REPORTED CONSOLIDATED NET INCOME FOR THE THIRD QUARTER OF 2005 increased by 9.4% to \$14.6 million (5.3% of revenues), as compared with \$13.3 million (5.9% of revenues) in the third quarter of 2004. The President and CEO of Elbit Systems, Joseph Ackerman, commented: "We are pleased to report the third quarter results, in which we reached the highest quarterly revenues in our history. These results continue the trend of profitable growth that we have demonstrated for many consecutive quarters. The high backlog of orders does not include some large and important orders, such as the UK Watchkeeper, the U.S. Marine Corps contract and other contracts that we received following the end of the quarter. All of this provides us with a high level of confidence in the continued growth of Elbit Systems going forward, supported by our on going investments in R&D in order to maintain technological leadership in our many business areas."

H. DERIVATIVES AND HEDGES

Market risks relating to the Company's operations result primarily from changes in interest rates and exchange rates. The Company typically uses financial instruments to limit its exposure to those changes. The Company also typically enters into forward contracts in connection with transactions that are denominated in currencies other than U.S. dollars and New Israeli Shekels ("NIS"). The Company may enter from time to time into forward contracts related to NIS, based on market conditions.

On September 30, 2005, the Company's liquid assets were comprised of bank deposits, and it had no investments in liquid equity securities that were subject to market fluctuations, except for the Tadiran shares acquired as mentioned above. The Company's deposits and loans are based on variable interest rates. Should interest rates either increase or decrease, such change may affect the Company's results of operations due to changes in the cost of the liabilities and the return on the assets that are based on variable rates.

The Company's functional currency is the U.S. dollar. On September 30, 2005, the Company had exposure due to liabilities denominated in NIS of \$78 million in excess of its NIS denominated assets. These liabilities represent mostly wages and trade payables. The amount of the Company's exposure to the changes in the NIS-U.S. dollar exchange rate varies from time to time.

Most of the Company's assets and liabilities which are denominated in currencies other than the NIS and the U.S. dollar were covered as of September 30, 2005 by forward contracts and options. On September 30, 2005, the Company had forward contracts for the sale and purchase of such foreign currencies totaling \$221 million (\$16 million in Euro, \$199 million in GBP and \$6 million in other currencies). NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS - UNAUDITED

U. S. dollars (In thousands)

NOTE 1 - GENERAL

- A. The accompanying unaudited interim consolidated financial statements have been prepared in a condensed format as of September 30, 2005, and for the three and nine months then ended in accordance with generally accepted accounting principles in the United States ("U.S. GAAP") (relating to the preparation of financial statements for interim periods. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP but which are not required for interim reporting purposes, have been condensed or omitted. See Note 6 for the reconciliation from U.S. GAAP to accounting principles generally accepted in Israel (Israeli GAAP).

These statements should be read in conjunction with the Company's annual financial statements and accompanying notes as of December 31, 2004, included in the Form 20-F for the year ended December 31, 2004.

The interim financial statements reflect all adjustments, which are, in the opinion of management, necessary for a fair presentation. All such adjustments were of a normal recurring nature. Reclassifications have been made to comparative data in the balance sheet as of December 31, 2004 in order to conform to the current period presentation.

Comparative data in the condensed interim financial statements for the three and nine months ended September 30, 2004, for the year ended December 31, 2004 and for the six months ended June 30, 2005 have been restated (see Notes 1B and 3).

Operating results for the three and nine months ended September 30, 2005, are not necessarily indicative of the results that may be expected for the year ending December 31, 2005.

- B. On December 27, 2004, the Company reached an agreement with Koor Industries Ltd. ("Koor") to purchase all of Koor's holdings in Tadiran Communications Ltd. ("Tadiran"), which represented approximately a 32% interest in Tadiran, at a price of \$37 per share. This purchase was to be made concurrently with Koor's purchase a portion of the Company's

Edgar Filing: ELBIT SYSTEMS LTD - Form 6-K

shares from Federmann Enterprises Ltd. ("Federmann"). Tadiran is an Israeli company, whose shares are traded on the Tel Aviv Stock Exchange. The purchase of the interest in Tadiran was to have been made in two stages, subject to the terms agreed upon between the parties.

On July 6, 2005, the Company reported that it signed an agreement with Koor to acquire all of Koor's 70% holdings in Elisra Electronics Systems Ltd. ("Elisra"), an Israeli company, in consideration for \$70 million in cash. The parties also agreed on an additional contingent consideration as a result of future insurance proceeds relating to the fire at Elisra's plant in 2001. As part of the transaction, Koor purchased Dekolink Wireless Ltd. from Elisra at an agreed upon price. Dekolink Wireless Ltd. is a start-up company engaged in the cellular networks area that is wholly-owned by Elisra. The acquisition agreement relating to Elisra is subject to receipt of the Company's shareholders approval, which was received in August 2005, as well as approvals from governmental authorities, including the Israel Antitrust Authority.

NOTE 1 - GENERAL (CONT.)

