold by us above or below our participating interests in any production sharing contract result in overlifts and underlifts. We record these transactions in accordance with the entitlement method under which overlifts are recorded as liabilities and underlifts are recorded as assets at year-end oil prices. Settlement will be in kind when

the liftings are equalized or in cash when production ceases. We enter into gas sales contracts with customers which typically contain take-or-pay clauses. These clauses require our customers to take a specified minimum volume of gas each year. If a customer fails to take the minimum volume of gas, the customer must pay for the gas even though it did not take the gas. The customer can offset the deficiency payment against any future purchases in excess of the specified volume. We record any deficiency payment as deferred revenue which is included in other payables until any make-up gas is taken by the customer or the expiry of the contract. Our marketing revenues represent sales of oil purchased from the foreign partners under our production sharing contracts and revenues from the trading of oil through our subsidiary in Singapore. The title, together with the risks and rewards of the ownership of such oil purchased from the foreign partners, are transferred to us from the foreign partners and other unrelated oil and gas companies before we sell such oil to our customers. The cost of the oil sold is included in crude oil and product purchases.

Edgar Filing: CNOOC LTD - Form 20-F

Results of Operations

Overview

The following table summarizes the components of our revenues and net production as percentages of our total revenues and total net production for the periods indicated:

	Year ended December 31,			
	2001		2002	
	(Rmb in millions, except percentages, production in million BOE)			
Revenues:				
Oil and gas sales: (1)				
Crude oil.....	15,916	76.4%	21,498	81.5%
Natural gas.....	1,645	7.9	2,281	8.7
Total oil and gas sales.....	17,561	84.3%	23,779	90.2%
Marketing revenues.....	2,537	12.2%	2,377	9.0%
Other income.....	722	3.5	217	0.8
Total revenues.....	20,820	100.0%	26,374	100.0%
Net production (million BOE):				
Crude oil.....	83.5	87.5%	109.0	86.2%
Natural gas.....	11.9	12.5	17.5	13.8
Total net production.....	95.4	100.0%	126.5	100.0%
Average net realized prices:				
Crude oil (per bbl).....	US\$23.34		US\$24.35	
Natural Gas (per mcf).....	3.08		2.98	

(1) These figures do not include our revenues from the Pinghu gasfield.

The following table sets forth, for the periods indicated, certain income and expense items in our consolidated income statements as a percentage of total revenues:

	Year ended December	
	2001	2002
Operating Revenues:		
Oil and gas sales.....	84.3%	90.2%
Marketing revenues.....	12.2	9.0

Calculation of Revenues

China

We report total revenues, which consist of oil and gas sales, marketing revenues and other income, in our consolidated financial statements attached to this annual report. With respect to revenues derived from our offshore China operations, oil and gas sales represent gross oil and gas sales less royalties and share oil payable to the PRC government. These amounts are calculated as follows:

- o gross oil and gas sales consist of our percentage interest in total oil and gas sales, comprised of (i) a 100% interest in our independent oil and gas properties and (ii) our participating interest in the properties covered under our production sharing contracts, less an adjustment for production allocable to foreign partners under our production sharing contracts as reimbursement for exploration expenses attributable to our participating interest;
- o royalties represent royalties we pay to the PRC government on production with respect to each of our oil and gas fields. The amount of royalties varies from 0% up to 12.5% based on the annual production of the relevant property. We pay royalties on oil and gas we produce independently and under production sharing contracts;
- o government share oil, which is only paid on oil and gas produced

Edgar Filing: CNOOC LTD - Form 20-F

under production sharing contracts, is calculated as described under "--Overview--Production Sharing Contracts Offshore China;"

- o other income mainly represents project management fees charged to our foreign partners and handling fees charged to end customers--both fees are recognized when the services are rendered; and
- o we pay production taxes to the PRC government that are equal to 5% of the oil and gas we produce independently and under production sharing contracts. Before May 1, 2001, we paid an additional 0.5% local surcharge on the oil and gas that we produced independently. This surcharge no longer exists. Our oil and gas sales are not reduced by production taxes. Production taxes are included in our expenses under "production taxes."

Marketing revenues represent our sales of our foreign partners' oil and gas produced under our production sharing contract and purchased by us from our foreign partners under such contracts as well as from international oil and gas companies through our wholly owned subsidiary in Singapore. Net marketing revenues represent the marketing revenues net of the cost of purchasing oil and gas from foreign partners and from international oil and gas companies. Our foreign partners have the right to either take possession of their oil and gas for sale in the international market or to sell their oil and gas to us for resale in the PRC market.

81

Our share of the oil and gas sales of our associated company is not included in our revenues, but our share of the profit or loss of our associated company is included in our consolidated statements of income under "share of profit of an associate."

Indonesia

The oil and gas sales from our subsidiaries in Indonesia consist of our participating interest in the properties covered under the relevant production sharing contracts, less adjustments for share oil payable under our Indonesian production sharing contracts to Pertamina, the Indonesian state-owned oil and gas company, and for a domestic market obligation under which the contractor must sell a specified percentage of its crude oil to the local Indonesian market at a reduced price.

2003 versus 2002

Consolidated Net Profit

Our consolidated net income after tax was Rmb 11,535.5 million (US\$1,393.6 million) in 2003, an increase of Rmb 2,302.7 million (US\$278.2 million), or 24.9% from Rmb 9,232.8 million in 2002.

Revenue

Our oil and gas sales for the year 2003 were Rmb 28,116.8 million (US\$3,396.9 million), an increase of Rmb 4,337.5 million (US\$524.0 million), or 18.2% from Rmb 23,779.3 million in 2002. The increase primarily reflects the rise in global crude oil prices and our production level. In 2003, as a result of the commencement of production in our new oil and gas properties as well as our successful acquisition of a portion of interests in Liuhua 11-1

Edgar Filing: CNOOC LTD - Form 20-F

and Qinhuangdao 32-6, our production volume increased compared to 2002. The average net production volume per day was 356,729 barrels in 2003, compared to 346,639 barrels in 2002, an increase of 3%. In 2003, with the higher-than-expected oil price, our Indonesian oil and gas operations had a lower-than-expected net production volume based on the Indonesian oil production sharing contract, which affected the production volume growth. Our crude oil sales prices are determined in accordance with international crude oil prices. The international oil price in 2003 rose sharply compared with 2002. The average realized price for our crude oil was US\$28.11 per barrel in 2003, an increase of US\$3.76, or 15.4% from US\$24.35 per barrel in 2002. The average realized price of natural gas was US\$2.87 per thousand cubic feet in 2003, a decrease of US\$0.11, or 3.7%, from US\$2.98 per thousand cubic feet in 2002. The decrease was due to the lower natural gas price of our Indonesian properties and the Dongfang gasfield.

In 2003, our net marketing profit, which were derived from marketing revenue less purchase cost of crude oil and oil products, were Rmb 103.4 million (US\$12.5 million), an increase of Rmb 52.3 million (US\$6.3 million), or 102.3%, from Rmb 51.1 million in 2002. Since we are one of the three companies that have the right to sell crude oil in China, upon request by our production sharing contract partners, we may purchase the oil of these partners for sale in China. However, the amount of oil we may sell in China depends on our foreign partners and, therefore, we cannot control the amount of crude oil that we are able to sell for any specific period.

Our other income, reported on a net basis, was derived from our other income less corresponding costs. In 2003, the total other income was Rmb 84.5 million (US\$10.2 million), a decrease of Rmb 101.7 million (US\$12.3 million) from Rmb 186.2 million in 2002, resulting primarily from the decrease in project management fees.

Expenses

Operating expenses. Our operating expenses were Rmb 4,512.8 million (US\$545.2 million) in 2003, an increase of Rmb 737.5 million (US\$89.1 million), or 19.5%, from Rmb 3,775.3 million in 2002. The increase primarily resulted from operating expenses in connection with the Indonesian oil and gas properties, which were based on a full year's consolidated accounts as compared to the nine months contributions in 2002, and the commencement of operations in new properties. Operating expenses were

82

Rmb 35.1 (US\$4.25) per BOE in 2003, which were higher than operating expenses of Rmb 30.3 per BOE in 2002. The increase was, on the one hand, attributable to the higher operating expenses on a unit of production basis for the Indonesian oil and gas properties, resulting from the higher-than-expected oil price and lower net production, and its increased weighting in us on an annual production basis. On the other hand, the natural diminishing in old oilfield production and the higher maintenance cost also resulted in the slight increase in unit cost.

Production taxes. Our production taxes for the year 2003 were Rmb 1,238.6 million (US\$149.6 million), an increase of 21.1%, or Rmb 215.6 million (US\$26.0 million) from Rmb 1,023.0 million in 2002. The increase was due to increase in oil and gas sales in 2003.

Exploration costs. Our exploration costs for the year 2003 were Rmb 848.1 million (US\$102.5 million), a decrease of Rmb 470.2 million (US\$56.8 million),

Edgar Filing: CNOOC LTD - Form 20-F

or 35.7%, from Rmb 1,318.3 million in 2002. The decrease primarily resulted from a higher successful rate of exploration and drilling activities.

Depreciation, depletion and amortization expenses. Our depreciation, depletion and amortization expenses for 2003 were Rmb 4,642.8 million (US\$560.9 million), an increase of Rmb 623.3 million (US\$75.3 million), or 15.5%, from Rmb 4,019.5 million in 2002. On a unit of production basis, depreciation, depletion and amortization expenses for the year 2003 were Rmb 36.2 (US\$4.37) per BOE, an increase of 12.0% compared to Rmb 32.3 per BOE in 2002. The primary reason for the increase was the higher weighting for Indonesian oil and gas properties, which had a higher amortization cost, and the increase in amortization cost resulted from the reserve adjustment of some old fields.

Dismantlement costs. Our dismantlement costs for the year 2003 were Rmb 167.3 million (US\$20.2 million), an increase of Rmb 41.2 million (US\$5.0 million) from Rmb 126.1 million in 2002. The increase was primarily due to the increased dismantlement costs resulting from the commencement of production at new oil and gas properties. On a unit production basis, our dismantlement costs were Rmb 1.3 (US\$0.16) per BOE, an increase of 30.0% compared to Rmb 1.0 per BOE in 2002. The increase was primarily due to an upward revision of the estimated dismantlement costs and the increase in dismantlement costs resulting from the reserve adjustment of some old fields.

Selling and administrative expenses. Our selling and administrative expenses for the year 2003 were Rmb 1,212.5 million (US\$146.5 million), an increase of Rmb 206.0 million (US\$24.9 million), or 20.5%, from Rmb 1,006.5 million in 2002. The primary reason for the increase was the selling and administrative expenses incurred in connection with the Indonesian oil and gas properties. On a unit of production basis, selling and administrative expenses were Rmb 9.4 (US\$1.14) per BOE in 2003, an increase of 16.0% from Rmb 8.1 per BOE in 2002. The increase was primarily attributable to the higher selling and administrative expenses on a unit of production basis for the Indonesian oil and gas properties, resulting from the higher-than-expected oil price and lower net production, and its increased weighting in us on an annual production basis. Our selling and administrative expenses in China in 2003 were Rmb 6.6 (US\$0.8) per BOE, in line with the previous year.

Net interest expenses/income

Our net interest expense for 2003 was Rmb 171.4 million (US\$20.7 million), in line with the net interest expense of Rmb 146.9 million in 2002.

Exchange Gain/Loss, net

Our exchange loss for 2003 was Rmb 6.7 million (US\$0.8 million), a decrease of Rmb 107.1 million (US\$12.9 million) when compared with an exchange loss of Rmb 113.8 million in 2002. The loss in 2002 was mainly attributable to exchange rate fluctuations related to our yen-denominated loans. Since we have prepaid a large portion of yen-denominated loans on December 27, 2002, and the outstanding amount of our yen-denominated loans is hedged using foreign currency swaps, we do not expect similar exchange gains or losses for that portion. Therefore, the exchange gain or loss this year was primarily attributable to the exchange gain generated from day-to-day operating activities.

Edgar Filing: CNOOC LTD - Form 20-F

Our short term investment income for 2003 was Rmb 123.5 million (US\$14.9 million), a decrease of Rmb 69.8 million (US\$8.4 million) or 36.1% from Rmb 193.3 million in 2002. The decrease was primarily due to a decline in short term investment return in 2003.

Share of Profit of an Associate

Our share of profit of an associate for the year 2003 was Rmb 220.3 million (US\$26.6 million), an increase of Rmb 54.9 million (US\$6.6 million), or 33.2%, from Rmb 165.4 million in 2002. This item reflected our share of profit generated by Shanghai Petroleum and Natural Gas Company Limited, our associated company. This company experienced an increase of profit in 2003 resulting from an increase in output and oil prices.

Non-operating Income/Expenses, Net

Our net non-operating income for the year 2003 was Rmb 315.0 million (US\$38.1 million), compared to non-operating expense for the year 2002 of Rmb 71.4 million. In 2003, the net non-operating income was mainly due to the tax refund from re-investment.

Tax

Our taxation for the year 2003 was Rmb 4,627.8 million (US\$559.1 million), an increase of Rmb 1,086.4 million (US\$131.3 million) or 30.7% from Rmb 3,541.4 million in 2002. The primary reason for the increase was the increase in profit before tax. The effective tax rate for 2003 was 28.6%, slightly higher than the effective rate of 27.7% in 2002.

2002 versus 2001

Our oil and gas sales for the year 2002 were Rmb 23,779.3 million, an increase of Rmb 6,218.5 million, or 35.4%, from Rmb 17,560.8 million in the year 2001. The increase primarily reflects the rise in our production level, as well as the increase in global crude oil prices during 2002. Of the increase in oil and gas sales, Rmb 5,417.0 million was attributable to our increased production volume, while Rmb 801.5 million was attributable to the rise in crude oil prices. In 2002, as a result of the commencement of production in our new oil and gas properties as well as our successful acquisition of overseas oil and gas properties, our production volume increased significantly compared to 2001. Our net production level in 2002 increased by 33% compared to the same period in 2001, one of the highest growth years in our history. The net crude oil and condensate production volume per day was 298,625 barrels in 2002, compared to 228,873 barrels in 2001, an increase of 30.5%. Our Indonesian oil and gas operations accounted for 15% of the increase in our production volume. Production volume increases offshore China primarily resulted from the commencement of production at our new oil and gas properties, including new platforms in Suizhong 36-1 (Phase II), Qinhuangdao 32-6, Wenchang 13-1 and Wenchang 13-2. Our daily average production for natural gas in 2002 was 272.6 million cubic feet, an increase of 77.6 cubic feet, or 39.8%, from 195.0 million cubic feet in 2001. The increase was primarily attributable to contributions from our Indonesian operations. Our crude oil sales prices are determined in accordance with international crude oil prices. The average realized price for our crude oil was US\$24.35 per barrel in 2002, an increase of US\$1.01, or 4.3%, compared to US\$23.34 per barrel in 2001. The average realized price of natural gas was US\$2.98 per thousand cubic feet in 2002, a decrease of US\$0.10, or 3.2%, from US\$3.08 per thousand cubic feet in 2001. The decrease was due to the lower realized price of natural gas from our Indonesian properties relative to the realized price of natural gas from our offshore China properties.

Edgar Filing: CNOOC LTD - Form 20-F

Our marketing revenues in 2002 were Rmb 2,377.5 million, a decrease of Rmb 159.5 million, or 6.3%, from Rmb 2,537.0 million in 2001.

Our other income, reported on a net basis in 2002, was Rmb 217.1 million and consisted primarily of project management and handling fees. This was at a similar level to 2001. In 2001, our

84

other income on a net basis was Rmb 203.7 million, which was derived from our other income of Rmb 721.7 million less corresponding costs of Rmb 517.9 million.

Our operating expenses were Rmb 3,775.3 million in 2002, an increase of Rmb 1,446.2 million, or 62.1%, from Rmb 2,329.1 million in 2001. The increase primarily resulted from operating expenses in connection with the Indonesian oil and gas properties and the commencement of operations in new properties offshore China. The operating expenses for the Indonesian oil and gas properties were Rmb 1,237.8 million in 2002. On a unit of production basis, operating expenses were Rmb 30.3 per BOE in 2002, which were higher than operating expenses of Rmb 24.9 per BOE in 2001. The increase was largely attributable to the higher operating expenses on a unit of production basis for the Indonesian oil and gas properties, resulting from the different fiscal regime applicable to Indonesia. Our operating expenses excluding Indonesia in 2002 were Rmb 23.6 per BOE.

Our production taxes for the year 2002 were Rmb 1,023.0 million, an increase of 15.8%, or Rmb 139.2 million from Rmb 883.8 million in 2001. The increase was due to an increase in sales revenues in 2002.

Our exploration costs for the year 2002 were Rmb 1,318.3 million, an increase of Rmb 279.0 million, or 26.8%, from Rmb 1,039.3 million in 2001. The increase primarily resulted from a higher level of exploration activities.

Our depreciation, depletion and amortization expenses for 2002 were Rmb 4,019.5 million, an increase of Rmb 1,452.6 million, or 56.6%, from Rmb 2,566.9 million in 2001. On a unit of production basis, depreciation, depletion and amortization expenses for the year 2002 were Rmb 32.3 per BOE, an increase of 17.5% compared to Rmb 27.5 per BOE in 2001. The primary reason for the increase was the newly acquired Indonesian oil and gas properties, and the commencement of production at new oil and gas properties offshore China.

Our dismantlement costs for the year 2002 were Rmb 126.1 million, an increase of Rmb 35.7 million, or 39.5%, from Rmb 90.4 million in 2001. The increase was primarily due to an upward revision of the estimated dismantlement costs and the commencement of production at new oil and gas properties offshore China.

We had no impairment losses related to oil and gas assets in 2002.

Our crude oil and product purchases for the year 2002 were Rmb 2,326.3 million, a decrease of Rmb 127.0 million, or 5.2%, from Rmb 2,453.3 million in 2001. We handle crude oil sales in China for our foreign partners. Upon their request, we purchase their share of crude oil for resale in China, since we are one of the only three companies authorized to market and sell crude oil in the PRC. We do not have control over our foreign partners' decisions regarding the sale of their share of production, and therefore have no control over the volume that we may be asked to handle in any particular period.

Edgar Filing: CNOOC LTD - Form 20-F

Our selling and administrative expenses for the year 2002 were Rmb 1,006.5 million, an increase of Rmb 391.1 million, or 63.6%, from Rmb 615.4 million in 2001. On a unit of production basis, selling and administrative expenses were Rmb 8.1 per BOE in 2002, an increase of 22.7% from Rmb 6.6 per BOE in 2001. The primary reason for the increase was the Rmb 272.1 million selling and administrative expenses incurred in connection with the acquisition of Indonesian oil and gas properties and the commencement of production at the new oil and gas properties offshore China. Our selling and administrative expenses excluding Indonesia in 2002 were Rmb 6.8 per BOE.

Our net interest expense for 2002 was Rmb 146.9 million, an increase of Rmb 348.0 million from a net interest income of Rmb 201.1 million in 2001. This increase was primarily due to interest expense associated with US\$500 million guaranteed notes in 2002, which led to an increase in interest expense of Rmb 135.0 million. Further, the net interest expenses recognized under SSAP 28, which we adopted in 2002, relating to dismantlement costs were Rmb 77.9 million.

85

Our exchange loss for 2002 was Rmb 113.8 million compared with an exchange gain of Rmb 235.4 million in 2001. The decrease was partly attributable to exchange rate fluctuations related to our Japanese yen-denominated loans in 2002. On December 27, 2002, we prepaid a sum of JPY 21,162 million in Japanese yen-denominated loans, after which our outstanding Japanese yen-denominated loans were JPY 1,357 million. Since the outstanding amount of our Japanese yen-denominated loans is hedged using foreign currency swaps, we do not expect similar exchange gains or losses in the future.

Our investment income for 2002 was Rmb 193.3 million, a decrease of Rmb 27.4 million, or 12.4%, from Rmb 220.7 million in 2001. The decrease was primarily due to a decline in short-term interest rates in 2002.

Our share of profit of an associate for the year 2002 was Rmb 165.4 million, an increase of Rmb 75.4 million, or 83.8%, from Rmb 90.0 million in 2001. This item reflected our share of profit generated by Shanghai Petroleum and Natural Gas Company Limited, our associated company. This company experienced a decrease in its amortization cost resulting from an increase in exploitable reserves.

Our non-operating loss for the year 2002 was Rmb 71.4 million, a decrease of Rmb 106.3 million from non-operating profit of Rmb 34.9 million in 2001, primarily due to the losses incurred in the disposal of certain assets in 2002.

Our taxation for the year 2002 was Rmb 3,541.4 million, an increase of Rmb 493.2 million, or 16.2%, from Rmb 3,048.2 million in 2001. The primary reason for the increase was the increase in profit before tax. The effective tax rate for both 2001 and 2002 was 27.2%.

Our consolidated net income after tax was Rmb 9,232.8 million in 2002, an increase of Rmb 1,275.2 million, or 16.0%, from Rmb 7,957.6 million in 2001.

B. LIQUIDITY AND CAPITAL RESOURCES

The following table summarizes our cash flows for the periods presented:

Edgar Filing: CNOOC LTD - Form 20-F

	Year ended December	
	2001	2002
		(Rmb in millions)
Cash provided by (used for):		
Operating activities.....	11,759	14,742
Investing activities.....	(11,366)	(11,724)
Financing activities.....	3,204	(1,573)
Net increase in cash and cash equivalents.....	3,597	1,445

Cash Provided by Operations

Cash provided by operations in 2003 amounted to Rmb 17,818.7 million (US\$2,152.8 million), an increase of Rmb 3,076.7 million (US\$371.7 million), or 20.9%, from Rmb 14,742.0 million in 2002. In addition to an increase in profit before tax of Rmb 3,389.1 million (US\$409.5 million), the increase in cash provided by operations was also due in part to adjustments related to an increase in depreciation, depletion and amortization expenses of Rmb 623.2 million (US\$75.3 million), an increase in dismantlement costs of Rmb 41.2 million (US\$5.0 million), provision of inventory obsolescence of Rmb 8.7 million (US\$1.1 million), a decrease in return on short-term investments and amortization of a discount for long-term guaranteed notes of Rmb 75.0 million (US\$9.1 million), and an increase in net interest of Rmb 24.4 million (US\$2.9 million).

The increase was partially offset by a net increase in income taxes of Rmb 668.6 million (US\$80.8 million), the growth in our share of income of associated companies of Rmb 54.9 million (US\$6.6 million), a decrease in exchange loss of Rmb 107.1 million (US\$12.9 million), and a decrease in

86

loss on disposal and write-off of property, plant and equipment of Rmb 398.0 million (US\$48.1 million).

In addition, operating cash flows increased in 2003 due to an increase in current liabilities from operating activities of Rmb 935.0 million (US\$113.0 million), and a simultaneous decrease in current assets excluding cash and bank balances of Rmb 800.7 million (US\$96.7 million). See note 31 to our consolidated financial statements attached to this annual report.

Cash provided by operations in 2002 amounted to Rmb 14,742.0 million, an increase of Rmb 2,982.5 million, or 25.4%, from Rmb 11,759.5 million in 2001. In addition to an increase in profit before tax of Rmb 1,768.4 million, the increase in cash provided by operations was also due in part to adjustments related to an increase in net interest expenses of Rmb 348.0 million, an increase in net exchange loss of Rmb 375.1 million, an increase in depreciation, depletion and amortization expenses of Rmb 1,452.6 million, an increase in dismantlement costs of Rmb 35.7 million, a decrease in short-term investment income of Rmb 27.4 million and an increase in amortization of a discount for long-term guaranteed notes of Rmb 6.1 million.

The increase was partially offset by the growth in our share of income of associated companies of Rmb 75.4 million, a decrease in provision for

Edgar Filing: CNOOC LTD - Form 20-F

impairment of property, plant and equipment of Rmb 99.7 million and a decrease in loss on disposals and write-off of property, plant and equipment of Rmb 19.0 million.

In addition, operating cash flows was adversely affected by an increase in current liabilities from operating activities of Rmb 500.8 million, and a simultaneous increase in current assets excluding cash and bank balances of Rmb 504.7 million. See note 34 to our consolidated financial statements attached to this annual report.

Capital Expenditures and Investments

In line with our use of the successful efforts method of accounting, historical capital expenditures and investments primarily include successful exploration and development expenditures. Total capital expenditures were Rmb 12,372.5 million (US\$1,494.8 million) in 2003, an increase of Rmb 805.6 million (US\$97.3 million), or 7.3%, from Rmb 11,566.9 million in 2002. The capital expenditure in 2003 included Rmb 524.0 million (US\$63.3 million) for capitalized exploration activities, Rmb 7,747.6 million (US\$936.0 million) for development activities, and Rmb 4,100.9 million (US\$495.5 million) for acquiring the Tangguh LNG project, Qinhuangdao 32-6 and Liuhua 11-1 rights. Our development expenditures in 2003 related principally to the development of Bozhong 25-1, Bonan, Weizhou 12-1 North, Dongfang 1-1, CFD11-1, Panyu4-2/5-1 and Huizhou 19-2/19-3.

Total capital expenditures were Rmb 11,566.9 million in 2002, an increase of Rmb 7,224.3 million, or 166.4%, from Rmb 4,342.6 million in 2001. The capital expenditure in 2002 included Rmb 585.6 million for capitalized exploration activities, Rmb 6,247.1 million for development activities, and Rmb 4,734.2 million for acquiring Indonesian oilfields. Our development expenditures in 2002 related principally to the development of Suizhong 36-1 (Phase II), Qinhuangdao 32-6, Wenchang 13-1, Wenchang 13-2, Penglai 19-3 and Panyu 4-2/5-1.

Our total capital expenditures for general exploration and development activities for 2003 was approximately US\$1,279 million. For the year 2004, we have budgeted approximately US\$1.8 billion for capital expenditures, approximately US\$247 million of which is budgeted for general exploration activities offshore China and approximately US\$1,251 million is budgeted for development activities offshore China.

The following table sets forth actual or budgeted capital expenditures on an accrual basis for our key operating areas for the periods indicated.

- (1) Figures for 2003 represent our actual spending for capital expenditure purposes. The acquisition cost of QHD32-6 and LH 11-1 has been included.
- (2) Figures for 2004 represent our budgeted capital expenditures.

88

In addition to the budgeted development and exploration expenditures relating to the oil and gas properties described above, we may make additional capital expenditures and investments in these periods consistent with our business strategy. For example, the above budgeted amounts do not include any investments we may make in the liquefied natural gas project located in Guangdong Province, other natural gas projects and overseas natural gas properties. See "Item 4--Information on the Company--Business Overview--Business Strategy."

Our ability to maintain and grow our revenues, net income and cash flows depends upon continued capital spending. We adjust our capital expenditure and investment budget on an annual basis. Our capital expenditure plans are subject to a number of risks, contingencies and other factors, some of which are beyond our control. Therefore, our actual future capital expenditures and investments will likely be different from our current planned amounts, and such differences may be significant. See "Item 3--Key Information--Risk Factors--Risks relating to our business--Our future prospects largely depend on our capital expenditure plans, which are subject to various risks."

Financing Activities

In 2003, through our wholly owned finance subsidiary, CNOOC Finance (2003) Limited, we issued two tranches of guaranteed notes: US\$200 million 4.125% guaranteed notes due 2013 and US\$300 million 5.50% guaranteed notes due 2033. The notes were rated Baal with positive outlook by Moody's Investors Services and "BBB" by Standard & Poor's Ratings Service at the time of issuance. In October 2003, Moody's upgraded our long-term debt rating to A2 with stable outlook.

We had net cash outflows from financing activities of Rmb 1,744.9 million (US\$210.8 million) in 2003, resulting primarily from our repayment of Rmb 336.9 million (US\$40.7 million) in bank loans, dividend distributions of Rmb

Edgar Filing: CNOOC LTD - Form 20-F

5,403.7 million (US\$652.8 million). This cash outflow was offset by cash inflow of Rmb 3,995.8 million (US\$482.8 million) resulting from our May 2003 offering of US\$200 million in 4.125% guaranteed notes due 2013 and US\$300 million in 5.5% guaranteed notes due 2033.

We have debt service obligations consisting of principal and interest payments on our outstanding indebtedness. The following table summarizes the maturities of our long-term debt outstanding as of December 31, 2003. As of the date this annual report is filed, we have not incurred any material long-term debt since December 31, 2003.

Due by December 31, -----	Debt maturities (principal only)			
	Original currency			Total Rmb equivalen
	US\$	JPY	Rmb

Total.....	1,100.0	1,085.9	--	9,188.3
Percentage of total debt.....	99.1%	0.9%	--	100.0

In early 2003, we prepaid a further US\$31.4 million in U.S. dollar-denominated debt and all of our then existing Renminbi-denominated debt. As of April 30, 2004, we had a total U.S. dollar debt of US\$1,100 million and a total foreign currency debt of US\$1,110 million. Through our debt offering and prepayment of debt, we extended the average maturity of our debt portfolio from eight years to approximately fourteen years.

We had net cash outflows from financing activities of Rmb 1,573.1 million in 2002, resulting primarily from our repayment of Rmb 3,367.3 million in bank loans and dividend distributions of Rmb 2,265.1 million. Of the total bank loans that we repaid, we prepaid Rmb 2,956.0 million, including JPY 21,162 million in Japanese yen-denominated debt, US\$103.4 million in U.S. dollar-denominated debt and Rmb 639.0 million in Renminbi-denominated debt. This cash outflow was offset by cash inflow of Rmb

4,059.3 million resulting from our March 2002 offering of US\$500 million in 6.375% guaranteed notes due 2012.

After we became a separate entity in October 1999, we paid a dividend of Rmb 1,045.4 million for fiscal year 1999 and declared and paid a final dividend of Rmb 6,426.4 million for fiscal year 2000. For fiscal year 2001, we declared and paid a dividend of Rmb 871.1 million. For fiscal year 2002, we declared and paid dividends of Rmb 2,265.1 million. For fiscal year 2003, we declared and paid dividends of Rmb 2,788.9 million (US\$337.0 million). The payment and the amount of any dividends in the future will depend on our results of operations, cash flows, financial condition, the payment by our subsidiaries of cash dividends to us, future prospects and other factors which our directors may consider relevant. The amount of dividends we paid

Edgar Filing: CNOOC LTD - Form 20-F

historically is not indicative of the dividends that we will pay in the future.

We believe our future cash flows from operations, borrowing capacity and funds raised from our notes issuance will be sufficient to fund planned capital expenditures and investments, debt maturities and working capital requirements through at least 2004. Several large financial institutions have expressed an interest in supporting our business development, although we have not entered into any agreements for additional financing with these institutions. However, our ability to obtain adequate financing to satisfy our capital expenditure and debt service requirements may be limited by our financial condition and results of operations and the liquidity of international and domestic financial markets, including the following factors:

- o Any failure by us to achieve timely rollover, extension or refinancing of our short-term debt may result in our inability to meet our obligations in connection with debt service, accounts payable and/or other liabilities when they become due and payable.
- o Our primary operating subsidiary is a PRC incorporated company. Therefore, prior to accessing the international capital markets we will be subject to limitations imposed by various PRC government authorities, including the State Administration for Foreign Exchange and the People's Bank of China, depending on the type of international financing raised. We may also need to obtain PRC government support for any project involving significant capital investment in the operations of our PRC subsidiary.
- o In addition, financing sources often look to similarly situated entities when determining whether, and at what rates, to provide financing. Successful or unsuccessful financings by Hong Kong and PRC entities similarly situated to us could have an impact on our ability to obtain external financing.

See "Item 3--Key Information--Risk Factors--Risks relating to our business--Our future prospects largely depend on our capital expenditure plans, which are subject to various risks" and "--We may not be able to obtain external financing that is acceptable to us for business development purposes."

Employee Benefits

All of our full-time employees in the PRC are covered by a government-regulated pension plan and are entitled to an annual pension at their retirement dates. The PRC government is responsible for the pension liabilities to these retired employees under this government pension plan. The actual pension payable to each retiree is subject to a formula based on the status of the individual pension account, general salary and inflation movements. We are required to make annual contributions to the government pension plan at rates ranging from 5% to 22.5% of our employees' base salaries. The related pension costs are expensed as incurred.

When we became a separate entity as a result of CNOOC's reorganization in October 1999, CNOOC retained all liabilities for retirement benefits for its employees, both former and current, who had not been transferred to us. As compensation for CNOOC's retention of liabilities for retirement benefits payable to approximately 7,000 retired CNOOC employees who were previously engaged in the oil and

Edgar Filing: CNOOC LTD - Form 20-F

gas business that was transferred to us in the reorganization, we made a one-time payment to CNOOC of Rmb 1,660.0 million in 2001.

For the years ended December 31, 2001, 2002 and 2003, our retirement expenses attributed to the current government plan were Rmb 6.4 million, Rmb 7.0 million and Rmb 15.5 million, respectively.

The expenses attributable to mandatory contributions under the current government pension plan are included in our historical consolidated statements of income under either operating expenses for our production staff or selling and administrative expenses for our administrative staff. We expect that, under the current PRC rules and regulations regarding employee retirement benefits, the future costs of the current government plan will be comparable to our historical costs, subject to customary increases largely in line with salary increases of our employees.

We are required to make contributions to a mandatory provident fund at a rate of 5% of the base salaries for full-time employees in Hong Kong. The costs are expensed as incurred.

Our Indonesian subsidiaries employ approximately 1,000 employees, including approximately 40 managerial staff and technicians. We provide expatriate staff with employee benefits that we believe to be in line with customary international practices. Our non-expatriate employees in Indonesia enjoy welfare benefits mandated by Indonesia labor laws.

Holding Company Structure

We are a holding company. Our entire petroleum exploration, development, production and sales business in the PRC is owned and conducted by CNOOC China Limited, our wholly foreign-owned enterprise in the PRC. Our entire petroleum exploration, development and production business outside of the PRC is owned and conducted by CNOOC International Limited, our wholly owned subsidiary incorporated in the British Virgin Islands. International sales of crude oil are conducted by China Offshore Oil (Singapore) International Pte. Ltd., our wholly owned subsidiary incorporated in Singapore. Accordingly, our future cash flows will consist principally of dividends from our subsidiaries. The subsidiaries' ability to pay dividends to us is subject to various restrictions, including legal restrictions in their jurisdictions of incorporation. For example, legal restrictions in the PRC permit payment of dividends only out of net income determined in accordance with PRC accounting standards and regulations. In addition, under PRC law, CNOOC China Limited is required to set aside a portion of its net income each year to fund certain reserve funds. These reserves are not distributable as cash dividends.

Inflation/Deflation

According to the China Statistical Bureau, China experienced an overall national deflation rate, as represented by the general consumer price index, of 0.7% in 2001, an overall inflation rate of 0.8% in 2002 and an overall deflation rate of 1.2% in 2003. Neither the deflation nor the inflation have had a significant impact on our results of operations in the respective years.

U.S. GAAP Reconciliation

Our consolidated financial statements are prepared in accordance with Hong Kong GAAP, which differ in certain material respects from U.S. GAAP. These differences relate primarily to the revaluation of properties and land use rights performed in connection with the reorganization, the treatment of impairment of long-lived assets, the treatment of stock compensation plans,

Edgar Filing: CNOOC LTD - Form 20-F

the treatment of unrealized holding gains from available-for-sale investments in marketable securities and the provision for dismantlement liabilities. Except for the accounting treatment of the property revaluation and the recognition of stock compensation costs, the unrealized holding gains from available-for-sale investments in marketable securities and the provision for dismantlement liabilities, there are no material differences between Hong Kong GAAP and U.S. GAAP that affect our net income or shareholders' equity. See note 37 to our consolidated financial statements attached to this annual report.

91

Taxation

We are subject to income taxes on an entity basis on income arising in or derived from the tax jurisdictions in which we and each of our subsidiaries are domiciled and operate. We are not liable for income taxes in Hong Kong as we currently do not have any assessable income from Hong Kong sources. Pursuant to a notice issued by the State Administration of Taxation in March 2001, we will be entitled to all tax benefits conferred by Chinese law on foreign invested enterprises.

Our PRC subsidiary, absent exemptions, is subject to enterprise income tax at the rate of 33%. Following the October 1999 reorganization, our PRC subsidiary became a wholly foreign owned enterprise and accordingly was exempted from 3% local surcharges, reducing its enterprise income tax rate to the current rate of 30%. Moreover, entities now comprising our PRC subsidiary were exempted from enterprise income taxes for two years starting from the first year of profitable operation in 1996 and were entitled to a 50% reduction of enterprise income taxes for three years beginning in 1998 and ending on December 31, 2000. This tax exemption increased our earnings by Rmb 1,920.7 million during the year ended December 31, 2000. Since January 1, 2001, the PRC subsidiary has been subject to the 30% enterprise income tax rate. The PRC enterprise income tax is levied based on taxable income including income from operations as well as other components of earnings, as determined in accordance with the generally accepted accounting principles in the PRC, or PRC GAAP. Besides income taxes, our PRC subsidiary also pays certain other taxes, including:

- o production taxes equal to 5% of independent production and production under production sharing contracts; and
- o business tax of 5% on other income.

Our subsidiary in Singapore, China Offshore Oil (Singapore) International Pte. Ltd., is subject to income tax at the rate of 10% and 26% for its oil trading activities and other income-generating activities, respectively. Our subsidiaries that own interests in oil properties in Indonesia along the Malacca Strait are subject to corporate and branch profit tax of 44%. The nine subsidiaries of Repsol-YPF, S.A. in Indonesia acquired by us during 2002 are all subject to corporate and branch profit tax at a rate of 48%. None of our other subsidiaries were subject to any income taxes in their respective jurisdictions for the year presented.

We calculate deferred taxation to account for temporary differences between our tax bases, which is used for income tax reporting and prepared in accordance with applicable tax guidelines, and our accounting bases, which is prepared in accordance with applicable financial reporting requirements. Major temporary differences include accelerated amortization allowances for oil and

Edgar Filing: CNOOC LTD - Form 20-F

gas properties, which are offset in part by provision for dismantlement and a provision for impairment of property, plant and equipment and write-off of unsuccessful exploratory drilling. As of December 31, 2002 and 2003, we had Rmb 6,141.1 million and 5,783.2 million (US\$698.7 million), respectively, in net deferred tax liabilities. See note 13 to our consolidated financial statements attached to this annual report.

Change of Accountants

On June 6, 2002, we terminated the engagement of Arthur Andersen & Co as our independent public accountants. Prior to such date, Arthur Andersen had audited our consolidated financial statements, including financial statements for the year ended December 31, 2001 attached to this annual report. On June 15, 2002, Arthur Andersen was convicted of federal obstruction of justice charges in connection with the U.S. government's investigation of Enron Corporation. On August 31, 2002, Arthur Andersen voluntarily relinquished its licenses to practice public accountancy in all states of the United States and, accordingly, cannot furnish any written consent to the issue of this annual report with the inclusion of its reports in the form and context in which they are included. For a discussion of risks related to Arthur Andersen, see "Item 3--Key Information--Risk Factors--Risks relating to our business--You may not be able to assert claims against Arthur Andersen, our independent public

92

accountants for periods prior to December 31, 2001, nor may you be able to assert claims against our current independent public accountants for financial statements previously audited by Arthur Andersen."

On June 6, 2002, we appointed Ernst & Young as our independent accountants. Ernst & Young audited our consolidated financial statements for the two-year period ended December 31, 2002 and 2003 included in this annual report.

Recent Accounting Pronouncements

U.S. GAAP

SFAS No. 150 "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity"

In May 2003, the Financial Accounting Standards Board, or FASB, issued Statements of Financial Accounting Standards No. 150, or SFAS 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. This statement establishes standards for classifying and measuring as liabilities certain financial instruments that embody obligations of the issuer and have characteristics of both liabilities and equity. Instruments that are indexed to and potentially settled in an issuer's own shares that are not within the scope of SFAS 150 remain subject to existing guidance. SFAS150 must be applied immediately to instruments entered into or modified after May 31, 2003 and to all other instruments that exist as of the beginning of the first interim financial reporting period beginning after June 15, 2003. Certain provisions of this statement relating to noncontrolling interests in limited-life subsidiaries were deferred indefinitely. We adopted SFAS150 and there was no impact on our results of operations or financial position upon the adoption of the new statement. We continue to monitor the deferral status of SFAS 150.

