Approximate date of commencement of proposed sale of the securities to the public: As soon as practicable after this Registration Statement becomes effective and upon completion of the merger described in the enclosed proxy statement/prospectus.

If the securities being registered on this form are being offered in connection with the formation of a holding company and there is compliance with General Instruction G, check the following box.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer
 Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

If applicable, place an X in the box to designate the appropriate rule provision relied upon in conducting this transaction:

Exchange Act Rule 13e-4(i) (Cross-Border Issuer Tender Offer)
 Exchange Act Rule 14d-1(d) (Cross-Border Third-Party Tender Offer)

CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities to be Registered(1)	Amount to be Registered(1)	Proposed Maximum Offering Price per Share	Proposed Maximum Aggregate Offering Price(2)	Amount of Registration Fee(2)
Common stock, \$0.001 par value per share				
Total	2,602,230	N/A	\$5,002,749	\$580.82

- (1) Represents the maximum number of shares Rodman & Renshaw Capital Group, Inc. common stock, par value \$0.001 per share, estimated to be issuable upon the completion of the merger described herein, assuming no exercise of outstanding Hudson stock options or warrants.
- (2) Estimated solely for the purpose of calculating the registration fee required by Section 6(b) of the Securities Act and computed pursuant to Rules 457(c) and 457(f)(1) of the Securities Act. The proposed maximum aggregate offering price of the registrant's common stock was calculated based upon the market value of shares of Hudson common stock (the securities to be canceled in the merger) in accordance with Rule 457(c) under the Securities Act as follows: (i) the product of (a) \$0.065, the average of the low and high sales prices per share of Hudson common stock on the OTC Bulletin Board on January 28, 2011 and (b) 76,965,367, the maximum number of shares of Hudson common stock which may be canceled and exchanged in the merger.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

Information contained herein is subject to completion or amendment. A registration statement relating to these securities has been filed with the Securities and Exchange Commission. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This document shall not constitute an offer to sell or the solicitation of any offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

PRELIMINARY SUBJECT TO COMPLETION, DATED _____, 2011

**HUDSON HOLDING CORPORATION
111 TOWN SQUARE PLACE, SUITE 1500A
JERSEY CITY, NEW JERSEY 07310**

_____, 2011

Dear Stockholder of Hudson Holding Corporation:

You are cordially invited to attend the Special Meeting of Stockholders of Hudson Holding Corporation (referred to as the Meeting) that will be held on _____, _____, 2011, at 10:00 a.m., Eastern Daylight Time. Hudson Holding Corporation (referred to as Hudson) has entered into an Amended and Restated Agreement and Plan of Merger, dated as of January 4, 2011 (referred to as the Merger Agreement), with Rodman & Renshaw Capital Group, Inc. (referred to as Rodman). If the merger and the other transactions contemplated by the Merger Agreement (referred to as the Merger) are approved and consummated, Hudson will merge with and into a wholly owned subsidiary of Rodman and will no longer be a publicly held corporation. The Hudson board of directors has unanimously determined that the Merger and the Merger Agreement are advisable, and are fair to, and in the best interests of, Hudson and its stockholders and has approved the Merger Agreement and the Merger. The Merger requires the approval of holders of a majority of the outstanding shares of Hudson common stock, par value \$0.001 per share, and we are asking you to vote to approve and adopt the Merger Agreement and approve the Merger at the Meeting.

Holders of Hudson common stock as of the close of business on _____, 2011 (referred to as the Record Date) will be entitled to vote at the Meeting. Each share of Hudson common stock is entitled to one vote for each matter to be voted on at the Meeting. The holders of shares entitled to cast a majority of the total votes of the outstanding shares of Hudson common stock on the Record Date, present in person or represented by proxy at the Meeting and entitled to vote, will constitute a quorum at the Meeting.

On the Record Date, there were _____ shares of Hudson common stock outstanding held by approximately ___ stockholders of record. Hudson does not have cumulative voting. Hudson stockholders have dissenters' rights and may receive payment in cash of the fair value of their shares, excluding any appreciation in value that results from the Merger. To maintain dissenters' rights, a stockholder must: (1) deliver written notice of its intent to demand payment for its shares to Hudson before the Meeting or at the Meeting but before the vote is taken and (2) not vote in favor of the Merger. See Proposal One: The Merger Appraisal Rights beginning on page ____.

Upon completion of the Merger, each share of Hudson common stock will be converted into the right to receive shares of Rodman common stock, par value \$0.001 per share. Based on the number of shares of Hudson common stock and Rodman common stock outstanding as of the Record Date, current Hudson stockholders are expected to own approximately 7.2% of the outstanding Rodman common stock following the Merger.

Rodman common stock is traded on the NASDAQ Global Market, under the symbol RODM . Based on \$2.69, the closing price of Rodman common stock on the NASDAQ Global Market on January 4, 2011, the last trading day before public announcement of the Merger Agreement, the Merger consideration represented approximately \$0.091 in value for each share of Hudson common stock (referred to as the Merger Consideration). Based on \$____, the closing price of Rodman common stock on the Record Date, the Merger Consideration represented approximately \$____ in value for each share of Hudson common stock.

Both Hudson and Rodman are excited about this transaction because Hudson and Rodman believe they will: (1) realize the benefits of the firms' highly complementary platforms, where management believes there is relatively little overlap; (2) accelerate Rodman's investment banking business growth; (3) diversify Rodman's revenue stream; (4) benefit from the complementary fit between Rodman's investment banking and Hudson's sales and trading; (5) utilize the skills and relationships of the combined senior management teams; and (6) realize benefits from operating cost efficiencies, which the companies believe will allow them to enhance profitability.

The Hudson board of directors recommends that you vote FOR the proposal to approve and adopt the Merger Agreement and approve the Merger. In addition, certain directors, executive officers and other stockholders of Hudson have agreed to vote their shares of Hudson common stock, representing in the aggregate approximately 52.1% of the voting power of the outstanding shares of Hudson common stock, FOR the proposal to approve and adopt the Merger Agreement and approve the Merger.

Your vote is very important. Regardless of the number of shares you own or whether or not you plan to attend the Meeting, it is important that your shares be represented and voted. Voting instructions are inside.

The obligations of Rodman and Hudson to complete the Merger are subject to several conditions set forth in the Merger Agreement and summarized in the accompanying proxy statement/prospectus. Important information about Rodman, Hudson, the Meeting, the Merger Agreement, the Merger and the other proposals for consideration at the Meeting is contained in the accompanying proxy statement/prospectus. I urge you to read the entire document carefully and in its entirety. **In particular, you should carefully consider the discussion in the section entitled Risk Factors beginning on page ___ of the accompanying proxy statement/prospectus.** Additional information regarding Rodman and Hudson can be obtained from filings with the Securities and Exchange Commission. Please see [Where You Can Find More Information](#) in the accompanying proxy statement/prospectus for instructions on how to access those filings.

I look forward to seeing you at the Meeting.

Sincerely,

Anthony M. Sanfilippo
Chief Executive Officer

Neither the U.S. Securities and Exchange Commission nor any state securities commission has approved or disapproved of the securities to be issued under the accompanying proxy statement/prospectus or determined that the accompanying proxy statement/prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

YOUR VOTE IS IMPORTANT

PLEASE PROMPTLY SUBMIT YOUR PROXY BY MAIL

The accompanying proxy statement/prospectus is first being distributed to the stockholders of Hudson Holding Corporation on or about _____, 2011.

Sources of Additional Information

If you have any questions about the Meeting or if you need additional copies of the accompanying proxy statement/prospectus, you should contact:

Hudson Holding Corporation
Attention: Secretary
111 Town Square Place, Suite 1500A
Jersey City, New Jersey 07310
(201) 216-0100

To receive timely delivery of additional copies of this proxy statement/prospectus in advance of the Meeting, please make your request no later than _____, 2011.

For a more detailed description of how you may obtain information about Rodman and Hudson that is not included in this proxy statement/prospectus, see *Where You Can Find More Information* on page ____ of the accompanying proxy statement/prospectus.

NOTICE OF SPECIAL MEETING OF STOCKHOLDERS

OF

HUDSON HOLDING CORPORATION

Time & Date: _____, 2011, at 10:00 a.m., Eastern Daylight Time.

Location: 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310.

Items of Business: To consider and vote on a proposal to approve and adopt the Amended and Restated Agreement and Plan of Merger, dated as of January 4, 2011 (as it may be amended from time to time, the Merger Agreement), among Rodman, HHC Acquisition, Inc. (referred to as Merger Sub), a wholly owned subsidiary of Rodman, and Hudson, a copy of which is attached as Annex A to the proxy statement/prospectus accompanying this notice, and approve the merger and other transactions contemplated by the Merger Agreement (referred to as the Merger);

To approve the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies if there are not sufficient votes to approve and adopt the Merger Agreement and approve the Merger at the time of the Meeting; and

To consider and vote upon any other business that properly comes before the Meeting or any adjournment or postponement of the Meeting.

Adjournments and Postponements: Any action on the items of business described above may be considered at the Meeting at the time and on the date specified above or at any time and date to which the Special Meeting may be properly adjourned or postponed.

Record Date for Voting: You are entitled to vote only if you were a Hudson stockholder at the close of business on _____, 2011 (the Record Date).

Meeting Admission: You are entitled to attend the Meeting only if you were a Hudson stockholder as of the close of business on the Record Date or hold a valid proxy for the Meeting. You should be prepared to present photo identification for admittance. In addition, if you are a stockholder of record, your name is subject to verification against the list of stockholders of record on the Record Date prior to being admitted to the Meeting. If you are not a stockholder of record but hold shares through a broker or nominee (*i.e.*, in street name), you should be prepared to provide proof of beneficial ownership on the Record Date, such as your most recent account statement or similar evidence of ownership. If you do not provide photo identification or comply with the other procedures outlined above upon request, you will not be admitted to the Meeting. The Meeting will begin promptly at 10:00 a.m., Eastern Daylight Time. Check-in will begin at 9:30 a.m., Eastern Daylight Time, and you should allow ample time for check-in procedures.

Voting: **Your vote is very important.** Whether or not you plan to attend the Meeting, we encourage you to read the accompanying proxy statement/prospectus and submit your proxy or voting instructions for the Meeting as soon as possible. You may submit your proxy or voting instructions for the Meeting by completing, signing, dating and returning the proxy card or voting instruction card in the pre-addressed envelope provided. For specific instructions on how to vote your shares, please refer to the section entitled The Hudson Holding Corporation Special Meeting beginning on page __ of the accompanying proxy

statement/prospectus and the instructions on the proxy card or voting instruction card.

Inspection of List of Stockholders of Record:

A list of the stockholders of record as of the Record Date will be available for inspection during ordinary business hours at the office of Hudson's General Counsel and Secretary, 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310, from _____, 2011 to _____, 2011, as well as at the Meeting, for any purpose germane to the Meeting.

Additional Information:

Important information about Rodman, Hudson, the Meeting and the Merger is contained in the accompanying proxy statement/prospectus. I urge you to read the entire document (including the annexed documents, which are incorporated by reference into the proxy statement/prospectus) carefully and in its entirety. In particular, you should carefully consider the discussion in the section entitled "Risk Factors" beginning on page ____.

By order of the Board of Directors,

Keith R. Knox
Secretary

QUESTIONS AND ANSWERS ABOUT THE MERGER AND SPECIAL MEETING

The following are some questions that you, as a Hudson stockholder, may have regarding the Merger and the other matters being considered at the Hudson Holding Corporation Special Meeting of Stockholders (referred to as the Meeting), and the answers to those questions. You are urged to carefully read this proxy statement/prospectus, including the annexed documents, which are incorporated by reference, in its entirety because the information in this section does not provide all of the information that might be important to you with respect to the Merger and the other matters being considered at the Meeting. In this proxy statement/prospectus, unless stated to the contrary or the context requires otherwise, the terms the Company, we, our, ours, and us refer to Hudson and its subsidiaries.

Q: Why am I receiving this proxy statement/prospectus?

A: Rodman and Hudson have agreed to the Merger. Under the terms of the Merger Agreement that is described in this proxy statement/prospectus, Hudson will merge with and into a wholly owned subsidiary of Rodman and will no longer be a publicly held corporation. See Proposal One: The Merger and The Merger Agreement. A copy of the Merger Agreement is attached to this proxy statement/prospectus as Annex A. This proxy statement/prospectus contains important information about Rodman, Hudson, the Meeting, the Merger Agreement, the Merger and the other proposals for consideration at the Meeting. This document is being delivered to you as both a proxy statement of Hudson and a prospectus of Rodman in connection with the Merger. It is the proxy statement by which the Hudson board of directors is soliciting proxies from you to vote on the approval and adoption of the Merger Agreement and the approval of the Merger and the other matters to be voted on at the Meeting or at any adjournment or postponement of the Meeting. It is also the prospectus pursuant to which Rodman will issue Rodman common stock to you in the Merger.

You are receiving this proxy statement/prospectus because you have been identified as a stockholder of Hudson and may be entitled to vote at the upcoming Meeting. To complete the Merger, the holders of a majority of the voting power of the outstanding shares of Hudson common stock must vote to approve and adopt the Merger Agreement and approve the Merger, and all other conditions to the Merger must be satisfied or waived. You should read this proxy statement/prospectus carefully.

Q: What will happen in the proposed Merger?

A: In the Merger, Hudson will merge with and into HHC Acquisition, Inc. (referred to as Merger Sub), a wholly owned subsidiary of Rodman, which will be the surviving entity in the Merger. As a result, Hudson's corporate existence will terminate and Merger Sub will acquire all of Hudson's assets and liabilities and will succeed to all of Hudson's business operations. See Proposal One: The Merger Structure of the Merger.

Q: Why are Rodman and Hudson proposing to merge?

A: Rodman and Hudson are proposing to merge because they believe that the complementary strengths of their two companies make a combination compelling and in the best interests of each company and their respective stockholders, clients and employees. Rodman and Hudson believe the combination of Rodman and Hudson will:

- accelerate Rodman's sales and trading growth and diversify the combined firm's revenue stream;
- expand the distribution of Rodman's capital markets offerings through Hudson's distribution network;
- expand Rodman's market making ability, derivative, special situation, block and international trading ability in key sectors;
- expand Rodman's research coverage into such key sectors as transportation, gaming, industrials and technology;
- benefit from the complementary fit between Rodman's investment banking franchise and Hudson's sales and trading expertise;

utilize the skills and relationships of the combined senior management teams; and
realize benefits from operating cost efficiencies, which the companies believe will allow them to enhance profitability.

Please see page ___ of this proxy statement/prospectus for the factors considered by the Hudson board of directors in recommending that Hudson stockholders vote **FOR** the proposal to approve and adopt the Merger Agreement and approve the Merger. Please see page ___ of this proxy statement/prospectus for Rodman's reasons for the Merger.

Q: What will I receive in the Merger?

A: If the Merger Agreement is approved and adopted and the Merger is approved by Hudson stockholders and the Merger is completed, you will receive in exchange for each share of Hudson common stock that you own that number of shares of Rodman common stock (referred to as the Exchange Ratio) as shall be equal to (i) (a) \$7,000,000 plus or minus, as the case may be, (b) 50% of the amount (the Adjustment Amount) by which the Net Liquid Assets (as defined below) are greater or less than \$4 million (unless otherwise agreed) divided by (ii) \$2.69, divided by (iii) the aggregate number of shares of Hudson common stock issued and outstanding on the closing date of the Merger. Net Liquid Assets means (i) (a) all cash and cash equivalents, (b) level I assets, (c) all bonds classified as level II assets and restricted equity securities valued at 50% of their freely tradable value, (d) the intrinsic value of level III warrants that are currently exercisable, (e) due from brokers, (f) current account receivables, and (g) prepaid expenses, less (ii) all liabilities, excluding deferred rent payable; all as determined in accordance with GAAP.

As of the Record Date, there were _____ shares of Hudson common stock outstanding and Hudson has, pursuant to the Merger Agreement, agreed (with certain exceptions) not to issue any additional shares of its common stock. Based upon 76,965,367 shares of Hudson common stock being outstanding immediately prior to the effectiveness of the Merger, and without taking into account any Adjustment Amount, the Exchange Ratio would be 0.0338. For each \$100,000 of Adjustment Amount, the Exchange Ratio would be adjusted upward or downward, as the case may be, by approximately 0.0005.

You will not receive fractional shares of Rodman common stock. Instead, you will receive the cash value, without interest, of any fractional share of Rodman common stock that you might otherwise have been entitled to receive, based on the 10-day average closing price for Rodman common stock ending on the second complete trading day prior to the closing date of the Merger.

Q: How will the Merger affect stock options to acquire Hudson common stock, other equity awards and warrants?

A: On January 4, 2011, the Hudson board of directors accelerated the vesting of all unvested shares of restricted Hudson common stock and options to purchase shares of Hudson common stock. At the effective time of the Merger, all outstanding Hudson stock options that have not been exercised will expire and terminate, all outstanding shares of restricted stock will convert into the right to receive approximately \$0.091 in value for each share of Hudson common stock (referred to as the Merger Consideration) and any outstanding Hudson warrants will be converted into the right to purchase and receive a number of shares of Rodman common stock equal to the number of shares of Hudson common stock subject to the warrant multiplied by the Exchange Ratio, and the exercise price of the warrant will equal the exercise price per share of Hudson common stock of such warrant divided by the Exchange Ratio.

Q: When do you expect the Merger to be completed?

A: Rodman and Hudson are working toward completing the Merger as quickly as possible. The Merger is expected to close on or around _____, 2011, subject to receipt of Hudson stockholder approval, regulatory approvals and other usual and customary closing conditions. However, no assurance can be given as to when, or if, the Merger will occur.

Q: Are there conditions to completing the Merger?

A: Yes. Rodman's and Hudson's respective obligations to complete the Merger are subject to the satisfaction or waiver of certain specified closing conditions. See The Merger Agreement Conditions to Complete the Merger.

Q: *What happens if the Merger is not completed?*

A: If the Merger Agreement is not approved and adopted by Hudson stockholders or if the Merger is not completed for any other reason, you will not receive any payment for your shares of Hudson common stock in connection with the Merger. Instead, Hudson will remain an independent public company and its common stock will continue to be quoted on the OTC Bulletin Board. If the Merger Agreement is terminated under specified circumstances, Hudson may be required to pay Rodman a termination fee of \$350,000 as described under *The Merger Agreement Expenses and Fees Termination Fees Payable by Hudson* beginning on page ____.

Q: *Am I entitled to appraisal rights?*

A: Yes. Delaware law provides dissenters' rights in the Merger to Hudson stockholders. This means that Hudson stockholders are legally entitled to receive payment in cash of the fair value of their shares, excluding any appreciation in value that results from the Merger. To maintain your dissenters' rights, you must: (1) deliver written notice of your intent to demand payment for your shares to Hudson's Secretary at 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310 either before the Meeting or at the Meeting but before the vote is taken and (2) not vote in favor of the Merger and the Merger Agreement. This notice must be in addition to, and separate from, any failure to vote, abstention from voting, or any vote, in person or by proxy, cast against approval of the Merger and the Merger Agreement. Voting against, abstaining from voting, or failing to vote on the adoption of the Merger and the Merger Agreement will not constitute notice of intent to demand payment or demand for payment of fair value under Delaware law. Your failure to follow exactly the procedures specified under Delaware law will result in the loss of your dissenters' rights. A copy of the section of the Delaware General Corporation Law (referred to as the *DGCL*) pertaining to dissenters' rights is provided as Annex D to this document. See *Proposal One: The Merger Appraisal Rights* beginning on page ____.

Q: *What are the tax consequences of the Merger to me?*

A: The Merger is intended to constitute a tax-free reorganization for U.S. federal income tax purposes. If so treated, the exchange of your shares of Hudson common stock for shares of Rodman common stock generally will not cause you to recognize gain or loss for U.S. federal income tax purposes. However, you will recognize income or gain with respect to cash received instead of any fractional shares of Rodman common stock. It is a condition to the Merger that Hudson and Rodman receive a legal opinion to the effect that the Merger constitutes such a reorganization for U.S. federal income tax purposes. The opinion will not bind the Internal Revenue Service, which could take a different view. To review the tax consequences to stockholders in greater detail, see *Material U.S. Federal Income Tax Consequences of the Merger* beginning on page ____.

The consequences of the Merger to any particular stockholder will depend on that stockholder's particular facts and circumstances. Accordingly, you are urged to consult your own tax advisor to determine your own tax consequences from the Merger.

Q: *Are there any risks related to the proposed transaction or any risks related to owning Rodman common stock?*

A: Yes. You should carefully review the *Risk Factors* beginning on page ____.

Q: *What stockholder approvals are required for the Merger?*

A: To approve and adopt the Merger Agreement and approve the Merger, the holders of a majority of the voting power of the outstanding shares of Hudson common stock must vote **FOR** the approval and adoption of the Merger Agreement and the approval of the Merger. Only holders of record of Hudson common stock at the close of business on _____, 2011 (referred to as the *Record Date*), are entitled to notice of and to vote at the Meeting. As of the Record Date, there were _____ shares of Hudson common stock outstanding and entitled to vote at the Meeting. Failure to vote your shares, abstentions and broker non-votes will have the same effect as voting against the proposal to approve and adopt the Merger Agreement and approve the Merger. See *The Hudson Special Meeting Quorum; Vote Required; Abstentions; Shares Held in Street Name*.

Q: What stockholder approvals are required for the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies in favor of the approval and adoption of the Merger Agreement and the approval of the Merger?

A: The holders of a majority of the voting power present in person or represented by proxy at the Meeting must vote **FOR** the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies in favor of the approval and adoption of the Merger Agreement and the approval of the Merger for such proposal to pass. Abstentions will have the same effect as voting against the proposal to adjourn the Meeting. If you fail to instruct your broker to vote your shares, your broker may vote your shares in its discretion on this proposal. See The Hudson Holding Corporation Special Meeting Quorum; Vote Required; Abstentions.

Q: What do I need to do now?

A: Please carefully review this proxy statement/prospectus and vote the proxy card or voting instruction card you receive as soon as possible. Your proxy card or voting instruction card must be received, no later than 11:59 p.m., Eastern Daylight Time, on _____, 2011 in order for your shares to be voted at the Meeting, unless you attend and vote at the Meeting.

Q: How does the Hudson board of directors recommend I vote on the Merger, the approval of certain payments and the adjournment proposals?

A: After careful consideration, the Hudson board of directors unanimously determined that the Merger and the Merger Agreement are advisable, and are fair to, and in the best interests of, Hudson and its stockholders and approved the Merger Agreement and the Merger. Accordingly, the Hudson board of directors recommends that you vote **FOR** the proposal to approve and adopt the Merger Agreement and approve the Merger and **FOR** the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies in favor of the approval and adoption of the Merger Agreement and the approval of the Merger. See Proposal One: The Merger Hudson's Reasons for the Merger; Recommendation of the Hudson Board of Directors.

Q: Why is it important for me to vote?

A: Hudson and Rodman cannot complete the Merger without the approval of holders of a majority of the outstanding shares of Hudson common stock. Therefore, any shares that are not voted will have the same effect as a vote **AGAINST** the Merger.

Q: Have any Hudson stockholders agreed to vote FOR the Merger Agreement and the Merger?

A: Yes. Seaport Hudson LLC, Anthony M. Sanfilippo, Keith R. Knox, Peter Zugschwert, John C. Shaw, Jr., John W. Mascone, Kenneth D. Pasternak, Ajay Sareen and Frank J. Drazka, who, as of the Record Date, collectively own approximately 52.1% of the voting power of the outstanding shares of Hudson common stock, have agreed to vote their shares **FOR** the proposal to approve and adopt the Merger Agreement and approve the Merger.

Q: Do I need to send in my Hudson stock certificates now?

A: No. If the Merger is consummated, instructions will be sent to you regarding the exchange of your Hudson stock certificates for the Merger Consideration payable to you in the Merger.

Q: When and where will the Meeting be held?

A: The Meeting will take place on _____, 2011, at 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310, commencing at 10:00 a.m., Eastern Daylight Time.

Q: What matters will be voted on at the Meeting?

A: You will be asked to vote on the following proposals:

to approve and adopt the Merger Agreement and approve the Merger contemplated by the Merger Agreement;

to approve the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies if there are not sufficient votes to approve and adopt the Merger Agreement and approve the Merger at the time of the Meeting; and

to conduct any other business that properly comes before the Meeting or any adjournment or postponement of the Meeting.

Q: What vote is needed for each proposal?

A: The following are the vote requirements for the various proposals:

Approval and Adoption of the Merger Agreement and Approval of the Merger: You may vote FOR, AGAINST or ABSTAIN with respect to the approval and adoption of the Merger Agreement and approval of the Merger. To approve and adopt the Merger Agreement and approve the Merger, the holders of a majority of the voting power of the outstanding shares of Hudson common stock must vote FOR the approval and adoption of the Merger Agreement and the approval of the Merger.

All Other Matters: You may vote FOR, AGAINST or ABSTAIN with respect to all other matters at the Meeting. The holders of a majority of the voting power present in person or represented by proxy at the Meeting must vote FOR the approval of each other proposal for it to pass. Abstentions will have the same effect as voting against the proposal to approve such matter.

Q: Who can vote at the Meeting?

A: Hudson stockholders of record at the close of business on the Record Date are entitled to vote at the Meeting.

Q: What is the Record Date for the Meeting?

A: The Record Date for the Meeting is _____, 2011.

Q: What constitutes a quorum for purposes of the Meeting?

A: The holders of shares entitled to cast a majority of the total votes of the outstanding shares of Hudson common stock on the Record Date, present in person or represented by proxy at the Meeting and entitled to vote will constitute a quorum for the transaction of business at the Meeting. Withheld votes, abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum for the transaction of business.

Q: How can I vote?

A: If you are a stockholder of record, you may submit a proxy for the Meeting by completing, signing, dating and returning the proxy card in the pre-addressed envelope provided.

If you hold your shares of Hudson common stock in a stock brokerage account or if your shares are held by a bank or nominee (i.e., in street name), you must provide the stockholder of record of your shares with instructions on how to vote your shares.

If you are a stockholder of record, you may also vote in person at the Meeting. If you hold shares in a stock brokerage account or if your shares are held by a bank or nominee (i.e., in street name), you may not vote in person at the Meeting unless you obtain a signed proxy from the stockholder of record giving you the right to vote the shares. You will also need to present photo identification and comply with the other procedures described in The Hudson Holding Corporation Special Meeting Date, Time and Place; Attending the Special Meeting on page __. Giving a proxy will not affect your right to vote your shares of Hudson common stock if you attend the Meeting and want to vote in person.

Q: What is the difference between holding shares as a stockholder of record and as a beneficial owner?

A: Many Hudson stockholders hold their shares through a broker, bank or other nominee rather than directly in their own name. There are some important distinctions between shares held of record and shares beneficially owned.

Stockholder of Record: If your shares are registered directly in your name with Hudson's transfer agent, you are considered the stockholder of record with respect to those shares and this proxy statement/prospectus is being sent directly to you by Hudson. As a stockholder of record, you have the right to grant your proxy directly to Hudson or to vote in person at the Meeting. Hudson has enclosed a proxy card for your use.

Beneficial Owner: If your shares of Hudson common stock are held in a brokerage account, bank account or by another nominee, you are considered the beneficial owner of shares held in street name, and this proxy statement/prospectus is being forwarded to you by your broker, bank or nominee together with a voting instruction card. As the beneficial owner, you have the right to direct your broker, bank or other nominee how to vote and are also invited to attend the Meeting. However, since you are not the stockholder of record, you may not vote your shares in person at the Meeting unless you obtain a legal proxy from the broker, bank or nominee that holds your shares, giving you the right to vote the shares instead of the broker, bank or nominee holding your shares. Your broker, bank or nominee has enclosed voting instructions for your use in directing your broker, bank or nominee how to vote your shares.

Q: What do I do if I receive more than one proxy statement/prospectus or set of voting instructions?

A: If you hold shares directly as a stockholder of record and also in street name or otherwise through a nominee, you may receive more than one proxy statement/prospectus and/or set of voting instructions relating to the meeting. These should each be voted and/or returned separately in order to ensure that all of your shares are voted.

Q: What happens if I don't indicate how to vote on my proxy card?

A: If you sign and send in your proxy card and do not indicate how you want to vote, your proxy will be counted voted as the Hudson board of directors recommends, which is:

FOR the approval and adoption of the Merger Agreement and approval of the Merger; and

FOR the approval of the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies if there are not sufficient votes to approve and adopt the Merger Agreement and approve the Merger.

Q: What happens if I do not vote?

A: If you do not sign and send in your proxy card or vote at the Meeting, or submit voting instructions, as applicable, it will have the effect of a vote against the approval and adoption of the Merger Agreement and approval of the Merger, but it will not affect the adjournment proposal. See The Hudson Holding Corporation Special Meeting Quorum; Vote Required; Abstentions; Shares Held in Street Name.

Q: What happens if I abstain?

A: Abstentions are counted as present and entitled to vote for purposes of determining a quorum. Abstentions have the same effect as a vote against each proposal.

Q: *If my shares are held in street name by my broker, will my broker automatically vote my shares for me?*

A: *No.* If your shares are held in an account at a broker, you must instruct the broker on how to vote your shares. If you do not provide voting instructions to your broker, your shares will not be voted on any proposal on which your broker does not have discretionary authority to vote. This is called a broker non-vote. In these cases, the broker can register your shares as being present at the meeting for purposes of determining the presence of a quorum but will not be able to vote on those matters for which specific authorization is required. Under the current rules of the New York Stock Exchange (referred to as the NYSE), we believe that brokers do not have discretionary authority to vote on the proposal to approve and adopt the Merger Agreement. Accordingly, a broker non-vote will have the same effect as a vote against approval and adoption of the Merger Agreement and approval of the Merger.

Q: *Can I change my vote after I have voted?*

A: Yes. Hudson stockholders of record may revoke their proxies at any time prior to the time their proxies are voted at the Meeting. Proxies may be revoked by written notice to the corporate secretary of Hudson, by a later-dated proxy signed and returned by mail, or by attending the Meeting and voting in person. However, attending the Meeting without voting will not revoke your previously submitted proxy.

Hudson stockholders whose shares are held in the name of a broker or nominee may change their votes by submitting new voting instructions to their brokers or nominees. Those Hudson stockholders may not vote their shares in person at the Meeting unless they obtain a signed proxy from the stockholder of record giving them the right to vote their shares.

Q: *Who will count the votes?*

A: Andrew Lewin, Hudson Securities General Counsel, will act as election inspector and will certify the results and perform any other acts required by the Delaware General Corporation Law (the DGCL).

Q: *What do I do if I have questions?*

A: If you have any questions about the Meeting or if you need additional copies of this proxy statement/prospectus, you should contact:

Hudson Holding Corporation

SUMMARY

*This summary highlights selected information from this proxy statement/prospectus and may not contain all of the information that is important to you. You are encouraged to read carefully this entire proxy statement/prospectus and the other documents referred to in this proxy statement/prospectus because the information in this section does not provide all of the information that might be important to you with respect to the Merger Agreement, the Merger and the other matters being considered at the Meeting. See *Where You Can Find More Information* on page _____. The Merger Agreement is attached as Annex A to this proxy statement/prospectus and is incorporated herein by reference. You are encouraged to read it, as it is the most important legal document that governs the Merger. Page references are included to direct you to a more complete description contained elsewhere in this proxy statement/prospectus of the topics presented in this summary. **In addition, Rodman and Hudson encourage you to read the information included elsewhere in this proxy statement/prospectus, which includes important business and financial information about Rodman and Hudson, and in the reports they file with the Securities and Exchange Commission (referred to as the SEC). See *Rodman & Renshaw Capital Group, Inc. Business and Financial Information* beginning on page ___ of this proxy statement/prospectus; *Hudson Holding Corporation Business and Financial Information* beginning on page ___; and *Where You Can Find More Information* beginning on page _____.***

The Companies

Rodman & Renshaw Capital Group, Inc.

1251 Avenue of the Americas
New York, New York 10020
(212) 356-0500

Rodman (NASDAQ Global Market: RODM), headquartered in New York City, is a full-service investment bank dedicated to providing corporate finance, strategic advisory and related services to public and private companies across multiple sectors and regions. Rodman also provides research and sales and trading services primarily to institutional investors. Rodman is the leader in the PIPE (private investment in public equity) and RD (registered direct offering) transaction markets. Rodman has been ranked the #1 Placement Agent by deal volume of PIPE and RD financing transactions completed every year since 2005. The sectors that Rodman currently serves include life science/healthcare, China, energy, metals/mining, financial services and cleantech and the regions Rodman currently serves include North America and China. Rodman's primary product and service offerings include financing transactions, including private placements and public offerings. Rodman also provides research and sales and trading services to institutional investors.

Additional information about Rodman and its subsidiaries is included elsewhere in this proxy statement/prospectus and in the reports it files with the SEC. See *Rodman & Renshaw Capital Group, Inc. Business and Financial Information* beginning on page __ and *Where You Can Find More Information* beginning on page _____.

Hudson Holding Corporation

111 Town Square Place, Suite 1500A
Jersey City, New Jersey 07310
(201) 216-0100

Hudson Holding Corporation (OTCBB: HDHL.OB), through its wholly owned subsidiary Hudson Securities, Inc. (referred to as Hudson Securities), provides a full range of corporate finance, advisory, and capital markets services and institutional equity research focused on the micro-, small- and mid-cap marketplace. Hudson Securities is dedicated to meeting the liquidity needs of its clients by providing execution solutions and making markets in over 15,000 U.S. and foreign securities. As a registered broker-dealer under the Securities Exchange Act of 1934 (referred to as the Exchange Act), Hudson Securities is a member of the Financial Industry Regulatory Authority (referred to as FINRA).

Additional information about Hudson and its subsidiaries is included elsewhere in this proxy statement/prospectus and in the reports it files with the SEC. See *Hudson Holding Corporation Business and Financial Information* beginning on page __ and *Where You Can Find More Information* beginning on page _____.

HHC Acquisition, Inc.

1251 Avenue of the Americas
New York, New York 10020
(212) 356-0500

HHC Acquisition, Inc. (referred to as Merger Sub), is a newly-formed and wholly owned subsidiary of Rodman. If Rodman and Hudson complete the Merger, Hudson will be merged with and into Merger Sub, with Merger Sub being the surviving entity. Upon the effectiveness of the Merger, Hudson's corporate existence will terminate and Merger Sub will acquire all of Hudson's assets and liabilities and will succeed to all of Hudson's business operations. Merger Sub was organized solely for use in the Merger. Merger Sub has not carried on any activities to date, except for activities incidental to its formation and activities undertaken in connection with the transactions contemplated by the Merger Agreement.

The Merger
(see page ___)

Rodman and Hudson agreed to the acquisition of Hudson by Rodman under the terms of the Merger Agreement that is described in this proxy statement/prospectus. Pursuant to the Merger Agreement, Hudson will merge with and into Merger Sub, with Merger Sub being the surviving entity. It is intended that the Merger will be effected immediately after the effective time of the Merger without further approval, authorization or direction from or by any of the parties to the Merger Agreement. Rodman and Hudson have attached the Merger Agreement as Annex A to this proxy statement/prospectus. Rodman and Hudson encourage you to read carefully the Merger Agreement in its entirety because it is the legal document that governs the Merger.

Effects of the Merger; Merger Consideration
(see page ___)

At the effective time of the Merger, each share of Hudson common stock issued and outstanding, except for shares of Hudson common stock that are owned by Hudson or Rodman or by any direct or indirect wholly owned subsidiary of Hudson (which will be canceled as a result of the Merger) will be converted into the right to receive, subject to certain adjustments as described below, that number of shares of Rodman common stock (referred to as the Exchange Ratio) as shall be equal to (i) (a) \$7,000,000 plus or minus, as the case may be, (b) 50% of the Adjustment Amount divided by (ii) \$2.69, divided by (iii) the aggregate number of shares of Hudson common stock issued and outstanding on the closing date of the Merger.

As of the Record Date, there were _____ shares of Hudson common stock outstanding and Hudson has, pursuant to the Merger Agreement agreed (with certain exceptions) not to issue any additional shares of its common stock. Based upon 76,965,367 shares of Hudson common stock being outstanding immediately prior to the effectiveness of the Merger, and without taking into account any Adjustment Amount, the Exchange Ratio, would be 0.0338. For each \$100,000 of Adjustment Amount, the Exchange Ratio would be adjusted upward or downward, as the case may be, by approximately 0.0005.

Other than possible adjustments as described in the next paragraph below, the Exchange Ratio will not change between now and the date of the Merger, including as a result of a change in the trading price of Rodman common stock or Hudson common stock or the operating and financial performance of either company. Therefore, the specific dollar value of the shares of Rodman common stock received by Hudson stockholders in the Merger will depend on the market value of Rodman common stock at the time the Merger is completed.

Notwithstanding the foregoing, the Exchange Ratio will be adjusted if between the signing of the Merger Agreement and the effective time of the Merger the outstanding Rodman common stock or Hudson common stock, or securities convertible or exchangeable into or exercisable into Rodman common stock or Hudson common stock, is changed into a different number of shares or different class by reason of any distribution, reclassification, stock split (including a reverse split), stock dividend or distribution, recapitalization, merger, subdivision, issuer tender or exchange offer with a Record Date within such period, or any similar event occurs, in which case the Exchange Ratio will be adjusted to eliminate the effects of such event on the Merger Consideration.

Rodman will not issue fractional shares of Rodman common stock in the Merger. As a result, Hudson stockholders will receive cash for any fractional shares of Rodman common stock that they would otherwise be entitled to receive in the Merger. For a full description of the Merger Consideration including the treatment of fractional shares, see The Merger Agreement Merger Consideration beginning on page ___ of this proxy statement/prospectus.

Treatment of Hudson Stock Options, Other Equity-Based Awards and Warrants
(see page __)

On January 4, 2011, the Hudson board of directors accelerated the vesting of all unvested shares of restricted Hudson common stock and options to purchase shares of Hudson common stock. At the effective time of the Merger, all outstanding Hudson stock options that have not been exercised will expire and terminate, all outstanding shares of restricted Hudson common stock will convert into the right to receive the per share Merger Consideration and any outstanding Hudson warrants will be converted into the right to purchase and receive a number of shares of Rodman common stock equal to the number of shares of Hudson common stock subject to the warrant multiplied by the Exchange Ratio, and the exercise price of the warrant will equal the exercise price per share of Hudson common stock of such warrant divided by the Exchange Ratio.

Risk Factors
(see page __)

By voting in favor of the proposal to approve and adopt the Merger Agreement and approve the Merger, you will be choosing to invest in Rodman common stock. An investment in Rodman common stock involves a high degree of risk. In addition to the other information contained in the documents annexed and incorporated by reference into this proxy statement/prospectus, you should carefully consider the factors discussed under the caption entitled "Risk Factors" beginning on page __ in deciding whether to vote in favor of the proposal to approve and adopt the Merger Agreement and approve the Merger.

This proxy statement/prospectus (including the annexed documents, which are incorporated by reference into this proxy statement/prospectus) contains forward-looking statements that involve risks, uncertainties and assumptions, such as statements of Rodman's, Hudson's and the combined company's plans, objectives, expectations and intentions. When used in this proxy statement/prospectus and the annexed documents incorporated by reference into this proxy statement/prospectus, the words such as "may", "might", "should", "expects", "anticipates", "believes", "estimates", "intends", "plans", "seeks", "will", "should", "would", "projects", "predicts", "continues" and similar expressions or the terms and other comparable terminology are intended to identify certain of these forward-looking statements. Because these forward-looking statements involve risks, uncertainties and assumptions, including those discussed under the caption entitled "Risk Factors", the actual results of Rodman, Hudson and the combined company could differ materially from those expressed or implied by the forward-looking statements in this proxy statement/prospectus.

The Meeting; Hudson Stockholders Entitled to Vote; Required Vote
(see page __)

The Meeting will be held on _____, 2011 at 10:00 a.m., Eastern Daylight Time, at the offices of Hudson Holding Corporation, 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310. At the Meeting, Hudson stockholders will be asked to:

consider and vote on a proposal to approve and adopt the Merger Agreement and approve the Merger contemplated by the Merger Agreement;

approve the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies if there are not sufficient votes to approve and adopt the Merger Agreement and approve the Merger at the time of the Meeting; and

conduct any other business that properly comes before the Meeting or any adjournment or postponement of the Meeting.

The close of business on _____, 2011 was the Record Date for the Meeting. Only Hudson stockholders on the Record Date are entitled to notice of and to vote at the Meeting. Each share of Hudson common stock will be entitled to one vote on each matter to be acted upon at the Meeting. On the Record Date, there were _____ shares of Hudson common stock outstanding.

The approval of holders of a majority of the voting power of the outstanding shares of Hudson common stock is required to approve and adopt the Merger Agreement and approve the Merger.

Seaport Hudson LLC, Anthony M. Sanfilippo, Keith R. Knox, Peter Zugschwert, John C. Shaw, Jr., John W. Mascone, Kenneth D. Pasternak, Ajay Sareen and Frank J. Drazka, who, as of the Record Date, collectively own approximately 52.1% of the voting power of the outstanding shares of Hudson common stock, have agreed to vote their shares **FOR** the proposal to approve and adopt the Merger Agreement and approve the Merger.

Recommendation of the Hudson Board of Directors and Hudson Reasons for the Merger
(See page ___)

After careful consideration of the numerous factors described in the section entitled "Proposal One: The Merger" Hudson's Reasons for the Merger; Recommendation of the Hudson Board of Directors beginning on page ___, the Hudson board of directors unanimously determined that the Merger and the Merger Agreement are advisable, and are fair to, and in the best interests of, Hudson and its stockholders. Accordingly, the Hudson board of directors recommends that you vote **FOR** the proposal to approve and adopt the Merger Agreement and approve the Merger.

In addition, the Hudson board of directors recommends that you vote **FOR** the other proposals described in this proxy statement/prospectus.

Opinion of Hudson's Financial Advisor
(See page ___)

On January 4, 2011, New Century Capital Partners (which we refer to as "New Century"), rendered its oral opinion to the Hudson board of directors (which was subsequently confirmed in writing by delivery of New Century's written opinion dated the same date) to the effect that, as of January 4, 2011, the Exchange Ratio provided for in the proposed Merger was fair to the Hudson stockholders from a financial point of view.

New Century's opinion was directed to the board of directors of Hudson and addressed only the fairness to the Hudson stockholders, from a financial point of view, of the Exchange Ratio provided for in the proposed Merger, and did not address any other aspect or implication of the proposed Merger. The summary of New Century's opinion in this proxy statement prospectus is qualified in its entirety by reference to the full text of its written opinion, which is included as Annex B to this proxy statement prospectus and which sets forth the procedures followed, assumptions made, qualifications and limitations on the review undertaken and other matters considered by New Century in preparing its opinion. However, neither New Century's written opinion nor the summary of its opinion and the related analyses set forth in this proxy statement prospectus are intended to be, and do not constitute advice or a recommendation to any holder of Hudson common stock as to how such holder should act or vote with respect to any matter relating to the proposed Merger. See "Proposal One: The Merger" Opinion of Hudson's Financial Advisor beginning on page ___.

No Rodman Stockholder Approval
(See page ___)

Rodman stockholders are not required to approve and adopt the Merger Agreement or approve the Merger or the issuance of shares of Rodman common stock as part of the Merger Consideration.

Interests of Certain Persons in the Merger
(See page ___)

When considering the recommendation by the Hudson board of directors to vote FOR the proposal to approve and adopt the Merger Agreement and approve the Merger, you should be aware that some directors and executive officers of Hudson have interests in the Merger that may be different from your interests. Rodman currently anticipates that the senior management of Hudson, including several of its executive officers, will become executive officers and/or key employees of Rodman following the Merger. Some Hudson directors, officers and employees who hold stock options and/or restricted stock pursuant to existing plans may receive certain benefits in connection with the Merger, including accelerated vesting of those stock options and/or restricted stock. Hudson directors and officers will also receive indemnification from Rodman, and Rodman has agreed to provide and pay for liability insurance benefits for members of the Hudson board of directors. The Hudson board of directors was aware of these interests and considered them in approving the Merger Agreement and the Merger.

Security Ownership by Directors and Executive Officers of Hudson
(See page ___)

As of the Record Date for the Meeting, the directors and executive officers of Hudson and their affiliates, as a group, beneficially owned approximately ___% of the outstanding voting power of Hudson common stock. The approval of the holders of a majority of the voting power of the outstanding shares of Hudson's common stock is required to approve and adopt the Merger Agreement and approve the Merger.

Ownership of Rodman Following the Merger
(See page ___)

If the Merger is completed, and assuming no adjustment to the Merger Consideration, holders of Hudson common stock collectively will receive approximately 2.6 million shares of Rodman common stock in the Merger based on the number of shares of Hudson common stock outstanding as of the Record Date.

Based on the number of shares of Rodman common stock and Hudson common stock outstanding as of January 4, 2011, current Hudson stockholders are expected to own approximately 7.2% of the outstanding common stock of Rodman following the Merger.

Listing of Rodman Common Stock and Delisting and Deregistration of Hudson Common Stock
(See page ___)

Application will be made to have the shares of Rodman common stock issued in the Merger approved for listing on the NASDAQ Global Market. If the Merger is completed, Hudson common stock will no longer be quoted on the OTC Bulletin Board and will be deregistered under the Exchange Act, and, as a result, Hudson will no longer file periodic reports with the SEC.

Regulatory Approvals
(See page ___)

Rodman and Hudson have both agreed to use their commercially reasonable best efforts to apply for and obtain all regulatory approvals necessary or advisable in connection with the transactions contemplated by the Merger Agreement, including approval from FINRA.

Appraisal Rights
(See page ___)

Holders of Hudson common stock are entitled to appraisal rights under Delaware law in connection with the Merger and may receive payment in cash for the fair value of their shares, excluding any appreciation in value that results from the Merger. To maintain your dissenters rights, you must: (1) deliver written notice of your intent to demand payment for your shares to Hudson's Secretary at 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310 either before the Meeting or at the Meeting but before the vote is taken and (2) not vote in favor of the Merger and the Merger Agreement. This notice must be in addition to, and separate from, any failure to vote, abstention from voting, or any vote, in person or by proxy, cast against approval of the Merger and the Merger Agreement. Voting against, abstaining from voting, or failing to vote on the adoption of the Merger and the Merger Agreement will not constitute notice of intent to demand payment or demand for payment of fair value under Delaware law. Your failure to follow exactly the procedures specified under the DGCL will result in the loss of your dissenters rights. A copy of the section of the DGCL pertaining to dissenters' rights is provided as Annex D to this document. See Proposal One: The Merger Appraisal Rights beginning on page ____.

Conditions To Complete The Merger
(See page ___)

Each of Rodman's, Merger Subs and Hudson's obligation to effect the Merger is subject to the satisfaction (or, to the extent permissible, waiver) of a number of conditions, including:

approval and adoption of the Merger Agreement and approval of the Merger by Hudson stockholders in accordance with Delaware law;

the absence of any applicable law that prohibits, makes the Merger illegal or enjoins the consummation of the Merger;

such authorizations, consents, orders, declarations or approvals of, or filings with, or terminations or expirations of waiting periods imposed by, governmental authorities as set forth in the disclosure schedules to the Merger Agreement having been obtained, made or occurred;

certain individuals identified shall have entered into employment agreements with Rodman on mutually agreed upon terms;

the Net Liquid Assets of Hudson as of the closing date of the Merger shall exceed \$2.5 million, less any Agreed Upon Expenditure Amount (as defined);

holders of not more than 5% of Hudson's outstanding shares of common stock shall have perfected their statutory right to seek appraisal of their shares;

the accuracy of representations and warranties of Hudson or Rodman, as applicable, contained in the Merger Agreement; and

subsequent to the date of the Merger Agreement, there not having occurred any event, occurrence, revelation or development of a state of circumstances or facts that, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on Hudson.

Expected Timing of the Merger
(See page ___)

Rodman and Hudson are working toward completing the Merger as quickly as possible. The Merger is expected to close on or around ____, 2011, subject to receipt of Hudson stockholder approval, governmental and regulatory approvals and the satisfaction of other usual and customary closing conditions. However, no assurance can be given as to when, or if, the Merger will occur.

Termination
(See page ___)

Rodman and Hudson may mutually agree to terminate the Merger Agreement before completing the Merger, even after Hudson stockholder approval. In addition, either of Rodman or Hudson may terminate the Merger Agreement under certain circumstances, including:

the Merger has not been completed by June 30, 2011 (except that this right is not available to any party whose breach of the Merger Agreement resulted in failure of the Merger to be completed); or

there is any applicable law that (i) makes consummation of the Merger illegal or otherwise prohibited or (ii) enjoins Hudson or Rodman from consummating the Merger and such injunction has become final and nonappealable.

Rodman may also terminate the Merger Agreement if:

the Hudson board of directors has changed or withdrawn its recommendation or fails to publicly confirm the recommendation of the Hudson board of directors to proceed with the Merger within five business days of a written request by Rodman that it do so; or

Hudson breaches its representations and warranties, covenants or agreements under the Merger Agreement such that the applicable closing conditions will not have been satisfied (and such condition is incapable of being satisfied prior to June 30, 2011).

Hudson may terminate the Merger Agreement if:

the Hudson board of directors authorizes Hudson, subject to complying with the terms of the Merger Agreement, to enter into a written agreement concerning a Superior Proposal, as defined in the Merger Agreement, but only if Hudson pays any amounts due as described under The Merger Agreement Expenses and Fees and prior to any such termination:

Hudson notifies Rodman in writing of its intention to terminate the Merger Agreement and to enter into a binding written agreement concerning an Acquisition Proposal that constitutes a Superior Proposal, attaching the most current version of such agreement (or a description of all material terms and conditions thereof), and

Rodman does not make, within four days of receipt of such written notification (subject to certain extensions), an offer that is at least as favorable to the stockholders of Hudson as such Superior Proposal; or

Rodman or Merger Sub breaches its representations and warranties, covenants or agreements such that certain closing conditions will not have been satisfied (and such conditions are incapable of being satisfied prior to June 30, 2011).

Termination Fees Payable by Hudson
(See page ___)

Under the terms of the Merger Agreement, Hudson would be obligated to pay Rodman a \$350,000 cash termination fee if:

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

the Hudson board of directors authorizes Hudson, subject to complying with the terms of the Merger Agreement, to enter into a written agreement concerning a Superior Proposal; or

13

an Adverse Recommendation Change occurs or the Hudson board of directors fails to publicly confirm the recommendation by the Hudson board of directors to proceed with the Merger within five business days of a written request by Rodman that it do so, but only if such Adverse Recommendation Change was not solely the result of the occurrence of a material adverse effect with respect to Rodman.

Material U.S. Federal Income Tax Consequences

(See page ___)

The Merger is intended to constitute a tax-free reorganization for U.S. federal income tax purposes. If so treated, the exchange of your shares of Hudson common stock for shares of Rodman common stock generally will not cause you to recognize gain or loss for U.S. federal income tax purposes. However, you will recognize income or gain with respect to cash received instead of any fractional shares of Rodman common stock. It is a condition to the Merger that Hudson and Rodman receive a legal opinion as to the U.S. federal income tax treatment of the Merger with respect to both companies and their respective stockholders. This opinion will not bind the Internal Revenue Service, which could take a different view.

The consequences of the Merger to any particular stockholder will depend on that stockholder's particular facts and circumstances. Accordingly, you are urged to consult your own tax advisor to determine your own tax consequences from the Merger.

Accounting Treatment

(See page ___)

In accordance with accounting principles generally accepted in the United States, Rodman will account for the Merger using the purchase method of accounting for business combinations.

Comparison of Rights of Hudson Stockholders and Rodman Stockholders

(See page ___)

Hudson's certificate of incorporation and bylaws and Delaware corporate law govern the rights of Hudson stockholders. Rodman's certificate of incorporation and bylaws and Delaware corporate law will govern your rights as a stockholder of Rodman following the Merger. Your rights under Rodman's certificate of incorporation and bylaws will differ in some respects from your rights under Hudson's certificate of incorporation and bylaws.

Summary Pro Forma Condensed Combined Financial Information
(See page ___)

The following Summary Pro Forma Condensed Combined Financial Information is derived from the pro forma financial information included elsewhere in the proxy statement/prospectus and should be read in conjunction therewith.

RISK FACTORS

By voting in favor of the proposal to approve and adopt the Merger Agreement and approve the Merger, you will be choosing to invest in Rodman common stock. An investment in Rodman common stock may involve significant risk. You should carefully consider the following risk factors, as well as the other information contained in this proxy statement/prospectus, including the annexed documents, which are incorporated by reference into this proxy statement/prospectus, in evaluating whether to vote your shares to approve and adopt the Merger Agreement and approve the Merger. This summary of risks is not exhaustive. New risks may emerge from time to time and it is not possible to predict all risk factors, nor can we assess the impact of all factors on the Merger and the combined company following the Merger or the extent to which any factor or combination of factors may cause actual results to differ materially from those contained in or implied by any forward-looking statements.

Risks Related to the Merger

As a holder of Hudson common stock, if the Merger is completed, you will receive a fixed number of shares of Rodman common stock for each share of Hudson common stock you own notwithstanding any changes in the value of Hudson common stock or Rodman common stock.

Upon completion of the Merger, each share of Hudson common stock will be exchanged for a fixed number of shares of Rodman common stock. There will be no adjustment for changes to reflect the market price of either Hudson common stock or Rodman common stock or the operating and financial performance of either company. Accordingly, the specific dollar value of the Rodman common stock that you will receive upon completion of the Merger will depend on the market value of Rodman common stock at the time of completion of the Merger. The Merger may not be completed immediately following the Meeting if all regulatory approvals have not yet been obtained and other conditions have not been satisfied or waived. Neither company is permitted to terminate the Merger Agreement or re-solicit the vote of Hudson stockholders solely because of changes in the market prices of either company's common stock or because of changes in the operating and financial performance of either company that do not amount to a material adverse effect, as defined in the Merger Agreement. Stock price changes may result from a variety of factors, including, among others, general market and economic conditions, changes in Rodman's and Hudson's respective current and anticipated businesses and operations as well as regulatory considerations. Many of these factors are beyond Rodman's and Hudson's control. Additionally, future sales of substantial amounts of Rodman common stock in the public market, or the availability of such shares for sale, could adversely affect the market price of Hudson common stock and Rodman common stock. You should obtain current market quotations for shares of Rodman common stock and for shares of Hudson common stock. We cannot assure you that the value of the Rodman common stock that you will receive in the Merger will not decline prior to or after the Merger.

Hudson directors and executive officers have interests that may influence them to support and approve the Merger.

Some of the directors and executive officers of Hudson may receive certain benefits as a result of the Merger, including employment agreements and continuing indemnification against liabilities. They may also have certain Hudson stock options and other equity awards and existing employment terms that provide them with interests in the Merger, such as accelerated vesting of restricted stock and stock options in certain circumstances following the closing of the Merger that are different from, or are in addition to, the interests of other stockholders in the Merger. As a result, these directors and officers may be more likely to vote to approve and adopt the Merger Agreement and approve the Merger than if they did not have these interests. Some of these executive officers and directors have already agreed to vote in favor of the proposal to approve and adopt the Merger Agreement and approve the Merger. Certain Hudson stockholders, who, in the aggregate, own approximately 52.1% of the voting power of the outstanding shares of Hudson common stock entitled to vote at the Meeting, have agreed to vote in favor of the Merger Agreement and the Merger. For a description of some of these interests, see Proposal One: The Merger Interests of Certain Persons in the Merger; The Merger Agreement Treatment of Hudson Stock Option, Other Equity-Based Awards and Warrants; Employee Matters; Other Covenants and Agreements; and Other Agreements Related to the Merger beginning on pages ___ and ____, respectively.

The market price of the shares of Rodman common stock may be affected by factors different from those affecting the shares of Hudson common stock.

Upon completion of the Merger, holders of Hudson common stock will become holders of Rodman common stock. The businesses of Rodman differ from those of Hudson in certain respects and, accordingly, the results of operations of the combined company and the market price of Rodman common stock following the Merger may be affected by factors different from those currently affecting the independent results of operations of Rodman and Hudson. For example, Rodman's financial performance

depends relatively more on its investment banking business which is principally focused on growth sectors in the economy, including healthcare, China, energy and metals and mining.

On the other hand, Hudson's financial performance depends relatively more on trading volume and general market conditions.

As a result of the Merger, the financial performance of the combined firm, from the perspective of current Rodman stockholders, will be relatively more subject to the risks associated with Hudson's sales and trading business and, from the perspective of current Hudson stockholders, will be relatively more subject to the risks associated with Rodman's investment banking businesses. For a discussion of the businesses of Rodman and Hudson and of certain factors to consider in connection with those businesses, see Rodman & Renshaw Capital Group, Inc. Business and Financial Information beginning on page __ and Hudson Holding Corporation Business and Financial Information beginning on page __.

The market price of Hudson common stock prior to the Merger may also not be reflective of Hudson's underlying current operating and financial performance or its longer term prospects because the market price for the Hudson shares may begin to track the share price of Rodman common stock if investors assume that the Merger is likely to be completed.

Rodman and Hudson may experience difficulties, unexpected costs and delays in integrating their businesses, business models and cultures and the combined company may not realize synergies, efficiencies or cost savings from the Merger.

Rodman and Hudson have operated and, until the Merger is completed, will continue to operate, independently. The success of the combined company following the completion of the Merger may depend in large part on the ability to integrate the two companies' businesses, business models and cultures. In particular, investment banking businesses such as Hudson's and Rodman's depend to a large degree on the efforts and performance of individual employees whose efforts and performance may be affected by any difficulties in the integration of the businesses. In the process of integrating Rodman and Hudson, Rodman may experience difficulties, unanticipated costs and delays. The challenges involved in the integration may include:

the necessity of coordinating geographically disparate organizations and addressing possible differences in corporate and regional cultures and management philosophies;

managing the combined company at geographically separate locations that employ a significant number of employees;

retaining personnel from different companies and integrating them into a new business culture while maintaining their focus on providing consistent, high-quality client service;

integrating information technology systems and resources;

integrating accounting systems and adjusting internal controls to cover Hudson's operations;

unforeseen expenses or delays associated with the transaction;

performance shortfalls at one or both of the companies as a result of the diversion of management's attention to the transaction; and

meeting the expectations of clients with respect to the integration.

The integration of certain operations, in particular the two companies' research and brokerage businesses, following the transaction will take time and will require the dedication of significant management resources, which may temporarily distract management's attention from the ongoing businesses of the combined company. Employee uncertainty and lack of focus during the integration process may also disrupt the businesses of the combined company.

It is possible that the integration process could result in the loss of key employees, diversion of each company's management's attention, the disruption or interruption of, or the loss of momentum in, each company's ongoing business or inconsistencies in standards, controls, procedures and policies, any of which could adversely affect the combined company's ability to maintain relationships with clients and employees or the ability to achieve the anticipated benefits of the transaction, or could reduce the combined company's earnings or otherwise adversely affect the business and financial results of the combined company. In addition, the integration process may strain the combined company's financial and managerial controls and reporting systems and procedures. This may result in the diversion of management and financial resources from the combined company's core business objectives.

Even if Rodman and Hudson are able to integrate their businesses and operations successfully, there can be no assurance that this integration will result in any synergies, efficiencies or cost savings or that any of these benefits will be achieved within a specific time frame. Any of these factors could adversely affect the combined company's business and results of operations.

If Rodman is unable to integrate Hudson personnel successfully or retain key Hudson or Rodman personnel after the Merger is completed, the combined company's business may suffer.

