MARKET VECTORS HARD ASSETS ETFs
(unaudited)
Dear Shareholder:
If 2014 was not kind to hard assets, in particular energy stocks, the first six months of 2015 were not much kinder. There was little by way of recovery in the prices of crude, and natural gas prices declined further. Having fallen nearly 46% in 2014 to end the year at \$53.27 per barrel, by June 30, 2015, West Texas Intermediate (WTI) front month crude prices had risen to \$59.47 per barrel. Having ended 2014 some 32% down on the previous year, North American Henry Hub natural gas front month futures was lower by 2%, ending the first half of the year at \$2.832 per MMBtu.
Not the whole energy story, however, was one of doom and gloom. There were bright spots, especially when it came to alternative energy, specifically solar and wind power generation.
Our suite of hard assets ETFs combines both broad-based and focused funds. Focused funds can provide interesting opportunities to those investors who wish to express an opinion on specific sectors. Two of the focused funds we offer, Market Vectors Global Alternative Energy ETF (NYSE Arca: GEX) and Market Vectors Solar Energy ETF (NYSE Arca: KWT), were the top performing funds in the hard assets ETFs for the six-month period ending June 30, 2015.
For investors interested in the increasingly important role solar energy is playing in the U.S. domestic power generation narrative, KWT can offer an interesting option. In the U.S., in the first quarter of 2015, 1,306 MW of solar photovoltaics (PV) were installed, to total 21.3 GW installed capacity, enough to power 4.3 million homes.
U.S. Solar Photovoltaic (PV) Installations – MWdc
Source: Solar Energy Industries Association (MWdc = Mega Watts direct current)
Turning back to fossil fuels, despite the current depressed prices of both crude oil and natural gas, we continue to

believe that the shale story remains a compelling one. We offer unique global exposure to the unconventional energy

theme in two forms. Market Vectors Unconventional Oil & Gas ETF (NYSE Arca: FRAK) seeks to track an index covering those companies that are primarily involved in this segment. Market Vectors Oil Services ETF (NYSE Arca: OIH), tracking the overall performance of 25 of the largest and most liquid U.S.-listed, publicly traded oil services companies, provides access to some of the main companies servicing this sector.

Going forward, we will, of course, continue to seek out and evaluate the most attractive opportunities for you as a shareholder in the hard assets space. Please stay in touch with us through our website (http://www.vaneck.com/market-vectors) on which we offer videos and email subscriptions, all of which are designed to keep you up to date with your investment in Market Vectors ETFs.

On the following pages, you will find the performance record of each of the funds for the six-month period ended June 30, 2015. You will also find their financial statements. As always, we value your continuing confidence in us and look forward to helping you meet your investment goals in the future.

MANAGEMENT DISCUSSION (unaudited)

Hard Assets Market Overview

The *Rogers*TM-Van Eck Natural Resources Index* (RVEIT), which includes equities of the world's largest and most prominent hard assets producers, remains the most comprehensive index in the hard assets producer space. For the six-month period ending June 30, 2015, the index returned -1.37%. The table below shows average sector weightings within this index and the total return of each sector for the six-months ending June 30, 2015.

Three of the 12 Hard Assets ETFs posted positive total returns during the six-month period, with Market Vectors Global Alternative Energy ETF (NYSE Arca: GEX) (+13.16%) and Market Vectors Solar Energy ETF (NYSE Arca: KWT) (+11.51%) producing the best returns of the three. Market Vectors Coal ETF (NYSE Arca: KOL) (-21.79%) and the Market Vectors Steel ETF (NYSE Arca: SLX) (-14.19%) were the two worst performing ETFs.

January 1 through June 30, 2015 Market Vectors Hard Assets ETFs Total Return

Source: Van Eck Global. Returns based on each fund's net asset value (NAV). The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

MARKET VECTORS HARD ASSETS ETFs

(unaudited)

Agribusiness

The agribusiness industry proved resilient in the first six months of the year despite general weakness in commodities markets. The primary driver of performance was the fertilizer and agricultural chemical segment. Companies manufacturing and distributing agricultural and farm machinery also contributed to performance. Detractors from performance included both food processing and animal feed companies. Geographically, the greatest positive returns came from companies in Switzerland and the United States, while the greatest negative returns came from those in Malaysia and Indonesia.

Coal

The first six months of 2015 were difficult for the coal industry. Following the decline in coal consumption in both the electric power and other sectors in the U.S. in 2014, as the prices of coal and natural gas continued to converge during the first two months of 2015, the percentage of total U.S. electricity generation fueled by coal fell to 37.4%, down from 43.0% during the same period in 2014. In contrast, for the same period, natural gas generation accounted for 27.6% of total generation, up from 23.7% during the first two months of 2014. In the first four months of 2015 alone, China, one of the world's major coal consumers, was able to reduce its consumption by approximately 8% over the same period in 2014. Just two countries contributed positive returns: Australia and Russia. The U.S., with an average weighting of over 33%, detracted most from the sector's performance.

Global Alternative Energy

Global alternative energy stocks as a whole performed strongly during the first half of 2015, especially companies involved in wind and solar energy, and in automobile manufacturing. The strongest contribution came from companies in the United States, with by far the largest average weighting in the sector. However, there was also a significant contribution from Denmark, Brazil and Italy were the main detractors from performance.

Gold Miners

Junior gold miners outperformed their larger peers in the first six months of 2015. In addition, they outperformed physical gold over the same period. Larger miners, however, underperformed the metal. Gold prices fell

approximately 1% in the first half of the year. Among the larger mining stocks, U.S., Chinese, and Australian companies were positive contributors to performance. Canada, followed by South Africa, were the two countries to detract most from performance. Among the juniors, Australian companies contributed the most to total return and Canadian companies detracted the most from performance.

Oil Services

Hit by the precipitous drop in oil prices at the start of the year and their halting rise from mid-March, oil services stocks were on a roller coaster during the first six months of 2015. By mid-May, the U.S. onshore oil rig count had fallen for the 25th consecutive week⁴ and by mid-June the U.S. rig count had hit its lowest level since January 2003.⁵ Rising somewhat by June 26, the total U.S. rig count was 859,⁶ a decline of 53%⁷ since December 26, 2014. Oil service stocks in the U.K., comprising a single oil services company, detracted the most from performance.

Rare Earth and Strategic Metals

In mid-2014, the World Trade Organization sided with the U.S. in its dispute with China over export limits on rare earths. China lost its subsequent appeal. At the beginning of January, the Chinese authorities finally ended their decade-old rare earths mineral export quotas. From May 1, 2015, the country not only removed taxes on rare earth exports, but also on exports of tungsten and molybdenum. In addition, tariffs on shipments of both ferroalloys and indium were also scrapped. However, China's actions did little to help rare earth prices and, indeed, they fell after it scrapped the export tariffs on them. This continued to impact companies of all sizes involved in extracting and refining the metals. At the end of June, the only U.S. rare earth producer of rare earths, Molycorp, Inc. (1.02% of Fund net assets) filed for Chapter 11 bankruptcy protection. While companies in Australia and the U.S. involved specifically in the mining and refining of rare earths were some of the largest

detractors from performance, contributors to performance included companies involved in both titanium and molybdenum. Large- and mid-cap companies performed considerably better than their small-cap peers during the period under review.

Natural Resources

Three sectors, alternatives, paper and forest products, and agriculture, contributed positively to performance during the period under review. Energy companies, constituting the largest segment of the natural resources industry, together with base and industrial and precious metals all detracted from performance, with base and industrial metals' companies detracting the most from performance.

Solar Energy

Solar energy stocks continued to perform strongly in the first half of 2015, performing only slightly less positively than did global alternative energy stocks. In the U.S., in the first quarter of 2015, 1,306 MW (megawatts) of solar photovoltaics (PV) were installed, to total 21.3 GW (gigawatts) installed capacity, enough to power 4.3 million homes. Of new electric generating capacity in the first quarter of 2015, 51% came from solar. Within the sector, by far the strongest contribution came from companies in the United States and China, followed by those in Canada and Switzerland. Companies in Taiwan were the most significant detractors from performance. While large-cap companies had the lowest average weighting in the sector, they made the most significant contribution to overall performance. However, both small- and mid-cap companies both contributed to the fund's strong performance.

Steel

The first half of 2015 was a challenging one for the steel industry. Global overcapacity continued to be a problem, especially in China, and demand continued to slow. ¹³ In particular, China's huge and increasing overcapacity, estimated at 425 million metric tonnes, was seen as having already destabilized the global steel market and trade flows. ¹⁴ All regions of the world were seen as "suffering from a dramatic increase in unfair steel imports that is fueled by massive global overcapacity. ⁴⁵ With the two largest average weightings in the sector during the period under review, the U.S. and Brazil were the two largest detractors from performance over the first six months of 2015. Russian companies were the greatest positive contributors to the fund's return for the period.

