The Fund's Board of Directors approved amended and restated by-laws for the Fund effective April 1, 2006. The by-laws are an exhibit to the Fund's most recently filed report on Form N-SAR, which is on file with the SEC and may be accessed via the SEC's website which is at www.sec.gov. A copy is also available upon written request to the Secretary of the Fund.

You may obtain a description of the Fund's proxy voting policies and procedures, and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, without charge. Simply visit AllianceBernstein's web site at www.alliancebernstein.com, or go to the Securities and Exchange Commission's (the "Commission") web site at www.sec.gov, or call AllianceBernstein(R) at (800) 227-4618.

The Fund files its complete schedule of portfolio holdings with the Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's web site at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, DC; information on the operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

AllianceBernstein Investments, Inc. is an affiliate of AllianceBernstein L.P., the manager of the funds, and is a member of the NASD.

AllianceBernstein(R) and the AB Logo are registered trademarks and service marks used by permission of the owner, AllianceBernstein L.P.

Semi-Annual Report

This report provides management's discussion of fund performance for ACM Managed Dollar Income Fund (the "Fund") for the semi-annual reporting period ended March 31, 2006. The Fund is a closed-end fund that trades under the New York Stock Exchange symbol "ADF".

Investment Objective and Policies

This closed-end fund is designed for investors who seek high current income and capital appreciation over a period of years. The Fund normally invests at least 35% of its assets in U.S. corporate fixed-income securities. The balance of the Fund's investment portfolio will be invested in fixed-income securities issued or guaranteed by foreign governments and non-U.S. corporate fixed-income securities. Substantially all of the Fund's assets will be invested in high-yield, high-risk securities rated below investment-grade and considered to be predominantly speculative. For more information regarding the Fund's risks, please see "A Word About Risk" on pages 4-5 and "Note E--Risks Involved in Investing in the Fund" of the Notes to Financial Statements on page 35.

Investment Results

The table on page 6 shows the Fund's performance compared to its composite benchmark, a 65%/35% blend of the J.P. Morgan Emerging Markets Bond Index Plus (JPM EMBI+) and the Credit Suisse First Boston High Yield (CSFBHY) Index, respectively, for the six- and 12-month periods ended March 31, 2006. The JPM EMBI+ is a standard measure of the performance of a basket of unmanaged

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

emerging market debt securities. The CSFBHY Index is a standard measure of the performance of a basket of unmanaged U.S. high yield debt securities. The Fund's performance is compared to a composite benchmark of both indices because this composite more closely resembles the composition of the Fund's portfolio.

The Fund underperformed its composite benchmark for the six-month period ended March 31, 2006, but outperformed for the 12-month period.

For the six-month period, the Fund's high yield security selection, particularly within the cable, paper/packaging, financial and health care industries, detracted from relative performance. The Fund's security selection within the cable industry detracted from the Fund's performance. Weakness in the cable sector negatively impacted some of the more highly leveraged companies. The paper/packaging industry was also hurt by higher costs and an inability to pass those costs along to consumers with higher pricing which negatively impacted a few high profile names. Additionally, the Fund's underweighted position in lower-quality high yield debt detracted from its performance. The lower-rated tiers within the high yield universe (B and CCC-rated securities) outperformed as lower-rated debt is less sensitive to rising interest rates.

The Fund's emerging market allocation contributed positively to relative performance for both the six- and 12-month periods under review. Overweight positions in Latin America, particularly Brazil and Argentina,

ACM MANAGED DOLLAR INCOME FUND o 1

boosted the Fund's returns for both time periods. Brazil's stable growth, central bank easing and debt buy backs helped support its bond prices, particularly towards the end of the year when the Fund's exposure was increased. Argentina benefited during the year from the completion of its debt restructuring and very strong economic growth. Both Brazil and Argentina were top performers during the reporting period.

Detracting from performance within the Fund's emerging market allocation was security selection in Argentina. Although the Fund's country selection of Argentina contributed positively to performance, its shorter-maturity bond selection in the country dampened performance as Argentina's longer-duration bonds outperformed.

The Fund's use of leverage had a neutral effect on performance during the reporting period.

Market Review and Investment Strategy

U.S. fixed-income returns were generally weak during the semi-annual reporting period, reflecting higher U.S. interest rates. Yields rose across the maturity spectrum as the U.S. Federal Reserve (the "Fed") continued to increase official rates another 100 basis points in quarter point increments during the period under review. The Treasury yield curve finished the period almost perfectly flat, with most rates within a few basis points of 4.8%. At the end of the period, the Fed funds rate stood at 4.75%, 375 basis points higher than when the Fed started tightening in June of 2004.

The emerging market debt class posted the strongest returns within fixed-income sectors for the semi-annual period, returning 3.85% according to the JPM EMBI+. The emerging markets continued to enjoy strong investor demand, a favorable low global interest rate environment and strong global liquidity throughout the period. Strong capital inflows caused currencies to appreciate which allowed

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

central banks in almost every emerging country to accumulate reserves--one of the most important technical drivers supporting the sector. Improved export demand and strong commodity prices, particularly oil, also helped select emerging market countries. Emerging market spreads tightened to end the period at a near record low of 192 basis points over Treasuries, representing an overall tightening of 52 basis points during the reporting period.

