Form 10-Q  
August 04, 2014

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

**WASHINGTON, DC 20549**

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
**For the quarterly period ended June 30, 2014**

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number 0-422

MIDDLESEX WATER COMPANY

(Exact name of registrant as specified in its charter)

New Jersey **22-1114430**

(State of incorporation) (IRS employer identification no.)

1500 Ronson Road, Iselin, New Jersey 08830

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q

(Address of principal executive offices, including zip code)

**(732) 634-1500**

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or such shorter period that the registrant was required to submit and post files).

Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company.

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes  No

The number of shares outstanding of each of the registrant's classes of common stock, as of July 31, 2014: Common Stock, No Par Value: 16,056,825 shares outstanding.

**MIDDLESEX WATER COMPANY**

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Recent Developments

Middlesex Water Company (Middlesex or the Company) is the parent company and sole shareholder of Tidewater Utilities, Inc. (Tidewater), Tidewater Environmental Services, Inc. (TESI), Pinelands Water Company (Pinelands Water) and Pinelands Wastewater Company (Pinelands Wastewater) (collectively, Pinelands), Utility Service Affiliates, Inc. (USA), Utility Service Affiliates (Perth Amboy) Inc. (USA-PA), and Twin Lakes Utilities, Inc. (Twin Lakes). Southern Shores Water Company, LLC (Southern Shores) and White Marsh Environmental Systems, Inc. (White Marsh) are wholly-owned subsidiaries of Tidewater. The financial statements for Middlesex and its wholly-owned subsidiaries (the Company) are reported on a consolidated basis. All significant intercompany accounts and transactions have been eliminated.

The consolidated notes within the 2013 Annual Report on Form 10-K (the 2013 Form 10-K) are applicable to these financial statements and, in the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary (including normal recurring accruals) to present fairly the financial position as of June 30, 2014, the results of operations for the three month and six month periods ended June 30, 2014, and 2013 and cash flows for the six month periods ended June 30, 2014, and 2013. Information included in the Condensed Consolidated Balance Sheet as of December 31, 2013, has been derived from the Company's audited financial statements for the year ended December 31, 2013 included in the 2013 Form 10-K.

*Recent Accounting Guidance*

In May 2014, the Financial Accounting Standards Board issued an update to authoritative guidance related to revenue from contracts with customers. The update replaces most of the existing guidance with a single set of principles for recognizing revenue from contracts with customers. The guidance will be effective for the Company beginning January 1, 2017. Early adoption is not permitted. The new guidance must be applied retrospectively to each prior period presented or via a cumulative effect upon the date of initial application. We are currently evaluating the impact that the adoption will have on our consolidated financial statements and related disclosures.

There is no additional new adopted or proposed accounting guidance that could have a material impact on the Company's financial statements.

**Note 2 – Rate and Regulatory Matters**

**Middlesex** – In June 2014, Middlesex’s application with the New Jersey Board of Public Utilities (NJBPU) seeking permission to increase base water rates was partially approved, granting an increase in annual operating revenues of \$4.2 million. The originally-filed base water rate increase request of \$10.6 million (subsequently revised to \$8.1 million, primarily resulting from lower employee benefit plan costs), filed in November 2013, was necessitated by capital investments Middlesex had made, or committed to make, increased operations and maintenance costs and lost revenues resulting from the ending of a wholesale water sales contract with the Borough of Sayreville, New Jersey in August 2013 and Middlesex’s largest retail water customer, Hess Corporation, ceasing its oil refining operations at its Port Reading, New Jersey facility in February 2013. The new base water rates are designed to recover the increased costs, lost revenues, as well as a return on invested capital in rate base of \$208.6 million based on a return on equity of 9.75%. The rate increase became effective on July 20, 2014.

In May 2014, Middlesex filed a petition with the NJBPU seeking approval of foundational capital project information (Foundational Filing) that would allow for the implementation of a Distribution System Improvement Charge (DSIC). A DSIC is a rate-mechanism that allows water utilities to recover investment in capital improvements to their water distribution system made between base rate proceedings. If approved, the DSIC would increase annual revenues in increments occurring at approximate six-month intervals over a period of thirty-six months. The maximum annual revenues to be recovered under the Foundational Filing are \$3.6 million. A decision by the NJBPU is expected in August 2014. We cannot predict whether the NJBPU will ultimately approve, deny, or reduce the capital projects submitted for consideration.

