Dear Fellow Shareholders,

After a strong start to 2003, the stock market succumbed to the pressures of a weak economy, rising oil prices, concerns about corporate earnings and uncertainties about the war in Iraq. The tide turned in April, when the war ended and first-quarter corporate earnings came in better than expected. As a result, the major indexes all gained some ground year to date through April 30, 2003, with the Dow Jones Industrial Average returning 2.50%, the Standard &

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

Poor's 500 Index returning 4.82% and the tech-heavy Nasdaq Composite Index up 9.64%. Bonds, which have outperformed stocks for the last three years, continued their upward trend this year, as investors still sought their relative safety.

After the jarring stock market losses of the last three years, it's a relief for investors to be reminded that the market is indeed cyclical, and does eventually move up - not just down. But while the stock market has been clawing its way back, the ride has been extremely volatile. Uncertainty still abounds about the strength of the economy, geopolitical issues, corporate governance problems, rising unemployment and the sustainability of corporate earnings growth. And despite rallies late last year and in April, many investors are still so bruised and skeptical that they have remained on the sidelines. Even though the statistics suggest we might be emerging from this long, difficult bear market, we're not quite ready to call it history.

While no one can predict when this bear market cycle will turn, investors can take charge of how they maneuver through such uncertain times. First, take a look at how your portfolio is allocated among stocks, bonds and cash to make sure it's in the proper balance. Work with your investment professional, who knows your long-term goals and can help keep you on the right track, rather than being lured by today's stars, which could wind up tomorrow's laggards. And as always, keep a long-term investment horizon. We believe this offers the best way for you to survive the tough times and reach your investment objectives.

Sincerely,

/s/Maureen R. Ford,

Chairman and Chief Executive Officer

This commentary reflects the chairman's views as of April 30, 2003. They are subject to change at any time.

YOUR FUND AT A GLANCE

The Fund seeks long-term capital appreciation, with moderate income as a secondary objective, by investing primarily in stocks of regional banks and lending companies.

Over the last six months

- [] The stock market advanced amid volatility caused by economic and war concerns.
- [] Financial stocks performed in line with the market, but bank stocks lagged for the first time in several years.
- [] Banks with strong mortgage-banking and fixed-income businesses had the best gains.

[Bar chart with heading "John Hancock Bank and Thrift Opportunity Fund". Under the heading is a note that reads "Fund performance for the six months ended April 30, 2003." The chart is scaled in increments of 3% with 0% at the bottom and 6% at the top. The first bar represents the 5.18% total return for John

Bank and Thrift
Opportunity Fund

MANAGERS' REPORT

Stocks advanced over the last six months, but the period was volatile, fueled by concerns about the weak economy, its impact on corporate earnings and the war in Iraq. When the period began last November, stocks were rebounding from a summer sell-off. The market stalled shortly into the new year as war fears grew leading up to the March invasion. April saw another rally as the war wound down and corporate earnings were better than expected. For the six months ended April 30, 2003, the broad market, as measured by the Standard & Poor's 500 Index, returned 4.47%.

Financial stocks performed in line with the market, with the more market-sensitive, higher-risk companies, such as brokerage firms, producing the best results, moving up off of a low base. By contrast, regional banks, after running up strongly for the last two years and leading the financial pack, did less well this period. Investors began to question their ability to maintain the same level of earnings growth in an environment of historically low interest rates and stagnant economic growth.

"Financial stocks performed in line with the market..."

FUND PERFORMANCE EXPLAINED

For the six months ended April 30, 2003, John Hancock Bank and Thrift Opportunity Fund posted a total return of 5.18% at net asset value. By comparison, the average open-end financial services fund returned 4.95%, according to Lipper, Inc. Keep in mind that your net asset value return will be

different from the Fund's performance if you were not invested in the Fund for the entire period and did not reinvest all distributions.

Just as our heavy focus on regional banks served the Fund well during the last two years of outstanding returns, it held our performance back somewhat in this period, as regional banks -

2

[Photos' of Jim Schmidt, Lisa Welch and Tom Goggins flush right next to first paragraph.]

particularly mid-cap thrifts and thrift-like banks - underperformed during the period's market rallies.