Countries favored within the Fund during the period included Brazil, Venezuela, Argentina, Peru and Panama. Brazil benefited from low inflation, a stronger currency and aggressive interest rate cuts. Brazil's debt-to-gross domestic product (GDP) ratio declined significantly as it began a schedule of \$20 billion in debt buy backs. Venezuela benefited from continued strong oil revenues and the potential of debt buy backs. Argentina continued to be helped by both strong growth (9.1% in 2005) and reserve accumulation (\$8.4 billion in 2005).

The Fund's exposure to Peru was increased based on strong economic growth and strong demand for its exports. Political uncertainty in Peru un-

2 o ACM MANAGED DOLLAR INCOME FUND

expectedly increased late in the period, however. Ollanta Humala, the Nationalist candidate for president, rose in the polls against the more business-friendly candidate, Lourdes Flores. Despite the uncertainty, Peru was still favored due to its strong long-term fundamentals and indications that Humala, if elected, would maintain current monetary and fiscal policies. Furthermore, there are institutional limitations in place that limit Humala's ability to change economic policies, even if he wanted to.

The high yield market, as represented by the CSFBHY Index, posted a return of 3.68% for the semi-annual period under review. High yield significantly outperformed both investment-grade corporates and U.S. Treasuries, both of which were hurt by rising interest rates. High yield was helped by a generally benign environment, sound technicals and strong corporate profits. By quality, lower-rated debt outperformed higher-rated BB-debt. Lower-rated debt, such as B-rated and CCC-rated securities, returned 4.16% and 4.14%, respectively, while higher-rated debt, such as BB-rated securities, returned 2.44%. On an industry level, all major industry sectors posted positive returns.

Outperforming industries for the semi-annual period included airlines and packaging, which returned 29.27% and 9.15%, respectively. Airlines were supported by a more positive tone as American Airlines posted better-than-expected fourth quarter numbers. Airlines also gained as fare prices increased while capacity was reduced. Underperforming industries for the period included acute care at -0.11%, the financial sector at 0.38% and the cable/wireless industry at 0.71%. The acute care industry was negatively impacted by a new government proposal that would reduce the amount of Medicare reimbursements for shorter-term hospital stays. The cable/wireless industry suffered due to increased competition, proposed regulatory legislation and a planned merger between AT&T and BellSouth.

Although high yield credit fundamentals remained strong, high yield spreads were at historically tight levels, while risks in the marketplace increased--leaving little margin for error. Consequently, the Fund's risk profile was lowered by reducing the Fund's higher-beta credit exposure. Quantitative and fundamental research suggested that the market was not compensating investors for taking added risk in this environment. While industry spreads remained relatively narrow, security selection was more of a focus in the quest to add value, with an emphasis on avoiding problem credits.

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

Given increased risks and a general lack of compelling opportunities, a well-diversified portfolio was maintained with the Fund's tracking error at the lower-end of its range. By industry, the cable, financial and wireline industries were overweighted. Industries underweighted for the period included paper/packaging, energy and the automotive industry.

HISTORICAL PERFORMANCE

An Important Note About the Value of Historical Performance

The performance on the following page represents past performance and does not guarantee future results. Current performance may be lower or higher than the performance information shown. Returns are annualized for periods longer than one year. All fees and expenses related to the operation of the Fund have been deducted. Performance assumes reinvestment of distributions and does not account for taxes.

ACM Managed Dollar Income Fund Shareholder Information

The daily net asset value of the Fund's shares is available from the Fund's Transfer Agent by calling (800) 426-5523. The Fund also distributes its daily net asset value to various financial publications or independent organizations such as Lipper Inc., Morningstar, Inc. and Bloomberg. For additional shareholder information regarding this Fund, please see page 47.

Benchmark Disclosure

The unmanaged J.P. Morgan Emerging Markets Bond Index Plus (JPM EMBI+) and the unmanaged Credit Suisse First Boston High Yield (CSFBHY) Index do not reflect fees and expenses associated with the active management of a mutual fund portfolio. The JPM EMBI+ is comprised of dollar-denominated restructured sovereign bonds; a large percentage of the index is made up of Brady bonds. The CSFBHY Index is a measure of lower-rated, fixed-income, non-convertible U.S. dollar-denominated securities meeting certain criteria developed by Credit Suisse designed to enable the index to reflect the high yield market. An investor cannot invest directly in an index, and its results are not indicative of the performance for any specific investment, including the Fund.

A Word About Risk

The Fund may utilize additional leverage through the investment techniques of reverse repurchase agreements and dollar rolls. Repurchase agreements involve sales by the Fund of portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price. Generally, the effect of such a transaction is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities. Such transactions are only advantageous if the interest cost to the Fund of the reverse repurchase agreement transaction is less than the cost of otherwise obtaining the cash.

The Fund may enter into dollar rolls in which the Fund sells securities for delivery in the current month and simultaneously contracts to repurchase substantially similar (same type and coupon) securities on a specified future date. During the roll period, the Fund forgoes principal and interest paid on the securities. The Fund is compensated by the difference between the current

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

sales price and the lower forward price for the future purchase (often referred to as the "drop") as well as by the interest earned on the cash proceeds of the initial sale.