Index

**Tidewater** - In November 2013, Tidewater filed an application with the Delaware Public Service Commission (DEPSC) seeking permission to increase its base water rates by approximately \$3.9 million per year. The request was necessitated by capital investments Tidewater has made, or has committed to make, as well as increased operations and maintenance costs. On July 2, 2014, Tidewater filed additional information that resulted in reducing its original request to \$2.5 million, primarily from lower employee benefit plan costs. We cannot predict whether the DEPSC will ultimately approve, deny, or reduce the amount of the revised request. A decision by the DEPSC is expected in the third quarter of 2014. In connection with the rate increase application, Tidewater implemented a DEPSC approved 6.5% interim rate increase, subject to refund, on February 6, 2014. As of June 30, 2014, Tidewater has deferred \$0.5 million of the interim rate increase in the event that the final approved rate increase is less than the approved interim rate increase. Concurrent with Tidewater's interim rate increase, Tidewater's DEPSC approved \$0.1 million annual DSIC rate reset to \$0.

In April 2014, the DEPSC approved Tidewater's agreement with the United States Department of Defense for the privatization of the water system of Dover Air Force Base (DAFB) in Dover, Delaware. Under the agreement, Tidewater will provide DAFB with potable water service and integrate the DAFB water system into its regulated utility operations. Tidewater expects to begin providing water service to DAFB in October 2014. Service to DAFB is expected to initially generate approximately \$0.6 million of revenue annually.

**TESI** - The DEPSC approved an April 2014 request by TESI to relinquish its Certificate of Public Necessity and Convenience ("CPCN") for a real estate parcel in Sussex County, Delaware. This approval allowed for a companion transaction to be completed, whereby TESI was reimbursed with a combination of cash and a future receivable by a real estate developer for \$1.9 million of Preliminary Survey and Investigation Costs incurred in connection with the CPCN. TESI recognized a gain of less than \$0.1 million from this transaction.

**Note 3 – Capitalization**

*Common Stock*

During the six months ended June 30, 2014 and 2013, there were 35,078 common shares (approximately \$0.7 million) and 45,378 common shares (approximately \$0.9 million), respectively, issued under the Company's Amended and Restated Dividend Reinvestment and Common Stock Purchase Plan.

For the six months ended June 30, 2014, 4,298 shares (approximately \$0.5 million) of the Company's no par \$7.00 Series Cumulative and Convertible Preferred Stock were converted into 51,576 shares of common stock.

*Long-term Debt*

In May 2014, Middlesex borrowed approximately \$3.8 million through the New Jersey Environmental Infrastructure Trust under the New Jersey State Revolving Fund (SRF) loan program and issued first mortgage bonds designated as Series VV (approximately \$2.8 million) and Series WW (approximately \$0.9 million). The interest rate on the Series VV bond is zero and the interest rate on the Series WW bond ranges from 3.0% to 5.0% depending on the serial maturity date. The final maturity date for both bonds is August 1, 2033. Proceeds were recorded as Restricted Cash and may only be used for the Middlesex 2014 RENEW project, which is part of a program to clean and cement all unlined mains in the Middlesex system.

*Fair Value of Financial Instruments*

The following methods and assumptions were used by the Company in estimating its fair value disclosure for financial instruments for which it is practicable to estimate that value. The carrying amounts reflected in the condensed consolidated balance sheets for cash and cash equivalents, trade receivables, accounts payable and notes payable approximate their respective fair values due to the short-term maturities of these instruments. The fair value of the Company's long-term debt relating to First Mortgage and SRF Bonds (Bonds) is based on quoted market prices for similar issues. Under the fair value hierarchy, the fair value of cash and cash equivalents is classified as a Level 1 measurement and the fair value of the Bonds in the table below are classified as Level 2 measurements.

Index

The carrying amount and fair value of the Company's bonds were as follows:

	June 30, 2014		December 31, 2013	
	Carrying	Fair	Carrying	Fair
	Amount	Value	Amount	Value
First Mortgage Bonds	\$90,898	\$89,357	\$87,471	\$79,733
SRF Bonds	\$619	\$621	\$625	\$628

For other long-term debt for which there was no quoted market price and there is not an active trading market, it was not practicable to estimate their fair value (for details, including carrying value, interest rate and due date on these series of long-term debt, please refer to those series noted as "Amortizing Secured Note" and "State Revolving Trust Note" on the Condensed Consolidated Statements of Capital Stock and Long-Term Debt). The carrying amount of these instruments was \$44.3 million at June 30, 2014 and \$45.0 million at December 31, 2013. Customer advances for construction have carrying amounts of \$21.4 million and \$21.8 million, respectively, at June 30, 2014 and December 31, 2013. Their relative fair values cannot be accurately estimated since future refund payments depend on several variables, including new customer connections, customer consumption levels and future rate increases.

**Note 4 – Earnings Per Share**

Basic earnings per share (EPS) are computed on the basis of the weighted average number of shares outstanding during the period presented. Diluted EPS assumes the conversion of both the Convertible Preferred Stock \$7.00 Series and the Convertible Preferred Stock \$8.00 Series.