Unconventional Oil & Gas

During the period under review, unconventional energy companies continued to be hard hit by the fall in oil prices at the end of 2014 and into early-2015: the U.S. onshore rig count dropped dramatically and capital expenditure was slashed across the industry. However, the industry proved surprisingly, to some, resilient. As the Organization of Petroleum Exporting Countries maintained crude oil production levels during the period under review, so, too, did U.S. shale oil companies. According to the U.S. Energy Information Agency, even though, by the end of March, the U.S. total oil rig count had fallen 18% during the quarter, U.S. domestic crude production during the month surged 126,000 barrels a day, or 1.3%, to 9.53 million, the most since 1972. Only in June did the same agency estimate that for the month, shale oil production in the U.S. would shrink 1.3% to 5.58 million barrels a day, with a further reduction in July. U.S. stocks (on average approximately 79% of the fund by weight during the period under review) detracted most from performance.

Uranium and Nuclear Energy

Performance in the sector during the first six months of 2015 was negative. Utility companies, with the largest average weighting over the period under review, produced the vast majority of the sector's negative total return. Geographically, companies in the U.S. detracted most from performance, while Japan and the Netherlands were the only countries to contribute positively to performance. In Japan, Kyushu Electric Power Co., Inc. (1.39% of Fund net assets) stated its intention in early-June to restart its Sendai 1 and 2 reactors sometime in late summer/fall. When (if) it does, the two reactors will be the first to start up since all the country's reactors were shut down following the disaster at Fukushima. In mid-June, Japan's Ministry of Economy, Trade and Industry floated a plan that envisions nuclear power providing 20%-22% of the country's power generation by 2030? Meanwhile, back in March, the Chinese government gave the first go-ahead in two years for the construction of

MARKET VECTORS HARD ASSETS ETFS

(unaudited)

two new nuclear reactors.²² In France, in June, the government gave its backing to the sale by Areva (which had lost money for the last four years and is not owned by the Fund) of its nuclear reactor business to EDF — both are state-controlled.²³

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made. Results reflect past performance and do not guarantee future results.

The *Rogers*TM-Van Eck Natural Resources Index (RVEIT) is a rules-based, modified capitalization weighted, float adjusted is comprising publicly traded companies engaged in the production and distribution of commodities and commodity-related production and services in the following sectors: 1) agriculture; 2) alternatives (water and alternative energy); 3) base and industrial met 4) energy; 5) forest products; and 6) precious metals.

*since 8/31/2007				

Index data prior to March 18, 2013 reflects that of the DAXglobal Agribusiness Index (DXAG). From March 18, 2013 forward, the index data reflects that of the Market Vectors® Global Agribusiness Index (MVMOOTR). All Index history reflects a blend of the performance of the aforementioned Indexes.

Commencement date for the Market Vectors Agribusiness ETF (MOO) was 8/31/07.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (8/31/07) to the first day of secondary market trading in shares of the Fund (9/5/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.58% / Net Expense Ratio 0.56%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.56% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Global Agribusiness Index (MVMOOTR) is a rules-based, modified capitalization-weighted, ²float-adjusted index intended to give investors exposure to the overall performance of the global agribusiness industry.

Market Vectors® Global Agribusiness Index (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Agribusiness ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Six Months	13.28 %	13.16 %	13.03 %
One Year	(6.80)%	(6.77)%	(6.59)%
Five Year	3.64 %	3.45 %	2.79 %
Life* (annualized)	(6.96)%	(6.95)%	(7.32)%
Life* (cumulative)	(44.47)%	(44.43)%	(46.22)%
*since 5/3/2007			

Commencement dates for the Market Vectors Global Alternative Energy ETF (GEX) was 5/3/07.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (5/3/07) to the first day of secondary market trading in shares of the Fund (5/9/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.65% / Net Expense Ratio 0.62%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.62% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Ardour Global IndexSM (Extra Liquid) (AGIXLT) is a rules-based, global capitalization-weighted, float adjusted ²index intended to give investors a means of tracking the overall performance of a global universe of listed companies engaged in the alternative energy industry.

"Ardour Global IndexesM, LLC", "ARDOUR GLOBAL INDEXI (Extra Liquid)", and "ARDOUR - XM" are service marks of Ardour Global IndexesSM, LLC and have been licensed for use by Van Eck Associates Corporation in connection with Market Vectors Global Alternative Energy ETF (GEX). Market Vectors Global Alternative Energy ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Ardour Global IndexesM, LLC and Ardour Global IndexesSM, LLC makes no representation regarding the advisability of investing in the Fund. AGIXLT is calculated by Dow Jones Indexes. The Fund, based on the AGIXLT, is not sponsored, endorsed, sold or promoted by Dow Jones Indexes, and Dow Jones Indexes makes no representation regarding the advisability of investing in the Fund.

Commencement date for the Market Vectors Gold Miners ETF (GDX) was 5/16/06.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (5/16/06) to the first day of secondary market trading in shares of the Fund (5/22/06), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.52% / Net Expense Ratio 0.52%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.53% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

NYSE Arca Gold Miners Index (GDMNTR) is a modified capitalization-weighted index comprised of publicly traded companies involved primarily in the mining for gold.

NYSE Arca Gold Miners Index (GDMNTR), a trademark of NYSE Euronext or its affiliates (NYSE Euronext), is licensed for use by Van Eck Associates Corporation in connection with Market Vectors Gold Miners ETF (GDX). Market Vectors Gold Miners ETF (the "Fund") is not sponsored, endorsed, sold or promoted by NYSE Euronext and NYSE Euronext makes no representation as to the accuracy and/or completeness of GDMNTR or results to be obtained by any person from using GDMNTR in connection with trading the Fund.

*since 10/10/2006			

Commencement date for the Market Vectors Steel ETF was 10/10/06.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, 1 for the period from commencement (10/10/06) to the first day of secondary market trading in shares of the Fund (10/16/06), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.66% / Net Expense Ratio 0.55%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.55% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until

the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

² NYSE Arca Steel Index (STEEL) is a modified capitalization-weighted index comprised of publicly traded companies predominantly involved in the production of steel products or mining and processing of iron ore.

NYSE Arca Steel Index (STEEL) is a trademark of NYSE Euronext or its affiliates (NYSE Euronext), is licensed for use by Van Eck Associates Corporation in connection with Market Vectors Steel ETF (SLX). Market Vectors Steel ETF (the "Fund") is not sponsored, endorsed, sold or promoted by NYSE Euronext and NYSE Euronext makes no representation as to the accuracy and/or completeness of STEEL or the results to be obtained by any person from the using STEEL in connection with trading the Fund.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, January 1, 2015 to June 30, 2015.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$13,235,737 and transfers of securities from Level 2 to Level 1 were \$25,904,791. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2015:

Transfers from Level 3 to Level 1 resulted primarily from security resuming trading activity.

JUNIOR GOLD MINERS ETF

SCHEDULE OF INVESTMENTS

(unaudited) (continued)

The summary of inputs used to value the Fund's investments as of June 30, 2015 is as follows:

Common Stocks	Level 1 Quoted Prices	Level 2 Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Value
Australia	\$58,630,220	\$164,021,415	\$ <i>-</i>	\$222,651,635
Canada	886,430,224	—	<u>—</u>	886,430,224
Cayman Islands	14,026,516			14,026,516
China / Hong Kong	29,793,260	88,557,197	3,378,842	121,729,299
South Africa	39,287,508	_	_	39,287,508
Turkey	_	29,334,760	_	29,334,760
United Kingdom	6,986,668	56,610,710	_	63,597,378
United States	145,197,309	_	_	145,197,309
Repurchase Agreements	_	78,096,729	_	78,096,729
Total	\$1,180,351,705	\$416,620,811	\$3,378,842	\$1,600,351,358

During the period ended June 30, 2015, transfers of securities from Level 2 to Level 1 were \$6,439,772. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2015:

	Common
	Stocks
	China/Hong
	Kong
Balance as of December 31, 2014	\$3,039,646
Realized gain (loss)	_
Change in unrealized appreciation (depreciation)	339,196
Purchases	
Sales	

Transfers in and/or out of level 3 — Balance as of June 30, 2015 \$3,378,842

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$244,334 and transfers of securities from Level 2 to Level 1 were \$633,617. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

See Notes to Financial Statements

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2015:

	Common Stocks China/Hong Spain Kong			
Balance as of December 31, 2014	\$10,727	\$ —		
Realized gain (loss)				
Change in unrealized appreciation (depreciation)		_		
Purchases		_		
Sales		_		
Transfers in and/or out of level 3	(10,727)	_		
Balance as of June 30, 2015	<b>\$</b> —	\$ —		

Transfers from Level 3 to Level 1 resulted primarily from security resuming trading.

Total	\$23,713,894	\$36,341,430	\$		\$60,055,324

During the period ended June 30, 2015, transfers of securities from Level 2 to Level 1 were \$7,304,969. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close

of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$137,822 and transfers of securities from Level 2 to Level 1 were \$631,849. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

- (b) Calculated based upon average shares outstanding
- (c) Amount represents less than \$0.005 per share
- (d) Not Annualized
- (e) Annualized

See Notes to Financial Statements

On July 1, 2013, the Fund effected a 1 for 4 reverse share split (See Note 10). Per share data has been adjusted to reflect the share split.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

June 30, 2015 (unaudited)

**Note 1—Fund Organization**—Market Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of June 30, 2015, offers fifty six investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Agribusiness ETF, Coal ETF, Global Alternative Energy ETF, Gold Miners ETF, Junior Gold Miners ETF, Natural Resources ETF, Oil Services ETF, Rare Earth/Strategic Metals ETF, Solar Energy ETF, Steel ETF, Unconventional Oil & Gas ETF and Uranium+Nuclear Energy ETF (each a "Fund" and, together, the "Funds"). Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index sponsored, licensed or managed by the NYSE Euronext, Ardour Global Indexes, LLC, S-Network Global Indexes, LLC and Market Vectors Index Solutions GmbH, a wholly owned subsidiary of Van Eck Associates Corporation (the "Adviser").