Reverse repurchase agreements and dollar rolls are speculative techniques and are considered borrowings by the Fund. The effect of leverage can realize shareholders higher returns than if the Fund were not leveraged and the use of leverage techniques can add to net asset value (NAV). However, the risks of such techniques are potentially a higher volatility of the NAV of the Common Stock, potentially more volatility in the market value of the Common Stock and the relatively greater effect on the NAV of the Common Stock caused by favorable or adverse changes in the currency exchange rates. In addition, changes in the interest rate environment can increase or decrease shareholder returns. The Fund maintains coverage of at least 300%.

(Historical Performance continued on next page)

4 o ACM MANAGED DOLLAR INCOME FUND

HISTORICAL PERFORMANCE
(continued from previous page)

To the extent that the current interest rate on the Fund's indebtedness approaches the net return on the leveraged portion of the Fund's investment portfolio, then the benefit to the shareholders will be reduced. If the rate on indebtedness were to exceed the net return on the same portion of the portfolio, then this would result in a lower rate of return for the shareholders. Similarly, the use of leverage in a declining market can advance the decrease of the Fund's NAV more so than if the Fund were not leveraged, which would likely be reflected in a greater decline in the market price for shares of Common Stock than if the Fund were not leveraged. In extreme cases, if the Fund's current investment income were not sufficient to meet interest payments on indebtedness or if the Fund failed to maintain the asset coverage required by the 1940 Act, then it could be necessary for the Fund to liquidate certain investments at a time when it may be disadvantageous to do so, thereby reducing its NAV.

Part of the Fund's assets will be invested in foreign and emerging markets fixed-income securities which may magnify asset value fluctuations due to changes in foreign exchange rates and the possibility of substantial volatility due to political and economic uncertainties in foreign countries. This may have a significant effect on the Fund's asset value. Price fluctuations may be caused by changes in the general level of interest rates or changes in bond credit quality ratings. Please note, as interest rates rise, existing bond prices fall and can cause the value of an investment in the Fund to decline. Changes in interest rates have a greater effect on bonds with longer maturities than on those with shorter maturities. High yield bonds, otherwise known as "junk bonds," involve a greater risk of default and price volatility than other bonds. Investing in non-investment grade securities presents special risks, including credit risk. While the Fund invests principally in fixed-income securities, in order to achieve its investment objectives, the Fund may at times use certain types of investment derivatives, such as options, forwards and swaps. These instruments involve risks different from, and in certain cases, greater than, the risks presented by more traditional investments.

28 o ACM MANAGED DOLLAR INCOME FUND

NOTES TO FINANCIAL STATEMENTS March 31, 2006 (unaudited)

NOTE A Significant Accounting Policies

ACM Managed Dollar Income Fund, Inc. (the "Fund") was incorporated under the laws of the State of Maryland on August 10, 1993 and is registered under the Investment Company Act of 1940 as a non-diversified, closed-end management investment company. The financial statements have been prepared in conformity with U.S. generally accepted accounting principles, which requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities in the financial statements and amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies followed by the Fund.

1. Security Valuation

Portfolio securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at "fair value" as determined in accordance with procedures established by and under the general supervision of the Fund's Board of Directors.

In general, the market value of securities which are readily available and deemed reliable are determined as follows. Securities listed on a national securities exchange or on a foreign securities exchange are valued at the last sale price at the close of the exchange or foreign securities exchange. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices on such day. Securities listed on more than one exchange are valued by reference to the principal exchange on which the securities are traded; securities not listed on an exchange but traded on The NASDAQ Stock Market, Inc. ("NASDAQ") are valued in accordance with the NASDAQ Official Closing Price; listed put or call options are valued at the last sale price. If there has been no sale on that day, such securities will be valued at the closing bid prices on that day; open futures contracts and options thereon are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used; securities traded in the over-the-counter market, (OTC) (but excluding securities traded on NASDAQ) are valued at the mean of the current bid and asked prices as reported by the National Quotation Bureau or other comparable

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

sources; U.S. Government securities and other debt instruments having 60 days or less remaining until maturity are valued at amortized cost if their original maturity was 60 days or less; or by amortizing their fair value as of the 61st day prior to maturity if their original term to maturity exceeded 60 days; fixed-income securities, including mortgage backed and asset backed securities, may be valued on the basis of prices provided by a pricing service or at a price obtained from one or more of the major broker/dealers. In cases where broker/dealer quotes are obtained, AllianceBernstein L.P. (prior to February 24, 2006 known

ACM MANAGED DOLLAR INCOME FUND o 29

as Alliance Capital Management L.P.) (the "Adviser") may establish procedures whereby changes in market yields or spreads are used to adjust, on a daily basis, a recently obtained quoted price on a security; and OTC and other derivatives are valued on the basis of a quoted bid price or spread from a major broker/dealer in such security.

Securities for which market quotations are not readily available (including restricted securities) or are deemed unreliable are valued at fair value. Factors considered in making this determination may include, but are not limited to, information obtained by contacting the issuer, analysts, analysis of the issuer's financial statements or other available documents. In addition, the Fund may use fair value pricing for securities primarily traded in non-U.S. markets because, most foreign markets close well before the Fund values its securities at 4:00 p.m., Eastern Time. The earlier close of these foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities.

2. Taxes

It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its investment company taxable income and net realized gains, if any, to shareholders. Therefore, no provisions for federal income or excise taxes are required. The Fund may be subject to taxes imposed by countries in which it invests. Such taxes are generally based on income and/or capital gains earned or required. Taxes are accrued and applied to net investment income, net realized gains and net unrealized appreciation/depreciation as such income and/or gains are earned.