Rodman's ability to obtain and successfully execute its business depends upon the personal reputation, judgment, business generation capabilities and project execution skills of Rodman's and Hudson's senior professionals. Any management disruption or difficulties in integrating Rodman's and Hudson's professionals could result in a loss of clients and customers or revenues from clients and customers and could significantly affect the combined company's business and results of operations.

The success of the Merger will depend in part on Rodman's ability to retain the talents and dedication of the professionals currently employed by Rodman and Hudson. It is possible that these employees might decide not to remain with Rodman or Hudson while Rodman and Hudson work to complete the Merger or with Rodman after the Merger is completed. If key employees terminate their employment, or insufficient numbers of employees are retained to maintain effective operations, the combined company's business activities might be adversely affected, management's attention might be diverted from successfully integrating Hudson's operations to hiring suitable replacements, and the combined company's business might suffer. In addition, Rodman and Hudson might not be able to locate suitable replacements for any key employees that leave either company or offer employment to potential replacements on reasonable terms.

Integration of Hudson's operations with Rodman's operations may impair Rodman's ability to achieve the expected benefits of the Merger.

Following completion of the Merger, Rodman expects to make changes to certain aspects of each of the companies' operations to integrate Hudson's operations with those of Rodman. In addition, Rodman expects that the Merger could affect each of the companies' existing client relationships or its ability to enter into new client relationships. Any changes that Rodman makes to each of the companies' operations could disrupt their businesses and client relationships and could materially and adversely affect Rodman's ability to achieve the expected benefits of the transaction and its business and results of operations.

The Merger is subject to conditions to closing that could result in the Merger being delayed or not consummated, which could negatively impact Rodman's and Hudson's stock price and the combined company's future business and operations. In order to obtain required regulatory approvals, Rodman may become subject to conditions that it does not currently anticipate.

The Merger is subject to conditions to closing as set forth in the Merger Agreement, including obtaining the requisite Hudson's stockholder approval, regulatory approvals and Hudson having in excess of \$2.5 million in Net Liquid Assets on the Closing Date. If any of the conditions to the transaction are not satisfied or, where permissible, not waived, the Merger will not be consummated. Failure to consummate the transaction could negatively impact Hudson's stock price, future business and operations, and financial condition. Any delay in the consummation of the Merger or any uncertainty about the consummation of the Merger may adversely affect the future businesses, growth, revenue and results of operations of Rodman, Hudson or the combined company.

The Merger is subject to regulatory approvals. These regulatory approvals may not be received, or may be received later than anticipated. Regulatory approvals that are received may impose restrictions or conditions that restrict the combined company's activities or otherwise adversely affect the combined company's business and results of operations.

The delay in closing the planned Merger could have an adverse effect on Hudson's revenues in the near-term.

To the extent a prolonged delay in completing the Merger creates uncertainty among Hudson's clients, such delay could have an adverse effect on Hudson's results of operations, and quarterly revenues could be substantially below market expectations and could cause a reduction in the stock price of Hudson common stock.

The pro forma financial statements are presented for illustrative purposes only and may not be an indication of the combined company's financial condition or results of operations following the Merger.

The pro forma financial statements contained in this proxy statement/prospectus are presented for illustrative purposes only and may not be an indication of the combined company's financial condition or results of operations following the Merger for several reasons. For example, the pro forma financial statements have been derived from the historical financial statements of Rodman and Hudson and certain adjustments and assumptions have been made regarding the combined company after giving effect to the Merger. The information upon which these adjustments and assumptions have been made is preliminary, and these kinds of adjustments and assumptions are difficult to make with complete accuracy. Moreover, the pro forma financial statements do not reflect all costs that are expected to be incurred by the combined company in connection with the Merger. For example, the impact of any incremental costs incurred in integrating the two companies is not reflected in the pro forma financial statements. As a result, the actual financial condition and results of operations of the combined company following the Merger may not be consistent with, or evident from, these pro forma financial statements.

In addition, the assumptions used in preparing the pro forma financial information may not prove to be accurate, and other factors may affect the combined company's financial condition or results of operations following the Merger. Any potential decline in the combined company's financial condition or results of operations may cause significant variations in the stock price of the combined company. See the section entitled "Unaudited Pro Forma Condensed Combined Financial Information" beginning on page ____.

Rodman and Hudson expect to incur significant costs associated with the Merger.

Rodman estimates that it will incur direct transaction costs of approximately \$____ associated with the Merger. Hudson estimates that it will incur direct transaction costs of approximately \$____, which will be recognized as expenses as incurred. Rodman and Hudson believe the combined entity may incur charges to operations, which are not currently reasonably estimable, in the quarter prior to the one in which the Merger is completed, in the quarter in which the Merger is completed and, possibly, the following quarters as well, to reflect costs associated with integrating the two companies. There can be no assurance that the combined company will not incur additional material charges in subsequent quarters to reflect additional costs associated with the Merger and the integration of the two companies. Although Rodman expects that the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of the businesses, should allow Rodman to offset incremental transaction and Merger-related costs over time, this net benefit may not be achieved in the near term, or at all.

The Merger may not be accretive and may cause dilution to Rodman's earnings per share, which may negatively affect the market price of Rodman common stock.

Rodman expects to achieve various operating cost savings and efficiencies following a transition and integration period. As a result, Rodman expects the transaction to be neutral to earnings by the fourth quarter of 2011 and accretive in 2012. This expectation is based on preliminary estimates which may materially change. Rodman could also encounter additional transaction and integration related costs or other factors such as the failure to realize all of the benefits anticipated in the Merger. All of these factors could cause dilution to Rodman's earnings per share or decrease or delay the expected accretive effect of the Merger and cause a decrease in the price of Rodman common stock.

The shares of Rodman common stock to be received by Hudson stockholders if the Merger is approved and consummated will have different rights from the shares of Hudson common stock.

Upon completion of the Merger, Hudson stockholders will become Rodman stockholders and their rights as stockholders will be governed by Rodman's certificate of incorporation and bylaws. The rights associated with Hudson common stock are different from the rights associated with Rodman common stock. Please see "Comparison of Rights of Rodman & Renshaw Capital Group, Inc. Stockholders and Hudson Holding Corporation Stockholders" beginning on page ____ for a discussion of the different rights associated with Rodman and Hudson common stock.

The termination fee and restrictions on solicitation contained in the Merger Agreement may discourage other companies from trying to acquire Hudson.

Until the completion of the Merger, with limited exceptions, the Merger Agreement prohibits Hudson from entering into an alternative acquisition transaction with, or soliciting any alternative Acquisition Proposal from, another party. Hudson has agreed under certain circumstances to pay Rodman a termination fee equal to \$350,000, including where the Hudson board of directors withdraws its support of the Merger to enter into a business combination with a third party. These provisions could discourage other companies from trying to acquire Hudson even though those other companies might be willing to offer greater value to Hudson stockholders than Rodman has offered in the Merger.

Risks Related to Hudson if the Merger Is Not Completed

If the Merger is not completed, the price of Hudson common stock and future business and operations could be harmed.

If the Merger is not completed, Hudson may be subject to the following material risks, among others:

Hudson may not be able to find a party willing to pay an equivalent or more attractive exchange ratio than the Exchange Ratio offered by Rodman;

the price of Hudson common stock may decline to the extent that the current market price of Hudson common stock reflects an assumption that the Merger will be completed;

certain of Hudson's costs related to the Merger, such as legal, accounting and certain financial advisory fees, must be paid even if the Merger is not completed;

Hudson would not realize the benefits it expects by being part of a combined company with Rodman, as well as the potentially enhanced financial position as a result of being part of the combined company;

the diversion of management attention from Hudson's day-to-day business and the unavoidable disruption to its employees and its relationships with clients as a result of efforts and uncertainties relating to Hudson's anticipated Merger with Rodman may detract from Hudson's ability to grow revenues and minimize costs, which, in turn may lead to a loss of market position that Hudson could be unable to regain if the Merger does not occur;

under the Merger Agreement, Hudson is subject to certain restrictions on the conduct of its business prior to completing the Merger which may affect its ability to execute certain of its business strategies; and

Hudson may not be able to continue its present level of operations, may need to scale back its business and may not be able to take advantage of future opportunities or effectively respond to competitive pressures, any of which could have a material adverse effect on its business and results of operations. Hudson's capital requirements have been and will continue to be significant. Hudson has limited cash and cash equivalents, and relies on working capital to fund its operations. In the event that Hudson continues to sustain losses from operations to fund its working capital needs, it will need to raise working capital through a debt or equity financing, if available, or curtail operations.

Stockholders may sell substantial amounts of Hudson common stock in the public market, which is likely to depress the price of Hudson common stock.

A significant number of shares of Hudson common stock may be sold at any time prior to the Merger. If Hudson current stockholders sell Hudson common stock in the public market prior to the Merger, it is likely that arbitrageurs will acquire such shares. These arbitrageurs would likely sell all such shares in the public market immediately following any announcement, or anticipated announcement, that the Merger with Rodman failed, or will likely fail, to close for regulatory or other reasons, which in turn would likely cause the market price of Hudson common stock to decline.

In addition to the other negative effects on Hudson, all such sales of Hudson common stock might make it more difficult for Hudson to sell equity or equity-related securities in the future if the Merger with Rodman is not completed.

Risks Related to Hudson

In addition to the other information set forth in this report, you should carefully consider the following factors which could materially affect Hudson's business, financial condition or future results of operations. Although the risks described below are those that Hudson believes are the most significant, these are not the only risks facing Hudson. Additional risks and uncertainties not currently known to Hudson or that Hudson currently does not deem to be material also may materially affect Hudson's business, financial condition or future results of operations. Hudson may amend or supplement these risk factors from time to time in other reports it files with the SEC.

Hudson has sustained significant losses from its operations, and if Hudson is not able to obtain further financing, Hudson may be forced to scale back or cease operations or its business operations may fail.

At March 31, 2010 and September 30, 2010, Hudson had cash and cash equivalents of approximately \$7.8 million and \$7.2 million, respectively. Hudson's capital requirements have been and will continue to be significant. Hudson has limited cash and cash equivalents and relies on working capital to fund its operations. In the event that Hudson continues to sustain losses from operations to fund its working capital needs, it will need to raise working capital through a debt or equity financing, if available, or curtail operations. Furthermore, Hudson may not be able to continue its present level of operations, may need to scale back its business and may not be able to take advantage of future opportunities or effectively respond to competitive pressures, any of which could have a material adverse effect on its business and results of operations.

Stock market volatility and other securities industry risks could adversely affect Hudson's business.

Substantially all of Hudson's revenues are derived from securities market activities. As a result, Hudson is directly affected by economic and political conditions, broad trends in business and finance and changes in volume and price levels of securities transactions. In recent years, the U.S. securities markets have been very volatile, which has periodically reduced trading volume and net revenues. The tightening of credit,

the threat of terrorist attacks and the global financial crisis and other events have also resulted in substantial market volatility and accompanying reductions in trading volume and net revenues. Severe market fluctuations or weak economic conditions could reduce Hudson's trading volume and net revenues and adversely affect Hudson's profitability.

Hudson is subject to market exposure and could be adversely affected by a decrease in the price of securities which Hudson holds in its trading accounts.

Hudson conducts its market-making activities predominantly as principal, which subjects Hudson's capital to significant risks. These activities involve the purchase, sale or short sale of securities for Hudson's own account and, accordingly, involve risks of price fluctuations and illiquidity, or rapid changes in the liquidity of markets that may limit or restrict Hudson's ability to either resell securities Hudson purchases or to repurchase securities Hudson sells in such transactions. From time to time, Hudson may have large position concentrations in securities of a single issuer or issuers engaged in a specific industry, which might result in higher trading losses than would occur if Hudson's positions and activities were less concentrated. Further, Hudson may trade on margin, which permits it to borrow funds from Hudson's clearing broker in order to take positions for Hudson's own account that exceed the available funds that Hudson has deposited with its clearing broker, which might result in higher trading losses than would occur if Hudson's positions and activities were restricted to its funds on deposit. The success of Hudson's market-making activities primarily depends upon its ability to attract order flow, the skill of its personnel, general market conditions, the amount of, and volatility in, its quantitative market-making and program trading portfolios, effective hedging strategies, the price volatility of specific securities and the availability of capital. To attract order flow, Hudson must be competitive on price, size of securities positions traded, liquidity, order execution, technology, reputation and client relationships and service. In Hudson's role as a market maker, Hudson attempts to derive a profit from the difference between the prices at which Hudson buys and sells securities. However, competitive forces often require Hudson to match the quotes other market makers display and to hold varying amounts of securities in inventory. By having to maintain inventory positions, Hudson is subject to a high degree of risk. There can be no assurance that Hudson will be able to manage such risk successfully or that Hudson will not experience significant losses from such activities.

There is a risk that Hudson's future operating results may fluctuate significantly.

Hudson may experience significant variation in its future results of operations. These fluctuations may result from, among other things:

introductions of or enhancements to market-making services by Hudson or its competitors;

the value of Hudson's securities positions and Hudson's ability to manage the risks attendant thereto;

the volume of Hudson's market-making activities;

the dollar value of securities traded;

volatility in the securities markets;

Hudson's market share with institutional clients;

Hudson's ability to manage personnel, overhead and other expenses, including Hudson's occupancy expenses under its office leases

the strength of Hudson's client relationships; the amount of, and volatility in, Hudson's quantitative market-making and program trading portfolios;

changes in payments for order flow and clearing costs;

the addition or loss of executive management and sales, trading and technology professionals;

compensation expenses associated with recruiting new employees;

legislative, legal and regulatory changes;

legal and regulatory matters;

geopolitical risk;

the amount and timing of capital expenditures and divestitures;

the incurrence of costs associated with acquisitions and dispositions;

investor sentiment;

technological changes and events;

seasonality; and

competition and market and economic conditions.

If demand for Hudson's services declines due to any of the above factors, and Hudson is unable to timely adjust its cost structure, Hudson's operating results could be materially and adversely affected.

Hudson's traders may take larger risks than permitted which could result in large losses.

Although Hudson requires its traders to adhere to certain position limits (generally no more than \$500,000 in total positions for the most experienced traders), sometimes a trader takes a position beyond these limits and subjects Hudson to greater risks. Hudson has established procedures to guard against this, including real-time position monitoring which should promptly alert management to any excessive risks. However, there can be no assurance that management will be able to guard against all risks taken by each employee.

Hudson is dependent on its clearing brokers, which may go out of business or charge Hudson for a default by a counterparty to a trade.

As a market maker, the majority of Hudson's securities transactions are conducted as principal with broker-dealer and institutional counterparties located in the United States. Hudson clears its securities transactions through two unaffiliated clearing brokers. Under the terms of the agreements between Hudson and its clearing brokers, the clearing brokers have the right to charge Hudson for losses that result from a counterparty's failure to fulfill its contractual obligations. No assurance can be given that any such counterparty will not default on its obligations, which default could have a material adverse effect on Hudson's business, financial condition and operating results. In addition, at any time, a substantial portion of Hudson's assets are held by its clearing brokers and, accordingly, Hudson is subject to credit risk with respect to such clearing brokers. Consequently, Hudson is reliant on the ability of its clearing brokers to adequately discharge their obligations on a timely basis. Hudson is also dependent on the solvency of such clearing brokers. Any failure by the clearing brokers to adequately discharge their obligations on a timely basis, or failure by the clearing brokers to remain solvent, or any event adversely affecting the clearing brokers, could have a material adverse effect on Hudson's business, financial condition and operating results. If Hudson's clearing brokers were to go out of business or decide not to continue to act as Hudson's clearing broker, its operating results would be adversely affected until Hudson could replace them.

Reduced market volume, price and liquidity can impact Hudson's revenues.

Hudson's revenues may decrease in the event of a decline in market volume, prices or liquidity. Declines in the volume of securities transactions and in market liquidity generally result in lower revenues from market-making activities. Lower price levels of securities may also result in reduced revenue capture, and thereby reduced revenues from market-making transactions, as well as result in losses from declines in the market value of securities held in inventory. Sudden sharp declines in market values of securities can result in illiquid markets, declines in the market values of securities held in inventory, the failure of buyers and sellers of securities to fulfill their obligations and settle their trades, and increases in claims and litigation. Any decline in market volume, price or liquidity or any other of these factors could have a material adverse effect on Hudson's business, financial condition and operating results.

Hudson operates in a highly regulated industry and compliance failures could adversely affect its business.

The securities industry is subject to extensive regulation covering all aspects of the securities business. The various governmental authorities and industry self-regulatory organizations that supervise and regulate Hudson generally have broad enforcement powers to censure, fine, issue cease-and-desist orders or suspend or expel Hudson or any of Hudson's officers or employees who violate applicable laws or regulations. Hudson may also be subject to an enforcement action for failure to supervise if any of its employees or traders violates applicable laws or regulations. Hudson's ability to comply with all applicable laws and rules is largely dependent on its establishment and maintenance of compliance and reporting systems, as well as its ability to attract and retain qualified compliance and other personnel. If Hudson does not comply with the rules and regulations established, it could be subject to disciplinary or other regulatory or legal actions in the future. In addition, it is possible that any past noncompliance could subject Hudson to future civil lawsuits, the outcome of which could have a material adverse effect on Hudson's financial condition and operating results.

Hudson is required to keep accurate books and records. There is considerable fluctuation during any year and from year-to-year in the volume of transactions Hudson must process. Hudson records security transactions and posts its books daily. Operations personnel monitor operations to determine compliance with applicable laws, rules and regulations. Failure to keep current and accurate books and records can render Hudson liable to disciplinary action by governmental and self-regulatory authorities, as well as to claims by its clients.

Hudson has a prior disciplinary record with FINRA, which could have an adverse effect on its ability to operate if Hudson becomes subject to additional FINRA disciplinary action.

During the period from approximately 1990 through July 31, 2004, primarily while Hudson's operating subsidiary Hudson Securities was owned by and supervised by different management and owners and operating under a different name, Hudson was cited by FINRA for violations of FINRA's Rules of Fair Practice and Marketplace Rules on at least 20 occasions and was fined amounts ranging from \$250 to \$82,500. The total amount of such fines was approximately \$405,000. On January 8, 2009, FINRA accepted Hudson's Letter of Acceptance, Waiver and Consent to settle with FINRA on a violation limited to failure to tailor anti-money

laundering procedures to include market making and trading, plus a \$10,000 fine. The existence of such prior violations could have an adverse effect on Hudson should such violations recur under the supervision of current management.

Hudson faces substantial competition that could reduce its market share and harm its financial performance.

All aspects of Hudson's business are highly competitive. Hudson competes directly with national and regional full service broker-dealers and, to a lesser extent, with discount brokers, investment advisors and certain commercial banks. The financial services industry has become considerably more concentrated as numerous securities firms have either ceased operations or have been acquired by or merged into other firms. These mergers and acquisitions have increased competition from these firms, many of which have significantly greater capital and financial and other resources than Hudson has. With respect to retail brokerage activities, certain regional firms with which Hudson competes have operated in certain markets longer than Hudson has and have established long-standing client relationships. Hudson also competes with others in the financial services industry in recruiting registered representatives and new employees as well as retaining current personnel, and Hudson could be adversely affected in the event it was to lose registered representatives who either individually or in the aggregate accounted for a significant percentage of Hudson's revenues.

Hudson may not be able to grow.

As part of its long-term growth strategy, Hudson intends to recruit individual registered representatives and to evaluate the acquisition of other firms or assets that would complement or expand its business in attractive service markets or that would broaden its customer relationships. Hudson cannot assure you that it will be successful in its recruiting efforts or that it will be able to identify suitable acquisition candidates available for sale at reasonable prices or that it will be able to consummate any acquisition. Further, future acquisitions may further increase Hudson's leverage or, if it issues equity securities to pay for the acquisitions, stockholders could suffer dilution of their interests. If Hudson is unable to raise adequate capital, it will not have the available funds to create new products.

Hudson's investments have increased its costs.

Hudson has made investments to: (1) expand the number of available trading positions by renting additional office space; (2) increase trade automation by internally developing new and enhanced software; (3) increase the trade throughput capacity by enhancing the trading platform to a third party dedicated complex; (4) expand the number of securities in which Hudson provided execution solutions or made markets; (5) expand the institutional sales division through the addition of experienced producers with established account relationships; and (6) expand the service offerings through the addition of an investment banking and research division as well as a retail brokerage presence. These investments have increased Hudson's cost base. There can be no assurance that Hudson will be able to successfully generate additional revenues to cover these increased costs.

Hudson's new investment banking and research initiatives may not be successful.

Hudson recently announced the acquisition of the equity research and investment banking business of a Chicago based equity research boutique focused on the needs of institutional investors, which expands Hudson's investment banking and research services. There can be no assurance that Hudson will be successful in offering such services.

If Hudson loses senior management and key personnel or is unable to attract and retain skilled employees when needed, Hudson may not be able to operate its business successfully.

Hudson is particularly dependent on the services of Anthony M. Sanfilippo and Keith Knox. The loss of either of these individuals would have a significant negative effect on Hudson's business. In addition, Hudson believes that its success will depend in large part upon its continued ability to attract and retain skilled traders and other employees, which is difficult because the market for the services of such individuals is very competitive. On October 12, 2009, Hudson entered into a three-year employment agreement, effective as of October 12, 2009, with Mr. Anthony M. Sanfilippo, whereby he will serve as Chief Executive Officer. On January 4, 2007, Hudson entered into a five-year employment agreement, effective as of January 1, 2007, as amended May 19, 2008 and October 12, 2009, with Mr. Keith R. Knox, whereby he will continue in his present position as President.

Hudson needs to comply with stringent capital requirements and therefore if Hudson suffers significant losses it could be below its net capital requirement.

Many of the regulatory agencies and industry self-regulatory organizations that regulate Hudson have stringent rules with respect to the maintenance of specific levels of net capital by securities broker-dealers. Net capital is the net worth of a broker or dealer, less deductions for certain types of assets. Currently, Hudson is required to maintain net capital of at least \$1,000,000. As of September 30, 2010, Hudson had net capital of approximately \$5,774,826 and excess net capital (that is, net capital less required net capital) of approximately \$4,774,826. Hudson intends to maintain such funds as are necessary to operate its business and to maintain

compliance with regulatory net capital requirements. Changes to its business may require Hudson to maintain higher net capital levels than currently. If Hudson fails to maintain the required net capital, Hudson may be subject to suspension or revocation of its licenses. If such net capital rules are changed or expanded, or if there is an unusually large charge against Hudson's net capital, Hudson might be required to limit or discontinue those portions of its business that require the intensive use of capital. A large operating loss or charge against net capital could adversely affect Hudson's ability to expand or even maintain its present level of business.

Hudson's exposure to litigation and regulatory proceedings could adversely affect its business.

From time to time, Hudson is named as a defendant in various routine actions that are incidental to its activities as a broker-dealer, including civil actions, arbitrations, plus proceedings and investigation by self-regulatory organizations. Many aspects of the securities brokerage business involve substantial risks of liability. In recent years, there has been an increasing incidence of litigation involving the securities brokerage industry, including class action and other suits that generally seek substantial damages, including in some cases punitive damages. Any such litigation brought in the future could have a material adverse effect on Hudson's business, financial condition and operating results.

From time to time, Hudson may also be engaged in various legal proceedings not related to securities. Hudson currently maintains various types of insurance, including employment practices liability insurance, the proceeds of which may help to reduce the amount Hudson may otherwise be required to pay with respect to certain types of claims. However, there can be no assurance that Hudson will be able to obtain such insurance in the future. If it can be obtained, the price for such insurance may be unreasonable. Even if such insurance is in force, the amount of any award may exceed the maximum coverage provided by such insurance, in which case Hudson will be required to pay any uncovered portion. Specifically, Hudson is involved in legal proceedings related to the approval of the Merger by its board of directors and alleged unpaid employment compensation. See Hudson Holding Corporation Business and Financial Information Legal Proceedings.

Hudson's revenues have been dependent on certain key employees and/or customers.

One of Hudson's employees accounted for 15% of Hudson's total revenues, which included revenues from a single customer that accounted for 8% of Hudson's total revenues, during the fiscal year ended March 31, 2010. During the fiscal year ended March 31, 2009, Hudson had one such active employee who accounted for 27% of total revenues, which included revenues from a single customer that accounted for 18% of total revenues. This employee ceased employment on January 19, 2010.

Hudson's common stock is not actively traded, so you may be unable to sell at or near ask prices or at all if you need to sell your Shares to raise money or otherwise desire to liquidate your Shares.

Hudson's common stock has historically been sporadically traded on the OTC Bulletin Board, meaning that the number of persons interested in purchasing Hudson's common stock at or near ask prices at any given time has been, and may continue to be, relatively small or non-existent. This situation is attributable to a number of factors, including the fact that Hudson is a small company which is relatively unknown to stock analysts, stock brokers, institutional investors and others in the investment community that generate or influence sales volume, and that even if Hudson came to the attention of such persons, they tend to be risk-averse and would be reluctant to purchase or recommend the purchase of Hudson's shares until such time as Hudson becomes more seasoned and viable. As a consequence, there may be periods of several days or more when trading activity in Hudson's shares is minimal or non-existent, as compared to a seasoned issuer which has a large and steady volume of trading activity that will generally support continuous sales without an adverse effect on share price. Hudson cannot assure you that a broader or more active public trading market for its common stock will develop or be sustained, or that current trading levels will be sustained or not diminish.

The application of the penny stock rules to Hudson's common stock could limit the trading and liquidity of the common stock, adversely affect the market price of Hudson's common Stock and increase your transaction costs to sell those shares.

As long as Hudson is not listed on an exchange and the trading price of Hudson's common stock is below \$5.00 per share, the open-market trading of Hudson's common stock will be subject to the penny stock rules. The penny stock rules impose additional sales practice requirements on broker-dealers who sell securities to persons other than established customers and accredited investors (generally those with assets in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 together with their spouse). These regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the associated risks. Under these regulations, certain brokers who recommend such securities to persons other than established customers or certain accredited investors must make a special written suitability determination regarding such a purchaser and receive such purchaser's written agreement to a transaction prior to sale. These regulations have the effect of limiting the trading activity of Hudson's common stock, reducing the liquidity of an investment in the common stock and increasing the transaction costs for sales and purchases of Hudson's common stock as compared to other securities.

The market price for Hudson's common stock is particularly volatile given Hudson's status as a relatively unknown company with a small and thinly traded public float, limited operating history and variable profitability which could lead to wide fluctuations in Hudson's share price. You may be unable to sell Hudson's common stock at or above your purchase price, which may result in substantial losses to you.

The market for Hudson's common stock is characterized by significant price volatility when compared to seasoned issuers, and Hudson expects that its share price will continue to be more volatile than a seasoned issuer for the indefinite future. The volatility in Hudson's share price is attributable to a number of factors. First, as noted above, Hudson's common stock is sporadically and thinly traded. As a consequence of this lack of liquidity, the trading of relatively small quantities of shares by Hudson's stockholders may disproportionately influence the price of those shares in either direction. The price for Hudson's shares could, for example, decline precipitously in the event that a large number of shares of Hudson's common stock are sold on the market without commensurate demand, as compared to a seasoned issuer which could better absorb those sales without adverse impact on its share price. Secondly, Hudson is a speculative or risky investment due to Hudson's limited operating history, and uncertainty of future market acceptance for Hudson's services. As a consequence of this enhanced risk, more risk adverse investors may, under the fear of losing all or most of their investment in the event of negative news or lack of progress, be more inclined to sell their shares on the market more quickly and at greater discounts than would be the case with the stock of a seasoned issuer.

Many of these factors are beyond Hudson's control and may decrease the market price of Hudson's common stock, regardless of its operating performance. Hudson cannot make any predictions or projections as to what the prevailing market price for its common stock will be at any time, including as to whether its common stock will sustain its current market price, or as to what effect that the sale of shares or the availability of common stock for sale at any time will have on the prevailing market price.

In addition, the market price of Hudson's common stock could be subject to wide fluctuations in response to:

quarterly variations in Hudson's revenues and operating expenses;

fluctuations in interest rates;

the operating and stock price performance of other companies that investors may deem comparable to Hudson; and

news reports relating to trends in Hudson's markets or general economic conditions.

The stock market in general and the market prices for brokerage-related companies in particular, have experienced volatility that often has been unrelated to the operating performance of such companies. These broad market and industry fluctuations may adversely affect the price of Hudson's stock, regardless of its operating performance.

Stockholders should be aware that, according to SEC Release No. 34-29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include (1) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (2) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (3) boiler room practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (4) excessive and undisclosed bid-ask differential and markups by selling broker-dealers; and (5) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the resulting inevitable collapse of those prices and with consequent investor losses. The occurrence of these patterns or practices could increase the volatility of Hudson's share price.

Hudson does not intend to pay dividends to its stockholders.

Hudson does not have any current plans to pay dividends to its stockholders. Hudson currently intends to retain any future earnings for funding growth and, therefore, does not expect to pay any dividends in the foreseeable future.

Five current or former employees beneficially own approximately 31% of the voting capital stock of Hudson, and two other stockholders beneficially own approximately 41% of the voting capital stock of Hudson.

Anthony Sanfilippo, Keith R. Knox, Mark Leventhal (a former officer of Hudson Securities), Martin Cunningham (Hudson's former chief executive officer), and Steven Winkler (an employee and retired trading manager at Hudson's wholly owned broker-dealer subsidiary), each beneficially own approximately 8.9%, 4.4%, 5.0%, 6.5% and 5.8% of Hudson's common stock, respectively. Kenneth Pasternak and Seaport Hudson LLC beneficially own approximately 21.2% and 19.8% of Hudson's common stock, respectively. Accordingly, these persons could substantially influence the outcome of any matters submitted to a vote of Hudson's stockholders, management policy or financing decisions. For example, in connection with the Merger Agreement, Rodman entered into the Voting Agreement with Seaport Hudson LLC, Anthony M. Sanfilippo, Keith R. Knox, Peter Zugschwert, John C. Shaw, Jr., John W. Mascone, Kenneth D. Pasternak, Ajay Sareen and Frank J. Drazka, who, as of the Record Date, collectively own approximately 52.1% of the voting power of the outstanding shares of Hudson common stock.

Pursuant to the Voting Agreement, such persons agreed to vote their shares of Hudson in favor of the proposal to approve and adopt the Merger Agreement and approve

the Merger. For a discussion of the Voting Agreement, see Other Agreements Relating to the Merger The Stockholder Voting Agreement on page ___.

Future sales of Hudson's common stock could put downward selling pressure on Hudson's shares, and adversely affect the stock price. There is a risk that this downward pressure may make it impossible for a stockholder to sell its shares at any reasonable price, if at all.

Future sales of substantial amounts of Hudson's common stock in the public market, or the perception that such sales could occur, could put downward selling pressure on Hudson's shares, and adversely affect the market price of Hudson's common stock.

The large number of recently issued shares to investors and shares issuable upon exercise of warrants could have an adverse affect on Hudson's stock price.

In a November 2006 private placement, Hudson issued 9,575,325 shares of common stock, 4,787,664 investor warrants with an exercise price of \$0.85 and 574,520 placement agent warrants with an exercise price of \$0.60. Subsequent to the private placement, Hudson registered for resale 7,908,655 shares of common stock and 3,954,329 shares of common stock issuable upon exercise of warrants with an exercise price of \$0.85 by the holders.

In a June 2008 private placement, Hudson issued 8,000,000 shares of common stock and a warrant to purchase 4,000,000 shares at an exercise price of \$0.75 per share. The securities were sold subject to a registration rights agreement which mandates that Hudson use its commercially reasonable efforts to file a registration statement within 30 days of the closing and to obtain effectiveness within 90 days after the closing (120 days if the SEC reviews the registration statement). A registration statement was filed on July 18, 2008, amended on August 15, 2008, and declared effective on August 22, 2008.

In November and December 2009, Hudson completed private placement offerings and sold an aggregate of \$4,837,500 of its common stock at a purchase price of \$0.25 a share. The offerings were subscribed by several existing shareholders, an institutional investor and certain officers, directors and employees. In connection with the financing, Hudson issued 19,350,000 shares of common stock. Hudson also entered into a registration rights agreement with the investors that provides for two demand registrations at the Hudson's expense.

The price of Hudson's common stock could significantly decline if such investors elect to sell their shares in the market at times when there are not a corresponding number of investors willing to purchase such shares. In addition, the large number of outstanding warrants will likely cause an overhang on the market and prevent the market price of the common stock from rising above the warrant exercise price.

There are limitations in connection with the availability of quotes and order information on the OTC Bulletin Board.

Trades and quotations on the OTC Bulletin Board involve a manual process, and the market information for such securities cannot be guaranteed. In addition, quote information, or even firm quotes, may not be available. The manual execution process may delay order processing and intervening price fluctuations may result in the failure of a limit order to execute or the execution of a market order at a significantly different price. Execution of trades, execution reporting and the delivery of legal trade confirmation may be delayed significantly. Consequently, one may not be able to sell shares of Hudson's common stock at the optimum trading prices.

There are delays in order communication on the OTC Bulletin Board.

Electronic processing of orders is not available for securities traded on the OTC Bulletin Board and high order volume and communication risks may prevent or delay the execution of one's OTC Bulletin Board trading orders. This lack of automated order processing may affect the timeliness of order execution reporting and the availability of firm quotes for shares of Hudson's common stock. Heavy market volume may lead to a delay in the processing of OTC Bulletin Board security orders for shares of Hudson's common stock, due to the manual nature of the market. Consequently, one may not be able to sell shares of Hudson's common stock at the optimum trading prices.

There is limited liquidity on the OTC Bulletin Board.

When fewer shares of a security are being traded on the OTC Bulletin Board, volatility of prices may increase and price movement may outpace the ability to deliver accurate quote information. Due to lower trading volumes in shares of Hudson's common stock, there may be a lower likelihood of one's orders for shares of Hudson's common stock being executed, and current prices may differ significantly from the price one was quoted by the OTC Bulletin Board at the time of one's order entry.

There is a limitation in connection with the editing and canceling of orders on the OTC Bulletin Board.

Orders for OTC Bulletin Board securities may be canceled or edited like orders for other securities. All requests to change or cancel an order must be submitted to, received and processed by the OTC Bulletin Board. Due to the manual order processing involved in handling OTC Bulletin Board trades, order processing and reporting may be delayed, and one may not be able to cancel or edit one's order. Consequently, one may not be able to sell shares of Hudson's common stock at the optimum trading prices.

A large number of restricted stock shares and options to purchase shares that have been granted, and may continue to be granted, to new and existing employees may dilute the ownership interest of existing shareholders and may adversely affect the stock price.

As of January 4, 2011, options to purchase 9,100,000 shares of Hudson's common stock are outstanding and an additional 5,609,818 shares are available for issuance as awards of restricted stock and stock options under Hudson's two stock incentive plans (the 2005 Plan and the 2007 Plan). The shares issuable under both the 2005 Plan and 2007 Plan have been registered for potential resale by grantees under both the 2005 Plan and the 2007 Plan. Given the effectiveness of such registration statement, the holders have the ability to sell the shares upon exercise of the options or the vesting of restricted stock. The price of Hudson's common stock could significantly decline if such investors elect to sell their shares in the market at times when there are not a corresponding number of investors willing to purchase such shares. In addition, the large number of outstanding options will likely cause an overhang on the market and prevent the market price of Hudson's common stock from rising above the option exercise prices.

Increased dealer compensation could adversely affect Hudson's stock price.

The dealer's spread (the difference between the bid and ask prices) may be large and may result in substantial losses to the seller of shares of Hudson's common stock on the OTC Bulletin Board if the stock must be sold immediately. Further, purchasers of shares of Hudson's common stock may incur an immediate paper loss due to the price spread. Moreover, dealers trading on the OTC Bulletin Board may not have a bid price for shares of Hudson's common stock on the OTC Bulletin Board. Due to the foregoing, demand for shares of Hudson's common stock on the OTC Bulletin Board may be decreased or eliminated.

Shares eligible for future sale may adversely affect the market.

In addition, from time to time, certain of Hudson's stockholders may be eligible to sell all or some of their shares of common stock by means of ordinary brokerage transactions in the open market pursuant to Rule 144, promulgated under the Securities Act of 1933, as amended, which is referred to herein as the Securities Act, subject to certain limitations. Shares held for more than six months by non-affiliates may be available for public sale without regard to volume limitations and by means of ordinary brokerage transactions in the open market pursuant to Rule 144.

In general, pursuant to Rule 144, after satisfying a six-month holding period: (i) affiliated stockholders (subject to aggregation principles) may, under certain circumstances, sell within any three-month period a number of securities which does not exceed the greater of 1% of the then outstanding shares of common stock or the average weekly trading volume of the class during the four calendar weeks prior to such sale and (ii) non-affiliated stockholders may sell without such limitations, provided Hudson is current in its public reporting obligations. Any substantial sale of Hudson's common stock pursuant to Rule 144 or pursuant to any resale prospectus may have a material adverse effect on the market price of Hudson's securities.

Risks Relating to Rodman

In addition to the other information set forth in this report, you should carefully consider the following factors which could materially affect Rodman's business, financial condition or future results of operations. Although the risks described below are those that Rodman believes are the most significant, these are not the only risks facing Rodman. Additional risks and uncertainties not currently known to Rodman or that Rodman currently does not deem to be material also may materially affect Rodman's business, financial condition or future results of operations. Rodman may amend or supplement these risk factors from time to time in other reports it files with the SEC.

Rodman has limited cash and cash equivalents and relies on cash flow from operations to operate its business.

At December 31, 2009 and September 30, 2010 Rodman had cash and cash equivalents of approximately \$15.5 million and \$9.7 million, respectively. Rodman's capital requirements have been and will continue to be significant. Historically, Rodman has relied upon cash flow from operations to fund its working capital needs. In light of current market and economic conditions, it is difficult, if not impossible, to predict the timing or likelihood of generating revenues. In the event that Rodman does not generate adequate cash flow from operations to fund its working capital needs, it will need to raise working capital through a debt or equity financing, if available, or curtail operations.

Limitations on access to capital could impair Rodman's ability to expand its businesses.

Liquidity, or ready access to funds, is essential to financial services firms. Rodman & Renshaw, LLC (referred to as R&R), Rodman's broker-dealer subsidiary, is subject to the net capital requirements of the SEC, FINRA and various self-regulatory organizations of which it is a member. These requirements typically specify the minimum level of net capital a broker-dealer must maintain and also mandate that a significant part of its assets be kept in relatively liquid form. Any failure to comply with these net capital requirements could impair Rodman's ability to expand its business. Furthermore, there are laws that authorize regulatory bodies to block or reduce R&R's ability to distribute funds to Rodman. As a result, regulatory actions could impede Rodman's access to funds that it needs to make payments on obligations or dividend payments. In addition, because Rodman holds equity interests in its subsidiaries, its rights as an equity holder to the assets of these subsidiaries may not materialize, if at all, until the claims of the creditors of these subsidiaries are satisfied.

Rodman derives a significant portion of its revenues from the life science sector, primarily from biotechnology companies. Adverse developments or a decline in investor interest in this sector could harm its business.

In 2009 and 2008, 53% and 59%, respectively, of Rodman's revenues were derived from the life science sector. For the nine months ended September 30, 2010, 32% of Rodman's revenues were derived from the life science sector. Although this percentage may decrease over time, Rodman anticipates that the life science sector (primarily biotechnology companies) will continue to account for a large portion of its revenues in the foreseeable future. The life science sector is known for its volatility due to a number of factors including the following:

- many companies in this sector rely on a single product or class of products;
- the sector is highly regulated;
- a company's success and viability depends on the results of clinical trials, which are unpredictable;
- technological developments;
- disposition of patent applications;
- international respect of patents;
- product recalls;
- general economic conditions and political developments;
- global competition; and
- availability of insurance coverage.

Despite expansion into other sectors, Rodman's revenue and net profits will continue to be subject to the volatility of the life science sector, which could have a detrimental impact on its results of operations.

Rodman derives a significant portion of our revenues from China based companies which could be adversely affected by changes in the political and economic policies of the government of the Peoples Republic of China (PRC).

Rodman's China based revenue is principally derived from companies that are listed on, or seek listing on, a U.S. stock exchange. Under the current government leadership, the government of the PRC has been pursuing economic reform policies that encourage private economic activity, greater economic decentralization and globalization. There is no assurance, however, that the government of the PRC will continue to pursue these policies, or that it will not significantly alter these policies from time to time, with or without notice. Further, the China region and markets may experience volatility, political turmoil, uncertainty or difficult economic or market conditions that differ from those in the United States. Any of these changes could negatively impact Rodman's current business and its expansion plans within the China region which could have a negative impact on its revenues and results of operations.

Rodman's growth may depend on its ability to complete acquisitions and integrate operations of acquired businesses and personnel.

Rodman deployed a significant portion of the net proceeds of its October 2007 financing to acquire businesses and to hire additional personnel. Rodman cannot assure you that any of the transactions that it has already completed or that it may complete in the future will be successful and cannot assure you that it will realize the anticipated benefits of these transactions. In fact, these transactions may cause margin fluctuation or otherwise have a material adverse effect upon Rodman's operating results.

Achieving the benefits of acquisitions and new hiring depends on the timely, efficient and successful execution of a number of post-transaction events, including, in the case of acquisitions, integrating the acquired business, personnel, systems and operations into Rodman's business platform, operations and reporting and information systems. In the case of new hires and joint ventures, the post-transaction challenges include integrating the new people into Rodman's corporate culture and managing them properly. Rodman's

ability to integrate new businesses and new hires may be adversely affected by many factors, including the size of the business acquired, the number of and the personality of the people involved and the allocation of our limited management resources among various integration efforts. Integration and management issues may also require a disproportionate amount of our management's time and attention and distract our management from running our historical businesses.

In connection with future acquisitions, Rodman may decide to consolidate the operations of any acquired business with its existing operations or make other changes with respect to the acquired business, which could result in special charges or other expenses. Rodman's results of operations also may be adversely affected by expenses it incurs in making acquisitions and hiring new personnel. For example, in the case of acquisitions, Rodman's results of operations will be impacted by expenses, including legal and accounting fees, incurred in connection with the transaction, amortization of acquisition-related intangible assets with definite lives and by additional depreciation expense attributable to acquired assets. Any of the businesses Rodman acquires may also have liabilities or adverse operating issues, including some that Rodman fails to discover before the acquisition and the indemnity for such liabilities may be limited. Rodman's ability to make any future acquisitions may depend upon obtaining additional financing. Rodman may not be able to obtain additional financing on acceptable terms or at all. To the extent Rodman seeks to acquire other businesses in exchange for its common stock, fluctuations in its stock price could have a material adverse effect on its ability to complete acquisitions.

A principal investing platform, in which Rodman invests its own capital, will expose it to a significant risk of capital loss.

Principal investing involves numerous risks, including illiquidity, loss of invested capital and revaluation. In the past, Rodman has used a portion of its own capital in a variety of principal investment activities, including purchasing shell companies to be used in connection with future financing transactions. From time to time, Rodman also purchases securities offered in financing transactions for which it is acting as placement agent. Rodman also holds a portfolio of equity securities, including stock and warrants that it received as compensation in connection with investment banking assignments. As of September 30, 2010, Rodman had an outstanding investment commitment of \$12.9 million to Aceras BioMedical, which will use those funds to purchase promising compounds or equity securities in early stage companies in the life science and/or biotechnology sectors and its operating budget. Other principal investing activities may involve purchasing securities in other high-risk financings of early-stage, pre-public, or distressed companies. These securities are likely to be restricted as to resale and may, in any event, be highly illiquid. For example, in the case of investments in marketable securities, principal investments could be significant relative to the overall capitalization of the company in which Rodman invests. Resale of a significant amount of these securities might adversely affect their market and/or sales price. Moreover, the companies in which we invest may rely on new or developing technologies or novel business models or concentrate on markets which have not yet developed and which may never develop sufficiently to support successful operations. Even if Rodman makes an appropriate investment decision based on the intrinsic value of an enterprise, it cannot assure you that general market conditions will not cause the market value of our investments to decline. For example, an increase in interest rates, currency fluctuations, a general decline in the stock markets, or other market conditions adverse to companies of the type in which Rodman may invest could result in a decline in the value of its investments or a total loss of its investment. This could materially and adversely impact its financial results and the price of its common stock.

Rodman may also commit its own capital to facilitate client sales and trading activities. The number and size of these transactions may adversely affect its results of operations. To the extent Rodman has long positions in any of those markets, a downturn in the value of those assets or in those markets could result in losses. Conversely, to the extent Rodman has short positions in any of those markets an upturn in those markets could expose us to potentially large losses as it attempts to cover its short positions by acquiring assets in a rising market. These long and short positions and the movement of the market relative to these positions could further contribute to the fluctuations in revenues and earnings, which, in turn, could contribute to volatility in the price of Rodman's common stock.

Rodman's client base and the number of products it offers are limited. Rodman's growth rate will be impaired unless it expands its client base and increases its investment banking revenues.

Rodman derives most of its revenues from investment banking engagements, including placement agent and underwriting fees and strategic advisory fees, which also have higher profit margins than our other categories of revenue. For the years 2009 and 2008, investment banking transactions accounted for 68% and 84%, respectively, of Rodman's revenues excluding principal transactions. For the nine months ended September 30, 2010, investment banking transactions accounted for 90% of Rodman's revenues excluding principal transactions. From January 1, 2003 through September 30, 2010, Rodman's corporate finance transactions ranged from \$1.0 million to \$171.0 million.

Rodman's future growth still largely depends on its ability to generate significant placement agent and underwriting fees. To do so, Rodman must: (i) continue to build up our expertise in the life sciences, metals/mining, energy and China sectors and consider expansion into new sectors; (ii) increase the volume of corporate finance transactions in which it acts as sole or lead manager; and (iii) actively solicit engagements for larger transactions. Significant factors affecting this strategy include Rodman's relatively small size and competition from larger investment banks. Rodman cannot assure you that it will be able to compete effectively for new

investment banking engagements. If Rodman is unable to increase its investment banking revenue, its rate of growth will be adversely affected, which may cause the price of Rodman's common stock to decline.

Rodman's future success depends on its ability to continue to expand its investment banking services into sectors of the economy other than biotechnology.

For the years 2009 and 2008, investment banking revenues from companies in sectors other than biotechnology and life science were 47% and 41%, respectively, of Rodman's total investment banking revenues. For the nine months ended September 30, 2010, investment banking revenues from companies in sectors other than biotechnology and life science were 68% of Rodman's total investment banking revenues. Since Rodman did not have any particular expertise in sectors other than biotechnology prior to the second quarter of 2008, it relied, in part, on its relationships with institutional investors and private equity funds to make introductions to companies that need capital and on its own ability to identify opportunities to which it can apply its corporate finance know-how. Rodman cannot assure you that it will be able to continue to receive referrals from institutional investor sources or that its expansion into the metals/mining and energy sectors will result in additional investment banking revenues.

Rodman's revenue and profits are highly volatile, which may make it difficult for Rodman to achieve steady earnings growth on a quarterly basis and may cause the price of its common stock to decline. In addition, the investment banking sector can be highly volatile, which could adversely impact its revenues and profits.

Rodman has experienced, and expects to continue to experience, significant variations from period-to-period in its revenues and results of operations. These variations may be attributed in part to the fact that investment banking revenues, which represent the largest portion of its revenues, are typically earned when the financing or merger or acquisition transaction is consummated, the timing of which is uncertain and largely beyond its control. If a transaction fails to close, Rodman will earn little or no revenue despite the fact that it may have devoted considerable resources to, and incurred significant out-of-pocket expenses in connection with, the transaction. As a result, Rodman's business depends a great deal on market conditions as well as the decisions and actions of its clients and interested third parties. For example, a client could delay or terminate financing transactions because of a failure to agree upon final terms with the counterparty, failure to obtain necessary regulatory consents or board or stockholder approvals, adverse market conditions or because its business is experiencing unexpected operating or financial problems. In addition, many companies seeking a financing simultaneously explore a merger or sale option. Rodman's investment banking revenues would be adversely affected if companies for which it is acting as placement agent or underwriter were sold and it were not also engaged as a strategic advisor.

Market conditions and valuations for companies in the life science, metals/mining and energy sectors, as well as general market conditions, can materially affect Rodman's financial performance. The nature of Rodman's revenue generation, including the size of transactions, the timing of transaction closings and the sectors in which those transactions occur, make Rodman's future performance difficult to predict and potentially highly variable. Revenues for many of the services Rodman provides are earned only upon the successful completion of a transaction. Accordingly, revenues and net income in any period may not be indicative of full-year results or the results of any other period and may vary significantly from year-to-year and quarter-to-quarter depending on whether and when transactions are completed and the number, size and type of transactions completed. In particular, recent volatility in the capital markets may lead to disruptions that delay or eliminate revenue opportunities.

Rodman's results may be adversely affected in future periods by the volatility of financial instruments in its portfolio.

Rodman may engage in large block trades in a single security or maintain large position concentrations in a single security or warrant, securities or warrants of a single issuer, or securities or warrants of issuers engaged in a specific industry. Any downward price movement in these securities or warrants could result in a reduction of Rodman's revenues and profits in the future.

Rodman's corporate finance and strategic advisory engagements are singular in nature and do not generally provide for subsequent engagements.

Rodman's investment banking engagements are usually transaction specific as opposed to long-term engagements. As such, Rodman must continually seek new engagements even from companies to which it provided services in the past. For this reason, Rodman believes it is important to nurture strong relationships with its clients. Although Rodman has been successful in securing repeat engagements from clients in the past, we cannot assure you that this trend will continue. As a result, high activity levels in any period are not necessarily indicative of continued high levels of activity in any subsequent period. If Rodman is unable to generate a substantial number of new engagements that generate fees from new or existing clients, its business, results of operations and financial condition could be adversely affected.

Rodman depends on the services of a limited number of key executives and the loss of their services would have a material adverse effect on its business, operations and financial condition.

Rodman depends on the efforts and reputations of Michael Vasinkevich, its Vice Chairman, Edward Rubin, its Chief Executive Officer and President, and John J. Borer III, its Head of Investment Banking. Their reputations and relationships with clients and potential clients are critical elements in expanding its business, and Rodman's historical and future performance is believed to be strongly correlated to their involvement to date and their continued involvement in Rodman's operations. The loss or reduction of the services of any of Messrs. Vasinkevich, Rubin and/or Borer, due to death, disability, termination of employment or regulatory restriction, could have a material adverse effect on Rodman's operations, including its ability to attract new company clients and to raise capital from institutional investors.

The investment banking industry is highly competitive. If Rodman fails to address the challenges posed by this competition, it could lose its leading position in these areas, causing its operating results to suffer.

The investment banking industry is intensely competitive, particularly in those areas in which Rodman specializes (*i.e.*, biotechnology and life science, metals/mining and energy, and PIPE and RD transactions), and is expected to remain so for the foreseeable future. Rodman has experienced intense price competition in its various businesses. Pricing and other competitive pressures in investment banking, including the trends toward multiple book runners, co-managers and multiple financial advisors handling transactions, could adversely affect its revenues, even as the size and number of its investment banking transactions may increase. Many of Rodman's competitors are larger, have greater financial and other resources and longer operating histories than Rodman, giving them a significant competitive advantage. Rodman's principal competitors include Canaccord Adams, Inc., Cowen Group, Inc., Jefferies Group, Inc., JMP Group, Inc., Ladenburg Thalmann Financial Services, Inc., Lazard Ltd., Leerink Swann & Co., Maxim Group, Inc., Oppenheimer & Co., Inc., Piper Jaffray Companies, Roth Capital Partners, LLC, and Stifel Financial Corp. (as a result of its acquisition in May 2010 of Thomas Weisel Partners Group, Inc.). If Rodman expands its business into new sectors and new business lines, it will face competition from other firms as well. Rodman competes on the basis of a number of factors, including the scope and quality of services, price, market focus and industry knowledge, client relationships and reputation. Larger firms provide a broader range of investment banking services to their clients than Rodman does. If Rodman does not address these competitive factors successfully, it may not be able to execute its strategy or even maintain its existing market share. In either case, Rodman's operating results would suffer as would the price of its common stock.

Rodman will likely face competition from larger investment banking firms. In order to compete with them, Rodman may have to increase its operating expenses significantly and/or make larger commitments of capital in its trading and underwriting business. This increases the potential for capital loss, which could adversely impact Rodman's operating results.

Rodman is a relatively small investment bank. Historically it has tried to avoid competing with larger investment banks. However, Rodman expects this to change as we pursue investment banking opportunities with larger companies and engagements for larger transactions. Larger investment banks not only offer a broader range of products and services than Rodman, as compared to Rodman they also have significantly greater financial and marketing resources, greater name recognition, more senior professionals to serve their clients' needs, greater global reach and may have more established relationships with clients. Thus, they are better able to respond to changes in the investment banking industry, compete for skilled professionals, finance acquisitions, fund internal growth and compete for market share.

In addition, financial services firms have begun to make larger and more frequent commitments of capital in many of their activities. In order to win business, they are increasingly committing to purchase large blocks of stock from publicly traded issuers or significant stockholders, instead of the more traditional marketed underwriting process in which marketing is typically completed before an investment bank commits to purchase securities for resale. They are willing to provide debt financing out of internal funds, often giving them a significant competitive advantage. Because Rodman does not have the resources to match these investment banking firms, it may be unable to compete as effectively for larger clients and larger transactions. In that case, Rodman may not be able to execute that part of its strategy, which could have an adverse impact on its operations and financial condition.

Rodman's ability to retain our senior professionals and recruit additional professionals is critical to its strategy and its failure to do so may adversely affect its reputation, business, results of operations and financial condition.

Rodman's ability to obtain and successfully execute the transactions that generate a significant portion of its revenues depends upon the reputation, judgment, business generation capabilities and project execution skills of its senior professionals. The reputations of its senior professionals and their relationships with its clients are a critical element in obtaining and executing client engagements. Accordingly, retaining these particular employees is critical to Rodman's future success and growth. In addition, Rodman may add investment bankers and other financial professionals. However, turnover in the investment banking industry is high and Rodman encounters intense competition for qualified employees from other companies in the investment banking industry as well as from businesses outside the investment banking industry, such as hedge funds and private equity funds. Rodman has experienced departures

of investment banking and other professionals in the past and losses of key employees may occur in the future. As a result of such departures, Rodman may not be able to retain valuable relationships and some of its clients could choose to use the services of a competitor. We cannot assure you that Rodman's efforts to recruit and retain the required personnel will be successful as the market for qualified financial professionals is extremely competitive. Similarly, we cannot assure you that Rodman's compensation arrangements and non-competition and non-solicitation agreements with its key employees are broad or effective enough to deter or prevent employees from resigning, joining or forming competitors or soliciting Rodman's clients. Further, we cannot assure you that Rodman could successfully enforce our rights under those agreements. If Rodman is unable to retain its senior professionals and/or recruit additional professionals, its reputation, business, results of operations and financial condition will be adversely affected.

Rodman's compensation policy may adversely affect its ability to recruit, retain and motivate our senior managing directors and other key employees, which in turn could adversely affect its ability to compete effectively and to grow its business.

Rodman's target for total compensation and benefits expense is currently 55% to 60% of total consolidated revenues. This target includes equity, equity-based incentives, amortization of forgivable loans and other non-cash employee benefits. Rodman's reliance on equity and equity-based incentives for a significant portion of the compensation package it pays to its senior executives may not be effective, especially if the market price of its common stock declines. This compensation policy could adversely impact the overall compensation its key employees, including its senior executive officers and managing directors, may receive. Rodman's senior executives and managing directors may receive less compensation under this formula than they otherwise would receive at other firms, which would make it more difficult for Rodman to retain its key employees, including its senior executives and managing directors, and attract new key employees.

If Rodman is unable to manage its growth successfully, it may not be able to sustain profitability. Continued growth may place significant demands on Rodman's operational, administrative and financial resources.

Rodman's rapid growth has caused, and if it continues, will continue to cause, significant demands on its operational, administrative and financial infrastructure and increase its expenses. If Rodman does not effectively manage its growth, the quality of its services could suffer, which would adversely affect its operating results and reputation. If Rodman continues to grow, it will have to hire, train and manage a larger work force and improve its financial and management controls and reporting systems and procedures. These systems enhancements and improvements will require significant capital expenditures and allocation of valuable management resources. If the improvements are not implemented successfully, Rodman's ability to manage its growth will be impaired and it may incur significant additional expenditures to address these issues, further impairing our financial condition and profitability. We cannot assure you that Rodman will be able to manage growth effectively and any failure to do so could adversely affect its ability to generate revenues and control expenses.

Rodman's risk management policies and procedures may leave it exposed to unidentified or unanticipated risks.

Rodman's risk management strategies and techniques may not be fully effective in mitigating its risk exposure in all market environments or against all types of risk. Rodman is exposed to the risk that third parties that owe Rodman money, securities or other assets will not perform their obligations. These parties may default on their obligations to us due to bankruptcy, lack of liquidity, operational failure, and breach of contract or other reasons. Rodman is also subject to the risk that its rights against third parties may not be enforceable in all circumstances, and, as a result, default risks may arise from events or circumstances that are difficult to detect, foresee or reasonably guard against. In addition, concerns about, or a default by, one institution could lead to significant liquidity problems, losses or defaults by other institutions, which, in turn, could adversely affect Rodman. If any of the variety of processes and strategies Rodman utilizes to manage its exposure to various types of risk are not effective, Rodman may incur losses.

Rodman's operations and infrastructure and those of the service providers upon which it relies may malfunction or fail.

Rodman outsources various aspects of its technology infrastructure, including data centers, disaster recovery systems, and wide area networks, as well as most trading applications. Rodman depends on its technology providers to manage and monitor those functions. A disruption of any of the outsourced services would be out of its control and could negatively impact its business. Rodman has experienced disruptions on occasion, none of which has been material to its operations or results. However, we cannot assure you that future disruptions with these providers will not occur or that their impact would not be material.

Rodman also faces the risk of operational failure or termination of relations with any of the clearing agents, exchanges, clearing houses or other financial intermediaries it uses to facilitate securities transactions. Any such failure or termination could adversely affect Rodman's ability to effect transactions and to manage its exposure to risk.

In addition, Rodman's ability to conduct business may be adversely impacted by a disruption in the infrastructure, including electrical, communications, transportation and other services, that support its businesses and the area in which it is located. This may affect, among other things, Rodman's financial, accounting or other data processing systems. Nearly all of Rodman's employees work in close proximity to each other. Although Rodman has a formal disaster recovery plan in place, if a disruption occurs and its

employees are unable to communicate with or travel to other locations, Rodman's ability to service and interact with its clients may suffer, and it may not be able to implement contingency plans that depend on communication or travel.

Rodman's operations also rely on the secure processing, storage and transmission of confidential and other information in its computer systems and networks. Although Rodman takes protective measures and endeavors to modify them as circumstances warrant, its computer systems, software and networks may be vulnerable to unauthorized access, computer viruses or other malicious code and other events that could have an adverse impact on their integrity and/or viability. If one or more of such events occur, this could jeopardize Rodman's or its clients' or counterparties' confidential and other information processed and stored in, and transmitted through, Rodman's computer systems and networks, or otherwise cause interruptions or malfunctions in Rodman's, its clients', our counterparties' or third parties' operations. Rodman may be required to expend significant additional resources to modify its protective measures, to investigate and remediate vulnerabilities or other exposures or to make required notifications, and it may be subject to litigation and financial losses that are either not insured or not fully covered through any insurance that it maintains.

Rodman may be required to make substantial payments under certain indemnification agreements.