**Note 5 – Business Segment Data**

The Company has identified two reportable segments. One is the regulated business of collecting, treating and distributing water on a retail and wholesale basis to residential, commercial, industrial and fire protection customers in parts of New Jersey, Delaware and Pennsylvania. This segment also includes regulated wastewater systems in New Jersey and Delaware. The Company is subject to regulations as to its rates, services and other matters by New Jersey, Delaware and Pennsylvania with respect to utility services within these states. The other segment is primarily comprised of non-regulated contract services for the operation and maintenance of municipal and private water and wastewater systems in New Jersey and Delaware. Inter-segment transactions relating to operational costs are treated as pass-through expenses. Finance charges on inter-segment loan activities are based on interest rates that are below what would normally be charged by a third party lender.

**Note 6 – Short-term Borrowings**

As of June 30, 2014, the Company has established lines of credit aggregating \$60.0 million. At June 30, 2014, the outstanding borrowings under these credit lines were \$28.0 million at a weighted average interest rate of 1.40%.

Index

The weighted average daily amounts of borrowings outstanding under the Company's credit lines and the weighted average interest rates on those amounts were as follows:

	(In Thousands)			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2014	2013	2014	2013

Weighted Average Interest Rates	1.42 %	1.34 %	1.44 %	1.37 %

The maturity dates for the \$28.0 million outstanding as of June 30, 2014 are all in July 2014 and are extendable at the discretion of the Company.

Interest rates for short-term borrowings under the lines of credit are below the prime rate with no requirement for compensating balances.

**Note 7 – Commitments and Contingent Liabilities***Water Supply*

Middlesex has an agreement with the New Jersey Water Supply Authority (NJWSA) for the purchase of untreated water through November 30, 2023, which provides for an average purchase of 27 million gallons a day (mgd). Pricing is set annually by the NJWSA through a public rate making process. The agreement has provisions for additional pricing in the event Middlesex overdrafts or exceeds certain monthly and annual thresholds.

Middlesex also has an agreement with a non-affiliated regulated water utility for the purchase of treated water. This agreement, which expires February 27, 2016, provides for the minimum purchase of 3 mgd of treated water with provisions for additional purchases.

Purchased water costs are shown below:

(In Thousands)

Six Months Ended

	Three Months Ended			
	June 30, 2014		June 30, 2013	
Treated	\$802	\$762	\$1,580	\$1,523
Untreated	515	515	1,121	1,121
Total Costs	\$1,317	\$1,277	\$2,701	\$2,644

*Contract Operations* - USA-PA operates the City of Perth Amboy, New Jersey's water and wastewater systems under a 20-year agreement, which expires in 2018. In connection with the agreement with Perth Amboy, USA-PA entered into a 20-year subcontract with a wastewater operating company for the operation and maintenance of the Perth Amboy wastewater collection system. The subcontract provides for the sharing of certain fixed and variable fees and operating expenses.

*Guarantees* - In September 2013, Middlesex entered into agreements with Applied Water Management, Inc. (AWM), Natural Systems Utilities, LLC (NSU), the parent company of AWM, and the County of Monmouth, New Jersey (Monmouth County) for the design, construction and operation of a leachate pretreatment facility at the Monmouth County Reclamation Center in Tinton Falls, New Jersey. Under the terms of the agreements, AWM will obtain permits, design, build and operate the landfill leachate pretreatment facility and Middlesex will serve in the role of guarantor of AWM's performance on the project, in addition to providing operational support. Construction of the facility is being financed by Monmouth County and is expected to begin in the third quarter of 2014. Middlesex expects to act as guarantor of AWM's performance through at least August 2018 and is contractually obligated to act as guarantor of AWM's performance through 2028 unless another guarantor, acceptable to Monmouth County, is identified. Under agreements with AWM and NSU, Middlesex earns a fee for providing the guaranty of AWM's performance to Monmouth County, and AWM and NSU, serving as guarantor to Middlesex with respect to the performance of AWM, indemnify Middlesex against any claims that may arise under the Middlesex guaranty to Monmouth County.

Index

Middlesex believes it is unlikely any payments would need to be made under Middlesex's guaranty of AWM's performance to Monmouth County. If asked to perform under the guaranty to Monmouth County, and, if AWM and NSU, as guarantor to Middlesex, do not fulfill their obligations to indemnify Middlesex against any claims that may arise under the Middlesex guaranty to Monmouth County, Middlesex would be required to fulfill the construction and operational commitments of AWM. As of June 30, 2014, and December 31, 2013, the liability recognized in Other Non-Current Liabilities on the balance sheet for the guaranty is approximately \$0.3 million and \$0.4 million, respectively.

*Construction*

The Company expects to spend approximately \$26.6 million for its construction program in 2014. The actual timing and amount of capital expenditures is dependent on project scheduling and refinement of engineering estimates for certain projects.

*Litigation*

The Company is a defendant in lawsuits in the normal course of business. We believe the resolution of pending claims and legal proceedings will not have a material adverse effect on the Company's consolidated financial statements.