3. Investment Income and Investment Transactions

Interest income is accrued daily. Dividend income is recorded on the ex-dividend date or as soon as the Fund is informed of the dividend. Investment transactions are accounted for on the date the securities are purchased or sold. Investment gains and losses are determined on the identified cost basis. The Fund accretes discounts and amortizes premiums as adjustments to interest income.

4. Dividends and Distributions

Dividends and distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions are determined in accordance with federal tax regulations and may differ from those determined in conformity with U.S. generally accepted accounting principles. To the extent these differences are permanent, such amounts are reclassified within the capital accounts based on their federal tax basis treatment; temporary differences do not require such

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

reclassification.

30 o ACM MANAGED DOLLAR INCOME FUND

5. Repurchase Agreements

The Fund's custodian or designated subcustodian will take control of securities as collateral under repurchase agreements and determine on a daily basis that the value of such securities are sufficient to cover the value of the repurchase agreements. If the seller defaults and the value of collateral declines, or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of collateral by the Fund may be delayed or limited.

NOTE B

Advisory, Administrative Fees and Other Transactions with Affiliates

Under the terms of an Investment Advisory Agreement, the Fund pays AllianceBernstein, L.P. an advisory fee at an annual rate of .75 of 1% of the average adjusted weekly net assets of the Fund. Such fee is accrued daily and paid monthly.

Under the terms of a Shareholder Inquiry Agency Agreement with AllianceBernstein Investor Services, Inc. (prior to February 24, 2006 known as Alliance Global Investor Services, Inc.) ("ABIS"), a wholly-owned subsidiary of the Adviser, the Fund reimburses ABIS for costs relating to servicing phone inquiries on behalf of the Fund. During the six months ended March 31, 2006, the Fund reimbursed \$335 to ABIS.

Under the terms of an Administration Agreement, the Fund pays Princeton Administrators, L.P. (the "Administrator") a fee at an annual rate of .12 of 1% of the average adjusted weekly net assets of the Fund but in no event less than \$12,500 per month. Such fee is accrued daily and paid monthly. The Administrator prepares certain financial and regulatory reports for the Fund and provides clerical and other services.

NOTE C

Investment Transactions

Purchases and sales of investment securities (excluding short-term investments) for the six months ended March 31, 2006, were as follows:

	Purchases	Sales
	-----	-----
Investment securities (excluding U.S. government securities)	\$56,863,704	\$72,552,857
U.S. government securities	-0-	-0-

ACM MANAGED DOLLAR INCOME FUND o 31

At March 31, 2006, the cost of investments for federal income tax purposes, gross unrealized appreciation and gross unrealized depreciation (excluding written options and swap contracts) are as follows:

Cost	\$197,333,632
Gross unrealized appreciation	\$ 16,589,442

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

Gross unrealized depreciation	(6,226,672)
Net unrealized appreciation	\$ 10,362,770

1. Option Transactions

For hedging and investment purposes, the Fund may purchase and write (sell) put and call options on U.S. and foreign government securities and foreign currencies that are traded on U.S. and foreign securities exchanges and over-the-counter markets.

The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

32 o ACM MANAGED DOLLAR INCOME FUND

Transactions in written options for the six months ended March 31, 2006 were as follows:

	Number of Contracts (000)	Premiums Received
	-----	-----
Options outstanding at September 30, 2005	-0-	\$ -0-
Options written	950	10,802
Options exercised	-0-	-0-
Options terminated in closing purchase transactions	(360)	(4,280)
Options expired	(590)	(6,522)
 Options outstanding at March 31, 2006	 -0-	 \$ -0-

2. Swap Agreements

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

The Fund may enter into swaps on sovereign debt obligations to hedge its exposure to interest rates and credit risk or for investment purposes. A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The payment flows are usually netted against each other, with the difference being paid by one party to the other.

Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net interest payment to be received by the Fund, and/or the termination value at the end of the contract. Therefore the Fund considers the creditworthiness of each counterparty to a swap contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying securities.

The Fund accrues for the interim payments on swap contracts on a daily basis, with the net amount recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities. Once the interim payments are settled in cash, the net amount is recorded as realized gain/loss on swaps, in addition to realized gain/loss recorded upon the termination of swaps contracts on the statements of operations. Fluctuations in the value of swap contracts are recorded as a component of net change in unrealized appreciation/depreciation of investments.

The Fund may enter into credit default swaps. The Fund may purchase credit protection on the referenced obligation of the credit default swap ("Buy Contract") or provide credit protection on the referenced obligation of the credit default swap ("Sale Contract"). A sale/(buy) in a credit default swap pro-

ACM MANAGED DOLLAR INCOME FUND o 33

vides upon the occurrence of a credit event, as defined in the swap agreement, for the Fund to buy/(sell) from/(to) the counterparty at the notional amount (the "Notional Amount") and receive/(deliver) the principal amount of the referenced obligation. If a credit event occurs, the maximum payout amount for a Sale Contract is limited to the Notional Amount of the swap contract ("Maximum Payout Amount"). During the term of the swap agreement, the Fund receives/(pays) interim fixed payments from/(to) the respective counterparty, calculated at the agreed upon interest rate applied to the Notional Amount. These interim payments are recorded within unrealized appreciation/depreciation of swap contracts on the statement of assets and liabilities.