In connection with its conversion from a limited liability company to a corporation, Rodman entered into agreements that provide for it to indemnify its former members against certain tax liabilities relating to periods before such conversion. If Rodman is required to make payments under these indemnification agreements, its financial condition could be adversely affected.

Difficult market conditions can adversely affect Rodman's business in many ways, which could materially reduce its revenue and/or income.

Rodman's business, operating results and financial condition has been materially and adversely affected by adverse conditions in the global financial markets and adverse economic conditions throughout the world since the third quarter of 2007. 2008 was particularly difficult, marked by the failure or near failure of a number of large and prestigious firms in the financial services industry. Although market conditions improved in 2009 and the U.S. economy has begun to recover, Rodman cannot predict the timing, length or extent of any economic recovery. Rodman has no control over the political events and the global and local economic developments that influence market conditions and dynamics.

Rodman's revenues are directly related to the volume and value of investment banking transactions in which it is involved. During periods of unfavorable market or economic conditions, such as those that existed throughout 2008, the first quarter of 2009 and the second and third quarters of 2010, the volume and size of these transactions decreased, reducing the demand for Rodman's services and increasing price competition among financial services companies seeking those engagements. In addition, weakness in equity markets and diminished trading volume of securities adversely impacted Rodman's sales and trading business. Finally, the general decline in the value of securities adversely impacted Rodman's investment portfolio. The impact of these factors was exacerbated by Rodman's fixed costs and its inability to scale back other costs within a time frame sufficient to match any decreases in revenue relating to market and economic conditions.

Significantly expanded corporate governance and public disclosure requirements may result in fewer public offerings and discourage companies from engaging in capital market transactions, which may reduce the number of investment banking opportunities available for Rodman to pursue.

Highly-publicized financial scandals in recent years have led to investor concerns over the integrity of the U.S. financial markets, and have prompted the U.S. Congress, the SEC, NYSE and NASDAQ to significantly expand corporate governance and public disclosure requirements. To the extent that private companies, in order to avoid becoming subject to these new requirements, decide to forego public offerings or elect to be listed on foreign markets, Rodman's underwriting business may be adversely affected. In addition, provisions of the Sarbanes-Oxley law and the corporate governance rules imposed by self-regulatory organizations and stock exchanges have diverted the attention of many companies away from capital market transactions, including securities offerings and acquisition and disposition transactions. In particular, companies that either are or are planning to become public companies are incurring significant expenses in complying with the SEC reporting requirements relating to internal controls over financial reporting, and companies that disclose material weaknesses in such controls under the new standards may have greater difficulty accessing the capital markets. These factors, in addition to adopted or proposed accounting and disclosure changes, may have an adverse effect on Rodman's business.

Financial services firms have been subject to increased scrutiny over the last several years, increasing the risk of financial liability and reputational harm resulting from adverse regulatory actions.

The financial services industry has experienced increased scrutiny from a variety of regulators, including the SEC, the NYSE, NASDAQ, FINRA and state attorney generals. This regulatory and enforcement environment has created uncertainty with respect to a number of transactions that had historically been entered into by financial services firms and that were generally believed to be permissible and appropriate. Rodman may be adversely affected by changes in the interpretation or enforcement of existing laws and

rules by these governmental authorities and self-regulatory organizations. Each of the regulatory bodies with jurisdiction over Rodman has regulatory powers dealing with many aspects of financial services, including, but not limited to, the authority to impose fines and to grant, cancel, restrict or otherwise impose conditions on the right to carry on particular businesses. For example, a failure to comply with the obligations imposed by the Exchange Act on broker-dealers and the Investment Advisers Act on investment advisers, including record-keeping, advertising and operating requirements, disclosure obligations and prohibitions on fraudulent activities, or by the Investment Company Act of 1940, could result in investigations, sanctions and reputational damage. Rodman also may be adversely affected as a result of new or revised legislation or regulations imposed by the SEC, other U.S. or foreign governmental regulatory authorities, FINRA or other self-regulatory organizations that supervise the financial markets. Substantial legal liability or significant regulatory action against Rodman could have adverse financial effects on Rodman or harm its reputation, which could harm Rodman's business prospects.

Financial services firms are subject to numerous conflicts of interests or perceived conflicts. The SEC and other federal and state regulators have increased their scrutiny of potential conflicts of interest. Rodman has adopted, and regularly reviews and updates, various policies, controls and procedures to address or limit actual or perceived conflicts. However, appropriately addressing conflicts of interest is complex and difficult and Rodman's reputation could be damaged if we fail, or appear to fail, to appropriately address conflicts of interest. Rodman's policies and procedures to address or limit actual or perceived conflicts may also result in increased costs and additional operational personnel. Failure to adhere to these policies and procedures may result in regulatory sanctions or litigation against Rodman. For example, the research operations of investment banks have been and remain the subject of heightened regulatory scrutiny which has led to increased restrictions on the interaction between equity research analysts and investment banking professionals at securities firms. A number of securities firms in the United States reached a global settlement in 2003 and 2004 with certain federal and state securities regulators and self-regulatory organizations to resolve investigations into the alleged conflicts of interest of research analysts, which resulted in rules that have imposed additional costs and limitations on the conduct of Rodman's business.

PIPE transactions have been subject to intense regulatory scrutiny over the last few years. To the extent the investor interest is reduced as a result, Rodman's business will be adversely affected.

A significant factor in Rodman's growth to date has been its leading position as placement agent in PIPE transactions. These transactions usually can be accomplished in less time and at less cost than registered public offerings. Various regulatory and governmental agencies, including the SEC, have been reviewing PIPE transactions. Periodically, Rodman receives requests for information from the SEC and other regulatory and governmental agencies regarding PIPEs in general or regarding specific transactions. In most cases, these communications include a request for copies of transaction documents. Rodman always complies with these requests. If the SEC or any other regulatory agency promulgates regulations that make it more difficult or expensive to consummate PIPE transactions, investors and issuers may prefer other financing strategies, such as registered public offerings. Since underwriting registered public offerings has not historically been a significant source of revenue for Rodman, any decline in the number of PIPE transactions could have a material adverse impact on Rodman's business, operations and financial condition, which may cause the price of Rodman's common stock to decline.

Rodman's exposure to legal liability is significant, and damages and other costs that it may be required to pay in connection with litigation and regulatory inquiries, and the reputational harm that could result from legal action against, could adversely affect its businesses.

Rodman faces significant legal risks in its businesses and, in recent years, the volume of claims and amount of damages sought in litigation and regulatory proceedings against financial institutions have been significant. These risks include potential liability under securities or other laws for materially false or misleading statements made in connection with securities offerings and other transactions, employment claims, potential liability for fairness opinions and other advice Rodman provides to participants in strategic transactions and disputes over the terms and conditions of complex trading arrangements.

As an investment banking firm, Rodman depends, to a large extent, on its reputation for integrity and professionalism to attract and retain clients. Moreover, Rodman's role as advisor to its clients on important underwriting or mergers and acquisitions transactions involves complex analysis and the exercise of professional judgment, including rendering fairness opinions in connection with mergers and acquisitions and other transactions. Therefore, Rodman's activities may subject it to the risk of significant legal liabilities to its clients and aggrieved third parties, including its clients' stockholders who could bring securities class action suits against Rodman. Rodman's investment banking engagements typically include broad indemnities from its clients and provisions to limit its exposure to legal claims relating to its services. However, Rodman cannot be certain, and cannot assure anyone, that these provisions will protect us or be enforceable in all cases. As a result, Rodman may incur significant legal and other expenses in defending against litigation and may be required to pay substantial damages for settlements and adverse judgments. Substantial legal liability or significant regulatory action against Rodman could harm its results of operations or reputation, which could adversely affect its business and prospects.

Employee misconduct, which is difficult to detect and deter, could impair Rodman's ability to attract and retain clients and subjecting Rodman to significant legal liability and reputational harm.

Over the past number of years, there have been a number of highly-publicized cases involving fraud or other misconduct by employees in the financial services industry, and there is a risk that Rodman's employees could engage in misconduct that adversely affects its business. For example, Rodman often deals with confidential matters of great significance to its clients. If Rodman employees were to improperly use or disclose confidential information provided by its clients, Rodman could be subject to regulatory sanctions and suffer serious harm to its reputation, financial position, current client relationships and ability to attract future clients. The violation of these obligations and standards by any of Rodman's employees would adversely affect us as well. It is not always possible to deter employee misconduct, and the precautions Rodman takes to detect and prevent this activity may not be effective in all cases. If Rodman employees engage in misconduct, Rodman's business could be adversely affected.

Risks Related to Rodman's Common Stock

We cannot assure you that an active trading market for Rodman's common stock will continue. Any decrease in trading volume could make it more difficult for you to liquidate your position in a timely fashion.

Since October 16, 2007, Rodman's common stock has been listed on the NASDAQ Global Market, trading under the symbol RODM . Since then, there have been periods when Rodman's stock was thinly traded. We cannot assure you that an established and liquid trading market for Rodman's stock will continue. Accordingly, investors should consider the potential lack of liquidity and the long-term nature of an investment in Rodman's common stock prior to investing.

The market price of Rodman's common stock may be volatile.

Since October 16, 2007, the day Rodman's stock commenced trading on the NASDAQ Global Market, through January 14, 2011, the closing sales price of Rodman's common stock has fluctuated from \$6.35 to \$0.19. This wide range could be attributable to a number of factors including one or more of the following:

- actual or anticipated fluctuations in our financial condition or results of operations;
- the success or failure of Rodman's operating strategies and our perceived prospects and those of the financial services industry in general;
- realization of any of the risks described in this section;
- failure to be covered by securities analysts or failure to meet the expectations of securities analysts;
- a decline in the stock prices of peer companies; and
- a discount in the trading multiple of Rodman's common stock relative to that of common stock of certain of Rodman's peer companies due to perceived risks associated with Rodman's smaller size.

As a result, shares of Rodman common stock may trade at prices significantly below the price at the time of the Merger. Furthermore, declines in the price of Rodman common stock may adversely affect our ability to conduct future offerings or to recruit and retain key employees, including managing directors and other key professional employees.

If securities analysts do not publish research or reports or if they downgrade Rodman or the sectors in which it operates, the price of Rodman common stock could decline.

The trading market for Rodman common stock may depend, in part, on research and reports that industry or financial analysts publish about Rodman or the financial services or investment banking industries. Negative reports about us or the financial services or investment banking industries could have an adverse impact on the price of Rodman's stock. In addition, while the financial services and investment banking industries receive extensive coverage, Rodman's stock only receives limited coverage, which may also adversely impact liquidity. Given the limited coverage of Rodman's stock, one negative report could have a disproportionate impact on the price of Rodman's stock.

Provisions contained in Rodman's organizational documents may discourage an acquisition of Rodman, which could adversely impact the price of Rodman common stock.

Rodman's organizational documents contain provisions that may impede the removal of directors and may discourage a third party from making a proposal to acquire Rodman. Rodman's board of directors has the ability to take defensive measures that could impede or thwart a takeover such as, under certain circumstances, adopting a poison pill or causing Rodman to issue preferred stock that has greater voting rights than Rodman's common stock. If a change of control or change in management that Rodman's

stockholders might otherwise consider to be favorable is prevented or delayed, the market price of Rodman's common stock could decline.

Rodman is controlled by a limited number of stockholders whose interests may differ from those of its other stockholders.

Immediately after the Merger, Rodman's largest stockholder, Paul Revere, LLC (Revere), will own approximately 35.3% of Rodman's outstanding common stock. Revere is owned one-third by Edward Rubin, Rodman's Chief Executive Officer and President, and a trust for the benefit of certain members of his family, and two-thirds by a trust, the beneficiaries of which are the wife and children of Michael Vasinkevich, Rodman's Vice Chairman. In addition, Rodman's directors and other senior executive officers collectively will own approximately 18.2% of Rodman's common stock immediately after the Merger, excluding any shares owned by Revere. As a result, Rodman's public stockholders, which will include the former holders of Hudson's common stock, have limited influence over the election of directors, management, company policies or major corporate decisions that require the consent of stockholders owning a majority of Rodman's issued and outstanding shares of common stock, such as mergers, consolidations and the sale of all or substantially all of Rodman's assets. This could adversely impact the market value of Rodman's common stock.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This proxy statement/prospectus contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks, uncertainties and assumptions, that, if they never materialize or if they prove incorrect, could cause the actual results of Rodman and its consolidated subsidiaries, Hudson and its consolidated subsidiaries, or the combined company, to differ materially from those expressed or implied by such forward-looking statements. All statements other than statements of historical fact are statements that could be deemed forward-looking statements, including, but not limited to, statements about: future financial and operating results; Rodman's, Hudson's and the combined company's plans, objectives, strategies, expectations and intentions; products and operations; Rodman's and Hudson's expectations with respect to the synergies, costs and charges, capitalization and anticipated financial impacts of the Merger and related transactions; benefits of the transaction to customers, stockholders and employees; the expected tax treatment of the transaction; approval and adoption of the Merger Agreement and approval of the Merger by Hudson stockholders; the satisfaction of the closing conditions to the Merger; the timing of the completion of the Merger; future economic conditions or performance; statements of belief; and any statements of assumptions underlying any of the foregoing.

When used in this proxy statement/prospectus (including the annexed documents, which are incorporated by reference into this proxy statement/prospectus), words such as may, might, should, expects, anticipates, believes, estimates, intends, plans, seeks, will, projects, predicts, continues and similar expressions or the negatives of these terms and other comparable terminology help to identify these forward-looking statements.

Most of the risks, uncertainties and assumptions referred to above are outside Rodman's and Hudson's control and are difficult to predict. Factors that may cause such differences include, but are not limited to:

those discussed and identified in public filings with the SEC made by Rodman or Hudson;

the inability to close the Merger in a timely manner;

the inability to complete the Merger due to the failure to obtain stockholder approval and adoption of the Merger Agreement and approval of the Merger or the failure to satisfy other conditions to completion of the Merger, including required regulatory approvals;

the failure of the transaction to close for any other reason;

the possibility that the integration of Hudson's business and operations with those of Rodman may be more difficult and/or take longer than anticipated, may be more costly than anticipated and may have unanticipated adverse results relating to Hudson's or Rodman's existing businesses;

the challenges of integrating and retaining key employees;

the effect of the announcement of the transaction on Rodman's, Hudson's or the combined company's respective business relationships, operating results and business generally;

the possibility that the anticipated synergies and cost savings of the Merger will not be realized, or will not be realized within the expected time period;

the possibility that the Merger may be more expensive to complete than anticipated, including as a result of unexpected factors or events;

the challenges of maintaining and increasing revenues on a combined company basis following the close of the Merger;

diversion of management's attention from ongoing business concerns;

general competitive, economic, political and market conditions and fluctuations;

actions taken or conditions imposed by the United States or foreign governments;

adverse outcomes of pending or threatened litigation or government investigations; and

the impact of competition in the industries and in the specific markets in which Rodman and Hudson, respectively, operate.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

The foregoing list is not exclusive. Additional information concerning these and other risks is discussed under the caption entitled "Risk Factors" beginning on page __. All forward-looking statements included in this proxy statement/prospectus and all subsequent written and oral forward-looking statements concerning Rodman, Hudson, the Meeting, the Merger, the related transactions or other matters attributable to Rodman or Hudson, or any person acting on their behalf, are expressly qualified in their entirety by the cautionary statements above. These forward-looking statements speak only as of the date on which the statements were made and Rodman and Hudson expressly disclaim any obligation to release publicly any updates or revisions to any forward-looking statement included in this proxy statement/prospectus or elsewhere, whether written or oral, relating to the matters discussed in this proxy statement/prospectus.

COMPARATIVE HISTORICAL AND UNAUDITED PRO FORMA PER SHARE DATA

The following table sets forth, for the nine months ended September 30, 2010 and the year ended December 31, 2009, selected per share information for Rodman common stock on a historical and pro forma combined basis and for Hudson common stock on a historical and pro forma equivalent basis. Except for the historical information as of and for the year ended December 31, 2009, the information provided in the table below is unaudited. The pro forma information provided in the table below is for informational purposes only and is not necessarily an indication of the results that would have been achieved had the transaction been completed as of the dates indicated or that may be achieved in the future. You should read the data provided below with the historical consolidated financial statements and related notes of Rodman for the year ended December 31, 2009 and for the three and nine month periods ended September 30, 2010 included elsewhere in this proxy statement/prospectus and in Rodman's Annual Report on Form 10-K for the year ended December 31, 2009 and Quarterly Report on Form 10-Q for the period ended September 30, 2010 filed with the SEC, and of Hudson for its year ended March 31, 2010 and for the three and six month periods ended September 30, 2010 included elsewhere in this proxy statement/prospectus and in Hudson's Annual Report on Form 10-K for the year ended March 31, 2010 and Quarterly Report on Form 10-Q for the period ended September 30, 2010 filed with the SEC. For further information, please see the section titled "Where To Find More Information" beginning on page _____. You should also read the section titled "Unaudited Pro Forma Condensed Combined Financial Information" beginning on page ____.

The Hudson pro forma equivalent per share amounts are calculated by multiplying each Rodman pro forma combined per share amount by the Exchange Ratio.

Pro Forma Per Share Data:

	Nine Months Ended 30-Sep-10	Year Ended 31-Dec-09
Rodman historical data:		
Loss per basic share	\$ (0.19)	\$ 0.77
Loss per diluted share	(0.19)	0.73
Net book value per share	1.55	1.79
Hudson historical data:		
Loss per basic share	(0.09)	(0.14)
Loss per diluted share	(0.09)	(0.14)
Net book value per share	0.14	0.22
Pro forma combined data:		
Loss per basic share	(0.33)	0.53
Loss per diluted share	(0.33)	0.51
Net book value per share	1.63	1.95
Pro forma combined equivalent data:		
Loss per basic share	(0.01)	0.02
Loss per diluted share	(0.01)	0.02
Net book value per share	0.06	0.07

COMPARATIVE PER SHARE MARKET PRICE DATA

Rodman common stock trades on the NASDAQ Global Market under the symbol RODM. Hudson common stock is quoted on the OTC Bulletin Board under the symbol HDHL.OB.

The following table shows, for the calendar quarters indicated, the high and low sale prices per share, adjusted for stock splits and the like, for Rodman common stock as reported on the NASDAQ Global Market and the high and low bid and asked prices for Hudson common stock as quoted on the OTC Bulletin Board. OTCBB prices reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions.

Historical Prices:

Calendar Year	Rodman Common Stock		Hudson Common Stock	
	High	Low	High	Low
2010				
First Quarter	\$ 5.53	\$ 3.91	\$ 0.44	\$ 0.19
Second Quarter	4.62	2.50	0.22	0.13
Third Quarter	3.10	1.99	0.18	0.07
Fourth Quarter	3.28	2.06	0.12	0.06
2009				
First Quarter	1.10	0.19	0.35	0.06
Second Quarter	1.04	0.29	0.65	0.25
Third Quarter	6.35	0.98	0.42	0.20
Fourth Quarter	6.16	3.22	0.35	0.16

The following table sets forth the high, low and closing prices for Rodman common stock as reported on the NASDAQ Global Market and the high and low bid and asked prices for Hudson common stock as quoted on the OTC Bulletin Board, on January 4, 2011, the last trading day before Rodman and Hudson announced the Merger, and _____, 2011, the last full trading day for which prices were available as of the date of this proxy statement/prospectus. The table also includes the value of Hudson common stock on an equivalent price per share basis, as determined by reference to the value of Merger Consideration to be received in respect of each share of Hudson common stock in the Merger. These equivalent prices per share reflect the fluctuating value of the Rodman common stock that Hudson stockholders would receive in exchange for each share of Hudson common stock if the Merger was completed on either of these dates, applying the Exchange Ratio of 0.0338 shares of Rodman common stock for each share of Hudson common stock.

	Rodman Common Stock			Hudson Common Stock			Equivalent Value of Hudson Common Stock		
	High	Low	Close	High	Low	Close	High	Low	Close
January 4, 2011	\$ 2.72	\$ 2.68	\$ 2.69	\$ 0.11	\$ 0.10	\$ 0.10	\$ 0.09	\$ 0.09	\$ 0.09
_____, 2011	\$	\$	\$	\$	\$	\$	\$	\$	\$

The above table shows only historical comparisons. These comparisons may not provide meaningful information to Hudson stockholders in determining whether to adopt the Merger Agreement. Hudson stockholders are urged to obtain current market quotations for Rodman and Hudson common stock and to review carefully the other information contained in this proxy statement/prospectus, when considering whether to adopt the Merger Agreement. See [Where You Can Find Additional Information](#) beginning on page ____.

As of January 20, 2011, there were approximately 159 holders of record of Hudson common stock. As of January 27, 2011, there were approximately 260 holders of record of Rodman common stock.

Dividend Data

Hudson has never declared or paid a cash dividend on its common stock. Rodman has never declared or paid a cash dividend on its common stock. Rodman currently intends to retain any future earnings to fund the growth and development of its business and does not anticipate paying any cash dividends in the foreseeable future.

THE HUDSON HOLDING CORPORATION SPECIAL MEETING

Date, Time and Place; Attending the Meeting

The Meeting will take place on _____, 2011, at 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310, commencing at 10:00 a.m., Eastern Daylight Time. Check in will begin at 9:30 a.m., Eastern Daylight Time, and you should allow ample time for check-in procedures.

You are entitled to attend the Meeting only if you were a Hudson stockholder as of the close of business on _____, 2011, the Record Date, or hold a valid proxy for the Meeting. You should be prepared to present photo identification for admittance. In addition, if you are a stockholder of record, your name is subject to verification against the list of stockholders of record on the Record Date prior to being admitted to the meeting. If you are not a stockholder of record but hold shares through a broker or nominee, you should be prepared to provide proof of beneficial ownership on the Record Date, such as your most recent account statement or similar evidence of ownership. If you do not provide photo identification or comply with the other procedures outlined above upon request, you will not be admitted to the Meeting.

Matters to be Considered

At the Meeting, Hudson stockholders will be asked to vote on the following proposals:

to approve and adopt the Merger Agreement and approve the Merger;

to approve the adjournment of the Meeting, if necessary, for any purpose, including to solicit additional proxies if there are not sufficient votes to approve and adopt the Merger Agreement and approve the Merger at the time of the Meeting; and

to conduct any other business that properly comes before the Meeting or any adjournment or postponement of the Meeting.

A copy of the Merger Agreement is attached to this proxy statement/prospectus as Annex A. You are encouraged to read the Merger Agreement and the other information contained in this proxy statement/prospectus (including the annexed documents which are incorporated by reference into this proxy statement/prospectus) carefully before deciding how to vote.

Record Date; Stock Entitled to Vote

You are entitled to vote only if you were a Hudson stockholder of record as of the close of business on the Record Date. Each share of Hudson common stock is entitled to one vote for each matter to be voted on. On _____, 2011, there were _____ shares of Hudson common stock outstanding held by approximately ____ stockholders of record.

Quorum

The holders of shares entitled to cast a majority of the total votes of the outstanding shares of Hudson common stock on the Record Date, present in person or represented by proxy at the Meeting and entitled to vote, will constitute a quorum for the transaction of business at the Meeting. Withheld votes, abstentions and broker non-votes are counted for purposes of determining the presence or absence of a quorum.

Vote Required

The following are the vote requirements for the various proposals:

Approval and Adoption of the Merger Agreement and Approval of the Merger: You may vote FOR, AGAINST or ABSTAIN with respect to the approval and adoption of the Merger Agreement and approval of the Merger. To approve and adopt the Merger Agreement and approve the Merger, the holders of a majority of the voting power of the outstanding shares of Hudson common stock must vote FOR the approval and adoption of the Merger Agreement and the approval of the Merger. **Because approval is based on the affirmative vote of a majority of the combined voting power of the shares outstanding, your failure to vote or an abstention will have the same effect as a vote against approval and adoption of the Merger Agreement and against approval of the Merger.**

All Other Matters: You may vote FOR, AGAINST or ABSTAIN with respect to all other matters at the Meeting. The holders of a majority of the voting power present in person or represented by proxy at the Meeting must vote FOR the approval of each other matter for it to pass. Abstentions will have the same effect as voting against the proposal to approve such other matter. **Because approval is based on the affirmative vote of the combined voting power of all shares present in person or by proxy, your failure to vote or an abstention will have the same effect as a vote against the adjournment of the Meeting.**

Abstentions

Abstentions are counted as present and entitled to vote for purposes of determining a quorum. Abstentions have the same effect as a vote against each proposal.

Voting of Proxies by Holders of Record

If your shares are registered directly in your name with Hudson's transfer agent, you are considered the stockholder of record with respect to those shares and this proxy statement/prospectus is being sent directly to you by Hudson. As a stockholder of record, you have the right to grant your proxy directly to Hudson or any other person or to vote in person at the Meeting. Hudson has enclosed a proxy card for your use. As a stockholder of record, you may submit a proxy for your shares in writing by simply filling out, signing and dating your proxy card and mailing it in the prepaid envelope included with this proxy statement/prospectus. You will need to follow the instructions when you submit a proxy using any of these methods to make sure your shares will be voted at the meeting.

If you hold shares through a broker or other nominee, you may instruct your broker or other nominee to vote your shares by following the instructions that the broker or nominee provides to you with these materials. See *Shares Held in Street Name* below.

You also may vote by submitting a ballot in person if you attend the Meeting. However, we encourage you to submit a proxy by mail by completing your proxy card, even if you plan to attend the Meeting. You will also need to present photo identification and comply with the other procedures described above in *Date, Time and Place; Attending the Meeting* above. Giving a proxy will not affect your right to vote your Hudson shares if you attend the Meeting and want to vote in person.

Your vote is important. Accordingly, please submit your proxy by mail, whether or not you plan to attend the Meeting in person. Proxies must be received by 11:59 p.m., Eastern Daylight Time, on _____, 2011.

Shares Held in Street Name

If your shares are held in a brokerage account, bank account or by another nominee, you are considered the beneficial owner of shares held in *street name*, and this proxy statement/prospectus is being forwarded to you by your broker, bank or nominee together with a voting instruction card. As the beneficial owner, you have the right to direct your broker, bank or other nominee how to vote and are also invited to attend the Meeting. However, because you are not the stockholder of record, you may not vote your shares in person at the Meeting unless you obtain a legal proxy from the broker, bank or nominee that holds your shares, giving you the right to vote the shares instead of the broker, bank or nominee holding your shares. Your broker, bank or nominee has enclosed voting instructions for your use in directing your broker, bank or nominee how to vote your shares.

If you do not provide voting instructions to your broker, your shares will not be voted on any proposal on which your broker does not have discretionary authority to vote. This is called a broker non-vote. In these cases, the broker can register your shares as being present at the meeting for purposes of determining the presence of a quorum but will not be able to vote on those matters for which specific authorization is required. Under the current rules of the NYSE, we believe that brokers do not have discretionary authority to vote on the proposal to approve and adopt the Merger Agreement. Accordingly, a broker non-vote will have the same effect as a vote against approval and adoption of the Merger Agreement and approval of the Merger.

Revocability of Proxies

A proxy submitted by proxy card may be revoked before the vote is cast by the designated proxy by (i) giving written notice to our Secretary and General Counsel at 111 Town Square Place, Suite 1500A, Jersey City, New Jersey 07310, (ii) subsequently submitting another proxy bearing a later date or (iii) attending the Meeting and voting in person. Attending the Meeting without voting will not revoke your previously submitted proxy.

Hudson stockholders whose shares are held in the name of a broker or nominee may change their votes by submitting new voting instructions to their brokers or nominees. Those Hudson stockholders may not vote their shares in person at the Meeting unless they obtain a

signed proxy from the stockholder of record giving them the right to vote their shares.

Election Inspector

Hudson's General Counsel will act as election inspector and will certify the election results and perform any other acts required by the DGCL.

Solicitation of Proxies

This proxy statement/prospectus is furnished in connection with the solicitation of proxies by the Hudson board of directors to be voted at the Meeting.

Hudson is paying for costs associated with the preparation of the proxy statement/prospectus and related materials and solicitation of proxies from Hudson stockholders. Although there are no formal agreements to do so, Hudson will reimburse banks, brokerage firms and other custodians, nominees and fiduciaries for their reasonable expenses incurred in sending proxy materials to Hudson's stockholders and beneficial owners of Hudson common stock in accordance with applicable rules. In addition to solicitation by mail, Hudson directors, officers and employees may solicit proxies in person, by telephone, by fax or by electronic or other means of communication, but they will not receive special compensation for such activities.

PROPOSAL ONE: THE MERGER

The following is a discussion of the proposed Merger and the Merger Agreement. This is a summary only and may not contain all of the information that is important to you. A copy of the Merger Agreement is attached to this proxy statement/prospectus as Annex A and is incorporated by reference herein. You are urged to read this entire proxy statement/prospectus, including the Merger Agreement, for a more complete understanding of the Merger.

Structure of the Merger

Subject to the terms and conditions of the Merger Agreement and in accordance with Delaware law, Hudson will be merged with and into Merger Sub, with Merger Sub surviving the Merger as a wholly owned subsidiary of Rodman, and Hudson's existence as an independent entity will terminate. Upon completion of the Merger, each share of Hudson common stock issued and outstanding immediately prior to the effective time of the Merger, except for shares of Hudson common stock held directly and indirectly by Hudson and Rodman (which will be canceled if the Merger is approved and consummated), will be converted into the right to receive, subject to adjustment under limited circumstances as described below, that number of shares of Rodman common stock (the Exchange Ratio) as shall be equal to (i) (a) \$7,000,000 plus or minus, as the case may be, (b) 50% of the Adjustment Amount, divided by (ii) \$2.69, divided by (iii) the aggregate number of shares of common stock of Hudson issued and outstanding on the closing date of the Merger.

As of the Record Date, there were _____ shares of Hudson common stock outstanding and Hudson has, pursuant to the Merger Agreement agreed (with certain exceptions) not to issue any additional shares of its common stock. Based upon 76,965,367 shares of Hudson common stock being outstanding immediately prior to the effectiveness of the Merger, and without taking into account any Adjustment Amount the Exchange Ratio would be 0.0338. For each \$100,000 of Adjustment Amount, the Exchange Ratio will be adjusted upward or downward, as the case may be, by 0.0005.

Other than possible adjustments as described in the next paragraph below, the Exchange Ratio is fixed, which means that it will not change between now and the date of the Merger, including as a result of a change in the trading price of Rodman common stock or Hudson common stock or the operating and financial performance of either company. Therefore, the value of the shares of Rodman common stock received by Hudson stockholders in the Merger will depend on the market price of Rodman common stock at the time the Merger is completed.

The Exchange Ratio will be adjusted if between signing of the Merger Agreement and the effective time of the Merger the outstanding Rodman common stock or Hudson common stock, or securities convertible or exchangeable into or exercisable into Rodman common stock or Hudson common stock, is changed into a different number of shares or different class by reason of any distribution, reclassification, stock split (including a reverse split), stock dividend or distribution, recapitalization, merger, subdivision, issuer tender or exchange offer with a Record Date within such period, or any similar event occurs, in which case the Exchange Ratio will be adjusted to eliminate the effects of such event on the Merger Consideration.

Background of the Merger

The Rodman board of directors, together with its senior management, continually reviews, considers and evaluates the securities industry and considers acquisitions on a strategic and opportunistic basis. Over the past several years, Rodman has grown substantially, primarily by completing and successfully integrating a number of acquisitions. The focus of these acquisitions has been to expand Rodman's client base, the range of financial services and products available to its clients and its geographic reach, all to develop and enhance Rodman's position as a premier middle-market focused investment bank.

Hudson continually evaluates strategic opportunities to strengthen its business and to deliver value to its stockholders, in particular by seeking ways to diversify its business and expand its platform to provide a wider array of products and services for its clients. Over the past three years, Hudson's board of directors and senior management engaged in numerous meetings with various firms to explore strategic partnerships and other alternatives.

On June 1, 2010, Michael Vasinkevich, Rodman's Vice Chairman and David Horin, Rodman's Chief Financial Officer, met with Anthony Sanfilippo, Hudson's Chief Executive Officer, and Ajay Sareen, Hudson's Chief Administrative Officer, at Rodman's New York headquarters to discuss their respective firm's platforms, history and market opportunities. At the conclusion of the meeting, both firms suggested that they continue discussions. Prior to the initial meeting with Rodman, Hudson management had had

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

a series of meetings with another broker dealer (the Firm), which was a potential candidate to integrate onto the Hudson platform. Hudson signed a non-disclosure agreement with this Firm in April 2010 and was in the process of conducting due diligence with respect to a potential transaction with the Firm at the time the initial Rodman meeting took place.

On June 2, 2010, Rodman presented Hudson with a proposed form of mutual non-disclosure agreement.

On June 7, 2010, Edward Rubin, Rodman's Chief Executive Officer, David Horin and Michael Vasinkevich met with Ajay Sareen at Hudson's Jersey City headquarters. At the meeting, the participants discussed the potential strategic and cultural alignment between the two firms as well as potential areas in which the two firms complement one another and potential cost synergies if the firms were to combine. Edward Rubin reiterated that the firms should enter into a mutual non-disclosure agreement, in the form previously provided.

On June 14, 2010, Edward Rubin, Michael Vasinkevich, and David Horin met with Anthony Sanfilippo and Ajay Sareen at Rodman's New York headquarters to further explore the potential of a strategic transaction. At the conclusion of the meeting, Rodman and Hudson determined that if discussions with respect to a strategic acquisition were to continue, they would need to enter into a mutual non-disclosure agreement.

Following the June 14, 2010 meeting, Hudson's management evaluated Rodman's offer to enter into a non-disclosure agreement but determined that the due diligence process with the Firm was in full force and consuming Hudson's resources and that Hudson was not in a position at that time to engage with Rodman simultaneously. Hudson advised Rodman that it was in the middle of evaluating a strategic acquisition and, accordingly, declined to enter into the non-disclosure agreement and discussions terminated.

On June 28, 2010, at a regularly scheduled meeting of the Hudson board of directors, management notified the board of the Rodman meetings and reviewed the approach Hudson was making to the Firm to acquire its businesses.

On July 12, 2010, Hudson presented a preliminary offer to the Firm, with the intent of integrating its business lines onto the Hudson platform. However, in mid-August 2010, discussion with the Firm broke off.

On July 29, 2010, at a regularly scheduled meeting of the Rodman board of directors, Mr. Vasinkevich briefed Rodman's board of directors on the initial conversations with Hudson.

On September 15, 2010, at a regularly scheduled meeting of the Hudson board of directors, the board of directors determined, following a management presentation of Hudson's business and finances, that if market volumes did not improve, the impact of that on Hudson's cash balance and projected cash burn rate favored the exploration of strategic alternatives. The board of directors also advised management to interview bankers to act as a strategic advisor to Hudson.

Following the September 15, 2010 Hudson board of directors meeting, management of Hudson contacted Rodman and reinitiated discussions related to the possibility of a combination transaction. Hudson commenced its review of selected materials, based on public information, relating to a strategic combination with Rodman.

In September and October, Mr. Sanfilippo held informal discussions with eight broker-dealers other than Rodman to explore strategic opportunities for Hudson. Additionally, during that time, Hudson approached four other broker-dealers either directly or through intermediaries, which did not result in a meeting. Mr. Sanfilippo also met with five investment banking firms prior to Hudson's decision on a strategic advisor, and each of these firms was made aware of Hudson's strategic goals and was in a position to make referrals. Some referrals resulted, but no referrals went beyond the informal discussion stage.

On September 27, 2010, Edward Rubin, Michael Vasinkevich and David Horin met with Anthony Sanfilippo and Ajay Sareen at Rodman's New York headquarters and discussed details of a potential merger transaction including diligence matters. Further, Mr. Rubin renewed his suggestion that the firms enter into a mutual non-disclosure agreement.

On October 4, 2010, Hudson and Rodman entered into a mutual confidentiality agreement, dated as of September 30, 2010.

On October 11, 2010, David Horin, Michael Vasinkevich, Anthony Sanfilippo and Ajay Sareen met for lunch at a New York restaurant and began discussing the relative valuations of the firms, prospective terms of a merger and the strategic value to each company's stockholders of a combination.

On October 14, 2010, the Hudson board of directors held a special telephonic meeting. At that meeting, Mr. Sanfilippo reviewed the strategic opportunities being explored by Hudson. Mr. Sanfilippo then summarized the discussions with Rodman and provided Hudson's board of directors with general background information on Rodman. Mr. Sanfilippo discussed Rodman's and Hudson's respective histories, business philosophies and cultures, as well as the strategic value of a combination.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

On October 27, 2010, Rodman submitted a proposed form of No-Shop Agreement/Term Sheet to Hudson to acquire Hudson for \$6,000,000 in cash.

On October 27, 2010, Mr. Sanfilippo held preliminary discussions with New Century concerning hiring New Century as a financial advisor to Hudson's board of directors.

On October 29, 2010, the Hudson board of directors held a special telephonic meeting to discuss the Rodman proposal, Mr. Sanfilippo provided information on Rodman's investment banking and research business, noting that there was very little overlap in research and Hudson had broader research sales capabilities for distribution of research. Financial information was reviewed and discussed, as well as the potential synergies if a transaction were to be completed. The Hudson board of directors then determined that in order for stockholders to benefit from the synergies created by a combination with Rodman, it would be preferable to receive stock and not cash as consideration. The Hudson board of directors also instructed management to engage New Century to advise Hudson in connection with the potential sale of Hudson to, or a merger of Hudson with, Rodman.

On October 29, 2010, at a regularly scheduled meeting of the Rodman board of directors, Mr. Vasinkevich informed Rodman's board of directors of management's strategic view of a business combination with Hudson, the strategic value of a combination and preliminary financial terms.

On October 29, 2010, Hudson engaged New Century to act as financial advisor to Hudson in connection with the proposed transaction.

In the first week of November 2010, the parties exchanged legal, regulatory, financial and tax due diligence request lists. During November and December, the parties exchanged due diligence materials and participated in due diligence meetings. Hudson engaged Haynes and Boone, LLP to assist with legal and regulatory due diligence in connection with a potential transaction with Rodman, and Rodman retained Morse, Zelnick, Rose & Lander, LLP and Fried, Frank, Harris, Shriver & Jacobson LLP to assist with legal and regulatory due diligence, KPMG LLP to assist with the financial due diligence and Moffett & Grigorian LLP to assist with tax due diligence.

On November 2, 2010, Rodman submitted a revised Term Sheet to Hudson to acquire Hudson for \$6,000,000 in shares of Rodman common stock in a tax-free stock-for-stock exchange (subject to upward or downward adjustment, dollar-for-dollar, based upon any change in Hudson's net liquid assets between December 31, 2010 and the closing date of the transaction). The revised Term Sheet also provided for a \$4,000,000 break-up fee.

On November 4, 2010, at the request of Hudson's board of directors, Steve Terry of New Century, Hudson's financial advisor, transmitted comments on the Term Sheet to Rodman, which proposed a substantially higher price for Rodman's acquisition of Hudson in a tax free stock-for-stock exchange. Following Rodman's receipt of the revised Term Sheet, Michael Vasinkevich and David Horin had a telephone call with Anthony Sanfilippo and Ajay Sareen and representatives of New Century to discuss the terms proposed. During that call, Rodman reiterated its \$6,000,000 offer.

On November 5, 2010, the Hudson board of directors held a special telephonic meeting at which New Century advised the Hudson board of directors that Rodman had revised its offer from all cash to all stock, and was requesting a break-up fee. At the request of Hudson's board of directors, New Century then provided Hudson's board of directors with market data regarding where other public brokerage companies were trading.

On November 8, 2010, Mr. Sanfilippo had a telephonic discussion with Michael Vasinkevich and David Horin. A negotiation ensued and Mr. Vasinkevich increased Rodman's offer to \$7,000,000 in shares of Rodman common stock for all of Hudson, which amount represented a premium over the then current market value of Hudson's common stock.

On November 9, 2010, the Hudson board of directors held a special telephonic meeting, with Haynes and Boone, LLP, Hudson's outside counsel, and New Century in attendance to discuss Rodman's offer.

On November 10, 2010, Rodman submitted a revised proposed form of No-Shop Agreement/Term Sheet to Hudson to acquire Hudson for \$7,000,000 payable in shares of Rodman common stock in a tax-free stock-for-stock exchange. The term sheet also provided for a break-up fee equal to the greater of 5% of the proposed purchase price or Rodman's actual out-of-pocket expenses actually incurred in connection with the proposed transaction.

On November 11, 2010, Edward Rubin, David Horin and Kenneth S. Rose, Esq., of Morse, Zelnick, Rose & Lander, LLP, Rodman's counsel, had a conference call with Anthony Sanfilippo and Ajay Sareen to review, discuss and clarify certain matters related to the November 10, 2010 No-Shop Agreement/Term Sheet submitted by Rodman.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

On November 18, 2010, following internal discussions, Ajay Sareen telephoned David Horin and explored fixing the price per share of Rodman common stock for the purposes of determining the exchange ratio in the proposed merger. After conferring with Mr. Vasinkevich and Mr. Rubin, Mr. Horin telephonically advised Mr. Sareen of Rodman's willingness to fix the price per share of Rodman common stock.

On November 19, 2010, the Hudson board of directors held a special telephonic meeting, with Haynes and Boone, LLP and New Century in attendance, and discussed the negotiations with Rodman. Mr. Sanfilippo outlined the proposed exchange ratio, based on a value of \$2.69 for each share of Rodman stock.

On November 19, 2010, Steven Terry of New Century transmitted a revised No-Shop Agreement/Term Sheet to Rodman containing a \$7,000,000 purchase price for Hudson in a tax-free stock-for-stock exchange with the price per share of Rodman's common stock fixed at \$2.69 for the purposes of determining the exchange ratio. The Term Sheet also provided for a break-up fee equal to 5% of the proposed purchase price and a closing condition that Hudson have a minimum of \$4,000,000 of net liquid assets on the closing date.

On November 21, 2010, Rodman submitted a revised proposed form of No-Shop Agreement/Term Sheet to Hudson to acquire Hudson for a \$7,000,000 purchase price for Hudson in a tax-free stock-for-stock exchange with the price per share of Rodman's common stock fixed at \$2.69 for the purposes of determining the exchange ratio. The Term Sheet also provided for a break-up fee equal to the greater of 5% of the proposed purchase price or Rodman's actual out-of-pocket expenses actually incurred in connection with the proposed transaction and a closing condition that Hudson have a minimum of \$4,000,000 of net liquid assets on the closing date.

On November 22, 2010, Darrel Rice, Esq. of Haynes and Boone, LLP, provided to Kenneth S. Rose, Esq. of Morse, Zelnick, Rose & Lander, LLP with Hudson's comments on the draft No-Shop Agreement/Term Sheet submitted by Rodman on November 21, 2010.

On November 22, 2010, Rodman's counsel transmitted a revised draft of the No-Shop Agreement/Term Sheet to Hudson's counsel.

On November 24, 2010, the Hudson board of directors held a special telephonic meeting, with Haynes and Boone, LLP and New Century in attendance, to discuss the draft No-Shop Agreement/Term Sheet which was provided to the Hudson board of directors in advance of the meeting. Such discussion included the consideration to be received by the Hudson stockholders in the proposed transaction.

On November 24, 2010, Rodman and Hudson executed the No-Shop Agreement/Term Sheet containing a \$7,000,000 purchase price for Hudson in a tax-free stock-for-stock exchange with the price per share of Rodman's common stock fixed at \$2.69 for the purposes of determining the exchange ratio. The Term Sheet also provided for a break-up fee equal to 5% of the proposed purchase price and a closing condition that Hudson have a minimum of \$4,000,000 of net liquid assets on the closing date.

Throughout November and December, Hudson management and New Century conducted a due diligence investigation of Rodman and its business and financial position and Rodman conducted a due diligence investigation of Hudson.

On December 1, 2010, Edward Rubin, David Horin, Anthony Sanfilippo and Ajay Sareen met to discuss due diligence findings, timing of the proposed transaction, business philosophies and cultures, comparative compensation and cost structures of various business lines, as well as their view of the future entity and the strategic value of a combination.

On December 3, 2010, Morse Zelnick Rose & Lander, LLP, distributed to Hudson and its counsel, an initial draft of the Merger Agreement. During the period from December 3, 2010 to December 31, 2010, the parties discussed, negotiated and exchanged revised drafts of the Merger Agreement.

On December 17, 2010, the Hudson board of directors held a special telephonic meeting at which representatives of Haynes & Boone, LLP, and New Century were present to receive an update on the status of negotiations with Rodman. The board discussed in detail the status of negotiations, the timing of the transaction, and various due diligence matters, including due diligence matters for both Hudson and Rodman. The Hudson board of directors was advised that Rodman agreed to reduce the closing condition that Hudson have a minimum of \$4,000,000 of net liquid assets on the closing date to \$2,500,000 (less any agreed upon expenditures), and that in the event that net liquid assets at closing exceeded or was less than \$4,000,000, the \$7,000,000 purchase price would be increased, or decreased, as the case may be, by 50% of such excess or lesser amount.

On December 27, 2010, a special meeting of the Rodman board of directors was noticed for Wednesday, January 4, 2011 to consider the proposed Merger with Hudson.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

On December 30, 2010, Morse Zelnick Rose & Lander, LLP, distributed to Rodman's board of directors a package that included a draft of the Merger Agreement, Rodman's presentation detailing the strategic rationale of the transaction, KPMG's due diligence report and a preliminary draft press release with respect to the proposed Merger.

On December 31, 2010, Anthony Sanfilippo distributed to Hudson's board of directors by email for their review prior to the January 3, 2011 Hudson board meeting a draft of the Merger Agreement, the draft schedules to the Merger Agreement, and a draft of proposed resolutions of the board of directors approving the Merger.

On January 3, 2011, the Hudson board of directors held a special telephonic meeting, with Haynes and Boone, LLP and New Century in attendance, to discuss the terms and conditions of the draft Merger Agreement and related documentation, drafts of which were provided to the Hudson board of directors in advance of the meeting. Darrel A. Rice, Esq. of Haynes and Boone, LLP and Mr. Andrew Lewin, the general counsel of Hudson Securities, presented summaries of the agreements as well as a discussion of open issues remaining with respect to the draft documents. At this meeting, at the request of Hudson's board of directors, representatives from New Century discussed selected financial data, including where other public brokerage companies were trading and prior acquisitions of publicly traded and privately held brokerage companies. The Hudson board of directors, with the assistance of management and Hudson's legal and financial advisors, discussed the risks of the combination compared to the risks of continuing operations on a stand-alone basis given Hudson's financial condition. During the course of such discussions, management and Hudson's legal and financial advisors responded to numerous questions from the Hudson board of directors. Management discussed some of the steps that would follow execution of the definitive agreements if the transaction were to be approved, including the steps required to finalize communications plans to investors, employees, clients, suppliers and other constituencies.

On January 3, 2011, Mr. Rubin, Mr. Sanfilippo, Mr. Sareen and Mr. Horin met telephonically to plan for a proposed analyst conference call on January 5, 2011 at 11:00 a.m., Eastern Standard Time, regarding the Merger and to finalize any pending diligence items. The parties also agreed that, subject to approval of their respective boards of directors of the Merger, they would inform their respective employees about the Merger after the closes of the markets on January 4, 2011.

On January 4, 2011, the Rodman board of directors met with all directors present. Also in attendance were David Horin and Gregory Dow, Rodman's General Counsel, and Kenneth S. Rose, Esq., of Morse, Zelnick, Rose & Lander, LLP. Mr. Rubin provided the board of directors with an overview of the proposed Merger and management's recommendation that Rodman proceed with the transaction. Mr. Vasinkevich provided the board of directors with a detailed background about Hudson, including its significant sales and trading business. Further, Mr. Rubin, Mr. Vasinkevich and Mr. Horin reviewed the terms of the transaction, the strategic benefits, the key employees' backgrounds and the results of Rodman's due diligence investigation. After discussion, the Rodman board of directors unanimously approved and declared advisable the Merger Agreement and the Merger and determined that the Merger Agreement and all related documents and exhibits thereto, in each case substantially in the form presented to the Rodman board of directors, and determined that the terms of the Merger, are fair to, and in the best interests of, Rodman and its stockholders.

On January 4, 2011, the Hudson board of directors held a special telephonic meeting with all directors present to consider the transaction with the assistance of Hudson's legal and financial advisors. Management summarized the terms of the transaction. New Century reviewed its updated financial analyses with respect to Hudson and the proposed transaction and, thereafter, at the request of the Hudson board of directors delivered its oral opinion (which was subsequently confirmed in writing by delivery of New Century's written opinion dated the same date) to the effect that, as of January 4, 2011, the proposed Merger was fair from a financial point of view, to the stockholders of Hudson. Darrel A. Rice, Esq. of Haynes and Boone, LLP reviewed the board of directors' fiduciary duties in connection with the consideration of the proposed transaction, and presented summaries of the terms of the Merger Agreement and other agreements proposed to be entered into in connection with the transaction. At the meeting, the Hudson board of directors also considered the fact that Hudson's management communicated with investment banking and brokerage firms, both public and private, regarding potential business combination transactions, none of which led to any substantive discussions. In light of this, the Hudson board of directors determined that the proposed transaction with Rodman, together with the flexibility provided by the non-solicitation provisions in the Merger Agreement, would enable the board of directors to exercise its fiduciary obligations.

After discussion, the Hudson's board of directors unanimously: (i) determined that the Merger Agreement and all related documents and exhibits thereto, in each case substantially in the form presented to the Hudson board of directors, and the Merger were in the best interests of Hudson and its stockholders; (ii) approved and declared advisable the Merger Agreement and the Merger and the other transactions contemplated by the Merger Agreement; and (iii) recommended the approval by Hudson stockholders of the Merger pursuant to the terms of the Merger Agreement.

Following the respective board of directors meetings of Hudson and Rodman, on the evening of January 4, 2011, the parties executed the Merger Agreement.

On January 5, 2011, before the commencement of trading in the shares of Rodman and of Hudson, both firms issued a joint press release announcing that the boards of directors of both companies had approved the terms of the Merger and that the Merger Agreement had been executed. An analyst call co-hosted by Mr. Rubin, Mr. Horin and Mr. Sanfilippo followed later that morning.

Hudson's Reasons for the Merger

The Hudson board of directors, at the meeting described above on January 4, 2011, unanimously: (i) determined that the Merger Agreement and the Merger are fair to and in the best interests of Hudson and its stockholders; (ii) approved, adopted and declared advisable the Merger Agreement and the Merger and authorized the execution and delivery of the Merger Agreement; and (iii) resolved to recommend that the Hudson stockholders approve and adopt the Merger Agreement and approve the Merger and directed that such matter be submitted for consideration of the Hudson stockholders at the Meeting.

In reaching its decision to approve, adopt and declare advisable the Merger Agreement and the Merger and to recommend that the Hudson stockholders approve and adopt the Merger Agreement and approve the Merger, the Hudson board of directors consulted with Hudson's senior management team, as well as Hudson's internal and outside legal and financial advisors, and considered a number of factors, including the following material factors that the Hudson board of directors viewed as supporting its decision to approve and declare advisable the Merger Agreement and the Merger and to unanimously recommend that the Hudson stockholders approve and adopt the Merger Agreement and approve the Merger:

the financial analysis reviewed and discussed with the Hudson board of directors by representatives of New Century, as well as the oral opinion of New Century to the board of directors on January 4, 2011 (which was subsequently confirmed in writing by delivery of New Century's written opinion dated the same date) with respect to the fairness to holders of Hudson common stock from a financial point of view of the Exchange Ratio provided for in the proposed Merger;

Hudson's financial condition, including a weakening cash position, a corresponding decrease in excess net capital and projected cash burn rate, and its impact on Hudson's ability to retain employees and existing customers and attract new employees and customers over time;

Hudson's and Rodman's financial performance and condition, results of operations, management, business quality, prospects, competitive position and businesses as separate entities and on a combined basis;

the anticipated financial performance and condition, results of operations, management, business quality, prospects, competitive position and businesses of Rodman and Hudson after giving effect to the Merger;

the strategic nature of the Merger and increased opportunity for growth;

the risks faced by Hudson as a stand-alone company, including challenges in retaining key employees and clients and limitations on Hudson's ability to maintain volumes and margins in the trading, market making and capital markets businesses with a significantly smaller capital base than some competitors;

industry trends;

current financial market conditions and historical market prices, volatility and trading information with respect to Hudson common stock and Rodman common stock;

the belief that the consideration to be paid by Rodman in the Merger represented the highest price per share that could be negotiated with Rodman;

the financial and non-financial terms and conditions of the Merger Agreement, including:

the Merger Consideration; and

the parties' representations, warranties and covenants and closing conditions;

the opportunity for Hudson stockholders to participate in a larger company with a more liquid market for its stock and, as stockholders of the combined company, to participate in any increases in the value of its business following the Merger; and

the results of due diligence investigations by management with the assistance of Hudson's legal and financial advisors.

The Hudson board of directors also considered potentially negative risks of the transaction, including:

the risk that despite the efforts of Hudson and Rodman, key Hudson personnel might not remain employed by Hudson or, following the closing, the combined company;

the risk that potential benefits sought in the transaction may not be achieved in the expected timeframe or at all;

risks associated with Rodman's business;

the risk that the satisfaction of the other conditions to closing the Merger might not be accomplished within the expected timeframe or at all;

the possibility that the Merger might not be consummated and the potential adverse effects of the public announcement of the Merger on:

Hudson's operating results;

Hudson's ability to attract new employees and retain key employees; and

Hudson's overall competitive position;

the absence of any right of Hudson to terminate the Merger Agreement if the value of Rodman common stock falls below any particular level prior to the Merger or because of changes in the operating and financial performance of either company that do not amount to a material adverse effect, as defined in the Merger Agreement; and

that the consummation of the Merger will preclude Hudson stockholders from participating directly in any future growth of Hudson were it to remain an independent public company.

The foregoing discussion of the factors considered by the Hudson board of directors is not intended to be exhaustive, but rather includes the material factors considered by the Hudson board of directors. In reaching its decision to approve and declare advisable the Merger Agreement, the Merger and the other transactions contemplated by the Merger Agreement and to unanimously recommend that the Hudson stockholders approve and adopt the Merger Agreement and approve the Merger, the Hudson board of directors did not quantify or assign any relative weights to the factors considered and individual directors may have given different weights to different factors. After taking into consideration all of the information and factors described above, members of the Hudson board of directors at its January 4, 2011 meeting unanimously concluded that the Merger and the Merger Agreement are advisable, and are fair to, and in the best interests of, Hudson and its stockholders and that Hudson should proceed with the Merger.

Recommendation of the Hudson Board of Directors

The Hudson board of directors believes that the Merger and the Merger Agreement are advisable, and are fair to, and in the best interests of, Hudson and its stockholders and recommends that Hudson stockholders vote **FOR** the proposal to approve and adopt the Merger Agreement and approve the Merger.

Opinion of Hudson's Financial Advisor

On January 4, 2011, New Century made a presentation to the board of directors of Hudson, which was subsequently reduced to writing, stating that, as of January 4, 2011, based upon and subject to the assumptions made, matters considered, and limitations on New Century's review as set forth in New Century's opinion (the *Opinion*) that the transactions, including the Exchange Ratio (collectively, the *Transaction*), contemplated by the draft Agreement and Plan of Merger (but not including the Amended and Restated Agreement and Plan of Merger, the *Original Purchase Agreement*) was fair, from a financial point of view, to the stockholders of Hudson.

The full text of the *Opinion* is attached as Annex B hereto. The opinion outlines the procedures followed, assumptions made, matters considered and qualifications and limitations on the review undertaken by New Century in rendering its opinion. The description of the opinion set forth below is qualified in its entirety by reference to the full text of the *Opinion*.

New Century's *Opinion* speaks only as of the date of the *Opinion* and was necessarily based upon financial, economic, market and other conditions as they existed, and could be evaluated, on that date as well as the consideration to be paid in connection with the *Transaction* contemplated by Hudson and Rodman. Events occurring after that date could materially affect its *Opinion*. New Century has not undertaken to update, revise, reaffirm or withdraw its *Opinion* or otherwise comment upon events occurring after the date of the *Opinion*. Hudson has not obtained nor will it obtain an updated fairness opinion from New Century to reflect the current terms of the acquisition.

New Century's *Opinion* was for the use and benefit of the board of directors of Hudson in its consideration of the *Transaction* and does not constitute a recommendation as to how any holder of shares of Common Stock of the Company should vote on the approval and adoption of the Merger and the Merger Agreement.

Process

New Century's *Opinion* is given in good faith but neither New Century nor its officers or directors shall be held responsible for any errors or omissions. In arriving at its *Opinion*, New Century reviewed and analyzed all the information it deemed necessary and appropriate including:

certain financial, operational and business information and data regarding Rodman and Hudson;

certain financial, market performance and other data of certain other public companies that New Century deemed relevant;

certain historical financial, operational and business information and data regarding Hudson, including its financial statements, 10-Ks, 10-Qs and proxy statements for the fiscal years ending March 31, 2009 and March 31, 2010 (collectively, the *Hudson Financial Statements*);

Hudson's internal Financial Forecast and Projections for the year ending March 31, 2011 (*Hudson's Financial Forecasts*);

certain focus reports (the *Focus Reports*) and a cash analysis (the *Cash Analysis*) regarding Hudson that the senior management of Hudson prepared;

certain information regarding the stock price and trading history of the common stock of Hudson and Rodman;

certain historical financial, operational and business information and data regarding Rodman, including its financial statements, 10-Ks, 10-Qs and proxy statements for the year ending December 31, 2009 (collectively, the *Rodman Financial Statements*);

Rodman's internal Financial Forecast and Projections for the years ending December 31, 2010, December 31, 2011 and December 31, 2012 (collectively, *Rodman's Financial Forecasts*);

the *Original Purchase Agreement*; and

Industry information that New Century deemed relevant for purposes of its *Opinion*.

New Century also reviewed and discussed with senior management of Hudson and Rodman and their respective accountants certain financial, operational and business information and data regarding Hudson, Rodman, and the financial services, investment banking, clearing, sales and trading, and private equity industries.

In rendering its Opinion, New Century has assumed and relied upon, without assuming responsibility or liability for independently verifying, the accuracy, completeness and fairness of all financial and other information and data that was publicly available regarding Hudson and Rodman. New Century has also assumed and relied upon, without assuming responsibility or liability for independently verifying, the accuracy, completeness and fairness of all financial and other information and data that Hudson, Rodman and their respective accountants provided to, reviewed with or discussed with New Century. New Century has assumed, with the assurances of senior management of Hudson, that the Hudson Financial Statements have been reasonably prepared in accordance with industry and GAAP accounting standards, and that they are not aware of any relevant information that has been omitted, or not disclosed to New Century, or that would make the Hudson Financial Statements incomplete or misleading. New Century has assumed, with the assurances of senior management of Rodman, that the Rodman Financial Statements have been reasonably prepared in accordance with industry and GAAP accounting standards, and that they are not aware of any relevant information that has been omitted, or not disclosed to New Century, or that would make the Rodman Financial Statements incomplete or misleading. New Century also has assumed, with the assurances of senior management of Hudson, that all other financial information and data provided to New Century regarding Hudson, including Hudson's Financial Forecasts, Focus Reports and Cash Analysis have been reasonably prepared in accordance with industry standards, and that they are not aware of any relevant information that has been omitted, or not disclosed to New Century, or that would make any of the information or data provided to New Century incomplete or misleading. New Century has assumed, with the assurances of senior management of Rodman, that all other financial information and data provided to New Century regarding Rodman, including Rodman's Financial Forecasts, have been reasonably prepared in accordance with industry standards, and that they are not aware of any relevant information that has been omitted, or not disclosed to New Century, or that would make any of the information or data provided to New Century incomplete or misleading.