Edgar Filing: CNOOC LTD - Form 20-F

FIN 46 "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51"

In January 2003, the FASB issued FASB Interpretation No. 146, or FIN 46, Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51. In December 2003, the FASB modified FIN 46 to make certain technical corrections and address certain implementation issues that had arisen. FIN 46 provides a new framework for identifying variable interest entities ("VIEs") and determining when a company should include the assets, liabilities, non-controlling interests and results of activities of a VIE in its consolidated financial statements. In general, a VIE is a corporation, partnership, limited liability corporation, trust, or any other legal structure used to conduct activities or hold assets that either (i) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (ii) has a group of equity owners that are unable to make significant decisions about its activities, or (iii) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations. FIN 46 requires a VIE to be consolidated if a party with an ownership, contractual or other financial interest in the VIE (a variable interest holder) is obligated to absorb a majority of the risk of loss from the VIE's activities, is entitled to receive a majority of the VIE's residual returns (if no party absorbs a majority of the VIE's losses), or both. A variable interest holder that consolidates the VIE is called the primary beneficiary. Upon consolidation, the primary beneficiary generally must initially record all of the VIE's assets, liabilities and non-controlling interests at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest. FIN 46 also requires disclosures about VIEs that the variable interest holder is not required to consolidate but in which it has a significant variable interest.

FIN 46 was effective immediately for VIEs created after January 31, 2003 with the implementation required from January 1, 2004 as a cumulative effect of accounting change. For all other entities created after January 31, 2003, implementation of FIN 46 is required by June 30, 2004. We adopted the provisions of FIN 46 and there was no impact on our results of operations or financial position upon the adoption of the new statement.

93

Reporting Investments in Mineral Interests in Oil and Gas Properties

In June 2001, the FASB issued Statements of Financial Accounting Standards, or SFAS, No. 141, Business Combinations and No. 142, Goodwill and Other Intangible Assets. SFAS 141 and SFAS 142 became effective for us on July 1, 2001 and January 1, 2002, respectively. Currently, the Emerging Issues Task Force, or EITF, is considering the issue of whether SFAS 141 and 142 require interests held under oil, gas and mineral leases to be separately classified as intangible assets on the balance sheets of companies in the extractive industries. If such interests were deemed to be intangible assets by the EITF, mineral rights to extract oil and gas for both undeveloped and developed leaseholds would be classified separately from oil and gas properties as intangible assets on the corporation's balance sheet. Historically we capitalized the acquisition cost of oil and gas properties interests in accordance with SFAS 19, Financial Accounting and Reporting by Oil and Gas Producing Companies. Also, consistent with industry practice, we have reported these assets as part of property, plant and equipment.

This interpretation of SFAS 141 and 142 would only affect the

Edgar Filing: CNOOC LTD - Form 20-F

classification of the acquisition costs of oil and gas properties on our balance sheet, and would not affect total assets, net worth or cash flows. Our results of operations would not be affected, since these acquisition costs would continue to be amortized in accordance with SFAS19. The amount subject to reclassification as of December 31, 2003 was Rmb 4,025 million and as of December 31, 2002 was Rmb 8,646 million.

Hong Kong

The following new and revised SSAPs are effective for the first time for the current year's financial statements:

- o SSAP 12 (Revised): "Income taxes"
- o SSAP 35: "Accounting for government grants and disclosure of government assistance"

The SSAP 12 (Revised) prescribes the basis for accounting for income taxes payable or recoverable, arising from the taxable profit or loss for the current period (current tax); and income taxes payable or recoverable in future periods, principally arising from taxable and deductible temporary differences and the carryforward of the unused tax losses (deferred tax).

The SSAP has had no significant impact for these financial statements on the amounts recorded for income taxes. However, the related note disclosures are now more extensive than previously required. These are detailed in note 14 to the financial statement and include a reconciliation between the accounting profit and the tax expense for the year.

SSAP 35 prescribes the accounting for government grants and other forms of government assistance.

The adoption of the SSAP 35 has had no significant impact for these financial statement.

C. RESEARCH AND DEVELOPMENT, PATENTS AND LICENSES, ETC.

See "Item 4--Information on the Company--Business Overview--Research and Development" and "Item 7--Major Shareholders and Related Party Transactions--Related Party Transactions--Categories of Connected Transactions--Research and Development Services."

D. TREND INFORMATION

Crude oil price is a major driver of our results of operation. We price our crude oil with reference to the international crude oil prices, which have fluctuated considerably over the years. On January 1, 2003, the international benchmark crude oil, West Texas Intermediate, was US\$32 per barrel. As at June 10, 2004, it was US\$38.48 per barrel. In addition, continued political and economic uncertainties in Iraq and threat of terrorism worldwide raise concerns about the security and availability of ample supplies to

meet growing demand. It is expected that crude oil price will remain relatively high in 2004. For more information about crude oil prices, see "Item 3--Key Information--Risk Factors--Risks Relating to Our Business--Our business, revenues and profits fluctuate with changes in oil and gas prices," "Item 4--Information on the Company--Business Overview--Sales and

Edgar Filing: CNOOC LTD - Form 20-F

Marketing--Sales of Offshore Crude Oil--Pricing," and "Item 5--Operating and Financial Review and Prospects--Operating Results--Results of Operations--2003 versus 2002."

In additional to crude oil, natural gas is becoming an increasingly important part of our business. The Chinese government promotes the use of natural gas as a clean and efficient fuel. Demand for natural gas in the PRC is likely to increase significantly. We have expanded and will continue to expand our natural gas business and intend to exploit our natural reserves to meet growing demand for natural gas. For more information about natural gas, see "Item 3--Key Information--Risk Factors--Risks Relating to Our Business--Any failure to implement our natural gas business strategy may adversely affect our business and financial position," "--The infrastructure and demand for natural gas in the PRC may proceed at a slower pace than our planned increase in production," "Item 4--Information on the Company--Business Overview--Competitive Strengths--Strategic Position in China's Growing Natural Gas Market," and "--Natural Gas Business."

E. OFF- BALANCE SHEET ARRANGEMENTS

We had a currency swap contract with a financial institution to sell United States dollars in exchange for Japanese Yen in order to hedge certain Japanese Yen denominated loan repayments in the future. The derivative contract was recorded as "Other payable and accrued liabilities" in the consolidated balance sheet at fair value. For the year ended December 31, 2003, we recognized related changes in fair value, a gain of Rmb 10,038,000 (compared to Rmb 14,485,000 in 2002), and included the amount in "Exchange (loss)/gain, net" in the consolidated income statement.

During 2003, we also entered into interest rate swap agreements to partially hedge the fixed-rate debt securities for interest rate risk exposure management purposes with notional contract amount of US\$200 million. The interest rate swap agreements utilized by us effectively modify our exposure to interest risk by converting our fixed-rate debt to a floating rate. These agreements involve the receipt of fixed rate amounts in exchange for floating rate interest payments over the life of the agreement without an exchange of the underlying principal amount. The net gain as of December 31, 2003 related to the ineffective portion of the interest rate swap agreements was approximately Rmb 938,000.

F. TABULAR DISCLOSURE OF CONTRACTUAL OBLIGATIONS

The following table sets forth information regarding our contractual obligations for the periods indicated.

Contractual Obligations	Payments due by per		
	Total	Less than 1 year	1-3 years
	Rmb '000	Rmb '000	Rmb '000
Long-term debt obligations.....	9,051,862	20,618	870,835
Operating lease obligations.....	20,396	17,222	3,174
Other long-term liabilities reflected on our balance sheet under Hong Kong GAAP	2,646,800	--	--
Total.....	11,719,058	37,840	874,009

As at December 31, 2003, we had the following capital commitments, principally for the construction and purchase of property, plant and equipment:

Capital Commitments

Contracted for.....
 Authorized, but not contracted for.....

R

2,5
 17,4

As at December 31, 2003, we had unutilized banking facilities amounting to approximately Rmb 32,455,229,500 as compared to Rmb 31,646,389,000 in 2002.

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

A. DIRECTORS AND SENIOR MANAGEMENT

In accordance with Hong Kong law and our articles of association, our affairs are managed by our board of directors. The board of directors has eight members, including four independent non-executive directors.

Our current directors and senior officers are as follows:

Name	Age as of December 31, 2003	Position
-----	-----	-----
Chengyu Fu.....	52	Chairman of Board of Directors and Chief Executive Officer
Longsheng Jiang.....	58	Director
Shouwei Zhou.....	52	Director and President
Han Luo.....	50	Director
Evert Henkes.....	60	Independent Non-executive Director
Sung Hong Chiu.....	57	Independent Non-executive Director
Kenneth S. Curtis.....	58	Independent Non-executive Director
Erwin Schurtenberger.....	64	Independent Non-executive Director
Yunshi Cao.....	58	Senior Vice President, Company Secretary and Treasurer
Mark Qiu.....	40	Chief Financial Officer and Senior Vice President
Hua Yang.....	42	Senior Vice President

Edgar Filing: CNOOC LTD - Form 20-F

Wei Chen.....	46	Senior Vice President and Director of CNOOC Research Center
Guohua Zhang.....	42	Senior Vice President and General Manager Department
	96	
Jian Liu.....	46	Senior Vice President and General Manager Production Department
Ning Li.....	40	Senior Vice President and General Manager Project Department

In October 2003, our former Chairman and CEO left our company, and Mr. Chengyu Fu was elected by the board of directors as our Chairman and CEO. Mr. Guohua Zhang was appointed Senior Vice President of our company and ceased to be an Assistant to General Manager of CNOOC China Limited as of March 2003. He was also named the General Manager of Exploration Department as of April 2003. As of May 2003, Mr. Jian Liu and Mr. Ning Li were appointed Senior Vice Presidents. They were also named General Manager of Development and Production Department and General Manager of Engineering and Project Department, respectively. Mr. Evert Henkes was appointed independent non-executive director of our company in September 2003. Mr. Chak Kwong So resigned in 2003 from our board of directors following his appointment as Deputy Chairman and Group Managing Director of PCCW Limited.

We have a management team with extensive experience in the oil and gas industry. As a result of our cooperation with international oil and gas companies, the management team and staff have had the opportunity to work closely with foreign partners both within and outside China. Such opportunities, in conjunction with management exchange programs with foreign partners, have provided valuable training to our personnel in international management practices. A description of the business experience and present position of each director and executive officer is provided below. Our principal executive offices are located at 65th Floor, Bank of China Tower, One Garden Road, Central, Hong Kong.

Directors

Chengyu Fu received a B.S. degree in geology from the Northeast Petroleum Institute in China and a Master's degree in petroleum engineering from the University of Southern California in the United States. He has over 29 years of experience in the oil industry in the PRC. He previously worked in China's Daqing, Liaohe and Huabei oilfields. He joined CNOOC in 1982 and has since been appointed Chairman of the Management Committee formed through a joint venture between CNOOC, BP Amoco, Chevron, Texaco, Phillips Petroleum, Shell and Agip. From 1994 to 1995, Mr. Fu was the Deputy General Manager of China Offshore Oil Eastern South China Sea Corporation, a subsidiary of CNOOC. In December 1995, he was appointed Vice President of Phillips China Inc. and General Manager of the Xijiang Development Project. In 1999, Mr. Fu was the General Manager of China Offshore Oil Eastern South China Sea Corporation. In 2000, Mr. Fu was appointed Deputy General Manager of CNOOC. Subsequently, he was appointed Director, Executive Vice President, President and Chief Operating Officer of our company in 2001. In August 2002 he became the Chairman and Chief Executive Officer of our affiliate, China Oilfield Services

Edgar Filing: CNOOC LTD - Form 20-F

Limited. In October 2003, Mr. Fu was appointed President of CNOOC. He was also appointed Chairman of the Board of Directors and Chief Executive Officer of our company, effective October 16, 2003. In November 2003, Mr. Fu resigned his Chief Executive Officer position from China Oilfield Services Limited.

Longsheng Jiang received a B.S. degree from the Beijing Petroleum Institute in China. He has over 34 years of experience in the oil industry in the PRC. He was appointed Director of our company in December 2000 and has been the Vice President of CNOOC since 1998. From 1994 to 1998, he was the General Manager of China Offshore Oil Southern Drilling Company. From 1991 to 1994, Mr. Jiang served as the Deputy Chief Drilling Engineer and was later appointed Chief Drilling Engineer of China Offshore Oil Western South China Sea Corporation. He joined CNOOC in 1982.

Shouwei Zhou received a doctorate degree from the Southwest China Petroleum Institute and is a senior engineer. He was appointed Director and Executive Vice President of our company in September 1999 and is responsible for the management and operation of CNOOC China Limited. Mr. Zhou was appointed President of our company in August 2002. Mr. Zhou is also a Vice President of CNOOC. Mr. Zhou was the Deputy General Manager and later promoted to become General Manager of China

97

Offshore Oil Bohai Corporation and China Offshore Oil Tianjin Corporation, both subsidiaries of CNOOC. He joined CNOOC in 1982.

Han Luo received a doctorate degree from China Petroleum University. He has over 29 years' experience in the oil industry in the PRC. He was appointed as our director in December 2000. From 1993 to 1998, Mr. Luo served as Vice President of China Offshore Oil Eastern South China Sea Corporation and concurrently the Chairman of CNOOC in the CACT operating group, and executive Vice President of China Offshore Oil East China Sea Corporation. In 1999, he was the general manager of CNOOC China--Shanghai Branch. Mr. Luo is a Vice President of CNOOC, a position he has held since 2000. He joined CNOOC in 1982.

Independent Non-executive Directors

Sung Hong Chiu received an LL.B. degree from the University of Sydney. He is admitted as a solicitor of the Supreme Court of New South Wales and the High Court of Australia. He has over 28 years' experience in legal practice and is a director of a listed company in Australia. Mr. Chiu is the founding member of the Board of Trustees of the Australian Nursing Home Foundation and served as the General Secretary of the Australian Chinese Community Association of New South Wales. Mr. Chiu was appointed as one of the independent non-executive directors of CNOOC in September 1999.

Kenneth S. Curtis is the Managing Director of Goldman Sachs and Vice Chairman of Goldman Sachs Asia. He specializes in economics and strategy throughout the Asia-Pacific region as well as in Europe and North America. After graduating with honors from Glendon College in Toronto, Mr. Curtis received an M.A. in international economics from Sussex University, England, an M.B.A. in finance and strategy from the European Institute of Business Administration and a Ph.D. from the Institute of Economic and Political Studies in Paris. Prior to joining Goldman Sachs, he served as Chief Asia Economist and Strategist for Deutsche Bank.

Erwin Schurtenberger was the Ambassador of Switzerland to the People's

Edgar Filing: CNOOC LTD - Form 20-F

Republic of China, the Democratic People's Republic of Korea and the Republic of Mongolia from 1988 to 1995. He joined the Swiss Foreign Services in 1969. Over the years, he held various diplomatic positions in Bangkok, Hong Kong, Beijing and Tokyo. He also served as the Ambassador of Switzerland to Iraq. He has been an independent business advisor to various European multinationals, American groups and humanitarian aid organizations. He was the President of the Swiss-Asia Foundation. He serves on the boards of directors of ROBERT BOSCH RBint and its International Advisory Board, BUHLER GROUP Switzerland, FIRMENICH-China, TAIKANG Life Insurance, WINTERTHUR Insurances (Asia). Dr. Schurtenberger is also a senior advisor to the China Training Center for Senior Personnel Management Officials. He received a Ph.D. Degree in Economics and was trained in political science and philosophy. Dr. Schurtenberger is presently Chairman of our International Advisory Board.

Evert Henkes served as the CEO of Shell global chemical business from 1998 to 2003. Since joining Shell in 1973, he held various executive positions worldwide, including Managing Director of Shell Chemicals UK Ltd., Managing Director of Shell UK, President of Billiton Metals, Shell's Metals Coordinator, Shell's Chemical Coordinator, and Director of Strategy & Business Services of Shell International Chemicals Ltd. He also served as directors in regional and global industrial bodies, including CEFIC and ICCA. He is also a director of Tate & Lyle Plc, BPB Plc, SembCorp Industries Ltd. and Outokumpu Oy.

Company Secretary

Yunshi Cao is our Company Secretary, General Counsel and a Senior Vice President. He is also the General Counsel of CNOOC, a position he has held since 1999. He joined CNOOC in 1982. Mr. Cao is a senior economist and licensed lawyer in the PRC. He has extensive experience in production sharing contracts and over 30 years' experience in the oil industry. He received a B.S. degree from the Beijing Petroleum Institute and studied law at Columbia University School of Law.

Senior Management

98

Mark Qiu is our Chief Financial Officer and Senior Vice President. He worked for Salomon Smith Barney before joining us, last served as the head of its Asia Oil & Gas Investment Banking group. He previously held several management positions at Atlantic Richfield Corporation (ARCO) of United States. He was the Federal Government Relations Director of ARCO in Washington, D.C. Prior to that, he was a Vice President of ARCO China Ltd., ARCO's subsidiary in China. He was a consultant with the leadership succession planning consulting firm of RHR International. Mr. Qiu received a MBA degree from the Sloan School of Management at Massachusetts Institute of Technology as a Sloan Fellow. He also has a Master degree and a Ph.D. degree in Decision Sciences from the University of Texas at Arlington. Mr. Qiu is also a director of CNOOC Finance Corporation Limited, a majority-owned subsidiary of CNOOC.

Hua Yang is a Senior Vice President of our company and the President of CNOOC International Limited. He is a senior engineer. He received his B.S. degree from China Petroleum Institute. He has over 21 years' experience in petroleum exploration and production. Mr. Yang joined CNOOC in 1982 and was an Acting Director of the Overseas Development Department of CNOOC.

Wei Chen is a Senior Vice President of our company and Director of the CNOOC (China) Limited Research Center. He is a senior engineer and is

Edgar Filing: CNOOC LTD - Form 20-F

responsible for our administration, foreign affairs, human resources and material procurement. He received his B.S. degree from China Petroleum University and holds an M.B.A. degree from Tsinghua University. He has over 20 years' experience in petroleum exploration and production. Mr. Chen joined CNOOC in 1984 and previously served as the Deputy Manager for the development department of the CNOOC Research Center, the Deputy Manager of the Overseas Research Department, the Manager of the Information Department, the Deputy Director of the CNOOC Research Center and the General Manager of our Human Resources Department and Administration Department.

Guohua Zhang is a Senior Vice President of our company and General Manager of our Exploration Department. Mr. Zhang is a geologist. He graduated from Qingdao Oceanographic Institute with a B.S. degree. He studied in Alberta Business College in Canada in 2001. He joined CNOOC in 1982 and served as General Manager of the Exploration Department of China Offshore Oil Western South China Sea Corporation, Chief Geologist of CNOOC Research Center and Assistant to General Manager of CNOOC China Limited.

Jian Liu is the Senior Vice President and General Manager of the Department of Development and Production at CNOOC. He graduated from Huazhong University of Science and Technology with a B.S. degree and received his MBA degree from Tianjin University in 2000. Mr. Liu joined CNOOC in 1982. He served as the manager of CNOOC Bohai Exploitation Company, and Vice General Manager of the Tianjin Branch and Zhanjiang Branch at certain times.

Ning Li is the Senior Vice President and General Manager of the Engineering Department of our company. He is a senior engineer, responsible for the project management for the development of oil, gas and oilfields. He graduated from East China Petroleum Institute in 1983 and was dispatched to CNOOC Bohai Company. He participated in the design for the development of oil, gas and oilfields in Bohai, Donghai and South China Sea. He held such positions as Vice Director of the Design Section, Project Manager and Vice General Manager of a design company. He was appointed as Vice General Manager of CNOOC Design Company in 1994, Vice General Manager of the Engineering Department of CNOOC in 1998 and General manager of the Engineering Department of CNOOC Limited in 2001. In April 2003, he was appointed as Senior Vice President and General Manager of the Engineering Department of CNOOC. Mr. Li received an MBA degree from Tianjin University in 2000.

B. COMPENSATION OF DIRECTORS AND OFFICERS

Each of the directors entered into a service contract with us for an initial term of three years, subject to termination by either party by written notice given not less than three months prior to the expiration of the end of the initial term or any subsequent calendar month. Particulars of these contracts are in all material respects identical except as indicated below:

99

- o the annual salaries for Mr. Chengyu Fu (Chairman of the Board and Chief Executive Officer) and Mr. Shouwei Zhou (Director and President) during the initial three years are HK\$1,880,000 and HK\$1,680,000, respectively, subject to an annual increase as determined by the board of directors not exceeding 15% of their respective salaries for the previous year;
- o the Chairman of the Board and each other director (other than independent non-executive directors) shall be entitled to a maximum annual paid leave of 30 days and 25 days, respectively;

Edgar Filing: CNOOC LTD - Form 20-F

- o each of the directors (other than independent non-executive directors) is entitled to the use of an apartment as his residence and the use of a car provided free of charge by us together with certain other benefits and reimbursements;
- o the annual salary for each of the other directors (other than independent non-executive directors) during the initial three years is HK\$388,000, subject to an annual increase as determined by the board of directors not exceeding 15% of his then current salary; and
- o we may, at our sole discretion, pay an director (other than independent non-executive directors) a bonus in such amount as the board of directors may determine in respect of each completed financial year.

The aggregate amounts of salaries, housing allowances, other allowances and benefits in kind paid to our directors (other than independent non-executive directors) during the years ended December 31, 2001, 2002 and 2003 were approximately Rmb 8.3 million, Rmb 9.5 million and Rmb 10.7 million (US\$1,292,270), respectively, while the amounts paid to our executive officers for the same periods were approximately Rmb 5.2 million, Rmb 8.0 million and Rmb 11.0 million (US\$1,328,502), respectively. Under our pension plan for 2003, we set aside an aggregate amount of Rmb 207,000 (US\$25,000) and Rmb 286,700 (US\$34,626) for pension and similar benefits in kind for our directors (other than independent non-executive directors) and our executive officers respectively. Our directors (other than independent non-executive directors) and executive officers contributed an additional Rmb 54,340 (US\$6,563) and Rmb 86,250 (US\$10,417), respectively, to the pension plan for 2003. For further details regarding employee compensation, see "Item 4--Information on the Company--Business Overview--Employees and Employee Benefits." For further details regarding share options granted to our directors, officers and employees, see "--Share Ownership" below.

C. BOARD PRACTICE

Audit and Other Committees

Our audit committee consists of two independent non-executive directors. The committee meets at least twice a year and is responsible for reviewing the completeness, accuracy and fairness of the our accounts, evaluating our auditing scope and procedures, and evaluating internal control systems. The committee is also responsible for setting up internal monitoring systems so as to allow our board of directors to monitor our financial position, protect our assets, and prevent major errors resulting from financial reporting or loss. Our board of directors is responsible for these systems and appropriate delegations and guidance have been made. In addition, the chairman of the audit committee will each year present a report to the board of directors describing the committees' major activities during the year. As of December 31, 2003, our audit committee was composed of Mr. Sung Hong Chiu and Dr. Kenneth S. Courtis.

We have established a remuneration committee. It consists of three independent non-executive directors. The primary duties of the remuneration committee are to manage our share option schemes and to formulate our remuneration policy. As of December 31, 2003, our remuneration committee was composed of Mr. Sung Hong Chiu, Dr. Erwin Schurternberger and Mr. Evert Henkes.

We have also established a nomination committee. It consists of one executive director and two independent non-executive directors. Its primary responsibilities include nominating candidates for directors subject to our

Edgar Filing: CNOOC LTD - Form 20-F

board of directors' approval, conducting routine examination of the structure,

100

scale and composition of our board of directors, and review the leadership capabilities of our directors in order to ensure that we remain competitive. As of December 31, 2003, our nomination committee was composed of Mr. Han Luo, Mr. Sung Hong Chiu and Dr. Erwin Schurtenberger.

For information on our audit committee finance expert and our code of ethics, see "Item 16A--Audit Committee Finance Expert," and "Item 16B--Code of Ethics."

International Advisory Board

On October 29, 2001, we announced the establishment of an International Advisory Board with globally well-respected political figures and corporate leaders as members. The purpose of the International Advisory Board is to provide the management with strategic advice on world events and macro issues that may impact our development. Erwin Schurtenberger, our independent non-executive director, is the Chairman of the International Advisory Board. On March 20, 2003, Peter Sutherland and Cornelius Herkstroter joined our International Advisory Board. In March 2004, US Ambassador Charles W. Freeman Jr. also joined the International Advisory Board.

101

Set forth below is information on the current members of our International Advisory Board.

Name	Biographical Information
Erwin Schurtenberger	The Ambassador of Switzerland to the People's Republic of China, the Democratic Republic of Korea and the Republic of Mongolia from 1988 to 1995. He joined Foreign Services in 1969. Over the years, he held various diplomatic positions in Bangkok, Hong Kong, Beijing and Tokyo. He also served as the Ambassador of Switzerland to Iraq. He has been an independent business advisor to various European multinational and American groups and humanitarian aid organizations. He was the President of the Swiss-Asia Foundation. He serves on the Boards of ROBERT BOSCH R&D and International Advisory Board, BUHLER GROUP Switzerland, FIRMENICH-China, Insurance, WINTERTHUR Insurances (Asia). Dr. Schurtenberger is also a senior advisor to the China Training Center for Senior Personnel Management Officials. He received a Ph.D. Degree in Economics and was trained in political science and philosophy. Schurtenberger is presently Chairman of our International Advisory Board.
Cornelius Herkstroter	Former Chairman of the Committee of Managing Directors of the Royal Dutch/Shell Companies and President of Royal Dutch Petroleum Company. He spent his entire career in the mineral and resources industry, primarily with Royal Dutch Shell. He has held board and advisory positions with several global corporations and organizations.
Simon Murray	Former Executive Chairman of Asia Pacific for the Deutsche Bank Group. He was a partner in Davenham Investments, a project advisory company. He became the Group Managing Director of Hutchison Whampoa in 1984. He is currently a Director of a number of companies.

Edgar Filing: CNOOC LTD - Form 20-F

include Hutchison Whampoa, Cheung Kong Holdings, Tommy Hilfiger in the United States and Vivendi Universal in France.

Edward S. Steinfeld Assistant professor at the MIT Sloan School of Management. He received his undergraduate and doctoral training at Harvard University. As a China specialist, he has conducted extensive firm-level research in China.

Peter Sutherland Chairman and Managing Director of Goldman Sachs International and non-executive director of Goldman Sachs plc. He served as Director General of the World Trade Organization from 1994 to 1998. He is a distinguished leader in world trade and commerce. He holds various board and advisory positions with several global corporations and organizations.

Charles W. Freeman Became Chairman of Projects International, Inc. in 1995, after an extensive career in the U.S. Government spanning three decades and numerous senior positions, including U.S. Ambassador to Saudi Arabia and Assistant Secretary of Defense for International Security Affairs. He is currently president of the Middle East Policy Council, a trustee of the U.S. China Policy Foundation, vice-chair of the Atlantic Council, and a trustee of the Institute for Defense Analyses, among other positions. Ambassador Freeman received his B.A. from National Autonomous University of Mexico and received his A.B. from Yale University as well as a J.D. from the Harvard Law School. He is the author of two widely known books on statecraft and diplomacy: *The Diplomat's Dictionary* and *Arts of Diplomacy*.

102

D. EMPLOYEES

See "Item 4--Information on the Company--Business Overview--Employees and Employee Benefits."

E. SHARE OWNERSHIP

We have adopted share option schemes which provide for the grant of options to our senior management. Under these share option schemes, the remuneration committee of our board of directors will from time to time propose for the board's approval for the recipient of and the number of shares underlying each option. These schemes provide for issuance of options exercisable for shares granted under these schemes as described below not exceeding 10% of the total number of our outstanding shares, excluding shares issued upon exercise of options granted under the schemes from time to time.

On February 4, 2001 we adopted a pre-global offering share option scheme, or the Pre-Global Offering Share Option Scheme. Pursuant to the Pre-Global Offering Share Option Scheme:

- o options for an aggregate of 4,620,000 shares have been granted;
- o the subscription price per share is HK\$5.95; and
- o the period during which an option may be exercised is as follows:
 - (a) 50% of the shares underlying the option shall vest 18 months after the date of the grant; and
 - (b) 50% of the shares underlying the option shall vest 30 months after the date of the grant.

The exercise period for options granted under the Pre-Global Offering Share Option Scheme shall end not later than 10 years from March 12, 2001.

Edgar Filing: CNOOC LTD - Form 20-F

On February 4, 2001, we adopted a share option scheme, or the 2001 Share Option Scheme, for the purpose of recognizing the contribution that certain individuals had made to us and attracting and retaining the best available personnel.

Pursuant to the 2001 Share Option Scheme:

- o options for an aggregate of 8,820,000 shares have been granted;
- o the subscription price per share is HK\$6.16; and
- o the period during which an option may be exercised is as follows:
 - (a) one-third of the shares underlying the option shall vest on the first anniversary of the date of the grant;
 - (b) one-third of the shares underlying the option shall vest on the second anniversary of the date of the grant; and
 - (c) one-third of the shares underlying the option shall vest on the third anniversary of the date of the grant.

The exercise period for options granted under the 2001 Share Option Scheme shall end not later than 10 years from August 27, 2001. In view of the amendments to the relevant provisions of the Hong Kong Stock Exchange listing rules regarding the requirements of the share option schemes of a Hong Kong listed company effective on September 1, 2001, no further options will be granted under the 2001 Share Option Scheme.

103

In June 2002, we adopted a new share option scheme, or the 2002 Share Option Scheme. Under the 2002 Share Option Scheme, our directors may, at their discretion, invite employees, including executive directors, of our company or any of our subsidiaries, to take up options to subscribe for shares. The maximum aggregate number of shares (including those that could be subscribed for under the Pre-Global Offering Share Option Scheme and the 2001 Share Option Scheme) which may be granted shall not exceed 10% of our total issued share capital. The maximum number of shares which may be granted under the 2002 Share Option Scheme to any individual in any 12 months period up to the next grant shall not exceed 1% of our total issued share capital from time to time.

According to the 2002 Share Option Scheme, the consideration payable by a participant for the grant of an option will be HK\$1.00. The subscription price of a share payable by a participant upon the exercise of an option will be determined by our directors at their discretion at the date of grant, except that such price may not be set below a minimum price which is the highest of:

- o the nominal value of a share;
- o the average closing price of the shares on the HKSE as stated in the HKSE's quotation sheets for the five trading days immediately preceding the date of grant of the option; and
- o the closing price of our shares on the HKSE as stated in the HKSE's quotation sheets on the date of grant of the option.

Edgar Filing: CNOOC LTD - Form 20-F

On February 24, 2003, our board of directors approved to grant options in respect of 8,410,000 shares to our senior management under the 2002 Share Option Scheme. The exercise price for the options is HK\$10.54 per share. The market price was HK\$10.55 per share preceding the options granted. Options granted under the 2002 Share Option Scheme may be exercised, in whole or in part, in accordance with the following vesting schedule:

- o one-third of the shares underlying the option shall vest on the first anniversary of the date of the grant;
- o one-third of the shares underlying the option shall vest on the second anniversary of the date of the grant; and
- o one-third of the shares underlying the option shall vest on the third anniversary of the date of the grant.

The exercise period for options granted under the 2002 Share Option Scheme shall end not later than 10 years from the date on which the option is granted.

As at December 31, 2003, our directors and employees had the following personal interests in options to subscribe for shares granted under our share option schemes:

Name of Grantee	Number of shares involved in the options outstanding as of		Date of Grant	Closing price per share immediately before the date of which the option were granted
	January 1, 2003	December 31, 2003		(HK\$)
Directors:				
Chengyu Fu	350,000	350,000	March 12, 2001	--
	350,000	350,000	August 27, 2001	7.30
		230,000	February 24, 2003	10.45
Shouwei Zhou	280,000	280,000	March 12, 2001	--
	350,000	350,000	August 27, 2001	7.30
		350,000	February 24, 2003	10.45
Longsheng Jiang	280,000	280,000	March 12, 2001	--
	230,000	230,000	August 27, 2001	7.30
		230,000	February 24, 2003	10.45
Han Luo	280,000	280,000	March 12, 2001	--
	230,000	230,000	August 27, 2001	7.30
		230,000	February 24, 2003	10.45

Employees:

Edgar Filing: CNOOC LTD - Form 20-F

Other Employees	3,430,000	3,430,000	March 12, 2001	--
	7,660,000	7,660,000	August 27, 2001	7.30
		7,370,000	February 24, 2003	10.45

As of December 31, 2003, no options granted under our share option schemes have been exercised.

The weighted average fair value of the options granted under the Pre-Global Offering Share Option Scheme, the 2001 Share Option Scheme and the 2002 Share Option Scheme at the grant dates was Rmb 3.40. This was estimated using the Black-Scholes option pricing model under the following assumptions: risk-free interest rates of 5.25%, expected volatility of 44%, an expected life of five years and an expected dividend yield of 2.0%. The assumptions on which the option pricing model is based represent the subjective estimations of our directors as to the circumstances existing at the time the options were granted.

On February 5, 2004, our board of directors approved a grant of options in respect of 10,140,000 shares to our senior management under the 2002 Share Option Scheme. The exercise price for the options is HK\$15.76 per share. For further details about our share option schemes, see notes 28 and 36 to our consolidated financial statements attached to this annual report.

As of June 10, 2004, none of our officers and directors owned 1% or more of our shares including the shares underlying the stock options granted as of that date.

105

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

A. MAJOR SHAREHOLDERS

The following table sets forth information regarding the ownership of our outstanding shares by major shareholders as of June 10, 2004.

Shareholder	Number of Shares Owned	Percentage
CNOOC (1)	29,000,000,000 (2)	70.625%

-
- (1) CNOOC owns our shares indirectly through its wholly owned subsidiary, CNOOC (BVI) Limited.
 - (2) On March 17, 2004, our shareholders approved a five-for-one stock split of our shares. The stock split was effected by dividing our shares of HK\$0.10 each into the shares of HK\$0.02 each. Accordingly, the number of shares owned by CNOOC changed from 5,800,000,000 to 29,000,000,000 as a result of the stock split.
 - (3) In May 2004, we repurchased a total of 8,877,000 shares in the open market based on the general mandate approved by our shareholders on May 29, 2003. For further details about our share buybacks, see "Item 16E--Purchases of Equity Securities by the Issuer and Affiliated Purchasers."

Edgar Filing: CNOOC LTD - Form 20-F

Our major shareholder listed above does not have different voting rights. Except as set forth in the above table, we are not aware of any holders of more than 5% of our shares. Nor are we aware of any significant changes in the percentage ownership of our major shareholder over the course of the past three years. To our knowledge, no arrangements are currently in place that could lead to a change of control of our company.

As of May 31, 2004, 11,385,465 American depositary shares were outstanding in the United States, representing approximately 9.44% of our then outstanding shares. At such date, the number of registered American depositary share holders in the United States was 12.

B. RELATED PARTY TRANSACTIONS

Overview

We regularly enter into transactions with related parties, including CNOOC and its subsidiaries. Since CNOOC indirectly owns an aggregate of approximately 70.625% of our issued share capital, some of these transactions constitute connected transactions under the Hong Kong Stock Exchange listing rules and are regulated by the Hong Kong Stock Exchange.

Under the Hong Kong Stock Exchange listing rules, many of these connected transactions normally would require full disclosure and the prior approval of our independent shareholders. However, since the connected transactions are carried out in the ordinary and usual course of business and occur on a regular basis on normal commercial terms and on terms that are fair and reasonable as far as our shareholders are concerned, the Hong Kong Stock Exchange has allowed us to apply for a waiver from strict compliance with the listing rules to engage in some of these transactions. The waiver categorizes and limits the value of our various connected transactions.

We originally obtained a waiver from the Hong Kong Stock Exchange on April 3, 2001, shortly after our shares were listed on the Hong Kong Stock Exchange. This waiver expired on December 31, 2002, and we obtained a new waiver from the Hong Kong Stock Exchange on January 7, 2003. The new waiver covers the period from January 1, 2003 to December 31, 2005.

The Hong Kong Stock Exchange required us to obtain the approval of our independent shareholders for the proposed continuing connected transactions before it would grant us the new waiver. As an interested shareholder, CNOOC abstained from the shareholder vote on the proposed continuing connected transactions. We appointed an independent board committee to advise the independent shareholders on whether the terms of the proposed continuing connected transactions were in our interest and were fair and reasonable so far as the independent shareholders were concerned. An independent financial advisor, Cazenove Asia Limited, advised the independent board committee on the terms of the

106

continuing connected transactions. Our independent shareholders approved the proposed connected transactions at an extraordinary general meeting on December 23, 2002.

Categories of Connected Transactions

Our ongoing connected transactions in respect of which we received a

Edgar Filing: CNOOC LTD - Form 20-F

waiver fall into the following eight categories:

- o Contracts with foreign petroleum companies;
- o Trademark license agreements;
- o Lease agreement in respect of the Nanshan terminal;
- o Provision of materials, utilities and ancillary services;
- o Technical services;
- o Research and development services;
- o Lease and property management services; and
- o Sales of crude oil, condensate oil and liquefied petroleum gas.

Contracts with foreign petroleum companies. In preparation for our initial public offering, CNOOC transferred to us all of its rights and obligations under all existing and any future production sharing contracts with various international oil and gas companies. As required by PRC law, CNOOC retained certain administrative functions and will remain a party to the production sharing contracts. PRC law requires a State-run entity, such as CNOOC, to negotiate and conclude an initial production sharing contract with a foreign partner offshore China. New production sharing contracts continue to be entered into between CNOOC and foreign partners, primarily through bidding organized by CNOOC and, to a lesser extent, through direct negotiation.

Trademark license agreements. CNOOC has licensed to us two "CNOOC" trademarks under non-exclusive license agreements that will expire on September 8, 2008. We paid a nominal amount of Rmb 1,000 for each of the trademarks. The registrations for the two trademarks will expire on December 6, 2008 and April 20, 2009, respectively. CNOOC has undertaken that so long as it is our controlling shareholder, it will renew the trademark registrations to enable us to continue using them without any additional consideration.

Lease agreement in respect of the Nanshan Terminal. Under an agreement dated September 9, 1999, CNOOC has granted us the right to use the Nanshan Terminal, Yacheng 13-1, free-of-charge for a period of 20 years. We use the property to process natural gas.

Provision of materials, utilities and ancillary services. Various CNOOC subsidiaries provide us with the use of certain facilities and ancillary services and products, including:

- o materials for offshore oil and gas production (including cement, diesel oil, mud, fuels, barite and paint);
- o oil and gas production labor services;
- o warehousing and storage;
- o road transportation services;
- o telecommunication and network services;

Edgar Filing: CNOOC LTD - Form 20-F

- o wharf services;
- o construction services, including the construction of roads, piers, buildings, plants and embankment;
- o major equipment maintenance and repair works;
- o medical, child care and social welfare services;
- o water, electricity and heat supply;
- o security and fire services; technical training; accommodation;
- o repair and maintenance of buildings; and
- o catering services.

Under agreements between these CNOOC subsidiaries and us, the facilities and ancillary products and services are provided at:

- (i) government-prescribed prices; or
- (ii) where there is no government-prescribed price, market prices, including the local or national market prices; or
- (iii) when neither (i) nor (ii) is applicable, the cost to CNOOC's associates of providing the relevant materials, utilities and ancillary services, including the cost of sourcing or purchasing from third parties, plus a margin of not more than 5%, before any applicable taxes.