The Funds' commencement of operations dates and their respective Indices are presented below:

	Commencement	
Fund	of Operations	Index
Agribusiness ETF	August 31, 2007	Market Vectors Global Agribusiness Index*
Coal ETF	January 10, 2008	Market Vectors® Global Coal Index*
Global Alternative Energy ETF	May 03, 2007	Ardour Global Index SM (Extra Liquid)
Gold Miners ETF	May 16, 2006	NYSE Arca Gold Miners Index
Junior Gold Miners ETF	November 10, 2009	Market Vectors® Global Junior Gold Miners Index*
Natural Resources ETF	August 29, 2008	Rogers TM -Van Eck Natural Resources Index
Oil Services ETF	December 20, 2011	Market Vectors® US Listed Oil Services 25 Index*
Rare Earth/Strategic Metals ETF	October 27, 2010	Market Vectors® Global Rare Earth/Strategic Metals Index*
Solar Energy ETF	April 21, 2008	Market Vectors® Global Solar Energy Index*
Steel ETF	October 10, 2006	NYSE Arca Steel Index
Unconventional Oil & Gas ETF	February 14, 2012	Market Vectors® Global Unconventional Oil & Gas Index*
Uranium+Nuclear Energy ETF	August 13, 2007	Market Vectors® Global Uranium & Nuclear Energy Index*
*Published by Market Vectors In	dex Solutions GmbH.	

**Note 2—Significant Accounting Policies—**The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price.

Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively A.traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign

### NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

- Level 1 –Quoted prices in active markets for identical securities.
- Level 2 Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

**Federal Income Taxes**—It is each Fund's policy to comply with the provisions of the Internal Revenue Code **B.** applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

**Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid quarterly by each Fund. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

**Currency Translation**—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when

**D.** accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

**Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the **E.** securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

**Repurchase Agreements**—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the

repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of June 30, 2015 are reflected in the Schedules of Investments.

Use of Derivative Instruments—The Funds may invest in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC") derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies

**G.** based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the period ended June 30, 2015.

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting agreements or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or

- **H.** securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at June 30, 2015 is presented in the Schedules of Investments. Also, refer to related disclosures in Note 2F (Repurchase Agreements) and Note 9 (Securities Lending).
- I. Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the exdividend

date except that certain dividends from foreign securities are recognized upon notification of the exdividend date/rate. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

**Note 3—Investment Management and Other Agreements—**The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets (except for Oil Services ETF). The management fee rate for Oil Services ETF is

### MARKET VECTORS ETF TRUST

### NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

0.35%. The Adviser has agreed, at least until May 1, 2016, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense limitation (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) listed in the table below.

The current expense limitations and the amounts waived by the Adviser for the period ended June 30, 2015, are as follows:

	Expense	Waiver of
Fund	Limitations	Management Fees
Agribusiness ETF	0.56 %	\$78,061
Coal ETF	0.59	35,062
Global Alternative Energy ETF	0.62	14,047
Gold Miners ETF	0.53	
Junior Gold Miners ETF	0.56	
Natural Resources ETF	0.49	120,555
Oil Services ETF	0.35	216,112
Rare Earth / Strategic Metals ETF	0.57	64,937
Solar Energy ETF	0.65	41,158
Steel ETF	0.55	37,038
Unconventional Oil & Gas ETF	0.54	41,502
Uranium+Nuclear Energy ETF	0.60	52,027

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' "Distributor". Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

**Note 4—Investments**—For the period ended June 30, 2015, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

	Cost of	Proceeds from
	Investments	
Fund	Purchased	

		Investments
		Sold
Agribusiness ETF	\$277,754,862	\$133,250,475
Coal ETF	10,345,866	9,323,662
Global Alternative Energy ETF	11,681,650	11,290,062
Gold Miners ETF	898,895,144	895,385,132
Junior Gold Miners ETF	441,733,570	441,522,357
Natural Resources ETF	3,036,329	1,687,412
Oil Services ETF	129,601,850	67,461,587
Rare Earth / Strategic Metals ETF	14,113,654	13,697,146
Solar Energy ETF	4,845,707	5,187,093
Steel ETF	4,506,283	2,823,686
Unconventional Oil & Gas ETF	8,704,513	7,971,220
Uranium+Nuclear Energy ETF	5,959,607	5,371,218
72		

**Note 5—Income Taxes**—As of June 30, 2015, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

		Gross	Gross	Net Unrealized
	Cost of	Unrealized	Unrealized	Appreciation
Fund	Investments	Appreciation	Depreciation	(Depreciation)
Agribusiness ETF	\$1,598,300,151	\$203,051,444	\$(230,110,731)	\$(27,059,287)
Coal ETF	173,082,115	204,050	(92,676,292)	(92,472,242)
Global Alternative Energy ETF	101,224,675	18,184,544	(14,731,733)	3,452,811
Gold Miners ETF	9,204,606,192	67,406,965	(3,166,675,041)	(3,099,268,076)
Junior Gold Miners ETF	1,935,347,334	93,793,585	(428,789,561)	(334,995,976)
Natural Resources ETF	106,173,584	9,508,540	(23,311,433)	(13,802,893)
Oil Services ETF	1,764,903,915	363,804	(490,469,437)	(490,105,633)
Rare Earth / Strategic Metals ETF	115,750,997	3,096,725	(58,792,398)	(55,695,673)
Solar Energy ETF	29,822,548	3,114,833	(3,439,213)	(324,380)
Steel ETF	163,641,590	238,000	(66,500,502)	(66,262,502)
Unconventional Oil & Gas ETF	95,114,553	94,991	(22,808,936)	(22,713,945)
Uranium+Nuclear Energy ETF	54,484,186	3,257,137	(3,254,469)	2,668

The tax character of dividends paid to shareholders during the year ended December 31, 2014 was as follows:

	2014 Dividends and Distributions
Fund	Ordinary Income
Agribusiness ETF	\$46,504,400
Coal ETF	2,946,300
Global Alternative Energy ETF	173,263
Gold Miners ETF	37,389,302
Junior Gold Miners ETF	11,291,865
Natural Resources ETF	2,170,050
Oil Services ETF	25,702,038
Rare Earth/Strategic Metals ETF	878,135
Solar Energy ETF	135,000
Steel ETF	2,549,800
Unconventional Oil & Gas ETF	744,600
Uranium+Nuclear Energy ETF	1,676,073

The tax character of current year distributions will be determined at the end of the current fiscal year.

Net qualified late year losses incurred after October 31, 2014 and within the taxable year, are deemed to arise on the first day of the Funds' next taxable year. For the year ended December 31, 2014, the Funds intend to defer to January 1, 2015 for federal tax purpose qualified late year losses as follows:

	Late Year	Post-October
Fund	Ordinary Losses	Capital Losses
Coal ETF	\$6,658	\$7,816,083
Global Alternative Energy ETF	5,193	1,005,802

Steel ETF	2,265,815	63,329,169	21,020,656	79,176,906	10,643,838	_
Unconventional Oil & Gas ETF	789,358	527,347	_	_	_	_
Uranium+Nuclear Energy ETF	13,602,601	66,781,181	41,593,262	49,042,636	11,040,582	500,169

During the year ended December 31, 2014, Oil Services ETF utilized \$261,259 of its accumulated capital loss carryforwards.

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended, the Funds did not incur any interest or penalties.

**Note 6—Capital Share Transactions**—As of June 30, 2015, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended June 30, 2015 the Trust had in-kind contributions and redemptions as follows:

Fund	In-Kind	In-Kind	
rulid	Contributions	Redemptions	
Agribusiness ETF	\$64,470,645	\$150,193,618	
Coal ETF	12,104,777	22,020,455	
Global Alternative Energy ETF	6,263,181	5,869,311	
Gold Miners ETF	1,988,255,039	1,053,761,823	
Junior Gold Miners ETF	226,973,706	196,955,974	
Natural Resources ETF	6,745,165	3,436,977	
Oil Services ETF	3,654,061,988	3,436,475,567	
Rare Earth / Strategic Metals ETF	_	1,074,849	
Solar Energy ETF	_	_	
Steel ETF	25,872,065	8,445,791	
Unconventional Oil & Gas ETF	9,963,758	2,092,940	
Uranium+Nuclear Energy ETF		9,859,286	

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

Note 7—Concentration of Risk—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a "passive" or index approach to achieve each Fund's investment objective by investing in a portfolio of securities that generally replicates the Funds' index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers held by the Funds.

At June 30, 2015, the Adviser owned 2,500 shares of Gold Miners ETF.

