REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

PLAN SPONSOR

ROCKLAND TRUST COMPANY, SUCCESSOR TO BENJAMIN FRANKLIN BANK

We have audited the accompanying statements of net assets available for benefits of the Savings Banks Employees Retirement Association 401(k) Plan as adopted by Benjamin Franklin Bank (the Plan), as of December 31, 2008 and 2007, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2008 and assets (acquired and disposed within year) for the year ended December 31, 2008, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SAVINGS BANKS EMPLOYEES RETIREMENT ASSOCIATION 401(k) PLAN
AS ADOPTED BY BENJAMIN FRANKLIN BANK
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2008 AND 2007

A. Description of the Plan:

The following description of the Savings Banks Employees Retirement Association (SBERA) 401(k) Plan as adopted by Benjamin Franklin Bank (the Bank) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan s provisions.

Merger:

Effective April 10, 2009, Benjamin Franklin Bank was acquired by Independent Bank Corp., parent of Rockland Trust Company, successor plan sponsor to the Plan.

General:

The Plan is part of the SBERA Common/Collective Trust (the Trust). Under the trust agreement, the Plan owns a portion of the net assets of the Trust. Within the Trust, each Plan s assets are jointly invested and the return on the assets is allocated to each Plan based on the percentage of ownership each Plan has in the Trust s net assets. Contributions made to and benefits paid from the Trust for the Plan result in increases or decreases in the Plan s ownership percentage in the net assets of the Trust. The Plan is a defined contribution plan covering substantially all employees of the Bank. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

To become eligible for participation, an employee must be at least age 21 and have completed three months of service.

Contributions:

Each year, participants may contribute up to 75% of their eligible compensation, not to exceed certain limits established under the Internal Revenue Code.

The Bank may match a portion of the participant s contributions.

Participant accounts:

Each participant s account is credited with the participant s contribution and an allocation of (a) the Bank s contributions and (b) Plan earnings. Allocations are based on participant s earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant s vested account.

A. Description of the Plan (continued):

Investments:

Participants direct the investment of their contributions and Bank matching contributions into various investment options offered by the Plan. Participants may change their choice of investments or transfer their account balances from one fund to another at any time during the year. The Plan currently offers the following investment options to participants:

Equity Account:

This Account seeks to provide capital appreciation through a professionally managed, diversified portfolio of domestic and international stocks.

Index 500 Account:

This Account attempts to provide investment results that parallel the performance of the Standard & Poor's 500 Composite Stock Price Index.

Small Cap Growth Account:

This Account seeks long-term growth by investing primarily in common stocks of small to medium sized companies that the investment managers believe have a potential for capital appreciation significantly greater than that of the market averages.

International Equity Account:

This Account seeks to provide long-term capital appreciation by investing in foreign equity securities.

Small Cap Value Account:

This Account utilizes a highly disciplined, bottom-up value approach to investing. This process is intended to generate excess returns primarily through stock selection.

A. Description of the Plan (continued):

Investments (continued):

Large Cap Value Account:

This Account's investment philosophy combines detailed fundamental research, bottom-up stock selection and portfolio construction, and disciplined management of portfolio volatility to achieve strong risk-adjusted returns over full market cycles.

Large Cap Growth Account:

This Account uses a highly disciplined, mathematical investment strategy designed to seek long-term returns in excess of the target benchmark, while reducing the risk of significant under performance.

Life Path Accounts:

These Accounts are intended for participants who would rather leave their 401(k) account asset allocation decisions to a professional investment manager. Each Account utilizes a predetermined mix of specific asset classes with frequent re-balancing back to the fund's target allocation.

All Asset Account:

The objective of the All Asset Account is to produce returns which are 5% above the Consumer Price Index (CPI). The strategy is designed as a fund of funds that allocates its assets among a group of PIMCO funds. The All Asset Account rebalances among the funds as real return values shift in the market.

The SBERA Account:

The SBERA Account is designed to provide results that parallel the performance of the SBERA Defined Benefit Plan Assets. Given this objective, the Account is expected to provide investors with long-term growth of capital and income. The SBERA Account provides investors with great diversification and significantly less risk than a more concentrated portfolio.

A. Description of the Plan (continued):

Investments (continued):

Money Market Account:

This Account seeks to provide income consistent with the preservation of principal. This Account invests solely in U.S. Treasury or agency obligations with maturities of six months or less.

Certificate of Deposit:

The Bank makes available a certificate of deposit of the Bank as an investment option for 401(k) participants.

Bond Account:

This Account seeks to provide a real rate of return after inflation with a high degree of stability and low volatility. The Bond Account is invested in U.S. Government and other investment grade fixed income debt.