The prices, volumes and other terms of the agreements are reviewed by the parties annually. If any of the terms are amended, the parties must enter into a supplemental agreement no later than 60 days prior to the end of the financial year preceding the financial year in which the amendment takes effect. If the parties fail to reach an agreement by then, the existing terms of the supply agreement will continue to apply until the parties agree on the terms of the supplemental agreement. We have undertaken to the Hong Kong Stock Exchange that we will comply with the provisions of its listing rules with respect to any supplemental agreements.

For the three years ended December 31, 2003, the amounts we paid to CNOOC subsidiaries for these services were approximately Rmb 815 million, Rmb 789 million and Rmb1,018 million, respectively, representing 3.9%, 3.0% and 2.5%, respectively, of our total revenues.

Technical services. Various CNOOC subsidiaries, including China Oilfield Services Limited and CNOOC Offshore Oil Engineering Company Limited, provide us with technical and labor services for our offshore oil and gas production activities, including:

- o offshore drilling;
- o ship tugging, oil tanker transportation and security services;
- o well surveys, well logging, well cementing and other related technical services;
- o collection of geophysical data, ocean geological prospecting, and data processing;
- o platform fabrication service and maintenance; and

Edgar Filing: CNOOC LTD - Form 20-F

- o design, construction, installation and test of offshore and onshore production facilities.

108

For the three years ended December 31, 2003, the amounts we paid to CNOOC subsidiaries for these services were approximately Rmb 2,367 million, Rmb 3,280 million and Rmb 3,828 million, respectively, representing 11.4%, 12.4% and 9.3%, respectively, of our total revenue. We generally conduct an open bidding process to select these services providers and the charges for these services are based on arm's-length negotiations between the parties and reflect considerations such as volume of sales, length of contracts, overall customer relationship and other market factors.

Research and development services. Various CNOOC subsidiaries and affiliates, including the CNOOC Research Center, provide us with research and development services, including:

- o geophysical exploration services;
- o seismic data processing;
- o comprehensive exploration research services; and
- o information technology services.

During the three years ended December 31, 2001, 2002 and 2003, we paid approximately Rmb 109 million, Rmb 110 million and Rmb 56 million, respectively, to CNOOC Research Center for its provision of general research and development services. We occasionally also hired research institutes, including CNOOC Research Center, through an open bidding process for specific research and development projects. For such specific projects during the three years ended December 31, 2003, we paid the CNOOC Research Center approximately Rmb 50 million, Rmb 57 million and Rmb 27 million.

Lease and property management services. We have entered into lease and property management agreements with CNOOC and its subsidiaries for premises located in Beijing, Tianjin, Zhanjiang, Shanghai and Shenzhen in the PRC and in Singapore. Most of the premises are necessary for our operations, and the agreements are based on normal commercial terms. For the three years ended December 31, 2003, the aggregate rentals and management fees payable by us to CNOOC and its subsidiaries were approximately Rmb 46 million, Rmb 54 million and Rmb 57 million, respectively.

Sales of crude oil, condensate oil and liquefied petroleum gas. We sell crude oil, condensate oil and liquefied petroleum gas to CNOOC affiliates that engage in the downstream petroleum business. The prices for these products are based on prices in the international market. For the three years ended December 31, 2003, CNOOC subsidiaries paid us approximately Rmb 1,814 million, Rmb 4,362 million and Rmb 8,324 million, respectively, representing approximately 8.7%, 16.5% and 20.3% of our total revenues for the respective periods.

Waiver Conditions

The waiver granted by the Hong Kong Stock Exchange to us in January 2003 contains the following typical conditions:

Edgar Filing: CNOOC LTD - Form 20-F

- i. in relation to the ongoing connected transactions referred to in the paragraphs headed "Contracts with foreign petroleum companies," "Trademark license agreements" and "Lease agreement in respect of the Nanshan Terminal" the transactions, and the respective agreements (if any) governing such transactions, must be on terms that are fair and reasonable so far as our shareholders are concerned and in relation to the ongoing connected transactions referred to in the paragraphs headed "Provision of materials, utilities and ancillary services," "Technical services," "Research and development services," "Lease and property management services" and "Sales of crude oil, condensate oil and liquefied petroleum gas" the transactions, and the respective agreements (if any) governing such transactions must be:
 - a. entered into by us in our ordinary and usual course of business;
 - b. either on normal commercial terms or, where there is no available comparison, on terms no less favorable than those available to or from independent third parties; and
 - c. on terms that are fair and reasonable so far as our shareholders are concerned;
- ii. brief details of the continuing connected transactions in each year as required by Rule 14.25(1) (A) to (D) of the Hong Kong Stock Exchange listing rules (i.e., the date or period of the transaction, the parties thereto and a description of their connected relationship, a brief description of the transaction and the purpose of the transaction, the total consideration and the terms, and the nature and the extent of the interest of the connected person in the transaction), must be disclosed in our annual report and accounts for the relevant year;
- iii. our independent non-executive directors must review annually the transactions and confirm, in our annual report and accounts for the year in question, that such transactions have been conducted in the manner stated in (i) above and, where applicable, within the annual limit stated in (v) below;
- iv. our auditors must carry out review procedures annually in relation to the connected transactions and must confirm in writing whether the transactions:
 - a. received the approval of our board of directors;
 - b. have been entered into in accordance with the pricing policies as stated in our financial statements; and
 - c. have been entered into in accordance with the terms of the agreement governing the transactions or, where there is no agreement, on terms that are not less favorable than terms available to or from independent third parties;

For the purpose of the above review by our auditors, CNOOC has undertaken to us that it will provide the auditors with access to its relevant accounting records;

Edgar Filing: CNOOC LTD - Form 20-F

- v. the aggregate annual volume of transactions shall not exceed the proposed annual limits set out in the following table:

Transaction	Annual Limit	Basis for Determining the Annual Limit
Materials, utilities and ancillary services supply agreements	10% of our audited consolidated total revenues in the preceding financial year	Under our initial waiver, the annual limit for this category was 3.91% of our total revenues. The new annual limit is based on past amounts and future projections. We believe that new projects warrant the additional floor.
Technical services	In respect of the three financial years ending December 31, 2005, Rmb 5,853 million, Rmb 7,338 million and Rmb 4,880 million, respectively	Our original waiver from the Hong Kong Stock Exchange limited this category of connected transactions to Rmb 2,367 million for the year ended December 31, 2002. Our new annual limits take into consideration the expansion of existing oilfields and the development of two new oilfields in the Bohai Bay, which are expected to enter production by the end of the year 2004.
Research and development services for	In respect of the three financial years ending December 31, 2005,	Under our initial waiver, the limit for this category was Rmb 52 million per year. Our new annual limits are based on the amount of
particular projects	Rmb 141 million, Rmb 148 million and Rmb 153 million, respectively	prior years and a projection of our future needs for such services.
Sales of crude oil, condensate oil and liquefied petroleum gas	In respect of the three financial years ending December 31, 2005, 42%, 56% and 82%, respectively, of our audited consolidated total revenues in the preceding financial year	Our original waiver from the Hong Kong Stock Exchange limited this category of transactions to Rmb 1,950 million (representing 18% of consolidated revenues for the year ended December 31, 2002). The new annual limits are based on the amount of past sales and expected increase in sales in this category because of the ongoing development of existing oilfields and the development of new oilfields in the Bohai Bay. The limits reflect our anticipated need to use CNOOC's refining processes for heavy crude oil and other developments and the possibility that there will be an increasing proportion of our oil and gas sales to CNOOC because of generally lower transportation costs.
General research and development services agreement	Rmb 110 million	The annual limit for this category of transactions is the same as the limit set in our previous waiver from the Hong Kong Stock Exchange and takes into consideration our anticipated needs for these services.

Edgar Filing: CNOOC LTD - Form 20-F

Lease and management services	Rmb 78 million	Under our initial waiver, the maximum this category was Rmb 49 million. The amount is based on possible future exp the unavailability of alternative prov
-------------------------------	----------------	---

- vi. we undertook that if any of the terms of the agreements or arrangements referred to above are altered or if we enter into any new agreements with any connected persons (within the meaning of the Hong Kong Stock Exchange listing rules) in the future or if the limits stated in (v) above are exceeded, we will comply with the standard disclosure and shareholder approval provisions in the Hong Kong Stock Exchange listing rules unless we apply for and obtain a separate waiver from the Hong Kong Stock Exchange.

In addition to the connected transactions disclosed above, from time to time we place cash deposits with CNOOC Finance Corporation Limited, or CNOOC Finance. CNOOC Finance is a majority-owned subsidiary of CNOOC and operates as a non-bank finance company under the supervision of the People's Bank of China, or PBOC, the PRC central bank. We acquired a 31.8% interest in CNOOC Finance in September 2003. The interest rates offered by CNOOC Finance were the same as the rates promulgated by the PBOC which were applicable to account deposits with PRC banks or finance companies and ranged from 1.44% to 1.89% per annum. As of December 31, 2003, we had cash and cash equivalents and time deposits aggregating Rmb 3,898,000 placed with CNOOC Finance. On April 8, 2004, we entered into a framework agreement with CNOOC Finance. Pursuant to the framework agreement, we and our subsidiaries will from time to time utilize financial services from CNOOC Finance, including placing of cash deposits and other settlement services. The maximum outstanding balance for deposits, including interest receipts in respect of these deposits, placed with CNOOC Finance during the term of the framework agreement will not exceed Rmb 6,800 million. Such

111

arrangement with CNOOC Finance was approved in the extraordinary general meeting of our shareholders on April 28, 2004.

During 2003, we also imported oil into the PRC for trading, using CNOOC's import license. As of December 31, 2003, total sales to our customers through such arrangements amounted to approximately Rmb 1,470,832,000 (2002: Nil). The commission paid by the third party customers to CNOOC for the year amounted to approximately Rmb 8,825,000 (2002: Nil).

For further information regarding related party transactions, see note 26 to our consolidated financial statements attached to this annual report.

Directors' Interests

Our directors have no interest in any business which competes or might compete with our businesses.

C. INTERESTS OF EXPERTS AND COUNSEL

Not applicable.

ITEM 8. FINANCIAL INFORMATION

Edgar Filing: CNOOC LTD - Form 20-F

A. CONSOLIDATED STATEMENTS AND OTHER FINANCIAL INFORMATION

See pages beginning on page F-1 following Item 19.

Legal Proceedings

We are not a defendant in any material litigation, claim or arbitration, and we know of no pending or threatened proceeding which would have a material adverse effect on our financial condition.

Dividend Distribution Policy

We intend to declare and pay dividends in the future. The payment and the amount of any dividends will depend on our results of operations, cash flow, financial condition, the payment by our subsidiaries of cash dividends to us, future prospects and other factors which our directors may consider relevant. In addition, as our controlling shareholder, CNOOC will be able to influence our dividend policy. Holders of our shares will be entitled to receive such dividends declared by our board of directors pro rata according to the amounts paid up or credited as paid up on the shares. Subject to the factors described above, we currently intend to pursue a dividend policy consistent with other international oil and gas exploration and production companies. Based on current share prices and dividends of international oil and gas exploration and production companies, we currently intend to target an initial dividend yield of approximately 1% to 3%.

Dividends may be paid only out of our distributable profits as permitted under Hong Kong law, which does not restrict the payment of dividends to nonresident holders of our securities. To the extent profits are distributed as dividends, such portion of profits will not be available to be reinvested in our operations.

Holders of our ADSs will be entitled to receive dividends, subject to the terms of the deposit agreement, to the same extent as holders of our shares, less the fees and expenses payable under the deposit agreement. Cash dividends will be paid to the depository in Hong Kong dollars and, will be converted by the depository into U.S. dollars and paid to holders of ADSs. Stock dividends, if any, will be distributed to the depository and will be distributed by the depository, in the form of additional ADSs, to holders of the ADSs.

112

Following the reorganization of CNOOC and our establishment as a separate legal entity in October 1999, we paid a dividend of Rmb 1,045.4 million for fiscal year 1999 and declared and paid a final dividend of Rmb 6,426.4 million for fiscal year 2000. For fiscal year 2001, we declared and paid a dividend of Rmb 871.1 million. For fiscal year 2002, we declared and paid dividends of Rmb 2,265.1 million. For fiscal year 2003, we declared and paid dividends of Rmb 5,415.0 million (US\$654.2 million). The amount of dividends we paid historically is not indicative of the dividends that we will pay in the future.

Substantially all our dividend payments result from dividends paid to us by CNOOC China Limited. CNOOC China Limited must follow the laws and regulations of the PRC and its articles of association in determining its dividends. As a wholly foreign owned enterprise in China, CNOOC China has to provide for a reserve fund and staff and workers' bonus and welfare fund, each of which is appropriated from net profit after taxation but before dividend

Edgar Filing: CNOOC LTD - Form 20-F

distribution according to the prevailing accounting rules and regulations in the PRC. CNOOC China is required to allocate at least 10% of its net profit to the reserve fund until the balance of this fund has reached 50% of its registered capital. Appropriations to the staff and workers' bonus and welfare fund, which are determined at the discretion of CNOOC China's directors, are charged to expense as incurred in the consolidated financial statements, which were prepared under Hong Kong GAAP. None of CNOOC China's contributions to these statutory funds may be used for dividend purposes.

For the years ended December 31, 2001, 2002 and 2003, CNOOC China Limited made the following appropriations to the statutory reserves:

	For the year ended December 31, 2001		For the year ended December 31, 2002		For t Dece
	Percentage of Net Profits	Rmb (in millions)	Percentage of Net Profits	Rmb (in millions)	Perce of N Profi

Staff and workers' bonus and welfare fund.....	0.7%	40.0	--	--	--

B. SIGNIFICANT CHANGES

First Quarter 2004 Financial and Operating Results

During the first quarter of 2004, our unaudited revenues from the sale of oil and gas were Rmb 7.7 billion. Our daily average crude oil production was 306,980 barrels per day during this period, compared to 308,777 barrels per day in 2003, while our daily average natural gas production was 323 million cubic feet per day, compared to 242 million cubic feet per day in 2003. The average net realized price of our crude oil was US\$29.79 per barrel during the first quarter of 2004, compared to US\$30.33 per barrel in 2003, while the average net realized price of our natural gas was US\$2.80 per thousand cubic feet, compared to US\$2.99 per thousand cubic feet in 2003.

Stock Split

On March 17, 2004, our shareholders approved a five-for-one stock split of our shares. The stock split was effected by dividing each of our issued and unissued shares of HK\$0.10 each into five shares of HK\$0.02 each. Our shareholders also approved an increase in the board lot size for trading on the Hong Kong Stock Exchange from 500 shares of HK\$0.10 each to 1,000 subdivided shares of HK\$0.02 each. The ratio of our American depositary receipts listed on the New York Stock Exchange also changed such that each ADR now represents 100 subdivided shares of HK\$0.02 each, as opposed to 20 shares of HK\$0.10 each prior to the stock split.

ITEM 9. THE OFFER AND LISTING

Not applicable, except for Item 9.A.4 and Item 9.C.

Edgar Filing: CNOOC LTD - Form 20-F

We listed our shares on the Hong Kong Stock Exchange and our ADSs on the New York Stock Exchange in February 2001. Our shares are listed on the Hong Kong Stock Exchange under the stock code "883" and our ADSs are listed on the New York Stock Exchange under the symbol "CEO." On March 17, 2004, our shareholders approved a five-for-one stock split of our shares. The stock split was effected by dividing each of our issued and unissued shares of HK\$0.10 each into five shares of HK\$0.02 each. The ratio of our American depositary shares listed on the New York Stock Exchange also changed such that each ADS now represents 100 subdivided shares of HK\$0.02 each, as opposed to 20 shares of HK\$0.10 each prior to the stock split. The following table sets forth, for the periods indicated, the high and low closing prices per share, as reported on the Hong Kong Stock Exchange and adjusted retroactively to reflect the stock split, and per ADS, as reported on the New York Stock Exchange.

Period	Hong Kong Stock Exchange		New York Stock Exchange	
	High (HK\$ per share)	Low	High (US\$ per ADS)	Low
2001.....	1.74	1.20	22.00

114

ITEM 10. ADDITIONAL INFORMATION

A. SHARE CAPITAL

Not applicable.

Edgar Filing: CNOOC LTD - Form 20-F

B. MEMORANDUM AND ARTICLES OF ASSOCIATION

We were incorporated with limited liability on August 20, 1999 in Hong Kong under the Companies Ordinance of Hong Kong. Our company registration number in Hong Kong is 685974. Under section three of our memorandum of association, we have the capacity and the rights, powers and privileges of a natural person and in addition and without limit, we may do anything which we are permitted to do by any enactment or rule of law. The following are summaries of provisions of our memorandum of association and articles of association and the Companies Ordinance (Chapter 32 of the Laws of Hong Kong). For further details, you should read our memorandum of association which was filed as an exhibit to our registration statement on Form F-1 (Registration No. 333-10862) and our articles of association, as amended, which is filed as an exhibit to this annual report.

Issue of Shares

Under the Companies Ordinance of Hong Kong, our directors may, without prior approval of the shareholders, offer to issue new shares in our company to existing shareholders pro rata. The directors may not issue new shares of our company in any other manner without the prior approval of the shareholders in a general meeting. Any approval given in a general meeting shall continue in force until the earliest to occur of the following events:

- o the conclusion of the following annual general meeting,
- o the expiration of the period within which the next annual general meeting is required by law to be held, or
- o when revoked or varied by an ordinary resolution of the shareholders, in a general meeting of our company.

If such approval is given, the unissued shares of our company shall be at the disposal of the board of directors. The directors may offer, allot, grant options over or otherwise dispose of the unissued shares to persons at such times and for such consideration and upon such terms and conditions as the directors may determine.

In accordance with the listing rules of the Hong Kong Stock Exchange, any such approval of the shareholders must be limited to shares with an aggregate nominal value not exceeding 20% of the aggregate value of our share capital in issue plus the aggregate nominal amount of share capital repurchased by us since the granting of such approval.

Dividends

Subject to the Companies Ordinance of Hong Kong, the shareholders in a general meeting may declare dividends to be paid to shareholders. However, dividends will not be declared in excess of the amount recommended by the board of directors.

In addition to dividends declared in a general meeting, the board of directors may declare and pay to the shareholders interim dividends as appear to the board of directors to be justified by our financial position. The board of directors may also pay any fixed dividend on any shares of our company on any other dates, whenever our financial position, in their opinion, justifies such payment.

Edgar Filing: CNOOC LTD - Form 20-F

Winding Up

If we are wound up, the liquidator may, with the sanction of a special resolution, divide among our shareholders in specie or in kind the whole or any part of our assets or vest any part of our assets in trustees upon such trusts for the benefit of our shareholders or any of them as the resolution shall provide.

Voting Rights

Under the Companies Ordinance of Hong Kong, any action to be taken by the shareholders in a general meeting requires the affirmative vote of either an ordinary or a special resolution passed at such meeting.

- o An ordinary resolution is a resolution passed by the majority of shareholders that are entitled to, and do, vote in person or by proxy at a general meeting.
- o A special resolution is a resolution passed by not less than 75% of shareholders that are entitled to, and do, vote in person or by proxy at a general meeting.

Generally, resolutions of shareholders are passed by ordinary resolution. However, the Companies Ordinance of Hong Kong provides that some matters may only be passed as special resolutions. These matters include:

- o alteration of the object clause,
- o alteration of the articles,
- o change of a company's name,
- o reduction of share capital, and
- o voluntary winding up.

Voting at any meeting of shareholders is by a show of hands unless a poll is demanded. If voting is by a show of hands, every shareholder who is present at the meeting in person or by proxy has one vote. On a poll, every shareholder who is present in person or by proxy has one vote for every share held or represented by him. A poll may be demanded in some circumstances by:

- o the chairman of the meeting,
- o at least three shareholders present in person or by proxy and entitled to vote at the meeting,
- o shareholders present in person or by proxy who represent in the aggregate not less than 10% of the total voting rights of all shareholders having the right to attend and vote at the meeting, or
- o shareholders present in person or by proxy and holding shares conferring a right to amend and vote at the meeting on which there have been paid up sums in the aggregate equal to not less than 10% of the total sum paid up on all shares conferring that right.

Any action to be taken by the shareholders requires the affirmative vote of the requisite majority of the shares at a meeting of shareholders. There are no cumulative voting rights. Accordingly, the holders of a majority of the shares voting for the election of directors can elect all the directors if they choose to do so.

General Meetings

We are required to hold an annual general meeting of shareholders each year within 15 months from the date of our last annual general meeting. We may also hold extraordinary general meetings of shareholders from time to time. Our board of directors may convene an extraordinary general meeting at will, and shall on requisition in accordance with the Companies Ordinance of Hong Kong, proceed to convene an extraordinary general meeting. Our annual general meeting and any extraordinary general meeting called for the purpose of passing a special resolution requires at least 21 days' prior notice, and any other general meeting requires at least 14 days' prior notice. The notice must specify the place, day and time of the meeting and, in the case of special business, the general nature of that business. The quorum for a general meeting is two shareholders present in person or by proxy. If within thirty minutes from the time appointed for the meeting a quorum is not present, the meeting, if convened upon requisition in accordance with the Companies Ordinance of Hong Kong, must be dissolved; but in any other case it must stand adjourned to the same day in the next week at the same time and place, or to such other day, time and place as the Chairman of the meeting may determine. If at such adjourned meeting a quorum is not present within thirty minutes from the time appointed for the meeting, the member or members present in person or by proxy shall be a quorum and may transact the business for which the meeting is called.

Modification of Rights

Subject to the Companies Ordinance of Hong Kong, any of the rights attaching to any class of shares, unless otherwise provided for by the terms of issue of the shares of that class, may be varied or abrogated with the written consent of the holders of not less than 75% of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of shares of that class.

Borrowing Powers

Our board of directors may exercise all the powers of our company to borrow money and to mortgage or charge all or any part of our undertaking, property and assets, whether present or future, and uncalled capital. Our board of directors may issue debentures, debenture stock, bonds or other securities of our company, whether outright or as collateral security for any debt, liability or obligation of our company or of any third party. These borrowing powers are subject to variation by a special resolution of our company.

Interested Transactions

Subject to the exceptions described below, none of our directors may vote on any contract, arrangement or proposal in which the director or any of his or her associates is materially interested. For this purpose, existence of material interest is presumed if a company, in which the director and/or his or her associates beneficially own 5% or more of any class of its shares or voting rights, is materially interested in the transaction. Our directors may, however, vote on the following matters:

- o any contract or arrangement to give security or indemnity to the director or his or her associates for money lent or obligations

Edgar Filing: CNOOC LTD - Form 20-F

undertaken by such director or his or her associates at the request of or for the benefit of our company or subsidiaries;

- o any contract or arrangement to give security or indemnity to a third party for our debts or debts of our subsidiaries for which such director or his or her associates assumed responsibility by giving guarantee or security;
- o any contract or arrangement concerning offering of securities by us (or any company which we may promote or be interested in purchasing) for which the director or his or her associates participate in the underwriting or sub-underwriting;

117

- o any contract or arrangement in which the director or his or her associates are interested only by virtue of their interest in our securities;
- o any contract or arrangement concerning any other company in which the director or his or her associates are interested as an officer or executive or a shareholder in which the director or his or her associates are beneficially interested in shares of that company other than a company in which they in aggregate beneficially own more than 5% of the issued shares of any class or voting rights;
- o any proposal or arrangement concerning employee benefits that do not provide privileges to our directors or their associates, including employee share schemes and retirement, death or disability benefits schemes; and
- o any proposal or arrangement concerning the adoption, modification or operation of any employees' share scheme involving the issue or grant of options over shares or other securities by us to, or for the benefit of, our employees or employees of our subsidiaries under which the director or his or her associates may benefit.

C. MATERIAL CONTRACTS

Incorporated by reference to our registration statement on Form F-1 (Registration No. 333-10862), to which most of our current material contracts were filed as exhibits. For additional information on our material contracts, see "Item 7--Major Shareholders and Related Party Transactions--Related Party Transactions" and "Item 19--Exhibits."

D. EXCHANGE CONTROLS

A portion of our Renminbi revenue may need to be converted into other currencies by our wholly owned principal operating subsidiary in the PRC, CNOOC China Limited, to meet our foreign currency obligations. We have substantial requirements for foreign currency, including:

- o debt service on foreign currency denominated debt;
- o overseas acquisitions of oil and gas properties;
- o purchases of imported equipment; and
- o payment of dividends declared in respect of shares held by

Edgar Filing: CNOOC LTD - Form 20-F

international investors.

CNOOC China Limited may undertake current account foreign exchange transactions without prior approval from the State Administration for Foreign Exchange. It has access to current account foreign exchange so long as it can produce commercial documents evidencing such transactions and provided that they are processed through certain banks in China. Foreign exchange transactions under the capital account, including principal payments with respect to foreign currency denominated obligations, will be subject to the registration requirements of the State Administration for Foreign Exchange.

Since 1994, the conversion of Renminbi into Hong Kong and United States dollars has been based on rates set by the People's Bank of China, which are set daily based on the previous day's PRC interbank foreign exchange market rate and current exchange rates on the world financial markets. The PRC government has stated publicly that it intends to make Renminbi freely convertible in the future. However, we cannot predict when the PRC government will allow free conversion of Renminbi into foreign currencies. Renminbi devaluation and fluctuations in exchange rates may adversely affect the value, translated or converted into U.S. dollars or Hong Kong dollars, of our net assets, earnings and any declared dividends. Renminbi devaluation and exchange rate fluctuations may adversely affect our results of operations and financial condition and may result in foreign exchange losses because of our substantial U.S. dollar and Japanese yen-denominated debts, expenses and other requirements. In

118

addition, we may not be able to increase the Renminbi prices of our domestic sales to offset fully any depreciation of the Renminbi due to political, competitive or social pressures. We do not hedge exchange rate fluctuations between the Renminbi and foreign currencies and currently have no plans to do so. For further information on foreign exchange risks, foreign exchange rates and hedging activities, see "Item 3--Key Information--Selected Financial Data" and "Item 11--Qualitative and Quantitative Disclosure about Market Risk."

E. TAXATION

The taxation of income and capital gains of holders of our shares or ADSs is subject to the laws and practices of Hong Kong and of jurisdictions in which holders of our shares or ADSs are resident or otherwise subject to tax. The following is a summary of taxation provisions that are anticipated to be material based on current law and practice, is subject to change and does not constitute legal or tax advice. The discussion does not deal with all possible tax consequences relating to an investment in our shares or ADSs. In particular, the discussion does not address the tax consequences under state, local and other laws, such as non-Hong Kong and non-U.S. federal laws. Accordingly, we urge you to consult your tax adviser regarding the tax consequences of an investment in our shares and ADSs. The discussion is based upon laws and relevant interpretations in effect as of the date of this annual report, all of which are subject to changes. There is no reciprocal tax treaty in effect between Hong Kong and the United States.

Hong Kong

Tax on Dividends

Under the current practices of the Hong Kong Inland Revenue Department, no tax is payable in Hong Kong in connection with dividends paid by us.

Edgar Filing: CNOOC LTD - Form 20-F

Profits Tax

No tax is imposed in Hong Kong in respect of capital gains from the sale of property, such as the shares and ADSs. Trading gains from the sale of property by persons carrying on a trade, profession or business in Hong Kong where such gains are derived from or arise in Hong Kong from such trade, profession or business will be chargeable to Hong Kong profits tax which is currently imposed at the rate of 16% on corporations and at a maximum rate of 15% on individuals. Gains from sales of the shares effected on the Hong Kong Stock Exchange will be considered to be derived from or arise in Hong Kong. Liability for Hong Kong profits tax would thus arise in respect of trading gains from sales of shares or ADSs realized by persons carrying on a business of trading or dealing in securities in Hong Kong.

Stamp Duty

Hong Kong stamp duty, currently charged at the rate of HK\$1.125 per HK\$1,000 or part thereof on the higher of the consideration for or the value of the shares, will be payable by the purchaser on every purchase and by the seller on every sale of shares. For example, a total of HK\$2.25 per HK\$1,000 or part thereof is currently payable on a typical sale and purchase transaction involving shares. In addition, a fixed duty of HK\$5 is currently payable on any instrument of transfer of shares. The withdrawal of shares upon the surrender of ADRs, and the issuance of ADRs upon the deposit of shares, will also attract stamp duty at the rate described above for sale and purchase transactions unless the withdrawal or deposit does not result in a change in the beneficial ownership of the shares under Hong Kong law. The issuance of the ADRs upon the deposit of shares issued directly to the depository or for the account of the depository does not attract stamp duty. No Hong Kong stamp duty is payable upon the transfer of ADSs outside Hong Kong.

Estate Duty

The shares are Hong Kong property under Hong Kong law, and accordingly such shares may be subject to estate duty on the death of the beneficial owner of such shares, regardless of the place of the

119

owner's residence, citizenship or domicile. We cannot assure you that the Hong Kong Inland Revenue Department will not treat the ADRs as Hong Kong property that may be subject to estate duty on the death of the beneficial owner of the ADR even if the ADRs are located outside Hong Kong at the date of such death. Hong Kong estate duty is imposed on a progressive scale from 5% to 15%. The rate of and the threshold for estate duty has, in the past, been adjusted on a fairly regular basis. No estate duty is payable when the aggregate value of the dutiable estate does not exceed HK\$7.5 million, and the maximum rate of duty of 15% applies when the aggregate value of the dutiable estate exceeds HK\$10.5 million.

United States

Federal Income Tax Considerations

The following is a summary of United States federal income tax considerations that are anticipated to be material for U.S. Holders, as defined below. This summary is based upon existing United States federal income tax law, which is subject to change, possibly with retroactive effect.

Edgar Filing: CNOOC LTD - Form 20-F

This summary does not discuss all aspects of United States federal income taxation which may be important to particular investors in light of their individual investment circumstances, such as investors subject to special tax rules including: partnerships, financial institutions, insurance companies, broker-dealers, tax-exempt organizations, and, except as described below, non-U.S. Holders, or to persons that will hold our shares or ADSs as part of a straddle, hedge, conversion, or constructive sale transaction for United States federal income tax purposes or that have a functional currency other than the United States dollar, all of whom may be subject to tax rules that differ significantly from those summarized below. In addition, this summary does not discuss any foreign, state, or local tax considerations. This summary assumes that investors will hold our shares or ADSs as "capital assets" (generally, property held for investment) under the United States Internal Revenue Code. Each prospective investor is urged to consult its tax advisor regarding the United States federal, state, local, and foreign income and other tax considerations of the purchase, ownership, and disposition of our shares or ADSs.

For purposes of this summary, an U.S. Holder is a beneficial owner of shares or ADSs that is for United States federal income tax purposes:

- o an individual who is a citizen or resident of the United States;
- o a corporation, or other entity that is taxable as a corporation created in or organized under the laws of the United States or any State or political subdivision thereof;
- o an estate the income of which is includible in gross income for United States federal income tax purposes regardless of its source;
- o a trust the administration of which is subject to the primary supervision of a United States court and which has one or more United States persons who have the authority to control all substantial decisions of the trust; or
- o a trust that was in existence on August 20, 1996, was treated as a United States person, for United States federal income tax purposes, on the previous day, and elected to continue to be so treated.

A beneficial owner of our shares or ADSs that is not a U.S. Holder is referred to herein as a "Non-U.S. Holder."

A foreign corporation will be treated as a "passive foreign investment company" or "PFIC", for United States federal income tax purposes, if 75% or more of its gross income consists of certain types of "passive" income or 50% or more of its assets are passive. Based on our current and projected income, assets, and activities, we presently believe that we are not a PFIC and do not anticipate becoming a PFIC. This is, however, a factual determination made on an annual basis. Because the classification of certain of our interests for United States federal income tax purposes is uncertain and the PFIC rules are subject to administrative interpretation, however, no assurance can be given that we are not or will not be treated

as a PFIC. The discussion below under "U.S. Holders Dividends" and "U.S. Holders Sale or Other Disposition of Shares or ADSs," assumes that we will not be subject to treatment as a PFIC for United States federal income tax purposes.

Edgar Filing: CNOOC LTD - Form 20-F

U.S. Holders

For United States federal income tax purposes, a U.S. Holder of an ADS will be treated as the owner of the proportionate interest of the shares held by the depositary that is represented by an ADS and evidenced by such ADS. Accordingly, no gain or loss will be recognized upon the exchange of an ADS for the holders' proportionate interest in the shares. A U.S. Holder's tax basis in the withdrawn shares will be the same as the tax basis in the ADS surrendered therefore, and the holding period in the withdrawn shares will include the period during which the holder held the surrendered ADS.

Dividends. Any cash distributions paid by us out of our earnings and profits, as determined under United States federal income tax principles, will be subject to tax as ordinary dividend income and will be includible in the gross income of a U.S. Holder upon receipt. Cash distributions paid by us in excess of our earnings and profits will be treated as a tax-free return of capital to the extent of the U.S. Holder's adjusted tax basis in our shares or ADSs, and after that as gain from the sale or exchange of a capital asset. Dividends paid in Hong Kong dollars will be includible in income in a United States dollar amount based on the United States dollar to Hong Kong dollar exchange rate prevailing at the time of receipt of such dividends by the depositary, in the case of ADSs, or by the U.S. Holder, in the case of shares held directly by such U.S. Holder. U.S. Holders should consult their tax advisors regarding the United States federal income tax treatment of any foreign currency gain or loss recognized on the subsequent conversion of Hong Kong dollars received as dividends to United States dollars. Dividends received on shares or ADSs will not be eligible for the dividends received deduction allowed to corporations.

Under current law, "qualified dividend income" received by an individual after December 31, 2002 and before January 1, 2009 is subject to United States federal income tax rates lower than those applicable to ordinary income. The top federal income tax rate on such qualifying dividends received by an individual is 15%, or 5% for those individuals whose incomes fall in the 10- or 15 percent brackets. Based upon our existing and anticipated future operations and current assets, we believe that we are a "qualified foreign corporation" and that our dividends paid to U.S. Holders who are individuals will be eligible to be treated as "qualified dividend income" provided that such Holders satisfy applicable holding period requirements with respect to the ADSs and other application requirements. Dividends paid by foreign corporations that are classified as PFICs are not "qualified dividend income". See "PFIC Considerations" below.

Dividends received on shares or ADSs will be treated, for United States federal income tax purposes, as foreign source income. A U.S. Holder may be eligible, subject to a number of complex limitations, to claim a foreign tax credit in respect of any foreign withholding taxes imposed on dividends received on shares or ADSs. U.S. Holders who do not elect to claim a foreign tax credit for federal income tax withheld may instead claim a deduction, for United States federal income tax purposes, in respect of such withholdings, but only for a year in which the U.S. Holder elects to do so for all creditable foreign income taxes.

In addition, the United States Treasury has expressed concerns that parties to whom depositary shares are pre-released may be taking actions that are inconsistent with the claiming of foreign tax credits by the holders of ADSs. Accordingly, the analysis of the creditability of foreign withholding taxes could be affected by future actions that may be taken by the United States Treasury.

Sale or Other Disposition of Shares or ADSs. A U.S. Holder will recognize

Edgar Filing: CNOOC LTD - Form 20-F

capital gain or loss upon the sale or other disposition of shares or ADSs in an amount equal to the difference between the amount realized upon the disposition and the U.S. Holder's adjusted tax basis in such shares or ADSs, as each is determined in U.S. dollars. Any such capital gain or loss will be long-term if the shares or ADSs have been held for more than one year and will generally be United States source gain or loss. The claim of a deduction in respect of a capital loss, for United States federal income tax purposes, may be subject

121

to limitations. If a U.S. Holder receives Hong Kong dollars for any such disposition, such U.S. Holder should consult its tax advisor regarding the United States federal income tax treatment of any foreign currency gain or loss recognized on the subsequent conversion of the Hong Kong dollars to United States dollars.

PFIC Considerations

If we were to be classified as a PFIC in any taxable year, a U.S. Holder would be subject to special rules generally intended to reduce or eliminate any benefits from the deferral of United States federal income tax that a U.S. Holder could derive from investing in a foreign company that does not distribute all of its earnings on a current basis. In such event, a U.S. Holder of the shares or ADSs may be subject to tax at ordinary income tax rates on (i) any gain recognized on the sales of the shares or ADSs and (ii) any "excess distribution" paid on the shares or ADSs (generally, a distribution in excess of 125% of the average annual distributions paid by us in the three preceding taxable years). In addition, a U.S. Holder may be subject to an interest charge on such gain or excess distribution. Prospective investors are urged to consult their tax advisors regarding the potential tax consequences to them if we are or do become a PFIC, as well as certain elections that may be available to them to mitigate such consequences.

Non-U.S. Holders

An investment in shares or ADSs by a Non-U.S. Holder will not give rise to any United States federal income tax consequences unless:

- o the dividends received or gain recognized on the sale of the shares or ADSs by such person is treated as effectively connected with the conduct of a trade or business by such person in the United States as determined under United States federal income tax law, or
- o in the case of gains recognized on a sale of shares or ADSs by an individual, such individual is present in the United States for 183 days or more and certain other conditions are met.

In order to avoid back-up withholding on dividend payments made in the United States, a Non-U.S. Holder of the shares or ADSs may be required to complete, and provide the payer with, an Internal Revenue Service Form W-8BEN, or other documentary evidence, certifying that such holder is an exempt foreign person.

I. SUBSIDIARY INFORMATION

Not applicable.

ITEM 11. QUALITATIVE AND QUANTITATIVE DISCLOSURES ABOUT MARKET RISK

Our market risk exposures primarily consists of fluctuations in oil and gas prices, exchange rates and interest rates.

Commodity Price Risks

We are exposed to fluctuations in prices of crude oil and natural gas, which are commodities whose prices are determined by reference to international market prices. International oil and gas prices are volatile and this volatility has a significant effect on our net sales and net income. We do not hedge market risk resulting from fluctuations in oil and gas prices. See "Overview" and "Item 3--Key Information--Risk Factors--Risks relating to our business--Our business, revenues and profits fluctuate with changes in oil and gas prices."

Currency Risk

Our foreign exchange exposure gives rise to market risk associated with exchange rate movements.

Substantially all of our oil and gas sales are denominated in Renminbi and U.S. dollars. In the last ten years, the PRC government's policy of maintaining a stable exchange rate and China's ample foreign reserves have contributed to the stability of the Renminbi. Recently, there has been wide expectation in the international market that the Chinese government will deregulate the Renminbi exchange rate. However, the Chinese government has not yet determined if or when the exchange rate will be deregulated. Currently, the Renminbi exchange rate remains stable. In case of any Renminbi exchange rate deregulation going forward, our existing assets denominated in U.S. dollars will face book conversion risks from the appreciation of Renminbi. As we prepaid majority of our Yen-denominated loans in 2002, the balance over Yen-denominated loans as of the end of 2003 was only 1.09 billion yen.

Edgar Filing: CNOOC LTD - Form 20-F

Currently, since this outstanding of our Yen loans is hedged against foreign currency swaps, we do not expect any exchange risks relating to Japanese Yen in the future. For a discussion of our currency risk, see "Item 3--Key Information--Risk Factors--Risks relating to the PRC--Government control of currency conversion and future movements in exchange rates may adversely affect our operations and financial condition."

Interest Rate Risk

We are exposed to interest rate risk arising from our loans. An upward fluctuation in interest rates increases the cost of new debt. We may use interest rate swap transactions, from time to time, to adjust our interest rate exposure when considered appropriate, based on existing and anticipated market conditions.

As of the end of 2003, all our foreign currency debts are at fixed interest rates. To balance our overall debt interest structure and to reduce our financial cost benefiting from the low interest rate market environment, during the period from July to September 2003, we arranged for an interest rate swap with three financial institutions by swapping the new offering of US\$200 million 10-year global guaranteed notes in 2003 into floating interest rate. After the swap, we received fixed interest rate of 4.125% and paid floating interest rate at LIBOR minus 0.771% (weighted average interest rate). During the first interest swap in November 2003, LIBOR was approximately 1.2%. Through this swap, we made interest savings of US\$2.02 million.

