PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON MAY 29, 2003

VOTING INFORMATION

PURPOSE. We are providing you with these proxy materials in connection with the solicitation of proxies by our Board of Directors, to be voted at our 2003 Annual Meeting of stockholders and at any postponement or adjournment thereof. We will hold the meeting on May 29, 2003, beginning at 9:00 a.m. Fort

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

Wayne time, in the John Whistler Ballroom of the Grand Wayne Center, 120 West Jefferson Boulevard, Fort Wayne, Indiana 46802.

We started mailing this proxy statement and the enclosed proxy card beginning on or about April 24, 2003. We are soliciting proxies from all of our stockholders in order to give all stockholders an opportunity to vote on matters to be presented at the meeting, even if they do not attend in person. In the following pages of this proxy statement, you will find information on matters to be voted on at the meeting or at any adjournment or postponement of the meeting. This Notice of Annual Meeting and Proxy Statement, the proxy and our 2002 Annual Report to Stockholders are also available on our internet site at www.steeldynamics.com under the heading "Investor Info."

WHO CAN VOTE. You are entitled to notice of and to vote at the annual meeting if you were a stockholder of record at the close of business on March 25, 2003. If your shares of common stock are registered in your name, you are the stockholder of record. If your shares are held in the name of a broker, custodian, bank, or other holder of record, that person is the stockholder of record and you are considered the "beneficial" owner. If you are not present in person at the annual meeting, your shares can be voted only if represented by a valid proxy, as described below under "Voting of Shares."

SHARES OUTSTANDING. On March 25, 2003, there were 47,631,097 shares of common stock outstanding. A list of stockholders entitled to vote at the meeting is available at our corporate headquarters office and will also be available at the meeting. Each share is entitled to one vote on each matter properly brought before the meeting.

ANNUAL MEETING WEBCAST. We will be webcasting this year's annual meeting. You may access the webcast at www.steeldynamics.com by selecting "webcast." However, other than our proxy statement and form of proxy, no other information on our website is to be considered a part of our proxy soliciting materials.

VOTING OF SHARES. We realize that most of our stockholders will probably not be able to attend the meeting in person. However, it is very important that your shares be represented by proxy. This is because we can only take action at the annual meeting, with respect to a particular matter, if on the record date a quorum, or majority, of the total number of shares of common stock outstanding and entitled to vote on that matter is present, in person or by proxy. Therefore, we are asking for your proxy to authorize the persons named in the proxy to be present and to vote your shares at the annual meeting in accordance with your instructions.

For purposes of determining whether a quorum is present, shares voted FOR, AGAINST or

1

ABSTAIN, as well as broker "non-votes" count as shares that are present, although they will not count in determining total votes actually cast on a particular matter. A broker non-vote on a particular proposal occurs if and when a person holding shares for another beneficial owner, such as a broker, custodian, bank, or other holder of record, does not vote on that proposal because that person does not have discretionary voting power to vote on that proposal and has not received instructions on how to vote from the beneficial owner. In this regard, the New York Stock Exchange ("NYSE") has proposed new regulations that, if adopted prior to our annual meeting, would prohibit brokers or other nominees that are NYSE member organizations (which most brokers and nominees are) from voting in favor of proposals relating to equity compensation

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

plans, such as Proposal No. 3, unless they receive specific instructions from the beneficial owners of the shares on how to vote those shares.

This year, we are offering you three choices of how to vote by proxy:

- You may vote by mail in the traditional manner by marking, signing, dating and returning your enclosed proxy card in the envelope that we have enclosed.
- You may vote by telephone using the toll-free telephone number and instructions shown on your proxy card.
- You may vote via the internet by using the web site information and instructions listed on your proxy card.

We anticipate that telephone and internet voting will be available 24 hours a day, 7 days a week. Both methods will prompt you on how to proceed and you will be able to confirm that your instructions have been properly received and recorded. For both of these methods, you will also need a control number, which is noted on your proxy card. The telephone and internet voting facilities will close at 11:59 p.m. Eastern Time on May 28, 2003.

The method by which you vote will not limit your right to vote in person at the meeting if you decide to attend the meeting.

If you are not the record owner and your shares are held in the name of a broker, custodian, bank, or other holder of record, you will need to obtain, and should receive in the ordinary course of business from that broker, bank or other holder of record, a proxy, executed in your favor from that record holder, authorizing you to vote those shares at the annual meeting.

If you properly fill in and sign your proxy card and mail it in the enclosed, prepaid and addressed envelope, or if you submit your proxy instructions by telephone or over the internet, your "proxy"--that is, the persons named in your proxy card--will vote your shares as you have directed. If you do not make specific choices, your proxy will vote your shares as recommended by the Board of Directors as follows:

- FOR the election of all of the director nominees.
- FOR ratification of the appointment of Ernst & Young LLP as independent auditors.
- FOR the approval of the 2003 Executive Incentive Compensation Plan.

If any other matters are properly presented for consideration at the annual meeting, including consideration of a motion to adjourn the meeting to another time or place in order to solicit additional proxies in favor of the recommendations of the Board of Directors, the persons named as proxies and acting thereunder will have the discretion to vote on those matters according to their best judgment to the same extent as the person granting the proxy. At the date this proxy statement was printed, we did not anticipate that any other matters would be raised at the annual meeting.

You may revoke your proxy at any time before it is voted at the meeting in one of four ways:

- Notify our Corporate Secretary in writing before the meeting that you wish to revoke your proxy.
- Submit another proxy with a later date.

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

- Vote by telephone or internet on a later date.
- Vote in person at the meeting.

REQUIRED VOTE. So long as a quorum is present, the affirmative vote of a majority of the shares present, in person or by proxy, and entitled to vote at the meeting is needed to elect directors, to ratify the appointment of Ernst & Young LLP as independent auditors for the year 2003, to approve the 2003 Executive Incentive Compensation Plan, and on any other matters that may properly come before the annual meeting.

ELECTRONIC ACCESS TO PROXY MATERIALS AND ANNUAL REPORTS. This proxy statement and the 2002 Annual Report to Stockholders are available on our website at www.steeldynamics.com under the heading "Investor Info." Stockholders will be able to

2

elect to view future proxy statements and annual reports over the internet instead of receiving paper copies in the mail.

If you are a stockholder of record, you can choose this option and save us the cost of producing and mailing these documents by marking the appropriate box on your proxy card or by following the instructions provided on the internet if you choose to vote over the internet. You can also choose between paper documents and electronic access by contacting our Investor Relations Department in the manner described.

