To manufacture fully built buses & coaches for India & markets abroad**

**MUMBAI, May 5, 2006: Tata Motors, India's largest automobile company, and Marcopolo, the Brazil-based global leader in body-building for buses and coaches, today announced a joint venture company in India to manufacture and assemble fully-built buses and coaches.**

The joint venture, in which Tata Motors will hold 51% of the equity and Marcopolo will hold 49%, will set up a new manufacturing facility. It will go on stream in a year's time, and produce a variety of buses including 16 to 54-seater standard buses, 18 and 45-seater luxury buses, luxury coaches, and low-floor city buses. The joint venture will also explore emerging opportunities in Bus Rapid Transit System.

The joint venture will take help with technology and expertise in chassis and aggregates from Tata Motors, and expertise and know-how in processes and systems for bodybuilding and bus body design from Marcopolo. Both companies will actively participate in the management. The buses will conform to international standards in quality and safety, and will be marketed not only in India but also in all Tata Motors focussed markets globally.

The Chairman of Tata Motors, Mr. Ratan N. Tata, said, "The rapidly expanding and improving road network, connecting cities and also rural areas, is expected to substantially grow passenger transport. The joint venture with Marcopolo, which is one of the largest bus body builders, will enable Tata Motors to successfully address the growing demand in India, as well as relevant markets abroad."

The joint venture with Tata Motors will help us extend our presence in the high-potential markets of India and also other mutually agreed countries, which we can jointly develop."