Based on the series of robust economic data announced by the US in late 2003, we believed that the US economy had entered into a rapid growth period, with interest rate taking an upward trend. In January 2004, we captured the opportunity of significant drop of US treasury yield with the US's

123

announcement of the poor performance of certain economic data, and terminated the above interest swap arrangement with net gains of US\$10 million. This, in addition to the interest savings of US\$2.02 million for the year 2003, resulted in cumulative net gains of US\$12.02 million, representing the reduction of interest rate of the US\$200 million guaranteed notes from 4.125% to 3.53%. As of December 31, 2003, our total outstanding debt, including both foreign currency-denominated and Renminbi-denominated loans, was US\$110.0 million, all of which were fixed rate debts.

The following table sets forth additional information about the expected maturity dates of our outstanding debt as of December 31, 2003.

	2004	2005	2006	2007	2008	2009 and a
	-----	-----	-----	-----	-----	-----
	(Rmb in millions, except percent)					
Long-term debt, including current portion						
Fixed rate.....	21	21	88	21	--	--
Average interest rate.....	8.685%	8.783%	8.906%	4.100%	--	--

Edgar Filing: CNOOC LTD - Form 20-F

Long-term guaranteed notes						
Fixed rate.....	--	--	--	--	--	8,2
Average interest rate.....	5.666%	5.666%	5.666%	5.666%	5.666%	5.6

The above table takes into account our early repayment of certain loans in 2003. For additional discussions of our market risks, see "Item 3--Key Information--Risk Factors."

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

Not applicable.

124

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

A. MATERIAL MODIFICATIONS TO THE RIGHTS TO SECURITY HOLDERS

None.

B. USE OF PROCEEDS

Not applicable.

ITEM 15. CONTROLS AND PROCEDURES

(a) We have carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were adequate and designed to ensure that material information relating to us and our consolidated subsidiaries as required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported as and when required.

(b) There were no significant changes in our internal controls or, to our knowledge, in other factors that could significantly affect these controls subsequent to the date of their evaluation.

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

Our board of directors has determined that Mr. Kenneth S. Curtis, our independent non-executive director, is an audit committee financial expert serving on our audit committee. Mr. Curtis is independent as defined in the listing standards of the New York Stock Exchange.

ITEM 16B. CODE OF ETHICS

Our board of directors adopted a Code of Ethics on August 28, 2003 as a guide to sensitize our senior managers to significant legal and ethical issues

Edgar Filing: CNOOC LTD - Form 20-F

and to the mechanisms available to report illegal or unethical conduct. The Code is available on our internet website, www.cnoccltd.com. The Code addresses areas including regulatory compliance, insider trading, market misconduct, conflict of interest, corporate opportunities, protection and proper use of company assets, and public company reporting responsibility. All our senior managers must know and follow these principles of conduct to ensure our business is conducted with integrity and in compliance with the law. Any violation of our Code of Ethics is subject to disciplinary action, up to and including termination.

Our Code of Ethics may be amended, modified or waived only by our board of directors. Any change or waiver, explicit or implicit, with respect to our Code of Ethics must be disclosed to our stockholders either in our annual report or on our internet website, www.cnoccltd.com.cn.

125

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Audit Fees

The aggregate fees billed for professional services rendered by our principal accountant for the audit of our annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements were Rmb 4,500,000 for fiscal year 2002 and Rmb 5,790,000 (US\$699,554) for fiscal year 2003.

Audit-Related Fees

The aggregate fees billed for assurance and related services by our principal accountant that are reasonably related to the performance of the audit or review of the our financial statements and are not reported under "Audit Fees" were Rmb 1,560,000 for fiscal year 2002 and Rmb 2,044,345 (US\$247,000) for fiscal year 2003. The audit-related services provided included accounting advice, transaction support services and assistance in the implementation of Section 404 of the Sarbanes-Oxley Act.

Tax Fees

The aggregate fees billed for professional service rendered by the principal accountant for tax compliance, tax advice and tax planning were nil for fiscal year 2002 and Rmb 778,000 (US\$94,000) for fiscal year 2003.

All other fees

The aggregate fees billed for products and services provided by our principal accountant, other than the services reported above, were nil for fiscal year 2002 and Rmb 420,000 (US\$50,000) for fiscal year 2003.

Audit Committee's pre-approval policies and procedures

The audit committee of our board of directors is responsible for the appointment, compensation and oversight of the work of our independent auditor. In 2003, our audit committee adopted a policy calling for the audit committee's pre-approval for the engagement of independent auditor for audit and permitted non-audit services. Our board of directors has also ratified the policy and procedures. Under this audit committee policy, proposed services may be pre-approved by the audit committee either on an annual basis or on a case-by-case basis. Appendices to the audit committee policy sets forth (1)

Edgar Filing: CNOOC LTD - Form 20-F

the audit, audit-related, tax and other services that may be subject to the general annual pre-approval of the audit committee; (2) non-audit services of a routine and recurring nature that may be subject to specific pre-approval from the audit committee on a case-by-case basis; and (3) a list of prohibited non-audit services. The audit committee will periodically review and revise these attached lists based on its subsequent determinations. The audit committee policy also provides for procedures to establish annual fee levels or budgets for pre-approved services and ratios between different categories of pre-approved services. In addition, the audit committee policy contains provisions that deal with compliance, monitoring, reporting and other related matters.

During 2003, 40.9% of the audit-related services, 4.5% of tax fees and 13.6% of all other fees paid to our principal accountant were approved by the audit committee. Our principal accountant audited our financial statements for 2003 solely through its full-time, permanent employees, without involvement of its part-time or temporary employees.

126

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

Not applicable.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

On May 17, 2004, our board of directors approved a management proposal that allowed us to repurchase shares in the open market based on the general mandate approved by shareholders on May 29, 2003. The authorization permits the purchase of up to 10% of the issued share capital on the Hong Kong Stock Exchange in conformity with relevant regulatory conditions. Shares purchased under the program will be canceled. We have made the following purchases:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	t
May 18, 2004	5,427,000	HK\$2.8615	5,427,000	
May 24, 2004	3,450,000	HK\$3.0875	8,877,000

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the shareholders of
CNOOC Limited
(Incorporated in Hong Kong with limited liability)

We have audited the accompanying consolidated balance sheets of CNOOC Limited (the "Company") and its subsidiaries (the "Group") as of December 31, 2003 and 2002, and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the two years in the period ended December 31, 2003. These financial statements are the responsibility of the management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. The financial statements of CNOOC Limited and its subsidiaries for the year ended December 31, 2001 were audited by other auditors who have ceased operations and whose report dated March 27, 2002 expressed an unqualified opinion on those statements before the restatement adjustments described in notes 3, 15, 28 and 37.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States) and auditing standards established by the Hong Kong Society of Accountants. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our

Edgar Filing: CNOOC LTD - Form 20-F

opinion.

As discussed above, the financial statements of the Group as of December 31, 2001 and for the year then ended were audited by other auditors who have ceased operations. As described in note 3, in 2004, the Company's Board of Directors approved a five-for-one stock split, and all references to number of shares and per share information in the financial statements have been adjusted to reflect the stock split on a retroactive basis. We audited the adjustments that were applied to restate the number of shares and per share information in the 2001 financial statements. Our procedures included (a) agreeing the authorisation for the five-for-one stock split to the Company's underlying records obtained from management, and (b) testing the mathematical accuracy of the restated number of shares, basic and diluted earnings per share. In our opinion, such adjustments are appropriate and have been properly applied. However, we were not engaged to audit, review, or apply any procedures to the 2001 financial statements of the Group other than with respect to such adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 2001 financial statements taken as a whole.

In addition, as described in note 37, the financial statements of the Group as of December 31, 2001 have been revised to include the transitional disclosures required by Statement of Financial Accounting Standards (Statement) No. 143, Accounting for Assets Retirement Obligations, which was adopted by the Company as of January 1 2003. Our audit procedures with respect to the disclosures in note 37 with respect to 2001 included (a) agreeing the previously reported amount of net income and the liability for asset retirement obligation to the previously issued financial statements and the adjustments to pro forma amounts of net income and the liability for asset retirement obligation as a result of initially applying Statement No. 143 to the Company's underlying records obtained from management, and (b) testing the mathematical accuracy of the reconciliation of the previously reported amount of net income and the liability for asset obligation to the pro forma amounts of net income and the liability for asset retirement obligation, and the related earnings per share amounts. In our opinion, the disclosures for 2001 in note 37 are appropriate. However, we were not engaged to audit, review, or apply any procedures to the 2001 financial statements of the Company other than with respect to such disclosures, and accordingly, we do not express an opinion or any other form of assurance on the 2001 financial statements taken as a whole.

In our opinion, the 2003 and 2002 consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2003 and 2002 and the

F-3

consolidated results of their operations and their cash flows for each of the two years in the period ended December 31, 2003, in conformity with accounting principles generally accepted in Hong Kong ("Hong Kong GAAP").

Accounting principles generally accepted in Hong Kong vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences is presented in note 37 to the consolidated financial statements.

Edgar Filing: CNOOC LTD - Form 20-F

F-4

The following is a copy of the report previously issued by Arthur Andersen & Co in connection with CNOOC Limited's Form 20-F Annual Report for fiscal year 2001 filed with the Securities and Exchange Commission

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Shareholders of CNOOC Limited
(incorporated in Hong Kong with limited liability)

We have audited the accompanying consolidated balance sheets of CNOOC Limited (established in the Hong Kong Special Administrative Region, the People's Republic of China) and its subsidiaries as of December 31, 2001 and 2000, and the related consolidated statements of income, recognised gains and losses and cash flows for the years ended December 31, 2001, 2000 and 1999. These financial statements are the responsibility of the management of CNOOC Limited. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards in the United States of America and auditing standards established by the Hong Kong Society of Accountants. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the accompanying consolidated financial statements referred to above present fairly, in all material respects, the financial positions of CNOOC Limited and its subsidiaries as of December 31, 2001 and 2000, and the results of their operations and cash flows for the years ended December 31, 2001, 2000 and 1999 in conformity with accounting principles generally accepted in Hong Kong ("Hong Kong GAAP").

Hong Kong GAAP does not conform to generally accepted accounting principles in the United States of America. A description of the significant differences between those two generally accepted accounting principles and the effect of those differences on net income and shareholders' equity is set forth in Note 39 to the consolidated financial statements.

CNOOC LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

1. CORPORATE INFORMATION

CNOOC Limited (the "Company") was incorporated in the Hong Kong Special Administrative Region ("Hong Kong"), the People's Republic of China (the "PRC") on August 20, 1999 to hold the interests in certain entities thereby creating a group comprising the Company and its subsidiaries. During the year, the Company and its subsidiaries (hereinafter collectively referred to as the "Group") were principally engaged in the exploration, development, production and

Edgar Filing: CNOOC LTD - Form 20-F

sale of crude oil, natural gas and other petroleum.

In the opinion of the directors, the ultimate holding company is China National Offshore Oil Corporation ("CNOOC"), a company established in the PRC.

Particulars of the principal subsidiaries are as follows:

Name -----	Place and date of incorporation/ registration and operations -----	Nominal value of issued ordinary share capital -----	Percentage of equity attributable to the Company -----

(All amounts expressed in Renminbi unless otherwise stated)

2. IMPACT OF NEW AND REVISED STATEMENTS OF STANDARD ACCOUNTING PRACTICE ("SSAPs")

The following new and revised SSAPs are effective for the first time for the current year's financial statements:

- o SSAP 12 (Revised): "Income taxes"
- o SSAP 35: "Accounting for government grants and disclosure of government assistance"

SSAP 12 (Revised) prescribes the basis for accounting for income taxes payable or recoverable, arising from the taxable profit or loss for the current period (current tax); and income taxes payable or recoverable in future periods, principally arising from taxable and deductible temporary differences and the carryforward of the unused tax losses (deferred tax).

The SSAP 12 (Revised) has had no significant impact for these financial statements on the amounts recorded for income taxes. However, the related note disclosures are now more extensive than previously required. These are detailed in note 13 to the financial statements and include a reconciliation between the accounting profit and the tax expense for the year.

SSAP 35 prescribes the accounting for government grants and other forms of government assistance.

The adoption of the SSAP 35 has had no significant impact for these financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation

These financial statements have been prepared in accordance with Hong Kong Statements of Standard Accounting Practice, accounting principles generally accepted in Hong Kong ("Hong Kong GAAP") and the requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention as modified by the revaluation of land and buildings and short term investments.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended December 31, 2003. The results of subsidiaries acquired or disposed of during the year are consolidated from or to their effective dates of acquisition or disposal, respectively. All significant intercompany transactions and balances within the Group are eliminated on consolidation.

Edgar Filing: CNOOC LTD - Form 20-F

Subsidiaries

A subsidiary is a company in which the Company, directly or indirectly, controls more than half of its voting power or issued share capital or controls the composition of its board of directors.

The results of subsidiaries are included in the Company's income statement to the extent of dividends received and receivable. The Company's interests in subsidiaries are stated at cost less any impairment losses.

F-13

CNOOC LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Associates

An associate is a company, not being a subsidiary or a jointly-controlled entity, in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence.

The Group's share of the post-acquisition results and reserves of the associate is included in the consolidated income statement and consolidated reserves, respectively. The Group's proportionate interests in the associates are stated in the consolidated balance sheet at the Group's share of net assets under the equity method of accounting, less any impairment losses. The results of the associate are included in the Company's income statement to the extent of dividend received and receivable.

Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

Impairment of assets

An assessment is made whenever events or changes in circumstances indicate that there is any indication of impairment of any assets, or when there is any indication that an impairment loss previously recognised for an asset in prior years may no longer exist or may have decreased. If any such indication exists, the asset's recoverable amount is estimated. An asset's recoverable amount is calculated as the higher of the asset's value in use or its net selling price.

Edgar Filing: CNOOC LTD - Form 20-F

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. An impairment loss is charged to the income statement in the period in which it arises, unless the asset is carried at a revalued amount, when the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset, however not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation), had no impairment loss been recognised for the asset in prior years.

A reversal of an impairment loss is credited to the income statement in the period in which it arises, unless the asset is carried at a revalued amount, when the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

Property, plant and equipment

Property, plant and equipment comprise oil and gas properties, land and buildings, and vehicles and office equipment.

F-14

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Property, plant and equipment (cont'd)

(i) Oil and gas properties

For oil and gas properties, the successful efforts method of accounting is adopted. The Group capitalises initial acquisition costs of oil and gas properties. Impairment of initial acquisition costs is recognised based on exploratory experience and management judgement. Upon discovery of commercial reserves, acquisition costs are transferred to proved properties. The costs of drilling and equipping successful exploratory wells, all development costs, including those renewals and betterments which extend the economic lives of the assets, and the borrowing costs arising from borrowings used to finance the development of oil and gas properties before they are substantially ready for production are capitalised. The costs of unsuccessful exploratory wells and all other exploration costs are expensed as incurred.

Exploratory wells are evaluated for economic viability within one year of completion. Exploratory wells that discover potentially economic reserves in areas where major capital expenditure will be required before production would begin and when the major capital expenditure depends upon successful

Edgar Filing: CNOOC LTD - Form 20-F

completion of further exploratory work remain capitalised and are reviewed periodically for impairment.

Productive oil and gas properties and other tangible and intangible costs of producing properties are amortised using the unit-of-production method on a property-by-property basis under which the ratio of produced oil and gas to the estimated remaining proved developed reserves is used to determine the depreciation, depletion and amortisation provision. Costs associated with significant development projects are not depleted until commercial production commences and the reserves related to those costs are excluded from the calculation of depletion.

Capitalised acquisition costs of proved properties are amortised by the unit-of-production method on a property-by-property basis computed based on the total estimated units of proved reserves.

The Group estimates future dismantlement costs for oil and gas properties with reference to the estimates provided from either internal or external engineers after taking into consideration the anticipated method of dismantlement required in accordance with current legislation and industry practices. The associated cost is capitalised and the liability is discounted and an accretion expense is recognised using the credit-adjusted risk-free interest rate in effect when the liability is initially recognised.

(ii) Land and buildings

Land and buildings represent the onshore buildings and the land use rights and are stated at valuation less accumulated depreciation and accumulated impairment losses. Professional valuations are performed periodically with the last valuation performed on December 31, 2000. In the intervening years, the directors review the carrying value of land and buildings and adjustment is made where in the directors' opinion there has been a material change in value. Any increase in land and building valuation is credited to the revaluation reserves; any decrease is first offset against an increase in earlier valuation in respect of the same property and is thereafter charged to the income statement. Depreciation is calculated on the straight-line basis at annual rate estimated to write off the valuation of each asset over its expected useful life, ranging from 30 to 50 years.

F-15

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Property, plant and equipment (cont'd)

(iii) Vehicles and office equipment

Vehicles and office equipment are stated at cost less

Edgar Filing: CNOOC LTD - Form 20-F

accumulated depreciation and impairment losses. The straight-line method is adopted to depreciate the cost less any estimated residual value of these assets over their expected useful lives. The Group estimates the useful lives of vehicles and office equipment to be five years.

The useful lives of assets and method of depreciation, depletion and amortisation are reviewed periodically.

The gain or loss on disposal or retirement of property, plant and equipment recognised in the income statement is the difference between the net sales proceeds and the carrying amount of the relevant asset. Any revaluation reserve relating to the fixed asset is transferred to retained earnings as a reserve movement.

Research and development costs

All research costs are charged to the income statement as incurred.

Development expenditure (other than relating to oil and gas properties discussed above) incurred on projects is capitalised and deferred only when the projects are clearly defined; the expenditure is separately identifiable and can be measured reliably; there is reasonable certainty that the projects are technically feasible and have commercial value. Development expenditure which does not meet these criteria is expensed when incurred. No development costs were capitalised during the year.

Trade and other receivables

Trade and other receivables are stated at their cost, after provision for doubtful accounts.

Short term investments

Short term investments are investments in debt and equity securities not intended to be held on a continuing basis and are stated at their fair values at the balance sheet date, on an individual investment basis. The gains or losses arising from changes in the fair value of a security are credited or charged to the income statement in the period in which they arise.

Inventories and supplies

Inventories consist primarily of oil and supplies consist mainly of items for repairs and maintenance of oil and gas properties. Inventories are stated at the lower of cost and net realisable value. Costs of inventories and supplies represent purchase or production cost of goods and are determined on a weighted average basis. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal. Supplies are capitalised to property, plant and equipment when used for renewals and betterments of oil and gas properties and have resulted in an increase in the future economic values of oil and gas properties or are recognised as expenses when used.

Edgar Filing: CNOOC LTD - Form 20-F

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Cash and cash equivalents

For the purpose of the consolidated cash flow statement, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are payable on demand and form an integral part of the Group's cash management. For the purpose of the balance sheet, cash and cash equivalents comprise cash on hand and at banks, and term deposits with maturities of three months or less which are not restricted to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the balance sheet date of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement.

Provisions for dismantlement are made based on the present value of the future costs expected to be incurred, on a property-by-property basis, in respect of the Group's expected dismantlement and abandonment costs at the end of the related oil exploration and recovery activities.

Income tax

Income tax comprises current and deferred tax. Income tax is recognised in the income statement or in equity if it relates to items that are recognised in same or a different period directly in equity.

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences:

- o except where the deferred tax liability arises from the initial recognition of an asset or liability and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- o in respect of taxable temporary differences associated with investments in subsidiaries and associates, except where the

Edgar Filing: CNOOC LTD - Form 20-F

timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carryforward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax assets and unused tax losses can be utilised:

- o except where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and

F-17

CNOOC LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Income tax (cont'd)

- o in respect of deductible temporary differences associated with investments in subsidiaries and associates, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Conversely, previously unrecognised deferred tax assets are recognised to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantially enacted at the balance sheet date.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (i) Oil and gas sales

Revenues represent the invoiced value of sales of oil and gas attributable to the interests of the Group, net of royalties

Edgar Filing: CNOOC LTD - Form 20-F

and government share of allocable share oil that are lifted and sold on behalf of the PRC government. Sales are recognised when the significant risks and rewards of ownership of oil and gas have been transferred to customers.

Oil and gas lifted and sold by the Group above or below the Group's participating interests in the production sharing contracts results in overlifts and underlifts. The Group records these transactions in accordance with the entitlement method under which overlifts are recorded as liabilities and underlifts are recorded as assets at year end oil prices. Settlement will be in kind when the liftings are equalised or in cash when production ceases.

The Group has entered into a gas sales contract with a customer which contains take-or-pay clauses. The clauses require the customer to take a specified minimum volume of gas each year. If the minimum volume of gas is not taken, the customer must pay for the deficiency gas, even though the gas is not taken. The customer can offset the deficiency payment against any future purchases in excess of the specified volume. The Group records any deficiency payments as deferred revenue which is included in other payables until any make-up gas is taken by the customer or the expiry of the contract.

(ii) Marketing revenues

Marketing revenues represent sales of oil purchased from the foreign partners under the production sharing contracts and revenues from the trading of oil through the Company's subsidiary in Singapore. The title, together with the risks and rewards of the ownership of such oil purchased from the foreign partners, is transferred to the Group from the foreign partners and other unrelated oil and gas companies before the Group sells such oil to its customers. The cost of the oil sold is included in crude oil and product purchases.

F-18

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Revenue recognition (cont'd)

(iii) Other income

Other income mainly represents project management fees charged to the foreign partners and handling fees charged to customers and is recognised when the services are rendered.

(iv) Interest income

Interest income from deposits placed with banks and other financial institutions is recognised on a time proportion basis taking into account the effective yield on the assets.

Edgar Filing: CNOOC LTD - Form 20-F

(v) Dividend income

Dividend income is recognised when the right to receive payment has been established.

Retirement and termination benefits

The Group provides defined contribution plans based on local laws and regulations for full-time employees in the PRC and other countries in which it operates. The plans provide for contributions ranging from 5% to 22.5% of employees' basic salaries. The Group's contributions to these defined contribution plans are charged to expense in the year to which they relate.

Share option schemes

The Company operates share option schemes for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. The financial impact of share options granted under the share option schemes is not recorded in the Company's or the Group's balance sheet until such time as the options are exercised, and no charge is recorded in the income statement or balance sheet for their cost. Upon the exercise of share options, the resulting shares issued are recorded by the Company as additional share capital at the nominal value of the shares, and the excess of the exercise price per share over the nominal value of the shares is recorded by the Company in the share premium account. Options which are cancelled prior to their exercise date, or which lapse, are deleted from the register of outstanding options.

Dividends

Final and final special dividends proposed by the directors are classified as a separate allocation of retained earnings within the capital and reserves section of the balance sheet, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Interim and interim special dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e. assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale.

Edgar Filing: CNOOC LTD - Form 20-F

CNOOC LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Borrowing costs (cont'd)

To the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation on that asset is determined as the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings.

To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation is determined by applying a capitalisation rate to the expenditures on that asset. The capitalisation rate is the weighted average of the borrowing costs applicable to the borrowings of the enterprise that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalised incurred during a period should not exceed the amount of borrowing cost incurred during that period.

Borrowing costs include interest charges and other costs incurred in connection with the borrowing of funds, including amortisation of discounts or premiums relating to borrowings, and amortisation of ancillary costs incurred in connection with arranging borrowings.

Foreign currencies

The books and records of the Company and its subsidiary in China are maintained in Renminbi ("RMB"). Foreign currency transactions are recorded at the applicable exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are translated at the applicable rates of exchange ruling at that date. Exchange differences are dealt with in the income statement.

On consolidation, the financial statements of overseas subsidiaries are translated into RMB using the net investment method. The income statements of overseas subsidiaries are translated into RMB at the weighted average exchange rates for the year, and their balance sheets are translated into RMB at the exchange rate ruling at the balance sheet date. The resulting translation differences are included in the cumulative translation reserve.

For the purpose of the consolidated cash flow statement, the cash flows of overseas subsidiaries are translated into RMB at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into RMB at the weighted average exchange rates for the year.

Repairs, maintenance and overhaul costs

Repairs, maintenances and overhaul costs are normally charged to the income statement as operating expenses in the period in which they are incurred.

Edgar Filing: CNOOC LTD - Form 20-F

Financial instruments

The Group has interest rate and currency swap contracts with financial institutions. Those financial instruments not designated as hedging instruments are carried at fair value, with any changes in fair value thereof included in the income statement.

F-20

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Operating leases

Leases of assets under which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease terms.

Contingencies

Contingent liabilities are not recognised in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognised in the financial statements, but are disclosed when an inflow of economic benefits is probable.

Subsequent events

Post-year-end events that provide additional information about the Company's position at the balance sheet date or those that indicate the going concern assumption is not appropriate (adjusting events) are reflected in the financial statements. Post-year-end events that are not adjusting events are disclosed in the notes when material.

Use of estimates

The preparation of financial statements in conformity with Hong Kong GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Stock Split

On March 17, 2004, the Company's shareholders approved a five-for-one share split of the Company's shares (the "Stock Split"). The Stock Split was effected by dividing each of the Company's issued and unissued shares of HK\$0.10 each into five shares of HK\$0.02 each, and to increase the board lot size for trading on the Stock Exchange of Hong Kong Limited from 500 shares of HK\$0.10 each to 1,000 subdivided shares of HK\$0.02 each. The ratio of the Company's ADR listed on the New York Stock Exchange also changed such that each ADR now represents 100 subdivided common shares of HK\$0.02 each, as opposed to 20 common shares of HK\$0.10

Edgar Filing: CNOOC LTD - Form 20-F

each prior to the Stock Split. All references in the consolidated financial statements referring to share, share option and per share amounts of the shares of the Company have been adjusted retroactively for the Stock Split.

F-21

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

4. ACQUISITIONS

- (i) During the year, the Company acquired from British Petroleum ("BP") an equivalent of 12.5% stake in the proposed joint venture known as the Tangguh LNG Project of Indonesia ("Tangguh LNG Project") for approximately US\$275 million through the acquisition of certain interests in production sharing contracts ("PSCs") which was effective as at January 1, 2003 (the "Tangguh Acquisition"). The Tangguh LNG Project comprises three PSC areas: the Berau PSC, the Muturi PSC and the Wiriagar PSC. The Tangguh LNG Project partners have signed a conditional 25-year Liquefied Natural Gas ("LNG") Supply Contract (the "LNG Supply Contract") to provide up to 2.6 million tons per annum of LNG to the Fujian LNG terminal project in the PRC, beginning in 2007. The Company completed the Tangguh Acquisition on February 8, 2003. CNOOC has an equity interest in the Fujian LNG terminal project.

In addition, a repurchase agreement (the "Repurchase Agreement") was entered into whereby put options and call options are granted to the Company and the sellers, respectively, to sell or to repurchase the interests in the above-mentioned PSCs. The options are exercisable if:

- (1) the LNG Supply Contract is terminated due to the non-satisfaction of the conditions precedent to the LNG Supply Contract on or before December 31, 2004; or
- (2) the LNG Supply Contract is otherwise legally ineffective on or before December 31, 2004.

The exercise prices of the options are determined based on the original consideration paid plus adjustments stipulated in the Repurchase Agreement.

The consideration paid of approximately US\$275 million (equivalent to approximately RMB2,276,578,000) and subsequent cash calls paid are included as a prepayment in property, plant and equipment as at December 31, 2003.

- (ii) In addition, the Company increased its interest in Qinhuangdao 32-6, a PSC oilfield in Bohai Bay, from 51% to 75.5% by acquiring the 24.5% interest of BP China Exploration and Production Company for a cash consideration of US\$150 million, plus working capital adjustments. The acquisition was completed in July 2003.
- (iii) The Company also acquired the remaining 49% interest in Liuhua

Edgar Filing: CNOOC LTD - Form 20-F

11-1, a PSC oilfield in Southern China, from BP China Exploration and Production Company and Kerr-McGee China Petroleum Limited, for a total cash consideration of US\$40 million, plus working capital adjustments. The acquisition was completed in July 2003.

- (iv) Pursuant to a conditional agreement dated August 27, 2001, the Group finalised the agreement to acquire a 30% interest in certain oil and gas fields in the Xihu Trough in the East China Sea of the PRC from CNOOC. The total consideration of US\$45 million was paid in 2001 and the transaction was completed in August 2003.
- (v) During the year, the Company invested RMB450 million in CNOOC Finance Corporation Limited ("CNOOC Finance"), a share treasury operation of its parent company, China National Offshore Oil Corporation and other affiliated group companies. The Company's investment represents 31.8% share of the registered capital of CNOOC Finance. The consideration was paid in full on December 31, 2003.

F-22

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

5. PRODUCTION SHARING CONTRACTS

PRC

For production sharing contracts in the PRC, the foreign parties to the contracts ("foreign partners") are normally required to bear all exploration costs during the exploration period and such exploration costs can be recovered according to the production sharing formula after commercial discoveries are made and production begins.

After the initial exploration stage, the development and operating costs are funded by the Group and the foreign partners according to their respective participating interest.

The Group has the option to take a participating interest as mutually agreed by both participants in a production sharing contract and may exercise such option after the foreign partners have independently undertaken all the exploration risks and costs and made viable commercial discoveries.

After the Group exercises its option to take a participating interest in a production sharing contract, the Group accounts for the oil and gas properties using the "proportional method" under which the Group recognises its share of development costs, revenues and expenses from such operations based on its participating interest in the production sharing contract. The Group does not account for either the exploration costs incurred by its foreign partners or the foreign partners' share of development costs and revenues and expenses from such operations.

Part of the Group's annual gross production of oil and gas in the PRC is distributed to the PRC government as settlement of royalties

Edgar Filing: CNOOC LTD - Form 20-F

which are payable pursuant to a sliding scale. The Group and the foreign partners also pay a production tax to the tax bureau at a pre-determined rate. In addition, there is a pre-agreed portion of oil and gas designated to recover all exploration costs, development costs, operating costs incurred and related interests according to the participating interests between the Group and the foreign partners. Any remaining oil after the foregoing priority allocations is first distributed to the PRC government as government share oil on a pre-determined ratio pursuant to a sliding scale, and then distributed to the Group and the foreign partners based on their respective participating interests. As the government share is not included in the Group's interest in the annual production, the net sales of the Group do not include the sales revenue of the government share oil.

The foreign partners have the right either to take possession of their allocable remainder oil for sale in the international market, or to negotiate with the Group to sell their allocable remainder oil to the Group for resale in the PRC market.

Overseas

The Group and the other partners to the production sharing contracts in Indonesia are required to bear all exploration, development and operating costs according to their respective participating interests. Exploration, development and operating costs which qualify for recovery can be recovered according to the production sharing formula after commercial discoveries are made and production begins.

The Group's net interest in the production sharing contracts in Indonesia consists of its participating interest in the properties covered under the relevant production sharing contracts, less oil and gas distributed to the Indonesian government and the domestic market obligation.

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

6. SEGMENT INFORMATION

The Group is organised on a worldwide basis into three major operating segments. Segment information is presented by way of two segment formats: (i) on a primary reporting basis, by business segment; and (ii) on a secondary segment reporting basis, by geographical segment.

Intersegment transactions: segment revenue, segment expenses and segment performance include transfers between business segments and between geographical segments. Such transfers are accounted for at cost. Those transfers are eliminated on consolidation.

(a) Business segments

The Group is involved in the upstream operating activities of the petroleum industry that comprise production sharing

Edgar Filing: CNOOC LTD - Form 20-F

contracts with foreign partners, independent operations and trading business. These segments are determined primarily because the senior management makes key operating decisions and assesses performance of the segments separately. The Group evaluates performance based on profit or loss from operations before income taxes.

6. SEGMENT INFORMATION (CONT'D)

(b) Geographical segments

In determining the Group's geographical segments, revenues and results are attributed to the segments based on the location of the Group's customers, and assets are attributed to the segments based on the location of the Group's assets.

The Group mainly engaged in the exploration, development and production of crude oil and natural gas in offshore China. Approximately 62% of the total revenue of the Group is contributed by PRC customers, and therefore, the Group's activities are conducted predominantly in the PRC. Any activities outside PRC are conducted in Indonesia and Singapore. An analysis by geographical segment is as follows:

	PRC			Outside PRC		
	2001	2002	2003	2001	2002	2003
	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000	RMB'000

12. FIVE HIGHEST PAID EMPLOYEES (CONT'D)

The number of highest paid employees whose remuneration fell within the following bands is as follows:

Edgar Filing: CNOOC LTD - Form 20-F

	Number of Employees	
	2001	2002
Nil to HK\$1,000,000	1	1
HK\$1,500,001- HK\$2,000,000	2	2
HK\$2,500,001- HK\$3,000,000	2	1
HK\$3,500,001- HK\$4,000,000	-	-
HK\$4,500,001- HK\$5,000,000	-	1
HK\$5,000,001- HK\$5,500,000	-	-
	-----	-----
	5	5
	=====	=====

No value in respect of the share options granted during the year (note 28) has been charged to the income statement, or is otherwise included in the above five highest paid employees disclosures.

13. TAX

(i) Income tax

The Company and its subsidiaries are subject to income taxes on an entity basis on profit arising in or derived from the tax jurisdictions in which they are domiciled and operated. The Company is not liable for profits tax in Hong Kong as it does not have any assessable income currently sourced from Hong Kong.

The Company's subsidiary, CNOOC China Limited, is a wholly foreign-owned enterprise established in the PRC. It is exempt from the 3% local surcharge and is subject to an enterprise income tax of 30% under the prevailing tax rules and regulations.

The Company's subsidiary in Singapore, China Offshore Oil (Singapore) International Pte Ltd., is subject to income tax at rates of 10% and 22%, for its oil trading activities and other income generating activities, respectively. The Company's subsidiaries owning interests in oil and gas properties in Indonesia along the Malacca Strait are subject to corporate and dividend tax at the rate of 44%. The Company's subsidiaries owning interests in oil and gas properties in Indonesia acquired from Repsol YPF, S.A. are subject to corporate and dividend tax at the rate of 43.125% instead of the standard rate of 48% after the application of the Malaysian Tax Treaty as recognised by the Indonesian tax authorities. All of the Company's other subsidiaries are not subject to any income taxes in their respective jurisdictions for the year presented.

F-29

Edgar Filing: CNOOC LTD - Form 20-F

13. TAX (CONT'D)

(i) Income tax (cont'd)

An analysis of the provision for tax in the consolidated income statement was as follows:

	2001	2002
	----- RMB'000	----- RMB'000
Overseas income taxes		
- Current	20,401	406,493
- Deferred	-	26,094
PRC enterprise income tax		
- Current	2,715,409	2,786,938
- Deferred	312,417	321,891
	-----	-----
Tax charge for the year	3,048,227	3,541,416
	=====	=====

A reconciliation of the statutory PRC enterprise income tax rate to the effective income tax rate of the Group is as follows:

	2001	2002
	-----	-----
	%	%
Statutory PRC enterprise income tax rate	33.0	33.0
Effect of tax exemption granted	(3.0)	(3.0)
Effect of different tax rates for overseas subsidiaries	(1.2)	0.2
Tax credit from government	-	(2.1)
Tax effect on other permanent differences	(1.1)	(0.4)
	-----	-----
Effective income tax rate	27.7	27.7
	-----	-----

The tax effect of significant temporary differences of the Group was as follows:

	2002
	----- RMB'000
Deferred tax assets	
- Provision for retirement and termination benefits	86,602
- Provision for dismantlement	671,796
- Provision for impairment of property, plant and equipment and write-off of unsuccessful	

Edgar Filing: CNOOC LTD - Form 20-F

exploratory drillings	933,636 ----- 1,692,034 -----
Deferred tax liabilities	
- Accelerated amortisation allowance for oil and gas properties	(7,833,190) -----
Net deferred tax liabilities	(6,141,156) =====

F-30

CNOOC LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS
(All amounts expressed in Renminbi unless otherwise stated)

13. TAX (CONT'D)

(i) Income tax (cont'd)

As at December 31, 2003, there was no significant unrecognised deferred tax liability (2002: Nil) for taxes that would be payable on the unremitted earnings of certain of the Group's subsidiaries and associates as the Group had no liability to additional tax should such amounts be remitted.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

SSAP 12 (Revised) was adopted during the year, as further explained in note 2 to the financial statements. There was no material impact on the Group's financial statements upon the adoption of the SSAP.

(ii) Other taxes

The Company's PRC subsidiary pays the following taxes:

- production taxes equal to 5% of independent production and production under production sharing contracts; and
- business tax of 3% to 5% on other income.

14. DIVIDENDS

Dividends per share are calculated after Stock Split.

The directors have recommended a final dividend of HK\$0.024 per ordinary share totalling HK\$985,699,879 (approximately equivalent to RMB1,050,460,000) and a special final dividend of HK\$0.036 per ordinary share totalling HK\$1,478,549,818 (approximately equivalent to RMB1,575,691,000) for the year ended December 31, 2003.

The payment of future dividends will be determined by the Company's

Edgar Filing: CNOOC LTD - Form 20-F

board of directors. The payment of dividends will depend upon, among other things, future earnings, capital requirements and financial conditions and general business conditions of the Company. The Company's ability to pay dividends will also depend on the cash flows determined by the dividends, if any, received by the Company from its subsidiaries and associated companies. As the controlling shareholder, CNOOC will be able to influence the Company's dividend policy.

Cash dividends to the shareholders in Hong Kong will be paid in Hong Kong dollars and dividends to the American Depositary Share ("ADS") holders will be paid to the depositary in Hong Kong dollars and will be converted by the depositary into United States dollars and paid to the holders of ADSs.

F-31

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

15. EARNINGS PER SHARE

The calculations of basic and diluted earnings per share after Stock Split are based on:

	2001	2002
	----- RMB'000	----- RMB'000
Earnings -----		
Net profit attributable to shareholders, used in the basic and diluted earnings per share calculations	7,957,631	9,232,8
Shares (after Stock Split) -----		Number of shares
	----- 2001	----- 2002
Weighted average number of ordinary shares in issue during the year used in basic earnings per share calculation	39,706,916,525	41,070,828,2
Weighted average number of ordinary shares assumed issued at no consideration on deemed exercise of all share options outstanding during the year	4,527,490	25,598,6
Weighted average number of ordinary shares used in diluted earnings per share calculation	----- 39,711,444,015 =====	----- 41,096,426,9 =====

Edgar Filing: CNOOC LTD - Form 20-F

Net income per ADS for the three years ended December 31, 2003 has been computed by dividing net income by the number of ADS outstanding. Each ADS represented 100 shares.

CNOOC LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

16. PROPERTY, PLANT AND EQUIPMENT, NET (CONT'D)

The consideration paid of US\$275 millions (equivalent to approximately RMB2,276,578,000) and subsequent cash paid of approximately US\$19,200,000 for the Tangguh LNG Project (see note 4(i)) has been included as a prepayment in oil and gas properties as at December 31, 2003.

Included in the current year additions represented an amount of RMB 245,783,000 (2002: RMB187,714,000) in respect of interest capitalised in property, plant and equipment.

The land and buildings of the Group are held outside Hong Kong with lease terms of 50 years.

The land and buildings were revalued by an independent valuer,

Edgar Filing: CNOOC LTD - Form 20-F

Sallmanns (Far East) Limited, Chartered Surveyors (the "Valuer") as at December 31, 2000 using a depreciated replacement cost approach. The depreciated replacement cost approach considers the cost to reproduce or replace in new condition the property being appraised in accordance with current construction costs for similar property in the locality with allowance for accrued depreciation as evidenced by observed condition or obsolescence present, whether arising from physical, functional or economic causes. The Valuer assumed that the assets would be used for the purposes for which they are presently used and did not consider alternative uses. Certain land use rights which were previously granted by the PRC government at no cost.

17. INVESTMENTS IN ASSOCIATES

Investments in associates represent (1) a 30% equity interest of CNOOC China Limited in Shanghai Petroleum and Natural Gas Company Limited ("SPC"). SPC was incorporated on September 7, 1992 in the PRC with limited liability and is principally engaged in offshore petroleum exploration, development, production and sale in the South Yellow Sea and East China Sea areas. The issued and paid-up capital of SPC is RMB900 million; and (2) a 31.8% equity interest of CNOOC China Limited in CNOOC Finance Corporation Limited ("CNOOC Finance"). CNOOC Finance was incorporated on May 13, 2002 in the PRC with limited liability and is principally engaged in deposit-takings and money lending activities for the CNOOC Group. The issued and paid-up capital of CNOOC Finance is RMB1,415 million.

