Item 8.01. Other Events.

See MANAGEMENT'S DISCUSSION AND ANALYSIS — FUTURE EARNINGS POTENTIAL — "Integrated Coal Gasification Combined Cycle" and — "PSC Matters — Mississippi Baseload Construction Legislation" of Mississippi Power Company ("Mississippi Power") in Item 7 and Note 3 to the financial statements of The Southern Company under "Retail Regulatory Matters — Integrated Coal Gasification Combined Cycle (IGCC)" and of Mississippi Power under "Integrated Coal Gasification Combined Cycle" in Item 8 of each company's Annual Report on Form 10-K for the fiscal year ended December 31, 2009. Also see MANAGEMENT'S DISCUSSION AND ANALYSIS – FUTURE EARNINGS POTENTIAL – "Integrated Coal Gasification Combined Cycle" of Mississippi Power and Note (B) to the Condensed Financial Statements under "Retail Regulatory Matters – Integrated Coal Gasification Combined Cycle" of each company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2010 for additional information regarding the Kemper IGCC.

On May 10, 2010, Mississippi Power filed a motion in response to the April 29, 2010 order of the Mississippi Public Service Commission (the "Mississippi PSC") relating to the Kemper IGCC, or in the alternative, for alteration or rehearing of such order. In its motion, Mississippi Power responded to the order and proposed alternatives to the conditions contained in the order, which, if accepted by the Mississippi PSC, would both address the Mississippi PSC's concerns and allow Mississippi Power to proceed with the Kemper IGCC. In its motion, Mississippi Power proposed, among other things, an alternate construction cost cap of \$2.88 billion, modified prudence review procedures, and a modified proposal for financing cost recovery on construction work in progress ("CWIP") balances under the State of Mississippi Baseload Act of 2008, which would provide for the accrual of allowance for funds used during construction in 2010 and 2011 and recovery of financing costs on 100% of CWIP in 2012, 2013, and 2014. The ultimate outcome of this matter cannot now be determined.