In rendering its Opinion, New Century has assumed that the Transaction will be consummated as described in the Original Purchase Agreement, and that the Original Purchase Agreement would be further revised, but that further revisions to the Original Purchase Agreement will not materially change the analysis or conclusions of New Century in its Opinion. New Century has assumed and relied upon, without assuming responsibility or liability for verifying, that the Transaction will be treated as a tax-free reorganization pursuant to the Internal Revenue Code of 1986, as amended. New Century also has assumed and relied upon, without assuming responsibility or liability for verifying, that the Transaction will be consummated in a manner that complies with the applicable provisions of the Securities Act and Exchange Act and any other applicable federal, state and/or international laws, statutes, rules and regulations. New Century has further assumed and relied upon, without assuming responsibility or liability for independently verifying, that the operational, financial and strategic benefits that Hudson and Rodman represented to New Century will be achieved by the Transaction. New Century expresses no opinion as to whether Hudson and Rodman will be able to achieve any such operational, financial or strategic benefits in connection with the Transaction. In addition, New Century has assumed and relied upon, without assuming responsibility or liability for independently verifying, that there will be no material change in Hudson's or Rodman's business, customers, assets, prospects, operations or financial conditions prior to the consummation of the Transaction. New Century has further assumed that the representations and warranties made by Hudson and Rodman in the Original Purchase Agreement are and will be true and correct in all respects that would be material to its analysis. Furthermore, New Century has assumed that all material governmental, regulatory or other consents and approvals necessary for the consummation of the Transaction will be obtained without any adverse effect on Hudson or Rodman that would be material to its analysis.

New Century is not a legal, regulatory or tax expert. Accordingly, New Century expresses no opinion regarding the legal, regulatory or tax effect of the Transaction. New Century also does not express any opinion regarding the effect on the Transaction of any credit rating, accounting rules or regulations pertaining to Hudson or Rodman, or any potential changes thereto. New Century has relied upon the assessments made by Hudson and Rodman with respect to such issues. Furthermore, New Century does not express any opinion regarding any financial assumptions relied upon by the senior management of Hudson or Rodman regarding the future operations of Rodman. New Century has not (i) undertaken to determine whether there is any pending or threatened litigation, regulatory action, contingent liabilities or unasserted claims against Hudson or Rodman, or an analysis of same; (ii) performed appraisals or valuations of any specific assets or liabilities (fixed, contingent or other) of Hudson or Rodman; (iii) received or reviewed any executed or definitive purchase, acquisition or merger agreement involving Hudson and Rodman; (iv) conducted a physical inspection, or performed an independent evaluation or appraisal, of any investments, real estate or other assets of Hudson or Rodman; (v) contacted any of the customers of Hudson or Rodman, or completed any customer due diligence; (vi) reviewed books and records of Hudson or Rodman other than as referenced in the Opinion; or (vi) received or reviewed any title documents or confirmed whether Hudson or Rodman, or their respective affiliates, have good title or ownership of any of their investments, real estate or other assets.

The Opinion is based on economic, monetary, market and other conditions as they exist, and the information made available to New Century, as of the date of the Opinion. New Century expresses no opinion regarding any potential changes to economic, monetary, market or other conditions that may occur after the date of the Opinion. New Century has not performed any analysis regarding the value of liquidating Hudson or any of its assets. Hudson's senior management has expressed doubt to New Century as to Hudson's ability to continue as a going concern. In addition, Hudson's accountants have not completed their audit of Hudson for the

fiscal year ending March 31, 2011. New Century expresses no opinion regarding: (i) whether or when Hudson's accountant will complete their audit of Hudson for fiscal year ending March 31, 2011; (ii) what the accountant's opinions or findings will be in connection with any such audit; or (iii) whether the accountant will express doubt about Hudson's ability to continue as a going concern and its audit of Hudson. Based on the representation of, and information and data provided to New Century by, the senior management of Hudson, Hudson currently has negative cash flow, is not profitable, and has significant liabilities that may soon exceed the value of its assets. New Century has assumed that neither Hudson nor Rodman is a party to any material pending transaction other than this Transaction, including any external financing, recapitalization, acquisition or merger, divestiture or spin-off. It should be understood that subsequent developments may affect the Opinion and that New Century does not have any obligation and assumes no responsibility to update, revise or reaffirm its Opinion based upon circumstances and events occurring after the date of the Opinion, New Century has been advised by Rodman that Rodman conducts a significant portion of its business with companies based in China. New Century expresses no opinion about Rodman's business relationship with any such companies, whether Rodman will continue to maintain any relationship with such companies and what affect changes to the political and economic policies of the government of the People's Republic of China or any other government will have on such relationship. New Century expresses no opinion regarding whether the necessary approvals or other conditions to the consummation of the Transaction will be obtained or satisfied. New Century does not express any opinion as to the price at which Rodman's shares may trade upon consummation of the Transaction, or at any future time. New Century also expresses no opinion on whether the applicable stock market will react favorably to the Transaction, or whether any party to the Original Purchase Agreement will decide to cancel or terminate the Transaction. New Century was not requested to opine as to, and the Opinion does not address, the business decision to proceed with the Transaction or the merits of the Transaction relative to any alternative transaction or business strategy that may be available to Hudson. Furthermore, New Century expresses no opinion as to whether any alternative transaction might produce consideration for the stockholders of Hudson in excess of the amount contemplated by this Transaction, and New Century was specifically not engaged to perform a market test of interest from any other potential acquirers.

New Century did not attribute any particular weight to any analyses considered by it or the various valuation approaches contained herein, but rather made qualitative judgments as to the significance and relevance of each analysis. Any estimates resulting from the analyses are not necessarily indicative of actual values, which may be significantly more or less favorable than as set forth in the Opinion. No company mentioned in the Opinion, whether it is a public or private company, is identical to Hudson or Rodman. Accordingly, these analyses must take into account differences in the financial and operational characteristics of the selected publicly traded companies and differences in the structure and timing of the selected transactions and other factors that would affect the public trading values and acquisition values of the companies considered.

New Century's Opinion is limited to the fairness, from a financial point of view, to the stockholders of the consideration to be received by Hudson in connection with the Transaction, and New Century expresses no opinion as to the fairness of the Transaction to the holders of any other class of securities, creditors or other constituencies of Hudson. The Opinion, and the analysis and assumptions contained therein, must be considered as a whole, and selecting only portions of the analysis could create an incomplete or misleading view of the process underlying the analysis performed by New Century in connection with the preparation of the Opinion. The Opinion is not intended to be and does not constitute a recommendation to the stockholders or the board of directors of Hudson as to how they should vote or otherwise act with respect to the Transaction, and should not be relied upon by any stockholder or director as such. The Opinion, and the analysis contained therein, may not be quoted or referred to or used for any purpose without the prior written consent of New Century, except that the Opinion may be disclosed in connection with any information statement or proxy statement used in connection with the Transaction, provided that New Century expressly approves all statements in such documents relating to New Century or its Opinion in advance of any such disclosure, and provided that the Opinion is reproduced in full and any description of or reference to New Century, its Opinion, any summary thereof or presentation is in a form and substance reasonably acceptable to New Century and its legal counsel.

Market Overview

Using publicly available information, New Century compared selected financial data of Hudson with similar data of selected publicly traded financial services companies considered by New Century to be comparable to Hudson (the "Comparable Companies"). The methodology assumes that companies in the same industry share similar markets. The potential for earnings growth is usually dependent upon the characteristics of the growth rates of these markets, and companies in the same industry experience similar operating characteristics. New Century noted that although such companies were considered similar, none of the companies have the same management, makeup, size or combination of business as Hudson or Rodman. The comparable group is comprised of three groups: Boutique Investment Banks, Middle Market Investment Banks, and Brokerage Trading Firms. The Boutique Investment Bank group includes: JMP Group, Keefe Bruyette & Woods, Landenburg Thalmann, Merriman Curhan Ford, Oppenheimer, Rodman & Renshaw Capital Group, Sanders Morris Harris, and Stifel Financial. The Middle Market Investment Bank Group includes: Canaccord Financial, Duff & Phelps, Evercore Partners, Jefferies Group, Lazard, Piper Jaffray, and Raymond James Financial. The Brokerage Trading Firm Group includes: BGC Partners, Charles Schwab, Cohen & Company, E*Trade Financial, GFI Group,

Precedent Transactions Analysis

New Century reviewed certain publicly available information regarding 26 selected merger and acquisition transactions that New Century deemed relevant from September 1, 2005 to January 3, 2011 in which financial services companies were acquired (the Precedent Transactions), as shown below. New Century believes that Hudson's shares will be acquired at a discount to the Precedent Transactions for one or more of the following factors, including but not limited to the following: the limited size of the Transaction when compared to the Precedent Transactions, negative cash flow from operations, negative earnings, negative impact of declining capital reserve on monthly FOCUS reports, and retention of customers and employees.

Source: Thomson One Banker, as of January 3, 2011.

- (1) Aquiline Capital Partners acquired an undisclosed majority stake in CRT Capital Group.
- (2) Merriman Curhan Ford raised \$10.2 in preferred stock to C.E. Unterberg.
- (3) The Gleacher Partners/Broadpoint transaction PV/BVPS is excluded from the Mean calculation.
- (4) Mizuho Corporate Bank acquired a 46.7% stake in Evercore Partners.

Premiums Paid Analysis

New Century prepared a Premiums Paid Analysis for public precedent transactions and analyzed the premiums relative to the relative historical exchange ratios. The discount and premium to the historical exchange ratios was within the range of premiums paid on precedent transactions of 30% premium to 90% discount.

(1) Exchange ratio calculated per the Original Purchase Agreement.

(2) Provided by Hudson's management on January 3, 2011. The total shares outstanding includes the shares outstanding plus the accelerated restricted stock.

(3) From Hudson's 10-Q period ended September 30, 2010, net debt equals negative \$7.2 MM. Net debt excludes restricted cash.

(4) Historical financials from Hudson's public filings and projections from Hudson's management.

Summary of Valuation Analyses Methodologies

New Century has employed multiple valuation methodologies in forming our overall valuation perspective on Hudson. More specifically, New Century utilized public company data and applied those multiples to Hudson's financial statistics, specifically Book Value, and applied discounts and premiums that New Century deemed relevant for a company in the finance sector. New Century believes that Hudson should be valued at a discount to companies shown in the Public Comparable Companies and those in the Precedent Transactions. Additionally, New Century believes Hudson should be valued at a discount to these metrics due to one or more of a number of factors, including but not limited to, the following: declining revenues, negative operating income, significant monthly cash burn rate, limited ability to raise capital to fund operations, significant operating and lease liabilities and significant business concentration.

In summary, New Century evaluated a variety of financial data and performed various analyses in determining Hudson's valuation. These analyses and data included, but were not limited to, the following:

In evaluating the Public Comparable Companies, New Century noted that the current trading multiples for those companies deemed relevant to Hudson trade at valuations in the range 0.1x to 0.9x (Price/BVPS);

In evaluating the Public Comparable Companies, New Century noted that the current trading multiples for those companies deemed relevant to Hudson trade at valuations in the range 0.2x to 0.7x (Price/TBVPS);

In evaluating the Public Comparable Companies, New Century noted that the current trading multiples for those companies deemed relevant to Hudson trade at valuations in the range 0.1x to 0.5x (EV/2010 Revenue);

In evaluating the Precedent Transaction, New Century noted that the transaction multiples for companies deemed relevant to Hudson were acquired with valuations in the range 0.1x to 0.7x (Transaction Value/ LTM Revenue);

In evaluating the Precedent Transactions, New Century noted that the transaction multiples for companies deemed relevant to Hudson were acquired with valuations in the range 0.1x to 0.7x (Transaction Value/Book Value);

In evaluating the Discounted Cash Flow Analysis, New Century noted that the analysis was not meaningful due to the lack of Hudson financial projections beyond March 31, 2011;

New Century's analyses takes all of the considerations described above into consideration and values the shares of Hudson that will be acquired by the Rodman in the range of \$2.0 million to \$11.0 million. The Purchase Price of \$7.0 million is within the range.

Cash Analysis

New Century prepared an analysis projecting the reduction of Hudson's cash position based upon the Hudson Management projections and current cash and equivalents per the September 30, 2010 10-Q report and the expected Transaction fees and expenses. New Century utilized the actual FOCUS reports for September, October and November 2010 and projected the potential changes to Excess Net Capital for Hudson.

I. Cash Analysis

	Cash Analysis - Worst Case Scenario							
	Sep. 2010	Oct. 2010	Nov. 2010	Dec. 2010	Jan. 2011	Feb. 2011	Mar. 2011	Apr. 2011

(1) Projections provided by Hudson's management on January 2, 2011.

(2) Estimates provided by Hudson's management and per the Engagement Letter dated October 29, 2010.

(3) From the Hudson's adjusted cash flows from operations projection.

(4) Except for cash, all allowable assets, non-allowable assets, liabilities, and haircuts assumed from the FOCUS report period ended November 30, 2010. FOCUS reports period ended September, October, and November provided by Hudson's management.

New Century reproduced the Hudson Management calculation and analysis of the Net Liquid Asset definition, requirement and potential purchase price adjustment per the Original Purchase Agreement and per the Management projections. Hudson's expected negative cash flow and anticipated Transaction fees and expenses may reduce the overall Net Liquid Assets such that the Purchase Price would be adjusted negatively and the adjusted Purchase Price would fall within the range of total equity value of \$1.0 million to \$11.0 million.

III. Net Liquid Assets

	Net Liquid Assets

(1) Book value and tangible book value, as of September 30, 2010.

(2) Projections provided by Rodman's management.

(3) Enterprise Value includes net debt of negative \$8.2 MM, as of September 30, 2010. Net debt excludes restricted cash.

(4) Based on Rodman's outstanding diluted shares of 35.9 MM, as of September 30, 2010.

New Century's analyses takes all of the considerations described above into consideration and values the shares of Rodman that will be used as consideration in Transaction in the range of \$1.50 to \$4.00 per share. The Exchange Ratio per the Original Purchase Agreement was calculated based on a Rodman common stock price of \$2.69, which is within the range.

Conclusion

Based on the information and analyses set forth above, New Century delivered its written fairness opinion to Hudson's board of directors, which stated that, as of January 4, 2011, based upon and subject to the assumptions made, matters considered, procedures followed, methods employed and limitations on its review as set forth in the Opinion, it is the opinion of New Century that as of the date of the Opinion, the Transaction was fair, from a financial point of view, to the stockholders of Hudson. New Century received a fee of \$250,000 in connection with the preparation and issuance of its Opinion and was reimbursed for its legal and other transaction related fees. New Century did not own any interest in Hudson or Rodman, nor do any of New Century's officers or director of serve as an officer or director of Hudson or Rodman. New Century may provide investment banking services to Hudson and/or Rodman in the future. Hudson additionally has agreed to indemnify New Century against certain liabilities, and to reimburse it for certain expenses, in connection with New Century providing the Opinion and acting as the exclusive financial advisor as to the Transaction.

General Matters Regarding Fairness Opinions

The preparation of a fairness opinion involves various determinations as to the most appropriate and relevant methods of financial analysis and the application of those methods to particular circumstances and, therefore, such analyses and fairness opinion are not susceptible to summary description. Furthermore, New Century made qualitative and quantitative judgments as to the significance and relevance of each analysis and factor. Accordingly, New Century's analyses must be considered as a whole. Considering any portion of such analyses and of the factors considered without considering all analyses and factors, could provide a misleading or incomplete view of the process underlying the conclusions expressed in the fairness opinion.

In its analysis, New Century made a number of assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of Hudson and New Century. Any estimates contained in these analyses are not necessarily indicative of actual values or predictive of future results or values, which may be significantly more or less favorable than those set forth in the analyses. In addition, analyses relating to the value of the Transaction do not purport to be appraisals or to reflect the prices at which securities of Hudson may be sold after the merger is approved.

New Century's Opinion does not constitute a recommendation to the board of directors of Hudson or to any holder of Hudson's securities as to how such a person should vote or act with respect to any of the proposals set forth in this statement. The Opinion does not address the decision of the board of directors of Hudson to enter into the Transaction as compared to any alternative business transactions that might be

available to Hudson nor does it address the underlying business decision to engage in the Transaction

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

New Century is an investment banking firm with experience in providing mergers and acquisitions investment banking advisory services, including providing fairness opinions and valuations, private placements, including PIPEs, and other investment banking services. The board of directors of Hudson retained New Century based on its mergers and acquisitions expertise and reputation, including its previous experience in providing fairness opinions for similar purposes.

Other Matters

Hudson engaged New Century pursuant to a letter agreement dated as of October 29, 2010 to act as the board of directors' financial advisor in connection with the proposed Merger. Hudson selected New Century based on New Century's experience and reputation and knowledge of Hudson and its industry. New Century is regularly engaged to render financial opinions in connection with mergers and acquisitions, financial restructurings, tax matters, ESOP and ERISA matters, corporate planning, and for other purposes. New Century will receive a fee for rendering certain financial advice to Hudson with respect to the proposed Merger including its opinion with respect to the fairness to the holders of Hudson common stock from a financial point of view of the Exchange Ratio provided for in the proposed Merger. No portion of such fees is contingent upon the successful completion of the proposed Merger. Hudson has also agreed to reimburse certain of New Century's expenses and to indemnify New Century and certain related parties for certain potential liabilities arising out of its engagement.

New Century and certain of its affiliates have in the past provided investment banking, financial advisory and other financial services to Hudson, for which New Century and such affiliates have received compensation. New Century and certain of its affiliates may provide investment banking, financial advisory and other financial services to Hudson, other participants in the proposed Merger and/or certain of their respective affiliates in the future, for which New Century and such affiliates may receive compensation. In addition, New Century and certain of its affiliates and certain of our and their respective employees may have committed to invest in private equity or other investment funds managed or advised by Hudson, other participants in the proposed Merger and/or certain of their respective affiliates, and in portfolio companies of such funds, and may have co-invested with Hudson, other participants in the proposed Merger and/or certain of their respective affiliates, and may do so in the future. Furthermore, in connection with bankruptcies, restructurings, and similar matters, New Century and certain of its affiliates may have in the past acted, may currently be acting and may in the future act as financial advisor to debtors, creditors, equity holders, trustees and other interested parties (including, without limitation, formal and informal committees or groups of creditors) that may have included or represented and may include or represent, directly or indirectly, or may have been adverse to, Hudson, Rodman, other participants in the proposed Merger and/or certain of their respective affiliates, for which advice and services New Century and such affiliates have received and may receive compensation.

Rodman's Reasons for the Merger

Numerous factors were taken into consideration by Rodman in entering into the Merger Agreement, including, without limitation, the following:

- accelerating Rodman's sales and trading growth and diversifying the combined firm's revenue stream;
- expanding the distribution of Rodman's capital markets offerings through Hudson's distribution network;
- expanding Rodman's market making ability, derivative, special situation, block and international trading ability in key sectors;
- expanding the research coverage into such key areas as transportation, gaming, technology and industrials;
- benefiting from the complementary fit between Rodman's investment banking expertise and Hudson's trading and market making expertise;
- utilizing the skills and relationships of the combined senior management teams; and
- realizing benefits from operating cost efficiencies, which Rodman believes will allow it to enhance profitability.

In reaching its decision to approve and enter into the Merger Agreement, the Rodman board of directors did not view any single factor as determinative, and did not find it necessary or practicable to assign any relative or specific weights to the various factors considered. Furthermore, individual directors may have given differing weights to the various factors. The Rodman board of directors believed each of the factors listed above supported the decision to adopt the Merger Agreement.

The Rodman board of directors also considered various risks and challenges inherent in the combination with Hudson, including the following:

- the need to retain key personnel for the combined company;
- the physical locations of the two companies;
- the distraction of management with respect to the integration of the two companies;
- the risk that anticipated cost savings and synergies might not be achieved as expected or at all;

the effect on each of the companies' existing client relationships and the success of the combined company in entering into new client relationships; and

the fact that the financial services industry is subject to periodic market cycle risks.

However, the Rodman board of directors determined that the foregoing risks were outweighed by the potential benefits of the Merger summarized above, including the opportunity for Rodman's stockholders to share in the benefits of the combined company's long-term prospects.

Interests of Certain Persons in the Merger

In considering the recommendations of Hudson board of directors with respect to the Merger, you should be aware that certain executive officers and members of the board of directors of Hudson have agreements or arrangements that provide them with interests in the Merger that may be different from, or in addition to, the interests of the other stockholders of Hudson. The Hudson board of directors was aware of these agreements during its deliberations of the merits of the Merger and in determining to recommend to Hudson stockholders that they vote for the proposal to approve and adopt the Merger Agreement and the Merger.

Common Stock

As of the Record Date, the executive officers and directors of Hudson and their affiliates beneficially owned an aggregate _____ shares, or ____%, of outstanding Hudson common stock, which will be treated in the Merger in the same manner as shares of Hudson common stock held by other stockholders of Hudson.

Appointment of Directors and Executive Officers

Rodman has announced that Anthony M. Sanfilippo and Ajay Sareen are expected to become the President and Chief Operating Officer, respectively, of Rodman upon completion of the Merger and that Mr. Sanfilippo will also become a member of Rodman's board of directors. See Board of Directors and Executive Officers of Rodman Following the Merger below for more information.

Hudson's Stock Options and Other Equity-Based Awards

On January 4, 2011, in connection with its approval of the Merger, the board of directors of Hudson accelerated the vesting of all of Hudson's outstanding restricted stock and stock option awards, such that on January 4, 2011, all unvested shares of restricted stock vested and all options to purchase Hudson common stock became immediately exercisable. As a result of such acceleration, Hudson recognized the remaining non-cash share based compensation expense for these grants of restricted stock and options to purchase common stock that were subject only to the passage of time. Hudson estimates the non-cash compensation share based compensation charge to be approximately \$1.7 million.

Rodman Equity Awards and Incentive Plans

Subsequent to the effective time of the Merger, Rodman intends to grant approximately _____ restricted stock unit awards to certain Hudson executive employees.

Potential Payments Upon Termination in Connection with the Merger

Hudson has entered into employment agreements with certain of its executive officers that entitle such officers to payments if they are terminated without cause or resign for good reason or are terminated in connection with a change in control (including the Merger).

Mr. Sanfilippo is party to an employment agreement with Hudson with a term expiring on October 12, 2012, pursuant to which he is entitled to an annual base salary of \$275,000 and benefits. On October 12, 2009, pursuant to such agreement, Mr. Sanfilippo was awarded 2,500,000 restricted shares of Hudson common stock and an option to purchase 2,500,000 shares of Hudson common stock at an exercise price of \$0.50 per share. A quarter of such awards vested on the date of grant and the balance of such awards vested or was scheduled to vest in three equal annual installments, commencing on October 12, 2010. If, as a result of a change of control (as defined in Mr. Sanfilippo's employment agreement), Mr. Sanfilippo resigns for good reason (as defined in his employment agreement) or the employment agreement is terminated, he will receive a termination payment equal to the sum of the following: all unpaid compensation for the balance of the term of his employment agreement, a payment equal to the cost of COBRA premiums for medical insurance for the balance of the term, and any annual bonus quarterly payment due and not yet paid as of the date of such termination. Also in the event of a change of control, all unvested shares of restricted stock and options vest

immediately. The Merger constitutes a change of control under Mr. Sanfilippo's employment agreement. Assuming the Merger closed on January 12, 2011, if Mr. Sanfilippo were terminated in connection with, or he resigned for good reason as a result of, the Merger, he would be entitled to a lump sum payment of approximately \$512,568 for salary and COBRA premiums for the remainder of the term of his employment agreement.

Mr. Knox is party to an employment agreement with Hudson with a term expiring on December 31, 2011, pursuant to which he is entitled to an annual base salary of \$200,000 and benefits. If, as a result of a change of control (as defined in Mr. Knox's employment agreement), Mr. Knox resigns for good reason (as defined in his employment agreement) or the employment agreement is terminated, he will receive a termination payment equal to the sum of the following: all unpaid compensation for the balance of the term of his employment agreement (including a car allowance), a payment equal to the cost of COBRA premiums for medical insurance for the balance of the term, and any annual bonus quarterly payment due and not yet paid as of the date of such termination. The Merger constitutes a change of control under Mr. Knox's employment agreement. Assuming the Merger closed on January 12, 2011, if Mr. Knox were terminated in connection with, or resigned for good reason as a result of, the Merger, he would be entitled to a lump sum payment of approximately \$225,018 for salary, the car allowance and COBRA premiums for the remainder of the term of his employment agreement. Mr. Knox does not have any outstanding options or unvested shares of restricted stock of Hudson.

Mr. Drazka is party to an employment agreement with Hudson Securities with a term expiring on April 29, 2012, pursuant to which he is entitled to an annual base salary of \$200,000 and benefits. If, as a result of a change of control (as defined in Mr. Drazka's employment agreement), Mr. Drazka's employment is terminated without cause or Mr. Drazka resigns within 10 days of such change in control for good reason (as defined in his employment agreement), he is entitled to continue payment of his base salary and may elect for continued benefits under COBRA through the end of the term, and to any performance, incentive, or other bonus compensation which has been earned but not yet paid, provided the salary and medical benefits will cease upon him obtaining other employment. Also, if Mr. Drazka resigns following a change in control, all unvested shares of restricted stock and options will vest on the effective date of termination. Pursuant to his employment agreement, Mr. Drazka was awarded 500,000 restricted shares of Hudson common stock and an option to purchase 500,000 shares of Hudson common stock at an exercise price of \$0.50 per share. The Merger constitutes a change of control under Mr. Drazka's employment agreement. Assuming the Merger closed on January 12, 2011, if Mr. Drazka were terminated in connection with, or resigned for good reason within 10 days of, the Merger, he would be entitled to a lump sum payment of approximately \$259,178 for salary for the remainder of the term of his employment agreement.

Mr. Sareen is party to an employment agreement with Hudson Securities with a term expiring on November 5, 2011, pursuant to which he is entitled to an annual base salary of \$180,000 and benefits. If, Mr. Sareen's employment is terminated without cause, or as a result of a change of control (as defined in Mr. Sareen's employment agreement), or Mr. Sareen resigns within 10 days of such change in control for good reason, he will receive a termination payment equal to the sum of the following: all unpaid compensation for the balance of the term of his employment agreement, and any bonus compensation earned but not yet paid. Also, all unvested shares of restricted stock and options vest as of the effective date of termination. Pursuant to his employment agreement, Mr. Sareen was awarded 500,000 restricted shares of Hudson common stock and an option to purchase 500,000 shares of Hudson common stock at an exercise price of \$0.50 per share. The Merger constitutes a change in control under Mr. Sareen's employment agreement. Assuming the Merger closed on January 12, 2011, if Mr. Sareen were terminated in connection with, or he resigned for good reason within 10 days of, the Merger, he would be entitled to a lump sum payment of approximately \$146,466 for salary for the remainder of the term of his employment agreement.

Certain other employees of Hudson Securities have entered into employment agreements whereby, upon the occurrence of a change in control (including the Merger) their unvested shares of restricted stock of Hudson common stock would vest.

On January 4, 2011, in connection with its approval of the Merger, the Hudson board of directors accelerated the vesting of all of Hudson's outstanding shares of restricted stock and stock option awards, such that on January 4, 2011, all unvested shares of restricted stock vested and all unvested options to purchase Hudson common stock became immediately exercisable. Accordingly, on January 4, 2011, of the officers described above: (i) the remaining 1,250,000 of Mr. Sanfilippo's unvested restricted shares of Hudson common stock became vested and the unvested portion of his option to purchase 1,250,000 shares became immediately exercisable; (ii) all 500,000 of Mr. Drazka's unvested restricted shares of Hudson common stock became vested and his option to purchase 500,000 shares became immediately exercisable; and (iii) the remaining 335,000 of Mr. Sareen's unvested restricted shares of Hudson common stock became vested and the unvested portion of his option to purchase 333,333 shares became immediately exercisable.

Stockholder Voting Agreement

In connection with the Merger Agreement, Rodman entered into a Stockholder Voting Agreement (the Voting Agreement) with Seaport Hudson LLC, Anthony M. Sanfilippo, Keith R. Knox, Peter Zugschwert, John C. Shaw, Jr., John W. Mascone, Kenneth

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

D. Pasternak, Ajay Sareen and Frank J. Drazka, who are all Hudson executives, employees and affiliates. For a discussion of the Voting Agreement, see *Other Agreements Relating to the Merger* *The Stockholder Voting Agreement* on page ___.

Indemnification and Insurance

Pursuant to the Merger Agreement, Rodman has agreed that, after the effective time of the Merger, it will provide certain indemnification and liability insurance benefits to present and former directors and officers of Hudson. See *The Merger Agreement* *Other Covenants and Agreements* *Indemnification and Insurance* on page ___.

Board of Directors and Executive Officers of Rodman Following the Merger

Rodman has announced that, upon the completion of the Merger, Anthony M. Sanfilippo will become President of Rodman and Ajay Sareen will become Chief Operating Officer of Rodman and that Mr. Sanfilippo will be appointed to the Rodman board of directors. Rodman anticipates that the senior management of Hudson, including several of its executive officers will become executive officers and/or key employees of Rodman following the Merger. For more information regarding Rodman's board of directors and executive officers, see *Rodman & Renshaw Capital Group, Inc. Business and Financial Information* *Management* beginning on page__.

No Rodman Stockholder Approval

Rodman stockholders are not required to approve and adopt the Merger Agreement or approve the Merger or the issuance of shares of Rodman common stock as part of the Merger Consideration.

Rodman's Dividend Policy

Rodman has never declared or paid a cash dividend on its common stock. Rodman currently intends to retain any future earnings to fund the growth and development of its businesses and does not anticipate paying any cash dividends in the foreseeable future.

Ownership of Rodman Following the Merger

If the Merger is completed, holders of Hudson common stock collectively will receive approximately 2.6 million shares of Rodman common stock in the Merger based on the number of shares of Hudson common stock outstanding as of the Record Date. Based on the number of shares of Rodman common stock and Hudson common stock outstanding as of the Record Date, current Hudson stockholders are expected to own approximately 7.2% of the outstanding common stock of Rodman immediately following the Merger. The foregoing does not take into consideration any outstanding restricted stock units of Rodman. As of January 28, 2011, Rodman had 7,277,234 restricted stock units outstanding.

Manner and Procedure for Exchanging Shares of Hudson Common Stock

The conversion of Hudson common stock into the right to receive the Merger Consideration will occur automatically at the effective time of the Merger.

Prior to the completion of the Merger, Rodman will select a commercial bank or trust company reasonably acceptable to Hudson to act as the exchange agent, for the purpose of exchanging certificates or book entry shares representing Hudson common stock for the Merger Consideration and to perform other duties as explained in the Merger Agreement. If you hold your own shares of Hudson common stock in certificated form, promptly after the effective time of the Merger, and in no event later than the fifth business day following the effective time of the Merger, the exchange agent will mail you a letter of transmittal which will contain instructions on how to surrender your shares of Hudson common stock in exchange for the Merger Consideration. The exchange agent will pay you the Merger Consideration to which you are entitled after you have provided to the exchange agent your signed letter of transmittal, surrendered your stock and provided any other items specified by the letter of transmittal. You should not submit your Hudson stock certificates for exchange until you receive the transmittal instructions and a form of letter of transmittal from the exchange agent. Holders of book-entry shares will automatically receive the Merger Consideration and will not be required to deliver a certificate or an executed letter of transmittal to the exchange agent.

In the event of a transfer of ownership of Hudson common stock that is not registered in Hudson's transfer agent's records, payment of the Merger Consideration as described above will be made to a person other than the person in whose name the certificate so surrendered is registered only if the certificate is properly endorsed or otherwise is in proper form for transfer, and the person requesting the exchange must pay any transfer or other taxes required by reason of the payment of the Merger Consideration to such other person.

Hudson stockholders will not receive any fractional shares of Rodman common stock pursuant to the Merger. Instead of any fractional shares, stockholders will be paid an amount in cash for such fraction of a share calculated by multiplying (a) the fractional share interest to which such holder (after taking into account all shares of Hudson common stock surrendered by such holder) would otherwise be entitled by (b) the average closing sales prices for a share of Rodman common stock for each of the ten consecutive trading days ending with the second complete trading day prior to the effective time of the Merger, as such prices are reported by NASDAQ. Additionally, six months after the effective time of the Merger, the exchange agent will deliver to Rodman all cash and shares of Rodman common stock remaining in the exchange fund administered by the exchange agent that have not been distributed to holders of Hudson common stock. Thereafter, Hudson stockholders must look only to Rodman, and Rodman will remain liable, for payment of the Merger Consideration on their shares of Hudson common stock. Any portion of the exchange fund remaining unclaimed by holders of shares of Hudson common stock two years after the effective time of the Merger (or immediately prior to such time as such amounts would otherwise escheat to or become property of any governmental authority) will, to the extent permitted by applicable law, become the property of the surviving company.

Accounting Treatment

In accordance with accounting principles generally accepted in the United States, Rodman will account for the Merger using the acquisition method of accounting for business combinations. Under this method of accounting, Rodman will record the acquisition based on the fair value of the consideration given, which is the market value (based on the closing price of Rodman common stock on the closing date of the Merger) of its common stock issued in connection with the Merger. Rodman will allocate the purchase price to the net tangible and identifiable intangible assets acquired and liabilities assumed based on their respective fair values at the date of the completion of the Merger. Any excess of the purchase price over those fair values will be recorded as goodwill. Any excess of the fair value of net assets over the purchase price will be recognized in earnings as a bargain purchase gain on the closing date of the merger. A bargain purchase gain is recognized when the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed exceeds the aggregate of the fair value of the consideration transferred. Before recognizing a bargain purchase gain, Rodman will reassess whether it has correctly identified all of the assets acquired and all of the liabilities assumed and shall recognize any additional assets or liabilities that are identified in that review.

Litigation Related to the Merger

In connection with the Merger, a putative stockholder class action lawsuit has been filed against Hudson, the members of Hudson's board of directors, Rodman, and Merger Sub. *Ronald Schwartz v. Kenneth D. Pasternak, et al.*, was filed in the Superior Court, Chancery Division, of Hudson County, New Jersey on January 11, 2011. The complaint asserts that the members of Hudson's board of directors breached their fiduciary duties by, among other things, allegedly failing to properly value Hudson and to maximize the value of Hudson to its public stockholders, and by approving the Merger Agreement, including the non-solicitation and termination fee provisions contained therein. The complaint further alleges that Hudson, Rodman, and Merger Sub aided and abetted those alleged breaches of duty. The complaint seeks, among other relief, an order enjoining the defendants from consummating the Merger and directing the defendants to implement a sale or auction process, rescission of the Merger if already implemented, the imposition of a constructive trust in favor of plaintiff upon any benefits received by the defendants as a result of their alleged breaches of duty, and an award of attorneys' fees and costs of litigation.

The defendants believe that this lawsuit is without merit and intend to defend it vigorously.

Financial Industry Regulatory Authority Approval

As members of FINRA, Hudson Securities, Hudson's wholly-owned broker-dealer subsidiary, and R&R, Rodman's wholly-owned broker-dealer subsidiary, are required to file applications with FINRA, in connection with the Merger for (i) approval of the change of Hudson's ownership as a result of the Merger and (ii) the consolidation and merger of Hudson Securities and R&R following the Merger. Hudson and Rodman are preparing a joint application to be filed with FINRA for approval of such matters.

Merger Expenses, Fees and Costs

Each of Rodman and Hudson will be responsible for all expenses incurred by it in connection with the negotiation and completion of the Merger.

Appraisal Rights

Under Delaware law, holders of Hudson common stock that do not wish to accept the Merger Consideration may elect to have the value of their shares of Hudson common stock judicially determined and paid in cash, together with a fair rate of interest, if any. The valuation will exclude any element of value arising from the accomplishment or expectation of the Merger. A stockholder may only exercise such appraisal rights by complying with the provisions of Section 262 of the DGCL.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

The following summary of the provisions of Section 262 of the DGCL is not a complete statement of the law pertaining to appraisal rights under the DGCL and is qualified in its entirety by reference to the full text of Section 262 of the DGCL, a copy of which is attached to this document as Annex D and incorporated into this summary by reference. If you wish to exercise appraisal rights or wish to preserve your right to do so, you should carefully review Section 262 of the DGCL and are urged to consult a legal advisor before electing or attempting to exercise these rights.

All references in Section 262 of the DGCL and in this summary to a stockholder are to the record holder of the shares of Hudson common stock as to which appraisal rights are asserted. A person having a beneficial interest in shares of Hudson common stock held of record in the name of another person, such as a bank, broker or other nominee, must act promptly to cause the record holder to follow properly the steps summarized below and in a timely manner to perfect appraisal rights.

Under Section 262 of the DGCL, where a proposed merger is to be submitted for approval at a meeting of stockholders, as in the case of Meeting, which is scheduled for 2011, the corporation, not less than 20 days prior to the meeting, must notify each of its stockholders entitled to appraisal rights that these appraisal rights are available and include in the notice a copy of Section 262 of the DGCL. This document constitutes notice to the Hudson stockholders of the availability of appraisal rights, and the applicable statutory provisions of the DGCL are attached to this document as Annex D.

Any Hudson stockholder wishing to exercise the right to demand appraisal under Section 262 of the DGCL must satisfy each of the following conditions:

The stockholder must deliver to Hudson a written demand for appraisal of its shares before the vote on the Merger Agreement at Meeting, which is scheduled for 2011. This demand will be sufficient if it reasonably informs Hudson of the identity of the stockholder and that the stockholder intends by that writing to demand the appraisal of its shares.

The stockholder must not vote its shares of common stock in favor of the Merger Agreement. A proxy that does not contain voting instructions will, unless revoked, be voted in favor of the Merger Agreement. Therefore, a Hudson stockholder who votes by proxy and who wishes to exercise appraisal rights must vote against the Merger Agreement or abstain from voting on the Merger Agreement. Neither voting against, abstaining from voting, nor failing to vote on the adoption of the Merger Agreement will constitute a written demand for appraisal within the meaning of Section 262 of the DGCL. The written demand for appraisal must be in addition to, and separate from, any failure to vote, abstention from voting, or any vote, in person or by proxy, cast against approval of the Merger.

The stockholder must continuously hold its shares from the date of making the written demand through the completion of the Merger. A stockholder who is the record holder of shares of common stock on the date the written demand for appraisal is made but who thereafter transfers those shares prior to the completion of the Merger will lose any right to appraisal in respect of those shares.

Only a stockholder of record of shares of Hudson common stock is entitled to assert appraisal rights for those shares registered in that holder's name. A demand for appraisal should:

be executed by or on behalf of the stockholder of record, fully and correctly, as its name appears on the stock transfer records of Hudson;

specify the stockholder's name and mailing address;

specify the number of shares of Hudson common stock owned by the stockholder; and

specify that the stockholder intends thereby to demand appraisal of its common stock.

If the shares are owned of record by a person in a fiduciary capacity, such as a trustee, guardian or custodian, the demand should be executed in that capacity. If the shares are owned of record by more than one person as in a joint tenancy or tenancy in common, the demand should be executed by or on behalf of all owners. An authorized agent, including an agent for two or more joint owners, may execute a demand for appraisal on behalf of a stockholder; however, the agent must identify the record owner or owners and expressly disclose the fact that, in executing the demand, the agent is acting as agent for such owner or owners. A record holder such as a bank or broker who holds shares as nominee for several beneficial owners may exercise appraisal rights with respect to the shares held for one or more beneficial owners while not exercising these rights with respect to the shares held for one or more other beneficial owners. In this case, the written demand should set forth the number of shares as to which appraisal is sought, and where no number of shares is expressly mentioned the demand will be presumed to cover all shares held in the name of the record owner.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

Stockholders who hold their shares in brokerage accounts or other nominee forms and who wish to exercise appraisal rights are urged to consult with their nominees to determine appropriate procedures for the making of a demand for appraisal by such nominee.

A stockholder who elects to exercise appraisal rights pursuant to Section 262 of the DGCL should mail or deliver a written demand to:

Hudson Holding Corporation
Attention: Secretary
111 Town Square Place, Suite 1500A
Jersey City, New Jersey 07310

Within ten days after the completion of the Merger, Merger Sub must send a notice as to the completion of the Merger to each of Hudson's former stockholders who has made a written demand for appraisal in accordance with Section 262 of the DGCL and who has not voted in favor of, or consented to, adoption of the Merger Agreement. Within 120 days after the completion of the Merger, but not after that date, either Merger Sub or any stockholder who has complied with the requirements of Section 262 of the DGCL may file a petition in the Delaware Court of Chancery demanding a determination of the value of the shares of common stock held by all stockholders demanding appraisal of their shares. Merger Sub is under no obligation to, and has no present intent to file a petition for appraisal, and stockholders seeking to exercise appraisal rights should not assume that Merger Sub will file a petition or that it will initiate any negotiations with respect to the fair value of the shares. Accordingly, stockholders who desire to have their shares appraised should initiate any petitions necessary for the perfection of their appraisal rights within the time periods and in the manner prescribed in Section 262 of the DGCL. Since Rodman has no obligation to file a petition, the failure of affected stockholders to do so within the period specified could nullify any previous written demand for appraisal. Under the Merger Agreement, Hudson has agreed to give Merger Sub prompt notice of any demands for appraisal it receives. Merger Sub has the right to participate in all negotiations and proceedings with respect to demands for appraisal. Hudson will not, except with the prior written consent of Merger Sub, make any payment with respect to any demands for appraisal, offer to settle, or settle, any demands.

Within 120 days after the completion of the Merger, any stockholder that complies with the provisions of Section 262 of the DGCL at that point in time will be entitled to receive from Merger Sub, upon written request, a statement setting forth the aggregate number of shares not voted in favor of the Merger Agreement and with respect to which Hudson received demands for appraisal and the aggregate number of holders of those shares. Merger Sub must mail this statement to the stockholder by the later of ten days after receipt of the request or ten days after expiration of the period for delivery of demands for appraisals under Section 262 of the DGCL.

A stockholder who timely files a petition for appraisal with the Delaware Court of Chancery must serve a copy upon Merger Sub. Merger Sub must, within 20 days of receipt of the petition, file with the Delaware Register in Chancery a duly verified list containing the names and addresses of all stockholders who have demanded appraisal of their shares and who have not reached agreements with it as to the value of their shares. After notice to stockholders as may be ordered by the Delaware Court of Chancery, the Delaware Court of Chancery is empowered to conduct a hearing on the petition to determine which stockholders are entitled to appraisal rights. The Delaware Court of Chancery may require stockholders who have demanded an appraisal for their shares and who hold stock represented by certificates to submit their certificates to the Register in Chancery for notation on the certificates of the pendency of the appraisal proceedings, and if any stockholder fails to comply with the requirement, the Delaware Court of Chancery may dismiss the proceedings as to that stockholder. After determining what stockholders are entitled to an appraisal, the Delaware Court of Chancery will appraise the fair value of their shares. This value will exclude any element of value arising from the accomplishment or expectation of the Merger, but will include a fair rate of interest, if any, to be paid upon the amount determined to be the fair value. The costs of the action may be determined by the Delaware Court of Chancery and taxed upon the parties as the Delaware Court of Chancery deems equitable. Upon application of a stockholder, the Delaware Court of Chancery may also order that all or a portion of the expenses incurred by any stockholder in connection with the appraisal proceeding be charged pro rata against the value of all of the shares entitled to appraisal. These expenses may include, without limitation, reasonable attorneys' fees and the fees and expenses of experts. Stockholders considering seeking appraisal should be aware that the fair value of their shares as determined under Section 262 of the DGCL could be more than, the same as, or less than the Merger Consideration they would be entitled to receive pursuant to the Merger Agreement if they did not seek appraisal of their shares. Stockholders should also be aware that investment banking opinions as to fairness from a financial point of view are not necessarily opinions as to fair value under Section 262 of the DGCL.

In determining fair value and, if applicable, a fair rate of interest, the Delaware Court of Chancery is to take into account all relevant factors. In *Weinberger v. UOP, Inc.*, the Delaware Supreme Court discussed the factors that could be considered in determining fair value in an appraisal proceeding, stating that proof of value by any techniques or methods which are generally

considered acceptable in the financial community and otherwise admissible in court should be considered, and that fair price obviously requires consideration of all relevant factors involving the value of a company.

Section 262 of the DGCL provides that fair value is to be exclusive of any element of value arising from the accomplishment or expectation of the merger. In *Cede & Co. v. Technicolor, Inc.*, the Delaware Supreme Court stated that such exclusion is a narrow exclusion [that] does not encompass known elements of value, but which rather applies only to the speculative elements of value arising from such accomplishment or expectation. In *Weinberger*, the Delaware Supreme Court construed Section 262 of the DGCL to mean that elements of future value, including the nature of the enterprise, which are known or susceptible of proof as of the date of the merger and not the product of speculation, may be considered. Any stockholder who has duly demanded an appraisal in compliance with Section 262 of the DGCL will not, after the completion of the Merger, be entitled to vote the shares subject to that demand for any purpose or be entitled to the payment of dividends or other distributions on those shares. However, stockholders will be entitled to dividends or other distributions payable to holders of record of shares as of a Record Date prior to the completion of the Merger.

Any stockholder may withdraw its demand for appraisal and accept the Merger Consideration by delivering to Merger Sub, within 60 days of the effective date of the Merger, a written withdrawal of the stockholder's demands for appraisal. Any attempt to withdraw made more than 60 days after the effective date of the Merger will require written approval of Merger Sub. Moreover, no appraisal proceeding before the Delaware Court of Chancery as to any stockholder shall be dismissed without the approval of the Delaware Court of Chancery, and such approval may be conditioned upon any terms the Delaware Court of Chancery deems just. If Merger Sub does not approve a stockholder's request to withdraw a demand for appraisal when the approval is required or if the Delaware Court of Chancery does not approve the dismissal of an appraisal proceeding, the stockholder would be entitled to receive only the appraised value determined in any such appraisal proceeding. This value could be higher or lower than, or the same as, the value of the Merger Consideration.

Failure to follow the steps required by Section 262 of the DGCL for perfecting appraisal rights may result in the loss of appraisal rights, in which event you will be entitled to receive the consideration with respect to your dissenting shares in accordance with the Merger Agreement. In view of the complexity of the provisions of Section 262 of the DGCL, if you are a Hudson stockholder and are considering exercising your appraisal rights under the DGCL, you should consult your own legal advisor.

Restrictions on Sales of Shares by Certain Affiliates

The shares of Rodman common stock to be issued or reserved for issuance in connection with the Merger will be freely transferable under the Securities Act, except for shares issued to any stockholder who may be deemed to be an affiliate of Rodman for purposes of Rule 144 under the Securities Act. Persons who may be deemed to be affiliates include individuals or entities that control, are controlled by, or under the common control with Rodman and may include the executive officers, directors and significant stockholders of Rodman.

Effect of the Merger on Outstanding Options, Equity Awards and Warrants

On January 4, 2011, the Hudson board of directors accelerated the vesting of all unvested shares of restricted Hudson common stock and options to purchase shares of Hudson common stock. At the effective time of the Merger, all outstanding Hudson stock options that have not been exercised will expire and terminate, all outstanding shares of restricted Hudson common stock will convert into the right to receive the per share Merger Consideration, and any outstanding Hudson warrants will be converted into the right to purchase and receive a number of shares of Rodman common stock equal to the number of shares of Hudson common stock subject to the warrant multiplied by the Exchange Ratio, and the exercise price of the warrant will equal the exercise price per share of Hudson common stock of such warrant divided by the Exchange Ratio.

Listing of Rodman Common Stock; Delisting/De-registration of Hudson Common Stock

The shares of Rodman common stock to be issued in the Merger will be listed on the NASDAQ Global Market. If the Merger is completed, Hudson common stock will no longer be registered under the Exchange Act or quoted on the OTC Bulletin Board.

Description of Rodman's Capital Stock

The following is a summary description of Rodman's capital stock. It does not purport to be complete and is subject to, and is qualified in its entirety by, the provisions of Rodman's certificate of incorporation and bylaws, forms of which have previously been filed with the SEC and by the applicable provisions of Delaware law. Additional information can be found under "Comparison of Rights of Rodman & Renshaw Capital Group, Inc. Stockholders and Hudson Holding Corporation Stockholders" beginning on page ____.

General Matters

Rodman's authorized capital stock consists of 100,000,000 shares of common stock, par value \$0.001 per share, and 1,000,000 shares of preferred stock, par value \$0.001 per share. As of the date of this proxy statement/prospectus, Rodman had _____ shares of common stock issued and outstanding and no shares of preferred stock issued or outstanding.

Common Stock

Voting. Holders of common stock are entitled to one vote for each share held of record on each matter submitted to a vote of stockholders, including the election of directors, and do not have any right to cumulate votes in the election of directors.

Dividends. Subject to the rights and preferences of the holders of any series of preferred stock which may at the time be outstanding, holders of common stock are entitled to receive ratably such dividends as the board of directors from time to time may declare out of funds legally available therefor.

Liquidation Rights. In the event of any liquidation, dissolution or winding-up of Rodman's affairs, after payment of all of Rodman's debts and liabilities and subject to the rights and preferences of the holders of any outstanding shares of any series of Rodman's preferred stock, the holders of common stock will be entitled to share ratably in the distribution of any of Rodman's remaining assets.

Other Matters. Holders of common stock have no conversion, preemptive or other subscription rights and there are no redemption rights or sinking fund provisions with respect to the common stock.

Preferred Stock

Rodman's board of directors may authorize the issuance of preferred stock in one or more series and may determine, with respect to any such series, the powers, preferences and rights of such series, and its qualifications, limitations and restrictions. The terms of any class or series of preferred stock will be set forth in a certificate of designations. As of the date of this proxy statement/prospectus, Rodman had no shares of preferred stock outstanding.

Anti-Takeover Effects of Delaware Law

Rodman is subject to the provisions of Section 203 of the DGCL, regulating corporate takeovers. In general, those provisions prohibit a Delaware corporation from engaging in any business combination with any interested stockholder for a period of three years following the date that the stockholder became an interested stockholder, unless:

prior to that date, the board of directors approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;

upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced; or

on or after the date the business combination is approved by the board of directors and authorized at a meeting of stockholders by at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 defines "business combination" to include the following:

any merger or consolidation involving the corporation and the interested stockholder;

any sale, transfer, pledge or other disposition of 10% or more of the assets of the corporation involving the interested stockholder;

subject to certain exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder;

any transaction involving the corporation that has the effect of increasing the proportionate share of the stock of any class or series of the corporation beneficially owned by the interested stockholder; or

the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

Section 203 of the DGCL defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling, controlled by, or under common control with any of these entities or persons. The statute could prohibit or delay mergers or other takeover or change in control attempts and, accordingly, may discourage attempts to acquire us even though such a transaction may offer Rodman stockholders the opportunity to sell their stock at a price above the prevailing market price.

Limitation of Liability and Indemnification Matters

Rodman has adopted provisions in its certificate of incorporation that limit or eliminate the personal liability of its directors to the maximum extent permitted by the DGCL. The DGCL expressly permits a corporation to provide that its directors will not be liable for monetary damages for a breach of their fiduciary duties as directors, except for liability:

for any breach of the director's duty of loyalty to Rodman or its stockholders;

for any act or omission not in good faith or that involves intentional misconduct or a knowing violation of law;

under Section 174 of the DGCL (relating to unlawful stock repurchases, redemptions or other distributions or payment of dividends); or

for any transaction from which the director derived an improper personal benefit.

These limitations of liability do not generally affect the availability of equitable remedies such as injunctive relief or rescission. Rodman's certificate of incorporation and bylaws also authorize Rodman to indemnify its officers, directors, employees and other agents to the fullest extent permitted under the DGCL and Rodman may advance expenses to its directors, officers, employees and other agents in connection with a legal proceeding, subject to limited exceptions.

As permitted by the DGCL, Rodman's certificate of incorporation and bylaws provide that:

it must indemnify the members of the board of directors and officers to the fullest extent permitted by the DGCL and advance expenses to the members of the board of directors and officers in connection with a legal proceeding, subject to limited exceptions; and

Rodman may purchase and maintain insurance on behalf of the current or former members of the board of directors, officers, employees or agents against any liability asserted against them and incurred by them in any such capacity, or arising out of their status as such.

At present, there is no pending litigation or proceeding involving any of Rodman's directors, officers, employees or agents in which indemnification by Rodman is sought, nor is Rodman aware of any threatened litigation or proceeding that may result in a claim for indemnification.

Rodman has entered into an agreement that provides indemnification to its directors, officers and all other persons requested or authorized to take actions on its behalf for all losses, damages, costs and expenses incurred by the indemnified person arising out of such person's service in such capacity, subject to limitations imposed by Delaware law. This agreement is in addition to Rodman's indemnification obligations under its bylaws described above.

Listing

Rodman's common stock is listed on the NASDAQ Global Market and trades under the symbol RODM.

Transfer Agent and Registrar

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

The transfer agent and registrar for Rodman's common stock is Corporate Stock Transfer, Inc., 3200 Cherry Creek South Drive, Suite 430, Denver, Colorado 80209.

THE MERGER AGREEMENT

The following summary describes material provisions of the Merger Agreement. This summary does not purport to be complete and may not contain all of the information about the Merger Agreement that is important to you. This summary is subject to, and qualified in its entirety by reference to, the Merger Agreement, which is attached to this proxy statement/prospectus as Annex A and is incorporated by reference into this proxy statement/prospectus. You are urged to read the Merger Agreement carefully and in its entirety, as it is the legal document governing the Merger.

The Merger Agreement summary below is included in this proxy statement/prospectus only to provide you with information regarding the terms and conditions of the Merger Agreement, and not to provide any other factual information regarding Hudson, Rodman or their respective businesses. Accordingly, the representations and warranties and other provisions of the Merger Agreement should not be read alone, but instead should be read only in conjunction with the information provided elsewhere in this proxy statement/prospectus.

The representations, warranties and covenants contained in the Merger Agreement and described in this proxy statement/prospectus were made only for purposes of the Merger Agreement and as of specific dates and may be subject to more recent developments, were made solely for the benefit of the parties to the Merger Agreement and may be subject to limitations agreed upon by the contracting parties, including being qualified by reference to confidential disclosures, for the purposes of allocating risk between parties to the Merger Agreement instead of establishing these matters as facts, and may apply standards of materiality in a way that is different from what may be viewed as material by you or by other investors. Accordingly, these representations and warranties alone may not describe the actual state of affairs as of the date they were made or at any other time. The representations and warranties contained in the Merger Agreement do not survive the effective time of the Merger. Investors should not rely on the representations, warranties and covenants or any description thereof as characterizations of the actual state of facts or condition of Hudson, Rodman or Merger Sub or any of their respective subsidiaries or affiliates. Moreover, information concerning the subject matter of the representations, warranties and covenants may change after the date of the Merger Agreement, which subsequent information may or may not be fully reflected in public disclosures by Hudson and Rodman.

The Merger

Each of the Hudson board of directors and the Rodman board of directors has approved the Merger Agreement, which provides for the Merger of Hudson with and into Merger Sub upon the terms, and subject to the conditions, of the Merger Agreement. Merger Sub will be the surviving corporation in the Merger and, following the Merger, will continue to be a wholly owned subsidiary of Rodman. After the Merger, Hudson will no longer be a publicly held corporation.

Closing

Under the terms of the Merger Agreement, the closing of the Merger will occur no later than two business days following the satisfaction or waiver of the conditions to closing (other than conditions that, by their nature, cannot be satisfied until the closing of the Merger, but subject to the satisfaction of, or to the extent permissible, waiver of those conditions).

Effective Time

At the closing of the Merger, Hudson and Merger Sub will file a Certificate of Merger with the Secretary of State of Delaware. The Merger will become effective when the Certificate of Merger is filed with the Secretary of State of the State of Delaware or at a later time as agreed to by Rodman and Hudson and set forth in the Certificate of Merger.

Merger Consideration

At the effective time of the Merger, each share of Hudson common stock issued and outstanding, except for shares of Hudson common stock that are owned by Hudson or Rodman or by any direct or indirect wholly owned subsidiary of Hudson (which will be canceled as a result of the Merger) will be converted into the right to receive, subject to certain adjustments as described below, the number of shares of Rodman common stock determined as follows.

For each share of common stock held, Hudson stockholders shall receive that number of shares of Rodman common stock as shall be equal to (i) (a) \$7,000,000 plus or minus, as the case may be, (b) 50% of the amount (the Adjustment Amount) by which the

Net Liquid Assets are greater or less than \$4 million (unless otherwise agreed) divided by (ii) \$2.69, divided by (iii) the aggregate number of shares of Hudson common stock issued and outstanding on the closing date of the Merger.

As of the Record Date, there were _____ shares of Hudson common stock outstanding and Hudson has, pursuant to the Merger Agreement agreed (with certain exceptions) not to issue any additional shares of its common stock. Based upon 76,965,367 shares of Hudson common stock being outstanding immediately prior to the effectiveness of the Merger, and without taking into account any Adjustment Amount the Exchange Ratio would be 0.0338. For each \$100,000 of Adjustment Amount, the Exchange Ratio would be adjusted upward or downward, as the case may be, by 0.0005.

Rodman will not issue any fractional shares of Rodman common stock in the Merger. Instead, a Hudson stockholder who otherwise would have received a fraction of a share of Rodman common stock will receive an amount in cash rather than a fractional share. This cash amount will be determined by multiplying the fraction of a share of Rodman common stock to which the holder would otherwise be entitled by the average closing sales prices for a share of Rodman common stock for the ten consecutive trading days ending two days prior to the effective time of the Merger, as such prices are reported by NASDAQ (as reported by The Wall Street Journal (Northeast edition), or, if not reported thereby, as reported by any other authoritative source).

Other than possible adjustments as described in the next paragraph below, the Exchange Ratio is fixed, and it will not change between now and the date of the Merger, including as a result of a change in the trading price of Rodman common stock or Hudson common stock or the operating and financial performance of either company. Therefore, the specific dollar value of the shares of Rodman common stock received by Hudson stockholders in the Merger will depend on the market value of Rodman common stock at the time the Merger is completed.

The Exchange Ratio will be adjusted if between signing of the Merger Agreement and the effective time of the Merger the outstanding Rodman common stock or Hudson common stock, or securities convertible or exchangeable into or exercisable into Rodman common stock or Hudson common stock, is changed into a different number of shares or different class by reason of any distribution, reclassification, stock split (including a reverse split), stock dividend or distribution, recapitalization, merger, subdivision, issuer tender or exchange offer with a Record Date within such period, or any similar event occurs, in which case the Exchange Ratio will be adjusted to eliminate the effects of such event on the Merger Consideration.

Treatment of Hudson Stock Options, Other Equity-Based Awards and Warrants

On January 4, 2011, the Hudson board of directors accelerated the vesting of all unvested shares of restricted Hudson common stock and options to purchase shares of Hudson common stock. At the effective time of the Merger, all outstanding Hudson stock options that have not been exercised will expire and terminate, all outstanding shares of restricted Hudson common stock will convert into the right to receive the per share Merger Consideration and any outstanding Hudson warrants will be converted into the right to purchase and receive a number of shares of Rodman common stock equal to the number of shares of Hudson common stock subject to the warrant multiplied by the Exchange Ratio, and the exercise price of the warrant will equal the exercise price per share of Hudson common stock of such warrant divided by the Exchange Ratio.