	2002	2003
	----- RMB'000 -----	----- RMB' 000 -----
Share of net assets	537,377	1,117,640
	=====	=====

The directors are of the opinion that the underlying value of the investments in associates is not less than the carrying amount of the associates as at December 31, 2003 and 2002.

18. ACCOUNTS RECEIVABLE, NET

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The customers are required to make payment within 30 days after the delivery of oil and gas. As at December 31, 2003 and 2002, substantially all the accounts receivable were aged within six months.

Supplemental information with respect to long term bank loans:

For the year ended 31 December	Balance at year end RMB'000	Weighted average interest rate at year end	Maximum amount outstanding during the year RMB'000	Avera amou outstandi during t yea RMB'0
2003	910,193	8.69%	1,238,611	1,074,4
2002	1,238,611	7.19%	4,487,539	2,863,0

* The average amount outstanding is computed by dividing the total of outstanding principal balances as at 1 January and 31 December by two.

** The weighted average interest rate is computed by dividing the total of weighted average interest rates as at 1 January and 31 December by two.

24. LONG TERM GUARANTEED NOTES

On March 1, 2002, CNOOC Finance (2002) Limited, a company incorporated in the British Virgin Islands on January 24, 2002 and a wholly-owned subsidiary of the Company, issued US\$500 million of principal amount of 6.375% guaranteed notes due in 2012. The obligations of CNOOC Finance (2002) Limited in respect of the notes are unconditionally and irrevocably guaranteed by the Company.

On May 21, 2003, CNOOC Finance (2003) Limited, a company incorporated in the British Virgin Islands on April 2, 2003 and a wholly-owned subsidiary of the Company, issued US\$200 million of principal amount of 4.125% guaranteed notes due in 2013 and US\$300 million of principal amount of 5.500% guaranteed notes due in 2033. The obligations of CNOOC Finance (2003) Limited in respect of the notes are unconditionally and irrevocably guaranteed by the Company.

25. BALANCES WITH THE PARENT COMPANY

As at December 31, 2003 and 2002, the balances with CNOOC were unsecured, interest-free and were repayable on demand.

26. RELATED PARTY TRANSACTIONS

Edgar Filing: CNOOC LTD - Form 20-F

The Group has entered into several agreements with CNOOC and its affiliates, which govern the provision of materials, utilities and ancillary services, the provision of technical services, the provision of research and development services, the provision of bank guarantees and various other commercial arrangements.

F-38

CNOOC LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

26. RELATED PARTY TRANSACTIONS (CONT'D)

In addition to the transactions and balances detailed elsewhere in these financial statements, the Group had the following material transactions with related parties during the year:

	Notes	2001	2002
		RMB'000	RMB'000
Materials, utilities and ancillary services	(i)	814,913	789,167
Technical services	(ii)	2,366,961	3,279,596
Research and development services	(iii)	160,349	167,354
Lease and property management services	(iv)	45,524	54,421

Exploration expenses		619,505	593,059
Operating expenses		869,386	993,825
Selling and administrative expenses		173,844	190,449
Capitalised under property, plant and equipment		1,725,012	2,513,205

(i) Materials, utilities and ancillary services

CNOOC China Limited has entered into materials, utilities and ancillary services supply agreements with the affiliates of CNOOC. Under these agreements, the affiliates of CNOOC provide to CNOOC China Limited various materials, utilities and ancillary services.

The materials, utilities and ancillary services are provided at:

- state-prescribed prices; or
- where there is no state-prescribed price, at market prices, including the local or national market prices or the prices at which CNOOC's affiliates previously provided the relevant materials, utilities and ancillary services to independent third parties; or
- where neither of the prices mentioned above is applicable, at the cost to CNOOC's affiliates of providing the relevant materials, utilities and services, including the cost of sourcing or

Edgar Filing: CNOOC LTD - Form 20-F

purchasing from third parties, plus a margin of not more than 5% before any applicable taxes.

(ii) Technical services

CNOOC China Limited has entered into technical service agreements with certain affiliates of CNOOC. According to the agreements, the Group uses the technical services including:

- offshore drilling;
- ship tugging, oil tanker transportation and security services;
- well survey, well logging, well cementation and other related technical services;
- collection of geophysical data, ocean geological prospecting, and data processing;
- platform fabrication service and maintenance; and
- design, construction, installation and test of offshore and onshore production facilities.

F-39

CNOOC LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

26. RELATED PARTY TRANSACTIONS (CONT'D)

(iii) Research and development services

Under the terms of a general research and development services agreement with CNOOC's subsidiary, China Offshore Oil Research Centre (the "Centre"), the Group pays the Centre for a term of three years from December 31, 2002, with an annual amount of RMB110 million. In addition, the Group also pays the Centre for research and development for particular projects. The services include the following:

- geophysical exploration services;
- seismic data processing;
- comprehensive exploration research services; and
- information technology services.

(iv) Lease and property management services

The Group has entered into lease and property agreements with the affiliates of CNOOC for the leasing of various office, warehouse and residential premises. The lease charges are based on the prevailing market rates.

(v) Sales of crude oil, condensated oil and liquefied petroleum gas

The Group sells crude oil, condensate oil and liquefied petroleum gas to CNOOC's affiliates which engage in the downstream petroleum business at the international market price. For the year ended December 31, 2003, the total sales

Edgar Filing: CNOOC LTD - Form 20-F

amounted to approximately RMB8,324,108,000 (2002: RMB4,361,852,000).

During the year, the Group placed certain deposits with CNOOC Finance Corporation Limited ("CNOOC Finance"), a subsidiary of CNOOC. CNOOC Finance is a non-bank finance company supervised by the People's Bank of China (the "PBOC") and the Company is one of its customers. In the PRC, deposit rate is set by PBOC which is applicable to all financial institutions. The interest rates offered by CNOOC Finance were the same as the rates promulgated by the PBOC which were applicable to account deposits with PRC banks or finance companies and ranged from 1.44% to 1.89% per annum. The deposits placed with CNOOC Finance as at December 31, 2003 amounted to approximately RMB3,898,000. As explained in note 4 to the financial statements, the Company also acquired a 31.8% interests in CNOOC Finance as at December 31, 2003.

During the year, the Company, through its wholly-owned subsidiary, China Offshore Oil (Singapore) International Pte Ltd., imported oil into the PRC for trading, using CNOOC's import licence. For year ended December 31, 2003, the total sales to its customers through such arrangements amounted to approximately RMB1,470,832,000 (2002: Nil). The commission paid by the third party customers to CNOOC for the year amounted to approximately RMB 8,825,000 (2002: Nil).

(All amounts expressed in Renminbi unless otherwise stated)

27. PROVISION FOR DISMANTLEMENT

Provision for dismantlement represents the estimated costs of dismantling offshore oil platforms and abandoning oil and gas properties. The provision for dismantlement has been classified under long term liabilities. The associated cost is capitalised and the liability is discounted and an accretion expense is recognised during the credit-adjusted risk-free interest rate in effect when the liability is initially recognised. The current year income statement charge represents the amortisation charge on the dismantlement liabilities capitalised in accordance with SSAP 28 and is included in the accumulated depreciation, depletion and amortisation in note 16.

The details of the provision for dismantlement are as follows:

	2002
	----- RMB'000
At beginning of year:	1,909,041
Additional during the year and capitalised in oil and gas properties	252,383
Increase in discounted amount of provisions arising from the passage of time	77,896

End of year	2,239,320 =====

28. SHARE CAPITAL (CONT'D)

Share options scheme

The Company has adopted share option schemes which provide for the grant for options to the Company's senior management. Under these share option schemes, the remuneration committee of the Company's board of directors will from time to time propose for the board's approval for the recipient of and number of shares underlying each option. These schemes provide for issuance of options exercisable for shares granted under these schemes as described below not exceeding 10% of the total number of the Company's outstanding shares, excluding shares issued upon exercise of options granted under the schemes from time to time.

On February 4, 2001, the Company adopted a pre-global offering share option scheme (the "Pre-Global Offering Share Option Scheme"). Pursuant to the Pre-Global Offering Share Option Scheme:

1. options for an aggregate of 4,620,000 shares have been granted;
2. the subscription price per share is HK\$5.95; and
3. the period during which an option may be exercised as follows:
 - (a) 50% of the shares underlying the option shall vest 18 months after the date of the grant; and
 - (b) 50% of the shares underlying the option shall vest 30 months after the date of the grant.

The exercise period for options granted under the Pre-Global Offering Share Option Scheme shall end not later than 10 years from March 12, 2001.

On February 4, 2001, the Company adopted a share option scheme (the "2001 Share Option Scheme") for the purposes of recognising the contribution that certain individuals had made to the Company and attracting and retaining the best available personnel to the Company. Pursuant to the 2001 Share Option Scheme:

1. options for an aggregate of 8,820,000 shares have been granted;
2. the subscription price per share is HK\$6.16; and
3. the period during which an option may be exercised is follows:
 - (a) one-third of the shares underlying the option shall vest on the first anniversary of the date of the grant;
 - (b) one-third of the shares underlying the option shall vest on the second anniversary of the date of the grant; and
 - (c) one-third of the shares underlying the option shall vest on the third anniversary of the date of the grant.

Edgar Filing: CNOOC LTD - Form 20-F

The exercise period for options granted under the 2001 Share Option Scheme shall end not later than 10 years from August 27, 2001.

F-42

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

28. SHARE CAPITAL (CONT'D)

Share options scheme (cont'd)

In view of the amendments to the relevant provisions of the Listing Rules regarding the requirements of share option schemes of a Hong Kong listed company effective on September 1, 2001, no further options will be granted under the 2001 Share Option Scheme.

In June 2002, the Company adopted a new share option scheme (the "2002 Share Option Scheme").

Under the 2002 Share Option Scheme, the directors of the Company may, at their discretion, invite employees, including executive directors, of the Company or any of its subsidiaries, to take up options to subscribe for shares in the Company. The maximum aggregate number of shares (including those that could be subscribed for under the Pre-Global Offering Share Option Scheme and the 2001 Share Option Scheme) which may be granted shall not exceed 10% of the total issued share capital of the Company. The maximum number of shares which may be granted under the 2002 Share Option Scheme to any individual in any 12-month period up to the next grant of share options shall not exceed 1% of the total issued share capital of the Company from time to time.

According to the 2002 Share Option Scheme, the consideration payable by a participant for the grant of an option will be HK\$1.00. The subscription price of a share payable by a participant upon the exercise of an option will be determined by the directors at their discretion at the date of the grant, except that such price may not be set below a minimum price which is the highest of:

1. the nominal value of shares;
2. the average closing price of the shares on The Stock Exchange of Hong Kong Limited (the "HKSE") as stated in the HKSE's quotation sheets for the five trading days immediately preceding the date of the grant of the option; and
3. the closing price of the shares on the HKSE as stated in the HKSE's quotation sheet on the date of the grant of the option.

On February 24, 2003, the board of directors approved to grant options in respect of 8,410,000 shares to the Company's senior management under the 2002 Share Option Scheme. The exercise price for the options is HK\$10.54 per share. The market price was HK\$10.55 per share preceding the options granted. Options granted under the 2002 Share Option Scheme may be exercised, in whole or in part, in

Edgar Filing: CNOOC LTD - Form 20-F

accordance with the following vesting schedule;

1. one-third of the shares underlying the option shall vest on the first anniversary of the date of the grant;
2. one-third of the shares underlying the option shall vest on the second anniversary of the date of the grant; and
3. one-third of the shares underlying the option shall vest on the third anniversary of the date of the grant.

F-43

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

28. SHARE CAPITAL (CONT'D)

Share options scheme (cont'd)

The exercise period for options granted under the 2002 Share Option Scheme shall end not later than 10 years from the date on which the option is granted.

No options granted under the share option scheme and the pre-global offering share option scheme have been exercised since the date of the grant and up to the date when the board of directors approved the financial statements. The total number of options exercisable as of December 31, 2003 was 10,500,000.

29. RESERVES

According to the laws and regulations of the PRC and articles of association of CNOOC China Limited, CNOOC China Limited is required to provide for certain statutory funds, namely, the general reserve fund and staff and workers' bonus and welfare funds, which are appropriated from net profit and after making good losses from previous years, but before dividend distribution. CNOOC China Limited is required to allocate at least 10% of its net profit as reported in accordance with the generally accepted accounting principles in the PRC ("PRC GAAP") to the general reserve fund until the balance of such fund has reached 50% of its registered capital. Appropriation to staff and workers' bonus and welfare funds, which is determined at the discretion of CNOOC China Limited's directors, is expensed as incurred under Hong Kong GAAP. The general reserve fund can only be used, upon approval by the relevant authority, to offset against accumulated losses or increase capital. The staff and workers' bonus and welfare fund can only be used for special bonuses or collective welfare of employees, and assets acquired through this fund shall not be taken as assets of CNOOC China Limited.

As at December 31, 2003, the general reserve fund appropriated amounted to RMB3,050,489,000 (2002: RMB2,232,410,000), representing approximately 20.4% (2002: 22.3%) of the total registered capital of CNOOC China Limited.

Included in retained earnings is an amount of RMB577,640,000 (2002: RMB456,377,000), being the retained earnings attributable to an

Edgar Filing: CNOOC LTD - Form 20-F

associate.

The cumulative translation reserves and revaluation reserves are accounted for in accordance with the accounting policies adopted for foreign currency translation and the revaluation of land and buildings.

As at December 31, 2003, the distributable profits of the Company amounted to approximately RMB2,573,082,000 (2002: RMB2,945,280,000; 2001: RMB220,127,000).

30. RETIREMENT AND TERMINATION BENEFITS

All the Group's full-time employees in the PRC are covered by a government regulated pension, and are entitled to an annual pension equal to their basic salaries at their retirement dates. The PRC government is responsible for the pension liabilities to these retired employees. The Group is required to make annual contributions to the government-regulated pension at rates ranging from 12% to 22.5% of the employees' basic salaries.

The contribution made by the Group to the PRC government pension plan for the year ended December 31, 2003 amounted to approximately RMB15,513,000 (2002: RMB7,042,000, 2001: RMB6,392,000).

F-44

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

30. RETIREMENT AND TERMINATION BENEFITS (CONT'D)

The Company is required to make contributions to a defined contribution of a mandatory provident fund at a rate of 5% of the basic salaries for all full-time employees in Hong Kong. The related pension costs are expensed as incurred.

The Group provides retirement and termination benefits for all local employees in Indonesia in accordance with Indonesia labour law, and provides employee benefits to expatriate staff in accordance with the relevant employment contracts. The Group has adopted an accounting policy to record liabilities for the retirement and termination benefits. The provisions for retirement and termination benefits in Indonesia for the year ended 31 December 2003 amounted to approximately RMB79,634,000 (2002: RMB46,350,000, 2001: Nil).

(All amounts expressed in Renminbi unless otherwise stated)

31. NOTES TO THE CONSOLIDATED CASH FLOW STATEMENT (CONT'D)

(c) Acquisition of subsidiaries (cont'd)

On April 19, 2002, the Group acquired nine subsidiaries of Repsol-YPF, S.A. which held a portfolio of operated and non-operated interests in oil and gas production sharing and technical assistance contracts in contract areas located offshore and onshore Indonesia.

The subsidiaries acquired in 2002 contributed to RMB3,317 million to turnover and RMB464 million to the consolidated profit after tax for the year ended December 31, 2002.

In July 2003, the Group acquired a 24.5% interest in Qinhuangdao 32-6, a PSC oilfield in Bohai Bay and a 49% interest in Liuhua 11-1, a PSC oilfield in Southern China. Further details of these transactions are included in note 4 to the financial statements.

(d) Major non-cash transaction

The cash generated from operations in 2002 did not take into account of a transfer of prepayment of RMB372,479,000 recorded in 2001 to property, plant and equipment relating to acquisition of interests in certain oil and natural gas fields in the Xihu Trough in the East China Sea of the PRC from CNOOC for a total consideration of US\$45,000,000.

32. CONTINGENT LIABILITIES

As of December 2003 and 2002, there were no material contingent liabilities not provided for in the financial statements.

33. COMMITMENTS

(i) Capital commitments

As at December 31, 2003, the Group and the Company had the following capital commitments, principally for the construction and purchase of property, plant and equipment:

	2002
	----- RMB'000
Contracted for	1,715,173
Authorised, but not contracted for	9,060,722

As at December 31, 2003, the Group had unutilised banking facilities amounting to approximately RMB32,455,229,500 (2002: RMB31,646,389,000).

Edgar Filing: CNOOC LTD - Form 20-F

- (ii) General research and development services commitments

The remaining commitments for research and development services to be provided by the Centre (note 26(iii)) as at December 31, 2003 amounted to approximately RMB220,000,000 (2002: RMB450,000,000).

F-47

CNOOC LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

33. COMMITMENTS (CONT'D)

- (iii) Operating lease commitments

Operating lease commitments as at December 31, 2003 amounted to approximately RMB20,396,000 (2002: RMB50,645,000) and were as follows:

	2002	2003
	RMB'000	RMB'000
Commitments due:		
- Within one year	47,017	17,222
- After one year but within two years	2,131	3,174
- After two years but within three years	1,497	-
	50,645	20,396
	50,645	20,396

- (iv) Commitment to invest in Australia's project

On May 15, 2003, the Company entered into an Equity Sale and Purchase Agreement and a Gas Production and Processing Agreement (the "Agreements") with the existing North West Shelf partners to acquire an interest in the upstream production and reserves of Australia's North West Shelf Project (the "NWS Project"). Under the Agreement, the Company will acquire an interest of approximately 5.3% in the NWS Project and a 25% stake in the China LNG Joint Venture, a new joint venture to be established within the NWS Project. According to the Agreements, the Company has the right to acquire further interests in the NWS Project should the final quantity of LNG committed under the LNG supply agreement to the facilities in Guangdong Province be increased. The total consideration of the acquisition is US\$348 million, subject to certain conditions, including the LNG supply agreement to Guangdong becoming unconditional, being fulfilled. In addition, the Company will be required to make an upfront tariff payment relating to certain LNG processing facilities amounting to US\$180 million. CNOOC has an equity interest in the Guangdong Province LNG project.

Edgar Filing: CNOOC LTD - Form 20-F

On December 23, 2003, the Company signed a Deed of Amendment to the Equity Sale and Purchase Agreement and a Deed of Amendment to the Gas Production and Processing Agreements (the "Deed") and agreed to pay US\$483,577,000 representing a 90% deposit of the consideration and tariff payment, to the NWS Project participants by January 2, 2004. The payment was made by the Company on January 2, 2004 and such amount will be refunded to the Company if the acquisition is not completed by June 30, 2004.

(v) Commitment to invest in Gorgon Joint Venture

In October 2003, the Company entered into an agreement with the participants in Gorgon Joint Venture to place a significant volume of Gorgon LNG to supply the growing Chinese market. Subject to the completion of formal contracts, the Company will purchase a certain equity stake in the Gorgon gas development and its parent company, CNOOC, will arrange to purchase LNG directly from Gorgon.

F-48

CNOOC LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS
(All amounts expressed in Renminbi unless otherwise stated)

33. COMMITMENTS (CONT'D)

(vii) Financial instruments

(a) Currency swap contracts

As at December 31, 2003, the Group had a currency swap contract with a financial institution to sell United States dollars in exchange for Japanese Yen in order to hedge against future repayments of certain Japanese Yen denominated loans. The hedged Japanese Yen loans bore interest at a fixed rate of 4.5% per annum. The interest stipulated in the swap contract for the United States dollars was the floating LIBOR rate.

The details are as follows:

Year	2002		Notional contra amou (JPY'000)
	Notional contract amount (JPY'000)	Weighted average contractual exchange rate (JPY/US\$)	
2003	271,470	95.00	
2004	271,470	95.00	271,4
2005	271,470	95.00	271,4
2006	271,470	95.00	271,4

Edgar Filing: CNOOC LTD - Form 20-F

2007

271,470

95.00

271,4

(b) Interest rate swap contracts

During the year, the Group also entered into interest rate swap agreements with three financial institution to partially hedge the fixed-rate debt for interest rate risk exposure management purposes with notional contract amount of US\$200 million. The interest rate swap agreement utilised by the Company effectively modifies the Company's exposure to interest risk by converting the Company's fixed-rate debt to a floating rate. This agreement involves the receipt of fixed rate amounts in exchange for floating rate interest payments over the life of the agreement without an exchange of the underlying principal amount.

(c) Fair value of financial instruments

The carrying amounts of cash and cash equivalents, time deposits and short term investments approximated fair value due to the short maturity of these instruments.

The estimated fair value of long term bank loans based on current market interest rates was approximately RMB1,064,895,000 as at December 31, 2003 (2002: RMB1,388,720,000).

The estimated fair value of long term guaranteed notes based on current market interest rates was approximately RMB8,304,647,000 as at December 31, 2003 (2002: RMB4,482,378,000).

F-49

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

34. CONCENTRATION OF RISKS

(a) Credit risk

The carrying amount of cash and cash equivalents, time deposits, liquidity funds and bond investments, accounts receivable and other receivables, and due from related parties and other current assets except for prepayments represents our maximum exposure to credit risk in relation to financial assets.

The majority of our accounts receivable is related to sales of oil and natural gas to third party customers. We perform ongoing credit evaluations of our customers' financial condition and generally do not require collateral on accounts receivable. We maintain a provision for doubtful accounts and actual losses have been within management's expectation.

No other financial assets carry a significant exposure to credit risk.

Edgar Filing: CNOOC LTD - Form 20-F

(b) Interest rate risk

The directors of the Company believe that the exposure to interest rate risk of financial assets and liabilities as of December 31, 2003 was not significant. The interest rates and terms of repayment of our long term bank loans are disclosed in Note 23.

(c) Currency risk

Substantially all of the revenue-generating operations of the Group are transacted in US\$ for overseas sales and RMB for domestic sales. On January 1, 1994, the PRC government abolished the dual rate system and introduced single rate of exchange as quoted by the People's Bank of China. However, the unification of the exchange rate does not imply free convertibility of RMB into foreign currencies. As foreign exchange transactions continue to take place either through the People's Bank of China or other banks authorised to buy and sell foreign currencies at the exchange rates quoted by the People's Bank of China, approval of foreign currency payment by the People's Bank of China or other institution requires submitting a payment application form together with suppliers' invoices, shipping documents and signed contracts.

(d) Business risk

The major operations are conducted in the PRC and Indonesia and accordingly are subject to special considerations and significant risks not typically associated with investments in equity securities of the United States of America and Western European companies. These include risks associated with, among others, the oil and gas industry, the political, economic and legal environments, influence of the national authorities over price setting and competition in the industry.

A substantial portion of the oil and gas sales of the Group is made to a small number of customers on an open account basis. Details of the sales to these customers are as follows:

	2001	2002
	RMB'000	RMB'000
China Petroleum & Chemical Corporation	6,282,532	6,890,877
PetroChina Company Limited	1,320,587	1,187,571
Castle Peak Power Company Limited	1,205,649	1,247,639

F-50

CNOOC LIMITED AND ITS SUBSIDIARIES
NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

35. ADDITIONAL FINANCIAL INFORMATION

As at December 31, 2003, net current assets and total assets less current liabilities of the Group amounted to approximately

Edgar Filing: CNOOC LTD - Form 20-F

RMB19,956,331,000 and RMB64,197,772,000 (2002: RMB17,352,044,000 and RMB53,961,241,000), respectively.

As at December 31, 2003, net current assets and total assets less current liabilities of the Company amounted to approximately RMB7,649,024,000 and RMB24,211,265,000 (2002: RMB10,584,649,000 and RMB24,583,463,000), respectively.

36. SUBSEQUENT EVENTS

- (i) On January 27, 2004, the Company proposed for a 5-for-1 stock split where each share in the Company will be split into five new shares. The Company will submit to shareholders for approval a proposal to subdivide each of the existing issued and unissued shares of HK\$0.10 each in the capital of the Company into five shares of HK\$0.02 each, and to increase the board lot size for trading on the Stock Exchange of Hong Kong Limited from 500 shares at HK\$0.10 each to 1,000 subdivided shares of HK\$0.02 each in the coming extraordinary general meeting. It is also proposed that upon the share subdivision proposal becoming effective, the ratio of the Company's American Depository Receipts (ADR) listed on the New York Stock Exchange will also be changed such that the ADR, which currently represents 20 shares of HK\$0.10 each to 100 subdivided shares of HK\$0.02 each. The stock split has been approved on March 17, 2004.
- (ii) On February 2, 2004, one of the Company's subsidiary signed a sale and purchase agreement with the BG Group to acquire a 20.767% interest in the Muturi Production Sharing Contract ("Muturi PSC") for a consideration of US\$98.1 million pursuant to the exercise of its pre-emption rights. The purchase will increase the Company's interest in the "Muturi PSC" to 64.767%, and its interest in the Tangguh LNG Project will increase from 12.5% to 16.96%.
- (iii) On February 5, 2004, the board of directors approved a grant of options in respect of 10,140,000 shares to the Company's senior management under the 2002 Share Option Scheme. The exercise price for the options is HK\$15.76 per share. Options granted under the 2002 Share Option Scheme may be exercised, in whole or in part, in accordance with the following vesting schedule:
1. one-third of the shares underlying the option shall vest on the first anniversary of the date of the grant;
 2. one-third of the shares underlying the option shall vest on the second anniversary of the date of the grant; and
 3. one-third of the shares underlying the option shall vest on the third anniversary of the date of the grant.

The exercise period for options granted under the 2002 Share Option Scheme shall end not later than 10 years from the date on which the option is granted.

Edgar Filing: CNOOC LTD - Form 20-F

CNOOC LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP

The accounting policies adopted by the Group conform to Hong Kong GAAP, which differ in certain respects from generally accepted accounting principles in the United States of America ("US GAAP").

(a) Net profit and net equity

(i) Revaluation of land and buildings

The Group revalued certain land and buildings on August 31, 1999 and December 31, 2000 and the related revaluation surplus was recorded on the respective dates. Under Hong Kong GAAP, revaluation of property, plant and equipment is permitted and depreciation, depletion and amortisation are based on the revalued amount. Additional depreciation arising from the revaluation for the year ended December 31, 2003 was approximately RMB9,156,000 (2002: RMB9,156,000). Under US GAAP, property, plant and equipment are required to be stated at cost. Accordingly, no additional depreciation, depletion and amortisation from the revaluation is recognised under US GAAP.

(ii) Short term investments

According to Hong Kong GAAP, available-for-sale investments in marketable securities are measured at fair value and related unrealised holding gains and losses are included in the current period's earnings. According to US GAAP, such investments are also measured at fair value and classified in accordance with Statement of Financial Accounting Standards ("SFAS") No.115. Under US GAAP, related unrealised gains and losses on available-for-sale securities are excluded from the current period's earnings and included in other comprehensive income.

(iii) Impairment of long-lived assets

Under Hong Kong GAAP, impairment charges are recognised when a long-lived asset's carrying amount exceeds the higher of an asset's net selling price and value in use, which incorporates discounting the asset's estimated future cash flows.

Under US GAAP, long-lived assets are assessed for possible impairment in accordance with SFAS No.144, "Accounting for the impairment or disposal of long-lived assets". SFAS No. 144 requires the Group to (a) recognise an impairment loss only if the carrying amount of a long-lived asset is not recoverable from its undiscounted cash flows and (b) measure an impairment loss as the difference between the carrying amount and fair value of the

Edgar Filing: CNOOC LTD - Form 20-F

asset. SFAS No. 144 requires that a long-lived asset to be abandoned, exchanged for a similar productive asset, or distributed to owners in a spin-off be considered held and used until it is disposed of.

F-52

CNOOC LIMITED AND ITS SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP (CONT'D)

(a) Net profit and net equity (cont'd)

(iii) Impairment of long-lived assets (cont'd)

SFAS No. 144 also requires the Group to assess the need for an impairment of capitalised costs of proved oil and gas properties and the costs of wells and related equipment and facilities on a property-by-property basis. If an impairment is indicated based on undiscounted expected future cash flows, then an impairment is recognised to the extent that net capitalised costs exceed the estimated fair value of the property. Fair value of the property is estimated by the Group using the present value of future cash flows. The impairment was determined based on the difference between the carrying value of the assets and the present value of future cash flows. It is reasonably possible that a change in reserve or price estimates could occur in the near term and adversely impact management's estimate of future cash flows and consequently the carrying value of properties.

In addition, under Hong Kong GAAP, a subsequent increase in the recoverable amount of assets is reversed to the income statement to the extent that an impairment loss on the same asset was previously recognised as an expense when the circumstances and events that led to write-down or write-off cease to exist. The reversal is reduced by the amount that would have been recognised as depreciation had the write-off not occurred. Under US GAAP, an impairment loss establishes a new cost basis for the impaired asset and the new cost basis should not be adjusted subsequently other than for further impairment losses.

For the year ended December 31, 2003, there were no impairment losses recognised under Hong Kong GAAP and US GAAP.

(iv) Stock compensation schemes

As at December 31, 2003, the Company has three stock based employee compensation plans, which are

Edgar Filing: CNOOC LTD - Form 20-F

described more fully in Note 28. Prior to 2003, the Company accounted for those plans under the recognition and measurement provisions of APB Opinion No.25, "Accounting for Stock Issued to Employees", and related interpretations. Since certain of the options granted under those plans had an exercise price below the market value of the underlying common stock on the date of grant, stock-based employee compensation costs of RMB2,755,000 and RMB5,632,000 for the years ended December 31, 2001 and 2002, respectively, were reflected in previously reported results. During 2003, the Company adopted the fair value recognition provisions of FASB Statement No.123, "Accounting for Stock-Based Compensation", for stock-based employee compensation. All prior periods presented have been restated to reflect the compensation cost that would have been recognised had the recognition provisions of Statement 123 been applied to all awards granted to employees after January 1, 1995.

F-53

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP (CONT'D)

(a) Net profit and net equity (cont'd)

(iv) Stock compensation schemes (cont'd)

Weighted average fair value of the options at the grant dates for awards under the schemes was RMB3.40 per share which was estimated using the Black-Scholes model with the following assumptions: dividend yield of 2.0%, an expected life of five years; expected volatility of 44%; and risk-free interest rates of 5.25%. Weighted average exercise price of the stock options was HK\$7.80 per share.

(v) Provision for dismantlement

Hong Kong GAAP requires the provision for dismantlement to be recorded for a present obligation whether that obligation is legal or constructive. The associated cost is capitalised and the liability is discounted and accretion expense is recognised using the credit-adjusted risk-free interest rate in effect when the liability is initially recognised.

On August 15, 2001, SFAS No. 143 "Accounting for asset retirement obligation" was released and is effective for the fiscal years beginning after June 15, 2002. SFAS No. 143 requires that the fair value of a liability for an asset retirement obligation

Edgar Filing: CNOOC LTD - Form 20-F

be recognised in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalised as part of the carrying amount of the long-lived assets. Further, under SFAS No. 143, the liability is discounted and accretion expense is recognised using the credit-adjusted risk-free interest rate in effect when the liability is initially recognised.

The company adopted SFAS No. 143 on January 1, 2003, which resulted in an increase in net property, plant and equipment of RMB863,093,000, an increase in the provision for dismantlement of RMB240,077,000, and increase in retained earnings of RMB436,112,000 and an increase in deferred income tax liabilities of RMB186,904,000 to recognise the cumulative effect of retrospectively applying the new accounting standard.

F-54

CNOOC LIMITED AND ITS SUBSIDIARIES NOTES TO FINANCIAL STATEMENTS

(All amounts expressed in Renminbi unless otherwise stated)

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP (CONT'D)

- (a) Net profit and net equity (cont'd)
- (v) Provision for dismantlement (cont'd)

This adjustment is due to the difference in the method of accruing for dismantlement costs under SFAS No. 143 compared with the method required by SFAS No. 19 "Financial accounting and reporting by oil and gas producing companies", the accounting standard that the Company has been adopted since its establishment. Under SFAS No. 19, the dismantlement costs are accrued on a unit-of-production basis of accounting as the oil and gas is produced. The SFAS No. 19 method matches the accruals with the revenues generated from production and results in most of the costs being accrued early in field life, when production is at the highest level. Because SFAS No. 143 requires accretion of the liability as a result of the passage of time using an interest method of allocation, the majority of the costs will be accrued towards the end of field life, when production is at the lowest level. The cumulative income adjustment described above resulted from reversing the higher liability accumulated under SFAS No. 19 in order to adjust it to the lower present value amount resulting from transition to SFAS No. 143. This amount being reversed in transition, which was previously charged to the income statement under SFAS No. 19, will again be charged to the income statement under SFAS No. 143

Edgar Filing: CNOOC LTD - Form 20-F

in future years.

The pro forma asset retirement obligation liability balances as if Statement 143 had been adopted on January 1, 2001 (rather than January 1, 2003) are as follows:

	2002 RMB'000
Pro forma amounts of liability for asset retirement obligation at beginning of year	1,909,041
Pro forma amounts of liability for asset retirement obligation at end of year	2,239,320

A summary of the changes in the asset retirement obligation during the year is included in the table below:

Asset retirement obligation upon adoption of SFAS No., 143 on January 1, 2003	
Addition of dismantlement cost	
Accretion expenses	
Asset retirement obligation at December 31, 2003

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP (CONT'D)

(a) Net profit and net equity (cont'd)

The pro forma effects of the application of SFAS No.143 as if it had been adopted on January 1, 2002 (rather than January 1, 2003) are presented below:

	Pro forma December 31, 2001 RMB'000	Pro forma December 31, 2002 (Restated) RMB'000	
Net income	7,817,931	9,223,477	Dec

Edgar Filing: CNOOC LTD - Form 20-F

Earnings per share (after Stock Split)		
- Basic	RMB 0.20	RMB 0.22
- Diluted	RMB 0.20	RMB 0.22

(vi) Acquisition of CNOOC Finance

Under HK GAAP, the Company adopted the purchase method to account for the acquisition of 31.8% equity interest in CNOOC Finance in December 2003. Under the purchase method, the acquired results are included in the consolidated results of operations of the Company from the date of the acquisition.

As the Company and CNOOC Finance are under common control of CNOOC, under US GAAP, the acquisition is considered to be a transfer of businesses under common control and the acquired assets and liabilities are accounted at historical cost in a manner similar to the pooling of interests method. Accordingly, the consolidated financial statements for all periods presented have been retroactively restated as if the current structure and operations had been in existence since inception. The cash consideration paid by the Company is treated as an equity transaction in the year of the acquisition for US GAAP purpose.

There are no significant GAAP differences that affect classifications within the balance sheet or income statement but do not affect net income or shareholders' equity.

(b) Comprehensive income

According to SFAS No. 130, "Reporting Comprehensive Income", it is required to include a statement of other comprehensive income for revenues and expenses, gains and losses that under US GAAP are included in comprehensive income and excluded from net income.

	2001	2002
	RMB'000	RMB'000 (Restated)
Net income under US GAAP	7,920,236	9,085,522
Other comprehensive income:		
Foreign currency translation adjustments	702	(7,948)
Unrealised gains on short-term investments	43,796	36,965
Less: reclassification adjustment for realised gains included in net income	-	(26,940)

Edgar Filing: CNOOC LTD - Form 20-F

Comprehensive income under US GAAP	7,964,734	9,087,599

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP (CONT'D)

(b) Comprehensive income (cont'd)

Roll forward of accumulated other comprehensive income components are as follows:

	Foreign currency translation adjustments	Unrealised gains on short-term investment
	----- RMB'000	----- RMB'000
Balance at January 1, 2002	(5,648)	43,796
Current year change	(7,948)	10,025
	-----	-----
Balance at January 1, 2003	(13,596)	53,821
Reversal of current year realised gains	-	(27,088)
Current year change	36,243	21,503
	-----	-----
Balance at December 31, 2003	22,647	48,236
	=====	=====

The gross realised gains on sales of short-term investments totalled RMB27,088, RMB26,940,000 and Nil in 2003, 2002 and 2001, respectively. The cost of securities sold is determined on weighted-average costing method.

(c) Derivative instruments

The Group had a currency swap contract with a financial institution to sell United States dollars in exchange for Japanese Yen in order to hedge certain Japanese Yen denominated loan repayments in the future. The derivative contract was recorded as "Other payable and accrued liabilities" in the consolidated balance sheet at fair value. For the year ended December 31, 2003, the Group recognised related changes in fair value, a gain of RMB10,038,000 (2002: RMB14,485,000), and included the amount in "Exchange (loss)/gain, net" in the consolidated income statement.

Edgar Filing: CNOOC LTD - Form 20-F

During the year, the Group also entered into an interest rate swap agreements with a financial institution to partially hedge the fixed-rate debt for interest rate risk exposure management purposes with notional contract amount of US\$200 million. The interest rate swap agreements utilised by the Company effectively modifies the Company's exposure to interest risk by converting the Company's fixed-rate debt to a floating rate. These agreements involve the receipt of fixed rate amounts in exchange for floating rate interest payments over the life of the agreement without an exchange of the underlying principal amount. The Company has designated the interest rate swap agreements as a fair value hedge. The fair value of the swap contracts at December 31, 2003 totalled Rmb36,554,000. The net gain as of December 31, 2003 related to the ineffective portion of the interest rate swap agreements was approximately Rmb938,000 (2002: Nil) and was not included in the income statement as the impact was insignificant.

(All amounts expressed in Renminbi unless otherwise stated)

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP (CONT'D)

(d) Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The most significant estimates pertain to proved oil and gas reserve volumes and the future development, provision for dismantlement as well as estimates relating to certain oil and gas revenues and expenses. Actual amounts could differ from those estimates and assumptions.

(e) Segment reporting

The Group's segment information is based on the segmental operating results regularly reviewed by the Group's chief operating decision maker. The accounting policies used are the same as those used in the preparation of the Group's consolidated Hong Kong GAAP financial statements.

(f) Reporting investments in mineral interests in oil and gas properties

Statements of Financial Accounting Standards No. 141, "Business Combinations" and No. 142, "Goodwill and Other Intangible Assets", were issued by the Financial Accounting

Edgar Filing: CNOOC LTD - Form 20-F

Standards Board in June 2001 and became effective for the Group on July 1, 2001 and January 1, 2002, respectively. Currently, the Emerging Issues Task Force (EITF) is considering the issue of whether FAS 141 and 142 require interests held under oil, gas and mineral leases to be separately classified as intangible assets on the balance sheets of companies in the extractive industries. If such interests were deemed to be intangible assets by the EITF, mineral rights to extract oil and gas for both undeveloped and developed leaseholds would be classified separately from oil and gas properties as intangible assets on the corporation's balance sheet. Historically the Group has capitalized the acquisition cost of oil and gas properties interests in accordance with statement of Financial Accounting Standard No. 19, "Financial Accounting and Reporting by Oil and Gas Producing Companies". Also, consistent with industry practice, the Group has reported these assets as part of property, plant and equipment.

This interpretation of FAS 141 and 142 would only affect the classification of the acquisition costs of oil and gas properties on the Group's balance sheet, and would not affect total assets, net worth or cash flows. The Group's results of operations would not be affected, since these acquisition costs would continue to be amortized in accordance with FAS 19. The amount that is subject to reclassification as of December 31, 2003 was RMB4,025 million and as of December 31, 2002 was RMB8,646 million.