MORTGAGE BANKING AND BOND TRADING RULE

On an absolute basis, the best performers were banks that had a strong emphasis on mortgage banking and fixed-income activities, such as bond trading, which flourished as investors shunned equities and bought bonds. Mortgage banking remained strong as continually low interest rates prompted individuals and corporations to refinance their homes and balance sheets. Low rates also caused companies needing to raise capital to turn to the bond market rather than the still-weak equity IPO market, generating record bond issuance.

Among the Fund's top performers were First Tennessee National, National City Corp. and Washington Mutual, all of which have hefty mortgage banking businesses. Banks that were relatively cheap on a price-to-earnings basis also did well in the period when concerns grew about bank fundamentals. FleetBoston Financial and Zions Bancorp fit this category. They both had depressed stock prices from problems last year and then produced better-than-expected results in the first quarter.

"...the best performers were banks that had a strong emphasis on mortgage banking and fixed-income activities..."

EARNINGS WORRIES HIT MID CAPS

The Fund's biggest detractors were those that had earnings shortfalls in the first quarter. That prompted investor concerns that revenue growth would be more difficult for banks, especially those in the mid-cap range, as the prolonged low interest-rate environment was beginning to cause margin pressures, at the same time commercial loan growth was not yet

3

showing signs of picking up. This uncertainty hurt the stocks of Fund holdings

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

North Fork, National Commerce and TCF Financial Corporation. State Street, which we did not own, also pre-announced lower-than-expected earnings, and that hit the stocks of similar, more market-sensitive names, such as Fund holding Mellon Financial.

Longstanding top performer Fifth Third Bancorp. had issues with regulators surrounding its operational infrastructure. We are maintaining our position because we believe Fifth Third has a strong balance sheet and the ability to produce double-digit earnings growth. All of these banks, along with Fund holdings Wells Fargo, Bank One and National Commerce, also suffered from multiple compression, which brought their high price-to-earnings multiples down from trading at a premium to being more in line with their group.

[Pie chart in middle of page with heading "Portfolio diversification As a percentage of net assets on 4-30-03." The chart is divided into two sections (from top to left): Common stocks 97% and Short-term investments & other 3%.]

RETURN TO CONSOLIDATION?

During the period, BB&T's stock tumbled after it announced its intent to buy First Virginia in a deal the market considered too rich. But in our view, the move could signal a pickup in bank consolidations - either as a means for an acquiring bank to

4

address the challenge of where to find revenue growth, or for a seller to cash in at a higher price now, in case revenue and earnings growth slows.

NON-BANK FINANCIALS HELP

Our stake in non-bank financials served us well for the most part in a period where diversification helped. Brokerage firms Lehman Brothers and Legg Mason did well because of their fixed-income business, and mortgage banker Fannie Mae benefited from the continuing refinancing trend.

OUTLOOK

We anticipate that bank earnings growth for 2003 over 2002 will be in the high single digits on average. But whereas in the last two years the mid-cap regional banks and thrifts have mostly done well, we anticipate far more variation in results going forward, as some managements better navigate their companies through a potential slow-growth period ahead. That makes individual stock picking and fundamental analysis more critical than ever, and we will continue to apply our experience toward finding and holding onto those banks.

"...we anticipate far more variation in results going forward..."

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

NOTES TO STATEMENTS

NOTE A

Accounting policies

John Hancock Bank and Thrift Opportunity Fund (the "Fund") is a diversified closed-end management investment company, shares of which were initially offered to the public on August 23, 1994 and are publicly traded on the New York Stock Exchange.

Significant accounting policies of the Fund are as follows:

Valuation of investments

Securities in the Fund's portfolio are valued on the basis of market quotations, valuations provided by independent pricing services or at fair value as determined in good faith in accordance with procedures approved by the Trustees. Short-term debt investments maturing within 60 days are valued at amortized cost, which approximates market value. Investments in AIM Cash Investment Trust are valued at their net asset value each business day.

Joint repurchase agreement

Pursuant to an exemptive order issued by the Securities and Exchange Commission, the Fund, along with other registered investment companies having a management contract with John Hancock Advisers, LLC (the "Adviser"), a wholly owned subsidiary of The Berkeley Financial Group, LLC, may participate in a joint repurchase agreement transaction. Aggregate cash balances are invested in one or more large repurchase agreements, whose underlying securities are obligations of the U.S. government and/or its agencies. The Fund's custodian bank receives delivery of the underlying securities for the joint account on the Fund's behalf. The Adviser is responsible for ensuring that the agreement is fully collateralized at all times.