Conversion of Shares; Exchange of Certificates

The conversion of Hudson common stock into the right to receive the Merger Consideration will occur automatically at the effective time of the Merger.

Prior to the effective time of the Merger, Rodman will select a commercial bank or trust company (reasonably acceptable to Hudson) to act as the exchange agent, for the purpose of exchanging certificates or uncertificated shares representing Hudson common stock for the Merger Consideration and perform other duties as explained in the Merger Agreement. Simultaneously with or prior to the effective time of the Merger, Rodman will deposit or cause to be deposited with such exchange agent securities representing shares of Rodman common stock issuable and payable in exchange for outstanding Hudson common stock and, after the Merger, any cash and dividends or other distribution with respect to the Rodman common stock to be issued or paid in lieu of fractional shares and for any dividends or distributions declared following the effective time of the Merger.

Following the effective time of the Merger, there will be no further transfers of shares of Hudson common stock. If you hold your shares of Hudson common stock in certificated form, promptly after the effective time of the Merger, and in no event later than the fifth business day following the effective time of the Merger, Rodman will send or will cause the exchange agent to send you a letter of transmittal which will contain instructions on how to surrender your shares of Hudson common stock in exchange for the Merger Consideration. The exchange agent will pay you the Merger Consideration to which you are entitled after you have provided to the exchange agent your signed letter of transmittal, surrendered your shares of Hudson common stock and provided any other items specified by the letter of transmittal.

You should not submit your Hudson stock certificates for exchange until you receive the transmittal instructions and a form of letter of transmittal from the exchange agent.

Holders of book-entry shares will automatically receive the Merger Consideration and will not be required to deliver a certificate or an executed letter of transmittal to the exchange agent. Interest will not be paid or accrue in respect of the Merger Consideration. The Merger Consideration paid to you will be reduced by any applicable tax withholding. In the event of a transfer of ownership of Hudson common stock that is not registered in Hudson's transfer agent's records, payment of the Merger Consideration as described above will be made to a person other than the person in whose name the certificate so surrendered is registered only if the certificate is properly endorsed or otherwise is in proper form for transfer; and the person requesting the exchange must pay any transfer or other taxes required by reason of the payment of the Merger Consideration to such other person.

Hudson stockholders will not receive any fractional shares of Rodman common stock pursuant to the Merger. Instead of any fractional shares, stockholders will be paid an amount in cash for such fraction of a share calculated by multiplying the fraction of a share of Rodman common stock to which the holder would otherwise be entitled by the average closing sales prices for a share of Rodman common stock for the ten consecutive trading days ending on the second complete trading day prior to the effective time of the Merger, as such prices are reported by NASDAQ (as reported by The Wall Street Journal (New York edition), or, if not reported thereby, as reported by any other authoritative source).

Six months after the effective time of the Merger, the exchange agent will deliver to Rodman all cash and shares of Rodman common stock remaining in the exchange fund administered by the exchange agent that have not been distributed to holders of Hudson common stock. Thereafter, Hudson stockholders must look only to Rodman, and Rodman will remain liable, for payment of the Merger Consideration on their shares of Hudson common stock. Any portion of the exchange fund administered by the exchange agent remaining unclaimed by holders of shares of Hudson common stock two years after the effective time of the Merger (or immediately prior to such time as such amounts would otherwise escheat to or become property of any governmental authority) will, to the extent permitted by applicable law, become the property of the Rodman free and clear of any claims or interest of any person previously entitled thereto.

Dividends and Distributions

Whenever a dividend or other distribution is declared by Rodman in respect of Rodman common stock, the Record Date for which is at or after the effective time of the Merger, that declaration will include dividends or other distributions in respect of all shares of Rodman common stock issuable pursuant to the Merger Agreement. If you hold your shares of Hudson common stock in certificated form, any dividends or distributions declared after the effective time of the Merger with respect to Rodman common stock will accrue but will not be paid with respect to your shares until you have provided to the exchange agent or Rodman your signed letter of transmittal and any other items specified by the letter of transmittal with respect to your shares of Hudson common stock.

Subject to the effect of applicable laws, following surrender or delivery, as applicable, of a certificate of shares of Hudson common stock and letter of transmittal or receipt of an agent's message by the exchange agent in the case of a book-entry transfer of uncertificated shares of Hudson common stock to the exchange agent or Rodman, there will be issued and/or paid to the holder of such ownership evidence representing whole shares of Rodman common stock issued in exchange therefor, without interest: (i) at the time of such surrender or delivery, as the case may be, the dividends or other distributions with a Record Date at or after the effective time and a payment date on or prior to the date of issuance of such whole shares of Rodman common stock and not previously paid; and (ii) at the appropriate payment date, the dividends or other distributions payable with respect to such whole shares of Rodman common stock with a Record Date at or after the effective time on the closing date of the Merger but with a payment date subsequent to surrender or delivery and not previously paid.

There can be no assurance that any dividends will be declared or paid by Rodman following the effective time of the Merger, or as to the amount or timing of such dividends, if any. Any future dividends will be made at the discretion of the Rodman board of directors. Prior to the effective time of the Merger, Hudson may not declare or pay any dividends or distributions on its common stock without Rodman's prior written consent which is not to be unreasonably withheld or delayed by Rodman.

Representations and Warranties

Each of Rodman and Hudson has made representations and warranties to the other regarding, among other things:

corporate matters, including due organization, good standing and qualification;

capitalization;

corporate authority to enter into and perform the obligations contemplated by the Merger Agreement, enforceability of the Merger Agreement, approval of the Merger Agreement by the parties' boards of directors and stockholder voting requirements to consummate the Merger and the other transactions contemplated by the Merger Agreement;

required governmental filings and consents;

the absence of conflicts with, or violations of, organizational documents, other contracts and applicable laws, in each case, as a result of the Merger;

the timely filing and accuracy of periodic reports and other filings with the SEC since January 1, 2008, as well as with respect to financial statements contained therein, internal controls and compliance with the Sarbanes-Oxley Act of 2002;

that financial statements are in conformity with GAAP applied on a consistent basis;

the accuracy of disclosure documents, including the proxy statement/prospectus;

the absence of undisclosed material liabilities;

the absence of certain legal proceedings (pending or threatened), investigations and orders; and

tax matters.

Hudson has made additional representations and warranties about itself to Rodman as to the following:

corporate matters with respect to subsidiaries of Hudson, including due organization, good standing, qualification and ownership of outstanding capital stock;

compliance with applicable laws;

matters with respect to certain material contracts;

employee matters, including employee benefit plans;

intellectual property matters;

information technology matters;

broker-dealer matters;

FINRA matters;

title to, or leasehold interest in, certain properties; and

environmental matters.

Many of Hudson's and Rodman's representations and warranties are qualified by a material adverse effect standard. For purposes of the Merger Agreement, "material adverse effect", with respect to either party, is defined to mean any event, occurrence, fact or change that (i) is, or would reasonably be expected to become, individually or in the aggregate, materially adverse to the condition (financial or otherwise), business, assets or results of operations of such party and its subsidiaries, taken as a whole, but shall exclude any effect resulting from (a) any changes resulting from general economic, regulatory or political conditions, (b) general changes in the industry in which such party and its subsidiaries operate, (c) any changes resulting from the announcement, pendency or closing of the transactions provided for in the Merger Agreement, including the impact thereof on relationships with customers of Hudson or any of its affiliates, suppliers, vendors, lenders or joint venture participants or employees, (d) disruptions of supplies or acts of terrorism, war or acts of God, national or international political or social conditions, including the engagement by the United States in hostilities, whether or not pursuant to the declaration of a national emergency or war (e) any act expressly required under the Merger Agreement or for which the consent of Rodman is required pursuant to the Merger Agreement and as to which Rodman has withheld its consent or (f) any adverse effect that such party otherwise cures prior to closing of the Merger; except with respect to clauses (a), (b) and (d), to the extent that such effect or change is disproportionately adverse to such party and its subsidiaries as compared to other companies operating in the industries in which such party and its subsidiaries operate; or (ii) materially impairs the ability of such party to perform its obligations under the Merger Agreement or consummate the transactions contemplated by the Merger Agreement.

Conduct of Business Prior to Closing

Hudson has agreed in the Merger Agreement that, until the earlier of the effective time of the Merger and termination of the Merger Agreement, Hudson will and will cause each of its subsidiaries to conduct its ordinary course of business consistent with past practice and in compliance with all material applicable laws and governmental authorizations, and use its commercially reasonable best efforts to preserve intact its present business organization, maintain in effect all of its material foreign, federal, state and local

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

licenses, permits, consents, franchises, approvals and authorizations, keep available the services of its directors, officers and employees and maintain existing relations with its customers, lenders suppliers and others having material business relationships with it.

Except as set forth in the disclosures schedules to the Merger Agreement or with Rodman's prior written consent, which is not to be unreasonably withheld or delayed, Hudson will not and will not permit any of its subsidiaries to:

amend its organizational documents;

split, combine or reclassify any shares of its capital stock;

declare, set aside or pay any dividend or make any other distribution in respect of any shares of its capital stock;

redeem, repurchase, cancel or otherwise acquire any of its securities or any securities of any of its subsidiaries, other than the cancellation of Hudson stock options or warrants in connection with the exercise thereof;

(i) issue, deliver or sell, or authorize the issuance, delivery or sale of, any securities of Hudson or its subsidiaries, other than the issuance of any shares of Hudson common stock upon the exercise of Hudson stock options or warrants that are outstanding on the date of the Merger Agreement in accordance with the terms of those options or warrants or (ii) amend any term of any securities of Hudson or its subsidiaries (in each case, whether by merger, consolidation or otherwise);

incur any capital expenditures or any obligations or liabilities in respect thereof, in excess of \$25,000 individually or \$50,000 in the aggregate;

acquire any interest in any corporation, partnership, other business organization or any division thereof outside the ordinary course of business or any material amount of assets from any other person;

merge or consolidate with any other person;

adopt a plan of complete or partial liquidation, dissolution, recapitalization or restructuring;

sell, lease, license or otherwise dispose of any material subsidiary or any material amount of assets, securities or property except in the ordinary course of business consistent with past practice in an amount not to exceed \$25,000 in the aggregate;

create or incur any material lien on any material asset;

make any loan, advance or investment outside the ordinary course of business other than investments or capital contributions to any affiliated or unaffiliated investment partnerships pursuant to the terms of the fund documents for such partnerships as of the date of the Merger Agreement;

incur any indebtedness, or extend or modify the same outside the ordinary course of business, provided that all such indebtedness for borrowed money must be prepayable at any time by Hudson without penalty or premium;

enter into capital commitments for new investment partnerships or enter into any agreement to or otherwise agree to accelerate or increase investments in existing investment partnerships;

enter into any contract that would have been a material contract (as that term is used in the Merger Agreement) if it had been entered into on the date of the Merger Agreement other than (except with respect to certain contracts) in the ordinary course of business consistent with past practices, or terminate or amend in any material respect any material contract or waive any material right thereunder;

terminate, renew, suspend, abrogate, amend or modify in any material respect any material license or permit;

(i) grant or increase any severance or termination pay to (or amend any existing arrangement with) any of their respective directors, officers or employees other than as required pursuant to existing employee plans, (ii) increase benefits payable under any severance or termination pay policies or employment agreements existing as of the date of the Merger Agreement, (iii) enter into any employment, deferred compensation or other similar agreement (or any amendment to any such existing agreement) with any of their respective directors or officers (iv) establish, adopt or amend (except as required by applicable law) any collective bargaining, bonus, profit-sharing, thrift, pension, retirement, deferred compensation, severance, compensation, stock option, restricted stock or other benefit plan or arrangement covering any of their respective directors, officers or employees or (v) increase the compensation, bonus or other benefits payable to any of their respective directors, officers or, other than in the ordinary course of business consistent with past practice;

make any change in any method of accounting or accounting principles or practice, except for any such change required by GAAP or Regulation S-X under the Exchange Act;

settle, or offer or propose to settle any litigation, investigation, arbitration, proceeding or other claim involving or against Hudson or any of its subsidiaries involving a payment by Hudson or its subsidiaries in excess of \$25,000;

take any action that would make any representation or warranty of Hudson inaccurate in any material respect at, or as of any time before, the effective time or would materially delay the closing or the Merger;

fail to use reasonable efforts to maintain existing material insurance policies or comparable replacement policies;

change, terminate or fail to exercise any right to renew any material lease or sublease of real property listed or required to be listed on Hudson's disclosure schedule; or

agree, resolve or commit to do any of the foregoing.

Rodman has further agreed in the Merger Agreement that, to the fullest extent permitted by applicable law, from the date of the Merger Agreement until the effective time of the Merger, with certain exceptions and except with Hudson's prior written consent, which is not to be unreasonably withheld or delayed, Rodman will not, and will not permit any of its subsidiaries to, among other things, undertake the following actions:

amend its organizational documents;

split, combine or reclassify any shares of its capital stock;

declare, set aside or pay any dividend or make any other distribution in respect of any shares of its capital stock or other securities;

take any action that would make any representation or warranty of Rodman under the Merger Agreement inaccurate in any material respect at, or as of any time before, the effective time or would materially delay the closing of the Merger; or

agree, resolve or commit to do any of the foregoing with an effective date prior to the effective time of the Merger.

Agreement to Use Commercially Reasonable Best Efforts

Subject to the terms and conditions of the Merger Agreement, each of Rodman and Hudson has agreed to use its commercially reasonable best efforts to take, or cause to be taken, all actions and to do, or cause to be done, all things necessary, proper or advisable under applicable laws and regulations to consummate the Merger and the other transactions contemplated by the Merger Agreement.

Agreement Not to Solicit Other Offers

The Hudson board of directors adopted a resolution recommending that the Hudson stockholders adopt the Merger Agreement. Hudson has agreed that it will not, it will cause its subsidiaries and its and their officers and directors not to, and it will direct, and use its commercially reasonable best efforts to cause, its employees, investment bankers, attorneys, accountants, consultants and other agents, advisors or representatives not to, directly or indirectly:

solicit, initiate or knowingly take any action that it knows or reasonably should know would facilitate or encourage the submission of any Acquisition Proposal (as defined below);

enter into or participate in any discussions or negotiations with, furnish any information relating to Hudson or any of its subsidiaries or afford access to the business, properties, assets, books or records of Hudson or any of its subsidiaries to, otherwise cooperate in any way with, or knowingly assist, participate in, facilitate or encourage any effort by any third party that is seeking to make, or has made, an Acquisition Proposal;

fail to make, withdraw or modify in a manner adverse to Rodman or publicly propose to withdraw or modify in a manner adverse to Rodman the recommendation from the Hudson board of directors to proceed with the Merger (with a neutral position or no position with respect to any Acquisition Proposal considered an adverse modification, subject to certain exceptions), recommend, adopt or approve or publicly propose to recommend, adopt or approve an Acquisition Proposal, or take any action or make any statement inconsistent with recommendation from the Hudson board of directors to proceed with the Merger (any of these actions being referred to as an Adverse Recommendation Change);

grant any waiver or release under any standstill or similar agreement with respect to any class of equity securities of Hudson or any of its subsidiaries; or

enter into any agreement in principle, letter of intent, term sheet, merger agreement, acquisition agreement, option agreement, joint venture agreement, partnership agreement or other similar instrument constituting or relating to an Acquisition Proposal.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

Hudson has agreed to cease immediately and cause to be terminated any and all existing activities, discussions or negotiations, if any, with any third party conducted prior to the date of the Merger Agreement with respect to any Acquisition Proposal. During the term of the Merger Agreement, Hudson may not take any actions to make any state takeover statute (including any Delaware state takeover statute) or similar statute inapplicable to any Acquisition Proposal.

However, prior to the adoption of the Merger Agreement by Hudson stockholders, the Hudson board of directors may, directly or indirectly through advisors, agents or other intermediaries, subject to compliance with the Merger Agreement:

engage in negotiations or discussions with any third party that has made after the date of the Merger Agreement a Superior Proposal (as defined below) or an unsolicited bona fide Acquisition Proposal that the Hudson board of directors reasonably believes (after considering the advice of a financial advisor of nationally recognized reputation and outside legal counsel) is reasonably likely to lead to a Superior Proposal;

thereafter furnish to such third party nonpublic information relating to Hudson or any of its subsidiaries pursuant to a confidentiality agreement with terms no less favorable to Hudson than those contained in the confidentiality agreement between Hudson and Rodman; and

following receipt of a Superior Proposal or a change of circumstances, make an Adverse Recommendation Change,

but in each case referred to in the foregoing bullet points, only if the Hudson board of directors determines in good faith by a majority vote, after considering advice from outside legal counsel to Hudson, that such action is required in order for the board of directors to comply with its fiduciary duties under applicable law.

The Hudson board of directors may not make an Adverse Recommendation Change unless Hudson has delivered to Rodman a prior written notice advising Rodman that it intends to take such action. Hudson must notify Rodman promptly (but in no event later than 24 hours) after receipt by Hudson of any Acquisition Proposal, any indication that a third party is considering making an Acquisition Proposal or of any request for information relating to Hudson by any third party that may be considering making, or has made, an Acquisition Proposal, which notice must be provided orally and in writing and must identify the third party making, and the material terms and conditions of, any such Acquisition Proposal, indication or request (including any changes thereto). Hudson must keep Rodman fully informed, on a current basis, of the status and details of any such Acquisition Proposal, indication or request and must promptly (but in no event later than 24 hours after receipt) provide to Rodman copies of all significant correspondence and written materials sent or provided to Hudson or any of its subsidiaries that describes any terms or conditions of any Acquisition Proposal.

As used in the Merger Agreement, an Acquisition Proposal means any offer or proposal for, or any third party indication of interest in:

any acquisition or purchase, direct or indirect, of 15% or more of the consolidated assets of Hudson and its subsidiaries or 15% or more of any class of equity or voting securities of Hudson or any of its subsidiaries whose assets, individually or in the aggregate, constitute 15% or more of the consolidated assets of Hudson;

any tender offer or exchange offer that, if consummated, would result in any person becoming the beneficial owner of 15% or more of any class of equity or voting securities of Hudson or any of its subsidiaries whose assets, individually or in the aggregate, constitute 15% or more of the consolidated assets of Hudson; or

a merger, consolidation, share exchange, business combination, sale of substantially all the assets, reorganization, recapitalization, liquidation, dissolution or other similar transaction involving Hudson or any of its subsidiaries whose assets, individually or in the aggregate, constitute 15% or more of the consolidated assets of Hudson.

As used in the Merger Agreement, Superior Proposal means any bona fide, written unsolicited Acquisition Proposal (except that all references to 15% or more in the definition of Acquisition Proposal will be deemed to be references to more than 50%) on terms that the Hudson board of directors determines in good faith by a majority vote, after considering the advice of a financial advisor of nationally recognized reputation and outside legal counsel and taking into account all the terms and conditions of the Acquisition Proposal would result in a transaction:

that if consummated, is more favorable to Hudson stockholders from a financial point of view than the Merger or, if applicable, any proposal by Rodman to amend the terms of the Merger Agreement taking into account all the terms and conditions of such proposal and the Merger Agreement (including the expected timing and likelihood of consummation, taking into account any governmental and other approval requirements);

that is reasonably capable of being completed on the terms proposed (taking into account the identity of the person making the proposal, approval requirements and all other financial, legal and other aspects of the proposal); and

for which financing, if it is wholly or partially a cash transaction, is fully committed or reasonably determined by the Hudson board of directors to be available.

Other Covenants and Agreements

The Merger Agreement contains certain other covenants and agreements relating to, among other things:

Hudson Stockholders Meeting

Hudson has agreed to cause a meeting of Hudson's stockholders to be called and held as soon as reasonably practicable for the purpose of voting on the approval and adoption of the Merger Agreement and approval of the Merger. The Hudson board of directors has agreed to recommend approval and adoption of the Merger Agreement and approval of the Merger by Hudson stockholders and, except as otherwise permitted in the Merger Agreement, not to withdraw, modify or qualify (or publicly propose to withdraw, modify or qualify) in any manner adverse to Rodman such recommendation or approve, adopt or recommend any Acquisition Proposal except as otherwise set forth above under Agreement Not to Solicit Other Offers. Hudson has agreed to use its commercially reasonable best efforts to obtain stockholder approval of the Merger Agreement and the Merger.

Access to Information/Employees

During the period prior to the effective time of Merger and subject to applicable law, Hudson has agreed to, and will cause each of its subsidiaries to:

give to Rodman, its counsel, financial advisors, auditors and other authorized representatives reasonable access to its offices, properties, books and records during normal business hours;

furnish to Rodman, its counsel, financial advisors, auditors and other authorized representatives such financial and operating data and other information as such persons may reasonably request; and

instruct its employees, counsel, financial advisors, auditors and other authorized representatives to cooperate with Rodman in its investigation.

Indemnification and Insurance

From and after the effective time of the Merger, Rodman will indemnify and hold harmless the present and former officers and directors of Hudson (referred to as indemnified persons) in respect of acts or omissions occurring at or prior to the effective time of the Merger to the fullest extent permitted by Delaware law or any other applicable law or provided under Hudson's certificate of incorporation and bylaws in effect on the date of the Merger Agreement.

For six years after the effective time of the Merger, Rodman will provide officers and directors liability insurance in respect of acts or omissions occurring prior to the effective time of the Merger on terms with respect to coverage and amount no less favorable than those of such policy in effect on the date of the Merger Agreement, or will purchase a non-cancelable tail coverage insurance policy under Hudson's current officers and directors liability insurance policies, in each case subject to a cap of 125% of Hudson's current annual premium.

Board Representation

At the effective time of the Merger, until their successors are duly elected or appointed and qualified, the board of directors and officers of the surviving corporation will be the directors and officers of Merger Sub.

Conditions to Complete the Merger

Each of Rodman's, Merger Sub's and Hudson's obligation to effect the Merger is subject to the satisfaction (or, to the extent permissible, waiver) of the following conditions:

adoption of the Merger Agreement by Hudson stockholders in accordance with Delaware law;

the absence of any applicable law that prohibits, makes the Merger illegal or enjoins the consummation of the Merger;

approval for the listing on the NASDAQ Global Market of Rodman common stock to be issued to the Hudson stockholders pursuant to the Merger, subject to official notice of issuance;

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

the registration statement on Form S-4, of which this proxy statement/prospectus forms a part, having been declared effective by the SEC and the absence of an effective stop order suspending the effectiveness of the Form S-4 or proceedings pending before the SEC for that purpose; and

such authorizations, consents, orders, declarations or approvals of, or filings with, or terminations or expirations of waiting periods imposed by, governmental authority as set forth in the disclosure schedules to the Merger Agreement have been obtained, made or occurred to the extent that any failure to obtain such authorizations, consents, orders, declarations or approvals of, or to make filings with, or to have terminations or expirations of waiting periods occur that would have or would reasonably be likely to have, individually or in the aggregate, a material adverse effect on Hudson or Rodman.

Rodman's and Merger Sub's obligation to effect the Merger is subject to the satisfaction (or, to the extent permissible, waiver) of a number of conditions, including:

Hudson having performed in all material respects all of its obligations under the Merger Agreement required to be performed by it at or prior to the effective time of the Merger;

the accuracy of the representations and warranties of Hudson contained in the Merger Agreement at and as of the date of the Merger Agreement and the effective time of the Merger as if made at and as of such time, except to the extent that the failure of any such representations and warranties to be so true and correct (having eliminated any qualifications by reference to materiality or material adverse effect therein) does not have, and would not reasonably be likely to have, individually or in the aggregate, a material adverse effect on Hudson;

certain individuals identified shall have entered into employment agreements with Rodman on mutually agreed upon terms;

the Net Liquid Assets of Hudson as of the Closing Date shall exceed \$2.5 million, less any Agreed Upon Expenditure Amount (as defined);

holders of not more than 5% of the outstanding shares of Hudson common stock shall have perfected their statutory right to seek appraisal of their shares;

subsequent to the date of the Merger Agreement, there not having occurred and be continuing any event, occurrence, revelation or development of a state of circumstances or facts which, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on Hudson; and

Rodman having received the opinion of Haynes and Boone, LLP, counsel to Hudson, dated the closing date of the Merger, or other counsel reasonably acceptable to Rodman, to the effect that the Merger will be treated for Federal income tax purposes as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the Code), and that each of Rodman, Merger Sub and Hudson will be a party to that reorganization within the meaning of Section 368(b) of the Code.

Hudson's obligation to effect the Merger is subject to the satisfaction (or, to the extent permissible, waiver) of a number of conditions, including:

each of Rodman and Merger Sub having performed in all material respects all of its obligations under the Merger Agreement required to be performed by it at or prior to the effective time of the Merger;

the accuracy of the representations and warranties of Rodman contained in the Merger Agreement in all material respects at and as of the date of the Merger Agreement and the effective time of the Merger as if made at and as of such time except to the extent that the failure of any such representations and warranties to be so true and correct (having eliminated any qualifications by reference to materiality or material adverse effect therein) does not have, and would not reasonably be likely to have, individually or in the aggregate, a material adverse effect on Rodman;

subsequent to the date of the Merger Agreement, there not having occurred and be continuing as of or otherwise arisen before the effective time of the Merger any event, occurrence, revelation or development of a state of circumstances or facts which, individually or in the aggregate, has had or would reasonably be expected to have a material adverse effect on Rodman; and

Hudson having received the opinion of Haynes and Boone, LLP, counsel to Hudson, or other counsel reasonably acceptable to Hudson, dated the closing date of the Merger, to the effect that the Merger will be treated for U.S. federal income tax purposes as a reorganization within the meaning of Section 368(a) of the Code, and that each of Rodman, Merger Sub and Hudson will be a party to that reorganization within the meaning of Section 368(b) of the Code.

Termination of the Merger Agreement

Rodman and Hudson may mutually agree to terminate the Merger Agreement before completing the Merger, even after Hudson stockholder approval. In addition, either of Rodman or Hudson may terminate the Merger Agreement if:

the Merger has not been consummated by the termination date (except that this right is not available to any party whose breach of the Merger Agreement resulted in failure of the Merger to be consummated); or

there is any applicable law that (a) makes consummation of the Merger illegal or otherwise prohibited or (b) enjoins Hudson or Rodman from consummation of the Merger and such injunction has become final and non appealable.

Rodman may also terminate the Merger Agreement under the following circumstances:

an Adverse Recommendation Change occurs or the Hudson board of directors fails to publicly confirm the recommendation of the Hudson board of directors to proceed with the Merger within five business days of a written request by Rodman that it do so;

Hudson breaches its representations and warranties, covenants or agreements under the Merger Agreement such that the applicable closing conditions will not have been satisfied (and such condition is incapable of being satisfied prior to the termination date); or

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Hudson or Merger Sub shall have occurred such that certain closing conditions will not have been satisfied (and such condition is incapable of being satisfied prior to the termination date).

Hudson may terminate the Merger Agreement if:

the Hudson board of directors authorizes Hudson, subject to complying with the terms of the Merger Agreement, to enter into a written agreement concerning a Superior Proposal, but only if Hudson pays any amounts due as described below under Expenses and Fees Termination Fees Payable by Hudson and prior to any such termination,

Hudson notifies Rodman in writing of its intention to terminate the Merger Agreement and to enter into a binding written agreement concerning an Acquisition Proposal that constitutes a Superior Proposal, attaching the most current version of such agreement (or a description of all material terms and conditions thereof), and

Rodman does not make, within four days of receipt of such written notification (subject to certain extensions), an offer that is at least as favorable to the stockholders of Hudson as such Superior Proposal; or

a breach of any representation or warranty or failure to perform any covenant or agreement on the part of Rodman or Merger Sub shall have occurred such that certain closing conditions will not have been satisfied (and such condition is incapable of being satisfied prior to the termination date).

Effect of Termination

If the Merger Agreement is terminated, it will become void and of no effect, and there will be no liability on the part of Rodman, Merger Sub or Hudson to any other party (except as to any expenses or fees owed, as described below under Expenses and Fees), except if such termination resulted from the (i) failure of either party to fulfill a condition to the performance of the obligations of the other party, (ii) failure of either party to perform a covenant hereof or (iii) willful or reckless breach by any party of any representation or warranty contained therein, such party will be fully liable for any and all liabilities and damages incurred or suffered by the other party as a result of such failure.

Expenses and Fees

Each of Rodman and Hudson will be responsible for all expenses incurred by it in connection with the negotiation and completion of the transactions contemplated by the Merger Agreement.

Termination Fees Payable by Hudson

Under the terms of the Merger Agreement, Hudson would be obligated to pay Rodman a \$350,000 cash termination fee if:

the Hudson board of directors authorizes Hudson, subject to complying with the terms of the Merger Agreement, to enter into a written agreement concerning a Superior Proposal; or

an Adverse Recommendation Change occurs or the Hudson board of directors fails to publicly confirm the recommendation by the Hudson board of directors to proceed with the Merger within five business days of a written request by Rodman that it do so, but only if such Adverse Recommendation Change was not solely the result of the occurrence of a material adverse effect of Rodman.

Specific Performance

Each party is entitled to seek an injunction or injunctions to prevent a breach of the Merger Agreement and to enforce specifically the terms and provisions of the Merger Agreement in the United States District Court for the Southern District of New York or any New York State court sitting in the City of New York.

Amendment and Waiver

Any provision of the Merger Agreement may be amended or waived prior to the effective time of the Merger if, but only if, such amendment or waiver is in writing and is signed, in the case of an amendment, by each party to the Merger Agreement or, in the case of a waiver, by each party against whom the waiver is to be effective. However, after Hudson stockholder approval is obtained, there may be no amendment or waiver that pursuant to Delaware law requires further stockholder approval unless we obtain the required stockholder approval.

OTHER AGREEMENTS RELATED TO THE MERGER

The Stockholder Voting Agreement

The following summary describes material provisions of the Stockholder Voting Agreement (the "Voting Agreement") that has been entered into by Rodman with certain shareholders of Hudson, including certain officers and directors. This summary does not purport to be complete and may not contain all of the information about the Voting Agreement that is important to you. This summary is subject to, and qualified in its entirety by reference to, the form of Voting Agreement, which is attached to this proxy statement/prospectus as Annex C and is incorporated by reference into this proxy statement/prospectus. You are urged to read the form of Voting Agreement carefully and in its entirety.

As a condition to its entering into the Merger Agreement, Rodman required certain stockholders of Hudson to enter into a Voting Agreement with Rodman, in each case with respect to all of the shares of Hudson common stock held by them (referred to collectively in this proxy statement/prospectus as the "voting agreement shares"). The stockholders party to the Voting Agreement are Seaport Hudson LLC, Anthony M. Sanfilippo, Keith R. Knox, Peter Zugschwert, John C. Shaw, Jr., John W. Mascone, Kenneth D. Pasternak, Ajay Sareen and Frank J. Drazka. As of the Record Date, the voting agreement shares represent approximately 52.1% of the votes eligible to be cast at the Meeting.

The Hudson stockholders party to the Voting Agreement have agreed to do the following, among others:

vote all their shares of Hudson common stock in favor of the Merger; and

vote their shares of Hudson common stock against any action, transaction or agreement that would result in a breach in respect of any covenant, representation or warranty or any other obligation or agreement of Hudson under the Merger Agreement or the Voting Agreement.

The Hudson stockholders party to the Voting Agreement have also agreed not to sell, directly or indirectly, transfer or otherwise dispose of any of their shares unless the proposed transferee agrees in writing to be bound by the terms of the Voting Agreement. The Voting Agreement remains in full force and effect until the earlier of (i) the date after the Meeting is held to consider approval and adoption of the Merger Agreement and approval of the Merger and (ii) the termination of the Merger Agreement, but in no event later than June 30, 2011.

**COMPARISON OF RIGHTS OF
RODMAN & RENSHAW CAPITAL GROUP, INC. STOCKHOLDERS AND
HUDSON HOLDING CORPORATION STOCKHOLDERS**

Both Rodman and Hudson are incorporated under the laws of the State of Delaware and, accordingly, the rights of the stockholders of each are currently governed by the Delaware General Corporation Law, which is referred to as the DGCL. Upon completion of the Merger, the Hudson stockholders will become stockholders of Rodman and the rights of the former Hudson stockholders will be governed by Delaware law, the certificate of incorporation of Rodman, as amended, and the bylaws of Rodman, as amended.

*The following discussion is a summary of the material differences between the current rights of Rodman common stockholders and the current rights of Hudson common stockholders. While this summary includes the material differences between the current rights of Rodman common stockholders and the current rights of Hudson stockholders, this summary may not contain all of the information that is important to you. You are urged to carefully read this entire proxy statement/prospectus, the relevant provisions of the DGCL and the other governing documents referred to in this proxy statement/prospectus for a more complete understanding of the differences between being a common stockholder of Rodman and a common stockholder of Hudson. Rodman and Hudson have filed with the SEC their respective governing documents referenced in this summary of stockholder rights and will send copies of these documents to you, without charge, upon your request. See *Where You Can Find More Information* beginning on page ____.*

	Rights of Rodman Stockholders	Rights of Hudson Stockholders
Authorized Capital Stock	Rodman is authorized under its certificate of incorporation to issue 101,000,000 shares, consisting of 100,000,000 shares of common stock, par value \$0.001 per share, and 1,000,000 shares of preferred stock, par value \$0.001 per share.	Hudson is authorized under its certificate of incorporation to issue 201,000,000 shares, consisting of 200,000,000 shares of common stock, par value \$0.001 per share, and 1,000,000 shares of preferred stock, par value \$0.001 per share.
Special Meetings of Stockholders	The bylaws of Rodman provide that a special meeting of the stockholders may be called at any time by the board of directors or the holders of at least 50% of all shares entitled to vote at such meeting.	The bylaws of Hudson provide that a special meeting of the stockholders may be called at any time by the Chairman of the Board or by the board of directors.
Stockholder Proposals	There are no provisions in the Rodman or Hudson bylaws or certificate of incorporation governing stockholder proposals, and accordingly, the default rules of the DGCL apply, under which no advance notice is required.	
Nominations of Candidates for Election to the Board of Directors	There are no provisions in the Rodman or Hudson bylaws or certificate of incorporation governing nomination of candidates for election to the board of directors; therefore, the default rules of the DGCL apply.	
Notice of Stockholder Meetings	The Rodman and Hudson bylaws provide that written notice of any meeting of the stockholders must be given not less than ten nor more than sixty days before the date of the meeting to each stockholder entitled to vote at such meeting.	
Number of Directors	The Rodman and Hudson bylaws provide that the size of the board of directors will be determined from time to time by the board of directors.	

	Rights of Rodman Stockholders	Rights of Hudson Stockholders
Election of Directors	Under the bylaws of Rodman, subject to the rights of any holder of any preferred stock outstanding, directors are elected annually by a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.	Under the bylaws of Hudson, subject to the rights of any holder of any preferred stock outstanding, directors are elected annually by a majority of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the election of directors.
Removal of Directors	Under the DGCL, any director or the entire board of directors may be removed, with or without cause, by the holders of a majority of the shares then entitled to vote at an election of directors, except that in the case of a corporation with a classified board, directors may be removed from office only for cause by a majority stockholder vote.	Under the bylaws of Hudson, any director or the entire board of directors may be removed, at any time, with or without cause, by a majority vote of the shares then entitled to vote at an election of directors.
Vacancies	Rodman's certificate of incorporation provides that in the case of any vacancies, by reason of an increase in the number of directors or resignation or otherwise, directors to fill such vacancies may be appointed by the majority of the directors then in office, to hold office until the next election of directors.	Hudson's bylaws provide that in the case of any vacancies, by reason of an increase in the number of directors or resignation or otherwise, directors to fill such vacancies may be appointed by the majority of the directors then in office, to hold office until the expiration of the term of office of the director whom he or she has replaced or until his or her successor is elected and qualified.
Limitation on Liability of Directors	Under the certificate of incorporation of both Rodman and Hudson, a director of such corporations will not be personally liable to such corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to such corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 147 of the DGCL, or (iv) for any transaction from which the director derived an improper personal benefit.	
Indemnification and Advancement of Expenses of Directors and Officers	Under the certificate of incorporation and bylaws of Rodman, Rodman must indemnify to the fullest extent authorized by law any person made or threatened to be made a party to any action, suit or proceeding, whether criminal, civil, administrative or investigative, by reason of the fact that such person is or was a director, officer or employee of Rodman or any predecessor of Rodman or serves or served any other enterprise as a director, officer or employee at the request of Rodman or any predecessor of Rodman.	Under the bylaws of Hudson, Hudson must indemnify to the fullest extent authorized by law any person made or threatened to be made a party to any action, suit or proceeding, whether criminal, civil, administrative or investigative, by reason of the fact that such person is or was a director, officer or employee of Hudson or serves or served any other enterprise as a director, officer, employee or agent at the request of Hudson.
Amendment of the Certificate of Incorporation	Rodman and Hudson do not have provisions governing amendment of the certificate of incorporation, therefore, the default rules of the DGCL apply. Under the DGCL, an amendment of the certificate of incorporation must be adopted by the board of directors and approved by the affirmative vote of majority of any class of stockholders so affected by the amendment if the amendment would increase or decrease the aggregate number of authorized shares of such class, increase or decrease the par value of the shares of such class, or alter or change the powers, preferences, or special rights of the shares of such class so as to affect them adversely.	
Action by Written Consent	The bylaws of both Rodman and Hudson permit any action to be taken at any annual or special meeting to be taken without a meeting if consent in writing is signed by the holders of outstanding stock having not less than the minimum number of votes required to take such action.	

PROPOSAL TWO: ADJOURNMENT OF THE MEETING

Adjournment of the Meeting

Although it is not currently expected, the Meeting may be adjourned to solicit additional proxies if there are not sufficient votes to approve and adopt the Merger Agreement and approve the Merger. In that event, Hudson may ask its stockholders to consider the adjournment of the Meeting to solicit additional proxies, but not the proposal to approve and adopt the Merger Agreement and approve the Merger.

In this proposal, we are asking you to authorize the holder of any proxy solicited by the Hudson board of directors to vote in favor of granting discretionary authority to the proxies to adjourn the Meeting, if necessary, for any purpose, including to solicit additional proxies. If Hudson stockholders approve the adjournment proposal, we could adjourn the Meeting and any adjourned session of the Meeting and use the additional time to solicit additional proxies, including the solicitation of proxies from stockholders that have previously returned properly executed proxies. Additionally, we may seek to adjourn the Meeting if a quorum is not present at the Meeting.

Vote Required and Board Recommendation

The holders of a majority of the voting power present in person or represented by proxy at the Meeting must vote **FOR** the approval of the proposal to adjourn the Meeting for it to pass. Abstentions will have the same effect as voting against the proposal to approve such other matter. **Because approval is based on the affirmative vote of the combined voting power of all shares present in person or by proxy, your failure to vote or an abstention will have the same effect as a vote against approval of the proposal to adjourn the Meeting.**

No proxy that is specifically marked **AGAINST** approval and adoption of the Merger Agreement and approval of the Merger will be voted in favor of the adjournment proposal, unless it is specifically marked **FOR** the proposal to adjourn the Meeting.

The Hudson board of directors recommends that you vote FOR the proposal to adjourn the Meeting, if necessary, for any purpose, including to solicit additional proxies if there are not sufficient votes to approve and adopt the Merger Agreement and approve the Merger.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES OF THE MERGER

In the opinion of Haynes and Boone, LLP, the following section describes the anticipated material U.S. federal income tax considerations of the Merger generally applicable to Hudson stockholders. These opinions and the following discussion are based on and subject to the Code, the regulations promulgated under the Code, existing administrative interpretations and court decisions, all of which are subject to change, possibly with retroactive effect. Any such change could affect the continuing validity of the discussion. This discussion applies to you only if you hold your Hudson common stock as capital assets for tax purposes. This discussion does not address all aspects of U.S. federal income taxation that may be important to you in light of your particular circumstances or if you are subject to special rules, such as rules relating to:

stockholders who are not United States persons;

financial institutions;

tax-exempt organizations;

insurance companies;

dealers in securities or currencies;

traders in securities that elect to use a mark-to-market method of accounting;

stockholders who acquired their shares of Hudson common stock pursuant to the exercise of employee stock options or otherwise acquired shares as compensation; and

stockholders who hold their shares of Hudson common stock as part of a hedge, straddle or other risk reduction, constructive sale or conversion transaction.

It is intended that the Merger will qualify as a reorganization under the provisions of Section 368(a) of the Code. Rodman's and Hudson's obligations to complete the Merger are conditioned on, among other things, Rodman's and Hudson's receipt of an opinion from Haynes and Boone, LLP, dated the closing date, to the effect that, on the basis of the facts, representations and assumptions set forth in the opinions, the Merger will be treated for federal income tax purposes as a reorganization within the meaning of Section 368(a) of the Code and that each of Rodman, Merger Sub and Hudson will be a party to that reorganization within the meaning of Section 368(b) of the Code. The following discussion assumes that the Merger will be treated accordingly.

The opinions of counsel described above will be based on the then-existing law, will assume the absence of changes in existing facts, will rely on customary assumptions and may rely on representations contained in certificates executed by officers of Rodman, Merger Sub and Hudson. The opinions neither bind the Internal Revenue Service, or the IRS, nor preclude the IRS from adopting a contrary position, and it is possible that the IRS may successfully assert a contrary position in litigation or other proceedings. Neither Rodman nor Hudson intends to obtain a ruling from the IRS with respect to the tax consequences of the Merger.

Tax Implications to Hudson's Stockholders

If you are a holder of Hudson common stock and you are not subject to special rules including the rules described above, your exchange of Hudson common stock for Rodman common stock will have the following consequences to you:

Except as discussed below with respect to cash received in lieu of fractional shares, you will not recognize gain or loss for U.S. federal income tax purposes when you exchange your Hudson common stock solely for Rodman common stock pursuant to the Merger.

The aggregate tax basis of the Rodman common stock you receive as a result of the Merger will be the same as your aggregate tax basis in Hudson common stock you surrender in exchange for the Rodman common stock, less any basis attributable to fractional share interests in Rodman common stock for which cash is received.

The holding period of the Rodman common stock you receive as a result of the exchange will include the holding period of Hudson common stock you exchange in the Merger.

If you receive cash in the Merger instead of a fractional share interest in Rodman common stock, you will be treated as having received the cash in redemption of the fractional share interest. If the redemption is not essentially equivalent to a dividend under the relevant Code provision, after giving effect to certain constructive ownership rules, you would recognize capital gain or loss on the

deemed redemption in an amount equal to the difference between the amount of cash received and your adjusted tax basis allocable to such fractional share. Otherwise, the cash payment may be taxable to you as a dividend. Any capital gain or loss will be long-term capital gain or loss if you have held your shares of Hudson common stock for more than one year at the time the Merger is completed. Long-term capital gain of a non-corporate U.S. stockholder is generally subject to a maximum rate of 15%. The deductibility of capital losses is subject to limitations. Because the possibility of dividend treatment depends primarily upon your particular circumstances, including the application of certain constructive ownership rules, you should consult your own tax advisor regarding the potential tax consequences of the Merger to you.

Backup Withholding and Information Reporting. Payments of cash to you instead of a fractional share of Rodman common stock may, under certain circumstances, be subject to information reporting and backup withholding unless you provide proof of an applicable exemption or furnish your taxpayer identification number, and otherwise comply with applicable requirements of the backup withholding rules. Any amounts withheld from payments to you under the backup withholding rules are not an additional tax and will be allowed as a refund or credit against your U.S. federal income tax liability, provided the required information is furnished to the IRS.

The foregoing discussion is not intended to be a complete analysis or description of all potential U.S. federal income tax consequences of the Merger. In addition, the discussion does not address tax consequences which may vary with, or are contingent on, your individual circumstances. Moreover, the discussion does not address any non-income tax or any foreign, state or local tax consequences of the Merger. Accordingly, you are strongly encouraged to consult with your own tax advisor as to the tax consequences of the Merger in your particular circumstances, including the applicability and effect of the alternative minimum tax and any foreign, state, local and other tax laws and of changes in those laws.

**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT
OF
HUDSON HOLDING CORPORATION**

The following table sets forth information regarding the number of shares of Hudson's common stock beneficially owned on January 4, 2011 by: (i) each person who is known by us to beneficially own 5% or more of the outstanding shares of Hudson's common stock; (ii) each of Hudson's named executive officers; (iii) all of members of Hudson's board of directors and Hudson's executive officers; and (iv) all of Hudson's directors and current executive officers as a group. Anthony M. Sanfilippo, Chief Executive Officer, and Keith R. Knox, President and Secretary, are currently the only executive officers of Hudson. The applicable percentage ownership is based on 76,965,367 shares of Hudson common stock issued and outstanding as of January 4, 2011.

Except as otherwise indicated, the beneficial owners listed in the table below have sole voting and investment powers with respect to the shares indicated, and the address for each beneficial owner is c/o Hudson Holding Corporation, 111 Town Square Place, Suite 1500A, Jersey City, New Jersey 07310.

Name and Address of Beneficial Owner	Excluding Effects of the Voting Agreement		Including Effects of the Voting Agreement	
	Number of Shares Beneficially Owned (1)	Percentage of Shares Beneficially Owned (2)	Number of Shares Beneficially Owned (1) (3)	Percentage of Shares Beneficially Owned (2)

- (14) Based upon the statement on Schedule 13D filed by Mr. Leventhal on September 25, 2007.

OTHER MATTERS

Other Business

The Hudson board of directors does not currently intend to bring any other business before the Meeting and, to the knowledge of the Hudson board of directors, no other matters other than those indicated above are to be brought before the Meeting. If, however, any other matter properly comes before the Meeting, the proxy holders will, in their discretion, vote on it in accordance with their own best judgment.

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting to be Held on _____, 2011

Pursuant to SEC rules, we have elected to provide access to our proxy materials by sending you this full set of proxy materials and by notifying you of the availability of our proxy materials on the Internet. **Copies of this proxy statement/prospectus, the form of proxy, our Annual Report on Form 10-K for the year ended March 31, 2010, including financial statements, our Quarterly Report on Form 10-Q for the three months ended June 30, 2010, and our Quarterly Report on Form 10-Q for the three and six months ended September 30, 2010 are available at our website at www.hudsonholdingcorp.com and upon written request and without charge to any stockholder by writing to: Hudson, Attn: General Counsel, 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310.** For directions on how to attend the Meeting and vote in person, please contact our General Counsel's Office at 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310 or by telephone at (201) 216-0100.

Stockholders Sharing an Address

The SEC has adopted rules that permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This practice, known as "householding," is designed to reduce the volume of duplicate information and reduce printing and postage costs.

If you and others who share your mailing address own Hudson stock in street name, meaning through bank or brokerage accounts, you may have received a notice that your household will receive only one proxy statement from each company whose stock is held in such accounts. Unless you responded that you did not want to participate in householding, you were deemed to have consented to it and a single copy of this proxy statement/prospectus has been sent to your address.

We will promptly deliver separate copies of this proxy statement/prospectus at the request of any stockholder who is in a household that participates in the householding of our proxy materials. You may send your request (or a request to have only a single copy of our proxy statement delivered to your address) by mail to our General Counsel's Office at 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310 or by telephone at (201) 216-0100.

Communicating with the Board of Directors

Stockholders may communicate with the Hudson board of directors, or any committee or member of the Hudson board of directors, by writing to: Board of Directors c/o Hudson Holding Corporation, 111 Town Square Place, 15th Floor, Jersey City, New Jersey 07310. All such communications are reviewed by Hudson's General Counsel and, subject to the following sentence, presented to the Hudson board of directors at the regularly scheduled meeting of the Hudson board of directors subsequent to receipt. Communications such as spam, junk mail, mass mailings, job inquiries, business solicitations, advertisements or patently offensive or otherwise inappropriate material will not be forwarded to the Hudson board of directors.

LEGAL MATTERS

The validity of the shares of Rodman common stock offered hereby will be passed upon for Rodman by Morse, Zelnick, Rose & Lander, LLP, New York, New York. Certain tax matters relating to the Merger will be passed by Haynes and Boone, LLP, Dallas, Texas. See Material U.S. Federal Income Tax Consequences of the Merger on page ____.

EXPERTS

The consolidated financial statements of Rodman included in this proxy statement/prospectus as of and for the years ended December 31, 2009 and 2008 including the effectiveness of Rodman's internal control over financial reporting as of December 31, 2009, have been audited by KPMG LLP, an independent registered public accounting firm, as set forth in its report thereon and included herein.

The consolidated financial statements of Hudson included in this proxy statement/prospectus as of and for the years ended March 31, 2010 and 2009 have been audited by Marcum LLP, an independent registered public accounting firm, as set forth in its report thereon and included herein.

WHERE YOU CAN FIND MORE INFORMATION

Rodman and Hudson are reporting companies and file annual, quarterly and current reports, proxy statements and other information with the SEC. You may read and copy these reports, proxy statements and other information at the SEC's public reference room at 100 F Street, N.E., Room 1580, Washington, D.C. 20549. You can request copies of these documents by writing to the SEC and paying a fee for the copying cost. Please call the SEC at 1-800-SEC-0330 for more information about the operation of the public reference rooms. Rodman's and Hudson's SEC filings are also available at the SEC's website at www.sec.gov. The reports and other information filed by Rodman with the SEC are also available free of charge at Rodman's website at www.rodman.com. The reports and other information filed by Hudson with the SEC are also available free of charge at Hudson's website at www.hudsonholdingcorp.com. The web addresses of the SEC, Rodman and Hudson have been included as inactive textual references only. Except as specifically incorporated by reference into this proxy statement/prospectus, information on those websites is not part of this proxy statement/prospectus or the Registration Statement.

Rodman has filed with the SEC a Registration Statement on Form S-4 under the Securities Act with respect to the shares of Rodman common stock to be issued pursuant to the Merger Agreement, of which this proxy statement/prospectus forms a part. The Registration Statement, including the attached exhibits and schedules, contains additional relevant information about Rodman and Rodman common stock. The rules and regulations of the SEC allow Rodman and Hudson to omit certain information included in the Registration Statement from this document.

Statements contained in this proxy statement/prospectus or in any documents annexed to and incorporated by reference in this proxy statement/prospectus as to the contents of any contract or other document referred to herein or therein are not necessarily complete, and in each instance reference is made to the copy of such contract or other document filed as an exhibit to the registration statement or such other document, each such statement being qualified in all respects by such reference. The information incorporated by reference is deemed to be part of this proxy statement/prospectus, except for information that is superseded by information that is included in this proxy statement/prospectus.

To receive timely delivery of documents in advance of the Meeting, please make your request no later than _____, 2011.

You should rely only on the information contained in this proxy statement/prospectus to vote on the Merger Agreement and the other matters at the Meeting. Rodman and Hudson have not authorized anyone to provide you with information that is different from what is contained in this proxy statement/prospectus. This proxy statement/prospectus is dated _____, 2011. You should not assume that the information contained in this proxy statement/prospectus is accurate as of any date other than such date, and neither the mailing of this proxy statement/prospectus to stockholders of Hudson nor the issuance of Rodman stock in the Merger shall create any implication to the contrary.

RODMAN & RENSHAW CAPITAL GROUP, INC. BUSINESS AND FINANCIAL INFORMATION

BUSINESS

Overview

Rodman is a full-service investment bank dedicated to providing corporate finance, strategic advisory and related services to public and private companies across multiple sectors and regions. Rodman also provides research and sales and trading services primarily to institutional investors. Rodman is the leader in the PIPE (private investment in public equity) and RD (registered direct offering) transaction markets. According to Sagient Research Systems, Rodman has been ranked the #1 Placement Agent by deal volume of PIPE and RD financing transactions completed every year since 2005. The sectors that Rodman currently serves include life science/healthcare, energy, metals/mining, financial services and cleantech and the regions it currently serves include the United States and China. Rodman's primary product and service offerings include financing transactions, including private placements and public offerings. Rodman also provides research and sales and trading services to institutional investors.

In October 2007, Rodman consummated an underwritten public offering (the October 2007 financing) of its common stock, which generated net proceeds of \$36.3 million. Rodman stated plan was to use the net proceeds to:

- (i) broaden its presence in the life science sector;
- (ii) establish integrated investment banking platforms to service other sectors of the economy that, like biotechnology, have significant and recurring capital needs;
- (iii) expand its product base to include other financing alternatives, such as underwritten public offerings, and to increase its strategic advisory capability;
- (iv) develop a principal transaction investment platform that leverages off of its sector expertise; and
- (v) establish a physical presence in key markets in the United States and internationally.

Rodman used proceeds from the October 2007 financing to consummate the following transactions, each of which addressed one or more of its strategic objectives outlined above:

In March 2008 Rodman acquired Miller Mathis & Co, LLC (Miller Mathis), a leading independent mergers and acquisitions advisor to the global steel industry. The acquisition of Miller Mathis gave Rodman an immediate presence in a growing sector of the global economy — metals/mining and a focus on strategic advisory services, such as mergers and acquisitions. In addition, the acquisition gave Rodman the opportunity to apply its financing know-how to another large sector of the economy that has significant and recurring capital needs.

In June 2008 Rodman acquired COSCO Capital Management LLC (COSCO), a leading private investment bank focused on the energy sector. Like the acquisition of Miller Mathis, the acquisition of COSCO gave Rodman an immediate presence in a significant and growing sector of the global economy with recurring capital needs.

In May 2008 Rodman formed its Global Capital Markets (GCM) Group to broaden and deepen its capabilities to structure, lead and place offerings in the public capital markets. Rodman's GCM professionals work together with its investment bankers to develop the appropriate financing structure and vehicle for its clients. Rodman's GCM capabilities include initial public offerings (IPOs); follow-on public offerings, dual listings, closed-end funds and special purpose acquisition corporations (SPACs). The GCM Group executes the majority of the registered offerings in which Rodman participates as an underwriter. It targets institutional investors and high net worth individuals in the United States, Europe, Asia and the Middle East.

In May 2008 Rodman formed Aceras BioMedical LLC (Aceras BioMedical), a joint venture with an established team of biotech research and investment specialists, to make principal investments in promising products and early-stage companies in the biotechnology and life science sectors.

Business Environment

Market conditions and valuations for companies in the life science, China and other sectors in which Rodman is active, as well as general market conditions, can materially affect Rodman's financial performance. On May 6, 2010, the market experienced its flash crash, with the Dow Jones Industrial Average declining 1,000 points, and from that day through the end of the third quarter, the equity markets generally performed poorly. Between May 6, 2010 and September 30, 2010, many of Rodman's clients and target companies have experienced volatility in their stock prices. When the stock markets are in a downturn or in a period of volatility, it is challenging to generate investment banking revenue from capital markets activity.

Financial Information about Segments

Commencing July 1, 2009, Rodman began operating in two business segments, Capital Markets and Merchant Banking. The Capital Markets reportable segment includes investment banking, sales and trading activities and research. The Capital Markets reportable segment is managed as a single operating segment that provides the following principal sources of revenue:

- investment banking fees, which are derived from corporate finance activities and strategic advisory services;
- realized and unrealized gains with respect to securities held for its own account;
- commissions on sales and trading activities;
- conference fees; and
- other miscellaneous sources of revenues, such as interest.

Although Rodman has multiple sources of revenue derived within Capital Markets, most of its revenue is derived from investment banking services and consists of private placement, underwriting and strategic advisory fees earned upon the successful completion of financing or other types of corporate transactions, such as mergers, acquisitions and dispositions.

The Merchant Banking segment is primarily comprised of operating activities related to Aceras BioMedical. On May 12, 2008, Rodman formed Aceras BioMedical, a joint venture through which it, in partnership with Aceras Partners, LLC, makes principal investments in early-stage biotechnology and life sciences companies. In conjunction with the establishment of the joint venture, Rodman formed a new wholly-owned subsidiary which holds a 50% stake in Aceras BioMedical and serves as the holding vehicle for all of its principal-related businesses. At September 30, 2010, Rodman's outstanding investment commitment to Aceras BioMedical to fund operations and the joint venture's principal investments in life science companies was \$12.9 million. Rodman receives 50% of Aceras BioMedical's economic interest in all investments made.

Narrative Description of Business

Rodman's business consists of: (a) investment banking, which includes corporate finance and strategic advisory services; (b) sales and trading; (c) equity research; and (d) principal transactions and merchant banking.

Investment Banking

Rodman's investment banking professionals focus on providing corporate finance and strategic advisory services to public and private companies. As of December 31, 2010, Rodman's investment banking group consisted of 16 senior managing directors and managing directors, who focus on originating, structuring and placing transactions. A significant majority of Rodman's investment banking revenues is earned from public companies with a market capitalization below \$500 million. Rodman aims to provide these companies with capital origination services and strategic advice throughout their various stages of development.

Corporate Finance

Rodman is a corporate finance specialist and plans to continue to focus primarily on financing transactions. Rodman's in-depth knowledge of a particular sector enables it to develop financing strategies, transaction structures and financing instruments that simultaneously address issuers' needs for capital and the investment community's need to balance risk and reward. Rodman offers its clients a broad range of financing alternatives including private placements, PIPEs, RDs and underwritten public offerings.

Private Placements. These transactions involve sales of unregistered securities. In most cases the issuer is a private company, although public companies can undertake private placements as well. The securities sold may be common or preferred equity, debt, convertible debt, or derivatives, such as warrants. The debt could be secured or unsecured, senior, mezzanine or subordinated. Many of these transactions involve units, which include more than one class of securities.

Private Investment in Public Equity, or PIPE. In these transactions, a publicly-traded reporting company sells unregistered securities of a class, and/or convertible or exchangeable for a class, that is already publicly traded. Generally, the issuer is obligated to register the securities within a specified period after the transaction closes.

Registered Direct Offerings, or RD. These transactions are direct placements of securities that have been registered under a shelf registration statement and, therefore, are immediately tradable.

Public Offerings. These transactions involve securities that have been registered and that are listed or traded on an exchange. The offering may constitute an initial public offering by a private company or a follow-on offering by an existing public company.

In 2010, Rodman completed 116 financing transactions, which raised approximately \$3.0 billion. In a majority of these transactions Rodman was either the lead investment bank or the only investment bank. In addition, Rodman is a recognized industry leader in PIPE and RD financing transactions. From January 1, 2003 through December 31, 2010, Rodman executed an aggregate of 394 PIPE and RD financing transactions, which raised approximately \$6.3 billion.

Strategic Advisory Services

Rodman also provides strategic advisory services on a broad range of transactions including mergers, acquisitions and asset sales. Rodman is involved at each stage of these transactions, from initial structuring to final execution.

Sales and Trading

As of December 31, 2010, Rodman's sales and trading unit included six sales and sales trader personnel and two traders. They focus on executing trades for institutional investor clients in the United States and Europe. As of December 31, 2010, Rodman was a market-maker for 488 stocks.

Equity Research

As of December 31, 2010, Rodman's research department included 14 senior analysts: five who cover the life science sector; one who covers the metals/mining sector; one who covers the energy sector; four who cover the China sector; one who covers community banks; one who covers technology; and one who covers special situations. These senior analysts are supported by seven associate analysts. As of December 31, 2010, the research department covered 238 companies.

Merchant Banking

The Merchant Banking segment is primarily comprised of operating activities related to Aceras BioMedical. On May 12, 2008, Rodman formed Aceras BioMedical, a joint venture through which it, in partnership with Aceras Partners, LLC, makes principal investments in early-stage biotechnology and life sciences companies. In conjunction with the establishment of the joint venture, Rodman formed a new wholly-owned subsidiary which holds a 50% stake in Aceras BioMedical and serves as the holding vehicle for all of its principal-related businesses. At September 30, 2010, Rodman's outstanding investment commitment to Aceras BioMedical to fund operations and the joint venture's principal investments in life science companies was \$12.9 million. Rodman receives 50% of Aceras BioMedical's economic interest in all investments made.