37. SIGNIFICANT DIFFERENCES BETWEEN HONG KONG GAAP AND US GAAP (CONT'D)

(g) Impact of recently issued accounting standards

In May 2003, the FASB issued SFAS 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity. This statement establishes standards for classifying and measuring as liabilities certain financial instruments that embody obligations of the issuer and have characteristics of both liabilities and equity. Instruments that are indexed to and potentially settled in an issuer's own shares that are not within the scope of SFAS 150 remain subject to existing guidance. SFAS 150 must be applied immediately to instruments entered into or modified after May 31, 2003 and to all other instruments that exist as of the beginning of the first interim financial reporting period beginning after June 15, 2003. Certain provisions of this statement relating to noncontrolling interests in limited-life subsidiaries were deferred indefinitely. The Company adopted SFAS 150 and there was no impact on the Company's results of operations or financial position upon the adoption of the new statement. We continue to monitor the deferral status of SFAS 150.

Edgar Filing: CNOOC LTD - Form 20-F

In January 2003, the FASB issued FIN 46. In December 2003, the FASB modified FIN 46 to make certain technical corrections and address certain implementation issues that had arisen. FIN 46 provides a new framework for identifying variable interest entities ("VIEs") and determining when a company should include the assets, liabilities, non-controlling interests and results of activities of a VIE in its consolidated financial statements. In general, a VIE is a corporation, partnership, limited liability corporation, trust, or any other legal structure used to conduct activities or hold assets that either (i) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (ii) has a group of equity owners that are unable to make significant decisions about its activities, or (iii) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations. FIN 46 requires a VIE to be consolidated if a party with an ownership, contractual or other financial interest in the VIE (a variable interest holder) is obligated to absorb a majority of the risk of loss from the VIE's activities, is entitled to receive a majority of the VIE's residual returns (if no party absorbs a majority of the VIE's losses), or both. A variable interest holder that consolidates the VIE is called the primary beneficiary. Upon consolidation, the primary beneficiary generally must initially record all of the VIE's assets, liabilities and non-controlling interests at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest. FIN 46 also requires disclosures about VIEs that the variable interest holder is not required to consolidate but in which it has a significant variable interest.

FIN 46 was effective immediately for VIEs created after January 31, 2003 with implementation required from January 1, 2004 as a cumulative effect of accounting change. For all other entities created after January 1, 2004, the implementation of FIN46 is required by June 30, 2004. The Company adopted the provisions of FIN46 and there was no impact on the Company's results of operations or financial position upon the adoption of the new statement.

F-61

CNOOC LIMITED AND ITS SUBSIDIARIES
SUPPLEMENTARY INFORMATION ON OIL AND GAS PRODUCING ACTIVITIES
(UNAUDITED)
(All amounts expressed in Renminbi unless otherwise stated)

The following disclosures are included in accordance with the United States Statements of Financial Accounting Standards No. 69, "Disclosures about Oil and Gas Producing Activities".

- (a) Reserve quantity information

Edgar Filing: CNOOC LTD - Form 20-F

Crude oil and natural gas reserve estimates are determined through analysis of geological and engineering data which appear, with reasonable certainty, to be recoverable at commercial rates in the future from known oil and natural gas reservoirs under existing economic and operating conditions.

Estimates of crude oil and natural gas reserve have been made by independent engineers. The Group's net proved reserves consist of its percentage interest in reserves, comprised of a 100% interest in its independent oil and gas properties and its participating interest in the properties covered under the production sharing contracts in PRC, less (a) an adjustment for the Group's share of royalties payable by the Group to the PRC government and the Group's participating interest in share oil payable to the PRC government under the production sharing contracts, and less (b) an adjustment for production allocable to foreign partners under the PRC production sharing contracts as reimbursement for exploration expenses attributable to the Group's participating interest, and its participating interest in the properties covered under the production sharing contracts in Indonesia less an adjustment of share oil attributable to Indonesian government and the domestic market obligation.

The proved developed and undeveloped reserves for Indonesia in 2001 were less than 1% to the total and no separate disclosure was made.

Proved developed and undeveloped reserves (net of royalties and PRC government share oil):

	PRC		Indonesia

(d)	Costs incurred	2001	2002			
		PRC	PRC	Indonesia	Total	PRC
		RMB'000	RMB'000	RMB'000	RMB'000	RMB'000
	Acquisition costs	-	-	4,735,826	4,735,826	1,579,726
	Exploration costs	996,121	1,519,683	32,405	1,552,088	1,225,926
	Development cost**	3,958,357	5,458,199	750,532	6,208,731	7,489,472
	Total costs incurred	4,954,478	6,977,882	5,518,763	12,496,645	10,295,124

* The amounts do not include prepayments and subsequent cash calls made for the Tangguh Project of RMB2,445,715,000.

** The development costs include estimated future dismantlement costs of dismantling offshore oil platforms and gas properties.

(e) Standardised measure of discounted future net cash flows and changes therein

In calculating the standardised measure of discounted future net cash flows, year-end constant price and cost assumptions were applied to the Group's estimated annual future production from proven reserves to determine future cash inflows. Year end average realised oil prices used in the estimation of proved reserves and calculation of the standardised measure were US\$30 as at December 31, 2003 (2002: US\$28; 2001: US\$17). Future development costs are estimated based upon constant price assumptions and assume the continuation of existing economic, operating and regulatory conditions. Future income taxes are calculated by applying the year-end statutory rate to

Edgar Filing: CNOOC LTD - Form 20-F

estimate future pre-tax cash flows after provision for the tax cost of the oil and natural gas properties based upon existing laws and regulations. The discount was computed by application of a 10% discount factor to the estimated future net cash flows.

Management believes that this information does not represent the fair market value of the oil and natural gas reserves or the present value of estimated cash flows since no economic value is attributed to potential reserves, the use of a 10% discount rate is arbitrary, and prices change constantly from year-end levels.

Present value of estimated future net cash flows:

	Notes	2001	2002			
		PRC	PRC	Indonesia	Total	
		RMB'000	RMB'000	RMB'000	RMB'000	
Future cash inflows	(1)	261,339,180	389,025,791	37,242,644	426,268,435	422,

EXHIBIT 1.1

THE COMPANIES ORDINANCE (CHAPTER 32)

Company Limited by Shares

Edgar Filing: CNOOC LTD - Form 20-F

NEW ARTICLES OF ASSOCIATION

OF

CNOOC LIMITED
[CHINESE CHARACTERS OMITTED]

PRELIMINARY

1. The regulations in Table A in the First Schedule to the Ordinance shall not apply to the Company.

INTERPRETATION

2. (a) In these Articles save where the context otherwise requires:

Associate shall have the meaning ascribed to it under the Listing Rules as amended from time to time;

Auditors means the Auditors of the Company for the time being;

Chairman means the Chairman presiding at any meeting of members or the Board;

Company means the above-named Company;

Ordinance means the Companies Ordinance (Chapter 32 of the Laws of Hong Kong), and includes every other ordinance incorporated therewith or substituted therefor, and in the case of any such substitution the references in these Articles to the provisions of the Ordinance shall be read as references to the provisions substituted therefor in the new ordinance;

Board and Directors means the directors for the time being of the Company or the Directors present at a duly convened meeting of directors at which a quorum is present;

call includes any instalment of a call and, in the application of provisions of these Articles to forfeiture of shares, a sum which, by the terms of issue of a share, is payable at a fixed time either in respect of the nominal value of the share or by way of premium;

capital means the share capital from time to time of the Company;

Clearing House shall mean a recognised clearing house within the meaning of Part 1 of Schedule 1 to the Securities and Futures Ordinance (Chapter 571) as amended from time to time;

Dividend includes distributions in specie or in kind, capital distributions and capitalisation issues;

Ex-6

Dollars and \$ means dollars in the lawful currency of Hong Kong;

Edgar Filing: CNOOC LTD - Form 20-F

Hong Kong means the Hong Kong Special Administrative Region of the People's Republic of China;

Listing Rules means the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited as amended from time to time;

month means calendar month;

Office means the registered office of the Company for the time being;

paid up includes credited as paid up;

Register means the register of members of the Company kept pursuant to the Ordinance and includes any branch register kept pursuant to the Ordinance;

Seal means the common seal of the Company or any official seal that the Company may have as permitted by the Ordinance;

Secretary means the person or persons appointed for the time being to perform for the Company the duties of a secretary;

share means a share in the capital of the Company and includes stock except where a distinction between stock and shares is expressed or implied;

Stock Exchange means The Stock Exchange of Hong Kong Limited;

Subsidiary and holding company shall have the meanings ascribed to them under the Listing Rules;

these Articles means these Articles of Association in their present form or as altered from time to time;

in writing and written includes facsimile and telex messages and any mode of reproducing words in a legible and non-transitory form.

- (b) In these Articles, if not inconsistent with the subject or context, words importing the singular number only shall include the plural number and vice versa, words importing any gender shall include all other genders and references to persons shall include corporations (acting, where applicable, by their duly authorised representatives).
- (c) Subject as aforesaid, any words defined in the Ordinance shall, if not inconsistent with the subject or context, bear the same meaning in these Articles.
- (d) The headings and any marginal notes are inserted for convenience only and shall not affect the construction of these Articles.

THE OFFICE

- 3. The Office shall be at such place in Hong Kong as the Directors shall from time to time appoint.

Edgar Filing: CNOOC LTD - Form 20-F

SHARES

4. Shares may be issued with a preferential or qualified right to dividends and in the distribution of assets of the Company and with a special, or without any, right of voting.
5. Without prejudice to any special rights, privileges or restrictions for the time being attached to any issued shares, any unissued or forfeited shares may be issued or re-issued upon such terms and conditions, and with such rights, privileges and restrictions attached thereto, whether in regard to dividends, voting, repayment or redemption of share capital, or otherwise, as the Company may, subject to the Ordinance, from time to time determine or, in the absence of any such determination, as the Directors shall determine.
6. The Board may, subject to the approval by the members in general meeting, issue warrants to subscribe for any class of shares or securities of the Company on such terms as the Board may from time to time determine. Where warrants are issued to bearer, no certificate thereof shall be issued to replace one that has been lost unless the Board is satisfied beyond reasonable doubt that the original certificate thereof has been destroyed and the Company has received an indemnity in such form as the Board shall think fit with regard to the issue of any such replacement certificate.
7. Save as provided by contract or the Ordinance or these Articles to the contrary, all unissued shares shall be at the disposal of the Directors who may allot, grant options over or otherwise deal with or dispose of the same to such persons, at such times, for such consideration and generally upon such terms and conditions as they shall in their absolute discretion think fit, provided that no shares of any class shall be issued at a discount except in accordance with section 50 of the Ordinance.
8. The Company may make arrangements on the issue of shares for a difference between the holders of such shares in the amount of calls to be paid and the time of payment of such calls.
9. If by the conditions of allotment of any shares the whole or part of the issue price thereof shall be payable by instalments, every such instalment shall, when due, be paid to the Company by the person who for the time being and from time to time shall be the registered holder of the shares, or his legal personal representative.
10. Subject to the provisions of section 49 of the Ordinance, any preference share may, with the sanction of a special resolution, be issued on the terms that it is, or at the option of the Company is liable, to be redeemed.
11. Subject to the provisions of these Articles, except as required by law or ordered by a court of competent jurisdiction, no person shall be recognised by the Company as holding any share upon any trust, and except as aforesaid, the Company shall not be bound by or required in any way to recognise any contingent, future, partial or equitable interest in any share or in any fractional part of a share or any other right in respect of any share or any other claim to or in respect of any such share on the part of any person (even when having notice thereof) except an absolute right to the entirety thereof in the registered holder.

Edgar Filing: CNOOC LTD - Form 20-F

12. The Company may in connection with the issue of any shares exercise all powers of paying interest out of capital and of paying commission and brokerage conferred or permitted by the Ordinance.
13. No person shall become a member until his name shall have been entered into the Register.

Ex-8

JOINT HOLDERS OF SHARES

14. Where two or more persons are registered as the holders of any share they shall be deemed to hold the same as joint tenants with the benefit of survivorship, subject to the following provisions:
 - (a) the Company shall not be bound to register more than four persons as the holders of any shares except in the case of the legal personal representatives of a deceased member;
 - (b) the joint holders of any shares shall be liable severally as well as jointly in respect of all payments which ought to be made in respect of such shares;
 - (c) on the death of any one of such joint holders the survivor or survivors shall be the only person or persons recognised by the Company as having any title to such shares, but the Directors may require such evidence of death as they may deem fit;
 - (d) any one of such joint holders may give effectual receipts for any dividend, bonus or return of capital payable to such joint holders; and
 - (e) the Company shall be at liberty to treat the person whose name stands first in the Register as one of the joint holders of any shares as solely entitled to delivery of the certificate relating to such shares, or to receive notices from the Company, or to attend or vote at general meetings of the Company, and any notice given to such person shall be deemed notice to all the joint holders; but any one of such joint holders may be appointed the proxy of the persons entitled to vote on behalf of such joint holders, and as such proxy to attend and vote at general meetings of the Company, but if more than one of such joint holders be present at any meeting personally or by proxy that one so present whose name stands first in the Register in respect of such shares shall alone be entitled to vote in respect thereof.

SHARE CERTIFICATES

15. Every person whose name is entered as a member in the Register shall be entitled without payment to receive within two months after allotment or lodgment of an instrument of transfer duly stamped, or within such other period as the conditions of issue shall provide, one certificate for all his shares of any particular class, or if he shall so request, upon payment of a fee (not exceeding HK\$2.50 or such greater sum as the Stock Exchange may from time to time permit) for every certificate after the first, as the Directors shall from time to time determine, such number of certificates for shares in Stock Exchange board lots or multiples thereof as he shall request

Edgar Filing: CNOOC LTD - Form 20-F

and one for the balance (if any) of the shares in question, provided that in the event of a member transferring part of the shares represented by a certificate in his name a new certificate in respect of the balance thereof shall be issued in his name without payment and, in the case of a share or shares held jointly by several persons the Company shall not be bound to issue a certificate or certificates to each such person, and the issue and delivery of a certificate or certificates to one of several joint holders shall be sufficient delivery to all such holders. In any event, the Company shall, within 10 business days (being any day on which a recognised stock market is open for the business of dealing in securities) after the date on which a transfer of any of its shares, debentures or debenture stock is lodged with the Company, complete and have ready for delivery the certificates of all shares, the debentures and the certificates of all debenture stock so transferred, unless the conditions of issue of the shares, debentures or debenture stock otherwise provide.

16. Every share certificate shall be issued under the Seal (which for this purpose may be any official seal as permitted by section 73A of the Ordinance) and shall specify the number and

Ex-9

class of shares and, if required, the distinctive numbers thereof, to which the certificate relates, and the amount paid up thereon and may otherwise be in such form as the Board may from time to time determine. If at any time the share capital of the Company is divided into different classes of shares, every share certificate issued at that time shall comply with section 57A of the Ordinance, and no certificate shall be issued in respect of more than one class of shares.

17. Subject to section 71A of the Ordinance, if any share certificate shall be worn out, defaced, destroyed or lost, it may be replaced on payment of such fee, if any (not exceeding HK\$2.50 or such greater sum as the Stock Exchange may from time to time permit), on such evidence being produced as the Directors shall require, and in case of wearing out or defacement, on delivery up of the old certificate, and in case of destruction or loss, on the execution of such indemnity (if any), as the Directors may require. In case of destruction or loss, the person to whom such replacement certificate is given shall also bear and pay to the Company all expenses incidental to the investigation by the Company of the evidence of such destruction or loss and of the production of such indemnity.

CALLS ON SHARES

18.
 - (a) The Directors may from time to time make calls upon the members in respect of all moneys unpaid on their shares whether on account of the nominal value of the shares or by way of premium but subject always to the terms of issue of such shares, and any such call may be made payable by instalments.
 - (b) Each member shall, subject to receiving at least fourteen days' notice specifying the time or times and place of payment, pay to the Company the amount called on his shares and at the time or times and place so specified. The non-receipt of a notice of any call by, or the accidental omission to give notice of a call to, any of the members shall not invalidate the call.

Edgar Filing: CNOOC LTD - Form 20-F

19. A call shall be deemed to have been made at the time when the resolution of the Directors authorising such call was passed. A call may be revoked, varied or postponed as to all or any of the members liable therefor as the Directors may determine. A person on whom a call is made will remain liable for calls made upon him notwithstanding the subsequent transfer of the shares in respect whereof the call was made.
20. If any part of a call is not paid before or on the day appointed for payment thereof, the person from whom the payment is due shall be liable to pay all costs, charges and expenses that the Company may have incurred by reason of such non-payment together with interest on the outstanding part thereof at such rate as the Directors shall determine (not exceeding twenty per cent. per annum) from the day appointed for the payment of such call or instalment to the time of discharge thereof in full; but the Directors may, if they shall think fit, waive the payment of such costs, charges, expenses or interest or any part thereof.
21. If, by the terms of the issue of any shares or otherwise, any amount is made payable upon allotment or at any fixed time, whether on account of the nominal amount of the shares or by way of premium, every such amount shall be payable as if it were a call duly made and payable on the date on which by the terms of issue the same becomes payable; and all the provisions hereof with respect to the payment of calls and interest thereon, or to the forfeiture of shares for non-payment of calls, shall apply to every such amount and the shares in respect of which it is payable in the case of non-payment thereof.
22. The Directors may, if they shall think fit, receive from any member willing to advance the same (either in money or money's worth) all or any part of the moneys uncalled and unpaid or instalments payable upon any shares held by him; and upon all or any of the moneys so paid

Ex-10

in advance the Directors may (until the same would, but for such payment in advance, become presently payable) pay interest at such rate as may be agreed upon between the member paying the moneys in advance and the Directors (not exceeding twenty per cent. per annum). But a payment in advance of a call shall not entitle the member to receive any dividend or to exercise any other rights or privileges as a member in respect of the share or the due portion of the shares upon which payment has been advanced by such member before it is called. The Directors may also at any time repay the amount so advanced upon giving to such member one month's notice in writing unless before the expiration of such notice the amount so advanced shall have been called up on the shares in respect of which it was advanced.

23. On the trial or hearing of any action for the recovery of any money due for any call, it shall be sufficient to prove that the name of the member sued is entered in the Register as the holder, or one of the holders, of the shares in respect of which such money is due; that the resolution making the call is duly recorded in the minute book of the Company; and that notice of such call was duly given to the member sued in pursuance of these Articles, and it shall not be

Edgar Filing: CNOOC LTD - Form 20-F

necessary to prove the appointment of the Directors who made such call, nor any other matter whatsoever, but the proof of the matters aforesaid shall be conclusive evidence that the money is due.

24. No member shall, unless the Directors otherwise determine, be entitled to receive any dividend or bonus, or to receive notice of or to be present or vote at any general meeting, either personally or (save as proxy for another member) by proxy, or to exercise any privileges as a member, or be reckoned in a quorum, until he shall have paid all calls or other sums for the time being due and payable on every share held by him, whether alone or jointly with any other person, together with interest and expenses (if any).

FORFEITURE

25. If any member fails to pay in full any call or any instalment of a call on the day appointed for payment thereof, the Directors may at any time thereafter, during such time as any part of the call remains unpaid without prejudice to the provisions of Article 24, serve a notice on him requiring him to pay so much of the call as is unpaid together with interest accrued and any expenses incurred by reason of such non-payment.
26. The notice shall name a further day (not being less than fourteen days from the date of the notice) on or before which such call or part thereof and all interest accrued and expenses incurred by reason of such non-payment are to be paid, and it shall also name the place where payment is to be made, such place being either the Office, or some other place at which calls of the Company are usually made payable. The notice shall also state that, in the event of non-payment at or before the time and at the place appointed, the shares in respect of which such call is payable will be liable to forfeiture.
27. If the requirements with regard to payment of any such notice as aforesaid are not complied with, any shares in respect of which such notice has been given may, at any time thereafter and before the payment required by the notice has been made, be forfeited by a resolution of the Directors to that effect, and any such forfeiture shall extend to all dividends and bonuses declared in respect of the shares so forfeited but not payable until after such forfeiture. The Directors may accept surrender of any shares liable to be forfeited hereunder and in such cases references in the Articles to forfeiture shall include surrender.
28. Any shares so forfeited shall be deemed for the purposes of this Article to be the property of the Company and may be sold, re-allotted or otherwise disposed of either subject to or discharged from all calls made prior to the forfeiture, to any person, upon such terms as to subscription price and otherwise and in such manner and at such time or times as the

Ex-11

Directors think fit. For the purpose of giving effect to any such sale or other disposition the Directors may authorise the transfer of the shares so sold or otherwise disposed of to the purchaser thereof or any other person becoming entitled thereto. The Directors shall account to the person whose shares have been forfeited with the

Edgar Filing: CNOOC LTD - Form 20-F

balance (if any) of monies received by the Company in respect of those shares after deduction of expenses of forfeiture, sale or disposal of the shares and any amount due to the Company in respect of the shares.

29. The Directors may, at any time before any shares so forfeited shall have been sold, re-allotted or otherwise disposed of, annul the forfeiture thereof upon such conditions as they think fit or permit the share forfeited to be redeemed upon the terms of payment of all calls and interest due thereon and all expenses incurred in respect of the share, and upon such further terms (if any) they think fit.
30. Any person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares but shall notwithstanding the forfeiture be and remain liable to pay to the Company all moneys which, at the date of forfeiture, were payable by him to the Company in respect of the shares, together with interest thereon from the date of forfeiture until payment at such rate as the Directors may prescribe (not exceeding twenty per cent. per annum), and the Directors may enforce the payment of such moneys or any part thereof and without any deduction or allowance for the value of the shares at the date of forfeiture, but his liability shall cease if and when the Company shall have received payment in full of all such moneys in respect of the shares. For the purposes of this Article any sum which, by the terms of issue of a share payable thereon at a fixed time which is subsequent to the date of forfeiture, whether on account of the nominal value of the share or by way of premium, shall notwithstanding that that time has not yet arrived be deemed to be payable at the date of forfeiture, and the same shall become due and payable immediately upon the forfeiture, but interest thereon shall only be payable in respect of any period between the said fixed time and the date of actual payment.
31. When any shares have been forfeited, notice of the resolution shall be given to the member in whose name it stood immediately prior to the forfeiture and an entry shall be made in the Register recording the forfeiture and the date thereof but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice or make any such entry, and so soon as the shares so forfeited have been sold or otherwise disposed of an entry shall also be made of the manner and date of the sale or disposal thereof.

LIEN

32. The Company shall have a first and paramount lien on every share (not being a fully paid-up share) for all moneys outstanding in respect of such share whether presently payable or not, and the Company shall also have a first and paramount lien on every share (other than fully paid-up shares) standing registered in the name of a member, whether singly or jointly with any other person or persons, for all the debts and liabilities of such member or his estate to the Company, whether the same shall have been incurred before or after notice has been given to the Company of any interest of any person other than such member, and whether the time for the payment or discharge of the same shall have already arrived or not, and notwithstanding that the same are joint debts or liabilities of such member or his estate and any other person, whether a member or not. The Company's lien on a share shall extend to all dividends payable thereon. The Directors may at any time either generally or in any particular case waive any lien that has arisen, or declare any share to be wholly or in part exempt from the provisions of this Article.

Edgar Filing: CNOOC LTD - Form 20-F

33. The Company may sell in such manner as the Directors think fit any share on which the Company has a lien, but no sale shall be made unless some sum in respect of which the lien exists is presently payable or the liability or engagement in respect of such lien exists is liable

Ex-12

to be presently fulfilled or discharged, nor until the expiration of fourteen days after a notice in writing stating and demanding payment of the sum presently payable and giving notice of intention to sell in default shall have been given to the holder for the time being of the share or the person entitled thereto by reason of his death, bankruptcy or winding-up or otherwise by operation of law or court order.

34. The net proceeds of such sale after payment of the costs of such sale shall be applied in or towards payment or satisfaction of the debts or liabilities in respect whereof the lien exists so far as the same are presently payable and any residue shall (subject to a like lien for debts or liabilities not presently payable as existed upon the shares prior to the sale) be paid to the person entitled to the shares at the time of the sale. For giving effect to any such sale the Directors may authorise some person to transfer the shares so sold to the purchaser thereof and may enter the purchaser's name in the Register as holder of the shares, and the purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.
35. A statutory declaration in writing that the declarant is a Director or the Secretary of the Company and that a share has been duly forfeited or surrendered or sold on a date stated in the declaration shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share. Such declaration and the receipt of the Company for the consideration (if any) given for the share on the sale, re-allocation or disposal thereof together with the share certificate delivered to a purchaser or allottee thereof shall (subject to the execution of a transfer if the same be required) constitute a good title to the share and the person to whom the share is sold, re-allotted or disposed of shall be registered as the holder of the share and shall not be bound to see to the application of the purchase money (if any) nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, surrender, sale, re-allotment or disposal of the share.

TRANSFER OF SHARES

36. The instrument of transfer of any shares in the Company shall be in writing in the usual common form or in such other form as the Board may accept and may be under hand only or, if the transferor or transferee is a Clearing House (or its nominee), by hand or by machine imprinted signature or by such other manner of execution as the Board may approve from time to time and shall be executed by or on behalf of the transferor and by or on behalf of the transferee. The transferor shall remain the holder of the shares concerned until the name of the transferee is entered in the Register in respect thereof. Nothing in these Articles shall preclude the Board from

Edgar Filing: CNOOC LTD - Form 20-F

recognising a renunciation of the allotment or provisional allotment of any share by the allottee in favour of some other person.

37. Every instrument of transfer shall be lodged at the Office for registration (or at such other place the Board may appoint for such purpose) accompanied by the certificate relating to the shares to be transferred and such other evidence as the Directors may require in relation thereto. All instruments of transfer which shall be registered shall be retained by the Company, but save where fraud is suspected any instrument of transfer which the Directors may decline to register shall, on demand, be returned to the person depositing the same.
38. There shall be paid to the Company in respect of the registration of a transfer and of any Grant of Probate or Letters of Administration, Certificate of Marriage or Death, Power of Attorney or other document relating to or affecting the title to any share or for making of any entry in the Register affecting the title to any share such fee (if any) as the Directors may from time to time require or prescribe (but not exceeding HK\$2.50 or such greater sum as the Stock Exchange may from time to time permit).

Ex-13

39. The registration of transfers may be suspended at such times and for such periods as the Directors may, in accordance with section 99 of the Ordinance, from time to time determine and either generally or in respect of any class of shares.
40. The Directors may, subject to section 69 of the Ordinance, at any time in their absolute discretion and without assigning any reason therefor decline to register any transfer of any share (not being a fully paid-up share). If the Directors refuse to register a transfer they shall, within two months after the date on which the transfer was lodged with the Company, send to the transferor and transferee notice of the refusal.
41. The Directors may also decline to register any transfer unless:
- (a) the instrument of transfer is in respect of only one class of share;
 - (b) in the case of a transfer to joint holders, the number of transferees does not exceed four;
 - (c) the shares concerned are free of any lien in favour of the Company;
 - (d) the instrument of transfer is properly stamped;
 - (e) such other conditions as the Directors may from time to time impose for the purpose of guarding against losses arising from forgery are satisfied;
 - (f) a fee not exceeding the maximum fee prescribed or permitted from time to time by the Stock Exchange is paid to the Company in respect thereof;
 - (g) the instrument of transfer is accompanied by the certificate of

Edgar Filing: CNOOC LTD - Form 20-F

the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer.

42. No transfer may be made to an infant or to a person of unsound mind or under other legal disability.

TRANSMISSION OF SHARES

43. In the case of the death of a member, the survivor or survivors where the deceased was a joint holder, and the legal personal representatives of the deceased where he was a sole or only surviving holder, shall be the only persons recognised by the Company as having any title to his shares; but nothing herein contained shall release the estate of a deceased holder, whether sole or joint, from any liability in respect of any share solely or jointly held by him.
44. Any person becoming entitled to shares in the Company in consequence of the death, bankruptcy or winding-up of any member or otherwise by operation of law or by court order shall, upon procuring such evidence of his title as the Directors may require, have the right either to be registered himself as the holder of the shares upon giving to the Company notice in writing of such his desire or to transfer such shares to some other person. All the limitations, restrictions and provisions of these Articles and the Ordinance relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as if the same were a transfer of shares by a member, including the Directors' right to refuse or suspend registration.
45. A person becoming entitled to shares in the Company in consequence of the death, bankruptcy or winding-up of any member or otherwise by operation of law or by court order shall have the right to receive and give a discharge for any dividends or other moneys payable

Ex-14

in respect of the shares, provided always that the Directors may at any time give notice requiring any such person to elect to be registered himself or to transfer the shares, and if the notice is not complied with within sixty days, the Directors may thereafter withhold payment of all dividends or other moneys payable in respect of the shares until the requirements of the notice have been complied with but, subject to the requirements of Article 76 being met, such a person may vote at meetings.

STOCK

46. The Company may from time to time by ordinary resolution convert any fully paid-up shares into stock and may reconvert any stock into fully paid-up shares of any denomination. After the passing of any resolution converting all the fully paid-up shares of any class in the capital of the Company into stock, any shares of that class which subsequently become fully paid-up and rank pari passu in all other respects with such shares shall, by virtue of this Article and such resolution, be converted into stock transferable in the same units as the shares already converted.
47. The holders of stock may transfer the same or any part thereof in the

Edgar Filing: CNOOC LTD - Form 20-F

same manner and subject to the same regulations as the shares from which the stock arose might prior to conversion have been transferred or as near thereto as circumstances admit. The Directors may from time to time fix the minimum amount of stock transferable and restrict or forbid the transfer of fractions of such minimum, but the minimum shall not, without the sanction of an ordinary resolution of the Company, exceed the nominal amount of each of the shares from which the stock arose. No warrants to bearer shall be issued in respect of any stock.

48. The holders of stock shall, according to the amount of the stock held by them, have the same rights as regards dividends, participation in assets on a winding-up, voting at general meetings of the Company and other matters as if they held the shares from which the stock arose, but no such right (except as to participation in dividends, profits and in assets on a reduction of capital or a winding-up) shall be conferred by an amount of stock which would not, if existing in shares, have conferred such right.
49. Such of these Articles as are applicable to fully paid-up shares shall apply mutatis mutandis to stock, and the words "share" and "shareholder" shall include "stock" and "stockholder".

INCREASE OF CAPITAL AND PURCHASE OF OWN SHARES

50. The Company may, from time to time, by ordinary resolution increase its authorised capital by such sum divided into shares of such amounts as the resolution shall prescribe.
51. The general meeting resolving upon the creation of any new shares may direct that the same or any of them shall be offered in the first instance, and either at par or at a premium or (subject to the provisions of the Ordinance) at a discount, to all the holders for the time being of any class of shares in the capital of the Company, in proportion to the number of shares of such class held by them respectively, or make any other provisions as to the issue and allotment of the new shares, and in default of any such direction, or so far as the same shall not extend, the new shares shall be at the disposal of the Directors, and Article 7 shall apply thereto. The Company may exercise any powers conferred or permitted by the Ordinance or any other ordinance from time to time to purchase or otherwise acquire its own shares and warrants (including any redeemable shares) at any price or to give, directly or indirectly, by means of a loan, guarantee, the provision of security or otherwise, financial assistance for the purpose of or in connection with a purchase or other acquisition made or to be made by any person of any shares or warrants in the Company and should the Company purchase or otherwise acquire its own shares or warrants neither the Company nor the Board shall be required to select the shares or warrants to be purchased or otherwise acquired rateably or in

Ex-15

any other particular manner as between the holders of shares or warrants of the same class or as between them and the holders of shares or warrants of any other class or in accordance with the rights as to dividends or capital conferred by any class of shares provided always that (a) purchases not made through the market or by tender shall be limited to a maximum price, and (b) if purchases are

Edgar Filing: CNOOC LTD - Form 20-F

by tender, tenders shall be available to all shareholders alike and provided further that any such purchase or other acquisition or financial assistance shall only be made or given in accordance with any relevant rules or regulations issued by the Stock Exchange or the Securities and Futures Commission from time to time in force.

52. Subject to any direction or determination that may be given or made in accordance with the powers contained in these Articles, all new shares created pursuant to Article 50 shall be subject to the same provisions herein contained with reference to the payment of calls, transfer, transmission, forfeiture, lien and otherwise as the existing shares of the Company.

ALTERATION OF SHARE CAPITAL

53. The Company may by ordinary resolution:
- (a) subdivide its existing shares or any of them into shares of smaller amount than is fixed by the Memorandum of Association of the Company, provided that in the subdivision of an existing share the proportion between the amount paid and the amount (if any) unpaid on each reduced share shall be the same as it was in the case of the share from which the reduced share is derived, and that the resolution whereby any share is subdivided may determine that as between the holders of the shares resulting from such subdivision one or more of the shares may, as compared with the others, have any such preferred, deferred or other special rights or be subject to any such restrictions as the Company has power to attach to unissued or new shares;
 - (b) divide its shares into several classes and attach thereto respectively any preferential, deferred, qualified or special rights, privileges or conditions;
 - (c) consolidate and divide its share capital or any part thereof into shares of larger amount than its existing shares;
 - (d) cancel any shares which at the date of the passing of the resolution have not been taken or agreed to be taken by any person and diminish the amount of its authorised capital by the amount of the shares so cancelled; or
 - (e) make provision for the issue and allotment of shares which do not carry any voting rights.
54. The Company may by special resolution reduce its share capital and any capital redemption reserve fund or any share premium account in any manner allowed by law.
55. Where any difficulty arises in regard to any consolidation and division under paragraph (c) of Article 53, the Directors may settle the same as they think expedient and in particular may arrange for the sale of the shares representing fractions and the distribution of the net proceeds of sale in due proportion amongst the members who would have been entitled to the fractions, and for this purpose the Directors may authorise some person to transfer the shares representing fractions to the purchaser thereof, who shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale.

MODIFICATION OF RIGHTS

56. All or any of the special rights attached to any class of shares (unless otherwise provided for by the terms of issue of the shares of that class) for the time being in issue may subject to the provisions of the Ordinance, at any time, as well before as during liquidation, be altered or abrogated either with the consent in writing of the holders of not less than three-fourths of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of shares of that class, and all the provisions contained in these Articles relating to general meetings shall mutatis mutandis apply to every such meeting but so that the quorum thereof shall be not less than two persons holding or representing by proxy one-third in nominal value of the issued shares of the class, and that any holder of shares of that class present in person or by proxy may demand a poll.
57. The provisions of the foregoing Article shall apply to the variation or abrogation of the special rights attached to some only of the shares of any class as if each group of shares of the class differently treated formed a separate class the rights whereof are to be varied.
58. The special rights conferred upon the holders of shares or any class of shares shall not, unless otherwise expressly provided in the rights attaching to or the terms of issue of such shares, be deemed to be altered by the creation or issue of further shares ranking pari passu therewith.

GENERAL MEETINGS

59. The Company shall in each year hold a general meeting as its annual general meeting in addition to any other meetings in that year. The annual general meeting shall be held at such time (within a period of not more than fifteen months, or such longer period as the Registrar of Companies may authorise in writing, after the holding of the last preceding annual general meeting) and place as may be determined by the Directors. All other general meetings shall be called extraordinary general meetings.
60. The Directors may wherever they think fit, and shall on requisition in accordance with the Ordinance, proceed to convene an extraordinary general meeting.

NOTICE OF GENERAL MEETINGS

61. Subject to section 116C of the Ordinance, an annual general meeting and a meeting called for the passing of a special resolution shall be called by not less than twenty-one days' notice in writing, and any other general meeting shall be called by not less than fourteen days' notice in writing. The notice shall specify the place, date and time of meeting, and, in the case of special business, the general nature of that business. The notice convening an annual general meeting shall specify the meeting as such, and the notice convening a meeting to pass a special resolution shall specify the intention to propose the resolution as a special resolution. There shall appear on every such notice with reasonable prominence a statement that a member entitled to attend and vote is entitled to appoint one or more

Edgar Filing: CNOOC LTD - Form 20-F

proxies to attend and vote instead of him and that a proxy need not be a member of the Company.

62. Notwithstanding that a meeting of the Company is called by shorter notice than that specified in these Articles or required by the Ordinance, it shall be deemed to have been duly called if it is so agreed:

(a) in the case of a meeting called as the annual general meeting, by all the members entitled to attend and vote thereat; and

Ex-17

(b) in the case of any other meeting, by a majority in number of the members having the right to attend and vote at the meeting, being a majority together holding not less than 95 per cent. in nominal value of the shares giving that right.

63. The accidental omission to give notice of a meeting or (in cases where instruments of proxy are sent out with the notice) the accidental omission to send such instrument of proxy to, or the non-receipt of notice of a meeting or such instrument of proxy by, any person entitled to receive such notice shall not invalidate the proceedings at that meeting.

PROCEEDINGS AT GENERAL MEETINGS

64. All business shall be deemed special that is transacted at an extraordinary general meeting and at an annual general meeting with the exception of:

(a) the receipt of the accounts and balance sheet and the reports of the Directors and other documents required to be annexed to the accounts;

(b) the declaration and sanction of dividends;

(c) the election of Directors in place of those retiring (if any);

(d) the election or re-election of the Auditors of the Company; and

(e) the fixing of, or the determination of the method of fixing, the remuneration or extra remuneration of the Directors and of the Auditors of the Company.

65. No business save the election of a Chairman of the meeting shall be transacted at any general meeting unless a quorum is present when the meeting proceeds to business. Two members present in person or by proxy and entitled to vote shall be a quorum for all purposes.

66. If, within thirty minutes from the time appointed for the meeting a quorum be not present, the meeting, if convened upon requisition in accordance with the Ordinance, shall be dissolved; but in any other case it shall stand adjourned to the same day in the next week at the same time and place, or to such other day, time and place as the Chairman of the meeting may determine. If at such adjourned meeting a quorum be not present within thirty minutes from the time appointed for the meeting, the member or members present in person or by proxy shall be a quorum and may transact the business for which the meeting

Edgar Filing: CNOOC LTD - Form 20-F

is called.

67. The Chairman (if any) of the Board shall preside as Chairman at every general meeting. If there is no such Chairman or if at any meeting the Chairman is not present within fifteen minutes after the time appointed for holding the meeting, or if the Chairman is not willing to act as Chairman at the meeting, the Directors present shall choose one of their number to act, or if one Director only is present he shall preside as Chairman if willing to act. If no Director is present, or if each of the Directors present declines to act as Chairman, the persons present and entitled to vote shall elect one of their number to be Chairman of the meeting.
68. The Chairman of any general meeting at which a quorum is present may, with the consent of the meeting, and shall, if so directed by the meeting, adjourn the meeting from time to time and from place to place or sine die; but no business shall be transacted at any adjourned meeting other than business which might have been transacted at the meeting from which the adjournment took place unless due notice thereof is given or such notice is waived in the manner prescribed by these Articles. When a meeting is adjourned for thirty days or more, or sine die, notice of the adjourned meeting shall be given as in the case of an original meeting. Save as aforesaid, it shall not be necessary to give any notice of an adjourned meeting or the

Ex-18

business to be transacted thereat. Where a meeting is adjourned sine die the time and place for the adjourned meeting shall be fixed by the Directors.

VOTING

69. (a) At any general meeting a resolution put to the vote of the meeting shall be decided on a show of hands unless (before or on the declaration of the result of the show of hands or on the withdrawal of any other demand for a poll) a poll is demanded by:
- (i) the Chairman of the meeting; or
 - (ii) at least three members present in person (or in the case of a member being a corporation, by its duly authorised representative) or by proxy and entitled to vote at the meeting; or
 - (iii) any member or members present in person (or in the case of a member being a corporation, by its duly authorised representative) or by proxy and representing in the aggregate not less than one-tenth of the total voting rights of all members having the right to attend and vote at the meeting; or
 - (iv) any member or members present in person (or in the case of a member being a corporation, by its duly authorised representative) or by proxy and holding shares conferring a right to attend and vote at the meeting on which there have been paid up sums in the aggregate equal to not less

Edgar Filing: CNOOC LTD - Form 20-F

than one-tenth of the total sum paid up on all shares conferring that right.