If you choose to view future proxy statements and annual reports over the internet, you will still receive a proxy card in the mail next year with instructions containing the internet address of those materials. Your choice will then remain in effect until you contact our Investor Relations Department in the manner described.

If you hold your Steel Dynamics stock through a broker, custodian, bank, or other holder of record, please refer to the information provided by that entity for instructions on how to elect to view future proxy statements and annual reports over the internet. Similarly, if you hold your Steel Dynamics stock through a broker, custodian, bank, or other holder of record and you elect electronic access, you will receive an e-mail message next year containing the internet address to use to access our proxy statement and annual report.

MULTIPLE STOCKHOLDERS SHARING THE SAME ADDRESS. Under rules adopted by the SEC, we are permitted to deliver a single copy of our proxy statement and annual report to stockholders sharing the same address. This process, called householding, allows us to reduce the number of copies of these materials that we must print and mail.

This year, we implemented householding for all stockholders who share the same last name and address, where shares are held through the same nominee (e.g., all accounts are at the same brokerage firm), so that they are receiving only one copy of the proxy statement and annual report per address.

However, if any stockholder of record residing at such an address wishes to receive a separate annual report or proxy statement in the future, that person may contact our Investor Relations Department in the manner described. If you are an eligible stockholder of record receiving multiple copies of our annual report and proxy statement, you may also request householding by contacting us in the same manner. If you hold your shares

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

through a broker, custodian, bank, or other holder of record, you can request householding by contacting that broker, custodian, bank, or other holder of record, .

COST OF PREPARING, MAILING AND SOLICITING PROXIES. We will pay all of the costs of preparing, printing and mailing this proxy statement and of soliciting these proxies. We will ask brokers, custodians, banks, or other holders of record, to forward the proxy materials and our 2002 Annual Report to the persons who were our beneficial owners on the record date. We will also reimburse such brokers, custodians, banks and other holders of record for their expenses incurred in sending proxies and proxy materials to our beneficial owners.

In addition, proxies may be solicited on our behalf in person, by telephone or otherwise, by our officers, directors and employees. We have also engaged the firm of Georgeson & Co. to assist us in the distribution and solicitation of proxies. We have agreed to pay Georgeson & Co. a fee of up to \$6,500 plus expenses for these services.

ANNUAL REPORT. We are including in this mailing a copy of our 2002 Annual Report to Stockholders, including our financial statements for the required periods ended December 31, 2002. The 2002 Annual Report is not, however, a part of this proxy statement.

VOTING RESULTS. We will publish the voting results on our website at www.steeldynamics.com, at "Investor Info" following the annual meeting, as well as in our Form 10-Q for the second quarter of 2003, which we will file with the Securities and Exchange Commission ("SEC") in July 2003.

INVESTOR RELATIONS DEPARTMENT. You may contact our Investor Relations Department in one of four ways:

- writing to Steel Dynamics, Inc., Investors Relations Department, 6714 Pointe Inverness Way, Suite 200, Fort Wayne, Indiana 46804;
- fax at 260-969-3590 to the attention of the Investors Relations Department;
- e-mail to fred.warner@steeldynamics.com; or
- phone the Investors Relations Department at 260-969-3564.

GOVERNANCE OF THE COMPANY

Our business, property and affairs are managed by, or are under the direction of our Board of Directors, pursuant to Indiana's Business Corporation Law and our bylaws. Members of the Board are kept informed of our business and of business and industry developments through discussions with the Chief Executive Officer and other officers, by reviewing materials provided to them by management or otherwise obtained, and through participation in meetings of the Board and its committees.

During 2002, our Board of Directors consisted of 12 persons. Under our bylaws, however, our Board of Directors may amend the bylaws to prescribe a greater or lesser number of directors, and the Board has amended the bylaws to provide that, for 2003, the Board will consist of eleven directors. At the Annual Meeting, therefore, eleven directors will be elected, and each newly

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

elected director will serve for a one-year term until the 2004 Annual Meeting of stockholders.

The Board has adopted a set of Corporate Governance Policies that address the make-up and function of the Board and the various committees of the Board. You can find a copy of these Corporate Governance Policies on our company website, at www.steeldynamics.com, under "Investor Information--Corporate Governance" or by writing to Steel Dynamics, Inc., Attention: "Investor Relations," 6714 Pointe Inverness Way, Suite 200, Fort Wayne, Indiana 46804 and requesting a copy. We will keep these policies and our governance practices current, as may be required by the Sarbanes-Oxley Act of 2002 and any rule changes prescribed by the SEC and by Nasdaq.

COMMITTEES AND MEETINGS OF THE BOARD OF DIRECTORS. During 2002, the Board of Directors had three committees: an Audit Committee, a Compensation Committee and a Nominating Committee. For 2003, the Board of Directors also has three ongoing committees, the Audit Committee, the Compensation Committee and a reconstituted Corporate Governance and Nominating Committee. Our Audit Committee consists of four persons and our Compensation Committee and Corporate Governance and Nominating Committee each consist of three persons.

Each of our Board committees has adopted a charter that governs its authority, responsibilities and operation. We have reviewed internally and with the Board the provisions of the Sarbanes-Oxley Act of 2002, the rules and proposed rules of the SEC, and the proposed Nasdaq listing standards regarding corporate governance policies and processes. In anticipation of these various rule changes, and in addition to the adoption of our Corporate Governance Policies, we amended our Audit Committee Charter and adopted our Compensation Committee Charter and our Corporate Governance and Nominating Committee Charter to voluntarily implement certain of these new and proposed rules and standards. We will further amend our policies, standards and charters, if and to the extent necessary, once final rules have been adopted. The Audit Committee's Charter, revised March 18, 2003, is attached to this Proxy Statement as Exhibit A. The charters of the Compensation Committee and of the Corporate Governance and Nominating Committee may be found on our company website, at www.steeldynamics.com under "Investor Information--Corporate Governance" or by writing to Steel Dynamics, Inc., Attention: "Investor Relations," 6714 Pointe Inverness Way, Suite 200, Fort Wayne, Indiana 46804 and requesting copies.

Each of our three committee charters also require that each member of each committee meet: (1) all applicable criteria defining "independence" that may be prescribed from time to time by SEC, Nasdaq and tax rules, listing standards and regulations, (2) the definition of a "non-employee director" within the meaning of Rule 16b-3 promulgated by the SEC under the Securities Exchange Act of 1934, and (3) the definition of an "outside director" within the meaning of Section 162(m)(4)(C) of the Internal Revenue Code.

The members of each committee, and the chair of each committee, are appointed annually by the Board.

