PRESS RELEASE...

Organic growth in revenues: 5.5% for the first half of fiscal 2006

- **Strong growth in Healthcare and Seniors of 8.2%**
- **A dynamic Service Vouchers and Cards activity with growth of 16.8%**
- **Total organic growth in revenues of 10.9%**

Paris, April 5, 2006. SODEXHO ALLIANCE (*Euronext Paris FR0000121220 - SW / NYSE:SDX*), the leading global provider of food and management services, today announced revenues for the first half of fiscal 2006, which ended on February 28, 2006.

Revenues by Activity

(in IFRS)

In millions of euro	First half 2005-2006	First half 2004-2005	Organic growth(1)	Currency impact(2)	Acquisitions	Total change
Food and Management Services:	5,765	6,371	5.2%	5.3%	-	10.5%
□ North America	2,586	2,919	4.0%	8.9%	-	12.9%
□ Continental Europe	1,984	2,111	6.3%	-	0.1%	6.4%
□ United Kingdom and Ireland	640	663	2.1%	1.5%	-	3.6%
□ Rest of the World	555	678	10.6%	11.6%	-	22.2%
Service Vouchers and Cards	140	178	16.8%	10.2%	0.2%	27.2%
Elimination of intercompany sales	-3	-3				
TOTAL	5,902	6,546	5.5%	5.4%	0.1%	10.9%

(1) Organic growth reflects the increase in revenues at constant consolidation scope and exchange rates.

(2) In the above table and going forward, the currency impact is determined by applying the average rate for the prior period to the current period revenues.

For the first half of fiscal 2006, growth in revenues was 10.9%, with organic growth of 5.5%. The strengthening of the U.S. dollar by 8.2% as compared to the euro during the first six months of the fiscal year resulted in a favorable exchange rate effect of 5.4%.

Edgar Filing: SODEXHO ALLIANCE SA - Form 6-K

Michel Landel, CEO of SODEXHO ALLIANCE, said: *“Organic growth in the first half validates the actions undertaken over the last year such as “Clients for Life®” as well as marketing efforts to increase sales on existing sites. Organic growth in the second half could be lower. We continue to focus our efforts on improving our operational efficiency and our competitiveness, in line with our strategy.”*

PRESS RELEASE...

Analysis of organic revenue growth

(See Table in Annex 2 and a selection of new clients in Annex 3)

Food and Management Services

- **North America: 4.0% led driven by strong performance in Healthcare and Seniors**
- **Continental Europe: accelerating to 6.3%**
- **United Kingdom and Ireland: 2.1%, confirming the return to positive growth**
- **Rest of the World: continuing strong development at 10.6%**

In **North America**, revenues in Business and Industry grew by 1.8% as a result of the combination of several positive factors, including a better adaptation of our service offerings to the needs of our customers and strength in catering activities over the year end holiday period. These factors significantly offset the effects of staff reductions at certain of our large clients.

In Defense, Sodexho teams continue to tailor services to the changing needs of the U.S. Marines Corps in the United States. This close partnership over several years has contributed to constructive dialogue with this client regarding contractual modifications pursuant to federal regulation.

The excellent organic growth of nearly 7% in the Healthcare and Seniors segments was led by the opening of contracts signed last year. In addition, revenues on existing sites benefited from the expansion of our range of services.

The increase in Education was close to 3%. By consistently seeking solutions most adapted to the expectations of clients and customers, teams were able to increase sales on existing sites in both universities and schools, in line with the Group's focus on accelerating organic growth. However, performance was less robust in the public schools market, where the conditions for renewing certain contracts proposed at the end of the prior fiscal year did not meet the Group's standards for pursuing profitable growth.

In **Continental Europe**, growth in revenues in the Business and Industry segment was 7.1% and benefited from the signing of new contracts, notably in Central Europe, Spain and Germany as well as strong development in leisure and tourist activities in the Paris area. The ramping up of services in new correctional facilities resulting from Public/Private Partnership arrangements in France also contributed strongly. However, the business climate in Western Europe remains challenged by client staff reductions and site closures.

Revenues increased by 7.7% in Healthcare and Seniors, driven by the opening of several large contracts signed during the prior fiscal year. In addition, the retention rate improved and service offerings continued to expand.

The desire to remain selective, in particular in the public sector, explains the lower revenue growth in Education (+2.2%).

In the **United Kingdom and Ireland**, Business and Industry segment revenues have returned to positive growth in the first half of the year as a result of activity in

PRESS RELEASE...

Correctional Facilities and Defense. Several important contracts signed during the first half confirm Sodexo's leadership position in the Defense market.

Increased activity on several PFI contracts signed in prior years contributed to the growth of nearly 20% in Healthcare and Seniors.

Over 50% of revenues in the Defense, Healthcare and Correctional Facilities segments in the United Kingdom and Ireland are from Facility Management.

In the **Rest of the World**, organic growth reached 10.6%.

In Latin America, improved client retention and development in the mining sector and in Healthcare led to an acceleration of organic growth, both in food service and in Facility Management.

The Remote Sites activity remains strong in the oil and gas sectors despite the impact of the hurricanes in the Gulf of Mexico at the beginning of the fiscal year.

In China, the Group continues to expand at a heightened pace while in Australia, Facilities Management services are progressing.

Service Vouchers and Cards

Organic growth of 16.8%

Organic growth in revenues reached 16.8%, a significant increase as compared to the first half of fiscal 2005. This growth resulted from strong issuance volume of 3.2 billion euro which rose by 15.9% (excluding the effects of consolidation scope and exchange rates).

Growth in traditional services such as Restaurant Pass and Food Pass explained the increase, along with strong demand for Gift Pass during the year end holiday period.

Lastly, we continued to innovate, with the creation of new services such as:

- Childcare vouchers in the United Kingdom, where we were named "Childcare Voucher Provider of the Year for 2006" by the British publication "Employer Rewards and Benefits".
- In Chile, with the Pass Fosis, which facilitates the creation of businesses by the unemployed.
