### COCA-COLA FEMSA announces first quarter 2004 results

#### FIRST QUARTER 2004

- Consolidated revenues reached Ps.10,439.0 million and consolidated operating income totaled Ps.1,572.7 million during the first quarter of 2004, reaching a consolidated operating margin of 15.1%.

Mexico City (April 26, 2004) - Coca-Cola FEMSA, S.A. de C.V. (BMV: KOFL; NYSE: KOF) (Coca-Cola FEMSA or the Company), the largest *Coca-Cola* bottler in Latin America and second largest *Coca-Cola* bottler in the world, announced today its consolidated results for the first quarter of 2004.

The implementation of our values and our organizational culture throughout our new territories is helping us to face a new competitive dynamics in our different markets. We expect to achieve better results as we implement initiatives that include: aligning our operating practices, developing new packaging and product alternatives for the consumer along with market segmentation initiatives stated Carlos Salazar, Chief Executive Officer of the Company.

#### CONSOLIDATED RESULTS

During the first quarter of 2004, our consolidated revenues reached Ps.10,439.0 million. Average price per unit case was Ps.23.52 (U.S.\$2.10). Consolidated operating income reached Ps.1,572.7 million during the first quarter of 2004, resulting in a 15.1% operating margin.

The integral cost of financing totaled Ps.26.9 million during the first quarter of 2004, reflecting the greater accrued interest expenses related to the additional indebtedness incurred and assumed in connection with the Panamco acquisition, which were partially offset by the consolidated monetary position gain, resulting from inflation adjustments applied to the consolidated net monetary position.

The income tax, tax on assets and employee profit sharing as a percentage of income before taxes, was 41.3% during the first quarter of 2004, reflecting the Mexican effective tax rate of 43.0% including the employee profit sharing rate of 10% that applied to our Mexican income before taxes, which comprised the majority of the taxable income during the quarter.

Consolidated majority net income was Ps.868.4 million in the first quarter of 2004, resulting in earnings per share (EPS) of Ps.0.470 (U.S.\$0.421 per ADS) computed on the basis of 1,846 million shares outstanding (each ADS represents ten local shares).

#### BALANCE SHEET

As of March 31, 2004, Coca-Cola FEMSA had a cash balance of Ps.2,533 million (U.S.\$226.8 million), total short-term debt of Ps.2,007 million (U.S.\$179.7 million) and long-term debt of Ps.25,588 million (U.S.\$2,290.8 million).

During the first quarter of 2004, the Company prepaid U.S.\$235 million of debt maturing 2006 and Ps.905 million (equivalent to approximately U.S.\$81.0 million) of debt maturing in 2004. This was achieved by taking a new U.S.\$50 million six year bullet bank loan and a Ps.1,650 million seven year bullet bank loan (equivalent to approximately U.S.148 million) and the remaining with cash on hand. This refinancing improved our maturity profile and currency exposure.

### **OPERATING RESULTS BY TERRITORY**

We began consolidating the results of our new territories during the second quarter of 2003 in accordance with Mexican GAAP. Corporación Interamericana de Bebidas S.A. de C.V., formerly known as Panamerican Beverages, Inc. ( Panamco ) had historically prepared its financial statements in accordance with U.S. GAAP and presented financial information in U.S. dollars. We have historically and will continue to prepare our financial statements in accordance with Mexican GAAP and present financial information in Mexican pesos. The results of our new territories in Mexican GAAP and Mexican pesos are different from and may not be comparable to those reported by Panamco for prior periods. In addition, Panamco results have not been included in our financial statements for periods prior to May 2003.

Financial information for the first quarter of 2004 includes three months results for all of our territories. Coca-Cola FEMSA's financial information will not be comparable with previous quarters until the third quarter of 2004, and on a yearly basis, until the end of 2005.

For volume comparison purposes, we included the sales volume figures recorded by Panamco for the first quarter of 2003.

### **FIRST QUARTER 2004 SUMMARY:**

	<i>Volume (MUC)</i>	<i>Operating Income (million)</i>	<i>% Total</i>	<i>% Operating Margin</i>

Brazil	66.4	79.1	5.0%	7.4%
Argentina	37.1	105.6	6.7%	16.9%
Total	440.8	Ps. 1,572.7	100.0%	15.1%

### **MEXICAN OPERATING RESULTS**

**Revenues**

Revenues in the Mexican territories reached Ps.6,097.6 million for the first quarter of 2004. Average price per unit case was Ps.26.51 (U.S.\$2.38). Excluding *Ciel* water volumes in 5.0, 19.0 and 20.0 Lt packaging presentations, average price per unit case was Ps.30.35 (U.S.\$ 2.71).