**Note 8—Trustee Deferred Compensation Plan—**The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending

agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at June 30, 2015 are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

Note 10—Share Split—On January 27, 2012, the Board of Trustees of the Trust approved a 3 for 1 share split for the Oil Services ETF. The split took place for shareholders of record as of the close of business on February 10, 2012, and were paid on February 13, 2012. Fund shares began trading on a split-adjusted basis on February 14, 2012. The Financial Highlights for the Oil Services ETF prior to January 27, 2012 have been adjusted to reflect the 3 for 1 share split.

On July 2, 2012, the Board of Trustees of the Trust approved a 1 for 15 reverse share split for Solar Energy ETF. Fund shares began trading on a split-adjusted basis on July 2, 2012. The Financial Highlights for Solar Energy ETF prior to July 2, 2012 have been adjusted to reflect the 1 for 15 reverse share split.

### MARKET VECTORS ETF TRUST

#### NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

On July 1, 2013, the Board of Trustees of the Trust approved a 1 for 3 reverse share split for Global Alternative Energy ETF and Uranium+Nuclear Energy ETF, and 1 for 4 reverse share split for Junior Gold Miners ETF and Rare Earth/Strategic Metals ETF. Fund shares began trading on a split-adjusted basis on July 1, 2013. The Statements of Changes in Net Assets and Financial Highlights prior to July 1, 2013 for the respective Funds have been adjusted to reflect the reverse share splits.

**Note 11—Bank Line of Credit**—The Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended June 30, 2015, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of June 30, 2015
Agribusiness ETF	152	\$4,058,012	1.52 %	\$—
Coal ETF	29	256,433	1.53	103,837
Global Alternative Energy ETF	8	368,301	1.53	_
Gold Miners ETF	152	5,897,338	1.52	_
Junior Gold Miners ETF	130	7,719,005	1.52	2,311,705
Natural Resources ETF	140	361,323	1.52	553,146
Oil Services ETF	134	1,908,865	1.52	_
Rare Earth / Strategic Metals ETF	78	211,043	1.53	_
Solar Energy ETF	25	188,799	1.52	_
Steel ETF	59	147,187	1.52	_
Unconventional Oil & Gas ETF	63	210,390	1.52	157,129
Uranium+Nuclear Energy ETF	94	131,271	1.52	

**Note 12—Custodian Fees**—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended June 30, 2015, there were no offsets to custodian fees.

**Note 13—Subsequent Event Review—**The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

#### APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

June 30, 2015 (unaudited)

At a meeting held on June 9, 2015 (the "Renewal Meeting"), the Board of Trustees (the "Board") of Market Vectors ETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), approved the continuation of (i) the investment management agreements between the Trust and Van Eck Associates Corporation (the "Adviser") (the "Investment Management Agreements") with respect to the Market Vectors Africa Index ETF, Agribusiness ETF, Agriculture Producers ETF, Brazil Small-Cap ETF, China All-Cap ETF, China Consumer Discretionary ETF, China Consumer Staples ETF, China Energy ETF, China Financials ETF, China Health Care ETF, China Industrials ETF, China Information Technology ETF, China Materials ETF, China Small-Cap ETF, China Utilities ETF, ChinaAMC All China Consumer ETF, ChinaAMC A-Share ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, ChinaAMC SME-ChiNext ETF, Coal ETF, Egypt Index ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Germany Mid-Cap ETF, Global Alternative Energy ETF, Global Frontier Index ETF, Gold Miners ETF, Gulf States Index ETF, Hard Assets Producers Extra Liquid ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Internet ETF, Israel ETF, Junior Gold Miners ETF, Kuwait Index ETF, Metals ETF, MLP ETF, Mongolia ETF, Natural Resources ETF, Nigeria ETF, Nigeria-Focused West Africa ETF, Oil Services ETF, Poland ETF, Rare Earth/Strategic Metals ETF, Russia ETF, Russia Small-Cap ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF, Solar Energy ETF, Steel ETF, Telecom ETF, Unconventional Oil & Gas ETF, Uranium+Nuclear Energy ETF and Vietnam ETF (the "Funds") and (ii) a sub-advisory agreement between the Adviser and China Asset Management (Hong Kong) Limited (the "Sub-Adviser") (the "Sub-Advisory Agreement") with respect to Market Vectors ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF (the "China Funds"). The Investment Management Agreements and the Sub-Advisory Agreement are collectively referred to as the "Agreements."

The Board's approval of the Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 15, 2015. At that meeting, the Trustees discussed the information the Adviser, the Sub-Adviser (with respect to the China Funds) and Lipper Inc. ("Lipper"), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and the Funds' peer funds (other index-based exchange-traded funds ("ETFs")), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Funds. In reviewing performance information for the Funds against their peer groups, the Trustees considered that each Fund except for the Market Vectors ChinaAMC A-Share ETF generally invests in a different group of issuers than the funds in its designated peer group. They had also considered the fact that Market Vectors ChinaAMC SME-ChiNext ETF had only recently commenced operations and therefore had a limited operational history that could be used for comparative purposes, since the expense information prepared by Lipper was based on estimated amounts for the

Fund and the performance comparisons provided by Lipper covered approximately a seven month period (July 23, 2014 (the date operations commenced for the Market Vectors ChinaAMC SME-ChiNext ETF) through February 28, 2015). In addition, as noted below, the Trustees reviewed certain performance information for each Fund that was not provided by Lipper. For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Agreements was based, in part, on their review of information obtained through discussions with the Adviser and the Sub-Adviser (with respect to the China Funds) at the Renewal Meeting and with the Adviser at the May 15, 2015 meeting regarding the management of the Funds and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser and the Sub-Adviser (with respect to the China Funds). The Trustees considered the terms of, and scope of services that the Adviser and Sub-Adviser (with respect to the China Funds) provide under, the Agreements, including, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time. With respect to the Sub-Advisory Agreement, the Trustees took into account the unique legal and operational aspects of the China Funds and the Sub-Adviser's experience with respect to Renminbi Qualified Institutional Investors Scheme funds. The Trustees

### MARKET VECTORS ETF TRUST

#### APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

June 30, 2015 (unaudited) (continued)

also noted that the Sub-Adviser is a wholly-owned subsidiary of China Asset Management Co., China's largest asset management company measured by fund assets under management.

The Trustees concluded that the Adviser and the Sub-Adviser (with respect to the China Funds) have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (*i.e.*, measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the Sub-Adviser (with respect to the China Funds) and the current status, as they understood it, of the Adviser's and Sub-Adviser's (with respect to the China Funds) compliance environment.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below or equal to the average and/or median of its respective peer group of funds, except for each of Market Vectors Agribusiness ETF, ChinaAMC A-Share ETF, ChinaAMC SME-ChiNext ETF, Egypt Index ETF, Global Alternative Energy ETF, Gulf States Index ETF, Israel ETF, Rare Earth/Strategic Metals ETF, Russia Small-Cap ETF, Steel ETF, Unconventional Oil & Gas ETF and Vietnam ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and median of its peer group of funds. With respect to these Operating Funds, the Trustees reviewed the amount by which these Operating Funds' total expense ratios (after the effect of any applicable expense limitation) exceeded the average and median of their respective peer groups. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received.

The Trustees also considered the benefits, other than fees under the Investment Management Agreements, received by the Adviser from serving as adviser to the Funds, including any benefits it may receive from serving as administrator to the Funds and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees considered the volatility of the asset classes (e.g., precious metals and emerging markets) in which certain of the Operating Funds invest, potential variability in net assets of these Funds and the sustainability of any potential economies of scale which may exist where fees were set. The Trustees also evaluated the extent to which management fees for the Operating Funds effectively incorporate the benefits of economies of scale. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund and the sub-advisory fee rates for the China Funds are reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser with respect to the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds. Due to the relatively small size of the Market Vectors ChinaAMC A-Share ETF during the period, the Sub-Adviser did not provide the Trustees with profitability information and, therefore, the Trustees did not consider such information.

The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability to the Adviser of Market Vectors Agriculture Producers ETF, China All-Cap ETF, China Consumer Discretionary ETF, China Consumer Staples ETF, China Energy ETF, China Financials ETF, China Health Care ETF, China Industrials ETF, China Information Technology ETF, China Materials ETF, China Small-Cap ETF, China Utilities ETF, ChinaAMC All China Consumer ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Germany Mid-Cap ETF, Global Frontier Index ETF, Hard Assets Producers Extra Liquid ETF, Internet ETF, Israel ETF, Kuwait Index ETF, Metals ETF, MLP ETF, Mongolia ETF, Nigeria

ETF, Nigeria-Focused West Africa ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF and Telecom ETF to the Adviser because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees also could not consider the historical performance or the quality of services previously provided to each of these Funds although they concluded that the nature, quality and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 15, 2015 meeting as part of their consideration of the Agreements.

In voting to approve the continuation of the Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a Market Vectors ETF Trust (the "Trust") Prospectus and Summary Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus and summary prospectus contains this and other information about the investment company. Please read the prospectus and summary prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 1.888.MKT.VCTR, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at http://www.sec.gov.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at http://www.sec.gov and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 1.202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 1.888.MKT.VCTR or by visiting vaneck.com.