The Board of Directors held 12 regularly scheduled and special meetings during 2002, and all directors attended at least 75% of the meetings of the Board of Directors and of the various committees on which they served during 2002.

THE AUDIT COMMITTEE. The Audit Committee met six times during 2002.

The Audit Committee is responsible for the oversight and monitoring of the quality and integrity of our financial statements, our compliance with applicable legal and regulatory requirements, the

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

qualification and independence of our independent auditors, and of the performance both of our independent auditors and the development of our internal audit function. In addition, the Audit Committee is directly responsible for the appointment, compensation, retention and oversight of the independent auditor, as well as for the establishment of procedures for the receipt, retention and treatment of complaints, if any, regarding accounting, internal accounting controls or auditing matters.

The current members of the Audit Committee are Joseph D. Ruffolo, Paul B. Edgerley, Dr. Jurgen Kolb and James E. Kelley. Messrs. Ruffolo and Edgerley serve as Co-Chairs of the Audit Committee. In addition, our Board has determined that all members of our Audit Committee, by virtue of their extensive careers, experience and training in business and finance, meet the criteria of an "audit committee financial expert," established by the SEC pursuant to the Sarbanes-Oxley Act of 2002.

THE COMPENSATION COMMITTEE. The Compensation Committee met two times during 2002, and all members attended each of the meetings. The current members of the Compensation Committee are Richard J. Freeland, Joseph R. Ruffolo and James E. Kelley.

The Compensation Committee reviews, makes recommendations to the Board of Directors concerning salaries, incentive and other compensation paid to executive officers and to certain senior financial officers, as well as compensation paid to non-employee directors. The Compensation Committee also reviews and approves all stock option and other equity-based compensation plans and awards and has either been designated to act or is otherwise empowered to act as the administrator or administrative "committee" under each of our stock option and other performance-based compensation plans.

THE CORPORATE GOVERNANCE AND NOMINATING COMMITTEE. The current members of the Corporate Governance and Nominating Committee are Dr. Jurgen Kolb, Richard J. Freeland and Naoki Hidaka.

COMPENSATION COMMITTEE AND BOARD INTERLOCKS AND INSIDER PARTICIPATION. Effective in 2003, all of the current members of the three person Compensation Committee meet all applicable "independence" requirements established by the Sarbanes-Oxley Act of 2002 and as set forth in the proposed Nasdaq Listing Standards. During 2002, however, Daniel M. Rifkin, who is the President and Chief Operating Officer of OmniSource Corporation, the supplier of most of the steel scrap we use in the production of new steel, was a member and chair of the previous four person Compensation Committee, and John C. Bates, who is the President and Chief Executive Officer of Heidtman Steel Products, Inc., our largest steel customer, was also a member of that committee. During prior years, however, including 2002, the full Board of Directors considered and approved all compensation matters, and during 2002, the entire Board as well as all six of the independent directors, unanimously approved all 2002 compensation decisions.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE. Section 16(a) of the Securities Exchange Act of 1934 requires our directors and executive officers to file with the SEC initial reports of beneficial ownership of our common stock and other equity securities, as well as reports of changes in beneficial ownership. SEC regulations also require us to identify in this proxy statement any person subject to this requirement who failed to file any such report on a timely basis. These individuals are required to provide us with a copy of their required Section 16(a) reports as and when they are filed. Based on our records and other information, we believe that all Securities and Exchange Commission filing requirements applicable to our directors and executive officers with respect to 2002 were met.

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

STOCKHOLDER PROPOSALS FOR 2004. Any stockholder satisfying the requirements of the Securities and Exchange Commission's Rule 14a-8 and wishing to submit a proposal to be included in the Proxy Statement for the 2004 Annual Meeting of stockholders must submit the proposal in writing to our Corporate Secretary, at 6714 Pointe Inverness Way, Suite 200, Fort Wayne, Indiana 46804, on or before November 30, 2003.

In addition, under our bylaws, any stockholder who has not submitted a timely proposal for inclusion in next year's proxy statement but still wishes to make a proposal at next year's annual meeting must deliver written notice to our Corporate Secretary no later than 60 days nor more than 90 days prior to the first anniversary of the record date for this year's annual meeting. Therefore, for our 2004 Annual Meeting, if such a proposal is not delivered prior to January 25, 2004, it may not be presented at the meeting at all. If a proposal is made after December 26, 2003 and prior to January 25, 2004, we will retain the discretion to vote proxies we receive with respect to any such proposals, so long as we include in our next year's proxy statement advice on the nature of any such proposal and how we intend to

5

exercise our voting discretion, and so long as the proponent does not provide us with a written statement within the time frame determined under Securities and Exchange Commission Rule 14a-4(c)(1) that the proponent intends to deliver his own proxy statement and form of proxy with respect to that proposal. You may obtain a copy of the full text of the bylaw provision by writing to our Investor Relations Department at 6714 Pointe Inverness Way, Suite 200, Fort Wayne, Indiana 46804.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

Our stockholders will elect 11 directors at the 2003 Annual Meeting. The individuals listed below have been recommended for nomination by the Corporate Governance and Nominating Committee and have been nominated by the Board of Directors. Each director, if elected, will serve until our 2004 Annual Meeting of Stockholders, until a qualified successor director has been elected, or until he resigns or is removed by the Board.

We will vote your shares as you specify on the enclosed proxy card, or by telephone or internet. If you do not specify how you want your shares voted, we will vote them FOR the election of all of the nominees listed below. If unforeseen circumstances (such as death or disability) make it necessary for us to substitute another person for any of the nominees, we will vote your shares FOR that other person. We do not anticipate that any nominee will be unable to serve. Following the meeting, the Board of Directors may, however, increase the size of the Board and fill any resulting vacancy or vacancies until the 2004 Annual Meeting of stockholders.

If you wish your shares voted for some but not all of the nominees, or if you wish to withhold your vote from some but not all of the nominees, you may so indicate on the proxy card or by telephone or the internet when you vote your proxy.

2 The dollar amounts in these columns are the result of calculations at the 5% and 10% appreciation rates prescribed by the Securities and Exchange Commission, and, therefore, are not intended to forecast potential future appreciation, if any, in the price of our common stock. Potential realizable value assumes that the common stock appreciates at the rate shown (compounded annually) from the grant date until the option expiration date. No gain to the optionees is possible without an increase in the price of our common stock over the exercise price of each option.