During the quarter Carbonated Soft Drink ( CSD ) volumes increased 3.7% as compared to the same period in 2003. The CSD volume increase was mainly driven by a 4.3% growth in the cola category. Total sales volume reached 228.3 Million Unit Cases ( MUC ) in the first quarter of 2004, remaining almost flat over the same period in 2003, due to lower bottled water volumes in our territories which offset CSD volume growth.

During the first quarter of 2004, we introduced *Mundet* Multi-flavors in a 2.0 Lt polyethylene terephthalate ( PET ) presentation and 600 ml PET presentation on a segmented channel basis and brand *Coca-Cola* in an 8 oz mini-can focusing on the recovery of consumption of individual servings.

**Income from Operations**

Gross profit totaled Ps.3,232.2 million reaching a 53.4% margin as percentage of total revenues for the first quarter of 2004. During the quarter we experienced higher sweetener prices which partially offset PET price decreases as compared to the fourth quarter of 2003.

Operating profit totaled Ps.1,181.6 million, reaching a 19.4% margin as a percentage of total revenues. Selling expenses measured by unit case were impacted by (i) lower fixed cost absorption driven by lower seasonal volumes as compared to the fourth quarter of 2003, (ii) the standardization of cooler and distribution fleet maintenance practices in our new territories, and (iii) the introduction of cooler equipment.

**CENTRAL AMERICAN OPERATING RESULTS (Guatemala, Nicaragua, Costa Rica and Panama)**

**Revenues**

Total revenues reached Ps.830.7 million during the first-quarter of 2004. Average price per unit case was Ps.31.23 (U.S.\$2.80) during this period, due to price increases implemented during the quarter in Costa Rica and in Guatemala, and a more favorable packaging mix. In the first quarter of 2004, total sales volume in our Central American territories increased by 7.7% to 26.5 MUC as compared to the same period in 2003, mainly as a result of the 8.3% growth of brands *Coca-Cola*, which accounted for more than 70% of incremental volumes.

In the first quarter of 2004, with the purpose of strengthening our packaging/product portfolio and developing new price points in the market, we introduced (i) a 2.0 Lt PET non-returnable for flavors in Nicaragua, (ii) 8 oz, 500 ml and 1.0 Lt returnable glass presentations for brand *Coca-Cola* in Costa Rica, and (iii) the upsize of the 500 ml PET flavors presentation to a 600 ml PET in Panama.

**Income from Operations**

Gross profit totaled Ps.397.9 million during the first quarter of 2004, reaching a 48.1% gross margin. During this period the Company experienced raw material price increases in line with inflation as compared to the fourth quarter of 2003 and lower fixed cost absorption due to the sales volume seasonality of the business. Operating income totaled Ps.104.9 million during the first quarter of 2004, reaching an operating income margin of 12.6%. During the quarter, the Company experienced lower administrative and selling expenses derived from the savings achieved through better practices, mainly in distribution fleet maintenance, marketing expenses and headcount optimization in prior quarters.

**COLOMBIAN OPERATING RESULTS**

**Revenues**

Total revenues reached Ps.848.3 million during the first quarter of 2004, an average price per unit case of Ps.20.39 (U.S.\$1.82). Total sales volume decreased by 5.9% as compared to the same period in 2003, mainly as a result of the sales volume decline in bottled water, which accounted for more than 60% of the volume decrease, and CSDs accounting for the balance. During the quarter, we launched *Coca-Cola vanilla* in order to reinvigorate the cola category.

**Income from Operations**

Gross profit totaled Ps.383.9 million during the first quarter of 2004, reaching a 45.3% gross margin during the same period. Operating income was Ps.36.2 million, reaching a 4.3% margin during the first quarter of 2004. During the quarter, the company experienced higher marketing

expenses as a percentage of total revenues, related to the introduction of returnable bottles and the implementation of commercial activities to improve our point of sale execution.

