ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

All statements contained herein that are not historical facts, including but not limited to, statements regarding future operations, financial condition and liquidity, capital requirements and the Company's future business plans are based on current expectations. These statements are forward looking in nature and involve a number of risks and uncertainties. Actual results may differ materially. Among the factors that could cause actual results to differ materially are changes in the financial markets, which affect investment managers, investors, mutual funds and the Company's consulting clients, and other risk factors described herein and in the Company's reports filed and to be filed from time to time with the Commission. The discussion and analysis below is based on the Company's unaudited Financial Statements for the nine months ended November 30, 2002 and 2001. The following should be read in conjunction with the Management's Discussion and Analysis of results of operations and financial condition included in Form 10-K for the year ended February 28, 2002.

Edgar Filing: FRMO CORP - Form 10-Q

OVERVIEW

By reason of the spin-off transaction described in Form 10-K for the year ended February 28, 2002, the Company had a new start in terms of its continuing business and its financial statements. After the spin-off, its balance sheet consisted of \$10,000 in assets, no liabilities and 1,800,000 shares of common stock. On January 23, 2001 the Company issued an additional 34,200,000 shares of common stock for \$3,258,000 to be paid as set forth in Item 1 of Form 10-K for the year ended February 28, 2001.

Since its new start on January 23, 2001, FRMO completed the following transactions through November 30, 2002:

- i. The Company invested \$5,000 in FRM NY Capital, LLC, a limited liability venture capital company whereby the substantial investment of financial capital will be made by unrelated parties but where FRMO will have a carried interest based on leveraging the creative services of its personnel (its intellectual capital).
- ii. A consulting agreement was signed effective January 1, 2001, whereby FRMO is currently receiving \$22,860 a year from the manager of Santa Monica Partners, LP, a director and shareholder of FRMO, for access to consultations with the Company's personnel. Santa Monica Partners, L.P. is a private fund, which owns 218,000 shares of common stock of FRMO.
- iii. In March 2001 FRMO acquired the research service fees that Horizon Research Group had received from The New Paradigm Fund in exchange for 80,003 shares of FRMO common stock. Management believes that the growth of that Fund in the current fiscal year and future years will increase the current level of research fees for which the stock consideration was paid. The New Paradigm Fund outperformed the S&P 500 Index by approximately 13 percentage points in its first fiscal year of operation, Calendar 2000. During 2001, it outperformed the S&P 500 Index by 14 percentage points and, during 2002, by 17 percentage points.
- iv. In October 2001, FRMO acquired a 2% interest in the subscription revenues from The Convertible/High Yield Arbitrage Report that Horizon Research Group and another third party receive in exchange for 50 shares of Series R preferred stock. While the subscriptions are minimal at the present time, management believes that they will grow in future years.
- v. In February 2002, FRMO acquired a 7.71% interest in Kinetics Advisors, LLC and the Finder's Fee Share Interest from the Stahl Bregman Group, in exchange for 315 shares of FRMO common stock. Kinetics Advisors, LLC controls and provides investment advice to Kinetics New Economy Partners, a hedge fund and to Kinetics New Economy Fund, an offshore version of New Economy Partners. While the fees are minimal at the present time, management believes that they will grow in future years. During its first year of operation in 2000, and in 2001, New Economy Partners returned 23.7 and 21.6 percentage points more than the S&P 500 Index. In 2002, it outperformed the S&P 500 Index by 33 percentage points.

RESULTS OF OPERATIONS

Edgar Filing: FRMO CORP - Form 10-Q

2002 PERIOD COMPARED TO THE 2001 PERIOD

The Company's revenues from operations for the three months ended November 30, 2002 ("2002") was \$35,000, an increase of \$10,000 or 40% as compared to the three months ended November 30, 2001 ("2001"). The Company's revenues from operations for the nine months ended November 30, 2002 ("2002") was \$101,000, an increase of \$48,000 or 92% as compared to the nine months ended November 30, 2001 ("2001"). The net increases in both of the three and nine-month periods were due to additional income being generated from consulting fees, research fees, and income from investments in unconsolidated subsidiaries.

Costs and expenses from operations increased by \$2,000 (17%) to \$14,000 for the three months ended in 2002. During the nine-month period ended in 2002 costs and expenses from operations increased by \$1,000 (2%) to \$46,000. The increase for the three months ended in 2002 was due to an increase in contributed services, offset by a decrease in amortization expense. The increase for the nine months ended in 2002 was due to decreases in shareholder reporting expenses, offset by increases in contributed services. In 2002, the Company started recording non-cash compensation for contributed services from two of its executives. In 2001, those executives, who are responsible for all of the Company's operations, had agreed not to draw any salaries during the period of formation. The \$9,000 and \$18,000 increase in the provision for income taxes for the three months and nine months ended in 2002 was due to the increase in income from operations.

For the reasons noted above, the Company's net income for the three months ended November 30, 2002 decreased by \$1,000 to \$10,000, as compared to net income of \$11,000 in 2001. For the same reasons, net income for the nine months ended November 30, 2002 was \$37,000, as compared to net income of \$7,000 for the same period in 2001.

LIQUIDITY AND CAPITAL RESOURCES

The Company's activities during the nine months ended November 30, 2002, resulted in an increase in cash of \$12,000. The \$12,000 increase in cash in 2002 was due to net income (after adjusting for reinvested income, amortization and contributed services) of \$29,000, offset by fluctuations in operating assets and liabilities primarily caused by timing differences. There were no cash flows provided by or used in investing or financing activities during both of the nine-month periods ended in 2002 and 2001. The Company expects its business with prospective new clients to develop without the outlay of cash, since the growth will come from the services of its officers who will not receive cash salaries until the Company's operations and revenues warrant the payment.

EFFECTS OF NEW ACCOUNTING PRONOUNCEMENTS

None.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

On January 23, 2001, the Company issued 34,200,000 shares of \$.001 par value stock for \$3,258,000. Only \$39,375 was paid for at the time, and the balance of \$3,218,625 will be paid to the Company as set forth in Item 1 of Form 10-K for the year ended February 28, 2001. The Company's market risk arises principally from the obligations of the shareholders to pay for the shares of common stock of the Company based on dividends from outside sources and the income generated from the management of mutual funds.

ITEM 4. CONTROLS AND PROCEDURES

Edgar Filing: FRMO CORP - Form 10-Q