- (b) Unless a poll is so demanded and the demand is not withdrawn, a declaration by the Chairman that a resolution has, on a show of hands, been carried unanimously or by a particular majority or lost shall be final and conclusive, and an entry to that effect in the minute book of the Company shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded for or against such resolution.
70. A demand for a poll may be withdrawn only with the approval of the Chairman of the meeting, at any time before the close of the meeting or the taking of the poll, whichever is earlier. If a poll be directed or demanded in the manner (including the use of ballot or voting papers or tickets) above mentioned it shall (subject to the provisions of Article 72 hereof) be taken at such time (being not later than thirty days after the date of the demand) and in such manner as the Chairman of the meeting may appoint. No notice need be given of a poll not taken immediately. The result of such poll shall be deemed for all purposes to be the resolution of the meeting at which the poll was so directed or demanded.
71. In the case of an equality of votes at any general meeting, whether upon a show of hands or on a poll, the Chairman of the meeting shall be entitled to a second or casting vote.
72. A poll demanded upon the election of a Chairman or upon a question of adjournment shall be taken forthwith. Any business, other than that upon which a poll has been demanded, may be proceeded with pending the taking of the poll.
73. (a) Save as expressly provided in these Articles, no person other than a member duly registered and who shall have paid everything for the time being due from him payable to the Company in respect of his shares shall be entitled to be present or to vote (save as proxy for another member) either personally or by proxy, or to be reckoned in a quorum at any general meeting.
- Ex-19
- (b) No objection shall be made to the validity of any vote except at a meeting at which such vote shall be tendered and every vote whether given personally or by proxy not disallowed at such meeting shall be deemed valid for all purposes whatsoever of such meeting or poll.
 - (c) In case of any dispute as to voting the Chairman shall determine the same, and such determination shall be final and conclusive.
74. Subject to the provisions of the Ordinance, a resolution in writing signed by all the members for the time being entitled to receive notice of and to attend and vote at general meetings shall be as valid and effective as if the same had been passed at a general meeting of the Company duly convened and held. A written notice of confirmation of such resolution in writing signed by or on behalf of a member shall be deemed to be his signature to such resolution in writing for the purposes of this Article. Such resolution in writing may consist of several documents each signed by or on behalf of one

Edgar Filing: CNOOC LTD - Form 20-F

or more members.

VOTES OF MEMBERS

75. Subject to Article 85 and to any special rights, privileges or restrictions as to voting for the time being attached to any class or classes of shares, every member who (being an individual) is present in person or (being a corporation) is present by a representative duly authorised under section 115 of the Ordinance at any general meeting shall be entitled, on a show of hands, to one vote only and, on a poll, to one vote for every fully paid-up share of which he is the holder.
76. Any person entitled under Article 45 to be registered as the holder of any shares may vote at any general meeting in respect thereof in the same manner as if he were the registered holder of such shares, provided that at least 48 hours before the time of the holding of the meeting or adjourned meeting (as the case may be) at which he proposes to vote, he shall satisfy the Board of his right to be registered as the holder of such shares or the Board shall have previously admitted his right to vote at such meeting in respect thereof.
77. On a poll, votes may be given either personally or by proxy and a member entitled to more than one vote need not use all his votes or cast all the votes he uses in the same way.
78. A member of unsound mind, or in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote, whether on a show of hands or on a poll, by his committee, curator bonis or other person in the nature of a committee or curator bonis appointed by that court, and such committee, curator bonis or other person may on a poll, vote by proxy. If any member be a minor he may vote by his guardian or one of his guardians who may give their votes personally or by proxy. Where a member is, under the Listing Rules, required to abstain from voting on any particular resolution or restricted to voting only for or only against any particular resolution, any votes cast by or on behalf of such member in contravention of such requirement or restriction shall not be counted.

PROXIES

79. (a) A proxy need not be a member of the Company.
- (b) An instrument appointing a proxy shall be in writing in any usual or common form or in any other form which the Directors may accept, and shall be deemed, subject to the proviso hereinafter contained, to confer authority upon the proxy to vote on any resolution (or amendment thereto) put to the meeting for which it is given as the proxy thinks fit.

Ex-20

Provided that any form issued to a member for use by him for appointing a proxy to attend and vote at an extraordinary general meeting or at an annual general meeting at which special business (determined as provided in Article 64) is to be transacted shall be such as to enable the member according to his intention to instruct the proxy to vote in favour of or

Edgar Filing: CNOOC LTD - Form 20-F

against (or, in default of instructions, to exercise his discretion in respect of) each resolution dealing with any such special business and shall, unless the contrary is stated therein, be valid as well for any adjournment of the meeting as for the meeting to which it relates.

80. The instrument appointing a proxy shall be signed by the appointor, or his duly authorised attorney, of if such appointor be a corporation, under its common seal or signed by some officer, attorney or other person duly authorised in that behalf.
81. The instrument appointing a proxy and the power of attorney or other authority (if any) under which it is signed, or a notarially certified copy of such power or authority, shall be deposited at the Office at least forty-eight hours before the time fixed for holding the meeting at which the person named in such instrument proposes to attend and vote or, in the case of a poll, at least thirty-six hours before the time appointed for the taking of the poll; otherwise the person so named shall not be entitled to vote at that meeting (or as the case may be) except with the approval of the Chairman of the meeting. No instrument appointing a proxy shall be valid after the expiration of twelve months from the date of its execution, except at an adjourned meeting or on a poll demanded at a meeting or an adjourned meeting in cases where the meeting was originally held within twelve months from such date. Delivery of an instrument appointing a proxy shall not preclude a member from attending and voting in person at the meeting or poll concerned and, in such event, the instrument appointing a proxy shall be deemed to be revoked.
82. Any member may by power of attorney appoint any person to be his attorney for the purpose of attending and voting at any meeting, and such power may be a special power limited to any particular meeting or a general power extending to all meetings at which such member is entitled to vote. Every such power shall be deposited at the Office at least thirty-six hours before the time fixed for holding the meeting at which such attorney proposes to attend and vote or, in the case of a poll, at least twenty-four hours before the time appointed for the taking of the poll; otherwise the attorney shall not be entitled to vote at that meeting (or as the case may be) except with the approval of the Chairman of the meeting.
83. (a) An instrument of proxy may be revoked by forwarding to the Office written notification of such revocation signed by or on behalf of the person who issued or authorised the issue of the instrument of proxy.
- (b) A vote given in accordance with the terms of an instrument of proxy or power of attorney or by the duly authorised representative of a corporation shall be valid notwithstanding the previous death or insanity of the principal, or revocation of the proxy or power of attorney or other authority, or transfer of the shares in respect of which the proxy is given, provided no intimation in writing of the death, insanity, revocation or transfer shall have been received at the Office at least twenty-four hours before the time fixed for holding the meeting, or adjourned meeting, or the taking of the poll, at which the instrument of proxy is used.
84. Any corporation which is a member of the Company may, by resolution of its directors or other governing body or by power of attorney, authorise such persons at it thinks fit to act as its representative at any meeting of the Company or of any class of members of the

Edgar Filing: CNOOC LTD - Form 20-F

Company, and the person so authorised shall be entitled to exercise the same powers on behalf of the corporation which he represents as that corporation could exercise if it were an individual member of the Company. References in these Articles to a member present in person at a

Ex-21

meeting shall, unless the context otherwise requires, include a corporation which is a member represented at the meeting by such duly authorised representative.

85. Without prejudice to the generality of Article 84 if a Clearing House (or its nominee) is a member of the Company, it (or, as the case may be, its nominee) may authorise such person or persons as it thinks fit to act as its proxy and proxies or representative or representatives at any meeting of the Company or at any meeting of any class of members of the Company provided that, if more than one person is so authorised, the proxy form or authorisation shall specify the number and class of shares in respect of which each such person is so authorised. A person so authorised under the provisions of this Article shall be entitled to exercise the same powers on behalf of the Clearing House (or its nominee) which he represents as that Clearing House (or its nominee) could exercise if it were an individual member of the Company and, on a show of hands, each such person shall be entitled to a separate vote.

DIRECTORS

86. Unless and until otherwise determined by an ordinary resolution of the Company, the Directors shall be not fewer than two in number, and there shall be no maximum number of Directors.
87. The Company shall keep in accordance with the Ordinance a register containing the names and addresses and occupations of its Directors and shall from time to time notify to the Registrar of Companies any change that takes place in such Directors as required by the Ordinance.
88. A Director need not hold any shares in the Company. If invited by the Company, a Director who is not a member of the Company shall nevertheless be entitled to attend and speak at general meetings.

DIRECTORS' REMUNERATION

89. (a) The Directors shall be entitled to receive by way of remuneration for their services such sum not exceeding in aggregate HK\$1,000,000 per annum or such higher amount as the Company may from time to time by ordinary resolution determine which (unless otherwise directed by resolution by which it is voted) is to be divided amongst the Directors in such proportions and in such manner as the Board may agree, except that in such event any Director holding office for less than the whole of the relevant period in respect of which the remuneration is paid shall only rank in such division in proportion to the time during such period for which he has held office. The foregoing shall not apply to a Director who holds any salaried employment or office in the Company except in the case of sums paid in respect of directors' fees.

Edgar Filing: CNOOC LTD - Form 20-F

(b) The Directors shall also be entitled to be repaid their reasonable travelling, hotel and other expenses incurred by them in or about the performance of their duties as Directors, including their expenses of travelling to and from board meetings, committee meetings or general meetings or otherwise incurred whilst engaged on the business of the Company or on the discharge of their duties as directors.

90. The Directors may award special remuneration out of the funds of the Company (by way of salary, commission or otherwise as the Directors may determine) to any Director who performs services which in the opinion of the Directors are outside the scope of the ordinary duties of a Director.

Ex-22

POWERS OF DIRECTORS

91. The Directors may establish any local boards or agencies for managing any of the affairs of the Company, either in Hong Kong or elsewhere, and may appoint any persons to be members of such local boards, or any managers or agents for the Company, and may fix their remuneration, and may delegate (with or without power to sub-delegate as the Directors shall determine) to any local board, manager or agent any of the powers, authorities and discretions vested in the Directors, and may authorise the members of any local boards, or any of them, to fill any vacancies therein, and to act notwithstanding vacancies, and such appointment or delegation may be made upon such terms and subject to such conditions as the Directors may think fit, and the Directors may remove any person so appointed and may annul or vary any such delegation, but no person dealing in good faith and without notice of any such annulment or variation shall be affected thereby.

92. The Directors may from time to time and at any time by power of attorney or other instrument appoint any company, firm or person or any fluctuating body of persons, whether nominated directly or indirectly by the Board, to be the attorney or attorneys of the Company for such purposes and with such powers, authorities and discretions (not exceeding those vested in or exercisable by the Directors under these Articles) and for such period and subject to such conditions as they may think fit, and any such power of attorney or other instrument may contain such provisions for the protection and convenience of persons dealing with any such attorney as the Directors may think fit, and may also authorise any such attorney to sub-delegate all or any of the powers, authorities and discretions vested in him. The Company may, by writing under its seal, empower any person, either generally or in respect of any specified matter, as its attorney to execute deeds and instruments on its behalf and to enter into contracts and sign the same on its behalf and every deed signed by such attorney on behalf of the Company and under his seal shall bind the Company and have the same effect as if it were under the seal of the Company.

93. Subject to and to the extent permitted by the Ordinance, the Company or the Directors on behalf of the Company, may cause to be kept in any territory a Branch Register of members resident in such territory, and the Directors may make and vary such regulations as

Edgar Filing: CNOOC LTD - Form 20-F

they may think fit respecting the keeping of any such Branch Register.

94. All cheques, promissory notes, drafts, bills of exchange, and other negotiable or transferable instruments, and all receipts for moneys paid to the Company, shall be signed, drawn, accepted, endorsed, or otherwise executed, as the case may be, in such manner as the Directors shall from time to time by resolution determine. The Company's bank accounts shall be kept with such banker or bankers as the Board shall from time to time determine.
95. (a) The Directors may exercise all the powers of the Company to borrow money and to mortgage or charge all or any part of the undertaking, property and assets (present and future) and uncalled capital of the Company and to issue debentures, debenture stocks, bonds and other securities, whether outright or as collateral security for any debt, liability or obligation of the Company or of any third party. Debentures, debenture stocks, bonds and other securities of the Company may be made assignable free from any equities between the Company and the person to which the same may be issued, and may be issued at a discount, premium or otherwise and with any special privileges as to redemption, surrender, drawings, allotment of shares, attending and voting at general meetings of the Company, appointment of Directors and otherwise.
- (b) The Directors shall cause a proper register to be kept, in accordance with the provisions of the Ordinance, of all mortgages and charges affecting the property of the Company and shall duly comply with the requirements of the Ordinance in regard

Ex-23

to the registration of mortgages and charges therein specified and otherwise. Where any uncalled capital of the Company is charged, all persons taking any subsequent charge thereon shall take the same subject to such prior charge, and shall not be entitled, by notice to the members or otherwise, to obtain priority over such prior charge.

96. The Board may establish and maintain or procure the establishment and maintenance of any contributory or non-contributory pension or superannuation funds for the benefit of, or give or procure the giving of donations, gratuities, pensions, allowances or emoluments to, any persons who are or were at any time in the employment or service of the Company, or of any company which is a subsidiary of the Company, or is allied or associated with the Company or with any such subsidiary company, or who are or were at any time directors or officers of the Company or of any such other company as aforesaid, and holding or who have held any salaried employment or office in the Company or such other company, and the wives, widows, families and dependants of any such persons. The Board may also establish and subsidise or subscribe to any institutions, associations, clubs or funds calculated to be for the benefit of or to advance the interests and well being of the Company or of any such other company as aforesaid or of any such persons as aforesaid, and may make payments for or towards the insurance of any such persons as aforesaid, and subscribe or guarantee money for charitable or benevolent objects or

Edgar Filing: CNOOC LTD - Form 20-F

for any exhibition or for any public, general or useful object. The Board may do any of the matters aforesaid, either alone or in conjunction with any such other company as aforesaid. Any Director holding any such employment or office shall be entitled to participate in and retain for his own benefit any such donation, gratuity, pension, allowance or emolument.

APPOINTMENT AND REMOVAL OF DIRECTORS

97. At each annual general meeting one-third of the Directors for the time being, or, if their number is not three or a multiple of three, then the number nearest one-third, shall retire from office by rotation save any Director holding office as Chairman or Chief Executive Officer. The Directors to retire in every year shall be those who have been longest in office since their last election but as between persons who became Directors on the same day shall (unless they otherwise agree between themselves) be determined by lot. The retiring Directors shall be eligible for re-election. The Company at any general meeting at which any Directors retire may fill the vacated offices. No person other than a Director retiring at the meeting, shall, unless recommended by the Directors for election, be eligible for election as a Director at any general meeting unless there shall have been lodged at the Office or at the head office of the Company within the period referred to in the next succeeding sentence a notice signed by a member (other than the person to be proposed) duly qualified to attend and vote at the meeting for which such notice is given of his intention to propose such person for election and also a notice signed by the person to be proposed of his willingness to be elected. The period for lodgement of such notices shall commence on (and include) the day after the despatch of the notice of meeting appointed for such election and end on (and exclude) the date that is seven (7) days before the date appointed for the meeting.
98. If at any general meeting at which an election of Directors ought to take place the places of the retiring Directors are not filled, the retiring Directors or such of them as have not had their places filled shall be deemed to have been re-elected and shall, if willing, continue in office until the next annual general meeting and so on from year to year until their places are filled, unless:
- (a) it shall be determined at such meeting to reduce the number of Directors;
 - (b) it is expressly resolved at such meeting not to fill such vacated offices;
 - (c) in any such case the resolution for re-election of a Director is put to the meeting and lost; or
 - (d) such Director has given notice in writing to the Company that he is not willing to be re-elected.
99. The Company may, from time to time, by ordinary resolution elect any person to be a Director either to fill a casual vacancy or as an addition to the Board.

Edgar Filing: CNOOC LTD - Form 20-F

100. The Company may by ordinary resolution remove any Director notwithstanding anything in these Articles or in any agreement between him and the Company (but without prejudice to any right to damages for termination of such agreement not in accordance with the terms thereof), and may, if thought fit, by ordinary resolution appoint another person in his stead. Special notice is required of a resolution to remove a Director, or to appoint somebody in place of a Director so removed at the meeting at which he is removed, in accordance with the Ordinance. Any person so elected shall hold office for such time only as the Director in whose place he is elected would have held the office if he had not been removed.
101. The Directors shall have power, exercisable at any time and from time to time, to appoint any other person as a Director, either to fill a casual vacancy or as an addition to the Board but so that the number of Directors so appointed shall not exceed the maximum number determined from time to time (if any) by the shareholders in general meeting and any directors so appointed shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election, but shall not be taken into account in determining the Directors or the number of Directors who are to retire by rotation at each annual general meeting.
102. The continuing Directors may act notwithstanding any vacancy in their body, but if and so long as the number of Directors is reduced below the number fixed by or pursuant to these Articles as the necessary quorum of Directors, the continuing Directors may act for the purpose of increasing the number of Directors to that number, or of summoning a general meeting of the Company, but for no other purpose. If there shall be no Directors able or willing to act, then any two members may summon a general meeting for the purpose of appointing Directors.
103. No person other than a retiring Director shall, unless recommended by the Board for re-election, be eligible for election to the office of Director at any annual general meeting unless notice in writing of the intention to propose that person for election as a Director and notice in writing by that person of his consent to be elected shall have been lodged at the Office or head office of the Company. The period for lodgement of such notices shall commence on (and include) the day after the despatch of the notice of meeting appointed for such election and end on (and exclude) the date that is seven (7) days before the date appointed for the meeting.

ALTERNATE DIRECTORS

104. Each Director may by written notification to the Company nominate any other person to act as alternate Director in his place for a specified period and at his discretion in similar manner remove such alternate Director. If such person is not another Director, such appointment, unless previously approved by the Board, shall have effect only upon and subject to being so approved. The alternate Director shall (except as regards the power to appoint an alternate) be subject in all respects to the terms and conditions existing with reference to the other Directors of the Company; and each alternate Director, whilst acting as such, shall exercise and discharge all the functions, powers and duties of the Director he represents, but shall look to such Director solely for his remuneration as alternate Director. Every person acting as an

Edgar Filing: CNOOC LTD - Form 20-F

alternate Director shall (except when absent from Hong Kong) be entitled to receive notices of meetings of the Board and shall have one vote for each Director for whom he acts as alternate at any such meeting at which the Director appointing him is not personally present (in addition to his own vote if he is also a Director). The signature of an alternate Director to any resolution in writing of the Board or a committee of the Board shall, unless the notice of his appointment provides to the contrary, be as effective as the signature of his appointor. Any person appointed as an alternate Director shall vacate his office as such alternate Director if and when the Director by whom he has been appointed removes him or vacates office as Director. An alternate Director shall be responsible and liable for his own acts, omissions and defaults. An alternate Director shall not be deemed to be an agent of the Director who appoints him. The Director who appoints the alternate Director shall not be vicariously liable for any acts or omissions, including but not limited to any tort, committed by or of the alternate Director while acting in the capacity of alternate Director. To such extent as the Board may from time to time determine in relation to any committee of the Board, the foregoing provisions of this paragraph shall also apply mutatis mutandis to any meeting of any committee of which his appointor is a member. An alternate Director shall not, save as aforesaid, have power to act as a Director nor shall he be deemed to be a Director for the purposes of these Articles.

DISQUALIFICATION OF DIRECTORS

105. The office of a Director shall ipso facto be vacated:
- (a) if he becomes prohibited by law or court order from being a Director;
 - (b) if a receiving order is made against him or he makes any arrangement or composition with his creditors;
 - (c) if he becomes of unsound mind;
 - (d) if he absents himself from the meetings of the Board during a continuous period of six months, without special leave of absence from the Board, and his alternate Director (if any) shall not during such period have attended in his stead, and the Board passes a resolution that he has by reason of such absence vacated his office;
 - (e) if he shall be removed from office by notice in writing served upon him signed by all his co-directors;
 - (f) if he resigns his office;
 - (g) if he is removed by a special resolution of the Company; or
 - (h) if he is convicted of an indictable offence.

DIRECTORS' INTERESTS

106. A Director who is in any way, whether directly or indirectly, interested in a contract or proposed contract with the Company shall declare the nature of his interest in accordance with the provisions of the Ordinance. A general notice given to the Directors by a

Edgar Filing: CNOOC LTD - Form 20-F

Director to the effect that he is a member or a director of a specified company or firm, and is to be regarded as interested in any contract, arrangement or dealing which may, after the date of the notice, be entered into or made with that company or firm, shall, for the purpose of this Article, be deemed to be a sufficient disclosure of interest in relation to any contract, arrangement or dealing so entered into or made. Without prejudice to the generality of the

Ex-26

foregoing, a Director shall give notice to the Company of such matters relating to himself as may be necessary for the purposes of sections 155B, 158, 161 and 161B of the Ordinance.

107. A Director may hold any other office or place of profit under the Company (other than the office of Auditor), and he or any firm of which he is a member may act in a professional capacity for the Company in conjunction with his office of Director, for such period and on such terms (as to remuneration and otherwise) as the Directors may determine and such extra remuneration shall be in addition to any remuneration provided for by or pursuant to any other Article. No Director or intended Director shall be disqualified by his office from contracting with the Company, nor shall any contract or arrangement entered into by or on behalf of the Company with any Director or any firm or company in which any Director is in any way interested be liable to be avoided, nor shall any Director so contracting or being so interested be liable to account to the Company for any profit, remuneration or other benefits realised by any such contract or arrangement by reason only of such Director holding that office or of any fiduciary relationship thereby established, provided that such Director shall disclose the nature of his interest in any contract or arrangement in which he is interested at the meeting of the Board at which the question of entering into the contract or arrangement is first taken into consideration, if he knows his interest then exists, or in any other case at the first meeting of the Board after he knows that he is or has become so interested.
108. A Director shall not vote (nor shall he be counted in the quorum) on any resolution of the Board in respect of any contract or arrangement or proposal in which he is or any of his associates are materially interested, and if he shall do so his vote shall not be counted (nor shall he be counted in the quorum for that resolution), but this prohibition shall not apply to any of the following matters, namely:
- (a) any contract or arrangement for the giving by the Company of any security or indemnity to the Director or his associate(s) in respect of money lent or obligations incurred or undertaken by him or any of them at the request of or for the benefit of the Company or any of its subsidiaries;
 - (b) any contract or arrangement for the giving by the Company of any security or indemnity to a third party in respect of a debt or obligation of the Company or any of its subsidiaries for which the Director or his associate(s) has himself/themselves assumed responsibility, or guaranteed or secured in whole or in part whether alone or jointly;
 - (c) any contract or arrangement concerning an offer of the shares or

Edgar Filing: CNOOC LTD - Form 20-F

debentures or other securities of or by the Company or any other company which the Company may promote or be interested in for subscription or purchase where the Director or his associate(s) is/are or is/are to be interested as a participant in the underwriting or sub-underwriting of the offer;

- (d) any contract or arrangement in which the Director or his associate(s) is/are interested in the same manner as other holders of shares or debentures or other securities of the Company by virtue only of his/their interest in shares or debentures or other securities of the Company;
- (e) any contract or arrangement concerning any other company in which the Director or his associate(s) is/are interested whether directly or indirectly as an officer or executive or a shareholder or in which the Director or his associate(s) is/are beneficially interested in shares of that company other than a company in which the Director and any of his associates are in aggregate beneficially interested 5% or more of the issued shares of any class of the equity share capital of such company (or of any third company through which his interest or that of his associates is derived) or of

Ex-27

the voting rights (excluding for the purpose of calculating such five per cent. interest any indirect interest of such Director or his associates by virtue of an interest of the Company in such company);

- (f) any proposal or arrangement for the benefit of employees of the Company or its subsidiaries including the adoption, modification or operation of a pension fund or retirement, death or disability benefit scheme which relates both to Directors, his associate(s) and employees of the Company or of any of its subsidiaries and does not give in respect of any Director, or his associate(s), as such any privilege or advantage not generally accorded to the class of persons to whom such scheme or fund relates;
- (g) any proposal or arrangement concerning the adoption, modification or operation of any employees' share scheme involving the issue or grant of options over shares or other securities by the Company to, or for the benefit of, the employees of the Company or its subsidiaries under which the Director or his associate(s) may benefit.

A company shall be deemed to be a company in which a Director and/or his associate(s) owns 5% or more if and so long as (but only if and so long as) he and/or his associate(s) (either directly or indirectly) is/are the holders of or beneficially interested in 5% or more of any class of the equity share capital of such company or of the voting rights available to members of such company (or any third company through which his/their interest or that of any of his associates is derived) or of the voting rights of any class of shares available to shareholders of the Company. For the purpose of this paragraph there shall be disregarded any shares held by a Director or his associate(s) as bare or custodian trustee and in which he or any of them has no beneficial interest, any shares comprised in a trust

Edgar Filing: CNOOC LTD - Form 20-F

in which the interest of the Director or his associate(s) is/are in reversion or remainder if and so long as some other person is entitled to receive the income thereof, and any shares comprised in an authorised unit trust scheme in which the Director or his associate(s) is interested only as a unit holder and any shares which carry no voting right at general meetings and restrict dividend and return of capital rights.

Where a company in which a Director and/or his associate(s) holds 5% or more of any class of the equity share capital of such company or of the voting rights of any class of shares available to shareholders of the Company is/are materially interested in a transaction, then that Director shall also be deemed materially interested in such transaction.

If any question shall arise at any meeting of the Board as to the materiality of the interest of a Director (other than the Chairman of the meeting) or as to the entitlement of any Director (other than such Chairman) to vote or be counted in the quorum and such question is not resolved by his voluntarily agreeing to abstain from voting or not to be counted in the quorum, such question shall be referred to the Chairman of the meeting and his ruling in relation to such other Director shall be final and conclusive except in a case where the nature or extent of the interest of the Director as known to such Director has not been fairly disclosed to the Board. If any question as aforesaid shall arise in respect of the Chairman of the meeting such question shall be decided by a resolution of the Board (for which purpose such Chairman shall not be counted in the quorum and shall not vote thereon) and such resolution shall be final and conclusive except in a case where the nature or extent of the interest of such Chairman as known to such Chairman has not been fairly disclosed to the Board.

109. A Director may continue to be or become a director, managing director, joint managing director, deputy managing director, executive director, chief executive officer or manager or other officer or member of any other company in which the Company is interested, and (unless otherwise agreed) shall not be liable to account to the Company for any remuneration or other benefits received by him as a director, managing director, joint managing director,

Ex-28

deputy managing director, executive director, chief executive officer, manager or other officer or member of any such other company. The Board may exercise the voting powers conferred by the shares in any other company held or owned by the Company or exercisable by it as directors of such other company in such manner as in all respects as the Board thinks fit (including the exercise thereof in favour of any resolution appointing themselves or any of them directors, chief executive officers, managing directors, joint managing directors, deputy managing directors, executive directors, managers or other officers of such company) and any director may vote in favour of the exercise of such voting rights in manner aforesaid notwithstanding that he may be, or be about to be, appointed a director, managing director, joint managing director, deputy managing director, executive director, chief executive officer, manager or other officer of such a company, and that as such he is or may become

Edgar Filing: CNOOC LTD - Form 20-F

interested in the exercise of such voting rights in manner aforesaid. A Director of the Company may be or become a director of any company promoted by the Company or in which it may be interested as a vendor, shareholder or otherwise and no such Director will be accountable for any benefits received as a director or member of such company. A Director of the Company or his firm may not act as auditor of the Company.

CHIEF EXECUTIVE OFFICERS AND OTHER APPOINTMENTS

110. The Directors may, from time to time, appoint one or more of their number to be Chief Executive Officer or Chief Operating Officer of the Company, or to hold such office in the management, administration or conduct of the business of the Company as they may decide, and for such period and upon such terms and for such remuneration as the Directors shall think fit, and the Directors may also, from time to time (subject to the provisions of any agreement between him or them and the Company) remove him or them from office, and appoint another or others in his or their place or places.
111. A Chief Executive Officer or a Chief Operating Officer (subject to the provisions of any agreement between him and the Company) shall be subject to the same provisions as to resignation and removal as the other Directors of the Company, and shall ipso facto and immediately cease to be Chief Executive Officer or Chief Operating Officer if he shall cease to hold the office of Director.
112. The Directors may, from time to time, entrust to and confer upon any Chief Executive Officer, Chief Operating Officer or Director, holding any other office in the management, administration or conduct of the business of the Company, such of the powers exercisable under these Articles by the Directors as they may think fit, and may confer such powers for such time, and to be exercised for such objects and purposes, and upon such terms and conditions and with such restrictions as they may consider expedient, and may from time to time revoke, withdraw, alter or vary all or any of such powers.

PROCEEDINGS OF DIRECTORS

113. The Directors may meet together for the despatch of business, adjourn and otherwise regulate their meetings as they think fit, and determine the quorum necessary for the transaction of business. Until otherwise determined by the Board, two Directors shall constitute a quorum. For the purpose of this Article an alternate Director shall be counted in a quorum but, notwithstanding that an alternate Director is also a Director or is an alternate for more than one Director, he shall for quorum purposes count as only one Director. Matters arising at any meeting shall be decided by a majority of votes. In case of an equality of votes the Chairman of the meeting shall have a second or casting vote. A Director or the Secretary may, at any time, summon a meeting of the Directors. A meeting of the Board or any committee of the Board may be held by means of such telephone, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other

Ex-29

simultaneously and instantaneously, and participation in such a meeting shall constitute presence in person at such meeting.

Edgar Filing: CNOOC LTD - Form 20-F

114. Notice of a meeting of Directors shall be deemed to be duly given to a Director if it is given to him personally, in writing or by word of mouth, or sent to him at his last known address or any other address given by him to the Company for this purpose. A Director may waive notice of any meeting and any such waiver may be retrospective.
115. The Directors may elect a Chairman of the Board and determine the period for which he is to hold office; but if no such Chairman be elected, or if at any meeting the Chairman be not present within five minutes after the time appointed for holding the same, the Directors present shall choose one of their number to be Chairman of such meeting.
116. A resolution in writing signed by all the Directors except such as are temporarily unable to act through ill health or disability (or their alternate Directors) shall (so long as they constitute a quorum) be as effective for all purposes as a resolution of the Directors passed at a meeting duly convened, held and constituted. A written notification of confirmation of such resolution in writing signed by a Director shall be deemed to be his signature to such resolution in writing for the purposes of this Article. Such resolution in writing may consist of several documents, each signed by one or more Directors or alternate Directors and for this purpose, a facsimile signature of a Director or an alternate Director shall be treated as valid.
117. A meeting of the Directors at which a quorum is present shall be competent to exercise all the powers, authorities and discretions for the time being vested in or exercisable by the Board generally.
118. The Directors may, from time to time, appoint committees consisting of such one or more persons as they think fit, and may delegate any of their powers to any such committee and, from time to time, revoke any such delegation and discharge any such committee wholly or in part. Any committee so appointed shall, in the exercise of the powers so delegated, conform to any regulations that may, from time to time, be imposed upon it by the Directors. All acts done by any such committee in conformity with such regulations and in fulfilment of the purposes for which it is appointed, but not otherwise, shall have the like force and effect as if done by the Board, and the Board shall have power, with the consent of the Company in general meeting, to remunerate the members of any special committee, and charge such remuneration to the current expenses of the Company.
119. The meetings and proceedings of any such committee consisting of two or more members shall be governed mutatis mutandis by the provisions of these Articles regulating the meetings and proceedings of the Directors, insofar as the same are not superseded by any regulations made by the Directors under the last preceding Article.
120. All acts done bona fide by any meeting of the Directors or of a committee of Directors, or by any persons acting as Directors, shall, notwithstanding that there was some defect in the appointment of any such Directors or persons acting as aforesaid, or that they or any of them were disqualified, or had vacated office, be as valid as if every such person had been duly appointed and was qualified and continued to be a Director.

MINUTES

121. The Directors shall cause to be entered and kept in books provided

Edgar Filing: CNOOC LTD - Form 20-F

for the purpose minutes of the following:

- (a) all appointments of officers;

Ex-30

- (b) all the names of the Directors and any alternate Director who is not also a Director present at each meeting of the Directors and of any committee; and
- (c) all resolutions and proceedings of general meetings and of meetings of the Directors and committees.

Any such minutes of any meeting of the Directors, or of any committee, or of the Company, if purporting to be signed by the Chairman of such meeting, or by the Chairman of the next succeeding meeting, shall be receivable as evidence of the proceedings of such meeting.

THE SEAL

- 122. The Directors shall procure a common seal to be made for the Company, and shall provide for the safe custody thereof. The Seal shall not be affixed to any instrument except by the authority of the Directors or a committee authorised by the Board in that behalf, and every instrument to which the Seal shall be affixed shall be signed by one Director or some other person nominated by the Directors for the purpose, provided that the Board may either generally or in any particular case or cases resolve (subject to such restrictions as to the manner in which the Seal may be affixed as the Board may determine) that such signature may be affixed to certificates for shares or debentures or representing any other form of security by some mechanical means other than autographic to be specified in such resolution or that such certificates need not be signed by any person. Every instrument executed in the manner provided by this Article shall be deemed to be sealed and executed with the authority of the Directors previously given.
- 123. The Company may have an official seal for use for sealing certificates for shares or other securities, with the addition of the word 'Securities' on its face or in such other form as the Board may approve, issued by the Company as permitted by section 73A of the Ordinance (and no signature of any Director, officer or other person and no mechanical reproduction thereof shall be required on any such certificates or other document to which such official seal is affixed and such certificates or other document shall be valid and deemed to have been sealed and executed with the authority of the Board notwithstanding the absence of any such signature or mechanical reproduction as aforesaid) and an official seal for use abroad under the provisions of the Ordinance where and as the Board shall determine, and the Company may by writing under the Seal appoint any agents or agent, committees or committee abroad to be the duly authorised agents of the Company for the purpose of affixing and using such official seal and may impose such restrictions on the use thereof as may be thought fit. Wherever in these Articles reference is made to the Seal, the reference shall, when and so far as may be applicable, be deemed to include any such official seal as aforesaid.
- 124. The Company may exercise all the powers of having official seals

Edgar Filing: CNOOC LTD - Form 20-F

conferred by the Ordinance and such powers shall be vested in the Directors.

SECRETARY

125. The Directors shall appoint such person, persons or entities to be Secretary or Joint Secretaries of the Company for such period, at such remuneration and upon such conditions as they may think fit, and any Secretary or Joint Secretaries so appointed may be removed by them. Anything by the Ordinance or these Articles required or authorised to be done by or to the Secretary or Joint Secretaries, if the office is vacant or there is for any other reason no person capable of acting in the capacity as Secretary or Joint Secretaries, may be done by or to any assistant or deputy Secretary, or if there is no assistant or deputy Secretary capable of acting, by or to any officer of the Company authorised generally or specially in that behalf by the Board.

Ex-31

DIVIDENDS AND RESERVES

126. The Company may by ordinary resolution declare dividends but no such dividend shall exceed the amount recommended by the Directors.
127. Unless and to the extent that the rights attached to any shares or the terms of issue thereof otherwise provide, all dividends shall (as regards any shares not fully paid throughout the period in respect of which the dividend is paid) be apportioned and paid pro rata according to the amounts paid on the shares during any portion or portions of the period in respect of which the dividend is paid. For the purposes of this Article no amount paid on a share in advance of calls shall be treated as paid on the share.
128. The Directors may retain any dividend or other monies payable on or in respect of a share on which the Company has a lien, and may apply the same in or towards satisfaction of the debts and liabilities in respect of which the lien exists. The Board may deduct from any dividend or bonus payable to any member all sums of money (if any) presently payable by him to the Company on account of calls, instalments or otherwise.
129. Any resolution declaring a dividend on shares of any class, whether a resolution of the Company in general meeting or a resolution of the Directors, may specify that the same shall be payable to the persons registered as the holders of such shares at the close of business on a particular date, notwithstanding that it may be a date prior to that on which the resolution is passed, and thereupon the dividend shall be payable to them in accordance with their respective holdings so registered, but without prejudice to the rights inter se in respect of such dividend of transferors and transferees of any such shares. The provisions of this Article shall mutatis mutandis apply to capitalisations to be effected in pursuance of these Articles.
130. Any general meeting sanctioning a dividend may make a call on the members of such amount as the meeting fixes, but so that the call on each member shall not exceed the dividend payable to him, and so that the call shall be made payable at the same time as the dividend, and the dividend may, if so arranged between the Company and the member,

Edgar Filing: CNOOC LTD - Form 20-F

be set off against the call.

131. (a) In respect of any dividend which the Board has resolved to pay or any dividend declared or sanctioned or proposed to be declared or sanctioned by the Board or by the Company in general meeting, the Board may determine and announce, prior to or contemporaneously with the announcement, declaration or sanction of the dividend in question:

either

- (i) that members entitled thereto will receive in lieu of such dividend (or such part thereof as the Board may think fit) an allotment of shares credited as fully paid provided that the members are at the same time accorded the right to elect to receive such dividend (or part thereof as the case may be) in cash in lieu of such allotment. In such case, the following provisions shall apply:

- (A) the basis of any such allotment shall be determined by the Board;
- (B) the Board, after determining the basis of allotment and notwithstanding that the number of shares to be allotted may not be calculated until after notice to the members has been given as required by the provisions of this sub-paragraph and subject to the provisions of sub-paragraph (D) below, shall give notice in writing to the members of the right of election accorded to them and shall send

Ex-32

with such notice forms of election and specify the procedure to be followed and the place at which and the latest date and time by which duly completed forms of election must be lodged in order to be effective which shall be not less than two weeks from the date on which the notice above referred to was despatched to the members;

- (C) the right of election accorded to members as aforesaid may be exercised in whole or in part;
- (D) the Board may resolve:
- (I) that the right of election accorded to members as aforesaid may be exercised so as to take effect on all future occasions (if any) when the Board makes a determination pursuant to sub-paragraph (i) of this paragraph (a); and/or
- (II) that a member who does not exercise the right of election accorded to him as aforesaid either in whole or in part may notify the Company that he will not exercise the right of election accorded to him in respect of all

Edgar Filing: CNOOC LTD - Form 20-F

future occasions (if any) when the Board makes a determination pursuant to sub-paragraph (i) of this paragraph (a) of this Article.

Provided that a member may exercise such election or give such notice in respect of all but not, some of the shares held by him and may at any time give seven days notice in writing to the Company of the revocation of such an election or such a notice which revocation shall take effect at the expiry of such seven days, and until such revocation has taken effect, the Board shall not be obligated to give to such member notice of the right of election accorded to him or send to him any form of election;

(E) the dividend (or that part of the dividend in lieu of which an allotment of shares is to be made as aforesaid) shall not be payable in cash on shares in respect whereof the cash election has not been duly exercised (the "Non-Elected Shares") and in lieu thereof shares shall be allotted credited as fully paid to the holders of the Non-Elected Shares on the basis of allotment determined as aforesaid and for such purpose the Board shall capitalise and apply out of the amount standing to the credit of share premium account or out of any part of the undivided profits of the Company (including profits carried and standing to the credit of any reserve or reserves or other special account) as the Board may determine, a sum equal to the aggregate nominal amount of shares to be allotted on such basis and apply the same in paying up in full the appropriate number of unissued shares for allotment and distribution to and amongst the holders of the Non-Elected Shares on such basis;

(F) the Board may resolve that the shares to be allotted shall be allotted at a premium provided that the premium is credited as fully paid up and in such case the Board shall in addition to the amount to be capitalised and applied pursuant to sub-paragraph (E) above, and for the purposes therein set out, capitalise and apply out of the amount standing to the credit of the share premium account or out of any part of the undivided profits of the Company (including profits carried

Ex-33

and standing to the credit of any reserve or reserves or other special account) as the Directors may determine, a sum equal to the aggregate amount of the premium on the shares to be allotted and shall apply the same together with the sum to be applied pursuant to sub-paragraph (E) above and on the basis therein set out in paying up in full the appropriate number of unissued shares for allotment and distribution to and amongst the holders of the Non-Elected Shares;

Edgar Filing: CNOOC LTD - Form 20-F

or

- (ii) that members entitled to such dividend be entitled to elect to receive an allotment of shares credited as fully paid in lieu of the whole or such part of the dividend as the Board may think fit. In such case, the following provisions shall apply:
- (A) the basis of any such allotment shall be determined by the Board;
 - (B) the Board, after determining the basis of allotment and notwithstanding that the number of shares to be allotted may not be calculated until after notice to the members has been given as required by the provisions of this sub-paragraph and subject to the provisions of sub-paragraph (D) below, shall give notice in writing to the members of the right of election accorded to them and shall send with such notice forms of election and specify the procedure to be followed and the place at which and the latest date and time by which duly completed forms of election must be lodged in order to be effective which shall be not less than two weeks from the date on which the notice above referred to was despatched to the members;
 - (C) the right of election accorded to members as aforesaid may be exercised in whole or in part;
 - (D) the Board may resolve;
 - (I) that the right of election accorded to members as aforesaid may be exercised so as to take effect on all future occasions (if any) when the Board makes a determination pursuant to sub-paragraph (ii) of this paragraph (a); and/or
 - (II) that a member who does not exercise the right of election accorded to him as aforesaid either in whole or in part may notify the Company that he will not exercise the right of election accorded to him in respect of all future occasions (if any) when the Board makes determination pursuant to sub-paragraph (ii) of paragraph (a).