DIRECTOR COMPENSATION. Our Non-Employee Directors receive attendance fees of \$3,000 per Board meeting and \$1,500 per committee meeting. They are also reimbursed for expenses incurred in attending meetings. During 2002, average director fees for the year were approximately \$31,300 per director. In addition, each Non-Employee Director participates in our stockholder approved Non-Employee Director Stock Option Plan, under which each such director on May 21 and

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

November 21 of each year (each such date defined as a "Grant Date") is automatically granted a nonstatutory stock option, exercisable within five years from the date of grant, to purchase shares of our common stock equal to the number of whole shares, rounded up or down, calculated by dividing a grant value, currently set at \$15,000, by the fair market value of our common stock on each such Grant Date.

The purchase price of stock covered by an option granted pursuant to the Director Plan is 100% of the fair market value of such shares on the day the option is granted. Options are not exercisable until they become vested, and full vesting in an optionee will occur six months after each Grant Date. If an optionee ceases to be a director, for whatever reason, no further grants of options are to be made to that optionee. If an optionee ceases to be a director for any reason other than death, any portion of an option that is then vested but has not been exercised may be exercised at any time prior to its scheduled expiration date.

The Director Plan is administered by the Compensation Committee, with power and authority to construe provisions of the Director Plan, to determine all questions thereunder, to accelerate the vesting or exercise of an option, and to adopt and amend such rules and regulations as it may deem desirable. The Director Plan is intended to comply in all respects with the provisions of Rule 16b-3 under the Securities Exchange Act of 1934 and Section 162 (m) (4) (C) of the Internal Revenue Code.

EMPLOYMENT AGREEMENTS. We have employment agreements with Keith E. Busse, our Chief Executive Officer, Mark D. Millett, Vice President and General Manager of our Flat Roll Division, Richard P. Teets, Jr., Vice President and General Manager of our Structural and Rail Division, and Tracy L. Shellabarger, Vice President of Finance and Chief Financial Officer. Each of these employment agreements has an "evergreen" feature, consisting of an initial two year term that is automatically extended annually for an additional year unless, no less than 90 days prior to year-end, either party gives written notice to the other of an intention not to renew.

12

If, without cause, any of these officers' employment is either terminated within the two year term or is not extended for the contemplated additional rolling one year period, that officer is entitled to receive a lump sum severance payment, in lieu of any and all claims under the remaining term of his employment agreement, in cash, equal to two years of his then existing Base Salary, together with a pro rata annual bonus payment under our Amended and Restated Officer and Manager Cash and Stock Bonus Plan, when calculated, to the date of termination or non-extension (for that year). If the termination or non-extension is for cause, then such officer would not be entitled to receive any severance or bonus payment. If the officer voluntarily terminates his employment, he would not be entitled to any severance payment but would be entitled to receive a pro rata annual bonus payment to the date of termination or non-extension. If employment is terminated due to disability or death, we will continue paying that officer or his estate, as the case may be, the prescribed Base Salary during the remainder of the two year term, except that in the case of disability such payments will be reduced to the extent of any benefits paid by workers' compensation or under any state disability benefit program or under any other disability policy maintained by us.

Under their employment agreements, each of these officers is paid a Base Salary, which is reflected in the "Salary" column in the Summary Compensation Table in this proxy statement, in addition to which each such officer has been entitled, through 2002, to participate in our Amended and

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

Restated Officer and Manager Cash and Stock Bonus Plan, our Amended and Restated 1996 Incentive Stock Option Plan, our Profit Sharing Plan and our Retirement Savings Plan. If stockholders approve Proposal No. 3, our new 2003 Executive Incentive Compensation Plan will supersede and replace the Amended and Restated Officer and Manager Cash and Stock Bonus Plan, and each of these officers will be entitled to participate in the new plan in lieu of the former plan.

All Named Executive Officers receive major medical and long-term disability benefits. Messrs. Busse, Millett, Teets and Shellabarger receive term life insurance equal to twice their Base Salaries and Mr. Nolan receives term life insurance equal to his Base Salary.

PROPOSAL NO. 2 RATIFICATION OF THE APPOINTMENT OF INDEPENDENT AUDITORS

In accordance with the provisions of the Sarbanes-Oxley Act of 2002, the Audit Committee has appointed Ernst & Young LLP as our independent auditors to conduct our annual audit for the year 2003, and, although not legally required but in accordance with established policy, we are submitting this appointment to stockholders for ratification. In the event the appointment is not ratified by a majority of votes cast, in person or by proxy, we anticipate that no change in auditors would be made for the current year because of the difficulty and expense of making any change so long after the beginning of the current year. However, any such vote would be considered in connection with the auditors' appointment for 2004.

Ernst & Young LLP conducted our annual audit for 2002, and we believe that representatives of Ernst & Young LLP will be present at the meeting, will make themselves available at the meeting to respond to appropriate questions from stockholders, and, if the representatives desire, will have an opportunity to make a statement.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR THE APPROVAL OF THE APPOINTMENT OF ERNST & YOUNG LLP AS INDEPENDENT AUDITORS FOR 2003.

AUDIT AND NON-AUDIT FEES. The following table presents fees for professional audit services rendered by Ernst & Young LLP for the audit of our annual financial statements for the years ended December 31, 2002 and December 31, 2001, as well as fees billed for other services rendered by Ernst & Young LLP during those periods.

with the SEC. Audit-related fees principally include accounting consultations and audits of benefit plans.

There were no other services performed during 2002 and 2001.

POLICY ON AUDIT COMMITTEE PRE-APPROVAL OF AUDIT AND PERMISSIBLE NON-AUDIT SERVICES OF INDEPENDENT AUDITOR. Consistent with SEC policies regarding auditor independence, effective May 6, 2003, the Audit Committee must pre-approve all audit and permissible non-audit services provided by our independent auditors. On March 18, 2003, our Audit Committee adopted the Steel Dynamics, Inc. Audit and Non-Audit Services Pre-Approval Policy, which covers all services to be performed by our independent auditors. The policy contemplates a general pre-approval for all audit, audit-related, tax and all other services that are permissible, with a general pre-approval period of twelve months from the date of each pre-approval. Any other proposed services that are to be performed by our independent auditors, not covered by or exceeding the pre-approved levels or amounts, must be specifically approved in advance.

Prior to engagement, the Audit Committee will pre-approve the following categories of services. These fees are budgeted, and the Audit Committee requires the independent auditors and management to report actual fees versus the budget periodically throughout the year, by category of service.