### MARKET VECTORS COUNTRY/REGIONAL ETFs

(unaudited)

### Dear Shareholder:

The Chinese equity market performed well in the first half, but fell hard in the last full week of June. Large caps declined 20% from their peak on June 12 and the Shenzhen market dropped 25%. We suggest that investors focus on valuations which had gotten stretched before the correction.

Such news, however, should not distract from the fundamentals. The Renminbi (RMB) has been stable over the past six months. In our view, interest rates in general are on a multi-year decline, real interest rates in China are currently among the highest in the world. China's economic growth may be on the decline, but the economy is still growing, albeit more slowly. Its manufacturing sectors may be under pressure, but with services comprising the largest part of the country's economy and unemployment remaining low, we believe its economy can handle negative shocks?

Also, China's policymakers continue to be focused on their reform agenda, which involves internationalization of the RMB, reforming the financial sector, and addressing the risks of a credit bubble.

China continues to be an important area of focus for us, as we believe there is still large, untapped potential to be found in the second largest economy in the world. As Jack Ma, founder of Chinese e-commerce company Alibaba, stated in May, China has now become the number one consumer market in the world. It became the number one consumer of metals several years ago (iron ore and copper in 2004). It appears that sooner or later—unless the China Securities Regulatory Commission stops IPOs again—China could become the world's largest equity market as well.

## **Total Listed Market Capitalization (US\$ Trillion)**

Source: World Federation of Exchanges. Data as of 6/30/2015

As an industry leader in offering single-country and region-specific equity ETFs, we currently offer two China-focused ETFs: Market Vectors ChinaAMC A-Share ETF (NYSE Arca: PEK) and Market Vectors ChinaAMC SME-ChiNext ETF (NYSE Arca: CNXT). We believe both of these funds provide investors with liquid, transparent access to this unique market.

Elsewhere around the globe, when performance varies so widely between countries and regions, it is all the more important to be able to select your focus. Our Market Vectors country and regional ETFs give you the flexibility to do just that, and we at Van Eck Global also continue to look for ways to enhance your access to the markets you choose and to seek out and evaluate the most attractive opportunities for you as a shareholder in the international space.

Please stay in touch with us through our website (http://www.vaneck.com/market-vectors) on which we offer videos and email subscriptions, all of which are designed to keep you up to date with your investment in Market Vectors ETFs.

### **Management Discussion** (unaudited)

The performance of funds in the Market Vectors Country/Regional ETFs was predominantly negative during the six-month period. Six funds, out of a total of 14 that traded for the entire period under review, posted positive total returns. The top two performing funds, each with a China focus, were Market Vectors ChinaAMC SME-ChiNext ETF (NYSE Arca: CNXT) (+69.20%) and Market Vectors ChinaAMC A-Share ETF (NYSE Arca: PEK) (+26.10%). Eight funds reported negative performance over the period; the two bottom performing funds were the Market Vectors Indonesia Small-Cap ETF (NYSE Arca: IDXJ) (-22.68%) and Market Vectors Brazil Small-Cap ETF (NYSE Arca: BRF) (-22.09%).

January 1 through June 30, 2015

Market Vectors Country/Regional ETFs Total Return

Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

### **Country/Regional Overviews**

## Africa

The energy sector was the greatest detractor from performance for the six-month period. In addition to energy, the telecommunications services, materials, and consumer staples sectors were also significant detractors from performance. The consumer discretionary and financial sectors both provided small positive contributions to overall performance. While both mid- and small-cap companies detracted from performance, large-caps companies actually made a positive contribution. Geographically, South Africa was the most significant positive contributor to total return, and Egypt detracted the most from performance.

## Brazil

The first half of 2015 was a challenging period for Brazil. The country continued to be plagued with the corruption scandal in its largest company, Petróleo Brasilero SA (Petrobras), the state-owned oil corporation (sold by the Fund by period end). Perhaps partially in response, April's approval ratings for President Dilma Rousseff dropped to 9%, their lowest ever for a Brazilian president, and protesters took to the streets of Brazil's largest cities demanding an end to corruption and her impeachment. Gross Domestic Product (GDP) declined

### MARKET VECTORS COUNTRY/REGIONAL ETFs

(unaudited)

0.2% in the first quarter of 2015 (better than the expected decline of 0.5%). Household spending decreased by 1.5% and government expenditures went down by 1.3%.³ On June 24, the country's central bank forecast that GDP would contract by 1.1% in 2015 and inflation would rise to 9%.⁴ No sector contributed positively to return over the six-month period. The consumer discretionary and industrial sectors were the two greatest detractors from performance.

#### China

During the first half of 2015, the Chinese government continued its efforts to support the economy through accommodative monetary policy, including four separate interest rate cuts. In addition, policymakers pushed through numerous reforms intended to improve the function of the financial sector, address concerns of a credit bubble, and deal with the increasing levels of debt held by local governments. The A-share equity market grew significantly during the period, spurred by mainland retail investors who began to take highly leveraged positions as they were confident in the government's ability to sustain market growth. However, the equity rally began to sputter in mid-June after reaching its peak on June 12th, largely driven by investors' concern that regulators would soon tighten requirements for margin investing.

While the Market Vectors ChinaAMC A-Share ETF began direct investment in the A-share constituents of the CSI 300 Index* on January 8, 2014, thereby eliminating the majority of its exposure previously achieved through swap contracts, some contracts remained outstanding as of June 30, 2015. These are presented in the Fund's Schedule of Investments. All sectors contributed positively to performance during the period under review. Companies in the consumer discretionary and industrial sectors contributed the most to performance. However, while still positive, the telecommunications services and energy sectors contributed the least.

Market Vectors ChinaAMC SME-ChiNext ETF traded for the full six-month period. The vast majority of returns came from companies in the information technology sector, followed by both the industrial and consumer discretionary sectors. However, while still positive, the energy and financial sectors contributed the least to performance.

### Egypt

Having grown 5.6% over the first half (July through December 2014) of its current fiscal year, the World Bank expects Egypt's economy to grow by 4.3% in the full fiscal year to June 30, 2015. Government efforts to control

inflation, reduce unemployment and improve the country's investment environment have all contributed to Egypt's strengthening economy. In addition, the country has received considerable support in the form of petroleum products, loans, and grants from its Arab allies in the Gulf. Despite this, however, based on Ministry of Planning data, GDP growth in the first quarter of the year was only 3%, considerably slower than in the third and fourth quarter of 2014 and the fund suffered accordingly. The industrial sector contributed a small positive return. Every other sector detracted from performance. The financial and telecommunications services sectors were the greatest detractors from performance. Large-cap companies, despite their lower average weighting, made a positive contribution to return. Mid- and small-cap companies, both with their significant average weightings, detracted nearly equally from performance.

## **Gulf States**

Despite the precipitous drop in the price of crude oil since the end of 2014 and the Gulf Cooperation Council (GCC) members' varying reliances on oil revenues, the fund still ended the six-month period posting a positive total return. According to one estimate from the National Bank of Abu Dhabi, "countries in the GCC...region, including the UAE and Saudi Arabia, stand to lose \$240 billion in hard-earned assets in 2015 if oil prices remain at low levels, or average at \$55 per barrel. Even so, however, according to Qatar National Bank, the GCC economy is still expected to grow 3.4% in 2015, despite lower oil prices. Not only did most member countries bolster reserves when the oil price was high, but also, for a number, growth is not tied to the hydrocarbon sector. Geographically, the United Arab Emirates, with the greatest average country weighting, contributed most significantly to performance. Kuwait, with the third greatest average country weighting, was the greatest detractor from performance. Financial stocks were the greatest contributors, with energy stocks providing the only other significant positive contribution. Mid-cap stocks contributed the most to performance, while large-cap stocks contributed the least.

#### India

India's economy grew 7.5% in the first quarter of 2015, suggesting that India was becoming the fastest growing major economy in the world. However, speculation remains about the way that India calculates GDP: for example, the data for factory output and export figures appears to be inconsistent with other indicators. On June 2, for the third time in 2015, the Reserve Bank of India cut interest rates in an attempt to boost the country's economic growth! Possibly as a result, there was a modest increase in IPOs and an increase in domestic investors, an outcome which some observers saw as indicating the possibility of a 'domestic liquidity "supercycle" to colfic he health care sector was the greatest contributor to performance. The financial and utilities sectors were the greatest detractors from performance.

### Indonesia

Under the new leadership of President Joko Widodo, colloquially known as Jokowi, Indonesia saw both exports and government spending decline through the first quarter of 2015. Despite Jokowi's promise to boost investment, increase infrastructure spending and, by 2017, expand the economy by 7%, GDP during the quarter contracted 0.18% over the previous quarter. Year-on-year growth of 4.71% in the first quarter of 2015 was the slowest since the third quarter of 2009. According to the country's finance minister, by April 27 only seven trillion rupiah (\$531 million) had been spent on infrastructure, out of a goal for the year of 290 trillion rupiah (\$22 billion). For medium- and large-cap names, the focus of the Indonesia ETF, all sectors detracted from performance, with financial stocks detracting the most, and industrial stocks the least. Similarly, among small-cap stocks, the focus of the Indonesia Small-Cap ETF, not one sector contributed positively to performance. The financial and energy sectors were by far the worst performing sectors, with the materials sector detracting the least from performance.