*Change in Control Agreements*

The Company has Change in Control Agreements with certain of its officers that provide compensation and benefits in the event of termination of employment in connection with a change in control of the Company.

**Note 8 – Employee Benefit Plans**

*Pension Benefits*

The Company's Pension Plan covers substantially all employees hired prior to March 31, 2007. Employees hired after March 31, 2007 are not eligible to participate in this plan, but do participate in a defined contribution plan that provides an annual contribution into a self-directed retirement account at the discretion of the Company, based upon a percentage of the participants' compensation. In order to be eligible for contribution, the participating employee must be employed by the Company on December 31st of the year to which the award relates. For the three months ended June 30, 2014, the Company made Pension Plan cash contributions of \$0.8 million. The Company did not make any Pension Plan contributions in the three months ended June 30, 2013. For the six months ended June 30, 2014 and 2013, the Company made Pension Plan cash contributions of \$1.3 million and \$0.6 million, respectively. The Company expects to make additional Pension Plan cash contributions of approximately \$2.0 million over the remainder of the current year. The Company also maintains an unfunded supplemental retirement benefit plan for certain active and retired Company officers and currently pays \$0.3 million in annual benefits to the retired

participants.

*Other Postretirement Benefits*

The Company's postretirement plan other than pensions (Other Benefits Plan) covers substantially all of its retired employees. Employees hired after March 31, 2007 are not eligible to participate in this plan. Coverage includes healthcare and life insurance. For the three months ended June 30, 2014, the Company made Other Benefits Plan cash contributions of \$0.2 million. The Company did not make any Other Benefits Plan contributions in the three months ended June 30, 2013. For the six months ended June 30, 2014 and 2013, the Company made Other Benefits Plan cash contributions of \$0.4 million and \$0.7 million, respectively. The Company expects to make additional Other Benefits Plan cash contributions of approximately \$1.0 million over the remainder of the current year.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements of Middlesex Water Company (Middlesex or the Company) included elsewhere herein and with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

**Forward-Looking Statements**

Certain statements contained in this periodic report and in the documents incorporated by reference constitute "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934 and Section 27A of the Securities Act of 1933. The Company intends that these statements be covered by the safe harbors created under those laws. These statements include, but are not limited to:

- statements as to expected financial condition, performance, prospects and earnings of the Company;
- statements regarding strategic plans for growth;
- statements regarding the amount and timing of rate increases and other regulatory matters, including the recovery of certain costs recorded as regulatory assets;
- statements as to the Company's expected liquidity needs during the upcoming fiscal year and beyond and statements as to the sources and availability of funds to meet its liquidity needs;
- statements as to expected customer rates, consumption volumes, service fees, revenues, margins, expenses and operating results;
- statements as to financial projections;
- statements as to the expected amount of cash contributions to fund the Company's retirement benefit plans, anticipated discount rates and rates of return on retirement benefit plan assets;
- statements as to the ability of the Company to pay dividends;
- statements as to the Company's compliance with environmental laws and regulations and estimations of the materiality of any related costs;
- statements as to the safety and reliability of the Company's equipment, facilities and operations;
- statements as to the Company's plans to renew municipal franchises and consents in the territories it serves;
- statements as to trends; and
- statements regarding the availability and quality of our water supply.

These forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from future results expressed or implied by the forward-looking statements. Important factors that could cause actual results to differ materially from anticipated results and outcomes include, but are not limited to:

- the effects of general economic conditions;
- increases in competition in the markets served by the Company;
- the ability of the Company to control operating expenses and to achieve efficiencies in its operations;
- the availability of adequate supplies of water;
- actions taken by government regulators, including decisions on rate increase requests;
- new or additional water quality standards;
- weather variations and other natural phenomena;
- the existence of financially attractive acquisition candidates and the risks involved in pursuing those acquisitions;
- acts of war or terrorism;
- cyber security incidents or failure of information technology systems;

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q

- significant changes in the pace of housing development in Delaware;
- the availability and cost of capital resources;
- the ability to translate Preliminary Survey & Investigation charges into active projects; and
- other factors discussed elsewhere in this quarterly report.

Many of these factors are beyond the Company's ability to control or predict. Given these uncertainties, readers are cautioned not to place undue reliance on any forward-looking statements, which only speak to the Company's understanding as of the date of this report. The Company does not undertake any obligation to release publicly any revisions to these forward-looking statements to reflect events or circumstances after the date of this report or to reflect the occurrence of unanticipated events, except as may be required under applicable securities laws.

## Index

For an additional discussion of factors that may affect the Company's business and results of operations, see Item 1A. - Risk Factors in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013.