Credit default swaps may involve greater risks than if a Fund had invested in the referenced obligation directly. Credit default swaps are subject to general market risk, liquidity risk, counterparty risk and credit risk. If the Fund is a buyer and no credit event occurs, it will lose its investment. In addition, if the Fund is a seller and a credit event occurs, the value of the referenced obligation received by the Fund coupled with the periodic payments previously received, may be less than the Maximum Payout Amount it pays to the buyer, resulting in a loss to the Fund.

At March 31, 2006, the Fund had Sale Contracts outstanding with Maximum Payout Amounts aggregating \$10,184,000, with net unrealized appreciation of \$364,983 and terms ranging from 1 year to 10 years, as reflected in the portfolio of investments.

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

In certain circumstances, the Fund may hold Sale Contracts on the same referenced obligation and with the same counterparty it has purchased credit protection, which may reduce its obligation to make payments on Sale Contracts, if a credit event occurs. The Fund had Buy Contracts outstanding with a Notional Amount of \$510,000 with respect to the same referenced obligation and same counterparty of certain Sale Contracts outstanding, which reduced its obligation to make payments on Sale Contracts to \$9,674,000 as of March 31, 2006.

3. Reverse Repurchase Agreements

Under a reverse repurchase agreement, the Fund sells securities and agrees to repurchase them at a mutually agreed upon date and price. At the time the Fund enters into a reverse repurchase agreement, it will establish a segregated account with the custodian containing liquid assets having a value at least equal to the repurchase price.

For the six months ended March 31, 2006, the average amount of reverse repurchase agreements outstanding was \$29,963,365 and the daily weighted average annual interest rate was 3.53%.

34 o ACM MANAGED DOLLAR INCOME FUND

NOTE D

Capital Stock

During the six months ended March 31, 2006, the Fund did not issue any shares in connection with the Fund's dividend reinvestment plan. During the year ended September 30, 2005, the Fund issued 9,984 shares in connection with the Fund's dividend reinvestment plan.

On June 10, 2005, the Fund purchased and retired 1,135,385 shares of its outstanding common stock for \$8.07 per share pursuant to a tender offer. The fund incurred costs of \$175,000, which were charged to additional paid in capital. At June 10, 2005, 21,572,318 shares of common stock were outstanding. The purpose of the tender offer was to fulfill an undertaking made in connection with the initial public offering price of the Fund's shares.

NOTE E

Risks Involved in Investing in the Fund

Interest Rate Risk and Credit Risk--Interest rate risk is the risk that changes in interest rates will affect the value of the Fund's investments in fixed-income debt securities such as bonds or notes. Increases in interest rates may cause the value of the Fund's investments to decline. Credit risk is the risk that the issuer or guarantor of a debt security, or the counterparty to a derivative contract, will be unable or unwilling to make timely principal and/or interest payments, or to otherwise honor its obligations. The degree of risk for a particular security may be reflected in its credit risk rating. Credit risk is greater for medium quality and lower-rated securities. Lower-rated debt securities and similar unrated securities (commonly known as "junk bonds") have speculative elements or are predominantly speculative risks.

Concentration of Risk--Investing in securities of foreign companies and foreign governments involves special risks which include the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies and foreign governments and their markets may be less liquid and their prices more volatile

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

than those of comparable U.S. companies and the U.S. government.

The Fund invests in the Sovereign Debt Obligations of countries that are considered emerging market countries at the time of purchase. Therefore, the Fund is susceptible to governmental factors and economic and debt restructuring developments adversely affecting the economics of these emerging market countries. In addition, these debt obligations may be less liquid and subject to greater volatility than debt obligations of more developed countries.

Leverage Risk--The Fund may utilize leverage through the investment techniques of reverse repurchase agreements and dollar rolls. Reverse repurchase

ACM MANAGED DOLLAR INCOME FUND o 35

agreements and dollar rolls are speculative techniques and are considered borrowings by the Fund.

The effect of leverage can realize shareholders higher returns than if the Fund were not leveraged, and the use of leverage techniques can add to net asset value (NAV). However, the risks of such techniques are potentially a higher volatility of the NAV of the Common Stock, potentially more volatility in the market value of the Common Stock and the relatively greater effect on the NAV of the Common Stock caused by favorable or adverse changes in the currency exchange rates. In addition, changes in the interest rate environment can increase or decrease shareholder returns. The Fund maintains asset coverage of at least 300%.

To the extent that the current interest rate on the Fund's indebtedness approaches the net return on the leveraged portion of the Fund's investment portfolio, then the benefit to the shareholders will be reduced. If the rate on indebtedness were to exceed the net return on the same portion of the portfolio, then this would result in a lower rate of return for the shareholders. Similarly, the use of leverage in a declining market can advance the decrease of the Fund's NAV more so than if the Fund were not leveraged, which would likely be reflected in a greater decline in the market price for shares of Common Stock than if the Fund were not leveraged. In extreme cases, if the Fund's current investment income were not sufficient to meet interest payments on indebtedness or if the Fund failed to maintain the asset coverage required by the 1940 Act, then it could be necessary for the Fund to liquidate certain investments at a time when it may be disadvantageous to do so, thereby reducing its NAV.