### Israel

In early December 2014, when Israel's prime minister, Benjamin Netanyahu decided to hold early elections in March 2015, the decision was seen by many as more of a hindrance than a help in efforts to revive the country's slowing economy. However, by the end of June 2015, nearly seven months later and more than three months after Mr. Netanyahu and his Likud party won a signal victory in the parliamentary elections on March 17, the Israeli equity market was riding high, having risen 13.5% in the previous six months. Over the period under review, health care and financial stocks, constituting the two sectors with the first and third highest average weightings, were the fund's most significant contributors to performance. The telecommunications services sector was the only detractor from performance. While large-cap stocks were the greatest contributors to performance, small-cap stocks contributed the least.

### **Poland**

In May, in an unexpected turn of events, conservative candidate, Andrzej Duda won the presidential election against the incumbent president Bronislaw Komorowski. President Duda became leader as the country's economy started to pick up: GDP grew 1% in the first quarter and inflation rose to -1.1% in April from the March rate of -1.5%. The energy and consumer staples sectors were the most significant positive contributors to performance over the six-month period, with the financial sector detracting the most from performance. While large-cap companies contributed positively to performance, both mid- and small-cap companies detracted from performance.

#### Russia

Over the first six months of 2015, Russia's economy continued to suffer both from the imposition of sanctions stemming from its involvement in Ukraine and falling energy prices. Year-on-year, the economy contracted by 1.9% in the first quarter²¹ and inflation rose to 17%.²² However, by the end of May, the ruble had bounced back to its mid-November 2014 level.²³ By the end of the period under review the Russian stock market index had risen over 19.7%.²⁴

### MARKET VECTORS COUNTRY/REGIONAL ETFs

(unaudited)

All sectors, except three, contributed positive returns to the large-cap fund, the Russia ETF, with energy serving as the best performing sector. The three sectors that detracted from performance, health care, consumer discretionary and information technology, did so only minimally. In the small-cap fund, the Russia Small-Cap ETF, companies in the utilities sector, closely followed by those in the materials sector, contributed most to performance. As with the large-cap fund, the health care and consumer discretionary sectors both detracted from performance, but so did companies in the consumer staples sector.

#### Vietnam

In the first four months of 2015, Vietnam experienced a trade deficit of U.S. \$2 billion.²⁵ On May 7, for the second time in 2015, the country devalued the dong in an attempt to incentivize exports and minimize the demand for imports.²⁶ In addition, the government remained intent upon diversifying export markets by signing trade agreements, increasing domestic production, and developing substitute industries for imported products.²⁷ With an average weighting of approximately 51%, small-cap companies were by far the greatest detractors from performance. Large-cap companies actually performed positively over the six-month period. While the financial sector contributed positively to total return, all other sectors detracted from performance, with the energy sector representing the worst performing sector.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the fund. Dow Jones Africa T	Titans 50 Inc	dex SM . Fron	n June 21,			
2013, forward, the	index data r	eflects that	of the Market			
Vectors® GDP Africa Index (MVAFKTR). All Index						
history reflects a blend of the performance of the						
aforementioned Indexes.						

#### Commencement date for the Market Vectors Africa Index ETF was 7/10/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/10/08) to the first day of secondary market trading in shares of the Fund (7/14/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.78% / Net Expense Ratio 0.78%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.78% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

² Market Vectors® GDP Africa Index (MVAFKTR) tracks the performance of the largest and most liquid companies in Africa. The weighting of a country in the index is determined by the size of its gross domestic product.

Market Vectors® GDP Africa Index (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Africa Index ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

### MARKET VECTORS BRAZIL SMALL-CAP ETF

#### PERFORMANCE COMPARISON

Gross Expense Ratio 2.52%/ Net Expense Ratio 1.00%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.98% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® GDP GCC Index (MVMESTR) provides exposure to publicly traded companies either ²headquartered in countries belonging to the Gulf Cooperation Council (GCC) or companies that generate the majority of their revenues in these countries

Market Vectors® GDP GCC Index (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Gulf States Index ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

### MARKET VECTORS INDIA SMALL-CAP INDEX ETF

#### PERFORMANCE COMPARISON

June 30, 2015 (unaudited)

Total Return	Share Price ¹	NAV	MVSCII	FTR ²
Six Months	(5.26)%	(3.86)%	(3.86	)%
One Year	(17.22)%	(15.45)%	(15.02	)%
Life* (annualized)	(11.40)%	(11.20)%	(10.84	)%
LIfe* (cumulative)	(44.40)%	(43.79)%	(42.67	)%
* since 8/24/2010				

### Commencement date for the Market Vectors India Small-Cap Index ETF was 8/24/10.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (8/24/10) to the first day of secondary market trading in shares of the Fund (8/25/10), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.76% / Net Expense Ratio 0.76%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.85% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors[®] India Small-Cap Index (MVSCIFTR) is a rules-based, modified market capitalization-weighted, ² float-adjusted index comprised of publicly traded small-capitalization companies that are headquartered in India or that generate the majority of their revenues in India.

Market Vectors® India Small-Cap Index (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. ### MARKET VECTORS VIETNAM ETF

#### PERFORMANCE COMPARISON

June 30, 2015 (unaudited)

Total Return	Share Price ¹	NAV	MVVNN	ATR ²
Six Months	(3.02)%	(3.87)%	(3.43	)%
One Year	(7.91)%	(9.98)%	(9.07	)%
Five Year	(3.69)%	(4.11)%	(3.76	)%
Life* (annualized)	(3.18)%	(3.63)%	(2.93)	)%
LIfe* (cumulative)	(17.34)%	(19.53)%	(16.07	)%
* since 8/11/2009				

Commencement date for the Market Vectors Vietnam ETF was 8/11/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (8/11/09) to the first day of secondary market trading in shares of the Fund (8/14/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.64% / Net Expense Ratio 0.64%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.76% of the Fund's average daily net assets per year until at least May 1, 2016. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Vietnam Index (MVVNMTR) is a rules-based, modified market capitalization-weighted, ²float-adjusted index comprised of publicly traded companies that are domiciled and primarily listed in Vietnam, or that generate at least 50% of their revenues in Vietnam.

Market Vectors® Vietnam Index (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Vietnam ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

MARKET VECTORS ETF TRUST

**EXPLANATION OF EXPENSES** 

(unaudited)

### Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, January 1, 2015 to June 30, 2015.

# **Actual Expenses**

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

### **Hypothetical Example for Comparison Purposes**

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses are equal to the Fund's annualized expense ratio (for the six months ended June 30, 2015) multiplied by

^{*} the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

^{**} Assumes annual return of 5% before expenses

Total	\$20,342,677	\$77,680,595	\$ 5,518	\$98,028,790

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$4,232,670 and transfers from Level 2 to Level 1 were \$4,946,271. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$16,357,816 and transfers from Level 2 to Level 1 were \$33,251,230. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$6,484,471 and transfers from Level 2 to Level 1 were \$11,214,514. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$535,673. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2015:

	Common Stocks Utilities
Balance as of December 31, 2014	\$62,180
Realized gain (loss)	_
Net change in unrealized appreciation (depreciation)	12,651
Purchases	_
Sales	_
Transfers in and/or out of level 3	_
Balance as of June 30, 2015	\$74,831

During the period ended June 30, 2015, transfers of securities from Level 1 to Level 2 were \$208,395,949 and transfers from Level 2 to Level 1 were \$60,893,640. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

#### (a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

- (c) Annualized
- (d) Not Annualized
- (e) Amount represents less than \$0.005 per share.
- (f) Calculated based upon average shares outstanding

On July 1, 2013, the Fund effected a 1 for 3 reverse share split as described in the Notes to Financial Statements (See Note 10). Per share data has been adjusted to give effect to the share split.

#### MARKET VECTORS ETF TRUST

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2015 (unaudited)

**Note 1—Fund Organization**—Market Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of June 30, 2015, offers fifty-six investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Africa Index ETF, Brazil Small-Cap ETF, ChinaAMC A-Share ETF, ChinaAMC SME-ChiNext ETF, Egypt Index ETF, Gulf States Index ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Israel ETF, Poland ETF, Russia ETF, Russia Small-Cap ETF and Vietnam ETF (each a "Fund" and, together, the "Funds"). China Asset Management (Hong Kong) Limited (the "Sub-Adviser") is the sub-adviser to ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF. ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF seek to achieve their investment objective by primarily investing directly in A-shares via the A-share quota granted to the Sub-Adviser. India Small-Cap Index ETF makes its investments through the India Small-Cap Mauritius Fund (the "Subsidiary"), a wholly owned subsidiary organized in the Republic of Mauritius. Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index published by the China Securities Index Co. Ltd., BlueStar Global Investors LLC or Market Vectors Index Solutions GmbH, a wholly owned subsidiary of Van Eck Associates Corporation (the "Adviser").