Concurrently with signing of the agreement to acquire Koor's holdings in Elisra, as indicated above, the Company and Koor agreed to amend their agreements regarding the Company's purchase of Tadiran shares held by Koor. Pursuant to the amendment, the Company accelerated the acquisition from Koor of approximately 5% of Tadiran's outstanding shares, out of a total of 18.2% of Tadiran outstanding shares that the Company agreed to acquire as part of the second stage of the aforementioned agreement. Upon completion of the acquisition of the 5% interest in Tadiran, which occurred on August 25, 2005, the Company and Koor have equal representation on Tadiran's board of directors. Following this purchase, the Company currently holds approximately 26% of Tadiran's shares.

The price paid and remaining to be paid by the Company to Koor for the Tadiran shares is the price agreed upon in the original agreement with Koor signed on December 27, 2004.

The agreement for acquiring Koor's holdings in Elisra and the amendments regarding the acquisition of Koor's shares in Tadiran, were signed following the approval of the transactions by the Company's Audit Committee and Board of Directors, who obtained a fairness opinion from an independent appraiser regarding the consideration to be paid for the Elisra shares.

Upon completion of the Elisra transaction, the Company will complete the purchase of Koor's remaining shares in Tadiran -

Edgar Filing: ELBIT SYSTEMS LTD - Form 6-K

approximately 13% - reaching a total of approximately a 39% interest in Tadiran based on the Company's current shareholdings.

The results of the third quarter of 2005 include a write-off of In Process Research and Development ("IPR&D") which amounts to approximately \$1.2 million related to the shares acquired in the third quarter of 2005.

Further effects on the Company's financial results are expected to occur in the event of the consummation of the additional purchases of Tadiran shares from Koor in accordance with the above mentioned amendments to the agreements with Koor, as well as the purchase of Koor's shares in Elisra, subject to receipt of the required approvals. The effect on the Company's financial results of future purchases of shares of Tadiran as well as the anticipated purchase of shares in Elisra will be reported following completion of the respective purchases.

The excess of the amount paid for the Tadiran shares acquired until the end of the second quarter of 2005 over their book value is approximately \$62 million. Based on a purchase price allocation analysis ("PPA") performed by an independent advisor, this excess was attributed as follows:

under the equity method of accounting ("step-by-step acquisition"). Implementing the step-by-step acquisition method resulted in a restatement of the Company's financial statements for all prior periods, in which the Company's investment in Tadiran was accounted for as available-for-sale securities.

The following are the effects of the restatement:

NOTE 3 - STOCK-BASED COMPENSATION

As mentioned in Note 2X to the Company's annual financial statements, effective January 1, 2004, the Company adopted the fair value recognition provisions of SFAS 123. Under the modified prospective method selected by the Company under the provisions of SFAS No. 148, the fair value recognition provisions are applied from January 1, 2004 to all employee awards granted, modified or settled subsequent to January 1, 2004, and to previously granted awards that were not fully vested on the date of adoption. The aforementioned decision to adopt the fair value recognition provisions of SFAS 123 took place in December 2004. SFAS 123 fair value recognition provisions were adopted effective January 1, 2004 and the results of the first three quarters of 2004 were restated accordingly. The restatement reflects the change in stock-based compensation expense calculated under the intrinsic value based method as compared to the expense calculated under the fair value based method.

The following is the effect of the restatement of stock-based compensation expense on the financial statements for the three and nine months ended September 30, 2004:

NOTE 5 - RECENTLY ISSUED ACCOUNTING STANDARDS

- A. In March 2005, the SEC released SEC Staff Accounting Bulletin No. 107, "Share-Based Payment" ("SAB 107"). SAB 107 provides the SEC staff's position regarding the application of Statement 123R and contains interpretive guidance related to the interaction between Statement 123R and certain SEC rules and regulations and also provides the SEC staff's views regarding the valuation of share-based payment arrangements for public companies. SAB 107 highlights the importance of disclosures made related to the accounting for share-based payment transactions. The Company is currently reviewing the effect of SAB 107; however, it does not believe that SAB 107 will have a material impact on its financial position, results of operations or cash flows.
- B. In May 2005, the FASB issued Statement of Financial Accounting Standard No. 154 ("FAS 154"), "Accounting Changes and Error Corrections" - a replacement of APB No. 20, Accounting Changes and FAS No. 3, "Reporting Accounting Changes in Interim Financial Statements". FAS 154 provide guidance on the accounting for and reporting of accounting changes and error corrections. APB Opinion 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. FAS 154 requires retrospective application to prior periods' financial statements of a voluntary change in accounting principle unless it is impracticable to do so. FAS 154 is

Edgar Filing: ELBIT SYSTEMS LTD - Form 6-K

effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company estimates that the adoption of FAS 154 will not have a significant impact on its results of operations, financial condition and cash flows.

- C. FASB Statements No. 123 (revised 2004), "Share-based Payment" (FASB 123(R)) (See Note 2AA(3)) to the Company's annual financial statements for 2004, was to have been effective as of the beginning of the first interim or annual reporting period that commences after June 15, 2005 (July 1, 2005 for the Company); however, on April 14, 2005, the United States Securities and Exchange Commission ("SEC") delayed effectiveness of FAS 123(R) for companies with fiscal years ending December 31 (such as the Company) to January 1, 2006.

NOTE 6 - RECONCILIATION TO ISRAELI GAAP

As described in Note 1, the Company prepares its financial statements in accordance with U.S. GAAP.