## **Overview**

Middlesex Water Company (Middlesex) has operated as a water utility in New Jersey since 1897, in Delaware through our wholly-owned subsidiary, Tidewater Utilities, Inc. (Tidewater), since 1992 and in Pennsylvania through our wholly-owned subsidiary, Twin Lakes Utilities, Inc. (Twin Lakes), since 2009. We are in the business of collecting, treating and distributing water for domestic, commercial, municipal, industrial and fire protection purposes. We also operate two New Jersey municipal water and wastewater systems under contract and provide regulated wastewater services in New Jersey and Delaware through our subsidiaries. We are regulated as to rates charged to customers for water and wastewater services, as to the quality of water service we provide and as to certain other matters in New Jersey, Delaware and Pennsylvania. Only our Utility Service Affiliates, Inc. (USA), Utility Service Affiliates (Perth Amboy), Inc. (USA-PA) and White Marsh Environmental Services, Inc. (White Marsh) subsidiaries are not regulated utilities.

Our New Jersey water utility system (the Middlesex System) provides water services to approximately 61,000 retail customers, primarily in central New Jersey. The Middlesex System also provides water service under contract to municipalities in central New Jersey with a total population of approximately 219,000. Our Bayview subsidiary provides water services in Downe Township, New Jersey. Our other New Jersey subsidiaries, Pinelands Water Company (Pinelands Water) and Pinelands Wastewater Company (Pinelands Wastewater) (collectively, Pinelands), provide water and wastewater services to residents in Southampton Township, New Jersey.

We have an investment in a joint venture, Ridgewood Green RME, LLC, that owns and operates facilities to optimize the production of electricity at the Village of Ridgewood, New Jersey wastewater treatment plant and other municipal facilities.

In partnership with our subsidiary, USA-PA, we operate the water supply system and wastewater system for the City of Perth Amboy, New Jersey (Perth Amboy).

USA offers residential customers in New Jersey and Delaware water service line and sewer lateral maintenance programs (LineCare). USA entered into a marketing agreement (the Agreement), expiring in 2021, with HomeServe USA (HomeServe), a leading provider of home maintenance service programs to service, develop and grow USA's LineCare customer base. USA receives a service fee for the billing, cash collection and other administrative matters associated with HomeServe's service contracts. USA also operates the Borough of Avalon, New Jersey's (Avalon) water utility, sewer utility and storm water system. In addition to performing the day to day operations, USA is responsible for billing, collections, customer service, emergency responses and management of capital projects funded

by Avalon. USA also provides unregulated water and wastewater services under contract with several New Jersey municipalities and an industrial customer.

Our Delaware subsidiaries, Tidewater and Southern Shores Water Company, LLC (Southern Shores), provide water services to approximately 39,000 retail customers in New Castle, Kent and Sussex Counties, Delaware. Tidewater's subsidiary, White Marsh, services an additional 3,500 customers in Kent and Sussex Counties through various operations and maintenance contracts.

Our Tidewater Environmental Services, Inc. (TESI) subsidiary provides wastewater services to approximately 3,200 residential retail customers.

Index

Our Pennsylvania subsidiary, Twin Lakes, provides water services to approximately 120 retail customers in the Township of Shohola, Pike County, Pennsylvania.

The majority of our revenue is generated from retail and contract water services to customers in our service areas. We record water service revenue as such service is rendered and include estimates for amounts unbilled at the end of the period for services provided after the last billing cycle. Fixed service charges are billed in advance by our subsidiary, Tidewater, and are recognized in revenue as the service is provided.

Our ability to increase operating income and net income is based significantly on four factors: weather, adequate and timely rate relief, effective cost management, and customer growth. These factors are evident in the discussions below which compare our results of operations with prior periods.

**Recent Developments**

**New Jersey Board of Public Utilities Approves Middlesex Base Water Rate Increase**— In June 2014, Middlesex's application with the New Jersey Board of Public Utilities (NJBPU) seeking permission to increase base water rates was partially approved, granting an increase in annual operating revenues of \$4.2 million. The originally-filed base water rate increase request of \$10.6 million (subsequently revised to \$8.1 million, primarily resulting from lower employee benefit plan costs), filed in November 2013, was necessitated by capital investments Middlesex had made, or committed to make, increased operations and maintenance costs and lost revenues resulting from the ending of a wholesale water sales contract with the Borough of Sayreville, New Jersey in August 2013 and Middlesex's largest retail water customer, Hess Corporation, ceasing its oil refining operations at its Port Reading, New Jersey facility in February 2013. The new base water rates are designed to recover the increased costs, lost revenues, as well as a return on invested capital in rate base of \$208.6 million based on a return on equity of 9.75%. The rate increase became effective on July 20, 2014.

**Tidewater Base Water Rate Filing** - In November 2013, Tidewater filed an application with the Delaware Public Service Commission (DEPSC) seeking permission to increase its base water rates by approximately \$3.9 million per year. The request was necessitated by capital investments Tidewater has made, or has committed to make, as well as increased operations and maintenance costs. On July 2, 2014, Tidewater filed additional information that resulted in reducing its original request to \$2.5 million, primarily from lower employee benefit plan costs. We cannot predict whether the DEPSC will ultimately approve, deny, or reduce the amount of the revised request. A decision by the DEPSC is expected in the third quarter of 2014.

