

Edgar Filing: AES CORPORATION - Form 8-K

transaction, the results of operations of AES for the quarter ended March 31, 2000 have also been restated to include IPALCO. Diluted earnings per share, excluding the noncash transaction losses and the nonrecurring acquisition costs, were \$0.42 for the quarter, compared to \$0.38 (before foreign currency effects and nonrecurring items) for the same quarter in 2000. Net income, after all charges, was \$106 million for the quarter. Revenues for the quarter were \$2.5 billion, an increase of 50% from the first quarter of 2000.

Barry Sharp, Chief Financial Officer, commented, "The operating results for the first quarter of 2001 continue to showcase the strength of our diversified portfolio of worldwide businesses. Operating income increased 35% to a record \$602 million (before deducting the IPALCO nonrecurring and Brazilian foreign currency transaction losses) for the first quarter of 2001 with strong performances from our generation businesses in the Eastern U.S and South America as well as several of our distribution businesses, including those in Venezuela, Indianapolis (included as a pooling of interests transaction) and Brazil. We were encouraged with the improved results in Brazil this quarter, even after considering the operating impacts of the depreciation of the Real."

Dennis W. Bakke, President and Chief Executive Officer, stated, "In the first quarter we successfully delivered on two of our commitments: running existing businesses well and expanding the way we serve the world by adding new businesses.

On the existing business front, for example, we feel good about the progress we have made in adjusting to the new NETA rules in the United Kingdom at our 4000 MW Drax facility. We are also making great strides in reshaping our AES Eletropaulo business in Sao Paulo, Brazil, the second largest city in the world. Furthermore, the people at our plants in central New York are executing well as they both run the facilities and sell the output into the electricity market.

On the new business front, the quarter was an excellent start to the year:

- o completed two major acquisitions of integrated companies, IPALCO in the U.S. and Gener in Chile;
- o expanded our global presence to operations in 36 countries, with new businesses in four additional countries: Nigeria, Germany, Czech Republic and Italy (with an additional country being added thus far in the second quarter: the Ukraine);
- o commenced commercial operations at plants formerly under construction: Uruguaiana in Brazil,

Fifoots Point in Wales and one unit at Yangcheng in China;
- o moved ahead on the construction of plants in the United States (Granite Ridge, Wolf Hollow, Ironwood, Red Oak, Puerto Rico, Medina Valley), Bangladesh (Haripur and Meghneghat), Nigeria (barge mounted), Argentina (Parana and Caracoles), China (Yangcheng), Dominican Republic (Andes), Panama (Esti), and Sri Lanka (Kelanitissa); and
- o expanded our ownership in the 1000 MW Alicura hydroelectric facility in Argentina, one of our near 80 hydro plants worldwide.

All of this reaffirms AES's desire to serve the world wherever we are needed, wanted, and can live consistent with our principles. We made great progress toward this goal in the first quarter."

AES also announced that Phil Lader has been elected to the AES Board of Directors. Mr. Lader is Chairman of WPP Group, the world's largest advertising and media services company, and Senior Advisor to Morgan Stanley International.

Edgar Filing: AES CORPORATION - Form 8-K

Recently, he was U.S. Ambassador to the Court of St. James and earlier served in President Clinton's cabinet as Administrator of the U.S. Small Business Administration and as White House Deputy Chief of Staff. Earlier, he served as President of Sea Pines Company of Hilton Head, South Carolina and the president of universities in South Carolina and Australia. Mr. Lader is a member of the Council on Foreign Relations and a trustee of the RAND Corporation.

During the quarter, AES announced the following new leadership positions:

- Ned Hall: Group Manager for Central America and Florida;
- Haresh Jaisinghani: Group Manager for Southeast Asia, India, Australia and Hawaii and
- Mike Scholey: Group Manager for Hungary, Greece, Israel, Turkey, the Balkans and North Africa.

AES business development milestones in 2001 include the following:

- o In April, AES announced that it won a bid for approximately \$45.9 million to purchase a 75% controlling interest in Kievoblenergo the distribution company that serves the region that surrounds Kiev, the capital city of the Ukraine.
- o In April, a subsidiary of AES signed agreements for the financing of its \$300 million, 450 MW combined cycle gas-fired Meghnaghat power plant in Bangladesh.
- o In April, a subsidiary of AES completed a \$180 million financing for its 360 MW gas-fired combined cycle facility Haripur in Bangladesh.
- o In April, AES announced the completion of its acquisition of IPALCO in Indiana.
- o In March, a subsidiary of AES secured the financing for the 720 MW gas-fired Granite Ridge project in New Hampshire.
- o In March, a subsidiary of AES acquired from EniChem SpA an oil-fired 140 MW cogeneration facility in the town of Ottana, which is in the province of Nuoro, Sardinia, Italy.
- o In February, a subsidiary of AES entered an agreement to purchase all of the energy assets of Thermo Ecotek Corporation, a wholly owned subsidiary of Thermo Electron Corporation of Waltham, Massachusetts for \$195 million.
- o In January, AES announced the start of construction of the \$300 million AES Wolf Hollow power plant at a site in Granbury, Texas.

- o In January, a subsidiary of AES acquired a majority interest in a 290MW barge-mounted natural-gas-fired electric generating business in Lagos, Nigeria.
- o In January, AES Huntington Beach submitted a proposal to the California Energy Commission to restart two retired gas-fired units that will add an additional 450 megawatts of generation in the electricity-strapped state of California.
- o In January, AES announced the purchase of an additional 39% ownership interest in Hidroelectrica Alicura, a 1000 MW hydro plant in Argentina.

Edgar Filing: AES CORPORATION - Form 8-K

- o In January, AES announced that it had successfully completed its offer to exchange all American Depositary Shares of Gener S.A. for AES common stock.

AES is a leading global power company comprised of competitive generation, distribution and retail supply businesses in Argentina, Australia, Bangladesh, Brazil, Canada, Chile, China, Colombia, Dominican Republic, El Salvador, Georgia, Hungary, India, Italy, Kazakhstan, the Netherlands, Nigeria, Mexico, Oman, Pakistan, Panama, Sri Lanka, the Ukraine, the United Kingdom, the United States and Venezuela.

The company's generating assets include interests in one hundred and sixty facilities totaling over 58 gigawatts of capacity. AES's electricity distribution network has over 920,000 km of conductor and associated rights of way and sells over 126,000 gigawatt hours per year to over 17 million end-use customers. In addition, through its various retail electricity supply businesses, the company sells electricity to over 154,000 end-use customers.

AES is dedicated to providing electricity worldwide in a socially responsible way.

This news release may include forward-looking statements. Actual events and results may differ materially from those projected. Factors that could affect actual results are discussed in AES's filings with the Securities and Exchange Commission, and readers are encouraged to read those filings to learn more about the risk factors associated with AES's businesses.
