E. New Accounting Standards

Edgar Filing: ELBIT SYSTEMS LTD - Form 6-K

The significant accounting policies in the preparation of these statements are identical to those applied in preparation of the latest annual financial statements except as follows:

In January 2003, the FASB issued Financial Accounting Standard Board (FASB) Interpretation No. 46, Consolidation of Variable Interest Entities, an interpretation of ARB No. 51 ("FIN 46"). In December 2003, the FASB modified FIN 46 to make certain technical corrections and address certain implementation issues that arose. FIN 46 provides a new framework for identifying Variable Interest Entities ("VIEs") and determining when a company should include the assets, liabilities, non-controlling interests and results of activities of a VIE in the activities of the company's financial

3

statements. The provisions of FIN 46 were adopted as of March 31, 2004. The adoption of FIN 46 did not have a significant effect on the Company's financial statements.

F. Employee Stock Option Plan

The change in the Company's share price affected the Company's financial results due to the impact of the employee stock option plan adopted in 2000. The plan was comprised of options for 5 million shares, divided into options to purchase up to 2.5 million shares and an additional 2.5 million "phantom" options. The phantom options grant the option holders a number of shares corresponding to the benefit component of the options exercised, as calculated on the exercise date, in consideration for their par value only, and are considered as a variable option plan. The actual number of options granted as of June 30, 2004 was approximately 4.8 million.

Under U.S. GAAP, the total compensation is computed periodically according to the change in the share price and amortized as compensation expense, or income, based on the vesting period of the options. The amount of the net expense related to the "phantom" stock option compensation in the first two quarters of 2004 was approximately \$3.0 million.

J. Liquidity and Capital Resources

The Company's cash flows are effected by the cumulative cash flows of its various projects in the reported periods. Project cash flows are affected by the timing of the receipt of advances and the collection of accounts receivable from customers, which relate to specific events during the project, while expenses are on-going. As a result, the Company's cash flows may vary from one period to another.

The Company's policy is to invest its cash surplus primarily in interest bearing deposits in accordance with its projected needs.

The resources available to the Company include mainly profits, collection of accounts receivable, advances from customers, as well as Government of Israel grants and participation and bank financing in Israel and elsewhere based on its capital, assets and activities. In addition, the Company has the ability to raise funds through the offering of shares and debentures to the public from time to time.

The Company typically uses financial instruments to limit its exposure to those changes. The Company also typically enters into forward contracts in connection with transactions that are denominated in currencies other than U.S. dollars and New Israeli Shekels ("NIS"). The Company may enter from time to time into forward contracts and other hedging instruments related to NIS, based on market conditions.

Should interest rates either increase or decrease, such change may affect the Company's results of operations due to changes in the cost of its liabilities and the return on its assets that are based on variable rates.

ELBIT SYSTEMS LTD. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

(In thousands of U.S. dollars)

Note 1 - GENERAL

The accompanying financial statements have been prepared in a condensed format as of June 30, 2004, and for the six months and three months then ended in accordance with generally accepted accounting principles in the United States)U.S. GAAP(relating to the preparation of financial statements for interim periods. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States but which are not required for interim reporting purposes, have been condensed or omitted. See Note 5 for the reconciliation from U.S. GAAP to accounting principles generally accepted in Israel (Israeli GAAP).

Edgar Filing: ELBIT SYSTEMS LTD - Form 6-K

These financial statements should be read in conjunction with the Company's annual financial statements and accompanying notes as of December 31, 2003.

The interim financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation. All such adjustments were of a normal recurring nature.

Operating results for the six months ended June 30, 2004, are not necessarily indicative of the results that may be expected for the year ending December 31, 2004.

Note 2 - SIGNIFICANT ACCOUNTING POLICIES

- A. The significant accounting policies followed in the preparation of these statements are identical to those applied in preparation of the latest annual financial statements except as follows:

In January 2003, the Financial Accounting Standards Board (FASB) issued Interpretation 46, Consolidation of Variable Interest Entities, an interpretation of ARB No. 51 (FIN 46). In December 2003, the FASB modified FIN 46 to make certain technical corrections and address certain implementation issues that had arisen. FIN 46 provides a new framework for identifying variable interest entities (VIEs) and determining when a company should include the assets, liabilities, non-controlling interests and results of a VIE in its consolidated financial statements.

In general, a VIE is a corporation, partnership, limited liability corporation, trust or any other legal structure used to conduct activities or hold assets that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that are unable to make significant decisions about its activities or (3) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations.

10

ELBIT SYSTEMS LTD. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

(In thousands of U.S. dollars, except share and per share data)

Note 2 - SIGNIFICANT ACCOUNTING POLICIES (CONT.)

FIN 46 requires a VIE to be consolidated if a party with an ownership, contractual or other financial interest in the VIE (a variable interest holder) is obligated to absorb a majority of the risk of loss from the VIE's activities, is entitled to receive a majority of the VIE's residual returns (if no party absorbs a majority of the VIE's

Edgar Filing: ELBIT SYSTEMS LTD - Form 6-K

losses), or both. A variable interest holder that consolidates the VIE is called the primary beneficiary. Upon consolidation, the primary beneficiary generally must initially record all of the VIE's assets, liabilities and non-controlling interest at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest. FIN 46 also requires disclosures about VIEs that the variable interest holder is not required to consolidate but in which it has a significant variable interest.

FIN 46 was effective immediately for VIEs created after January 31, 2003. The provisions of FIN 46, as revised, were adopted as of June 30, 2004 for the Company's interests in all VIEs. The adoption of FIN 46 did not have a significant effect on the Company's financial statements.

- B. The accompanying financial statements have been prepared in U.S. dollars since the functional currency of the primary economic environment in which the operations of the Group (which includes Elbit Systems Ltd. and its subsidiaries) are conducted is the U.S. dollar.

ELBIT SYSTEMS LTD. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

(In thousands of U.S. dollars, except per share data)

Note 4 - STOCK-BASED COMPENSATION

Edgar Filing: ELBIT SYSTEMS LTD - Form 6-K

The Company has elected to follow Accounting Principles Board Opinion No. 25. ("APB 25") "Accounting for Stock Issued to Employees" and the FASB Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation" in accounting for its employee stock option plans. According to APB 25, compensation expense is measured under the intrinsic value method, whereby compensation expense is equal to the excess, if any, of the quoted market price of the stock at the grant date of the award or other measurement date over the exercise price.

The Company adopted the disclosure provisions of Financial Accounting Standards Board Statement No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure" ("SFAS No. 148"), which amended certain provisions of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123") to provide alternative methods of transition for an entity that voluntarily changes to the fair value based method of accounting for stock-based employee compensation, effective as of the beginning of the fiscal year. The Company continues to apply the provisions of APB No. 25, in accounting for stock-based compensation.

Pro forma information regarding the Company's net income and net earnings per share is required by SFAS No. 123 and has been determined as if the Company had accounted for its employee stock options under the fair value method prescribed by SFAS No. 123.

If compensation cost had been determined under the alternative fair value accounting method provided under SFAS No. 123, the Company's stock-based employee compensation cost, net income and basic and diluted net earnings per share would have changed to the following pro forma amounts:
