Herman Miller, Inc., Reports Financial Results for the Third Quarter FY2005; Sales Increase 16% from the Prior Year

Webcast to be held Thursday, March 17, 2005, at 9:30 AM EST

Herman Miller, Inc., today announced results for the third quarter ended February 26, 2005. Sales were up 16.0% from the year-ago period. Orders and backlog also significantly improved over the prior-year levels, with orders up 10.1% and backlog increasing 9.7%. Net earnings were \$16.8 million, or \$.24 per share, an increase of 115.4% over net earnings of \$7.8 million for the same period in the prior year. Gross margins continued to show significant year-over-year improvement. The ending cash balance grew to \$164.2 million, which includes cash flow from operations of \$40.5 million for the quarter and also the impact of just under \$23 million in share repurchases made during the current quarter.

Consolidated sales for the quarter were \$382.4 million, reflecting both year-over-year and sequential growth. Sales were up 16.0% from the same period a year ago and 3.8% from the prior quarter. This represents the third quarter in a row of double-digit year-over-year sales growth, and the highest rate of quarterly sales increases over the prior year since November 2000. The current quarter's net sales include \$5.7 million due to the consolidation of an independent contract furniture dealership as required under the provisions of FIN 46, which was adopted in the fourth quarter of the prior year. Orders in the quarter were \$341.1 million, increasing 10.1% from the prior year. Ending backlog was \$215.1 million, up \$19.1 million or 9.7% from the prior year.

Exceptional performance in December helped us exceed our sales forecast for the quarter, said Beth Nickels, Chief Financial Officer. Heading into the quarter we had a large backlog of government and commercial business that drove our highest monthly sales results in a number of years. Orders did decline around the holidays, but fortunately it was to a much lesser degree than what we traditionally see, and we ended the quarter with a great year-over-year improvement in orders and backlog.

Despite significantly higher raw material costs, gross margin at 32.1% for the quarter was a marked improvement over the prior year of 30.1%. Gross margins were positively affected by the leverage gained from additional volume, combined with the favorable impacts of the price increase implemented in August.

Operating expenses for the quarter totaled \$93.7 million or 24.5% of sales compared to \$84.8 million or 25.7% of sales for the same period in fiscal 2004. The current-quarter expenses include \$1.6 million associated with dealer consolidations that were not included in the prior year. The remainder of the increase was due primarily to incentive compensation accruals and variable selling costs driven by the higher volumes.

Ms. Nickels added, Our operating income as a percentage of sales was 7.6% for the quarter, representing the highest it has been since 2001 when we were generating significantly more volume. This continues to validate our increasingly variable operating model. The full impact of our price increase also kicked in during the quarter and offset a large portion of the approximately \$5 million in increased steel costs over the prior year.

The \$0.3 million of restructuring charges for the quarter were associated with the previous relocation of the Canton operations. Modest restructuring charges will be reported in the future as the final Canton relocation costs are incurred. The effective tax rate was 35.4% for the quarter, as compared to 22.9% for the same period last year. The lower rate in fiscal year 2004 was due to favorable adjustments for prior years taxes.

The company's ending cash position was \$164.2 million. Cash flow from operations for the quarter was a very strong \$40.5 million compared to \$7.2 million for the same period last year. The prior year's cash flow from operations included a \$26 million voluntary contribution to the company's employee pension fund. Capital spending for the quarter was \$10.0 million compared to \$4.6 million for the same period last year. The company also repurchased approximately 859,000 shares of its stock for \$22.7 million, at an average price of \$26.40 per share during the quarter.

The company expects sales for the fourth quarter of fiscal 2005 to be in a range of \$380 million to \$400 million. This represents a 7% to 13% increase over the prior year. Earnings per share are estimated at \$0.23 to \$0.28, which reflect the company's traditional increase in fourth quarter operating expense spending in support of new product launches.