## VENEZUELAN OPERATING RESULTS

### *Revenues*

Total revenues reached Ps.980.2 million during the first quarter of 2004 and average price per unit case in Venezuela reached Ps.23.97 (U.S.\$2.15), as a result of a 13.6% weighted average price increase implemented during the first quarter of 2004. Despite the price increases implemented during the first quarter of 2004, our volume increased 44.5% compared to the first quarter of 2003, when political unrest in Venezuela due to a national strike in January of 2003 made it practically impossible for Panamco to run these operations on a regular basis. The increase was also driven by our packaging and pricing segmentation strategies implemented during the quarter. During the quarter we launched *Coca-Cola vanilla*, in order to expand our existing cola category line, and a 2.25 Lt PET presentation of *Grapette*, our existing value protection brand.

### *Income from Operations*

Gross profit totaled Ps.391.4 million during first quarter of 2004, reaching a 39.9% gross margin during the same period. During the quarter, we experienced raw material price increases due to the devaluation of the Venezuelan Bolivar versus the U.S. dollar.

Operating income was Ps.65.5 million reaching an operating income margin of 6.7% during the first quarter of 2004, mainly driven by lower fixed cost absorption due to the volume seasonality of the business as compared with the fourth quarter of 2003.

## BRAZILIAN OPERATING RESULTS

### *Revenues*

Total revenues reached Ps.1,073.1 million during the first quarter of 2004. Average price per unit case was Ps.16.12 (U.S.\$1.44) during this period, as a result of the combined effect of (i) revenue management initiatives, which have been implemented since we took over the operations, and (ii) the reduction of sales volume concentration in the 2.0 Lt PET presentations, from more than 60% of total sales volume in the first quarter of 2003 to 56% in the same period of 2004.

During the first quarter of 2004, CSD sales volume in our Brazilian territories decreased by 6.7% as compared to the same period in 2003, including the reduction of 23.3% in value protection brands. Beer sales volume, performed by Kaiser, declined 6.8% in the first quarter of 2004 as compared to the same period in 2003. During the quarter, sales volume in our cola category remained almost flat due to the packaging diversification strategy we have been implementing since May 2003.

### *Income from Operations*

Gross profit during the first quarter of 2004 totaled Ps.413.3 million, reaching a 38.6% margin. Operating income was Ps.79.1 million during the first quarter of 2004, reaching an operating margin of 7.4%, driven by lower fixed cost absorption due to the volume seasonality of the business as compared with the fourth quarter of 2003 and higher administrative expenses related to setting up our Mercosur headquarter in Sao Paulo.

## ARGENTINE OPERATING RESULTS

*Financial information and sales volume figures in our Argentine operations were not affected by the Panamco acquisition and therefore are fully comparable with previous periods.*

### *Revenues*

Total revenues reached Ps.625.3 million, a 17.8% increase as compared to the first-quarter of 2003 and the average price per unit case grew by 1.7% over the first-quarter of 2003 to Ps.15.94 (U.S.\$1.43).

In the first quarter of 2004, total sales volume in our Argentine territory reached 37.1 MUC, a 17.5% increase as compared to the same period of 2003, mainly driven by brand *Coca-Cola*, which represented more than 50.0% of the total growth and the increase of our sales volume in returnable presentations, which accounted for 27.5% during the quarter as compared to 22.9% in the same period of 2003. In the first quarter of 2004 we achieved our best first quarter in the franchise history, in terms of sales volume and operating income margin.

## Edgar Filing: COCA COLA FEMSA SA DE CV - Form 6-K

### *Income from Operations*

Gross profit as a percentage of total revenues, increased by 410 basis points from 37.3% in the first quarter of 2003 to 41.4% in 2004. This improvement was the combination of higher sales volume and operating efficiencies achieved during the quarter, which more than offset increases in raw material prices.

In Argentina, operating expenses as a percentage of total revenues decreased 470 basis points from 27.0% in the first quarter of 2003 to 22.3% in the first quarter of 2004, as a result of strict cost-control selling initiatives and a decline in fixed cost administrative expenses related to the migration of certain executives to the headquarters of our Mercosur division based in Sao Paulo. Operating income during the first quarter of 2004 in our Argentine territories was Ps.105.6 million and operating margin grew to 16.9%, an increase of 910 basis points as compared to first quarter of 2003.