Indemnification Risk--In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

NOTE F Securities Lending

The Fund has entered into a securities lending agreement with AG Edwards & Sons, Inc. (the "Lending Agent"). Under the terms of the agreement, the Lending Agent, on behalf of the Fund, administers the lending of portfolio securities to certain broker-dealers. In return, the Fund receives fee income from the lending transactions or it retains a portion of interest on the investment of any cash received as collateral. The Fund also continues to receive dividends or interest on the securities loaned. Unrealized gain or loss on the value of

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

the securities loaned that may occur during the term of the loan will be reflected in the accounts of the Fund. All loans are continuously secured by collateral exceeding the value of the securities loaned. All collateral consists of either cash

36 o ACM MANAGED DOLLAR INCOME FUND

or U.S. Government securities. The Lending Agent may invest the cash collateral received in accordance with the investment restrictions of the Fund in one or more of the following investments: U.S. Government or U.S. Government agency obligations, bank obligations, corporate debt obligations, asset-backed securities, structured products, repurchase agreements and an eligible money market fund. The Lending Agent will indemnify the Fund for any loss resulting from a borrower's failure to return a loaned security when due. As of March 31, 2006, the Fund had loaned securities with a value of \$5,411,523 and received cash collateral of \$5,697,420, which was invested in a money market fund as included in the portfolio of investments. For the six months ended March 31, 2006, the Fund earned fee income of \$21,250, which is included in interest income in the accompanying statement of operations.

NOTE G

Distributions to Shareholders

The tax character of the distributions paid to shareholders during the fiscal years ended September 30, 2005 and September 30, 2004 were as follows:

	2005	2004
	-----	-----
Distributions paid from:		
Ordinary income	\$ 15,094,355	\$ 18,071,829
Total taxable distributions	15,094,355	18,071,829
Tax return of capital	-0-	-0-
Total distributions paid	\$ 15,094,355	\$ 18,071,829

As of September 30, 2005, the components of accumulated earnings/(deficit) on a tax basis were as follows:

Accumulated capital and other losses	\$ (129,072,933) (a)
Unrealized appreciation/(depreciation)	20,481,365 (b)
Total accumulated earnings/(deficit)	\$ (108,591,568)

(a) On September 30, 2005, the Fund had a net capital loss carryforward of \$129,072,933 of which \$40,065,073 expires in the year 2007, \$24,635,181 expires in the year 2008, \$10,899,598 expires in the year 2009, \$33,249,705 expires in 2010 and \$20,223,376 expires in the year 2011. To the extent future capital gains are offset by capital loss carryforwards, such gains will not be distributed. During the fiscal year, the Fund utilized capital loss carryforwards of \$2,967,645.

(b) The difference between book-basis and tax-basis unrealized appreciation/(depreciation) is attributable primarily to the tax deferral of losses on wash sales, the difference between book and tax amortization methods for premium and the difference between book and tax treatment of swap income.

During the current fiscal year, permanent differences, primarily due to distributions in excess of net investment income, the tax character of paydown gains/losses, tax treatment of swap income and the tax treatment of bond

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

premium, resulted in a net decrease in distributions in excess of net investment income, a net increase in accumulated net realized loss on investments and a

ACM MANAGED DOLLAR INCOME FUND o 37

decrease in additional paid-in capital. This reclassification had no effect on net assets.

NOTE H Legal Proceedings

As has been previously reported, the staff of the U.S. Securities and Exchange Commission ("SEC") and the Office of the New York Attorney General ("NYAG") have been investigating practices in the mutual fund industry identified as "market timing" and "late trading" of mutual fund shares. Certain other regulatory authorities have also been conducting investigations into these practices within the industry and have requested that the Adviser provide information to them. The Adviser has been cooperating and will continue to cooperate with all of these authorities. The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing and late trading practices that are the subject of the investigations mentioned above or the lawsuits described below. Please see below for a description of the agreements reached by the Adviser and the SEC and NYAG in connection with the investigations mentioned above.

Numerous lawsuits have been filed against the Adviser and certain other defendants in which plaintiffs make claims purportedly based on or related to the same practices that are the subject of the SEC and NYAG investigations referred to above. Some of these lawsuits name the Fund as a party. The lawsuits are now pending in the United States District Court for the District of Maryland pursuant to a ruling by the Judicial Panel on Multidistrict Litigation transferring and centralizing all of the mutual funds involving market and late trading in the District of Maryland (the "Mutual Fund MDL"). Management of the Adviser believes that these private lawsuits are not likely to have a material adverse effect on the results of operations or financial condition of the Fund.

On December 18, 2003, the Adviser confirmed that it had reached terms with the SEC and the NYAG for the resolution of regulatory claims relating to the practice of "market timing" mutual fund shares in some of the AllianceBernstein Mutual Funds. The agreement with the SEC is reflected in an Order of the Commission ("SEC Order"). The agreement with the NYAG is memorialized in an Assurance of Discontinuation dated September 1, 2004 ("NYAG Order"). Among the key provisions of these agreements are the following:

(i) The Adviser agreed to establish a \$250 million fund (the "Reimbursement Fund") to compensate mutual fund shareholders for the adverse effects of market timing attributable to market timing relationships described in the SEC Order. According to the SEC Order, the Reimbursement Fund is to be paid, in order of priority, to fund investors based on (i) their aliquot share of losses suffered by the fund due to market timing, and (ii) a proportionate

38 o ACM MANAGED DOLLAR INCOME FUND

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

share of advisory fees paid by such fund during the period of such market timing;

(ii) The Adviser agreed to reduce the advisory fees it receives from some of the AllianceBernstein long-term, open-end retail funds, commencing January 1, 2004, for a period of at least five years; and

(iii) The Adviser agreed to implement changes to its governance and compliance procedures. Additionally, the SEC Order contemplates that the Adviser's registered investment company clients, including the Fund, will introduce governance and compliance changes.