Industry Leading Conferences

Rodman's investment conferences are industry-leading events that bring together companies, institutional investors, business development executives and experts from its targeted sectors. The conferences are designed to facilitate interactions of companies in Rodman's targeted sectors with potential investors and strategic partners. The conferences also provide an opportunity to exchange ideas and build relationships and provide an opportunity for the participating companies and investors to build relationships.

In 2010, Rodman sponsored three investment conferences; one in Beijing, one in New York and one in London. For 2011, Rodman expects to sponsor two investment conferences; one in Shanghai in March and one in New York in September. These conferences emphasize small-cap and mid-cap companies and bring together company executives, scientists, industry specialists, venture capitalists and other institutional investors and feature company presentations, panel discussions and one-on-one meetings between company managements and investors. At its conference held in Beijing, China in March 2010, Rodman had approximately 140 presenting companies and over 1,000 attendees. At the conference held in New York City in September 2010, there were

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

approximately 500 presenting companies and over 4,000 attendees. At the conference held in London in May 2010, there were approximately 150 presenting companies and over 1,000 attendees.

Business Strategy and Model

Rodman's business strategy is to provide corporate finance, strategic advisory and related services to companies that have significant recurring capital needs due to their growth and development strategies. Currently, Rodman focuses primarily on four sectors:

life sciences, including biotechnology, medical device, pharmaceutical and healthcare services companies;
 metals and mining, including steel (manufacturing and distribution) and natural resource exploration companies;
 energy, including oil and gas and alternative energy companies; and
 China based companies that are, or desire to become, public in the United States.

Historically, Rodman has been one of the leaders in the PIPE and RD transaction markets, particularly for biotechnology and China companies. More recently, Rodman has expanded its product offerings to include underwritten public offerings and created the GCM Group to focus on these types of financing transactions.

PIPE and RD Financing Transactions

PIPE and RD financing transactions provide public companies with effective and viable alternatives to raising capital through public follow-on offerings. In a PIPE, a public reporting company sells unregistered securities to investors in a private placement transaction and obligates itself to file, and process to effectiveness, a registration statement with the U.S. Securities and Exchange Commission (the "SEC") covering the resale of the securities by the investors within a specified period after the financing closes. The investors cannot sell the securities until the registration statement becomes effective, or an exemption from registration is available for the resale of the securities. In a RD, a public reporting company sells directly to investors securities that are covered by what is commonly referred to as a "shelf" registration statement (a registration statement that was previously declared effective by the SEC) in a financing transaction commonly referred to as a "shelf" takedown. Since these securities are issued pursuant to an effective registration statement, the investors can immediately resell them after the completion of the transaction. Rodman believes that both PIPE and RD financing transactions offer the advantages of greater speed, lower cost and more efficient execution over public follow-on offerings.

PIPE and RD financing transactions, as alternatives to public follow-on offerings, have grown significantly in recent years. Sagient Research Systems, the leading provider of research, data, and analytics covering PIPE and RD financing transactions, and a widely quoted and used industry resource, publishes PlacementTracker, which aggregates PIPE and RD financing transactions together for the purposes of its league tables and other statistical data.

Rodman completed its first PIPE and RD financing transactions in 2002 and since then has become a leader in this space. The table below sets forth the number of PIPE and RD transactions completed by Rodman and the dollars raised by us in those transactions from 2003 to 2010 as well as the total industry-wide number of transactions and dollars raised during these periods. The statistical data in the table below is derived from data published by PlacementTracker.

Period	Rodman & Renshaw		Industry-Wide	
	Number of Transactions	Dollars Raised (in millions)	Number of Transactions	Dollars Raised (in millions)
2003	31	>\$ 400	1,456	>\$ 19,100
2004	38	>\$ 590	2,001	>\$ 21,600
2005	29	>\$ 460	2,171	>\$ 28,000
2006	45	>\$ 850	1,622	>\$ 31,200
2007	53	>\$ 930	1,623	>\$ 86,600
2008	44	>\$ 580	1,153	>\$ 123,800
2009	77	>\$ 1,233	1,019	>\$ 38,400
2010	77	>\$ 1,221	1,151	>\$ 39,303

According to PlacementTracker, in each of calendar years 2003, 2005, 2006, 2007, 2008, 2009 and 2010, Rodman was the leading investment bank in terms of the aggregate number of PIPE and RD financing transactions completed, and in calendar year 2004 it was the number two investment bank in terms of the aggregate number of PIPE and RD financing transactions completed.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

Rodman believes there is a significant opportunity for continued growth in this space given issuers' continuing desire to identify and pursue faster and less costly financing alternatives to traditional follow-on public offerings and institutional investors' continuing interest in participating in these financing transactions.

Competitive Strengths

Sector Focus

Rodman believes that its focus on a limited number of large sectors with recurring capital needs is a competitive advantage. This focus manifests itself in the form of an integrated investment banking platform that includes specialists in the areas of corporate finance, strategic advisory services, research and trading and institutional sales. Rodman believes this specialization produces a combination of investment banking and technical expertise, allowing us to better understand and service the strategic and financing needs of Rodman's clients and deliver differentiated advice that its clients require and appreciate when addressing complex financing issues and making important strategic decisions.

Experienced Professionals with Deep Knowledge and Broad Skills

Rodman has created an entrepreneurial, performance-oriented corporate culture that attracts professionals who share a reputation for sector expertise, strong execution skills and a history of successful transactions. Rodman is led by a team of professionals with extensive track records of success in arranging and executing various types of financing transactions.

Strong Client Relationships

Rodman emphasizes developing and nurturing long-term relationships with both issuers and investors, including hedge funds, venture capital funds and private equity funds. This has expanded its distribution and placement capabilities, enabling us to raise significant amounts of capital for its issuer clients. Rodman strives to build long-term relationships with its issuer clients by providing services appropriate to each stage of a company's development. Rodman provides its clients with frequent and consistent interaction with its senior professionals, who are actively involved in all stages of its client engagements. Rodman believes that the high levels of expertise and client trust it has developed have been significant factors contributing to its growth and has enabled it to generate significant repeat business. In 2010, 2009, 2008, 2007, 2006 and 2005, approximately 44%, 41%, 66%, 38%, 34% and 44%, respectively, of Rodman's investment banking transactions were executed with repeat clients.

Unleveraged Balance Sheet

As of September 30, 2010, Rodman had total assets of \$70.7 million and stockholders' equity of \$52.5 million. Most importantly, Rodman is debt-free.

Competition

All aspects of Rodman's business are intensely competitive. Its competitors are other investment banks, brokerage firms, merchant banks and financial advisory firms. Rodman considers its primary competitors to include the following firms:

Canaccord Adams, Inc.	Leerink Swann & Co.
Cowen Group, Inc	Maxim Group
Jefferies Group, Inc.	Oppenheimer & Co. Inc.
JMP Group, Inc	Piper Jaffray Companies.
Ladenburg Thalmann Financial Services, Inc.	Roth Capital Partners, LLC
Lazard Ltd.	Stifel Corp.

As it continues to expand into new sectors, Rodman is likely to face competition from other firms.

Rodman competes on a national, regional and local level as well as on product and business-line bases. Some of Rodman's competitors have teams that specifically focus on the same sectors, and some of them specialize in the same types of financing transactions that Rodman specializes in—namely, private placements, PIPEs, RDs, IPOs and follow-on public offerings. Rodman does not believe that its competitors have the same level of expertise as it does with PIPE and RD financing transactions or in its target sectors. Many of its competitors, however, have substantially greater capital and resources than it does and offer a broader range of financial products. Rodman believes that the principal factors affecting competition in its business include client relationships, reputation, quality and price of its products and services, market focus and the experience of its professionals.

A number of large commercial banks have established or acquired broker-dealers or have merged with other financial institutions. Many of these firms have the ability to offer a broader range of products and services than Rodman offers, including loans, deposit accounts, insurance and alternative investment strategies. Many of these firms also have more extensive investment banking services, which may enhance their competitive position. They also have the ability to support investment banking and securities products with commercial banking, insurance and other financial services revenue in an effort to gain market share, which could result in pricing pressure in Rodman's business. This trend toward consolidation and convergence has also significantly increased the capital base and geographic reach of Rodman's competitors.

In the investment banking industry, competition for the recruitment and retention of qualified professionals is also intense. Rodman's ability to continue to compete effectively in its business will depend upon its continued ability to retain and motivate its existing professionals and attract new professionals.

Government Regulation

Rodman's business, as well as the financial services industry generally, is subject to extensive regulation in the United States and elsewhere. As a matter of public policy, regulatory bodies in the United States and the rest of the world are charged with safeguarding the integrity of the securities and other financial markets and with protecting the interests of participants in those markets. In the United States, the SEC is the federal agency responsible for the administration of the federal securities laws. R&R, Rodman's wholly-owned subsidiary, is registered as a broker-dealer with the SEC and FINRA and in all 50 states. Accordingly, R&R is subject to regulation and oversight by the SEC and FINRA, a self-regulatory organization, which is itself subject to oversight by the SEC and which adopts and enforces rules governing the conduct, and examines the activities, of its member firms. State securities regulators also have regulatory or oversight authority over R&R. Rodman's business may also be subject to regulation by foreign governmental and regulatory bodies and self-regulatory authorities in other countries.

Broker-dealers are subject to regulations that cover all aspects of the securities business, including sales methods, trade practices among broker-dealers, use and safekeeping of customers' funds and securities, capital structure, record-keeping, the financing of customers' purchases and the conduct and qualifications of directors, officers and employees. In particular, as a registered broker-dealer and member of various self-regulatory organizations, R&R is subject to the SEC's uniform net capital rule, Rule 15c3-1 of the Securities Exchange Act of 1934, as amended (Exchange Act), which specifies the minimum level of net capital a broker-dealer must maintain and also requires that a significant part of its assets be kept in relatively liquid form. The SEC and various self-regulatory organizations impose rules that require notification when net capital falls below certain predefined criteria, limit the ratio of subordinated debt to equity in the regulatory capital composition of a broker-dealer and constrain the ability of a broker-dealer to expand its business under certain circumstances. Additionally, the SEC's uniform net capital rule imposes certain requirements that may have the effect of prohibiting a broker-dealer from distributing or withdrawing capital and requiring prior notice to the SEC for certain withdrawals of capital. The SEC has adopted rule amendments that establish alternative net capital requirements for broker-dealers that are part of a consolidated supervised entity. As a condition to its use of the alternative method, a broker-dealer's ultimate holding company and affiliates (referred to collectively as a consolidated supervised entity) must consent to group-wide supervision and examination by the SEC. If Rodman elects to become subject to the SEC's group-wide supervision, it will be required to report to the SEC computations of its capital adequacy.

The research areas of investment banks have been and remain the subject of increased regulatory scrutiny. In 2002 and 2003, acting in part pursuant to a mandate contained in Sarbanes-Oxley Act of 2002 (SOX), the SEC, the New York Stock Exchange (NYSE), NASDAQ and FINRA adopted rules imposing heightened restrictions on the interaction between equity research analysts and investment banking personnel at member securities firms. In addition, in 2003 and 2004, a number of securities firms in the United States reached a settlement with certain federal and state securities regulators and self-regulatory organizations to resolve investigations into their equity research analysts' alleged conflicts of interest. Under this settlement, to which Rodman was not a party, the firms have been subject to certain restrictions and undertakings. In addition, the settlement imposes restrictions on the interaction between research and investment banking departments, and these securities firms are required to fund the provision of independent research to their customers. In connection with the research settlement, the firms also subscribed to a voluntary initiative imposing restrictions on the allocation of shares in public offerings to executives and directors of public companies. The SEC has proposed

amendments to Regulation M that would further affect the manner in which securities are distributed and allocated in registered public offerings, and FINRA has proposed similar rulemaking in this area. Rodman cannot fully predict the practical effect that such restrictions or measures will have on Rodman's business. Furthermore, the SEC, the NYSE, NASDAQ and FINRA may, in the future, adopt additional and more stringent rules with respect to offering procedures and the management of conflicts of interest in the future.

The effort to combat money laundering and terrorist financing is a priority in government policy with respect to financial institutions. The USA PATRIOT Act of 2001 contains anti-money laundering and financial transparency laws and mandates the implementation of various regulations applicable to broker-dealers and other financial services companies, including standards for verifying client identification at account opening, and obligations to monitor client transactions and report suspicious activities. Through these and other provisions, the USA PATRIOT Act of 2001 seeks to promote the identification of parties that may be involved in terrorism or money laundering. Anti-money laundering laws outside the United States contain some similar provisions. The obligation of financial institutions, including Rodman, to identify their customers, watch for and report suspicious transactions, respond to requests for information by regulatory authorities and law enforcement agencies, and share information with other financial institutions, has required the implementation and maintenance of internal practices, procedures and controls which have increased, and may continue to increase, Rodman's costs, and any failure with respect to Rodman's programs in this area could subject Rodman to serious regulatory consequences, including substantial fines and, potentially, other liabilities.

Certain of Rodman's businesses are subject to compliance with laws and regulations of the United States, state governments, foreign governments and their respective agencies and/or various self-regulatory organizations or exchanges relating to the privacy of client information, and any failure to comply with these regulations could expose Rodman to liability and/or reputational damage.

In addition, the Dodd-Frank act, the financial reform legislation that was passed in July 2010, establishes the Bureau of Consumer Financial Protection to regulate the offering and provision of consumer financial products or services under federal law. We are uncertain whether this Bureau will issue any rules or regulations that affect Rodman's business. Such rules and regulations could have a material adverse effect upon us.

Additional legislation, changes in rules promulgated by the SEC and self-regulatory organizations or changes in the interpretation or enforcement of existing laws and rules, either in the United States or elsewhere, may directly affect the mode of Rodman's operation and its profitability.

The United States and foreign government agencies and self-regulatory organizations, as well as state securities commissions in the United States, are empowered to conduct administrative proceedings that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer or its directors, officers or employees.

Since March 2004, Rodman has received inquiries, subpoenas and requests for production of documents from the SEC, FINRA and the Attorney General of the State of New York (AG) with respect to individual PIPE transactions in which it acted as placement agent. Rodman has responded to each such inquiry, subpoena and request, and, to its best knowledge, its responses have been to the satisfaction of the inquiring party. Rodman has never been advised by the SEC, FINRA or the AG that it is, or has been, a target in connection with any such inquiry or investigation in connection with its PIPE business, and Rodman has no reason to believe that it is currently a target in connection with any such inquiry or investigation. Rodman believes that these inquiries and investigations are consistent with the general regulatory scrutiny that PIPE transactions have been the subject of during this period.

From time to time, Rodman receives inquiries from FINRA relating to its participation in resale registration offerings that register securities placed in private placement financing transactions in which it acted as placement agent. The inquiries have focused on whether the offerings contemplated by such resale registration statements are subject to the filing requirements set forth in Rule 5110 of FINRA Conduct Rules (Rule 5110) and FINRA Notice to Members 88-101 and related Regulation M matters. A Rule 5110 filing seeks approval from FINRA as to the fairness of the compensation received, or to be received, by a member in a financing transaction covered by the rule. The rule generally covers a member that is participating in a public offering, the definition of which is currently the subject of industry discussion and debate. Rodman has responded to each such inquiry, and to its best knowledge, such responses have been to the satisfaction of the inquiring party. FINRA may seek further information from Rodman. Rodman has never been advised by FINRA that it is, or was, a target in connection with any inquiry or investigation relating to Rule 5110.

Risk Management and Compliance

Risk is an inherent part of Rodman's business. Global markets, by their nature, are prone to uncertainty and expose participants to a variety of risks. The principal risks Rodman faces are market, liquidity, legal, reputation and operational risks. Rodman considers risk management to be of paramount importance in its day-to-day operations. Consequently, Rodman devotes significant resources, including investments in personnel and technology, to the measurement, analysis and management of risk.

While risk cannot be eliminated, Rodman seeks to mitigate it through a strong internal control environment, with multiple overlapping and reinforcing elements. Rodman has developed policies and procedures to identify, measure and monitor the risks involved in its sales and trading, principal transactions and investment banking activities. Rodman applies sound practical judgment before transactions occur to ensure appropriate risk mitigation is in place. Rodman accomplishes this objective by allocating the use of capital to each of its business units, establishing trading limits and setting credit limits for individual counterparties.

The challenge is balancing risk versus return. Rodman's objective is to achieve adequate returns from each of its business units commensurate with the risks inherent in those units. Nonetheless, the effectiveness of Rodman's approach to managing risks can never be completely assured. For example, unexpected large or rapid movements or disruptions in one or more markets or other unforeseen developments could have an adverse effect on its results of operations and financial condition. The consequences of these developments can include losses due to adverse changes in the value of its portfolio of securities and warrants and increases in its credit exposure to customers and trading counterparties and general systemic risk.

Employees

As of December 31, 2010, Rodman had approximately 131 full-time employees, substantially all of which were based in its principal offices in New York City. Rodman is not a party to any collective bargaining agreements and has not had any work stoppages. Rodman considers its relations with its employees to be good.

Corporate Information

Rodman's principal executive office is located at 1251 Avenue of Americas, 20th Floor, New York, New York 10020, and its telephone number is (212) 356-0500. Rodman also has an office in Houston, Texas. Its corporate website address is www.rodman.com. Information contained on the Rodman website is not incorporated by reference into this proxy statement/prospectus and you should not consider information contained on, or accessible through, the Rodman website as part of this proxy statement/prospectus.

Financial Information About Geographic Areas

In 2010, 2009 and 2008, Rodman derived certain revenues from business outside of the United States; however, such revenues were not material. Financial information concerning Rodman's operations is reported in its Financial Statements and Supplementary Data appearing elsewhere in this proxy statement/prospectus.

Available Information

Rodman's annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments are available on the SEC's internet website at www.sec.gov. The public may read and copy any materials Rodman files with the SEC at the SEC's Public Reference Room at 100 Fifth Street, N.E., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. As noted above, the SEC also maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers, such as Rodman, that file electronically with the SEC.

PROPERTIES

Rodman's corporate headquarters are located in New York City on the 20th floor at 1251 Avenue of the Americas, where it subleases 40,300 square feet under a lease that expires in October 2013. In addition, Rodman has an office in Houston, TX.

LEGAL PROCEEDINGS

Rodman faces significant legal risks in its businesses and, in recent years, the volume of claims and amount of damages sought in litigation and regulatory proceedings against investment banking firms have been increasing. These risks include potential liability under Federal securities and other laws in connection with securities offerings and other transactions, as well as advice and opinions Rodman may provide concerning strategic transactions. In addition, like most investment banking firms, Rodman could be the subject of claims made by current and former employees arising out of their employment or termination of employment. These claims often relate to dissatisfaction with an employee's bonus or separation payment, or involve allegations that the employee was the subject of some form of discrimination, retaliation or other unlawful employment practice.

At this time, except for the lawsuit described on page ___ of this proxy statement/prospectus under the heading Proposal One: The Merger Litigation Related to the Merger, Rodman is not a party in any legal proceedings other than ordinary routine litigation incidental to its business.

**MARKET PRICE OF AND DIVIDENDS ON RODMAN S COMMON STOCK
AND RELATED STOCKHOLDER MATTERS**

Rodman s common stock is listed on the NASDAQ Global Market and trades under the symbol RODM. As of January 27, 2011, Rodman had approximately 260 stockholders of record. On January 4, 2011, the day before the Merger was announced, the closing price for a share of Rodman s common stock, as reported by NASDAQ, was \$2.69. Information on the high and low sales prices per share for Rodman s common stock as reported on NASDAQ, appears on page ___ of this proxy statement/prospectus.

Rodman has never declared or paid cash dividends on its common stock. Rodman currently intends to retain earnings to finance its ongoing operations and it does not anticipate paying cash dividends in the foreseeable future. Future policy with respect to payment of dividends on Rodman s common stock will be determined by Rodman s board of directors based upon conditions then existing, including earnings and financial condition, capital requirements and other relevant factors.

SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA

The following table summarizes Rodman s selected historical consolidated financial data for the periods and at the dates indicated. You should read this information in conjunction with Rodman s audited consolidated financial statements and related notes, Management s Discussion and Analysis of Financial Condition and Results of Operations, and other financial information appearing elsewhere in this proxy statement/prospectus. Rodman s derived its selected historical consolidated financial data as of December 31, 2009, 2008, 2007, 2006 and 2005 and for the years ended December 31, 2009, 2008, 2007, 2006 and 2005, from Rodman s audited consolidated financial statements. The results of operations for certain businesses that Rodman no longer owns are reported as discontinued operations.

(amounts in thousands, except per share amounts)

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with Rodman's consolidated financial statements and the related notes included elsewhere in this proxy statement/prospectus.

Overview

Rodman is a full-service investment bank dedicated to providing corporate finance, strategic advisory and related services to public and private companies across multiple sectors and regions. Rodman also provides research and sales and trading services to institutional investors. Rodman is the leader in the PIPE (private investment in public equity) and RD (registered direct offering) transaction markets. Rodman has been ranked the #1 Placement Agent by deal volume of PIPE and RD financing transactions completed every year since 2005. The sectors that Rodman currently serves include life science/healthcare, energy, metals/mining, financial services and cleantech and the regions it currently serves include the United States and China. Rodman's primary product and service offerings include financing transactions, including private placements and public offerings. Rodman also provides research and sales and trading services to institutional investors.

Business Environment

Market conditions and valuations for companies in the life science sector, China and other sectors in which Rodman is active, as well as general market conditions, can materially affect Rodman's financial performance. On May 6, 2010, the market experienced its flash crash, with the Dow Jones Industrial Average declining 1,000 points, and from that day through the end of the third quarter, the equity markets generally performed poorly. Between May 6, 2010 and September 30, 2010, many of Rodman's clients and target companies experienced volatility in their stock prices. When the stock markets are in a downturn or in a period of volatility, it is challenging to generate investment banking revenue from capital markets activity. However, in late September Rodman began to see increased activity in its targeted verticals, as well as increased demand for its core product offerings; private placements, registered direct offerings, IPOs and follow-on offerings.

Business Segments

Commencing July 1, 2009, Rodman began operating in two business segments, Capital Markets and Merchant Banking. The Capital Markets reportable segment includes investment banking, sales and trading activities and research. The Capital Markets reportable segment is managed as a single operating segment that provides the following principal sources of revenue:

- investment banking fees, which are derived from corporate finance activities and strategic advisory services;
- realized and unrealized gains with respect to securities held for its own account;
- commissions on sales and trading activities;
- conference fees; and
- other miscellaneous sources of revenues, such as interest.

Although Rodman has multiple sources of revenue derived within Capital Markets, most of its revenue is derived from investment banking services and consists of private placement, underwriting and strategic advisory fees earned upon the successful completion of financing or other types of corporate transactions, such as mergers, acquisitions and dispositions.

The Merchant Banking segment is primarily comprised of operating activities related to Aceras BioMedical. On May 12, 2008, Rodman formed Aceras BioMedical, a joint venture through which it, in partnership with Aceras Partners, LLC, makes principal investments in early-stage biotechnology and life sciences companies. In conjunction with the establishment of the joint venture, Rodman formed a new wholly-owned subsidiary which holds a 50% stake in Aceras BioMedical and serves as the holding vehicle for all of its principal-related businesses. At September 30, 2010, Rodman's outstanding investment commitment to Aceras BioMedical to fund operations and the joint venture's principal investments in life science companies was \$12.9 million. Rodman receives 50% of Aceras BioMedical's economic interest in all investments made.

Critical Accounting Policies

Rodman's Consolidated Financial Statements are prepared in conformity with GAAP, which require management to make estimates and assumptions that affect the amounts reported in the Consolidated Financial Statements and related notes. Actual results can and will differ from estimates. These differences could be material to the financial statements.

Rodman believes its application of accounting policies and the estimates required therein are reasonable. These accounting policies and estimates are constantly re-evaluated, and adjustments are made when facts and circumstances dictate a change. Historically, actual results have not differed materially from those determined using necessary estimates.

Rodman believes that its critical accounting policies (policies that are both material to the financial condition and results of operations and require management's most difficult subjective or complex judgments) are its valuation of financial instruments, income taxes and the use of estimates related to compensation and benefits during the year.

Valuation of Financial Instruments

Fair value generally is based on quoted market prices. If quoted market prices are not available, fair value is determined based on other relevant factors, including dealer price quotations, price activity for equivalent instruments and valuation pricing models. Among the factors considered in determining the fair value of financial instruments are discount margins, weighted average spreads, discounted anticipated cash flows, the terms and liquidity of the instrument, the financial condition, operating results and credit ratings of the issuer or underlying company, the quoted market price of publicly traded securities with similar duration and yield, as well as other measurements. Certain financial instruments have bid and ask prices that can be observed in the marketplace. For financial instruments whose inputs are based on bid-ask prices, mid-market pricing is applied and adjusted to the point within the bid-ask range that meets Rodman's best estimate of fair value. For offsetting positions in the same financial instrument, the same price within the bid-ask spread is used to measure both the long and short positions.

The valuation process for financial instruments may include the use of valuation models and other techniques. Adjustments to valuations derived from valuation models may be made when, in Rodman's judgment, either the size of the position in the financial instrument in a non-active market or other features of the financial instrument such as its complexity, or the market in which the financial instrument is traded require that an adjustment be made to the value derived from the models. An adjustment may be made if a financial instrument is subject to sales restrictions that would result in a price less than the quoted market price. Adjustments from the price derived from a valuation model reflect management's judgment that other participants in the market for the financial instrument being measured at fair value would also consider in valuing that same financial instrument and are adjusted for assumptions about risk uncertainties and market conditions. Results from valuation models and valuation techniques in one period may not be indicative of future period fair value measurements.

Financial instruments owned and financial instruments sold, not yet purchased are stated at fair value, with related changes in unrealized appreciation or depreciation reflected in principal transactions, net in the accompanying Consolidated Statements of Operations. Equity interests in certain private equity securities and limited partnership interests are reflected in the Consolidated Financial Statements at fair value, which is often represented at initial cost until significant transactions or developments indicate that a change in the carrying value of the securities is appropriate. This represents Rodman's best estimate of exit price. Generally, the carrying values of these securities will be increased or decreased based on company performance in those instances where market values are readily ascertainable by reference to substantial transactions occurring in the marketplace or quoted market prices.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, Rodman uses various methods including market, income and cost approaches. Based on these approaches, Rodman utilizes assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. Rodman utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, Rodman is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial instrument assets and liabilities carried at fair value have been classified and disclosed in one of the following three categories:

Level 1 primarily consists of financial instruments whose value is based on quoted market prices such as listed equities.

Level 2 includes those financial instruments that are valued using models or other valuation methodologies calibrated to observable market inputs. These models are primarily industry-standard models that consider various assumptions, including discount margins, credit spreads, discounted anticipated cash flows, the terms and liquidity of the instrument, the financial condition, operating results and credit ratings of the issuer or underlying company, the quoted market price of publicly traded securities with similar duration and yield, time value, yield curve, default rates, as well as other measurements. In order to be classified as Level 2, substantially all of these assumptions would need to be observable in the marketplace or able to be derived from observable data or supported by observable levels at which transactions are executed in the marketplace.

Level 3 is comprised of financial instruments whose fair value is estimated based on internally developed models or methodologies utilizing significant inputs that are unobservable from objective sources. Included in this category are warrants, private securities, convertible notes and loans receivable received in conjunction with Rodman's investment banking and merchant banking activities and limited partnership interests.

Compensation and Benefits

The use of estimates is important in determining compensation and benefits expenses for interim and year end periods. A substantial portion of Rodman's compensation and benefits represents discretionary bonuses. In addition to the level of net revenues and pre-tax income, Rodman's overall compensation expense in any given year is influenced by prevailing labor markets, revenue mix and Rodman's use of equity-based compensation programs. Rodman believes the most appropriate way to allocate estimated annual discretionary bonuses among interim periods is in proportion to net revenues and pre-tax income earned or reasonably expected. Consequently, Rodman generally accrues interim compensation and benefits based on annual targeted compensation amounts and interim revenues received.

Income Taxes

Deferred income taxes are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

Management on an ongoing basis, at least quarterly, evaluates Rodman's tax positions and ascertains whether those tax positions that may be uncertain require de-recognition or re-measurement. Management does not believe that Rodman has any material uncertain tax position requiring de-recognition or measurement.

Results of Operations

First nine months of 2010 compared to first nine months of 2009

The following table sets forth the results of operations for the nine months ended September 30, 2010 and 2009 (in thousands of dollars):

	Nine Months Ended			
	September 30, 2010		September 30, 2009

Revenues**Merchant Banking Segment**

Merchant banking revenue, consisting of gains (or losses) on investments by Rodman's Aceras BioMedical joint venture and other principal investments activity, was \$1.3 million. The value of Aceras' assets was determined based on a valuation prepared as of September 30, 2010, taking into consideration market prices, cash received, cost of the investment, market participant inputs, estimated cash flows based on entity specific criteria, purchase multiples paid in other comparable third-party transactions, market conditions, liquidity, operating results and other qualitative and quantitative factors. The values at which Rodman's investments are carried on its books are adjusted to estimated fair value at the end of each quarter taking into account general economic and stock market conditions and those characteristics specific to the underlying investments. The gain recognized in the first nine months of 2010 represents the change in the Aceras BioMedical valuation from December 31, 2009 and other principal investments activity.

Capital Market Segment

Within the Capital Markets segment, Rodman derives revenues from two primary sources—investment banking and sales and trading.

Total revenue for the nine months ended September 30, 2010 was \$60.2 million, representing a decrease of 21% from \$76.2 million in the comparable period of 2009. The decrease was primarily due to a \$17.3 million decrease in principal transactions revenues.

Investment Banking Revenue

Rodman's investment banking revenue is derived from private placement and underwriting activities and strategic advisory services. The following table sets forth Rodman's revenue from Rodman's investment banking activities for the nine months ended September 30, 2010 and 2009 (in thousands of dollars):

	Nine Months Ended	
	September 30, 2010	September 30, 2009
Revenue:		
Private placement and underwriting	\$ 53,342	59,703
Strategic advisory	11,810	5,426
Total investment banking revenue	\$ 65,152	65,129

Investment banking revenue was \$65.2 million for the nine months ended September 30, 2010, which included \$9.3 million related to warrants received as compensation for activities as underwriter or placement agent valued using Black-Scholes, as compared to revenue of \$65.1 million, which included \$20.0 million related to warrants received as compensation for activities as underwriter or placement agent valued using Black-Scholes, in the comparable period of 2009:

Private placement and underwriting revenue for the first nine months was \$53.3 million, including \$9.3 million of fair value related to warrants received, compared to \$59.7 million, including \$20.0 million of fair value related to warrants received, in the comparable period of 2009.

Strategic advisory fees for the nine months ended September 30, 2010 were \$11.8 million, compared to \$5.4 million for comparable period of 2009. The increase in strategic advisory fees is due to the completion of two significant sell side engagements in the metals and mining space and the completion of one large advisory engagement in the oil and gas space.

Sales and Trading

Commission revenues decreased by \$0.3 million, or 8%, to \$2.9 million for the nine months ended September 30, 2010, compared with \$3.2 million for the nine months ended September 30, 2009.

Principal Transactions

Principal transactions revenue was an \$11.2 million loss for the nine months ended September 30, 2010, compared with a \$6.1 million gain for the nine months ended September 30, 2009. The decline in Rodman's portfolio was consistent with the overall market decline in micro-cap China and biotechnology securities.

The following discussion combines Capital Markets and Merchant Banking expenses.

Expenses

Compensation

Compensation and benefits expense decreased \$8.8 million, or 18%, while total net revenues decreased 32% for the nine months ended September 30, 2010 as compared to the comparable 2009 period. The ratio of compensation to net revenues was 66% and 55% for the nine months ended September 30, 2010 and 2009, respectively. Employee compensation and benefits expense for the nine months ended September 30, 2010, excluding the \$11.2 million principal transactions loss, represented 56% of transaction related revenue (revenue excluding principal transactions), compared to 59% in the comparable 2009 period. Rodman targets a compensation ratio of 55% to 60% of transaction related revenue on a cumulative year to date basis.

Non-Compensation Expenses

Non-compensation expense was \$30.6 million for the nine months ended September 30, 2010, versus \$21.2 million for the prior year period, or 50% of net revenues for the 2010 period versus 24% of net revenues for the comparable period of 2009. The increase in non-compensation was primarily due to expenses related to the China, London and New York conferences held in the first, second and third quarters, respectively.

Income Taxes

Income tax benefit for the first nine months was \$2.9 million which represents a 30.1% effective tax rate. The tax rate was adversely affected by a tax rate differential due to lower than anticipated 2010 pre-tax income.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

2009 compared to 2008

The following table sets forth the results of operations for the years ended December 31, 2009 and 2008 (in thousands of dollars):

	Year Ended			
	December 31, 2009		December 31, 2008	
		% of Total revenues		% of Total revenues
Revenues:

Total	\$ 11,306	30,485

Revenues

Merchant Banking Segment

Merchant banking revenue, consisting of gains (or losses) on investments by Aceras BioMedical and other principal investments activity, was \$36.0 million. Merchant banking revenue, net of non-controlling interest, was \$17.3 million. Rodman recognizes revenue on investments in its merchant banking segment based on consolidated realized and unrealized gains (or losses) reported, including by Aceras BioMedical. The value of Aceras BioMedical's assets was determined based on an independent valuation prepared as of December 31, 2009, taking into consideration the cost of the investment, market participant inputs, non-binding offers made by third parties, estimated cash flows based on entity specific criteria, purchase multiples paid in other

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

comparable third-party transactions, market conditions, liquidity, operating results and other qualitative and quantitative factors. The values at which Rodman's investments are carried on its books are adjusted to estimated fair value at the end of each quarter and the instability in general economic conditions, stock markets and regulatory conditions may result in significant changes in the estimated fair value of these investments.

In October 2009, Rodman announced that BioMarin Pharmaceutical Inc. (NASDAQ: BMRN) acquired Huxley Pharmaceuticals, Inc., an Acera BioMedical privately held portfolio company. Under the terms of the transaction, BioMarin made payments of \$16 million to Huxley stockholders in 2009. An additional \$6.5 million based on the final approval of the purchased compound from the European Commission will be paid in 2010. Furthermore, Huxley stockholders, which include Rodman, may receive up to approximately \$36 million in milestone payments if certain U.S. sales and development milestones are met in the future.

Capital Market Segment

Within the Capital Markets segment, Rodman derives revenues from two primary sources, 1) investment banking and 2) sales and trading.

Total revenue for 2009 was \$96.2 million, representing an increase of 96% from \$49.2 million in the comparable period of 2008. The increase was primarily due to a \$38.0 million increase in investment banking revenue.

Investment Banking Revenue

Investment banking revenue is derived from private placement and underwriting activities and strategic advisory services. The following table sets forth Rodman's revenue from its investment banking activities for the years ended December 31, 2009 and 2008 (in thousands of dollars):

	Year Ended	
	December 31, 2009	December 31, 2008
Revenue:		
Private placement and underwriting	\$ 83,468	43,489
Financial advisory	6,965	8,984
Total investment banking revenue	\$ 90,433	52,473

Investment banking revenue was \$90.4 million for 2009, which included \$24.2 million related to warrants received as compensation for activities as underwriter or placement agent valued using Black-Scholes, as compared to revenue of \$52.5 million in 2008, which included \$13.7 million related to warrants and notes received as compensation for activities as underwriter or placement agent at fair value:

- § Private placement and underwriting revenue for 2009 was \$83.5 million, including \$24.2 million of fair value related to warrants received, compared to \$43.5 million in 2008, including \$13.7 million warrants and a note received. The increase in private placement and underwriting revenue is a result of increased financing activity in Rodman's targeted verticals, especially in life sciences and China, as well as increased demand for capital market offerings, including private placements, registered directs and follow-on offerings
- § Strategic advisory fees for 2009 were \$7.0 million, compared to \$9.0 million in 2008.

Sales and Trading

Commission revenues decreased by \$2.1 million, or 32%, to \$4.4 million for 2009, compared with \$6.5 million in 2008. The decrease is attributable to a lower volume of transactions that occurred in 2009 as well as a decrease in sales and trading employees throughout the year.

Principal Transactions

Principal transactions generated a loss for 2009 of \$512,000, compared with a \$13.0 million loss in 2008. The decrease in principal transaction losses was attributed to unprecedented market instability, lack of liquidity and issuer specific events in 2008.

The following discussion of expenses will be on the combined Capital Markets and Merchant Banking expenses.

Expenses

Compensation

Compensation expense increased \$27.8 million, or 80%, while total net revenues (less net income to non-controlling interest) increased 131% for 2009. The ratio of compensation to net revenues (less net income to non-controlling interest) was 55% for 2009 as compared to 70% in 2008. The increase in compensation and benefits is attributed to Rodman's variable compensation structure, whereby the majority of compensation expense is based on revenue production. Additionally, while Rodman sizably reduced its employee headcount as of December 31, 2009 as compared to December 31, 2008, during 2009 Rodman made significant hires in connection with expanding its China practice, which temporarily increases compensation costs as production revenues build.

Non-Compensation Expenses

Non-compensation expense was \$27.7 million for 2009, versus \$49.5 million in 2008, or 24% of net revenues (less net income to non-controlling interest) for 2009 versus 101% of net revenues in 2008. The decrease in non-compensation expenses is mostly due to a \$20.4 million reduction in impairment charges related to goodwill and other intangible assets. Additionally, increases in professional fees due to a FINRA arbitration proceeding involving a former employee and advertising and marketing fees due to an expanded technology based marketing program were offset by lower business development expenses and conference expenses as a result of the cost-reduction initiatives initiated in early 2009.

Income Taxes

Income tax benefit was \$3.9 million for the year ended December 31, 2009, compared to an income tax expense of \$2.5 million for 2008.

In the first quarter of 2009, Rodman determined that it was not more likely than not that its net deferred tax assets would be realized and accordingly it recorded a valuation allowance fully offsetting the net deferred tax assets, reducing them to zero. The valuation allowance of \$3.9 million was released in the fourth quarter of 2009 due to, among other factors, the continued trend of improved profitability, and the historical profitability prior to the recent market upheaval, as well as Rodman's financial outlook for 2010 and beyond.

Liquidity and Capital Resources

Rodman has historically satisfied its capital and liquidity requirements through cash generated internally from operations. In addition, in March 2007, Rodman completed a \$20.0 million private placement to accredited investors and in October 2007 completed a public offering that generated net proceeds of approximately \$36.3 million.

At December 31, 2009, Rodman had liquid assets, consisting of unrestricted cash, restricted cash, Level I assets less Level I liabilities, and current receivables of \$31.0 million. As of September 30, 2010, Rodman had liquid assets of \$26.8 million.

The timing of bonus and retention compensation payments to employees may significantly affect Rodman's cash position and liquidity from period-to-period. While employees are generally paid salaries and draws on a semi-monthly basis during the year, bonus payments, which make up a significant portion of total compensation, will generally be paid semi-annually. An aggregate of \$23.9 million of bonuses were paid for 2009 in July, October and December.

As a registered securities broker-dealer, Rodman subject to the net capital requirements of the uniform net capital requirement set forth in Rule 15c3-1 promulgated by the SEC pursuant to the Securities and Exchange Act of 1934, as amended (the Exchange Act). SEC regulations also provide that equity capital may not be withdrawn or cash dividends paid if certain minimum net capital requirements are not met. At December 31, 2009 and September 30, 2010, Rodman had excess net capital of \$8.0 million and \$5.3 million, respectively. Regulatory net capital requirements may change based on investment and underwriting activities.

Because of the nature of settlement transactions in its investment banking and brokerage business, Rodman regularly monitors its liquidity position, including cash and net capital positions. In light of the uncertainty with respect to the timing of a market recovery and its potential impact on the timing of its receipt of anticipated funds from operating activities, Rodman regularly explore capital raising alternatives.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

Unrestricted cash and cash equivalents were \$8.2 million at September 30, 2010, a decrease of \$4.4 million from \$12.6 million at December 31, 2009.

Operating activities provided \$2.9 million of cash and cash equivalents during the nine months ended September 30, 2010 compared to using \$4.9 million of cash and cash equivalents during the twelve months ended December 31, 2009. The primary components of cash used for the nine months ended September 30, 2010 were: (a) \$3.5 million in treasury stock purchases; (b) \$2.1 million in acquisition related payments; and (c) \$1.4 million in property, equipment and leasehold purchases. The \$54.2 million and \$3.0 million increase in financial instruments owned, at fair value and receivable from brokers, dealers and clearing agencies, respectively, from December 31, 2008 contributed to the use of cash in the 2009 fiscal year. Accrued compensation balance decreased \$5.2 million during the twelve months ended December 31, 2009, primarily due to making 2008 and 2009 earned aggregate cash bonus payments to employees during 2009.

Contractual Obligations

Commitments and contingencies include: (i) real property leases; (ii) equipment leases; and (iii) the Aceras BioMedical joint venture agreement. Rodman's principal offices are located at 1251 Avenue of the Americas, New York, New York where it leases the entire 20th floor. The lease expires in October 2013.

The following table sets forth information relating to Rodman's contractual obligations as of December 31, 2010 (in thousands of dollars):

	Payments due by Period				
	2011	2012	2013	2014	Total
Operating lease obligations	\$ 3,228	3,181	2,585	56	9,050
Aceras BioMedical joint venture agreement	12,142 (1)				12,142
Total	\$ 15,370	3,181	2,585	56	21,192

(1) Pursuant to the Aceras BioMedical joint venture agreement, the timing of these expenditures may vary based upon investment timing considerations.

Off-Balance Sheet Arrangements

An off-balance sheet arrangement is any contractual arrangement involving an unconsolidated entity under which a company has (a) made guarantees, (b) a retained or a contingent interest in transferred assets, (c) any obligation under certain derivative instruments or (d) any obligation under a material variable interest in an unconsolidated entity that provides financing, liquidity, market risk, or credit risk support to the company, or engages in leasing, hedging, or research and development services for the benefit of the company.

Rodman does not have any off-balance sheet financing arrangements.

Risk Management

Risk is an inherent part of Rodman's business and activities. The extent to which Rodman properly and effectively identify, assess, monitor and manage each of the various types of risk involved in its activities is critical to its financial soundness and profitability. Rodman seeks to identify, assess, monitor and manage the following principal risks involved in its business activities: market, credit, operational, legal and compliance, new business and reputational. Risk management is a multi-faceted process that requires communication, judgment and knowledge of financial products and markets. Management takes an active role in the risk management process and requires specific administrative and business functions to assist in the identification, assessment and control of various risks. Rodman's risk management policies, procedures and methodologies are fluid in nature and are subject to ongoing review and modification.

Market Risk. The potential for changes in the value of financial instruments is referred to as market risk. Rodman's market risk generally represents the risk of loss that may result from a change in the value of a financial instrument as a result of fluctuations in equity prices, along with the level of volatility. Equity price risks result from exposure to changes in prices and volatilities of individual equities and warrants. Rodman makes dealer markets in equity securities. Rodman attempts to hedge its exposure to market risk by managing its net long or short positions. Due to imperfections in correlations, gains and losses can occur even for positions that are hedged. Position limits in trading and inventory accounts are established and monitored on an ongoing basis.

Operational Risk. Operational risk generally refers to the risk of loss resulting from operations, including, but not limited to, improper or unauthorized execution and processing of transactions, deficiencies in Rodman's operating systems, business disruptions and inadequacies or breaches in Rodman's internal control processes. Rodman's businesses are highly dependent on its ability to process, on a daily basis, transactions across markets. If any of Rodman's financial, accounting or other data processing systems do not operate properly or are disabled or if there are other shortcomings or failures in Rodman's internal processes, people or systems, Rodman could suffer impairment to its liquidity, financial loss, a disruption of its businesses, liability to clients, regulatory intervention or reputational damage. These systems may fail to operate properly or become disabled as a result of events that are wholly or partially beyond Rodman's control, including a disruption of electrical or communications services or its inability to occupy one or more of its buildings. The inability of Rodman's systems to accommodate an increasing volume of transactions could also constrain its ability to expand its businesses.

Rodman also faces the risk of operational failure or termination of any of the clearing agents, exchanges, clearing houses or other financial intermediaries it uses to facilitate securities transactions. Any such failure or termination could adversely affect its ability to effect transactions and manage its exposure to risk.

In addition, despite the contingency plans Rodman has in place, its ability to conduct business may be adversely impacted by a disruption in the infrastructure that supports its businesses and the communities in which they are located. This may include a disruption involving electrical, communications, transportation or other services used by Rodman or third parties with which it conducts business.

Rodman's operations rely on the secure processing, storage and transmission of confidential and other information in its computer systems and networks. Although Rodman takes protective measures and endeavor to modify them as circumstances warrant, Rodman's computer systems, software and networks may be vulnerable to unauthorized access, computer viruses or other malicious code, and other events that could have a security impact. If one or more of such events occur, this potentially could jeopardize Rodman's or its clients' or counterparties' confidential and other information processed and stored in, and transmitted through, its computer systems and networks, or otherwise cause interruptions or malfunctions in its, its clients', counterparties' or third parties' operations. Rodman may be required to expend significant additional resources to modify Rodman's protective measures or to investigate and remediate vulnerabilities or other exposures, and may be subject to litigation and financial losses that are either not insured against or not fully covered through any insurance it maintains.

Legal and Compliance Risk. Legal and compliance risk includes the risk of non-compliance with applicable legal and regulatory requirements. Rodman is subject to extensive regulations. Rodman has various procedures addressing issues such as regulatory capital requirements, sales and trading practices, anti-money laundering and record keeping. Rodman also maintains an anonymous hotline for employees or others to report suspected inappropriate actions by Rodman or by its employees or agents.

New Business Risk. New business risk refers to the risks of entering into a new line of business or offering a new product. By entering a new line of business or offering a new product, Rodman may face risks that it is unaccustomed to dealing with and may increase the magnitude of the risks it currently faces. Rodman reviews proposals for new businesses and new products to determine if it is prepared to handle the additional or increased risks associated with entering into such activities.

Reputational Risk. Rodman recognizes that maintaining its reputation among clients, investors, regulators and the general public is an important aspect of minimizing legal and operational risks. Maintaining its reputation depends on a large number of factors, including the selection of clients and the conduct of business activities. Rodman seeks to maintain its reputation by screening potential clients and by conducting business activities in accordance with high ethical standards.

Recent Accounting Pronouncements

FASB ASC 860-10. In June 2009, the FASB issued FASB Statement No. 166, *Accounting for Transfers of Financial Assets* — an amendment of FASB Statement No. 140 (SFAS 166), to improve the reporting for the transfer of financial assets resulting from 1) practices that have developed since the issuance of FASB Statement No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, that are not consistent with the original intent and key requirements of that Statement and (2) concerns of financial statement users that many of the financial assets (and related obligations) that have been derecognized should continue to be reported in the financial statements of transferors. SFAS 166 must be applied as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application is prohibited. Rodman adopted SFAS 166 effective January 1, 2010. SFAS 166 did not impact Rodman's Consolidated Financial Statements.

FASB ASC 810. Rodman will adopt further accounting changes described in ASC 810, Consolidation Topic, as of January 1, 2010, which require that the party who has the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and who has an obligation to absorb losses of the entity or a right to receive benefits from the entity that could potentially be significant to the entity consolidate the variable interest entity. The changes to ASC 810, effective as of January 1, 2010, eliminate the quantitative approach previously applied to assessing the consolidation of a variable interest entity and require ongoing reassessments for consolidation. Starting on January 1, 2010, Rodman deconsolidated its investment in Aceras BioMedical because Aceras Partners most significantly impacts Aceras BioMedical's economic performance. The impact of ASC 810 will be to record the investment in Aceras BioMedical under the equity method prospectively as of January 1, 2010.

Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss that may result from the change in value of a financial instrument due to fluctuations in its market price. Market risk is inherent in all financial instruments. Market risk may be exacerbated in times of trading illiquidity when market participants refrain from transacting in normal quantities and/or at normal bid-offer spreads. Rodman's exposure to market risk is directly related to its role as a financial intermediary in customer trading and to its market-making and investment activities.

Rodman trades in equity securities as an active participant in both listed and OTC equity markets. Rodman maintains securities in inventory to facilitate its market-making activities and customer order flow. Although Rodman does not engage in proprietary trading, it may use a variety of risk management techniques and hedging strategies in the ordinary course of its trading business, including establishing position limits by product type and industry sector, closely monitoring inventory turnover, maintaining long and short positions in related securities, and using exchange-traded equity options and other derivative instruments. Rodman does not use derivatives for speculative purposes.

In connection with Rodman's trading business, management also reviews reports appropriate to the risk profile of specific trading activities. Typically, market conditions are evaluated and transaction details and securities positions are reviewed.

These activities seek to ensure that trading strategies are within acceptable risk tolerance parameters, particularly when Rodman commits its own capital to facilitate client trading. Rodman's accounting department is actively involved in ensuring the integrity and clarity of the daily profit and loss statements, to the extent that Rodman maintains trading positions for a period longer than one day. Activities include price verification procedures, position reconciliation and review of transaction booking. Rodman believes that these procedures, which stress timely communications between its traders and senior management, are important elements of the risk management process.

At September 30, 2010, \$13.8 million, or 36% of \$38.9 million of financial instruments owned, at fair value, represented investments in warrants received in conjunction with Rodman's investment banking activities. \$9.7 million, or 25% of financial instruments owned is related to merchant banking activity. The remaining 39% of the financial instruments owned represents a listed equity securities, restricted securities and investments in affiliates at fair value and promissory notes received in connection with its investment banking activities.

The primary quantifiable market risk associated with financial instruments is sensitivity to changes in interest rates. Interest rate risk represents the potential loss from adverse changes in market interest rates. The risk management strategies that Rodman employs use various risk sensitivity metrics to measure such risk and to examine behavior under significant adverse market conditions. Rodman uses an interest rate sensitivity simulation to assess its interest rate risk exposure. For purposes of presenting the possible earnings effect of a hypothetical, adverse change in interest rates over the 12-month period from the reporting date, Rodman assumes that all interest rate sensitive financial instruments will be impacted by a hypothetical, immediate 100 basis point increase in interest rates as of the beginning of the period. The sensitivity is based upon the hypothetical assumption that all relevant types of interest rates that affect Rodman's results would increase instantaneously, simultaneously and to the same degree.

The sensitivity analyses of the interest rate sensitive financial instruments are hypothetical and should be used with caution. Changes in fair value based on a 1% or 2% variation in an estimate generally cannot be extrapolated because the relationship of the change in the estimate to the change in fair value may not be linear. Also, the effect of a variation in a particular estimate on the fair value of financial instruments is calculated independent of changes in any other estimate; in practice, changes in one factor may result in changes in another factor, which might magnify or counteract the sensitivities. In addition, the sensitivity analyses do not consider any action that Rodman may take to mitigate the impact of any adverse changes in the key estimates.

Based on Rodman's analysis, as of September 30, 2010, the effect of a 100+/- basis point change in interest rates on the value of Rodman's warrant portfolio and promissory note and the resultant effect on its pre-tax income are considered immaterial.

The value of Aceras BioMedical's assets in Rodman's merchant banking activity was determined based on an independent valuation prepared as of September 30, 2010, taking into consideration the cost of the investment, market participant inputs, non-binding offers made by third parties, estimated cash flows based on entity specific criteria, purchase multiples paid in other comparable third-party transactions, market conditions, liquidity, operating results and other qualitative and quantitative factors. The values at which Rodman's investments are carried on its books are adjusted to estimated fair value at the end of each quarter and the instability in general economic conditions, stock markets and regulatory conditions may result in significant changes in the estimated fair value of these investments. The primary quantifiable market risk associated with the Aceras BioMedical assets is sensitivity to changes in interest rates. Based on Rodman's analysis as of September 30, 2010 assuming a 100 basis point increase in interest rate, Rodman estimated the reduction of pre-tax income is considered immaterial.

Financial Statements and Supplementary Data

The information in response to this item is contained elsewhere in this proxy statement/prospectus beginning on page ____.

Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

Effective on August 14, 2008, Rodman dismissed Marcum LLP (formerly Marcum & Kliegman LLP) (Marcum) from serving as its independent accountants and engaged KPMG LLP as its new independent accountants. Rodman's Audit Committee unanimously approved and authorized the change, directed the process of review of candidate firms to replace Marcum and made the final decision to engage KPMG LLP. There were no disagreements, adverse opinions or disclaimer of opinion by Marcum at the time of the change or during the fiscal year ended December 31, 2008.

BENEFICIAL STOCK OWNERSHIP BY PRINCIPAL STOCKHOLDERS AND MANAGEMENT

The following table sets forth information regarding beneficial ownership of Rodman's common stock as of January 1, 2011 (except as otherwise noted) for (i) each stockholder known to be the beneficial owner of more than 5% of the outstanding shares of our common stock; (ii) each member of Rodman's board of directors; (iii) each of Rodman's named executive officers (*i.e.*, those included in the Summary Compensation table on page ___ below); and (iv) all of Rodman's directors and current executive officers as a group.

Unless otherwise indicated in the footnotes to this table, based on information furnished by such stockholders, each of the stockholders named in this table has sole voting and investment power with respect to the shares indicated as beneficially owned.

- (1) Unless indicated otherwise, all addresses are c/o Rodman & Renshaw Capital Group, Inc., 1251 Avenue of the Americas, New York, New York 10020.
- (2) Except as otherwise indicated and subject to applicable community property and similar laws, each named person has reported having the sole voting and investment power with respect to his or her shares, other than shares subject to options or other rights to acquire.
- (3) Percentage of Common Stock Beneficially Owned is based on the 33,386,598 shares outstanding as of January 1, 2011. In addition, shares which a person had the right to acquire that are included in his or her beneficial ownership are also deemed outstanding in calculating the percentage ownership of the person but not deemed outstanding as to any other person.
- (4) Includes 425,980 shares underlying options that are currently exercisable.
- (5) Includes 1,500,000 shares underlying restricted stock units (RSUs). RSUs represent a right to acquire shares but do not confer a right to vote and impose restrictions on the right to dispose of the underlying shares.
- (6) Includes 300,000 shares underlying RSUs.
- (7) Includes 1,500,000 shares underlying RSUs and 12,711,683 shares owned by Paul Revere, LLC (Revere). ARF Trust, a trust for the benefit of Mr. Vasinkevich's wife and children, owns a two-thirds membership interest in Revere. Mr. Rubin and a trust for the benefit of his children own a one-third membership interest in Revere. Mr. Rubin is the sole trustee of the ARF Trust and the wife and children of Michael Vasinkevich, our Vice Chairman, are its beneficiaries. Mr. Rubin has sole voting and investment power over all of the shares owned by Revere.
- (8) Includes 319,500 shares underlying restricted stock units (RSUs).
- (9) Includes 10,000 shares underlying options that are currently exercisable or exercisable within 60 days of January 1, 2011 and 39,768 shares underlying RSUs.
- (10)

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

Includes 10,000 shares underlying options that are currently exercisable or exercisable within 60 days of January 1, 2011 and 30,000 shares underlying RSUs.

- (11) Includes 485,980 shares underlying options that are currently exercisable or exercisable within 60 days of January 1, 2011 and 3,828,804 shares underlying RSUs.

MANAGEMENT

Set forth below is information concerning Rodman's board directors and senior executive officers, as of January 1, 2011.

Name	Age	Position
Wesley K. Clark	66	Chairman and Director
Michael Vasinkevich	43	Vice Chairman and Director
Edward Rubin	43	Chief Executive Officer (Principal Executive Officer), President and Director
John J. Borer III	53	Senior Managing Director, Head of Investment Banking and Director
David Horin	42	Chief Financial Officer (Principal Accounting Officer)
Winston Churchill	70	Director
Richard M. Cohen	59	Director
Peter F. Drake	57	Director
Sam Dryden	60	Director
Mark L. Friedman	62	Director
Marvin I. Haas	68	Director

Executive officers are appointed by, and serve at the pleasure of, the Board of Directors. A brief biography of each director and executive officer follows:

Wesley K. Clark. General Clark was appointed Chairman on July 10, 2007 and became a director on July 22, 2007. He was appointed chairman of Rodman & Renshaw Holding LLC (Holding), our predecessor, in January 2006. In addition to being an educator, writer and commentator, General Clark is chairman and chief executive officer of Wesley K. Clark & Associates, a strategic advisory firm he founded in March 2003. From June 2000 through March 2003, General Clark was a managing director at Stephens, Inc., an investment banking firm based in Arkansas. From June 1966 through June 2000, General Clark served in the U.S. Army where he held numerous staff and command positions and rose to the rank of four-star general. He served as NATO Supreme Allied Commander and Commander in Chief of the U.S.-European Command from July 1997 through May 2000. In August 2000, General Clark was awarded the Presidential Medal of Freedom, the United States highest civilian honor. General Clark graduated from the United States Military Academy at West Point in 1966. He received a Masters in Philosophy, Politics and Economics from Oxford University where he was a Rhodes Scholar from 1966 to 1968. General Clark serves on the board of directors of AMG Advanced Metallurgical Group N.V., a global producer of specialty metals and metallurgical vacuum furnace systems, Bankers Petroleum Ltd., a Canadian-based oil and gas exploration and production company, Juhl Energy, Inc., a wind energy provider and Prysmian S.r.l. a provider of high-technology cables and systems for energy and telecommunication. He is a former director of Adams Aircraft Industries, Inc., Argyle Security, Inc., CVR Energy, Inc., Nutraceutical Inc. and Summit Global Logistics, Inc.

Michael Vasinkevich. Mr. Vasinkevich was appointed Vice Chairman on July 10, 2007 and became a director on July 22, 2007. He was appointed vice chairman of Holding in May 2007. He joined us in July 2002 as senior managing director and was appointed a director of Rodman & Renshaw, LLC (R&R), our registered broker-dealer in 2006 and a director of Holding in 2004. From August 1999 through May 2002, Mr. Vasinkevich was a managing director at Ladenburg Thalmann & Co. Inc., and for the last 11 months of his tenure there he was president of capital markets. From November 1998 through July 1999 he was the founder and managing director of Tandem Venture Partners, Ltd., a specialized financial advisory firm focusing on growth companies in the United States and Asia. From June 1997 to November 1998, he was the managing director of the structured finance group at Jesup & Lamont Securities Corp.

Edward Rubin. Mr. Rubin was appointed Chief Executive Officer on February 9, 2009, and became President and a director on July 10, 2007. He was appointed president of Holding in May 2007. He originally joined Holding in June 2002 as a senior managing director. He served as President of R&R from September 2006, as a director of R&R since 2006 and as a director of Holding since 2004. From August 1999 through May 2002, Mr. Rubin was a director, corporate finance with Ladenburg Thalmann & Co. Inc. From November 1998 through July 1999, he was the founder and executive vice president of Tandem Venture Partners, Ltd., a specialized financial advisory firm focusing on growth companies in the United States and Asia. From July 1998 to November 1998, he was a vice president in the structured finance group at Jesup & Lamont Securities Corp. From November 1995 through December 1997, Mr. Rubin was assistant general counsel for NCH Capital, an investment fund specializing in investments in Eastern Europe and the former Soviet Union. From September 1993 through November 1995, Mr. Rubin was an associate in two law firms in New York, Friedman & Kaplan and Coudert Brothers. Mr. Rubin received his B.A. in political science from Bernard M. Baruch College in 1989 and his J.D. from New York University School of Law in 1993.