1. AUDIT services include the annual financial statement audit (including required quarterly reviews), subsidiary audits, and other work required to be performed by the independent auditors to be able to form an opinion on our Consolidated Financial Statements. Such work includes, but is not limited to, comfort letters, statutory audits or financial audits for subsidiaries or affiliates, and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.
2. AUDIT-RELATED services are for services that are reasonably related to the performance of the audit or review of our financial statements or that are traditionally performed by the independent auditor. Such services typically include but are not limited to financial audits of employee benefit plans, due diligence services pertaining to potential business acquisitions or dispositions, accounting consultations related to accounting, financial reporting or disclosure matters not classified as "audit services," and assistance with understanding and implementing new accounting and financial reporting guidance.
3. TAX services include all services performed by the independent auditors' tax personnel, except those services specifically related to the financial statements, and includes fees in the area of tax compliance, tax planning and tax advice.
4. ALL OTHER FEES are those associated with services that the Audit Committee believes are routine and recurring services which would not impair the independence of the auditor and are consistent with SEC rules on auditor independence.

Applicable SEC rules and the Audit Committee's pre-approval policy permits the delegation of pre-approval authority for services not covered by the Audit Committee's general pre-approval to either of the Co-Chairs of the Audit Committee.

PROPOSAL NO. 3

APPROVAL OF 2003 EXECUTIVE INCENTIVE COMPENSATION PLAN

BACKGROUND OF NEED FOR A NEW PLAN. Our Board of Directors has approved the Steel Dynamics, Inc. 2003 Executive Incentive Compensation Plan (the "New Plan"), which is designed to replace our Amended and Restated (1996) Officer and Manager Cash and Stock Bonus Plan (the "Old Plan"). Both the Old Plan and the New Plan are performance-based, predicated on defined profitability criteria.

14

Our Old Plan, which was originally adopted in 1996 and was amended and restated in 2000, on both occasions with stockholder approval, covered both executive officers and non-executive managerial employees and was based upon the concept of a single consolidated bonus pool, funded by a defined contribution (originally 5% in 1996, later amended to 6% and then 8%) based on "Adjusted Pre-Tax Net Income" in excess of 10% of "Stockholders Equity." There was a stated maximum allowable bonus, expressed as a multiple of "base salary" (between one and two times base salary in cash and between 50% and 100% of base salary in restricted stock, depending on the person's job function and responsibility). A total of 450,000 shares of our common stock were originally authorized for issuance as stock bonus awards under the Old Plan. Of that number, only 224,835 shares were issued, in the aggregate, of which 95,902 shares have not yet fully vested, for all years through 2002. Participants under the Old Plan included not only the Company's five "Named Executive Officers," but also certain other executive officers and various corporate level and operating managers.

The Old Plan has worked well, and the basis of the performance measure, specifically Adjusted Pre-Tax Net Income, has appropriately resulted in incentive compensation awards that have been objectively determinable and that have, historically, borne a direct relationship with the Company's operating results. Thus, for example, while the five highest paid executive officers received aggregate cash bonus awards of \$2.6 million and stock bonus awards of \$1.3 million as a result of 2002's record earnings, the same five individuals received no cash or stock bonuses for 2001 and aggregate cash bonus awards of \$2.4 million and stock bonus awards of \$643,000 for 2000.

However, whereas from 1996 through 2001, the Company consisted primarily of a single revenue-producing operating unit, the Butler, Indiana Flat Rolled mini-mill, Steel Dynamics now consists of the Butler facility, the Columbia City, Indiana Structural and Rail mini-mill, the Pittsboro, Indiana Bar Products facility, and the New Millennium Building Systems operations, all of which are expected to become contributors to future Adjusted Pre-Tax Net Income. Therefore, in keeping with the Company's emphasis on performance-based incentive compensation, the Compensation Committee and the Board determined that it is now appropriate to better differentiate the bases upon which future incentive compensation should be predicated, distinguishing between (a) employees exercising executive authority and those persons executing primarily managerial authority (and who the Company believes should now be disengaged from the Old Plan and compensated, instead, at the non-executive operating level, where management is better able to assess and properly recognize their contribution), (b) executive employees, whose principal responsibilities are corporate and company-wide and executive employees whose responsibilities are split between those at the corporate level and those primarily at the divisional or operating unit level, and (c) employees whose principal responsibilities are mostly divisional.

Accordingly, the Compensation Committee and the Board concluded that the Old Plan should be replaced by the 2003 Executive Incentive Compensation

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

Plan (the "New Plan"), which the Board approved on February 13, 2003, under which the incentive compensation measures, while continuing to be performance-based and objective as before, are broader and more keenly link a participant's bonus with the nature of that participant's activities that help produce the profits upon which the bonuses are based.

WHY STOCKHOLDER APPROVAL IS BEING REQUESTED. Under Section 162(m) of the Internal Revenue Code, a company may not deduct for tax purposes compensation over \$1,000,000 paid to its chief executive officer and its four other most highly compensated executive officers, unless the compensation is "performance-based." Compensation is considered "performance-based" if it will be paid only if the executive officer meets one or more objective performance goals, which may be goals articulated for the company as a whole or for a particular business unit. The performance goals must also be in writing and be set by a compensation committee consisting of two or more members, all of whom must be outside directors as defined by the Code. The performance goals must be set before it can be known whether or not the executive officer will meet the goals. The material terms of the performance goals must also be disclosed to and approved by stockholders before the compensation is paid.

The Company believes that the criteria described in the New Plan as the basis for awarding incentive compensation meet all of the foregoing requirements and, if approved by stockholders, will render compensation paid under the New Plan fully deductible. In the event that stockholders do not approve, compensation paid to the named executive officers in excess of \$1,000,000 each may not be deductible under Section 162(m) of the Code.

15

SUMMARY OF HOW THE NEW PLAN WORKS.

The following summary description of the Steel Dynamics, Inc. 2003 Executive Incentive Compensation Plan is qualified in its entirety by reference to the full text of the New Plan, which is attached to this Proxy Statement as Exhibit B.

EFFECTIVE DATE AND TERM OF THE NEW PLAN.

The New Plan is effective January 1, 2003 and will terminate, unless extended or earlier terminated by the Board, on February 28, 2008.

If the New Plan is approved by stockholders, the Old Plan will terminate, subject only to the remaining rights of holders of shares of Company common stock issued under the Old Plan that have not yet vested.

WHO IS COVERED UNDER THE NEW PLAN?

The New Plan identifies two broad categories of covered executive employees eligible for incentive compensation under the New Plan: corporate level executive employees and operating level or divisional executive employees. Each of these categories in turn consists of two groups, for Plan purposes, according to a participant's level of responsibility.