Investment transactions

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

Investment transactions are recorded as of the date of purchase, sale or maturity. Net realized gains and losses on sales of investments are determined on the identified cost basis. Discount and premium on securities The Fund accretes discount and amortizes premium from par value on securities from either the date of issue or the date of purchase over the life of the security.

Expenses

The majority of the expenses are directly identifiable to an individual fund. Expenses that are not readily identifiable to a specific

14

fund will be allocated in such a manner as deemed equitable, taking into consideration, among other things, the nature and type of expense and the relative sizes of the funds.

Securities lending

The Fund may lend securities to certain qualified brokers who pay the Fund negotiated lender fees. These fees are included in interest income. The loans are collateralized at all times with cash or securities with a market value at least equal to the market value of the securities on loan. As with other extensions of credit, the Fund may bear the risk of delay of the loaned securities in recovery or even loss of rights in the collateral, should the borrower of the securities fail financially. On April 30, 2003, the Fund loaned securities having a market value of \$36,232,083 collateralized by cash in the amount of \$36,835,964. The cash collateral was invested in a short-term instrument.

Federal income taxes

The Fund qualifies as a "regulated investment company" by complying with the applicable provisions of the Internal Revenue Code and will not be subject to federal income tax on taxable income that is distributed to shareholders. Therefore, no federal income tax provision is required.

Dividends, interest and distributions

Dividend income on investment securities is recorded on the ex-dividend date or, in the case of some foreign securities, on the date thereafter when the Fund identifies the dividend. Interest income on investment securities is recorded on the accrual basis. Foreign income may be subject to foreign withholding taxes, which are accrued as applicable.

The Fund records distributions to shareholders from net investment income and net realized gains on the ex-dividend date. Such distributions, on a tax basis, are determined in conformity with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. Distributions in excess of tax basis earnings and profits, if any, are reported in the Fund's financial statements as a return of capital.

Use of estimates

The preparation of these financial statements, in accordance with accounting principles generally accepted in the United States of America, incorporates estimates made by management in determining the reported amount of assets, liabilities, revenues and expenses of the Fund. Actual results could differ from these estimates.

NOTE B

Management fee and transactions with affiliates and others

The Fund has an investment management contract with the Adviser. Under the

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

investment management contract, the Fund pays a monthly management fee to the Adviser at an annual rate of 1.15% of the Fund's average weekly net asset value.

The Fund has an agreement with the Adviser to provide certain administrative services for the Fund. The compensation for the period was at an annual rate of 0.25% of the average weekly net assets of the Fund. The Adviser agreed to limit the administration fee to 0.20% of the Fund's average weekly net assets. Accordingly, the reduction amounted to \$187,328 for the period ended April 30, 2003. The Adviser reserves the right to terminate this limitation in the future with Trustees' approval.

Ms. Maureen R. Ford and Mr. John M. DeCiccio are directors and/or officers of the Adviser and/or its affiliates, as well as Trustees of the Fund. The compensation of unaffiliated Trustees is borne by the Fund. The unaffiliated Trustees may elect to defer for tax purposes their receipt of this compensation under the John Hancock Group of

15

Funds Deferred Compensation Plan. The Fund makes investments into other John Hancock funds, as applicable, to cover its liability for the deferred compensation. Investments to cover the Fund's deferred compensation liability are recorded on the Fund's books as an other asset. The deferred compensation liability and the related other asset are always equal and are marked to market on a periodic basis to reflect any income earned by the investments as well as any unrealized gains or losses. The Deferred Compensation Plan investments had no impact on the operations of the Fund.

NOTE C

Fund common share transactions

This listing illustrates the reclassification of capital accounts and the number of common shares outstanding at the beginning and end of the last two periods, along with the corresponding dollar value.