Provided that a member may exercise such election or give such notice in respect of all but not some of the shares held by him and may at any time give seven days' notice in writing to the Company of the revocation of such an election or such a notice which revocation shall take effect at the expiry of such seven days, and until revocation has taken effect, the Board shall not be obliged to give to such member notice of the right of election accorded to him or send to him any form of election;

- (E) the dividend (or that part of the dividend in respect of which a right of election has been accorded) shall not be payable on shares in respect whereof the share election has been duly exercised (the Elected Shares) and in lieu thereof shares shall be allotted credited as fully paid to the holders of the Elected Shares on the basis of allotment determined as aforesaid and for such purpose the Board shall capitalise and apply out of the amount standing to the credit of share premium account or out of any part of the undivided profits of the Company (including profits carried and standing to the credit of any reserve or reserves or other special account) as the Board may determine, a sum equal to the aggregate nominal amount of shares to be allotted on such basis and apply the same in paying up in full the appropriate number of unissued shares for allotment and distribution to and amongst the holders of the Elected Shares on such basis;
 - (F) the Board may resolve that the shares to be allotted shall be allotted at a premium provided that the premium is credited as fully paid up and in such case the Board shall in addition to the amount to be capitalised and applied pursuant to sub-paragraph (E) above, and for the purpose therein set out, capitalise and apply out of the amount standing to the credit of the share premium account or out of any part of the undivided profits of the Company (including profits carried and standing to the credit of any reserve or reserves or other special account) as the Board may determine, a sum equal to the aggregate amount of the premium on the shares to be allotted and shall apply the same together with the sum to be applied pursuant to sub-paragraph (E) above and on the basis therein set out in paying up in full the appropriate number of unissued shares for allotment and distribution to and amongst holders of the Elected Shares.
- (b) The shares allotted pursuant to the provisions of paragraph (a) of this Article shall rank pari passu in all respects with the fully paid shares then in issue save only as regards participation:
- (i) in the relevant dividend (or the right to receive or to elect to receive an allotment of shares in lieu thereof as aforesaid); or
 - (ii) in any other distributions, bonuses or rights paid, made, declared or announced prior to or contemporaneously with the payment or declaration of the relevant dividend

unless, contemporaneously with the announcement by the Board of its proposal to apply the provisions of sub-paragraph (i) or (ii) of paragraph (a) of this Article in relation to the relevant dividend or contemporaneously with their announcement of the distribution, bonus or rights in question, the Board shall specify that the shares to be allotted pursuant to the

Edgar Filing: CNOOC LTD - Form 20-F

provisions of paragraph (a) of this Article shall rank for participation in such distribution, bonus or rights.

- (c) The Board may do all acts and things considered necessary or expedient to give effect to any capitalisation pursuant to the provisions of paragraph (a) of this Article with full power to the Board to make such provisions as they think fit in the case of shares becoming distributable in fractions (including provisions whereby, in whole or in part, fractional entitlements are aggregated and sold and the net proceeds distributed to those entitled, or are disregarded or rounded up or down or whereby the benefit of fractional entitlements accrues to the Company rather than to the members

Ex-35

concerned). The Board may authorise any person to enter into on behalf of all members interested, an agreement with the Company providing for such capitalisation and matters incidental thereto and any agreement made pursuant to such authority shall be effective and binding on all concerned.

- (d) The Company may upon the recommendation of the Board by ordinary resolution resolve in respect of any one particular dividend of the Company that notwithstanding the provisions of paragraph (a) of this Article a dividend may be satisfied wholly in the form of an allotment of shares credited as fully paid up without offering any right to shares to elect such dividend in cash in lieu of such allotment.
- (e) The Board may on any occasion when it makes a determination pursuant to paragraph (a) of this Article, resolve that no allotment of shares or rights of election for shares to be issued pursuant to such determination shall be made available or made to any members with registered addresses in any particular territory or territories or to a Depositary where the allotment of shares or the circulation of an offer of such rights of election would or might, in the opinion of the Board, be unlawful or would or might, in the opinion of the Board, be unlawful in the absence of a registration statement or other special formalities, and in such event the provision aforesaid shall be read and construed subject to such resolution and the only entitlement of members in any such territory or territories shall be to receive in cash the relevant dividend resolved to be paid or declared. "Depositary" means a custodian or other person (or a nominee for such custodian or other person) appointed under contractual arrangements with the Company or other arrangements approved by the Board whereby such custodian or other person or nominee holds or is interested in shares of the Company or rights or interests in shares of the Company and issues securities or other documents of title or otherwise evidencing the entitlement of the holder thereof to or to receive such shares, rights or interests, provided and to the extent that such arrangements have been approved by the Board for the purpose of these Articles and shall include, where approved by the Board, the trustees (acting in their capacity as such) of any employees' share scheme established by the Company or any other scheme or arrangements principally for the benefit of employees of the Company and/or its subsidiaries which have

Edgar Filing: CNOOC LTD - Form 20-F

been approved by the Board.

- (f) The Board may at any time resolve to cancel all (but not some only) of the elections made and the notices given by the members pursuant to sub-paragraphs (i)(D) and (ii)(D) of paragraph (a) of this Article by giving seven days' notice in writing to the relevant members.
 - (g) The Board may on any occasion determine that rights of election under paragraph (a) of this Article shall not be made available to members who are registered in the Register, or in respect of shares the transfer of which is registered, after a date fixed by the Board and in such event the provisions aforesaid shall be read and construed subject to such determination.
132. No dividend shall be payable except out of the profits or other distributable reserves of the Company, and no dividend shall bear interest as against the Company.
133. The Directors may, if they think fit, from time to time, resolve to pay to the members such interim dividends as appear to the Directors to be justified by the reserves of the Company. If at any time the share capital of the Company is divided into different classes the Directors may resolve to pay such interim dividends in respect of those shares in the capital of the Company which confer on the holders thereof deferred or non-preferred rights as well as in respect of those shares which confer on the holders thereof preferential or special rights in regard to dividend, and provided that the Directors act bona fide they shall not incur any

Ex-36

responsibility to the holders of shares conferring a preference for any damage that they may suffer by reason of the payment of an interim dividend on any shares having deferred or non-preferred rights. The Directors may also resolve to pay at half-yearly or at other suitable intervals to be settled by them any dividend which may be payable at a fixed rate if they are of the opinion that the reserves of the Company justify the payment.

134. All dividends unclaimed for one year after having become payable may be invested or otherwise made use of by the Directors for the benefit of the Company until claimed, and all dividends unclaimed for six years after having become payable may be forfeited by the Directors and shall revert to the Company. The payment into a separate account of any monies payable in respect of a dividend shall not constitute the Company a trustee in respect thereof for any person.
135. Unless otherwise directed any dividend or other monies payable in cash on or in respect of a share may be paid by cheque or warrant sent through the post to the registered address of the member or person entitled, or, in the case of joint holders, to the registered address of that one whose name stands first on the Register in respect of the joint holding, or addressed to such person at such address as the holder or joint holders shall direct. The Company shall not be liable or responsible for any cheque or warrant lost in transmission nor for any dividend or other monies lost to the member or person entitled thereto by the forged endorsement of any cheque or warrant. Payment of the cheque or warrant by the banker on whom it is

Edgar Filing: CNOOC LTD - Form 20-F

drawn shall be a good discharge to the Company.

136. The Directors may distribute in specie or in kind among the members in satisfaction in whole or in part of any dividend any of the assets of the Company, and in particular any shares or securities of other companies to which the Company is entitled and where any difficulty arises in regard to the distribution the Board may settle the same as it thinks expedient, and in particular may issue fractional certificates, disregard fractional entitlements or round the same up or down, and may fix the value for distribution of such specific assets, or any part thereof, and may determine that cash payments shall be made to any members upon the footing of the value so fixed in order to adjust the rights of all parties, and may vest any such specific assets in trustees as may seem expedient to the Board and may appoint any person to sign any requisite instruments of transfer and other documents on behalf of the persons entitled to the dividend and such appointment shall be effective. Where required, a contract shall be filed in accordance with the provisions of the Ordinance and the Board may appoint any person to sign such contract on behalf of the persons entitled to the dividend and such appointment shall be effective.
137. Before recommending a dividend the Directors may set aside any part of the net profits of the Company to one or more reserves, and may apply the same either by employing it in the business of the Company or by investing it in such manner as they shall think fit and the income arising from such reserves shall be treated as part of the profits of the Company. Such reserves may be applied for the purpose of maintaining the property of the Company, replacing wasting assets, meeting contingencies, forming an insurance fund, equalising dividends, paying special dividends, or for any other purpose for which the undivided profits of the Company may lawfully be used, and until the same shall be so applied it shall be deemed to remain undivided profit. The Directors may also carry forward as undivided profit any profit or balance of profit which they shall not think fit to recommend as dividend or to place to reserve.

AUTHENTICATION OF DOCUMENTS

138. Any Director or the Secretary or other authorised officer of the Company shall have power to authenticate any documents affecting the constitution of the Company and any resolutions passed by the Company or the Directors or any committee, and any books, records,

Ex-37

documents and accounts relating to the business of the Company, and to certify copies thereof or extracts therefrom as true copies of extracts; and where any books, records, documents or accounts are elsewhere than at the Office, the local manager or such other officer of the Company having the custody thereof shall be deemed to be the authorised officer of the Company as aforesaid. A document purporting to be a copy of a resolution or an extract from the minutes of a meeting of the Company or of the Directors or any local board or committee which is certified as aforesaid shall be conclusive evidence in favour of all persons dealing with the Company upon the faith thereof that such resolution has been duly passed or, as the case may be, that any minute so extracted is a true and accurate record of proceedings at a duly constituted meeting.

Edgar Filing: CNOOC LTD - Form 20-F

CAPITALISATION OF RESERVES ETC.

139. The Company in general meeting may upon the recommendation of the Directors resolve to capitalise any part of the Company's reserves or undivided profits not required for the payment or provision of the dividend on any shares with a preferential right to a dividend, and accordingly that such part be divided amongst the members who would have been entitled thereto if distributed by way of dividend and in the same proportions, on condition that the same be not paid in cash but be applied as a capitalisation issue either in or towards paying up any amounts for the time being unpaid on any shares held by such members respectively or paying up in full unissued shares or debentures or other securities of the Company to be allotted and distributed credited as fully paid to and amongst such members in the proportion aforesaid, or partly in one way and partly in the other:

Provided that any amount standing to the credit of a share premium account or a capital redemption reserve fund may, for the purposes of this Article, only be applied in the paying up of unissued shares to be issued to members of the Company as fully paid-up shares.

140. Whenever such a resolution as aforesaid shall have been passed the Directors shall make all appropriations and applications of the reserves and undivided profits resolved to be capitalised thereby, and all allotments and issues of fully paid-up shares, debentures or other securities and generally shall do all acts and things required to give effect thereto.
141. For the purpose of giving effect to any resolution under Articles 136 and 139 hereof the Directors may settle any difficulty which may arise in regard to the distribution or capitalisation issue as they think expedient, and in particular may issue fractional certificates, and may fix the value for distribution of any specific assets, and may determine that cash payments shall be made to any members based upon the value so fixed or that fractions of such value as the Directors may determine may be disregarded in order to adjust the rights of all parties, and may vest any such cash or specific assets in trustees upon such trusts for the persons entitled to the distribution or capitalisation issue as may seem expedient to the Directors. The provisions of the Ordinance in relation to the filing of contracts for allotment shall be observed, and the Directors may appoint any person to sign such contract on behalf of the persons entitled to share in the distribution or capitalisation issue, and such appointment shall be effective and binding upon all concerned, and the contract may provide for the acceptance by such persons of the shares, debentures or other securities to be allotted and distributed to them respectively in satisfaction of their claims in respect of the sum so capitalised.

ACCOUNTS AND AUDITORS

142. The Directors shall cause proper books of account to be kept with respect to:
- (a) all sums of money received and expended by the Company and the matters in respect of which such receipt and expenditure take place; and

Edgar Filing: CNOOC LTD - Form 20-F

(b) the assets and liabilities of the Company.

Proper books shall not be deemed to be kept if there are not kept such books of accounts as are necessary to give a true and fair view of the transactions.

143. The Directors shall from time to time, in accordance with the provisions of the Ordinance, cause to be prepared and to be laid before the Company in general meeting such profit and loss accounts, balance sheets, group accounts (if any) and reports as are required by the Ordinance.

144. A copy of every balance sheet (including every document required by law to be annexed thereto) which is to be laid before the Company in general meeting, together with a copy of the Directors' report and a copy of the Auditors' report, shall not less than twenty-one days before the date of the meeting be sent to every member of, and every holder of debentures of, the Company and all persons other than members or holders of debentures of the Company, being persons entitled to receive notices of general meetings of the Company:

Provided that this Article shall be subject to Article 144B and shall not require a copy of those documents to be sent to any person of whose address the Company is not aware, to more than one of the joint holders of any shares or debentures, nor to any person to whom the Company has duly sent a copy of a summary financial report (as defined in the Ordinance) in accordance with the provisions of the Ordinance and Article 144A.

144A Subject to Article 144B, a copy of a summary financial report in the form and containing the contents as required by the Ordinance shall be sent by the Company in accordance with the provisions of the Ordinance to a person who has been offered and agrees, in accordance with the provisions of the Ordinance, to be sent a copy of such summary financial report.

144B Where a person has, in accordance with the provisions of the Ordinance where applicable, consented to treat the publication or the making available of the relevant financial documents and/or the summary financial report (each as defined in the Ordinance) on a computer network or by such other means as discharging the Company's obligation under the Ordinance to send a copy of the relevant financial documents and/or the summary financial report (each as defined in the Ordinance), then the publication or the making available by the Company, in accordance with the provisions of the Ordinance where applicable, on such computer network or by such other means of the relevant financial documents or the summary financial report (each as defined in the Ordinance) shall, in relation to each consenting person, be deemed to discharge the Company's obligations under Article 144 and/or Article 144A.

145. Auditors shall be appointed and their duties regulated in the manner provided by the Ordinance.

146. Subject as otherwise provided by the Ordinance the remuneration of the Auditors shall be fixed by the Company in general meeting provided always that in respect of any particular year the Company in general meeting may delegate the fixing of such remuneration to the Board.

Edgar Filing: CNOOC LTD - Form 20-F

147. Every statement of accounts audited by the Company's Auditors and presented by the Board at a general meeting shall after approval at such meeting be conclusive except as regards any error discovered therein within three months of the approval thereof. Whenever any such error is discovered within that period, it shall forthwith be corrected, and the statement of accounts amended in respect of the error shall be conclusive.

Ex-39

NOTICES

148. Any notice, document or communication to be given or issued to the members shall be in writing in any one or more languages, may be served by the Company upon any member either personally or by sending it by mail, postage prepaid, addressed to such member at his registered address, and, in any case where the registered address of such member is outside Hong Kong, by prepaid airmail, or by delivering, sending or otherwise making available through electronic or other means to such member.
149. Any notice sent by mail shall be deemed to have been served in the case where the member's registered address is in Hong Kong on the day following that on which the notice is mailed in Hong Kong and in any other case on the fifth day after the day of mailing. In proving such service it shall be sufficient to prove that the notice was properly addressed and mailed, postage prepaid.
150. Any person who, by operation of law, transfer or other means whatsoever, shall become entitled to any share shall be bound by every notice in respect of such share which, previously to his name and address being entered in the Register, shall be duly given to the person from whom he derives his title to such share.
151. Any notice, document or communication delivered or sent by mail to, or left at the registered address of, or made available through electronic or other means to, any member, in pursuance of these Articles, shall, notwithstanding such member be then deceased or bankrupt, and whether or not the Company have notice of his death or bankruptcy, be deemed to have been duly served in respect of any shares held by such member, whether held solely or jointly with other persons by such member, until some other person be registered in his stead as the holder or joint holder thereof, and such service shall for all purposes of these Articles be deemed a sufficient service of such notice, document or communication on his executors, administrators or assigns and all persons (if any) jointly interested with him in any such share.
152. Any summons, notice, order or other document required to be sent to or served upon the Company, or upon any officer of the Company, may be sent or served by leaving the same or sending it through the post in a prepaid letter, envelope or wrapper, addressed to the Company or to such officer at the Office.
153. The signature to any notice to be given by the Company may be written or printed.
154. Subject to any special provisions contained in these Articles or in the Ordinance, all notices required to be given by advertisement

Edgar Filing: CNOOC LTD - Form 20-F

shall be advertised in at least one daily Chinese and one daily English newspaper circulating in Hong Kong.

155. In reckoning the period for any notice given under these Articles, the day on which notice is served, or deemed to be served, and the day for which such notice is given shall be excluded.

WINDING UP

156. If the Company shall be wound up, the surplus assets remaining after payment to all creditors shall be divided among the members in proportion to the capital paid up on the shares held by them respectively, and if such surplus assets shall be insufficient to repay the whole of the paid-up capital, they shall be distributed so that, as nearly as may be, the losses shall be borne by the members in proportion to the capital paid upon on the shares held by them respectively. This Article is, however, subject to the rights of the holders of any shares which may be issued on special terms or conditions.

Ex-40

157. If the Company shall be wound up, the liquidator (whether voluntary or official) may, with the sanction of a special resolution, divide among the members in specie or kind the whole or any part of the assets of the Company or vest any part of the assets of the Company in trustees upon such trusts for the benefit of the members or any of them as the resolution shall provide. Any such resolution may provide for and sanction a distribution of any specific assets amongst different classes of members otherwise than in accordance with their existing rights, but each member shall in that event have a right of dissent and other ancillary rights in the same manner as if such resolution were a special resolution passed pursuant to section 237 of the Ordinance.
158. In the event of a winding-up of the Company in Hong Kong, every member of the Company who is not for the time being in Hong Kong shall be bound, within fourteen days after the passing of an effective resolution to wind up the Company voluntarily, or within the like period after the making of an order for the winding up of the Company, to serve notice in writing on the Company appointing some person resident in Hong Kong upon whom all summonses, notices, processes, orders and judgements in relation to or under the winding up of the Company may be served and, in default of such nomination, the liquidator of the Company shall be at liberty on behalf of such member to appoint some such person, and service upon any such appointee shall be deemed to be a good personal service on such member for all purposes, and where the liquidator makes any such appointment he shall, with all convenient speed, give notice thereof to such member by advertising in such English language daily newspaper circulating in Hong Kong as he shall deem appropriate or by a registered letter sent through the post and addressed to such member at his address as appearing in the Register, and such notice shall be deemed to be served on the day on which the advertisement appears or the letter is posted.

INDEMNITY

159. Subject to the provisions of the Ordinance, every Director or other

Edgar Filing: CNOOC LTD - Form 20-F

officer of the Company shall be indemnified out of the assets of the Company against all costs, charges, expenses, losses and liabilities which he may sustain or incur in or about the execution of his office or otherwise in relation thereto and in particular and without prejudice to the generality of the foregoing every Director and other officer of the Company shall be indemnified by the Company against, and it shall be the duty of the Directors out of the funds of the Company to pay all costs, losses and expenses which any such Director and other officer may incur or become liable for by reason of any contract entered into, or act or thing done by him or them as such Director and other officer, or in any way in the discharge of their or his duties, including travelling expenses; and the amount for which such indemnity is provided shall immediately attach as a lien on the property of the Company, and have priority as between the members over all other claims. Any person who is a Director or other officer of the Company shall not be liable (except in consequence of his own dishonesty) for the acts, receipts, neglects or defaults of any other Director or other officer of the Company or for any losses or expenses incurred by the Company through the insufficiency or deficiency of title to any property acquired by order of the Directors for or on behalf of the Company, or for the insufficiency or deficiency of any security in or upon which any of the moneys of the Company shall be invested, or for any loss or damage arising from the bankruptcy, insolvency or tortuous act of any person with whom any moneys, securities or effects of the Company shall be deposited or for any loss occasioned by any error of judgement, omission, default or oversight on their or his part, or for any other loss, damage or misfortune whatever which shall happen in the execution of the duties of his office or in relation thereto. Each member of the Company agrees to waive any claim or right of action he might have, whether individually or by or in the right of the Company, against any Director on account of any action taken by such Director, or the failure of such Director to take any action in the performance of his duties with or for the Company; provided that such waiver shall not extend to any matter in respect of any fraud or dishonesty which may attach to such Director.

Ex-41

159A. Subject to Article 159 and the provisions of and so far as may be permitted by the Ordinance, the Company may purchase and maintain for any officer of the Company:

- (i) insurance against any liability to the Company, a related company or any other party in respect of any negligence, default, breach of duty or breach of trust (save for fraud) of which he may be guilty in relation to the Company or a related company; and
- (ii) insurance against any liability incurred by him in defending any proceedings, whether civil or criminal, taken against him for any negligence, default, breach of duty or breach of trust (including fraud) of which he may be guilty in relation to the Company or a related company.

In this Article 159A, "related company" in relation to the Company means any company that is the Company's subsidiary or holding company or a subsidiary of the Company's holding company.

Edgar Filing: CNOOC LTD - Form 20-F

DESTRUCTION OF DOCUMENTS

160

- (a) Subject to the Ordinance, the Company may destroy:
- (i) any share certificate which has been cancelled at any time after the expiry of one year from the date of such cancellation;
 - (ii) any dividend mandate or any variation or cancellation thereof or any notification of change of name or address at any time after the expiry of two years from the date on which such mandate, variation, cancellation or notification was recorded by the Company;
 - (iii) any instrument of transfer of shares which has been registered at any time after the expiry of six years from the date of registration; and
 - (iv) any other document, on the basis of which any entry in the register is made, at any time after the expiry of six years from the date on which an entry in the register was first made in respect of it;

and it shall conclusively be presumed in favour of the Company that every share certificate so destroyed was a valid certificate duly and properly cancelled and that every instrument of transfer so destroyed was a valid and effective instrument duly and properly registered and that every other document destroyed hereunder was a valid and effective document in accordance with the recorded particulars thereof in the books or records of the Company. Provided always that:

- (1) the foregoing provisions of this Article shall apply only to the destruction of a document in good faith and without express notice to the Company that the preservation of such document was relevant to a claim;
- (2) nothing contained in this Article shall be construed as imposing upon the Company any liability in respect of the destruction of any such document earlier than as aforesaid or in any case where the conditions of proviso (1) above are not fulfilled; and
- (3) references in this Article to the destruction of any document include reference to its disposal in any manner.

Ex-42

- (b) Notwithstanding any provision contained in these Articles, the Directors may, if permitted by applicable law, authorise the destruction of documents set out in sub-paragraph (a)(i) to (iv) of this Article and any other documents in relation to share registration which have been microfilmed or electronically stored by the Company or by the share registrar on its behalf provided always that this Article shall apply only to the destruction of a document in good faith and without express notice to the Company and its share registrar that the preservation of such document was relevant to a claim.

Edgar Filing: CNOOC LTD - Form 20-F

UNTRACEABLE MEMBERS

161. Without prejudice to the rights of the Company, the Company may cease sending such cheques for dividend entitlements or dividend warrants by post if such cheques or warrants have been left uncashed on two consecutive occasions. However, the Company may exercise the power to cease sending cheques for dividend entitlements or dividend warrants after the first occasion on which such a cheque or warrant is returned undelivered.
162. The Company shall have the power to sell, in such manner as the Board thinks fit, any shares of a member who is untraceable, but no such sale shall be made unless:
- (a) all cheques or warrants, being not less than three in total number, for any sum payable in cash to the holder of such shares in respect of them sent during the relevant period in the manner authorised by the Articles of Association of the Company have remained uncashed;
 - (b) so far as it is aware at the end of the relevant period, the Company has not at any time, during the relevant period received any indication of the existence of the member who is the holder of such shares or of a person entitled to such shares by death, bankruptcy or operation of law;
 - (c) the Company has caused an advertisement to be inserted in English in one English language daily newspaper and in Chinese in one Chinese language daily newspaper (provided that the aforesaid daily newspapers shall be included in the list of newspapers issued and published in the Hong Kong Government Gazette for the purpose of section 71A of the Ordinance) advertising its intention to sell such shares and a period of three months has elapsed since the date of such advertisement; and
 - (d) the Company has notified the stock exchange in the relevant territory of its intention to effect such sale.

For the purpose of the foregoing, "relevant period" means the period commencing twelve years before the date of publication of the advertisement referred to in paragraph (c) of this Article and ending at the expiry of the period referred to in that paragraph.

The manner, timing and terms of any sale of shares pursuant to this Article (including but not limited to the price or prices at which the same is made) shall be such as the Board determines, based upon advice from such bankers, brokers or other persons as the Board considers appropriate consulted by it for the purposes, to be reasonably practicable having regard to all the circumstances including the number of shares to be disposed of and the requirement that the disposal be made without delay and the Board shall not be liable to any person for any of the consequences of reliance on such advice.

163. To give effect to any such sale pursuant to Article 162 the Board may authorise any person to transfer the said shares and the instrument of transfer signed or otherwise executed by or on behalf of such person shall be as effective as if it had been executed by the registered holder

Ex-43

or the person entitled by transmission to such shares, and the purchaser shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale. The net proceeds of the sale will belong to the Company and, upon receipt by the Company of such proceeds, it shall become indebted to the former member by carrying all moneys in respect thereof to a separate account for an amount equal to such net proceeds. No trusts shall be created in respect of such debt and no interest shall be payable in respect of it and the Company shall not be required to account for any money earned from the net proceeds which may be employed in the business of the Company or as it thinks fit. Any sale under this Article shall include any additional shares which during the relevant period or during any period ending on the date when all the requirements of sub-paragraphs (a) to (d) of Article 162 have been satisfied have been issued in respect of those held at the beginning of such relevant period and shall be valid and effective notwithstanding that the member holding the shares sold is dead, bankrupt or otherwise under any legal disability or incapacity.

INFORMATION

164. No member of the Company shall be entitled to require discovery of or any information in respect of any detail of the Company's trading and any matter which is or may be in the nature of a trade secret or secret process which may relate to the conduct of the business of the Company and which in the opinion of the Directors it will be inexpedient in the interests of the members of the Company to communicate to the public.

(Summary Translation)

EQUITY TRANSFER AGREEMENT

between

CNOOC CHINA LIMITED

and

CHINA NATIONAL OFFSHORE OIL CORPORATION

September 5, 2003

Edgar Filing: CNOOC LTD - Form 20-F

Ex-45

EQUITY TRANSFER AGREEMENT

This Agreement is entered into by and between the following parties in Beijing, the People's Republic of China ("China") on September 5, 2003:

1. CNOOC China Limited, a wholly foreign-owned enterprise established and existing under the laws of China, with its address at New Oil Town, Tanggu, Tianjin, China (hereinafter the "CNOOC China"); and
2. China National Offshore Oil Corporation, a state-owned enterprise established and existing under the laws of China, with its address at 9th Floor, CNOOC Building, No. 6 Dong Zhi Men Wai Xiao Jie, Dong Cheng District, Beijing, China (hereinafter "CNOOC").

WHEREAS:

1. CNOOC holds 94.70% of the registered capital of CNOOC Finance Corporation Limited (hereinafter the "Company"), China Offshore Oil & Gas Development and Utilization Corporation (hereinafter "CNOOC Oil & Gas") holds 3.53% of the Company's registered capital and CNOOC Engineering Limited (hereinafter "CNOOC Engineering") holds 1.77% of the Company's registered capital; and
2. CNOOC desires to transfer 31.80% of the Company's registered capital it holds to CNOOC China (hereinafter the "Transferred Interest").

NOW THEREFORE, on the basis of equality and mutual benefits and upon friendly negotiations, the parties hereby agree as follows:

Article 1. Definitions

- 1.1 As used in this Agreement, and unless otherwise provided in this agreement, the following terms shall have the meanings indicated:

"Financial reports" shall mean the balance sheet as at December 31, 2002, the income statement, the statement of changes in equity, and the cash flow statement for fiscal year 2002 audited by the independent auditor Xiamen Tianjian Huatian Accountant Firm;

"Rmb" shall mean the legal currency of China;

"Articles of Association" shall mean the Company's articles of association;

"Consideration" shall have the meaning given to such term in Article 3 herein;

"Conditions Precedent" shall have the meaning given to such term in Article 4 herein;

"Completion" shall have the meaning given to such term in Article 5 herein;

Edgar Filing: CNOOC LTD - Form 20-F

1.2 In this agreement:

- (i) agreement or other documents shall mean the related agreement and documents, as may be amended, supplemented or modified from time to time;

Ex-46

- (ii) unless otherwise provided, provisions, exhibits and schedules referred to herein shall mean the provisions, exhibits and schedules of this agreement, which constitute an indispensable part of thereof.

Article 2. Equity Transfer

- 2. CNOOC agrees to sell to CNOOC China, and CNOOC China agrees to purchase from CNOOC the Transferred Interest pursuant to the terms and conditions of this agreement. Immediately after the transfer, CNOOC will hold 62.90% of the Company's registered capital, CNOOC China will hold 31.80% of the Company's registered capital, CNOOC Oil & Gas will hold 3.53% of the Company's registered capital, and CNOOC Engineering will hold 1.77% of the Company's registered capital.

Article 3. Consideration

- 3. CNOOC China shall pay to CNOOC Rmb 450,000,000 in cash payment pursuant to the terms of this agreement as the consideration for the Transferred Interest .

Article 4. Conditions Precedent

4.1 The conditions precedent to the Completion are:

- (i) all requisite consents or approvals from relevant regulatory authorities or government agencies, including the China Banking Regulatory Commission, have been obtained;
- (ii) consents or approvals have been obtained from related third-parties; and
- (iii) all procedural requirements have been satisfied pursuant to applicable laws and regulations.

All the conditions precedent shall have been met prior to December 31, 2002, or such other date the parties mutually agree, otherwise this agreement will terminate automatically.

- 4.2 CNOOC undertakes to CNOOC China that it will make every effort to cause the satisfaction of the conditions precedent, and will notify CNOOC China once such conditions precedent have been satisfied.

Article 5. Completion

- 5. Upon satisfaction of the conditions precedent, the parties will complete the equity transfer within five (5) business days, or such other date the parties mutually agree, pursuant to the Articles of Association. CNOOC China shall pay to CNOOC the sum of the consideration, and CNOOC shall complete the necessary procedures for

Edgar Filing: CNOOC LTD - Form 20-F

the transfer of the equity interest.

Article 6. Representations and Warranties

6. CNOOC undertakes to CNOOC China that its representations and warranties provided to CNOOC China in relation to this equity transfer are true, correct and not misleading. CNOOC will be liable for any losses incurred by CNOOC China due to any incorrectness of such representations and warranties.

Ex-47

Article 7. Dispute Resolution

7. In the event that a dispute arises, the parties shall resolve the dispute by virtue of friendly negotiation or mediation through their representatives. If the dispute cannot be so resolved within 90 days, either party may bring a suit in a court having jurisdiction.

Article 8. Notice

- 8.1 All notices relating to this agreement shall be given in writing, and shall be delivered by one party to the other party by email, or by telegram or facsimile to the addresses listed in the preamble of this agreement or such other addresses the parties designate from time to time.
- 8.2 If the notice is given by personal delivery, notice is deemed received when the delivery is made; if by mail or telegram, notice is deemed received on the date of the acknowledge receipt; if by facsimile, notice is deemed received when transmission starts.

Article 9. Governing Law

9. This agreement shall be governed by the laws of China and should be construed and executed under the Laws of China.

Article 10. Language

10. This agreement is written in the Chinese Language.

Article 11. Effective Date

11. This agreement will become effective after it has been signed by the authorized representatives of the parties.

Exhibit 4.39

(Summary Translation)

FRAMEWORK AGREEMENT

between

CNOOC FINANCE CORPORATION LIMITED

and

CNOOC LIMITED

April 8, 2004

Ex-49

FRAMEWORK AGREEMENT

This Agreement is entered into by and between the following parties in Beijing, the People's Republic of China ("China") on April 8, 2004:

CNOOC Finance Corporation Limited, a limited liability company established and existing under the laws of China, with its address at 6th Floor, CNOOC Building, No. 6 Dong Zhi Men Wai Xiao Jie, Dong Cheng District, Beijing, China (hereinafter the "Finance Company" or "Party A"); and

CNOOC Limited, a company established and existing under the laws of Hong Kong, with its address at 9th Floor, CNOOC Building, No. 6 Dong Zhi Men Wai Xiao Jie, Dong Cheng District, Beijing, China (hereinafter "Party B"); and

WHEREAS:

1. Party A is a non-bank finance company, and its businesses include, among others, providing financial services to member companies of the China National Ocean Oil Corporation (CNOOC);

Edgar Filing: CNOOC LTD - Form 20-F

2. Party B is a member company of CNOOC and desires to use the financial services provided by Party A; and
3. The Parties desire to make fair and reasonable arrangements for the services to be provided to each other.

Now Therefore, on the basis of equality and mutual benefits and upon friendly negotiations, the Parties hereby agree as follows:

Article 1. Basic Principles

- 1.1 In accordance with the terms hereof and the pricing principles and fee standards set forth herein, Party A agrees to provide certain financial services (hereinafter the "Financial Services") to Party B, and Party B agrees to pay the relevant fees (hereinafter the "Service Fees") to Party A.
- 1.2 If necessary, the Parties will enter into separate agreements in writing for the Financial Services to be provided hereunder.

Article 2. Basic Contents of the Financial Services

- 2.1 The Financial Services to be mutually provided by the Parties under this Agreement shall include the following:

The Finance Company agrees to provide to Party B such services as financial settlements, and deposits and loans among CNOOC and its member companies. The rights and obligations of the Parties in connection with Party B's provision of the Financial Services shall be subject to a separate agreement to be entered into by the Parties based on the principles agreed upon herein.

- 2.2 Party A will provide services to Party B and its subsidiaries under normal commercial terms and terms not less favorable than what Party B can obtain from independent third parties;.

Ex-50

Article 3. Pricing Principles and Payment

- 3.1 The pricing principles and/or standards for the Service Fees under this Agreement shall be as follows:

Where the State stipulates the relevant prices or fee standards (including any prices or fee standards set by the People's Bank of China), the services to be provided by Party A to Party B pursuant to this Agreement shall be subject to such prices or standards.

- 3.2 Party B shall timely pay the Service Fees for the relevant services it has received from Party A pursuant to the pricing principles and standards set forth herein.

Article 4. Term

- 4.1 The term of this Agreement (hereinafter the "Term") shall be three years, starting from the effective date to April 7, 2007.

Edgar Filing: CNOOC LTD - Form 20-F

4.2 Subject to the laws and relevant stipulations of the State, the Term of this Agreement shall be automatically renewed for three years upon expiration of the Term or its renewal, unless Party B notifies Party A of its intention not to renew this Agreement with 60 days' prior written notice, and such intention is approved by the relevant independent shareholders pursuant to the Listing Rules of the Stock Exchange of Hong Kong.

Article 5. Representations, Warranties and Covenants

Each Party hereby makes the following representations, warranties and covenants to the other Party:

5.1 It has the full power and authority (including but not limited to having obtained approvals, consents or permissions from the relevant government authorities) to enter into this Agreement and its appendix;

5.2 Once signed and stamped pursuant to the terms herein, this Agreement shall become valid and binding, and enforceable in accordance with its terms; and

5.3 None of the terms herein violates any charter or similar documents of the Parties or Chinese law or regulations.

Article 6. Force majeure

If either Party under this contract is unable to perform the obligations pursuant to the terms hereof under this Agreement or any relevant appendix hereto due to unforeseeable force majeure events, the occurrence or consequence of which cannot be avoided and overcome, such Party shall immediately notify the other Party of the circumstance, and, within 15 days, provide detailed information and evidential documents effectively proving the reasons for the inability or partial inability to perform under the Agreement or any appendix, or the reason for any need for a delay of such performance. Based on the extent of the effect of the force majeure events on such performance, the Parties shall consult with each other to decide whether to terminate, partially exempt or delay the Party's performance.

Article 7. Confidentiality

Except as otherwise required by the law, relevant regulatory authorities or stock exchange, without the written permission of the other Party, neither Party shall provide or disclose to any company,

Ex-51

enterprise, organization or individual any materials or information related to the other Party's business.

Article 8. Assignment

Neither Party shall transfer any rights or obligations under this agreement without the prior written consent of the other Party.

Article 9. No waiver

Except as otherwise required by law, any inability or delay by either Party to

Edgar Filing: CNOOC LTD - Form 20-F

exercise any rights, powers or privileges under this agreement should not be viewed as a waiver of such rights, powers or privileges. Any partial exercise of any such rights, powers or privileges shall not affect the future exercise of such rights, powers and privileges.

Article 10. Notice

All notices related to this agreement shall be in writing, and shall be delivered by one Party under this Agreement to the other Party by courier, facsimile or mail. If by courier, notice is deemed received when the delivery is made; if by facsimile, notice is deemed received when the sender's fax machine shows that the fax has been sent; if by mail, notice is deemed received three business days (legal holidays not included) after mailing. A notice becomes effective once it is received.

The addresses of the Parties are as follows:

CNOOC Finance Corporation Ltd.
Attn: Xie Wei Zhi
6th Floor, CNOOC Building
No. 6 Dong Zhi Men Wai Xiao Jie
Dong Cheng District, Beijing 100027
Telephone: (86-10) 8452 1218
Facsimile: (86-10) 6460 2486

Telephone: (86-10) 8452 1471
Facsimile: (86-10) 8452 1512

Article 11. Applicable law

This agreement shall be governed by the laws of China and should be explained and executed under the Chinese law.

Article 12. Dispute resolution

If the Parties under this Agreement have any disputes over the effectiveness, explanation or performance of this Agreement, the parties shall first try to resolve the dispute through friendly discussions. If the dispute is not resolved within thirty days after its occurrence, either Party can file a lawsuit in a court with jurisdiction.

Ex-52

Article 13. Effectiveness and others

- 13.1 This agreement shall become effective after it has been signed and stamped by the legal or authorized representative of the Parties.
- 13.2 This Agreement shall be the complete Agreement between the parties on the matters contemplated under this Agreement, and supercedes all prior Agreements (written or oral) or understanding between the parties related to the matters under this Agreement.
- 13.3 This Agreement or any appendix hereto can be amended or supplemented

Edgar Filing: CNOOC LTD - Form 20-F

if both parties agree after consultation with each other. All amendments or supplements must be signed and stamped by the legal or authorized representatives of the Parties in order to become effective.

- 13.4 This Agreement is dividable. If any provision of this Agreement or any appendix thereto is viewed as illegal or incapable of enforcement, it should not affect the effectiveness and performance of the other provisions under this Agreement or any appendix thereto.
- 13.5 This Agreement shall have two originals, one kept by each Party. The two originals shall have equal legal effects.