The two groups of corporate level executive employees are "Corporate Executive Officers," initially consisting of the Company's President and Chief Executive Officer and the Company's Chief Financial Officer, and "Corporate Officers," initially consisting of the Company's Vice President of Sales and Marketing. The two groups of operating level or divisional categories of covered executive employees are "Divisional Executive Officers," including the Vice President and General Manager of the Company's Flat Roll Division and the

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

Company's Vice President and General Manager of the Structural and Rail Division, and "Divisional Officers," initially including the general manager of the Company's Bar Products Division and the President of the Company's New Millennium Building Systems Division. In addition, the Compensation Committee may make changes, within prescribed time limits, to any of the foregoing categories of covered executive employees, including the addition of executive employees, moving employees into other categories, or changing the categories themselves.

HOW IS INCENTIVE COMPENSATION DETERMINED UNDER THE NEW PLAN?

There are two measures of incentive compensation under the New Plan, and they are applicable to either one or both of the two categories of covered executive employees. Both are performance-based.

The first measure is calculated at the corporate level and is based upon company-wide "Adjusted Pre-Tax Net Income," defined as consolidated net income, before taxes, extraordinary items and bonuses payable to participants under the New Plan, with adjustments for certain start-up expenses associated with significant capital expenditures. For any year under the New Plan, a "Bonus Pool" is identified, if any, by multiplying consolidated Adjusted Pre-Tax Net Income, minus an amount equal to 10% of "Average Stockholders Equity," by a percentage amount determined annually by the Compensation Committee. That amount is currently set at 5 1/2%, but the Committee may vary that range between a low of 5% and a maximum of 6 1/2%. The resulting Bonus Pool is then allocated among the eligible executive employees in accordance with each "Participant's Bonus Pool Percentage," derived for any participant by a fraction, the numerator of which is equal to the "Participant's Adjusted Base Salary," as defined in the New Plan, and the denominator of which is equal to the sum of all of the Participants' Adjusted Base Salaries.

Corporate Executive Officers and certain other Corporate Officers, as identified in the New Plan, participate solely in this Bonus Pool, with 100% of their incentive compensation derived, if at all, through their participation in this company-wide Bonus Pool. On the other hand, Divisional Executive Officers and certain other Divisional Officers identified in the New Plan, derive only part of their incentive compensation through this company-wide Bonus Pool and also derive part of their incentive compensation based upon operating level or divisional performance. Currently, Divisional Executive Officers will derive half of their incentive compensation through participation in the company-wide Bonus Pool and half of their incentive compensation through a bonus formula based upon their divisional performance. The other Divisional Officers currently will derive 25% of their incentive compensation through participation in the company-wide Bonus Pool and 75% of their incentive compensation through their divisional bonus formula.

16

The Compensation Committee has the authority to vary these allocation percentages, both with respect to Divisional Executive Officers and Divisional Officers, within a range of not less than 40% nor more than 60%, in the case of Divisional Executive Officers, and within a range of not less than 65% nor more than 85% in the case of other Divisional Officers.

The second broad category of incentive compensation is predicated on divisional performance and is based upon a return on assets analysis. Unlike Corporate Executive Officers and other Corporate Officers, who participate only in the company-wide Bonus Pool, Divisional Executive Officers and other Divisional Officers participate partly in the Bonus Pool and partly in a divisional performance bonus outside of the Bonus Pool.

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

Each year, the Compensation Committee will set a minimum return on assets target percentage, by division (the "Minimum ROA Target"), currently set at 5% and able to be varied by the Committee between a minimum of 4% and a maximum of 6%, below which no divisional cash or stock bonus may be paid. The Committee will also set a maximum return on assets target (the "Maximum ROA Target"), currently set at 30% and which the Committee may vary between a minimum of 25% and a maximum of 35%, at which level a Divisional Executive Officer or Divisional Officer will be entitled to receive his "Maximum Divisional Cash Bonus" or "Maximum Divisional Stock Bonus," as defined under the New Plan. Once these preliminary calculations have been made, the division's performance is measured by calculating that division's "Divisional Return on Assets," using a percentage derived by dividing the sum of (a) the division's net income for the year, (b) the amount of certain corporate expenses allocated to that division, and (c) the amount of incentive bonus compensation expenses associated with the New Plan, by the division's "Average Divisional ROA Assets" (further defined as the sum of the total divisional assets employed by that division at the end of each month during the year and during the last month of the prior year, with certain adjustments, and dividing the resulting amount by the number of months of the year, plus one.

The calculation of a divisional participant's entitlement to any incentive compensation based on divisional performance may be illustrated by using an example of a Divisional Executive Officer whose current incentive compensation is based 50% on the company-wide Bonus Pool and 50% on divisional performance, as follows: he would receive a divisional bonus, if any, in an amount equal to that percentage of his Maximum 50% Divisional Cash Bonus for the year, derived by (a) dividing the number of whole number increments between the applicable Minimum ROA Target for the year and the applicable Maximum ROA Target for that year into one hundred (100), and (b) multiplying the result by the number of whole number increments, expressed as a percentage, between the applicable Minimum ROA Target and the actual Divisional Return on Assets for that year. In this example, if the Divisional Executive Officer's Maximum Divisional Cash Bonus for the year were assumed to be \$400,000 and the actual Divisional Return on Assets for the year were assumed to be 22%, the Divisional Executive Officer would be entitled to receive 68% of his Maximum Divisional Cash Bonus of \$400,000 for the year (the 22% Divisional Return on Assets being 17 increments above the Minimum ROA Target of 5%, divided by the 25 whole number increments between the Minimum ROA Target and the Maximum ROA Target).

WHAT IS THE MAXIMUM THAT AN EXECUTIVE CAN EARN IN INCENTIVE COMPENSATION UNDER THE NEW PLAN?

Corporate Executive Officers. A Corporate Executive Officer, such as the Company's President and Chief Executive Officer or Chief Financial Officer, may earn a cash bonus in an amount equal to the product of (a) his Bonus Pool Percentage and (b) the applicable Bonus Pool for the year, but not in excess of two and one-half (2 1/2) times his Base Salary (which is established annually by the Compensation Committee at the beginning of the year and approved by the Board).

The Corporate Executive Officer may also be entitled to receive a stock bonus, if there are unallocated amounts still remaining in the Bonus Pool after payment of all applicable cash bonuses. Any such stock bonus would be distributed in the form of restricted stock, which fully vests over a two-year period, having, at the time of issuance, a fair market value equal to the product of (a) the Corporate Executive Officer's Bonus Pool Percentage and (b) the Bonus Pool (after payment of the cash bonuses). The amount of the stock bonus, if any, however, may not exceed the Corporate Executive Officer's Base Salary.