The Funds' commencement of operations dates and their respective indices are presented below:

	Commencement	
Fund	of Operations	Index
Africa Index ETF	July 10, 2008	Market Vectors® GDP Africa Index*
Brazil Small-Cap ETF	May 12, 2009	Market Vectors® Brazil Small-Cap Index*

**Note 2—Significant Accounting Policies—**The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 Financial Services — Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which

Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Forward foreign currency contracts are valued at the spot currency rate plus an amount ("points"), which reflects the differences in the interest rates between the U.S. and foreign markets and are classified as Level 2 in the fair value hierarchy. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 —Quoted prices in active markets for identical securities.

Level 2 —

Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Basis for Consolidation—The Subsidiary, an Indian exempted company, was incorporated on February 25, 2010 and acts as an investment vehicle for the India Small-Cap Index ETF (the "SCIF") in order to effect certain investments on behalf of the SCIF. The SCIF is the sole shareholder of the Subsidiary, and it is intended that the SCIF will remain the sole shareholder and will continue to control the Subsidiary. The consolidated financial statements of the SCIF include the financial results of its wholly owned subsidiary. All material interfund account balances and transactions have been eliminated in consolidation.
86

**Federal Income Taxes**—It is each Fund's policy to comply with the provisions of the Internal Revenue Code **C.** applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

**Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid quarterly by each Fund. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in

**E.** accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

**Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the **F.** securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

**Repurchase Agreements**—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the

- G. repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of June 30, 2015 are reflected in the Schedules of Investments.
- **H.Use of Derivative Instruments**—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC") derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments

in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. Details of this disclosure are found below:

**Swap Agreements**—The Funds may enter into swap transactions to gain investment exposure for total return or for hedging purposes. Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net payment to be received by the Funds and/or the termination value at the end of the contract. Therefore, the Funds consider the creditworthiness of each counterparty to a contract in evaluating potential

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying reference asset or index. Entering into these agreements involves, to varying degrees, market risk, liquidity risk and elements of credit, legal and documentation risk in excess of amounts recognized in the Statements of Assets and Liabilities. The Funds may pay or receive cash as collateral on these contracts which may be recorded as an asset and/or liability. The Funds must set aside liquid assets, or engage in other appropriate measures, to cover their obligations under these contracts. Swap contracts are marked to market daily and the change in value, if any, is recorded as unrealized appreciation or depreciation. Upfront payments, if any, made and/or received by the Funds are recorded as an asset and/or liability and realized gains or losses are recognized over the contract's term/event. Periodic payments received or made on swap contracts are recorded as realized gains or losses. Gains or losses are realized upon termination of a swap contract and are recorded in the Statements of Operations. The Funds, other than ChinaAMC A-Share ETF, held no swap contracts during the period ended June 30, 2015. ChinaAMC A-Share ETF invests in the following type of swap:

A total return swap is an agreement that gives a Fund the right to receive the appreciation in the value of a specified security index or other instrument in return for a fee paid to the counterparty, which will typically be an agreed upon interest rate. If the underlying asset declines in value over the term of the swap, the Fund may also be required to pay the dollar value of that decline to the counterparty. During the period ended June 30, 2015, the average monthly notional amount of the total return swap contracts in ChinaAMC A-Share ETF was \$2,808,822. Outstanding total return swap contracts for the ChinaAMC A-Share ETF held at June 30, 2015 are reflected in the Schedule of Investments.

At June 30, 2015, ChinaAMC A-Share ETF held the following derivatives:

# **Asset derivatives Equity risk**

Swap contracts, at value¹ \$78,520

¹Statements of Assets and Liabilities location: Swap contracts, at value

For ChinaAMC A-Share ETF, the impact of transactions in derivative instruments, during the period ended June 30, 2015, was as follows:

Equity risk

Realized gain(loss):

Swap contracts² \$1,325,982

Net change in unrealized appreciation (depreciation):

Swap contracts³ (644,256)

- ²Statements of Operations location: Net realized gain (loss) on swap contracts
- ³Statements of Operations location: Net change in unrealized appreciation (depreciation) on swap contracts

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at June 30, 2015 is presented in the Schedules of Investments. Refer to related disclosure in Note 2G (Repurchase Agreements) and Note 9 (Securities Lending).

The table below presents both gross and net information about the derivative instruments, eligible for offset in the Statements of Assets and Liabilities, subject to master netting or other similar agreements, as well as financial collateral received or pledged (including cash collateral and margin) as of June 30, 2015. Refer to the Schedules of Investments and Statements of Assets and Liabilities for collateral received or pledged as of June 30, 2015.

				Net Amount of	Financial	,
		Gross	Gross Amount	Assets Presented	Instruments	1
		Amount of	Offset in the	in the Statements	and Cash	1
		Recognized	Statements of Assets	of Assets and	Collateral	Net
Fund	Description	Assets	and Liabilities	Liabilities	Received*	Amour
ChinaAMC A-Share ETF	Swap contracts, at value	\$78,520	\$—	\$78,520	<b>\$</b>	\$78,52

^{*}Gross amounts not offset in the Statements of Assets and Liabilities

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date/rate. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

**Note 3—Investment Management and Other Agreements—**The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets. The Adviser has agreed, at least until May 1, 2016, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense limitation (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) listed in the table below.

The current management fee rate/expense limitation and the amounts waived/assumed by the Adviser for the period ended June 30, 2015, are as follows:

	Expense	Waiver of	Expenses Assumed
Fund	Limitation	Management	by the
Tulid	Liiiitatioii	Fees	Adviser
Africa Index ETF	0.78 %	<b>\$</b> —	<b>\$</b> —

Vietnam ETF	12,477,008	78,677,987	1,860,199			

During the year ended December 31, 2014, the following Funds utilized accumulated capital loss carryforwards: Egypt Index ETF utilized \$380,206; Gulf States Index ETF utilized \$203,788; India Small-Cap Index ETF utilized \$7,433,537; and Vietnam ETF utilized \$15,963,086.

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

Uncertainties in the Chinese tax rules governing taxation of income and gains from investments in A-Shares could result in unexpected tax liabilities for the ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF. China generally imposes withholding tax at a rate of 10% on dividends and interest derived by Qualified Foreign Institutional Investors ("QFII") from issuers resident in China. China also imposes withholding tax at a rate of 10% on capital gains derived by nonresident enterprises from investments in an issuer resident in China.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

The People's Republic of China ("PRC") rules for taxation of RQFIIs (and QFIIs) are evolving and certain of the tax regulations to be issued by the PRC State Administration of Taxation and/or PRC Ministry of Finance ("PRCSAT") to clarify the subject matter may apply retrospectively, even if such rules are adverse to the Funds and their shareholders.

Effective November 17, 2014, Qualified Foreign institutional investors (QFIIs) and Renminbi Foreign institutional investors (RQFIIs) are exempted temporarily from capital gains tax for a period of three years. However, QFII and RQFII are still required to pay capital gains tax for gains realized on trades executed before November 17, 2014. Circular 79 has been released outlining the specific methodologies in calculating the tax. Based upon the tax filing timeline, QFIIs and RQFIIs need to submit tax filing documents and treaty relief application before July 31, 2015. The liability for this tax for ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF is \$35,908 and \$0, respectively, as disclosed in Accrued Expenses in the Statements of Assets and Liabilities. The Funds may be liable to the Sub-Adviser for any Chinese tax that is imposed on the Sub-Adviser with respect to the Funds' investments in excess of such provision.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended June 30, 2015, the Funds did not incur any interest or penalties.

The Indian Finance Minister announced the introduction of a general anti-avoidance rule ("GAAR") in the Indian tax law in the 2012/2013 budget. GAAR would be applicable where the main purpose of an arrangement is tax avoidance and would empower Indian tax authorities to declare such arrangement as an impermissible avoidance arrangement. Presently, GAAR is expected to become effective April 1, 2017. A special committee was constituted by the Indian Revenue authorities to provide clarity and guidance on the application and implementation of GAAR and have submitted proposed recommendations. As the rules and guidelines have not yet been approved by the Indian Parliament, the Adviser cannot assess whether the India Small-Cap Index ETF, investing through its Mauritius Subsidiary, will fall within the scope of the GAAR provision.

**Note 6—Capital Share Transactions**—As of June 30, 2015, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended June 30, 2015, the Funds had in-kind contributions and redemptions as follows:

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Fund	In-Kind	In-Kind	
rulid	Contributions	Redemptions	
Africa Index ETF	\$5,417,121	\$760,906	
Brazil Small-Cap ETF	546,865	124,136	
ChinaAMC A-Share ETF	_	_	
ChinaAMC SME-ChiNext ETF	_	_	
Egypt Index ETF	4,368,766	688,261	
Gulf States Index ETF	_	101,472	
India Small-Cap Index ETF	107,990	480,160	
Indonesia Index ETF	_	43,248,277	
Indonesia Small-Cap ETF	1,299,551	_	
Israel ETF	4,932,009	2,903,939	
Poland ETF	2,819,232	914,542	
Russia ETF	428,642,895	205,499,691	
Russia Small-Cap ETF	717,792	14,773,618	
Vietnam ETF	25,378,118	14,015,818	

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect gross shareholder transactions including any cash component of the transactions.

**Note 7—Concentration of Risk**—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a "passive" or index approach to achieve each Fund's investment objective by investing in a portfolio of securities that generally replicates the Funds' index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may

be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held by Russia ETF and Russia Small-Cap ETF.