Bank Shares:

Participants may allocate any portion of their contributions to purchase common shares of Benjamin Franklin Bancorp, Inc., the parent company of Benjamin Franklin Bank. Participants are subject to restrictions on trading during blackout periods and other reporting requirements of the Securities and Exchange Commission. Investments in Benjamin Franklin Bancorp, Inc. common stock amounted to \$2,212,686 and \$1,748,429 at December 31, 2008 and 2007, respectively.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Bank's contribution portion of their accounts plus earnings thereon is also vested immediately.

A. Description of the Plan (continued):

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Hardship withdrawals:

The Plan allows participants to make hardship withdrawals, provided certain conditions are met.

B. Summary of Significant Accounting Policies:

Basis of accounting:

The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note I for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Dividends are recorded on the ex-dividend date. Net investment income (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. **Related Party Transactions:**

Northeast Retirement Services (NRS), a related party through a common Board of Directors, provides consulting, recordkeeping and other services in connection with the administration of the 401(k) plan for the Savings Banks Employees Retirement Association (SBERA). The costs associated with these services are funded by an assessment on each SBERA employer member on a quarterly basis for their proportionate share. In 2008 and 2007 the rate for the 401(k) plan was \$679.50 per employer member per quarter, plus \$21.50 per active participant per quarter, plus an additional 1.25% basis assessment on assets.

E. **Tax Status:**

The Savings Banks Employee Retirement Association (SBERA) 401(k) Plan is a Prototype Plan which was approved by the Internal Revenue Service on February 14, 2002. The Plan has been amended since receiving this determination letter. However, the Plan's administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(continued)

F. **Plan Termination:**

Effective April 10, 2009, the Plan has been frozen and all participants have become 100% vested in their accounts. The Plan assets will be merged into Rockland Trust Company's existing 401k Plan, the Rockland Trust Company Employee Savings, Profit Sharing and Stock Ownership Plan.

G. **Assets Allocated to Former Employees:**

The statements of net assets available for benefits at December 31, 2008 and 2007 includes \$1,484,851 and \$2,481,824, respectively, allocated to participants who were no longer employees of the Bank.

H. **Risks and Uncertainties:**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

I. **Fair Value Measurements:**

FASB Statement No. 157, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Statement No. 157 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

-11-

Table of Contents

SAVINGS BANKS EMPLOYEES RETIREMENT ASSOCIATION 401(k) PLAN
AS ADOPTED BY BENJAMIN FRANKLIN BANK
NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2008 AND 2007

(continued)

I. **Fair Value Measurements** (continued):

Level 2 Inputs to the valuation methodology include: a) quoted prices for similar assets or liabilities in active markets; b) quoted prices for identical or similar assets or liabilities in inactive markets; c) inputs other than quoted prices that are observable for the asset or liability; and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measure at fair value. There have been no changes in the methodologies used at December 31, 2008 and 2007:

Savings Banks Employees Retirements Association Common/Collective Trust: The Plan's interest in the common trust fund (the Savings Banks Employees Retirement Association Common/Collective Trust) is based upon the fair value of the common trust's underlying investments as based on information reported by the investment advisor using the unaudited financial statements of the common trust at year end. The Trust reports bonds and other obligations, short-term investments and equity securities at fair values based on published quotations. Collective funds and hedge funds (Funds) are valued in accordance with valuations provided by such Funds, which generally value marketable securities at the last reported sales price on the valuation date and other investments at fair value, as determined by each Fund's manager. Certificates of deposits are valued at amortized cost, which approximates fair value.

Participant Loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

I. **Fair Value Measurements** (continued):

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2008 and 2007:

	December 31, 2008			Total
	Level 1	Level 2	Level 3	
Investment in Savings Banks Employees Retirement Association Common/Collective Trust	\$	\$	\$ 8,622,157	\$ 8,622,157
Participant Loans	\$	\$	\$ 240,970	\$ 240,970
	\$	\$	\$ 8,863,127	\$ 8,863,127

	December 31, 2007			Total
	Level 1	Level 2	Level 3	
Investment in Savings Banks Employees Retirement Association Common/Collective Trust	\$	\$	\$ 10,646,239	\$ 10,646,239
Participant Loans	\$	\$	\$ 262,781	\$ 262,781
	\$	\$	\$ 10,909,020	\$ 10,909,020

The categorization of the Plan's investment in the Common/Collective Trust as a Level 3 investment does not reflect the fact that many of the underlying investments held by the Common/Collective Trust in which the Plan invests, if owned directly by the Plan, would be classified as Level 1 investments.