Corporate Officers. A Corporate Officer's cash and stock bonus is

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

calculated in the same manner as that of the Corporate Executive Officers, except that the maximum cash bonus for a Corporate Officer may not exceed one and one-half (1 1/2) times the Corporate Officer's Base Salary, and the maximum

17

stock bonus for the Corporate Officer may not exceed 75% of the Corporate Officer's Base Salary.

Divisional Executive Officers. As currently constituted, a Divisional Executive Officer can derive half of his cash and stock bonus from the company-wide Bonus Pool, in the manner previously described. These amounts are calculated in the same manner as those of Corporate Executive Officers, except that the Divisional Executive Officer's maximum cash bonus may not exceed an amount equal to half of his Base Salary multiplied by two and one-half (2 1/2). Similarly, his stock bonus based on the company-wide Bonus Pool is also limited to a maximum of 50% of his Base Salary.

The remaining half of a Divisional Executive Officer's maximum incentive compensation is based on divisional performance but may not exceed half of his Base Salary multiplied by two and one-half (2 1/2), in cash, and half of his Base Salary in shares of the Company's restricted stock.

Divisional Officers. Divisional Officer's incentive compensation is calculated in the same manner and is subject to the same limitations as the maximum incentive compensation payable to Divisional Executive Officers, except that the portion of his incentive compensation that is based on the Bonus Pool is only 25%, not 50%. The maximum incentive compensation from both sources, however, may not exceed one and one-half (1 1/2) times his Base Salary, in cash, and 75% of his Base Salary, in the Company's restricted stock.

The following table illustrates the minimum and maximum amounts that are payable to Corporate Executive Officers, Corporate Officers, Divisional Executive Officers and Divisional Officers, in both cash and in shares of Company restricted stock, under the New Plan.

- (2) Divisional Executive Officers' bonus compensation is 50% based on consolidated financial results and 50% based on divisional financial results.
- (3) Corporate Officers' bonus compensation is 100% based on consolidated financial results.
- (4) Divisional Officers' bonus compensation is 25% based on consolidated financial results and 75% based on divisional financial results.

HOW MANY SHARES OF COMPANY STOCK MAY BE ISSUED UNDER THE NEW PLAN?

A maximum of 750,000 shares has been allocated for issuance over the next five years as stock bonuses, if earned, to covered executives. However, approximately 225,165 shares previously authorized (of the original 450,000 shares) under the Old Plan remain unissued. Therefore, the net additional increase in shares authorized for issuance under the New Plan amounts to only 524,835 additional shares over the following five years. A participant under the New Plan may not elect to take Company shares in lieu of a cash bonus and may only receive shares if the aggregate bonus payments earned for a particular year exceed the maximum allowable cash bonus.

Upon termination of a participant's employment for any reason other than retirement, all shares of restricted stock of that participant which were not vested at the time of termination are required to be forfeited and returned to the Company, although the Committee may exercise its discretion and waive the forfeiture. Stock that is restricted and forfeitable under the New Plan, because it has not yet vested, is not permitted to be transferred, assigned, sold, pledged or otherwise disposed of in any manner, nor subject to levy, attachment or other legal process. Subject to these limitations, however, and as long as

18

forfeiture has not occurred, a participant is treated as the owner of restricted stock, with full dividend and voting rights.

The total number of shares authorized for issuance under the New Plan is also subject to adjustment in the event of any stock dividends, stock splits, combinations or exchanges of shares, recapitalizations or other changes in our capital structure, as well as any other corporate transactions or events having an effect similar to any of the foregoing. If any such event were to occur, the aggregate number of shares reserved for issuance under the New Plan would be automatically adjusted to equitably reflect the effect of such changes.

WHAT ARE THE FEDERAL INCOME TAX CONSEQUENCES UNDER THE NEW PLAN?

Under present federal income tax laws, participants will realize ordinary income equal to the amount received in the year of receipt. If the award is paid as a cash payment, the Company will receive a deduction for the amount constituting ordinary income to the participant, providing that the New Plan meets the performance-based compensation standards of Code Section 162(m) and provided that stockholders have approved the New Plan. If the value of the award is delivered in shares of the Company's restricted stock, participants will realize ordinary income related to the restricted stock at the time that the restrictions lapse and the shares become nonforfeitable. The Company will at such time receive a corresponding tax deduction.

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

Our executive compensation philosophy is based upon the following principles:

- Base salaries should be competitive with the level of salaries paid to officers in comparable companies with comparable responsibilities.
- Variable compensation, both in the form of cash and stock bonus awards, should be directly related to the financial results produced during the year.
- Long-term compensation, in the form of stock options, directly links officers' rewards to stock price appreciation.

The Compensation Committee establishes the salaries and other compensation of the Company's executive officers, including its President and Chief Executive Officer and the other executive officers named in the Summary Compensation Table. The current members of the Compensation Committee, for 2003 consist of three members of the Board of Directors, all of whom meet (a) all criteria for "independence" prescribed by SEC, Nasdaq and tax rules, listing standards and regulations applicable to the Compensation Committee (b) the definition of a "non-employee director" within the meaning of Rule 16b-3 promulgated by the SEC under the Exchange Act, and (c) the definition of an "outside director" within the meaning of Section 162(m)(4)(C) of the Internal Revenue Code. During 2002, however, the Compensation Committee consisted of four non-employee directors, two of whom did not meet all of the foregoing standards. All recommendations by the Compensation Committee during 2002, were considered by the full Board of Directors and were approved not only by the full Board of Directors but by all six members of the Board of Directors who met the foregoing three criteria. Our executive compensation programs consist of three principal elements: base salary, a cash and stock bonus incentive compensation component, and stock options.

BASE SALARY. The Compensation Committee recommends a base salary for executive officers, including the president and chief executive officer, based upon a comparative review of companies within the steel manufacturing peer group, both mini-mills and integrated mills, as well as a review of other companies believed to be representative and comparable in terms of size and the

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

nature of its operations. The Compensation Committee has traditionally established base salary at somewhat under the level of the prevailing base salaries of the peer group and comparable other company executives, primarily because of the Company's philosophy to align total executive officer pay with the financial results of the Company's operations. This is consistent with the Company's philosophy and culture that guides its compensation for all of its employees, which emphasizes a strong element of incentive compensation based on operating results. During 2002 and in prior years, the Company's base salary level for its executive officers was significantly below the median for its peer and comparable groups.