Should the Chinese government impose restrictions on the ability of ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF to repatriate funds associated with direct investment in A-Shares, the Funds may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended, and the Funds may therefore be subject to Fund-level U.S. federal taxes.

At June 30, 2015, the Adviser owned approximately 4.3% of ChinaAMC A-Share ETF.

**Note 8—Trustee Deferred Compensation Plan**—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any

dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at June 30, 2015 are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

**Note 10—Share Split**—On January 19, 2011, the Adviser announced the Board of Trustees approved a 3 for 1 share split of the Indonesia Index ETF. This split took place for shareholders of record as of the close of business on January 28, 2011 and was payable on January 31, 2011. Fund shares began trading on the split adjusted NAV on February 1, 2011. The Financial Highlights prior to February 1, 2011 for the Fund have been adjusted to reflect the 3 for 1 share split.

On July 1, 2013, the Board of Trustees of the Trust approved a 1 for 3 reverse share split for Russia Small-Cap ETF and 1 for 4 reverse share splits for Egypt Index ETF and India Small-Cap Index ETF. Fund shares began trading on the split adjusted NAV on July 1, 2013. The Statements of Changes in Net Assets and Financial Highlights prior to July 1, 2013 for the Funds have been adjusted to reflect the 1 for 3 reverse share split.

#### MARKET VECTORS ETF TRUST

#### NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

**Note 11—Bank Line of Credit**—The Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended June 30, 2015, the following Funds borrowed under this Facility:

				Outstanding
				Loan
	Days	Average	Average	Balance as
	Days	Daily	Tiverage	of
Fund	Outstanding	Loan	Interest	June 30,
Tulid	Outstanding	Balance	Rate	2015
Africa Index ETF	49	\$486,453	1.52 %	\$
Brazil Small-Cap ETF	89	973,891	1.53	420,994
ChinaAMC A-Share ETF	13	2,340,695	1.53	2,673,131
Egypt Index ETF	70	1,668,632	1.52	143,034
Gulf States Index ETF	112	155,067	1.52	119,710
India Small-Cap Index ETF	104	3,518,328	1.52	
Indonesia Index ETF	176	577,230	1.52	524,304
Indonesia Small-Cap ETF	7	125,296	1.52	125,296
Israel ETF	4	130,483	1.53	
Poland ETF	44	95,612	1.53	180,405
Russia ETF	127	9,951,362	1.52	
Russia Small-Cap ETF	178	764,914	1.52	410,142
Vietnam ETF	51	7,848,815	1.52	1,130,774

**Note 12—Custodian Fees**—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended June 30, 2015, there were no offsets to custodian fees.

**Note 13—Subsequent Event Review—**The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited)

At a meeting held on June 9, 2015 (the "Renewal Meeting"), the Board of Trustees (the "Board") of Market Vectors ETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), approved the continuation of (i) the investment management agreements between the Trust and Van Eck Associates Corporation (the "Adviser") (the "Investment Management Agreements") with respect to the Market Vectors Africa Index ETF, Agribusiness ETF, Agriculture Producers ETF, Brazil Small-Cap ETF, China All-Cap ETF, China Consumer Discretionary ETF, China Consumer Staples ETF, China Energy ETF, China Financials ETF, China Health Care ETF, China Industrials ETF, China Information Technology ETF, China Materials ETF, China Small-Cap ETF, China Utilities ETF, ChinaAMC All China Consumer ETF, ChinaAMC A-Share ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, ChinaAMC SME-ChiNext ETF, Coal ETF, Egypt Index ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Germany Mid-Cap ETF, Global Alternative Energy ETF, Global Frontier Index ETF, Gold Miners ETF, Gulf States Index ETF, Hard Assets Producers Extra Liquid ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Internet ETF, Israel ETF, Junior Gold Miners ETF, Kuwait Index ETF, Metals ETF, MLP ETF, Mongolia ETF, Natural Resources ETF, Nigeria ETF, Nigeria-Focused West Africa ETF, Oil Services ETF, Poland ETF, Rare Earth/Strategic Metals ETF, Russia ETF, Russia Small-Cap ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF, Solar Energy ETF, Steel ETF, Telecom ETF, Unconventional Oil & Gas ETF, Uranium+Nuclear Energy ETF and Vietnam ETF (the "Funds") and (ii) a sub-advisory agreement between the Adviser and China Asset Management (Hong Kong) Limited (the "Sub-Adviser") (the "Sub-Advisory Agreement") with respect to Market Vectors ChinaAMC A-Share ETF and ChinaAMC SME-ChiNext ETF (the "China Funds"). The Investment Management Agreements and the Sub-Advisory Agreement are collectively referred to as the "Agreements."

The Board's approval of the Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 15, 2015. At that meeting, the Trustees discussed the information the Adviser, the Sub-Adviser (with respect to the China Funds) and Lipper Inc. ("Lipper"), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and the Funds' peer funds (other index-based exchange-traded funds ("ETFs")), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Funds. In reviewing performance information for the Funds against their peer groups, the Trustees considered that each Fund except for the Market Vectors ChinaAMC A-Share ETF generally invests in a different group of issuers than the funds in its designated peer group. They had also considered the fact that Market Vectors ChinaAMC SME-ChiNext ETF had only recently commenced operations and therefore had a limited operational history that could be used for comparative purposes, since the expense information prepared by Lipper was based on estimated amounts for the

Fund and the performance comparisons provided by Lipper covered approximately a seven month period (July 23, 2014 (the date operations commenced for the Market Vectors ChinaAMC SME-ChiNext ETF) through February 28, 2015). In addition, as noted below, the Trustees reviewed certain performance information for each Fund that was not provided by Lipper. For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Agreements was based, in part, on their review of information obtained through discussions with the Adviser and the Sub-Adviser (with respect to the China Funds) at the Renewal Meeting and with the Adviser at the May 15, 2015 meeting regarding the management of the Funds and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser and the Sub-Adviser (with respect to the China Funds). The Trustees considered the terms of, and scope of services that the Adviser and Sub-Adviser (with respect to the China Funds) provide under, the Agreements, including, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time. With respect to the Sub-Advisory Agreement, the Trustees took into account the unique legal and operational aspects of the China Funds and the Sub-Adviser's experience with respect to Renminbi Qualified Institutional Investors Scheme funds. The Trustees also noted

#### MARKET VECTORS ETF TRUST

#### APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited) (continued)

that the Sub-Adviser is a wholly-owned subsidiary of China Asset Management Co., China's largest asset management company measured by fund assets under management.

The Trustees concluded that the Adviser and the Sub-Adviser (with respect to the China Funds) have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (*i.e.*, measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the Sub-Adviser (with respect to the China Funds) and the current status, as they understood it, of the Adviser's and Sub-Adviser's (with respect to the China Funds) compliance environment.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below or equal to the average and/or median of its respective peer group of funds, except for each of Market Vectors Agribusiness ETF, ChinaAMC A-Share ETF, ChinaAMC SME-ChiNext ETF, Egypt Index ETF, Global Alternative Energy ETF, Gulf States Index ETF, Israel ETF, Rare Earth/Strategic Metals ETF, Russia Small-Cap ETF, Steel ETF, Unconventional Oil & Gas ETF and Vietnam ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and median of its peer group of funds. With respect to these Operating Funds, the Trustees reviewed the amount by which these Operating Funds' total expense ratios (after the effect of any applicable expense limitation) exceeded the average and median of their respective peer groups. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received.

The Trustees also considered the benefits, other than fees under the Investment Management Agreements, received by the Adviser from serving as adviser to the Funds, including any benefits it may receive from serving as administrator to the Funds and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees considered the volatility of the asset classes (e.g., precious metals and emerging markets) in which certain of the Operating Funds invest, potential variability in net assets of these Funds and the sustainability of any potential economies of scale which may exist where fees were set. The Trustees also evaluated the extent to which management fees for the Operating Funds effectively incorporate the benefits of economies of scale. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund and the sub-advisory fee rates for the China Funds are reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser with respect to the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds. Due to the relatively small size of the Market Vectors ChinaAMC A-Share ETF during the period, the Sub-Adviser did not provide the Trustees with profitability information and, therefore, the Trustees did not consider such information.

The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability to the Adviser of Market Vectors Agriculture Producers ETF, China All-Cap ETF, China Consumer Discretionary ETF, China Consumer Staples ETF, China Energy ETF, China Financials ETF, China Health Care ETF, China Industrials ETF, China Information Technology ETF, China Materials ETF, China Small-Cap ETF, China Utilities ETF, ChinaAMC All China Consumer ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Germany Mid-Cap ETF, Global Frontier Index ETF, Hard Assets Producers Extra Liquid ETF, Internet ETF, Israel ETF, Kuwait Index ETF, Metals ETF, MLP ETF,

Mongolia ETF, Nigeria ETF, Nigeria-Focused West Africa ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF and Telecom ETF to the Adviser because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees also could not consider the historical performance or the quality of services previously provided to each of these Funds although they concluded that the nature, quality and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 15, 2015 meeting as part of their consideration of the Agreements.

In voting to approve the continuation of the Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Agreement is in the best interest of each Fund and such Fund's shareholders.