	YEAR ENDED 10-31-02		PERIOD ENDED 4-30-031	
	SHARES	AMOUNT	SHARES	AMOUNT
Beginning of period	84,400,000	\$396,952,307	84,400,000	\$396,943,038
Reclassification of capital accounts	-	(9,269)	-	-
End of period	84,400,000	\$396,943,038	84,400,000	\$396,943,038

1 Semiannual period from 11-1-02 through 4-30-03. Unaudited.

NOTE D

Investment transactions

Purchases and proceeds from sales or maturities of securities, other than short-term securities and obligations of the U.S. government, during the period ended April 30, 2003, aggregated \$14,082,160 and \$83,897,465, respectively.

The cost of investments owned on April 30, 2003, including short-term investments, for federal income tax purposes was \$476,867,547. Gross unrealized appreciation and depreciation of investments aggregated \$328,415,141 and \$7,216,831, respectively, resulting in net unrealized appreciation of \$321,198,310. The difference between book basis and tax basis net unrealized

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

appreciation of investments is attributable primarily to the tax deferral of losses on wash sales.

16

NOTE E

Transactions in securities of affiliated issuers

Affiliated issuers, as defined by the Investment Company Act of 1940, are those in which the Fund's holdings of an issuer represent 5% or more of the outstanding voting securities of the issuer. A summary of the Fund's transactions in the securities of these issuers during the period ended April 30, 2003 is set forth below.

INVESTMENT OBJECTIVE AND POLICY

The Fund is a closed-end diversified management investment company, shares of which were initially offered to the public on August 23, 1994 and are publicly traded on the New York Stock Exchange. Its investment objective is long-term capital appreciation.

On November 20, 2001 the Fund's Trustees approved the following investment policy changes, which became effective December 15, 2001. Under normal circumstances, the Fund will invest at least 80% of its net assets in equity securities of U.S. regional banks and thrifts and holding companies that primarily own or receive a substantial portion of their income from regional banks or thrifts. "Net assets" is defined as net assets plus borrowings for investment purposes. "Primarily owned" means that the bank or financial holding company derives a substantial portion of its business from U.S. regional banks

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

or thrifts as determined by the Adviser, based upon generally accepted measures such as revenues, asset size and number of employees. U.S. regional banks or thrifts are ones that provide full-service banking (i.e., savings accounts, checking accounts, commercial lending and real estate lending) and whose assets are primarily of domestic origin. The Fund will notify shareholders at least 60 days prior to any change in this 80% investment policy.

The Fund may invest in investment-grade debt securities as well as debt securities rated BB or below by Standard & Poor's Ratings group ("Standard & Poor's") or Ba or below by Moody's Investors Service, Inc. ("Moody's"), or, if unrated by such rating organizations, determined by the Adviser to be of comparable quality.

On November 19, 2002, the Board of Trustees adopted several amendments to the Fund's by-laws, including provisions relating to the calling of a special meeting and requiring advance notice of shareholder proposals or nominees for Trustee. The advance notice provisions in the by-laws require shareholders to notify the Fund in writing of any proposal which they intend to present at an annual meeting of shareholders, including any nominations for Trustee, between 90 and 120 days prior to the first anniversary of the mailing date of the notice from the prior year's annual meeting of shareholders. The notification must be in the form prescribed by the by-laws. The advance notice provisions provide the Fund and its Trustees with the opportunity to thoughtfully consider and address the matters proposed before the Fund prepares and mails its proxy statement to shareholders. Other amendments set forth the procedures that must be followed in order for a shareholder to call a special meeting of shareholders. Please contact the Secretary of the Fund for additional information about the advance notice requirements or the other amendments to the by-laws.

DIVIDEND

REINVESTMENT PLAN

The Fund offers its shareholders a Dividend Reinvestment Plan, (the "Plan"), which offers the opportunity to earn compounded yields. Each holder of common shares will automatically have all distributions of dividends and capital gains reinvested by Mellon Investor Services as Plan agent for the common shareholders (the "Plan Agent"), unless an election is made to receive cash. Each registered shareholder will receive from the Plan Agent an authorization card to be signed and returned if the shareholder elects to receive distributions from net investment income in cash or elects not to receive capital gains distributions in the form of a shares dividend. Shareholders may also make their election by notifying the Plan Agent by telephone or by visiting the Plan Agent's Web site at www.melloninvestor.com. Holders of common shares who elect not to participate in the Plan will receive

18

all distributions in cash paid by check mailed directly to the shareholder of record (or if the common shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Shareholders whose shares are held in the name of a broker or nominee or shareholders transferring such an account to a new broker or nominee should contact the broker or nominee, to determine whether and how they may participate in the Plan.