INCENTIVE BONUS. The Compensation Committee believes that incentive compensation should be geared toward rewarding excellent financial performance results, and executive officers ought to be rewarded for producing Company profits. Accordingly, since 1996, the Company has provided this incentive compensation to its executives through a performance-based bonus formula that pays bonuses, in cash and in stock, based upon profits over and above a stated threshold amount.

The annual incentive bonus is determined under our Amended and Restated Officer and Manager Cash and Stock Bonus Plan, originally adopted in 1996 and amended, restated and approved by stockholders in 2000. This Plan creates a bonus pool based on various levels of adjusted pre-tax net income, less an amount equal to 10% of average stockholders equity, as defined, and then allocates that bonus pool among the participants in accordance with their respective base salaries. Under the existing Plan, certain executives can earn up to twice their respective base salaries in cash bonus payments and up to the amount of their base salaries in shares of stock issued at fair market value on the date of the award.

STOCK OPTION PLAN. The Compensation Committee believes that the long-term incentive benefits of stock ownership, through the acquisition of stock options and through stock bonus awards, if applicable, aligns management's long-term interests with those of stockholders in general. The Company also evidences that philosophy by including the named executive officers in the same incentive stock option plan that is applicable to all Company employees.

20

In October 1996, and as amended pursuant to stockholder approval at our 2001 Annual Meeting, our Board of Directors adopted and the stockholders approved the 1996 Incentive Stock Option Plan, which covers all of our full-time employees (approximately 676 employees at December 31, 2002), including officers, managers, supervisors, professional staff, and hourly employees.

Under the 1996 Plan, we award automatic semi-annual stock options to all such employees, in different dollar equivalent amounts, by position category, based upon the fair market value of our common stock on each semi-annual grant date, with an exercise price equal to the same fair market value on the grant date. Options issued under the Plan become exercisable six months after the date of grant and must be exercised no later than five years thereafter.

OTHER COMPENSATION.

PROFIT SHARING PLAN. We have established a Profit Sharing Plan for eligible employees, including the named executive officers, which is a "qualified plan" for federal income tax purposes. Under the Profit Sharing Plan, we annually allocate to Profit Sharing Plan participants (the "profit sharing pool") an amount equal to 5% of our pre-tax profits. The profit sharing pool is

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

used to fund the Profit Sharing Plan, as well as a separate cash profit sharing bonus that is paid to employees in March of the following year. The amount allocated to our Chief Executive Officer, for 2002 pursuant to the Profit Sharing Plan was \$26,634.

RETIREMENT SAVINGS PLAN. We have also established a Retirement Savings Plan for eligible employees, which is also a "qualified plan" for federal income tax purposes. Generally, employees may contribute on a pre-tax basis up to 8% of their eligible compensation, and we match employee contributions in an amount based upon our return on assets, with a minimum match of 5% and a maximum match of 50%, subject to certain applicable tax law limitations. The amount we contributed in respect to our Chief Executive Officer, Keith E. Busse, for 2002 pursuant to the Retirement Savings Plan was \$550.

CHIEF EXECUTIVE OFFICER COMPENSATION. The Company compensates its chief executive officer, just like its other executive officers, by a combination of three principal elements: base salary, incentive compensation awarded under its Amended and Restated Officer and Manager Cash and Stock Bonus Plan, and stock option awards granted twice annually in pre-described amounts, pursuant to the Company's Amended and Restated 1996 Incentive Stock Option Plan. During 2002, the Company's chief executive officer, Keith E. Busse was paid a base salary of \$408,000, received a cash bonus of \$816,000 and a stock bonus equal to \$426,388. In addition, Mr. Busse was granted options for 4,510 shares of common stock, at an exercise price of \$17.74, in May 2002 and was granted an option for 6,241 shares of common stock, at an exercise price of \$12.82 in November 2002, all under the 1996 Plan.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the Board of Directors is comprised of four directors, all of whom meet all applicable SEC and Nasdaq standards for "independence." Current members of the Audit Committee are Joseph D. Ruffolo, Paul B. Edgerley, Dr. Jurgen Kolb and James E. Kelley. Messrs. Ruffolo and Edgerley serve as Co-Chairs of the Audit Committee.

The Audit Committee operates under a written charter adopted by the Board of Directors, which was reviewed and revised in March 2003. A copy of the revised Audit Committee Charter is attached as Exhibit A to this proxy statement.

Among its many functions, the Audit Committee reviews the Company's financial reporting process on behalf of the Board of Directors. Management, however, has the primary responsibility for the financial statements and the reporting process, including the Company's system of internal controls.

In this context, the Audit Committee met and held discussions with management and with the independent auditors six times during the year to consider the overall quality of the Company's financial reporting and disclosure controls, the Company's critical accounting policies and the general objectivity, thoroughness and fairness of its financial reporting process, including the Company's system of internal controls. The Audit Committee discussed these matters with the Company's independent auditors and with appropriate Company financial personnel, and also discussed with the

Company's executive management and independent auditors the process used for certifications by the Company's Chief Executive Officer and Chief Financial Officer, as required by the SEC and by the provisions of the Sarbanes-Oxley Act of 2002 for certain of the Company's filings with the SEC. The Audit Committee

Edgar Filing: STEEL DYNAMICS INC - Form DEF 14A

met privately with the independent auditors, who in any event have unrestricted access to the Audit Committee.

The Audit Committee has reviewed and discussed with management and with the independent auditors the audited financial statements. The Audit Committee received from has discussed with Ernst & Young LLP the written disclosure and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), relating to Ernst & Young LLP's independence from the Company. The Audit Committee also discussed with Ernst & Young LLP matters required to be discussed by the Statement on Auditing Standards No. 61 (Communication with Audit Committees) of the Auditing Standards Board of the American Institute of Certified Public Accountants to the extent applicable. The Audit Committee has also considered whether the independent auditors' provision of non-audit services to the Company is compatible with the auditors' independence, and the Audit Committee has concluded that the independent auditors are in fact independent from the Company and its management.

The Audit Committee has discussed significant accounting policies applied by the Company in its financial statements, as well as alternative treatments if applicable. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors.

The independent auditors audited the annual financial statements prepared by management, expressed an opinion as to whether those financial statements fairly present the financial position, results of operations and cash flows of the Company in conformity with generally accepted accounting principles, and discussed with the Audit Committee any issues they felt should be raised with the Audit Committee.

Based on these reviews and discussions, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in Steel Dynamics, Inc.'s Annual Report on Form 10-K for the year ended December 31, 2002.