**Dover Air Force Base** - In April 2014, the DEPSC approved Tidewater's agreement with the United States Department of Defense for the privatization of the water system of Dover Air Force Base (DAFB) in Dover, Delaware. Under the agreement, Tidewater will provide DAFB with potable water service and integrate the DAFB

water system into its regulated utility operations. Tidewater expects to begin providing water service to DAFB in October 2014. Service to DAFB is expected to initially generate approximately \$0.6 million of annual revenue.

## Outlook

Revenues in 2014 are expected to be favorably impacted by Middlesex and Tidewater base water rate increases, (see “*New Jersey Board of Public Utilities Approves Middlesex Base Water Rate Increase*” and “*Tidewater Base Water Rate Filing*” above for further discussion on Middlesex and Tidewater’s base rate increase filings). A decision by Tidewater’s regulator on its rate increase request is expected in the third quarter of 2014. In addition, revenues are expected to be favorably impacted by Tidewater’s agreement to provide water service to DAFB (beginning in October 2014) and the full year effect of TESI’s Plantations development (Plantations) wastewater asset acquisition, which TESI began serving in October 2013.

Improved performance in 2013 on our investment of retirement plan funds and a higher discount rate used for our actuarially-determined 2014 employee benefit plan expenses have lowered our expenses and cash contributions in 2014. See Note 8 of the Notes to Unaudited Condensed Consolidated Financial Statements for further discussion of Employee Benefit Plans.

Index

Revenues and earnings are influenced by weather. Changes in usage patterns, as well as increases in capital expenditures and operating costs, are the primary factors in determining the need for rate increase requests. We continue to implement plans to streamline operations and reduce operating costs.

As a result the pace of new residential home construction, there may be an increase in the amount of preliminary survey and investigation (PS&I) costs that will not be currently recoverable in rates. If it is determined that recovery is unlikely, the applicable PS&I costs will be charged against income in the period of determination.

Our strategy is focused on four key areas:

- Acquire investor- and municipally-owned water and wastewater utilities;
- Operate municipal and industrial water and wastewater systems under contract;
- Invest in renewable energy projects that are complementary to the provision of water and wastewater services, and to our core water and wastewater competencies; and
- Invest in other products, services and opportunities that complement our core water and wastewater competencies.

**Operating Results by Segment**

The discussion of the Company's operating results is on a consolidated basis and includes significant factors by subsidiary. The Company has two operating segments, Regulated and Non-Regulated.

The segments in the tables included below consist of the following companies: Regulated-Middlesex, Tidewater, Pinelands, Southern Shores, TESI and Twin Lakes; Non-Regulated-USA, USA-PA, and White Marsh.

Index

*Operating Revenues*

Operating revenues for the three months ended June 30, 2014 increased \$0.1 million from the same period in 2013. This increase was primarily related to the following factors:

· Middlesex System revenues decreased \$0.7 million, primarily due to the following:

- o Sales to General Metered Service customers decreased by \$0.1 million, primarily resulting from Hess Corporation ceasing its oil refining operations at its Port Reading, New Jersey facility in February 2013; and
- o Contract Sales to Municipalities decreased by \$0.6 million primarily due to the loss of the Borough of Sayreville, New Jersey as a wholesale customer in August 2013;

· Tidewater System revenues increased \$0.6 million, primarily due to the following:

- o Increased fees for new customer connections to our water system;
- o The February 2014 implementation of a DEPSC-approved 6.5% interim base rate increase, net of the partial deferral of the interim base rate increase (see Note 2, *Rate and Regulatory Matters – Tidewater*); and
- o Higher customer demand;

· TESI's revenues increased \$0.1 million, primarily due to the acquisition of the wastewater assets of the Plantations, which TESI began serving in October 2013;

· All other revenues increased \$0.1 million.

*Operation and Maintenance Expense*

Operation and maintenance expenses for the three months ended June 30, 2014 decreased \$0.6 million, primarily due to lower postretirement employee benefit plan costs resulting from improved performance in 2013 on our investment of retirement plan funds and a higher discount rate used for the actuarially determined 2014 expense.

*Depreciation*

Depreciation expense for the three months ended June 30, 2014 increased \$0.1 million from the same period in 2013 due to a higher level of utility plant in service.

*Other Taxes*

Other taxes for the three months ended June 30, 2014 were consistent with the same period in 2013, primarily due to lower revenue related taxes on lower taxable revenues in our Middlesex system offset by higher payroll taxes.

*Other Income, net*

Other Income, net for the three months ended June 30, 2014 was consistent with the same period in 2013.

*Interest Charges*

Interest charges for the three months ended June 30, 2014 were consistent with the same period in 2013.