The shares of the Fund are not redeemable by the Fund, but are traded on an exchange at prices established by the market. Accordingly, the Fund and its shareholders are not subject to the market timing practices described in the SEC Order and are not expected to participate in the Reimbursement Fund. Since the Fund is a closed-end fund, it will not have its advisory fee reduced pursuant to the terms of the agreements mentioned above.

On February 10, 2004, the Adviser received (i) a subpoena duces tecum from the Office of the Attorney General of the State of West Virginia and (ii) a request for information from West Virginia's Office of the State Auditor, Securities Commission (the "West Virginia Securities Commission") (together, the "Information Requests"). Both Information Requests require the Adviser to produce documents concerning, among other things, any market timing or late trading in the Adviser's sponsored mutual funds. The Adviser responded to the Information Requests and has been cooperating fully with the investigation.

On April 11, 2005, a complaint entitled The Attorney General of the State of West Virginia v. AIM Advisors, Inc., et al. ("WVAG Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P. ("Alliance Holding"), and various other defendants not affiliated with the Adviser. The WVAG Complaint was filed in the Circuit Court of Marshall County, West Virginia by the Attorney General of the State of West Virginia. The WVAG Complaint makes factual allegations generally similar to those in certain of the complaints related to the lawsuits discussed above. On May 31, 2005, defendants removed the WVAG Complaint to the United States District Court for the Northern District of West Virginia. On July 12, 2005, plaintiff moved to remand. On October 19, 2005, the WVAG Complaint was transferred to the Mutual fund MDL.

On August 30, 2005, the deputy commissioner of securities of the West Virginia Securities Commission signed a "Summary Order to Cease and Desist, and Notice of Right to Hearing" addressed to the Adviser and Alliance Holding. The Summary Order claims that the Adviser and Alliance Holding violated the West Virginia Uniform Securities Act, and makes factual allegations generally similar

ACM MANAGED DOLLAR INCOME FUND o 39

to those in the SEC Order and the NYAG Order. On January 26, 2006, the Adviser, Alliance Holding, and various unaffiliated defendants filed a Petition for Writ of Prohibition and Order Suspending Proceedings in West Virginia state court seeking to vacate the Summary Order and for other relief. On April 11, 2006, the Court dismissed the Writ and later granted defendants a 30-day stay to file an appeal. The Adviser intends to vigorously defend against the allegations in the WVAG Complaint.

On June 22, 2004, a purported class action complaint entitled Aucoin, et al. v. Alliance Capital Management L.P., et al. ("Aucoin Complaint") was filed against the Adviser, Alliance Capital Management Holding L.P., Alliance Capital

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

Management Corporation, AXA Financial, Inc., AllianceBernstein Investment Research & Management, Inc., certain current and former directors of the AllianceBernstein Mutual Funds, and unnamed Doe defendants. The Aucoin Complaint names certain of the AllianceBernstein mutual funds as nominal defendants. The Fund was not named as a defendant in the Aucoin Complaint. The Aucoin Complaint was filed in the United States District Court for the Southern District of New York by an alleged shareholder of an AllianceBernstein mutual fund. The Aucoin Complaint alleges, among other things, (i) that certain of the defendants improperly authorized the payment of excessive commissions and other fees from fund assets to broker-dealers in exchange for preferential marketing services, (ii) that certain of the defendants misrepresented and omitted from registration statements and other reports material facts concerning such payments, and (iii) that certain defendants caused such conduct as control persons of other defendants. The Aucoin Complaint asserts claims for violation of Sections 34(b), 36(b) and 48(a) of the Investment Company Act, Sections 206 and 215 of the Advisers Act, breach of common law fiduciary duties, and aiding and abetting breaches of common law fiduciary duties. Plaintiffs seek an unspecified amount of compensatory damages and punitive damages, rescission of their contracts with the Adviser, including recovery of all fees paid to the Adviser pursuant to such contracts, an accounting of all fund-related fees, commissions and soft dollar payments, and restitution of all unlawfully or discriminatorily obtained fees and expenses.

Since June 22, 2004, nine additional lawsuits making factual allegations substantially similar to those in the Aucoin Complaint were filed against the Adviser and certain other defendants. All nine of the lawsuits (i) were brought as class actions filed in the United States District Court for the Southern District of New York, (ii) assert claims substantially identical to the Aucoin Complaint, and (iii) are brought on behalf of shareholders of the Funds.

On February 2, 2005, plaintiffs filed a consolidated amended class action complaint ("Aucoin Consolidated Amended Complaint") that asserts claims substantially similar to the Aucoin Complaint and the nine additional lawsuits referenced above. On October 19, 2005, the District Court dismissed each of the claims set

40 o ACM MANAGED DOLLAR INCOME FUND

forth in the Aucoin Consolidated Amended Complaint, except for plaintiff's claim under Section 36(b) of the Investment Company Act. On January 11, 2006, the District Court granted defendants' motion for reconsideration and dismissed the remaining Section 36(b) claim. Plaintiffs have moved for leave to amend their consolidated complaint.