The Plan Agent serves as agent for the holders of common shares in administering the Plan. After the Fund declares a dividend or makes a capital gains distribution, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy common shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. The Fund will not

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

issue any new shares in connection with the Plan. The Plan Agent's fees for the handling of reinvestment of dividends and other distributions will be paid by the Fund. Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions. There are no other charges to participants for reinvesting dividends or capital gain distributions. Participants in the Plan may withdraw from the Plan at any time by contacting the Plan Agent by telephone, in writing or by visiting the Plan Agent's Web site at www.melloninvestor.com. Such withdrawal will be effective immediately if received prior to a dividend record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan, as provided below, either a cash payment will be made to the participant for the full value of the common shares credited to the account upon instruction by the participant, or certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a common share credited to such account.

The Plan Agent maintains each shareholder's account in the Plan and furnishes monthly written confirmations of all transactions in the accounts, including information needed by the shareholders for personal and tax records. The Plan Agent will hold common shares in the account of each Plan participant in non-certificated form in the name of the participant. Proxy material relating to shareholders' meetings of the Fund will include those shares purchased as well as shares held pursuant to the Plan. In the case of shareholders such as banks, brokers, or nominees, which hold common shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of common shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are participants in the Plan. Shares may be purchased through broker-dealers.

Dividends and capital gains distributions are taxable whether received in cash or reinvested in additional common shares, and the automatic reinvestment of dividends and capital gain distributions will not relieve participants of any U.S. federal income tax that may be payable or required to be withheld on such dividends or distributions. The amount of dividends to be reported on 1099-DIV should be the amount of cash used by the Plan Agent to purchase shares in the open market, including the amount of cash allocated to brokerage commissions paid on such purchases.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan as applied to any distribution paid subsequent to

19

written notice of the change sent to all shareholders of the Fund at least 90 days before the record date for the dividend or distribution. The Plan may be amended or terminated by the Plan Agent after at least 90 days' written notice to all shareholders of the Fund. All correspondence or additional information concerning the Plan should be directed to the Plan Agent, Mellon Bank, N.A., c/o Mellon Investor Services, P.O. Box 3338, South Hackensack, NJ 07606-1938 (telephone 1-800-852-0218).

SHAREHOLDER COMMUNICATION AND ASSISTANCE

If you have any questions concerning the Fund, we will be pleased to assist you. If you hold shares in your own name and not with a brokerage firm, please

Edgar Filing: HANCOCK JOHN BANK & THRIFT OPPORTUNITY FUND - Form N-CSR/A

address all notices, correspondence, questions or other communications regarding the Fund to the transfer agent at:

Mellon Investor Services
85 Challenger Road
Overpeck Centre
Ridgefield Park, NJ 07660
Telephone: 1-800-852-0218

If your shares are held with a brokerage firm, you should contact that firm, bank or other nominee for assistance.

20

SHAREHOLDER MEETING

On February 10, 2003, the Annual Meeting of the Fund was held to elect four Trustees and to ratify the action of the Trustees in selecting independent auditors for the Fund.

The shareholders elected the following Trustees to serve until their respective successors are duly elected and qualified, with the votes tabulated as follows:

	FOR	WITHHELD AUTHORITY
Ronald R. Dion	69,221,199	12,488,796
Charles L. Ladner	69,221,850	12,438,145
John A. Moore	69,155,197	12,554,798
Maureen R. Ford	68,870,675	12,839,320

The shareholders also ratified the Trustees' selection of Deloitte and Touche LLP as the Fund's independent auditors for the fiscal year ending October 31, 2003, with the votes tabulated as follows: 71,978,944 FOR, 706,418 AGAINST and 9,024,632 ABSTAINING.

A shareholder proposal recommending that the Board consider merging the Fund into the John Hancock Regional Bank Fund was rejected, with the votes tabulated as follows: 18,516,875 FOR, 24,555,030 AGAINST and 1,703,101 ABSTAINING.