*Income Taxes*

Income taxes for the three months ended June 30, 2014 increased \$0.3 million from the same period in 2013, primarily due to increased operating income in 2014 as compared to 2013 and a higher effective tax rate, resulting from Middlesex's subsidiaries who pay state income taxes contributing a higher percentage of 2014 consolidated pre-tax income.

Index*Net Income and Earnings Per Share*

Net income for the three months ended June 30, 2014 increased \$0.2 million from the same period in 2013. Basic and diluted earnings per share were \$0.29 and \$0.28 for the three months ended June 30, 2014 and 2013, respectively.

**Results of Operations – Six Months Ended June 30, 2014**

	(In Thousands)			2013		
	Six Months Ended June 30, 2014			2013		
	Regulated	Non-Regulated	Total	Regulated	Non-Regulated	Total
Revenues	\$49,281	\$ 7,082	\$56,363	\$49,002	\$ 7,138	\$56,140
Operations and maintenance expenses	24,362	5,638	30,000	24,733	5,845	30,578
Depreciation expense	5,559	93	5,652	5,344	90	5,434
Other taxes	5,813	184	5,997	5,909	183	6,092
Operating income	13,547	1,167	14,714	13,016	1,020	14,036
Other income, net	110	(6 )	104	203	—	203
Interest expense	2,572	46	2,618	2,645	48	2,693
Income taxes	3,788	515	4,303	3,429	459	3,888
Net income	\$7,297	\$ 600	\$7,897	\$7,145	\$ 513	\$7,658

*Operating Revenues*

Operating revenues for the six months ended June 30, 2014 increased \$0.2 million from the same period in 2013. This increase was primarily related to the following factors:

· Middlesex System revenues decreased \$1.2 million, primarily due to the following:

- o Sales to General Metered Service customers decreased by \$0.6 million, primarily resulting from Hess Corporation ceasing its oil refining operations at its Port Reading, New Jersey facility in February 2013; and
- o Contract Sales to Municipalities decreased by \$0.6 million primarily due to the loss of the Borough of Sayreville, New Jersey as a wholesale customer in August 2013 (\$1.0 million) partially offset by higher demand from customers (\$0.4 million);

· Tidewater System revenues increased \$1.1 million, primarily due to the following:

- o Increased fees for new customer connections to our water system;

o

Edgar Filing: MIDDLESEX WATER CO - Form 10-Q

The February 2014 implementation of a DEPSC-approved 6.5% interim base rate increase, net of the partial deferral of the interim base rate increase (see Note 2, *Rate and Regulatory Matters – Tidewater*); and

o

Higher customer demand;

TESI's revenues increased \$0.3 million, primarily due to the acquisition of the wastewater assets of the Plantations, which TESI began serving in October 2013;

· White Marsh's revenues increased \$0.1 million, primarily due to higher additional service revenues;

USA-PA's revenues increased \$0.1 million, primarily from scheduled increases in the fixed fees paid under contract with the City of Perth Amboy; and

USA's revenues decreased \$0.2 million, primarily due to lower additional services revenues earned under our contract to operate the Avalon water utility, sewer utility and storm water system.

Index

*Operation and Maintenance Expense*

Operation and maintenance expenses for the six months ended June 30, 2014 decreased \$0.6 million, primarily related to the following factors:

Employee benefit expenses decreased \$1.4 million due primarily to lower postretirement employee benefit plan costs resulting from improved performance in 2013 on our investment of retirement plan funds and a higher discount rate used for the actuarially determined 2014 expense;

· Severe winter weather resulted higher water main break costs of \$0.3 million in our Middlesex System;  
Labor costs increased \$0.4 million, primarily related to higher overtime resulting from severe winter weather in our Middlesex System; and

· Operation and maintenance expenses for all other categories increased \$0.1 million.

*Depreciation*

Depreciation expense for the six months ended June 30, 2014 increased \$0.2 million from the same period in 2013 due to a higher level of utility plant in service.

*Other Taxes*

Other taxes for the six months ended June 30, 2014 decreased \$0.1 million from the same period in 2013, primarily due to lower revenue related taxes on lower taxable revenues in our Middlesex system.

*Other Income, net*

Other Income, net for the six months ended June 30, 2014 decreased \$0.1 million from the same period in 2013, primarily due to increased potential project related costs at our TESI subsidiary.

*Interest Charges*

Interest charges for the six months ended June 30, 2014 decreased \$0.1 million from the same period in 2013, primarily due to lower average interest rates on long-term debt and lower average amounts of long-term debt outstanding.

#### *Income Taxes*

Income taxes for the six months ended June 30, 2014 increased \$0.4 million from the same period in 2013, primarily due to increased operating income in 2014 as compared to 2013 and a higher effective tax rate, resulting from Middlesex's subsidiaries who pay state income taxes contributing a higher percentage of 2014 consolidated pre-tax income.