John J. Borer III. Mr. Borer became a director on July 22, 2007 and a Senior Managing Director and Co-Head of Investment Banking in September 2007. Since July 2008, he has been Head of Investment Banking. Mr. Borer was our Chief Executive Officer from July 10, 2007 through September 4, 2007. Mr. Borer was appointed chief executive officer of Holding in May 2007. He also served as a director of Holding since April 2004 and a director of R&R since 2002. From 1998 through 2006 he was a senior managing director and the president of R&R. From 1991 through 1998, Mr. Borer was a managing director and head of investment banking at the broker-dealer affiliate of the original Rodman & Renshaw firm. From 1984 through 1991, Mr. Borer was senior vice president and investment manager in the new business development office of Security Pacific Business Credit Inc. From 1979 through 1984, he served as a vice president and business development officer with Barclays American Business Credit in its Los Angeles office. Mr. Borer received his B.S. in Agricultural Economics from the University of California at Davis in 1978 and his J.D. from Loyola Law School in Los Angeles in 1984.

David Horin. Mr. Horin became our Chief Financial Officer on March 17, 2008. From 2003 through March 2008, Mr. Horin was the Managing Director of Accounting Policy and Financial Reporting at Jefferies & Company, Inc., the principal operating subsidiary of Jefferies Group, Inc. Prior to his employment at Jefferies & Company, from 2000 to 2003, Mr. Horin was a Senior Manager in KPMG's Department of Professional Practice in New York, where he advised firm members and clients on technical accounting and risk management matters for a variety of public, international and early growth stage entities. Mr. Horin has a Bachelor of Science degree in Accounting from Baruch College at the City University of New York. Mr. Horin is also a Certified Public Accountant.

Winston Churchill. Mr. Churchill became a director on October 16, 2007. He has served as the chairman of the board of Cyalume Technologies Holdings Inc. (OTCBB:CYLU), successor by change of name to Vector Intersect Security Acquisition Corp., since May 31, 2006. Since 1996, Mr. Churchill has been the managing general partner of SCP Partners, which manages several private equity and venture capital funds. From 1993 to the present he has been the chairman of CIP Capital Management, Inc., which manages a small business investment company, as defined by the National Association of Small Business Investment Companies. He is currently a director of Innovative Solutions and Support, a company engaged in the design, manufacture, and sale of flight information computers, flat panel displays, and monitoring systems; Amkor Technology, Inc., a subcontractor of semiconductor packaging and test services; Griffin Land & Nurseries, a real estate and landscape nursery business; and a number of private portfolio companies. Mr. Churchill received a B.S. in Physics, *summa cum laude*, from Fordham University in 1962, an M.A. in Economics from Oxford University, where he was a Rhodes Scholar, in 1964, and a J.D. from Yale Law School in 1967. He is a trustee of Immaculata University.

Richard M. Cohen. Mr. Cohen became a director on August 13, 2007. Since 1996, he has been the President of Richard M. Cohen Consultants, a financial services consulting company that accepts engagements from public and private companies to assist with their corporate governance and corporate finance needs. Since 2003, Mr. Cohen has served as a director of Dune Energy, Inc., a publicly traded energy company for which he served as chief financial officer from November 2003 to April 2005. He is also currently serving as corporate secretary of Dune. Since February 2006, Mr. Cohen has served as a director of Helix Biomedix Inc., and December 2009 he has served as a Director of Cormedix, Inc. From 1984 through 1992, Mr. Cohen was an investment banker at Henry Ansbacher, Furman Selz, where he specialized in mergers & acquisitions, public equity offerings, and restructurings. From 1980 through 1983, Mr. Cohen was a vice president of corporate development at Macmillan, Inc. Mr. Cohen is a certified public accountant (New York State). He received a B.S. from the University of Pennsylvania (Wharton) in 1973 and an M.B.A. from Stanford University in 1975.

Peter F. Drake. Dr. Drake became a director on October 16, 2007. Dr. Drake is currently the managing general partner of Mayflower Partners, a healthcare investment fund. From 1999 to 2002, he served as a managing director in the Equity Research Department of Prudential Securities, Inc., following Prudential's acquisition of Vector Securities International, an investment banking firm co-founded by Dr. Drake in 1988. Vector specialized in raising capital for emerging healthcare companies and acted as an advisor in merger and alliance transactions in the healthcare area. Dr. Drake joined the investment banking firm of Kidder, Peabody & Co. as a biotechnology analyst in 1983, becoming a partner in 1986. He currently serves on the board of directors of Trustmark Insurance Co., a healthcare insurance provider, Penwest Pharmaceuticals Co., a publicly traded healthcare company providing drug delivery systems, Cortex Pharmaceuticals, Inc., a publicly traded neuroscience company, and Sequoia Sciences, a privately held biotechnology company focusing on the development of new anti-infectives. Dr. Drake received a B.A. in Biology from Bowdoin College in 1976, a Ph.D. in Biochemistry and Neurobiology from Bryn Mawr College in 1980 and a C.B.A. from the Wharton School of Business at the University of Pennsylvania in 1983.

Sam Dryden. Mr. Dryden became a director on July 22, 2007. He had been appointed to the board of directors of Holding in March 2007. Since February 2010, he has served as Director, Agricultural Development of the Bill and Melinda Gates Foundation. He also serves as Senior Advisory Director of Wolfensohn & Company, a corporate advisory and investment firm. From January 1,

2007 until January 31, 2010, he served as a managing director of Wolfensohn & Company where he focuses on private equity investments in biofuels and other alternative energies. He was the chief executive officer of Emergent Genetics, LLC, a life science investment holding company, a position he has held since April 2004. From January 1997 through June 2006, he served as chairman and chief executive officer of Emergent Genetics, Inc., an international biotechnology company. He founded and held executive positions with both Agrigenetics Corporation, now part of Dow AgroSciences, and Big Stone Inc., a private venture-investment and development company, which participated in the founding of over a dozen life science companies. Mr. Dryden is a member of the Council on Foreign Relations where he serves on its Advisory Committee on Intellectual Property and American Competitiveness. Mr. Dryden received his B.A. from Emory University in 1973.

Mark L. Friedman. Mr. Friedman became a director on October 16, 2007. Since 2001, he has served as the managing partner of Constellation Investment Partners LLC, a Florida based merchant-banking and special investment firm. In 2003, Mr. Friedman co-founded OnForce, Inc., an online marketplace for onsite technology services. Mr. Friedman was a partner of Shea & Gould, a national law firm, from 1982-1992 and also served as a member of its management committee. He previously served as a director of several public companies, including Allied Digital Technologies Corp. and Disc Graphics, Inc., where he also served as chairman of the audit committee. Mr. Friedman received his B.A. in history, *magna cum laude*, in 1970 and his J.D., *cum laude*, in 1973 from the University of Pennsylvania. He was elected to the Phi Beta Kappa Society and was Articles Editor of the University of Pennsylvania Law Review.

Marvin I. Haas. Mr. Haas became a director on October 16, 2007. From December 2006 through August 2008, Mr. Haas served as a member of the board of directors of Universal Power Group, Inc. and as chairman of its compensation committee and as a member of its corporate governance and nominating committee. From 1993 until its sale to the Sara Lee Corporation in 1999, Mr. Haas served as president and chief executive officer of Chock Full O Nuts Corporation. Since his retirement from Chock Full O Nuts, Mr. Haas has been a private investor. Mr. Haas received a B.A. from Northeastern University in 1965 and an M.B.A. from its Graduate School of Business in 1967.

Disclosure of Director Qualifications

The Rodman board of directors, acting through the Nominating and Corporate Governance Committee, is responsible for assembling for stockholder consideration a group of nominees that, taken together, have the experience, qualifications, attributes, and skills appropriate for functioning effectively as a board. The Nominating and Corporate Governance Committee regularly reviews the composition of the board of directors in light of the company's changing requirements, its assessment of the board's performance, and the inputs of stockholders and other key constituencies.

The Nominating and Corporate Governance Committee looks for certain characteristics common to all board members, including integrity, strong professional reputation and record of achievement, constructive and collegial personal attributes, and the ability and commitment to devote sufficient time and energy to board service.

In addition, the Nominating and Corporate Governance Committee seeks to include on the Board a complementary mix of individuals with diverse backgrounds and skills reflecting the broad set of challenges that the board confronts. These individual qualities can include matters like experience in the company's industry, technical experience (for example, financial or technological expertise), experience gained in situations comparable to the company's (e.g., financial service companies, growth companies, and companies that grow through acquisitions), leadership experience, and relevant geographical experience.

Following is a brief description of the specific experience and qualifications, attributes or skills of each director that led to the conclusion that such person should serve as a director of Rodman:

General Clark's leadership in the U.S. Army and as NATO Supreme Allied Commander and Commander-in-Chief of the U.S. European Command and his experience in the investment banking sector provides the board with broad leadership and strategic skills and perspective, particularly with regard to interaction with government agencies in our heavily regulated industry and in the non-U.S. markets that we target.

Mr. Vasinkevich's knowledge regarding the capital markets and industries in which we compete provides a critical link between management and the board, enabling the board to provide its oversight function with the benefit of management's perspective of the business.

Mr. Rubin's knowledge regarding our operations and the markets in which we compete, including non-U.S. markets, provides a critical link between management and the board, enabling the board to provide its oversight function with the benefit of management's perspective of the business.

Mr. Borer's knowledge regarding our history and operations and the markets provides a critical link between management and the board, enabling the board to provide its oversight function with the benefit of management's perspective of the business.

Mr. Churchill's experience in managing private equity and venture capital funds and his legal education provides the board with the perspective of an active investor and fund manager with a deep understanding of the financial markets.

Mr. Cohen's hands-on experience in public company corporate governance and corporate finance both through his current consulting practice and prior affiliation with Furman Selz provides the board with a unique perspective on corporate governance matters and corporate finance matters. Given his financial experience, Mr. Cohen has been determined by our board to be the Audit Committee financial expert.

Mr. Drake's depth of knowledge of the investment banking sector, and his having been a key player in the growth and sale of Vector to Prudential Securities, provides the board with a perspective on growth and acquisition strategies.

Mr. Dryden's in-depth knowledge of the biotechnology sector as well as his affiliations both with Wolfenson & Company and the Bill and Melinda Gates Foundation provides the board with valuable management and leadership skills, as well as insight into the biotechnology focus of our business.

Mr. Friedman's law background, together with his investment and merchant banking experience, provides the board with valuable input into our business.

Mr. Haas's experience as a chief executive officer of a public company and his current involvement in the investment community provides the board with valuable leadership skills and insight into our business.

Family Relationships

None of the directors or executive officers is related by blood, marriage or adoption.

COMPENSATION OF DIRECTORS

Each member of the Rodman board of directors who is not an employee receives, as compensation for service on the board: (i) an annual retainer of \$20,000; (ii) \$1,000 for each meeting of the board attended either in person or telephonically; and (iii) \$750 for each committee meeting attended either in person or telephonically. In addition, each committee chairman receives an additional annual retainer as follows: (i) Audit Committee \$12,500; (ii) Compensation Committee \$7,500; and (iii) Nominating and Corporate Governance Committee \$5,000. Such additional compensation is intended to reflect special efforts of such board members. In 2009, each non-employee director received a RSU grant covering 30,000 shares of Rodman common stock, 10,000 of which vested on the date of grant, 10,000 of which vested on the first anniversary of the grant date in 2010 and 10,000 of which will vest on the second anniversary of the grant date in 2011, subject to forfeiture and accelerated vesting upon specified events. In addition, settlement of all of the RSUs generally is deferred for two years following the final vesting date. Board members are reimbursed for reasonable travel expenses associated with attending any board or committee meetings.

The following table sets forth the compensation paid to members of Rodman's board of directors who are not named executive officers for the year ended December 31, 2010.

Director Compensation - 2010

Name	Fees Earned or Paid in Cash	Stock Awards(1)	All Other Compensation	Total
Wesley K. Clark(2)			\$ 250,000	\$ 250,000
Sam Dryden	\$ 32,250			32,250
Richard Cohen	43,275			43,275
Winston Churchill	35,500			35,500
Peter F. Drake	29,500			29,500
Mark L. Friedman	40,500			40,500
Marvin I. Haas	31,250			31,250

(1) At December 31, 2010, directors held the following number of outstanding options, unvested RSUs and vested RSUs that are deferred as to settlement:

Awards Held at December 31, 2010

Name	Options	Unvested RSUs	Vested RSUs
Wesley K. Clark	425,980	- 0 -	- 0 -
Sam Dryden	10,000	10,000	29,768
Richard Cohen	10,000	10,000	29,768
Winston Churchill	10,000	10,000	20,000
Peter F. Drake	10,000	10,000	29,768
Mark L. Friedman	10,000	10,000	20,000
Marvin I. Haas	10,000	10,000	20,000

(2) General Clark is an employee, and receives no separate compensation for service as a member of the board of directors. His compensation is described below. The amount in the column All Other Compensation represents the amount of compensation Rodman paid to him in 2010.

Wesley K. Clark is employed as the Chairman of the Board and serves as a member of the board of directors. His employment commenced January 30, 2006. Under his current employment agreement, he receives an annual base salary of \$250,000. In addition, he is eligible to receive the following cash bonuses: (i) up to 15% of fees received by R&R, Rodman's broker-dealer affiliate, in connection with any transaction introduced by him; and (ii) a discretionary amount at the end of each calendar quarter. In addition, the agreement: (i) granted him options to purchase 425,980 shares of Rodman common stock at \$3.78 per share, all of which were vested at December 31, 2008; and (ii)

provides for payment of an amount if there is a Change of Control Event during the period of employment. In general, the amount cannot exceed \$1,514,942, and would be reduced to the extent that the fair market value of a share of Rodman common stock is less than \$3.78 per share (as adjusted) on the date of the Change of Control Event. Rodman may make the payment, in its absolute discretion, in cash or other property, including the shares or other property which may have been received in the transaction which constituted the Change of Control Event. A

Change of Control Event, in general, means the acquisition by any one person, or a group, of more than 50% of the total fair market value or total voting power of Rodman's capital stock or of substantially all of our assets.

EXECUTIVE COMPENSATION

The following table describes the components of the total compensation paid to Rodman's named executive officers for 2010 and 2009.

Summary Compensation Table

	<u>Year</u>	<u>Salary</u>	<u>Bonus</u>	<u>Stock Awards⁽¹⁾</u>	<u>All Other Compensation</u>	<u>Total</u>
<i>Principal Executive Officer</i>						
Edward Rubin	2010	\$ 150,000	\$ 2,557,175	\$ 2,052,000	\$	\$ 3,909,175
President and Chief Executive Officer ⁽²⁾	2009	\$ 150,000	\$ 2,637,794	\$	\$	\$ 2,787,794
<i>Principal Accounting Officer</i>						
David Horin	2010	\$ 200,000	\$ 175,000	\$ 119,000	\$	\$ 494,000
Chief Financial Officer	2009	\$ 200,000	\$ 350,000	\$ 31,910	\$	\$ 581,910
<i>Michael Vasinkevich</i>						
Vice Chairman	2010	\$ 150,000	\$ 2,557,175	\$ 2,052,000	\$	\$ 4,759,175
	2009	\$ 150,000	\$ 3,637,794	\$	\$	\$ 3,787,794
<i>John J. Borer III.</i>						
Head of Investment Banking	2010	\$ 150,000	\$ 827,533	\$ 410,400	\$	\$ 1,162,933
	2009	\$ 150,000	\$ 1,575,825	\$	\$	\$ 1,725,825

(1) The stock-based compensation amounts reported in "Stock Awards" column for both years represent the aggregate grant-date fair value of the awards computed in accordance with FASB ASC Topic 718 (excluding estimated forfeitures based on service-based vesting conditions). Rodman determines the fair value of restricted stock and RSUs based on the closing price of its common stock on the date of grant, subject to a discount (reduction) in the case of RSUs that impose restrictions that delay settlement and thus preclude marketability of the underlying shares for periods extending after the lapse of the risk of forfeiture (vesting). Rodman calculates this discount using a protective put method model.

(2) Mr. Rubin became our Chief Executive Officer effective February 9, 2009.

Employment Arrangements with Named Executive Officers

On November 30, 2010 (the Effective Date), Rodman entered into employment agreements (the Employment Agreements) with each of Michael Vasinkevich, Edward Rubin and John J. Borer III, for their continued employment with the company as senior managing director and vice chairman, chief executive officer and senior managing director, respectively. Upon execution of the Employment Agreements, their preexisting employment agreements with Rodman, along with all rights and obligations of the parties thereunder, were immediately terminated. The Employment Agreements are substantially identical and provide, *inter alia*, as follows:

Term: Each of Messrs. Vasinkevich, Rubin and Borer are at will employees.

Base Salary: \$150,000 per annum, payable according to the company's prevailing payroll schedule.

Signing Bonus: Each of Messrs. Vasinkevich, Rubin and Borer were granted a signing advance (retention bonus) equal to \$850,000, \$850,000 and \$250,000, respectively. In the event that Messrs. Vasinkevich, Rubin and Borer terminates his employment with Rodman on or prior to November 30, 2011, other than for Good Reason (as defined), or his employment is terminated by Rodman for Cause (as defined), such executive has agreed to promptly reimburse Rodman for the full amount of such advance. The advance shall be fully earned and non-reimbursable (a) if the executive remains in the continuous employ of Rodman through November 30, 2011, (b) in the event that, on or prior to November 30, 2011, the executive terminates his employment with Rodman for Good Reason (as defined), (c) in the event that, on or prior to November 30, 2011, the executive employment is terminated by Rodman other than for Cause (as defined), or (d) in the event of the executive's death on or before November 30, 2011.

RSU Grant: Each of Messrs. Vasinkevich, Rubin and Borer received a Restricted Stock Unit (RSU) grant of 1.5 million, 1.5 million and 0.3 million shares, respectively, under Rodman's 2010 Stock Award and Incentive Plan, which RSU grant vests ratably, subject to the achievement of stated performance benchmarks, in fifths on February 28, 2012, 2013, 2014, 2015 and 2016, respectively. The RSU is subject to accelerated vesting and forfeiture upon the occurrence of stated events.

Incentive Compensation: Each executive is eligible to receive a bonus, to be determined at the sole discretion of the Rodman board of directors and payable in accordance with Rodman's then prevailing policy, including the payment of a pro rata bonus based upon actual full year performance in the event of the executive's termination other than for Cause or the executive terminates his employment for Good Reason.

Benefits. Each individual is entitled to participate in any retirement plans, insurance, health, disability or other benefit plan or program that is maintained by Rodman.

In February 2008, Rodman entered into an at-will employment agreement with Mr. David Horin, its vice president and chief financial officer. Mr. Horin's employment commenced on March 17, 2008. Pursuant to the agreement, Mr. Horin serves at the pleasure of the board of directors and is entitled to receive base compensation of \$200,000 per year plus an annual bonus to be determined in accordance with Rodman's prevailing compensation practices except that, for calendar years 2008 and 2009 the agreement provided that such bonus would not be less than \$350,000 per annum. Rodman is permitted to pay a portion of such bonus in the form of equity awards. In addition, on the commencement date of his employment, Mr. Horin was granted 100,000 restricted shares of Rodman common stock pursuant to a restricted stock agreement which provided for vesting in three annual installments on the first, second and third anniversary of the grant date, provided Mr. Horin has not been terminated for cause or voluntarily terminated prior to vesting, and for accelerated vesting in the event of death, disability, termination without cause, termination for good reason, and termination upon a change in control. This grant was exchanged for 100,000 RSUs in December 2008.

Cash Bonus Compensation

Cash bonus compensation is a key component of Rodman's executive compensation program. In 2009 and 2010, Rodman implemented pre-set performance based annual incentive awards for the named executive officers (other than the Chief Financial Officer). In 2009, Rodman also paid a bonus guaranteed under the employment agreement with Mr. Horin; this bonus amount was part of the compensation package which was negotiated in recruiting Mr. Horin to join the management team.

In August 2007, the Compensation Committee and the Rodman board of directors unanimously approved and adopted, and our stockholders approved, our Executive Bonus Plan. The Executive Bonus Plan includes the following key provisions:

The plan is administered by the Compensation Committee of the Board.

The plan has a term of five years, ending August 31, 2012.

The initial participants in the plan were Michael Lacovara, John J. Borer III, Michael Vasinkevich and Edward Rubin. The Compensation Committee may designate other employees as participants.

The Compensation Committee will determine the size of the hypothetical bonus pool to be distributed to the participants and the amount to be allocated to each participant based on performance criteria that it establishes. For 2009, the Compensation Committee authorized the funding of the bonus pool in an amount equal to 60% of 2009 total consolidated cash revenues, minus the base compensation payable to the participants and other compensation for employees but excluding from compensation equity-based compensation granted prior to October 17, 2007 and insurance premiums paid in respect of key-man life insurance policies for Rodman's benefit.

The Compensation Committee sets the allocation of the bonus pool before or early in the performance year, provided that in no event may the amount distributed in any single fiscal year to a participant exceed 25% of Rodman's total consolidated gross revenues for such year, as reported on its financial statements. For 2010, the Compensation Committee set allocations of this pool as follows: Mr. Borer, 15.0%; Mr. Vasinkevich, 42.5%; and Mr. Rubin, 42.5%. No bonuses would be payable if the funding formula resulted in zero or a negative amount. The maximum bonuses payable likewise were governed by this formula, subject to any lower limit that may be applicable under the Executive Bonus Plan.

The Executive Bonus Plan contains an overall limit on the bonus pool. In no event may the amounts payable pursuant to the plan in any one fiscal year, when added to all of Rodman's other compensation and benefits expenses for that year, as reported on its financial statements, exceed 60% of our total consolidated cash revenues for that year, excluding insurance premiums paid with respect to key-man life insurance policies for our benefit and equity-based compensation attributable to awards granted prior to September 30, 2007. As stated above, for 2009, the Compensation Committee set the cap on the pool at 60% of total consolidated cash revenues.

2010 Stock Award and Incentive Plan

In 2010 the Rodman board of directors adopted and the Rodman stockholders approved the 2010 Stock Award and Incentive Plan (the 2010 Plan) to replace the Company's 2007 Plan (the 2007 Stock and Incentive Plan). The Rodman board of directors approved the 2010 Plan to:

- attract, retain, motivate and reward officers, employees, directors, consultants and advisors to Rodman and its subsidiaries and affiliates;
- strengthen Rodman's capability to develop and direct a competent management team;
- provide equitable and competitive compensation opportunities;
- authorize incentive awards that appropriately reward achievement of our goals and recognize individual contributions without promoting excessive risk; and
- promote creation of long-term value for stockholders by closely aligning the interests of participants with the interests of stockholders.

The 2010 Plan makes four million shares of common stock available for equity awards, representing approximately 12% of the shares of Rodman common stock outstanding at January 1, 2011. In addition, shares that remain available under Rodman's 2007 Plan are also available under the 2010 Plan. Shares subject to outstanding awards under the 2007 Plan may become available for further grant under the 2010 Plan if such shares are not delivered to the participant, in accordance with the share counting rules in the 2010 Plan. In addition, the 2010 Plan would provide for cash incentive awards, including annual incentive awards, which previously were granted under Rodman's Executive Bonus Plan.

The 2010 Plan authorizes a broad range of awards, including:

- stock options
- stock appreciation rights (SARs)
- restricted stock, a grant of actual shares subject to a risk of forfeiture and restrictions on transfer
- deferred stock, a contractual commitment to deliver shares at a future date, which may or may not be subject to a risk of forfeiture (we generally refer to forfeitable deferred stock as restricted stock units)
- other awards based on Common Stock
- dividend equivalents
- performance shares or other stock-based performance awards (these include deferred stock or restricted stock awards that may be earned by achieving specific performance objectives)
- cash-based performance awards tied to achievement of specific performance objectives
- shares issuable in lieu of rights to cash compensation.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

The 2010 bonuses, which have not been fully determined or fully paid, are based upon certain revenue and non-GAAP pre-tax income levels.

The following table summarizes the options and restricted stock units outstanding and shares available for future grant of equity awards under the 2010 Plan and the 2007 Plan as of December 31, 2010. The shares covered by outstanding options and restricted stock units and the exercise prices of options are subject to adjustment for changes in capitalization stock splits, stock dividends and similar events.

Equity Compensation Plan Table

	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)
Equity Compensation Plans Approved By Security Holders	7,329,880(1)	\$ 0.04(2)	4,418,794(3)
Equity Compensation Plans Not Approved By Security Holders	4,046,812(4)	\$ 4.06	
Total	11,376,692	\$ 1.47(5)	4,418,794

- (1) Includes options covering 60,000 shares having an exercise price of \$5.00 per share and restricted stock units covering 7,269,880 shares, but excludes outstanding restricted stock (which awards under SEC rules do not constitute options, warrants or rights).
- (2) Weighted average is calculated for both options and RSUs, in accordance with SEC rules, although RSUs do not have an exercise price. If only options were included in this calculation (i.e., excluding RSUs), the weighted average exercise price of the outstanding options would have been \$5.00.
- (3) Of the shares remaining available for future equity awards, all of such shares could be granted in the form of either stock options or restricted stock, restricted stock units, or other full value awards.
- (4) These are options granted prior to Rodman becoming a public reporting company.
- (5) Weighted average is calculated for both options and RSUs, in accordance with SEC rules, although RSUs do not have an exercise price. If only options were included in this calculation (i.e., excluding RSUs), the weighted average exercise price of the outstanding options would have been \$4.07.

Outstanding Equity Awards At Fiscal Year End Fiscal 2010

The following table shows information concerning outstanding equity awards held by the named executive officers on December 31, 2010.

Name	Number of shares or units of stock that have not vested(1)	Market value of shares or units of stock that have not vested (\$)(2)
Edward Rubin	1,500,000(3)	4,290,000
John J. Borer III	300,000(3)	858,000
David Horin	207,496(4)	593,439
Michael Vasinkevich	1,500,000(3)	4,290,000

(1) All awards in this column are Restricted stock units (RSUs).

(2) Market value is calculated based on the closing price per share of common stock on December 31, 2010 of \$2.86.

(3) The RSU grant vests ratably, subject to the achievement of stated performance benchmarks, as to 20% of the underlying shares on February 28, 2012, 2013, 2014, 2015 and 2016. The RSUs are subject to accelerated vesting in certain circumstances upon death, disability, termination without cause, termination for good reason (as defined in the applicable employment agreement) and termination upon a change in control event.

(4) 33,333 RSUs were granted on March 17, 2008 and vest on March 16, 2011; 5,503 were granted on August 15, 2008 and vest on August 15, 2011; 49,495 were granted on February 6, 2009 and vest in equal portions on February 6, 2011 and February 6, 2012; 19,165 were granted on December 29, 2009 and vest in equal portions on December 29, 2011 and December 29, 2012; and 100,000 were granted on March 17, 2010 and vest in equal portions on each of the first three anniversaries of the grant date. These awards are subject to accelerated vesting in the event of death, disability, termination without cause, termination for good reason (as defined in Mr. Horin's employment agreement) and termination upon a change in control event.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves as a member of the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the Board of Directors or Compensation Committee.

**CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS
AND DIRECTOR INDEPENDENCE**

We were the representative of the underwriters in the initial public offering of Vector Intersect Security Acquisition Corp. (Vector) which was consummated in April 2007. Vector was a special purpose acquisition company (SPAC) targeting the homeland security, national security and/or command and control industries. Pursuant to the underwriting agreement, we agreed to deposit a portion of our underwriting fees into the SPAC trust account until the earlier of a business combination or the liquidation of the trust account. We also agreed to forfeit any rights to such fees unless Vector successfully consummated a business combination. In December 2008, Vector consummated a business combination transaction. In connection with that transaction, we agreed to lend to Vector approximately \$1.8 million of the funds held in the trust account for our benefit. The loan is evidenced by an unsecured promissory note bearing interest at the rate of 8% per annum and due on June 30, 2014. At September 30, 2010, the outstanding note balance was approximately \$1.8 million. Winston Churchill, who became a director of the Company in October 2007, was a director and principal stockholder of Vector at the time of the transactions described above.

Director and Officer Indemnification

We have entered into indemnity agreements with our directors and officers indemnifying them against all losses, damages, costs and expenses incurred by them arising out of their service in such capacity, subject to the limitations imposed by Delaware law. This agreement is in addition to our indemnification obligations under our bylaws.

Tax Indemnification Agreement

Prior to the July 10, 2007, we operated as a limited liability company (treated as a partnership for income tax purposes) and, as such, our former members, including Revere, generally, will be liable for adjustments to taxes (including federal and state income taxes) attributable to our operations prior to July 10, 2007. In connection with our conversion to a corporation which occurred on July 10, 2007, we entered into a tax indemnification agreement to indemnify our former members, including Revere, and their respective members and stockholders, including John J. Borer III, Edward Rubin and a trust for the benefit of the wife and children of Michael Vasinkevich, against increases in taxes that relate to our activities prior to becoming a corporation. The tax indemnification agreement includes provisions that permit us to control any tax proceeding or contest which might result in our being required to make a payment under the tax indemnification agreement.

Policies and Procedures for Related Party Transactions

We have adopted a code of business conduct and ethics, pursuant to which our executive officers, directors and principal stockholders, including their immediate family members and affiliates, are not permitted to enter into a related party transaction with us without the prior consent of our Audit Committee, or other independent committee of the Board in the case where it is inappropriate for our Audit Committee to review such a transaction due to a conflict of interest. All of our directors, executive officers and employees are required to report to our Audit Committee any such related party transaction. In approving or rejecting the proposed transaction, our Audit Committee will consider the relevant facts and circumstances available and deemed relevant to the Audit Committee, including, but not limited to the risks, costs and benefits to us, the terms of the transaction, the availability of other sources for comparable services or products, and, if applicable, the impact on a director's independence. The Audit Committee will approve only those agreements that, in light of known circumstances, are in, or are not inconsistent with, our best interests, as the Audit Committee determines in the good faith exercise of its discretion.

HUDSON HOLDING CORPORATION BUSINESS AND FINANCIAL INFORMATION

References to we and our in this Hudson Holding Corporation Business & Financial Information section refer to Hudson Holding Corporation (Hudson) and its subsidiaries as a whole.

BUSINESS

General

Hudson is engaged in the securities brokerage business through its wholly owned subsidiaries, Hudson Securities, Hudson Technologies, Inc. (Technologies) and Spark Capital Management, LLC (Spark). Hudson Securities is a registered broker-dealer under the Securities Exchange Act of 1934, as amended (the Exchange Act), and is a member of the Financial Industry Regulatory Authority (FINRA). Hudson's headquarters are in New Jersey and it has branch offices in various metropolitan locations. Technologies was formed for the purpose of providing software development and technology services for Hudson Securities and for third parties. Spark is the investment manager of the Spark Fund, a hedge fund. On March 31, 2010, we acquired the equity research, asset management and investment banking business of Next Generation Equity Research, LLC (Next Generation), a Chicago based equity research boutique focused on the needs of institutional investors, which complemented Hudson's existing businesses.

Operations

Hudson Securities is a member of FINRA and the Securities Investor Protection Corporation (SIPC). Hudson Securities is a leading independent market maker firm dedicated to meeting the liquidity needs of its clients which are comprised of: institutions, hedge funds, asset managers, and broker dealers, by making markets in over 12,000 U.S. and foreign securities and providing execution solutions. Hudson Securities has been in business since 1984.

As a market maker, Hudson Securities provides its customers with order execution. When customers come to Hudson Securities seeking to buy or sell securities, the firm works to satisfy the customers' needs, either by finding counterparties willing to trade with the customers (obtaining liquidity) or, where appropriate, by taking the other side of the trades, thereby providing liquidity for its customers by purchasing or selling the securities as a principal. In a sense, liquidity is the product that Hudson Securities sells to its customers.

Hudson Securities' customers are firms that require liquidity to complete stock trades, funds whose investment decisions call for shifts into or out of certain stocks, retail customers, professional traders who want to establish or liquidate their positions, and other retail brokerage firms whose individual investor clients wish to buy or sell securities. By trading with Hudson Securities, customers are able to obtain liquidity.

Providing trade executions generates two types of revenue for Hudson Securities, commissions and fee revenue, plus sales and trading revenue.

Commissions and fee revenue is derived from the fees that Hudson Securities charges its customers for executing their orders, generally a fixed price per share traded, as well as investment banking fees related to the offerings of securities when Hudson Securities act as investment banker. Revenue may vary with the number and size of Hudson Securities' customers and with their level of trading activity. Commissions and fee revenue is free of market risk for Hudson Securities since Hudson Securities either transacts as an agent or on a riskless principal basis.

Sales and trading revenue is primarily derived from the profit and loss associated with purchases and sales of securities to facilitate customer transactions, including securities in which Hudson Securities makes markets. In doing so, the firm itself is at risk to changes in stock prices. Sales and trading revenues are obtained by paying less to buy shares for its own account than the firm receives for selling those shares. Because the price for which the firm is willing to purchase shares (its bid price) is usually less than the price at which it would then sell those shares (its ask price), trading with a customer can present a market maker with an opportunity to capture the difference between these prices (the bid-ask spread) provided it can find a counterparty with whom to trade in the same

security before the stock price moves against the trader. Finding a counterparty to take the other side of a trade can be challenging, and failure to find a counterparty at the right price or time can lead to a loss.

Competitive Advantages

Hudson Securities believes that it differentiates itself in the market by the stocks it trades and by the customers it serves. While many of the firm's competitors emphasize NASDAQ National Market stocks, Hudson Securities focuses on providing liquidity in difficult-to-trade stocks, including shares quoted on the OTC Bulletin Board and Pink Sheets and second tier and Small-Cap NASDAQ stocks. Hudson Securities strategy is to maintain and grow existing relationships with retail firms while seeking to attract new customers from among other retailers that the firm's competitors neglect as well as targeted institutions. We believe that we differentiate ourselves by offering:

Advanced and scalable trade execution platform with connectivity to all trading venues

Long term relationships and approach to customer service

Consultative approach towards providing liquidity

Expertise in providing liquidity in hard-to-trade equities

Hudson Securities also differentiates itself by offering a full range of corporate finance and capital markets services, which we believe complement Hudson's primary business.

Technology

Technologies is the hardware and software technology division of Hudson. Technologies supports and develops software to enhance the trading environment of Hudson Securities.

Hudson Securities maintains a multi-tier connectivity network to receive customers' orders, to monitor the markets, and to communicate with trading partners. Hudson Securities' traders have the ability to trade all U.S. equities, using Sungard's BRASS order management system to process incoming orders and its UMA market access system and the NASDAQ Level III system to enter orders. These systems interface with the Broadcort Division of Merrill, Lynch, Pierce, Fenner & Smith and Goldman Sachs Execution & Clearing, L.P. (Hudson Securities' clearing brokers) to ensure trades are processed. The firm's headquarters and branch offices are in constant communication and can serve as back-up for one another in case of system failures.

Our Market Making Activities

Hudson Securities focuses on attracting orders from retail brokerage firms and buy-side institutions, such as mutual funds, hedge funds and trusts. Hudson Securities' business has a tendency to be strongest during the first calendar quarter of the year and weakest during the summer months.

Market makers' main customers are retail brokers and institutions that require order executions for varieties of stocks, from widely traded issues, like those of S&P 500 and NASDAQ 100 companies, to less liquid securities such as NASDAQ Small-Cap, Bulletin Board, and Pink Sheet stocks.

While offering liquidity across a broad range of stocks to both institutional and retail brokerage customers, Hudson Securities intends to focus its resources on increasing the firm's market share as a liquidity provider to retail brokerage firms and institutions, plus on specializing in less liquid issues.

Management believes that retail order-entry firms are being neglected in the increasing competition among market makers for institutional customers, offering the firm an opportunity to increase its presence in that segment. Meanwhile, particularly as large competitors decrease their commitment to the market making business in light of recent lean years, lucrative retail brokerage customers may be interested in investigating alternative relationships, presenting Hudson Securities with an opportunity to attract such customers. By establishing a large pool of retail orders, management believes that the firm will ultimately be better positioned to attract buy-side institutional firms in search of liquidity.

By focusing on less liquid stocks, the firm avoids some of the fiercest competition among market makers and other liquidity providers such as Electronic Crossing/Communication Networks (ECNs). At the same time, Hudson Securities provides a less available service, finding a firm willing to fill an order for little-known pink sheet stocks. However, trading less liquid issues exposes firms to greater price volatility and thus greater risk. There is less investor interest in trading such securities, but the wider spreads

have greater profit potential. Hudson Securities trades many of the most active NASDAQ National Market stocks, and by focusing on smaller issues management hopes to appeal to retail brokers in need of liquidity while maximizing the firm's profit potential.

Investment Banking and Research

We have expanded our business by offering additional investment banking services and institutional research, and are seeking to add to these groups.

Investment Banking

As of January 4, 2011, our investment banking team consisted of 6 client-facing professionals. We focus on providing corporate finance and strategic advisory services to private and public companies with a market capitalization below \$500 million. We intend to provide these companies with capital origination services and strategic advice throughout their various stages of development.

We plan to focus primarily on financing transactions. We believe that our in-depth knowledge of the capital markets enables us to develop financing strategies, transaction structures and financing instruments that simultaneously address issuers' needs for capital and the investment community's need to balance risk and reward. We offer our clients a broad range of financing alternatives including private placements, private investments in public equity (PIPEs), registered direct offerings (RDs) and underwritten public offerings.

Private Placements. These transactions involve sales of unregistered securities. In most cases the issuer is a private company, although public companies can undertake private placements as well. The securities sold may be common or preferred equity, debt, convertible debt, or derivatives, such as warrants. The debt could be secured or unsecured, senior, mezzanine or subordinated. Many of these transactions involve units, which include more than one class of securities.

Private Investment in Public Equity, or PIPE. In these transactions, a publicly-traded reporting company sells unregistered securities of a class, and/or convertible or exchangeable for a class, that is already publicly traded. Generally, the issuer is obligated to register the securities within a specified period after the transaction closes.

Registered Direct Offerings, or RD. These transactions are direct placements of securities that have been registered under a shelf registration statement and, therefore, are immediately tradable.

Public Offerings. These transactions involve securities that have been registered and that are listed or traded on an exchange. The offering may constitute an initial public offering by a private company or a follow-on offering by an existing public company.

Research

As of January 4, 2011, our research group consisted of 4 analysts. Our research professionals seek to provide quantitative, value-added, differentiated insight on equity securities they cover. Research analysts develop relationships with corporate management teams of issuers they cover, maintain networks of industry and competitor contacts to gain proprietary data points to support investment theses and provide access to their views via published research, in-person and through hosted meetings and events for investors on behalf of the companies whose stocks they cover. As of January 25, 2011, we covered approximately 42 stocks primarily in the airlines, machinery, electrical equipment, wireless equipment, and gaming, lodging and leisure sectors, with a primary focus on companies with market capitalizations of \$5 billion or less. We seek to cover securities where clients express strong interest or the team feels significant value can be delivered via proprietary and differentiated views. Institutional sales professionals deliver investment ideas generated by our research to institutional investor clients including mutual funds, hedge funds, investment managers and investment advisors.

Asset Management

In connection with the acquisition of the investment banking and research businesses of Next Generation, we also acquired the investment advisor of a hedge fund from Next Generation's parent. We are currently managing the fund and intend to explore further expansion into asset management. We are not presently registered as an investment advisor under the Investment Advisors Act of 1940.

Industry Analysis

Historically, a handful of market makers have accounted for most of the shares traded on the NASDAQ, OTC Bulletin Board and Pink Sheets. Retail brokers and institutions prefer to have relationships with (and communication links to) more than one market-

maker. This engenders competition among market makers, inducing them to offer fast executions, favorable prices, payment for order flow, liquidity, research, convenience, and trustworthiness.

Industry Participants

Over the last several years there has been a rapid consolidation in the market making industry, as global financial corporations that entered the business near the height of the market in the late 1990's subsequently scaled back, as the market (and trading volumes and profits) retreated. While approximately 120 market makers are currently registered to trade bulletin board stocks, we believe that many choose to register as market makers for technical reasons, and only a handful of these firms (including Hudson Securities) actively compete to fill orders from retail brokers' customers. Historically, two of the largest market makers, Knight Equity Markets and UBS Securities, dominate the market, accounting for a majority of NASDAQ, OTC Bulletin Board and Pink Sheet volume.

Competition

Market making may be viewed as a commodity business, with participants all offering prompt executions of customer orders. But in an industry where everyone sells (or buys) identical shares of stock, there are criteria whereby market makers manage to distinguish themselves from their competition. Factors on which market makers compete include execution quality (speed and price), payment for order flow, securities traded and available liquidity, research, service, ease of use and relationships.

Many of our competitors have greater financial, technical and personnel resources than Hudson Securities. We compete with over 120 market makers, and specifically with Knight Trading Group and UBS Securities, two of the largest market makers. Our ability to continue to compete with other market makers will depend on our financial resources, trading ability, and our ability to provide other complementary services to our clients.

To help attract new customers, the firm is striving to increase the list of securities available for trading. Since the beginning of 2003, Hudson Securities began making markets in additional NASDAQ stocks. In addition, the firm now trades securities that are listed on certain U.S. and foreign exchanges.

Government Regulation

The securities industry in the United States is subject to extensive regulation under both federal and state laws. Hudson Securities is registered as a broker-dealer with the U.S. Securities and Exchange Commission (SEC) and certain state securities divisions. Much of the regulation of broker-dealers has been delegated to self-regulated organizations, principally FINRA, NASDAQ and national securities exchanges. These self-regulatory organizations adopt rules (subject to approval by the SEC) that govern the industry and conduct regular and periodic examinations of our operations. Securities firms are also subject to regulation by state securities administrators in those states in which they conduct business. Hudson is also subject to oversight by the U.S. Department of Labor in connection with our benefit plans.

Significant legislation, rule-making and market structure changes have occurred over the last few years that have had an impact on Hudson. First, decimalization was introduced in January 2001 in NYSE and AMEX listed securities, and in NASDAQ markets in April 2001. Decimalization, combined with the one-penny minimum price increment, has had a dramatic reduction in average spreads, which in turn has had a profound effect on our profitability. Second, in 2002 NASDAQ launched SuperMontage, a NASDAQ routing and execution system. SuperMontage transformed NASDAQ from a quote-driven market to a full-order-driven market as quotes and orders are treated the same. Under SuperMontage, market makers and ECNs are able to show trading interest at five different price levels, allowing investors to see individual and aggregated interest across all market participants at the National Best Bid or Offer (NBBO) and four additional layers above or below the NBBO. Third, the introduction of SuperMontage, which is not used by all market participants, and the increase in trading of NASDAQ-listed securities by other exchanges has created market fragmentation. This lack of linkage between market centers has resulted in an increase in locked and crossed markets, fragmented liquidity pools and different market centers using different sets of regulatory rules and regulations. Fourth, the U.S. Patriot Act of 2001, enacted in response to the terrorist attacks on September 11, 2001, contains anti-money laundering and financial transparency laws and mandates the implementation of various new regulations applicable to broker-dealers and other financial services companies, including standards for verifying client identification at account opening, and obligations to monitor client transactions and report suspicious activities. The increased obligations of financial institutions to identify their customers, watch for and report suspicious transactions, respond to requests for information by regulatory authorities and law enforcement agencies, and to share information with other financial institutions, requires the implementation and maintenance of internal practices, procedures and controls which will increase our costs and may subject us to regulatory inquiries, claims or penalties. Lastly, the Sarbanes-Oxley Act of 2002 has led to sweeping changes in corporate governance. This far reaching legislation has significantly affected public companies by enacting provisions covering corporate governance, board of directors and audit committee structure, management and control structure, new

* according to <http://www.otcbb.com/dynamic/tradingdata/MarketMakersPositions/MMakersdata.htm>.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

disclosure requirements, oversight of the accounting profession and auditor independence. The SEC also responded by, among other things, requiring chief executive officers and Principal Financial and Accounting Officers of public companies to certify the accuracy of certain financial reports and certain other SEC filings.

The regulatory environment in which we operate is subject to constant change. Our business, financial condition and operating results may be adversely affected as a result of new or revised legislation or regulations imposed by the U.S. Congress, the SEC, other U.S. and state governmental regulatory authorities, or FINRA. Our business, financial condition and operating results also may be adversely affected by changes in the interpretation or enforcement of existing laws and rules by these governmental authorities.

Additional regulation, changes in existing laws and rules, or changes in interpretations or enforcement of existing laws and rules often directly affect the method of operation and profitability of regulated broker-dealers.

FINRA and Net Capital Requirements

Regulatory bodies, including FINRA, are charged with safeguarding the integrity of the securities industry and with protecting the interests of investors participating in those markets. Broker-dealers are subject to regulations covering all aspects of the securities business, including sales methods, trade practices among broker-dealers, use and safekeeping of clients' funds and securities, capital structure, record keeping and the conduct of directors, officers and employees.

The SEC, FINRA and various other regulatory agencies have rigid rules, including the maintenance of specific levels of net capital by securities brokers and dealers pursuant to the SEC's Uniform Net Capital Rule 15c3-1 with which Hudson must comply. As of September 30, 2010, Hudson had total net capital of approximately \$5,774,826, which is approximately \$4,774,826 in excess of Hudson's minimum net capital requirement of \$1,000,000.

Additionally, Hudson is subject to periodic, routine finance and operations reviews by SEC and FINRA staff, plus state securities divisions. It should be noted that Hudson has a disciplinary record with FINRA and fines have been levied against Hudson for violations that occurred during the tenure of the prior management. Given FINRA's policy of progressive disciplinary actions, this prior record could adversely impact Hudson if we are cited for additional violations. On January 8, 2009, FINRA accepted Hudson Securities' Letter of Acceptance, Waiver and Consent to settle with FINRA on a violation limited to failure to tailor anti-money laundering procedures to include market making and trading, plus a \$10,000 fine.

Employees

As of January 4, 2011, we employed 119 individuals, of which 118 were full-time employees. We believe our relations with our employees are good. None of our employees are represented by a union or any collective bargaining agreements.

Corporate Information

Our principal offices are located at 111 Town Square Place, Suite 1500A, Jersey City, New Jersey 07310 and our telephone number is (201) 216-0100. Our corporate website is <http://www.hudsonholdingcorp.com>. The information on our website is not incorporated by reference to this prospectus. We file reports and other information with the SEC. The SEC maintains an internet site that contains reports, proxy, information statements and other information at <http://www.sec.gov>.

PROPERTIES

Our corporate headquarters are located in 26,875 square feet of office space at 111 Town Square Place in Jersey City, New Jersey, which incorporates a state-of-the-art trading floor. This lease expires in August 30, 2012 and our monthly base rent is \$40,312. We also have a research and sales office located in 3,901 square feet of office space at One East Wacker Drive, Chicago, Illinois. This lease expires in August 2014, and our initial monthly base rent is \$4,226. We also maintain trading and sales offices in Tinton Falls, New Jersey (2,744 square feet); Norwalk, Connecticut (4,010 square feet); Boca Raton, Florida (2,020 square feet), Cleveland, Ohio (160 square feet), Boston, Massachusetts (711 square feet) and Los Angeles, California (205 square feet). Our offices include a total of 204 trading stations: 140 at headquarters in New Jersey, 16 in Tinton Falls, 12 in Norwalk, 8 in Chicago, 20 in Florida, 8 in Boston and 3 in Los Angeles. We believe that our existing office space is more than adequate to support our existing business, plus any intermediate term business expansion.

On April 29, 2009, Hudson entered into an agreement to lease 5,106 rentable square feet of office space in New York, New York. The lease commenced on or about June 15, 2009 and expired three years and two months from the commencement date. In accordance with the lease terms, Hudson will pay rent at the rate of approximately \$255,000 per annum, beginning two months from the commencement date. On January 28, 2010, Hudson entered into an agreement to sub-lease the entire aforementioned New York, New York office space at the rate of approximately \$225,000 per annum. The sub-lease is scheduled to expire on July 27, 2012, but

the sub-lessee may elect to terminate the lease on or about July 12, 2011 upon providing notice no less than 180 days prior to the sub-lease expiration date.

LEGAL PROCEEDINGS

From time to time, Hudson Securities is named as a defendant in various routine actions that are incidental to its activities as a broker-dealer, including civil actions, arbitrations, plus proceedings and investigation by self-regulatory organizations. Management believes it has meritorious defenses to all such actions brought against Hudson and intends to defend each of these actions vigorously. Although there can be no assurances that such matters will not have a material adverse effect on the results of operations or financial condition of Hudson in any future period, depending in part on the results for such period, in the opinion of Hudson's management, the ultimate resolution of such actions against Hudson will have no material adverse effect on Hudson's financial condition.

Schwartz Class Action Suit

On or about January 11, 2011, a putative shareholder class action lawsuit was filed against Hudson, various directors of Hudson, and Rodman & Renshaw Capital Group, Inc. (Rodman) in Superior Court of New Jersey, Hudson County, styled as, *Ronald Schwartz v. Kenneth D. Pasternak, Keith Knox, John W. Mascone, Anthony Sanfilippo, John C. Shaw, Jr., Peter J. Kugschwert, Hudson Holding Corporation, Rodman & Renshaw Capital Group, Inc. and HHC Acquisition, Inc.*, Case No. C-6-11. This action was brought by Ronald Schwartz (Schwartz) on behalf of holders of common stock of Hudson to enjoin the acquisition of the publicly owned shares of Hudson common stock by Rodman and the wholly owned subsidiary resulting from the merger, HHC Acquisition Inc.

Schwartz (also a former Hudson employee) claims that defendants violated applicable law by directly breaching and/or aiding the other defendants' breach of their fiduciary duties of loyalty, due care, independence, good faith and fair dealing by, among other things, allegedly failing to properly value Hudson and to maximize the value of Hudson to its public shareholders, and by approving the Merger Agreement, including the non-solicitation and termination fee provisions contained therein. The complaint seeks, among other relief, an order enjoining the defendants from consummating the Merger and directing the defendants to implement a sale or auction process, rescission of the Merger if already implemented, the imposition of a constructive trust in favor of plaintiff upon any benefits received by the defendants as a result of their alleged breaches of duty, and an award of attorneys' fees and costs of litigation.

Strauss FINRA Arbitration Claim and Action

On or about November 29, 2010, Myer Strauss (Strauss) commenced an arbitration proceeding against Hudson Securities before FINRA captioned *Myer R. Strauss vs. Hudson Securities, Inc.*, FINRA Case No. 10-05390. In his claim, Strauss alleges causes of action for breach of express and/or implied contract, a violation of New York Labor Law, quantum meruit and unjust enrichment or restitution. Strauss seeks recovery in the amount of \$1.2 million claiming he is entitled to double damages for a violation of N.Y. Labor Law § 191-c(3) plus a 25% penalty pursuant to N.Y. Labor Law § 198. Strauss also seeks punitive damages and attorneys' fees.

Strauss claims that Hudson breached an alleged unwritten or implied contract to pay him a commission equal to 40% of Hudson's compensation in connection with an investment banking transaction in which Hudson acted as placement agent for a private placement of \$30 million of equity securities issued by Jinhao Motor Company.

On or about November 30, 2010, Strauss filed a petition in the Southern District of New York seeking an order of attachment in aid of the FINRA arbitration, *Myer R. Strauss v. Hudson Securities, Inc.*, Case No. 10-CV-8975. Strauss alleges that given Hudson's recent financial disclosure in its public filings reflecting increased losses over the past twelve months, Hudson will not have the funds available to cover a possible award granted in the FINRA arbitration. Hudson moved to dismiss the petition.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	11,447,503	\$ 0.54	7,922,729
Equity compensation plans not approved by security holders	11,612,184	\$ 0.68	
Total	23,059,687	\$ 0.61	7,922,729

The table above reflects the status of Hudson's equity compensation plans as of March 31, 2010.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Introduction and Certain Cautionary Statements

The following discussion and analysis of our financial condition and results of operations is intended to assist in the understanding and assessment of significant changes and trends related to the results of operations and financial position of Hudson. This discussion and analysis should be read in conjunction with the consolidated financial statements and the accompanying notes for the fiscal years ending March 31, 2009 and 2010 and the unaudited condensed consolidated financial statements and the accompanying notes for the three and nine months ended September 30, 2010.

This discussion contains forward-looking statements made pursuant to the safe harbor provisions under the Private Securities Litigation Reform Act of 1995 and information that is based on management's beliefs as well as assumptions made by and information currently available to management. See "Cautionary Statements Concerning Forward-Looking Statements" beginning on page ____.

Certain Factors Affecting Results of Operations

We may experience significant variation in our future results of operations. These fluctuations may result from numerous factors, many of which are outside of our control. These factors include, among other things, introductions of or enhancements to trade execution services by us or our competitors; the value of our securities positions and other instruments; the volume of our trade execution activities; the dollar value of securities traded; the composition of our order flow; volatility in the securities markets; our market share with institutional and broker-dealer clients; our ability to manage personnel, overhead and other expenses, including our occupancy expenses under our office leases and expenses and charges relating to legal and regulatory proceedings; the strength of our client relationships; changes in payments for order flow and clearing, execution and regulatory transaction costs; and market and economic conditions.

Such factors may also have an impact on our ability to achieve our strategic objectives. If demand for our services declines due to any of the above factors, and we are unable to adjust our cost structure on a timely basis, our operating results could be materially and adversely affected. As a result of the foregoing factors, period-to-period comparisons of our revenues and operating results are not necessarily meaningful and such comparisons cannot be relied upon as indicators of future performance. There also can be no assurance that we will be able to continue the rates of revenue growth that we have experienced in the past or that we will be able to improve our operating results.

Executive Summary

We are a registered broker-dealer under the Exchange Act and a member of FINRA.

Commissions and fees revenue comes from the fees that Hudson Securities charges its customers for executing their orders, generally a fixed price per share traded. Revenue may vary with the number and size of Hudson Securities' customers and with their level of trading activity. Commissions and fee revenue is free of market risk for Hudson Securities since Hudson Securities either transacts as an agent or on a riskless principal basis.

Sales and trading revenue is primarily derived from the profit and loss associated with purchases and sales of securities to facilitate customer transactions, including securities in which Hudson Securities makes markets. In doing so, the firm itself is at risk to changes in stock

prices. Sales and trading revenues are obtained by paying less to buy shares for its own account than the firm receives

for selling those shares. Because the price for which the firm is willing to purchase shares (its bid price) is always less than the price at which it would then sell those shares (its ask price), trading with a customer can present a market maker with an opportunity to capture the difference between these prices (the bid-ask spread) provided it can find a counterparty with whom to trade in the same security before the stock price moves against the trader. Finding a counterparty to take the other side of a trade can be challenging, and failure to find a counterparty at the right price or time can lead to a loss.

Investment banking revenue includes private placement income, underwriting fees and revenues from advisory engagements.

Our cost structure consists of both variable costs, such as commissions, execution and clearing charges, and fixed costs, such as salaries and related costs (including payroll taxes and benefits), communications (quote, trading, order management and telecommunication services), occupancy (rent, electricity, maintenance and real estate taxes) professional fees (attorneys, consultants and auditors), business development (travel, entertainment and advertising) and other operating costs. From a compensation perspective, roughly 45% of our employees are salaried, while most of our traders and salespersons receive revenue-based commission payments.

For the year ended March 31, 2010, we had a pre-tax net loss of \$6.8 million on revenues of \$40.2 million. Total revenues increased by \$2.3 million, or 6%, from \$38 million for the year ended March 31, 2009 principally due to increases in commission and fee revenues, primarily from activity on behalf of customers, offset by a decrease in sales and trading and other revenues. Our pre-tax net loss increased by 59%, to \$6.8 million, as compared to a \$4.3 million pre-tax loss during the prior year, primarily as a result of an increase in variable costs (execution, and clearing charges) an increase in salaries and related costs, primarily due to an increase in recruiting and retention incentives, and an increase in occupancy and other expenses relating to restructuring and expansion.

Results of Operations

Three months ended September 30, 2010 compared to three months ended September 30, 2009

We had overall revenues consisting of sales and trading revenues, commission and fee revenues, both primarily from activity on behalf of customers, banking revenues plus net interest and other income of \$8,877,981 for the three months ended September 30, 2010 as compared to \$9,359,362 for the three months ended September 30, 2009 a decrease of \$481,381, or 5%. The decrease was primarily due to a decrease in sales and trading revenues along with commission and fee revenues offset by an increase in banking revenues. Sales and trading revenues were \$2,500,314 compared to \$4,751,679 during the same period in the prior year, a decrease of \$2,251,365, or 47%, primarily due to an overall decrease in trading activity which is in line with overall market volume and activity. Commission and fee revenues were \$3,957,604 compared to \$4,352,675 during the same period last year, a decrease of \$395,071, or 9%, principally due to decreased volume. Banking revenues were \$2,228,698 compared to \$50,419 during the same period in the prior year, an increase of \$2,178,279, or 4,320% as a result of developing this business line. Interest and other income were \$191,365 compared to \$204,589 during the comparable period last year, a decrease of \$13,224, or 6%.

Hudson considers significant revenue concentrations to be customers or employees who account for 10% or more of the total revenues generated by Hudson during the period. Hudson has made a concerted effort to diversify its revenue stream, and as a result, there were no such concentrations during the three months ended September 30, 2010. Hudson had one such employee who accounted for 12% of total revenues during the three months ended September 30, 2009.

Execution and clearance charges were \$795,652 (9% of revenues) in the three months ended September 30, 2010 as compared to \$1,616,168 (17% of revenues) in the three months ended September 30, 2009, a decrease of \$820,516, or 51% which correlates with the decrease in sales and trading and commissions and fee revenues. Technology costs were \$1,200,037 in the quarter ending September 30, 2010 compared to \$1,519,006 in the same quarter last year, a decrease of \$318,969, or 21%, primarily due to a reduction in our order management system costs. Occupancy costs were \$461,190 in the quarter ending September 30, 2010 compared to \$509,637 in the same quarter last year, a decrease of \$48,447, or 10%, primarily due to the consolidation of office space.

Employee compensation and benefits were \$6,379,419 compared to \$6,426,868 in the comparable quarter in the prior year, a decrease of \$47,449 or 0.7%, primarily due to a decrease in severance cost offset by an increase in bonuses relating to increased banking revenues, and salaries as a result of new hires. Professional fees were \$393,162 compared to \$330,851 in the comparable quarter in the prior year, an increase of \$62,311, or 19%, primarily due to an increase in outside consulting fees associated with creating a robust and scalable infrastructure. Business development expenses were \$206,554 in the quarter ending September 30, 2010 compared to \$185,640 in the prior period quarter, an increase of \$20,914, or 11% as a result of an effort of attracting new customers.

Other expenses were \$593,446 in the quarter ending September 30, 2010 compared to \$981,776 in the prior period quarter, a decrease of \$388,330, or 40%, primarily due to decreased client service costs associated with our soft dollar business.

The pre-tax loss was \$1,151,479 for the three months ended September 30, 2010 compared to a pre-tax loss of \$2,210,584 for the three months ended September 30, 2009, a net decrease of \$1,059,104. The pre-tax loss decrease was primarily due to an increase in investment

banking revenue.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

Six months ended September 30, 2010 compared to six months ended September 30, 2009

We had overall revenues consisting of sales and trading revenues, commission and fee revenues, both primarily from activity on behalf of customers, banking revenues plus net interest and other income of \$17,405,666 for the six months ended September 30, 2010 as compared to \$20,939,640 for the six months ended September 30, 2009 a decrease of \$3,533,974, or 17%. The decrease was primarily due to a decrease in sales and trading revenues along with commission and fee revenues offset by an increase in banking revenues. Sales and trading revenues were \$6,125,215 compared to \$10,661,059 during the same period in the prior year, a decrease of \$4,535,844, or 43%, primarily due to an overall decrease in trading activity which is in line with overall market volume and activity. Commission and fee revenues were \$8,592,018 compared to \$9,731,218 during the same period last year, a decrease of \$1,139,200, or 12%, principally due to decreased volume. Banking revenues were \$2,353,098 compared to \$135,585 during the same period in the prior year, an increase of \$2,217,513, or 1,636% as a result of developing this business line. Interest and other income were \$335,335 compared to \$411,778 during the comparable period last year, a decrease of \$76,443, or 19%.