The Adviser believes that these matters are not likely to have a material adverse effect on the Fund or the Adviser's ability to perform advisory services relating to the Fund.

42 o ACM MANAGED DOLLAR INCOME FUND

(a) As of October 1, 2003, the Fund has adopted the method of accounting for interim payments on swap contracts in accordance with Financial Accounting Standards Board Statement No. 133. These interim payments are reflected within net realized and unrealized gain (loss) on swap contracts, however, prior to October 1, 2003, these interim payments were reflected within interest income/expense on the statement of operations. The effect of this change for the fiscal year ended September 30, 2005, was to decrease net investment income per share by \$0.01 and increase net realized and unrealized gain (loss) on investment transactions per share by \$0.01 and decrease the ratio of net investment income to average net assets by 0.14%.

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

(b) As required, effective October 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide, Audits of Investment Companies, and began amortizing premium on debt securities for financial statement reporting purposes only. The effect of this change for the year end September 30, 2002 was to decrease net investment income per share by \$0.01, decrease net realized and unrealized loss on investment by \$0.01 and decrease the ratio of net investment income to average net assets from 10.91% to 10.81%. Per share, ratios and supplemental data for periods prior to October 1, 2001 have not been restated to reflect this change in presentation.

(c) Based on average shares outstanding.

(d) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. Total investment return calculated for a period of less than one year is not annualized.

(e) Excludes net interest expense of .61%, .36%, .29%, .51%, .97% and 1.62%, respectively, on borrowings.

(f) Annualized.

We also offer Exchange Reserves,** which serves as the money market fund exchange vehicle for the AllianceBernstein mutual funds.

For more complete information on any AllianceBernstein mutual fund, including investment objectives and policies, sales charges, expenses, risks and other matters of importance to prospective investors, visit our web site at www.alliancebernstein.com or call us at (800) 227-4618 for a current prospectus. You should read the prospectus carefully before you invest.

* Prior to May 16, 2005, International Growth Fund was named Worldwide Privatization Fund and International Research Growth Fund was named International Premier Growth Fund. On June 24, 2005, All-Asia Investment Fund merged into International Research GrowthFund. On July 8, 2005, New Europe Fund merged into International Research Growth Fund. Prior to February 1, 2006, Global Government Income Trust was named Americas Government Income Trust and Intermediate Bond Portfolio was named Quality Bond Portfolio.

** An investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

SUMMARY OF GENERAL INFORMATION

Shareholder Information

The daily net asset value of the Fund's shares is available from the Fund's Transfer Agent by calling (800) 426-5523. The Fund also distributes its daily net asset value to various financial publications or independent organizations such as Lipper, Inc., Morningstar, Inc. and Bloomberg. Daily market prices for the Fund's shares are published in the New York Stock Exchange Composite Transaction section of newspapers each day. The Fund's NYSE trading symbol is "ADF." Weekly comparative net asset value (NAV) and market price information about the Fund is published each Monday in The Wall Street Journal, each Sunday in The New York Times and each Saturday in Barron's and other newspapers in a table called "Closed-End Funds."

Dividend Reinvestment Plan

Pursuant to the Fund's Dividend Reinvestment Plan shareholders whose shares are registered in their own names may elect to have all distributions reinvested automatically in additional shares of the Fund by ComputerShare Trust Company, N.A., as agent under the Plan. Shareholders whose shares are held in the name of a broker or nominee should contact the broker or nominee for details. All distributions to investors who elect not to participate in the Plan will be paid by check mailed directly to the record holder by or under the direction of ComputerShare Trust Company, N.A. For questions concerning Shareholder account information, or if you would like a brochure describing the Dividend Reinvestment Plan, please call ComputerShare Trust Company, N.A. at (800) 219-4218.

Privacy Notice

Alliance, the AllianceBernstein Family of Funds and AllianceBernstein Investment Research and Management, Inc. (collectively, "Alliance" or "we") understand the importance of maintaining the confidentiality of our customers' nonpublic personal information. In order to provide financial products and services to our customers efficiently and accurately, we may collect nonpublic personal information about our customers from the following sources: (1) information we receive from account documentation, including applications or other forms (which may include information such as a customer's name, address, social security number, assets and income) and (2) information about our customers' transactions with us, our affiliates and others (including information such as a customer's account balances and account activity).

It is our policy not to disclose nonpublic personal information about our customers (or former customers) except to our affiliates, or to others as

Edgar Filing: ACM MANAGED DOLLAR INCOME FUND INC - Form N-CSRS

permitted or required by law. From time to time, Alliance may disclose nonpublic personal information that we collect about our customers (or former customers), as described above, to non-affiliated third party providers, including those that perform processing or servicing functions and those that provide marketing services for us or on our behalf pursuant to a joint marketing agreement that requires the third party provider to adhere to Alliance's privacy policy. We have policies and procedures to safeguard nonpublic personal information about our customers (or former customers) which include: (1) restricting access to such nonpublic personal information and (2) maintaining physical, electronic and procedural safeguards that comply with federal standards to safeguard such nonpublic personal information.
