The conference call will cover the Company's 2009 Guidance and may contain forward-looking statements. When used in the call, words such as anticipate, expect, project, and similar expressions are intended to identify such forward-looking statements. Although Enbridge believes that these statements are based on information and assumptions which are current, reasonable and complete, these statements are necessarily subject to a variety of risks and uncertainties pertaining to operating performance, regulatory parameters, economic conditions and commodity prices. You can find a discussion of those risks and uncertainties in our Canadian securities law and American SEC filings. While Enbridge makes these forward-looking statements in good faith, should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary significantly from those expected. Except as may be required by applicable securities laws, Enbridge assumes no obligation to publicly update or revise any forward-looking statements made herein or otherwise, whether as a result of new information, future events or otherwise.

About Enbridge

Enbridge Inc., a Canadian company, is a leader in energy transportation and distribution in North America and internationally. As a transporter of energy, Enbridge operates, in Canada and the U.S., the world's longest crude oil and liquids pipeline system. The Company also has a growing involvement in the natural gas transmission and midstream businesses and is involved in international energy projects. As a distributor of energy, Enbridge owns and operates Canada's largest natural gas distribution company, and provides natural gas to customers in Ontario, Quebec, New Brunswick and New York State. The Company employs approximately 5,700 people, primarily in Canada, the U.S. and South America. Additional information about Enbridge Inc. is available on the company's website at www.enbridge.com.

NEWS RELEASE

Enbridge Gas Distribution Adjusts Prices

TORONTO, December 18, 2008 Enbridge Gas Distribution, a regulated utility, announced today that it has received approval from the Ontario Energy Board (OEB) for its January 1, 2009 rates. The changes are due to a decrease in North American natural gas prices.

For typical residential customers* who buy their gas supply from Enbridge Gas Distribution, the changes will result in a decrease of about \$107 annually. There is also a Gas Cost Adjustment Refund.

Residential customers who purchase their natural gas from a marketer will see their bill decrease by about \$3.40 annually due to a decrease in delivery costs. The Gas Supply Charge for these customers will depend on their contracts with their marketers.

The Gas Supply Charge has decreased to about 30.4 cents per cubic metre ($\text{¢}/\text{m}^3$) from 33.8 $\text{¢}/\text{m}^3$. Enbridge Gas Distribution does not earn a profit on the price of natural gas. Customers who purchase their gas supply from Enbridge Gas Distribution pay the same price that the Company pays to purchase the natural gas in the North American market. Market prices are usually reviewed every three months and, if prices have gone up or down, Enbridge applies to the OEB for an adjustment to its prices to reflect the changes.

There is a Gas Cost Adjustment Refund of 1.2 $\text{¢}/\text{m}^3$ for the period from January 1, 2009 to December 31, 2009. This results in a refund of about \$37 during the next twelve months for typical residential customers who buy their natural gas from Enbridge Gas Distribution.

Gas supply costs are passed through to customers without any mark-up. Enbridge Gas Distribution earns an OEB-approved regulated rate of return, or profit, on the distribution of natural gas.

Customers are encouraged to visit the online Winter Information Centre at www.enbridgegas.com/winterinfo for information about managing energy costs this winter. Customers can sign up for the Budget Billing Plan; learn about Enbridge's support of low-income households through Winter Warmth and other programs; and find energy tips and rebates that can help reduce energy use and save money.

Natural gas remains the most economical choice for home and water heating in Ontario. Over the past five years, natural gas has been on average 40 per cent less expensive than electricity and 38 per cent less expensive than oil.**

Enbridge Gas Distribution has a 160-year history and is Canada's largest natural gas distribution company. Enbridge Gas Distribution is owned by Enbridge Inc., a Canadian-based leader in energy transportation and distribution. As a distributor of energy, Enbridge owns and operates distribution services in Ontario, which distributes natural gas to about 1.9 million customers in Ontario, New York State, New Brunswick and southwestern Quebec.

- 30 -

Please see the attached backgrounder for more information about Enbridge Gas Distribution prices.

* A typical residential customer uses 3,064 cubic metres of natural gas a year for home and water heating.

** Based on a five-year rolling average from February 2004 to January 2009. Natural gas prices based on Enbridge Gas Distribution's January 2009 Rate Adjustment. Electricity prices based on Toronto Hydro rates that went into effect November 2008 and are approved by the Ontario Energy Board. Oil prices are based on rates as of October 2008. The calculations are done on an energy equivalent basis. Estimates do not include taxes or any rental or financing costs.