#### *Net Income and Earnings Per Share*

Net income for the six months ended June 30, 2014 increased \$0.2 million from the same period in 2013. Basic earnings per share were \$0.49 and \$0.48 for the six months ended June 30, 2014 and 2013, respectively. Diluted earnings per share were \$0.49 and \$0.47 for the six months ended June 30, 2014 and 2013, respectively.

### **Liquidity and Capital Resources**

#### *Operating Cash Flows*

Cash flows from operations are largely based on four factors: weather, adequate and timely rate increases, effective cost management and customer growth. The effect of those factors on net income is discussed in "Results of Operations."

For the six months ended June 30, 2014, cash flows from operating activities decreased \$2.4 million to \$13.8 million. The decrease in cash flows from operating activities primarily resulted from the timing of vendor payments and employee benefit plan contributions partially offset by the timing of income tax payments. The \$13.8 million of net cash flow from operations enabled us to fund all of our utility plant expenditures internally for the period.

Index

*Capital Expenditures and Commitments*

To fund our capital program, we use internally generated funds, short-term and long-term debt borrowings and, when market conditions are favorable, proceeds from sales of common stock under our Amended and Restated Dividend Reinvestment and Common Stock Purchase Plan (DRP) and common stock offerings. See below for a more detailed discussion regarding the funding of our capital program.

The capital investment program for 2014 is currently estimated to be \$26.6 million. Through June 30, 2014, we have expended \$8.5 million and expect to incur approximately \$18.1 million for capital projects for the remainder of 2014.

We currently project that we may expend approximately \$59.0 million for capital projects in 2015 and 2016. The actual amount and timing of capital expenditures is dependent on project scheduling and refinement of engineering estimates for certain capital projects.

To fund our capital program for the remainder of 2014, we plan on utilizing:

Internally generated funds

Proceeds from the sale of common stock through the DRP

Funds available and held in trust under existing New Jersey State Revolving Fund (SRF) loans (currently, \$3.8 million). SRF programs provide low cost financing for projects that meet certain water quality and system improvement benchmarks.

Short-term borrowings, if necessary, through \$60.0 million of available lines of credit with several financial institutions. As of June 30, 2014, the outstanding borrowings under these credit lines were \$28.0 million.

**Recent Accounting Pronouncements** – See Note 1 of the Notes to Unaudited Condensed Consolidated Financial Statements for a discussion of recent accounting pronouncements.

Index

**Item 3. Quantitative and Qualitative Disclosures of Market Risk**

We are exposed to market risk associated with changes in interest rates and commodity prices. The Company is subject to the risk of fluctuating interest rates in the normal course of business. Our policy is to manage interest rates through the use of fixed rate long-term debt and, to a lesser extent, short-term debt. The Company's interest rate risk related to existing fixed rate, long-term debt is not material due to the term of the majority of our First Mortgage Bonds, which have final maturity dates ranging from 2018 to 2047. Over the next twelve months, approximately \$5.5 million of the current portion of 39 existing long-term debt instruments will mature. Applying a hypothetical change in the rate of interest charged by 10% on those borrowings, would not have a material effect on our earnings.

Our risks associated with commodity price increases for chemicals, electricity and other commodities are reduced through contractual arrangements and the ability to recover price increases through rates. Non-performance by these commodity suppliers could have a material adverse impact on our results of operations, financial position and cash flows.

We are exposed to credit risk for both our Regulated and Non-Regulated business segments. Our Regulated operations serve residential, commercial, industrial and municipal customers while our Non-Regulated operations engage in business activities with developers, government entities and other customers. Our primary credit risk is exposure to customer default on contractual obligations and the associated loss that may be incurred due to the non-payment of customer accounts receivable balances. Our credit risk is managed through established credit and collection policies which are in compliance with applicable regulatory requirements and involve monitoring of customer exposure and the use of credit risk mitigation measures such as letters of credit or prepayment arrangements. Our credit portfolio is diversified with no significant customer or industry concentrations. In addition, our Regulated businesses are generally able to recover all prudently incurred costs including uncollectible customer accounts receivable expenses and collection costs through rates.

The Company's postretirement benefit plan assets are exposed to fluctuating market prices of debt and equity securities. Changes to the Company's postretirement benefit plan assets' value can impact the Company's postretirement benefit plan expense, funded status and future minimum funding requirements. Our risk is reduced through our ability to recover postretirement benefit plan costs through rates.

**Item 4. Controls and Procedures**

*Disclosure Controls and Procedures*

As required by Rule 13a-15 under the Securities and Exchange Act of 1934 (the Exchange Act), an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures was conducted by the Company's Chief Executive Officer along with the Company's Chief Financial Officer. Based upon that evaluation, the Company's Chief Executive Officer and the Company's Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective as of the end of the period covered by this Report. There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in Company reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer as appropriate, to allow timely decisions regarding disclosure.
