CryptoLogic introduces 14 new Internet casino games

With Casino Bonus Pack 7, blue-chip e-gaming software leader offers more popular, innovative games

June 13, 2005 (Toronto, ON) CryptoLogic Inc., a leading blue-chip e-gaming software developer to the global Internet gaming market, today announced the introduction of 14 new casino games to its ever-expanding product suite used by many of the world's top Internet casinos. Bonus Pack 7, offered through CryptoLogic's subsidiary, WagerLogic Limited, debuts 12 new variations of highly-popular, multi-line video slots and two new scratch card games – the first ever developed by CryptoLogic.

CryptoLogic's strength lies in developing and delivering innovative games that Internet gamers truly enjoy playing, said Lewis Rose, CryptoLogic's President and CEO. Players love the excitement of multi-line slot play with added elements of skill through arcade-style bonus rounds. Bonus Pack 7 extends CryptoLogic's competitive lead with a fresh array of multi-level video slots, more bonus features, and more chances to win. That's exciting news for our customers, for their players, and for our business.

Responding to the huge popularity of the company's first 20-line slot game introduced last year, Bonus Pack 7 features eight new 20-line themed slots, including *Around the World*, *Reel Renovations* and *Daily Horoscope*. There are also four additional 9-line video slots, including *Mr. Rich*, a new Rapid Fire jackpot slot, and a multi-line version of the favourite *Millionaires Club* progressive jackpot game – which has already netted one lucky winner a record-breaking US\$774,024 jackpot.

The company is also expanding its system capacity to accommodate rapid growth and player demand, and continues to work with many of the world's most trusted gaming brands.