Hudson considers significant revenue concentrations to be customers or employees who account for 10% or more of the total revenues generated by Hudson during the period. Hudson has made a concerted effort to diversify its revenue stream, and as a result, there were no such concentrations during the six months ended September 30, 2010. Hudson had one employee who accounted for 12% of total revenues during the six months ended September 30, 2009.

Execution and clearance charges were \$1,823,331 (10% of revenues) in the six months ended September 30, 2010 as compared to \$3,866,716 (18% of revenues) in the six months ended September 30, 2009, a decrease of \$2,043,385, or 53%, which correlates with the decrease in sales and trading, and commissions and fees revenues. Technology costs were \$2,553,452 in the quarter ending September 30, 2010 compared to \$3,132,963 in the same quarter last year, a decrease of \$579,511, or 19%, primarily due to a reduction in our order management system costs. Occupancy costs were \$928,204 in the quarter ending September 30, 2010 compared to \$1,001,715 in the same quarter last year, a decrease of \$73,511, or 7%, primarily due to the consolidation of office space.

Employee compensation and benefits were \$12,169,293 compared to \$13,349,179 in the comparable quarter in the prior year, a decrease of \$1,179,886, or 9%, primarily due to a decrease in commissions paid as a result of lower revenues, severance and forgivable loans, offset by an increase in bonuses relating to increased banking revenues, and salaries as a result of new hires. Professional fees were \$686,521 compared to \$842,470 in the comparable quarter in the prior year, a decrease of \$155,949, or 19%, primarily due to a decrease in directors' compensation. Business development expenses were \$415,650 in the quarter ending September 30, 2010 compared to \$346,451 in the prior period quarter, an increase of \$69,199, or 20% as a result of an effort of attracting new customers. Other expenses were \$1,621,414 in the quarter ending September 30, 2010 compared to \$1,662,426 in the prior period quarter, a decrease of \$41,012, or 2%, primarily due to decreased client service costs associated with our soft dollar business.

The pre-tax loss was \$2,792,199 for the six months ended September 30, 2010 compared to a pre-tax loss of \$3,262,280 for the six months ended September 30, 2009, a decrease of \$470,081. The pre-tax loss decrease was primarily due to an increase in investment banking revenue.

Fiscal Year Ended March 31, 2010 Compared to Fiscal Year Ended March 31, 2009

Consolidated Statement of Operations Data:	Year Ended March 31, 2010	Year Ended March 31, 2009
Sales and trading	\$ 20,403,557	\$ 23,285,148
Commissions and fees	19,175,073	13,735,660
Interest and other	654,663	951,703
Total revenues	\$ 40,233,293	\$ 37,972,511
Net loss	\$ (8,007,334)	\$ (3,611,999)

We had overall revenues consisting of sales and trading revenues, commission and fee revenues, both primarily from activity on behalf of customers, plus net interest and other income of approximately \$40.2 million for fiscal 2010, as compared to approximately \$38.0 million for fiscal 2009. Sales and trading revenues decreased 12% to approximately \$20.4 million from approximately \$23.3 million during the prior fiscal year, due to a decrease in trading volume. Commission and fee revenues increased 40% to \$19.2 million from \$13.7 million during the prior fiscal year, due to an expansion of our institutional sales effort. Other revenues decreased 30% to \$0.7 million from \$1.0 million during fiscal 2010, primarily due to a decrease in introductory brokerage services revenues.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

One of Hudson's employees accounted for 15% of total revenues, which included revenues from a single customer that accounted for 8% of total revenues, during the fiscal year ended March 31, 2010. During the fiscal year ended March 31, 2009, Hudson had one such active employee who accounted for 27% of total revenues, which included revenues from a single customer that

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

accounted for 18% of total revenues. See Risk Factors Hudson's Revenues Have Been Dependent on Certain Key Employees and/or Customers .

During the fiscal year ended March 31, 2010, we experienced a general decline in trading volume in the latter half of the year, as a result of the further tightening of credit conditions and a general weakening of the economy.

Despite the 6% increase in overall revenues, we had a pre-tax loss of \$6.8 million as compared to a \$4.3 million pre-tax loss during the prior year, as expenses increased by \$4.8 million, primarily as a result of a \$2.7 million increase in execution, and clearing costs and a \$1.4 million increase in other costs and a \$1.2 million increase in communications and occupancy cost. Trader and salesperson commissions were \$15.2 million (38% of revenues) in the current fiscal year compared to \$17.1 million (45% of revenues) in the prior fiscal year, a decrease of \$1.8 million, or 11%, primarily due to the increase in revenues and an increase in soft dollar commission volume. Execution and clearance charges of \$8.3 million (21% of revenues) in the current fiscal year increased compared to \$5.5 million (15% of revenues) in the prior fiscal year, an increase of \$2.7 million, or 49%, primarily due to an increase in algorithmic trading business which has higher execution fees, plus an increase in clearing costs and soft dollar costs. Communication costs were \$6.5 million in the current fiscal year compared to \$5.8 million in the prior fiscal year, an increase of \$0.6 million, or 11%, primarily due to additional equipment and services required for new hires and the addition of new office space. Occupancy costs were \$1.8 million in the current fiscal year compared to \$1.2 million in the prior fiscal year, an increase of \$0.6 million, or 50%, primarily due to the addition of new locations. Professional fees were \$1.6 million compared to \$1.7 million in the prior year, a decrease of \$0.1 million, or 4%, primarily due to a decrease in director stock-based compensation expense, offset by expanded legal services. Business development expenses were \$0.7 million in the current fiscal year compared to \$0.8 million in the prior fiscal year, a decrease of \$0.1 million, or 13%. Other expenses were \$2.9 million in the current fiscal year compared to \$1.5 million in the prior year, due to an increase in software related expenses and restructuring costs.

We had a net loss of \$8.0 million during fiscal 2010 compared to a net loss of \$3.6 million during the prior year which was principally due to an increase in costs and an increase in the deferred tax valuation allowance. Income taxes are an expense of \$1.2 million during fiscal 2010, as compared to a benefit of \$0.7 million during the prior year, primarily due to an increase in the deferred tax valuation allowance.

Liquidity and Capital Resources

Consolidated Balance Sheet Data:	As of September 30, 2010	As of March 31, 2010	As of March 31, 2009
	(unaudited)		
Working capital	\$ 7,596,256	\$ 9,842,081	\$ 7,914,837
Total assets	\$ 14,479,131	\$ 17,023,478	\$ 17,106,940
Total liabilities	\$ 4,924,814	\$ 5,208,550	\$ 3,469,250
Stockholders' equity	\$ 9,554,317	\$ 11,814,928	\$ 13,637,690

Working Capital

Our working capital (current assets less current liabilities) decreased to \$7.6 million at September 30, 2010 from \$9.8 million at March 31, 2010, primarily as a result of operating losses. Current assets include cash, receivable from clearing brokers (cash on deposit with our clearing brokers), marketable securities, income taxes receivable and other assets (except for long-term security deposits). All liabilities, except approximately \$0.2 million of long-term deferred rent, are current liabilities.

During the past fiscal year, our working capital (current assets less current liabilities) increased to \$9.9 million from \$7.9 million, primarily as a result of \$4.9 million of proceeds from the sale of common stock completed in November and December 2009, partially offset by a \$1.2 million of incentives provided to new recruits, \$0.8 million increase in net security positions, \$0.4 million increase in clearing broker balances, and \$0.4 million decrease in commissions payable. We have not declared and paid, nor do we expect to declare and pay in the intermediate future, any dividends on our common stock. Current assets include cash and cash

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

equivalents, receivable from clearing brokers (cash on deposit with our clearing brokers), marketable securities owned, income taxes receivable, and certain other assets. Current liabilities include securities sold but not yet purchased, payable to clearing brokers, commissions payable and accounts payable, accrued expenses and other liabilities.

On September 30, 2010, March 31, 2010 and March 31, 2009, we did not have any outstanding bank borrowings or long-term debt.

As of September 30, 2010, Hudson had total net capital of approximately \$5,775,000, which is approximately \$4,775,000 in excess of Hudson's minimum net capital requirement of \$1,000,000. See Note F to the consolidated financial statements for additional details related to regulatory net capital requirements. As of March 31, 2010, Hudson had total net capital of approximately \$7,801,000, which is approximately \$6,801,000 in excess of Hudson's minimum net capital requirement of \$1,000,000. See Note L to the consolidated financial statements for additional details related to regulatory net capital requirements.

We expect that any significant expansion or acquisition opportunities will require additional subordinated debt or common stock issuances in order to maintain the required levels of working capital or net capital. There can be no assurance that we will be successful in attracting such funding.

During the quarter ended September 30, 2010, Hudson Securities committed to fund up to \$550,000 of employee forgivable loans over the first year of employment, in some cases pending the fulfillment of certain specified revenue goals.

Our cash position increased by \$1.1 million to \$7.8 million during the fiscal year ended March 31, 2010, after increasing by \$0.5 million during the fiscal year ended March 31, 2009. Our cash position decreased by \$565,396 to \$7,210,551 during the six months ended September 30, 2010, an improvement over the \$901,877 decrease to \$5,793,037 during the six months ended September 30, 2009.

In the fiscal year ended March 31, 2007, we embarked on a capital raising and investment program designed to substantially increase our capacity to generate revenues and eventually profits. To date, we have raised approximately \$9.4 million of capital through the sale of our common stock, including \$4.9 million during the fiscal year ended March 31, 2010. Investments were made to (1) expand the number of available trading positions by renting additional office space; (2) increase the trade throughput capacity by enhancing the trading platform to a third party dedicated complex; (3) expand the number of securities in which we provided execution solutions or made markets; (4) expand the institutional sales division through the addition of experienced producers with established account relationships; and (5) expand the service offerings through the addition of an investment banking and research division as well as a retail brokerage presence. These investments had the impact of increasing our cost base. See *Risk Factors - Our Investments Have Increased Our Costs*.

Operating Activities

Net cash used in operating activities was \$398,268 during the six months ended September 30, 2010, primarily as a result of a \$2,792,199 net loss offset by a \$1,448,945 decrease in securities owned and a \$367,360 decrease in receivable from clearing brokers. Net cash used in operating activities was \$624,422 during the six months ended September 30, 2009, primarily as a result of a \$3,340,740 net loss offset by a \$1,227,500 prepaid compensation non-cash charge and a \$653,390 decrease in securities owned.

Net cash used in operating activities was \$3.1 million during fiscal 2010, primarily due to the \$2.4 million cash operating loss (net loss after adjusting for non-cash items) and a \$0.8 million increase in net securities positions. Net cash used in operating activities was \$2.7 million during fiscal 2009, primarily due to a \$2.0 million increase in net securities positions, a \$1.8 million increase in forgivable loans given to new salespersons as a recruiting incentive, partially offset by a \$1.2 million decrease in the receivable from clearing brokers balance.

Investing Activities

Net cash used in investing activities was \$135,251 during the six months ended September 30, 2010, primarily due to the purchase of additional equipment, and the depositing of additional funds with a financial institution in order to collateralize a letter of credit. Net cash used in investing activities was \$277,455 during the six months ended September 30, 2009, primarily due to the ongoing development of capitalized software, plus, for the current period, the depositing of funds with a financial institution in order to collateralize a letter of credit.

Net cash used in investing activities was \$0.7 million during fiscal years 2010 and 2009. During fiscal 2010 usage of cash was primarily related to the purchase of furniture and equipment associated.

Financing Activities

Net cash used in financing activities was \$31,877 during the six months ended September 30, 2010, as a result of repurchasing 375,000 shares of Hudson's stock. Net cash provided by financing activities was \$4.9 million during fiscal year 2010,

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

due to the receipt of the November/December 2009 net private placement proceeds. Net cash provided by financing activities was \$3.9 million during the fiscal year 2009, due to the receipt of the June 2008 net private placement proceeds.

Off-Balance Sheet Arrangements

Hudson currently has irrevocable standby letters of credit in aggregate of \$392,650, which serve as security deposits on our New York City, Chicago, IL and Jersey City, NJ office leases. Hudson is obligated to maintain the letters of credit for periods ranging from thirty to sixty days after the expiration of the leases. Hudson deposited an aggregate of \$392,650 with the financial institutions in the form of automatically renewable time deposits ranging from twelve to fourteen months in duration, in order to collateralize the letters of credit.

As of September 30, 2010, we had no other off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

Critical Accounting Policies

Our significant accounting policies, including the assumptions, estimates and judgments underlying them, are more fully described in our Notes to Consolidated Financial Statements included elsewhere in this proxy statement/prospectus. Some of our accounting policies require the application of significant judgment by management in the preparation of the consolidated financial statements, and as a result, they are subject to a greater degree of uncertainty. In applying these policies, management uses its judgment to determine the appropriate assumptions to be used in calculating estimates that affect the reported amounts of assets, liabilities, revenues and expenses. Management bases its estimates and assumptions on historical experience and on various other factors that are believed to be reasonable under the circumstances. Hudson has identified certain of its accounting policies as being most important to our consolidated financial condition and results of operations and which require management to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain.

Our critical accounting policies include the following:

Securities transactions and revenue recognition

Hudson Securities records transactions in securities and the related revenue and expenses on a trade-date basis. Sales and trading revenues are primarily derived from facilitating customer transactions.

Commissions and fees include agency commissions and fees earned on riskless principal trades, and investment banking fees related to private placements of securities. Riskless principal trades are transacted through the firm's proprietary account with a customer order in hand, resulting in no market risk to the firm.

Securities owned and securities sold, but not yet purchased, are stated at market value with the resulting unrealized gains and losses reflected in sales and trading.

Securities which do not have a readily ascertainable market value are valued at their estimated fair value as determined by management. Because of the inherent uncertainty of valuation, the management determined values may differ from values that would have been used had a ready market for these securities existed.

Intangible assets

Intangible assets consist of customer relationships. Customer relationships acquired in business combinations under the purchase method of accounting are recorded at their fair values net of accumulated amortization since the acquisition date. Customer relationships acquired in the normal course of Hudson's operations are recorded at cost net of accumulated amortization. Customer relationships are amortized over their useful lives, generally three years, using the straight line method.

Hudson reviews its finite-lived intangible assets for impairment yearly or whenever events occur that indicate that the carrying amount of the intangible asset may not be recoverable. Recoverability of the intangible asset is measured by a comparison of its carrying amount to the undiscounted future cash flows expected to be generated by the asset. If the asset is considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeds the fair value of the asset, which is determined based on discounted cash flows.

Goodwill

Goodwill is not subject to amortization, but rather an assessment of impairment, by applying a fair value based test. Hudson Securities reviews goodwill for impairment annually, during the fourth quarter of each year, and also between annual tests upon the

occurrence of trigger events. The reviews are performed at the Hudson Securities level, generally by using the market capitalization of Hudson as an indicator of fair value, since Hudson Securities currently represents the most significant component of the consolidated entity. Impairment is potentially indicated when the carrying value of Hudson Securities, including goodwill, exceeds its fair value. If a potential impairment is indicated, the fair value of Hudson Securities would be measured against the fair value of its underlying assets and liabilities, excluding goodwill, to estimate an implied fair value of Hudson Securities' goodwill. If that fair value was less than the carrying value of goodwill, impairment would be recorded. As a result of its assessment, Hudson Securities has determined that no such potential impairment was indicated during the year ended March 31, 2010.

As a result of Hudson's entrance on January 4, 2010 into the Merger Agreement, which attributed a value of \$7.0 million to Hudson, Hudson performed an interim impairment test of its goodwill and intangible assets as of December 31, 2010. The analysis indicated that the fair value of Hudson's goodwill was less than its carrying value. Accordingly, Hudson recorded a goodwill impairment charge for its entire goodwill amount of approximately \$1.1 million in the quarter ended December 31, 2010. In addition, based on current and expected cash flows related to the customer relationship intangible asset, Hudson's management concluded that the asset was fully impaired and recorded a non-cash impairment charge of approximately \$0.2 million for the quarter ended December 31, 2010. For more information, see Note H to Hudson's unaudited consolidated financial statements for the three and six months ended September 30, 2010 included elsewhere in this proxy statement/prospectus.

Income taxes

Hudson recognizes deferred tax liabilities and assets for the expected future tax consequences of items that have been included or excluded in the financial statements or tax returns. Deferred tax liabilities and assets are determined on the basis of the difference between the tax basis of liabilities and assets and their respective financial reporting amounts (temporary differences) at enacted tax rates in effect for the years in which the temporary differences are expected to reverse. Hudson records an estimated valuation allowance on its deferred income tax assets if it is not more than likely that these deferred income tax assets will be realized.

Stock-based compensation

Hudson measures the cost of services received in exchange for an award of equity instruments based on the fair value of the award. For employees and directors, the award is measured on the grant date and for non-employees, the award is generally remeasured on interim financial reporting dates until the service period is complete. The fair value amount is then recognized over the period during which services are required to be provided in exchange for the award, usually the vesting period.

Impairment of long-lived assets

Hudson assesses the recoverability of its long lived assets, including property and equipment, when there are indications that the assets might be impaired. When evaluating assets for potential impairment, Hudson first compares the carrying amount of the asset to the asset's estimated future cash flows (undiscounted and without interest charges). If the estimated future cash flows used in this analysis are less than the carrying amount of the asset, an impairment loss calculation is prepared. The impairment loss calculation compares the carrying amount of the asset to the asset's estimated future cash flows (discounted and with interest charges). If the carrying amount exceeds the asset's estimated future cash flows (discounted and with interest), the loss is allocated to the long-lived asset.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders
Rodman & Renshaw Capital Group, Inc:

We have audited the accompanying consolidated statements of financial condition of Rodman & Renshaw Capital Group, Inc. and subsidiaries (the Company) as of December 31, 2009 and 2008, and the related consolidated statements of operations, changes in stockholders' equity and comprehensive income, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Rodman & Renshaw Capital Group, Inc. and subsidiaries as of December 31, 2009 and 2008, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of December 31, 2009, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), and our report dated March 16, 2010 expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

**RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

NOTE 1 - Organization, Nature of Operations and Basis of Presentation

General

Rodman & Renshaw Capital Group, Inc. (RRCG) is a Delaware holding company which, through its various subsidiaries, is engaged in the investment banking business. The Company's principal operating subsidiary is Rodman & Renshaw, LLC (R&R), a Delaware limited liability company formed on June 20, 2002. R&R is registered with the Financial Industry Regulatory Authority, Inc. (FINRA). RRCG and its subsidiaries, including R&R, are collectively referred to herein as the Company .

On July 10, 2007 Rodman & Renshaw Holding, LLC (Holding), consummated a reverse acquisition through an exchange transaction with its subsidiary, Enthrust Financial Services, Inc. (Enthrust), which was a non-operating public shell company. For accounting purposes, Holding is treated as the continuing reporting entity and the acquisition has been treated as a recapitalization of Enthrust with Holding as the acquirer. On August 31, 2007, Enthrust changed its name to Rodman & Renshaw Capital Group, Inc. The historical financial statements of the Company prior to July 10, 2007 are those of Holding.

Aceras BioMedical LLC

On May 12, 2008, the Company formed Aceras BioMedical LLC (Aceras BioMedical), a joint venture through which the Company, in partnership with Aceras Partners, LLC (Aceras Partners), will make principal investments in early-stage biotechnology and life sciences companies. In conjunction with the establishment of the joint venture, the Company formed a new wholly-owned subsidiary, Rodman Principal Investments, LLC (RPI), which holds a 50% stake in Aceras BioMedical and serves as the holding vehicle for all of the Company's principal-related businesses. RPI has made an initial investment commitment to Aceras BioMedical of up to \$30.0 million over five years to fund operations and the joint venture's principal investments in life science companies. At December 31, 2009, RPI's remaining commitment to Aceras BioMedical to fund operations and the joint venture's principal investments in life science companies was \$15.4 million. RPI receives 50% of Aceras BioMedical's economic interest in all investments made by Aceras.

The Company determined that Aceras Partners meets the definition of a variable interest entity (VIE) as of December 31, 2009 because the total equity investment at risk is not sufficient to permit Aceras to finance its activities without additional subordinated financial support provided by Rodman. The Company is the primary beneficiary of Aceras BioMedical because the Company absorbs all of the entity's expected losses and therefore is required to consolidate Aceras BioMedical.

As of May 1, 2009, the Company effected a modification to the agreements defining the ongoing obligations between Aceras BioMedical and the Company. Pursuant to the modification agreement, the annual fixed operating budget was reduced from \$2.5 million to \$1.0 million and the expected targeted investment amount in each prospective investee was reduced from \$2.0 million to \$0.5 million. Potential investments in excess of \$0.5 million require consent of the Company.

In October 2009, the Company announced that BioMarin Pharmaceutical Inc. (NASDAQ: BMRN) acquired Huxley Pharmaceuticals, Inc., an Aceras privately held portfolio company. Under the terms of the transaction, BioMarin made payments of \$16 million to Huxley shareholders in 2009. An additional \$6.5 million based on the final approval of the purchased compound from the European Commission will be paid in 2010. Furthermore, Huxley stockholders, which include the Company, may receive up to approximately \$36 million in milestone payments if certain U.S. sales and development milestones are met in the future.

Rodman & Renshaw, LLC

R&R, which is a wholly-owned subsidiary of the Company, is a full-service investment banking firm specializing in investment banking services to corporations and businesses and the trading and sale of primarily equity securities. R&R assists emerging growth companies through capital raising, strategic advice, research, and the development of institutional

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

support. R&R is an introducing broker and clears all transactions through a clearing organization on a fully disclosed basis. Accordingly, R&R is exempt from rule 15c3-3 of the Exchange Act.

R&R Biotech Partners, LLC

R&R Biotech Partners, LLC (R&R Biotech) is a wholly-owned subsidiary of the Company for the purpose of making investments primarily in biotechnology and other emerging companies. In addition to making investments in operating companies, R&R Biotech has made several investments in public company corporate shells for use by prospective investment banking clients that desire to go public by effecting a reverse merger.

Non-Controlling Interests

The Company presents its non-controlling (minority) interests as equity (as opposed to as a liability or mezzanine equity), and presents its income allocated to both non-controlling interests and common stockholders. The portion of the consolidated interests in Aceras Biomedical, which are held directly by current and former employees of Aceras, are represented as non-controlling interests.

NOTE 2 - Summary of Significant Accounting Policies

Principles of Consolidation

The Company's policy is to consolidate all entities in which it owns more than 50% of the outstanding voting stock and has control. In addition, the Company consolidates entities which lack characteristics of an operating entity or business for which it is the primary beneficiary. The primary beneficiary is the party that absorbs a majority of the entity's expected losses, receives a majority of its expected residual returns, or both, as a result of holding variable interests, directly or implied. In situations where the Company has significant influence but not control of an entity that does not qualify as a variable interest entity, the Company applies the equity method of accounting. In those cases where its investment is less than 20% and significant influence does not exist, the investments are carried at fair value. Significant influence generally is deemed to exist when the Company owns 20% to 50% of the voting equity of a corporation, or when it holds at least 3% of a limited partnership interest. If the Company doesn't consolidate an entity or applies the equity method of accounting, it accounts for the investment at fair value.

All material intercompany accounts and transactions are eliminated in consolidation.

Financial Instruments at Fair Value

Fair value generally is based on quoted market prices. If quoted market prices are not available, fair value is determined based on other relevant factors, including dealer price quotations, price activity for equivalent instruments and valuation pricing models. Among the factors considered in determining the fair value of financial instruments are discount margins, weighted average spreads, discounted anticipated cash flows, the terms and liquidity of the instrument, the financial condition, operating results and credit ratings of the issuer or underlying company, the quoted market price of publicly traded securities with similar duration and yield, as well as other measurements. Certain financial instruments have bid and ask prices that can be observed in the marketplace. For financial instruments whose inputs are based on bid-ask prices, mid-market pricing is applied and adjusted to the point within the bid-ask range that meets the Company's best estimate of fair value. For offsetting positions in the same financial instrument, the same price within the bid-ask spread is used to measure both the long and short positions.

The valuation process for financial instruments may include the use of valuation models and other techniques. Adjustments to valuations derived from valuation models may be made when, in management's judgment, either the size of the position in the financial instrument in a non-active market or other features of the financial instrument such as its complexity, or the market in which the financial instrument is traded require that an adjustment be made to the value derived from the models. An adjustment may be made if a financial instrument is subject to sales restrictions that would result in a price less than the quoted market price. Adjustments from the price derived from a valuation model reflect management's judgment that other participants in the market for the financial instrument being measured at fair value

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

would also consider in valuing that same financial instrument and are adjusted for assumptions about risk uncertainties and market conditions. Results from valuation models and valuation techniques in one period may not be indicative of future period fair value measurements.

Financial instruments owned and financial instruments sold, not yet purchased are stated at fair value, with related changes in unrealized appreciation or depreciation reflected in principal transactions, net in the accompanying Consolidated Statements of Operations. Equity interests in certain private equity securities and limited partnership interests are reflected in the Consolidated Financial Statements at fair value, which is often represented at initial cost until significant transactions or developments indicate that a change in the carrying value of the securities is appropriate. This represents the Company's best estimate of exit price. Generally, the carrying values of these securities will be increased or decreased based on company performance in those instances where market values are readily ascertainable by reference to substantial transactions occurring in the marketplace or quoted market prices.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various methods including market, income and cost approaches. Based on these approaches, the Company utilizes assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques the Company is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial instrument assets and liabilities carried at fair value have been classified and disclosed in one of the following three categories:

Level 1 primarily consists of financial instruments whose value is based on quoted market prices such as listed equities.

Level 2 includes those financial instruments that are valued using models or other valuation methodologies calibrated to observable market inputs. These models are primarily industry-standard models that consider various assumptions, including discount margins, credit spreads, discounted anticipated cash flows, the terms and liquidity of the instrument, the financial condition, operating results and credit ratings of the issuer or underlying company, the quoted market price of publicly traded securities with similar duration and yield, time value, yield curve, default rates, as well as other measurements. In order to be classified as Level 2, substantially all of these assumptions would need to be observable in the marketplace or able to be derived from observable data or supported by observable levels at which transactions are executed in the marketplace.

Level 3 is comprised of financial instruments whose fair value is estimated based on internally developed models or methodologies utilizing significant inputs that are unobservable from objective sources. Included in this category are warrants, private securities, convertible notes and loans receivable received in conjunction with the Company's investment banking and merchant banking activities and limited partnership interests.

Value of Underwriter and Placement Agent Warrants

As a part of the Company's compensation for its activities as underwriter or placement agent, it may receive warrants exercisable to purchase securities similar to those that are offered and sold in the financing transaction. The Company values such warrants using the Black-Scholes Option Pricing Model (Black-Scholes). The model requires management to use five inputs: price, risk-free interest rate, exercise price, time remaining on the warrant and price volatility. When the Company initially receives a new warrant in connection with, or prior to an initial public offering, its calculated volatility factor is based on the volatility of an index of comparable companies, since there is no price history for new publicly traded or private companies. As each warrant approaches its expiration date, its volatility factor is derived primarily from the historical prices of its underlying common stock. Management cannot assure that it ultimately will be able to liquidate any of the Company's warrants in a way that will realize the value attributed to the warrants in the financial statements through the application of Black-Scholes.

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The fair value of warrants is recorded in financial instruments owned, at fair value on the Company's Consolidated Statement of Financial Condition. When a new warrant is received, its fair value is included in investment banking revenue on the date on which it is earned. Subsequently, any change in fair value is recorded as principal transactions. When a warrant is exercised, the fair value is adjusted to reflect the value of the securities purchased, net of the exercise price, and the adjustment amount is recorded as income or loss for the relevant period. If a warrant expires unexercised, the fair value is adjusted to zero and the decrease is recorded as a loss in the relevant period.

Value of Merchant Banking Assets

The value of Aceras' assets was determined based on an independent valuation prepared as of December 31, 2009, taking into consideration the cost of the investment, market participant inputs, a binding offer made by BioMarin, estimated cash flows based on entity specific criteria, purchase multiples paid in other comparable third-party transactions, market conditions, liquidity, operating results and other qualitative and quantitative factors. The values at which the Company's investments are carried on our books are adjusted to estimated fair value at the end of each quarter and the instability in general economic conditions, stock markets and regulatory conditions may result in significant changes in the estimated fair value of these investments.

Cash and Cash Equivalents

The Company generally invests its excess cash in money market funds. Restricted cash is due to short sales which were collateralized based on the requirements of the prime broker and an escrow accounts per the Company's office lease agreement and the Huxley Purchase Agreement.

Revenue Recognition

Investment Banking. Underwriting and placement agent revenues and fees from mergers and acquisitions and other financial advisory assignments are recognized in the Consolidated Statements of Operations when the services related to the underlying transaction are completed under the terms of the engagement. Expenses associated with such transactions are deferred until the related revenue is recognized or the engagement is otherwise concluded. Underwriting and placement agent revenues are presented net of related expenses.

When the Company receives warrants as a component of its compensation for investment banking services, revenue is recognized based on the fair value of those instruments. Revenue from the receipt of warrants is recognized on the date the warrants are received based on the estimated fair value of the securities received as estimated using Black-Scholes, which takes into account the exercise price, remaining life of the warrant, the current price and expected volatility of the underlying stock, expected dividends on the stock and the risk-free interest rate for the remaining term of the warrant. The following provides details of the Company's investment banking revenue for the years ended December 31, 2009 and 2008 (in thousands of dollars):

	Year Ended December 31,	
	2009	2008
Private placement cash fees	\$ 48,150	\$ 28,586
Private placement warrant and note fees	24,184	13,684
Advisory cash fees	6,965	8,984
Underwriting cash fees	11,134	1,219
	\$ 90,433	\$ 52,473

Principal Transactions. Financial instruments owned and financial instruments sold, but not yet purchased (all of which are recorded on a trade-date basis) are carried at fair value with gains and losses reflected in principal transactions on a trade date basis.

Commissions. The Company's sales and trading business generates revenue from equity securities trading commissions paid by customers. Commissions are recognized on a trade date basis.

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Conference Fees. The Company receives conference deposits from presenters, which are recorded as a liability and then recognized as revenue when the conference is conducted. The Company also makes advance payments for conference facilities, entertainment and related costs, which are recorded as prepaid expenses and then recognized as expenses when the conference is conducted.

Property and Equipment

Property and equipment are depreciated using the straight-line method over the estimated useful lives of the related assets (generally three to ten years). Leasehold improvements are amortized using the straight-line method over the term of related leases or the estimated useful lives of the assets, whichever is shorter.

Goodwill and Other Intangible Assets

Goodwill is not amortized; instead, it is reviewed for impairment at least annually and written down when impaired. Goodwill is impaired when the carrying amount of the reporting unit exceeds the implied fair value of the reporting unit.

Intangible assets consist of customer relationships and a trade name. Customer relationships and a trade name acquired in business combinations under the purchase method of accounting are recorded at their fair values net of accumulated amortization since the acquisition date. Customer relationships acquired in the normal course of the Company's operations are recorded at cost net of accumulated amortization. Intangible assets are amortized over their useful lives using a method of amortization that reflects the pattern in which the economic benefits of the intangible assets are consumed or otherwise used. Amortization is calculated using the straight line method over the estimated useful lives at the following annual rates:

	%
Customer relationships	33%
Trade name	10%

The Company reviews its finite-lived intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of finite-lived intangible asset may not be recoverable. Recoverability of a finite-lived intangible asset is measured by a comparison of its carrying amount to the undiscounted future cash flows expected to be generated by the asset. If the asset is considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeds the fair value of the asset, which is determined based on discounted cash flows.

Earnings Per Share

Basic EPS is computed by dividing net income applicable to common stock by the weighted-average number of common shares outstanding, which includes restricted stock and restricted stock units (RSUs) for which service has been provided. Diluted EPS includes the components of basic EPS and also includes the dilutive effects of restricted stock and RSUs for which service has not yet been provided and employee stock options.

Income Taxes

Prior to the Exchange, Holding was a limited liability company (LLC) filing Federal, New York State, and New York City Unincorporated Business Tax (UBT) returns. As an LLC, Holding was not subject to Federal or State income taxes other than New York City UBT. Rather, the members of Holding, Revere and R&R Capital, were taxed on Holding's federal and state taxable income. Accordingly, there was no provision or liability for Federal or State income taxes recorded in Holding's consolidated financial statements prior to the Exchange, except for the New York City UBT. For the short year that began on July 11, 2007 and ended December 31, 2007, and for subsequent tax years, the Company was subject to Federal, foreign, state, and local corporate income taxes. The Company files Federal, foreign, state, and local corporate tax returns.

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Deferred income taxes are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date.

Management does not believe that the Company has any material uncertain tax position requiring recognition or measurement.

The Company's policy is to classify penalties and interest associated with uncertain tax positions, if required, as a component of its income tax provision.

Legal Reserves

The Company recognizes a liability for a contingency when it is probable that a liability has been incurred and when the amount of loss can be reasonably estimated. When a range of probable loss can be estimated, the Company accrues the most likely amount of such loss, and if such amount is not determinable, then the Company accrues the minimum of the range of probable loss.

Reserves related to legal proceedings are established and maintained. The determination of these reserve amounts requires significant judgment on the part of management. The Company's management considers many factors including, but not limited to: the amount of the claim; the basis and validity of the claim; previous results in similar cases; and legal precedents and case law. Each legal proceeding is reviewed with counsel in each accounting period and the reserve is adjusted as deemed appropriate by management. As of December 31, 2009, there were no legal reserves accrued in the Consolidated Statements of Financial Condition.

Use of Estimates

The preparation of financial statements is in conformity with GAAP, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Concentrations of Credit Risk

R&R is engaged in trading and provides a broad range of securities brokerage and investment services to institutional clients as well as private placement services to business entities. Counterparties to the R&R's business activities include broker-dealers and clearing organizations, banks and other financial institutions.

R&R uses a clearing broker to process transactions and maintain client accounts on a fee basis. R&R permits the clearing firm to extend credit to a client secured by cash and securities in the client's account. R&R's exposure to credit risk associated with the non-performance by its clients and counterparties in fulfilling their contractual obligations can be directly impacted by volatile or illiquid trading markets, which may impair the ability of clients and counterparties to satisfy their obligations to R&R. R&R has agreed to indemnify its clearing broker for losses incurred while extending credit to R&R's clients. R&R's policy is to review, as necessary, the credit standing of its clients and counterparties. Amounts due from clients that are considered uncollectible are charged back to R&R by the clearing brokers when such amounts become determinable.

Financial instruments sold but not yet purchased commit R&R to deliver specified securities at predetermined prices. The transactions may result in market risk since, to satisfy the obligation, R&R must acquire the financial instruments at market prices, which may exceed the values reflected on the Consolidated Statements of Financial Condition.

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Forgivable Loans

During the year ended December 31, 2008, the Company issued \$3.3 million of forgivable loans as a retention vehicle to certain new employees. The Company issued an additional \$2.1 million in forgivable loans in 2009. These loans are subject to a substantive service requirement by the employees and are amortized over a three year service period on a straight-line basis. As of December 31, 2009, the net balance of the loans was \$2.7 million, which is included in other assets on the Consolidated Statements of Financial Condition. The Company recorded \$1.9 million and \$0.8 million of compensation expense related to the amortization of these loans during the years ended December 31, 2009 and 2008, respectively.

Stock-Based Compensation

The Company measures its compensation cost for all stock-based awards at fair value on the date of grant, taking into account any post vesting selling restrictions, and recognizes the compensation expense over the requisite service period. Expenses associated with such grants are generally recognized on a straight-line basis over the requisite service period, net of estimated forfeitures.

Stock based compensation for performance-based stock awards is recognized on a straight-line basis over the requisite service period, net of estimated forfeitures, if it is probable that the performance condition will be achieved.

Deferred stock based compensation costs with respect to shares of restricted stock and restricted stock units and stock options granted are presented as part of additional paid in capital in the consolidated statements of stockholders' equity.

Reclassifications

Certain non-material reclassifications have been made to previously reported balances to conform to the current presentation.

NOTE 3 - Recent Accounting Pronouncements

FASB ASC 105-10. In June 2009, the FASB issued SFAS No. 168, *The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles*, (SFAS 168). SFAS 168 replaces SFAS 162 and establishes the FASB Accounting Standards Codification (ASC or Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by non-governmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission (the SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Codification became the exclusive authoritative reference on September 30, 2009.

FASB ASC 810-10. In December 2007, the Financial Accounting Standards Board (FASB) issued FASB 160, *Non-controlling Interests in Consolidated Financial Statements - an amendment of ARB No. 51* (SFAS 160). SFAS 160 requires an entity to clearly identify and present ownership interests in subsidiaries held by parties other than the entity in the Consolidated Financial Statements within the equity section but separate from the entity's equity. It also requires the amount of consolidated net income attributable to the parent and to the non-controlling interest be clearly identified and presented on the face of the consolidated statement of income; changes in ownership interest be accounted for similarly, as equity transactions; and when a subsidiary is deconsolidated, any retained non-controlling equity investment in the former subsidiary and the gain or loss on the deconsolidation of the subsidiary be measured at fair value. This statement is effective for financial statements issued for fiscal years beginning after December 15, 2008. Accordingly, the Company adopted SFAS No. 160 effective January 1, 2009. The non-controlling interests related to the investment in Aceras are presented in accordance with ASC 810-10.

FASB ASC 815-10. In March 2008, the FASB issued SFAS 161, *Disclosures about Derivative Instruments and Hedging Activities* (SFAS 161). SFAS 161 amends and expands the disclosure requirements of SFAS 133, *Accounting for Derivative Instruments and Hedging Activities*, and requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair values and amounts of gains and losses on derivative contracts and disclosures about credit-risk-related contingent features in derivative agreements. SFAS 161 is effective for the fiscal years

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

and interim periods beginning after November 15, 2008. The Company adopted SFAS No. 161 effective January 1, 2009. SFAS 161 did not impact the Company's Consolidated Financial Statements.

FASB ASC 320-10. In April 2009, the FASB released FASB Staff Position (FSP) FAS 115-2, FAS 124-2, and EITF 99-20-2, *Recognition and Presentation of Other-Than-Temporary Impairments* (FSP FAS 115-2). FSP FAS 115-2 was issued contemporaneously with FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability has Significantly Decreased and Identifying Transactions that are Not Orderly* (FSP FAS 157-4) and FSP FAS 107-1 and APB 28-1, *Interim Disclosures About Fair Value of Financial Instruments* (FSP FAS 107-1). FSP FAS 115-2 provides new guidance on the recognition and presentation of an other-than-temporary impairment of debt securities, such as auction rate investment instruments. FSP FAS 157-4 indicates that if an entity determines that either the volume and/or level of activity for an asset or liability has significantly decreased (from normal conditions for that asset or liability) or price quotations or observable inputs are not associated with orderly transactions, increased analysis and management judgment will be required to estimate fair value. FSP FAS 115-2 and FSP FAS 157-4 are effective for interim and annual periods ending after June 15, 2009, with early adoption permitted. FSP FAS 157-4 must be applied prospectively. The Company elected to adopt FSP FAS 115-2 and FSP FAS 157-4 in the first quarter of 2009. The adoption of FSP FAS 115-2 and FSP FAS 157-4 had no material impact on the Company's Consolidated Financial Statements.

FASB ASC 260-10. In June 2008, the FASB issued FASB Staff Position (FSP) EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP EITF 03-6-1). FSP EITF 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting, and therefore need to be included in the earnings allocation in computing earnings per share under the two-class method as described in SFAS No. 128, Earnings per Share. Under the guidance of FSP EITF 03-6-1, unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings-per-share pursuant to the two-class method. FSP EITF 03-6-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008. The adoption of *FSP EITF 03-6-1* did not have an effect on the Company's calculation of earnings per share and related disclosures, as its share-based payment awards include forfeitable rights to dividends or dividend equivalents declared, and as such these awards do not meet the definition of participating securities in their current form.

FASB ASC 855-10. In May 2009, the FASB issued FASB Statement No. 165, *Subsequent Events* (SFAS 165), which establishes general standards of and accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This SFAS was effective for interim and annual periods ending after June 15, 2009. The adoption of SFAS 165 had no impact on the Company's financial condition, results of operations or cash flows.

NOTE 4 - Financial Instruments, at Fair Value

The following is a summary of the fair value of financial instruments owned and financial instruments sold, not yet purchased, as of December 31, 2009 and 2008 (in thousands of dollars):

There were no material transfers in or out of financial assets classified as Level 3 for the year ended December 31, 2008.

NOTE 5 - Goodwill and Other Intangible Assets

Miller Mathis & Co., LLC Acquisition

On March 24, 2008, the Company acquired Miller Mathis & Co., LLC (Miller Mathis), an independent mergers and acquisition advisor to the global steel industry. The total fixed consideration for the acquisition was \$7.3 million, with \$4.4 million paid in cash at closing, and the balance (\$2.9 million) payable on the first anniversary of the closing date. The Company had to pay up to \$0.4 million of the deferred consideration in cash, and at its election, had the right to pay up to \$2.5 million of the deferred consideration in cash or common stock. Up to an additional \$2.1 million of purchase price was payable in cash or common stock, or a combination thereof, on the second anniversary of the closing date, upon the achievement of significant growth targets.

As of March 1, 2009, the Company effected a modification to the agreements defining the ongoing obligations between Miller Mathis and the Company. Pursuant to the modification agreement, the \$2.9 million deferred payment that was due to Miller Mathis on the first anniversary of the closing date was reduced to \$1.0 million, which amount was paid on April 1, 2009. The remaining \$1.9 million, which is recorded as an accrued liability of the Company, will be paid to Miller Mathis contingent upon future revenues generated by the metals and mining group, of which \$1.0 million was paid through December 31, 2009.

COSCO Capital Management, LLC Acquisition

On June 2, 2008, the Company consummated the acquisition of all the operating assets of COSCO Capital Management LLC, COSCO Capital Texas LP and Private Energy Securities, Inc. (collectively, COSCO), related companies that provide investment banking services to the oil and gas sectors, principally in the United States and Canada.

Under the terms of the acquisition agreement, the fixed purchase price was \$10.1 million, \$8.1 million of which was paid at closing by the delivery of \$6.1 million in cash and 1,121,138 shares of restricted common stock of the Company valued at \$2.0 million. The \$2.0 million balance of the fixed purchase price was payable over the two year period following the closing. Additionally, the Company was required to pay (a) up to a maximum of \$4.0 million over the 21 month period following the closing in respect of certain revenue earned, but not yet received, under contracts acquired (of which \$3.8 million was paid in cash and restricted stock through December 31, 2009), and (b) certain other incremental payments based upon the acquired business achieving performance targets during the two year period following the closing. In addition, the acquisition of COSCO contained a 21 month contingency for additional contingent consideration to the selling shareholders, based on future revenues. This additional consideration was payable annually in a mix of cash and equity.

As of May 1, 2009, the Company effected a modification to the agreements defining the ongoing obligations between COSCO and the Company. Pursuant to the modification agreement, the \$2.0 million deferred payment that was due to COSCO in equal installments in June 2009

and 2010, respectively, will be paid to COSCO contingent upon future revenues

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

generated by the COSCO group. Of this \$2.0 million, the Company paid \$0.1 million in contingent earn-out payments through December 31, 2009, and will pay the remaining balance of the earn-out payments as future revenues are generated.

Goodwill and Intangible Assets

In light of market conditions, the Company performed an impairment test during the first quarter of 2008 which resulted in the recognition of a goodwill impairment charge of \$1.1 million, of which \$ 0.3 million and \$0.8 million are related to its TechBio, LLC and Techvest, LLC subsidiaries, respectively.

Goodwill was tested for impairment again as of December 31, 2008. The fair value of the reporting unit was determined using the weighted average of discounted cash flow, price to tangible book value multiple and market capitalization. The significant estimates used in the fair value methodologies include estimates of future cash flows, future growth rates and the weighted average cost of capital of the reporting unit. The impairment test resulted in the recognition of an impairment charge of \$16.8 million related to Miller Mathis and COSCO, which was the total balance of goodwill related to these acquisitions.

Goodwill was tested for impairment as of March 31, 2009 and as of June 30, 2009, after monitoring the relationship of the Company's market capitalization to both its book value and tangible book value and observing a decline in the Company's market capitalization related to both financial services industry-wide factors and to Company specific factors. The impairment tests resulted in the recognition of an impairment charge of \$1.3 million related to a COSCO contingent earn-out paid in cash.

Goodwill was tested annually for impairment as of September 30, 2009. Based on this analysis goodwill was not considered to be impaired.

The following table represents a summary of the changes to goodwill and other intangible assets from December 31, 2008 through December 31, 2009 (in thousands of dollars):

	<u>Goodwill</u>	<u>Customer Relationships</u>	<u>Trademark</u>	<u>Total</u>
Balance, December 31, 2008	\$	2,686	220	2,906
Additions	1,540			1,540
Impairment	(1,327)			(1,327)
Amortization		(1,136)	(22)	(1,158)
Balance, December 31, 2009	\$ 213	\$ 1,550	\$ 198	\$ 1,961

NOTE 6 - Property and Equipment, Net

Property and equipment, net is comprised of the following as of December 31, 2009 and 2008 (in thousands of dollars):

	<u>December 31, 2009</u>	<u>December 31, 2008</u>
Computer and office equipment	\$ 2,203	\$ 1,625
Furniture and fixtures	1,460	1,011
Leasehold improvements	2,420	1,008
	6,083	3,644
Less: accumulated depreciation and amortization	3,310	2,254
Property and Equipment, Net	\$ 2,773	\$ 1,390

Depreciation expense for the years ended December 31, 2009 and 2008 was \$1.1 million and \$707,000, respectively.

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 7 - Related Party Transactions

One of the Company's directors, who joined its board of directors on October 16, 2007, has also served as the chairman of the board of Cyalume Technologies, Inc. (Cyalume) since May 31, 2006. During 2008 the Company recorded revenue in the amount of \$2.3 million in connection with services rendered to Cyalume. As of December 31, 2009, a promissory note in the amount of \$1.8 million was outstanding.

NOTE 8 - Warrants

On March 1, 2007, the Company, in a private placement transaction, issued the debentures and the warrants to the investors in exchange for \$20,000,000 in cash. The debentures had a maturity date of December 31, 2009 and bore interest at 6% per annum, payable at the earlier of the maturity date or at the time of conversion or redemption of the debentures. The debentures, including any accrued interest, were convertible into shares of Holding's common stock, at any time, at the election of the holders, at a conversion price of \$7.00 per share, subject to certain adjustments. The warrants were exercisable at any time on or before March 1, 2010, at the election of the holder, and entitled the holders to purchase up to 714,286 shares of Holding's common stock at an exercise price of \$7.70 per share, subject to certain adjustments.

As part of the Exchange, the holders of the debentures and the warrants exchanged those securities (and accrued interest on the debentures) for an aggregate of 5,970,099 shares of Common Stock and warrants to purchase 1,355,600 shares of Common Stock at an exercise price of \$7.00 per share, subject to certain adjustments. As a result of such adjustments, at September 30, 2009, the warrants covered the right to purchase 1,494,886 shares at an exercise price of \$6.35. Subsequent to September 30, 2009, the Company extended to the warrant holders the ability to exercise the warrants on a cashless basis prior to their expiration on March 1, 2010. On March 2, 2010 all 1,494,886 warrants expired unexercised.

In connection with the sale of the Debentures and the Warrants, the Company agreed to enter into a Registration Rights Agreement with the holders of the Debentures, which would require it or its successor to file a resale registration statement with the SEC within 90 days after certain trigger events. The Exchange was a trigger event and, in connection therewith, the Company entered into a Registration Rights Agreement with the former holders of the Debentures. In furtherance of the Company's obligations under the Registration Rights Agreement, the holders' shares were included in the Registration Statement that was declared effective by the SEC on October 16, 2007. The Company has no on-going obligations under the Registration Rights Agreement.

NOTE 9 - Commitments and Contingencies**Lease Commitments**

The Company leases its headquarters and other office locations under non-cancelable lease agreements which expire between 2008 and 2014.

On February 14, 2008, the Company entered into a new lease agreement for approximately 40,300 square feet of office space on the 20th floor at 1251 Avenue of the Americas, New York, NY for a term which commenced in May 2008 and ends in October 2013. The monthly rental fee is \$252,000, with five months free rent after the payment of the first monthly lease payment on the commencement date. The monthly rent expense is \$233,000.

The Company's future minimum lease payments for all operating leases are as follows as of December 31, 2009 (in thousands of dollars):

	Office Leases
	<hr/>
2010	\$ 3,198
2011	3,179
2012	3,181
2013	2,585
2014	56

F-19

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Occupancy and rental expense amounted to \$3.1 million and \$2.9 million in 2009 and 2008, respectively.

Letter of Credit

In connection with the lease for the 20th floor at 1251 Avenue of the Americas, New York, NY the Company issued a letter of credit in favor of the landlord in the sum of \$755,625, as a security deposit. The letter of credit expires in March 2011 but is subject to automatic extension.

Equity Commitment

The Company, through RPI, has made an investment commitment to Aceras Partners to fund operations and the joint venture's principal investments in life science companies. As of December 31, 2008, \$28.6 million of this commitment remained unfunded.

At December 31, 2009, \$15.4 million of this commitment remained unfunded.

NOTE 10 - Net Capital Requirements

R&R is subject to various regulatory requirements, including the SEC's Uniform Net Capital Rule (SEC Rule 15c3-1). These regulations place limitations on certain transactions, such as repaying subordinated borrowings, paying cash dividends, and making loans to a parent, affiliates or employees. Broker-dealers are prohibited from such transactions which would result in a reduction of its total net capital to less than 120% of its required minimum net capital. Moreover, broker-dealers are required to notify the SEC before entering into any such transactions, which if executed, would result in a reduction of 30% or more of its excess net capital (net capital less the minimum requirement). The SEC has the ability to prohibit or restrict such transactions if the result is detrimental to the financial integrity of the broker-dealer.

At December 31, 2009, the R&R had net capital of \$8.6 million, which was \$8.0 million in excess of its required net capital of \$599,000.

NOTE 11 - Income Taxes

For the years ended December 31, 2009 and 2008, the current and deferred amount of income tax expense (benefit) in the statement of operations are comprised of the following (in thousands of dollars):

	Year Ended December 31,	
	2009	2008
Current:		
Federal	\$ 297	
States & City	132	224
Total current tax expense (benefit)	429	224
Deferred:		
Federal	(3,399)	1,486
States & City	(943)	772
Total deferred tax expense (benefit)	(4,342)	2,258
Total income tax expense (benefit)	\$ (3,913)	2,482

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

A reconciliation of total income taxes and the amount computed by applying the applicable federal income tax rate to earnings before income taxes follows (in thousands of dollars):

F-20

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

	Year Ended December 31,	
	2009	2008
Computed expected tax at 34% statutory rate	\$ 14,307	(11,884)
Increase in taxes resulting from:		
Non-deductible expenses and non-taxable income, net	84	64
State and local income taxes, net of federal benefit	1,458	(2,124)
Income taxes attributable to non-controlling interest	(6,361)	
Share-based compensation	1,184	
Other items	754	887
Change in valuation allowance	(15,339)	15,539
	\$ (3,913)	2,482
Total	\$ (3,913)	2,482

The tax effects of temporary differences that give rise to the deferred tax assets and deferred tax liabilities are presented below (in thousands of dollars):

	December 31, 2009	December 31, 2008
Deferred tax assets:		
Stock based compensation	\$ 3,462	3,444
Intangible assets	8,881	8,809
Depreciation	393	217
Unrealized gain on investments	199	114
Accrued expenses	961	805
Allocation for bad debt	141	
Net operating loss carryforwards		3,621
Foreign net operating loss carryforwards	200	
Other carryovers	133	7
	14,370	17,017
Valuation allowance	(200)	(15,539)
	14,170	1,478
Deferred tax liabilities:		
Warrant income	(5,457)	(1,478)
Gain on sale of investments	(4,371)	
	(9,828)	(1,478)
Net deferred tax asset	\$ 4,342	

In determining the possible future realization of deferred tax assets, the future taxable income from the following sources is taken into account: (a) the reversal of taxable temporary differences, (b) future operations exclusive of reversing temporary differences and (c) tax planning strategies that, if necessary, would be implemented to accelerate taxable income into years in which net operating losses might otherwise expire.

Edgar Filing: RODMAN & RENSHAW CAPITAL GROUP, INC. - Form S-4

The Company recorded a valuation allowance of \$15.5 million against the deferred tax asset as of December 31, 2008, after considering all available evidence and potential tax-planning strategies related to the amount of the tax asset that is more likely than not to be realized. In the fourth quarter of 2009, the Company, based on its evaluation of all available evidence and potential tax-planning strategies available, determined that it was more likely than not that substantially all of its deferred tax assets would be realized and accordingly reversed \$15.3 million of its valuation allowance existing at December 31, 2008.

As of December 31, 2009, the Company has Canadian net operating loss carry-forwards of \$0.7 million, with \$0.3 million expiring in 2028 and \$0.4 million expiring in 2029.

F-21

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company's continuing practice is to recognize estimated interest and/or penalties related to income tax matters as a component of income tax expense. As of December 31, 2009, the Company had no accruals for interest of penalties or reserves for uncertain tax positions.

The Company files income tax returns in the U.S. federal jurisdiction, various states, local and foreign jurisdictions. The Company is not currently under examination by the United States Internal Revenue Service or any other state, local, or foreign taxing jurisdictions.

The Company's income tax returns filed for tax years 2007 and 2008 are subject to examination by the U.S. federal, state, and foreign taxing jurisdictions. In addition, the Company does not anticipate any change in the amount of unrecognized tax benefits within the next twelve months.

NOTE 12 Stock Based Compensation

Stock-Based Compensation

We have an Incentive Compensation Plan (Incentive Plan) which allows awards in the form of incentive stock options (within the meaning of Section 422 of the Internal Revenue Code), nonqualified stock options, stock appreciation rights, restricted stock, unrestricted stock, performance awards, restricted stock units, dividend equivalents or other share-based awards. The plan imposes a limit on the number of shares of our common stock that may be subject to awards.

The Incentive Plan allows for grants of restricted stock awards, whereby employees are granted restricted shares of common stock subject to forfeiture. The Incentive Plan also allows for grants of restricted stock units. Restricted stock units give a participant the right to receive fully vested shares at the end of a specified deferral period. One advantage of restricted stock units, as compared to restricted stock, is that the period during which the award is deferred as to settlement can be extended past the date the award becomes non-forfeitable, allowing a participant to hold an interest tied to common stock on a tax deferred basis. Prior to settlement, restricted stock units carry no voting rights associated with the stock ownership.

We have historically and generally expect to issue new shares of common stock when satisfying our issuance obligations pursuant to share based awards, as opposed to reissuing shares from our treasury stock.

The Company recorded \$5.8 million and \$5.6 million of stock-based compensation for the years ended December 31, 2009 and 2008, respectively. The unamortized deferred stock-based compensation balance as of December 31, 2009 amounts to \$2.5 million and will be fully amortized through 2012.

A summary of options (with retroactive effect given for the Exchange) outstanding as of December 31, 2009 is as follows (shares in thousands):

Stock Options

	Number of Options	Weighted Average Exercise Price	Weighted Average Grant Date Fair Value	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value
Outstanding at December 31, 2007	6,088	\$ 3.91	\$ 1.04		
Exercised	(150)	0.22			
Canceled	(861)	3.78			
Outstanding at December 31, 2008	5,077	\$ 4.04	\$ 1.09		
Canceled	(970)	3.91	1.62		
Outstanding at December 31, 2009	4,107	\$ 4.07	\$ 0.96	2.5 years	\$ 0.7 million
Exercisable at December 31, 2009	3,980	\$ 4.06	\$ 0.95	2.4 years	\$ 0.7 million

**RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

There are no option grants in 2009 and 2008.

The total intrinsic value of stock options exercised during 2008 was \$95,892. No cash was received from the exercise of stock options by employees during 2009 and 2008.

Total compensation cost associated with stock options was \$1.4 million and \$2.2 million in 2009 and 2008, respectively.

The following tables detail the activity of restricted stock (shares in thousands):

Restricted Stock

	Number of Shares	Weighted Average Grant Date Fair Value
Balance at December 31, 2007	750	\$ 5.00
Granted	1,470	2.27

	<u> </u>	<u> </u>	<u> </u>	<u> </u>

-
- (1) Represents fully vested restricted stock units which are still subject to transferability restrictions.
Total compensation cost associated with RSUs was \$4.2 million and \$1.2 million in 2009 and 2008, respectively.

As of December 31, 2009, there was \$2.4 million of total unrecognized compensation cost related to non vested restricted shares and RSUs awards, which is expected to be recognized over a remaining weighted-average vesting period of approximately 2.2 years.

RODMAN & RENSHAW CAPITAL GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

NOTE 13 Weighted Average Shares Outstanding

The table below reconciles weighted average number of common shares outstanding, basic and diluted, for the years ended December 31, 2009 and 2008 (weighted average shares in thousands):

	Year Ended December 31,	
	2009	2008
Common shares outstanding, basic	35,588	33,375
Common shares upon exercise of options (1)	39	
Common shares upon exercise of warrants (1)		
Common shares upon vesting of non-vested restricted stock and RSUs (1)	1,772	
Common shares outstanding, diluted	37,399	33,375

(1) Calculated under the treasury stock method. The treasury stock method assumes the issuance of only a net incremental number of shares as proceeds from issuance are assumed to be used to repurchase shares at the average stock price for the period.

Due to the fact the Company had a net loss for the year ended December 31, 2008, the outstanding shares for calculation of basic EPS and diluted EPS for that period are the same.

NOTE 14 Segment Reporting

Through June 30, 2009, the Company operated in one business segment. Commencing July 1, 2009, the Company began operating in two business segments, Capital Markets and Merchant Banking. The Capital Markets reportable segment includes our investment banking, sales and trading activities and research. The Capital Markets reportable segment is managed as a single operating segment that provides the following principal sources of revenue:

investment banking fees, which are derived from corporate finance activities and strategic advisory services;
realized and unrealized gains with respect to securities held for the Company's own account;
commissions on sales and trading activities;
conference fees; and
other miscellaneous sources of revenues, such as interest.

Although the Company has multiple sources of revenue derived within Capital Markets, most of our revenue is derived from investment banking services and consists of private placement, underwriting and strategic advisory fees earned upon the successful completion of financing or other types of corporate transactions, such as mergers, acquisitions and dispositions.

The Merchant Banking segment is primarily comprised of operating activities related to Aceras BioMedical. On May 12, 2008, the Company formed Aceras BioMedical, a joint venture through which it, in partnership with Aceras Partners, LLC, make principal investments in early-stage biotechnology and life sciences companies. In conjunction with the establishment of the joint venture, the Company formed a new wholly-owned subsidiary, RPI, which holds a 50% stake in Aceras BioMedical and serves as the holding vehicle for all of its principal-related businesses. At December 31, 2009, RPI's outstanding investment commitment to Aceras BioMedical over five years to fund operations and the joint venture's principal investments in life science companies was \$15.4 million. RPI receives 50% of Aceras BioMedical's economic interest in all investments made.
