FEDERAL COURT QUASHES THE DECISION FOR PANEL REVIEW

Oakville, Ontario, August 23, 2004 The Federal Court has quashed the decision by former Environment Minister, the Hon. David Anderson, to form a panel to review Bennett Environmental Inc.'s thermal oxidizer plant in Belledune, New Brunswick.

In his decision, dated August 19, Judge Sean Harrington stated: "This court grants judicial review, quashes the said decision, declares it null and void and prohibits the Canadian Environmental Assessment Agency from proceeding with a review of the matter, the whole with costs against the respondents."

In the 16-page ruling Judge Harrington ruled that the panel review process is intended for projects in their planning stage. The Bennett facility in Belledune was already 90 per cent complete when he called for the panel review. The review was to consider trans-boundary environmental impact under provisions of the Canadian Environmental Assessment Act.

Judge Harrington also pointed out that the minister's own officers at the Canadian Environmental Assessment Agency (CEAA) agreed in its own study there would be no foreseeable transboundary impact from the plant. He also agreed that Health Canada's position that they could not have "absolute confidence" there would be no transboundary impact was unreasonable.

Company president and CEO, Al Bulckaert, responding to news of the judge's decision said: "We are pleased with the finding and have argued all along that the former Minister of the Environment, the Hon. David Anderson, should not have called for a panel review after CEAA found no issues with the facility after an exhaustive seven-month study. Mr. Bulckaert added that "we are now looking forward to moving ahead with the operating of the Belledune plant."

About Bennett Environmental Inc.

Bennett Environmental Inc. is a North American leader in high temperature treatment services for the remediation of contaminated soil and has provided thermal solutions to contamination problems throughout Canada and the US. Bennett Environmental's proprietary technology provides for the safe, economical and permanent solution to contaminated soil. Independent testing has consistently proven that the technology operates well within the most stringent criteria in North America.

Bennett Environmental is listed on the Toronto Stock Exchange (Trading Symbol BEV) and the American Stock Exchange (Trading Symbol BEV). For information, please visit the Bennett Environmental website at www.bennettenv.com, or contact Al Bulckaert or Rick Stern at the Oakville office (905-339-1540).
